

LLOYD GEORGE HITS POINCARÉ

Deprecates Sunday Speeches Unscrewing Distilled Hatred And Anger Among Nations

Bristol, Eng., July 25.—Former Premier Lloyd George made a fierce attack on M. Poincaré, the French Premier, in a speech here today. He objected to M. Poincaré's habit of making speeches on Sunday, which he pointed out, was a day consecrated to good-will and hardly a day to "unscrew the cylinder of carefully distilled hatred and spread anger among the nations."

PRIVY COUNCIL DISMISSES CASE

Brought Before It By Fort Frances Pulp and Paper Co. Regarding War Time Prices

(Canadian Press Cable) London, July 25.—The appeal in the case of the Fort Frances Pulp and Paper Company, Limited, was dismissed by the Privy Council today. The action brought to recover sums the respondents had paid for paper delivered at controlled prices. No question was raised concerning the figures and the trial judge treated the question only as to whether the paper tribunal and paper controller had been validly vested with powers to make the orders in controversy. The Court of Appeal held that it was unnecessary to go into the question of validity. Whether the action of these paper tribunals was legal or not the Court of Appeal held that the appellants, notwithstanding that they had acted under pressure had bound themselves to accept the prices fixed.

INDICTMENTS AGAINST AMERICAN AUTHOR WERE DISMISSED

New York, N.Y., July 25.—The indictments charging George Maxwell, President of the American Association of Authors, Composers and Publishers with forging and sending to Allan Ryan and half dozen others poison pen letters attacking the character of Mrs. Ryan and a dozen other women, were dismissed by General Session Judge McIntyre today.

LEAVE TO APPEAL IN ACTION OVER SUCCESSION DUTIES

(Canadian Press Cable) London, July 25.—Leave to appeal was granted today by the decision of the Privy Council in the position of Levesque vs. Smith, an action over a question in connection with succession duties in the province of Quebec.

Conduct is three-fourths of our life and its largest concern.

GREAT BRITAIN'S INDUSTRIALISTS ARE ALARMED

At Prospect Of Fourth Winter With 1,500,000 People Out Of Work

DISRUPTIVE FORCES Urge Gov't. To Undertake Big Program Of Public Works To Provide Employment

London, July 25.—A grave view of the conditions of British trade and industry is taken by a large industrial group of the House of Commons which tonight sent a letter to Premier Baldwin outlining the plans of the group to meet the situation. Observing that the prospects of a settlement of reparations and similar difficulties are too remote to appreciably affect the situation, "which is due to political uncertainty, lack of confidence, war wastage of wealth and the loss of purchasing power among our customers," the letter says it appears inevitable that, unless very drastic measures are taken immediately a fourth winter of unemployment, with not less than a million and a half unemployed, must occur and must disastrously affect the morale and efficiency of British workers.

The letter adds that alarming indications of industrial unrest everywhere are apparent. The dock strike, it says, is only one manifestation of the serious trouble fermenting beneath the surface. The disruptive force of unemployment at the trades unions, which are the safeguard of industrial peace, cannot be viewed without apprehension, and in the opinion of the unions' executives if the present rate of unemployment is maintained it will involve within twelve months complete dispersal of the funds and membership of the unions.

Declaring that foreign trade cannot provide a solution, the group suggests a number of railway and electrification projects at home to absorb the unemployed, these to include tube railway extensions and development of canals, docks and other works. The proposals of the group would involve an expenditure of £50,000,000, but the group considers that even if the Government should pay interest on this capital for several years it would be a very small sum in comparison with the present unemployment dole and similar relief payments.

COUPLE MARRIED

Fredericton, N.B., July 25.—Osgoode Acker Worthen, of Halifax, N.S., a graduate of the Halifax School for the Deaf and Dumb, and Mildred Seville Ferguson, daughter of Mr. and Mrs. David H. Ferguson, of this city, a graduate of the New Brunswick school for the deaf and dumb were married here this afternoon at the home of the bride's parents. Rev. H. H. Ferguson, of South Devon, an uncle of the bride, performed the ceremony with the assistance of George Ferguson, a brother of the bride, who is now a student at the Bethel Bible School at Dudley, Mass., and who was interpreter for the speechless couple.

BAPTIST WORLD ALLIANCE WILL ELECT OFFICERS ON THURSDAY

Stockholm, July 25.—The election of the officers of the Baptist World Alliance will probably be held Thursday, but the place of the next meeting will be referred to the next executive committee.

King Quinay has acknowledged the greetings sent to him by the Alliance. A world organization of Baptist women will be considered at a special conference to be held Friday.

CHEERING BANTING

Portsmouth, England, July 25.—The savants of the British Medical Association forgot their professional dignity today and cheered heartily again and again for the young Canadian, Dr. P. G. Banting, when he was introduced to the scientists about his discovery of insulin for the treatment of diabetes.

Striped Ribbon Hats, that are very new. Maison Blanche Cor. Chauveau Ave. and Fabrique Sts.

U.S. OPERATORS OF COAL MINES

Rejected Hard Coal Miners' Demands For Closed Shop And "Check-Off"

Atlantic City, N.S. July 25.—The anthracite miners demands for "complete recognition of their union, establishment of the closed shop and the check-off system were rejected today by operator members of the joint committee which is trying to enact a wage agreement and forestall a threatened strike on September 1st.

The operators said they rejected the demands chiefly because, in the words of an advisor, they refused to become a party to an illegal monopoly of the anthracite industry. The rejection was not considered final, however, nor indicative that the wage negotiations would fall, although the demand for the check off and the closed shop, with that for wage increases are the three most important on the miners' list.

The operators denounced the closed shop as an illegal monopoly not conducive to fair play for all workers. They declared they would not sign any contract or enter into an agreement that would in theory or practice be exclusive or monopolistic or embody the principles of the closed shop. "The check-off was rejected because the operators, as an advisor put it, could see no more sense why the United Mine Workers should ask the operators to underwrite its dues than any other union should ask as much of any other industry."

The check-off by which a union man's dues were held from his pay and turned into the union's coffers by the company "would lead to the excesses and abuses of wealth that follow in the wake of money gotten too easily."

Instead of preventing "button" strikes as the miners contended, the operators cited that 600 strikes had occurred in one bituminous district in Pennsylvania in two years under the check-off system.

MANITOBA WANTS COOL WEATHER

And Rain To Improve Crop Prospect — Rust Reported In Some Places

Winnipeg, Man., July 25.—The Manitoba fields benefit from cooler weather and some districts report rain. It is stated in a report issued today by the Provincial Department of Agriculture.

The Weather

Toronto, Ont., July 25.—The shallow depression which was over the lower lake region last night is now centred near the Bay of Fundy and pressure is highest in British Columbia. Showers have occurred in Quebec and the Maritime Provinces, elsewhere in the Dominion the weather has been fair.

Table with columns: Location, Min., Max. Vancouver, 52, 74; Edmonton, 54, 76; Winnipeg, 60, 74; Toronto, 53, 74; Ottawa, 58, 70; Montreal, 58, 70; Quebec, 60, 64; St. John, 50, 62; Halifax, 50, 70.

Forecasts: Ottawa Valley and Upper St. Lawrence: Light to moderate winds; fine; a little higher temperature. Lower St. Lawrence: Moderate to fresh north to west winds; fair; stationary or a little higher temperatures. Gulf: Moderate to fresh north and west winds; clearing. North Shore: Moderate to fresh winds; some local showers. Maritime: Moderate to fresh winds, shifting to westerly; showers in some localities at first then clearing.

\$50,000 FOR STUDY OF FOREIGN FAUNA

Washington, July 25.—A traveling scholarship for the study of the fauna of foreign countries was announced today by the Smithsonian Institution, which will devote the interest from a bequest of \$50,000 to the project.

The fund was given to the institution by Mrs. Virginia Purdy Bacon, of New York, as a memorial to her husband, Walter Rathbone Bacon. Those named for the scholarship, which will change hands every two years, will receive about \$2,500 a year.

U.S. MUST TAKE HAND IN AFFAIRS OF EUROPE

Declares Senator Underwood, An Aspirant For Democratic Nomination In 1924

TRADE QUESTION Black Clouds From Wheat Belt Emphasize Need Of Foreign Markets

Birmingham, Ala., July 25.—The United States must concern itself in European affairs, Senator Oscar W. Underwood declared here today, speaking before the Birmingham Rotary Club. Senator Underwood did not mention the League of Nations, but he frankly warned that "black clouds blowing from the wheat belt," brought by failure to find an export market, would cause economic suffering in this country unless this nation takes a hand in remedying conditions in Europe.

RESUME WORK AT SYDNEY MINES

Princess Lodge Of U.M.W. Votes To Obey Order Of New District Executive

(By Canadian Press) Sydney, N.S., July 25.—Princess local of the United Mine Workers at Sydney Mines, accepted the Lewis-Barrett order at a largely attended meeting on Thursday night and will go back to work under the leadership of the provisional president.

The shippers at Scotia pier who are members of Princess Local, will, it is expected, also return to work in a day or two.

Twelve ships are in port here awaiting coal cargoes and these will be loaded once the shippers return. Number seven mine at Florence, will also resume operations in a day or two, the local having decided to accept the Lewis-Barrett order so that practically all the miners on the north side will resume work before the end of the week, it was said today. The Tom Pit started on Wednesday while workmen are engaged in clearing a fall in the deeps of Indian Cove mine preparatory to resuming operations. The Beaver Hut and East Chance mines resumed work on Wednesday.

Books and official documents of District 24 United Mine Workers of America which were missing when provisional President Barrett appointed by International President John L. Lewis took over the office of the district from the recently deposed executive had not been recovered to-night and there is little prospect that they will be found, it is said.

Several more mines in the Cape Breton coal fields opened up today and by Friday the whole of the miners who were on strike as a protest against the presence of troops in the district are expected to be at work. At the Sydney British Empire Steel plant today two thousand men were working and more will be taken on when the plant begins full operation.

UNVEILED MONUMENT AT COOK'S MILLS

Welland, Ont., July 25.—A monument was unveiled today at Cook's Mills. Commemorating the battle fought there October 19, 1814. The ceremony was held under the auspices of the Lundy's Lane Historical Society, in cooperation with citizens of Welland and Crowland at the request of the Historical Sites and Monument Board, Ottawa.

Rev. Dr. William Wallis, Niagara Falls, was chairman. The unveiling ceremony was performed by Mrs. L. B. Spencer, Regent of Sir Isaac Brock, Chapter I.O.D.E., Welland. Members of the I.O.D.E. and many prominent citizens were present. Short addresses were given by Brigadier General E. A. Cruikshank, W. M. German, K.C., M.P., Col. J. E. Cohoe, J. W. Marshall, R. W. Geary, Reeve Gray of Crowland, and L. R. Duff.

DR. KOO ACCEPTS OFFICE IN CHINA

Peking, July 25.—Dr. Wellington Koo, former Chinese Ambassador to Washington, today became Foreign Minister of the North China Government. Dr. Koo accepted the post at the insistence of political leaders.

Many difficult diplomatic problems in connection with China's foreign relations remain to be cleared up, including the matter of the Lin Cheng bandits who wrecked and robbed the Shanghai-Peking express and kidnapped many Americans this spring. China feels that the demands of the powers in this as in other matters are severe, and its politicians believe Dr. Koo can lessen these demands, if anyone can.

MARK'S SLUMP DUE TO RUMOR

Of Run On Reichsbank, Which Ignored The Functions Of That Institution

Berlin, July 25.—A news agency report from Berlin printed in London today, to the effect that there was a "run" on the Reichsbank, is blamed in official and financial circles to-night for the highly unfavorable quotation of the mark reported from New York today. While foreign currencies were not listed today, Bourse experts assert there was no reason for the wide disparity between Berlin's rates of Tuesday and today's New York quotation. They, therefore are inclined to account for the slump in the unqualified report which misrepresents the "run" on the official bank, which wholly concerns itself with private banks and business demands for supplies of currency.

It was pointed that "a run" in the customary sense of the word would be out of the question in the case of the Reichsbank because of the character and functions of this institution.

BRICKLAYERS STRIKE IN ROME

Fascisti Expected To Import Labor From Other Provinces To Break Strike

Rome, July 25.—Thirty thousand bricklayers are on strike here owing to the reduction in their high cost of living subsidy. The Builders' Association have decided to leave a settlement of the issue in the hands of Signor Saracini, the Fascist High Commissioner for the province of Rome. The bricklayers' leaders refuse to discuss terms of settlement and are urging their followers to carry on the strike to the bitter end. On the other hand, the Fascists have decided to break the strike at all costs, importing labor from other provinces if this should prove necessary.

BRITISH MINISTER ANNOYED BY PUFFS OF P.O. OFFICIAL

London, July 25.—(Can. Press Cable)—Considerable astonishment was excited in Parliament press circles yesterday evening by the circulation of a series of puff paragraphs relating to Sir Laming Worthington-Evans, Postmaster-General on the occasion of his introduction of the post office estimates yesterday. The paragraphs elaborated on his work and praised him in very high terms.

The sequel came in the House of Commons this afternoon when Sir Laming stated he had ascertained that these "vulgar and stupid personal puffs" had been written by an officer of the Post Office and issued without his (Evans) knowledge or authority. He had never seen them until they appeared in the newspaper. Steps had been taken to prevent a recurrence, concluded the Minister.

ETHICAL CODE IS AIM OF ROTARIAN CHIEFS

Chicago, July 25.—Rotary leaders from all sections are here for a four-day caucus on the platform and program of the new administration installed recently at the St. Louis convention. Guy Gundaker of Philadelphia, president of the Rotary, devoted most of the initial session to an outline of the new year's international program to the board of directors and district governors from some 46 provinces.

A code of ethics for every line of business was mentioned by Mr. Gundaker as one aim which might enlist a prominent place on the Rotary activity list for the year. Codes of conduct, he said, reduced costs, eliminated destructive competition, maintained high standards of trade relationships, protected the public from irresponsible business men and tended generally to the elevation of business methods.

CABINET COUNCIL ONLY CONSIDERED ROUTINE MATTERS

Ottawa, Ont., July 25.—A meeting of the Cabinet Council was held today following a recess of something over two weeks. The Prime Minister announced at its close that routine matters had been dealt with, and that there was nothing to announce. No further meetings have been arranged for.

U. S. DEPORTS WOMAN ACCUSED OF BIGAMY

Rockville, Ont., July 25.—Alleged to have contracted two marriages in the United States after her release from serving a term for bigamy in this country, Ellen Ruessell, belonging to Rockport, near here, has been deported by the United States Immigration authorities at Ogdensburg, N.Y., following her arrest at Carthage in that state.

PRINCE URGES CONSERVATION OF EMPIRE FORESTS

Interesting Message Received By Empire Forestry Conference Now In Session

AT OTTAWA Canadian Forests Priceless Heritage In Which Public Should Show Interest

Ottawa, Ont., July 25.—At today's session of the British Empire Forestry Association held here, the following message was read from H.R.H. the Prince of Wales: "As president of the Empire Forestry Association I send a message of good wishes to the delegates taking part in the Empire Forestry Conference. I shall watch the result of their labors with great interest. Their task will be to provide accurate information of our forest resources, to foster trade in British timbers and to promote a sound policy of forest conservation throughout the Empire. By such means alone can we ensure that our present resources are used to the best advantage and our supply of timber maintained for the future. It will be the earnest desire of the Association to create and support well-informed public opinion upon which the success of this policy must largely depend.

"Of our affiliated societies the most important and successful is the Canadian Forestry Association whose 13,000 members I congratulate upon a fine record of patriotic work. The forests of Canada are a priceless heritage and the Association is rendering a great public service by fostering widespread interest in them. May it grow and prosper.

"I hope the conference will have far-reaching results and that one of these will be a greatly increased support of the Empire Forestry Association whose work I commend to every patriotic citizen. (Signed) "Edward, P. July 1st, 1923."

The second annual convention of the British Empire Forestry Association opened its session here this morning in the Victoria Memorial Museum. Delegates are present from England, Scotland, the Irish Free State the dominions and several of the British protectorates.

The proceedings commenced with an address of welcome from Premier King at the end of which he formally declared the convention open. Best wishes for the success of the gathering were conveyed in a message from the Prince of Wales which was read to the delegates. Lord Lovat, president of the association, occupied the chair.

In addition to the Premier, Hon. J. A. Robb, Minister of Trade and Commerce and Hon. H. S. Beland, Minister of Health and Soldiers' Civil Re-establishment are representing the Federal Government at the conference. Dr. Beland delivered an address during the morning session.

Premier King

At noon today the delegates were entertained at luncheon. Premier King in the course of his address opening the conference made reference to the recent action of the Government in securing power from parliament to protect the export of pulpwood and its intention to establish a royal commission on the forestry problem. "Next to agriculture," he said "the wood industries constitute the most important source of our national income. How rapidly this source is being depleted by fires, by insect pests, by export of raw products, by undue exploitation and unnecessary and often wanton destruction, few if any of us have begun to appreciate.

"We recognize," he continued, "that to restrict trade in any direction is the last of measures to which a government should resort, and we are hopeful that in the benefits which will accrue to our foresters from association, consultation and conference with experts from other parts of the British Empire, as well as from information which we hope our own commission will elucidate, we may find a yet more excellent way of dealing with the problem of the economic development of our forest resources. We recognize that in the past we have been profligate with our forest wealth, that we have wasted our heritage, that while we have been profligate in utilization we have been deficient in preservation. While we have talked in terms of quantity, we have lost sight often of the importance of quality, not without its cost to our trade. Some of these evils, and some of the misconceptions and false impressions which have grown out of them, we hope this conference will go far to remove.

Stock Taking

"What is true of Canada in one and all of these respects is, I feel only too true of most of the constituent units of the British Empire. The war helped to disclose how general would become our weakness and shortcomings in this regard. The first task is now a general stock taking, the preparation of a sort of "Gomdard" book of the forest resources of the British Empire as a whole.

