Vienna Despatch Says Government at Paris Has Undertaken to Negotiate.

STRANGE RUMORS FROM THE RUSSIAN CAPITAL

Situation Obscured Beneath Confusing Maze of Contradictory Stories.

The nature of the news received today regarding the struggle in the Balkans is so extraordinary as to call for some explanation. It is obvious that some of the stories sent from European capitals are in the highest degree improbable, and that others are inspired. They are reproduced below as received, and readers of The Montreal Star must draw their own conclusions from the various despatches.

The one dominant fact seems to be that efforts are being made by the Powers to persuade the belligerents to settle their differences before Roumania and Turkey, by joining in the fray, submerge the whole Balkan peninsula in a welter of fratricidal blood.

Canadian Press Despatch.

Vienna, July 10.—France has undertaken to negotiate with Servia and Greece on behalf of Bulgaria to ascertain what terms of peace can be arranged. The French Government has not told the Greeks and the Servians not to demand too much or other wise Bulgaria is likely to prefer to take the chances of fighting out the quarrel.

RUMORED RUSSIA TO DECIDE ISSUE.

St. Petersburg, July 10.—Bulgaria has placed herself unreservedly in the hands of Russia with the view of bringing about a cessation of hostilities in the Balkans and in order to prevent further bloodshed, according to an announcement made here to-day, apparently on good authority.

POWERS REPORTED TO HAVE SENT NOTE.

International News Despatch.

Paris, July 10.—A joint Note from the main European Powers was today forwarded to Sofia, demanding that Bulgaria immediately secure peace terms from Servia an Greece. The belief prevails here in military and diplomatic circles that Bulgaria will be soon defeated by the other three States of the Balkan League if the war is allowed to go to a conclusion. If Bulgaria is compelled to sue for peace she will lose much of the spoils of the first Balkan war which otherwise would have been hers. Greece will retain Salonika and a big strip in Southern Macedonia, while the servians will retain or will be extended over a large area of Northern Macedonia. Servia will not consent to an easy peace with Bulgaria, but it is unlikely that the Powers will permit the invasion of Austria.

STRANGE STORY FROM RUSSIAN CAPITAL.

International News Despatch.

St. Petersburg, July 10.—The early cessation of fighting in the Balkan States was forecasted here to-day, when the Bulgarian Minister informed the Foreign Office that the Czar Ferdinand had ordered the withdawal of the entire Bulgarian line which had been engaging the Greek and Servian troops.

According to the Minister the Czar Ferdinand has removed General Savoff as Commander-in-Chief of the army on account of his precipitating the war. He has also decided not to occupy the forts and Servian declarations of war and has ordered the speedy withdrawal of the Bulgarian troops.

VIEWS OF TIMES CORRESPONDENT

Associated Press Despatch.

London, July 10.—"The present is the most critical time for the Bulgarian race since King Milan of Servia declared war on the Bulgarians in the absence of the Bulgarian army on the Turkish frontier," says the Sofia correspondent of The Times.

"Bulgaria is now threatened by hostile forces on every side but the most critical feature of the situation" he says "are being confronted with extraordinary calmness and resolution. All reserves who hitherto have been exempted from military service have been called out and they respond ready, it being realized that the whole future of the Bulgarian nation is at stake.

"A more cheerful view however prevails to-day. Instead of a serious defeat which the first Kavalieff official message were supposed to indicate as the motive for the evacuation of Kotchana, it appears that the fighting has occurred in that region in the last few days which have been occupied by the Servians in order that their dead and wounded and the artillery could be brought off in safety. The troops have now taken up strong positions from which it will be difficult to dislodge them.

"Up to Tuesday night Seres was not occupied by the Greeks.

"Communications have been interrupted by the flight of the telegraph operators. King Ferdinand has therefore given orders for Bravery or Death Banner for his army's resistance against the enemy's forces.

The Constantinople correspondent of the Times says on high authority that the Bulgarian forward movement which precipitated the fighting at Istip and Kotchana was carried out in accordance with instructions issued to General Savoff, contrary to the wishes of the Government, King or Premier Daneff.

A despatch to the Times from Lemnos says that both armies are now engaged in strategic preparations for the development of the second stage of the campaign, the struggle for the possession of Strumnitza and Serres.

SOFIA REPORTS BIG BATTLE RAGING

International News Despatch.

Sofia, July 10.—Another terrific battle with enormous forces on both sides is raging north of Strumnitza between the Bulgarian and Servian armies which are converging upon the border city. Bulgarian troops are reported to be in possession of the heights to the east of Strumnitza and Bulgarian troops are reported to be in possession of the heights to the west of Strumnitza and Bulgarian troops are reported to be in possession of the heights to the south of Strumnitza.

The battle is the most stupendous struggle of the present war.

The Greeks are reported to be advancing upon Strumnitza from the south.

SERVIANS CLAIM ANOTHER VICTORY

International News Despatch.

Belgrade, July 10.—Reports of a great victory gained by the Servians over the Bulgarians are made here to-day. The Servian commander-in-chief has announced that the Servian army of Monastir has defeated the Bulgarian army, capturing 15 guns. The Bulgars are said to be in full retreat towards Passovitza, pursued by the Servians. The Bulgarian losses are reported to be enormous.

TURKEY SAID TO BE DECLARING WAR

International News Despatch.

Constantinople, July 10.—Reports are circulated here to-day that the Turkish Government has decided to declare war against Bulgaria. Orders have been issued here to-day for the mobilization of the Turkish army.

GREEK NAVAL FORCE OCCUPIES KAVALA

Associated Press Despatch.

Athens, Greece, July 10.—A Greek naval force has occupied Kavala on the Aegean Sea coast of Turkey in Europe, it was officially announced here to-day. The Bulgarians are said to be in full retreat towards Drama, pursued by the Greeks. Kavala is the port of Drama and is the principal town of the district. It is situated on the Gulf of Kavala, 100 miles east of Salonika. It has a population of 12,000. Kavala is the port of Drama and is the principal town of the district. FEMALE JEKYL AND HYDE EXPOSED IN MILITANT 'GETTE

Loving Wife by Day, Firebug by Night Has Done $200,000 Worth of Damage Glories in Her Crimes, Saying She Sets Suffrage Cause Above Family and Religion Burned Down Sir W. H. Lever's House and Placed Bomb in Liverpool Stock Exchange Basement Hunger-Strikers Re-Arrested.

Special to The Montreal Star.

Liverpool, July 10.—A remarkable confession of arson, the which in some respects reflects the strange case of Dr. Jekyl and Mr. Hyde, was made here to-day by a woman. Mrs. Edith Rigby, the wife of a well-to-do and prominent doctor, admitted to the police that she has been a member of the militant suffragettes organization for six months without her husband's knowledge.

Every night she would slip from her home and set fire to buildings, plant bombs, or send incendiary letters to those opposing the cause. She told the police that she caused at least $200,000 damage through her own exertions. Her husband opposes suffragism and she had to act in utter camparative of Judaism and Christianity.

By day she appeared a gentle, dutiful wife with no thought of "Votes for Women," but at night she went forth with violence in her heart.

She was arrested. After being taken to the police station, Mrs. Rigby dramatically declared that it was she who had on Tuesday this week, burned down the country residence at Rivington, near Horwich, Lancashire, of Sir William H. Lever causing damage estimated at $100,000.

She further confessed to being the perpetrator of the outrage at the Liverpool stock exchange on June 5, when a bomb exploded but caused little damage.

PLACES CAUSE ABOVE HUSBAND AND CHILDREN.

Mrs. Rigby surrendered voluntarily to the police. When arraigned to-day she gloried in her achievements, saying she wanted Sir William H. Lever to consider whether his house was more valuable as a show place than as a beacon lighted for the King and the country to see women suffering an insupportable grievance.

She told the magistrate:

"I lighted that beacon. I also placed the explosives in the Liverpool Stock Exchange to show how easy it is to procure them and to place them in public buildings. I might just as easily have blown up the Nelson monument.

"I chose the Liverpool Cotton Exchange because the cotton industry has been built up largely by women labor. The merchants are willing to get power and wealth out of the toil of women, while the women themselves are denied the vote and a voice in the government."

Mrs. Rigby was remanded for a week.

AMERICAN MARCONI NO CONCERN WITH IMPERIAL CHAIN

LOOK TO CONGRESS TO RATIFY CANADA'S FISHERY TREATY

Special to The Montreal Star.

Ottawa, July 10.—The Right Hon. H. Samuel Postmaster General was asked in the House of Commons to-day how the interests of Great Britain were to be safeguarded in the new contract with the Marconi Company for the establishment of an Imperial chain of wireless telegraph stations was approved, in view of the possibility that the American Marconi Company or any other association should fall or suffer from the action of a foreign government.

The Postmaster General replied that the American Company had nothing to do with the proposed Imperial chain. He added that he had asked the representatives of the company to meet the Godsenmidt system of wireless telegraphy to make an early demonstration of the system for the Government.

CANADA'S MONSTER DRYDOCK

Structure at Levis Will Be Largest of Its Kind on the Continent.

MONTREAL FIRM GETS THE CONTRACT

Govt. Policy to Accommodate Shipping on Atlantic and Pacific Coasts.

The Dominion Government has entered upon an extensive policy of construction for the purpose of accommodating shipping on the Atlantic and Pacific coasts and on the St. Lawrence route.

Tenders for the largest dock in America to be constructed at St. Joseph de Levis, opposite Quebec, have been forwarded to Ottawa and it is expected that a contract will be awarded immediately.

While no [illegible] can be ascertained at the [illegible] the matter is finally disposed of by the Council, it is understood that the contracting circles of the successful bidder is M. P. Davis, the big contractor with headquarters in Montreal.

The contract price is said to be $2,000,000. This is considerably below the estimate of the engineers, but Mr. Davis has the advantage of having his extensive plant and contracting equipment practically upon the ground. The firm was the contractors for the Quebec Bridge and the [illegible] for the Transcontinental Railway in the Quebec district.

WILL ACCOMMODATE THE IMPERATOR.

The dock is to be 1,150 feet long and 150 wide. It will be so constructed that two ships of the largest type now in operation on the St. Lawrence may be accommodated at once. It is of sufficient size likewise to accommodate a ship of the magnitude of the Imperator.

The Montreal Shipping Federation is deeply interested in the work as it has long been agitating for a dock at Quebec.

The first proposal was that the dock should be built as a private enterprise and subsidized under the Act which a couple of years ago was amended by way of increasing the [illegible] in respect of which the three and a half per cent subsidy could be paid. The plan failed to work. Wash projects were invited only one was received [illegible] that was irregular. It was stated that great difficulty was experienced in securing the [illegible] and this accounted for the failure to take advantage of the liberal provisions of the Subsidy Act.

The Shipping Federation is now said to urge upon the Government the necessity of the work and it is understood that it might be proceeded with as an independent undertaking.

SHAKESPEAREAN PLAYERS COMING FROM STRATFORD

Governors of Memorial Theatre in Dramatist's Birthplace Send Company Across.

OBJECTS AND AIMS OF ORGANIZATION

Advancement of Dramatic Art and Perpetuation of Shakespearean Historic Places.

One of the most important dramatic engagements Montreal has ever had has been made for next season with the Stratford-on-Avon ... the direction of Mr. ... give ... Shakespearean plays ... His Majesty's Theatre in October ...

... every Ambassador accredited to the Court of St. James and which attracts ... people interested in the advancement of the drama.

The ... of the Memorial Theatre have taken special pains to assemble for this Transatlantic tour a company of exceptional strength and distinction. The list of names includes actors and actresses of profound versatility and wide experience, and the repertoire will embrace sixteen Shakespearean plays, including the historical cycle.

The work of the Memorial Theatre is the advancement of dramatic art and the continuous presentation of the works of the greatest dramatist of all time with the object of familiarizing the public with those works on the stage and thus doing something to raise the standard of public taste for drama.

Profits Devoted to Art.

It is not an institution run for financial gain. The income from the performances is devoted to furthering the objects of the Association and the greatest figures in the dramatic world are proud to share in the performances. For many years Ellen Terry and her no less gifted sister, Marion, were yearly features in the Festivals, and since the inception of the institution there is hardly an honored name in the long list of England's great actors and actresses that has not appeared on the Memorial Theatre programmes.

In sending this company to Canada and the United States, the Governors of the Memorial Theatre are aiming at giving the widest publicity to the work of their Association and at enabling a larger public than that of the British Isles to become acquainted with Shakespearean performances produced under auspices that ensure historical accuracy and the most complete presentation of the works of England's premier dramatist ever attempted.

For instance, the entire text of "Hamlet" is played by this organization and the acting versions in general use by the players are more complete than any now before the public.

The costumes and the scenery, all made in England, are remarkable examples of absolute historical accuracy even to the minutest detail. No expense has been spared in their preparation, and the scenic equipment of the company is in keeping with the high standard of the ...

GRAND OPERA TO OPEN IN TORONTO INSTEAD OF HERE

Queen City Secures First Week of National Opera Company of Canada This Year.

A change in the itinerary plans of the National Opera Company of Canada, Limited, removes the scene of the opening of that organization from Montreal to Toronto. The Queen City has been cultivating a taste for grand opera somewhat strenuously during the past few years, and when the organization of the new company was announced, the management of the big ... festival, which is being made an annual event, conceived the idea that it would be a popular attraction if they could get a week of grand opera during the celebration of that festival.

The management of the company was approached, and the result is that Toronto takes first place, and Montreal will be the second Canadian city to be visited. The company will open in Toronto on October 7, and it is expected that they will spend three weeks there. The opening in Montreal will be on November 17.

There is a likelihood of a working arrangement being effected with the reorganized Chicago Opera Company, under which Montreal would be enabled to hear some of the greatest of living operatic artistes. Though this arrangement has not yet been agreed upon, the Chicago management are disposed to consider it favorably. Moreover, the Metropolitan Board in New York is placing certain facilities at the disposal of the Canadian company which will enable the management of the latter to present some casts that would otherwise be impossible of assembly here.

Maude Adams, September 8.

The shifting of the opera opening from Montreal to Toronto will obviate the necessity for one dark week at His Majesty's Theatre for rehearsals. The Guy street house closes on Saturday a record season, for there has been no dark week for the forty-five that have constituted the past season, with the single exception of one for opera rehearsals in October last year.

For one month the theatre will be in the hands of decorators. Extensive alterations are planned. It is the intention of the management to abolish the top gallery entirely, to build a new family circle, establish a spacious promenade and lounge room, and make every seat in the theatre available for reservation. The seating accommodation of the house will then be as follows: Orchestra floor, dress circle, balcony and family circle.

The next season will open on August 11, with George Evans' "Honey Boy" Minstrels. Dallas Walford in the new musical comedy "Adele" will follow. David Belasco's company in a new play will appear on August 26, and following that the noted English actor, Lawrence Brough, and his company will be seen in "The Lady of Ostend." This is the first booking by Mr. Judge, recently manager of the Princess.

Maude Adams, for whom Montreal has waited long, will make her first appearance in the city on September 8 in "Peter Pan."

To Settle Royal Case In Court

London, July 10.—A legal action in which the parties concerned are members of the British Royal Family is causing much comment in the small circle which has knowledge of the facts. The litigants are the Princess Royal, widow of the Duke of Fife, and eldest daughter of the late King Edward, and her daughter, the Duchess of Fife.

The differences between the mother and daughter relate to the property and estates left by the Duke, the courts being asked to adjudicate the question.

The matter has just been before the Chancery Court. There was much secrecy. Mr. Justice Neville, in order to keep the circumstances private, heard the arguments of counsel after the usual court hours, sitting as what is legally termed an "in chambers inquist."

COUNT HAYASHI.

Noted Japanese statesman, who died to-day.

COUNT IS DEAD WHO FIGURED IN ANGLO-JAPAN ALLIANCE

Tokio, Japan, July 10.—Count Tadasu Hayashi, one of the leading statesmen of Japan, died to-day at the age of 63, after a surgical operation rendered necessary by injuries he had sustained in a jinrikisha accident.

He was at one time Minister of Foreign Affairs under Premier Saionji and in the last Saionji cabinet which resigned in December, 1912, was Minister of Communications. He had had a long diplomatic career having been Minister to China and to Russia and Ambassador at the Court of St. James during which latter appointment he was instrumental in bringing about the Anglo-Japanese alliance.

The Count was a prolific author and had made a profound study of foreign politics and history.

Lady Sackville Invites Jurors

Special to The Montreal Star.

London, July 10.—Lady Sackville, as a proof of her gratitude to the jurors who established her right to the fortune left her by Sir John Murray Scott, has invited them to tea at Knole Park, Seven Oaks, Kent, on Saturday.

This droll entertainment will permit the jury to inspect the famous country seat and its art treasures, which were preserved to Lord Sackville by Sir John's generous gift of money before his death.

Lady Sackville has asked many friends to assist in entertaining her "staguests, of whom none is of her "station in society," as she said of a lady during the now famous trial.

The "Wonder Tour" Through the Northwest

Have you ever been to Glacier Park? Have you ever been to Yellowstone Park? Have you been to the North Pacific Coast? No?

Well, I would like to have the privilege of explaining how you can arrange a summer tour to include all three, stopping at Glacier on the way out and Yellowstone on the way back.

It's the most interesting, fascinating trip in the world, and Railroad, Hotel and stage facilities are so perfect now that the trip is a joy from start to finish.

I would like to send you maps and pictures and booklets describing these places, and I would like you to let me help you plan a trip and tell you all about the service and the cost. Will you allow me to do this. Address J. A. Yorrick, Canadian Passenger Agent, C. B. & Q.R. R., 56 King Street East, Toronto. Phone Main 1096.

ACTION TO RESTRAIN HAMMERSTEIN FROM PRODUCING OPERAS

Special to The Montreal Star.

New York, July 10.—The Metropolitan Opera Company yesterday began a Supreme Court action against Mr. Oscar Hammerstein, to restrain him from producing Grand Opera in English or any other language, in New York City and elsewhere.

The complaint asks for a permanent injunction restraining Hammerstein from producing Grand Opera until April 26, 1920.

Mr. Hammerstein said:—"The whole controversy is the most pleasant thing that has happened to me since I retired from the operatic field, because I ... to com... peculiar Wall Street methods by which this contract was obtained during my absence in Europe."

Swiss Ban On Turkey Trot

Geneva, July 10.—Many leading Swiss hotels are exhibiting notices prohibiting "American" dances, such as the turkey trot and the buny hug on account of complaints by others than the Anglo-American visitors.

Several unpleasant scenes have happened in the ball room of hotels. An Austrian officer, seeing his daughter dancing the turkey trot with a young American visitor, snatched her away from her partner, to whom he presented his card, sending seconds for a duel the following morning.

American girls dancing with foreigners are recommended to keep to the waltz and two step.

MRS. M. T. LANE DEAD.

WOMAN FIGHTS TO GET AT GIRL WHO KILLED HER LOVER IN AN ACCIDENT

Stirring Scenes at the Morgue During Inquest Into Nun's Island Tragedy — Coroner Scores Immorality Rampant There — Juror is Ch[illegible] From Court—Mary Ellis Faints Several Times —No One Held to Blame.

"Little coward! Let me at her! She has killed my love! Let me at her, I tell you! I have nothing to live for now."

Screaming at the top of her voice, and struggling free from two men who were trying to hold her, Mary Ellis, the woman who was mentioned in yesterday's papers as Mrs. Leslie, the wife of William Leslie, the victim of the Nun's Island shooting, made three wild rushes at the girl who accidentally fired the fatal shot, during the progress of the inquest at the Morgue this morning.

Once the hysterical woman rushed so close to the trembling woman that spectators thought the latter was going to be torn limb from limb, but strong arms succeeded in holding the woman back in the nick of time. Sympathizing friends tried in vain to soothe her, for every time she caught sight of Miss Mathilda Beriault, who did the shooting, she struggled to her feet, saying: "Let me at her!" or "Take her away, don't let me look at her."

MATHILDA BERIAULT.

Twice Fainted.

Twice while being questioned in the Coroner's Court, the heart-broken woman fell off in a faint, but each time Dr. Dugas, the medical expert at the Morgue, was on hand to restore her.

"Try to be calm," the Coroner advised her.

"How can I when she has killed my lover?" sobbed the woman.

When being led out of the Court the woman sank in a heap on the floor, screaming: "God take me away; I cannot live now."

When the verdict was announced to the effect that Mathilda Beriault had been excused for firing the fatal shots, more thrilling scenes than ever were witnessed in the corridor of the little morgue.

Once again the hysterical woman struggled to get free.

"If she had only come to me and told me she was sorry," the woman screamed. "She has killed my love, and still she has everything to live for. She still has her friend, and I have nobody in the wide world."

The Other was Afraid.

So serious had matters become that the trembling girl who had caused Leslie's death was absolutely afraid to pass near the woman when leaving the morgue after her discharge. Guarded on either side by Detective Sampson and Constable Hebert she was finally led out of the building by another way, while the woman continued to scream for her.

It was erroneously stated that Mary Ellis was the wife of William Leslie the victim of the shooting. This morning she admitted that she was not married, but was to have been married to him this summer. Leslie was a widower and has a sister and two children living in Toronto.

Immorality Rampant.

Startling disclosures came out during the inquest the life lead by the campers on Nun's Island. Coroner McMahon declared on the conclusion of the inquest that he was absolutely astounded by the immorality which appeared to be prevalent among the campers.

"The authorities should go over there and investigate the conditions," he declared. "The city police have no jurisdiction there, but probably the Verdun police or the Provincial detectives might be instructed to make a sweeping investigation. The island is owned by the Nuns, who live on the other end, and for years, I understand, they have been trying to put a stop to the promiscuous camping on the island. It is time it was stopped now."

Another exciting episode occurred shortly after the inquest was opened this morning. When Mary Ellis collapsed screaming in the court, Joseph Harel, one of the jurors, exclaimed: "No woman should carry on like that."

"Get out of this court-room," shouted the coroner, turning on the surprised juror like a flash. "If you are so prejudiced as that, this is no place for you."

"Oh, I can stay all right," said the juror, settling back in his seat, with a self-satisfied air.

"Get out, I tell you," said the coroner, pointing to the door.

Very reluctantly, the juror finally rose to his feet, and sidled out of the courtroom.

Miss Ellis' Evidence.

Miss Ellis was the first woman examined, although it was with difficulty that she could say two words without sobbing and screaming. After she had recovered from her first faint, the coroner asked her if she could give her evidence.

"Yes, I can for his sake," said the woman meaning the man killed in the shooting.

She explained that if she had walked a few steps to one side at the time of the shooting, she might have got the bullet instead of Leslie.

"Would to God I had got it," she moaned.

The woman denied that there had been any quarrel between Leslie and the party in the tent where the shot was fired from, although Leslie himself said in his ante-mortem statement that he had had words with a couple on the island. The Sunday before Leslie had remonstrated with the party for shooting and asked them if it was not out of season for shoting small birds.

Marcil Derocher, of 312 Cadieux St., another camper on the island, said he was out fishing at the time the shot was fired. He said the party sometimes used to practice with a small 22-calibre rifle but had always fired in the direction of a swamp, not in the direction of the tents.

Bullet Glanced Off.

