HON. G. A. NANTÉL SERIOUSLY ILL

Ex-Provincial Minister of Public Works Not Expected to Recover.

(Special to Chronicle.)

Montreal, June 2.—Hon. G. A. Nantél, ex-Minister of Public Works, of this province, is lying seriously ill at his residence here and faint hopes are entertained for his recovery. It was stated this evening that his condition was grave, but that he might survive the night. Hon. Mr. Nantél has been in poor health for some time with intestinal troubles, but it is only recently that his condition occasioned alarm. He was born at St. Jerome in 1852 and called to the Bar in 1876. He entered public life in 1889, when he entered the House of Commons, but resigned to make way for Hon. J. A. Chapleau. He then entered the Legislative Assembly, where he sat until 1890, being appointed Minister of Public Works in the Bourqueville government in 1891, holding the same portfolio in the Tailon administration. He was also Minister of Crown Lands in the Flynn government. Last June Mr. Nantél was defeated in Terrebonne by Mr. Jean Prevost.

GERMAN ANARCHISTS

Leipzig, June 2.—The Anarchists of Germany in conference here to-day adopted a motion declaring that membership in any church or religious sect was contrary to the principles of anarchism, and calling on all Anarchists to cease their membership in churches.

WEEKLY FLYING TRIALS

New York, June 2.—At a meeting of the Aeronautic Society of New York, held to-night, plans were perfected for holding weekly flying contests on Saturdays at Morris Park, in Westchester County, north of the city. A competition extending over an entire week may be held in July but arrangements are only tentative. A chief prize of \$2,000 has been offered, however, and all manner of craft may be entered.

POLICE ENQUIRY

New York, June 2.—Sitting as a magistrate in private session, Mayor McClellan will to-morrow morning begin a thorough investigation of charges made by Supreme Court Justice Gaylor against Police Commissioner Bingham of this city. The case of Geo. B. Duffy, a 19-year-old boy, who Justice Gaylor complains was repeatedly arrested on baseless charges, will be first taken up and later testimony in general regarding Commissioner Bingham's conduct in office will be heard. In his letter to the Mayor, which was made public last night, Justice Gaylor in effect asks for Commissioner Bingham's removal.

EASY FOR KETCHELL

Schenectady, N.Y., June 2.—Tony Caponi, of Chicago, was knocked out by Stanley Ketchell with a blow to the jaw in the fourth round of a scheduled 10-round bout, before the American Athletic Club here to-night. Ketchell landed whenever and wherever he wanted to. Caponi was knocked down once in the second and four times in the fourth round, on the last fall taking the count.

NEW FREIGHT SHED.

For a considerable time past, the Quebec Central Railway has been greatly handicapped in this city for lack of room for the storage of its steadily increasing freight. It, therefore, leased from the Harbor Commission a site at the corner of Prince of Wales and St. James street, and has completed the erection of a commodious freight shed of 118 by 40 feet, with a cosy office for the freight checker. The shed is supplied with five large doors, three at one end and two at the other. Inward roads enter the shed at one end, while the outgoing leave it at the other thus avoiding all trouble and confusion. Yesterday, when a Chronicle reporter visited it, the building contained a large quantity of freight, which cars were rapidly taking away. Mr. P. M. Cotter, Quebec agent of the Company, is delighted at being supplied with a much-needed building to better meet the demand of the Quebec patrons of the railway.

OCEAN ARRIVALS.

June 2nd, 1909.
SS. Athini, at New York, from Pier-aeon.
SS. Winifredian, at Boston, from Liverpool.
SS. Haverford, at Liverpool, from Philadelphia.
SS. Formosa, at Glasgow, from New York.
SS. Siberian, at Glasgow, from New York.
SS. Montfort, at London, from Montreal.
SS. Kaiser Wilhelm der Grosse, at Bremen, from New York.
SS. Madonna, at Marseilles, from New York.

A MEETING OF CZAR AND KAISER

Arranged to Take Place in the Gulf of Finland About the Middle of This Month.

St. Petersburg, June 2.—A meeting between Emperor William and Emperor Nicholas has been arranged, and will take place in the waters of the Finnish gulf. The exact date of the meeting will be decided upon later, but it probably will be June 17th. The German Emperor will arrive on the Imperial yacht Hohenzollern, while Emperor Nicholas will be aboard the Standart, accompanied by M. Iswolsky, the Foreign Minister, and Admiral Vsevolodsky, the Minister of Marine. The news of the proposed interview between the sovereigns, coming so soon, after the settlement of the Balkan crisis, has aroused eager speculation among the diplomats at St. Petersburg. It was supposed in some quarters that German mediation, which had ended the crisis, had left more inheritance of bitterness which would estrange the two monarchs and lead Russia to identify herself more closely with Great Britain's continental policy.

The meeting, which, according to some reports, has been arranged on the initiative of Emperor Nicholas, is taken to mean that Russia prefers an amicable arrangement with Germany to the doubtful issue of an antagonistic policy. If Emperor William also meets President Fallieres, as reported from Berlin, the European situation may be regarded as entering upon a decidedly peaceful phase.

After meeting the German Emperor, Emperor Nicholas will go to Stockholm, probably on June 26th. He will then return to Peterhof, where during the early days of July he will receive King Frederick of Denmark. His Majesty will then proceed to Poltava, where he will be present on July 7th and 8th at the celebration of the 200th anniversary of the battle of Poltava. The Emperor will then depart by sea for a visit to France and England, and probably Italy. The plans of this trip are held in the deepest secrecy, but elaborate preparations are already being taken to prevent tampering with the railway lines to Poltava. The Emperor on June 5th will preside at the dedication of the monument of Alexander III, which has been erected at the end of the Nevski prospect.

ANOTHER VICTIM OF ICE FIELDS

Fishing Schooner Sinks Off Harbor of St. John, Nfld.—Crew's Narrow Escape.

St. John's, Nfld., June 2.—The ice fields have claimed another victim in the fishing schooner Souris Belle, of Western Bay, which, battered by the fies, sank off St. John's harbor last night. The crew of eight took to boats, one of which upset with two men in it, leaving them adrift on the ice until to-day. They were rescued by a tug, which later picked up the remaining half dozen sailors exhausted and unable to proceed.

MONTREAL ROYAL COMMISSION (Special to the Chronicle.)

Montreal, June 2.—Further evidence as to the buying of jobs on the city police force was given this afternoon at the Royal Commission which is investigating the city's affairs. It was shown that two men named Houle and Geoffroy had used the influence of an ex-member of the force, who had advised them to see Notary Bouver, a partner of Chairman Proulx of the Police Committee. Bouver had promised to use his influence to get them appointed as constables, and Houle had given him \$50, while Geoffroy's price for the job was \$100. In each case, however, the applicants failed to get on the force and eventually their money was paid back. Evidence as to a quasi inspection of disorderly houses by police doctors was also given. It was shown that one of the physicians attached to the police force had been instructed to make a medical inspection of certain suspected houses, but that he had not been paid extra by the city for this work, the inference being made that he made his own charges against the proprietors. Chief Campeau testified that Archbishop Bruchesi had intervened to protest against such species of official cognizance of such places, and that the practice had been dropped.

SERIOUS FLOODS

Ottawa, June 2.—News of damage by floods has floated down from the upper reaches of the River, Nation, Sagway and Rouge rivers. Lands have been inundated, and a bridge near the original has been badly damaged. All the sawmills along the banks have been thrown out of business. At Ferme Neuve a lot of land has been washed away.

IMPROVEMENTS TO CITY STREETS

Road Committee Discussed Tenders for Paving Last Evening—Other Business.

An important meeting of the civic Road Committee was held last evening at the City Hall when considerable business was transacted, the Committee sitting for nearly three hours. Much time was spent upon the question of street improvements as several thousands of dollars had already been voted for that purpose for the different wards of the city.

Two tenders were received for paving the streets, while several tenders were received for the supply of coal and wood to the city.

Ald. Fiset presided at the meeting, which was attended by every member of the Committee, those present being Sir George Garneau, and Aldermen Campbell, Madgen, Barbeau, St. Pierre, Lavigne, Messervy, Brunet, Hogan, Mulrooney and Plamondon, be- sides Aldermen Verret, Collier, Paquet and Letourneau.

