

Ormstown And Franklin Centre To Have Dial Telephone Service

Ormstown and Franklin Centre will join the growing number of Quebec communities with dial telephone service in the spring of 1960. J. L. Rivest, Bell Telephone manager for this region, announced this week.

Although scheduled to take place at the same time, the two dial conversions are separate projects. Mr. Rivest pointed out. Local calling arrangements between the two communities will remain in effect after the changeover, the manager stated.

Dial conversions are major engineering projects and the changeover of the Ormstown and Franklin Centre exchanges will require many sided construction programs which must be fitted and synchronized to meet the changeover dates so that all telephones may be switched over to dial operation within a matter of seconds.

First step in the Ormstown changeover program has now been taken with the awarding of a contract for construction of a one-storey exchange building on Prince Albert Street in Ormstown. Tenders will be called for construction of the Franklin Centre building in the near future.

Mr. Rivest said the contract for the Ormstown building had been awarded to Andy Limited of Montreal. Construction work

will begin shortly, with the building to be completed towards the end of the year. Skilled telephone technicians will then begin the installation of the complex dial switching equipment.

The new Ormstown exchange building, which will measure 53 feet by 28 feet, will have a reinforced concrete floor, a structural steel frame and brick walls.

Initial installation of switching equipment will be sufficient to serve some 1,000 telephone numbers. This will allow the Bell company to provide service to all persons requesting it for some time after the changeover. Additional equipment can be installed when required, and the overall capacity of the exchange will be 1,400 terminals — each representing a telephone number.

With the introduction of dial telephone service, new telephone numbers consisting of an exchange name and five digits will come into use in Ormstown and Franklin Centre.

Projects associated with the conversions will include adapting present telephone instruments for use under the dial system or replacing them with dial instruments, as well as the overhauling and extension of the entire wire and cable network serving the two exchanges.

Queen Expecting A Third Child — Announced On Friday

Queen Elizabeth is expecting her third child early next year. This news swept around the world with great excitement last Friday when Buckingham Palace, in its traditional straight-faced manner, released a formal announcement that: "The Queen will undertake no further public engagements."

The announcement that heralded another addition to the Royal Family followed the Queen's return from a gruelling Royal Tour of Canada by less than five days. It came on the day that the Queen, Prince Philip and their two children arrived in Scotland for their summer vacation at Balmoral.

Will her release from public engagements, the 33-year-old monarch now is free to enjoy the seclusion of her Scottish home until late October. Messages of congratulations, many from Canada, flooded the tiny village post office near Balmoral, and the British press went into a tizzy over the coming event.

But there were rumblings of anger from the fisherfolk and crofters on the rugged lonely islands of Orkney and Shetland, north of Scotland. There, the proud inhabitants have been preparing for weeks for a tour by the Royal Family, due to have started last week-end. It was cancelled along with all other royal engagements. An autumn tour of West Africa was also ruled out.

Prime Minister Diefenbaker was one of the few people outside the royal household who shared the Queen's secret before the Buckingham Palace announcement. Early in July, during her Canadian tour, she told him privately there was some possibility that arrangements for the trip might be affected.

The Prime Minister offered to cancel the tour, but the Queen insisted on fulfilling all her scheduled arrangements. If at all possible, rather than "cause disappointment to millions of persons."

Mr. Diefenbaker, holidaying in Prince Albert, Sask., said "the glad news from the palace will be greeted with happiness and acclaim by the Queen's subjects everywhere."

He extended the affection and warmest good wishes of the government and the people of Canada to the Queen and her husband.

No Sabre-Rattling

The much-suspected invitation by President Eisenhower to Nikita Khrushchev to visit the United States materialized last week and the Russian premier readily accepted. He also promised not to rattle his sabre during the momentous tour, to be made in September.

The U.S. leader will follow Mr. Khrushchev back to Russia later in the fall in an exchange of trips that both sides hope will, as the president put it, "melt a little bit of the ice that seems to freeze our relationships."

The announcements came at the end of the successful trip of Vice President Richard Nixon to Russia and Poland. The Soviet leader, smiling and enthusiastic about the coming journey, told a rarely-called press conference in Moscow that in the old times, people used to bring their weapons in the hall when they went in to talk peace. We should do that now and there should be no sabre-rattling."

New Regulations Reduce Quebec Duck Bag Limits

Reduction of both the daily bag and the possession limits on ducks and the possession limit on geese, the opening of the hunting seasons a week later, and a slight enlargement of the Northern Hunting District are the main changes in the revised migratory bird regulations for Quebec announced by the Canadian Wildlife Service. The changes reflect a decline in the waterfowl population in most parts of Canada. To meet this situation, bag limits in all Provinces have had to be reduced until the population recovers.

This year Quebec hunters can shoot only six instead of eight ducks a day and hold in pos-

session 15 instead of 20 geese, of which not more than 10 may be species other than the greater snow geese. The changes are necessary to protect the waterfowl population, which shows a decrease this year.

Hunting seasons on ducks, geese, rails, coots and gallinules will be Sept. 12-Nov. 22 in the Northern District, Sept. 19-Nov. 29 in the Central District and Sept. 26-Dec. 13 in the Southern District. The hunting season in the Central District now coincides with the hunting season in the adjacent parts of the Central District of Ontario, not only along the Ottawa River.

Other seasons are: woodcock,

J. M. Bentley To Observe Cuban Land Reform

Apparently the new Cuban Land Reform program will not be implemented without first having the benefit of authoritative discussion by a group of people who are well informed on the problems of agriculture. The Cuban Government invited J. M. Bentley, 1st Vice-President of the Canadian Federation of Agriculture to sit in, as an observer from Canada, on a National Forum on Land Reform in Havana, from June 28th to July 12th.

The invitation was issued to Mr. Bentley through the Canadian Federation of Agriculture, by the Cuban Embassy in Ottawa, and while in Cuba he was the guest of the Cuban government. The well known Edmonton district dairy farmer is Canada's only representative on this Forum. His experience in farm organization and his background of success as a farmer in his own right made him a welcome addition to the meeting.

Routine Matters Discussed At School Meeting

The Huntingdon School Board of Commissioners held a regular meeting in the Principal's office at Huntingdon High School, on Thursday evening. All members were present except Commissioner Ronald Wood.

At a special meeting held on July 13th, Commissioner J. S. Gaw was named Chairman of the Board, and he presided at the meeting on Thursday.

A check was made of various adjustments in the building of new addition and there are still some which have to be made. The levelling of the grounds where a discussion was held regarding the levelling of the grounds where the Walsh house and sheds have been removed. It was decided that this should be done as quickly as possible so that the order might be given to have the fence erected around the grounds. The order for the fence was to be sent forward by the secretary.

It was decided to have the bus owned by school given one coat of paint as per a rough estimate that had been given.

As the books of the school were in the process of being audited, it was decided to call a special meeting later to set the rate for the taxes for the next ensuing year.

After viewing the standings of the students in Grades 10 and 11 as per the results of the Quebec examinations, the Board adjourned to the call of the chairman.

Mushrooming Development of Supermarkets

While small farmers, and family farm units express concern over the growth and development of the corporation farm, there is a similar development in the food merchandising business. The corner grocery, hard pressed by large supermarkets, and merchandising chains are being forced to accept smaller profit margins, as this powerful development takes over the distribution of food and other everyday necessities.

The Financial Post reports that the rush of the major chains to capture the bulk of the sales is turning into a stampede. Recently Steinbergs, a very big operator in Quebec province, moved into contention in Ontario with the purchase of 38 Grand Union Co. stores. Now, Dominion Stores, the largest of them all, already in the top sales spot in Canada, announces that they will open 75 new supermarkets in the next two years, adding them at the rate of more than three new units a month to their existing 342 store chain.

Our first landlord was in Japan and I never saw so many camera addicts as at Yokohama. The wharves and buildings on them were swarming with amateur photographers shooting from all angles. I was amazed at the high standard of progress that has been made by Japan after the terrific drubbing it received during the war. Yokohama, and Tokyo, are now almost completely Westernized with about 40% of the people wearing Western attire. The distance between Tokyo and Yokohama is 21 miles by rail. We made the trip, in a New York subway type of train (below the surface) in 28 minutes with 4 short stops. There seemed to be continuous urban buildings and a very low volume of traffic. The traffic must be seen, it cannot be described. I have been a city dweller and have been in New York, London, and Paris but I have never seen the volume and speed as I saw in Japan. Believe it or not I hired a taxi to cross a wide street at a very low volume. The taxis are very small. Kobe is more provincial, on the way we saw the famous Mount Fuji wearing a pure white mantle of snow. The buildings were not so substantial and there were many Shinto and Buddhist shrines. Houses, some of bamboo straw matting paper, sand, etc. I might say that Japanese beer is equal to any and Japanese goods have been propagated as inferior. I will assert that more value can be purchased there for the money outlay than at home.

Hong Kong has I believe the prettiest harbour in the world and of course is the shopping paradise and quite a mixture of nationalities with refugees from all over the world. Chinese from the mainland, Indians and others from every country in the East, but still a teeming city of people. There had been riots and demonstrations but we still saw baby buggies around 2 to 3 years old at midnight living asleep on the pavement with an arm and a tin cup clutched in a hand. We were warned not to give the children were employed by a syndicate. On our last night on our way back to the ship, my wife dropped some coins into a sleeping child's cup and we were immediately surrounded by about 10 beggars who

Oct. 3-Nov. 7 Northern District, Central District and Southern District; Wilson's snipe, Sept. 26-Oct. 31, again in all districts. In coastal waters of Saguenay County between Moisie Point and the Quebec-Newfoundland boundary, an additional season for scoter, elder and old-squaw ducks is provided Nov. 23-Dec. 22.

Daily bag limits remain at five for geese, 25 for rails, coots and gallinules, eight for Wilson's snipe, and eight for woodcock with a possession limit on the latter species of 16.

For the first time this year Quebec hunters will be allowed to use power-boats for retrieval dead or crippled ducks provided they do not carry loaded guns in the boats and do not travel more than 200 yards from their blind.

A special limitation is provided for hunting along James Bay. A hunter residing more than 25 miles from the bay cannot kill more than 15 geese during the season within 25 miles of James Bay.

Rotarians Hear Interesting Talk On New Delhi, India

The speaker at the Rotary Club meeting in Huntingdon, on Monday, was Mr. A. Graham, who is in charge of Immigration at the Port of Huntingdon. He was introduced by Mr. Alton Warden, also a member of the Department of Immigration here. He was thanked by Francis Cleyn.

During the late summer of 1956 I was informed that I had been appointed Immigration Officer in Charge and Attache for Canada at our diplomatic mission in New Delhi, India. I also assist at the office of the High Commissioner for Canada in Pakistan on Immigration matters.

The original booking arrangements were to travel to the U.K. and from there to Bombay. Before I could get away the Suez Canal was closed with subsequent shooting and military had to be changed (happily) and I proceeded over the Pacific which included San Francisco across the Pacific to Honolulu, Yokohama, Tokyo, Kobe in Japan, Kowloon and Hong Kong (Victoria) in China, Singapore and Penang in Malaya, Colombo, Ceylon, Cochin in South India, then Bombay and from there by rail to New Delhi. My return trip leaving Bombay through the Indian Ocean, Persian Gulf, Red Sea, sailing past Saudi Arabia, Libyan Desert, Suez, through the canal, Port Said and Alexandria, Mediterranean, the Straits of Gibraltar, Naples, Genoa, Leghorn, Marseilles and across the Atlantic Ocean. At New York I was made an honorary member (non resident), the circumnavigator of the world of San Francisco and New York.

It is very difficult to describe the far East not so much in human beings but customs and religions do vary. We had to skip Honolulu because of a hurricane. I think we were in the "Edith" I think it was but as I was on a luxury round the world cruise liner, life was not too unpleasant if expensive and dress up every evening for cocktails (dinner jackets) and Captain's dinners. Myself and the American Consul of Penang proceeding to his post were the only poor persons on the ship. The rest of the passengers were multi-millionaires whose husbands had died making the millions. In fact I dropped a half a dollar on the deck but told the steward that handed it to me that it was not mine otherwise I would have to tip him \$1.00 picking it up.

Our first landlord was in Japan and I never saw so many camera addicts as at Yokohama. The wharves and buildings on them were swarming with amateur photographers shooting from all angles. I was amazed at the high standard of progress that has been made by Japan after the terrific drubbing it received during the war. Yokohama, and Tokyo, are now almost completely Westernized with about 40% of the people wearing Western attire. The distance between Tokyo and Yokohama is 21 miles by rail. We made the trip, in a New York subway type of train (below the surface) in 28 minutes with 4 short stops. There seemed to be continuous urban buildings and a very low volume of traffic. The traffic must be seen, it cannot be described. I have been a city dweller and have been in New York, London, and Paris but I have never seen the volume and speed as I saw in Japan. Believe it or not I hired a taxi to cross a wide street at a very low volume. The taxis are very small. Kobe is more provincial, on the way we saw the famous Mount Fuji wearing a pure white mantle of snow. The buildings were not so substantial and there were many Shinto and Buddhist shrines. Houses, some of bamboo straw matting paper, sand, etc. I might say that Japanese beer is equal to any and Japanese goods have been propagated as inferior. I will assert that more value can be purchased there for the money outlay than at home.

Hong Kong has I believe the prettiest harbour in the world and of course is the shopping paradise and quite a mixture of nationalities with refugees from all over the world. Chinese from the mainland, Indians and others from every country in the East, but still a teeming city of people. There had been riots and demonstrations but we still saw baby buggies around 2 to 3 years old at midnight living asleep on the pavement with an arm and a tin cup clutched in a hand. We were warned not to give the children were employed by a syndicate. On our last night on our way back to the ship, my wife dropped some coins into a sleeping child's cup and we were immediately surrounded by about 10 beggars who

appeared to come from nowhere. We were much curtailed in our wandering, for security reasons, because of the Red riots of a few days previously in which 80 people were killed including the Swiss Consul and his wife (burned to death in their car). There were also hundreds of other casualties, so we avoided native quarters although there was the smell in the air. About this time the Egyptian show started with all the newspapers headlining "Britain at War".

Our next stop was at Singapore, but again Red riots and demonstrations curtailed our original 5 days stay to 3 days as we had to anchor in the roads until security permitted. It was very hot, being only about 70 miles from the equator and on going ashore we found barbed wire barricades everywhere. The streets were patrolled by armoured cars. I was told that the jungle was full of communist partisans. I met a major, a company Commander in a British regiment, who had a short leave for rest, and asked whether they were catching any in the jungle. He said: "No! but we are clearing the jungle of pythons and all other snakes as well as tigers, panthers and ate well from game. His regiment was "The Queens" and not wanting to show my ignorance, say the British Army in spite of did not inquire further. I will be the first to admit that I was very smart in Malaya and every train had a pilot car and engine preceding regular trains to take the explosives and ambulances on the route. I saw very fine young chaps boarding these suicide cars knowing the trip may be their last.

From Singapore to Ceylon a beautiful footpath in the Singahees all clean and dressed in white with the women in colorful saris.

The Singahees believe and claim that Ceylon was the Garden of Eden mentioned in the Old Testament of the Bible and a mountain on the center of Ceylon is called "Adam's Peak". There is a footprint of a man on the top that the Moslems claim as Adam's. The Buddhists claim as of Buddha and the Christians as that of an apostle sent to christianize the East. (St. Thomas the Doubter).

The Botanical Gardens in Colombo could come quite akin to Eden with a profusion of banana trees, palms, monkeys and every bird known to the tropics, including parrots, budgies and peacocks.

From Ceylon we went up the Malayan coast to Cochin in South India. Cochin is in Kerala State and had a communist state government for the past two years which has now been swept by the central government. The coast is very beautiful, full of tropical foliage and the sea dotted with the coloured sails of the Dhows, made a most attractive scene. Our next stop, Bombay, we disembarked and on viewing the harbour I saw the Indian flag with the wheel of life on it on every Government building. My first impression was that the place was infested with Rotarians, only the Indian wheel has no cogs.

The Indian railway main line is very good. First class private compartments are air conditioned but usually passengers carry sleeping bags. The countryside through which we travelled was very dry and very reminiscent of a Biblical picture. There is a form of wooden plow with a single stick up from the center for the plowman to hang on. Again in passing one saw an Indian in a flowing dhoti leading a very small donkey with a woman and child in arms sitting sideways on the animal. At each station hordes of people tried to scramble in 3rd-4th class carriages, many being left behind. With a temperature of over 100° the interiors can be left to the imagination.