Detective Samson declared that he had examined the trees in the neighborhood and found that one bullet had struck a tree and glanced off, and had apparently passed through the tent occupied by M. Girard prior to striking Leslie down outside his own tent. He had no doubt but that it was an accident.

Mathilda Beriault, the girl who fired the fatal shot, was brought in to be examined, but Charlemagne Rodier, her lawyer, advised her not to make a declaration.

In his address to the jury, the coroner said there was no question in the case of deliberate intent to kill, but there was such a thing as criminal carelessness. It was no excuse to say that the shot was not fired directly at the victim. Anybody in the neighborhood might have been killed by the same bullet, and the law was very severe on such cases of carelessness.

Notwithstanding this charge the jury decided upon the following verdict:

"We, the undersigned jurors, after having heard the evidence, declare that William Leslie died in Montreal on July 8, 1913, as a result of a hemorrhage caused by a shot fired by Mathilda Beriault, whom we excuse."

BLAMES PRESSURE FOR DAMAGE DONE AT NORTH-END FIRE

Member of Rolland Bros. Complain Also of Absence of Salvage Waggon.

Complaints regarding the water pressure at the time of the outbreak of fire in Rolland Brothers' premises at 901 Henri Julien street, were sounded this morning by J. H. R. Rolland, of that firm. Mr. Rolland declares that if the water pressure had been at all good at the time of the outbreak of the fire, he and his employes would have been able to extinguish it before the arrival of the firemen.

The building, he says, is fitted with sprinklers, but at the time the pipes were installed, Mr. Roiland says he noticed that the water pressure was not strong enough to carry the water up to the top story where the fire started yesterday. The result was that they did not instal pipes on that story.

When the fire broke out yesterday, however, Mr. Rolland says that by means of hose they hastily made a connection with the pipes on the story below, but the water would not go that high. Just as soon as the firemen arrived, however, the pressure became good, as though it had been especially strengthened for the occasion.

Mr. Rolland moreover states that the water pressure changes from time to time. Once when the pressure was very poor, he says, he telephoned to the Laurier ward office of the Montreal Water and Power Co. and that they told him the pressure would become strong again in a few minutes, and so it was.

Three weeks ago, there was another outbreak of fire on a lower story of the Rolland premises, and at that time, he claims, the pressure was so poor that he could not get water at all, and finally had to make a connection with the hot water pipes in order to extinguish the fire.

At the Laurier ward office of the Water and Power Co., it was stated this morning that nothing whatever was known about Mr. Rolland's complaints, and that the pressure was quite good in Laurier ward at the time of the fire yesterday.

Mr. Rolland places his loss at $5,000. It would have been, much less, he said, if the firemen had had tarpaulins to cover his goods and machinery. He says he asked one fireman where was the salvage wagon, and was told "we haven't any."

SAYS MAN SOLD OWN CHILDREN INTO SLAVERY

Little Girl Who Escaped from a New York House Tells of the Episode.

RETURNS TO CITY, GLAD OF FREEDOM

Does Not Know What Became of the Others—Pathetic Story.

Do white slavers ply their nefarious trade in Montreal?

Here is the story of Yvonne Chechip, who has just returned to Montreal. She, along with four other girls, one of them her elder sister, as narrated in yesterday's Star, were taken away from the city a short while ago and were lodged in a house in a New York city. Yvonne managed to get away and what has become of the others she does not know.

Proceedings were instituted this morning by James B. Lambkin, the newly appointed commissioner to inquire into the case, to have the man who is said to have imported four girls for immoral purposes, deported by the American authorities, after which criminal proceedings will be instituted by the Federal authorities here.

Yvonne is a pretty, dark-haired child, only sixteen years of age. She is stopping with the wife of the man who is said to have taken the girls away, as she and her sister lived there before the episode. The wife it was who wrote the police of Lewiston telling them of what her husband had done. According to her he is a ne'er-do-well who has appeared frequently in the police courts on a wide array of charges.

Took His Own Children.

This man had two children by his first wife and they are now 14 and 11 years old. They were among the five taken away, according to Miss Chechip.

Three weeks ago, so The Star was told, the man told the four girls,—his two children and the Chechip sisters,—that they were all going to the States, where he would set up house. No mention was made of this to his wife, however. On the appointed day, a man friend of the elder Chechip girl appeared and the six went to the States together. There they met another woman "a woman in a white dress, rather stout," as little Yvonne put it, making seven in all.

How or at what point they were allowed to cross the border without molestation, Yvonne could not tell. She said, however, that the husband described the woman in white as his wife, the two Chechip girls as his cousins, and the others as his children. These latter did not appear to take any great exception to their new "mother."

Was Allowed to go.

The party appear to have reached Lewiston, or Burlington. Yvonne doesn't know which, and lodged at a house "down on St. Paul Street." It was here that the girls, all escape cut off, were told what sort of life they were expected to lead, and Yvonne, who objected, was roughly handled by "her sister's cavalier," as she described him.

Eventually she pleaded with the man who kept the house to let her go, and he agreed to do so, giving her sufficient money for the train trip.

When a representative of The Star called at the house where the Chechip girl is staying, there was no food in the little home, which is in a back court and of the humblest description. The husband had paid the rent to the end of July only. Yvonne, however, is happy to be "home" once more, and is thankful that she was able to come back. The deserted wife says Yvonne was always a good girl, and was in service till a short while ago, when she had to give up on account of ill health. The girl herself seemed very uncertain when questioned on some points, and cannot say definitely what town the party went to first. She only knows that her sister, the strange woman of the railway station, and the two other little children are somewhere in a house of infamy—that is, unless the police have laid hands on them.

Police take Action.

Commissioner Lambkin said this morning that he was in communication with Col. Sherwood, Chief of the Federal police, and that the latter had instructed him to take proceedings. As a result a conference was held with the American Immigration officials here, and papers will be forwarded to Washington asking for the deportation of the man. When he returns to Canadian soil criminal action will be commenced.

Mr. Lambkin, who, with the assistance of Inspector Charpentier of the city detective force, has been working on the case for some days, stated that the case was the most deplorable one he had ever heard of, and stated it was impossible for him to believe until it was thoroughly investigated.

Yesterday afternoon Mr. Lambkin visited the house where little Yvonne is staying, and received her sworn statement. It was upon this that the Dominion authorities instituted proceedings.

Child Still Unclaimed.

The little girl who was taken to the police station a week ago and who could not explain where she lived, is still with Madame Albert, the police matron. The police have not decided what to do with her if no one claims her. It is likely she will be given to some respectable family for adoption.

IN A DIFFERENT LIGHT.

Pugnacious Individual—"Have you lost anything, Madam?"
Madam Civilization—"Yes, much of the sympathy I used to have for you."

JOHNSON WILL NOT RETURN

Havre, France, July 10.—Jack Johnson, the colored pugilist, arrived here to-day on board the Corinthian and immediately on landing announced his determination never to return to the United States. He said he would in the future take up his residence in Paris.

FORFEITS BONDS ON CASE NOT YET TRIED.

Washington, D.C., July 10.—Jack Johnson's announcement that he would never return to the United States caused Department of Justice officials immediately to consider steps to bring about the forfeiture of his $30,000 personal bond, pending in Chicago for his appearance, in connection with white slave indictments upon which he has not yet been tried.

Judge Carpenter a few days ago declined to declare the bonds forfeited until it was clear that Johnson would not appear, when wanted. The Department of Justice, it is said, probably will seek official confirmation of his announcement that he will not return, and then present the matter again to Judge Carpenter.

Government attorneys expressed no regret over the negro's announcement. A few days ago officials considered the advisability of asking France to deport him upon arrival, but it was decided to let the case take its usual course. Their view was that there could not be any objection to his absence from the country, and if he should ever return, the year's imprisonment sentence would always be enforceable, provided the Circuit Court of Appeals approves the verdict.

Johnson may not find refuge in France, is the opinion of the State Department officials. They say that, while probably there is no provision in the extradition treaty with France under which his surrender could be demanded, the French authorities, even without a formal appeal from the United States department, may deport Johnson as, like most European countries, France is understood to have laws prohibiting the immigration of a person convicted of crime in his own country.

CANADIAN WINS AT TENNIS.

Special to The Montreal Star.

Folkstone, England, July 10—Change of plans having been made as to the playing of the semi-finals in the Davis Cup matches between Canadian and Belgian players, the first singles matches were played here to-day. R. B. Powell, captain of the Canadian team, defeated P. De Borman, of Belgium, 4-1.

In the second singles match Schwenger, the Canadian champion, beat A. G. Watson, of Belgium, by three straight sets, 6-4, 6-1, 6-0.

Roberts Gets Letter.

J. M. Roberts received a letter from a firm of lawyers this morning asking him to pay the sum of $65 to the druggist into whose place of business he was carried after being twice attacked at the corner of Beaubien and Christopher Columbus Streets. The money is for damage done to the store, for medicine, services rendered, etc. The letter concludes that unless the sum is paid immediately legal action will be taken.

SENATOR ELLIS DEAD AT 78 IN ST. JOHN TO-DAY

St. John, N.B., July 10.—The Hon. John V. Ellis, Dominion Senator, died early this afternoon in his 78th year.

Senator Ellis was best known to the general public as a veteran journalist, author and writer on many subjects of national and world interest. He was, in fact, famous in the newspaper world of Canada and the United States. He is believed to have been the oldest daily newspaper editor in America in point of continuous service, and his name is written large, as a great exponent of clean, honest and fearless journalism.

John Valentine Ellis was born at Halifax, N.S., on February 14, 1835, the son of Michael and Margaret Ellis, both natives of Ireland. After receiving a common school education, he learned the trade of compositor in Halifax, and later earned his living in Montreal by setting type. At the age of twenty-two he went to St. John, N.B., to be a newspaper reporter, and in 1862 he, with the late Christopher Armstrong, bought out the St. John Globe, of which he had ever since been the proprietor and editor.

STORM CENTRE OF A BIG SENSATION.

In 1887 Mr. Ellis was the storm centre of one of the biggest sensations ever connected with the journalistic profession in Canada.

He was convicted of contempt of Court for having criticized the action of one of the judges of the Supreme Court of New Brunswick, although as a matter of fact there was no actual action pending, and was sentenced to imprisonment in the common jail for thirty days, a fine of $200 and all costs.

He spent the thirty days in jail, but on his release was made the object of one of the most tremendous ovations ever accorded to a man in St. John, the Lieutenant-Governor of the province and the Mayor of St. John being among those who combined to make the event an expression of the popular dissent from the judgment of the Court. The fine and costs were paid by a fund raised by public subscription.

Apart from his invaluable services to Canadian journalism, Mr. Ellis played a distinguished part in the politics of his province, and the country as a whole. As early as 1882 he was elected to the Legislature of New Brunswick. Four years later he made his first appearance in the Federal arena in the Liberal ranks, and from that time till the present his name has been a familiar one in the political story of the Dominion.

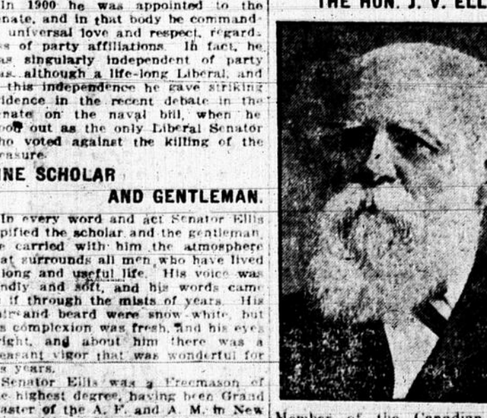
In 1900 he was appointed to the Senate, and in that body he commanded universal love and respect, regardless of party affiliations. In fact, he was singularly independent of party bias, although a life-long Liberal, and of this independence he gave striking evidence in the recent debate in the Senate on the naval bill, when he stood out as the only Liberal Senator who voted against the killing of the measure.

FINE SCHOLAR AND GENTLEMAN.

In every word and act Senator Ellis typified the scholar and the gentleman. He carried with him the atmosphere that surrounds all men who have lived a long and useful life. His voice was kindly and soft, and his words came as if through the mists of years. His hair and beard were snow white, but his complexion was fresh, and his eyes bright, and about him there was a pleasant vigor that was wonderful for his years.

Senator Ellis was a Freemason of the highest degree, having been Grand Master of the A. F. and A. M. in New Brunswick, and having held the highest office in Canada in Arch Masonry, in the Knights Templar and in the Scottish Rite. While in England in 1907 he was granted a special audience by King Edward VII. and Queen Alexandra.

Senator Ellis married, in 1864, Miss Mary Caroline Babbitt, of Fredericton, N.B. In religion, he was a member of the Church of England.



THE HON. J. V. ELLIS.

Member of the Canadian Senate, who died this afternoon.

450 IRON MOULDERS ON STRIKE

Four hundred and fifty iron moulders and coremakers are on strike today for the nine-hour day.

The first stop was at the Caledonian Iron Works, 512 William street, when thirteen iron moulders walked out of the moulding department. This proved to be an unlucky number as the strike spread rapidly to the Mount Royal Iron Foundry; and in a short time the moulders and coremakers in the independent shops throughout the city had joined the ranks of the strikers.

At a meeting of the moulders held at 235 Beaudry street, on Tuesday evening, it was stated that some fourteen of the foundrymen had conceded the shorter work day. It was also stated that the men in the Angus Shops of the Canadian Pacific Railway as well as in the Montreal Locomotive Works, Longue Point, had decided on the shorter work day long before the general demand was sent in by Fred. Robert, business agent, and the members of the Shorter Work Day Committee of the local union.

Not a Long Strike.

John Campbell, 2nd vice-president of the International Iron Moulders Union, said he did not think the strike would be of long duration, as it was not a question of wages. All the men wanted, he said, was a reduction of one hour a day, which was a reasonable request under the circumstances, in his opinion.

The officials of the John McDougall Iron Foundry said the strike was a very peaceable one, and that no violence whatever was anticipated.

The men in the Mount Royal Iron Foundry went out in sympathy with their comrades. The strikers will hold meetings daily until a settlement is reached.

Controllers Decide to Have Nothing to Do With Expropriation of Whole Plant and Will Go at it Piecemeal — Didn't Even Wait for Ctiy Attorney's Opinion—Means Long Battle in Courts of Law.

The city will not expropriate the complete plant of the Montreal Water and Power Co. In other words, the offer made by the company only on Saturday last has been turned down by the controllers, and that without waiting for the opinion of City Attorney Laurendeau, to whom it was sent. The company's offer was that a board of arbitration should be appointed, consisting of such men as Sir Thomas Shaughnessy, or C. H. Dansurard, and that whatever decision they arrived at was to be binding on both parties. The company offered some concessions, such as allowing the arbitrators to examine the company's books and plant.

The Controllers came to the decision yesterday afternoon and their action is a surprise to many. This is the resolution they adopted:

"Resolved, that the city of Montreal proceed to acquire and buy all the said system and property and materials belonging to the said Montreal Water and Power Co. serving the purpose of furnishing water to St. Henry ward, and that the said notice required by said statute (above cited) be given to the company; that Notary R. A. Dunton receive instructions to serve the said notice on the said Company, and that His Worship the Mayor and the City Clerk, or in their absence the Acting Mayor and the Assistant City Clerk, be authorized to sign the said notice, if necessary; and that the City Attorneys receive instructions to take and sign for the City all necessary proceedings as required by law."

Offer Was Too Vague.

In justification of their action the controllers declare that the suggested basis for expropriation of the plant as a whole was altogether too vague.

"We wanted to know how the company interpreted the term 'going concern.'" Dr. Lachapelle informed a Star representative, "and the answer we got after waiting several weeks over the delay we had granted, was almost as vague as the term itself. It told us nothing. There was a mention of the value of franchises and possible profits, but so far as any practical definition of the term was concerned, we were just where we were months before.

"The company also suggested arbitration, but that means nothing. If we expropriate, we must of course have arbitrators. That is a matter of course.

Action Based on Charter.

"In proceeding to expropriation ward by ward, we shall base our action on the company's own charter. That charter gave to the old municipalities prior to their annexation to the city the right to expropriate the company's plant within their own limits. The city with the annexation of these municipalities acquired the same rights of expropriation; and it is under the company's charter that we shall proceed in the expropriation in St. Henry ward. The City Charter gives us the right to expropriate the company's plant as a whole and a 'going concern,' and it was under this provision that the company wished us to expropriate.

Couldn't Wait Longer.

"We were willing to meet the Company as far as we could. We have no wish to ruin these people. But we could not keep on waiting for ever. We wanted to know what we were expropriating before we decided to expropriate, and we could not get any definite idea of the value of the plant. It was like asking us to agree to buy a horse before we had seen it.

"The information supplied to us by the Company was not satisfactory."

What Mr. Hanson Says.

Up to a late hour this afternoon no notice had been served upon the Company of the city's intended action.

Mr. Edwin Hanson, President, was not inclined to talk about this matter this morning. He declared it was a question which would be dealt with when it came up.

It was hinted, however, that if the city proceeds with its plan to expropriate the St. Henry road plant legal action would be taken to prevent it, tying matters up for several years.

Mr. Hanson pointed out that some years ago a proposition was made to the city by the company for the purchase of the complete plant and that this was not accepted, the city insisting on taking the Company's property over section by section as they saw fit. He said they are, apparently, still working along these lines.

Yesterday's action of the Board is the culmination of negotiations which have been going on for several years and will, in all probability, lead to lively judicial discussion of the issues involved between the two parties. The matter was placed before the city law department and in the course of a report forwarded to the Board it was pointed out that the City, in virtue of legislation secured at Quebec some years ago, had the right to expropriate piecemeal. The legislature cited by the City Attorney at that time is Vict. 55-56, cap. 75. In view of this decision the controllers did not deem it necessary to wait for a second opinion.

SAYS THAT C. P. R. IS THE LEADER OF ALL INVESTMENTS

Special to The Montreal Star.

New York, July 10—The New York Sun's financial artiene to-day says:

Apparently Canadian Pacific has assumed the position of the leading speculative and investment stock of the whole world. At least it now has the widest and most active market. Immense amounts of it are held in Europe, and especially in England and Germany. But the latest figures show that the holdings in this country and in Canada have increased.

"Since American speculators burnt their fingers in Canadian Pacific when it rose from 195, because they refused to believe that Britishers would not sell out, it has been left rather severely alone and has been held to be an exclusively foreign specialty. But, if this opinion is adhered to, the tremendous market in it in Wall Street during the past few weeks becomes a good deal of a mystery.

"Since the beginning of June over half a million shares of Canadian Pacific have been traded in, representing a turn-over of $100,000,000 worth of stock. Of this total 450,000 shares were dealt in, roughly speaking, within a range of 10 points, or between 220 and 221. At the moment, therefore, it would seem as if the big active speculators on both sides of the Atlantic were centreing their attention upon Canada."

Canadian Pacific, which led the stock market in its downward movement yesterday, turned about to-day and led upward trend of prices at the opening. Canadian Pacific opened at 211 1-2 for a gain of 1-8, but soon was selling at 213 1-4 which was 2 3-8 higher than Wednesday's closing.

Union Pacific showed the best strength it has exhibited since the present movement began. Union Pacific climbed to 146 for a net gain of nearly two points.

U. S. Steel common advanced one point on good buying. The market was largely influenced by London, Paris and Berlin buying. This was inspired by reports from St. Petersburg that the Balkan war would probably be ended this week.

Wall Street took an optimistic view of the railroad situation, the belief prevailing that the trainmen on the eastern lines will not strike, but are manoeuvring to force an amendment to the Erdman arbitration law.

The "Evening Sun's" financial article says:

Canadian Pacific the weak feature of the market Wednesday, recovered three points of the loss this morning. The denials of officials of the road that there was any stock issue contemplated was sufficient to revive confidence in the stock.

The "Evening Mail" says that Canadian Pacific, under the lifting of European pressure, advanced 2 3-8.

FRENCH MINISTER WAS A PASSENGER ON "IONIAN" BOAT

Pierre Landrieu, of the French diplomatic service, was a passenger on the Ionian, from London and Havre, which finished a delayed voyage this morning.

Mr. Landrieu proceeded at once to Ottawa, where, it is understood, he will represent his government in important diplomatic negotiations which are secret for the present. He will return to Montreal on Monday for the celebration of the French national fete, the chief feature of which will be the unveiling of the statue to the French Republic at the French Embassy on Viger Square.

With Captain Conti of the warship Descartes, now in port, Mr. Landrieu will be the official representative of the French government. Members of the 65th regiment, standing abreast of the Descartes' sailors, will form a military escort at the unveiling of the statue, and representatives of the provincial and federal governments will also be at hand. M. Raynand, French consul for Montreal, will preside.

THE WEATHER

Fresh to strong westerly and northwesterly winds; fair and cool. Friday, fine and cool.

The disturbance mentioned yesterday is now centred over Quebec and during its passage across Ontario was accompanied by heavy thunderstorms in many localities. Some local thunderstorms have occurred in Northern Alberta, but the weather in the Western Provinces has been generally fair and warm.

BUILDING UP NEW M.A.A.A. TRACK TEAM

Mr. R. E. Melville Bound to Have Some First-Class Men for Next Olympiad.

Canada will make a splendid showing at the Olympic games in 1916 if the hopes and plans of the promotors of amateur sport in Montreal are realized. Mr R. E. Melville, general manager of the M. A. A. A. is working hard to encourage local athletes and develop the promising ones among the younger lads. To these he is looking for the youths who will three years hence cross to Europe to compete with the athletes of all nations.

A M. A. A. A. track team that will prove better than anything yet developed is what he has set his heart upon and his work in this direction is finding encouragement on all sides. George Hodgson's deeds at the Olympics last year have fired all M. A. A. A. lads who ever competed on track or field to also win honors for their country and the greatest athletic association in it.

The weekly handicaps are bringing out more men this year at the M. A. A. A. grounds than ever before. The open handicaps, to be held on four afternoons this summer are to encourage athletes of any denomination or members of any organization in the city.

The first of these will be run off on Saturday, July 19th, the entries closing on Monday, July 14th.

Competitors who must be registered amateurs are required to furnish particulars of their last three performances.

The relay race on the programme will be run in a new fashion to encourage runners of various distances. The programme is as follows:

100 yards run.
1-3 mile.
1 mile.
Relay race:
2 men, 220 yards each,
1 man, 440 yards each,
1 man, 880 yards each.

DOUBTFUL YET

After All Newman May Not Meet Britton.

New York, July 10. — In additional trial races to pick the American defender of International Sailing Canoe Challenge Trophy yesterday afternoon, Leo Friede, member of Manhattan Canoe Club, originally named as alternate by New York Canoe Club, defeated James E. Newman, of Boston, originally picked to defend trophy against Ralph B. Britton, of Canada. Races were sailed on Gravesend Bay. Friede won the first contest by 45 seconds. Although he was handicapped 24 seconds at the start of second race, Manhattan expert won by 12 seconds.

So decisive was the victory, that International Cup Committee of New York Canoe Club at once called a meeting for to-day to decide which canoeist shall defend historic trophy. There is no time limit set upon naming defender.

C. GODWIN

Will Turn Out Again With the M.A.A.A. Cricket Team.

Charlie Godwin, whose absence from the All-Montreal cricket team against the Australians was solely due to eye trouble, has sufficiently recovered to be able to turn out for the M A A A-Lachine First Division League match on Saturday.

