

TURKISH TROOPS RETAKE FORTS.

Drive Italian Soldiers Before Them and Capture Supplies

ARABS HELPED TURKS TO RETAKE TWO FORTS AT TRIPOLI.

Constantinople, Oct. 31.—(Special)—Turkish troops, with their Arab allies, have re-taken two forts at Tripoli and forced the Italians to entrench themselves within the city after abandoning large quantities of guns, rifles, ammunition and provisions, according to a telegram from Rahmi Bey, deputy for Saloniki, who is now at Tripoli.

The message, which was received by Lamin at midnight, adds that the Italians were unable to resist the fierce assaults of the Arabs and were compelled to retreat, the Italians still holding three forts. The Arabs are displaying remarkable heroism and hope to recapture the city.

ITALIAN NOBILITY SUFFER.

Rome, Oct. 31.—The Italian nobility, like the people, are paying tribute in blood in the African conquest. Word has reached here of the death in action at Home, Tripoli, of Duke Riccardo Graciani Lante Della Rovere, a lieutenant in the navy, and of the serious wounding of Count Pompeo Di Campello, a lieutenant of cavalry and gentleman-in-waiting to the King.

Both of these officers were well-known sportsmen, the Duke as an exponent of tennis, and Count Di Campello as master of fox hounds.

Former Premier Sonnino, leader of the Constitutional Opposition in the Chamber of Deputies, and Count Guicciardini, who was minister of foreign affairs in the former's cabinet, have returned from a visit to Tripoli, where they observed the operations of the Italian army and navy. They have refused to give public interviews, but in private conversation have frankly expressed opinions favorable to the Italian expedition. This is interesting in view of their political positions.

Both have declared that they could not have imagined anything so perfect as the organization of the Italian forces.

SLAUGHTER OF ARABS.

Malta, Oct. 31.—Authentic accounts of the killing of Arabs by the Italians in return for alleged treachery make ugly reading. While there is no proof as yet that women were intentionally killed, as has been claimed, it is known that many of them were among the victims of Arab vengeance. Every male in Arab dress, whether man or boy, was shot down on sight as the troops scoured the oasis. This district covers a space of some miles between the city and the Italian outposts. It is covered with palms and summer residences. Restricted as the space is, it is said that four thousand Arabs were shot down here, and it is noticeable in the scarcity of the men of the race. This has had an angering effect on the natives in the hinterland, and as a consequence there is some anxiety for some persons from Malta who are in the interior of Tripoli. It is believed here that the Arabs are gathering now in such force that they may swamp the Italian forces and rush the town itself, when a massacre would be possible in view of the anger of the natives over the slaughter of their fellows.

ENVER BEY AT TRIPOLI.

Constantinople, Oct. 31.—Semi-official confirmation has been given out here of the report that Enver Bey has reached Tripoli and has joined the forces there. It is added that he has issued a proclamation in which he urges the people to resist the Italians to the death.

Bidden, warfield, ceases his duties to-night and retires on a pension granted in recognition of his long and faithful service. Since 1894 all executions have taken place at Wethersfield, and it has been Bidden's duty to place the rope around the neck of the condemned and adjust the black cap.

POSSIBILITY OF REPUBLICAN DEFEAT.

President Taft's Utterance so Construed By His Hearers.

HIS PARTY WOULD, HOWEVER, LOYALLY SUPPORT THE NEW GOVERNMENT.

Chicago, Oct. 31.—President Taft surprised a large audience at the dinner of the Hamilton Club yesterday by what most of his hearers construed as an admission of the possibility of Republican defeat in the coming national election. He was speaking to an unusually enthusiastic audience of Republicans.

Those present hastened to ascribe the President's utterances to weariness after his long tour of speech-making, and especially after the three hard days in Chicago. It was his last public utterance in Chicago before leaving for Pittsburgh.

"Now we are at some people think—the crisis in the Republican party with reference to its continuation in

the guidance of the nation," the President said. "I am hopeful that the good people of the country who know a good thing when they see it have only chastened us in an off year, in order that we may do better hereafter—but with no intention of shifting from shoulders that are better fitted to bear the burdens of the present problems and carry them as a successful solution, to those which are untried and which have new theories of action that we do not believe in, and that we don't believe the people believe in."

"However, if so be it they desire to make a change, we shall loyally support the new Government under my conditions, with the hope that it will future to the benefit of the country, but with the consolation that, if after one trial the people think they ought to go back to the old party that has served them so well in the progressive days of the nation, they will do so—we can bear that, my friends, that is all."

Schenectady, N. Y., Oct. 31.—(Special)—While their mother was out working, fire destroyed the home of Mrs. Mary Pulowski, in this city, yesterday afternoon, and burned to death two of her three children while they were sleeping.

The father, who has not lived with his wife for some time, watched the fire from across the street, apparently uninterested, and made no attempt to enter the home.