New Delhi, India, was built about thirty-five years ago by the British and I may say that the buildings cannot be duplicated in any capital and cost multi-billions of dollars. It is situated about 3 miles from the ancient city and beautifully planned. The Presidency, Secretariat, Congress and the whole city itself was planned by the British particularly for beauty, parks and public Gardens abound. Since the British moved out some of the residential areas have suffered somewhat but government buildings and grounds are well maintained. New Delhi is the seventh city of Delhi built and is according to astrologers the one that will last until the end of time. The previous ones having been destroyed by conquest. My residence was located about 5 miles from Delhi and required 8 native servants to maintain. Beautiful silks, precious gems, objects of art, are incredibly cheap compared to our standards.

A good number of the older Indians deplore the fact that

Two Accidents In One Near Hemmingford

An accident occurred on Route 52, one mile west of Hemmingford, on Sunday evening, August 9th, at about 6 p.m., causing three persons to be hospitalized.

A car driven by Trancere Desureau and with passengers Henri Boudeau and Yvon Lefebvre, went into a ditch and struck a rock and ended back on the road. The driver presumably lost control, which caused the car to go into the ditch.

While waiting for the police to check the accident, a second car came over the hill, driven by Claude Roy and hit the Desureau car. Roy, Boudeau and Lefebvre were taken to the Barrie Memorial Hospital, Ormstown, where they were treated. Lefebvre had suffered a broken leg. The two others were treated, but their injuries were not serious. Const. H. Hirsch of Huntingdon investigated the accident.

Return From Trip To Western Canada And Pacific Coast

Mr. and Mrs. Lawrence Murphy returned home July 28th, after enjoying a very interesting and beautiful trip to the Canadian West and Pacific Coast.

One of the outstanding attractions they attended was the famous Calgary Exhibition and Stampede. From their enthusiastic description, its slogan of "The Greatest Outdoor Show on Earth", is indeed well-earned.

They were deeply impressed by the greatness and natural beauty of the Canadian Rockies. When leading about the Rockies, they were thrilled to note that these mountains have been described as fifty Switzerlands thrown into one. The snowy peaks, rugged precipices, foaming torrents, and canyons fascinated them. They regretted the fact that they had not have more time to admire the beautiful Alpine scenery of Banff, and the exquisite coloring of Lake Louise with white Victoria Glacier at the far end.

During their trip they stopped at various points with relatives in Calgary, Alberta. While in Calgary, they enjoyed a lovely visit with Mr. Lionel Leary (Mrs. Murphy's brother). They also visited relatives and friends in various parts of Alberta: Medicine Hat, Claresholm, Carmanagay, Eekville, Calgary and Banff.

On the "Kakalaka" they reluctantly ferried from the old world atmosphere and unique charm of Victoria, B.C. to Port Angeles, Washington. They then followed the western coast of Washington and relaxed in the cool, balmy breezes from the Pacific Ocean.

As they returned eastward, they visited the famous Grand Coulee Dam in Washington; Yellowstone National Park and its most renowned geyser, "Old Faithful" in Wyoming; Bad Lands of South Dakota. They travelled through Minnesota and Wisconsin, stopping overnight in Chicago, Illinois. They then journeyed through Indiana and in Detroit, Michigan, they went through the tunnel to Windsor, Ontario.

Before returning home after a month's absence, they stopped in Whitby, Ontario, for two days where they enjoyed a lovely visit with Mr. and Mrs. Edward Murphy and Ricky in their beautiful new home.

Young Liberals Sponsor Meeting

A meeting in support of the Quebec Liberal Party was held in the St. Joseph's Parochial Hall, on Tuesday evening, under the sponsorship of the Huntingdon Junior Liberal Association. The Huntingdon Citizens' Band played a few numbers before the meeting and opened the meeting with O Canada.

Mr. Honore Mercier, a former Liberal member for Chateauguay County was present and addressed the gathering. He outlined how the Party was organizing in the County of Chateauguay and would be in readiness when the time comes for another election. Huntingdon is now doing the same and he wished them every success. We want to send Liberals to Quebec in the next election, he said.

Mr. Glen Brown, M.P.P., who is quite prominent in the news and on the radio on account of his criticism of the Union Nationale Government, was the next speaker. Mr. Brown was also present and Mr. Brown gave him great praise for the work he is doing at Quebec. He congratulated the young Liberals in Huntingdon for the start they have made in organizing the young people.

He then went on to quote figures and discuss the Public Accounts of the Government of the Province of Quebec. He said the British left so soon as being independent with British guidance, India would be the leader of the Far East in actual fact,

Plan More Cottages For Dorea Village - Change In Administration

Dorea Village, near Franklin Centre is planning for a further extension in the next few months. Since this village was started several years ago, it has undergone many changes and new buildings have been added. It started out on a piece of farmland and a few cottages were built to house the young boys who came there. Later a school house was added and from then on other buildings were erected. There are a few more cottages, a twelve classroom school and gymnasium, a large dining hall, kitchen and office building, barns, etc. The grounds are in the process of being laid out but have not yet reached the perfection stage. The present site and buildings are valued at over one million dollars. The whole has been under the supervision of Fr. Lussier until the present time.

With the plan for more accommodation, there will come a change in the direction of the Village as the use to which it will be put, will also change. Up until now the boys have been from broken homes, or poor homes and needed a place where they could receive proper care and supervision. The future plan calls for all mentally retarded children to be housed at this point. From 40 to 60 boys have been staying at the village and some of these will continue to stay, as they fall into the class of mentally retarded. The others will be sent to other homes in Montreal and area. It is expected that about 160 mentally retarded boys from 9 to 18 years will be brought from Montreal and altogether about 200 will be in residence at Dorea in the near future.

Thus it is that from 10 to 12 new cottages will have to be built at Dorea to accommodate the increased population. In addition more staff will be needed and these also will have to be housed. It is expected that the new plan will need about \$500,000 to cover the cost of the building, etc. It is expected that a grant for a portion of this amount will be received. Like other schools, this one receives grants for the upkeep and also for new building. These grants are applied for direct and not through the local member. An application has already been made for a grant, but it has not been made known yet how much this is likely to be.

It is hoped however, to get started on the building very soon and that it will be completed in readiness for April or May, 1960. If that can be arranged, the new population will be moved in and the village will operate on its new plan. The boys will need special instruction and thus a staff of teachers trained in this particular field will be on hand to do the job. At present, Nuns are doing the cooking and looking after meals and such. When the new plan takes shape further female help will be required.

Sgr. A. Girouard will be the new director in charge of teaching and so forth. Fr. Lussier will be chaplain for the institution as a whole.

The Village has about 400 acres of land, not all in same location, but all the buildings will be in the same area. The upkeep is dependent upon the government, grants obtained and on a monthly draw which is held. The parents, or guardians of the boys do not contribute anything as in most cases they are in poor circumstances and cannot afford to do so. Contributions are received from time to time from well wishes and these are gratefully appreciated. To some extent the home is self-sustaining as vegetables, milk and so forth are obtained through the efforts of the boys on the farm. However, there is still a considerable expense and all the financial help that can be obtained is welcome.

C. F. A. Makes Recommendations For Dairy Industry Betterment

Winnipeg, July 30, 1959 — The closing sessions of the Canadian Federation of Agriculture semi-annual meeting in Winnipeg, saw the C.F.A. Directors dealing with a number of topics, notably dairy support price policy, and radio and television broadcasting. The radio farm organization proposed several moves designed to offer an increased measure of security to the dairy industry, and one of these was also aimed at increasing the consumption of dairy products through a consumer subsidy. The Board passed a resolution which put forth three requests to the Canadian government, dealing with butter:

1. The continuation of the present 6¢ per pound floor price on butter.
2. The institution of a consumer subsidy, at a rate that will bring the latter price to consumer level to a level that would encourage consumption.
3. Assurance that the consumers would receive the full benefit of such a subsidy.

The other resolutions called for the Federal government to continue the present floor price in skim milk powder until the end of the dairy year (April 1, 1960), and that a change be made in the regulations governing the 25¢ per hundred weight payment on secondary milk, allowing all producers of this product to qualify for the payment.

In the field of broadcasting, the Canadian Federation of Agriculture was on record as strongly reaffirming its convictions that "the C.F.A. is essential to the future welfare of our citizens, and to the unity of our nation."

(a) maintain and further develop

a single system of national broadcasting of which both the C.B.C. and private stations are a part.

- (b) maintain a national broadcasting service adequately financed by public revenue.
- (c) create a climate in which operations are comprehensive and such a system can be conducted independently and impartially.
- (d) ensure to the public through the national system, a proper overall balance of broadcasts designed to be informative, enlightening and entertaining, and which are at all times in good taste and of the highest possible standard.

Dealing further with the topic of the C.B.C., the Federation resolved that "the C.F.A. re-endorse its confidence in the ability of the Canadian Broadcasting Corporation to provide a national broadcasting service providing it receives adequate support from the Federal Treasury, and that it is divorced from political pressures or influence."

The C.F.A. Board also will recommend to the Department of Labour that the Unemployment Insurance Commission consider the establishment of a program of voluntary unemployment insurance for farm workers, when they are not insured on a compulsory plan because of special crops or special areas.

This was the closing session of the C.F.A. Semi-annual meeting, and plans were laid for the annual meeting which will take place in Toronto, in late January 1960. The three day meeting was held in the Fort Garry Hotel in Winnipeg.

Reconstruction of Road to Border Postponed Again

Reconstruction of the Chateauguay-Border Highway 374 will again be delayed, the N.Y.S. department of Public Works has stated.

This highway one of fourteen Federal-aid highway projects costing an estimated \$36,800,000, scheduled to be let on contract Thursday, August 6, are being withdrawn because of the failure of Congress to assure payment of the Federal share of the cost. J. Burch McMoran, State Superintendent of Public Works announced.

"Obviously this forced delay means we will not be able to meet our program commitments during the State's current fiscal year."

Federal aid projects comprise about 90 percent of the State's \$303,700,000 highway construction program for 1959-60. Approximately \$87,000,000 in contracts have been let since April 1, the beginning of the fiscal year, leaving a program balance

of \$216,000,000 still to be undertaken.

The Superintendent said this situation arose as a result of Congress' failure to enact legislation to replenish the Federal Highway Trust Fund, out of which Federal-aid payments are made to the States.

Mr. McMoran said Federal officials have informed him the condition of the Highway Trust Fund, is such that Federal-aid could not be assured on any contracts let after August 1. — Chateauguay Record.

CREDIT RATINGS

A Hotel chain makes the boast that credit cards are the "best assurance of your credit rating." There is arrogance in such a claim. The best evidence of a high credit standing is a record of having paid one's bills promptly over the years. The idea nowadays seems to be that a person who pays cash is either a bankrupt — Bonnyville (Alta.) Tribune.

Oust Chateaugay Chief At Rowdy Town Meeting

CHATEAUGAY—Police Chief Roland Lussier of Chateaugay was voted out of office at a special meeting of the town council, last week, which featured a mass demonstration by town residents. A mob of about 500 people formed in the town square waving placards and demanding the re-instatement of Lussier. Several windows were broken in the residence of Chateaugay Mayor Georges Soyez.

Provincial police were called in by local officers to "help maintain order" according to J. McKee, a town official.

The issue arose July 28 when Mayor Soyez cast the deciding vote on a motion which called for Lussier's dismissal. Town Councilors were split in the voting, with four wards 1, 2, 3, (Old Chateaugay) voting to keep Lussier, and those from wards 4, 5 and 6 calling for his dismissal.

Last night's special meeting which saw 125 people crowd into the 55-seat town hall, was called after member of the pro-Lussier faction presented a petition calling for further voting on the matter.

The second vote duplicated the first, with Mayor Soyez again casting the deciding ballot.

McKee, deputy-fire chief of the town, said that Lussier's dismissal was "a result of his inability to organize and maintain an efficient police department in Chateaugay."

He added that "Chateaugay

has grown immensely in the last year and as a result the duties of police chief have multiplied many fold."

After the first vote last week the town council appointed Alec Milburn as acting chief. He resigned two days later.

Current acting chief is Harry Spencer, previous deputy chief.

Former Chateaugay Girl Entertained

Miss Sheila Walker, daughter of Jim and Edith, former residents of Chateaugay, now of Granby, was entertained on Saturday, August 8th., at a linen shower. Miss Doreen Johnson was hostess and about thirty friends gathered for the occasion. Dolls dressed to represent a Bridal Party formed the centre piece on the dining room table. The guests arrived in time for dessert (strawberry shortcake), and after Sheila had opened her gifts, small cakes and cookies were served with coffee. Miss Walker is to be married to Mr. William Troup, on September 19th, at Granby, and will reside in Digby, Nova Scotia.

Heights Recreation Club Re-Tennis

The evenings on the cool side and refreshing, and vacations about over, the Tennis Club is having a busy time organizing the coming events for this month. Last Wednesday, non-residents and local residents of

Chateaugay had a wonderful time joining in the Round Robin Tournament. Mrs. Gladys McNeill was the lucky winner for the ladies, and Kevin Brady won for the men. Everyone is welcome to the Round Robin Tournament, which is held Wednesday nights, starting time, 7.30 p.m., fees, 25c. Prizes. Come and have a good time.

Events for August. — August 10th, "Playoffs" begin.

August 22nd. — Club invitation to Cornwall. Chairman: Bob Moore, OX. 2-8086.

August 29th. — Heights Invitation Tournament. Chairman: Bob Moore, OX. 2-8086.

Mrs. Jim Johnson Bereaved

Mr. Harry Imison of Shawville, Que., died suddenly on August 7th at the home of his daughter, Mrs. John Baugh of Point Claire, Que. A Masonic funeral was held on Sunday, August 9th, at Shawville. Mr. Imison is survived by a son, Charlie of Shawville and three daughters, Marjorie (Mrs. Jim Johnson) of Chateaugay Station; Nellie (Mrs. E. Dagg) of Montreal West; and Dorothy (Mrs. John Baugh) of Point Claire. Sincere sympathy is extended to Mrs. Johnson from her friends and neighbors.

News Round-Up

Miss Arabelle Enright, The Station, who just recently returned from the Sun 'N' Sand at Plattsburg, N.Y., has left by motor for a holiday in Wildwood, New Jersey.

Mr. and Mrs. David Ferguson of Montreal, were Sunday visitors at the home of Mr. and Mrs. Harry Holly, Oliver Avenue.

Mr. and Mrs. Bernard Wilmore have returned to their home in London, Ont., after a pleasant holiday at the home of Mr. and Mrs. John Gleave, The Heights. Captain and Mrs. J. Arnold and their three sons of Boucherville, were recent guests of Mrs. Winston Herbert.

Corporal and Mrs. Jacques of Val Cartier, Que., also paid Mrs. Herbert a visit during their stay in Montreal on holiday.

Miss June Wilson is visiting her young brother David in Morrisburg, Ontario.

Miss Lorna Herbert is the guest of Mr. and Mrs. Eric Smith at Cavaville and will be joined by her mother for the week-end.

Mr. and Mrs. Roger Comtois of Dupont Terrace have left Chateaugay and are now residents of Ville St. Michel.

Mr. and Mrs. Evan Jack and family of Kingston, Ontario, were recent guests at the home of Mrs. Stanton Jack, enroute to P.E.I.

Mr. and Mrs. Harold Smith, former residents of Hamilton Avenue were visiting friends in our town, on Wednesday.

Mr. and Mrs. Geoffrey Atkinson and children of the Town of Mount Royal stopped over to visit Mrs. Atkinson's parents, Mr. and Mrs. L. T. Cameron, St. John Blvd., on their way to Vermont for a holiday.

Mr. Oswald Andrade of New York City is arriving on Thursday to join Mrs. Andrade and his son Ronald, who have been vacationing in Chateaugay for the past month.

Miss Frances Wait and Miss Margaret Reaney have left for a holiday at Hampton Beach.

Mr. and Mrs. Milton Cameron and children have returned to their home in Port Credit, Ont., after a pleasant holiday spent at the home of Mr. Cameron parents on St. John Blvd.