"This I believe, you have already entered upon. The next step is to

QUEBEC LIQUOR COMMISSION. May Be Held Responsible If Intoxicated Person Commits Suicide Or Kills? Ottawa, July 25.—In addition to the many restrictions imposed upon holders of beer and wine licenses in Hull by the Quebec Liquor Commission, they can also be held responsible for damages in the event of a person becoming intoxicated in any of the drinking places and committing suicide or being killed through an accident caused by such intoxication, according to a news item carried by the citizen today. "The right of action must be exercised within three months after the death and the representatives of the person who has so died may recover a sum of at least \$100 but not more than \$1,000" the act sets forth. RUSSIA WILL ESTABLISH GRAIN DISTRIBUTING CENTRE. Hamburg July 25.—The Russian Soviet government, it is learned will establish a grain receiving and distributing station here. Russia's export station will be cleared through this station. Toronto, July 25.—The Canadian Bankers' Association are offering a reward of \$10,000 for information leading to the arrest and conviction of the bandits who held up bank messengers in Toronto yesterday. It was announced here this evening.

LAKE ST. JOHN SPORTING NEWS

Kenogami Baseball Team Defeated St. Joseph—Keenly Contested Cricket Match

(Kenogami, July 22nd, 1923—(Special Correspondence) Baseball: Chloctimil League. Kenogami journeyed to St. Joseph d'Alma to play a fixture there, and the visit resulted in one of the finest ball games ever witnessed in the District, the scores in no way representing the play. The fortunes of the day were all with the visitors. Although St. Joseph was handicapped in being short of two of their best men, they put up a stubborn battle, and did all they knew to keep the score down. Kenogami, however, playing at top form, would not be denied, and eventually sailed out winners to the tune of nineteen runs to four. Too much cannot be said of the showing made by both teams, and it is hoped that when St. Joseph d'Alma play again at Kenogami, they will retrieve their laurels to some degree. The teams were: Kenogami: George McNaughton, Simona, Treggett, Alf. Austen, Phil. Beaudoin, C. Malcolm, Geo. Warner, Clifford Naylor, H. Amy, R. Leblanc, and Willy Cornell. St. Joseph d'Alma: Michaud, Tremblay, Albany, Horsfield, Hudson, R. Tremblay, R. Harvey, A. Henri, A. Boullanne, Salngre and Belvin. Next Sunday, Fort Alfred will be entertained here. Cricket: A keenly contested match was played today between a team from Chicoutimi, captained by Mr. Coosie Price, and Kenogami, on the latter's ground. At the outset, the home team looked on themselves as easy winners, but Chicoutimi, batting first, provided a surprise in Ken. McLeod, who, by careful batting, managed to compile 33 before succumbing to a ball from Creevy which dropped into the hands of Pirouet. The total of the innings was 71. It seemed an easy matter to the Kenogamians to top this score, but Chicoutimi provided another dark horse in the shape of Foster, who took six wickets at a very low cost, the first five wickets producing only thirteen runs. Then J. R. Brands and W. E. Reed got together, and an exhibition of good free batting ensued, the latter being run out for an excellently hit 24. Brands carried his score to 39 before he was disposed of by the wicket keeper, and the efforts of the entire side resulted in a total of 87 runs. Considering lack of practice, the cricket was, as a whole, good. Foster bowled extremely well for Chicoutimi, and Creevy proved the premier trundler for Kenogami, his five wickets costing only 21 runs. As a first match, the result is very gratifying. There was an interested attendance, and it is hoped this will be only the forerunner to many good games. Scores and teams: Chicoutimi. Foster, b. Winslade 6 Bates, run out 1 Charlie Price, c. Archibald, b. Winslade 6 A. C. Price c. Pirouet, b. Creevy 33 C. McLeod c. Pirouet, by Creevy 32 Coote Shanley c. Gay, b. Creevy 22 Lock, Not out 8 M. R. Kane, Run out 6 Irvine c. Brands, b. JUDGMENTS OF GOD ARE NOT THOSE OF MEN, SAYS PRIEST Denver, Colo., July 25.—Father Walter A. Grace, Pastor of a Catholic church at Arvada, a suburb, on trial in the United States District Court on charges of forging a permit for an application to ship liquor into Colorado, was found guilty today. The jury deliberated only ten minutes. "The judgments of God are not those of men," was Father Grace's only statement when the verdict was returned. The defence immediately filed motions for new trial and arrest of judgment and the Court is to rule on these Saturday. Father Grace was taken to the office of the United States Marshal in custody of two Deputies.

Toronto Police Had No Clue Last Night As To Whereabouts Of Bandits

MR. FIELDING'S VIEW Financial Operation Speaks Well For Canadian Institutions And Credit

(By Canadian Press) Ottawa, July 25.—The Canadian National Railway issue of \$22,500,000 of guaranteed 5 per cent, fifteen year equipment bonds was today awarded by the Minister of Finance to a Toronto syndicate headed by A. E. Ames & Co.; Wood Gundy & Co., and Dominion Securities Corporation, Ltd. The rate paid was 97.889 percent and accrued interest.

Other firms associated in the syndicate are Amellius Jarvis & Co., Ltd., R. A. Daly & Co., R. C. Matthews & Co. Ltd., Oler and Hammond; Kerr, Fleming & Co.; Gardner, Clark & Co.; McLeod, Young, Weir & Co.; Rene Leclerc, Inc. There were two other tenders for the loan, one by G. A. Stimson and Co., Toronto, at 97.275 percent and accrued interest. The other tender at 97.57 per cent and accrued interest was by the National City Company, representing the following group: Bank of Montreal, National City Co., Harris Forbes & Co., Banque d'Hochelega, Hanson Bros, Nesbitt Thompson & Co., W. A. MacKenzie & Co., Royal Securities Corporation; Molson's Bank, MacNeill Graham & Graham, C. H. Burgess & Co. and Greenfields & Co. "This," said Hon. W. S. Fielding, to-night, "is the largest financial operation ever handled in Canada by Canadian houses. It speaks well, he added, not only for the credit of the Dominion generally, but for the strength and enterprise of our own financial institutions". The usual practice in the issue of railway equipment bonds, said Mr. Fielding, is to make a part payment for the equipment in cash and issue bonds for the balance. This method of financing gives equipment securities a high standard in money markets. In this case, continued the Minister, the equipment is to cost \$30,000,000 of this \$22,500,000 will be provided for out of the ordinary railway appropriation and bonds will be issued for \$12,500,000. The bonds, while issued by the Canadian National Railway Co., the stock of which is owned by the Government, are to be guaranteed as respects principal and interest by the Government of Canada. Equipment bonds of the various railways have hitherto been issued in the United States. In no previous case have they been issued in Canada. Mr. Fielding decided that there was no reason why the opportunity should not be given to Canadian financial houses to handle the business. Accordingly, circulars were sent to all Canadian concerns engaged in the bond business. It was not to be supposed that any Canadian house could handle such a large transaction, but it was expected that groups would be formed for the purpose. This expectation was realized. Tenders were received and opened today at Mr. Fielding's office in the Finance Department.

HEROIC GIRL OF 11 SAVES THREE LIVES IN BURNING HOME Saskatoon, Sask., July 25.—When a coal oil stove flared up and set fire to her parents' farm home near Cymric, Sask., Pearl Taylor, 11 years old, saved three smaller brothers and sisters from death. An infant was asleep upstairs, but Pearl dashed through the smoke and flames and carried it to safety. The parents were away from home at the time. The house was completely destroyed.

TWO IRISH LITIGANTS WANT TO APPEAL TO PRIVY COUNCIL (Canadian Press Cable) London, July 25.—The first petitions for leave to appeal to the Privy Council from Ireland since the Irish Free State was established were heard by the judicial committee of the Privy Council today, Lord Haldane presiding. Previous to the creation of the Irish Free State Parliament, the House of Lords was the final Court of Appeal for Ireland, as for the rest of the British Isles, but Ireland having become a Dominion the judicial committee of the Privy Council is the last Court of resort for that country. There were five Irish petitions for leave to appeal and all of them were dismissed.

HIGHWAYMEN STILL AT LARGE

Toronto Police Had No Clue Last Night As To Whereabouts Of Bandits

Toronto, July 25.—With their assailants still at large and the three bank messengers, victims of the gun battle staged in connection with the sensational theft of approximately \$125,000 yesterday, holding their own with a favorable chance of recovery, interest in the robbery continued unabated. Police officials directing the movements of the squad of detectives working on the case tonight declared that so far they have been unable to obtain a definite clue as to the probable whereabouts of the desperadoes. Many telegraph and telephone messages were received at police headquarters during the day from all parts of Ontario conveying information that the marooned colored Studebaker six car in which the robbers travelled out of Toronto had been sighted, bearing in mind answering the description of some of the gang broadcasted a few hours after the shooting. The police placed little faith in these messages believing that the car would undoubtedly be discarded and another pressed into service to make the final get-away after reaching a point Toronto. The police expect to lay out any hour of the discovery of the car in a ditch on some side road probably within a short distance of the city. The greater part of today was given over to the checking up of the various descriptions of the robbers furnished the police by the bank messengers and other eye-witnesses to the shooting and robbery. Subsequently these descriptions were telegraphed to the larger cities in eastern and western Ontario and the border points at which the men might attempt to cross over to the United States. Buffalo, N.Y., July 25.—The police at Fort Erie today definitely eliminated from any connection with the hold-up of bank messengers at Toronto on Monday the wrecked car found today beside the garrison road a short distance from Fort Erie village. The machine, it was learned, belongs to a Buffalo man who crossed on the Buffalo-Fort Erie ferry boat on Tuesday. There was a collision with another machine and the Buffalo car was forced over the edge of the road into the ditch. The automobile caught fire and every combustible part of it was destroyed. Toronto, July 25.—The latest reports from the hospitals where the bank messengers, James Harris, Standard Bank; W. S. Duck, Union Bank, and David Campbell, Sterling Bank, who were shot and seriously wounded by the bandits, indicated that they will recover.

McKENNA LOOKING FOR SAFE SEAT New York, July 25.—A special cable to the Wall Street Journal from London, says: "The embarrassment of the Government over finding a safe seat for Reginald McKenna is growing as both Banbury and Grenfell City members, reiterate their refusal that he decline the post rather than fight a contest in some outside district where he would be exposed to the attacks from independent Conservatives who would denounce him as a Liberal, and from the Liberals who would attack him as a turncoat".

GRAIN EXPORTS MAKE 100,000-BUSHEL GAIN IN WEEK; FLOUR UP. Washington, July 25.—Exports of grain during the week ended July 21 reflected an increase of over 100,000 bushels, as compared with the previous week, according to the regular report issued today by the Commerce Department. The total exports of grain for the week were valued at \$3,715,000, as against \$3,513,000 for the previous week. The department's report for the week ended July 21 follows: Last Previous week. week. Barley, bushels 665,000 338,000 Corn, bushels 337,000 204,000 Oats, bushels 51,000 63,000 Rye, bushels 237,000 592,000 Wheat, bushels 2,375,000 2,415,000 Flour, barrels 295,000 131,000 Canadian in transit cleared from United States ports: Last Previous week. week. Barley, bushels 2,000 30,000 Rye, bushels 56,000 137,000 Wheat, bushels 224,000 697,000 Flour, barrels 1,000 3,000

GERMAN COMMUNISTS DISTURB FRANKFORT London, July 25.—Reuter's Berlin correspondent today reports Communist disturbances in Frankfurt. He says Dr. Haas, the public prosecutor, was killed yesterday, and maltreated. In response to an appeal from the Social Democratic and Communist parties and the trade unions, about 10,000 persons demonstrated yesterday against "usury and Fascism," the Reuter message states. After the meeting of the demonstrators adjourned collisions with the police occurred in various parts of the town. All the shops, the message adds, were closed. In view of the seriousness of the situation Governor Noske of Hanoover Province, northwestern Germany, has prohibited all open air meetings of any kind on July 29, the correspondent states. This date is the one originally fixed by the Communists for anti-Fascist demonstrations.

BOTH PARTIES EXPECT TO WIN P.E.I. ELECTIONS

But Votes Of Women May Upset Calculations Of Old-line Partisans

GOV'T'S TRUMP CARD Is Its Improved Schools And Roads—Opposition Would Abolish Poll Tax

Charlottetown, P.E.I., July 25.—On the eve of the P.E.I. provincial elections, which takes place Thursday, both Liberal and Conservative parties are predicting victory, but are making no slates as the woman vote, which is being polled for the first time in a Provincial contest, has brought an uncertain element into the situation. The women are well organized in Charlottetown, but in the country districts they have not displayed much activity. Prince County, which returned two Conservatives and eight Liberals in 1919, have five Progressives in the field, all in Liberal districts, and there is a probability that splitting of the Government vote on this account will help the Conservatives. The same is true in one district in Queens. The Government's trump card in the political game is its improved roads and improved schools and the Opposition hope to win partly by promising to abolish the poll tax. This appeal is expected to have some effect in towns where a civic poll tax is also being paid. Keep the two Governments, Federal and Provincial, in line, vote for a party that has improved finances, paid the teachers a living wage and made revenue and expenditure meet, has also been the slogan of the Liberals. Hurl from power the party that falsified its pre-election promises not to increase taxation and the party that increased the salaries and the seasonal indemnities," is one of the war cries of the Opposition. Leading Liberals while confident of the return of the Government, admit that the majority which was eighteen in a house of thirty in 1919 will be decreased, while Conservatives say that J. D. Stewart, their leader, will have a safe working majority.

WARM WELCOME GIVEN GOV. GENERAL AND LADY BYNG IN CAPE BRETON CITY Sydney, N.S., July 25.—Sydney extended a royal welcome to His Excellency the Governor-General of Canada Lord Byng on his arrival here in the viceregal train at 10 o'clock this morning. Hundreds of citizens thronged the C.N.R. station and as Lord and Lady Byng appeared on the platform of his special car, a great cheer greeted the royal visitors. Lord and Lady Byng made their way through the crowd to the awaiting automobiles and stopped frequently and chatted with various citizens on the platform. Lady Byng approached two mothers, who were at the station with babies in arms, and chatted for a few seconds with each. Following the civic reception at the depot, Lord Byng started for the plant of the Dominion Iron and Steel Company. Lady Byng and other members of the party also made the trip. At eight o'clock this evening a formal civic reception will be tendered. His Excellency and Lady Byng at a demonstration in Wentworth Park.

NEW GOVERNOR OF BOMBAY Leslie Wilson, M.P., Secretary To Treasury, Gets Important Appointment (Canadian Press Cable) London, July 25.—It is officially announced that Leslie Wilson, M.P., (Conservative, South Portsmouth, Parliamentary Secretary to the Treasury) has been appointed Governor of Bombay in succession to Sir G. A. Lloyd whose tenure expires in December next. Colonel Leslie Wilson was parliamentary secretary to the treasury in both the Lloyd George Coalition and the Bonar Law government. He has also served as Chief Conservative whip since 1921. Commander Eyeris-Monell, now Parliamentary and Financial Secretary to the Admiralty succeeds Col. Wilson in the Treasury Department and Major A. B. Boyd-Carpenter becomes Financial Secretary to the Admiralty.

N.Y. GRAND JURY GIVES REBUKE To Mr. Anderson, Supt. Of Anti-Saloon League For Impertinent Statements New York, July 25.—A sharp rebuke was administered today to William H. Anderson, of the Anti-Saloon League, by the special Grand Jury which last week returned three indictments charging him with grand larceny and forgery and this afternoon handed down the two additional indictments alleging extortion which acting district attorney Peccora announced would be forthcoming. "Impertinent" was what the jury termed statements issued by Anderson and the League after the first indictments and a proclamation urging legislative investigation of the dry organization. These statements said today's presentment reflected on the jurors' integrity. The jurors resent charges that Peccora had played an important part in their findings and made it clear that the recommendation for a legislative probe had originated with them and not with Mr. Peccora.

AMERICAN FORESTRY HEAD VISITS ENGLAND London, July 25.—Ralph Hayer, European Commissioner of the American Tree Association of Washington, has arrived in England and will confer with Lord Lovat of the British Forestry Commission regarding the handling of the fourth shipment of American tree seeds being sent over by the American Association. The shipment this year will contain only seeds of Sitka spruce, as none of the Douglas fir seeds are available, due to the failure of the crop in America last year. As a matter of fact, Lord Lovat has informed Mr. Pack, president of the American Tree Association, that the Sitka spruce is particularly desired. The Douglas fir gave most unexpected satisfaction but it is anticipated that results with Sitka spruce will be equally gratifying.

KING GEORGE'S YACHT WAS RELOADED LAST NIGHT South End on Sea, England, July 25.—King George's yacht Britannia which ran aground on the Rhoebury Sands, near the mouth of the Thames today was reloaded to-night. It is believed the vessel is undamaged, as she was found to be lying in soft sand.

STEEL LEADERS WILL CONFER

On Question Of Eliminating 12 Hour Day In United States Steel Industry

New York, July 25.—The first formal conference looking to the elimination of the twelve hour day in the steel industry will be held tomorrow when presidents of manufacturing subsidiaries of the U. S. Steel Corporation meet with Ebert H. Gary, Chairman of the Corporation. Mr. Gary stated today in making public his call for the conference that the Corporation would "proceed as vigorously as practicable to make the change, asserting that the greatest obstacle to immediate establishment of a shorter day is the scarcity of labor. "Tomorrow's meeting," he said, "will consider how and on what basis and when to begin to eliminate the twelve hour day. It is our desire and our intention to proceed as vigorously as practicable." The conference of subsidiary heads may continue the rest of the week in order that the problem may be thoroughly considered before actual steps to revise the working shifts are taken.

WICEREGAL VISIT TO SYDNEY, N.S. Warm Welcome Given Gov. General And Lady Byng In Cape Breton City Sydney, N.S., July 25.—Sydney extended a royal welcome to His Excellency the Governor-General of Canada Lord Byng on his arrival here in the viceregal train at 10 o'clock this morning. Hundreds of citizens thronged the C.N.R. station and as Lord and Lady Byng appeared on the platform of his special car, a great cheer greeted the royal visitors. Lord and Lady Byng made their way through the crowd to the awaiting automobiles and stopped frequently and chatted with various citizens on the platform. Lady Byng approached two mothers, who were at the station with babies in arms, and chatted for a few seconds with each. Following the civic reception at the depot, Lord Byng started for the plant of the Dominion Iron and Steel Company. Lady Byng and other members of the party also made the trip. At eight o'clock this evening a formal civic reception will be tendered. His Excellency and Lady Byng at a demonstration in Wentworth Park.