Tenders were received for paving from J. L. Lachance, of this city, and the Sicily Asphaltum Co., of Montreal. The streets to be paved are: Scott street between St. John and St. Patrick streets; St. Ann street west of the intersection with Cook street; Crown street between St. Joseph and Charest streets; Palace Hill between Ramparts and St. John streets; Garonne street between St. Ann and Donatienne street, and St. Ann near its intersection with Garden; St. Stanislas street between St. John street and Dauphine street; D'Auteuil street between Dauphine and St. John streets. Several other streets will be repaved or macadamized.

Mr. Lachance's tender for paving was for the Metropolitan granite block while the Sicily Asphaltum Co.'s tender was for the scoria block, the former being the lowest for four tenders and the latter for three.

Mr. Baillairge, in reply to Ald. Barbeau, stated that the tenders were called for scoria or granite blocks as suggested by the Committee, but no mention was made of the Metropolitan block.

Ald. Barbeau remarked that the scoria block was made in England, while the Metropolitan was manufactured in the United States. One may be as good as the other and may not, and that might account for the difference in the price.

Ald. Fiset said it appeared strange to him that any person should send in a tender for a block which was not called for.

Ald. Campbell replied that from all accounts the Metropolitan block had given entire satisfaction and was considerably used in the west. He suggested that both be given a trial.

Ald. St. Pierre thought that the Metropolitan block should be tried on Crown street.

Mayor Garneau remarked that if the scoria block had a trade mark it must be the only one of that make, but if not the Metropolitan block may be composed of scoria, and he thought the best manner to find out was to get the information from the tenderers themselves.

The representative of the Sicily Asphaltum Co., in answer to his Worship, stated that he could not say if the scoria block had its trade mark, but that block is manufactured by three companies in England.

Mr. Lachance was also questioned by Mayor Garneau and could say nothing as to the composition of the Metropolitan block, but was aware that it was in general use in the west, where it gave general satisfaction. He was a contractor, and the Metropolitan block was supplied by Montreal firm which was willing to give a ten year guarantee for that block.

Mr. Baillairge remarked that it was not only a question of guaranteeing the block, but the paving of the streets, and Mr. Lachance replied that he would give a guarantee of his work to the city, as the Montreal firm would guarantee their blocks.

Ald. Barbeau did not consider it fair to others who might have tendered at a lower price for Metropolitan blocks if they had been called for.

Ald. Brunet suggested that an experiment with the Metropolitan block should be tried on Palace Hill.

Ald. Messervy strongly objected to this proposition. Palace Hill was one of the principal arteries between the lower and upper parts of the city, where there was considerable traffic, and where nothing but the best of paving should be laid. They should not do as before, when they experimented with asphalt, and if anybody wished to give the Metropolitan block a trial, let them do it in some other ward. He favored scoria blocks on Palace Hill and nothing else, and to that effect moved an amendment to a motion of Ald. Brunet to pave Palace Hill with Metropolitan blocks.

Ald. Madden replied that Mr. Lachance offered to give a ten years' guarantee for his work.

Mayor Garneau drew the attention of the Committee to the fact that Mr. Bilodeau, contractor of this city, had some time ago been awarded a general contract for the paving works required by the city, and if his prices were lower than those now asked for, he should be given the preference, as it might mean a considerable saving if the latter agreed to accept the work on the same conditions as those contained in the present contract. If Ald. Brunet's motion was adopted, he would suggest that the trial of the Metropolitan block be made in Crown street instead of Palace street.

It was finally decided that City Engineer Baillairge should look into Mr. Bilodeau's contract and ascertain if it was lower than the others, and if so, he be given the preference, if he accepted it. All the work has to

be completed by the 15th August next. A trial of the Metropolitan block will also be made on Crown street.

Tenders for coal were received from Messrs. Archer & Co., S. Turcotte, Jos. Glode, C. Hansen, and Falardeau & Cie. The tenders of Falardeau & Cie. for Scranton coal, and of Jos. Glode for furnace coal, were accepted.

There were three tenders for the wood contract, Messrs. McLaughlin, Lefrancois and J. O. Cauchon, the latter securing the contract.

Mr. Ware, of the Ware Co. of Canada, Limited, sent a letter to the Committee, requesting them to renew his contract for bill-posting on corporation property as in the past, and his request was granted, but the City Engineer to use his discretion to remove the bill-boards when he thinks proper.

A letter was received from Superintendent Faucher, informing the Committee that last winter only 250 tons of coal were burned in the City Hall, which was 100 tons less than the previous year.

Mr. Audy, who is gardener at Victoria Park, also sent in a report that he had burned 50 tons less of coal and that this year he would have 75,000 plants in the park, 15,000 more than last year. He informs the Committee that he was only receiving \$13.30 a week from the city and asked that he be paid at the rate of \$3.00 a day. After some discussion his salary was raised to \$15.00 weekly.

Two tenders were received for the removal of earth which accumulated in streets excavated by the gas companies, and to place these streets in the same condition as they were before being opened up, the gas companies having to pay the costs. The tenders were Mr. Ign. Robitaille and The Ritchie Contractor Supply Co., of Montreal. The latter secured the contract.

A letter was received from Dr. W. Verge regarding his offer to the city to cede a portion of his property on the corner of Cote Ste. Genevieve and Real streets to the city for the widening of the latter street.

Dr. Verge was invited to appear before the Committee, and explained that he purchased that property to establish a private hospital, but was willing to sell a portion of it to the city. He had asked a mason and a carpenter to inspect the property and value the cost of removing a portion of the building and adjoining wall on St. Real street. The portion of land which he was willing to dispose of was about 400 feet and he asked the city \$3,500, as he would have to rebuild the walls and a portion of his building. He considered his offer an advantage to the city, as later when he had built his hospital the purchase price would naturally be higher.

When Dr. Verge had retired, Ald. Fiset suggested that they ask the Finance Committee for an additional sum which could be offered for the property required for widening Real street on that corner.

Mayor Garneau replied that it was useless to go before the Finance Committee without a proposition of some kind and the Committee should arrive at some conclusion before going before that Committee.

Ald. Lavigne suggested that the Committee make a proposition to be put before the Finance Committee.

Ald. Fiset and Mr. Baillairge thought the improvement would be a good one but unfortunately the Committee had not sufficient funds. The question was left in abeyance for the present.

Ald. Messervy drew the attention of the Committee to the constant destruction of trees in this city.

Ald. Fiset said that on the Ramparts and Esplanade, several trees had been broken, not only by children, but even men appeared to take pleasure in breaking them. He suggested that some old man on the police force, and there were several, remarked the chairman, should be put on duty on the Esplanade and Ramparts to watch out for these tree-breakers and have them punished.

Mayor Garneau remarked that even outside St. Louis Gate, and around the Esplanade, parties seemed to take pleasure in breaking trees.

Ald. Campbell drew the attention of the City Engineer to the bad condition of Haldimand street, which should be macadamized, and Mr. Baillairge promised to attend to it immediately.

Ald. Campbell also complained of the bad state of Parloir street, due to the way that street was left by the gas companies. This street will also be attended to.

Ald. Messervy inquired as to the number of sprinkling carts employed by the city and was informed by the City Engineer that there were eight of these carts and the cost of the maintenance of the sprinklers, four days a week, was \$100.

Ald. Messervy added that there was considerable complaint on that score from citizens in general, who allege that the streets were not watered as they should be.

Mr. Baillairge replied that some parties would always complain, and cited as an example that on Tuesday he had received telephone messages from two residents of St. Joseph street who complained that they had not seen a sprinkler there for some time past, when he (Mr. Baillairge) had seen the sprinkler there that same morning.

Ald. Madden asked why the sprinklers did not go off on St. Valer street, at the bottom of Palace Hill, and added that when they did go around it was at 7 o'clock in the morning and suggested that 9 o'clock was preferable. Mr. Baillairge pro-

CANADA HAS A NEW WARSHIP

Convertible Cruiser Simcoe, Just Arrived at Montreal, is a Formidable Fighting Ship.

Montreal, June 2.—Under the guise of a simple lighthouse vessel, the convertible cruiser Simcoe, for the Canadian naval service in the Great Lakes, has arrived in port and was officially handed over to the Minister of Marine and Fisheries by Mr. Clarence I. De Sola, representative in Montreal of the British shipbuilding firm which constructed the vessel.

The Simcoe is specially adapted to carry heavy guns, which, as is known for a fact, the Canadian Government has for the present stored away at some Georgian Bay port. On the forepart of this formidable little vessel is a barbet, which can be fitted in a few hours' notice with a bow chaser, while to protect herself from combatants of real naval calibre, her hull is armor-plated, and especially strong in the forepart, which is 18 inches thick.