Mr. and Mrs. Roland Thauvette and children have returned from their holiday at York Beach, Maine.

Mrs. R. Fontaine of Dupont Terrace is a patient at St. Joseph's Hospital, Lachine.

The Bill Mitchells have returned from a holiday at St. Anicet and report a wonderful time.

Mrs. E. Jones of Salaberry

Howick

HOWICK W.I. — A picnic held jointly with the Ormstown W.I. took the place of the regular August meeting at the "A la Claire Fontaine" Beach on Lake St. Francis. This proved to be an ideal spot for an outing, the grounds being extensive, well shaded and well kept, with plenty of picnic tables and facilities for bathing and swimming, which were indulged in by the children and some of the ladies. There were several carloads of members, with some children and four husbands.

After the lunch a short meeting was held at which Mrs. Roy Younie told about three members calling on Mrs. Robert Roy to present her with a life membership and pin. Mrs. James Crawford and Mrs. Frances Greig gave humorous readings. All returned to their homes feeling that a very pleasant day had been spent.

The August meeting of the Georgetown Evening Auxiliary was held at the home of Mrs. Arthur Buchanan with eighteen members and three visitors answering the roll call with a Bible verse with the words "Sheaves".

The President, Mrs. C. Brown, opened the meeting. Mrs. W. Anderson led the responsive reading followed by prayer by Mrs. Nugent.

Mrs. C. McCartney gave the secretary's report. Mrs. G. Whyte read a very interesting chapter of "Open Door to Korea", as the study.

Dainty refreshments were served by the hostess assisted by the refreshment committee Mrs. Anderson, Mrs. Whyte and Mrs. Nugent.

Mr. and Mrs. W. G. Brown, Miss Laura Robertson and Mr. Jim White are holidaying in the Muskoka Lake district.

Miss Della Robertson visited at the home of Mr. and Mrs. W. F. Welch.

Mr. and Mrs. Russell Crawford of Dryden, Ont., were recent guests of Mr. and Mrs. James Crawford.

Mrs. Fleming has returned from a vacation in the Lake St. John district.

Mr. and Mrs. Calvin McCartney, Mr. and Mrs. Ross Buchanan and Mr. and Mrs. Arthur Buchanan attended the Pilon-Lowden wedding at Covey Hill United Church on Saturday.

Mrs. Edna Roberts, R.N. of New York, spent two weeks with her cousin, Mrs. Ann Rich.

Mr. and Mrs. Joseph Hall, of Toronto, spent two days at the home of Mrs. Ann Rich and left with Mrs. Roberts to make a tour of the Seaway.

Rev. and Mrs. Frank Carey and family of Tokyo, Japan, who have returned to Canada for a year's furlough, were guests of Mr. and Mrs. Bruce Ness for a week. While here they were entertained by Mr. and Mrs. Melville Brown, Mr. and Mrs. Robert Templeton and Mr. and Mrs. James Crawford.

Rev. Carey preached at Howick United Church on Sunday.

Miss Marjorie Ness has returned from Macdonald College.

HOWICK — Mr. and Mrs. Fred Holmes and daughter Margaret of Waterloo, Ont., and Miss Marjorie Holmes of England, were Tuesday guests last week of Mr. and Mrs. Russell Kerr.

Mr. and Mrs. Russell Kerr were overnight guests of Mr. and Mrs. Fred Albers of Foster, Que.

Bld., is the house guest of Mr. and Mrs. Rod L'Ecuyer at St. Anicet.

Congratulations to Jim and Sadie Kieran, Dunver Road, who are grandparents for the first time. Their daughter Wanda (Mrs. James Bush) gave birth to a son on August 3rd., at the Queen Elizabeth Hospital, Montreal.

Maple Leaf Grange

August 16th — Maple Leaf Grange Picnic to be held at Glangarry Beach, on Highway No. 2, East of Lancaster, Ontario. (weather permitting), come early, lunch baskets are in order. There are swimming facilities. Bring your friends along too. For further information call Mr. Bert Rankin.

August 25th, Sunday — St. Lawrence County Pomona Picnic to be held at De Peyster Grange Hall, De Peyster, N.Y., (near Potsdam), rain or shine. Speaker Mr. Roy Battles of Washington, D.C. All members and friends are welcome.

Fair — Tickets are now available for the annual Drawing of \$25.00, \$10.00, and \$5.00 prizes. To be drawn last night of Huntington Fair, (September 5th). Please contact Rupert Hawley if you wish tickets.

Lecturer's Program — A most enjoyable program was given at last regular meeting, when Miss June Donnelly, Assistant Lecturer took charge. There were interesting games for all to enter. Community singing, and a very instructive "inlet" into what young people in the Grange, and how this form of teaching, learning, etc., can be used to advantage in any Community work, undertaken by the Youth Group in all branches of service. It is wonderful to see the young folk take full charge of the meeting, in such a fine manner as did June Donnelly. Many of the "older folks" never had the opportunity of this Leadership School. We are happy to announce that we will again be privileged in having June conduct the program for the August 18th meeting; when Mrs. R. Goodfellow will be on vacation.

Service and Hospitality — Results of Crochet Contest. The winner of the Luncheon cloth Class was Mrs. R. Donnelly; Mrs. Etta Herdman won in the Dolly and Scarf Classes, with Miss Ida Anderson winner of the table centerpiece. The above articles have now gone to Franklin County to be judged at Pomona level. We wish these members luck in County level, and wish to thank all the other members who entered this Contest. Appropriate prizes were presented to the judges and winners.

National \$50,000.00 Baking Contest: There was a fine selection of baking entries and the judges were hard pressed to select a winner in the three classes of entries. Mrs. R. Taylor was the "Cake" winner, with Mrs. R. Donnelly first for the "Yeast" breads, and Mrs. Grace Lallemant winner of the "Cookie" class. These members will now have to place entries in the Franklin County Pomona Bake Off, in the near future. Here again, we extend our best wishes to these ladies. Mrs. C. Dahms, and Mrs. C. Greenbank of Huntington, both holding Degrees in Home Economics, McGill University, (Macdonald College), and Mrs. W. Chrismer of Lambertville, N.J., also graduate of McGill University, (Macdonald College), and Accredited Student of Rutgers University, N.J., Temple College Philadelphia and New Jersey State College, were the judges. Once again, our thanks to all who entered the Contest and made this a successful project. Prizes were distributed to winners and judges alike.

Youth Project — Miss Betty Moore being the Honour Student in the Home Economics, (Domestic Science) Graduating Class of Huntington High

School, is the winner of the Grange Prize in this field. Our best wishes to Betty for the future ahead. Miss Jeanine Seiler, as we reported early, was the winner of this prize for the Graduating Class at Congregation of Notre Dame School.

It is the pleasure of the Service and Hospitality Committee to again thank all the members who have contributed to the refreshments at the Grange meetings, etc., also the members who have helped in any way to make the work of the Committee lighter, during this social hour of the meeting nights.

Kilbain

KILBAIN — Mr. Billie Cosgrove of Delaware, his girl friend and her brother, spent a week's holiday at his home with his parents, Mr. and Mrs. Hugh Cosgrove. They motored back home Saturday by way of Boston to call on her brother and sister there. Mr. and Mrs. Emmet McDonagh motored to Nitro, on Sunday and spent the day with Mr. and Mrs. James Curran and family. Little Marion returned home with them after spending a week's holiday in Nitro. Miss Lindy Curran also returned home with them.

Mr. and Mrs. Harold McNicol Bruce and Bryan of Cornwall; Mr. and Mrs. Hugh McNicol and Mr. and Mrs. John Clark, were supper guests of Mr. and Mrs. Ed Bannan on Sunday. Trudy Curran returned to Cornwall Sunday night with Mr. and Mrs. McNicol, to spend a week's holiday.

Mr. and Mrs. Bill Smythe are spending holidays in Utica, N.Y. and Syracuse.

A much longed for rain fell Monday night and Tuesday and will be a wonderful benefit to the gardens that were drying up.

Mr. and Mrs. Art Chamblion are spending a vacation at their summer home here.

Mrs. Anna MacCaul and Miss Margaret Lapine of Florida, spent the past week at Mr. and

Mrs. James Smythe's Camp at the Point and were supper guests at the home of Mr. and Mrs. Ed Bannan on Thursday. Mr. and Mrs. John B. Murphy of Montreal and Jimmie and two of his college friends, spent the weekend with Mr. and Mrs. J. B. Murphy at Sylvesters Point.

TEATIME TOPICS

Corn oil has been suggested by two different sources as a special dietary aid.

The American Medical Association says vegetable oils, commonly used in cooking and in salads, have come to the aid of diet-conscious teen-agers who suffer from acne.

Corn oil, used as a dietary supplement, apparently prevented weight loss and fatigue associated with the low-fat diets frequently used for acne treatment.

Dr. W. R. Hubler of Corpus Christi, Texas, said corn oil was especially well tolerated and "made pleasant low-fat diets more palatable."

In Canada, one of the country's largest food industries has introduced a 100 per cent corn-oil margarine. Medical research studies associate saturated fat with high blood cholesterol levels and consequently high blood pressure.

A spokesman for the company said that evidence indicates corn oil is the most unsaturated fat ever used to make margarine or other table spreads. The new margarine should prove an effective dietary aid in lowering the cholesterol content of the blood, he said.

Dry-frying Technique — Those on low-fat diets and weight watchers may be interested in a new "dry-frying" technique which adds no calories to the food.

A fine film which is tasteless and odorless is sprayed on the pan or casserole. The manufacturers say it's because the frying, broiling or baking is done on this film instead of in

fat, that no calories are added in the preparation of the food. Usually the 70-77 calories contained in a raw egg are increased to 110-125 calories by frying the egg in half a tablespoon of shortening. Hamburgers and other foods may be increased by 15 to 30 per cent.

For those who aren't counting calories, the new "dry-frying" method may be used with the amount of shortening, reduced to just enough to produce the desired flavor.

The new system simplifies washing pots and pans too. The thin film prevents food particles from sticking to the surface of the frying pan, casserole, barbecue grill or whatever dish is used.

Last Stronghold — American men must have been disillusioned to read that President Tito has told husbands in Yugoslavia to help their wives with the household chores.

American men have long regarded Europe as one of the last strongholds of the dominating male and the obedient wife.

Tito blamed a number of broken marriages on the fact that wives are over-burdened with housework, children, and a daily job.

He said the work at home (Continued on page 3)

MORE AND MORE DELIVERIES BRING O'Keefe ALE

Delivery boys everywhere are noticing this new trend to O'Keefe. Every day more and more people are discovering mild O'Keefe Ale. Next time you order beer from your grocer, be sure to ask for O'Keefe — you'll enjoy its natural mild flavour.

THE O'KEEFE MILDNESS SECRET

Ever bitten into a grape seed? It's bitter, unpleasant. Grape growers found by experiment that they could develop seedless grapes with nothing to spoil the delicate flavour. It's the same with hops.

Ordinary hops contain seeds which give an unpleasant bitterness to ale. However, O'Keefe master brewers insist on costlier "Seedless Hops", result—there's no unpleasant bitterness, just the right, natural mild flavour.

Drink O'Keefe The Mild Ale!

Miss Isabel Telfer Honored
A "Bridal Shower" — "Garden Party" was held in honour of Miss Isabel Telfer, Saturday evening, August 8. The hostesses were Miss Mabel MacMillan (Convener), Mrs. Nancy McCrimmon, Mrs. J. C. Moore, Mrs. Winnifred Napier and Mrs. Ruth Stark. Mrs. McCrimmon, kindly placed her house, lawns and gardens at the disposal of the organizers, an ideal location for any such event.
After the buffet supper on the lawn, Mrs. Alexis Braithwaite presented, on behalf of those in attendance, a combination Gilt and Waffer, to the bride-to-be, who made an appropriate reply in acceptance. During the course of the evening Mrs. Lucy McCrimmon, Sr., played several of her always enjoyable piano solos, and also accompanied the community singing under the leadership of Mrs. Elvin Wood.
In addition to the official hostesses, those in attendance were: Mrs. Elsie Bennett, Mrs. R. Beal, Mrs. Jean Bickford, Mrs. Grace Boyce, Mrs. Alexis Braithwaite, Mrs. Marjorie Daniel, Mrs. Ruth Daniel, Mrs. Vera Fennell, Mrs. Lizzie Fleming, Mrs. Catherine Gibbs, Mrs. Margaret Goodall, Mrs. Goodfellow, Miss Norma Goodfellow, Mrs. Mamie Hunter, Miss Della Ingraham, Mrs. Lucy McCormick, Mrs. Lucy McCrimmon, Miss Mary MacFarlane, Miss Betty Morse, Mrs. Nora O'Hare, Misses Bea and Mary Pringle, Mrs. Gladys Sellar, Mrs. Alberta Stephen, Miss Frances Walker, Mrs. Helen Wood, Mrs. Jean Telfer was a special guest.
Other contributors who were unavoidably absent were: Mrs. Lizzie Elder, Mrs. Beth Hastings, Miss Norma Lunn, Mrs. Emily Pace, Mrs. Grace Ward, Mrs. Ethel White, Miss Meriba Will.

Rotary Picnic Held
Boys and girls to the number of 150 were taken by the Leduc buses to Somerville Park on Thursday, for the Rotary Club picnic. The shallow water at this picnic ground is a real safety asset, as far as small children are concerned. The older boys and girls were accompanied by adults when taken in deeper water for swimming. The shallow water made it possible to have water running races for the youngsters. During the afternoon the Rotarians conducted a race programme.
Normand Primeau, young 13 year old, son of Mr. and Mrs. Herve Primeau brought their big boat along, propelled by a small motor and took after lead of children for short trips about the bay. At 4 p.m. Mr. Jos Hart came along with a different type of motor boat, it being a platform mounted upon two pontoons, and took groups of boys and girls about the bay. The boat rides were real popular. The Rotary Club gave each boy and girl 40 cents for spending money, and Alcide Caza did a rushing business selling soft drinks, hot dogs, ice cream, potato chips etc.

Died
DIES — At his residence, Montreal, on August 8th, 1959, Abram S. Dies, in his 58th year, husband of Meta Oney. Interment at Huntingdon, Que.

FENNELL — At Morden Hospital, on July 27th, 1959, Mrs. Robert J. Fennell of Rosebank, Manitoba, in her 87th year. Interment at Roland, Manitoba.

PEARCE — Suddenly at Dewittville, Que., on August 8th, 1959, Kenneth K. Pearce, aged 73 years, husband of Margaret E. Hooker. Interment at Ormstown.

RICARD — At Huntingdon, Que., on July 29th, 1959, Mrs. Catherine Ricard (nee Thousaint Houle) wife of Mr. Toussaint Ricard, in her 69th year. Interment in Huntingdon Catholic cemetery.

In Memoriam
SAMPLE — In loving memory of a dear sister and daughter, Pearl McNaughton, who passed away August 14th, 1948 — "Like falling leaves the years slip by. Memories of you will never die." Always remembered by, Father, Sisters and Brother.

Cards of Thanks
I wish to express my sincere appreciation to all who sent cards, cigarettes, etc., to me while I was a patient in the Montreal General Hospital; also special thanks to our friends and neighbours for their thoughtfulness to Beryl and the children.
Russell Paul.
My wife and I wish to express our sincere thanks and appreciation to our friends and neighbours for their kindness to us, and to all who helped in anyway during my recovery, and to Mrs. Fergus Moore for assistance at the time of my accident.
Wellington Potter.

Mr. and Mrs. Glen Moore of Shawinigan, Que., were guests of the past week of Mrs. Moore's parents, Mr. and Mrs. George Boyce. While here, they entertained Mrs. Gooby and Mrs. A. Kilby, of Poole, England.

Mr. and Mrs. J. Alastair MacKenzie of Richmond Hill, Ontario, have been the guests of Mr. and Mrs. W. L. Carr for the past ten days.

Mr. and Mrs. James C. Wilcock have as their guests this week their daughter Mrs. Ian Sparks, and their grandchildren Heather and Donna of Erindale, Woodlands, Toronto, Ont.

Mr. and Mrs. Arnold Milne and boys have returned from a six weeks visit to the west coast. They went by way of Prince Albert, Sask. then to Calgary, Vancouver and Victoria; returning via the States. They report that the wheat yield in Saskatchewan and Alberta will be very good, as the farmers out there said they had a "million dollar rain" in June.