NEW GOVERNOR OF BOMBAY Leslie Wilson, M.P., Secretary To Treasury, Gets Important Appointment (Canadian Press Cable) London, July 25.—It is officially announced that Leslie Wilson, M.P., (Conservative, South Portsmouth, Parliamentary Secretary to the Treasury) has been appointed Governor of Bombay in succession to Sir G. A. Lloyd whose tenure expires in December next. Colonel Leslie Wilson was parliamentary secretary to the treasury in both the Lloyd George Coalition and the Bonar Law government. He has also served as Chief Conservative whip since 1921. Commander Eyeris-Monell, now Parliamentary and Financial Secretary to the Admiralty succeeds Col. Wilson in the Treasury Department and Major A. B. Boyd-Carpenter becomes Financial Secretary to the Admiralty.

N.Y. GRAND JURY GIVES REBUKE To Mr. Anderson, Supt. Of Anti-Saloon League For Impertinent Statements New York, July 25.—A sharp rebuke was administered today to William H. Anderson, of the Anti-Saloon League, by the special Grand Jury which last week returned three indictments charging him with grand larceny and forgery and this afternoon handed down the two additional indictments alleging extortion which acting district attorney Peccora announced would be forthcoming. "Impertinent" was what the jury termed statements issued by Anderson and the League after the first indictments and a proclamation urging legislative investigation of the dry organization. These statements said today's presentment reflected on the jurors' integrity. The jurors resent charges that Peccora had played an important part in their findings and made it clear that the recommendation for a legislative probe had originated with them and not with Mr. Peccora.

AMERICAN FORESTRY HEAD VISITS ENGLAND London, July 25.—Ralph Hayer, European Commissioner of the American Tree Association of Washington, has arrived in England and will confer with Lord Lovat of the British Forestry Commission regarding the handling of the fourth shipment of American tree seeds being sent over by the American Association. The shipment this year will contain only seeds of Sitka spruce, as none of the Douglas fir seeds are available, due to the failure of the crop in America last year. As a matter of fact, Lord Lovat has informed Mr. Pack, president of the American Tree Association, that the Sitka spruce is particularly desired. The Douglas fir gave most unexpected satisfaction but it is anticipated that results with Sitka spruce will be equally gratifying.

KING GEORGE'S YACHT WAS RELOADED LAST NIGHT South End on Sea, England, July 25.—King George's yacht Britannia which ran aground on the Rhoebury Sands, near the mouth of the Thames today was reloaded to-night. It is believed the vessel is undamaged, as she was found to be lying in soft sand.

BRITISH EMPIRE HAS ONE THIRD OF THE FORESTS

Of The World, Lord Lovat Told British Empire Forestry Association

LOTS TO LEARN To Prevent Waste By Fires And Pests, And Economical Cutting Methods

Ottawa, July 25.—That one-third of the forests of the world were in the British Empire, was the statement made by Lord Lovat, Chairman of the British Empire Forestry Association, at its second convention here this afternoon. Lord Lovat stated that the timber resources of the Empire were better known now than ever before, but that a great deal had yet to be learned about the annual destruction of forests through consumption of pests and fires. At his suggestion the papers presented at the convention will be placed in the Dominion archives for future reference. The party of delegates leave tomorrow via the Canadian National Railway for its trip through Quebec and the Maritime Provinces. The party will return to Ottawa on August 4th when business sessions will be held during the week terminating August 11. During this week the delegates will visit the Petewawa forest experimental station. After concluding business sessions here, the party will leave on August 12 for an extensive tour of Ontario, the Western Provinces and British Columbia. The closing meetings will be held at Victoria, B.C., on September. Besides Lord Lovat addresses were given by representatives from nearly every British possession in the world, including the United Kingdom, India, Canada, New Zealand, Australia, South Africa, Ireland, Colonial Office, West Africa, Malay States, Ceylon and British Guiana. The delegates to the convention were the guests at a luncheon where Lt.-Col. L. G. Courthope, M.P., pointed out the needs of better education on forest protection. The two greatest hindrances to the preservation of forests was ignorance and indifference. Having spoken of ignorance in high places, he said he wanted, as far as Canada was concerned, to congratulate Canada on having a Premier and other public men who are so much interested in the matter of forestry resources.

FRENCH MINISTER WILL MAKE REVIEW OF BRITISH TROOPS. Dusseldorf, July 25.—The French Minister of War, M. Maginot, will go to Cologne to-morrow afternoon to review with General Sir Arthur Godley, Commander of the British forces at that place, a parade of British troops. M. Maginot spent this afternoon inspecting the various French units in the Ruhr. He will terminate his official visit to-morrow morning.

AMERICAN FORESTRY HEAD VISITS ENGLAND London, July 25.—Ralph Hayer, European Commissioner of the American Tree Association of Washington, has arrived in England and will confer with Lord Lovat of the British Forestry Commission regarding the handling of the fourth shipment of American tree seeds being sent over by the American Association. The shipment this year will contain only seeds of Sitka spruce, as none of the Douglas fir seeds are available, due to the failure of the crop in America last year. As a matter of fact, Lord Lovat has informed Mr. Pack, president of the American Tree Association, that the Sitka spruce is particularly desired. The Douglas fir gave most unexpected satisfaction but it is anticipated that results with Sitka spruce will be equally gratifying.

KING GEORGE'S YACHT WAS RELOADED LAST NIGHT South End on Sea, England, July 25.—King George's yacht Britannia which ran aground on the Rhoebury Sands, near the mouth of the Thames today was reloaded to-night. It is believed the vessel is undamaged, as she was found to be lying in soft sand.

INCREASE IN PULPWOOD SALES TO REPUBLIC During Last Quarter As Compared With Corresponding Quarter Last Year

JUNE EXPORTS Of Newsprint Were 127,464 Cwts. In Excess Of June Exports Last Year Montreal, Que., July 25.—A report issued by the Canadian Pulp and Paper Association shows that exports of pulp and paper in June were valued at \$12,368,455, an increase of \$809,773 over the previous month, and the second highest total for the year. Exports of newsprint were greater last month than in June 1922 by 127,464 cwts. Of the above total \$10,051,624 worth went to the United States. For the three months to the end of June total pulp and paper exports amounted to \$38,324,612 against \$25,548,065 for the corresponding three months of 1922. Canadian exports of pulpwood in the three months totalled \$85,511 cords, valued at \$3,524,447 against \$60,875 cords valued at \$2,031,786 in the same three months of 1922. Newsprint production, U.S. and Canada, for the first five months of 1923 was 15 per cent. more than for the first five months of 1922 and 34 per cent. more than for the same period in 1921, according to a Statistical Review, compiled by R. S. Kellogg, Secretary of the News Printing Service Bureau, New York. Imports of newsprint into the U.S. for the first three months of 1923 were 27 per cent. more than in the first three months of 1922 and 59 per cent. more than in the same period in 1921. Exports of newsprint from the U.S. for the first four months of 1923 were 40 per cent. less than in the first four months of 1922, and 23 per cent. less than in the same period of 1921. And Canadian points were 4 per cent. more on May 31st 1923, than on May 31st, 1922, and 34 per cent. less than on May 31st, 1921. Publishers stocks of newsprint were 22 per cent. more on May 31st, 1923, than on May 31st, 1922. Publications awarded decorations to the Near East Relief workers in the sales of Greece, is receiving a hearty welcome. At Corfu a great dinner was given in the historical Kaiser's palace of Achilleon. In Athens yesterday there was a dinner and reception at which King George awarded decorations to the Near East Relief workers. Today, ladies of Athens gave ancient and peasant Greek dances in honor of the party. Mr. Brodie, the chairman, stated to a representative of The Christian Science Monitor his appreciation of the handling of the refugee problem by the Greek Government and people and his own satisfaction in distributing America's financial contribution. He says America is ready to continue its share of help and co-operation with other nations. W.C.T.U. MEMBERSHIP INCREASED BY 25,000 Chicago, July 25.—A bouquet of 25,000 flowers, each representing a new member, was presented yesterday to Miss Anna A. Gordon, world and national president of the Woman's Christian Temperance Union. The blossoms represented new members who have joined the organization since June 14, 1923. The bouquet included pine cones from Maine, wild roses from Iowa, mosses from Minnesota, and almost all varieties of southern California flowers. California led with 7254 new members.

FIRE DESTROYS SASK. TOWN

Feared Whole Of Wynyard, C.P.R. Divisional Point, Will Be Wiped Out By Flames

Wynyard, Sask., July 25.—With a large part of the main business section of the town already smouldering in ruins, flames which are visible over the country for twenty miles are eating steadily at the heart of Wynyard, a Canadian Pacific Railway divisional point, 125 miles east of Saskatoon and the entire business section of the town is faced with destruction. The fire began in Halsey's furniture store at seven o'clock to-night and at 8.40 the furniture store, hardware store, picture theatre, \$15,000 hotel, confectionery, drug store and smaller buildings had been destroyed. Buildings in the path of the flames are being dynamited but as the fire is fanned by a strong wind from the south. It is feared the entire business section will go. Help is pouring in from the neighboring towns of Jansen, Mozart and Elfrico.

NEW GOVERNOR OF BOMBAY Leslie Wilson, M.P., Secretary To Treasury, Gets Important Appointment (Canadian Press Cable) London, July 25.—It is officially announced that Leslie Wilson, M.P., (Conservative, South Portsmouth, Parliamentary Secretary to the Treasury) has been appointed Governor of Bombay in succession to Sir G. A. Lloyd whose tenure expires in December next. Colonel Leslie Wilson was parliamentary secretary to the treasury in both the Lloyd George Coalition and the Bonar Law government. He has also served as Chief Conservative whip since 1921. Commander Eyeris-Monell, now Parliamentary and Financial Secretary to the Admiralty succeeds Col. Wilson in the Treasury Department and Major A. B. Boyd-Carpenter becomes Financial Secretary to the Admiralty.

N.Y. GRAND JURY GIVES REBUKE To Mr. Anderson, Supt. Of Anti-Saloon League For Impertinent Statements New York, July 25.—A sharp rebuke was administered today to William H. Anderson, of the Anti-Saloon League, by the special Grand Jury which last week returned three indictments charging him with grand larceny and forgery and this afternoon handed down the two additional indictments alleging extortion which acting district attorney Peccora announced would be forthcoming. "Impertinent" was what the jury termed statements issued by Anderson and the League after the first indictments and a proclamation urging legislative investigation of the dry organization. These statements said today's presentment reflected on the jurors' integrity. The jurors resent charges that Peccora had played an important part in their findings and made it clear that the recommendation for a legislative probe had originated with them and not with Mr. Peccora.

AMERICAN FORESTRY HEAD VISITS ENGLAND London, July 25.—Ralph Hayer, European Commissioner of the American Tree Association of Washington, has arrived in England and will confer with Lord Lovat of the British Forestry Commission regarding the handling of the fourth shipment of American tree seeds being sent over by the American Association. The shipment this year will contain only seeds of Sitka spruce, as none of the Douglas fir seeds are available, due to the failure of the crop in America last year. As a matter of fact, Lord Lovat has informed Mr. Pack, president of the American Tree Association, that the Sitka spruce is particularly desired. The Douglas fir gave most unexpected satisfaction but it is anticipated that results with Sitka spruce will be equally gratifying.

KING GEORGE'S YACHT WAS RELOADED LAST NIGHT South End on Sea, England, July 25.—King George's yacht Britannia which ran aground on the Rhoebury Sands, near the mouth of the Thames today was reloaded to-night. It is believed the vessel is undamaged, as she was found to be lying in soft sand.

The Quebec Chronicle

Founded June 21, 1864.

Subscription: Daily, Town Subscribers, \$4.00 per annum; Out of Town, \$5.00; Weekly, \$1.50 per annum; payable in advance. Advertisements: Rate card obtainable on request.

QUEBEC, JULY 26, 1923.

A NORTHERN WONDERLAND.

If it were suggested to the average Quebecer that there was much for him to learn regarding his Province, he would probably receive the suggestion with amusement not unmixed with indignation, yet more than 50 percent of the large body of local business men who returned Tuesday morning from a tour of the Lake St. John and Saguenay regions were forced to confess that what they had seen and heard in Northern Quebec had been a veritable revelation to them. Apart from the extensive pulp and paper industry, apart from the gigantic engineering works in progress connected therewith, the main impressions left with one who visits the regions in question for the first time are those of immense distances; of productive, highly developed farms and prosperous farmers; of progressive towns and villages—in the true sense of the term, "cities of homes"; of patient colonists whose labors are inspired by faith in the future, in Providence and themselves; and, above all, of a contented, kindly people, devoted to their patriarchal families and their Church.

To an English-speaking Canadian the unobtrusive, yet almost prodigious hospitality everywhere encountered did not come as a surprise, for it is the characteristic, perhaps more than any other, that he is accustomed to associate with French Canada, but touched him no less profoundly on that account. Here, close to nature and happily remote from the demoralising influences of modern city life, the virtues of an open heart and an open hand reach their highest degree of perfection and an instinctive courtesy is the common birth-right of every class that showed itself in the special efforts made to assure the visitors, among whom were many whose race and religion were not their own, of the sincerity of the welcome extended to them.

Cut off and isolated from the rest of the Province by an intervening wilderness the counties of Chicoutimi and Lake St. John form a world in themselves, but a world of limitless possibilities and the certainty of a rapid development, hitherto more clearly recognized by the business men of Montreal than of Quebec. It was therefore high time that something should be done by the local Board of Trade to offset the strong foothold already gained by the great metropolis and to establish the Ancient Capital in its rightful position as the trading centre of the north.

In order that the opening made by the recent tour may lead to the desired results more rapid and more convenient means of communication than those at present provided are essential and if the highroad from Lake St. John to this city is a matter of sheer necessity for the northern population, it is also one of material interest to Quebecers who should leave no stone unturned in securing the early construction of a motor route capable of bringing Chicoutimi within four hours of Quebec.

Notwithstanding the fact that the Chronicle has taken its stand in opposition to the building of branch lines that must inevitably add to Canada's already onerous burden of railroad debt, he would be cold-hearted indeed who was unable to sympathize with those who eagerly await the coming of the steel to relieve their most pressing difficulties. To appreciate what a railway means to the colonist it is only necessary to contrast the wealth and comfort of the farming country between Hebertville and St. Felicien with the economic struggles and hardships endured by the settlers north from St. Felicien to Peribonka, in spite of all the natural advantages conferred upon them by the soil.

Normandin, which is the nearest of seven parishes to the end of steel, has an area of ten miles by seven and a population of three thousand souls. It produces hay, grain, cattle, cheese, butter, and blueberries for export to the outside world. It also boasts of a number of excellent stores whose business runs into thousands of dollars. All produce shipped out and all merchandise brought in must be teamed to or from St. Felicien, over ten miles away and reached by the most primitive kind of roads. It has been figured that the loss to the parish for 1921 through the transport of outgoing produce alone amounted to \$40,000 and if the loss of the other six parishes, which are in a still worse position, is thrown in, the total will not fall short of \$800,000; figures which suffice to prove the handicap that the colonist must sustain through the absence of railroad facilities.

Those who during the past sixty-five years ventured north and cleared the forest on the shores of Lake St. John, did so in the faith that the railroad would follow them and, thanks to local enterprise, their trust has been fulfilled. Those who, in more recent years, ventured still farther north, did so in a similar faith and are today literally hanging on there in that same faith. Whether as a matter of broad national policy the C.N.R. can afford to undertake further railroad construction at this juncture, or whether it should do for one community what it cannot do for all, is a debatable issue. One thing is certain, however: that the extension of the Lake St. John line from St. Felicien is necessary and even imperative. Hope still encourages the colonist with the promise of future blessings, but the time will come when disappointment conquers hope and the struggle is abandoned as futile. Therefore it is to the interest of Quebec and of the Government of Quebec to do whatever may properly be done to bring about the construction of this extension at the earliest possible moment and thus prevent the wilderness from reclaiming a rich farm-land that has been so painfully wrested from it.

TYPICALLY AMERICAN.

The first announcement has been made of the conditions of the hundred thousand dollar award created by Edward W. Bok for the "best practicable plan by which the United States may co-operate with other nations to achieve and preserve the peace of the world."

In making the first public statement of the Award in early July, the Committee in charge of the Award stated that the conditions would be announced within a few weeks, or at some time before August first. All plans received by the Committee up to now have been returned to the senders, who have been notified that they will receive copies of the conditions when published.

The conditions define broadly the scope of the plan sought, as follows: "The winning plan must provide a practicable means whereby the United States can take its place and do its share toward preserving

world peace, while not making compulsory the participation of the United States in European wars if any such are, in the future, found unpreventable. The plan may be based upon the present covenant of the League of Nations or may be entirely apart from that instrument."

It is said to be possible that in addition to the main award of one hundred thousand dollars, several smaller awards may be made. The Jury of Award may select a plan which is a composite of the best plan and of ideas or sections taken from each of several plans. If the Jury decides to select a composite plan of this kind, there are also offered by Mr. Bok a second, third, fourth and fifth award of five thousand dollars each, for any plans or portions of plans used by the Jury in a composite plan. If, however, the Jury of Award accepts one plan in full, making no additions to it from other plans, no subsidiary awards will be made.

The main award of one hundred thousand dollars is to be made in two payments: fifty thousand dollars will be paid to the author of the winning plan as soon as the Jury of Award has selected it. The second fifty thousand dollars will be paid to the author if and when the plan, in substance and intent, is approved by the United States Senate; or if and when the Jury of Award decides that an adequate degree of popular support has been demonstrated for the winning plan.

The underlying idea of this competition, that anything can be done or obtained if enough money is spent on it, is typically American although Mr. Bok's motives are no doubt worthy of all praise. Unfortunately as the objection of the American Senate has all along appeared to be, not to the League of Nations, but to the foreign entanglements which membership in it must necessarily involve, there is little prospect of this gentleman having to pay the full award. Not being of American citizenship, either by birth or naturalization, we are not eligible to compete for the fortune offered as first prize. For the benefit, however, of prospective aspirants and without fee or commission of any kind, we suggest as a plan the creation of a national organization and a national fund to secure the election to the Senate of men who are not afraid of foreign entanglements. If such men cannot be found and cannot be elected, it is hard to see how any other plan will realize the objective that Mr. Bok has in view.