CAN CARRY INSURANCE ABROAD.

London, Oct. 31.—To-day in the House of Commons, the Chancellor of the Exchequer, defending clause 26 of the Insurance Bill, which provides that uninsured persons emigrating to the dominions shall have the right to take their transfer value to similar societies abroad, described the provision as an attempt to bring about reciprocity within the dominions and foreign countries in the matter of insurance. This was to be regarded rather as a general offer for the colonies than as a final settlement.

Passed Away at St. Vincent de Paul Hospital This Morning.

REMAINS WILL BE TAKEN TO OXFORD, N. H., FOR INTERMENT.

The remains will be taken to Oxford, N. H., on the 9.15 train this evening, where interment will take place. The General's wish was that the funeral should be private and that flowers should be omitted.

Or take that and

MINISTER WILL BE AGAIN BEFORE COURT ON NOVEMBER 7TH.

Boston, Oct. 31.—(Special)—When the case of Rev. Clarence V. T. The minister was in court only two minutes.

THREE COMETS VISIBLE TO EYE.

TWO OF BRIGHTEST CAN BE SEEN JUST AFTER SUNSET.

Montreal, October 28.—Six comets, three of which have quiet recently been seen with the naked eye are now within the neighborhood of the sun according to Prof. McLeod, of the McGill Observatory. Of the two brightest, one has been visible just after sun-set, north of the sun-set point. It has a bright head and a tail about seven degrees long.

The second is said to be brighter than the famous Hayley's comet and was first discovered last July. Early this week it had a tail twenty degrees in length and was visible in the morning just before five o'clock, north-east of Venus, the morning star. These comets have also been reported by the Lick Observatory of California in San Francisco.

SCORE DEAD; THIRTY INJURED.

Cheyenne, Wyo., Oct. 31.—A score of dead and over thirty injured was the result of a head-on collision between the Atlantic Express and a west-bound freight train at Rock River, eighty miles west of Cheyenne on the Union Pacific Railroad on Saturday afternoon.

JUMPED FROM AUTO.

Toronto, Oct. 31.—Jumping from an automobile for fear that it would be ditched, Melrose F. Morrison, of 33 Roxboro street west, was killed yesterday afternoon on Dufferin street north of the city limits. He had his skull fractured when he struck the road, and died before medical assistance could be secured. The automobile did not leave the road. Morrison's companions were not hurt. Morrison was 32 years old and had been in the employ of the Davenport Land Company for some time.

GREAT AMERICAN NAVAL REVIEW.

Largest Fleet Ever Assembled Under Stars and Stripes Inspected By Navy Secretary.

GREAT SIGHT ON THE HUDSON WITNESSED BY CROWD ESTIMATED AT 1,000,000.

New York, Oct. 31.—(Special)—One hundred and two vessels of the American Navy, the largest fleet ever assembled under the Stars and Stripes, in their gayest holiday dress, were reviewed by Secretary of the Navy Meyer today, while hundreds of thousands, ashore and afloat, saw the spectacle. The aggregate tonnage of the assembled war vessels was over one-half million as compared with less than one-third of this total present at the naval review by President Roosevelt in Hampton Roads five years ago. The aggregation of American dreadnaughts and smaller sisters taking part in today's spectacle represented approximately the huge outlay of \$300,000,000.

On the board bosom of the Hudson the vessels floated an anchor in three columns, each eight miles long, stretching from a point about opposite Fifty-seventh street up the river to the mouth of Spuyten Duyvil Creek. Proceeding from the lower extremity of the columns, Secretary Myers, standing on the bridge of the naval yacht Mayflower and surrounded by his aides and a number of invited guests, went northward through the lines formed by the battleships, cruisers, torpedo boats and destroyers, submarines and naval auxiliaries.

All the while the ships kept up a roar of salutes. The ships' sides were manned by bluejackets at attention, the quarterdecks were thronged with officers and marine guards, red-coated bands played the national airs, while "ho-ums" whistles piped out the order of the day.

These are the ships upon which the United States would rely in time of war to do the actual fighting. The tonnage of these battleships is close to 300,000, and the broadsides of the big guns they could fire would mean a hail of 13-inch and 12-inch projectiles weighing approximately 113,000 pounds, while a broadside of all guns of all sizes would total at least 50,000 pounds of steel.

COATICOOK STILL AFTER LADIES SCHOOL.

Board of Trade Would Give Site of Ten Acres For Building.

LEGAL OPINION SAYS, HOWEVER THAT COUNCIL CANNOT DO AS BOARD WOULD WISH.