Mrs. Rosalire Turcotte and son Berthol of Hebertville, Lac St. Jean, and Maurice Cote, of Farnham, Que., also Mr. and Mrs. Ivan Paquin and two sons, André and Richard of Massena, N.Y., were weekend guests of Mr. and Mrs. Arthur Gagnon and Arthur Feeny, Lost Nation.

News from Ormstown

COVERING THE ACTIVITIES OF THE "LITTLE ROYAL" EXHIBITION CENTRE

ORMSTOWN — Messrs. Ronald Duncan, Dale McAdam, Mr. and Mrs. Thomas Duncan have returned from a trip to the west coast. Enroute they spent several days with Mr. Gordon Duncan, at Loverna, Sask., attended the Calgary Stampede, and also visited with Mr. and Mrs. Charles Stuart, Bethune, Sask. Mr. and Mrs. Wesley Marshall, Edmonton, Alta. Mr. and Mrs. W. Carson, Pipestone, Minn., and Rev. and Mrs. Irvine Johnston and Karl Shawille.

Among those who returned from the Girl Guide Camp at Morin Heights on Saturday, were Geraldine Sutton, Patsy Rowe, Janet McCartney Sandra Anderson, Eleanor Greig, Rita Barrington, Connie McClintock, Sandra Arthur, Cheryl Etienne, Carol Hughes, Janet Carson.

Mr. David Beattie of Ottawa is visiting with his uncle and aunt, Mr. and Mrs. Leslie Merriam. Miss Betty MacDonald of Toronto, Ont., was a recent guest of Mr. and Mrs. Roland Anderson.

Mr. and Mrs. Alan Hooker spent the weekend with Mr. and Mrs. Arthur White, Debbie and Alan at Murdochville, Que., and visited a few friends at Perce and Peninsula.

Mr. Bobby Bishop of Lennoxville, is visiting with Mr. and Mrs. Mervin Barrington and George.

Miss Amos McCaffrey Honored by Red Cross
On Thursday evening, members of the Ormstown executive of the Branch of the Canadian Red Cross called at the home of Mrs. Amos McCaffrey to present to her the "Badge of Service", earned by her for her diligence and outstanding contribution to the work of the Red Cross. Mrs. Mervin Barrington made the presentation and dainty refreshments were served.

Mr. and Mrs. Allan Goodfellow and family of Sherbrooke were guests on Saturday of Mr. and Mrs. James Greer and family. Sunday guests at the same home were Mr. and Mrs. Alan Greer and Nancy of Montreal, Mr. and Mrs. Donald McKell and family.

Miss Sandra Anderson has returned home after spending a holiday with her grandparents, Mr. and Mrs. J. MacDonald, Toronto.

Mr. and Mrs. M. R. Stalker returned home last week from a trip to England, Scotland and the continent. Dr. Stalker attended the joint annual meeting of the British Medical Association and the Canadian Medical Association held at Edinburgh.

Mr. David Barrington spent the week-end at Franklin with his grandparents, Mr. and Mrs. James Lamb.

Mrs. William Perry of Covey Hill is spending some time at the home of Mr. George Hooker. Messrs. David Barrington, Ivan Barrington and Herbert Barrington motored to Detroit, Mich., last weekend to visit Mr. and Mrs. Barrington. Mr. Herbert Barrington remained in Detroit for some time.

Mr. and Mrs. Mervin Barrington and George spent the week-end with Mr. and Mrs. Henry Bishop, Maribleton.

Recent guests of Mr. and Mrs. Florence Jackson, Mrs. Mary Jackson, Henderson, Miss Mary Jackson, to their home in Cincinnati, Ohio. The demise of the late Mr. Henry Jackson occurred in Cincinnati, recently.

Mrs. Irvine Johnston and Karl of Shawille are spending a few days with Mr. and Mrs. Thomas Duncan. Rev. Johnston is presently at Y.P.U. camp at l'Original.

Mr. and Mrs. J. W. Garshore of St. Bruno were weekend guests of Mr. and Mrs. Harold Parkinson. Masters Terry and Geoffrey returned home with them after spending the past week with their grandparents.

The following annual memberships for the sum of \$10 each have been received by Barrie Memorial Hospital during the past week: Rev. J. Oliver Baron, Miss Margaret Anderson, Mr. John Dow, Valleyfield; Mr. A. F. Boyd, Mrs. Leslie Taylor, Mrs. Elmer Calms, Mr. Kenneth Boyd, Ormstown; Mr. B. H. Berthiaume, Mr. J. P. Philon, Hemmingford; Mr. J. J. Craig, Mr. Ernest Robertson, Riverfield.

Mr. and Mrs. Allan Goodfellow and family of Sherbrooke were guests on Saturday of Mr. and Mrs. James Greer and family. Sunday guests at the same home were Mr. and Mrs. Alan Greer and Nancy of Montreal, Mr. and Mrs. Donald McKell and family.

Miss Sandra Anderson has returned home after spending a holiday with her grandparents, Mr. and Mrs. J. MacDonald, Toronto.

Mr. and Mrs. M. R. Stalker returned home last week from a trip to England, Scotland and the continent. Dr. Stalker attended the joint annual meeting of the British Medical Association and the Canadian Medical Association held at Edinburgh.

Mr. David Barrington spent the week-end at Franklin with his grandparents, Mr. and Mrs. James Lamb.

Mrs. William Perry of Covey Hill is spending some time at the home of Mr. George Hooker. Messrs. David Barrington, Ivan Barrington and Herbert Barrington motored to Detroit, Mich., last weekend to visit Mr. and Mrs. Barrington. Mr. Herbert Barrington remained in Detroit for some time.

Young Liberals

(Continued from page 1)

counties in the south and the Eastern Townships are the forgotten counties he said, the figures showed \$12,018 for Huntingdon and \$133,683 for Lake St. John, which is comparable to Huntingdon County in size and number of electors. Education showed Huntingdon \$21,729; Labelle, \$563,551 and Lake St. John over one million dollars. Hospitalization, Huntingdon, \$4,000 and some; Labelle and Lake St. John over one million each.

More taxes were taken from Huntingdon County than from Labelle so why the difference? You ask your member here and he will tell you he is getting all he can for this county. Then why is Labelle getting so much more? \$56,000,000 has been spent in roads for the Laurentian area to help them draw the tourist business. How about this area? Could not people be encouraged to come here if there were good roads and wide roads for them to travel on. That is why these are the forgotten counties. The Eastern counties were among the richest in Quebec 60 years ago.

Mr. and Mrs. Mervin Barrington and George spent the week-end with Mr. and Mrs. Henry Bishop, Maribleton.

Recent guests of Mr. and Mrs. Florence Jackson, Mrs. Mary Jackson, Henderson, Miss Mary Jackson, to their home in Cincinnati, Ohio. The demise of the late Mr. Henry Jackson occurred in Cincinnati, recently.

Mrs. Irvine Johnston and Karl of Shawille are spending a few days with Mr. and Mrs. Thomas Duncan. Rev. Johnston is presently at Y.P.U. camp at l'Original.

Mr. and Mrs. J. W. Garshore of St. Bruno were weekend guests of Mr. and Mrs. Harold Parkinson. Masters Terry and Geoffrey returned home with them after spending the past week with their grandparents.

The following annual memberships for the sum of \$10 each have been received by Barrie Memorial Hospital during the past week: Rev. J. Dewittville

DEWITTVILLE — On Thursday afternoon, July 30th, the Dewittville W.C.T.U. met at the home of Mrs. Richard A. MacIntosh with eight members and one visitor present. The meeting opened with the singing of

two hymns. The devotional period was conducted by Mrs. Beattie and Mrs. Wm. Todd, the topic of which was "A Sure and Steadfast Anchor". There were eight members present. One new member was added to the roll call, Miss Phyllis Todd. The treasurer, Mrs. F. W. Martin, reported a balance of \$33.41 on hand. Collection \$1.65. The President intimated that there would not be any Rally this fall. A W.C.T.U. booth at the Huntingdon Fair was discussed. The work committee gave a report of sewing done. At the end of this meeting the Loyal Temperance Legion held their meeting on the lawn. At the conclusion refreshments were served to all present by Mrs. MacIntosh and her daughter, Arline, H'don Locals.

When the Liberal Party takes over in 1960, these forgotten counties are going to be remembered. The Liberals represent the working man. Union Nationale Party and the Conservatives work for the capitalist. The budget has increased by many millions since the Union Nationale came to power, but are the people getting more in comparison than they did before?

Madame Martel, representing the Quebec Women's Liberal Federation, spoke to the meeting in French as did Emile Lafrance.

Temptation may be strong, but it seldom overtakes the man who runs from it.

The Influence of R. O. P. Testing On Improvement of Registered And Grade Cattle

At the present time only about one quarter of the farmers who keep pure-bred dairy cattle carry out Record of Performance tests. This state of affairs is somewhat hard to understand since the mere act of registration itself produces a certain amount of practical results. The registration certificate alone adds little to the real value of the animal and gives no more information about its performance or that of its ancestors than if it had come from a grade herd for which no records of production had ever been kept.

Nevertheless every reliable programme of herd improvement must be based on records of performance, for the following practical reasons: 1) The Record of Performance provides an indispensable criterion for the selection of heifers and hence for the discovery and maintenance of better maternal strains within a herd;

2) It provides all the information needed for the accurate estimation of the worth of a bull. Without question this alone is a priceless advantage, for it tells us whether the female offspring sired by the bull are better or worse than their mothers. We can thus tell whether the sire is contributing to the improvement or the deterioration of the herd and hence whether it will pay to continue to use him on a large scale or whether he should be sent to the abattoir without delay.

3) Record of Performance testing leads to better and sounder feeding practice since it allows us to base the ration fed to each cow on the amount of milk she gives. It adds to the market value of both females and bulls in the event of sale. It helps to prevent slumps in milk production. Briefly, the Record of Performance testing is the factor which is the predominating factor in the establishment of herds which have valuable hereditary traits, high milk yields and, consequently, show larger profits.

In the opinion of Mr. Adrien Cote, professor at St-Martin Agricultural School, the practice of ROP testing should become all the more widespread thanks to the following improvements which have been made in the system during recent years. First, owing to the institution of compulsory testing of all animals in the herd, it is now possible to get the complete and precise

HELPS LEADERSHIP

School discipline is good training for the day when you will have the same discipline exercised over you on the job; and good training and experience for the day when you, too, may be in a position of leadership.—Lindsay (Ont.) Watchman-Warder.

TRAFFIC SAFETY

It is much too common an occurrence to see motorists straddling the white line, passing at solid white lines, rounding curves on the left of the lines and in every conceivable way possible disregarding these guides to safe driving.—Trenton (Ont.) Courier-Advocate.

ROYAL TOUR BENEFITS

The benefits accruing to Canada from the Royal Visit will be many, and many will be perceptible. But one benefit both perceptible and substantial will be the information about this country that will be published in the United Kingdom as a result of the Royal Tour.—The St. James (Man.) Leader.

HONOR SCOT

BEAUMONT, Que. (CP). — French-Canadian Canadians who are to gather in this St. Lawrence south shore community in October to pay homage to Augustin Fraser, the Scot who brought their names to Quebec. He fought under General Wolfe in the battle of the Plains of Abraham, and later married a French girl and settled on a Beaumont farm.

Conserving And Using Our Open Spaces

Everyone has a life interest in conservation. For some, the stake is financial: farmers, commercial fishermen and trappers depend upon conservation of their resources for their livelihood. For others, the reward is health and recreation. Both sorts of people are concerned about preservation of our open spaces, our parks, our woodlands, our mountains and our streams.

Preservation of these is preservation of the basic resources of the earth which men and animals must have in order to live. Our physical environment governs our lives to an extent that demands thinking about it.

It is time to think more earnestly than we have in the past. The tendency of our machine civilization is to wipe out every trace of what once was primitive wilderness. Joseph Wood Krutch, well known writer about nature, says in his book *The Great Chain of Life*: "If the earth is still livable and in many places still beautiful, that is chiefly because man's power to lay it waste has been limited. Up until now nature has been too large, too abundant and too resistant to be conquered." And there is more truth than poetry in the remark by Havelock Ellis: "The sun, moon and stars would have disappeared long ago if they had happened to be within reach of predatory human hands."

Though the history of exploiting natural resources on this Western Hemisphere has been relatively short, it contains many chapters of reckless waste and appalling destruction. Entire species of animals have been exterminated, or reduced to so small remnants that their survival is doubtful. Forests have been despoiled by uncontrolled cutting and by fire. Grasslands have been made desolate by over-grazing. Topsoil has been washed away.

Even in Audubon's time, in 1850, few birds or mammals were in danger of extinction and our land was still fertile. Then came what has been called the "terrible sixty years". Land was torn up by the plough without regard for its stability under cropping. Buffalo were exploited for their hides and tongues. Eggs of wild birds became objects of commerce, and bright-plumaged birds were shot for the millinery trade. Fish were destroyed by removal of shade trees and the pollution of their waters by silt and refuse.

During recent years there has been a slight stirring toward good sense, but we are still full of inner contradictions. We set aside wild areas and then "improve" them out of all wilderness. We spend in a profligate way to advance our comfort and convenience far more than people in other countries could ever afford, but we destroy in the process the very basis of comfort and life.

Point of No Return
The wonders of the natural world, once destroyed, can never be replaced. It is our job as conservation-minded people looking to the future to maintain some sort of balance between nature and the appearances of our industrial age.

Conservation is the planned management and wise use of nature's resources. It aims, in co-operation with science and nature, to increase their quality, quantity and availability through the years. Conservation is not merely a subject for a school curriculum or for attention of game wardens and departments of the government; it is a way of life for all people.

Of course, the wise use of our limited resources means restraint of the few persons who through ignorance, folly, or greed try to satisfy their desires at the expense of all the others. The protection of the basis of physical life should not require enforcement, but when enforcement is necessary we should have no compunction about applying it.

Ontario found this out at the turn of the century. As W. J. K. Harkness termed it in an article in the *Canadian Geographical Journal*, "some nick-of-time legislation" had been passed in 1821 to protect fish and wildlife, but it was not until 1890 that a Royal Commission was appointed to make a comprehensive survey.

Atlantic salmon once abounded in Lake Ontario and its rivers, the Don, the Humber and the Credit; after 1897 the salmon was not seen. The passenger pigeons, once counted in the millions, and the wild turkeys, were already on their way out, and could not recover even under complete protection. The last passenger pigeon died in 1914.

It is to our credit that during the past thirty years we have become increasingly aware of the threat to our welfare. Governments, industry and people have gained knowledge about the need for conservation. Associations on all levels — county, community, province and dominion — are dedicated to the protection and improvement of forest and soil; of water, animals, birds and fish; of natural areas ranging in extent from watersheds to roadside parks.

The least we can do is to become informed about the problems and needs. We may go further by associating ourselves with organizations dedicated to one or other of the conservation efforts.

We Need Open Spaces
What human need for survival in a world containing powerful enemies, physical and mental, cannot be summed up in the food, shelter and clothing formula. They need to be linked together in society and to be able to break apart as individuals.

Open spaces provide fresh air and health, but they also provide the restful inspiration that nature gives to most of us. When we are in her domain nature has a way of soothing our fretfulness and easing our worries.

Hours in the woods or parks may write no exciting saga. They may be eventless. There is nothing to write home about except how the sunlight is green-filtered and cool with the breath of falling water; how the trail follows the stream up and up, over fallen logs, with the summings of the hidden waterfall luring you on. Or you may tell how when you were thirsty, you drank from cupped hands at a spring bordered by trillium; and about the black bear that came begging as you ate your lunch at the broad rock table near the falls, and the chipmunks that gambolled in the pine needles at your feet. And yet such a letter home conveys the sense of a chain of life continuous and rich with the ages.

If we confine ourselves to our buildings — our homes, theatres, shops and offices — we are losing more than we know. The late Professor E. J. Urwick, head of the Department of Political Economy at the University of Toronto for ten years, wrote a book which he called *The Values of Life*. He said in it: "We are losing the capacity for wonder, the power to see and feel the miracles of life and beauty around us, without which our souls are half-empty and real fullness of life is denied us."

Our Oldest Resource
Canada's oldest natural resource is her wilderness. Some of it is being preserved; much more should be set aside before it becomes over-run.