The Winged Wheel Cricketers will be materially strengthened by Godwin's inclusion in the team, as in addition to being a class bowler in his day, Godwin is the "life of a cricket team on and off the field."

PALZER VS. CARPENTIER.

New York, July 10—Tom O'Rourke, manager of Al. Palzer, has accepted the terms of T. H. Dienne, director of Wonderland-Francis, Paris, France, for a match between Palzer and Georges Carpentier, next October, for a purse of $15,000. The division of the purse, and the exact date of the fight will be arranged on the arrival of Palzer in Paris. An effort will be made to match the winner with Jack Johnson in November.

Tennis Club Meeting.

A meeting of the Beaconsfield Tennis Club will be held at 8.30 o'clock this evening in the Beaconsfield Boat Club, for the election of officers.

Regatta at Chambly.

Arrangements are being made for the holding of a regatta at Chambly Basin on July 26. The committee in charge of the affair are active in their efforts to make the meeting a success, and to bring about keen competition. A guarantee fund of $500 has been provided for the expenses of the day.

AN ARTIST'S VISIONS OF M.A.A.A. HANDICAP WORK.

The executive waxed enthusiastic over the showing made by the volunteers.

If a world beater isn't produced it won't be for want of encouragement.

Close finishes were the order of the evening.

FRIENDLY RIVALS.

To the right is Britton, the Canadian challenger for the International Canoe Cup. To the left is Newman, who in all probability will defend it for the United States.

DECISIVE

Saturday's Lacrosse Match at Mascotte Grounds May Decide.

Saturday's lacrosse match between the Irish-Canadians and the Tecumsehs at the Mascotte Grounds is generally regarded as likely to prove the game that will settle the championship.

It will either put the two teams even in the race for first place or the Irish-Canadians will obtain a lead that will practically make certain their obtaining the championship.

The Irish-Canadians have announced their team as follows, the choice being made after last night's workout on the east end field: Goal, Brennan; point, N. Neville; cover point, D. Cameron; defence, J. White, Baker, and Aspell; centre, D. Munday; home, A. Kent, Fred Scott, and M. McIntyre; outside home, Geo. Roberts; inside home, H. Scott. Spares, J. Layden, Steve Rochford, M. Cummings, and C. George.

TENNIS

The Nottingham Programme Announced.

Nottingham, Eng., July 10.—The draw for the lawn tennis matches between Germany and the United States in the first semi-final of the preliminary contests to select a team to challenge the English holders of the Dwight F. Davis international lawn tennis trophy was made to-day. The matches are to be played on the courts here July 10, 11 and 12.

The United States will be represented by Maurice E. McLoughlin, R. Norris Williams, Harold H. Hackett, and Wallace F. Johnson.

The German team is composed of Otto Froitzheim, Oscar Kreutzer, Fredrich Wilhelm Rahe, and Heinrich Kleinshroth.

Two single matches are to be played to-morrow when Williams meets Kreutzer and McLoughlin meets Froitzheim. The doubles match is to be played on Friday when McLoughlin and Hackett will meet Rahe and Keinshroth.

The singles between McLoughlin and Kreutzer and between Williams and Froitzheim are on the programme for Saturday.

The second semi-final between Canada and Belgium will probably be played at Folkestone the beginning of next week but the exact date has not been decided on.

The representatives of Canada are R. B. Powell, captain; R. P. Schwengers, J. F. Foulkes and G. H. Mayes, while those of Belgium are P. Deberman, A. G. Watson, W. H. Duvivier and Le Mare de Warzee as reserve.

The winners of the Canadian-Belgium semi-final and those of the American-German semi-finals are to meet in the final round of the preliminaries, which is to be played according to the provisional arrangement at Wimbledon on July 18, 19 and 21, but this may be changed.

The challenge round is to be fought out at Wimbledon, according to present arrangements, on July 25, 26 and 28.

HANDICAPS

Events at M.A.A.A. Well Contested.

Good competition again marked the M. A. A. A. weekly handicaps last night W. Happenny winning the pole vault and the 220 yard hurdle race. Results were:

CANADA WON

Nirwana Holds the George Cup for Sailing.

Prinyer, Ont., July 10.—After an unsuccessful attempt to race in the morning, Neagha, of Watertown, N.Y., and Nirwana, of the R. C. Y. C., Toronto, met yesterday afternoon in third and final race for the George Cup held by Nirwana. Each boat had previously won a race, the American displaying greater speed in the light airs, which prevailed on Tuesday. The weather yesterday was somewhat heavier and the Canadian boat was always in the lead, winning by 3 minutes and 15 seconds, Nirwana also won class in the race with Watertown III, Watertown second, and Chiriya, Kingston, third.

McGILL PICNIC

Employes Had Big Time in Sports at St. Helen's Island.

The McGill University Employes held their annual picnic and sports yesterday at St. Helen's Island. After the children, under 7 years, had all received balls or dolls, a good programme of sports was run off, Omais winning the mile championship race.

Excitement was at a high pitch when the football match (Association) Grounds vs. Buildings staffs, was played. The Grounds team were the winners by 3 goals to none, thereby winning the medals.

The committee wish to thank all persons who kindly donated towards the sports.

The committee was as follows: W. Gentleman, president; W. Tobin, secretary; H. A. Stagg, T. Payne, H. Davis, W. Heazel, H. Bond, T. Graydon, starter and referee.

NEW SECRETARY FOR VERDUN C. C.

At a committee meeting of the Verdun Cricket Club, held on Tuesday night, Mr. E. M. Johnson resigned as hon. secretary, and Mr. C. W. Ayers, 226 Galt avenue, was appointed in his place.

MR. FRED. BARTER IN THE MOUNTAINS.

Mr. Fred Barter, the president of the Dominion Football Association, is at St. Faustin, Square Lake.

PRESIDENT QUINN'S DENIAL.

Special to The Montreal Star.

Toronto, July 10.—The rumor that the D. L. A. will revert back to the old system of sending a player out of the game is denied by President Quinn. Mr. Quinn says the present rules will be made more rigid and moreover they will be enforced.

VIEWS and REVIEWS

"Baseball is uncertain, and for that reason it will not do to be too optimistic." So says a sporting writer in the New York Tribune, and he could not have written truer words if he had lived in our midst. Is proof required? There is the case of our Royals, who find life a mixture of smiles and tears. Uncertain, say the Royals—nothing more so; not even an election or a maiden's affection.

The Newark Indians are on the high road to the International League pennant. At the rate they are travelling the advantage will be so great in another few weeks that the other teams will be driving to keep within striking distance or reeling or staggering along in the ruck.

It is not many years since Athabasca Landing was the jumping off place for the Far North; where a voyageur or explorer said good-by to the world, took an extra hitch in his belt and set out prepared to meet almost anything except a lightning rod agent. As the crow flies it is about eighty miles due north of Edmonton, on the great waterway that leads on and on to the Arctic Ocean. A picture of the Landing of a few years ago would show a barge tied to the bank into which supplies were being loaded for transport to the Hudson Bay posts in the sub-Arctic region beyond. Here is a paragraph in a recent issue of an Edmonton newspaper that throws a sidelight on the Athabasca Landing of the present. The paragraph reads: "The football club which representeed the Sons of Scotland at Athabasca Landing arrived home yesterday, after having a most successful trip. In addition to defeating the home club by a score of 1 to 0, they were tendered a banquet by their hosts, who did all in their power to make the visitors' trip an enjoyable one."

Soccer has reached the Landing, and the Northland has been added to the domain of civilization.

An attempt to lower the track record of 1.58 3-4 held by himself, Uhlan, the world's champion trotter, went the mile at the opening meeting of the Grand Circuit at North Randall, near Cleveland, Ohio, in 1.59 1-2.

By quarters his time was 0.29 3-4, 0.59 1-2, 1.29 1-4 and 1.59 1-2.

Uhlan's record to sulky, however, is 1.58, made at Lexington, Ky., last fall. "Doc" Tanner, Uhlan's trainer, drove the black gelding, with Stats, a runner, setting the pace.

John J. McGraw has outlived the reputation he made for himself of being an umpire "baiter" in the earlier days. He is still wide awake, keen and aggressive, and does not hesitate to stand up for his rights as he sees them, but he does not offend as of old, and consequently has suffered rather less in recent years from discipline than most other managers. No doubt he was largely at fault for rousing Brennan to such a temper, but the Philadelphia player, who was not willing to accept the old saying that all is fair in love and war, was the real offender.

A typical modern United Statesman—that is a man born in a foreign country and who learned the "American" language after he came to America, has just celebrated the one hundredth anniversary of his birth. This man, whose name is written Zatulove, was born in Russia, which he found to be a good country to get away from. He is still hale and hearty and can read and write without the aid of spectacles. He plays pinochle, and that suggests the question: Why should a man who plays that sort of game keep on living? For half a century this ancient person has not had a pipe out of his mouth, except when asleep or eating his meals. His wife, who did not smoke and knew nothing about pinochle, died fourteen years ago at the age of seventy-four. Some think that if she had learned her husband's habits she might have been alive today, while other people are of the opinion that if Zatulove had not smoked and instead of playing pinochle had swung dumb-bells for recreation, he would not have been so old as he now is.

ONLOOKER.

SPORTING CORRESPONDENCE.

Alberta Man "Out of Bounds."

Montreal, July 9, 1913.

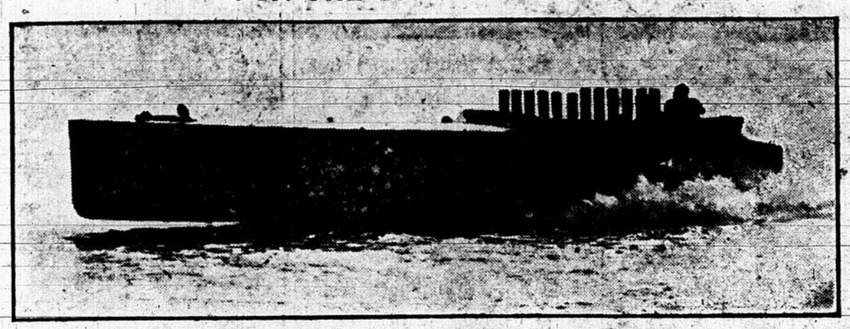
Sporting Editor, Montreal Star:

Sir,—I have not the slightest intention of defending Mr. Fred. Barter against the attack emanating from a Calgary gentleman, feeling that Mr. Barter himself is quite capable of looking after this pugnacious and informative Westerner. But as the Province of Alberta F. A. has not affiliated with the D. F. A., then surely Mr. J. K. Matheson is stepping out of his bounds in criticising, without the authority of membership. Far from being "forced to vacate the chair of the P. Q. F. A.," Mr. Barter declined nomination this year, and at this moment is our esteemed honorary president. Beyond these statements, is it necessary to proceed further?

Yours faithfully,

CRAIG CAMPBELL,
President P. Q. F. A.; Quebec representative D. F. A.

FOR THE BIG MOTORBOAT CUP.



The speed demon, Reliance, which will probably be a contender for the International Cup held by the Royal Motorboat Club, at Southampton next month. Owned by Commodore J. Stuart Blackton and has averaged 48.41 miles per hour against wind and tide.

HUNDRED MILES BICYCLE RECORD.

Special to The Montreal Star.

London, Eng., July 10.—The vegetarian, F. H. Grubb, made a world's record yesterday, by riding on a bicycle a distance of 100 miles on the Bath Road, in 4 hours, 43 minutes, 33 seconds. He was unpaced.

RELIANCE

Seems Best of the Would-Be Motor Boat Challengers.

Huntington, July 10.—Throwing a cascade of spray to port and starboard, and with a deafening roar from the exhaust of her 500-horsepower engines, J. Stuart Blackton's new 38-foot hydroplane, called the Speed Demon Reliance, dashed across the finish line at the southwest side of the bay in the first elimination trial.

She smashed no records, but she was the winner of the first of the official series of trial races, held under the direction of the Motor Boat Club of America, to pick three American boats which shall be sent to England to attempt to bring back the Harmsworth Cup which was lost to this country last year and won by E. McKay Edgar's boat, Maple Leaf.

Three boats started in the race, the other two being J. Stuart Blackton's America and James Simpson's Peter Pan V., but the Speed Demon Reliance was the only one that went six times around the course, completing the thirty miles required by the rules.

Her average speed for the distance was 35.491 knots, or 40.813 statute miles an hour. Her best two rounds, of five miles each, were covered at the rate of 37.65 knots.

The Peter Pan V. made almost as good a showing while she lasted, but one of her cylinders cracked just as she had completed the fourth round. Her average speed for that distance, twenty miles—was 35.31 knots, or 40.606 miles.

The America also was unfortunate in having to quit when the third round was half completed. She slipped a cog of her magneto, which put her out of it. Her speed while running was 31.82 knots, or 36.598 miles.

The little Peter Pan V was first away, only sixteen seconds after the signal. John A. Schrefer steered her as straight as an arrow for the first mark, and she covered a quarter of the first round before the America, steered by her designer, Albert Hickman, started one minute forty-two seconds late, her great, flat bow pushing the water aside as she slid over it.

Then all eyes were turned to look for the Speed Demon Reliance. She was lying "dead" alongside the gas buoy, far astern. Thirteen minutes ten seconds had ticked off on the committee chronometer when, amid a great cloud of blue smoke, she started with a roar that could be heard for miles and came dashing across the starting line at 3.03.10, ploughing a thin furrow of foam as she sped away for the marks.

Steady as a clock, she was steered by Captain John Beebe, who had with him as engineers, J. Smith and Bernard Smith. She completed the first round of five miles in 7 minutes 58 seconds, the second in the same time and the third in 8 minutes 1 second. Her gasoline pipe broke on the last round, which took her 10 minutes 13 seconds.

The Speed Demon Reliance is 38 feet over all and 7 feet 6 inches beam. She is of the hydroplane type, and her hull is double planked and reinforced with magnallum. She was designed and built at Algonac, Mich. Her power plant consists of two six cylinder two-cycle engines of 250 horsepower each, running independently and driving twin submerged propellers.

The America is 28 feet long, with a beam of 7 feet. She is of the Viper sea sled model and of mahogany construction, double planked. She was designed by Albert Hickman, of Pictou, Nova Scotia, and the hull was built in Boston. Her power plant consists of two eight-cylinder engines of 200 horsepower each, running synchronously and driving twin surface propellers.

The Peter Pan V is a 20-foot single stop hydroplane with 150 horsepower eight-cylinder engines. She was designed by George Crouch.

NEWARK TO PROTEST UMPIRE'S DECISION.

Special to The Montreal Star.

Newark, July 10.—The Newark Club intends to protest yesterday's game at Jersey City on account of a decision by Umpire Hayes in the eighth. The official declared Meyers out for interference with Breen, who was fielding Dalton's grounder.

Rubenstein Doubles.

The draw for the M. A. A. A. Lawn Bowling Club's Rubenstein doubles was made last night, and calls for fifteen games, with sixty members taking part in the first round.

The play in the first round will start on July 14, and the round must be finished before July 19. Twenty-one ends will constitute a game. The draw is as follows:

C. A. Lockerby and G. C. Bowie vs. J. A. Holmgren and W. R. Cummings.
W. B. Wilson and W. O'H. Percy vs. R. M. Wilson and H. Dowling.
A. B. Kelly and Dr. Griffith vs. S. A. Fraser and W. R. J. Hughes.
G. H. Cornell and C. P. O'Connor vs. J. B. Alexander and D. Love.
A. G. R. Darling and B. P. Campbell vs. A. A. Eaves and L. Whittet.
A. Wonder and W. G. Cushing vs. E. McNeice and N. B. Crawford.
G. T. H. Platt and Fred. Birks vs. R. Thompson and J. F. Alexander.
H. H. Ayer and M. Crown, vs. J. E. Parker and G. H. Savage.
E. J. H. Murdoch and E. E. Ferry vs. I. I. Lynch and B. H. McCallum.
W. R. Granger and R. Cutler vs. W. E. Findlay and A. J. Macpherson.
E. J. Chrisamas and H. A. McEwen vs. E. Bogue and H. R. Hutchison.
James Dunlop and J. Walsh vs. C. Edlington and J. Warmington.
A. McNally and Laz. Rubenstein vs. S. Mariotal and J. McIntyre.
D. M. Wilson and R. Smith vs. J. R. Adams and T. Love.
Louis Rubenstein and J. Baird vs. J. F. Scriber and J. H. Alexander.

Only one game was attempted on the M. A. A. A. lawns last night, it being a game in the singles competition between Laz. Rubenstein and Arthur McPherson. At the end of the sixth end the match was called off on account of rain, with Mr. Rubenstein one up. The match will be played over to-night.

BREAKING UP

Signs of Trouble in Canadian Ball League.

Special to The Montreal Star.

Guelph, Ont., July 10.—There is a possibility that the Guelph Canadian league club will disband in the near future and drop out of the league, and a rumor is current that on account of being hopelessly far behind in the race that Berlin also is likely to drop out. With Guelph and Berlin out, the league would be composed of six clubs.

A meeting of the Canadian League directors will be held in Hamilton the latter part of this week, when the situation will be thoroughly discussed. A proposal will be made at the meeting that the grand stand receipts in all cities be divided between the clubs on the same basis as the gate receipts. This would help out the smaller cities and would tend to make the league stronger. Niagara Falls, N. Y., may get an opportunity to secure a franchise. Sunday ball is played in that city.

Pointe Claire Juniors.

At a meeting of the Pointe Claire Boating Club, held on Tuesday night, it was decided to inaugurate a junior branch. The junior branch will hold its first regatta this afternoon, under the auspices of the Canadian Canoe Association. A large number of entries from all along the Lakeshore have been received, and there will be a full programme. The events will include single paddles, tandem, seven in a skiff, club races, swimming, races, tub races, etc.

Mike Glover Outpointed Englishman

New York, July 10.—Mike Glover Boston welterweight, outpointed Gus Platts, of England, in a ten-round bout here last night.

Dick Peters, of New York, weighing half a pound under the lightweight limit, by clever boxing, shaded Tommy Ginty, of Scranton, Pa., who weighed 140 pounds.

APPENDICITIS

Polo Player Undergoes An Operation.

Philadelphia, Pa., July 10.—Alexander Brown, the crack polo player, and one of the "five" handicap men in this section of the country, was operated upon for appendicitis at the Bryn Mawr Hospital. He is reported to be doing well.

This is the second operation Mr. Brown has undergone in two months. On May 27, while playing polo at Bala with the Bryn Mawr team against the Country Club outfit, he was thrown and the ligaments of his neck and shoulder were torn. At the time he was a candidate for the American international polo team. This accident put him out of the running.

THE COACH FOR M.A.A.A. RUGBY MEN

President Phil Mackenzie Sounds the Call to Arms.

President Phil Mackenzie, of the Montreal Rugby Football Club, has sent out the call to arms.

A meeting has been decided upon for next Wednesday, when the prospects and plans for next season are to be discussed in a general way.

It is generally admitted that it is about time that Montreal pushed itself into the front rank again, and if it is possible at all, Mr. Mackenzie would like to get the credit of bringing it there.

The question of a professional coach, referred to in the Montreal Star some two weeks ago, will come up for serious consideration, and there is little doubt but such a man will be appointed.

Fred Reid when seen to-day, said that he would be again ready to sacrifice his time and energy to make things boom.

ISLE CADIEUX

Regatta Lake of the Two Mountains' Yacht Club.

Preparations for the first annual regatta and official opening of the Lake of Two Mountains' Yacht Club to be held on Saturday, July 12th, are proceeding with the usual vim and completeness that has characterized all the undertakings of the club in connection with its formation.

The numerous yachting and boating clubs of the neighboring summer resorts have intimated their intention of attending the opening in numbers and all arrangements are being made to accommodate a large gathering.

The entry list for the boat and canoe races, programme of which is given below, will be well filled and keenly contested and exciting events are anticipated.

Refreshments will be served on the grounds and busses will meet all trains, special accommodation being provided for those coming out on the 12.15, 1.20 and 1.30 from Windsor Station.

Programme.

1—Single flat-bottom boat race, open to residents only.
2—Canoe race (4 in canoe), open.
3—Motor boat race, club members only.
4—Canoe race (single), open.
5—Canoe race (lady and gentleman), open.
6—Motor boat (flat-bottom detachable motors).
7—Canoe race (tamdem), open.
8—Swimming race, 50 yards, boys 16 and under, open.
9—Flat-bottom boat race, 7 paddles, open.
10—Life-saving demonstration and team competition.
11—Motor boat race, open.

OLD-TIME.

Lacrosse Match When M.A.A.A. and Shamrocks Meet.

The M. A. A. A. boys had a good work-out last night, in preparation for their game on Saturday next with their old-time rivals, the Shamrocks, on the Mile-End grounds. From the way the boys showed up in practise, the management are looking forward to a real old-time contest, like that which has always taken place between these two clubs. They also predict a victory for Montreal.

On the other hand, the Shamrock management are as equally confident of scoring a victory, and claim that it was due to the way they were handicapped in Cornwall, by having only eleven men, or they would have administered a defeat to the Factory Town boys on their own campus.

ED. BARROW

Toronto Extremely "Sore" on International League Pres.

Special to The Montreal Star.

Toronto, July 10.—President McCaffery, of the Toronto baseball club, last night strongly denied that the local club had any intention of making a deal with Buffalo. "Our team are as good as any in the league right now," the president declared.

The Leafs, who arrived home last night for a three days' series with Montreal, while elated at taking three out of four from the Bisons, are nursing a good sized grouch against President Barrow for his wholesale fines and suspensions.

Beaconsfield Links.

During July and August when a large number of members are away on their holidays, there will be no competitions at the Beaconsfield Golf Club, and in September a series of annual matches with other clubs will be played.

A start is to be made with the building of a new club-house in the autumn and plans for the new building are now under consideration by the committee.

EVEN BREAK

On Series for Rochester by Winning Yesterday.

Special to The Montreal Star.

Rochester, N. Y., July 10.—The Hustlers secured an even break on the series with Kitty Bransfield's Montreal Royals by taking the last game of the series yesterday, 5 to 3.

Good pitching by Jack Quinn, backed up by some lucky hitting, did the trick. McGraynor, the southpaw, pitched a good game, but did not get the "breaks." At least four hits by the Hustlers were lucky Texas leaguers, short flies which neither infielders nor outfielders could gather in. Allen was first to complete the circuit for the Royals. He showed plenty of speed on his grounder to short, and beat it for a single, though Martin handled it cleanly. Gilhooley's sacrifice and Deininger's safe rap to left scored him.

In the fourth Lennox hit down the left foul line for two bases, went to third on Demmitt's single in the same direction, and scored while the Hustlers were busy retiring Demmitt and Lennox on a double play, Martin to Simmons to Schmidt. Quinn found himself in trouble in the fifth, when the first three men up got on, but only one of them scored, and that through an error. Burns hit over Simmons' head for a base. Purtell singled to centre, and McGraynor beat a bunt, filling the bases. Allen popped to Martin, but the latter booted Gilhooley's grounder, and Burns scored. Deininger hit to Priest, who threw Purtell out at the plate. Demmitt retired the side on his grounder to Schmidt.

Mullin made his first appearance in the game for Montreal as a pinch hitter in the eighth.

Demmitt had singled and Lennox had doubled, with two out. Mullen fell a victim to Quinn on strikes.