It was said that if needful, the Simcoe could be transferred in three days from a peaceful vessel of the buoy service to a formidable fighting ship, modern in every detail, and much bigger than anything of the kind on the Upper Lakes.

The Canadian Government will thus have a real warship on the Great Lakes.

WESTON'S LONG WALK

Laramie, Wyo., June 2.—Edward Payson Weston, who is walking to the Pacific Coast arrived to-night. Leaving Granite City this morning he covered the 38 miles to Laramie in a trifle under twelve hours.

PITCHER FOR CHICAGO NATIONAL

Providence, June 2.—Chester L. Nourse, pitcher on the University Baseball Team, who won a 3 to 2 victory over Harvard at Cambridge to-day, has been signed by the Chicago team of the National League. Nourse will report within a month.

LONGBOAT IN GOOD SHAPE

Hamilton, Ont., June 2.—Sol Mintz returned home from Chicago this morning with Tom Longboat and although the Indian did not finish on Saturday, Sol says that he is still in good shape and will win some good races before the summer is over. Tom Longboat got a guarantee to start at Chicago.

JUMPED FROM FERRY BOAT

New York, June 2.—Calmly throwing a fifty cent piece on the deck with the remark that he "would not need it any more," a middle aged man jumped from the deck of a ferry boat off the Battery to-night and quickly sank in the dark waters. A card found in his coat indicates that the victim was Wm. Holdried, of Woodmere, L.I.

RIOTS IN PHILADELPHIA

Philadelphia, June 2.—The attempt of the Philadelphia Rapid Transit Co. to run its cars with strike breakers resulted to-night in a number of serious riots. It was the first attempt to operate the lines at night since the strike on May 29th and after several futile efforts to get the cars through the mobs they were sent back to the barns.

THE ST. JOHN RIVER

Van Buren, Me., June 2.—No public meeting will be held during the present visit here of the International Commissioners who are to interpret the Ashburton treaty as it affects the St. John River logging operations. They decided to take no evidence at this time, but to make a tour of inspection of the river from the boundary line, nine miles below here, to St. Francis, a distance of about seventy miles. Later in the summer they probably will examine the several branches of the St. John river.

missed that in future the sprinklers would go around there about the latter hour.

Ald. Lavigne brought up the question of citizens constructing sidewalks and not being reimbursed by the city for the latter's share of the work.

The Chairman and Engineer replied that such cases only happened when the parties carried out their work without notifying the City Engineer and as a result they placed ashes under their pavements instead of cement. He promised Ald. Lavigne to look into the complaint of Mr. Freve on Cote d'Abraham.

Mr. Baillairge, who had a busy time all evening answering questions, also promised to attend to a complaint of Ald. Barbeau in connection with the replacing of a curbstone and the state of part of Des Fosses street opposite Mr. Parent's.

Ald. Hogan drew attention of the Committee to a complaint of Mr. J. D. Cameron regarding the condition of Tache Avenue, and this was also noted down for immediate attention of the City Engineer.

Just before adjournment there was a general cry for electric lamps, Ald. Lavigne, Madden, Barbeau and St. Pierre all claiming to have been promised lamps over a year ago.

The Chairman remarked that there were only ten lamps to dispose of and each ward would secure an additional one if necessary, but the City Engineer would go around and ascertain where these lights were really required. Ald. St. Pierre, however, insisted on getting one in Laliberte street, when the Chairman remarked that Alderman St. Pierre was always wanting money to be spent in his ward, but he would have to wait like the others until Mr. Baillairge made his report.

The Committee adjourned at 11.45.

The only nourishment that bread affords is that which the flour contains. Bread baking is merely putting flour in appetizing form. Flour making is merely putting wheat in shape for bread making.

Royal Household Flour

is made from carefully selected Manitoba Hard spring wheat. Every pound is almost a pound of food; clean, and nutritious.

It goes farther, does better baking and is more satisfactory in every way than any other flour. Ask your grocer.

Ogilvie Flour Mills Co., Limited, Montreal.

WE PROTECT YOU and YOUR FAMILY AGAINST ALL Impurities

All our aerated waters are made with CLAIRE FONTAINE mineral water, which is flowing from our artesian spring upon our premises 271 feet deep through solid rock, and all the ingredients that enter into their manufacture are the purest. You and your family's health is safe in buying our beverages.

See that you get TIMMONS' when you ask for them.

BIG REDUCTION IN PRICE OF GAS 50c. GAS

FOR ALL Gas purchased from this Company after May 1st, 1909, and until further notice, the uniform net price of Fifty Cents per one thousand cubic feet will be charged to all consumers paying their bills at our office during the first ten days of the month.

This new rate is not extended to consumers not paying their bills during the regular discount days.

Your Hair is Worth It

Afraid to use hair preparations? Don't know exactly what to do? Then why not consult your doctor? Isn't your hair worth it? Ask him if he endorses Ayer's Hair Vigor for falling hair, dandruff, a hair tonic and dressing. Have confidence in his advice. Follow it. He knows.

The Quebec Chronicle

QUEBEC, JUNE 3, 1909.

THE COMING TERCENTENARY.
The fete given last year in Quebec in commemoration of the three-hundredth anniversary of her founding by the illustrious explorer, warrior and statesman, Samuel de Champlain, were admittedly successful, and deservedly admired by all who witnessed them. So much so, indeed, that they kindled in the breasts of our neighbors an ardent desire to have an anniversary celebration of their own, and the State of New York has hit upon one with which Quebecers have reason to feel no little sympathy in the shape of the tercentenary anniversary of the discovery of Lake Champlain by the founder of Quebec, which took place in 1609. The fete are to be held at Plattsburg on the beginning of next month, and the organizers have paid us the compliment of extending an invitation to the 8th Royal Rifles to be present and assist in the ceremonies. We understand that this is the only Canadian regiment which has received such an honor, and in that case it will represent to our neighbors the military force of the Dominion, as well as of Quebec, so that it is highly desirable that it should make a good showing and do credit to the city and the country.

There is no fear of its failing to do this if the regiment gets a fair chance, and is able to pay its tercentenary call in full strength. It is a popular regiment here, and the citizens have every reason to be proud of its appearance and drill when it has occasion to parade in our streets, but it is highly important to our good name that when it goes abroad, as in this case, it should not go as a mere skeleton of a regiment, whose meagre ranks are partly filled up with raw recruits, hastily gathered in, but as a full-blown corps, a military version of Pharaoh's fat king, and this can only be brought about by the patriotism of the citizens and their readiness to take a share in the good work. The ranks of a body of citizen soldiery are either full or depleted, according to the action of their employers, and it is to them that we appeal in the name of the credit and reputation of the city to do everything in their power, even if they have to make some little sacrifice, to enable the regiment to make a good showing. Its part in the proposed ceremonies will only last a couple of days, July 7th and 8th, and we trust that the employers of its members will see to it that no pecuniary loss should be incurred by them in playing their part at Plattsburg.

NO SIGNS OF DECADENCE.

In his review of the British Territorial Force the military correspondent of The London Times considerably discounts the prevalent notion that the national physique is on the down grade. He reports recruiting as on the whole good and says that the physique of nearly all the corps which came under his observation was very satisfactory. One general officer, he reports, declared that he had a battalion in a Surrey town equal in physique to a battalion of Guards and as an old guardman, adds the correspondent, he must be considered to have spoken with knowledge. Lancashire has the same story to tell and in this county, as in many others, the assurance is given that the recruits enlisted are of better physique than the old volunteers and of a slightly superior class. Better still is the certification that from all sides the reports of the behavior of the men in camp have been most laudatory.

Regarding the territorial officers the Times correspondent tells an equally encouraging story and evidently considers them far removed from the type ridiculed by Major Du Maurier in "The Englishman's Boy." Officers, he comments, "are usually if not invariably the weak point of a second line; but ours are so intelligent and so keen that there is much to be expected from them and we can fairly hope for a steadily improving standard of efficiency." Even more thoroughly as a test of the quality of the training now given is the work attributed to the Territorial Field Artillery. The inspections, the correspondent believes, will show the artillery to be, arm for arm, fully equal to any other branch of the force.

In most cases too, the minimum requirements as to number of drills have been greatly exceeded and the Times expert closes by remarking that "it seems clear that whether we are in presence of a permanent or of a temporary enthusiasm, there is great rivalry and emulation both inter-corps and inter-divisional, amongst all the territorial troops, and that officers and men are determined to justify

their existence." The Times is none too friendly a critic of the government, and its correspondent is no doubt giving his unbiased opinion, which is clearly very favorable to the Territorial Force as now organized. It fully supports Mr. Haldane's assurances that the home defence troops are in a satisfactory position.