Coaticook, Oct. 31.—(Special)—Coaticook is still after Kings Hall, which, it is understood, will be removed from Compton, and a new college building erected elsewhere in the Townships. A few days ago already mentioned, a deputation of Coaticook business men waited on the Trustees at Compton. Then the Board of Trade took the matter up and passed the following resolution: "Moved by Mr. A. Rousseau, seconded by Mr. A. Guerin, that 'whereas as the Trustees of King's Hall, Compton, are about to erect a new College building, upon some site in the Eastern Townships. Whereas the erection of such a building would necessitate the expenditure of some \$50,000."

"Whereas such an Institution would also bring to Coaticook, as residents during the scholastic year, some one hundred young women. Whereas all this would mean the expenditure of a large sum of money and would be of material benefit to the town. Whereas also, in addition to the material and financial benefit, it would bring additional prestige to the town. Whereas other Municipalities are offering financial inducements to the Trustees including a free site of ten acres. Whereas it is in the interest of the Ratepayers of this town that the Council of Coaticook should also offer inducements to secure the establishment of the College in Coaticook."

"Therefore be it resolved that, in the opinion of this meeting, the Council of Coaticook should also and immediately offer the Trustees of King's Hall a free site of ten acres, provided that such College be erected in the Town of Coaticook."

Saturday afternoon the resolution was placed before the Council by Mr. H. Verret K.C. at an informed meeting. At this meeting an opinion from Dr. Shortell, the town attorney, was read to the effect that the Council had no legal right to appropriate its funds for the purchase of a site for a school building or contribute for such purpose.

The Council, nevertheless, passed a resolution expressing the hope that the institution might be located at Coaticook and pledging themselves to build a first road and side walk to any site that might be chosen for the building. Seeing that the site is likely to be somewhat out of the settled part of the town, the Council will likely be obliged to extend as much as if it purchased the site. It is understood that the Trustees will be offered at least a free site even if it had to be paid for by private subscriptions.

MORROW CASE BEFORE COURT.

Thetford Mines Man Charged with Appropriating Money Belonging To Q. C. R.

DEFENCE MOVED FOR QUASHING OF INDICTMENT, OWING TO ALLEGED IRREGULARITIES.

Thetford Mines, Oct. 31.—(Special)—The case against C. Morrow, of this place, who is charged with appropriating money belonging to the Quebec Central Railway Company, was called in the Court of King's Bench at Arthabaska. A number of witnesses were present from this place, but they returned on Saturday, as the case was continued until this (Tuesday) morning.

When the case was called a motion was made on behalf of the defence to quash the indictment on the ground of certain irregularities at the preliminary hearing.

A long argument took place on the point raised, and the case was adjourned as stated.

Morrow, it will be remembered, was arrested some months ago on a charge of appropriating a considerable amount of money which had been paid him as freight clerk while he was in the employ of the Quebec Central Railway Company.

MAYOR OF THETFORD MINES INJURED.

Dr. Larcerte Was Thrown From Buggy When Horse Ran Away.

SUSTAINED SEVERE BRUISES, PARTICULARLY ABOUT THE FACE AND HEAD.

Thetford Mines, Oct. 31.—(Special)—Dr. Larcerte, mayor of Thetford Mines, was seriously injured by being thrown from his wagon on Sunday. He was driving along the road, and when near the Bennett Mine his horse took fright at the large steam road roller, which was standing at the side of the road. The horse bolted, and the wagon collided with a telephone pole with such force as to throw the occupant out. He sustained several bruises, particularly about the head, but fortunately no bones were broken. It is expected he will be able to be out again in a few days.

MANCHU THRONE YIELDS TO ASSEMBLY.

China Has Been Granted Constitutional Government.

REFORM WILL BE PUT INTO EFFECT IMMEDIATELY.

Peking, Oct. 31.—By its surrender to the demands of the National Assembly, backed by the power of the army of immediate constitutional government with a responsible cabinet, the Manchu Dynasty in China began its march to oblivion. Granted a representative form of government with the treasury and army and navy under the direction of Parliament which will be overwhelmingly Chinese the Manchus will cease to dominate the country. It will be a short step then to their expulsion from all participation in the Government. There is no question that the throne is in a blue funk. No matter how the fighting at Hankow comes out, eventually the idea behind the revolt seems likely to triumph. In regard to the situation at Hankow it is difficult to say just what has happened further than that the loyal foreign-drilled troops appear to have driven the rebels out of the city. A wireless said to have been sent from the British warships at Hankow indicates that and says further that the royalist brutality is marked by the "hideous atrocity" and that the native city of Hankow has been burned. Official advices say that Yin Chang, commander Wu Chang is about to attack Wu Chang. In the meantime the rebels have again cut the Hankow-Peking Railroad, this time "probably in the vicinity of Cheng-Ting, a little over 200 miles south of the capital. Peking is in a panic and the Manchus are preparing for its defence or fleeing the city."

SLAUGHTER MAY EXCEED THAT OF TAIPING REBELLION.