Wrangel Island, whose annexation is urged upon the British Government by Stefansson, is claimed by Russia. Does this mean another wrangle?

Sir Henry Thornton has just discovered that he can't build branch lines without the consent of Parliament and his whole day has been spoilt.

Baldwin says that Britain hopes for success in its efforts to settle the reparations question. Hope evidently springs eternal in Baldwin's breast.

The Toronto bandit who fled with \$125,000 in currency might have made an honest living as a strong man. If you don't believe it ask your banker how many tons that amount of currency would weigh.

A Verse Or Two

MARIA CHAPPELAIN.

How fare's life now on Peribonka's shore?
Doth the great solitude of forest press
Upon thy gentle spirit as of yore
With its vast weight of utter loneliness?
Or did the chosen of thy heart fulfill
The sacred word of his pre-nuptial pledge,
And from the forest carve new fields to till,
And so set further back the forest's edge?
Or still doth its oppressive shadow smite
Thy door, and in thy meditative moods,
Recall lost love that perished in a night
Of winter storm within the trackless woods?

Thy loved Francois, whose simple offerings were
Less lovely but more loved than his, who bore
The pictured ease, the glamor, and the glare,
Of the far city to thy cottage door.

Yet these allurement thou didst turn aside,
And chose thy Europe, who knows what toil,
What labor goes to make the harvest tide,
What battles with the season and the soil.

Now with th' immortal Marys of sweet song,
And tender story, he that tells thy tale,
Hath linked thy name and loveliness as long
As love and home affections shall not fail.

—J. C. M. Duncan.

Press Comment

CAN'T BE DONE.
(St. Catharines Standard.)

The Prince of Wales proposes to come to Canada and travel incognito. Your Royal Highness, we tell you right here, it can't be done.

THE SAME GENTLEMEN.
(Hamilton Herald.)

Messrs. Livingstone and MacLachlan, who declare loudly that Canadian citizens will not submit to "foreign" domination at the hands of the U. M. W. President, are the same gentlemen who have been trying to place the Nova Scotia miners under the domination of the Moscow Reds.

GOVERNMENT SERVICE.
(Cape Argus.)

There has been a tendency for many years past to make civil servants of nearly everybody who happens to do work for the Government. It seems to us that in the interests of economy it is time that some guiding rule should be laid down regarding the particular type of work which may fairly be rewarded with a pension and the other privileges peculiar to public servants. Perhaps as good a rule as any other would be that, apart from the regular members who make the public service a career, only those who by reason of the specialized work they are called upon to do become unfitted for outside employment, should be entitled to enjoy the advantages of the fixed establishment.

A VERY DIFFERENT MATTER.
(The Villager, New York.)

Ten years ago the West rated the East barbarians. Where the East resisted the Western culture, the West said it was because of ignorance and superstition. This ignorance once conquered, the East once educated to Western ways, once the Eastern dark pierced by the sun of Western religion, Western progress, and Western trade, all would be easy sailing and resistance at an end. That was ten years ago. How much less sure of its message is the West today? No longer is it certain that only ignorance and stupidity account for the Eastern hatred of Western civilization; no longer does the West think of the East as outlandish, as inferior, as barbarian; it thinks of the East now as different, positively, obstinately, perhaps unalterably different.

IMPORTANT WORK ON REPARATIONS

Done By Little Group Of Americans During Past Four Years

Paris, July 9.—(By Mail)—While the United States government has limited its activities in the reparations embryo to an official observer, and since the Versailles Treaty has watched the problem as it became more intricate day by day, there has been a little group of Americans here for the past four years who have taken anything but a minor part in the vast work of the reparations commission.

This unheralded little group constitutes the staff of accountants with the commission, and is headed by George P. Auld, formerly an officer of the United States navy, who holds the post of Accountant-General. He is responsible directly to the commission for the completeness and accuracy of all financial records having to do with the receipt and disbursement of money and commodities handed over by Germany.

The position of Mr. Auld with the commission is entirely individual, as he has no connection with the United States or any other government. His staff of about 20 Americans comes under the same classification.

The task of the accountancy department is one of the most difficult of the commission's work. To strike its daily and monthly balances, it must deal with ships, livestock, abandoned war material, rolling-stock, coal and coke, dyestuffs, and a score of other commodities, as well as the actual cash payments of German gold marks. When the balance sheet has been totaled, it is necessary to render the totals in marks, pounds, francs, lire and dollars. The commodity valuations have been made in nearly all the currencies of Europe, as well as in dollars.

When currency payments are made, they are immediately converted to gold through the dollar rate, with roughly four marks equalling one dollar. The accountancy department receives the New York exchange rate for 20 or 25 countries by cable each day, and with these rates as a basis, daily, weekly and monthly parities between the various currencies are established. At the end of each month a complete report is made, showing the amount Germany has paid to date, and how it has been distributed among the Allies.

Much of this work is done by the American staff. One computes the value of coal from the Ruhr; another determines the worth of live-stock in francs, dollars and pounds; another reduces locomotives to marks and then to lire, while another one quotes ducks, geese and chickens in dollars, sulders and crowns.

At the end of 1922, the accountancy department under Mr. Auld had whittled the miles of figures into an intelligible report, showing that Germany had turned over to the Allies a grand total of \$1,982,000,000. Of this sum \$454,000,000

was in cash; \$289,000,000 in commodities, and \$239,000,000 in state properties of ceded territories.

The ships she had parted with totalled two and a half million gross tons, valued at \$177,000,000. Of rolling stock she had delivered 4,152 locomotives and 127,000 wagons, worth \$207,000,000. The livestock included 529,000 head, exclusive of poultry. This was given a valuation of \$40,000,000. The coal, coke and lignite delivered exceeded 48 million tons, worth \$237,000,000, the dyestuffs totalled 23,000 tons, valued at \$15,000,000, and the miscellaneous commodities, too numerous to classify, were determined to be worth \$134,000,000.

The selection of Mr. Auld to head the important accountancy bureau of the reparations commission was made after he had spent several months in Paris as assistant financial advisor to the Peace Commission. Although only 42 years of age, he had served a number of years in the United States navy, and was given the task of organizing the cost and financial control maintained by the navy department in about 100 large industrial plants doing work for the government before the Armistice. When asked to take a post with the reparations commission, he resigned from the navy to accept.

The inter-allied accountancy organization now has bureaus in Berlin, Essen, Weisbaden, Budapest and Upper Silesia. The Paris staff consists of about 100 persons, made up of Americans, French, English, Italian and Belgians.

The commodities section is headed by W. L. Quillman of Cohoes, N.Y., formerly of the U.S. Army Liquidation Board in Paris. This bureau at Essen and Weisbaden are in charge of the E. W. Erne, for-

merly in the accountancy department of the Pennsylvania railroad. The branch set up at Berlin to handle the task of revaluating German war material sold for reparations was until recently directed by Captain Oliver K. Badgley of New York.

Another American with the commission is Royal Tyler of Boston, in charge of the personnel department under the General Secretary. He also acts as advisor to the commission when matters arise concerning the art treasures of the late Austro-Hungarian monarchy, upon which the reparations commission has first lien. Mr. Tyler's chief assistant in the personnel department is I. J. Nochary of New Orleans.

Heading the dyestuffs bureau of the commission is Reginald Norris of Oregon, who has superintended the sale of some 3,000 tons of German dyestuffs to the American Tex-

tile Alliance on the commission's account. Guy E. Greer of Kentucky is second in the important coal bureau of the Commission, the chief of which is an Italian.

DAVISON SCHOLARS ANNOUNCED.

Cambridge, July 10.—(By Mail)—The winners of the H. P. Davison scholarships for 1923-24 have been announced by the University Committee.

They are W. D. Macpherson (Harrow & Trinity), Scholar of Trinity, and Captain of the Real Tennis Team, who will go to Harvard; E. C. Moule (Weymouth and Emmanuel College), Scholar of Emmanuel, and a Rugby football player, who will go to Yale; and H. St. D. Nettleton (Eton and King's College), Scholar of King's, lightweight boxer, oarsman and actor, who will go to Princeton.

MGR. CLOUTIER IS BACK FROM ROME.

After eight months absence Mr. I. O. Cloutier, representative of His Eminence Cardinal Beugin in Rome, returned to Quebec yesterday. With him was Mr. Pelletier, former Rector of Laval. Mr. Cloutier stated that he would remain in Quebec until November when he will return to Rome to occupy his present functions.

LIMIT HOLDERS MEET MINISTERS

Large Delegation Asks That Old Stumpage Dues Tariff Be Maintained

A request that the stumpage dues, as collected under the tariff in force in 1918, be maintained, was presented to the Provincial Cabinet by a very representative delegation of timber limit holders yesterday afternoon. The Ministers present, including the Premier and Hon. Honore Mercier, Minister of Lands and Forests, promised their demands would be given very careful consideration and that an answer would be given in the very near future.

It was pointed out that last year the 1920 tariff was not enforced on condition that lumber camps be operated to their fullest extent, which was done, according to the members of the delegation. The limit holders had, in doing so, taken great risks, but they had kept their promise. Now they were faced with having to come under the 1920 tariff which was 20 per cent higher than the old one, while there was only very slight improvement in general conditions in the trade and continued increases in wages.

The delegation also asked that the tariff be fixed for a period of years, and not subjected to a yearly fluctuation which tended to make for uncertainty and consequent lack of initiative in operations.

The delegation, which was introduced by Gerard Power, consisted of:—Sir Henry Egan, Hon. George Bryson, Brigadier-General White, Messrs. Gerard Power, Dan McLaughlin, John Black, E. A. Dunlop, D. C. Champoux, R. F. Grant, F. G. E. Gillis, W. O. Grant, Jack Price, F. Hall, R. O. Sweeney, J. Hamilton, J. W. Smith, S. J. Fisher, John Power, M. Nesbitt, A. Sebun.

SUCCESSFUL SALE OF CITY BONDS

Levis City Accepts Offer Of 99 For 30 Year 5% Debentures

(Special to The Chronicle)

The City Council of Levis held its regular meeting last night.

It was decided to charge the town of Levis for the assistance given by the Levis fire brigade to help fight a recent conflagration, a sum of \$200.

The city attorneys were instructed to offer a citizen of Quebec who claims he was unlawfully arrested, a sum of \$25.00.

The Council decided to pay the fine of \$500 which was imposed upon the city by the council of hygiene for neglect to construct a filter.

The decision to grant the contract for the construction of the new filter to the Smith Company of Montreal was adopted.

An offer of \$9 for \$55,000 worth of 30 year debentures bearing 5 per cent interest, made by J. B. Couture, was accepted. There were seven tenders.

Levis Tramway Employees

A meeting of the Levis Tramway employees was held last night and the following officers were elected: President, Alfred Genest; vice-president, Roch Duval; secretary, T. Liotte; treasurer, Elgin Doe. Arbitration committee, Adjutor Roy, H. B. Weyman and Jos. Lemieux. Visitors of the sick, Onesime Guay and Leon Cote.

GREAT IMPROVEMENT IN FIRE SITUATION

NEWSPAPERS AND MAGAZINES As Factors In Literature Discussed By Mr. Henderson Before Rotary Club

Canadian Newspapers and Magazines were discussed in an address delivered by Alfred Henderson, writer and traveller, at the Rotary Club luncheon yesterday. Mr. Henderson said, in part:—

"A newspaper is as good as the town or city will permit it to be no more, no less! If the newspapers of your city do not satisfy you then you are to blame and you alone. Try to accept this primary responsibility and then subscribe to them all. This is the only way to make your newspapers really genuine success. The more readers a newspaper has the greater its power for good. No one believes that any Managing Editor would abuse his position and work against the people of his city or town or country. If such were the then they are not editors at all, in the true sense of the term but merely figureheads of house organs. The first duty of an editor is to give news. The first duty of a reader of newspapers is to know what the news can be to any individual. You must realize that paper whose views are opposed to his own. If I am a Liberal then I will read the Conservative organs even more keenly than I study those reflecting my own particular prejudice. If I am a member of the Knights of Columbus then I will read the organs of the Ku Klux Klan until I could attend a meeting of the party opposite to me without raising a hair, or an axe.

You have many more problems here in Quebec than in most other cities of North America. You have the Bi-Lingual problem. During the past two months during which I have had opportunity of studying Quebec and its friendly people at close range it has often occurred to me that you do not, as a whole, realize, recognize or appreciate the benignity of the government under which you live. In the United States yellow press I have been taught that the British rule was one of terror and oppression and yet I find here perfect liberty and equality and fraternity existing where ninety-fifty of the population speak French better than English and at least fifty per cent do not speak the English language at all. Now this is delightful and wonderful I have often thought of the time I lived in Schleswig-Holstein in 1905 when it was all under the gentle German rule. There everyone did the Gooose-Step and spoke only German. When Dr. Nansen returned from his voyage "Farthest North" and wished to give a lecture, he was not allowed to give it in Danish (he is a Norwegian) but he had to give it in German. Today by a curious coincidence the good Dr.—I heard him in Christiania last year—is championing the cause of the Bolshevik.

In Alsace-Lorraine the French language was banned altogether and today many of the people think in German and might even be prevailed upon to take the side of Germany against England. Here, however, we seem to have two languages and two flags, though I sincerely hope, for the future well-being of Canada as a whole that one flag will prevail and the present union of the English-speaking peoples all over the world in International Councils is the best guarantee for the Peace of the World!

Have two languages by all means, but never only one. Avec les deux langues, le Français et l'Anglais on peu faire le tour du monde aujourd'hui. Et la langue Française est toujours la langue du diplomate et de la societe. But, the universal language of the world of business, of commerce, is English and to keep your child from the study of the world's universal language of business is to deprive him of the use of an arm.

The greatest criticism that can be made against the average Canadian newspaper today is its provincialism. There are too many small town papers and not enough newspapers. Take any large paper in the United States of America and you will find more news columns devoted to the Dominion of Canada than you will find in the average Canadian sheet. My experiences of the past four months have amply proved this to be the fact. The Editor of a Toronto paper said to me: "We are trying to make our paper tell all about Toronto and very little about any other place!" With such a limited viewpoint can you wonder at the provincialism of the average Ontarian and can you wonder at the dull and dry Sundays in Toronto. We must wake up to the fact that the average reader is a citizen of the world, but he can only know as much of the world as a whole as the vision of the editor will allow.

When we come to the question of Canadian magazines we approach an even more acute problem that is the case with the Canadian newspapers. Here the competition of the magazines from the United States is acting like a strangulation group that throttles every day more strongly. Now three reasons are possible for this state of affairs. Either

- (1) the American magazine is better than the Canadian;
- (2) the American magazine is more widely advertised;
- (3) the Canadian reading public is apathetic to its own magazines and their writers.

Possibly the real explanation is that a combination of all three reasons result in the sad state of affairs that only two magazines in the whole of Canada really and truly form good paying propositions. One of these is MacLean's, which wins out on merit alone. At the price of fifteen cents no country produces a better magazine. The current issue contains the Stephen Leacock drama series of supreme satires that are also running in Harper's at 85 cents per issue. You will find that they

QUEBEC RAILWAY MAY ALLY WITH QUE. POWER CO.

An Offer Made By Latter Unanimously Recommended By Directors Of Former REDUCE CAPITAL STOCK

New Company Plans To Place Ten New Cars In Service In Two Months

At a joint meeting of the directors of the Quebec Railway, Light, Heat & Power Company and the directors of the Quebec Power Company formerly the Public Service Corporation, it was unanimously decided by the directors of the former company to advise the shareholders of the Quebec Railway to accept an alliance with the Quebec Power Company on the following basis:— To exchange four shares of Quebec Railway common stock for one share of Quebec Power Company, thus reducing the capital stock of the company from \$10,000,000.00 to \$2,500,000.00.

To exchange the income bonds of the Quebec Railway Company for preferred stock in the Quebec Power Company on a basis of \$50.00 paying 7 per cent interest or to sell the bonds at \$27.00 cash. This will further reduce the stock from \$2,500,000.00 to \$990,000.00.

Both these cuts in capital will aggregate a reduction of \$9,010,000, and it is argued by the directors of the Quebec Power Company that it is sounder financing to wring all the water out of the stock. It is also pointed out that the Quebec Power is operated on a very sound basis. The company is earning a 10 per cent dividend although only paying 5 per cent.

The directors of the Quebec Power Company hold that if the alliance is consummated they will give the Quebec Railway a good management and will so invest every dollar that it will bring returns to the shareholders.

It is planned to have ten new street cars in the service within two months and also to have three new locomotives in the service on the St. Anne de Beaupre line.

The offer of the Quebec Power Company is open for acceptance until twelve o'clock noon (Standard Time) on Friday, the 28th day of September, 1923.

THE POLICE ARE RECORD MOVERS

Transferred Quarters From No. 3 Station To King Street In A Jiffy

Notice having been received by the Police Department yesterday morning that No. 3 Police Station will be torn down to make way for more suitable police quarters, it was necessary to provide new quarters for the men and also to transfer all their belongings.

Within half an hour arrangements had been made to occupy a vacant store at 270 King street, and it did not require much more time for the men to move all the furnishings and other belongings.

By the middle of the afternoon, the telephone had also been moved to the new quarters as well as the gas stove and all the connections made.

The work on the new police station, which is facing Jacques Cartier Square, will be started immediately. It will be a two storey building. On the first floor will be the station quarters and on the floor above will be a hall for the policemen.

The cost of the new station will be \$25,000, and it must be ready for occupation by the 1st of December.

U. S. TRAINING SHIP ARRIVED YESTERDAY.

The U. S. S. Wilmington, Capt. A. F. Nicklett, an American naval training ship from Portsmouth, N.H., bound to Toledo and Cleveland for the men and also to transfer all their belongings.

The ship is now at anchor in the middle of the stream and directly off Champlain market. The Wilmington will only remain here, it is understood, until some time today, when she will proceed to Montreal.

BIG INCREASE IN VISITING AUTOS.

Official figures on hand at the Public Works Department show an increase of nearly 50 per cent in the number of Ontario and United States automobiles, which have crossed the Batican Bridge in July over the figures recorded last year.