PROFANITY.

The Hamilton Spectator asks:—It is possible that there can ever be occasion when profanity is not only excusable but to be counted among the virtues? Ralcy Husted Bell, whose latest volume—The Changing Values of English Speech—was recently published by Hinds, Noble & Eldredge, New York, is of opinion that there can be. In the chapter which he devotes to intensives he discusses the question of profanity and makes out what he seems to consider a good case for the individual given to that form of expletive on occasion. Language, he argues, is for the virile quite as much as it is for moral and intellectual enunciations. If it fails to express deep feeling it is, in his judgment, poor. In this sense he holds that even profanity is not only useful at times, but highly moral as well. Curses on occasion are as eloquent as prayer, and profanity, eloquent as much as a sermon, may stand for righteousness. To illustrate his meaning, this writer tells an incident in the life of Lincoln, who, when standing in a slave market during an auction turned to a companion and said: "If I ever get a chance to hit slavery, by God, I'll hit it hard."

The illustration is not an apt one. Lincoln's use of the name of Diety on this occasion sounds more like an appeal for assistance—a prayer—than a specimen of dare-devil profanity. Another illustration and one more in keeping is the statement of Farragut, who, when told of the torpedoes in the way of his ships, answered: "Damn the torpedoes; go ahead!" This the writer thinks was brave—sublime. But would it not have been just as brave and equally sublime had Farragut contented himself with the simple, quietly-spoken statement: "Go ahead?"

It is not impossible to conceive of situations where the use of profanity might be excused. It will be difficult for many virile men to imagine a situation where the use of profanity could be justified. The hero, when he reaches the last ditch and is commanded to surrender, adds nothing to the magnificence of his refusal by prefacing it with the word "damned." Equally effective and quite as impressive would be the deliberate and evenly-emphasized statement, "I will not." At its best profanity is but a poor thing, adding nothing to the statement of a really great man and weakening in force the statements of men who, without it, might appear much more impressive in their conversation.

THE REASON WHY.

The despatch of the latest and largest American warship through the Canadian canals into the upper lakes, has aroused a good deal of comment in the press, and there is a general expression of surprise that the Canadian Government should continue to afford facilities for stocking the lakes with American gunboats. The only reason given for this policy of acquiescence is, that if Canada refused to allow these "training ships" to go through the canals, the United States would abrogate the agreement under the Rush-Bagot treaty and proceed openly to build warships on the lakes.

There does not seem to be much sense in this reason. There is no wonderful display of guile in allowing the United States to carry out its intention, while screening that intention from the disapproval of peace-loving nations, and it is safe to say of the large majority of American citizens, if Canada had backbone enough to refuse to connive at turning these peaceful inland waters into a hiving place for gunboats, it is extremely doubtful that the United States would brave international public opinion by abrogating the treaty agreement. As has been well said, the preservation of these great inland seas free from any armed naval force has hitherto been an object lesson to the world. The United States is a highly intelligent and peace-loving country, and its government and representative citizens are ever in the fore-front of any movement looking towards the establishment in the future of universal peace. Even if the majority of the people of the United States would countenance such an act, we doubt if any government of that country would have the nerve, in the face of its national pose as a non-military nation, to openly denounce the Rush-Bagot treaty and place an armed force on the lakes. But our own government makes it conveniently easy for the United States to accomplish this same object without disturbing its pose as a peace-loving nation, and even without the knowledge of the great majority of its own citizens. The negotiations which led to the permission for these warships to enter the lakes were carried on in secret, nothing ever appeared in the press of either nation on the subject; nothing appears in the press of the United States when these warships are despatched, and if the fact was not noted when they arrived at our canals, armed with government permission to pass up, very few of the people of Canada would know anything about it. The whole transaction is decidedly peculiar not the least being the official denial issued at Ottawa last week, which, if it had been deliberately issued in order to mislead, and thereby allay any feeling of uneasiness that might arise in this country, could not have been more aptly phrased—Ottawa Citizen.

RURAL MAIL DELIVERY.

For some time past the people of the Kennebec Road have been expecting to obtain rural mail delivery. Now its realization seems to be within sight. Some time ago petitions were sent for and received from the P. O. Department. These were circulated, signed by about thirty applicants and returned to the Department. Last week Mr. I. A. Pouliot, from the office of the P. O. Inspector in Quebec, visited the mail route, called upon all the applicants and received payment from most of them for the boxes. Yesterday your correspondent received word from the Inspector that he had reported to the P. O. Department at Ottawa and hoped the mail boxes would be delivered shortly. We feel much obliged to Dr. Beland, M.P., for his assistance in the matter. The arrival of the boxes will be some time soon as we have learned from experience this morning. In the past, for a number of years the courier delivered the mail to a number of the people at their door. In return for this kindness they paid him for his trouble, for which he was always very thankful and obliging. But to-day a new contractor began his work and gave instructions to his courier to deliver no mail to any one. Hence for a short time we have to get our mail as best we can. The contractor, it seems, intends to do only what he is obliged to do. We hope when the mail is set up he will perform his duty so perfectly as that no one can find fault with him; because some would feel like "paying him back in his own coin" if he does not "toe the mark" in every particular, although the best and proper way is to "render evil for evil to no man." The best way for all is to try to be helpful and obliging to their fellow-men in every proper way. This mail service will be a benefit to all, postmasters, box-owners and couriers. The postmasters' work will be done practically when the courier departs from the office. There will be no occasion for people to call at the office at any or every hour of the day when the postmaster is otherwise engaged and in a hurry. The box-owners will have their mail delivered at their doors for a trifle, the cost of the mail box. The courier will be paid by the P. O. Department for his extra labor. We have an excellent mail service in Canada. It is remarkable that there are so few mistakes where there is such a large quantity of mail matter to be handled. It is surprising too that we get our mail in country places so soon after it is written or published; and it seems reasonable to expect that rural mail delivery will be a step in advance of the good service we have now.

If he knew what to buy he could graduate his expenses better for the next two months.

BLOTTING PADS AND STATE SECRETS.

(London Chronicle.)
The ability to read backward what has been impressed in a blotting pad and the secrets which the latter will yield when reflected in a mirror are dangers against which the Foreign Office has its precaution. It was the last place where pepper castors of word, and for a time black blotting paper was specially manufactured, and used, but it was found to be not absolutely mark proof, so that absorbent rollers were introduced for blotting diplomatic documents. When such a roller has been run over letters sideways and up and down a few times, to decipher its impression would defy even Sherlock Holmes.

Bronchitis More Than a Cold.

Sometimes it becomes chronic and returns again and again, wearing out its victim.
At other times it develops rapidly into pneumonia—cure is found in Dr. Chase's Syrup of Linseed and Turpentine.

Any cold is serious enough when its dreadful possibilities are considered, but when there is soreness or tightness in the chest and a dry hard cough you can look for bronchitis, which is often confused with an ordinary cold.

It is usually known by aching limbs and body pains, chilly feelings, weariness and weakness, pain in the chest and a tight, tearing cough. Fever, dry skin, thirst, coated tongue and constipation are other symptoms.

Dr. Chase's Syrup of Linseed and Turpentine seems almost like a specific for bronchitis because it is so successful in loosening up the cough, aiding expectoration and preventing the inflammation from reaching the lungs. Bronchitis is particularly dreaded because of its tendency to develop into pneumonia and even when it does not result bronchitis is likely to return again and again whenever a slight cold is taken until it wears out even the most vigorous system.

Dr. Chase's Syrup of Linseed and Turpentine is so prompt in affording relief and so thorough and far-reaching in action that it succeeds where ordinary cough medicines have no influence.

Mr. James F. Thompson, Yonge Mills Leeds Co., Ont., writes: "Last winter my two boys were so bad with colds on the chest or bronchitis that they coughed all night and could get no rest or sleep. Several cough remedies were tried, to no avail until I was told about Dr. Chase's Syrup of Linseed and Turpentine and this treatment soon cured them." 25 cts. a bottle, at all dealers, or Edmondson, Bates & Co., Toronto.