Shanghai, Oct. 31.—(Special)—A very few days will tell future fortune of China. The burning of native city of Hankow by Imperialists accompanied, according to report, by brutal treatment of Chinese by Manchus has created worst possible impression. It is predicted that unless Manchus immediately demonstrate sincerity of imperial edicts being issued at Peking slaughter will exceed that of Taiping rebellion.

FELL FROM TRAIN, DISLOCATED SHOULDER.

Farnham, Oct. 31.—(Special)—As the Newport local was starting up from the diamond at 6.10 p.m. Friday evening, Miss Jamieson, daughter of Mayor Jamieson of Bedford, who was on her way home from MacDonald College for Thanksgiving, jumped off the car, thinking she had arrived at Farnham, and falling, dislocated her right shoulder. She was taken into the Farnham restaurant, where the dislocation was soon reduced by Dr. G. F. Slack and Dr. M. R. Slack. Miss Jamieson was kindly entertained by Mrs. Spoor and left Saturday morning for Bedford, not much the worse for her fall.

Ideal Protection Against Inroads of Catarrh

By Breathing the Rich, Balsamic Vapor of Catarrhoxone You Prevent and Cure All Head, Nose and Throat Diseases.

Remember this: You don't take drugs when using Catarrhoxone; you simply inhale a healing vapor that cures every type of catarrh, bronchitis, asthma, throat and nose soreness and irritation. No medicine brings such prompt relief, exerts such an invigorating influence, or so thoroughly and speedily cures throat troubles as "Catarrhoxone." Doctors, hospitals, sanitarians, all say that for those who suffer from changeable weather, for those who are predisposed to catarrh, lung trouble, deafness, or bronchitis, no treatment is so indispensable as "Catarrhoxone."

VICTIM OF CHRONIC CATARRH CURED.

I contracted a severe cold while following my occupation of furniture travelling, and eventually it developed into Catarrh. The desultory mode of life I was following gave me very little chance to attend to the Catarrh condition, and at last I became a victim of Chronic Catarrh. I bought a large package of Catarrhoxone, used it as per directions, and have never been bothered since. I will be only too glad to give any information I possess to any person suffering from the disease that was the bane of my life two years.

A. H. SWARTZ, Brockville, Ont.

The annual meeting of the Lennoxville Musical Club was held in the Church Hall on Saturday evening. Much regret was expressed at the removal of Mr. and Mrs. Frith and Prof. Gummer from Lennoxville. The attendance at the meeting being small, there was no other business done, and no election of officers or committee. An adjournment was made indefinitely, to re-assemble at the call of the president.

PROGRESS OF EAST NOT YET AT STANDSTILL.

A very enjoyable and successful supper and entertainment took place under the auspices of the Ladies Guild of Christ Church in the Old Fellows' Hall, East Angus, on Thursday evening. After supper there followed a well rendered programme of songs and instrumental music. Addresses were also given by Rev. W. R. Johnston, of East Angus, and Rev. A. H. Robertson, Rural Dean of Cookshire, who also recited most feelingly Dr. Drummond's exquisite and touching little poem, "May Be," and sang an old English song in a manner which was evidently highly appreciated by his hearers, who insisted upon an encore. Mr. Johnston dwelt upon "Steadfastness" as the quality most conducive to success, and in bringing kindly greetings from his congregation expressed the conviction that the success of one religious body, that is its usefulness in God's service, must always redound to the benefit of all. Mr. Robertson told of his recent visit to the General Synod, at which he came into contact with many who were loud in their praises of the West. He had found, however, that there was another side of western life regarding which westerners were usually silent, and he had ventured to tell those whom he had met that progress had not yet come to a standstill in the East. He then dwelt at some length on the progress so markedly noticeable in the recent development of East Angus, and expressed the utmost confidence in its future, at the same time making a stirring appeal to all present to work together for the building up of a town of which all might be justly proud.

Among the other items on the programme were: Piano duets by Mrs. S. B. and Mrs. T. G. Somers; songs by Miss Pope, Mrs. Rowland, Messrs. H. Bailey and Percy Pennell; a pretty song by members of the Junior Auxiliary; a chorus by members of the Choral Society; a baritone solo by Mr. A. Sawyer; and instrumental duets by Messrs. Arthur and Gordon Sawyer. While all the items were heartily applauded, the singing of Mrs. Rowland produced a demand for an encore which twice refused to be denied. In announcing the last number the chairman, Rev. B. Watson, expressed his thanks to all, whether members of other congregations or his own, who had assisted in making the entertainment a success. The National Anthem brought the gathering to a close.

The proceeds, which were increased by the sale of candy and other articles in two prettily decorated booths, by some of the young ladies, amounted to \$113.10 and are to be devoted towards the cost of the Parish Hall which is now in process of being built.

PROTESTANT HOSPITAL.