Batican Bridge is located on the Quebec-Montreal Highway and with the ferry is a reliable source of control of the outside traffic.

U. S. SHOULD STAY OUT OF WORLD COURT.

SAYS SEN. JOHNSON.

New York, July 25 — That the United States should stay out of the World Court and the League of Nations and that the nation's foreign policy should be decided at the polls in 1924, were the emphatic declarations tonight by Senator Hiram Johnson, of California, who recently returned from a tour of Europe, speaking at a dinner in his honor given by a committee composed largely of men who supported the late Theodore Roosevelt in his third party campaign for President in 1912.

FORESTRY EXPERTS TO VISIT QUEBEC

Will Arrive On August Third And Will Be Entertained At Luncheon

Forestry experts from all parts of the British Empire will visit the city of Quebec on August 3rd when they will be entertained at a luncheon in the Garrison Club at which Premier Taschereau will deliver an address on the importance of our forest resources, the need of protection of that most valuable asset, the development of the forestry reserves, and other matters of particular interest to the visitors who are now gathered in Canada for the Imperial Forestry Convention which is to be held in Ottawa.

The delegates to the conference, who represent Great Britain, Australia, New Zealand, South Africa, India and Canada, will reach Montreal today when they will leave for Quebec where they will visit the plantations of the large pulp and paper mills. The party will then proceed to the Lake St. John district and on their way inspect several of the mills belonging to the Price Bros. at different places along the line. They will be taken to view the extensive operations at the Grande Decharge returning to Quebec via the Saguenay river.

From Quebec they will leave Sunday July 29 for New Brunswick where they will visit Chatham and St. John and probably spend a day in Nova Scotia whence they will turn back again, reaching Quebec for the second time on August 3rd at 8 a. m. The delegates will leave for Berthierville the same evening and spend Saturday August 4 at the latter place where they will visit the Provincial Government nurseries and where they will be entertained at luncheon. From Berthierville they will travel to Montreal and thence to Ottawa where the meetings of the conference will be continued for a few days.

From the capital the party will go to Petaawawa, will visit the southwest part of the province of Ontario and after a short stop at Toronto will proceed to Niagara Falls and from there through the western provinces and the Rocky Mountains to the Pacific Coast where they will visit some of the large forests, lumber camps and other places of interest.

The party will break up after the tour of British Columbia.

UNIVERSITY LEAVING EXAMS.

Eleven Pupils Of Commissioners' High School Are Successful

The following are the results of the University Leaving Examinations (Grade XI) for the Commissioners' High School. The maximum marks are 1000.

Sadie Lazarovits, 752; Bessie Bradley, 690; Nathan Fish, 688; Mary Barton, 652; Sophie Apter, 621; Ethel McLaren, 618; Pauline Morrison, 615; Constance Brehaut, 598; Harry Altner, 591; Gertrude O'Neill, 540; Unranked, Feodora Lazarovits.

The following also qualified for Matriculation into Arts at McGill: Sadie Lazarovits, Bessie Bradley, Nathan Fish, Sophie Apter, Ethel McLaren, Pauline Morrison and Constance Brehaut.

PROVINCIAL SECRETARY STUDYING OFFERS.

The announcement that the Province of Quebec is in the market to purchase \$250,000 worth of bonds issued by the Province has brought a series of most favorable offers, which are now being studied by the Hon. Jacob Nicol, Provincial Treasurer. The move towards in Canada, of purchasing back each year with part of the surplus, bonds before their maturity, has been favorably interpreted by brokers, who have complimented the Government.

PREMIER IS GOING TO SHAWINIGAN.

Premier Taschereau will leave on Friday for The Pointe, Riviere du Loup, to spend the week-end with his family. He will return here on Monday, leaving almost immediately for Shawinigan Falls where he will deliver an address at the opening of the Convention of the Union of Canadian Municipalities.

FOUR SAILORS RAN INTO TROUBLE.

Four sailors were taken in charge by the police of No. 4 Station yesterday. One of them is charged with breaking a table in a restaurant, while the three others are accused of breaking a window blind on Grant street.

MISSOURIAN HAS SOLVED PROBLEM OF COSTLY TRAVEL

Spends Year Visiting The Most Fashionable Resorts

At \$1.55 A Day TAKES HOME WITH HIM

Sixty-Seven Year Old Tourist Is Having A Whale Of A Time

The most original and resourceful tourist who has come to Quebec in a long time is assuredly George E. Gullion, aged 67 years, a retired farmer of Hannibal City, Missouri, who arrived here yesterday in his Ford car, which he smilingly describes as his travelling, dining, sleeping and parlor car.

Shortly after reaching the city Mr. Gullion, who travels alone, sought out the Chief of Police to get permission to set up his travelling home on the Esplanade which appeared to him a very convenient camping ground. The Chief however, had a better suggestion to offer and gave the visitor permission to park his car on the wooden platform in the rear of the City Hall where he will not be bothered by any prying intruders.

Born a short distance from the home of Mark Twain, the celebrated American humorist, Mr. Gullion is himself gifted with a keen sense of humour, and having travelled extensively both on this continent and in Europe he converses very interestingly of his experiences.

In his little Ford car he has travelled 35,000 miles and as his average is from 70 to 80 miles a day with stops of a few days in outlying surroundings, it may be seen that he has been a long time on the road. As a matter of fact, this has been his mode of amusement for a number of years. He has spent several winters in California as well as in Florida and wherever he goes he travels in his Ford, sleeps in his Ford and eats in his Ford. The past winter he spent in Florida, chiefly at Miami, which he extols as the sweetest place on the continent. He left Tampa, Florida, on April 1st, and following the Dixie Highway he came right through to Quebec.

Mr. Gullion tells his story very simply. He relates that as a young man he operated a 400-acre farm in Missouri where he raised wheat, corn and clover as well as livestock specialising in red hogs with which, he says, he made his money. He still has 300 acres of his farm which he visits once a year for a short while between his travels.

Mr. Gullion has not limited his travels to this continent, for he spent the years 1911 and 1912 in Europe and toured England, France, Ireland and Scotland. On leaving Quebec he is going back to Hannibal and his present plans are to leave for Europe early in the fall. He will visit Jerusalem and will go hop into Egypt to have a look at "King Tut" and other things worth seeing there.

He affirmed that the reception which he received from Chief Trudel was the most hospitable he had met in any strange place he had visited. He then took the Chief out to see his car, which was fitted up to his liking. He showed a most profuse deft movement, he showed a well equipped kitchen, consisting of a gasoline stove, all kinds of utensils, and such a variety of supplies that a full course dinner would have been a small matter. Mr. Gullion cooks all his own meals and thus reduces his travelling expenses to a minimum. He affirmed that his daily expenses do not exceed \$1.55 to \$1.60 a day. From one corner of a cupboard he produced a jar of Missouri peaches and from another a jar of Florida strawberries, which he had preserved himself. He said that he had purchased three quarts of strawberries in Florida for 25 cents.

Today Mr. Gullion is motoring to Ste. Anne de Beaupre and he remarked that he feels so much at home here that he may linger for a week.

MR. LLOYD GEORGE CALLS TURKISH PACT HUMILIATING

London, July 25.—Mr. Lloyd George addressing a meeting of National Liberals, his followers in the Labour Party last night, contended that the coalition Government had succeeded for nine months in preventing the French from entering the Ruhr, but since the present Government came into power, with a policy of greater friendship for France "that part of folly has been perpetrated and the economic life of Europe thrown into confusion, while the most humiliating peace with Turkey this country ever signed has been concluded."

WORLD COURT JUDGES VOTE NOT TO ADVISE

The Hague, July 25.—Yesterday the World Court declared itself incompetent to give advice on the question of the autonomy of East Karelia between Finland and Soviet Russia, as the latter was not willing to co-operate before the Court. The president, C. A. Welsa of France, and Judge Nyholm of Denmark, Judge de Bustamante of Cuba, and Judge Alamiara of Spain dissented from the majority's decision.

WOMAN PAINTED WHEN TOLD GOWN WAS STOLEN

Cleveland, Ohio, July 25.—A woman painted here today when told a new silver and gray "gown" she had been wearing nearly a month was a burial shroud that had been stolen from a freight car.

Two fifteen year old boys were sentenced to a reform school for the theft of eight shrouds of which the one was a part.

Another woman had accused one of the "dresses" and had worn it in blissful ignorance.

LEFT YESTERDAY FOR CONFERENCE

Minister Of Lands And Forests Will Follow Meetings Of Forestry Convention

Hon. Honore Mercier, Minister of Lands and Forests, left last night for Ottawa, where he will assist at the Imperial Forestry Conference which opened officially yesterday afternoon. The Minister will be accompanied by Gustave C. Piche, Chief Forester of the Province, who will read an important paper on the forestry situation in the Province of Quebec.

Representatives from all parts of the British Empire will take part in the deliberations of the conference and Major-General Lord Lovat, K.T., K.C.M.G., D.S.O., President of the British Forestry Commission, will occupy the chair.

Among those who will take an active part in the meetings of the conference are the following: Sir James Calder, Technician of the London Forestry Commission; Professor R. S. Troup, Director of the School of Forestry affiliated with Oxford University; Dr. A. W. Borthwick, Fraser Storey, Dr. J. W. Munro, all members of the British Commission, and prominent authorities on forestry from Australia, India, South Africa and New Zealand.

BRITISH FARM LABORERS COMING TO CANADA

Montreal, July 25.—Preparations are being made by the Canadian National Railway officials at Quebec and Halifax to handle the large traffic in British farm laborers which is expected to begin around the second week in August. As a result of the reduction in fares advertised by steamship companies in the British Isles, it is reported, several thousand young Britishers will cross the ocean. Most of them will be sent through to Winnipeg for distribution.

C. N. R. EARNINGS

Montreal, July 25.—The gross earnings of the Canadian National Railway for the week ending July 21st, were \$4,680,422, being an increase of \$340,294 or eight per cent as compared with the corresponding period of 1922.

The gross earnings of the Canadian National Railway from January first, 1923, to July 21st, have been \$130,817,385.36, being an increase of \$15,014,082.98 as compared with the corresponding period of 1922.

EX-COAL MINERS STOLE RIDES AND LANDED IN JAIL

Brockville, Ont., July 25.—Out of work and penniless because of the Nova Scotia coal strike, five coal miners belonging to Sydney, Daniel McLean, Robert McLean, George Collins, Jack Parr and Benjie Coughlin were arrested by railway police here last night while attempting to beat their way to the Windsor border, where they planned to enter the United States. They were sent to jail for a week.

Make it an every morning habit to shine with 2-IN-1 Shoe Polishes

BRITISH COLUMBIA TO HAVE NEW WINE INDUSTRY.

Victoria, July 25.—Arrangements have been completed between the liquor control board and 300 loganberry growers of the Saanich district for the establishment of a wine industry here. The wine will be made from the loganberry which, as a result of tests conducted during the last two years by liquor department officials proves to be of superior quality. The first output under the arrangement will be 5,000 gallons. Producers will get about \$2 a gallon for their product.

GRANT ASKED FOR ARGENTINE ARMY

Buenos Aires, July 25.—President de Alvear today sent to the Senate for secret consideration a measure requesting authorization to spend 155,000,000 gold pesos to modernize the Argentine Army, according to La Razon.

The "negative results" in the efforts to limit South American armaments at the recent Pan-American Conference, and "our state of being almost disarmed, as compared with our nearest neighbors," are given by La Razon as the reasons for President de Alvear's action.

AWARDED MEDAL

Hamilton, Ont., July 25.—Negotiations with Ottawa by the Soldiers' Aid Commission here have resulted in the awarding, after 53 years, of the Canadian general service medal and clasp, 1870, to a Hamilton man, Joseph Tolhurst, 46 Paradise Road. He served in the third company, Seventh Battalion, active militia of Canada, from November 25, 1869, to February 3, 1873.

CHINESE BOMBARD AMERICAN VESSELS.

I-Chang, Hupeh Province, China, July 25.—Steamers arriving on the Yangtze River from Chungking, report that the American steamship Alice Dollar and a British vessel under escort of the American gunboat Monocacy, were heavily fired on near Chungking. The Monocacy, according to the report, returned fire, doing considerable damage.

EX-COAL MINERS STOLE RIDES AND LANDED IN JAIL

Brockville, Ont., July 25.—Out of work and penniless because of the Nova Scotia coal strike, five coal miners belonging to Sydney, Daniel McLean, Robert McLean, George Collins, Jack Parr and Benjie Coughlin were arrested by railway police here last night while attempting to beat their way to the Windsor border, where they planned to enter the United States. They were sent to jail for a week.

JACK DEMPSEY WILL FIGHT FIRPO IN SEPTEMBER

FEATHERWEIGHTS IN FINE FETTLE

For Boxing Bout Tonight—Criquei And Dundee Say They Will Win

New York, July 25—Eugene Criquei, French holder of the world's feather-weight boxing crown, and Johnny Dundee, the Italian-American challenger, were pronounced tonight to be fit and ready for their match tomorrow night at the Polo Grounds.

Both boxers were well under the 126 pound limit today, Dundee scaling 124 1/2 after a light workout and Criquei a half pound less. They will be close to those figures when they enter the ring.

Boxing followers anticipate tomorrow one of the keenest title fights of a man that already has witnessed a half dozen championship contests. Among experts, Dundee has been a slight favorite, but the Frenchman who demonstrated his speed and punching powers in knocking Johnny Kilbane from the throne nearly two months ago has many ardent backers.

Both are clever ring generals and good boxers. Criquei is a "youngster", has some advantage in height and reach and is a harder hitter, but Dundee's supporters believe the challenger's endurance and aggressiveness will offset these advantages.

The advance sale reached \$100,000 today, according to promoters, who announced they expected it to exceed \$150,000 by tomorrow night. Arrangements have been made to handle a crowd of 65,000.

Pre-battle declarations of confidence were issued tonight by both fighters. They follow:—

Eugene Criquei—"I think I will win in 10 rounds. Dundee may keep away that long but in that time I will surely get to him. I saw Dundee fight Bernstein and thought he won. I will take no chances on a decision, but will win by a knockout. I never felt better or stronger. I am even better than I was against Kilbane, for I have had more time to get used to the climate and the conditions here."

Johnny Dundee—"I will beat Criquei. No man my weight can win from me. I have been fighting lightweights and welterweights. I never could get Benny Leonard to make weight for me or go to a decision at the title weight, so why should I fear Criquei. Outdoor training has done wonders for me. I was never better, faster, or stronger. I will not say what method I will use with Criquei or what round I will stop him in, but I will say that I will beat him. I never had more confidence."

BONAFIDE WON THE FIRST RACE

Financial Rooster Was Also A Winner At Mount Royal Yesterday

Montreal, July 25—Mount Royal results:—First race, three year-olds and up, 6 furlongs—Bonafide, 117, Garley, 33.95, 32.30, 32.16, won; Sainmour, 117, Chappelle, 32.50, 32.10, second; Dorrien, 103, Ackinson, 32.40, third. Time 1:13 1/5. Fitzbarr, Jamaica also ran.

Second race, three-year-olds and up, 6 1/2 furlongs—Waterford, 113, Forrest, 44.60, 42.30, 42.20, won; Alazon, 111, Denner, 45.00, 43.15, second; Eva Fox 111, Moore, 42.95, third. Time 1:11 2/5. Miss Flora, Carruthers, Ruby, Louis Adair and Kathleen K. also ran.

Third race, three-year-olds and up, 5 1/2 furlongs—Chow 113, Taylor 99.95, 92.60, 92.25 won; Topnoter 113, Foden, 92.00, 92.20 2nd; Forge Ahead, 113, Ryan, 92.65, third. Time 1:11. Annette Teller, Last Girl Queen Mazonia, also ran.

Fourth race, for 4-year-olds and up, six furlongs—Max Gold, 111, Jackson, 59.20, 54.15, 52.50, won; Hemlock, 111, Gray, 57.15, 52.65, 2nd; Hohokus, 115, Ball, 52.35, third. Time 1:18 1/5. Haran and Huttontrope also ran.

Fifth race, 4-year-olds and up, 1 mile and a sixteenth—Financial Rooster, 110, Moore, 45.25, 42.50, 41.00, won; Ferrum 105, Perry, 42.75, 40.20, second; Ace, 111, Primrose, out. Time 1:54 4/5. Sir Galahad 2nd, also ran.

SIXTH RACE, FOR THREE-YEAR-OLDS AND UP, ONE MILE AND SEVENTY YARDS—Armistice, 113, Jackson, 84.15, 83.20, 82.30, won; Top Run, 116, Smith, 84.85, 82.80, second; Crimson Rambler, 111, Moore, 82.20, third. Time 1:52 3/5. Humpy Harry, Clover, Fayette and Pierrot also ran.

SEVENTH RACE, THREE-YEAR-OLDS AND UP, 1 1/2 FURLONGS—Plint, 113, Flynn 56.10, 54.00, 52.95 won; Runnald, 113, Denner, 54.76, 52.75 2nd; Cleona, 99, Perna, 52.30, third. Time 1:13. Daisyman, Eddie Green and Doctor D. also ran.

RACING SHEETS IN QUEEN CITY

Now Being Distributed By Trucks According To Latest Newspaper Report

Toronto, July 25—A truck was seen on the streets this morning distributing large bundles of the racing sheets to dealers, agents and news vendors. There was no attempt to hide the banned wares. There was, on the contrary, a certain affluence in the manner in which the contents of the truck were laid out, and which seemed to invite battle.

With apparent impunity, dealers and newsboys all over the city are selling copies of racing form and a betting sheet published in Toronto "Bootlegging" in these forbidden publications there is, by the way, no necessity for the fan to buy an extra copy of the racing form. It can be had on some book-stalls at the old price.

The local sheet was sold last night without let or hindrance at the advanced price of 15 cents, and the slight scarcity of other similar papers has temporarily enlarged its circulation. American dailies are arriving in some cases clipped off their sporting page, in other cases the prices only have been deleted, while in one no change has taken place, the prices and selections remaining intact.

Inspector McKinney asked this afternoon whether this apparent failure of the police to take any action meant that enforcement of the laws was in abeyance, said: "The police are taking action; the law will be enforced."