SHIPPING NEWS
ALLAN LINE.
 R.M.S. Virginian, from Liverpool,
 Friday, May 28, with passengers,
 mails and general cargo, was re-
 ported 190 miles east of Cape Race at
 9.30 a.m. yesterday. Due in port to-
 morrow at 6 p.m.
 Steamer Sicilian left Havre on Mon-
 day for Quebec and Montreal with 78
 cabin and 107 steerage passengers.
 Steamer Pretorian, from Montreal
 and Quebec, arrived at Glasgow on
 Tuesday.
C.P.R. LINE.
 Steamer Montfort, from Montreal,
 and Quebec, arrived at London yester-
 day morning.
GASPE LINE.
 Steamer Lady of Gaspe, Captain
 Bouchard, arrived from Montreal yester-
 day, mooring at the Champlain
 market wharf. After embarking Que-
 bec passengers and cargo, she left for
 Gaspe and way places at 4 p.m.
QUEBEC STEAMSHIP CO.
 Steamer Guiana sailed from New
 York for the West Indies at 2 p.m.
 yesterday.
R. & O. NAVIGATION CO.
 Steamer Montreal arrived from
 Montreal yesterday, running on her
 first trip of the season, and took her
 place on the line between here and
 the sister city.
THOMSON LINE.
 Steamer Fremont, Captain Ritchie,
 from Newcastle, arrived at port at
 4.30 a.m. yesterday, and proceeded for
 Montreal.
WHITE STAR-DOMINION LINE.
 Steamer Canada, from Liverpool,
 Thursday 27th, with passengers,
 and general cargo, was reported 200 miles
 east of Cape Race at 6.30 a.m. yester-
 day, and is due here to-morrow
 midnight.
NAUTICAL MARRIAGES.
 One of the new British shipping re-
 gulations prevents the captain of an
 ocean vessel from performing the mar-
 riage ceremony on board. Heretofore
 it was a common practice for captains
 to unite in matrimony those who were
 smitten with the love-at-first-sight
 complaint, while at sea, and the un-
 sentimental regulation just promulgated
 has nipped in the bud many future
 romances of the ocean. Now the
 hasty couples will have to wait until
 shore is reached before the necessary
 ceremony can be performed.

A NEW NORTHERN BOAT.
 Collingwood, June 2.—The latest ad-
 dition to the fleet of the Northern
 Navigation Company is the twin-
 screw steamer Waubie, which was
 launched at the yards of the Colling-
 wood Shipbuilding Company here, this
 morning at 10 o'clock in the presence
 of a large throng of people. Little
 Gladys Macdonald, daughter of Mr.
 C. Macdonald, comptroller of the
 Northern Navigation Company, broke
 the conventional bottle of wine across
 the bow as the steamer slipped from
 the ways. The Waubie is the third
 steel vessel built at this yard for the
 Northern Navigation Company, the
 Huronic and Hamonic being its pre-
 decessors. She will go into commis-
 sion on June 15, between Penetanguishene,
 Midland, Parry Sound and
 Point St-Barre. The Waubie re-
 places the sidewheeler City of Toronto
 and is especially designed for the re-
 quirements of navigation among the
 Thirty Thousand Islands of Georgian
 Bay.

NOTES.
 Steamers Osland, Lina, Trm and
 Woban, for Sydney, and Cacoua, for
 St. John's, Nfld., arrived from Mon-
 treal yesterday and proceeded.
 Steamer Dageid, Captain Stenson,
 from Sydney, with a cargo of coal,
 arrived in port yesterday morning
 and moored at the Foundry wharf.
 Four masted schooner H. J. Logan,
 Captain Howard, left for Sorel yester-
 day morning.
 Steamers Stormont, for the upper
 lakes, and Kronprinz Olav, for Mon-
 treal, passed up yesterday.
 Steamer Prefontaine, while on her
 way down from Montreal on Tuesday
 night, had one of her propellers dis-
 abled by striking what is supposed to
 be a piece of timber. She came the
 remainder of the passage with one
 propeller.
 Steamer Sjostad, having landed her
 cargo of coal, left port for Sydney
 yesterday morning.
PORT OF QUEBEC.

Neglect Your Cough—Danger
 You may dislike taking medicine—
 but coughs are best cured without
 medicine. The modern treatment is
 "Catarrhose"—it isn't a drug—it's a
 healing vapor, full of pine essences
 and healing balsams. It spreads over
 the surfaces that are weak and sore
 from coughing. Every spot that's con-
 gested is healed, irritation is soothed
 away, phlegm and secretions are cleared
 out, and all symptoms of cold and
 catarrh are cured. Nothing so quick,
 so sure, so pleasant as Catarrhose.
 In 25 cent and \$1.00 sizes at all dealers.

Neglect Your Cough—Danger
 You may dislike taking medicine—
 but coughs are best cured without
 medicine. The modern treatment is
 "Catarrhose"—it isn't a drug—it's a
 healing vapor, full of pine essences
 and healing balsams. It spreads over
 the surfaces that are weak and sore
 from coughing. Every spot that's con-
 gested is healed, irritation is soothed
 away, phlegm and secretions are cleared
 out, and all symptoms of cold and
 catarrh are cured. Nothing so quick,
 so sure, so pleasant as Catarrhose.
 In 25 cent and \$1.00 sizes at all dealers.

LATEST SPORTING NEWS

BIG LIST FOR THIS MARATHON

Eighteen Entries for Big Belleville Race July 1—Tom Longboat is Entered.

Belleville's Pat Powers, also a Pat-P. J. Jennings—is in Toronto boosting his big holiday event along. "Marathoning may be on the decline in Toronto and Montreal, but Belleville is Marathon mad," said Jennings. "We are betwixt and between, and everybody wants to see these chap travel. This is the first time in many years that Belleville has had a big athletic event on a holiday. Everybody, from the Mayor to the hackman, is behind me in this thing."

The entry list to date includes: Abbie Wood of Montreal. Fred Meadows of Guelph. Fred Simpson, the Ojibway. Red Hawk, the Missauga. Tom Longboat. Cibot of France. Orphee of France. Pat Dineen of Boston. Wm. Allen of Buffalo. Percy Sellen, of Toronto. Chas. Pava of Toronto. W. F. Cumming of Toronto. Hans Holmer of Quebec. R. Booth of Toronto. "D" Davist the Caledonia Indian. David Bennett the veteran. Tom Coley of Toronto. John D. Marsh of Winnipeg. Wm. Sherring of Hamilton. All of which proves that Pat from Belleville is some hustler.

WALK SIX DAYS FOR CASH AND GET \$4.50

Event at Peterboro' Was a Financial Fizzle—Will Hold Benefit to Help.

The result of the six-day walking match which ended on Saturday night in Peterboro, Ont., was a fizzle. The gate receipts for the week totalled \$440, and the men who were in the money were out of it, paroloxical as it seems. The reason was that after expenses were paid there was not enough left to be divided. Those who were outside the money took up a hat collection, which netted \$18, giving each of the four men \$4.50. W. A. Hoagland, who conducted the race was second when he quit on Saturday night about ten o'clock. He left the city on Sunday morning for a Decoration day engagement on the other side and took as his share according to agreement, about \$125. George Brown, of Auburn, N.Y., was in first place when the race was called, but his share was nil. David Hartley was one of the fortunate four hand-outs who received the \$4.50 tail-end. Good time was made in the walk, which was a success in every way except financially. A benefit will likely be held to-morrow night to help some of the peds to return home.

YESTERDAY'S BASEBALL (Eastern.)

At Buffalo: Montreal, 1.
At Newark: Providence, 2.
At Baltimore: Jersey City, 1.
At Rochester: Toronto, 1.
(National.)

At Cincinnati: Chicago-Cincinnati game postponed; rain.
At Brooklyn: Brooklyn-New York game postponed; wet grounds.

Pittsburg, June 2—Pittsburg won an uninteresting game from Boston to-day by a score of 2 to 0. At no time did it seem possible for the visitors to score and only two Boston players got as far as second base. Leifeld allowed but four hits, Ritchie getting three of these. Score:—

R.H.E.
Pittsburg.....10100000x—2 9 1
Boston.....00000000—0 4 1

Batteries:—Leifeld and Gibson; Ferguson and Bowerman. Umpires, John Stone and Cusack.