The Royals were retired in order in the last round, Quinn looking as fresh as when he started.

The Hustlers broke into the run column in the second, Simmons hitting safely for a base down the left foul line, and scoring on Zinn's triple to left. This was a high fly which the wind carried away from Demmitt. Conroy dropped a Texas Leaguer in right, scoring Zinn. Williams bounced a single over McGraynor's head. Quinn hit the first ball pitched to right for a base, scoring Conroy. Priest forced Quinn at second, and was forced in turn by Martin. A pass to Paddock led to another hustler run in the third. Simmons singled to centre, Schmidt sacrificed and Zinn sent Simmons across the plate on a rap to centre for a base. Simmons also tried to tally on the hit from second base, but was nipped at the plate by Gilhooley's throw. Paddock again completed the circuit in the seventh. He hit past third, and Esmond threw over Deininger's head. Paddock went to third on the error, and scored on a single to right by Schmidt.

The Royals looked like a much stronger team in this series than during their first visit, when the Hustlers won three out of four games. The season's series now stands, Rochester ten games, Montreal six.

FORT ERIE

Only Three in Canadian Derby —Won by Buskin.

Special to The Montreal Star.

Fort Erie, Ont., July 10.—Only three horses started in the rich Canadian Derby yesterday, and Jorn Whalen's Buskin was the winner, after making the pace practically all the way, a thing he never did before. Horron was withdrawn because of an attack of high fever, and owner Turney was not inclined to send Kleburne after Buskin at a mile and a quarter.

The Turney stable had a good day though, winning the handicap with Flabbergast, and a selling race with Glint.

Pat Civill ran up "Doc" Dodd's Cornellia, and P. G. Bedwell "boosted" Amos Turney's Glint after their winning races. The raise was $300 in each case.

First race, purse $500; maidens, two-year-olds, foaled in Canada; five furlongs—Dark Rosaleen, 109, Adams, 7 to 10, 1 to 4, and out, won; Diamond Cluster, 109, Buxton, 9 to 2, 3 to 5, and out, second; Lady Isle, 105, McCarthy, 30 to 1, 8 to 1 and 8 to 5, third. Time, 1.04 1-5. Alai Bass also ran.

Second race, purse $500; 3-year-olds and up, selling; six furlongs—Camellia, 110, Adams, 4 to 1, 2 to 1, and 4 to 5, won; Reputation, 108, Buxton, 3 to 1, 6 to 5, and 3 to 5, second; Tom Sayers, 108, McCarthy, 12 to 1, 5 to 1, and 2 to 1, third. Time, 1.15 1-5. Ralph Lloyd, Cyrsels, Dynamo, Mawr Lad, also ran.

Third race, purse $600, handicap, steeplechase, 4-year-olds and up, short course—Juverence, 143, Kermath, 8 to 5, 7 to 10, and 1 to 8, won; Lizzie Flat, 142, Bowser, 6 to 1, 2 to 1, and 4 to 5, 2nd; Jack Dennerlin, 145, Pearce, 9 to 5, 7 to 10, and 1 to 3, third. Time 3.59 3-5. Lampblack and Lena, also ran.

Fourth race, Canadian Derby, $500 added; 3-year-olds and up, one and one-quarter miles—Buskin, 113, Small, 1 to 2, and out, won; First Sight, 112, Knapp, 3 to 1, 11 to 20, and out, second; Barnegat, 110, Loftus, 5 to 1, 4 to 5, and out, third. Time, 2.08 4-5. Only three starters.

Fifth race, purse $800, handicap, three year olds and up, mile and seventy yards—Flabbergast, 101, Turner, 4 to 1, 7 to 5, and 1 to 2, won; Ymir, 102, Gross, 10 to 7, 3 to 1 and even, second; Edda, 110, Buxton, 9 to 5, 7 to 10 and 1 to 3, third. Time, 1.47. Cliff Edge, John Furlong and Plate Glass also ran.

Sixth race selling six furlongs—Glint, 100, Turner, 11 to 5, even, 1 to 2, won; Russell McGill, 112, Small, 5 to 1, 2 to 1, even, second; Afterglow, 102, Buxton, 18 to 5, even, 2 to 5, third. Time, 1.16 2-5. Rosemary, Faustina, Cherry Seed, Theo Cook and Love Day also ran.

Seventh race, purse $500, three year olds, and up, selling, mile and one sixteenth—Howdy Howdy, 105, Wilson, 3 to 1, 6 to 5, 7 to 10, won; Bernadotte, 90, Ward, 6 to 1, 5 to 2, 6 to 5, second; Master Jim, 104, Obert, 18 to 5, 8 to 5, 4 to 5, third. Time, 1.50 4-5.

SEVEN DOWN

Philadelphia, July 10.—With seven wickets down, the Germantown cricket team had scored 372 runs over the Montreal eleven at Manheim yesterday when play ceased. Rain fell at intervals throughout the match and the Canadians had a wet ball to handle and chased it all over the field.

R. P. Anderson and W. P. Newhall were responsible for most of the scoring, retiring together after each had bettered his century. Their combined stand boosted the score 183.

E. S. Cameron suffered a split hand while bowling for Montreal, which may prevent his playing for some time. He tried to catch a fast drive off Newhall's bat. C. F. Lane also suffered an injury to his nose, but it was not serious.

Play was resumed early this morning. Yesterday's score was:

GRAND TRUNKS LOSE PROTEST; REYNOLDS OF VALLEYFIELD, REINSTATED ROSE AND THISTLE CLUB EXPELLED

C.P.R. Lost Their Protest Against Grand Trunks — The St. Paul-Highlanders Trouble Again Postponed.

The P.Q.F.A. and four divisions again took possession of the Y.M.C.A. last night for the usual weekly meetings.

As last Saturday was cup-tie day, there was little for the leagues to do, save wipe out left-over details. The First Division, however, had quite a session, taking up the thread of C. P.R.'s protest in the Grand Trunk game, re inefficient referee. More light was sought on this protest, which resulted in the game being ordered to stand as a victory for the Grand Trunks. The peculiar case of Reynolds (Valleyfield) was next brought up. This man had been suspended for the rest of the season, but the claim was made by Reynolds as one of mistaken identity. Reynolds was present and cross-examined closely on the incident that resulted in his being ordered off. The league heard this player's version and felt satisfied an injustice had been done, and lifted the suspension. The transfer of Chance from Grand Trunk to M.A.A.A. was turned down, but the belated one from Taylor, Fairmount to C.P.R., allowed, as same had been signed some days.

The Second Division did little except leaving over St. Paul's protest against Highlanders for the referee's appearance.

The Third Division took the drastic course of expelling Rose and Thistle Club from the league, for non-fulfillment of obligations.

After the leagues had got through their business, the presidents met the P. Q. F. A. members for the protest of Grand Trunks against the Quebec Cup game with Canadian Tube. The members present besides the president were: Tom Mitchell, vice-president; Jack Kyle, Norman Wilson, J. Lenaghan, president, First Division; T. G. Harris, president Second Division; O. Fleming Shearer, president Third Division; R. Brands, president Referees' Association, and secretary Josh Wilson.

Grand Trunks protest was a severe indictment on the ground, alleging a ditch running close to and in a line with the touch, also barbed wire near the line of play against which players received injuries, and pitch badly marked. The referee's report was read, but contained no reference to these complaints. The president asked the referee, Mr. Fitzpatrick, if his attention had been called to the bad state of the ground before the kick-off, or at half-time, by any officials of the Trunks. Mr. Fitzpatrick said that at no period of the game was any complaint made to him. This point was made thoroughly clear on questioning the representatives of both clubs. After the delegates had been requested to retire, the president read the rule laid down by the British International Board, under which the P. Q. F. A. conduct their field regulations, governing this particular protest.

Challenge Cup Rules, number 27.

"Any protest relating to the ground, goal posts or bars, or other appurtenances of the game, shall not be entertained by the Council, unless an objection has been lodged with the referee before the commencement of the match."

It was on this clause that Grand Trunks lost the protest, the game standing as per result a victory for Canadian Tube.

CITY LEAGUE

Duchesnil Gone to Pittsfield, Mass.

Arthur Duchesnil, the star pitcher of the City League, left last night for Pittsfield, Mass. He will pitch for that club in the Eastern Association. Duchesnil's work in his new berth will be watched with interest by local fans, as it is considered that he has a great future before him.

Stars Play St. Jerome Week End.

The Star baseball club will play at St. Jerome on the afternoon of July 13, meeting the team of that town for the first time this season.

Last season the independent champions captured both games played in St. Jerome, and after their recent victories over St. Lambert, Marieville and St. Hyacinthe, they are confident of landing this coming match at St. Jerome. On the other hand the St. Jerome team this season is very strong, and have been winning regularly, and with their crack twirler, Louis Clement, in the box, they fully expect to have their revenge over the Stars.

The Stars will be out in full force Thursday night for a hard practice.

Did You Send for Our New Catalogue

Every reader of the Star should look into the English and Scotch Woollen Co.'s offer, and every woman interested in seeing well clothed men should see that they do.

$25 SUIT OR OVERCOAT | TO YOUR MEASURE $15

This wonderful value is no exaggeration. It is possible, because we sell you direct, and save commission. We are the largest direct men's tailoring concern in Canada, and consequently in buying from us you simply get "wholesale" prices; and on a $25.00 suit for instance, you save $10.00. Isn't this saving worth your while?

If it is not convenient for you to call at one of our showrooms, 261 St. Catherine St. West, or 415 St. Catherine St., East, remember that our catalogue is our only salesman. We pay no agents, commissions. The commission that would go to the agent is the profit you make for taking your own order.

Our Summer Catalogue is free. It contains samples of handsome fabrics from which to make your selection. It shows you all the latest styles and gives the latest information in men's dress. It contains all instructions for taking your own measurement. Here is the English and Scotch Woollen Co.'s guarantee.

If the clothes are not satisfactory in every way, return them to us. We will refund your money or make you a new garment.

Send for the catalogue at once. It is free, and places you under no obligation. A postal card will fetch it.

HERE AND THERE

Huge Rat Attacks Children.

A large rat early yesterday morning attaacked the four children of Louis Seidenwurn, Flushing, L.I.

The children were sleeping in a large room. Frank, aged twelve, w[as] [in] the younger sister, Lena, by the calf of the leg, inflicting a deep wound. Frank had been awakened by her screams and Lena leaped from the bed with the rat clinging to her leg. As he went to her assistance the rat bit his big toe. He succeeded in beating off the creature, which then grabbed the right hand of Minnie, a sister, who was asleep when the trouble started. Then the rat sprang at the baby.

The father and mother of the children hurried to the room, but the rat had gone. The two younger children were so severely bitten that they were taken to the Hospital for treatment.

Trout Eats From Hand.

"Sunbeam," the pet speckled trout in the fish hatchery at Estes Park, Col., has just recovered from an indisposition caused by stomach trouble or rheumatism and is again able to take his place as the only pet trout in captivity.

The fish, now a three year old, and about eleven inches long, is as good an example of gentle and loving trouthood as it is possible to find. Fed from the hand from the time he was hatched he feels insulted now unless his food is given to him in that way.

It is very fond of being stroked and petted, and will swim around and rub itself against a person's hand whenever a chance is given it.

Deer Ate His Scarecrows.

Henry Davis, of Oakdale, R.I., to frighten off deer eating his garden stuff, made two manlike scarecrows show up deftly under the glare of two lanterns.

The deer scented the new hay which padded the scarecrows' trousers, trotted up to the figures and ate them both. The deer butted out the lanterns hanging like punching bags from a tree and fled.

Rodman Law's Strange Record.

Rodman Law, after being shot out of a cannon, dropped from balloons and airships, dumped into the ocean on a speeding motorcycle and escaping unharmed from a score of other dangerous feats, came to grief at Hackensack, N.Y., in a three-foot fall from a wagon. His shoulders were sprained badly, and a finger so lacerated that it must be amputated.

Rich Man's Strange Will.

Every poor family in Salem, Mass., will receive a free cook stove and cooking utensils if the city accepts provisions in the will of Thomas W. Sweetser, who died in Boston fifty-nine years ago, but whose conditional gift has just become generally known.

His will provided that $10,000 be paid to his native city; that this be put on interest at 6 per cent. forever, and $600 spent annually in buying cook stoves and utensils for the poor, if his estate amounted to $30,000 or more.

The unusual bequest was discovered through a review of the will that followed an appeal by heirs to the probate court that authority be given trustees of the estate to sell certain real estate.

Livingstone's Shuttle.

Dr. John Kelman had a surprise for the congregation at Free St. George's, Edinburgh, last Sunday. When the moment came for his usual short address to the young people. Dr. Kelman said, "You have heard of a wooden sermon, but to-day I have a wooden text," and he produced one of the actual shuttles that David Livingstone had used as a boy in the weaving mill at Blantyre. "Burnt in upon this shuttle," said the preacher, "is the name 'W. Gunn,' who was the great shuttle-maker of his day. He was a fine character, and it used to be said of him, 'Willie Gunn somehow made money in handfuls, but he aye paid it out in shovelfuls.'"

Knife Reformed Bandit.

"Black Bart" Holzhay, sentenced for life to Marquette, Mich., prison in 1889 for highway robbery has been released after having served twenty-four years.

Holzhay's exploits in the woods of Northern Michigan and Wisconsin rivalled those of Jesse James. He held up stage coaches and waylaid travelers. When received at the prison he was illiterate, ill-kept and gave the prison authorities much trouble.

A surgical operation changed his character completely and since it was performed he has been a model prisoner, studying hard and gaining a fair education.

Wins Sweetheart at 75.

A romance which date's back to the childhood days of Mrs. Augusta Doty, 70 years old, widow of Supervisor Joseph Doty, of Pleasant Valley, N.Y., and Peter J. Burns, 75 years old, of Kansas, has just ended in their marriage at Pleasant Valley.

Mr. Barnes went to Kansas years ago, but never lost track of his childhood playmate. He made a fortune in Kansas, and after learning of the death of Mr. Doty, he communicated with the widow. The result was that he closed up his business in Kansas and settled in Pleasant Valley.

Seabirds' Fate.

Many hundred seabirds killed, it is thought, by the concussion caused by the firing of big guns in warships during practice near the island of Colonsay, have been washed up on the mainland of Argyllshire.

FAVORS A GRANT TO PUBLIC PARKS OUT OF THE LOAN

Legislation Committee Passes Resolution to Help Metropolitan Commission.

The Legislation Committee of the City Council has passed a resolution favoring a grant being made to the Metropolitan Parks Commission out of the loan fund.

Some time ago, a number of representative citizens appeared before the caucus of aldermen and asked that a special tax of one-twentieth of one per cent. be levied in accordance with permissive legislation adopted at Quebec. The aldermen regarded this proposal unfavorably, and the suggestion was made that an equivalent amount might be appropriated out of the loan fund.

When the question was brought before the committee, the objection was raised that the tax-payer would not regard any increase in taxation with favor. The need to place the Commission on a footing where it could do some effective work was admitted. What was particularly needed, it was pointed out, was that the Commission should be in possession of sufficient funds to enable it to have a plan of the whole island drawn up.

After discussion, a rider was added, providing that in cases where works of improvements were beneficial to or were carried out in municipalities other than Montreal, these latter centres should contribute, in like ratio, towards the effecting of such improvements; otherwise, the Metropolis would refuse to contribute.

MAN WHO JUMPED FROM SHIP WOULD NOT BE SAVED.

Walter Rintoul, 40 years of age, of 699 Cadieux street, is the man who committed suicide yesterday by throwing himself into the river. Rintoul went on board the SS. Montezuma, and after removing part of his clothes sprang over the side. He made no outcry, and appeared to be merely in for a swim. Onlookers, thinking he had fallen in, threw life-preservers and ropes from the ship, but he did not seem to notice them and swam out a short distance, after which he sank and was not seen again, until found floating near the spot six hours later by the crew of the tug which was conducting a search for him. Rintoul had been a 'longshoreman and was married.

AEROPLANES IN LAKE.

Chicago, July 16.—Two of the three hydro-aeroplanes which started from Chicago to fly to Detroit, were wrecked over Lake Michigan by squalls and fell into the waves far from land.

Anthony Jannus, of St. Louis and his mechanic, Paul McCullough, were picked up off South Chicago by a steam sand dredger.

Walter Johnston, of New York, flying alone, was rescued near Whiting, Ind., by the South Chicago U. S. life-saving crew. Jannus' machine was abandoned in a squall after the dredger had started to tow it ashore. The life-savers brought Johnston's craft to shore.

With a carrying capacity of 15,500 tons, the largest oil tank steamer in the world has been completed in England for the Mexican trade.

"My dear," said the professor's wife, "the hens have scratched up all that eggplant seed you sowed." "Ah! jealousy!" mused the professor. And he sat down and wrote a twenty-page article on the "Development of Envy in the Minds of the Lower Bipeds"

She finished a tirade at her friend, and ended with:

"There, I think I have made myself plain, have I not?"

"Made yourself plain, dear?" sweetly answered the once friend. "Oh, no, dear; you were born that way."

GENERAL HAMILTON COMPLETES TOUR ACROSS CANADA

Sydney, N.S., July 10.—General Sir Ian Hamilton and his party arrived here yesterday, completing their tour across the Dominion. The party were met at the station by local civic, military and judicial authorities and taken for a tour of the principal points of interest in the city.

The need for a new armory was pointed out by Colonel Ingraham, Commander of the 3rd Brigade, C. F. A., and Mayor Gunn, and Colonel Hughes intimated that one would be built in the near future.

The steel plant was also visited. General Hamilton expressed great surprise at its magnitude.

NEW I. C. R. MANAGER MEETS MEN'S DEMANDS.

Moncton, N.B., July 10.—The joint committees of the Brotherhood of Railway Trainmen and the Order of Railway Conductors for the Intercolonial system held a satisfactory session with Mr. F. P. Gutelius, general manager of the Intercolonial, at his office here last evening.

A number of the demands of the men have been granted outright, while in other matters Mr. Gutelius has offered a compromise, which will be fully considered by the trainmen.

In regard to the question of increased mileage, Mr. Gutelius offered the men an increase in wages aggregating $30 per month to conductors, and $20 per month for brakemen, provided they agreed to make the increased mileage.

The question of freight crews running through from Moncton to Truro and vice versa, is allowed to stand, pending the action of the committees in regard to the mileage question.

PROTEST AGAINST LUMBER TARIFF READJUSTMENT.

Special to The Montreal Star.

Ottawa, July 10.—The Canadian Pacific Railway has taken an appeal to the Government from the ruling of the Railway Commission directing it, as well as the Grand Trunk Pacific and Canadian Northern Railway Companies to readjust their lumber tariffs from points west of and in the Rockies to Alberta, Saskatchewan and Manitoba.

The railway claims there was no proper opportunity of answering the statements made in the complaint of the Manitoba Lumber Association, and that the ruling was improper.

BRITISH COMPANY FOR PASSENGER AIRSHIPS.

Special to The Montreal Star.

London, July 10.—The recent announcement that the establishment of a passenger airship service in England was in contemplation is now followed by a statement that a company is being formed with a capital of $1,250,000 for the purpose of running airships on commercial lines from London to Brighton, Manchester, Birmingham and other places as well as to Paris.

The ships will be so constructed that they can be armed for war service if this should be desired.

HOPES FOR BOY'S SAFETY.

Special to The Montreal Star.

Niagara Falls, Ont., July 10.—Nothing has been heard so far of Reginald McMahon, A. M. Kayner, Thos. Brophy and Edward Reichert, Toronto and Niagara Falls boys, missing since Sunday night, when Carl Goodrich was drowned, their canoes being overtaken by a severe storm in Lake Erie off Crystal Beach. Their relatives cling to the belief that the boys were picked up by a passing freight steamer.

The five saved saw Goodrich sink but say they think the other four escaped by floating with the aid of life-preservers till picked up by freighters

INCENDIARY SET FREE ON SUSPENDED SENTENCE.

Special to The Montreal Star.

Cornwall, Ont., July 10.—Edward Duffy, the man who was committed to stand trial by Police Magistrate Denis, on a charge of setting fire to his own house no less than five times in one night, decided not to remain in confinement until the High Court session in September, and received a summary trial before Judge Liddell today. He was allowed out on suspended sentence, after promising to conduct himself better in the future.

SOUTH CAROLINA GOVERNOR RELEASES MORE CONVICTS.

Columbia, S. C., July 10.—Governor Blease gave executive clemency to sixteen convicts yesterday, and brought his record of prisoners released from serving full sentences up to 721 since he took office, a little more than two years ago. Among those released today were two murderers.

The Governor announced he would issue no more pardons until Thanksgiving Day, which he signalized last year by releasing seventy-nine convicts.

"I want a dress to put on around the house," said the lady in the department store.

"How large is your house, madam?" inquired the fresh clerk.

Out of Sorts

THAT IS, something is wrong with baby, but we can't tell just what it is. All mothers recognize the term by the lassitude, weakness, loss of appetite, inclination to sleep, heavy breathing, and lack of interest shown by baby. These are the symptoms of sickness. It may be fever, congestion, worms, croup, diphtheria, or scarlatina. Do not lose a minute. Give the child Castoria. It will start the digestive organs into operation, open the pores of the skin, carry off the foetid matter, and drive away the threatened sickness.

Genuine Castoria always bears the signature of *Chas. H. Fletcher*

PETER RABBIT LOSES HIS APPETITE.

(Copyright, 1913, by J. G. Lloyd.)

Peter Rabbit had lost his appetite. Now when Peter Rabbit loses his appetite something is very wrong with him. Peter has always boasted that he can eat any time and all the time. In fact, the two things that Peter thinks most about are his stomach and satisfying his curiosity, and most of the scrapes that Peter has gotten into have been because of those two things. So when Peter loses his appetite or his curiosity there is surely something the matter with him.

Ever since Old Man Coyote the Wolf had come to live on the Green Meadows Peter had been afraid to go very far from the dear old briar patch where he makes his home, and where he always feels safe. Now there wasn't any reason why he should go far from the old briar patch. There was plenty to eat in it and all around it, for sweet clover grew almost up to the very edge of it, and you know Peter is very fond of sweet clover. So there was plenty for Peter to eat without running any risk of danger. With nothing to do

but eat and sleep Peter ought to have grown fat and contented. But he didn't.

Now that is just the way with a lot of people. The more they have and the less they have to worry about the more discontented they become and at last positively unhappy. There was little Danny Meadow Mouse living out on the Green Beadows. He was happy all the live-long day, and yet he had no safe castle like the old briar patch where he could always be safe. Every minute of every day Danny had to keep his eyes wide open and his ears wide open and his wits working their very quickest, for any minute he was likely to be in danger. Old Man Coyote or Reddy Fox or Granny Fox or Digger the Badger or Mr. Blacksnake was likely to come creeping through the grass any time, and they were always hungry for a fat Meadow Mouse. And as if that wasn't worry enough, Danny had to watch the sky, too, for Old Whitetail the Marsh-hawk or his cousin Redtail or Blacky the Crow, each of whom would be glad of a Meadow Mouse dinner. Yet in spite of all this Danny was happy and never once lost his appetite.