WITH THE GOLFERS

AT THE NINETEENTH

(By C. Meredith)

Among the leading British golfers Abe Mitchell holds a remarkably fine record. In 1910, 1911 and 1912 he represented England against Scotland in Amateur International matches; he was runner-up in British Amateur Championship, 1912. Reached semi-final stage, 1910, and the sixth round, 1911. Turned professional, October, 1913. Was fourth in Open Championship, 1914 and 1920; third in French Championship, 1920. Tied with Toucan in the 1800 "Daily Mail" Tournament at St. Andrews, 1919, and, on replay, won the gold medal. Won 1920 "News of the World" Tournament, 1919 and 1920, and Kent Championship, 1920. Tied for 1800 McVitie and Price Tournament, 1920, and won it in 1921. Won Gliechegies Tournament, 1922 and 1923. Represented Britain vs. America, 1921. In company with George Duncan made an extensive tour of Canada and the United States in 1921-1922, and shattered many records. In the latter year he won the Southern States Championship.

Make it a rule to touch the ground lightly with the club every time that you swing it for practice; unless you do this you cannot judge one of the necessary parts, of accuracy of swing.

It should be our ambition to play so well that the only hazards on the course are the direction posts.

In keeping your score of a round, you will find it instructive to jot down the number of putts you took—a little dot will suffice.

The following incident occurred at the Club House of the Ontario Golf Club a few days ago when the President vs. Vice-President's match was in progress:—

Member (addressing Vice-President)—"My opponent has not turned up; I suppose I can claim the three points?"

Vice-President—"Certainly, certainly you can," but, as an afterthought added, "Who are you drawn to play for?"

Member—"The President's team."

Vice-President—"No, not by a sight can you claim the three points."

From present indications the field that will see up at Lakeview on August 2nd in quest of the Canadian open title will be one of the strongest if not the strongest that has ever competed for the event. Dave Spittal, of the Toronto Club, returned from the United States with Jack Hutchison's entry in his pocket. Walter Hagen expects to be in the vicinity about that date and will try to be present and that means that Kirkwood will be there too. Pat Doyle, of the Bluff Point course, told me that he would surely be in Toronto on that date.

The following entries have been received by B. L. Anderson, secretary of the R.C.G.A.: Carl Anderson, Park Club, Buffalo, N.Y.; Ray Dana, amateur, of the same club; Alex. Aytton, Senneville professional; John Burns, professional of the Essex Golf Club and Country Club; A. H. Ross, Albert Murray and Redvers Mackenzie, all of the Country Club of Montreal, and Frank Lock of Quebec. The entry list closes with B. L. Anderson, one week from tomorrow.

DAVIS CUP MATCHES

AT MONTREAL

Montreal, July 25—The draw for the first matches in the Japo-Canadian cup tennis matches which are to be played here tomorrow afternoon on the courts of the Mount Royal Tennis Club were announced today as Wilfrid Crocker vs. Zeno Shimizu and Leroy Rennie vs. Masamouka Fukuda. The players rested today while heavy rains prevented any use of the courts.

Crocker, who yesterday injured his knee in practice was about again today and by tomorrow should be in the best of shape for his match with the Japanese captain.

DEMPSEY FIRPO FIGHT WILL BE

In United States In Sept., Tex Rickard Announces—Title Holder May Get \$500,000

New York, July 25—Jack Dempsey, world's heavyweight champion and Luis Angel Firpo, his challenger from the Argentine have been matched for a title bout probably in September at a site in or close to New York.

Promoter Rickard announced late today that articles binding the match had been signed by Firpo and Jack Kearns, the champion's manager, but he declared the date and place were still a matter of uncertainty.

"You can say that the match is signed, sealed and delivered," Rickard said, "and that it will be held in the United States, but I can give no other details now."

Belief that Rickard had the Polo Grounds in mind as the probable site was strengthened by information that he had held another conference with Charles A. Stoneham, president of the New York Glants. There was also considerable speculation over possible locations, with the probability that the bout would be staged some time between September 5 and 22.

What Rickard has guaranteed either fighter was not disclosed but when Firpo came back to the United States last March for a series of matches under the auspices of the first of which was with Bill Brennan, it was said the Argentine giant was promised \$100,000 in the event he gained a title bout with Dempsey.

The champion's end, it was figured, would be close to \$500,000. Firpo left late today to fulfill several engagements in the Middle West.

YACHT RACES AT COWES

Cowes, Isle of Wight, July 25—Three of the United States six-meter yachts here for the British-American cup race next month completed today for a prize given by the Royal London Yacht Club, but owing to rough weather only one round was completed. Clifford D. Mallory's Clytie won by 15 seconds from J. P. Birmingham's Lea. Captain Henry B Plant's Ingomar came third, 22 seconds later.

There is properly no history, only biography.—Emerson.

It is not an honor for an eagle to vanquish a dove.

HE CAN TRIM NEWTON IN FIFTEEN ROUND GO

Lewiston Scrapper Confident He Can Trim Newton In Fifteen Round Go

The boxing bouts which will be staged by the Quebec Sporting Club at the Ruelic Theatre, Montmorency Falls, next Monday evening will be under the supervision of the Athletic and Sports Commission of Quebec, according to an announcement made by Matchmaker Montminy last evening, who received a letter from the Secretary of the Municipality of St. Gregoire, giving the local Commission full authority to take charge of the bouts to be held in that district.

These bouts, the feature of which will be a fifteen-round encounter with Kid Dube of Lewiston, Me. and Chris Newton of Toronto as the principals, will mark the first to be held under the supervision of the local Commission outside the city limits. The fifteen-round contest will also be the initial one over that distance staged around here for many years.

Dube is at present in town and is training daily at No. 3 Fire Station, where he is making an excellent impression on the many fans who are watching him go through his paces. He will be in fine condition for his return bout with the Torontonian Monday night and if he should lose the decision, will have no all to offer. He is very confident, however, that he can trim Newton over the fifteen-round route, though to do this he will have to go some for the boy from the Queen City has already shown the French-American pugilist that he is far from a novice in the boxing game.

The semi-final will bring together Joe Williams of this city and Sammy Pierce of Montreal in a ten-round bout, while the two preliminaries which will be of six-rounds each, will have local lads as the principals.

NO BALL GAME HERE YESTERDAY

Rain Caused Postponement Of Three Rivers-Quebec Contest—New Players

The third game of the Three Rivers-Quebec Eastern Canada Baseball League series, scheduled for here yesterday afternoon, was postponed on account of rain. The team broke even in the two games, the locals winning Monday's contest while the visitors evened the count Tuesday by taking the second contest.

The Three Rivers outfit left for home yesterday afternoon while the locals remained here as they have no game scheduled for today. They will leave for Montreal this afternoon where they will open a three-game series with Canadians tomorrow afternoon. The game originally scheduled for today with Canadians will be played as part of a double-header Saturday.

The locals will have about five new players in uniform when they return here Sunday to open a series with the Royals. These players include Pitchers Doherty and Thorpe who are at present in Montreal awaiting the team and two infielders and the long sought-after Jenkins, another moundsman. The latter was signed by the club about two months ago but was unable to report. However, he sent a telegram to Manager Billy Innes a couple of days ago and stated that he would be on deck by Sunday. He will be in all likelihood be sent to the mound in one of the games here Sunday.

Rain in Montreal. Montreal, July 25—The Eastern Canada Baseball League game between Canadians and Royals scheduled for this afternoon here was postponed owing to rain.

Sporting Notes

A special meeting of the Eastern Canada Baseball League has been called for this evening in Montreal. Ovide Cote, Secretary of the Quebec Club will represent the locals. "Ovie" is a small fellow but is a hard man to put one over on and any delegate at this meeting who thinks that he can put something across on the locals will have some queer old talking and figuring to do.

There is still some talk of Canadians returning to Ottawa and the Three Rivers Club being transferred to Montreal. All this will very likely be decided at the meeting tonight.

Tim Dowd, of Holyoke, Mass. and scout for the New York Giants, who was after the managership of the local team, arrived in town Tuesday evening and left for home yesterday. He is not a player and would be only able to manage the team from the bench.

The long-talked of Dempsey-Firpo fight will come off at last, according to an announcement made by Tex Rickard, who will stage the event in the United States during the month of September. Firpo sure is a lucky scrapper to get a crack at the title so soon, as he has only been fighting a couple of years.

CREDITORS WILL BE HEARD FROM

In order to stabilize prices, the United States bureau federation urges farmers to withhold two hundred million bushels of wheat from the market. Their creditors, however, will doubtless be equally urgent for prompt movement of the crop.—Hamilton Spectator.

FOOTBALL MATCH THIS EVENING

C.N.R. And Empress Of Britain Elevens Will Clash At 6 O'Clock

The C.N.R. and Empress of Britain football elevens will meet in a Quebec City and District Association Football League match at the Quebec Baseball Park on the Charlesbourg Road this afternoon. The contest will commence at 6:00 o'clock sharp.

The game should be a good one as the C.N.R. outfit has about the best team that has been mustered in this city for a number of years while the Empress of Britain has also a strong eleven ready to go on the field. The "Railwaymen" have won all of their games so far this season and are out to complete the schedule with a clean record. However, they will have to keep playing at the top of their form to accomplish this and though they have one victory already chalked to their credit over the Empress of Britain boys, they cannot afford to take the game this evening too lightly for the "sailors" keep going from the first whistle and are liable to push over a win when least expected.

The C. N. R. team will line-up as follows: Goal, Jordan; backs, Arnold and Rose (Capt.); halves, Taylor, Warner and Post; forwards, Morton, Theohald, McQueen, Roberte and Jones. Reserves, Lobb, Reid, Fritze and Vernon.

GOING INTO THE BUSINESS

A Quebec dispatch intimates that the liquor commission will extend the hours and opportunities for the sale of wine. The temptation of increased profits from the liquor business is hard to resist.—Toronto Globe.

AMATEUR GOLF CHAMPIONSHIP

Mayfield Country Club, Cleveland July 25—Two fast 18 hole rounds of match play today reduced the contestants for the Western Amateur Golf Championship to 8 players including Chick Evans of Chicago, defending champion, who will meet Fred Lamprecht, of Cleveland in the third round and Jess Sweetster of New York, National amateur champion, who will cross cleeks with Dexter Cummings of Chicago. Three extra hole matches marked today's play, Cummings winning a 20 hole contest in the forenoon from Harold Weber, of Toledo while in the afternoon Clarence Wolf required 26 holes to down John G. Anderson of New York and Joe Wells of East Liverpool, Ohio, took 19 holes to eliminate Eddie Held of St. Louis, trans-Mississippi champion, and did so then only by holing a 45 foot putt for a birdie three.

Wolf and Wells measure matches tomorrow. The other third round match between Ira Couch, of Chicago who furnished the greatest upset of the day by trouncing Captain E. F. Carter, also of Chicago, formerly Irish champion and a favorite for the finals, 2 and 1, and W. H. Gardner of Buffalo, who ousted James Manion of St. Louis, two and one. Evans played the bogey golf of the 32 men who started this morning. He breezed out in 34, two under par in the first round and was one under perfect figures in the remaining five holes he needed to defeat James Ward, of Kansas City, 5 and 4. In the afternoon Chick took 35 to go out and was one under par for the remaining four holes he used to down Ellsworth Augustus, the phenomenal driver of Cleveland six and five.

FIRPO TO MEET HOMER SMITH

In Ten Round Bout In Omaha On Aug. 3—Arrangements Concluded Yesterday

Omaha, Neb., July 25—A ten round fight to a decision between Luis Angel Firpo and Homer Smith Kalamazoo, Mich., heavyweight, here on August 3, will be permitted according to an announcement from State Boxing Inspector George Kuster at Lincoln.

Arrangements for the bout were concluded today, it was announced by Francis Boyle, Omaha, promoter. Boyle's announcement, made early this morning, was followed by a statement by Wm. Kavan, boxing inspector for Douglas County, (Omaha) that the Firpo-Smith bout would not be permitted on the ground that Smith was not a capable opponent for the South American conqueror of Jess Willard. Later, however, after Kavan got in touch with Boyle, he announced that he had "the wrong Smith in mind."

GOING INTO THE BUSINESS. A Quebec dispatch intimates that the liquor commission will extend the hours and opportunities for the sale of wine. The temptation of increased profits from the liquor business is hard to resist.—Toronto Globe.

AMATEUR GOLF CHAMPIONSHIP

Mayfield Country Club, Cleveland July 25—Two fast 18 hole rounds of match play today reduced the contestants for the Western Amateur Golf Championship to 8 players including Chick Evans of Chicago, defending champion, who will meet Fred Lamprecht, of Cleveland in the third round and Jess Sweetster of New York, National amateur champion, who will cross cleeks with Dexter Cummings of Chicago. Three extra hole matches marked today's play, Cummings winning a 20 hole contest in the forenoon from Harold Weber, of Toledo while in the afternoon Clarence Wolf required 26 holes to down John G. Anderson of New York and Joe Wells of East Liverpool, Ohio, took 19 holes to eliminate Eddie Held of St. Louis, trans-Mississippi champion, and did so then only by holing a 45 foot putt for a birdie three.

Wolf and Wells measure matches tomorrow. The other third round match between Ira Couch, of Chicago who furnished the greatest upset of the day by trouncing Captain E. F. Carter, also of Chicago, formerly Irish champion and a favorite for the finals, 2 and 1, and W. H. Gardner of Buffalo, who ousted James Manion of St. Louis, two and one. Evans played the bogey golf of the 32 men who started this morning. He breezed out in 34, two under par in the first round and was one under perfect figures in the remaining five holes he needed to defeat James Ward, of Kansas City, 5 and 4. In the afternoon Chick took 35 to go out and was one under par for the remaining four holes he used to down Ellsworth Augustus, the phenomenal driver of Cleveland six and five.

DESKAMPS AND BULL

FOUGHT A DRAW

Montreal, July 25—Frankie Bull, Ontario lightweight champion and Oscar Deschamps, Quebec champion, fought ten rounds to a draw here tonight. Deschamps weighed 134 pounds and Bull 123 pounds. The bout was without outstanding incident and was so even that one judge gave the decision to Deschamps and another to Bull, while the referee called it a draw.

U. S. FENCING TEAM

ADVANCED SCORE Birmingham, Eng., July 15—The United States fencing team today advanced their aggregate score to 14 bouts to 13 over the North England sword-men by winning the Epee contest 10 1/2 bouts to 5 1/2 and also the sabre contest by 13 bouts to 3.

the finals, 2 and 1, and W. H. Gardner of Buffalo, who ousted James Manion of St. Louis, two and one. Evans played the bogey golf of the 32 men who started this morning. He breezed out in 34, two under par in the first round and was one under perfect figures in the remaining five holes he needed to defeat James Ward, of Kansas City, 5 and 4. In the afternoon Chick took 35 to go out and was one under par for the remaining four holes he used to down Ellsworth Augustus, the phenomenal driver of Cleveland six and five.

PLAYER'S
GIRL A WINNER
Captured The Feature Event At Grand Circuit Races Yesterday

Columbus, Ohio, July 25 — The champion sweepstakes for three-year-old pacers, the feature event of today's Grand Circuit card resulted in a victory for Anna Bradford's Girl, although she was not a straight heat winner. Kinney Silk won the final mile after Anna Bradford's Girl had gone into a break.

Time: 2:05 1/4; 2:06 1/4; 2:07 1/4; 2:12.

EGG LAYING RECORDS.
The Record of Performance for pure bred poultry like the Record of Performance for pure bred dairy cattle is carried on by the Live Stock Branch of the Department of Agriculture at Ottawa. The tests on which the poultry are judged are conducted by the breeders on their own farms. The birds are leg banded and traped and eggs laid are credited to the respective birds. An official of the Live Stock Branch visits to the hocks under test, to prove the accuracy of the records. Two kinds of certificate are issued—Record of Performance "A" and Advanced Record of Performance "B". The former is granted to birds that in fifty-two consecutive weeks lay 150 eggs. To win the advanced certificate 225 eggs must be laid within the full year. In both cases the egg must average at least two ounces in weight.
Report No. 3 of the Record of Performance for poultry show that 12,242 birds were entered in 15 flocks for test in 1922. Of this number 2,863 qualified for the lower certificate and 511 for the Advanced Record certificate. Twelve breeds of fowls were included in the entries and every province was represented. The report contains the records of all the birds that qualified for certification as well as the rules and regulation governing the tests.

Correspondence

THE PULPWOOD EMBARGO.

Editor, The Chronicle, Quebec, P. Q. Sir. The only way to deal with a nettle is to grasp it tightly and tear it up by the roots. Ginglyly handling will result only in injury to the person experimenting. So long as Ottawa continues to play with the pulpwood question so long will there be stinging comment from across the line and irritating criticism from some Canadians too short-sighted to understand their own best interests. Sir Lomer Gouin, as Premier of Quebec, set a precedent when he withdrew the Crown lands of this province from foreign exploitation. He didn't talk; he acted. No evil consequences followed, although they were threatened then, as now. Quebec and the whole Dominion are hundreds of millions times better off as the result of that action. Ottawa seems to lack the courage to do in a large way what Premier Gouin did, so far as he was able, for his province and the country. The result is that the opponents of the policy are bringing "bluff" and "threat" to bear on Ottawa, as they openly admit, and it looks as though "bluff" and "threat" were having some effect. With a view of encouraging the government to do its honest duty I have written Premier King the following telegram:—

"July 26th, 1923. 'The Right Hon. W. L. Mackenzie King, Prime Minister of Canada, Ottawa, Ont. 'Dear Mr. King.— The selfishly interested opponents to the embargo on pulpwood entirely lose sight of the vital fact that Canada is already over-demanded of forest growth and that we are even today cutting young saplings that belong to the next generation, thereby robbing our children and children's children of their rightful heritage, and that consequently it is not a question for negotiation or trade or tariff discussion, and if the United States were prepared to offer Canada anything that they have in that country for what wood we have left, it would be criminal on the part of our government to entertain any proposal that would entail the shipment of any more wood out of Canada. I have made the offer time and time again to denigrate Canada's critical forest condition at my own expense without, so far, any acceptance, as everyone is aware that in this contention I am absolutely right. When the appalling fire losses which the enemies of Canada are now trying to minimize as much as possible will all have been tabulated this fall, they will prove so perfectly colossal that it will create a panic, for bear in mind that fires once started in the north country penetrate so deeply into the soil that they continue to burn through the entire season until snow comes again. Rain at any time only causes a slowing-up of the fire until the first dry windy day returns. Our so-called inaccessible wood supply is not only inaccessible to operate, but is just as inaccessible a free protection, so that long before it will become available it will have entirely disappeared in

smoke, emphasizing the fact of the necessity of expediting our small remaining accessible supply.