(American.)
Boston, June 2—Boston won an up-hill game from Detroit to-day 6 to 5, the first of the series to be played by the western teams in Boston this season. The game was marked by sensational plays. The visitors scored five runs on the local pitcher's wildness and errors, bunched with hits. Killian was also wild, Boston scoring twice in the seventh inning on passes with hits, and won in the eighth on a single, an error, a base on balls, a home run, a sacrifice and a single by Donohue, batting for Chech. Score:—

R.H.E.
Detroit.....220001000—5 11 3
Boston.....00000024x—6 9 3

Batteries:—Killian and Schmidt; Arralene, Chech, Morgan and Spencer. Umpires, O'Loughlin and Kerin.

New York, June 2—New York won the game in the first inning, mixing hits with one of St. Louis' errors. Laporte's playing at second for New York was the game's fielding feature, by caring for thirteen chances. Lake outpitched Powell. Score:—

R.H.E.
St. Louis.....000001000—1 6 3
New York.....20000100x—3 8 0

Batteries:—Powell and Criger; Lake and Blair. Umpires, Evans and Perrine.

Philadelphia, June 2—Philadelphia won a loosely played game from Chicago to-day, 5 to 4, by bunching hits off Smith. Pitcher Walsh of Chicago, left the team to-day to go to his home where his brother died this morning. Score:—

R.H.E.
Philadelphia.....01202000x—5 9 2
Chicago.....000300010—4 8 2

Batteries:—Dyert, Vickers, Render and Livingstone; Smith and Sullivan. Umpires, Sheridan and Egan.

Washington, June 2—Washington defeated Cleveland to-day by a shut out score of 4 to 0, and scored its first victory over the veteran Cy Young in years. Clymer sprained his knee falling to the home plate and with Eastery, who had a finger dislocated by a foul tip, retired from the game. Hughes held the visitors safe at all stages. Score:—

R.H.E.
Washington.....01100110x—4 10 1
Cleveland.....000000000—0 6 3

Batteries:—Hughes and Street; Young, Eastery and Bemis. Umpires, Connelly and Hurst.

JOE MADDEN WON BELMONT. Belmont Park, N.Y., June 2—Joe Madden, owned by S. C. Hildreth, backed down to 11 to 5, easily won the \$3,000 Belmont stakes, one mile and three furlongs, at Belmont Park to-day. Wise Mason was second and Donald Macdonald third. The time, 2:21 3-5, was fair considering the heavy track.

The field that went to the post for this race was considered to be poor in class, but the 4,000 persons present witnessed a good race. Warfield, a 40 to 1 chance, went to the front at the start, followed by Joe Madden and Wise Mason. This order remained until the turn out of the Belmont course. Here Joe Madden moved up strongly on the rail and took a three lengths lead. In the next quarter Wise Mason challenged. These two ran head and head for a furlong when Wise Mason began to quit. Joe Madden then galloped home a winner by eight lengths with Wise Mason four lengths before Donald Macdonald.

FORAN MAKES CUP DECISION

Hockey Players Must Now Sign Certificates for Cup Games.

Stanley Cup Trustee William Foran believes he has at last discovered a method which will do away with the evil of "importing players for the occasion," such as the Edmonton hockey team of last winter and the recently unsuccessful Minto Cup challengers from Regina.

Mr. Foran says there is nothing to prevent a team building up its line at the commencement of the season, even if the strengthening is for the purpose of acquiring the Stanley Cup. Injury, death or retirement may so deplete the ranks of a challenging team that it would become necessary to acquire new players to bring it up to the required calibre when the series were played the following season.

However each challenging club in future will be required to file contracts for the season with the Stanley Cup trustees, of every player on the team, and these players will be ineligible to participate in a cup game with any other team for the space of a year. In making this decision, Mr. Foran says:

"If the different clubs and leagues concerned are sincere in their desire to stamp out the importing evil, they will back up the trustees by refusing to accept the services of players who have signed contracts with teams in other leagues. No contracts for a cup series alone will be accepted by the trustees. They must be for the season."

Winnipeg Shamrocks and Renfrew will be given games prior to the opening of the E.C.H.L. season. The Cobalt and Ontario champions will probably be accommodated after the league season is under way.

WANT A GAME.

Empress juniors wishes to arrange a match with any Quebec football team from the age of 16 to 18. Apply T. Shipley, Empress of Ireland.

QUEBEC TURF CLUB.

Annual Meeting Will be Held at the Chateau Frontenac This Evening.

The annual meeting of the Quebec Turf Club will be held at the Chateau Frontenac this evening at 8.30 o'clock, when the reports for the past year will be presented and officers elected.

The question as to whether the Club will hold a race meet this summer will be one of the important matters to come before the meeting, and it is expected that there will be a large attendance of members in order that a decision may be come to at once.

SUTHERLAND RIFLE SIGHT.

The following Militia Order just issued will be read with great interest by local marksmen, and it is to be hoped action will be taken immediately so that the various corps may obtain an issue of the Sutherland Rifle Sight without further delay. Already the long delay in making this issue has put a great many of our rifle shots to the expense of buying modern sights, so as to enable them to compete successfully in the season's shooting.

Sutherland Rifle Sight.—Advertising to G.O. 137, 1907 and M.O. 189, 1907, it is notified that a quantity of Sutherland Rifle Sights are now available for issue. S.O.O.'s will at once forward an Intermediate Demand for the number required to equip 30 p.c. of the Establishment of each unit armed with the Lee-Enfield Rifle in their district. The Officers Commanding these units will indent on the S.O.O. for the number of sights as above authorized. On receipt of the Sutherland Sight the Lee-Enfield back-sights will be returned to the nearest Ordnance Depot. (H.Q. 314-6-2.)

RIFLE SHOOTING PROGRAMME

Green Shots of the 8th Royal Rifles Being Well Looked After.

The green shots of the 8th Royal Rifles will be pleased to learn that two of our prominent citizens have been most generous in donating a considerable sum of money for the benefit of the younger shots of this popular corps. Col. Wm. M. Macpherson, who is a liberal subscriber to the 8th R. Rifle Association, has donated \$40 for monthly prizes for green shots. This act of Col. Macpherson's is well worthy of commendation and there is no doubt that the young shots of the 8th will show their appreciation of this generous donation by turning out in large numbers every Saturday.

Wm. Price, Esq., M.P., who has always taken a great interest in the 8th R. R. and other military corps, has also most handsomely contributed \$100 for competition among the Green and Tyro shots of the Regiment. Two much praise cannot be given our member for Quebec West for the manner in which he has come forward to encourage rifle shooting among the younger men of the Regiment.

The rules and regulations governing these two matches which start Saturday, 5th June, are as follows:—

THE WM. M. MACPHERSON GREEN MATCH.

\$50.00 donated by Wm. M. Macpherson, Esq., divided into monthly prizes of \$10.00, given in four prizes—1st, \$4.00; 2nd, \$3.00; 3rd, \$2.00; 4th, \$1.00. Open to members of the Association who have never made 60 points or better at 200, 500 and 600 yards, 7 shots at each range.

Rules.—Ranges 200 and 500 yards, 7 shots and sighter at each range made on any Saturday. The aggregate of the best two scores to count. Any man winning two monthly prizes to be debarrd from further competition in the series.

THE WM. PRICE GREEN MATCHES.

\$100 donated by Wm. Price, Esq., M.P., divided into two classes in Series A and B. \$40 divided into monthly prizes of \$10 given in four prizes—1st, \$4.00; 2nd, \$3.00; 3rd, \$2.00; 4th, \$1.00. Open to members who have never made 70 points or better at 200, 500 and 600 yards, 7 shots at each range.

Rules.—Ranges 200 and 500 yards, 7 shots and sighter at each range, made on any Saturday to count. The best two scores made to count. Any man winning two monthly prizes will be debarrd from further competition in this series.

SERIES B.

\$30.00 divided into monthly prizes of \$7.50 given in 3 prizes—1st, \$4.00; 2nd, \$2.00; 3rd, \$1.50. Open to members who have never made 80 points or better at 200, 500 and 600 yards, 7 shots at each range.

Rules.—Ranges 200, 500 and 600 yards, 7 shots and sighter at each range, made on any Saturday to count. The best two scores made to count. Any man winning two monthly prizes will be debarrd from further competition in this series.

C. M. L. R. MATCHES.

These series of matches starts this coming Saturday and all of the first-class shots of the Regiment are requested to be on hand, as two teams have been entered for the series, and some very high scores are required, to place the Association where they would most like to appear in the final score.

SUTHERLAND SIGHTS.

Col. Wm. Wood has applied for 100 Sutherland Sights which will be available in the course of a few days. This will no doubt be good news to the members of the Association, and should help a number of our younger shots along.

ANNUAL MATCHES.