Visitors to older countries notice that they have a greater respect for natural features than we have hitherto shown. Perhaps it is because wilderness places abroad are wisely protected by folk tales and beliefs. In Ireland, for example, people do not meddle with the "fairy rings" or "lone trees" that dot the landscape any more than they would break down the bounds of a fairy fort. Consequently, there is a haven on every good man's land for small wild creatures and gay wild flowers.

Perhaps it is not modern to believe in fairies and leprechauns, but if they and the little light elves that inhabit the grassy verges of fields and the marshy banks of streams persuade us by promise or threat to preserve their homes they are doing us and our children's children a good turn.

On a larger scale, we need the spirit of conservation in our forests and parks. This may mean that we cannot gratify all demands for their use. Many of the things we go to the open spaces to enjoy are endangered because the facilities we demand for our comfort are crowding out the scenery.

In too many instances a big job of landscape destruction is undertaken to make the place more accessible, or to change its character. Take the pond that Thoreau made famous through his book *Walden, or Life in The Woods*. The four families which once owned the surrounding property gave it to Massachusetts to preserve for posterity. Today, instead of the peaceful pool about which Thoreau wrote, there is a bathing beach, and across the road there are trailer camps and hot dog stands. It takes an effort of the imagination to picture the tranquil solitude of Walden.

Even in national parks, the pressures are great for roads and tourist developments. To the south of us, Yellowstone Park is an example. The original stipulation that the area should be kept in its "natural condition" has not prevented the construction of more and more roads, the building of more lodges, the provision of more parking space. Says a writer in *Vital Issues*: "There are places in Yellowstone that look as if they were trying to compete with an amusement park."

By contrast, Canada Year Book says of Algonquin Park, one of Ontario's provincial parks: "the present administrative policy is to encourage the establishment of commercial recreation facilities on the park fringes and to return the park itself to its natural condition." Choosing a Vacation Spot

The more complicated our lives become, and the more elaborate the machinery of living is made, the more necessary it is to create the temporary retreat from reality which we call play. Recreation is a major need for old as well as young. As the German philosopher Nietzsche wrote: "In every man there is a child who wants to play."

Part of the standard of living of North America is the wilds of Canada. Gregory Clark went so far as to say in his booklet *With Rod and Reel in Canada*: "Canada is fortunate in having considerable areas unfit for anything forever save recreation."

There is no ready-made vacation pattern into which people of all sizes and shapes must fit. Some may like the thrill of digging in the ages-old badlands of the Red Deer River Valley, where dinosaurs disappeared themselves in the shallow sea of the Mesozoic Age. Others prefer the Annapolis Valley, where Champlain raised his habitation and founded the Order of the Good Time only 350 years ago.

Snowy slopes, mineral springs, trout-filled streams, woods and hills peopled with game animals, mountain trails, sun-swept beaches: all these are to be found in Canada. There is little difference, really, between the recreation needs of the businessman who gets away from

Displayed in Moscow this summer as part of an American exhibit, this sofa might at first appear to doubtful Russians as another example of capitalistic extravagance. When they look closer, however, they see that it opens up into a comfortable reclining bed and the upholstery material is just as practical as it is decorative. Now being sold in Canada, it has an attractive covering of textured "Fabrillite", a vinyl-coated fabric highly resistant to wear and which can be kept clean with a damp cloth.

his office to fish a Quebec stream and the housewife who, in sentimental mood, sits in Beacon Hill Park in Victoria when the moon is in the wane and sees a ghostly company of Druids walking in solemn procession beneath the giant oaks. Both accumulate cherished memories of pleasant surroundings, the mental tonic of peaceful hours. For the time being they have escaped into another room of life.

Learning About Nature
Out of a vacation spent in one of Canada's parks or open spaces one may carry away, besides pleasant memories, an intellectual increment. He may have absorbed some knowledge of the ways of squirrels or men.

One does not need to study, but merely to take in. Even the greatest biologists stammer in the presence of nature. They do not know all the properties of living matter nor all of its astonishing possibilities. To lesser people it is enough to see the beauty in the simplicity of natural things; to note how the myriad colours of moss on a rock show to their best advantage after a rainfall; to detect the grace of movement in a bounding deer; to envy, perhaps, the charming poise of a listening bird.

Some knowledge of the natural world should be part of every child's education; not the knowledge that is gained from textbooks or through class-room microscopes or by dissection of dead beasts, but knowledge of acquaintance. By giving children the opportunity to absorb nature we acquaint them with the sense that life exists even in the lowliest form of animal and the smallest sort of plant. Living in the open spaces will acquaint us, and our children, with the biological problems of human survival in a world where Nature will always have the last word. It will encourage us to overcome unwarranted fears, because we fear mostly what we do not know. It will give us the broad view that develops mental fitness and emotional stability.

What Sort of Open Spaces?
The open spaces we need range from tracts that are thousands of square miles in area to little roadside picnic places with room for a couple of tables. The desirable feature is to have enough of them, preserved from invasion by predators of every sort, and located so that some of them are within reach of every Canadian.

Canada's national parks are areas of natural beauty and special interest that have been, in the words of a government handbook: "dedicated to the people of Canada for their benefit, education and enjoyment." They are to be conserved "unimpaired for the enjoyment of future generations."

It was the discovery of mineral hot springs on Sulphur Mountain, near Banff, that led to the establishment of Canada's first national park. From this small area of ten square miles, set apart in 1885, the parks system has been extended until it embraces thirty separate areas totalling more than 29,000 square miles. The latest addition is a wilderness area of 156 square miles on Bonavista Bay in Newfoundland, called Terra Nova Park.

Every park has its special features, from fishing to romance. Park hatcheries provided 756,000 grayling and 14,000 pounds of trout for park waters in the most recent year reported. For the romantic interest we may go to Prince Edward Island, where Green Gables, the farm house immortalized by Lucy Maud Montgomery in *Anne of Green Gables* is preserved amid beautiful surroundings: the Lake of Shining Waters, the Haunted Wood and Lovers' Lane.

Provincial Parks, set aside and maintained by the provincial governments, total 59,516 square miles, and provincial forest reserves add up to 210,240 square miles. One of the best known is Algonquin Provincial Park in Ontario, only 175 miles from Toronto. In its 2,740 square miles there are countless wild birds and animals of many species living undisturbed by man, and anglers haunt its well-stocked lakes and streams.

The Federation of Ontario Naturalists has operated a summer camp at Algonquin for more than twenty years, giving guidance to persons interested in studying, photographing or just enjoying the life that abounds in open spaces and woodland.

Not everyone has an automobile or the time and money required to reach these national and provincial parks.

What, specifically, should be sought? Ideally, every family should have access to a park big enough for all-day excursions; a wooded area; a protected place where wild flowers grow; a clear stream and a pool. These are to be our contact with nature, and are quite apart from school and other athletic grounds, tot lots and swimming places.

Some device of law should be found whereby these areas shall be kept for the people for all time. As things are now, by-laws of a few years ago can be removed from the books to allow use of park land for electric sub-stations, filtration plants, parking lots or other accessories of our mechanization. Our plans need to be realistic and practical, yet we must make them with vision, knowledge and imagination if we are not to barter future health and happiness for an easy solution of some present problem.

As an example of planning of this sort, consider the programme of the Royal Botanical Gardens at Hamilton, Ontario. It includes science, recreation and education. It has a dozen areas, each with its own planned purpose: a picnic place, an autumn garden, a spring garden, a children's garden, a nature trail and wild-flower sanctuary, a sunken garden, a marsh water-fowl sanctuary, an arboretum, and a rock garden.

Why bother? Why should we go to the expense and trouble of preserving open spaces and providing parks? Because life depends upon it. The scampering of a squirrel, the

ploughing of a worm, the flight of a bird, the honey-gathering of a bee—all these play their part in regulating the natural machinery of fertility and growth.

The protection of trees on our watersheds is essential to the collection, storage and distribution of water, without which we could not live.

NOTICE

Province of Quebec
Municipality of the Town of Huntingdon
PUBLIC NOTICE

is hereby given to all proprietors of real estate and resident householders of this municipality that the amended valuation roll made by order of the council of the municipality is deposited in my office, where it may be examined by the interested parties during thirty days from this notice, during which time any ratepayer interested may, in writing, complain of such roll, which complaints will be taken into consideration at a regular meeting of this council to be held on the eighth day of September, Nineteen hundred and fifty-nine, at the usual time and meeting place of the council.

Given at Huntingdon, Que., this first day of August, 1959.
(Signed) E. C. MARTIN,
Sec'y-Treasurer.

Notice

Province of Quebec
Municipality of Elgin
To the Ratepayers of the aforesaid Municipality:

PUBLIC NOTICE

Public notice is hereby given by the undersigned, Secretary-Treasurer of the aforesaid Municipality, that the council of this Municipality, at a sitting held in the Municipal Hall on the 3rd of August, 1959, has passed by Law No. 185 to the effect that: - It is to the interest of the ratepayers of this municipality that this council enter into a contract with the Constable Fire Department for fire protection of property, for an amount of \$1250.00 (Twelve Hundred and Fifty Dollars) per year. Two equal payments of \$625.00 (Six Hundred and twenty five dollars) payable on November 1st and May 1st of each year. For this amount the said Fire Department guarantees fire protection to the best of their ability; full equipment if necessary, without any further charge to the Council or the individual ratepayer, and that the said Fire Department carry sufficient insurance to cover them in all respects while fighting fires in the Municipality of Elgin.

Also should it ever be necessary to settle a case in court, same be tried in the District Court, in the County of Beauharnois.

Given at Elgin this 6th day of August, one thousand nine hundred and fifty-nine.

OSWALD J. WATSON,
Secretary-Treasurer

Notice

Town of Huntingdon

The owners of vacant lots in the Town of Huntingdon are asked to cut the grass and weeds in these lots, within a delay of thirty days, in order to eliminate the risk of fires in the town. If this request is not complied with the grass and weeds will be cut by the town employees at the expense of the owners.

Huntingdon, Que., August 4th, 1959.
E. C. MARTIN,
Secretary-Treasurer

Conserving and....

(Continued from page 4)
We admire the wild flower for its beauty, painted by myriad artists, each with his own special skill, but the plant has a usefulness far more substantial than its aesthetic appeal. "When," said C.F. Kettering, Vice-President of General Motors, "a man comes to me and says, 'All of the major problems of science have been solved'—I like to ask him the simple question, 'Why is grass green?'"

The green leaf is the fundamental link between life on earth and the energy of the sun. By means of

their green stuff—chlorophyll—plants are able to manufacture their own food from raw materials they gather from the air and soil. Animals lack this ability and could not exist without the food-producing plants.

Everything that has life, from the bird song that wakes us at dawn to the philosophy that stirs our minds as we linger by moonlight on a beach or a hilltop, is built of the product of green plants.

How close is the affinity between human beings and the trees, grass, shrubs, and flowers we wish to preserve in our open spaces? It is closer than most people realize. We may, as Donald Culross Peattie put it in his book *Flowering Earth*, lay our hand upon the smooth flank of a beech and say: "We be of one blood, brother, thou and I." Because the one significant difference in the two structural formulas is this: the hub of every haemoglobin molecule in

man is one atom of iron, while in chlorophyll, the green stuff of the plant leaves, it is one atom of magnesium.

In earth's long history one species after another has passed to oblivion, because of its inability to adjust to environmental change.

Today it is necessary for mankind to regulate his use of resources and to manage earth's remaining capital more creatively if he is to survive.

We can adapt ourselves understandingly if we go into our open places, to learn by personal experience in field and forest, on mountains and beside the streams, that mankind is dependent upon the living resources of the earth and must do his part to conserve them.

Going Modern - - Up-To-Date

ANNOUNCEMENT was made last week and again this week, that more of the local telephone districts are to have dial telephone service and an exchange and new number.

In this drive toward modern achievement and standardization, Huntingdon has lost some of her serenity in the matter of dial telephone. Huntingdon has had the dial system for many years and for a number of years was unique in being situated as the only district in the midst of many others, with such a system.

The dial system is gradually becoming part of an overall complex system that will eventually allow making long distance calls to a number of exchanges in various parts of the country, simply by dialing the desired exchange and number.

United States Forging Ahead In The Missile Field

EVER since it was first known that Russia had put a satellite into orbit around the earth, the United States has been working toward perfection in this field.

It was not too long after Russia, that the States had a satellite in orbit, and both today have several up in space. A great deal has been learned from these space moons and other trials of missiles.

One great thing which has troubled the United States and Canada and other countries, is a system whereby it would be known if missiles were directed to these countries and a means of intercepting them.

Where Caution Pays

AS long as these are level crossings in Canada, and regardless of what warning devices mark the tracks, cars and trucks will collide with trains and people will be killed or maimed.

It is impossible to escape this conclusion after scanning the latest accident statistics issued in Ottawa by the Board of Transport Commissioners.

In the last five years, the board reports, 952 persons have been killed and 3,524 others injured in 2,661 crossing accidents across Canada.

It is a foregone conclusion that the trains involved in these accidents had the right-of-way. That's the law. And the automatic warning devices - the flashing lights with bells, the wig-wags and others - are practically failure-proof.

Round Byre AND Ring

By FRANK NAPIER

Less than a decade ago it would have been a trek to one of Canada's leading Ayrshire cattle establishments by Gilbert Macmillan and this writer, on August 8.

The "Hello" girls or operators, will still be required for special jobs, or when information is required on a number of matters to do with the system. It is not known if as many will be required in the future.

While there have been a number of old time Shorthorn herds in Quebec - as the former herd of Senator Cochrane of Hillhurst and the former Neralcam Milking Shorthorn herd of Alex MacLaren of Buckingham.

It might now be said that we are on the road to a detection device which could give warning in case of attack. However, the flight of a missile over a given distance is so fast, that not much time is allowed for interception or protection against it.

The Week In Quebec

QUEBEC (CP) - Destructive forest fires in Gaspé Peninsula have left 100 square miles of forests in ashes and a score of families in destitution.

Heavy downpours last week-end drenched the flames and gave lands and forest workers and volunteer fire-fighters a chance to bring the fires under control but 600 men were still on the scene by the end of this week trying to isolate and put out two stubborn pockets.

Eighty-three persons were made homeless and at one time more than 400 evacuated their homes. Red Cross has given assistance and the Provincial Government has started a relief fund with a \$10,000 contribution.

The big problem now: what's to become of the homeless families. The Colonization Department says it will do all it can. But it is not known yet whether the settlers' families will be resettled in the same area or elsewhere.

The Quebec Forest Protection Service said an investigation to determine the cause of the fire and the extent of damage is to be undertaken.

Hard hit were the localities of St. Joseph-des-Monts and St. Bernard-des-Lacs, 350 miles Northeast of Quebec City. The St. Raymond Paper Inc., operators of a pulp mill near Desbiens on the shore of Lake St. John suffered a \$700,000 loss this week when the flames consumed a 23,000 cord stack of pulpwood.

It took the concentrated efforts of 250 men from 14 surrounding towns and localities wielding up to 40 hoses to douse the furious fire which burned out of control for more than 36 hours. The mill shut down, residents of the town stayed up night and day watching their homes close to the fiery pulpwood pile. Nearly all water supply was turned on the flames for three days.

For a time it was feared flames would jump to a smaller stack of wood worth about \$500,000 but fire-fighters overcame the fire before it spread out.

Probable cause was embers smouldering quietly for two weeks in the log pile after an earlier fire had been put out.

Disagreement between the 18-man council of the St. Jean-Baptiste Society of Quebec Diocese and the president of the 50,000-member society over plans to commemorate the battle of the plains of Abraham 200 years ago has sparked:

- 1. Resignation of Gabriel Pelletier, president of the society, and of Pierre Cote, director general of the group.
2. Cancellation of major ceremonies planned to commemorate the battle in which France lost her grip on Canada.

Efficient Master of Ceremonies was Provincial Club Secretary Donald MacMillan, who is also an agronomist in the Townships, and he was ably assisted by E. H. Stoltz, Fieldman for Canadian Shorthorn Association in Eastern Canada.

The noted Bois de la Roche herd sires made an outstanding demonstration class with Ab. Stoltz as the speaker. Females for the judging classes were furnished by the Bois de la Roche herd and the Milking Shorthorn herd of C. N. Abbot, who is also President of the Club and who presided over the speaking programme.