There are only two ways the Americans can obtain our few remaining trees. One is for our own industries to put up the shutters and voluntarily give up their raw material, and the other is for the Americans to cross the line and take it by force.

All this talk of retaliation by the United States is pure bluff and is instigated by some of our own selfishly interested people who have purposely thrown out this suggestion so that Americans might be prompted to raise this cry.

With regard to the coal bogey, the American coal operators are only too anxious to sell us coal, but this is too precarious a supply for Canada to depend upon as strikes in their mines and on their railroads are an ever-present menace, so our government is derelict in its duty in not immediately making provision for this contingency, by developing our own mines, and with the English and Mexican supply clamoring for admission to our coal market, we need have no apprehension so far as coal is concerned, especially with the knowledge that Canada owns nearly one-fifth of the world's supply. In any event, it is far better to be short of coal than entirely out of wood.

The same thing applies with regard to sulphur, and with Sicily to draw from, we need have no apprehension from that source. In any event, the newspapers of the United States are dependent upon Canada for two-thirds of their paper supply through pulpwood, pulp or paper, and from pure selfishness will never allow anything that will cause the slightest curtailment of this supply, which curtailment would not only produce prohibitive prices for paper, but would put many of them out of business.

These newspapers, at heart, do not care whether their paper comes from one side of the line or the other so long as they are assured of a supply, though a few of them are being made the tools of some of the American newspaper manufacturers.

That a large body of American people are in hearty sympathy with Canada in this matter is evidenced by the number of letters I am receiving from all over the United States.

No political party in the world ever had a greater opportunity than the Liberal party has today to make history and put themselves and their country on the world's map. It is safe to say that no party will have failed so completely not only in their obviously plain duty to their country but to their

own interests as well, if action in this important matter is not taken at once. The urgent necessity for immediate action is also emphasized by the fact that American interests are today making the largest out of pulpwood in Canada for export in the history of the industry.

The Canadian people have at last reached the happy conclusion that political parties and politicians must, if necessary, be changed every five years till our representatives are taught that they are elected, not to serve their own selfish interest, but the interest of the whole people.

Every day the government delays taking decisive action on this question the government is courting disaster for the country.

FRANK J. D. BARNJUM. Montreal, July 24th, 1923.

MAINE COAST RESORTS

To many thousands of people there is no holiday than can compare with a vacation spent by the seashore. The happy memories of the rocky coasts, the murmur of the restless ocean, the invigorating breezes, the cool restful nights, the delights of bathing, boating and fishing, combine to make a well-nigh irresistible appeal to the vacation seeker. The Canadian National Railways has just issued a handsome illustrated publication entitled "Seashore Holidays" giving a hotel directory, map, etc. Copy may be had free on application to any Agent of the Canadian National Railways or to S. J. Nestor, City Passenger Agent, 10 St. Ann Street, Quebec.

A BOON TO MOTORISTS.

Among the innumerable tools, accessories and appliances which are continually being devised to meet every possible requirement of the motorist, there occasionally appears a new device which at once appeals to every driver as being really valuable in an emergency. One such device, recently introduced by a British firm of motor engineers, consists of an electromagnet which can be run from the car-lighting circuit and used to retract valves or recover steel parts from awkward positions. A soft iron core is wound with insulated wire over which there is placed an iron tube. The windings are thus protected from damage, and the iron tube and core form a powerful magnet which is equally effective in lifting valves or other steel parts of any shape. A flexible cord from the magnet coil terminates in a plug which can be inserted in a lamp socket at a moment's notice. The magnet is then ready for use and it will pick up instantly any piece of iron or steel, the recovery of which would otherwise involve the expenditure of much time and temper.

The greatest wealth is contentment with a little.

DETROIT DOCKS ARE ENLARGED

Condemns French Policy in Near East And Provisions Of Lausanne Treaty

Paris, July 25.—The Echo National publishes a letter from a French resident at Constantinople who for many years has occupied a high position in the Turkish capital, expressing the indignation of Frenchmen in the Near East at the betrayal of their interests and their rights. The letter, says the Echo National, cannot be read without emotion, and brings into the light of day the humiliating results of the policy pursued in the Near East by the French Government.

The writer declares that the French Government has sacrificed French private interests in the Near East, as it has sacrificed thousands of Greeks and Armenians to whom it had sworn protection. It has sacrificed its honour, but it is unwilling to lose the friendship of the pontiffs of high finance. French policy in the Near East has been inspired and conducted by a syndicate of great bankers which, in the first instance, suggested a rapprochement with Turkey in the hope of obtaining important concessions from the Angora Government. Finding themselves deceived, they are now trying to save their "gros sous," but no one defends the "petits." There is nothing to be done but to pack up and go home, and as quickly as possible. Already French citizens are being harassed every day by the Turks. The authorities will not let them embark until they have paid the temettu tax (income-tax), which is retrospective, and even a permis de sejour is demanded on pain of a heavy fine.

"French influence," the writer continues, "has passed to the English, who have become the protectors of Christians in the Near East. They alone intervene vigorously whenever an Armenian or a Greek is molested by the Turks. They alone are not disquieted, bullied, and insulted by the Department of Commerce from thirteen consular districts of China, which represent more than 30 per cent of its total export trade. Export from these districts to the United States during the first quarter of this year amounted to \$45,622,857, as compared with \$33,349,811 during the same period of 1922.

"What a pitiable figure we cut, we Frenchmen, before whom formerly everyone respectfully uncovered. Today our officers are scoffed at and insulted; our sentries are assassinated. Ultimatums are delivered to us and we say 'Amen.' "It is said," the letter concludes, "that the Turks are powerful and have a formidable army at their disposal. To begin with, this is not true. In any case it is France who has created that power. We rescued Kiam Pasha and Nureddin Pasha when they were arrested by the English, by adding their flight

Six Miles Now Added By Reconstruction Of River Rouge

Detroit, July 25.—The River Rouge, site of the great blast furnaces of the Ford Motor Company, has been initiated to deep draft vessels. For years a lazy twisting stream, the river has been developed as an artery of the Detroit River at the behest of the Ford interests.

To permit the great ore carriers of the lakes to bring their cargoes direct to the blast furnaces, the river has been reconstructed. Instead of the twisting stream of former years a new River Rouge has been created. From the mouth of the Detroit River to the Ford turning basin the stream is three miles long, almost two miles shorter than the old course. Its width at the mouth is 400 feet, and the average width along the dock lines is 390 ft. with a bottom width of 200 feet. The depth at low water is 21 feet. A new canal, 3,000 feet long, was cut through the entire subdivision of property, avoiding an "S" turn where the river joins the basin.

Some 15 industries in addition to the Ford blast furnaces are operating along the banks of the Rouge, and with the improvement just completed six miles of docking facilities have been added to Detroit's waterfront. Heretofore the industries located at the Rouge have attracted an annual cargo tonnage of 2,000,000. The Ford plant alone expects to bring in 2,000,000 tons during 1923.

The total cost of the new Rouge, including bridges, dredging, and right of way is estimated at \$10,000,000.

CHINA'S GROWING EXPORTS TO THE UNITED STATES

China's exports to the United States during the first three months of 1923 show a considerable increase over the same period last year, according to trade returns received by the Department of Commerce from thirteen consular districts of China, which represent more than 30 per cent of its total export trade. Export from these districts to the United States during the first quarter of this year amounted to \$45,622,857, as compared with \$33,349,811 during the same period of 1922.

to Anatolia in the aeroplane of Colonel de Goy. We sold the arms and ammunition which filled the Turkish military depots, of which we had the charge. We conveyed—by officers of the French navy—these arms and ammunition to the Anatolian ports. We put into the hands of the Turks the rod with which to beat us. I understand that Poincare has not the face to complain. But we, who have committed none of these monstrous faults, have the right to raise our voice, for we are the victims of a veritable betrayal."

FATHER AND SON WEEK TO BE HELD IN NOVEMBER

New York, July 25.—A change in the dates of National Father and Son Week, so as to have the observance center each year around Armistice Day, is endorsed by President Harding in a letter received at the New York offices of the International Committee, Y. M. C. A., which originated the observance in 1917 and whose Boys' Work Committee continues to lead its promotion.

The change from the week of Lincoln's birthday, used for the purpose of the observance until this year, has been made in response to the desire of national and international Sunday School organizations. The President's letter follows: "My attention has been called to the National Father and Son Movement, which is to be launched during National Father and Son Week, November 11-18. It is a great pleasure for me to commend this movement, which has as its objective to draw together in a more intimate way the fathers and sons of America, and to strengthen and develop this relationship. The success of this movement during the past years has won for it a distinct place. Since the movement has become world-wide in character, it is most fitting that it center around the date of world-wide significance, Armistice Day. Surely, the coming generation will need to be constantly reminded of their obligation to help maintain the peace of the world, for which millions of fathers and sons have died in past years. It is hoped that all individuals as well as constructive agencies, interested in the boy life of our nation, will give this week due consideration and recognition by bringing together fathers and sons in schools, churches, clubs and other places, and assisting the boys of the community to their own inherent right of companionship with their fathers."

SEVERAL FAST TRAINS Between QUEBEC-MONTREAL Via Canadian Pacific

The Canadian Pacific Railway maintains between Quebec and Montreal several daily fast trains offering convenient and dependable service with connections for Ottawa, Toronto, Boston, New York, Detroit, Chicago and Western Canada. The "Frontenac" leaves Quebec, Palais Station, at 1:30 p.m., daily, arriving Montreal, Park Ave., 5:50 p.m., Montreal West, 6:12 p.m., Westmount 6:22 p.m., Montreal, Windsor Station, 6:30 p.m. From Montreal the "Frontenac" leaves Windsor Station at 9:00 a.m. daily, Westmount 9:07 a.m., Montreal West, 9:15 a.m., arriving Quebec, Palais Station, at 2:00 p.m. The "Viger" leaves Quebec, Palais Station, at 4:40 p.m. daily, except Sunday, arriving Mile End, at 9:25 p.m., and Montreal, Place Viger Station, 9:40 p.m. From Montreal the "Viger" leaves Place Viger Station at 6:00 p.m., Mile End, 5:15 p.m., daily, except Sunday, arriving Quebec, Palais Station, at 10:00 p.m. On Sunday an afternoon train leaves Place Viger Station at 2:30 p.m., Mile End 2:45 p.m., arriving Palais Station at 8:30 p.m. Standard time governs all train movements; to convert to daylight saving time, add one hour. The equipment is of the most modern type and the service unrivaled. In addition to first and second class coaches, the "Frontenac" and the "Viger" carry electric lighted observation—library-parlor cars, vestibule parlor cars and standard dining car. In addition to the "Frontenac" and the "Viger" Canadian Pacific operates between Quebec and Montreal a morning train on week days and daily night trains to and from Place Viger and Windsor Street stations, train for later carrying drawing-room and compartment electric lighted sleeping cars. Information, tickets, reservations at ticket offices in Quebec: 20 St. John street, phone 93; Chateaux Frontenac, phone 1840; Palais Station, phone 663.

AVIATOR KILLED WHEN HIS PLANE CRASHED TO THE GROUND

Boston, Mass., July 25.—Kitchell Snow, a Harvard graduate, was killed today when his airplane, which he was piloting, crashed at Jeffries Point, East Boston. Two passengers, Sergeant Oscar Le Cain, a National Guardsman and a ten-year-old boy, Howard Carlin, of North Chelmsford, said to be Le Cain's cousin, were injured.

June 11th, 1923. To the Hon. W. L. Mackenzie King, Prime Minister of Canada, Ottawa, Ont. Dear Mr. King.— The selfishly interested opponents to the embargo on pulpwood entirely lose sight of the vital fact that Canada is already over-demanded of forest growth and that we are even today cutting young saplings that belong to the next generation, thereby robbing our children and children's children of their rightful heritage, and that consequently it is not a question for negotiation or trade or tariff discussion, and if the United States were prepared to offer Canada anything that they have in that country for what wood we have left, it would be criminal on the part of our government to entertain any proposal that would entail the shipment of any more wood out of Canada. I have made the offer time and time again to denigrate Canada's critical forest condition at my own expense without, so far, any acceptance, as everyone is aware that in this contention I am absolutely right. When the appalling fire losses which the enemies of Canada are now trying to minimize as much as possible will all have been tabulated this fall, they will prove so perfectly colossal that it will create a panic, for bear in mind that fires once started in the north country penetrate so deeply into the soil that they continue to burn through the entire season until snow comes again. A SMALL FRAME BUNGALOW DESIGNED BY W. W. PURDY A small economical bungalow suitable for a small family is often in demand and this plan is just such a one. This bungalow stands with the wide front to the street. The size is 28 ft. in width and 24 ft. in depth, exclusive of the sun porch. The construction is frame and the outside covered with siding and painted white, the roof is shingled and stained green. There is a full basement with concrete foundation and the foundation is faced with brick from the grade line up to the bottom of floor joists. Entering through a glazed sun porch into the living room 15 ft. by 11 ft., this room has a projected fireplace at one end of room with a window on each side of fireplace, and one in front. The dining room is at the right of living room with kitchen and bed room in rear. The kitchen is planned to save steps and labor. It has direct access to the stairs and front door, refrigerator. Basement stairs lead down from kitchen with grade entrance at rear. There is plenty of space for laundry, heating and fuel rooms in basement. The arrangement is adapted to an east or south frontage and with the aid of shrubbery and trees around would make a very attractive home. The bed room is medium size, with closet and a small linen closet next to the bath room. The finish of the main rooms is birch with birch floors throughout and pine finish in other rooms, painted white and enameled. The kitchen has a pine floor and covered with linoleum. There is a small stairway leading to the attic space, where there is space for storage. This is a very convenient and economical little bungalow to build and suited to the average city lot. It is estimated this little home can be built, exclusive of heating and plumbing for \$3,500 to \$4,500. which is a fact housewives will appreciate. It is ample size for a small home and fitted with cupboards, sink, etc. In the rear is a convenient entry with space for re-

Miss A. M. Benjamin, sister of Caruso's widow, was married to Arthur L. Fullman, her kin's legal adviser. Photo shows the bride and bridegroom after the ceremony.

A tense moment for W. M. Johnston during the play against Vincent Richards at the recent tennis tournament at Wimbledon.

This forty-foot motor boat covered the sixty-five miles between Holyhead and Dublin in two hours and ten minutes, considerably less time than it takes the fast mail steamers.

The annual pageant was well attended by the nobility of Europe at Hendon, where some very remarkable feasts were performed by the air squadron. Photograph shows the Dervishes making an attack.

"You're pinched," says Officer Katherine Ryan to Edith Kingston, both of Atlantic City. It is to be hoped that the judge will be lenient with Edith in the morning.

GERMAN MARKS DROPPED TO 1,000,000 FOR \$1.50

PRICES MOVED UPWARD IN DULL MARKET AFTER BEARS BECAME DISCOURAGED

Eastern Rails Moved Briskly Forward In Mid-Afternoon—Steel Shares Were Irregular, Changes Being Fractional—Bond Market Was Very Inactive

New York, July 25—Evidently discouraged with their failure to bring about further liquidation, professional traders lifted the selling pressure after the first hour today and thereafter prices moved upward in extremely dull trading. Net changes of representative stocks were generally small. Early pressure was leveled against western railroads, equipments, steels and oils and while most of the rails closed fractionally lower on the day, partial recovery was made in numerous instances.

Eastern rails moved briskly forward in mid-afternoon after announcement of the regular Delaware and Hudson dividend. In this there was a large short interest outstanding. Net gains, however, were largely fractional in this group. Steel shares closed irregularly, net changes being confined to fractions.

American Can improved 1-2 points and numbers of miscellaneous industrial showed firmness in the late dealings.

Atlantic Refinery closed five points off on the day.

Call money ruled unchanged at 4-3-4 per cent. Time money held firm at 5-1-4 per cent, and a fair volume of loans were made at this rate.

Commercial paper rates continued at 5 to 5-1-4 per cent. Demand sterling was steady around \$4.89 3-8 and French francs were quoted at 5.22 cents, a one point decrease. German marks established a new low at \$1.50 for 1,000,000 and closed at .0016 cents.

Total sales \$41,000 shares.

20 Industrials averaged 90.87, net gain .71.

High 1923, 105.38, low 87.64.

20 railroads averaged 79.64, net gain .19.

High 1923, 90.63; low 76.85.

Net changes in today's inactive bond market were exceedingly small. High grade investment issues held firm while the more speculative bonds moved in a narrow trading area.

Active U.S. Government bonds recorded fractional improvement. There was some selling of French and Mexican issues in the foreign group, but losses were unimportant.

Rails were dull.

There were no outstanding changes among industrial transactions.

Sugar Market

New York, July 25—The raw sugar market was a shade easier early today with prices at 1-1-18 lower to the basis of 5-3-18 for Cubas cost and freight, equal to 9-97 for centrifugal. There was not much activity in the raw sugar futures market, with operators inclined to limit operations and await developments.

There was early liquidation by trade interests, prompted by the reaction in raws with prices showing declines of 4 to 5 points, but this loss was regained on covering and commission house buying. At mid-day prices were unchanged from the previous close. Business in refined sugar was only moderate on the basis of 8-55 to 8-75 for fine granulated. Refined futures nominal.

He who proposes to be an author should first be a student.

Exchanging Bonds!

Exchanging early maturing bonds for longer term bonds frequently proves profitable to investors. Suggestions to this end will be gladly furnished upon request.

Let us assist you. Write for our list.

Daily Gossip On Leading Stocks

Newfoundland Power and Paper Company has now surmounted difficulties and persuaded the government to guarantee its proposed \$2,000,000, 5-1-2 per cent. Class "B" debenture stock. Issue price is to be 93 1-2 instead of original 95 and underwriting commission has been reduced to 1-4 per cent.