The annual matches of the Regiment will take place this year much earlier than last, Dominion Day having been selected as the best day for all members. This leaves the men only a month to get into the best shape possible.

SUBSCRIPTIONS.

The Secretary-Treasurer of the Association requests that subscribers who have not been called upon for this year's donation, would mail same to him (P. O. Box 21) or phone him (Phone 45) when he will at once call upon the subscriber.

ARE YOU WEAK AFTER SICKNESS

Later it will be harder to get strong than to-day. What are you doing to get well?

A case in point is well exemplified in the following letter from Mrs. J. J. Wilder, wife of a well-known citizen of Pittsfield, who writes: "I had a nervous disorder that completely prostrated me. I couldn't sleep, and would lay and toss about all night, arising in the morning more tired than ever, head heavy, eyes dull, and every bone and muscle aching. I tried to get along without calling in a doctor, but was finally driven to it. He treated me for some time, but with no perceptible improvement in my health. Some one recommended Ferrazone. The change it effected in my system was noticeable almost instantly. I gradually took on flesh. The 'all gone' feeling left me. In less than six weeks I was fully recovered from what looked to me like an everlasting sickness. I will always recommend Ferrazone feeling with sincerity that it is an honest, powerful, health-giving tonic."

Try Ferrazone to-day! The nourishment and vital energy it supplies is wonderful. Ferrazone makes you feel better at once, it's good for men, for women, for children—just the thing for everybody seeking health. Sold by all dealers, 50c per box or six boxes for \$2.50.

Quebec Harbor Commission TENDERS

The Quebec Harbour Commissioners will receive Tenders, up to 12 o'clock noon on Thursday, the 10th June next, for the paving of a part of the Cross Wall and Embankment roadways, in accordance with plans and specifications, to be seen at the office of the Harbour Commission.

Tenders must be addressed to the Secretary-Treasurer of the Commission endorsed "TENDER FOR ROADWAY PAVING," and must be accompanied by an accepted bank cheque for \$1500.00, made payable to the Chairman of the Harbour Commissioners, this cheque will be retained as partial security for the due completion of the contract, and will be forfeited should the Tenderer refuse or neglect to enter into a contract for the work if called upon to do so. The unsuccessful Tenderers will have their cheques returned.

The Commissioners do not bind themselves to accept the lowest or any tender.

JAS. WOODS, Secretary-Treasurer.

PERSONAL

Mr. Walter S. Painter is here from Montreal.

T. A. Treen, of Montreal, is a guest at the Clarendon.

W. D. Norman Jones, of Montreal, is at the Clarendon.

P. Hawkins, of Ottawa, is registered at the Clarendon.

J. E. Delosse, of Montreal, is stopping at the Clarendon.

Dr. Smellie, of Montreal, arrived in Quebec Tuesday evening.

Mr. W. J. Agnew, of Toronto, is registered at the St. Louis.

Mr. R. B. Coulson, of Montreal, is a guest at the Chateau.

J. B. Charbonneau, of Montreal, is stopping at the Clarendon.

Mr. C. H. Lovell, of Coaticook, is stopping at the St. Louis.

A. A. McDonald, of St. Perpetue, is registered at the Clarendon.

Mr. and Mrs. S. B. Constantin, of Montreal, are at the Frontenac.

Mr. and Mrs. E. Fred. Dugan, of Montreal, are guests at the Chateau.

L. A. Fontaine and wife, of St. Evariste, are stopping at the Clarendon Hotel.

Premier Prior, of South Australia, died yesterday at Adelaide, South Australia.

Miss Vaughan Avery, of Ottawa, who is visiting in the city, is the guest of Mrs. Arthur Price.

Mrs. L. S. Odell and family, are spending a few weeks at their cottage at Lake Edward.

The marriage of Miss Ida Parke, of Lake St. Joseph, to Mr. R. B. Brodie will take place June 10th.

Hon. A. Turgeon and Hon. E. B. Gagnon left yesterday morning for a fishing trip on the Lake St. John line.

Mr. J. H. Aloy, manager of Bennett's Auditorium, accompanied by Mrs. Aloy, leaves to-day for a trip to the United States.

The many friends of Mr. T. H. Taylor, of Cumberland Mills, Beauce, will be pleased to hear that he has successfully passed his final examinations in medicine at McGill University.

The marriage of Miss M. E. Robitaille, daughter of Hon. A. R. Robitaille, Prothonotary of the district, to Dr. Edmond Verge, son of Dr. W. Verge, of this city, is announced to take place at St. Jean Baptiste Church, on the 15th inst.

The marriage of Miss Bernice Blouin, daughter of the late Cyrille Blouin, and niece of Mr. Cleophas Blouin, M.P.P., to Mr. L. D. Brochu, of the Georges Patry establishment, is announced to take place on June 22.

Mr. Laflamme, Rector of Laval University, was removed to the Hotel Dieu Hospital on Saturday last. For some time he has been suffering from kidney trouble. His state of health requires the most careful treatment but the doctors are confident that the disease will not prove fatal.

Arrivals at the Neptune Inn.—Ed. Burton, Milby; G. L. Beattie, Robertson; J. A. Auger, Victoriaville; C. E. Standish, Ayer's Cliff; Sam. Rioux, Trois Pistoles; J. Lee, S. J. Morris, B. Lachance, T. King, S. C. Knowles, Montreal; D. D. Hudson, Toronto; L. Murray, J. McNeice, Boston; J. H. Ducharme, St. George, Beauce.

At the St. Louis.—Mr. and Mrs. J. B. Hume, H. F. Watson, Madison; Miss J. Castonguay, St. Helene; W. J. Agnew, Toronto; J. E. Sanborn, Reading, Mass.; R. L. Stealing, Somerville; J. Stewart, Syracuse; C. H. Lovell, Coaticook; A. G. Williams, Philadelphia; F. H. Marston, H. Freeman, F. Egg, Jos. J. Jorkil, Montreal.

Montrealers at the Chateau.—A. H. Duff, Mrs. B. A. Olue, Miss J. Scott, Willis R. Miller, T. S. Burke, J. Mundie, Fred. G. Todd, C. Franklin Hilbert, S. W. Dugan, R. B. Coulson, F. J. Perago, J. P. Schmidt, H. Nindge, Mr. and Mrs. S. B. Constantin, W. M. Puntel, W. J. McCarthy, J. A. Malo, R. E. Mathews.

At the Chateau.—Mr. and Mrs. J. B. Kilgour, Winnipeg; Vernon Smith, Detroit; J. N. Forest, J. S. King, C. G. Balfour, Toronto; Alfred Hardy, Bradford, Eng.; A. W. Parker, Rochester; P. L. Robson, St. John, N.B.; Mr. and Mrs. S. King, St. Fiacre; R. C. Andrews, Thos. McKee, New York; E. LaRue, St. Marie; A. C. Davis, Cambridge, Eng.; E. A. Dubuc, Chicoutimi; Mrs. J. A. Lemoine, Miss Pauline Lemoine, Ottawa.

The marriage of Miss Esther Rolland, daughter of the Hon. J. D. Rolland, to Mr. Louis Turgeon, manager of the J. D. Rolland branch, at Quebec, took place Tuesday at Notre Dame Church, Montreal. The bride, who was given away by her father, wore an empire gown of white crepe de chine, and a white chiffon hat, trimmed with white roses. She carried a bouquet of white roses. Mr. Giguere, of Quebec, acted as best man.

The ceremony was performed by the Rev. Father Gauthier, Prof. Letondal was at the organ, and solos were sung by Mr. Dufresne and Mr. Chamberland played the violin. A reception was held after the ceremony, at the residence of the bride's father, where roses and white carnations formed the floral decorations. Mr. and Mrs. Turgeon left later for their wedding trip in the United States, the bride travelling in grey chiffon and a burnt straw hat, trimmed with cherries.

DOMINION COLLEGE OF MUSIC EXAMINATIONS.

The examinations in music conducted by the Dominion College of Music in the Ursuline Monastery at Rimouski, and in the Good Shepherd Convent at Fraserville, have met with great success. Students of the various professors of music in the district, as also those of the convents of St. Basile, Quebec, and Mr. Max Bohrer, of Montreal, the students of the convent of New Carlisle, N.B., underwent their examinations at New Carlisle under the supervision of Mr. Bohrer. The result of these examinations will be known later.—Com.

TRADE FACILITIES OF ST. LAWRENCE

What the Demands Will Be Upon
It in the Near
Future.