But Peter Rabbit, with nothing to worry him so long as he stayed in the old briar patch, couldn't eat, and grew more and more unhappy. "I don't know what's the matter with me. I really don't know what's the matter with me," said Peter as he turned up his nose at a patch of sweet tender young clover. "I think I'll go cut some new paths through the old briar patch."

Now though, he didn't know it, that was the very best thing he could do. It gave him something to think about. For two or three days he was very busy cutting new paths, and his appetite came back. But when he had made all the paths he wanted, and there was nothing else to do he lost his appetite again. He just sat still all day long and moped and thought and thought and thought. Now the trouble with Peter Rabbit's thinking was that it was all about himself and how unhappy he was. Of course the more he thought about this the more unhappy he grew.

"If I only had some one to talk to, I'd feel better," said he to himself. That reminded him of Johnny Chuck and what good times they used to have together when Johnny lived on the Green Meadows. Then he thought of how happy Johnny seemed with his little family in is new home in Farmer Brown's old orchard in spite of all the worries his family made him. And right then Peter found out what was the matter with him.

"I believe I'm just lonesome," said Peter. "Yes, sir, that's what's the matter with me."

It isn't good to be alone too much,
I've heard my mother say,
It makes one selfish, grouchy, cross,
and quite unhappy all the day.
One needs to think of other folks, and
not of just one's self alone
To find the truest happiness and joy,
and real content to own.

"Now that I've found out what is the trouble with me, the question is, what am I going to do about it?"

GIVES ANALYSIS OF FRIEDMANN VACCINE

New York, July 10.—Dr. George Rambaud, of New York city, medical director of the institute operating on the Friedmann process for the treatment of tuberculosis, announced yesterday that the "vaccine consists of a homogeneous emulsion of live avirulent tuberculosis bacilli in sterile distilled water. The germ was isolated several years ago from a turtle and maintained ever since by transplantation on culture media according to the usual procedure. The vaccine is administered to patients in doses of from cubic centimetres, 0.10 to cubic centimetres 0.20 at intervals of from four to six weeks. Injections are made intravenously in the case of joint tuberculosis and intramuscularly in the case of lung tuberculosis.

Dr. Rambaud added: "Any physician in good standing is welcome to familiarize himself at the various laboratories where the vaccine is prepared, with the details concerning the administration of the treatment that he may be able to use it personally on his own patients."

DEPUTY MINISTER OF MINES NOT TO BE APPOINTED YET.

Special to The Montreal Star.

Ottawa, July 10. The appointment to the vacant position of deputy Minister of Mines, as to filling which there is considerable interest at Ottawa, is not likely to be made immediately. The selection will likely be made from among Prof. Brock, Prof. Barlow, Mr. E. R. Parsbault, of the Geological Survey, and Mr. William Ashwith, mining engineer, of Ottawa.

Mr. William Himsworth, acting deputy Minister of Inland Revenue, will probably be confirmed in that position.

THE WAR.

THE successive contradictions which make up the bulk of the reports from the seat of war in the Balkans, are due, of course, very largely to the fact that they consist of the claims of the different parties. The Governments of these bellicose little nations apparently believe that much is to be gained by either suppressing or manipulating the news. That was the course taken by them when they fought the Turk; and it may have served them well by keeping Europe at bay and possibly even deceiving the wily Moslem. But one of its by-products is to render inference from the progress of the military operations in the field an exceedingly uncertain business.

It is very probable, in any case, that the Western Powers are largely in the position of spectators, and that the game of diplomacy is being played almost exclusively by the Powers in immediate touch with the populations at war. Russia and Austria probably know pretty well what is going forward; and they are very likely engaged in check-mating each other with untiring watchfulness. The reports that Russia is about to intervene, which come out from time to time, are always best taken with a pinch of salt. What Russian intervention would be likely to mean was indicated very clearly by Count Tirza's remarkable speech a few weeks ago. Austro-Hungary would regard it as a declaration of Russian suzerainty over the Balkan Slavs, and would be tempted to act accordingly.

It is far more likely that the instruments of intervention—should any step approaching this be proposed—will be the armies of Roumania and Turkey. In fact, threatened intervention by Roumania may be causing to-day's apparent paralysis of Bulgaria. They probably need not march — they need only threaten to march. And action by them would not arouse the jealous apprehension of any larger Power with the swiftness and deadly effect of action by either Russia or Austria. For either of these nations to be able to command peace in the Balkans, without the help or the consent of the other, would be to establish an effective over-lordship which the other would strongly resent.

THE "DESCARTES."

THE visit of the "Descartes" to Montreal will serve as a pleasant symbol of the "entente cordiale" which unites the land whose flag it flies with the Empire to which we belong. The "Descartes" is a warship with a history. From its decks went a section of that plucky party of Europeans who fought their way to Pekin during the Boxer troubles and rescued the beleaguered legations. It represents a Navy with a very great and glorious history with which is intimately associated the history of our own Navy. It represents a Navy, moreover, which is on the brink of very considerable expansion, forced upon it by the menacing condition of affairs in Europe. That expansion of the French Navy is undertaken, side by side with the expansion of the British Navy, and under pressure of the same rivalry. This gives us a closer fellow-feeling with the efforts of the French people to provide for the adequate and sure defence of their beloved land, and ought to make any of us in Canada, who may be even remotely responsible for our delay in seconding these efforts, think seriously of our position, and, perhaps, wear a becoming blush.

Some one has said that every man has two native lands—the land in which he was born, and France. This is merely an expression of the special love which all men bear for that fair country of rare charm which has always fascinated and enthralled the visitor from any clime. The other day, we had Rudyard Kipling—our most impassioned patriotic paeanist, whether he wear the official "laurel" or not—singing of France in this strain:—

"Broke to every known mischance, lifted over all
By the light sane joy of life, the buckler of the Gaul,
Furious in luxury, merciless in toil,
Terrible with strength renewed from a tireless soil,
Strictest judge of her own worth, gentlest of man's mind,
First to face the Truth and last to leave old truths behind—
France beloved of every soul that loves or serves its kind!"

But, perhaps, even a better passage for the ears of those whose blood is French but who dwell beyond the magic circle of French soil, was that recently pronounced with so much eloquence and feeling by President Poincare to the French Colony in London. His concluding sentences were:—

"You do honor at once to the country where you dwell and the land from which you are for the moment separated. Separated? I am wrong. She is increasingly present to your faithful hearts — that France where your fathers were born and to which you destine your children. Closely united in the love that you bear her, gathered round the venerated diplomatist who represents her here with so much authority, you feel her life and breath among you, and it is her gracious inspiration which caresses your imagination and animates your courage. Keep carefully before your eyes and in your hearts this sacred image of France, an image both close and remote, ideal and eternally true, in which the details are harmoniously blended in the whole, and the shadows disappear in the light."

The officers of the "Descartes" cannot quite apply these words to the permanent population of French origin which they find in Canada. Our French-Canadians are not separated from France only "for the moment," nor do they "destine their children" to return there. We other Canadians cannot spare them. They have established a New France on the banks of the St. Lawrence, by which we mean nothing political, but simply that they have brought to us and contributed to our new civilization much of the grace and charm and "the light sane joy of life" of the land from which their forefathers came. But that "sacred image of France," in which "the shadows disappear in the light," is a picture to be held up before all of us—of whatever origin—who can appreciate a gracious people and admire the achievements of culture and genius.

THE DEATH RATE AMONG CHILDREN.

THE fact that one hundred and seventy-one children under five years of age died in the city last week is, obviously, something to cause serious concern. How heavy this percentage of mortality really is can be better understood when it is added that the deaths of the entire city for the week in question, numbered but two hundred and seventy.

The Health Committee, the Provincial Board of Health, as well as the medical profession, are a unit in the opinion that Montreal's death rate among children during the summer months is something not only deplorable, but inexcusable. Were it not for the fact that the birth rate of Montreal, when compared with almost any other city on the continent, is very high, our city, like Paris, might soon be lamenting the fact that the number of deaths was actually exceeding the number of births.

Various are the causes alleged for this lamentably disproportionate number of deaths among young children. The Medical Health Officer holds that, despite all that has been done to improve the milk supply, it still is in a most unsatisfactory condition, and that in the milk may be found a fruitful cause of child mortality. He advances the contention, also, that since many poor mothers do not know how to properly care for their little ones the city should employ many nurses in order to instruct them. Another reform he urges is that young doctors shall be employed to visit the houses of the very poor, see what their sanitary condition is, and also advise young mothers how to keep their babes in cleanly surroundings. Still another reform urged, and a most important one, is the entire abolition of privy pits both in the old and new wards.

If the death rate is to be cut down, every one of these precautions must be adopted. While it is true that there are nurses who try to help and instruct young mothers they are so few in number that their work has no very striking result. While the city has done a wise and humane act in opening a number of pure milk stations they are also so very modest in number that no very great change is shown in the death rate.

A commendable move made by the corporation is the application which has been made to the big railways in the city to adopt a system of milk conveyance in vogue near centres such as New York and other big cities—that of providing special refrigerator cars for the carrying of milk. It is to be ardently hoped the railways will be able to see their way clear to grant this concession.

That there are, indeed, grave reasons for being dissatisfied with the city's present milk supply is demonstrated by the number of milkmen who have been brought before the Recorder's Court this spring and summer and fined for selling dirty and thin milk. That the Board of Control has put forth efforts to have a more thorough inspection and control of dairies in the country, is another sign that conditions are unsatisfactory.

The United States Department of Agriculture is adopting new and important measures to guard the milk supply. Milk cans, provided with wooden corks, are to be done away with; glass stoppers must replace them. Another law will make it a serious offence for a farmer to refill a can or bottle before it has been properly sterilized.

There has been established in New York, Boston, Washington and very many other cities, special milk depots where the milk is cared for the very moment it arrives. Even delivery waggons, in some places, are provided with ice so that a given temperature may be maintained. In many of the special depots the milk is actually filtered in order to ensure purity. The necessity for this is shown to be great enough if one is to judge from a passage in a report prepared on the matter. "When the strainer has been used for some time," comments the report, "it becomes absolutely black with impurities." What condition, then, must our milk supply be in?

In Philadelphia every store selling milk must keep it in a specially cooled receptacle and away from every other kind of food. Philadelphia also has a special society composed entirely of physicians, who give attention to the milk supply with the result that the death rate among infants and children generally has been very greatly reduced. In Rochester, N.Y., recent attention to the milk supply has reduced the infant death rate by a little over forty per cent. Surely all of the above are lessons that Montreal ought to take very much to heart. No more important matter can occupy the attention of private or public bodies than the reducing of the death rate among children. Cities of the Old World would never tolerate such a death rate as we have. It has been a crying disgrace for decades past. If other cities can cut down the infant mortality by forty per cent. and over, there is no good reason why Montreal should not do the same. While the city is appointing experts to go into various civic problems, it should see that a special body is instructed to make a careful report on the best method to save child life.

The Board of Control wants to be investigated; so does J. H. Roberts; so does—ahem—Chief Campeau. Adversity makes strange bed-fellows.

• • •

"British House of Lords takes a leaf from the Canadian Senate," says a news despatch. We could spare them a lot more than that.

• • •

We have the mysterious automobiles, we have the Police Department; all we need is a few "gun-men" to be a real metropolis.

• • •

The "Cat and Mouse" Bill may have broken up the militant movement, but there are still enough militant leaders intact and out of jail to keep up appearances.

• • •

If the Police Department found it could spare only two men to prevent a riot at a temperance meeting, how many can it send, for the good of the Force, to a Bartenders' picnic?

• • •

That air of righteous indignation harmonizes almost as little with the countenance of the Police Department as does its version of the clubbing of J. H. Roberts with the actual facts of the case.

THE RAGTIME MUSE.

Ballad of the Hunted Man.

Who is yon melancholy wight
That lodgeth in a tree,
His teeth a-chattering with fright?
Pray tell me who is he!

He is the lone pedestrian,
And bitter is his fate;
'Gainst him the hand of every man
Is lifted up in hate.

There is no place for him to go
By water, land or air,
If any other way you know,
I prithee tell me where!

Upon the land the motor car
Pursues him night and day;
It follows him to fields afar,
And he becomes its prey.

Still lies in wait the motor boat
Lest he essay to swim;
The aeroplane aloft doth float
That it may pounce on him.

He may not walk nor swim nor fly;
He in no peace can dwell.
Perhaps it's best that he should die
And go to Shady Dell!

SOME men are too tender-hearted to beat a rug.

From the STAR FILES

THIRTY YEARS AGO.

The Late John W. Mackay.

"Mr. Mackay, the 'Bonanza King,' has bought the famous Rembrandt portrait, the choicest canvas in the Bowood Gallery, from Lord Lansdowne for £35,000. Mr. Mackay is also reported to have purchased the collection of pictures at Leigh Court, Somerset, for £110,000. English connoisseurs express disappointment that this collection, containing as it does a remarkable number of old masters, should leave the country."—From The Montreal Star, July 10, 1883.

John William Mackay, American millionaire, and "captain of industry," was born in Dublin, Ireland, on November 28, 1831. His parents brought him to New York in 1840, and he started work in a shipyard. Going to California in 1851, he worked in placer gold mines. In 1852 he went to Nevada, and there, after losing all he had made in California, formed with James G. Fair, James C. Flood, and William S. O'Brien, the firm which discovered the great Bonanza vein in 1873. This vein was more than twelve hundred feet deep in the Comstock Lode, which yielded them more than $19,000,000 in one year alone. The firm established the Bank of Nevada, in San Francisco. With James Gordon Bennett, Mr. Mackay formed the Commercial Cable Company, in 1884, and laid two trans-Atlantic cables. Later he formed the Postal Telegraph Company. Mr. Mackay gave generously, especially to Roman Catholic charities. He died in London April 20, 1902. In 1905 his widow and his son, Mr. Clarence H. Mackay, presented a splendid memorial of him in the form of a school of mines, to the University of Nevada.

"A gang of men are engaged demolishing part of the front wall of the Drill Shed. This seems to imply that all difficulties between the Government and the city authorities have disappeared, and that the repairs will soon be pushed through with all possible speed."—From The Montreal Star, July 10, 1883.

This great work was constructed under the preceding Government by a well known contractor of the name of Howley, who also constructed the St. Patrick's Hall.

TWENTY YEARS AGO.

"An elegant volume contains the names of all the ladies in the province who contributed to the wedding present of the Princess May. The book, which will accompany the gift, is bound in cream seal with heavy gold corners in filagree work. It is lined with watered silk and the names are written with copperplate exactness upon hand made paper."—From The Montreal Star, July 10th, 1893.

"London—The Royal Clyde regatta was sailed to-day. The Britannia won. The Valkyrie was second.—From The Montreal Star, July 10th, 1893.

"Nothing could be plainer than that the disturbance about the Drill Shed last night was caused by a few irresponsible 'hoodlums.' The French-Canadian population was no more concerned in the affair than the Christian Endeavor Society management in the ill-timed speech of the Hindoo representative. No one will regret it more than the French-Canadian people, who voiced their real feelings through the admirable welcoming words of Mayor Desjardins."—Editorial: The Montreal Star, July 10th, 1893.

"The meeting of the Christian Endeavor Society will be remembered as a great success, and their reception in Montreal most creditable. They received a kindly assistance from all classes and all creeds. The unfortunate incident referred to was said at the time to have originated amongst quarrymen who came in to have what they considered a little fun.

BEGIN LARGE PLANTS ON THE SOUTH SHORE

The work of building the great steel plants of the Armstrong-Whitworth Co. on the South Shore is begun. The contractors have been busy shipping their heavy machinery across the river in preparation for the work ahead, this week. The first building is to be 500 feet by 150 feet, and 25 feet high, and of iron and cement. It is hoped to have this building nearly completed by the end of this autumn. A huge 18-ton stone crusher was taken across the river yesterday, after the municipality of Longueuil had strengthened the bridge to allow of its passage without mishap.

Part of the property on which the steel works are being constructed is within the boundaries of Longueuil. The balance will be annexed when the work is completed, and arrangements made for water service for the works and all other conveniences.

The Council has decided to sign a contract for 3½ miles of cement roadway in the town. The curbstone for this distance has already been laid down. The work of building the roadways will begin shortly, and will be completed early next year.

Revise Lists For By-Elections

Special to The Montreal Star.

Ottawa, July 10.—The voters' lists for constituencies wherein by-elections are impending are in course of revision. These effect South Lanark, South Bruce, East Middlesex and Chateauguay. The issue of the writs is not expected until the autumn.

Only in South Bruce are the candidates in the field. South Lanark and Middlesex are safely Conservative, while South Bruce and Chateauguay, the former with 103 Conservative majority and the latter with a Liberal majority of forty, make good fighting ground.

BAD ROADS CAUSE LOSS TO PROVINCE

Councillor W. G. M. Shepherd, of Westmount, has returned from an extensive road tour of New York and the New England States, in which he was the guest of Lorne Webster. Mr. Johnson, of the Department of Marine and Fisheries, accompanied the party.

"American roads certainly show a vast improvement on Canadian ones," he said this morning. "Our trip, which was from Ogdensburg to Kennebunk Beach, Me., included an itinerary of nearly five hundred miles; and the worst part of all this stretch was much better than the majority of the roads around Montreal. In my opinion we are losing thousands of dollars every year in American tourists alone, by our lack of automobile roads fit to run a car over. The fact that the highways bill lost out in the Senate should not prevent the Provincial Government from building a highway, say from Montreal to Quebec. Nothing would advertise our province so well."

SECOND TRIAL FOR CONDEMNED MURDERER.

Prince Albert, Sask., July 10.—Word was received in the city last night that the Supreme Court at Regina had ordered the retrial of Lewis Ratz, Hungarian, sentenced to hang on July 25 for the murder of Charles Bruggencote.

The re-trial of Ratz was asked for on the ground that he was convicted mainly on the evidence of an accomplice who also was sentenced to hang for the same crime.

SLEEPS ON WIFE'S GRAVE AND ATTEMPTS SUICIDE.

Hamilton, Ont., July 10.—Charles Smith, 72 years old, who has been brooding for a long time over the death of his wife, slept on her grave in the cemetery last night and this morning slashed his throat and wrists with a knife. He was hurried to the hospital.

Smith told the police he was alone and friendless, and that he had been put out of his boarding-house last night.

NO RESOLUTION RE CATHOLIC PARTY

G. H. Baril, M.D., General President of the Catholic Association of French-Canadian youth, writing of its recent meeting at Three Rivers, desires to correct certain statements regarding "a Catholic party in Canada." He says no resolution was taken or voted upon at the Congress relative to "the necessity of a united Catholic party in Canada instead of the old divisions of Liberals and Conservatives."

In addition, Mr. Baril writes, not only was no such resolution passed but it was not even touched upon directly or indirectly, and that such a question did not appear on the order paper.

Mr. Baril says the erroneous statements were circulated widely, and editorial comment made thereon.

School Children Worse for Drink

Special to The Montreal Star.

Passaic, N.J., July 10.—As a result of the report of Mr. Herman F. Weber, truant officer of the Board of Education, in which he states that during one year eighty-one pupils between the ages of ten and fifteen years were found to be intoxicated while attending class work, Mayor Sager has ordered a rigid investigation of the conditions which surround the children.

Mr. Weber has been ordered to give a full report of each of the instances of intoxication, and to inquire into each individual case for the purpose of fixing the responsibility. He has been further instructed that in future when any pupil is found under the influence of liquor an immediate report shall be made to the Mayor.

Problems of Civic Planning

Housing the Poor Man.

That it is possible, in congested cities, for private enterprise to make the lot of the poor man very much easier to bear, and that such enterprise can yield a small profit has been demonstrated for some years past in London by the construction of what are known as the "Rowton Houses." The special field of these novel places is to provide accommodations for single men in humble circumstances, where they can live in cleanliness and respect, instead of having to rent rooms and get their board in low and often filthy common lodging houses.

As it has long been urged by the Board of Control in Montreal, and by the Medical Health Officer, that many of the common lodging houses here are unfit to be lived in, and as certain of the night refuges have more than once been condemned for uncleanliness, the subject of providing better accommodation for the unmarried man of poor circumstances will be of special interest.

The Rowton Houses in London are doing so noble a work that information, as to their operation, etc., have been asked from scores of foreign cities, as well as cities on this Continent. The field these houses fill is so peculiar that they are very frequently designated as the Poor Men's Hotels.

Their origin is due to the kindliness of heart of the late Lord Rowton. There are now no less than six of these model houses or hotels in London and their number is still increasing.

Some fourteen years ago the late Lord Rowton, dismayed at the dirty condition of many of the common lodging houses in London, set out to see if means could not be devised whereby the workingman of very humble means could be provided with better and cleaner accommodations. Experts were consulted, on a plan which had been proposed to Lord Rowton for the construction of a special house or hotel for workingmen. After considerable consideration Lord Rowton approved of the scheme, and personally invested the sum of thirty thousand pounds in it. The idea was to rent out rooms in the place as cheaply as possible, and to provide various accommodations so a man could board himself, do his own washing, and that at a cost which would actually be lower than what he would have to pay in low lodging houses. It was the contention of Lord Rowton that by doing this, even at very low prices, the venture might be made self-sustaining from a financial point of view. The chief aim of the peer, however, was so to improve the condition of the lodgers that their sense of respect would be raised, and that, in consequence, the whole tenor of their existence would be improved.

Many business men prophesied that the idea of such houses or hotels would be a distinct failure; that such a class of men would appreciate nothing that was done for them; that they would prefer squalor even to comfort at the same price, and that all hopes of permanently bettering their condition were futile. It is pleasant to say that Lord Rowton lived long enough to see every one of these prophesies come to nought.

The first house was built in Vauxhall in 1892 and was provided with 482 bedrooms. In addition to these rooms there were attached rooms for reading, writing, dining, smoking, bathing, as well as rooms where boarders could do their own washing, shoe mending, tailoring, etc.

The ultimate cost of the building was exactly thirty thousand pounds.

As might have been expected all was not easy sailing with such an unusual venture. Hundreds of men were willing to rent rooms in the place, and to benefit by its many advantages, but when rent day came round they were not anxious to settle up, and this despite the small cost charged. Other patrons of the place showed their gratitude to Lord Rowton by carrying off and selling portable articles of every description. For a time Lord Rowton was in despair; it was realized that the whole trouble lay in the manner the place was being administered. What was wanted was some one directing mind, which would result in all of the inmates of the place doing the right and proper thing. The right man was at last found in the person of a military gentleman who had been accustomed all his life to handling men. He soon brought order out of chaos, and made the inmates both respect the place and themselves. It has already been stated that this project has been so successful that six other houses have been constructed. A special company now controls these places, and they turn in a profit of from four and a half to five per cent. It is not the profit that is thought of, however, but the enormous amount of human suffering which the workingmen's hotels in London prevent every year. The proposal that one such hotel shall be tried as a venture in this city has already been brought before the attention of the officials of the Montreal Housing Association.

ENGLISH SLOE GIN

The sloe is a specie of the Wild Damson that grows in England. Sloe Gin is a distillation of unsweetened Gin mixed with an infusion of the juice of the sloe, and is a most delightful cordial; it is used largely in cocktails, also in the making of "Gin Fizz," a drink that is very popular at the present time. Mixed with a little hot water, it makes a very soothing drink, slightly laxative.

We recommend:—
Ross's English Sloe Gin, $1.25 bottle, $14.00 case.
Hawker's English Sloe Gin, the Pedler Brand, $1.25 bottle, $14.00 case.