The total Canadian bond sales for 1923 were \$801,000,000.00, according to a comparison of bond sales in 1922 and 1923 just issued by A. E. Ames & Company.

This was at a monthly rate of \$1,800,000.00. The total, however, included two items of special financing by the Dominion Government, these being first, an issue of \$100,000,000.00, 5 per cent 30-year bonds in New York in April, 1922, and second, the Renewal Loan issued to holders of bonds maturing on December 1st, 1922, and amounting to approximately \$110,000,000.00 which consisted of 5-1-2 per cent five and ten-year bonds. As both of these items were special financing and were for refunding and did not involve new money, they might properly be deducted, leaving a balance for ordinary financing of \$291,000,000.00 for the year, which was thus at the average rate of \$24,000,000.00 per month.

To the close of the current half-yearly period, June 30th, 1922, the total had reached \$179,000,000.00. This is at the rate of \$29,000,000.00 per month or at an average of \$5,000,000.00 per month more than in 1922 in connection with normal or ordinary financing.

The 1923 figures to date, of course, do not include Dominion Government financing which will be carried out later in the year. The first item in this financing will be the disposal of \$22,500,000.00 of fifteen-year serial equipment 5 per cent bonds for which tenders have been called for July 25th.

The comparison is illustrated by a chart giving graphs for the bond sales for the two years under review.

Now that the company railroad into its timber limits is running, and with it come thirteen miles of branch lines, the Abitibi Power and Paper Company will be able to effect several savings.

The railroad will make it possible to get wood to the mill all winter, thereby rendering unnecessary a big wood pile. All now required will be a reserve to provide against costly shut-downs in case of temporary accidents to the railroad. Smaller wood piles means hundreds of thousands of dollars free which would otherwise be locked up in wood. Also the smaller wood-pile means reduced insurance charges. The company railroad brings other savings, since the logs can be loaded and brought to camp more quickly than they can be logged to the river from distant parts of the limits. These savings are important parts as offsetting the increased labor charges resulting from the increase of about four hours given in May.

The Abitibi is now sending out a train of paper (from 18 to 20 cars) every day in the week except Sunday.

According to a Sault Ste. Marie despatch, the Canadian Pacific Railway has placed an order with the Algoma Steel Corporation for 35,000 tons of rails. This order, it is understood, will keep the plant busy until the end of September.

At the annual meeting of the Dominion Telegraph Co. of Canada, a report was submitted showing a balance at credit of Profit and Loss Account of \$285,286.53 at the end of the fiscal year June 30th, 1923.

The assets of the Company total \$1,301,169.66 compared with \$1,286,597.08 last year, including capital expenditure \$1,311,819, Toronto, Grey and Bruce Ry. Company, 1923 Bonds amounting to \$1,557 and Cash \$117,021.

The first annual report and balance sheet of the Porcupine-Davidson Co. Mines, Limited, for the period ended Dec. 31st, 1922, has just been issued. The company which was incorporated in August, 1921, has acquired ten claims, aggregating 400 acres, upon which workings had been carried down to 600 feet in depth. In the report of the directors, it is stated that, in common with other companies in the Porcupine field, work was seriously retarded by the shortage of electrical power.

Underground operations were for this reason entirely suspended. The company has, however, entered into a contract with the Great Northern Power Company for the supply of 1,500 h. p. for the life of the mine. In this respect an advance of \$20,825 has been made to transmission line, this sum being repayable in the form of a rebate on power charges. This power is now available.

London Market

Pay rolls of factories in the United States have reached record totals, the U. S. Federal Reserve Board said.

Large gains in the number of workmen employed were reported in twenty leading industries, including tobacco, petroleum refining, steel, saw mills and types of building materials. Heaviest increases in payroll, the board said, occurred in textile industries, iron and steel industry, in car building and automobile manufacturing. Increases in size of the pay checks in the steel industry was due largely to recent advances in wages granted by steel mills. Substantial increases in employment are reported in tanneries, sugar, fertilizer and car repairing plants. Decreases that were largely seasonal in character were reported in the clothing and food industries.

CANADIAN COTTONS WAS FEATURE OF DULL MARKET AT MONTREAL YESTERDAY

46 Issues Appeared, 8 Gaining And 11 Losing—Quebec Railway Was Active, But Remained Unchanged—Dominion Textile Was Soft, Declining Two Points

Montreal, July 25—Though trading was somewhat brisker today on the local stock exchange, business was still very dull and prices again declined. Forty six stocks came out of which eleven suffered losses, eight scored gains, ten remained unchanged and seventeen appeared in broken lots only.

Brazilian led the market in activity and was one the strong spots advancing 5-8 to 47 3-4. E. E. Steel common was second and was up two points to 8. Quebec Railway came third and was unchanged at 20 3-4.

Canadian Cottons was the feature of the market advancing in moderate demand to a new high of 113 and closing up 4 3-8 points at 113 3-8. Dominion Textile on the other hand was soft declining two points to 65. General Electric was another stock that was weak, losing a point at 102 1-2.

Total sales, listed 5,368; Crown Reserve 1,000. Trading in listed bonds on the local stock exchange today was light and was without any particular significance.

Total sales, 77,530.

The Chicago Produce Market

Chicago, July 25—Reports that black rust was greatly impairing the crop outlook in the Canadian northwest had a bullish effect today and the wheat market here as did big exports sales estimated at as much as 1,500,000 bushels. Prices closed firm 1-1/2 to 1-3/4c net higher, with September 98 1-2c to 5-8 and December \$1.01 5-8 to 3-4. Corn finished 1/2 to 1-1/2 cents up, oats at 3-3 to 7-8c advance and provisions 5 to 20 cents down.

The Toronto Produce Market

Toronto, July 25—Manitoba wheat No. 1 Northern \$1.15 3-4. Manitoba oats No. 3 Canadian Western 50c; No. 1 feed 48 1-2c. American corn No. 2 yellow \$1.03; Ontario oats No. 2 white 46c to 48c.

Ontario wheat nominal. Peas No. 2 \$1.40 to \$1.45. Barley malting 57c to 59c. Buckwheat No. 2 nominal. Manitoba flour, first patent \$6.90; second patent \$6.85. Ontario flour 90 per cent patent \$5.10 to \$5.20 in jute bags Montreal prompt shipment; \$5.05 to \$5.15 in jute bags Toronto, prompt shipment; \$4.95 to \$5.00 bulk seaboard.

Milled carlots delivered Montreal freight basis included: bran \$25.00; middlings \$27.00 to \$28.00; middlings \$33.00 to \$35.00; good feed flour per bag \$2.15 to \$2.25.

Hay, No. 2 \$16.00; No. 3 \$15.00; mixed \$12.50 to \$13.50. Straw carlots per ton \$9.50.

Cotton Market

New York, July 25—Cotton futures closed steady. January 22.50-51c; March 22.55-59c; Oct. 22.90-92c; Dec. 22.72-74c. Spot closed quiet. Middlings uplands 23.90c. Liverpool cotton spot increased demand. Prices steady.

American middling fair 15.83c. Good middling 15.23c. Fully mid. dings 14.96c. Middling 15.13c. Low middling 14.78c. Good ordinary 14.23c. Ordinary 13.93c.

The sales of the day were 6,000 bales which included 3,400 American. Receipts were 7,000 bales including none American. Closed steady.

BUTTER AND CHEESE

Sales of July 23rd at Montreal. Butter: Pasteurized special \$1 5-30; No. 1 30 3-40 refused; No. 1 unrefused 30 5-30; No. 2 29 5-30. Sales at Toronto were: Butter: No. 1 pasteurized 29c; No. 2 pasteurized and No. 1 unrefused 28c. Cheese: No. 1 large coloured 18 1-2c.

Closing Letters By Local Brokers

(By L. G. Beaubien & Co.)
New York, July 25—The market has been dull again this afternoon, showing very good resistance to such selling as developed, but taken as a whole, featureless and without any great breadth.

Great irregularity in the commodity markets is being watched closely for a hint as to the future trend of stocks.

No doubt that position at present is such that the development of any outstanding constructive news would bring a sharp rally to stocks.

The reviews of the iron and steel trade say that a new buying movement is slowly starting and that some important interests again are inquiring for metals.

Trading on Montreal market was dull and irregular. Dominion Textile was moderately active and lower at 65 1-2. Quebec Railway quiet and unchanged. Montreal Power, Spanish River issues slight off. Brazilian Traction and Brompton a shade better. Wayagamack made its appearance, and odd lot changed hands at 48 and a board lot at 47 1-2. There was an odd lot of Opitvia sold at 27 1/2. Lake of the Woods appeared at 170. British Empire Steel common which has been extremely quiet of late, sold at 8 to 7 1-2 and closed at 8.

NOW FAT ACTRESS WAS MADE SLIM

Many stage beauties who depend entirely upon Marzola's Prescription Tablets for reducing and controlling fat. One citizen writes: "I have used the reduced steadily and finally by using this new form of the famous Mikropin Prescription, and now, by taking Marzola's Tablets I can reduce several times a year, keep her weight just right. All good druggists sell Marzola's Prescription Tablets. If you prefer you can secure them direct from the Marzola Co., 4512 Woodward Ave., Detroit, Mich. You have not told them so. They are harmless and effective."

I love such mirth as does not make friends ashamed to look upon one another next morning.—I. Walton.

FOREIGN EXCHANGE

The Bank of Montreal has a system of direct private wires between its leading offices in Canada and its Offices in the financial centres of the United States. It also has its own offices in London and Paris, and old-established connections with the money markets of the world.

These facilities enable the Bank to provide unexcelled service and to give its customers the advantage of close competitive rates on exchange.

BANK OF MONTREAL

Established over 100 years

Nature's own Power for Industry

How it is developing our Forest Resources

The great Pulp and Paper Industry that is such a vital factor in our growing export trade could never produce efficiently by using Steam Power. Its economical development has been made possible by the supply of dependable and cheap power from Hydro Electric Plants.

It has been our privilege to assist in the development of many of these great Water Power Plants that are doing their large part in exploiting the untold wealth of our forests.

We have prepared an interesting Booklet on Hydro-Electric Securities. A copy will be mailed on request.

THE PAIN AND BACKACHE

Women May Depend upon Lydia E. Pinkham's Vegetable Compound

Minneapolis, Minn.—"I had heard so much about Lydia E. Pinkham's Vegetable Compound that when I realized I needed to take something to relieve my pains and backache, and to help build me up I began to take that I had been sick off and on for years and barely weighed a hundred pounds, but now I have had such good results that I am recommending the Vegetable Compound to every one."—Mrs. J. J. Bixson, 2939 18th Ave. South, Minneapolis, Minn.

Finds a True Friend

"Every woman who values her health should be proud to have a true friend like the Vegetable Compound," says Mrs. W. S. Shaw, 3227 Walnut Street, Chicago, Illinois. "I had female weakness so badly that I could not stand on my feet. Half of my time was spent in bed and I had pains in my back which were unbearable. I tried everything I could think of to help myself, and when a friend advised Lydia E. Pinkham's Vegetable Compound I began taking it at once. I recommend it without hesitation."

One of the good washing machines will do the wash while the family sits eating their breakfast. In these days of silk petticoats, silk and crepe "undies," table sets and lightweight bedspreads, a small mangle and an electric iron make short work of the ironing. Those who have yards still use them for drying purposes. But people who live in apartments have good kitchen-liners, and if they are gone all day the things may dry at their leisure, the window down at the top helping the good work along. Monday is no longer sacred to this particular work. For several women there are who do the laundry on the days when they are at night. They rub them off in the morning before they get off to business.

Then the dish-washers take the drudgery out of this work, helped out by little wooden and paper plates for refrigerator use. These are destroyed, of course, instead of being washed. In some instances the dishes wash themselves after the bath of hot water. In others they are dried with paper dish-towels. The glasses and silver are the only things that we wiped in the old-fashioned way.

What the vacuum-cleaner has done to revolutionize cleaning day is too well known to need repetition here. But run in the proper way and having all attachments, it is equal to the aid of at least one expert servant. Work is done in an hour that formerly took a half-day. Then the weighted floor brushes and modern conveniences for filling and polishing the hardwood floor have removed the drudgery from that operation while the long-handled dust-pans and brushes save the tiresome bending this work used to be responsible for.

Perhaps one of the most appreciated labor-savers is the little motor for the sewing-machine. Many women are quick and expert workmen on their machines, doing a big part of their own sewing. But they have machines that run hard and heavily or the doctor may have forbidden them to do machine work, or for some other reason the machine has not been as helpful as in other days. But with the little purring motor, all this has passed, and it now becomes one of the best things that a woman can have. The outlay is not large and the motor may be used elsewhere when not needed on the machine. It may be attached to the ice cream freezer, churn, cream or mayonnaise-whip. So it is an investment that need not remain idle when not needed for the sewing-machine.

Meat-choppers or grinders, nut-grinders, cream-whippers, and the dozen and one labor-saving devices make the home-cook's job easy if she happens to arrive late from business or other occupation.

The busy woman's kitchen is not overcrowded with utensils, but has only those that are of use and the best of their kind.

There are so many proving and testing centres now open for these things that one cannot go wrong if she follows the advice that they give to the inexperienced buyers. Other household information is so generally broadcasted through magazines and papers that we are always trying the other woman's way and often find it an improvement over our own in time or labor saving. The old-fashioned housekeepers did not have this sort of help as freely given.

Another source of help is that given by the various manufacturers who almost follow their products into the home in telling just how they work and just what they will do to make work easy. Even little advertising cook-books, which contain certain products that often save the day for the inexperienced cook. Saving our energy by machinery, and the help of those whose business it is to be helpful, enables us not only to keep house, but to help earn as well on the outside should we be so inclined and capable of so doing.

In the Heart of Things

40 ST. JOHN STREET
Phone 7915

The most centrally situated, with modern conveniences. First class cuisine and service.

We bake our own bread and French pastry, and serve purest milk and cream.

Don't Let Your Children's Feet be Crippled!

MEDICAL experience proves that men—and women, too—who would otherwise be physically "O.K." today, show disabilities directly traceable to wrongly-shod feet in childhood. If every child today wore Hurlbut's, this trouble would vanish in the next generation!

HURLBUT'S Shoes for Children

New Episcopal Church.

On Monday the 21st instant was laid the Chief Corner Stone of a Protestant Episcopal Church at Nicolet, in presence of the Reverend J. C. Driscoll, Minister, the Seigneur of the Parish, and several of the most respectable inhabitants of the place and neighborhood. It is gratifying to observe that many of the inhabitants, not Members of the Church, seem to participate in the pleasure which this ceremony obviously diffused amongst those immediately interested in the construction of this additional edifice for Christian Worship.

After the ceremony a large party took part in an entertainment at the Manor House.

A Tough Experience.

The editor of the Protecteur du Saguenay had a tough fishing experience last week at Lac Long. On the morning of the 17th, he went with a companion to visit a rocky islet in the middle of the lake, and while there their punt drifted away in a gust of wind leaving them no means of gaining the camp. They were very lightly clothed, and after the first night had no means of making a fire, and passed six days and six nights with no covering, and nothing to eat except a few small fish eaten raw and some blue-berry leaves. On the 23rd their friends at Chicoutimi got anxious and sent out a search party, finding the lost ones on the islet very cold, hungry and thin, but otherwise well. Bears caused them a good deal of annoyance by the noise they made every night all around them, but fortunately they did not investigate the sound. The fishermen were unarmed.

The Harbor Commission.

On Monday, August 1st the Board of Trade of Levis and Quebec met to elect representatives to the Quebec Harbor Commission. As these representatives are entitled to \$5 per meeting, which means about \$500 per annum, there is no dearth of candidates. The last elected by the Quebec Board of Trade was Hon. R. R. Dohell.

PROVINCIAL CONTROL OF SCHOOLS URGED AS MANITOBA'S POLICY.

Winnipeg, July 25—Complete control of schools in the Province by the Provincial Government, which would pay the salaries of the teachers, was advocated as a solution for the educational problems of Manitoba by witnesses appearing at the first public sessions of the first Royal Commission appointed at the last session of the Legislature today. Another witness suggested that all the schools should be municipally controlled.

Many schools in the Province were closed owing to inability to finance, according to a school inspector who testified during the morning. High cost of operating was the principal trouble.

British Labor Production UNDER PRE-WAR LEVEL

F. H. Davies, who is connected with the Baldwin Steel Company, the English concern of which Stanley Baldwin, the Premier is at the head, was one of the passengers on the Lapland. Mr. Davies said that labor in England was not producing on the pre-war scale, and that the eight-hour day was general in the coal and light industries of that country.

This arrangement was made by the labor board, he said, but he declined to comment on the effect of the shorter working day on the steel industry. He was silent on the general labor situation in England owing to the fact of the Premier's connection with his firm, as he feared that his statement might be misconstrued.

Manitoba Legislature OPENS SESSION TO PASS BEER BILL.

Winnipeg, July 25—The special session of the Manitoba Legislature called to complete the bill endorsed

by the people last month for the creation of a system for Government sale of liquor, was opened at three o'clock this afternoon by Sir James Aikins. The speech from the Throne made mention of no other legislation and the Lieutenant Governor urged a speedy conclusion of the work of the session.

The opening was devoid of official formality.

The House proceeded immediately to business, with the debate on the address and the Government hopes for prorogation before the end of the week.

1809

LINES THAT SLENDERIZE

If you are generously proportioned you cannot fail to see the thinning possibilities that lie in this style. The collar is becomingly cut to the waistline and the sleeves which may be long or short, are set into well sloped armholes. The side panels contribute dignity and grace. The dress pattern No. 1809 is cut in sizes 36, 38, 40, 42, 44, 46 and 48 inches bust measure. For the 36-inch size, 4 1/2 yards of 40-inch material with 3/4 yard of 35-inch contrasting is required. Price 15c.

Our SUMMER fashion magazine is ready. It contains over 200 styles, embroidery designs, dressmaking lessons and a special article, What to Pack Away In Your Vacation Trunk, by Marion Davies, America's best dressed Movie Star, in which article Miss Davies gives advice which will help you decide what to take with you whether your vacation will be spent in the mountains at the seashore, automobiling, etc. We suggest that you order your copy today. Price 10 cents. Address: All Orders to Pattern Department, The Quebec Chronicle.