It is gratifying to know that the friends of the hospital, are still willing to assist in various ways. Lately the Hospital Musical Box, was sent to Mr. W. J. H. McKindsey in Lennoxville, where it earned a goodly sum for the short time it was there. Mr. McKindsey, kindly took it to the College house for a change where it earned \$3.50 during the first day it was there and a request came for more tunes which were at once sent. Well done Lennoxville.

THE HERPICIDE GIRL

Advices Gentlemen.

At Mrs. Blank's reception I met a gentleman who fulfilled my ideal of a man in all but one particular. He had a good head, fine physique, perfect manners, was a most interesting personality and bore himself with the distinguished air of a gentleman. His linen was immaculate and his clothes faultless as to cut and material. But all the pleasant first impression was ruined when I discovered the collar and shoulders of his dress coat covered with loose hair and flakes of dandruff.

To me this was an indication of personal carelessness, not to say uncleanliness. I wanted to tell him to get a bottle of Newbro's Herpicide. This remarkable remedy would, in a short time remove every trace of dandruff from his head, stop his hair from falling and prevent him from becoming bald. I don't like baldheaded men; they look old whether they are or not.

Dandruff is caused by a germ and Newbro's Herpicide kills that germ. The itching, which is so frightful with dandruff stops almost instantly.

Herpicide is the Original Remedy that destroys dandruff. There is nothing in the world just like it, nothing that is "just as good."

One Dollar Size Bottles are guaranteed by all druggists to give satisfaction.

Applications obtained at the good barber shops.

Send 10c. in postage for a sample bottle and booklet to The Herpicide Co., Dept. R., Detroit, Mich. W. H. Griffith, Special Agent.

IRISH TONGUE BEING REVIVED

France and Germany Are Paying Much Attention to it.

The rancor of religious and political animosities in Ireland has been greatly mitigated in recent years. There is a growing recognition among men of all creeds and all parties that they have interests in common as Irishmen, and that Ireland needs the service of all her sons. It is true that political opinions still mainly follow the lines of religious belief, a Protestant, that is, is usually a Unionist, and a Roman Catholic is usually a Home Ruler. But these old walls of sectarian partition are breaking down.

There is a genuine revival of interest in the old native language. It is part of that natural renaissance, the workings of whose mighty spirit can be seen in many directions. Every street name in Dublin now bears the name in Irish as well as in English letters, and Irish has been made a compulsory subject at the new Roman Catholic University. Yet there are singularly few signs of popular interest in the attempt to galvanize the old language into new life. Among some scholarly patriots, who regard the native tongue as expressing the ethos of the nation, there is an intense zeal for Irish, and that splendid Irishman, Dr. Douglas Hyde, has communicated his enthusiasm for the vernacular tongue to an ardent body of disciples. This revival of enthusiasm for the Irish language is a very significant phase of the national awakening.

TIGERS FOR THE KING

Maharajah of Nepal is Arranging Rare Sport for George V.

If King George does not bring back from India a magnificent collection of hunting trophies it will not be the fault of the Maharajah of Nepal, who is making stupendous preparations for a unique tiger hunt in which the newly crowned Emperor of India will take part. Some idea of the grandeur of this hunt may be had when one hears that it will take 500 elephants to carry the hunters. These beasts are now being trained to stand the noise of guns and the sudden onslaught of maddened tigers.

The hunt will take place in the jungles of Nepal, which are the private property of the Maharajah and which, situated on the southern foothills and marshy tarai of the Himalayas, are the densest and most unexplored of any in India. They are literally swarming with wild beasts, which are very rarely disturbed, because foreign sportsmen are excluded, except when invited by the Maharajah. The shooting done by the Maharajah himself is not enough to make an impression on the game, which includes wild elephants and rhinoceroses, with all kinds of tigers, bears, leopards, wild dogs and deer.

While King George is hunting at Nepal, Queen Mary will be at Rajputana.

ERUPTION OF ETNA

It Commenced with a Series of Terrific Explosions

The toll of death and destruction caused by the eruption of Etna is daily reaching higher figures. It is thought the final counting will compare favorably with those of any past disaster due to the volcano's activity. The devastation extends over an area of 460 square miles which the mountain covers. The eruption began with a series of terrific explosions, during which giant tongues of white flame leaped to the sky. Since then as many as 16 new craters have burst forth within a radius of seven miles from the central crater at a height of 8,000 feet, all of them belching dense smoke, showers of stones and ashes, and rivers of white-hot lava, which advanced at the rate of one mile per hour towards Linguaglossa and Castiglione. They destroyed the superb pine forests and all the fields and vineyards in their track. The main lava stream, consisting of a solid advancing wall of fire fully three-quarters of a mile wide, has already buried the village of Solfichata. A heavy rain of ashes continued incessantly over Catania and the whole region accompanied by frequent alarming shocks of earthquake, stronger than any felt in Italy since the great upheaval at Messina.

BOOK ON "HEADS."