Peterborough, on the Otonabee river, has a unique claim to distinction in the fact that it possesses an engineer work which is the largest of its kind in the world. This is the hydraulic lift-lock, one of the works of the Trent Canal (so-called) though, as in the case of the Rideau Canal, a great portion of the waterway consists of natural lakes and rivers. The lock was opened nine years ago, on July 9th, 1904. The height of the lift is sixty-five feet; and the two chambers into which the vessel enter to be raised or lowered are one hundred and forty feet long, thirty-three feet wide, and nine feet ten inches in depth. They are constructed of steel plates, and containg eight feet depth of water, or about thirteen hundred tons in each. The lock proper works automatically, and the lockage of a vessel can be performed in six or eight minutes, the actual "lift" taking but one and a half minutes. Twenty-six thousand barrels of cement were used to make the substructure of the lock, which is said to be "the largest monolithic mass of concrete in the world." The cost of the whole structure amounted to half a million dollars.

URGE FORMULATING NATIONAL CANADIAN FORESTRY POLICY

Closing Session of Convention Adopts Resolution of Forward Movement.

TREES AND SHRUBS FOR SCHOOL PLAYGROUNDS

Favors Extension of Educational Methods With Regard to Forestry.

Winnipeg, July 10.—The final meeting of the Canadian Forestry Convention, held in the Industrial Bureau last night, was marked by a series of resolutions and discussions which indicated a distinct advance in the work of the association and laid out for the executive and the members a campaign of unparalleled activity in the history of the organization.

The central point of the discussion on immediate extension of the activities was the following resolution by Mr. Vere C. Brown, of the Canadian Bank of Commerce:

"That the executive committee take into consideration the advisability of appointing (a) a central committee at Ottawa and sub-committees at important points in different sections of Canada to formulate a national forestry policy; and (b) advisory boards at each centre where a sub-committee is formed.

WESTERN CANADA AS CENTRE OF POWER.

The probable action of the executive committee upon this suggestion will involve, it is expected an immediate extension of the association's power and the augmentation of a large number of members to the work in hand.

In closing the convention the Hon. W. A. Charlton laid special stress upon the advance which had been made by the association in holding its convention in Winnipeg, and expressed the confidence that with its wonderful possibilities the Western country would soon be a centre of power in the various objects of the body.

The resolutions which follow are an indication of the advances made by this meeting in the central west:

"That this association recognizes the importance of planting shelter belts and other trees and shrubs in the school playgrounds of the prairie provinces, and that, to encourage this work in a practical manner, it recommends to the attention of the departments of education and agriculture of the provinces."

FOR ESTABLISHMENT OF RANGER SCHOOLS.

"The association also approves the policy of the Commission of Conservation; of the co-operation of the railway companies with the Board of Railway commissioners; of the establishment of ranger schools; of the action of the Dominion Government in extending the areas included in forest reserves on watersheds and non-agricultural lands, urging the extension of the same; of the work of the tree-planting division at Indian Head; of the proposed establishment of a ranger school in British Columbia.

Further, the association urges the extension of educational methods with regard to forestry, the carrying out of experiments to obtain data regarding the best disposal of logging debris; the afforestation of sandy lands, and the planting of trees in parks on the prairie.

Resolutions of thanks were passed to all the individuals and agencies instrumental in making the convention a success.

CANADA WILL INCREASE GOLD REFINING PROCESS.

Special to The Montreal Star.

Ottawa, July 10. Because the amount of Canadian gold being submitted to the refining process at the Ottawa branch of the Royal Mint is increasing year by year, the Government is taking steps to double the capacity of the building and plant.

Tenders will be called for the work in a few weeks. The value of gold refined last year was $1,688,823.

A SUMMER PARADISE.

The unique series of log cabins with main lodge that has been erected the past year by the Grand Trunk System on Smoke Lake in the Algonquin National Park of Ontario are now in operation.

The Camp is built entirely of cedar logs; has accommodation in the several cabins and the main lodge for seventy people; is plainly but comfortably furnished—bathrooms in each cabin, with hot and cold water, and is situate in the centre of one of the finest fishing districts in America.

The Camp is run in connection with the "Highland Inn," the Grand Trunk Hotel, seven miles distant, and guests are able to reach their destination from Algonquin Park Station, either by carriage or canoe.

The altitude of the territory is 2,000 feet above the sea level.

Write to the Manager of the Highland Inn either for rooms at the hotel or the camp at an early date, addressing him at Algonquin Park Station, Ont.

How to care for baby's delicate skin

Many mothers seem to forget that a baby's skin is much more sensitive, much more readily injured than that of an adult. They bathe the baby with soaps never meant for a skin of such delicate texture and then wonder why the skin becomes raw and irritated.

So little soap is used the first three or four years of baby's life that there is no excuse for not using the best. Woodbury's Facial Soap is the work of an authority on the skin and its needs. Daily baths with its soothing lather keep baby's skin in perfect condition—allay itching, burning and smarting—leave the skin beautifully soft and smooth. Get a cake and try it today.

Woodbury's Facial Soap costs 25c a cake. No one hesitates at the price *after they've tried a cake.*

What Dr. Neal Has To Say

To the Periodical, Habitual and Nervous Drinkers:

The effect of alcohol taken into the system is the same in all cases—slow poisoning. The nervous drinking man, the man who has to take a drink before breakfast and two or three after breakfast and several during the day to keep from becoming nervous, is just as much in need of the Neal Treatment as the man who consumes a quart a day. This is the only Three Day Liquor Treatment adopted by a government and the only original Neal Three Day Liquor Cure in Montreal. Is only to be had at 226 Sherbrooke St. East, near St. Denis Street. PEERLESS HEAT TREATMENT

THE life of the average truck sprocket is eight thousand miles. By scientific heat treatment of carefully selected steel, Peerless sprockets have carried capacity loads more than twenty thousand miles before showing appreciable wear.

Heat treatment prolongs the life and increases the useful strength of every vital steel part in a Peerless truck. It is the only method for making gears with hard, wearproof tooth surfaces and soft tough cores. It is the only way to increase the factor of safety without adding weight. In the Peerless factory the science of heat treatment has reached the highest development. The resoures of the Peerless metallurgical laboratories excel those of the technical schools and steel mills.

WOULD NOT SPEND $196,000 FOR NEW CATHOLIC SCHOOL

Why $196,000 should be spent on the building of a new school in Longue Pointe ward, when schools in the centre of the city had cost much less, was something that Commissioner Decarie could not understand at last night's meeting of the Catholic School Commission. When the members opened the tenders for the new school building, they found that all of them were high, the one for $196,000 being the lowest. The Commissioners finally decided to accept it. It was submitted by E. Henri Demers.

Mayor Lavallee, as member of the commission, defended the principle of the proposed cost, saying that every thing was going up and that the cost of transporting building material to Longue Pointe was very high, while the school would be an absolutely modern, fireproof building.

Commissioner Decarie thought it would have been much better to have utilized this space on a building in the centre of the city, but the Mayor was not in a mood to be beaten in argument and retorted that the city was growing at such a rate that Longue Pointe might very soon be the centre of it. He did not attempt to explain this belief from a geographical standpoint, however.

There was another argument between the Mayor and Ald. L. A. Lapointe when the former proposed that the salary of the general superintendent of schools should be increased from $3,000 to $3,500. It was finally decided to increase it to $3,200.

Arrangements for the borrowing of one million dollars authorized by the Provincial Legislature to assist in the construction of new schools, will be made later in the year, it was announced. The Finance Committee reported on an increase of $15,000 in the appropriation for salaries next year, and $25,000 was laid aside for the paving of school yards.

"EAT 'EM ALIVE," CRY OF PATRIOT GREEK READING WAR NEWS

"Eat 'em alive, eat 'em alive," shouted big "Joe" Zirbartony, one of the leaders of the local Greek colony, and a former St. Lawrence street saloonkeeper, when he rushed into a shoeshining parlor, at 321 St. Lawrence Boulevard last evening. He was waving The Montreal Star, and before he had time to mount the stand, he was surrounded by a crowd of his fellow-countrymen, who listened attentively to the reading of the despatches. "Joe" translated every line in The Star referring to the war. When he reached the point where it was stated that the Greeks had caught the Bulgarians between two fields, and were driving them from Dorian to Istib, cheers filled the parlor. The "shiners" dropped their brushes and joined in the celebration.

A representative of The Star, who happened to be in the parlor at the time, asked the proprietor if he thought the Greeks would be victorious.

"We will win," he said. "If necessary," he added, "every Greek store in Montreal will be sold out, and the money will be sent to the Queen Mother." If that is not enough, we will shoulder our guns and take up a position on the firing line. We must win."

As wages advance in Chile there is a growing demand for shoes and the better grades are imported.

TAKE PICTURES IN 2 MINUTES
NO FILMS
NO PLATES
THE GORDON CAMERA
NO DARK ROOM
NO WAITING

Here is the camera you have always wanted—takes pictures and develops them inside the camera in TWO MINUTES.
You simply put a package of sensitized cards inside the dark box in the camera, move one card into position, make an exposure and then put the card into the developing tank which is inside the camera—and in two minutes a permanent picture is ready. The pictures are taken directly on the sensitized cards—films or plates are not used.
We want every man, woman, boy and girl in the world to see this wonderful camera as soon as possible, and for a limited time only we shall sell Model H, regular price $8, for $5, and Model B, regular price $10, for $7. Whichever one you order enclose 90 cents additional to cover express charges, sensitized cards and developing powders.
Model H is 5⅛ x 9 x 10 inches in size, weighs 3 lbs., 7 oz., and takes pictures 3 x 4¼ inches. Model B (6⅝ x 9 x 10¾ inches) weighs 4 lbs., and takes pictures 3¼ x 5⅛ inches. Extra sensitized cards for Model H can be bought at 2½ cents each—cards for Model B, 3 cents. Ten cents worth of developer will develop over 40 pictures.
There will be no customs duty for you to pay as we shall ship to you from our Canadian Branch near Toronto. All orders and letters, however, must be sent to our New York office. The operation of the Gordon Camera is so simple that any person of ordinary intelligence can easily take pictures with it after reading the directions sent with each one.
Gordon Flash Light Lamp Outfit No. 1, Price $1.00, will enable you to take pictures at night in your own parlor, or out of doors.

There are sermons in stones—also in teeth. We'll choose the latter for our text.

But if everyone used Pebeco Tooth Paste there would be no further need of sermons, preachments or parables on the proper care of the teeth.

PEBECO TOOTH PASTE

Pebeco Tooth Paste solves the problem by ridding the mouth of the enamel-destroying acids. "Acid - Mouth" is the dreaded thief which experts now agree is the cause of 95% of all tooth decay. Pebeco Tooth Paste arrests this acidity of the mouth—even destroys the acid-producing bacteria themselves.

You have not settled the problem of your teeth by merely keeping them white, clean and polished. Pebeco Tooth Paste will SAVE them.

DROWNS ON HOLIDAY.

Special to The Montreal Star.

Toronto, July. 10.—Charles W. Spradbrow, son of Chas. Spradbrow, of 301 A, Spadina Road, Toronto, was drowned yesterday in Sparrow Lake, near the mouth of the Servian River.

The young man, who was an employee of the American Watch Case Company and was 19 years old, was holidaying at Camp Wanda.

American salmon in the fresh waters of Tasmania are prospering wonderfully. Some of them increased in weight from two ounces to four pounds in twenty-one months.

MUSIC CAUSED DOWNFALL.

Love of music caused the downfall of Efren Dionne, found guilty to-day by Judge Lafontaine in the Arraignment Court, of stealing a violin from No. 11 Bonsecours street. He was condemned to six months in jail. The arrest was made by Constable Bonenfant, of the Central Station, who was the principal witness.

James Brady, who refused to give his address, was found guilty of stealing clothing valued at $20 and was sentenced to three months in jail.

TWO DROWN WHEN SAILING BOAT CAPSIZES

Kingston, Ont., July 10.—In a sailing accident late last night, two young men living in Kingston, Frank Exton and Howard King, both pattern makers, lost their lives by drowning. They were employed at the locomotive works. Their companion, William P. Irvine, was saved.

The three were out in a small sailboat, a lively gale was blowing, and when about to come in at the slip at the foot of Union street the boat ran into a submerged pier and capsized.

King and Exton could swim, and started out to make shore, but went down. Irvine could not swim, and clung to the boat until rescued by men from the Kingston Shipbuilding Company, who heard his cries for help.

Search has been made all morning for the bodies of the other two men, but as yet they have not been recovered. Exton is an Englishman and has only been in this country a short time.

King is a Scotchman, and came to Kingston recently from Toronto.

Wait for Increase.

Employees of the City Health Department are still waiting for their annual increase in salary. While there is no likelihood of open revolt, considerable resentment is felt over the fact that the Board of Control has not taken up the increases sooner.

STEFANSSON FORCES JOIN FOR EXPEDITION

Nome, Alaska, July 10.—The Canadian Polar exploration ship Karluk arrived from Victoria, B.C., yesterday with twelve of the scientists who will go with Vilhjalmar Stefansson into the Arctic.

Four hours later the steamship Victoria arrived from Seattle with Stefansson, Dr. R. M. Anderson, his lieutenant and James Murray, oceanographer.

The expedition will remain here until July 20, when the way will be open to Point Barrow, the northernmost point of Alaska.

While here, supplies will be transferred to the auxiliary boat Alaskan, which will take the southern part under Dr. Anderson from Nome to Victoria Land for scientific research work.

LIGHTNING SETS OFF DYNAMITE; SIX INJURED.

Kingston, Ont., July 10.—A message from Gananoque states that six men were badly hurt during a severe electrical storm when lightning struck a government drill-boat and set off a quantity of dynamite. It is stated that two of the men are not likely to recover.

The boat was engaged in removing the big shoal near the foot of Hay Island and Grindstone Island. The injured men were taken to Calumet Island.

JUDICIAL INQUIRY INTO LAND DEALS TO BE EXTENSIVE

Every Purchase of Land to Be Investigated if Necessary.

WELCOME INFORMATION FROM ANY SOURCE AT ALL

Probe Will Not Be Limited to Ahuntsic Ward Only, Says Mr. Lachapelle.

The judicial inquiry to be started first of all into the Ahuntsic land deal, will be extended to cover, if necessary, every purchase of land or expropriation since the Board of Control took office three years ago. The Controllers state they have nothing to fear and will welcome the most thorough investigation. Insinuations made in certain quarters are particularly resented, and the Controllers feel that the fate of the new administration is at stake.

Controller Lachapelle, who is acting as chairman of the Board, in the absence of the Mayor, said to-day:

"I wish it to be known publicly, and as widely as possible that we shall welcome information or charges from any source whatever. We are willing to submit our work to thorough investigation and if anyone knows anything, not merely in connection with the Ahuntsic affair, but with any other land purchase or expropriation, I hope he will come forward and lay his charge either before us or before the law department. In this, I am sure that I am voicing the opinions of my colleagues.

Don't Talk Afterwards.

"I do not wish it to be said after the inquiry is closed that so-and-so had some information which he could have laid before us and did not do so, as he was not aware of the holding of any investigation. We want an investigation and we want the public to know the whole truth."

It is expected that the investigation will lead to some remarkable disclosures of huge profits made in land speculation. How certain persons have been endowed with such remarkable foresight as to buy right along the lines of the city's future development; how fortunes have been made by the increase in values resulting from various improvement schemes—these, it is anticipated, will be related before the Commissioner. One development scheme alone is reputed to have increased values in the neighborhood so much that nearly a million dollars were cleared up in a single deal, and by one man closely connected with the city's affairs.

Under ordinary circumstances, the investigation could not be opened before September as the judges are on vacation.

The Board of Control, is, however, making an endeavor to have the inquiry opened without delay.

GREAT SURPRISE OVER JUDGMENT REGARDING BEER

Local Authorities Puzzled Over Quebec Ruling—"What is Beer?"

Brewers, liquor dealers and temperance workers alike are so surprised at a judgment rendered in Quebec by Judge Langelier on the subject of beer that they confess themselves at a loss to decide what is beer and what is not beer.

According to the judgment of Judge Langelier, almost any beer would be harmless; and the thirsty ones might march up to any soda water fountain with impunity and call for a pint of foaming ale under the firm conviction that they were about to imbibe a harmless temperance drink.

After releasing four men accused of selling liquor without a license, the Judge ruled that beer containing 3.4 and 4.3 per cent. alcohol was "temperance beer," and that people might drink it all day without getting drunk.

This judgment is even more famous than the different manner of interpreting the law exhibited by local judges in interpreting the same point as to when beer is beer.

Brewer Explains.

The manager of Ekers' Brewery in Montreal declared this morning that the ordinary ale sold in bottles or draught contained from 4 to 4 1-2 per cent. alcohol, while lager usually contained 3 1-2 per cent. alcohol.

This percentage of alcohol satisfies most people, and it is said that cases have even occurred in which people actually become intoxicated after imbibing beer for a given length of time. Yet the temperance beer disposed of by Judge Langelier contained 3.4 per cent. and 4.3 per cent., practically as strong as the ordinary beer.

Happily for the temperance people and unfortunately for the thirsty ones, it appears that Judge Langelier's judgment will have no effect upon Montreal, where the judges have taken the stand that even 1.38 per cent. alcohol constitutes an intoxicating principle.

"It was a stupid judgment," said John H. Roberts, of the Dominion Alliance. "We cannot allow it to remain unchallenged. Any liquor containing alcohol is an intoxicating principle and no percentage is mentioned in the law. One per cent. alcohol is an alcoholic principle."

It is not likely that the judgment will have any effect in "boosting" the sale of temperance beer. There has never been much demand for the beverage in this province, unlike Ontario, where 2 per cent. alcohol in beer is regarded as a temperance drink. Temperance beer is brewed in two branches of the Canadian Breweries, Limited, but they do not anticipate any wild rush for the foaming beverage.

CLERK WHO STOLE COMPANY'S FUNDS FOUND IN STATES

Joseph Alfred Lapierre, Missing from Fashion Craft, in New York.

LEFT NOTE BEHIND TELLING OF THEFTS

Descrepancies Not Noticed by Auditors — Had Evidently Expected Trouble.

Leaving a letter addressed to Eugene Richard, general manager of the Fashion Craft Company, behind him, explaining how he had stolen $1,500 of his company's funds, Joseph Alfred Lapierre, assistant bookkeeper, 23 years of age, shook the dust of Canada from his heels on May 23 last, and was not found until yesterday, when he was recognized by detectives in New York.

What Lapierre's idea was in telling of his misdeeds cannot be explained by Mr. Richard, who looked upon him as one of the most trustworthy men in the office up to the day before his departure.

The manner in which Lapierre's alleged defalcations were discovered was due chiefly to an accident—one of the bookkeepers wanting to go on a holiday. When this bookkeeper was preparing for his going on the Friday preceding the May 24, Mr. Desautels, chief accountant of the Company, had occasion to look over the books and found irregularities for which he took Lapierre to task. Lapierre was able to explain the discrepancies as mistakes; but he evidently scented trouble, and when the office opened on Monday he was missing, and no word was heard from him until the mornings' mail brought the letter in which he told of the thefts he had committed.

Sorry for Mother.

Both Mr. Richard and Mr. Desautels expressed themselves as greatly disappointed in their clerk, but they are also sympathetic especially on account of his mother, who is engaged in business at Three Rivers.

It was pointed out by Mr. Desautels this morning that Lapierre must have been expecting trouble for some time as when his work was looked into carefully, no trace could be found of his address. The Company keep the addresses of all their employes and this special work was given to Lapierre.

It is expected that Lapierre will return to Montreal without extradition proceedings.

Both Mr. Richard and Mr. Desautels deny that Lapierre took more than $1,500 from the Company, although Mr. Carrington states that on Lapierre's arrival in New York, he entered into an automobile business with another person.

It was explained at the office of the Fashion Craft Company that Lapierre obtained the money by means of entering false names to the pay roll which he made out himself. He had also raised the amounts on cheques. It is a singular fact that Lapierre's work was done in such a way as to escape detection by the auditors.

Montreal Woman.

In the despatch from New York telling of the arrest, mention is made of a Miss Lane, who lived in Montreal.

"After searching the city," says the despatch, "Detectives Quinn and Donnelly located Miss Lane living at 4 West 108th street. They traced her about the city for several days, and, according to the police, she often met Lapierre on the street. The detectives were not sure of their man, however, and so waited.

"Yesterday afternoon, say the police, the young woman left her apartment and went to Central Park and 110th street, where she met Lapierre. The two walked through the park, and finally returned to the apartment house in which Miss Lane lives. As they were about to enter the street door the detective stepped up and placed the young man under arrest. According to the police, he admitted his identity, and later the charge in the warrant.

"The warrant was read to the prisoner in the West 100th street station, and when it was finished the young man smiled, and remarked that a competent accountant could prove that he had taken nearer $8,000 than $1,500. He admitted cashing the cheques for more than was correct, say the police, and added that his income from this source averaged $250 a week. He spent all his money, according to the police, in high life."

BRAKEMAN KILLED IN HEAD-ON COLLISION

Special to The Montreal Star.

Quebec, July 10.—Two engines met in a head-on collision near St. Malachie station, yesterday afternoon, causing the death of one man and severe injuries to three others.

A misunderstood order from the despatcher is given as the probable cause of the accident.

The victim is a brakeman from Alma named Adolphe Turgeon. He was climbing the ladder of a box-car when the shock sent him under the wheels, with the result that his legs were separated from his body. He survived a couple of hours and died last night.

The three injured are M. Friedman, also from Alma, who sustained a fracture of the left arm and general bruises; Joseph Tremblay, of St. Malachie, who had his collar-bone broken, and J. Clark, of Alma, who escaped with lighter injuries.

The section of the line where the accident took place was being operated by the contractors.

FIND UNKNOWN MAN'S BODY IN THE RIVER NEAR PARK.

The body of an unknown man, about 45 years of age, was found early this morning floating in the river near King Edward Park and was removed to the morgue. The body appeared to have been in the water a long time. The victim was smooth shaven, had gray hair and was 5 feet 9 inches in height. He weighed about 175 or 180 pounds and wore a white shirt and a pair of blue overalls. The body was found by Pierre Polequin and Camille Partbriard, employed on No. 10 dredge.

THE DAILY TELEGRAPH

HEAVY DEMAND

FIRST ISSUE SATURDAY 12th JULY

HOW TO ORDER

The demand for "THE DAILY TELEGRAPH" is such that many anxiously desirous of being supplied are certain to be disappointed. It is evident that the demand from news dealers will absorb the entire edition, apart from those reserved for paid in advance subscriptions. The only sure way to secure copies is to give an order to your news dealer in advance. This will enable the dealer to regulate his order. As far as the supplies suffice, dealers' requests will receive attention in the exact order in which they are taken but it must be remembered where such an extraordinary demand is to be met within the time allotted for despatch of a daily paper, confusion and consequent disappointment are likely to ensue.

Care will be exercised to ensure systematic delivery, but we enjoin all who are clamoring for copies to lodge their orders with their news dealers. All responsible dealers within two miles of the General Post Office will receive full or partial supplies.