In addition to Reford Gardhouse other "Big Brass", so to speak, of the parent Shorthorn Association included W. H. Merry of Milton, Ont. Mrs. Beardmore of Yellow Briar Farm, Montic Mills, Ont. and Duncan Brown, famous auctioneer and breeder of Polled Shorthorns, Sheddon, Ont.

With Mrs. Skinner as the hostess, the Ladies Auxiliary of Churchill Branch, Ste. Anne de Bellevue, served delicious luncheons and other refreshments, while Joe Cusack of Churchill Branch of the Legion acted as registrar of guests.

The Week At Ottawa

OTTAWA, (CP) - The defence department's newest baby went on view last week and promptly landed in a pickle.

The United States Starfighter jet, with which the RCAF is to be equipped, did a few practice runs at Uplands airport near the capital and in a low level flip it passed through the sound barrier.

The resultant sonic boom shattered scores of plate glass-windows in the new \$6,000,000 transport department air terminal building, causing damage of upwards of \$50,000.

The transport department, sharpening its quills for a legal claim on the defence department, said the damage bill could go as high as \$100,000.

The man caught in the middle was a U.S. air force officer who had been making practice runs in preparation to show off the Starfighter to the cabinet and the press.

When Capt. G. L. Schulstad prepared to take off for the demonstration a day after the window-busting, Transport Minister Hees admonished him: "Now don't break any more of my windows."

A government spokesman said that after the Canadian manufacturer is chosen for the Lockheed F-104G Starfighter airplane the army's present equipment needs will be considered.

With some major air force and naval problems now huddled, a decision would be made as to whether to put into production a family of vehicles to increase the army's mobility and firepower.

A highly-placed informant said the decision will likely be taken next spring and indicated that it probably will be to order tooling up for a 1961 production start. Production may be for British as well as Canadian army needs.

The family of vehicles in question is that based on the Bobcat, a new tracked amphibious armored personnel carrier now under advanced development at Canadian Car Company, Fort William, Ont.

The army says a whole family of vehicle - weapons carrier, anti-hauler, missile mount, ambulance and the like - can be produced with the basic Bobcat design. These would give the army the mobility and protection it needs to fight on an atomic battlefield.

The Week At Ottawa

OTTAWA, (CP) - The defence department's newest baby went on view last week and promptly landed in a pickle.

The resultant sonic boom shattered scores of plate glass-windows in the new \$6,000,000 transport department air terminal building, causing damage of upwards of \$50,000.

The transport department, sharpening its quills for a legal claim on the defence department, said the damage bill could go as high as \$100,000.

The man caught in the middle was a U.S. air force officer who had been making practice runs in preparation to show off the Starfighter to the cabinet and the press.

When Capt. G. L. Schulstad prepared to take off for the demonstration a day after the window-busting, Transport Minister Hees admonished him: "Now don't break any more of my windows."

A government spokesman said that after the Canadian manufacturer is chosen for the Lockheed F-104G Starfighter airplane the army's present equipment needs will be considered.

With some major air force and naval problems now huddled, a decision would be made as to whether to put into production a family of vehicles to increase the army's mobility and firepower.

A highly-placed informant said the decision will likely be taken next spring and indicated that it probably will be to order tooling up for a 1961 production start.

The family of vehicles in question is that based on the Bobcat, a new tracked amphibious armored personnel carrier now under advanced development at Canadian Car Company, Fort William, Ont.

The army says a whole family of vehicle - weapons carrier, anti-hauler, missile mount, ambulance and the like - can be produced with the basic Bobcat design.

These would give the army the mobility and protection it needs to fight on an atomic battlefield.

The buyout of statistics reported that further sharp cuts in gasoline prices helped hold the consumer price index-reflecting Canadian living costs - steady at 125.9 on July 1, unchanged from June 1 and one-per-cent higher than the level of 124.7 on July 1 last year.

There were slight increases in the sectors of the consumer budget spent on food, shelter, clothing and household operations. But these were cancelled out by a drop of nearly one-half of one per cent in prices of other commodities and services, led by lower gasoline prices and a seasonal price cut for new passenger cars.

The government hopes to have most of Canada's postwar international air agreement reviewed by the end of the year. Meantime, the first air agreement between this country and Italy may soon be added to the list.

Both Trans-Canada Air Lines and Canadian Pacific Airlines re-said by government sources to be interested in getting in on the potential air traffic direct to Italy from Canada.

Large-scale Italian immigration to this country since the Second World War has created a pool of potential travellers among new Canadians who may want to visit their homeland. In addition, a direct air link with Italy might prove a drawing card for Canadian airlines catering to the growing movement of Canadian tourists to Europe for a holiday.

A major oceanographic research program will be launched on Canada's Atlantic and sub-arctic coasts to assess sea-bed resources and obtain information for anti-submarine defenses.

The work will be centered in a \$3,000,000 oceanographic institute to be built at Bedford Basin, near Halifax. To be known as the Bedford Institute of Oceanography, it will have a staff of some 300, plus an operating fleet of 10 vessels.

development of army equipment. The British are developing a vehicle similar to the Bobcat but are one or two years behind the Canadian development.

As a result of these talks, a British team is expected to arrive in Canada in the next two months to work out with a Canadian team a design for a group of vehicles which could be used by both countries. The idea would be that shared production could be achieved, with each country supplying certain components.

The Northwest Territories Council, at its session in Chesterfield Inlet late in July, decided to ask the federal cabinet to give Indians equal liquor rights with whites and Eskimos in the Northwest Territories.

The council decision followed a legal decision overthrewing a council ordinance that restricted Eskimos in the use of beverage liquors.

This decision of the Territorial Court left Indians in a position inferior to both Eskimos and white residents of the northern lands. The council is petitioning the cabinet for an order-in-council granting the Indians full liquor rights.

The council also dealt with the effects of another judicial decision of the Territorial Court which overthrew a council ordinance restricting Eskimo hunting of muskox. Territories Commissioner Gordon Robertson said in an interview it was felt the hunting restrictions in the long-run interests of the Eskimos. Indiscriminate killing of game might wipe it out.

Therefore, the council decided to ask Northern Affairs Minister Alvin Hamilton to propose that Parliament amend the Northwest Territories Act affirming the legality of the hunting restrictions.

The buyout of statistics reported that further sharp cuts in gasoline prices helped hold the consumer price index-reflecting Canadian living costs - steady at 125.9 on July 1, unchanged from June 1 and one-per-cent higher than the level of 124.7 on July 1 last year.

There were slight increases in the sectors of the consumer budget spent on food, shelter, clothing and household operations. But these were cancelled out by a drop of nearly one-half of one per cent in prices of other commodities and services, led by lower gasoline prices and a seasonal price cut for new passenger cars.

"Suppose I hadn't been saved..."

Tells How \$1.75 a Month Doubles Insurance Protection

"Two summers ago, during a fishing trip, a sudden squall swamped our boat. I was knocked unconscious, but my companion was able to keep me afloat until help came.

"This narrow escape drove home to me the value of my \$10,000 Confederation Life policy. For \$1.75 a month, I had added an Accidental Death and Dismemberment Clause. Had I not been saved, Confederation would have paid my wife twice the face value of the policy - \$20,000 instead of \$10,000.

"I'm told that 10% of all deaths are accidental. And while I know insurance can't prevent accidents, it does provide financial protection for my family and complete peace of mind for me."

A \$10,000 Confederation Policy with Accidental Death and Dismemberment Benefit Pays:

- Liberal cash payments for non-fatal dismemberment accidents and
• \$10,000 if you die from natural causes.
• \$20,000 if you die by accident.
• \$30,000 if you die by accident while a passenger in a commercial bus, taxi, street car, train, ship or commercial aircraft, or in a fire in a hotel, theatre, school or government building.

PROTECT THE ONES YOU LOVE. CONSULT Confederation Life ASSOCIATION. For Free Folder describing the New Accidental Death and Dismemberment Benefit call: H. A. Fawcett, C.L.U., Huntingdon, Que. Huntingdon Branch - R. C. Morrison, Manager

regular and adjourned meeting of July were approved as read. On motion of Couns. Rennie and Forget the following accounts were approved for payment: Shawigan Water & Power \$787.35; Hookers \$27.18; Le Progrès de Valleyfield \$20.18; D. A. Barrington \$5.95; Goyette (Ormsdown) Transport \$3.00; Lionel Brunet \$4.00; Wallace

Collins \$211.50; Rolland Page \$228.50; Raymond Varin \$58.50; Minister of Finance \$5.21; Huntingdon Gleaner Inc. \$3.50; Garage Guerin \$1.00; Valuators and Clerk \$118.50; John K. Dickson \$40.00; W. D. Lang \$86.25 (Flymen \$55.00); E. A. Fennell \$13.00; B. McCartney \$46.13; Mrs. James Lussier \$4.50; Carlyle Dickson \$14.04; B. L. McGerrigle \$118.32.

On motion of Couns. Rennie and Roy the valuation roll for the year 1959 as presented be homologated with one amendment.

On motion of Couns. Roy and D'August the tax rate for the year 1959 was levied at 12 mills on the dollar.

On motion of Couns. Rennie and McCormick the Department of Public Works of the Province of Quebec were given permission to build a bridge on Church Street.

On motion of Couns. Roy and Forget the Mayor and Secretary were authorized to sign deeds for land to widen and extend Maxwell Street.

The matter of water and sewerage to the proposed new Catholic School building was left in the hands of the Mayor.

Councillor Rennie was appointed in charge of workmen until the September meeting of the Council.

Meeting closed at 10 P.M.

ORMSTOWN PARISH COUNCIL
Met on Tuesday evening Councillor Dandurand absent.

On motion of Councillors Smith and Riendeau the minutes

Hemmingford

HEMMINGFORD. — A Flower Service was recently held in St. Andrew's United Sunday School. The theme of the Service was "God is Love" and this was very strikingly brought to every one's attention by a large arch below the pulpit. The pupils marched in, led by their teachers and each child carried a flower which was placed in holes in the arch until the theme was formed. The Junior Choir was in attendance under the direction of Miss Joan Pederson and very ably rendered the anthem: "God is Love" and chanted "The Lord's Prayer". Miss Barbara Warner, Sunday School Superintendent, told the Lesson Story on "How Love Grows". A large attendance participated in the colorful and interesting ceremony. The Scripture was taken from Exodus 19: 16 to 25 and the topic of the Rev. K. J. W. Murray's sermon was "Mountain Top Experiences."

On motion of Councillors Sproule and Rodger the following accounts were approved for payment: Huntingdon Gleaner Inc. \$2.75; Village of Ormsdown \$150.00; Valuators and Clerk \$252.50; Shawigan Water & Power \$8.16.

On motion of Couns. Rodger and Sproule, John K. Dickson was appointed Special Officer to examine complaints of Messrs. Florian Guerin and Jean Dumas regarding a road ditch in need of being cleaned on the James-town side road.

On motion of Couns. Sproule and Bryson the Council approved of the Drainage Department of the Province of Quebec to clean out a small branch of the Martin Watercourse which was not included in the original profile.

On motion of Couns. Rodger and Sproule the valuation roll for the year 1959 was homologated with one amendment.

On motion of Couns. Bryson and Riendeau the tax rate for the year was levied at 4 mills on the dollar.

On motion of Couns. Rodger and Bryson, meeting adjourned.

Nitro

NITRO. — Mr. and Mrs. Harold Whidden of Patchogue, Long Island, N.Y., visited at the home of Mr. and Mrs. K. Steele on the week-end. Mrs. Whidden and Mrs. Steele are step-sisters.

Another visitor at the Steele home on Sunday was a former resident of Nitro, Mr. Harry Walsh of Strathmore, Que.

Miss Betty Loney has had an appendectomy performed at the Hotel Dieu, Valleyfield.

Mr. Phil Boudreau, Champlain, is in the Barrie Memorial Hospital for treatment and a check-up. All wish these patients speedy recovery.

Friends of Mrs. McLelland of Montreal will be glad to know that she is much improved in

health. She has left the hospital and returned home. Mrs. McLelland is the mother of Mrs. Wm. Fullerton.

Miss Colleen Swartz is spending some time at her grandparents' home in Shawville, Que.

Rickey and Penny Lake of St. Laurent, are visiting their cousins, the Swartz children of Laurier St.

Mr. and Mrs. Armand Cyr are vacationing at Maria, Que.

Mr. Therrien of Laurier St. has gone to La Tuque for some time.

A much anticipated yearly event took place on Saturday, when the C.A.L. picnic was held on the plant grounds.

Seven different children's races were run off with prizes for each. There were also eight different "big kids" games and races which included the usual "tug-of-war" between the guards and other personnel. As usual, the guards won.

There was a miniature merry-go-round, a midway, ten rounds of bingo, all with prizes. They had a special candy booth and refreshments and everyone

received a souvenir hat. There were also door prizes, one of which, a radio, was won by Mr. John Bretch. The other, a ham, was won by Mrs. Bob Young. The picnic was a happy event and was thoroughly enjoyed by everyone.

Miss Lorraine and Master Wayne Brindle spent two weeks visiting their sister, Mrs. Wm. McKinnon at Lake Lachute, Que.

Mr. and Mrs. A. Hodge and family visited Mr. and Mrs. W. E. Atkins at Bury, Que., for two weeks during their vacation.

Mr. and Mrs. Lyall Baskin and family spent their holidays visiting relatives and friends at various places in Ontario.

Two pre-wedding showers held in Howick for Miss Brenda Baskin, were attended recently by

her sister, Mrs. Leslie Champ and her sister-in-law, Mrs. Lyall Baskin.

The first, a miscellaneous one, was held at the home of Miss Diane Miller; the second, a personal shower at Miss Anne Tolhurst's home. These were very pleasant events and Miss Baskin received beautiful gifts.

Powerscourt

POWERSCOURT — On Tuesday, August 4th, 35 members and friends of the Powerscourt congregation gathered on the lovely grounds at the home of Mr. Leslie Rennie, and his parents. The weather was ideal and all present enjoyed a grand time, with various games, races for the children and a dip in the water. A picnic lunch was enjoyed at noon and before dispersing at 4 P.M. all present were treated to ice cream. Every child present received a nice gift. Mr. Young proposed a hearty vote of thanks to the Rennie family for their kindness in making the grounds available, and a vote of thanks was offered Mr. Young for the capable manner in which he made arrangements for the picnic and superintended the games and races.

Miss King has returned to her home in Montreal after spending the past three weeks with Mr. and Mrs. Fred Wood.

Mrs. Wm. Myatt was a guest for several days of Mr. and Mrs. Amos Myatt in Huntingdon. Sorry to report that Mr. Myatt is quite ill.

Mrs. Mabel Thompson, Malone, accompanied by Mrs. Lobdell Jr., of Burke, N.Y., called on a number of relatives on Tuesday. Mrs. Thompson had recently returned from an extended visit with her daughter in Conn.

Mrs. Robert Clarke and infant son are spending some weeks with her father and brother, Messrs Wilbur and John McHardy. Mr. Clarke spends the week-ends at the same home.

Saturday guests of Mr. and Mrs. Ronald Wood were Mr. and Mrs. Earl McHardy and two sons of New York City. Other guests at the same home were: Mr. Ray McHardy, Mr. Elmer McHardy recently returned from Florida and Mrs. McCormick of Huntingdon.

Mr. and Mrs. Wm. Clarke Sr. and Richard, of Montreal, are spending some time at the McHardy home.

Miss Madeline Bergeron, Florida, Mr. Marcle Bergeron and Mr. Oscar Gaudreau of Sherbrooke, were Wednesday overnight guests of Mr. and Mrs. Lafond. Week-end guests at the same home were Mr. and Mrs. Guy Lafond and two children, Sherbrooke, Que. and Mr. Roger Baker of Montreal.

Threshing operations are in full swing, and most farmers in this district have taken advantage of the good weather to complete this operation.

The old Dam is proving to be a real "swimming hole" this summer and many folks are enjoying themselves swimming and diving.

Several times the Powerscourt residents have been elated at the prospect of a black top road, only to be doomed to disappointment. Two weeks ago the gravel was spread and then no further work done. But hopes are rising high this week. The scraper is really on the job, followed by the roller. Let's hope

another disappointment is not in store.