Herr Maximilian Harden, the most prolific and most ascetic publicist in Germany, has just published his latest book—"Heads." The "Heads" which he dissects in the guise of character sketches include King Edward VII., Pope Leo XIII., the Emperor Francis Joseph, the Czar, M. Briand, M. Rejane, Tolstoy, and Mr. Rockefeller. It is a conglomerate collection, and is typical of Harden's boundless versatility. Harden, who was "discovered" by Bismarck, pays fresh tribute of adoration to the greatness of his benefactor in "Konfite."

Prescribed By Him 47 Years Ago.

Mr. Miles Maroney, Blissfield, N. B., says: "I had occasion to visit the Rev. Benjamin for treatment for lung trouble, which proved to be of such a serious nature that my friends looked upon my recovery as almost hopeless; but after taking his No. 10 Lung Tonic I am thankful to say I am in perfect health, and I recommend No. 10 to all the world."

Mrs. Malcolm Livingston, Rumford Falls, Me., says: "I cannot praise your No. 10 Lung Tonic too highly, because it cured me of throat trouble of long standing—it is now four years ago and I have not been troubled since."

Mrs. Daniel McCarthy, Wood's Island, N. B., writes: "That little girl is now well and able to go to school—your No. 10 saved her life, and I give you a thousand thanks that she is well again."

Mr. Geo. Aylward, Campbellton, N. B., writes: "While traveling on the Gaspé Coast I contracted a severe cold, which settled upon my lungs. I procured your No. 10 Lung Tonic just in the nick of time to save my life. After one month's use I felt like a new man, and I recommend it as the surest and best remedy I know of."

Mrs. George Desmarais, St. Jean, P. Q., says: "I can speak in the highest favor of your No. 10 Lung Tonic, as I suffered for a long time from lung trouble—and could get nothing to cure me until I tried your remedy. I used it regularly, and to my great surprise I got well, and now am completely cured. It is with sincere thanks and gratitude that I recommend this priceless remedy."

Mrs. Wm. Nar. Lavigne, Bathurst, N. B., writes: "I cannot find fitting words to say enough for your No. 10 Lung Tonic. It is indispensable to every home. It has done wonders for me when other remedies failed, and we are never without it in the home. The cures that have been made down here by this remedy are hard to believe—they are so wonderful. Everybody ought to use it."

Mr. Alex. H. McRae, Carnoustie, Sask., says: "I am glad you are pushing your medicines this way. Have used many kinds of cough medicine, but I never found anything to equal yours. Your No. 10 is all you claim for it. Believe your sales will be large out here, as these people appreciate a good thing."

The above prescription is not a "Cure-All" or so-called patent medicine. Dr. Morrissey prescribed it for 44 years, and it cured thousands after other doctors failed.

MADAME LOUISA COTÉ

AN EXAMPLE TO FOLLOW

Mrs. Louisa Côté, of l'Isle Verte, has taken **St. Michel's Wine** for several years and is completely cured

If everybody could understand how essential is the use of a good and well tried tonic for the maintenance as well as for the conquest of health, anemia and consumption would not every year claim thousands of victims. We are living in a period of extreme activity. We are using our strength without counting the cost: the most elementary prudence counsels us to rebuild our strength and to repair the constant losses sustained by our organism, to enrich our blood, impoverished through the extravagant system of living that we are following, from the beginning to the end of the year, whether we are at work or amusing ourselves. There are also illnesses to which we pay a more or less tribute; all persons recuperating strength after an illness should use **ST. MICHEL'S WINE**, the marvellous tonic which is also a powerful restorer. It stimulates the organic action of the body, it renews the energy, it tonifies the nerves and rebuilds the muscular system by rendering the food easily assimilable. The appetite is restored, as if by magic, and strength returns. From one end of the country to the other the marvellous effects of **ST. MICHEL'S WINE** are vouched for by persons who have been restored to health and have had their lives saved by its use.

The testimonial of Mrs. Louisa Côté, of l'Isle Verte, is taken from many thousands which we have already published.

MESSRS. BOIVIN, WILSON & CO., Montreal.

Gentlemen:—I certify by this letter that I have taken **ST. MICHEL'S WINE** at various times during several years and that I have found myself very much improved by its use and that I am now in perfect health since I take this wine.

Yours respectfully, **LOUISA COTÉ.**

All testimonials are unanimous in praising the wonderful qualities of **St. Michel's Wine**, which works wonders in cases of anemia, weakness, exhaustion, nervous fatigue, as well as in recovery from fevers. It is a tonic that has never disappointed the medical profession or the numerous people whom it has restored to health. If you feel weak, ill or tired, take **St. Michel's Wine**, and you will find strength, health and vigour.

