LOVELL'S
POCKET STREET GUIDE
. . . TO . . .
MONTREAL,
The City of Westmount, and the Towns of Maisonneuve, Verdun and Outremont.

Montreal, with the above suburban towns, has a population of at least six hundred and fifty thousand.

Together they contain over twelve hundred streets, several of which are three, four, or even five miles and more in length.

In this Guide all these Streets are given; nor is it merely stated where they begin and end, but the actual intersecting points, numbering over five thousand three hundred, are accurately stated.

In addition to this are given the location of all Banks, Churches, Hospitals, Asylums, Post Offices, Public Offices, Prominent Buildings, etc.

This feature of the work, equally with the Street Guide, has been most carefully supervised, and greatly adds to the interest and value of the compilation.

The Guide makes a book of three hundred pages, and is for sale at thirty-five cents a copy at all book stores and news agencies, at the various hotels, on all Railway trains and Steamboats. A limited number of Advertisements will be inserted at the low rate of six dollars a page, or four dollars for half a page.

The third and revised edition was published in June, 1913.