"Waiter, I won't eat this food. Bring me the manager."
"Use air." He won't eat it, either.

Robson — Mr. and Mrs. Charles Robson of Seattle, Wash., spent a week at the Barr and Cleland homes and called on other relatives.

Mr. and Mrs. Arthur Guy of Montreal, were recent guests at the Barr home.

Master Peter Jones and sister Gail of Montreal, are spending their holidays with Mr. and Mrs. Albert Robert.

Mrs. Anthony Lukas went by air to Mexico City and is visiting her son-in-law and daughter, Dr. and Mrs. John A. Edwards, who are rejoicing over the birth of a baby girl.

Mrs. Mattie Harvey has returned home from Port Credit, Ont., where she visited her son and daughter-in-law Mr. and Mrs. Garnet Harvey and family.

Mr. and Mrs. Robert Ferns and daughters Janet and Karen, of Hamilton, Ont., and Mrs. Ralph Gibson of De Kalb Jct. N.Y., visited the Barr and Beattie families on Tuesday.

Mr. and Mrs. Stanley Brooks and

Mr. Alexander enjoyed a holiday at Muskoka, Ont.

Mr. Jas. McAllister has been laid up with blood poisoning in his hand.

Mr. Wellington Potter had the misfortune to fall off a load of hay which necessitated him being in the Barrie Memorial Hospital for a couple of days. His many friends wish him a speedy recovery.

Sympathy is extended to Mrs. David McNutt, whose mother, Mrs. McTaggart, passed away suddenly in Clinton, Ont.

Mr. and Mrs. Paul Lattin Jr., of St. Lambert, spent the week-end at their home here.

The Provincial Government has re-surfaced and put a black top on the Nicholes-by-road, a distance of about a mile.

Miss Betty Miller has returned to New York City, after spending a month at her home here.

Mr. Howard Miller poured cement for the foundation of his new home one day the past week.

Mrs. Fashing of Montreal, and daughter of California, spent a week at their cottage here.

Echoes From The Federation Of Charities Of The Diocese Of Valleyfield

For the past number of weeks the readers of this newspaper have been advised of the numerous nominations announced by the Welfare Council of Valleyfield concerning the forthcoming financial campaign of the Federation of Charities of the Diocese which will be held on Sunday, November 1st. These

news items have created an extensive interest and have resulted in numerous questions being asked. In order to better inform the population, a column headed "Echoes From the Federation of Charities of the Diocese of Valleyfield" will appear from time to time. This column will contain one or more questions concerning the organization, its aims and objectives as well as the reasons for having a welfare Council and a Federated Charities drive. We will endeavor to reply to these questions in such a manner as to enlighten the population of the Diocese.

With these questions and answers will also appear news of general interest on the progress of the campaign of the Federation.

QUESTION:—Why is a Welfare Council required today when heretofore such an organization did not exist to meet the various charitable requirements?

ANSWER:—Such a question could entail a lengthy discussion. Briefly, let us say that our present method of modern living with its many social difficulties now makes it imperative for our society to organize into powerful groups to achieve greater benefit for the welfare of all. Furthermore, recent advancements in the field of sociology, psychology and social services makes it necessary for us to keep abreast of developments which heretofore were ignored. Furthermore, it might well be that we are more conscious today of the needs of the unfortunate individual. In any case, the needs are greater today than ever before and this requires a more stable and greater organization than existed in the past.

Appointments
Mr. Leopold Pharaud, notary, president of region No 2 announces the appointment of Mr. Jean-Charles Aubry of St-Polycarpe as president of division No 3 which takes in the parishes of St-Polycarpe, St-Telephore, St-Zotique and River Beaudette as well as the appointment of Mr. Albert Farand, registrar of Coteau Landing, as president of division No. 4 covering the parishes of Coteau Station, Coteau Landing, Coteau du Lac and St-Clet. Doctor Paul Charest, Veterinary Doctor from Beauharnois, president of region No 4 announces the appointment of

Bilingual Telephone Directories Soon To Make Appearance

The Bell Telephone Company of Canada is accelerating its efforts to have French-language listings appear in properly accented form in its bilingual telephone directories in Quebec and Eastern Ontario.

Marcel Vincent of Montreal, the company's Eastern Area vice-president and general manager, said that the new policy (which will apply on future editions of the local directory) would speed up considerably the process of including accents on French names — that normally require them — a goal towards which the company has been working for some years on the basis of requests from individual customers.

Under the new procedure, which will apply to all new and changed listings, the Bell company's service representative will always check with the customer as to how he wants his name listed whenever the possibility of the use of an accent is recognized.

The new practice also provides for the use of accents on all street names which require them, based on lists supplied by the municipality concerned, and on all business listings which indicate a French-language customer's occupation.

As in the past, Mr. Vincent pointed out, individual customers wishing to have accents on their names may have this done by calling their service representative and asking for the change.

By itself, this new procedure would automatically be extended to all directory listings within the next few years through the gradual effect of requests for service, changes of premises, changes of telephone numbers and the occasional revision of street numbers by municipalities.

Even so, in a still further effort to speed up the process, additional measures are being taken. One of these is the revision of certain groups of listings for names which always require accents. However, this approach is limited in several ways. There is the case of French names used by families which are now English-speaking. In other cases, certain names are spelled both with and without accents.

Mr. Vincent explained that hundreds of listings in 28 different directories will require change eventually. To attempt to change them all at once would require a non-productive expenditure of man-power and money that would appreciably increase the company's operating costs. Under the present program, it is expected that the goal will be reached in an orderly, efficient and economical manner within a reasonable time.

Lacolle
LACOLLE. — Mr. and Mrs. Wm. McGill of Huntingdon were callers on Thursday at the home of Mr. and Mrs. Forbes McGill.

Mr. Ray Reddick spent the week-end with Mr. and Mrs. Ralph Smith.
Mr. and Mrs. Wm. Fewster, Penny and Allan spent Sunday with Mr. and Mrs. Warren Sweet, Mooers, N.Y.
Mr. and Mrs. Ralph Smith and Ann spent Tuesday with Mr. and Mrs. Merrill Smith, in Huntingdon.

The Misses Margaret and Ann McGill returned home on Monday from Arvida, after spending a month with their uncle and aunt.
There is one case of polio reported in Lacolle.
The firemen were called out on Thursday for a grass fire on a vacant lot, which could have been serious, due to a number of houses close by.

VALLEYFIELD FAIR

Wedding

Laurin-Guerin

The marriage of Francine, daughter of Mr. and Mrs. Marcel Guerin of Montreal, to Mr. Robert Laurin, son of Mr. and Mrs. Fernand Laurin, of Havlock, Que., took place Saturday, August 1st, 1959 in St. Joseph Church, Montreal.

The bride, who was given away by her father, wore a floor-length gown of embroidered nylon net over layers of tulle and taffeta, fashioned with a fitted lace bodice, long sleeves ending in points over the hands. Her short veil was held in place by a beaded crown and she carried a cascade of lilies and lilies of the valley.

Misses Michelle Lachapelle and Louise Gagnon, friends of the bride and Miss Diane Guerin, cousin of the bride, were bridesmaids.

Miss Susie Castonguay, niece of the groom was flower-girl; she wore a yellow nylon dress and carried a nosegay of roses.

Mr. Fernand Laurin acted as best man for his son.
Mrs. Guerin, the bride's mother, wore a grey taffeta dress and a corsage of red roses.

Mr. Laurin, mother of the bridegroom, wore a royal blue taffeta dress and a corsage of pink roses.

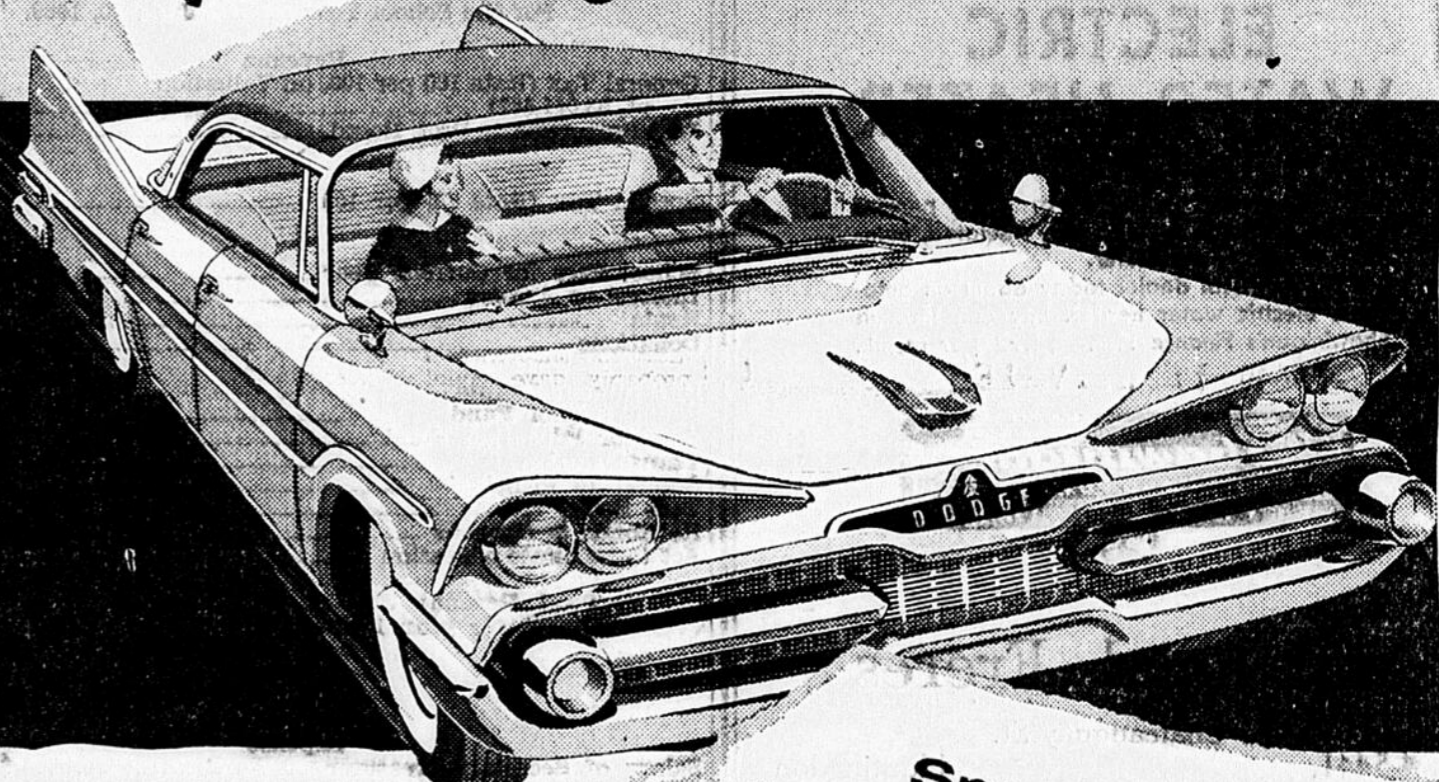

Following the ceremony, a reception was held in Tina Hall. The couple will reside in Havlock.

Dundee

DUNDEE. — Mr. and Mrs. Allan Mack of Lennoxville were Sunday visitors at the home of Mrs. E. J. Fleming.

Mr. and Mrs. Basil Hewson of Buckingham, and son Fraser and daughter Gwen, are spending a few days at the home of Mr. and Mrs. Lester Fraser. They also visited other relatives.
Mr. and Mrs. George Alexander and three children of Hull, Que., were visitors for a few days recently at the home of Mr. and Mrs. Carl Stark of Westville, N.Y., and while there they also called on several friends in Dundee.

Castro's New Land Reform Law

Among the many and sometimes drastic changes effected in Cuba by the new government of Premier Fidel Castro, is a new Land Reform Law, promulgated on June 4th, which makes the government of Cuba proprietor of all land, and creates an Agrarian Reform Institute as administrator. Premier Castro will head this Institute, and the direction will be by Prof. Antonia Nunez Jimenez of Santa Clara University.

Under the terms of this act 1.7 million acres of cane land are to be expropriated from United States companies within this year. Large sugar opera-

tions owned by Cubans will also face expropriation. Even landowners who own less than 1,000 acres, which is the maximum that any individual or company may own, will lose some of their land if they have tenants or squatters, for these people will each receive 67 acres. This law further provides that no foreigner may own or inherit land in Cuba.

Property owners who retain their land must use the land as directed by the Institute, or have that land expropriated. For example, if land is not put into extensive use, or is not used as directed by the Institute, it will

Franklin Centre

FRANKLIN CENTRE — Mrs. Gladys Parham of St. Lambert, returned home Tuesday, after spending several days with Mr. and Mrs. Willard Dunn.

Mr. and Mrs. Orange Baker of Tampa, Florida, on their way to Danville, Que., visiting at the Har-

vey home last week.

Mr. and Mrs. Fred McKeedy of Albany, N.Y., spent a few days a week ago with Mr. Charles Cassidy and family.

Mr. and Mrs. Malcolm Brown and Bobbie of Thomasville, Georgia, are spending a few days with their parents, Mr. and Mrs. Alfred Brown.

Mr. and Mrs. A. K. Parkes and Miss Mary of Town of Mount Royal were Friday guests of Mr. and Mrs. Herbert Clarke on the occasion of Mr. Clarke's mother's 90th birthday.

Mrs. Charles Waller is a patient in the Barrie Memorial Hospital for a few days suffering from the after effects of the "flu". Latest reports are that she is improving nicely.

Dr. and Mrs. G. S. MacCracken of Kingston, Ont., were Saturday guests at the home of Mr. and Mrs. Herbert Clarke and Mr. and Mrs. Herbert Clarke, Jr. of Sherbrooke, spent the week-end at the same home.

Miss Helen Towns of Oriskany Falls, N.Y., spent Sunday visiting relatives in Franklin Centre. The Misses Barbara and Carol Towns accompanied their cousin to her home for a short visit.

The Ladies Guild of the Anglican Church had the Bell, which was donated them by Mr. R. Barr, erected on the Church grounds, last week.

A meeting of the Ladies Guild was held on Saturday afternoon at the home of Mrs. Gordon Robson. Only a few members were present. Some articles were brought in for the Havelock Fair booth and further plans were made about the booth.

Mrs. Clarence Blair and Miss Cora Blair spent a few days with Mr. and Mrs. Otis Blair at Farnham, Que., last week.

Mr. and Mrs. Fergus Moore and family of Covey Hill, and Mr. and Mrs. Frank Hewson of Montreal were Sunday guests of Mrs. Clarence Blair and Miss Cora Blair.

Mrs. John Allen and three children of Montreal returned home Sunday after a week's holidays with her parents, Mr. and Mrs. Martin Brooks.

Mr. and Mrs. James Simpson of Glendale, Calif. and Mrs. Colin Edwards were guests on Sunday of Mr. and Mrs. Martin Brooks and Russell.

Mrs. Mildred McMillan is now spending some time with Mr. and Mrs. Francis Smith, at Valleyfield.

Mr. and Mrs. Gene Koutney and Mr. and Mrs. Robert Day of Montreal, were Sunday guests of Mr. and Mrs. Egbert Bruce.

Miss Annie Waddell has returned to Montreal after spending 3 weeks with Mr. and Mrs. Egbert Bruce.

Mr. and Mrs. Royal Bruce and children from London, Ont. spent last week with their parents, Mr. and Mrs. Bryce Bruce. Miss Hazel Bruce returned home with them after spending a week with them at London, she also spent the past week with her parents.

Mr. Bruce Stevenson of Montreal, spent the week-end with his grandparents, Mr. and Mrs. Fred Stevenson.

Mr. and Mrs. Ross Lamb are rejoicing over the birth of a son. The W.A. is planning to hold a "tea" in the basement also a "booth" around the 20th of this month. Mrs. Tolhurst is expected to be present as Guest Speaker.

Mr. and Mrs. Robert Cleaver and 2 sons, Douglas and Robert of Montreal, spent the week-end at the home of Mr. and Mrs. F. G. Sherrington Sr. The boys remained for a longer visit with their grandparents.

Mr. and Mrs. Bate and Patricia of Hudson, Que., spent Saturday with Mr. and Mrs. James Lamb and attended the Mather-Lamb wedding.