INJURED WHILE HUNTING.
Danville, Oct. 31.—(Special).—Mr. Alfred Paquette, has been obliged to take an enforced vacation. He was out hunting with a duck rifle, and in some way the rifle caught in a bush, and discharged, taking off one toe and fracturing another. An accident of this kind would hardly be expected to Mr. Paquette, who has been accustomed to the use of fire arms, all his life.

WATERVILLE HORSES IN DEMAND.
Waterville, Oct. 31.—(Special).—Mr. H. Lawrence sold his fine carriage horses last Wednesday to Mr. Fairweather, of Portland, for a Mr. Tabor, also of Portland. The same party purchased two young horses last May from Mr. McGovern, for a Mr. Field, of Portland, at satisfactory prices. Mr. Fairweather has an eye on two or three other horses here and will probably call again. Waterville steeds seem to be in demand in Portland.

--Even Whooping Cough
Sixteen Ounces of the Quickest, Surest Cough Remedy for 50c. Money Refunded if it Fails.

If you have an obstinate, deep-seated cough, which refuses to be cured, get a 50-cent bottle of Pinex, mix it with home-made sugar syrup and start taking it. Inside of 24 hours your cough will be gone, or very nearly so. Even whooping-cough is quickly conquered in this way.

A 50-cent bottle of Pinex, when mixed with home-made sugar syrup, gives you 16 ounces—a family supply—of the finest cough remedy that money could buy, at a clear saving of \$3. Very easy to prepare—full directions in package.

Pinex soothes and breaks the inflamed membranes with remarkable rapidity. It stimulates the appetite, is slightly laxative, and has a pleasant taste—children take it willingly. Splendid for croup, asthma, bronchitis, throat tickle, chest pains, etc., and a thoroughly successful remedy for incipient lung troubles.

Pinex is a special and highly concentrated compound of Norway White Pine extract, rich in quaiacel and other healing pine elements. It has often been imitated, though never successfully, for nothing else will produce the same results. Simply mix with sugar syrup or strained honey, in a 16-ounce bottle, and it is ready for use.

Anyone who tries Pinex will quickly understand why it is used in more homes in the U. S. and Canada than any other cough remedy. The genuine is guaranteed to give absolute satisfaction or money refunded. Beware of cheap imitations. Pinex is wrapped in each package. Your druggist has Pinex or will get it for you. If not, send to The Pinex Co., Toronto, Ont.

This is a great fruit section. While there he called to see Mrs. C. C. Colby, Mrs. J. S. Aikins and Miss Jessie Colby, who are spending a few weeks there before going to California for the winter. Other reports from the Colby family state that everywhere are roses in great profusion. Some have been picked measuring 6 inches in diameter.

STOMACH DISTRESS
And DYSPEPSIA GO.
Diaepepsin makes upset Stomachs feel fine in five minutes.

As there is often some one in your family who suffers an attack of Indigestion or some form of Stomach trouble, why don't you keep some Diaepepsin in the house handy? This harmless blessing will digest anything you can eat without the slightest discomfort, and overcome a sour, gassy Stomach five minutes after.

Tell your pharmacist to let you read the formula, plainly printed on these 50-cent cases of Pape's Diaepepsin, then you will readily see why it makes Indigestion, Sour Stomach, Heartburn and other distress go in five minutes, and relieves at once such miseries as Belching of Gas, Eructations of sour, undigested food, Nausea, Headaches, Dizziness, Constipation and other Stomach disorders.

Some folks have tried so long to find relief from Indigestion and Dyspepsia or an out-of-order stomach with the common, every-day cures advertised that they have about made up their minds that they have something else wrong, or believe theirs is a case of Nervousness, Gastritis, Catarrh of the Stomach, or Cancer.

This, no doubt, is a serious mistake. Your real trouble is, what you eat does not digest; instead, it ferments and sours; turns to acid, Gas and Stomach poison, which putrefy in the digestive tract and intestines, and besides, poison the breath with nauseous odors.

A hearty appetite, with thorough digestion, and without the slightest discomfort or misery of the Stomach, is waiting for you as soon as you decide to try Pape's Diaepepsin.

Not a Flake Broken

THAT'S one beauty of Tillson's Oats.
Every flake is whole.
That's why porridge made from Tillson's Oats doesn't come to the table a sticky, jellied mass; but instead, as inviting to the eye as it is tasty to the palate and nourishing to the body.

Every flake is as thin as it can be rolled without breaking it.
That's why Tillson's Oats are cooked thoroughly in 15 minutes—no more. No all-night cooking, as it used to be with the old-fashioned oatmeal. No half raw porridge due to imperfectly rolled oats.

If you ever found porridge hard to digest it was because you made it from rolled oats containing coarse and fine particles, some of which were not cooked through.

Compare Tillson's Oats with any others that you have been in the habit of using, and you will see and taste the difference.

Try them tomorrow.