MONTREAL WOMAN SUES FOR HUSBAND'S LOSS ON TITANIC

Boston, Mass., July 10.—The first suit brought in the Massachusetts Courts for loss of life on the steamer Titanic was entered in the Superior Court yesterday by counsel for Mrs. Marie Wiseman, of Montreal, who, for the benefit of herself and her six children, seeks to recover $50,000 from the Oceanic Steam Navigation Company, Limited, for the loss of the life of Phillipe Wiseman, her husband.

The plaintiff sets forth that under the English statue, known as Lord Campbell's Act, she is entitled to prosecute her suit in this State.

The complaint alleges that besides being insufficiently equipped with life-preserving apparatus, the vessel was being pushed for a speed record in the face of warnings against icebergs.

According to experts the force of the rotation of the earth on the exroscopic compass which has been adopted by the United States navy is 291 times as great as the force of magnetism on the magnetic needle.

CHARGE JEW WITH KILLING BOY FOR RITUAL PURPOSE

Special to The Montreal Star.

Kieff, Russia, July 10.—Counsel for the Jew Beilies, who is accused of the murder of a little boy for ritualistic purposes, asked yesterday that subpoenas be issued calling for eighty-nine new witnesses, mostly Christians, including many distinguished theologians and professors, and the court surgeon, Dr. Pavloff, owing to the divergence of opinion among medical experts as to the nature of the wounds inflicted on the boy.

Counsel also requested the production of certain Hebrew books relating to ritual murders cited by the Roman Catholic Priest Pranaitis, in his efforts to show that the death of the boy was due to Hebrew beliefs regarding the shedding of blood. The lawyer said the books did not exist in any Russian library.

Elizabethtown (Pa.) Masons have dedicated Grand Lodge hall, first of a planned group of Masonic buildings to cost $500,000 and to constitute a home for aged Masons.

Astor to Build Children's Home

New York, July 10.—A children's home is to be built at Rhinebeck in this State by Mr. Vincent Astor, as a memorial to his father, John Jacob Astor, who perished in the Titanic disaster.

The institution, which will be known as the John Jacob Astor Children's Convalescent Home, will be built on a site which Mr. Astor has just bought in the heart of Rhinebeck, near the family estate.

The home will accommodate about 100 delicate little ones at a time, and will succeed a small institution on similar lines which has been conducted by the Rhinebeck colony.

It is understood that Mr. Vincent Astor will manage the new home himself.

SUICIDE OF ENGINEER IN ITALIAN GRAFT CASE.

Rome, July 10.—A sensation was caused here to-day by the suicide of the engineer, Giannini, who was a witness in the notorious graft disclosures in connection with the construction of the Palace of Justice, which cost millions more than the estimate.

Giannini's evidence brought about the implication in the affair of Deputies Luzzatta and Brupialli.

BRITISH BILL FOR NATIONALIZATION OF COAL MINES

Special to The Montreal Star.

London, July 10.—The House of Commons was languidly amused yesterday when Mr. Stephen Walsh introduced a bill for the nationalization of coal mines and providing for the distribution of coal by the government after it takes over the control of the mines.

Compensation is offered to the owners of the mines, but the Bill does not recognize any title to royalties. It proposes that the money needed for the purchase should be raised by the issue of stock.

"That would involve some slight charge on the taxpayer," remarked the Speaker of the House.

The Bill passed its first reading without a division.

A farm of 160 acres has been deeded to the schools of Paoli, Kas. Money from the farm is used to buy books, clothing, etc., for boys and girls who wish a high school education, but can not afford it.

PRESIDENT WILSON'S EFFORTS TO AVOID RAILWAY STRIKE

Washington, D. C., July 10.—Announcement is made that President Wilson will have an important conference at the White House on Monday afternoon with representatives of the railroads and Brotherhoods of Conductors and Trainmen concerned in the threatened strike that would tie up all railroads east of the Mississippi River.

It is said that the President is determined to prevent the strike which involves 100,000 men.

Both the railroad officials and representatives of the trainmen are confident that their wage dispute can be mediated if Congress will amend the Erdman Act along the lines they recently suggested to Congressional committees. They are not willing to submit their case to the three mediators authorized to act under the present law, but would gladly put it into the hands of the enlarged Board, headed by a special arbitration commissioner which the proposed amendments would provide.

DIFFERENT TYPES OF SOUTH EUROPE FLOCK TO CANADA

Immigration Takes a Sudden Spurt—Fine Class Arrives at Windsor Station.

Immigration, which has been on the gradual decline since the middle of May, has taken a sudden spurt. Seemingly, Canada is beginning a second season for 1913. A heavy influx from Europe at this time is most unusual, and its cause is a subject of considerable wonderment and concern on the part of railway and immigration officials.

A large gathering of men, women and children from all the countries of Southern Europe were to be seen at Windsor Station yesterday. Most of them landed at Quebec from the steamer Pisa, and are en route to Western Canada.

"The group on the whole," said one of the station officials, "represents the finest class of immigrants from Southern Europe ever seen in the station."

The opinion of this official is that the people are middle class citizens and peasants of the disaffected states who have become alarmed at the state of affairs and recognize that the lives of their families are in danger if the fever of war continues.

Altogether, these new arrivals are a most remarkable and interesting group. No two are dressed alike, and costumes are typical of many of the states of Southern Europe.

KIDDIES ESCAPE WITHOUT SCRATCH BENEATH BIG CAR

Two Little Girls Struck by Tram Did Not Realize Danger.

Huddled between the wheels of a St. Denis street car on St. James street, between Inspector and Chaboillez Sts., Italia Italiano, seven years of age and her baby sister Yolano, were rescued last night by Captain Riopel, of the Chaboillez street station, and returned to their home at 67 Chaboillez street, without so much as a scratch to show for the accident.

It happened in the rush hour. The older girl was carrying her sister, eighteen months old, across the street and passed behind a westbound Windsor car, directly on the track of an eastbound St. Denis car. The latter was but a few feet away and the girl had barely time to scream before she was thrown under the fender. People on the sidewalk who heard the screams and saw Italia dragged under, did not expect to see either of the children taken out alive; but the motorman succeeded in stopping the car when the front trucks were almost immediately over the victims and they were so caught as to escape the wheels, and were taken out unscratched.

Neither of the kiddies seemed to realize what a narrow escape they had. Italia seemed frightened to go home at first, fearing a scolding for carelessness, in the care of her sister; while Yolano's chief trouble seemed to be the loss of a banana.

It is recalled that a similar accident occurred on St. Catherine street on May 1, when Claire, nine years of age, and Anne, six years of age, daughters of Mrs. U. J. Martineau, 27 St. Genevieve street, were struck down in front of the Goodwin store and rescued in exactly the same manner. It is also noteworthy that Captain Riopel was the officer who rescued the children in this instance as well.

RUPTURE CURED

My little boy, 9 years old, was ruptured while playing at school. Our family physicians recommended a truss made by Mr. B. Lindman. I have great pleasure in stating that in two years my boy was quite healed.

Rio Dividend is Fixed at 5 Per Cent.

Toronto, July 10.—To-day's meeting of Rio shareholders was almost purely formal, with only half a dozen in attendance. The report, as recently published, was adopted. One lone shareholder Who had not turned in his stock to the merger asked if the report was correct that the Rio dividend was to remain fixed at 5 per cent. He was assured that this was the intention.

Municipalities Are Splendidly Solvent

By special cable from our own correspondent.

London, July 10.—The Canadian Gazette helps to quiet the nerves of British holders of Canadian municipal securities by publishing detailed figures of Canadian municipal loans, totalling $205,000,000, while the total assessments of borrowing municipalities, which number 31, is about $2,000,000,000.

BETTER ASPECT IN WALL STREET

Wall Street (noon).—The comprehensive rise of the market in the early trading bore out the contention of the bulls that the short interest had been expanded considerably by recent selling, which made possible a successful drive at the bears.

Announcement of President Wilson's action to avert a strike of trainmen and conductors on eastern railroads, and Secretary McAdoo's assurance that Government 2 per cent. bonds would be protected in framing a new currency law were primary causes of the improved feeling.

Cable advices were that prospects for peace in the Balkans were better, and London bought stocks here, principally Canadian Pacific and the Pacific Recent declines were largely effaced by today's upturn.

Canadian Pacific sold five points above yesterday's lowest. Although the list fell back from the highest in the last half of the forenoon, trading became dull on the reaction, and the major portion of the advance was retained. Bonds were steady.

CLEARINGS IN TORONTO.

Toronto, July 10.—Local bank clearings this week were $44,073,478, as compared with $46,256,612 a year ago.

MINE AUCTION FAILED.

Toronto, July 10.—The efforts of J. P. Langley, assignee, to sell the Crown Chartered claims by auction yesterday failed, as the bids put in failed to reach the reserve price.

Opinions from Wall Street

R. M. Bauer.—There is a relatively large bear account open, both in Steel common and Amalgamated Copper. These stocks should be taken on weak spots for at least moderate upturns.

Burnett & Co.—The buying came principally from the shorts, but there was little stock offering except at advancing quotations.

J. S. Bache & Co.—We expect to see the market run further before there is any decline of consequence.

E. & C. Randolph.—Moderate profits should appeal to the daily trader for the present.

Outlook Anything But Encouraging

Edgar Smith & Co. say: "While the war continues it is quite impossible to predict what the market may do, but the present outlook is anything but encouraging. From an investment standpoint, however, stocks are very attractive. This applies to the highest grade securities, as well as to the industrial issues."

FIRMER TONE FOR C. P. R. ON DENIAL

The statement telegraphed to The Star yesterday from St. Andrews, N.B., by Sir Thomas Shaughnessy, effectually disposing of the absurd market rumors of a new C.P.R. stock issue at this time, had a beneficial effect on the price of the stock to-day, the London price rallying to 211 before the local market was open. Both Wall Street opened the rally was continued from 211 to 214⅜, making a total recovery of five points from the low at 209⅜ yesterday forenoon.

In the subsequent dealings the price fluctuated a point under the highest of the first hour.

In the local market dealings were commenced at 211⅜ from 210½ at the close and 208⅜, the lowest yesterday. The highest was 213 and the last sale before noon was 212⅝.

The message of Sir Thomas Shaughnessy yesterday setting at rest the ridiculous report set afloat in the interests of the bear raid was received after the close of the market, so that it had no effect on that day's operations.

The offerings were marked loading however and the rally was generally expected under the circumstances.

It is generally conceded that the bear element is finding it more difficult to reach their objective point on C.P.R. than has been the case with any other stock selected for attack.

It has been generally well understood for several weeks that they hoped to get it down to 200 and the outcome of their efforts, which depend so largely on the conditions abroad, will be watched with keen interest.

WAYAGAMACK 26.

Wayagamack common was easy at 26 in the unlisted department this forenoon; a loss of half a point.

COAL AND COKE AT 3.

Canadian Coal and Coke Common established a new low level of 3 on the unlisted market this morning. The stock opened at 4 and eased off another point on light trading.

MORE CHEERFUL FEELING ABROAD

London, July 10.—Further liquidation caused a weak opening on the stock exchange, but a change for the better occurred at noon on more cheerful continental Bourse advices and a growing belief in the defeat of the Bulgarians and an early termination of the war. Consols dropped despite the good bank statement, and Brazilian issues were offered, but the market closed generally firm.

American securities opened quiet. Light offerings depressed values after the opening, but most of the losses were regained on covering before noon. Later Canadian Pacific led a sharp advance, the continent and New York bought, and the market closed steady, a fraction off from the best. The supply of money was better and discount rates were steady.

C.P.R. in Fine Financial Position

By special cable from our own correspondent.

London, May 10.—Yesterday's drop in C.P.R. shares is attributed to the quite erroneous expectation of operators that a new issue of $60,000,000 is to be made immediately. There is no sign that the company needs money now, as there is still $45,000,000 to come from the issue of January last.

Other substantial amounts are in hand, while payments for the new $100,000,000 contracts are to be spread over a long period.

—WINDERMERE.

NOR. PACIFIC ISSUE.

New York, July 10.—The Northern Pacific Railway has sold to the First National Bank, of this city, $10,000,000 six per cent one year notes. The notes are dated July 9 and are to be offered at 99¾.

SHORT NOTES OF INTEREST.

London settlement concludes to-morrow.

Bar silver closed steady in London at 26⅞d.

New York bar silver was quoted today at 58¾.

Illinois Central for June showed a gross increase of $12,621.

Consols for money were unchanged at 72¼. For account 72⅝.

CURRENCY AMENDMENT.

An amendment to the U. S. Currency Bill has been agreed to which would retain the circulation privilege for the United States two per cent. bonds during the entire period of twenty years over which it is proposed to retire the existing $700,000,000 issue of National Bank notes secured by these bonds.

The meeting of Quebec Railway directors, called to take place in Quebec today, was postponed. Sir Rodolphe Forget wired that he could not be present, being detained at St. Irenee by an attack of grippe.

TOPICS OF THE STREET

Too Much for Even a Financial Babe

That the executive of the C.P.R., which is pretty generally given credit for a fair share of financial astuteness, would do anything so utterly weak as to propose a new stock issue in the face of a money market such as now exists is nubelievable by even a financial babe.

Yet that is the kind of rubbish the bear element expected the man-in-the-street to believe yesterday.

It indicates a somewhat desperate cause clutching at the proverbial straw of the drowning man.

When the C.P.R. decides that a fresh stock issue is essential it is a safe wager that the circumstances will be very much more favorable than at the present time.

Failure May Cause Increased Caution

It is suggested that the failure of the Pittsburg bank and affiliated institutions is not unlikely to result in increased caution on the part of investors in taking up investment securities. Possibly this will mean a return of business to the New York Stock Exchange. A considerable part of the extreme dullness that has recently been shown by the stock market may be ascribed to the competition of the private offering tarough investment bankers of public utility securities. The American Water Works & Guarantee Company, which is one of the holding companies brought out by the Kuhn concern, was offered at 75 for the preferred stock. There were no bids. Yet on June 1 the stock sold at 98. Just before the close last Thursday a bid of 93½ was made, without inducing selling.

Must Need the Gold in the Worst Way

The Bank of France, by its gold imports from New York, has virtually exhausted the supply of gold bars at the assay office and will have to resort to taking coin.

The transaction will be an expensive one owing to the fact that there is always a considerable loss in shipping coin owing to the loss in weight by abrasion, wear, etc.

However, the Bank of France undoubtedly needs gold, and in the past it has shown that it is not inclined to quarrel over expenditures when it decides to purchase the metal in America.

Western School Bonds to American Firm

Edmonton, July 10.—Sidney Spitzer & Co., of Toledo, O., have bought an issue of Edmonton school debentures, amounting to $1,250,000. The price paid has not been made public by the School Board, but it is given out that it was advantageous in view of existing financial conditions throughout the country. This is the firm's first business in Western Canada.

Dividends Declared

Canada Cement preferred.—Usual quarterly div. of 1¾ per cent. declared today, payable Aug. 16 to record July 31.

Montreal—Prudential Trust, Limited, have authorized a dividend of 2½ per cent. for the six months ended June 30th last, payable to shareholders of record that date. This is the second dividend declared by Prudial Trust, the first, at the same rate, having been declared at the beginning of the year for the six months ended December 31st last.

THIS CRITIC OF CANADA IS MIXED UP

Ottawa, July 10.—The authorities at Ottawa are considerably amused over the statement alleged to have been made in London by Col. R. M. Thompson, that Canada is financially embarrassed in consequence of expenditures necessitated by the large immigration flowing to this country.

Col. Thompson is quoted as saying that each immigrant costs the country $1,500 and that last year the total immigration cost $60,000,000.

The fact is that for the last seventeen years Canada has derived its chief financial profit from immigration. A conservative estimate places the average amount of cash capital brought to the country by each immigrant at $1,000.

In the past seventeen years two million people have come in, bringing to Canada not less than two million dollars. This is only a small part of the profit Canada has derived from immigration, as most of the immigrants engage in agriculture and within a year produce crops which add enormously to the wealth of the country.

To meet the needs of the immigrants extension of the manufacturing establishments, railroads and municipal facilities are required, but these are of course not regarded as an expense. The money for such expenditures is borrowed on bonds, as a rule, and turned into undertakings which constitute a permanent asset. As a matter of fact, instead of each immigrant costing the country $1,500, they cost less than $15 apiece.

SHARP ADANCE TO CANADIAN WHEAT

(Special to The Montreal Star From the Winnipeg Office of Jas. Carruthers and Co.)

Winnipeg, July 10.—The trade, apparently, are not of one opinion regarding the United States Government report, issued yesterday. The majority, however, placed a bullish construction on it, and there was a strong opening in all markets. Our July advanced 7-8, and October 3-4, and held firm throughout the session.

There were only a few scattered showers through the north-west yesterday, and the weather has been mostly fair and moderately warm. The crop is heavy and well advanced.

Export business is still dead. American wheats being shown the preference over Manitoba at the big discount.

The political situation in Europe is greatly improved and advices state fighting may stop in 24 hours. Even with the unsettled state of affairs in Europe it has caused no improvement in the export demand for our wheat.

TORONTO CATTLE MARKET.

Toronto, July 10.—Receipts at Union Stock Yards this morning were 445 cattle, 315 sheep, 189 calves, 703 hogs.

Trade was fairly active in all lines, with very few changes in prices.

Toronto, July 10.—Export cattle, choice, $6.25 to $6.60; butcher cattle, choice, $6.50 to $6.70; do. medium, $5.90 to $6.40; do. common, $4.50 to $5; butcher cows, choice, $5 to $5.50; do. medium, $4.50 to $5; do. canners, $3.50 to $4; do. bulls, $3.75 to $4.25; feeding steers, $5.21 to $5.75; stockers, choice, $3.50 to $6.50; do. light, $2 to $3.50; milkers, choice, each, $40 to $70; springers, $4.25 to $4.75; bucks and culls, $3 to $3.50; lambs, $9 to $10; hogs, fed and watered, $9.35; hogs, f.o.b., $9.10; calves, $6 to $8.

C.P.R. Still Out of Line They Claim

R. M. Bauer's New York wire said: "The direct cause of Canadian Pacific weakness was the announcement of a new stock issue, which has since been denied. The indirect cause, however—and this is, to my mind, more important—of yesterday's setback, is to be found in sales emanating from a pretty powerful clique residing abroad, which believes the price of Canadian Pacific is still out of line with other first class American railroad securities."

DROP OF 75 POINTS.

The N. Y. Post says of yesterday's break in C.P.R.: "Setting to-day's price for Canadian Pacific against that of last autumn, it is seen that the decline has run to exactly 75 points. Much of this decline has been due to Europe's persistent selling. This selling has been resumed time after time, in spite of the understanding that many large foreign holders long ago were 'cleaned out' of Canadian."

PROCESS OF DIGESTION.

The London Statist belives that a large portion of the securities which the underwriters have had to take up have now been distributed, and that most of the balance will probably be distributed in July, when the sums released by the payment of dividends will be large.

GOLD EXPORTATIONS.

Gold amounting to $2,000,000, engaged for export to Paris in New York yesterday, makes a total of $40,000,000 that has been taken for that market since January 7; it increases the total gold export movement from New York since the opening of the year to $65,000,000.

CONSTRUED CROP REPORT AS BULLISH

From Special Correspondent of Montreal Star on Chicago Board of Trade:

Chicago, Ills., July 10.—The feeling in wheat was decidedly mixed this morning. On one side was a report issued by the Government which was construed by the traders as bullish. July sold at 88½ to 87⅞; September at 89¼ to 88⅝, December 92⅜ to 92¼.

In addition to this was a continued big demand for old and new wheat on export account. While the offerings in the pit were liberal, the buying power was active enough to absorb these offerings, many of those who had been on the bear side of wheat for months and months were to be seen on the bull side of the market to-day. The great difference in the price of wheat at Winnipeg and Kansas City has made bulls out of some of the bears.

The wheat markets of the old world are generally higher and quite strong, and the buying power there again asserted itself by taking freely of "Yankee" wheat.

Argentine shipments this week were quite small at 400,000 bushels, which compared with 720,000 bushels the week before and 1,552,000 bushels for the orresponding time in 1912. The crop prospects in the Argentine Republic are excellent and the weather is favorable. The private cables from Russia report weather there as ideal for the growing wheat, but these cables said that the crop conditions depend wholly on the weather from this time forward.

The gains at Liverpool were ½d to ⅝d and at Paris 1c to 1¼c.

Northwestern receipts to-day were 155 cars, and Winnipeg 206 cars, compared with 155 cars and 233 cars respectively one year ago.

Minneapolis stocks have decreased 600,000 bushels for this week.

The crop reports received from our own spring wheat country as well as those from Western Canada, were more favorable to-day. Additional moisture has visited South Dakota and the Prairie Provinces have enough moisture to last them for some time to come.

A Northwestern authority says:—"Northwestern crops very largely depend upon the weather. With frequent rains and not an over high temperature it is common view that a good crop may be realized.

"It is conceded that a good deal of permanent damage has been sustained in the South and North Dakotas and that at best what is very spotted in condition."

NEW STOCK YARDS MANAGER.

Special Winnipeg advices state that J. W. Buckpitt, of Montreal, has been appointed general manager of the Winnipeg stock yards.

U.S. Steel Figures Are Disappointing

New York, July 10.—The unfilled tonnage of the United States Steel Corporation, as of June 30, was 50,807,317 tons, a decrease of 517,005 tons, as compared with the previous month.

The figures are regarded in Wall Street as disappointing.

CLOSING WAS GOOD THING.

U. S. Treasury officials say that the closing of the First-Second National Bank was a good thing for Pittsburg, as it removed a source of anxiety.

RECORD PRICES BEING PAID FOR LEMON CROP

This month and next will see the highest prices paid for lemons for the past ten years.

Beginning with the month of June the price of lemons began to rise and thousands of boxes of Sicily grown fruit brought as high as $5 each. But since then prices have had a steady rise, and while they have not reached the level of $8.50 per box, which was the high mark in New York, yet with duty and transportation paid they reached $7.50 per box and there is a none too plentiful supply.

Prices this year are about twice that asked at the same time last year, and if the hot weather continues, it is predicted that they will mount even higher yet.

The one main reason for the high prices of the Sicily lemons is that there are very few California lemons owing to the heavy frost which occurred there last winter, and was published exclusively in the Star.

The California fruit as a rule brings $1 per box more than the Sicilians.

It is stated that many importers have already realized some small fortunes on the enormous profits owing to the advance at which they have been able to dispose of their cargoes.

The present outlook in this line is none too cheerful, and it is prophesied by local wholesalers that prices are destined to go still higher.

RECORD GRAIN CARGO.

The steamer "W. P. Snyder, Jr." has cleared from Duluth with the largest cargo of grain ever carried on the Great Lakes, having on board about 500,000 bushels wheat, or about 15,000 tons dead weight. She is consigned care of the Grand Trunk Pacific Elevator at Tiffin, Ont., whence the grain will be carried by rail to Montreal for export.

The Grand Trunk have done a very large business in transportation of grain from Georgian Bay ports to Montreal since the opening of navigation, exceeding all records to date.

MORE ADULTERATED FOOD.

Quebec, July 10.—The Department of Inland Revenue have a number of inspectors in Quebec and vicinity inspecting foodstuffs sold by grocers, with the result that seven local grocers have been summoned to the police court to answer a charge of selling adulterated ground cinnamon and ground white pepper.