Mr. Howard McAdam and his mother Mrs. Hugh McAdam, Mr. John Watt and Miss Esther Lamb of Ormstown, spent Sunday with Mr. and Mrs. James Lamb. They all visited at the home of Mr. and Mrs. Eric Lamb at Churubusco in the afternoon.

Mr. and Mrs. Gordon Sherrington of Dorval, spent Sunday with his parents. Mr. Sherrington is much better after receiving very bad burns caused by his accident recently. While working he came in contact with an electric wire which charged with 12,000 volts which threw him down, he miraculously escaped with very bad burns, for which he was treated in the hospital the past week.

Mrs. Roy Blair recently returned home much improved in health, after a few weeks in the Barrie Memorial Hospital.

Dr. John Abbot of Pulaski, N.Y., visited with his sister, Mrs. Ruth Post for a few days the past week.

Athelstan

ATHELSTAN — Recent visitors at the home of Mr. and Mrs. Fred Roy were Mr. and Mrs. Ducaume, daughter Donna and son Philip and Mrs. Thibault, all of Syracuse, N.Y. Mrs. Oscar Palmer and family of Roxham were also Saturday guests of her parents.

Mr. and Mrs. Stuart Milne and family of St. Lambert are enjoying a few weeks holiday at their summer home here.

Mrs. T. Foers and daughter Barbara are spending this week with friends in Montreal.

Mr. and Mrs. T. J. Graham are guests this week at the home of Mr. and Mrs. Alex McCracken in Potsdam, N.Y.

Misses Nancy and Donna Leigh-Smith of Beaufield, are spending some time with their grandmother, Mrs. Edith Anderson.

The following have been recent visitors at the home of Mr. and Mrs. F. W. Hutchings, Mr. and Mrs. W. Hutchings and Donna, Mrs. Blanchard and Patricia all of Cornwall, Ont.; Mrs. Bignell and children Steven and Chris of Comoy; Dr. and Mrs. A. C. Blackwood of St. Anne de Bellevue and Mr. and Mrs. Murray Hall of Winnipeg, Man.

Mrs. N. J. Herdman accompanied by Miss Shirley Elder of Montreal, left Sunday afternoon on a motor trip through the State of Maine, visiting various places enroute.

Mrs. M. Marshall of Longueuil, Que., is at present the guest of Mr. and Mrs. C. Rabidou and family.

Covey Hill

COVEY HILL — Mr. and Mrs. James Simpson, Glendale, California, are spending a couple of weeks visiting Mrs. S. M. Simpson and other relatives and friends here.

Mr. and Mrs. David Patton, Maspeth, L.I. and Mr. and Mrs. Amos Lowden and Patsy, Lisbon, N.H., attended the Pilon-Lowden wedding on Saturday and were week-end guests of Mr. and Mrs. James Watt.

Sorry to report Mrs. R. J. Gordon is a patient in the Barrie Memorial Hospital, Ormstown. Her friends are pleased to learn she is slowly improving.

Rockburn

ROCKBURN — A joint picnic of the Rockburn, Athelstan and Elgin Sunday Schools was held at the home of Mr. and Mrs. Russell McDonald, on Aug. 5th, with a very good attendance. While waiting for all to gather, a swimming party was enjoyed by several. After lunch, games and races were the program.

Race for under 3 years had the following winners: 1 Cindy Waller; 2 Willie Ykema.

3-4 years, boys — 1 Brent Waller; 2 Dene Ykema.

3-4 years, girls — 1 Beverly Jamieson; 2 Mary Anderson.

5-6 yrs. boys — 1 Raymond Bonenberg; 2 Bruce Anderson and John Ykema (ties).

5-6 yrs. girls — Sharon Johnson; 2 Pamela McColm.

7-8, boys — 1 Jim Blair; 2 John Anderson.

7-8, girls — 1 Susan Blair; 2 Brenda Blair.

9-10, boys — 1 Scott Duheme; 2 John Blair.

9-10, girls — Judy Johnson; 2 Janet Scally.

11-12, boys — 1 Hugh Barr; 2 Brodie Blair.

11-12, girls — 1 Nancy Waller; 2 Michelle Galipeau.

13-14, boys — 1 Freddie Hutchings; 2 Robert Currie.

Three-legged race, girls — 1 Sandra Currie and Margaret Scally; 2 Nancy Waller and Sheila Stevenson.

Boys — 1 Freddie Hutchings and Graham Kiscock; 2 Lyndon Hutchings and Gordon Johnson.

Sack race, girls — 1 Nancy Waller; 2 Sandra Currie.

Boys — 1 Brodie Blair; 2 Gordon Johnson.

Wheelbarrow race, girls up to 14 years — 1 Sheila Stevenson and Margaret Scally; 2 Ann Steele and Marilyn McComb.

Boys — 1 Brodie Blair and David Currie; 2 Robert Currie and Hugh Barr.

Nail driving contest — Ladies, Mrs. Bernhardt; men, Mr. Russell McDonald.

After the races swimming was again enjoyed by some, while others had a ball game. Everyone reported it as a very successful and enjoyable picnic.

A miscellaneous shower was held for Miss Iona Lamb in the Rockburn Church Hall, on Thursday evening, in honor of her marriage to Mr. Ronald Mather on Aug. 8th. The ladies, numbering over 50, had gathered to greet the bride-to-be, who arrived about 8:30 and was escorted to a chair behind a table on which the gifts had been placed. Her mother, Mrs. J. Lamb, and aunt, Mrs. F. Moore, were seated on either side of her, together with Mrs. Wm. Mather to assist in opening the gifts which were both lovely and numerous. After the gifts had been seen by the guests, Iona thanked everyone very graciously. Refreshments were then served by the hostesses, Mrs. R. Barr, Mrs. G. Atcheson, Mrs. Ray Arthur and Mrs. Everett Lindsay.

Mrs. John Oliver, who has been spending some time at the home of Mr. and Mrs. Wm. Mather, has returned to Oswego, N.Y.

Mrs. A. S. Reid entertained the Huntingdon W.M.S. and several other guests at a lawn tea on Thursday evening.

Miss Rossie Dunham also Mrs. Harvey of Montreal, were weekend guests of Dr. and Mrs. Reid and Mrs. W. G. Gibson.

Mr. and Mrs. Claude Winter of Syracuse, N.Y., and Mrs. Murray Blair of Montreal, spent a brief holiday at their childhood home, now the property of Mr. Leslie Rennie. From there they visited several of their old friends in the vicinity.

Mr. and Mrs. Edwin Johnston and Mr. and Mrs. McQuaig of Brimston, Ont., and Miss Laura Johnston of Peoria, Ill., made a brief call on Mr. and Mrs. B. Pennington, Sunday evening.

Apples Should Be Picked When They Are Mature

The apple harvest is not intended to be a race between the growers to see who can get his crop on the market first, regardless of quality. At the end of very summer during the past few years, a few lots of immature, excessively green fruit have spoiled the market, ruined the price and left the consumers with a very unfavourable impression of our Quebec apples.

At the present time it is most important for fruit-growers to use every means at their disposal to keep their markets. The best way to do so is by offering high-quality, properly graded fruit. A satisfied customer will look for the same product again the next time he comes to buy. Several surveys have been made with the object of finding out what the customers really want. Over 90% said that they preferred a juicy, red, medium sized apple. These are precisely the quality found in the well-matured fruit.

Mr. Gilles Lasnier, specialist in fruit-growing, suggests that the following signs of maturity be used as a guide to the right time to pick apples:—

- a) When the green side of the apple turns yellow;
- b) When the apple tends to separate easily from the fruit-stem;
- c) In each district, for each different variety there is a well-established date for picking which varies very little from year to year;
- d) In the case of summer varieties the brown colouring of the seeds or pips may be used as an indication of maturity;
- e) Amongst other methods of a more technical nature for testing the state of maturity of apples are the following:
 - The pressure test, in which a specially designed appliance is used to gauge the firmness of the fruit;
 - Iodine is used to reveal the amount of starch in the apple. Starch gradually turns into sugar as the time for picking approaches;
 - Many growers have a tendency to start picking too soon, hoping to get the top price for the earlier part of their crop and taking the chance of having to sell the remainder at a ridiculously low price. In many cases, however, this practice leaves the customer dissatisfied and exposes the retailer to a deluge of complaints.

Franklin Centre

Mr. and Mrs. Jas. Slattery and Mrs. Fay Davis of Bellow's Falls, Vt. and Mr. Ernest Adams of Lynn, Mass., were the guests of Mrs. Mabel Le Claire for the past week. A lovely trip was enjoyed while visiting in Canada along the Seaway to Massena, N.Y. seeing the wonderful project there.

First Golfer: "The traps on this course are very annoying."
Second Golfer: (trying to putt): "Yes, will you please close yours?"

Valleyfield

VALLEYFIELD — Mrs. R. Clark and her daughters Elizabeth and Suzanne of Danville, Virginia were callers in Valleyfield, last week.

Miss Alison Pelletier of Salmon Arm, B.C., is visiting her brother and sister-in-law Rev. and Mrs. W. Charles Pelletier for a few days.

Mr. and Mrs. Thos. Crook attended the Lamb-Maitter Wedding at Rockburn, Que., on Saturday, Aug. 8th 1959.

Mrs. A. L. Getty and Miss Genevieve Getty have returned home after spending a vacation at Cap-a-l'Aigle.

Mrs. Erwin Deutch of Montreal was a guest at the home of Mrs. D. N. Montgomery on the week end.

Mrs. A. D. Cuthbert of Montreal was the guest of Miss Anne Wilson, on the weekend.

Mr. and Mrs. John R. Wilson of Quebec spent the weekend at the home of Mr. Robert Wilson.

Mr. and Mrs. Sidney Montpetit and family of Cornwall, Ont., are vacationing in Valleyfield.

Mrs. Crosley Lochead and son of Sault Ste. Marie, Ont., are visiting Mrs. Pare.

Mr. and Mrs. W. J. Adams arranged Billy of Toronto spent a few days with Mr. and Mrs. Clarence McQuaig and Mrs. Wm White. Mrs. Adams is a daughter of Mrs. White.

Mrs. Bert Willis entertained at a miscellaneous shower in her garden, on Saturday, for Miss Ann Louise Lander, whose marriage to Mr. William Moore of Nitro, takes place on August 22nd.

The hostesses were Mrs. Willis, Peggy Willis and Mrs. Marion Cronshaw.

The table was artistically decorated in pink and white and the gifts were beautiful.

Mrs. Lander and Mrs. Moore poured tea. Friends of the bride-to-be from Montreal were: Mrs. Garnet Oulton and Mrs. Beth Kendall.

Golf News

The Club Professionals' prize was won by Muriel Plante, low net; Iris Amos, low gross.

Congratulations to Andrea McFee who turned in a score of 89 on Saturday.

Foam Mattresses For Cattle

A Novel idea that may prove useful to dairy farmers, short of straw for bedding down cattle is a "feather-bed mattress" for cattle, recently developed by Major Anthony Bramley, an Oxfordshire, England, farmer. When stabled, his 80-cow herd of Holsteins now sleep comfortably on plastic covered foam mattresses. Instead of straw.

"I am not pampering my cows," he says, "it is economically sound when the price of straw for bedding is high." The plastic foam covered mattresses last for long periods and barn labour is considerably reduced. The plastic covered mattresses are completely immune from rotting caused by water, and one man can hose each cow stall and mattress in a few minutes when cleaning out.

Last winter Major Bramley, who combines all his grain, found himself short of straw. While he could buy straw, the high price asked made him look around for some alternative bedding for his 80-cow herd. He first asked himself, "People lie on mattresses, so why not cows?" Then he says, "I wondered about a suitable material—the main difficulty was finding a covering for the mattress which had to be strong enough for hard wear. At last I found a suitable plastic."

The Major's idea has already drawn a lot of interest in New Zealand, America and several European countries. Maybe it will also prove useful to Canadian dairymen who find straw too expensive and who want to get away from the tedious job of removing straw from stalls.

Aubrey-Riverfield

AUBREY-RIVERFIELD — Rev. and Mrs. E. F. Carey, Ivan, Norma, Teddy, Kenny, Donnie and Barbara Ann arrived from Tokyo, Japan, on Monday, on a week's furlough. They spent a week with Mr. and Mrs. R. B. Ness and were guests on Wednesday of Mr. and Mrs. R. W. Templeton.

Rev. Carey officiated at the marriage of William Robert Templeton and Roberta Isabel Todd, Charlottetown, P.E.I., at Howick United Church, on Saturday, at 2:30 p.m. Following the ceremony and reception in the Church Hall, Bill and Roberta left among showers of confetti and good wishes on their wedding trip.

Mrs. Ed. Tupper and daughter Mrs. Olds, Vancouver, B.C., and Mrs. Alberta Morrison, Edmonton, Alta., spent a few days with Mr. and Mrs. John Maxwell and visited other friends. It is forty-two years since Mrs. Tupper has been in the community.

Mr. and Mrs. John J. Todd, Charlottetown, P.E.I., spent two days with Mr. and Mrs. Robert Templeton and attended the Templeton-Todd wedding. They accompanied Mr. and Mrs. Guy Ramsden to Ottawa, on Saturday evening.

Mr. and Mrs. Robert Templeton entertained the wedding party following rehearsal, Friday evening.

Mr. and Mrs. Wallace Craig, Ross, Marian, Alvin and Rae, Mr. and Mrs. Ernest Robertson and Lorraine Tanner were Sunday guests of Mr. and Mrs. T. L. Wilkinson and family, Selby Lake.

Mrs. Ian Ellis and three children, Montreal, spent a week with Mr. and Mrs. John Maxwell.

F. O. Brodie Templeton, St. Hubert, is spending this week with his parents, Mr. and Mrs. Robert Templeton.

Mr. and Mrs. Wm. Stacey, daughter Brenda, and Miss Joan Dillon accompanied Mr. Keith Robb, Sydney and Lynn, to St. Agathe, on Sunday, and spent the afternoon with Mrs. Robb.

Sorry to report that Miss Nancy Robb had the misfortune to fall and break her arm. All wish her a speedy recovery.

Mr. and Mrs. Alfred Lafosse, Montreal, a short-time ago purchased the land in Scotch concession, formerly owned by Mr. Gordon Easton. They have erected a prefabricated house. They and their family spend weekends in "The Scotch".

Better Vision Advocated For Motorists

Motorists can avoid two out of three driving offences by attention to VISUAL problems, according to a group of researchers who have been enquiring into the situation.

"We believe that attention to these findings can prevent accidents and save many lives," says Dr. Raymond Marchand, optometrist, President of the College of Optometry who at the same time announced the appointment of Dr. Louis Vallières, as National Chairman of publicity for BETTER VISION week for Canada, to be held September 14-21. Taking an active part in the forthcoming campaign will be Dr. Paul E. Talbot, President of the Visual Welfare League; Dr. Robert Fournier, President of the Quebec Canadian Association of the Optometrists.

According to tests, more than 60% of motorists lack the ability to focus their eyes quickly, and cannot judge depth and distance correctly. Such drivers do not necessarily need glasses and the type of visual problems does not show up in regular tests with a wall chart.

"Many can see perfectly well once they have taken time to focus their eyes," adds Dr. Vallières, "but have slow or lazy eye muscles. This may cause a momentary delay in focussing when changing the vision from one side of the road to the other, or in looking up from moving traffic to a road sign or traffic signal."

Driving at night in the face of oncoming headlights may cause rapid tiring of the eyes, soreness of the neck or headaches, all of which can mean danger in a fast moving car.

Visual defects of this nature are equally common among people who wear glasses and those who do not.

To bring an awareness of such VISUAL problems to the motoring public and to find some solution of them, one complete day of Better Vision Week will be devoted to vision and motoring. It is hoped that the week, sponsored by the Canadian Association of Optometrists and Visual Welfare League of the Province of Quebec, will make a vital and important contribution to the promotion of safety and better motoring on the roads of Canada.

To bring an awareness of such VISUAL problems to the motoring public and to find some solution of them, one complete day of Better Vision Week will be devoted to vision and motoring. It is hoped that the week, sponsored by the Canadian Association of Optometrists and Visual Welfare League of the Province of Quebec, will make a vital and important contribution to the promotion of safety and better motoring on the roads of Canada.

Visual defects of this nature are equally common among people who wear glasses and those who do not.