Shiloh's Cure
QUICKLY STOPS COUGHS, CURES COLDS, HEALS THE THROAT AND LUNGS, 25 CENTS

STANSTEAD and Rock Island smokers used to be very cranky about light colored cigars.
Latterly they have been judging their smoke with their palate instead of with the eye.

They have found the GRIT cigar particularly mild, aromatic and as sweet as a nut, down to the very last half inch.

When they have finished smoking one, the pleasant taste it leaves in the mouth inclines them to light another.

The mildness of the GRIT cigar comes from the special Havana cuttings from the clear Havana workmen's tables.

"FEEBLE STOMACH"

Causes Digestive Weakness
and Poisons the Entire
System.

"No one can have suffered more than I did with stomach trouble," writes Phil. E. Pasclair, well known at St. Andrews Corner. "My doctor told me my indigestion and sleeplessness were due to poisons in the blood. Certainly, my condition was desperate, and it seemed from the despondent feelings that swept over me that I would lose my reason. I happened to read about Dr. Hamilton's Pills and bought five boxes from the druggist. Such body-cleansing pills I never used; they were mild and yet quite strong enough to drive all the humors out of the blood. My stomach gained strength rapidly with Dr. Hamilton's Pills and I improved so much that in eight weeks I could eat and digest all ordinary food. Depression and weariness passed away and I am, thanks to Dr. Hamilton's Pills, enjoying robust good health."

No remedy for biliousness, indigestion, headache, sick stomach or constipation that compares with Dr. Hamilton's Pills. Refuse substitutes. Sold in 25c boxes. All dealers, or The Catarthorone Co., Kingston, Ont.

SLEEPER'S LONG WALK

Girl's Tramp Over Rough Country On a Cold Night

An extraordinary instance of a girl walking a long distance on a bitter cold night, while fast asleep, is reported from Monmouth. The girl's name is Annie Mary Smith, and she is a domestic servant in the employ of the Rev. L. M. Abbot.

The girl went to bed as usual. Early next morning Mr. Abbot was awakened by a knocking at his front door. As the knocking was not answered by the servant girl, he called her, and, getting no response, he went to her room. The bed had been slept in, but the girl had gone, and, to add to the puzzle, her clothing was in the room.

He went downstairs, and at the door a messenger told him that the girl during the night had reached her home cold and ill, and clad only in her night apparel. From her bedroom the girl had walked downstairs, unlocked two doors, and made her way across some coal and wood out of the front of the house up a side path. She had walked over some rough stones before reaching a gate which leads on to the Hereford Road. On the steep hill leading to Staunton she woke. She knew the district, and decided to call up some friends at Staunton, but then she realized that to arouse them would only give them a fright, and she continued her journey to her mother's cottage, crossing several fields.

Any Doubter Can Know

Whether tea and coffee are causing him trouble by quitting them.

When the cause of the trouble is removed, some relief will naturally follow.

But the return to old-time health and comfort can be hastened by taking on a rich liquid food-drink, such as

POSTUM

It supplies a hot table beverage of fine color, and a pleasing "snappy" taste, similar to that of the mild, high-grade Javas.

Postum contains no coffee or any other harmful substance, but is rich in the gluten and phosphate of potash (from the wheat of which it is made). Nature's material for rebuilding nerve and brain cells.

It's a matter of choice whether you keep along with the tea and coffee habit or change to Postum and be free.

SHORT COURSES IN AGRICULTURE.

The farmer is at last coming to his own. For his benefit and profit—and not merely for the development of national prosperity—various governments have established agricultural colleges, experiment stations and model farms, where researches are conducted by specialists into all branches of husbandry and the sciences relating thereto, such as chemistry, physics, bacteriology and biology. The results of this work are carefully compiled and exchanged between investigators, so that the range of investigation, the distribution of the valuable information obtained, and its adaptation to the particular needs of localities is extensive and widespread. In Great Britain, Europe, Africa, India, Australia, New Zealand and South America, as well as more particularly in the United States and Canada, this good work is being pushed with vigor and enthusiasm. One of the foremost pioneers in this movement was the Ontario Agricultural College at Guelph, followed more recently by the Nova Scotia Agricultural College at Truro, the Manitoba Agricultural College, and last of all by Macdonald College at Ste. Anne de Bellevue, Que. At these institutions one, two and four-year courses provide for the younger generation a higher education in farming. The real meeting place, however, of the investigator and the actual producer of our agricultural wealth to-day—the man who has no time for extensive courses—is the two or four-week short courses at the agricultural college, held during the off-time on the farm, when, with only the winter chores to provide for, the independence of the soil is practically free to take a holiday off and at little or no expense get into touch with the farming progress of the world. Lectures, demonstrations, the answering of questions, and conferences, all designed to increase the wealth, comfort and enjoyment of the farmer in his work. The farmer should plan ahead to take in some such course during the coming winter—it will stimulate his personal interest in his work—by intelligence and the sense of a worldwide community—add to his bank account and benefit the country.