Mr. James Carruthers, in discussing the question of trade within the Empire, and especially the Canadian transportation questions, with members on 'Change in Montreal, made the prediction recently that by the year 1920 the western provinces would be producing no less than 500,000,000 bushels of wheat.

"These figures," he said, "look pretty large, just now, but I know what I am talking about in this respect."

"Now what are we doing to move this rapidly growing crop? Our wheat supply will soon be a huge proposition, and we must provide facilities to handle the surplus. If we do not it will find an outlet otherwise than through Canadian channels. Acreage in the West is going to increase rapidly, so that we cannot delay. I repeat again, we must be in a position to provide the people of Manitoba and the new provinces with every opportunity to market their wheat rapidly and at a low cost."

"Within a very short time the United States will not have any wheat for export, and they will naturally look to the Canadian West for the necessary shortage. It is not generally known that the Republic consumes for domestic purposes about 1,250,000 bushels a day, or 450,000,000 bushels a year. Their population is growing, and they will consume more wheat. What do you surmise from these facts? The United States will soon become a competitor of England for our grain. Again, what is likely to follow? Americans will make a strong bid for the Canadian Western trade. Where do we stand, then, as regards the British Isles, so far as our wheat market is concerned? That is the question. I will leave that to others to ponder over. It is serious from an Empire point of view."

"Again, I will come back to transportation. The Government should keep ready facilities to the St. Lawrence route, and looking ahead, if they wish to hold the East and the West together as they should be. Rates by way of Canadian ports should be as low, if not lower, than by United States outlets. The St. Lawrence must control our grain exporting traffic. This is a matter of national importance."

"While I am not an out and out free-trader, I do believe, however, that such a policy will come sooner or later if we are to remain a united Empire. For instance, supposing England would give us a preference on wheat as against the outside world, what a boom would follow. We are an agricultural country, and it might be well if we fully appreciated that fact. If we are in a position to sell more wheat in the English markets than other countries are privileged to do, it will mean that our farmers will have something to work for, and the benefit of such a market for Canada cannot be overestimated."

This talk of exporting wheat by way of British Columbia ports should not be taken seriously. I do not believe there will be any large volume of business done in that direction. In the first place, all wheat shipments must be bagged, the same as from Washington and Oregon, for the reason that the rate of insurance on wheat in bulk would be so high that it would almost be prohibitory. In making shipments by way of Cape Horn, climatic conditions must be taken into consideration, as it is well known that wheat in bulk is more liable to damage from sea-sickness. It is all very well to talk of sending our grain by way of Western ports, but you will find out that the St. Lawrence is the natural outlet for the Western over-production. Then, is it not our duty, as Canadians, to make the St. Lawrence a national highway in every sense of the word, and to look ahead regarding markets, and the latter, I believe, will be within the British Empire."

No doubt, taking a similar view of the future trade of the St. Lawrence, as that expressed by Mr. Carruthers, the following members of the Quebec Harbor Commission paid a visit to Montreal on Tuesday to inspect the improvements made on that harbor: Messrs. Roger LaRue, acting chairman; Geo. Tanguay, Cleophas Auger, Lorne C. Webster, William Dobell, J. S. Thom, W. M. Macpherson, James Woods, Secretary-Treasurer; St. Geo. Boswell, chief engineer.

The delegation, after a conference in President G. W. Stephen's office, made a thorough inspection of the sheds, the grain conveyors, the new apparatus for making use of the top storeys, and the harbor works across from Windmill Point. Major Stephens pointed out the several improvements in the harbor and Mr. Cowie explained the technical points of Montreal's engineering enterprises on the wharf.

Mr. Roger LaRue, acting chairman of the Quebec Commission, declared in an interview that immense improvements are to be made after the style of Montreal's shipping facilities. "I think," said Mr. LaRue, "that we will construct our sheds further from the water's edge than Montreal's in order that cranes can be placed on this space. This would probably do away with the necessity of those conveyors on the upper storeys of Montreal sheds. However, we will adopt the plans followed out by the Montreal Harbor Commission, wherever those plans cannot be improved on."

Drink Beauport Lager. It is the best.

WRIGHT AEROPLANE

Rome, June 2.—Owing to the recent accident to the Wright aeroplane, during a flight by Lieut. Calderara, it has been decided to open negotiations for the purchase of a new machine from the Wrights in France.

SYNOD HAD ANOTHER BUSY DAY

Eloquent Addresses were Delivered
by Laymen Missionary Movement
Speakers Last Evening.

A good part of the morning session of the Diocesan Synod yesterday was taken up with the presentation of various reports.

A memorial was received from the General Synod, regarding the proposal for the division of the present ecclesiastical province of Canada into two separate provinces. It was referred to a special committee named by the bishop.

The consideration of motions on the agenda paper was then taken up, there being much discussion on the motion of Dean Williams in connection with the Prayer Book. The motion was passed at the afternoon session with some amendments. The motion was in essence to the effect that whereas the book of Common Prayer of the Church of England is a great bond of union within the Empire and whereas the unity of the Church of England might be endangered by alterations made to the Prayer Book in different parts of the world, that it be resolved that the General Synod of Canada be memorialized that if any special prayers or services or permission for the abbreviation or adaptation of existing services are to be authorized by the Church of England in Canada, they be published as an appendix to the Prayer Book.

A motion by Canon Von Hiltland, that the Synod memorialize the General Synod to pass a Canon to provide for the episcopal oversight of a diocese whenever the Bishop of the diocese shall have become incapacitated by mental or physical infirmity for the discharge of his duties, was passed without discussion.

A Canon giving authority for the appointment of a Coadjutor Bishop when necessary was introduced by Dr. John Hamilton. The motion aroused considerable debate, and was finally passed after some minor amendments. The Canon provides that whenever the Bishop shall by writing under his hand signify to the Synod through the Executive Committee that he is desirous of having a Coadjutor or whenever the Bishops shall be incapacitated by mental infirmity, age or other permanent cause from discharging his episcopal duties, a Coadjutor Bishop may be elected by and for the diocese. The Coadjutor Bishop so elected shall become the Bishop of the Diocese whenever any vacancy occurs in the See without any further election. Upon suggestion of Canon Scott the Coadjutor Bishop may take the name of some other town or place in the Diocese until such time as he becomes the Bishop of Quebec.

Last evening the meeting was devoted to the Laymen's Missionary Movement, when eloquent addresses were delivered by Mr. R. W. Allen, of Toronto, General Secretary of the movement in Canada, and Mr. Silas McKee, editor of the Churchman, New York. The Church Hall was crowded, and both addresses proved most inspiring.

His Lordship Bishop Dunn presided and introduced the speakers in happy terms.

Mr. Allen spoke of the work of the Laymen's Missionary Movement, and its remarkable progress during the past two years. The movement was taking possession of the men of the Christian Communities. He gave some idea regarding the movement. It was essentially a work of co-operation, rises above divisions and takes no account of countries or communions. It is a missionary movement pure and simple. It is educational and inspirational and aims at putting new life into the already too many existing organizations. It investigates the condition of affairs in the foreign and home fields, and the number of workers and amount of money necessary. The responsibility rests upon the men of the present generation to bring the news of the Gospel to every creature. The evangelization of the world in the present generation is the aim of the movement. The laymen in the past have been hiding behind their wives, their children and their churches, and have not been assuming their full responsibility in the matter. The conversion of the world depends upon the conversion of the laity from passive to active membership.

Mr. Silas McKee followed with a most interesting address, which was listened to throughout with the deepest interest. He impressed upon the laymen of the church their duty in regard to the movement, and spoke eloquently in regard to the work to be done.

At the conclusion of the addresses, the Bishop tendered to the two speakers the hearty thanks of the meeting and Synod.

QUEBEC & LAKE ST. JOHN AND
THE CANADIAN NORTHERN
QUEBEC RAILWAYS.

On the 13th instant the summer train service will become effective; it provides for the following trains from Quebec:—

8.30 a.m. daily except Sunday, arriving Chicoutimi 6.30 p.m.

"OH, FOR A KODAK"

The Automobile tour, the fishing and hunting trip, yield many an odd type of locality. Many a magnificent bit of scenery which will bring the words to the lips, "Oh for a KODAK," and more than all in the every day life of home. The laughing baby, clinking his chubby fists, the unconscious grace of romping childhood, the family gatherings of Sunday afternoons make their appeal to us at one time or another for a KODAK. KODAK to preserve, through the changing years, the happy time of life.