"Trade Bulletin" on Cen. U. S. Wheat Crop

The Chicago "Daily Trade Bulletin" will say to-day: "The wheat crop of the United States for 1912 was officially reported at 730,000,000 and that carried over from the crop of 1911 on the farm and in seconds' hands 70,000,000, making a total supply of 808,000,000 bushels. Exports for the year may be estimated at about 147,000,000 bushels, used for seeding 71,000,000, on farm July 1 about 35,000,000 bushels, in second hands July 1 about 55,000,000, making a total of 308,000,000 bushels. Left over for consumption about 500,000,000 bushels and on the basis of 97,000,000 population (official figures), the consumption per capita was about 5.15 bushels.

WEAKNESS IN HARRIMAN'S IN WALL ST.

Wall Street, 2 p.m.—The Harriman stocks ran off over a point each, presumably on account of selling by disappointed holders who expected that definite information regarding the disposal of the $88,000,000 Union Pacific holdings of Southern Pacific would be disclosed at to-day's projected meeting of the directors.

When it became known that no quorum could be had, the reactionary tendency developed in the Harriman shares, which affected the whole market.

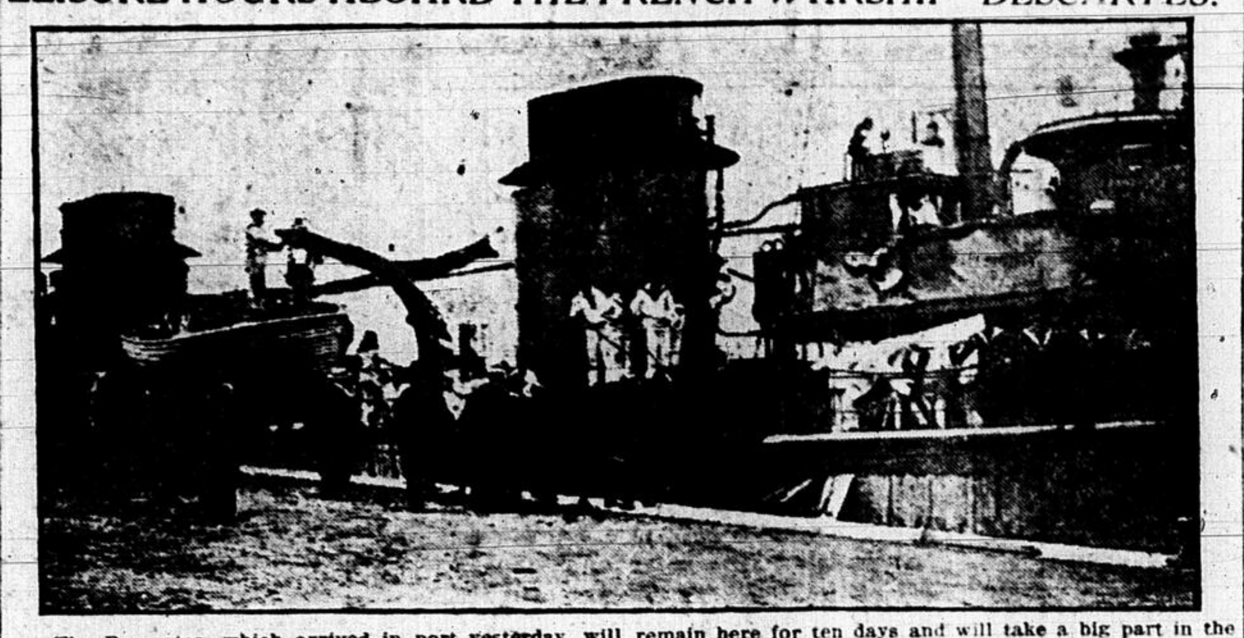
LEISURE HOURS ABOARD THE FRENCH WARSHIP "DESCARTES."



The Descartes, which arrived in port yesterday, will remain here for ten days and will take a big part in the celebration on Monday next. All day to-day streams of visitors were shown around the vessel.

BUILDS A FENCE AROUND SIDEWALK ON ST. CATHERINE

A small section of sidewalk on St. Catherine street, just west of Crescent, is causing trouble. It runs in front of a vacant lot between the Crescent street branch of the Canadian Bank of Commerce and Featherston's shoe store, and is carefully fenced in, so that pedestrians on the "dollar" side of the street,—that is the north,—have to make a detour in passing. The vacant lot and the sidewalk, to a depth of ten feet from the front of the lot, are the property of Mr. Maher, a contractor, who is putting up the Johnston building at the corner of Victoria and St. Catherine streets.

The sidewalk is paved with rough planks. As several complaints were made about its "dangerous condition," the Board of Control gave Mr. Mahar twenty-four hours to put the passing in order. He responded by carefully fencing it round, using some of the Montreal Light, Heat and Power Company's poles, which are very conveniently placed, as corner posts.

'It's My Property.'

"It's my property," says Mr. Mahar. "I am responsible for any accidents that happen on it; and I am certainly not going to the expense of paying for paving it. The city have not allowed me to build farther than a certain distance from the edge of the sidewalk, the result is that this little strip, about ten feet wide and 30 feet long, is my property, but I can't do anything with it.

"The sidewalk at this point widens, so that people can pass by without stepping into the road, or, climbing over the fence. I am perfectly willing to sell the ground to the city for a reasonable price at any time. I am certainly not going to the expense of paving it."

OLD FRIENDS FLOCK AROUND SIR WILFRID

Old friends are flocking around Sir Wilfrid Laurier at the residence of Senator J. M. Wilson, Ontario avenue. After enjoying a drive around the city early this morning, Sir Wilfrid received several callers and appeared to be enjoying himself immensely. It is a long time since Sir Wilfrid has stopped over in Montreal for any length of time, and many stalwart party workers are taking advantage of his presence to shake him by the hand.

It was announced this morning that Sir Wilfrid does not intend to take his holiday at Arthabaska this summer.

"It is likely he will visit a number of places," his secretary explained. "It is a long time since he has seen many of them."

NEW CARLISLE LAWYER'S REVOLVER MISHAP.

Special to The Montreal Star.

New Carlisle, Que., July 10.—While opening an automatic Colt revolver this morning preparatory to cleaning it, Mr. J. A. Mousseau, advocate of New Carlisle, was acidentally shot.

The bullet entered a lung and has not yet been extracted. Mr. Mousseau's condition is considered critical.

HOLD RAILWAY NEGLIGENT IN STAMFORD WRECK.

Washington, D.C., July 10.—The Interstate Commerce Commission's report of its investigation of the New York, New Haven and Hartford passenger train wreck at Stamford, Conn., on June 12, holds that the railroad was negligent in placing Engineer Dougherty, in charge of the derailed train when he "was inexperienced and uninstructed."

ELIE LALUMIERE GOES TO JAIL FOR AN OLD SENTENCE

Elie Lalumiere, who was before Judge Lafontaine, in the Arraignment Court yesterday on two counts of attempting to extort money from the Hon. Louis Coderre, Secretary of State, and perjury; and who was released on bail bonds of $8,000, has been re-arrested and sent to jail on the strength of a judgment, handed down by Mr. Justice Guerin, in the Civil Courts last February, when he was condemned to one year's imprisonment, for contempt of court, a sentence he never served. The contempt consisted of refusing to produce a diamond ring, valued at $800, which was the cause of the original action brought against him by Miss Germaine Masson.

Joseph Archambault, K.C., was the plaintiff's attorney in the original case, and is interested in the present case in which N. K. Laflamme, K.C., is appearing against the accused.

Lalumiere was ordered by Mr. Justice Guerin to either produce the diamond ring, or its equivalent, amounting to $800; and pay all the costs of court, or spend one year in the Montreal jail. When the ring was not produced to-day, the sentence of the court, at the request of Mr. Archambault, was put into effect, and Lalumiere was taken down to jail.

St. Helen's Ferry Jolted at Wharf

When the ferry-boat St. Laurent, commanded by Captain Perrault, arrived at St. Helen's Island at about nine o'clock this morning, the current swung her violently round and dashed her against the wharf.

The jolt broke the steam pipe that runs to her siren, and she was immediately filled with steam. There were only five passengers on board, and they were all men. There was nothing in the shape of a panic. A most undignified scramble up the concrete wall of the wharf took place however, one passenger seeming more anxious about a bag containing boxes of cigars, than about his own person.

At first it was thought that the Valleyfield would have to be called to the rescue, but the engineer effected temporary repairs, and the St. Laurent crossed back to Montreal at about eleven o'clock.

WOULD PAY HIGH PRICE FOR LAND AROUND CONVENT

Several offers have been made to U. H. Dandurand for the vacant land owned by the Sisters of the Holy Name of Jesus, surrounding the convent building on St. Catherine Road, Outremont. The convent buildings themselves are not being sold, but an offer of over a million dollars was made for the property surrounding the buildings to the east and in the rear, amounting in all to 1,302,000 square feet. The offer is being considered, and it is very probably that important developments will take place within a few days. The convent has been erected for about 10 years, and is one of the largest and most important on the island. The land to the west of the convent will be retained by the nuns.

STABBING PROVOKED.

Harry Smith, a negro, found guilty of stabbing a Syrian named Aboud on Craig street, three weeks ago, was allowed to go on suspended sentence this morning by Judge Bazin in the Court of Special Sessions. The Judge said there had been a certain amount of provocation, and took into consideration the fact that Smith had spent the last three weeks in jail.

GREECE TO FIGHT UNTIL THE BULGARS ARE ANNIHILATED

Special to The Montreal Star.

Athens, July 10.—The Greek Government to-day rejected the offer of intervention in the Balkan War, declaring that the Greeks would continue fighting until the Bulgarians are annihilated.

CONFIRMS NEWS OF BULGARIA'S ACTION.

London, July 10.—It is officially confirmed here that Bulgaria has taken the initiative of asking the European Powers to try to bring the Balkan war to an end.

White Plains, N.Y., July 10.—John S. Kennedy, warden of Sing Sing prison, was indicted to-day by the Westchester County Grand Jury.

BLACK ROOSTER ON THE SS. DESCARTES IS THEIR MASCOT

All unaware that he represented a national emblem of France that was older than the Bourbons and the Medici, the black rooster, who is the pet of the crew of the French steamer Descartes crowed lustily at daybreak this morning and stopped only for breathing spells during the whole morning. The sailors on the French warship are very proud of their mascot, and they explain that one is to be found on practically every French warship. Since the times of the Gauls, they explain, it has been a custom in France for the ships of the nation to carry a rooster, as being symbolic of French vivacity and verve. When the bugler summons the sailors to the various watches, or the boatswain pipes an order, he is sure to be met with a lusty reply from the nautical chanticleer, who evidently considers his answering crow quite as important to the fulfilment of the orders as the official call. With so many visitors aboard this morning it was feared that some would have a temptation to offer the rooster dainties, of which he is very fond, and a cloth was thrown round his coop. This did not stop his proclaiming his presence, however, and his defiant cock-a-doodle-doo became so insistent that it was necessary to remove the covering, whereat the rooster gave a last victorious crow, and then strutted majestically in silence, fully cognizant of his authority as a member of the Descartes crew.

CLAIM UNDERTAKERS TOOK DEAD MAN'S WATCH

Daniel Sigouin and Albert Pageau, undertakers, arrested by Detectives Gagnon and A. Laberge, on a charge of stealing a gold watch and chain and a coat, were arraigned before Judge Lafontaine in the Enquette Court to-day.

Getting the Low Prices

"If my money was not tied up," said a man to us recently, "I would like to take advantage of some of these extraordinarily low security prices."

We showed him how, by our Periodical Payment Plan, he could get the securities he wanted.

He put down what money he had available as initial deposit, and is paying the balance in easy monthly instalments.

Our guarantee makes him as safe as if he owned the securities outright.

Our booklet, "Saving and Investment," tells how we can do this for you.

BEAVER BOARD

Pure-Wood-Fibre Paneled Walls and Ceilings are Displacing Lath, Plaster and Wall-Paper

FROM all over Canada comes the same story. Beaver Board walls and ceilings are found in residences of every type and size, in schools, theatres, churches, stores, restaurants and office-buildings.

The ease and quickness of their construction, their durability and the great beauty of their painted, pebbled surface and striking panel arrangements are among the 41 reasons for their rapid growth in public favor.

Beaver Board is quickly and easily put up at any time of year; and is light and easy to haul by dray, wagon or sled. It makes the house warmer in winter, cooler in summer, does not crack; resists passage of sound, and is never covered with unsanitary wall-paper.

Get the whole story by writing for free, illustrated booklet, "Beaver Board and Its Uses."

GENUINE BEAVER BOARD is patented and has our registered trade-mark on the back of each panel and sample. It has also a light-cream color all the way through, that comes only by the use of sanitary, durable PURE WOOD FIBRE. Insist on seeing both trade-mark and color before buying.

Sold by lumber, builders' supply and hardware dealers in cities to meet all your needs.

BULGAR GREEDY PERSON OF GROUP IN EUROPEAN WAR

Roumanian Engineer Talks of Situation—Russia Kept Roumania Out.

Two Roumanian Government engineers, C. Orghidan are E. Borcce, are visiting the city after a brief respite from Government work at Pittsburgh. Mr. Orghidan is accompanied by Mme. Orghidan, a linguist of no mean order, who converses with equal facility in Roumanian, German, French, English, Greek and Italian.

Seen last night at the Windsor Hotel by a Star representative, Mr. and Mrs. Orghidan expressed satisfaction with the news in The Star of a check to Bulgarian pretensions. Roumania, they said, with its 350,000 trained men, had been largely kept from the European imbroglio through the influence of Russia and by the oily assurances of Bulgaria that Silistria should certainly fall to the sphere of Roumania.

Promises Worth Little.

Now, it seemed, Bulgaria's promises were worth little, and like the rest of the disaffected states, Roumania was inclined to look upon the Bulgar as the greedy boy of the group. Out of the maize of conflicting interests it seemed difficult to determine how the new map would take shape, but the visitors were delighted that Bulgaria had been brought to a stand.

Mr. Orghidan is a chief engineer on Roumanian Government railways and, with his colleague, has been sent over to the National Tube Company's works at Pittsburgh, which have an order for $2,500,000 worth of tubes on hand. The Roumanian Government owns its railways and has decided to lay 186 miles of pipes alongside for the conveyance of oil from the great oil fields to Constantza, on the Black Sea.

Roumania, next to Russia, is the largest oil-producing country in Europe. Already the Government railways take about two million tons per annum to the sea coast, and the laying of the pipe lines will multiply the capacity by three.

Chefs to Cook Canadian Fish

Special to The Montreal Star.

Ottawa, July 10.—A fishery exhibit at the Toronto Exhibition next month, for which the Hon. J. D. Hazen has arranged, will be unique in its character. It will embrace all kinds of marketable fish caught in Canadian waters, and it is intended to have a crop of chefs in attendance. They will supply the crowd with the most delectable fish dishes known to the culinary art.

There will also be a display of live fish in tanks, cured fish, and mounted specimens.

The exhibit is intended as an instructive illustration of the variety of Canadian fish products, and calculated to stimulate the trade. There will be a number of lecturers.

The detailed arrangements are being made by Mr. W. A. Found, Superintendent of Fisheries.

NO EXPLANATION OF FIRE WHICH DESTROYED LAUNDRY

No explanation of the fire which destroyed the Marine Laundry, 146 St. Urbain street on July 5, was forthcoming at the enquiry held yesterday by Commissioner Ritchie.

C. P. Hughes, one of the laundry proprietors, was of opinion that the fire had started in the premises of Augustin Comte, coffee roaster, next door; but an opposite view was taken by Mr. Comte and a fireman who was called. Mr. Ballou, another proprietor of the laundry, said the machinery and other fittings were worth $12,000, with $5,000 insurance on the machinery. Mr. Comte's stock was insured at $4,500, but double that damage was done by the fire. John Beard and Alderic Lavallee, two firemen, thought the fire started in the laundry building.

Found Dead in Bed.

John U. Charland, 49 years of age, was found dead in bed in a rooming house at 120 Lagauchetiere street east, by his landlady last night. Heart disease was the cause of death.

SCOTCH TEACHERS HERE, TRIP IS ONE OF PLEASURE.

The steamer Cassandra, which reached port last night, brought a party of twenty Scotch school teachers. Most of them are from Glasgow, though other Scotch educational centres are represented.

The party will tour the Eastern States, visiting Boston, New York, Buffalo, and then going to Toronto, spending a day at Niagara Falls en route. The party will travel a good deal by boat, and will have an opportunity of seeing the great lakes. The trip is solely a pleasure one, and not made for the purpose of studying educational systems. The Boston civic authorities are preparing a welcome for the visitors, and other cities will probably do likewise. On their return trip, the party will pass several days in Montreal.

The party is made up of both male and female teachers of widely varying degrees of experience.

A concrete keg, said to be almost indestructible, has been patented by a Wisconsin inventor.

MATTERS NOW PREPARED FOR ARCHITECTS' CONTEST.

M. Colcutt, the British architect appointed by the Government to collaborate with Canadian professional gentlemen to arrange for and adjudicate upon the plans for the new Government buildings at Ottawa, arrived in the city last night and left for Quebec after a brief stay at the Ritz-Carlton Hotel, intent upon catching the Empress of Britain to-day for home.

The gentlemen concerned have now put things into shape for the Empire competition for the plans, and Mr. Colcutt expects to return to Canada in November.

Jail For Doping Olympia Horses

Special to The Montreal Star.

London, July 10.—Two professional coach drivers were arraigned yesterday on charges, brought by the Society for the Prevention of Cruelty to Animals, of drugging the horses driven by them at the recent International Horse Show at Olympia.

One defendant admitted that he was guilty of "ringering" a horse, but he said it was a harmless and common practice. The other confessed that he had administered essence of cayenne to a horse before a contest.

Both men were sentenced to six weeks' imprisonment at hard labor.

TENNIS AT NOTTINGHAM.

Nottingham, Eng., July 10.—Crowds of lawn tennis enthusiasts reached the city last night and early to-day, to attend the semi-final round play here to-day, to-morrow and Saturday between teams representing Germany and the United States in the preliminary contests for the selection of a team to challenge England for the possession of the Davis International Lawn Tennis Trophy. Great interest was taken in the event, both locally and throughout the country. The weather was dull and threatening at the opening of the day, and this seemed to cast a slight gloom on both players and spectators.

Williams beat Kreutzer by three sets to one, 6-1, 6-2, 4-6, 6-1.

FALLING HAIR

Dandruff and Itching Scalp are Caused by Microbes.

There is no doubt about it. Doctor Sangerbond proved it when he infected a guinea pig with dandruff germs and all its hair disappeared in a short time. The entire medical world has accepted Dr. Sangerbond's discovery as final. Ask any worthy physician.

Parisian Sage which can now be obtained at leading druggists all over Canada, is the one great remedy that kills the dandruff germs.

That is why all druggists say to every reader of The Star, if Parisian Sage does not banish dandruff, stop falling hair or itching scalp, in two weeks, they will refund the purchase price.

Dandruff is the forerunner of baldness. Take care of your hair while you have hair to take care of. Kill the dandruff germs now, before the dandruff germs kill your hair.

Use Parisian Sage, the guaranteed dandruff cure and delightful hair dressing.

It is used extensively by ladies of refinement because it keeps the scalp absolutely clean and gives a bewitching lustre to the hair. Comes in large 50c bottle at all druggists and leading druggists everywhere. Girl with the Auburn hair on every package. Made in Canada by The R. T. Booth Co., Ltd., Fort Erie, Ont. Mail orders filled, all charges prepaid.

WHAT DYSPEPTICS SHOULD EAT

A PHYSICIAN'S ADVICE.

"Indigestion and practically all forms of stomach trouble are, nine times out of ten, due to acidity; therefore stomach sufferers should, whenever possible, avoid eating food that is acid in its nature, or which by chemical action in the stomach develops acidity. Unfortunately, such a rule eliminates most foods which are pleasant to the taste as well as those which are rich in blood, flesh and nerve building properties. This is the reason why dyspeptics and stomach sufferers are usually so thin, emaciated and lacking in that vital energy which can only come from a well fed body. For the benefit of those sufferers who have been obliged to exclude from their diet all starchy, sweet or fatty food, and are trying to keep up a miserable existence on gluten products I would suggest that you should try a meal of any food or foods which you may like, in moderate amount, taking immediately afterwards a teaspoonful of Bisurated Magnesia in a little hot or cold water. This will neutralize any acid which may be present, or which may be formed, and instead of the usual feeling of uneasiness and fullness, you will find that your food agrees with you perfectly. Bisurated Magnesia is doubtless the best food corrective and antacid known. It is not a medicine, and has no direct action on the stomach, but by neutralizing the acidity of the food contents, and thus removing the source of the acid irritation which inflames the delicate stomach lining, it does more than could possibly be done by any drug or medicine. As a physician I believe in the use of medicine whenever necessary, but I must admit that I cannot see the sense of drugging an inflamed and irritated stomach with drugs instead of getting rid of the acid—the cause of all the trouble. Get a little Bisurated Magnesia from your druggist, eat what you want at your next meal, take some of the Bisurated Magnesia, as directed above, and see if I am not right."

New York Dresses

(RATINE AND LINEN)

$5.98

We can't quote the regular value because they were never offered before in our store at any price. If we may be allowed to estimate, we would say they're certainly worth $9.95. There are just 100 of them to go on sale for the first time Friday at $5.98. They're a one-piece dress in a two-piece effect. That is to say they have the coatee cut which has arisen out of the Bulgarian style.

In some cases the upper part or the blouse part is blue or pink, while the skirt is white. This makes the two-piece effect all the more realistic, although each dress is in realty one piece.

If you want the skirt the same color as the upper part, you'll find these too in this collection.

Remember they are Ratine and Linen. Now we don't mean linenette nor linen finished cotton, but real linen and real cotton ratine.

Where the skirts and the bodice parts are the same color, there there is a white contrast in the cuffs and yoke effects. Some are embroidered with silk floss and finished with white pearl buttons.

Your choice of blue, tan, American beauty rose, purple or pink.

Sizes for Misses of 14, 16 and 18 years.
And Women of 34 to 42 bust.

The quantity is limited to 100 dresses. July Sale Price, Friday **$5.98**

Our Greatest Special Purchase and Sale of Tub Silks at .17 a yard

A special purchase of Tub Silks, made in New York last week, has just been delivered to our store. There are 340 pieces, averaging about 50 yards to the piece, and totalling approximately 15,000 yards. This Tub Silk is different and better than most lines advertised under the same name. For instance, we carry in our regular stock a line of Tub Silk which is in reality a mercerized muslin, which we consider good value at .25. This new Tub Silk which we are placing on sale Friday is a pure Silk Warp with a mercerized weft, and it is moreover a little wider than our .25 line. We should say the same quality has never been sold in Canada in an ordinary way for less than .35.

Remember the warp is pure silk, and while the weft is only mercerized, the combination of the two has the appearance of Pure Silk. They're guaranteed to wash, to wear well, and give entire satisfaction.

These Tub Silks are all designed in spots, but the spot is the same color as the plain parts of the material; that is to say, it is a self colored spot.

There are not less than 120 shades, which takein all the very best colors of this season, including Cream, White and Black. The Sale Price Friday, per yard, is ..... **.17**
