LLOYD GEORGE CANCELS IRISH CONFERENCE

Liberals Plan Big Rally Here—British Premier Is Reported Ill

RELATIONS BETWEEN BRITAIN AND IRELAND TODAY STAND AS THEY DID BEFORE DE VALERA CAME TO LONDON; CONFERENCE NOW CANCELLED

Premier Lloyd George Cancelled the Conference with Sinn Fein Delegates to Be Held September 22, in His Reply to the Communication of Eamonn De Valera, Made Public Yesterday—Cancellation Brought About by Reiteration of De Valera's Claim to Treat with the British Government as Representative of an Independent and Sovereign State—The Premier Said He Must Now Consult with His Colleagues on the Course of Action the New Situation Necessitated.

(Associated Press Despatch)
LONDON, September 16.—Relations between Great Britain and Ireland today stood as they did before Mr. De Valera came to London on July 14th to discuss with Premier Lloyd George a possible basis for ending the Irish controversy. The Sinn Fein leader, yesterday, made public his note to the Premier, affirming his stand that Irish Republican plenipotentiaries could enter a conference only as delegates of an independent power, and Mr. Lloyd George quickly announced the cancellation of his invitation of Irish leaders to a parley at Inverness.

It was made plain by the Premier that he could meet the Sinn Fein delegates only if the claims of Irish independence and sovereignty were abandoned, but he did not close the door to further exchanges with the Republicans.

Mr. Lloyd George is indisposed, and is confined to his rooms at Gairloch, Scotland, where he has been spending a vacation, and it is expected here that members of the British Cabinet will confer with him before the Government takes further steps.

When the Cabinet met at Inverness on September 8th, a committee was appointed to deal with any situation which might develop as a result of exchanges with Dublin. It consisted of Mr. Lloyd George, Austen Chamberlain, Earl Curzon, Sir Laning Worthington-Evans, Winston Spencer Churchill, Edward Shortt, Robert Munro, Lord Birkenhead, Sir Hamar Greenwood and Sir Robert S. Horne.

These ministers left Inverness for various parts of Scotland and England immediately after the Inverness meeting, and it would take several days to gather them for a conference on the present critical situation.

The British Parliament adjourned on August 19th until October 18th, but Premier Lloyd George announced before the adjournment that if the negotiations with the Sinn Fein broke down and the position became hopeless, the Speaker of the House of Commons would be empowered, after consultation with the Government, to summon Parliament on forty-eight hours' notice.

NO INDICATION THAT TRUCE WOULD BE DENOUNCED

There was no indication here today that either the British Government or the Sinn Fein would denounce the truce arranged two months ago, and resume the guerrilla warfare that cost scores of lives and destroyed property valued high in the millions.

Warfare is the last thing either side desires and an effort apparently, will be spared to prevent any overt act that will place on either the responsibility for resuming hostilities.

Just what the Sinn Fein would do was seemingly a difficult question today. Two points made by Mr. De Valera in his note to Mr. Lloyd George were closely examined by those who were trying to determine what plan the Republicans had in mind.

The first was the statement:

"Our nation has formally declared its independence and recognizes itself as a sovereign state, and it is only as representatives of that state and its chosen guardians that we have authority and powers to act in behalf of our people."

MIGHT SEEK TO DETERMINE QUESTION BY PLEBISCITE

It was suggested that the Dail Eireann might intend to go to the Irish people with the question and seek to determine by a plebiscite what the desires of the people are. The result of such a plebiscite would, it was pointed out, either confirm the stand made by the Republican leaders or would give them a mandate to waive the demand for separation and enter a conference with the British Government. There has been a strong party in Ireland that has been urging an election to determine the steps taken, there being a number of men in the councils of the Sinn Fein, who have believed it would provide a means for accepting the British Government's offer of Dominion status.

The other sentence which attracted attention was the one referring apparently, to the separation of Ulster and Southern Ireland, and it was considered possible that new efforts would be made to approach the Ulster Government with a view to reaching a working agreement, and then approaching the British Government once more.

PUBLIC OPINION IN ENGLAND IS IN SUPPORT OF PREMIER

(Associated Press Despatch)
LONDON, September 16.—Premier Lloyd George, from whom the next move in the Irish negotiations is looked for, was still ailing at his vacation-time home at Gairloch, this morning. He was reported to be better, however, and as contemplating a return to London earlier than he had anticipated to consult his colleagues on the situation arising from Eamonn De Valera's statement, made public yesterday, that only as representatives of Ireland as a sovereign state, did the Dail Eireann have power to act, and from Mr. Lloyd George's own cancellation of the arrangements for the proposed conference at Inverness.

Public opinion in England, so far as it has found expression, is virtually solid in support of the Premier in his contention that all the advances possible towards peace have been made by Great Britain, and that the Government cannot go further to meet the Irish Republican aspirations.

There was hope that Mr. De Valera would ask his people for a new mandate, and that a plebiscite in Ireland would result in favor of the acceptance of Dominion Home Rule, but even the Irish Nationalists, according to expressions from them received here from Dublin, state now that the result would be contrary to English expectation.

It is pointed out that Mr. Lloyd George's reply to Mr. De Valera left an opening for the continuation of the discussion after the Cabinet had decided what should be done, but the preponderance of opinion there is that there can be no further concessions by Great Britain. The Government, it is thought, may, therefore, decide upon a general election to obtain an endorsement of its policy from the public.

SEEMS TO BE NO DISPOSITION ON PART OF PUBLIC TO CONSIDER IRISH PEACE NEGOTIATIONS AT AN END

(Associated Press Despatch)
DUBLIN, Sept. 16.—Although the popular newspapers today describe the letter of Premier Lloyd George, cancelling arrangements for the In-

verness conference, as a bombshell which spreads consternation, there seems no disposition on the part of the public in general to consider the Irish peace negotiations at an end,

PREMIER LLOYD GEORGE REPORTED ILL

(Associated Press Despatch)
INVERNESS, Scot. Sept. 16.—Lord Dawson, physician extraordinary to King George, has been sent for to attend Mr. Lloyd George, the Premier, who is suffering from a chill and neuralgia, at Gairloch, it was learned this forenoon.

A dentist also has been summoned.

It was announced at the Premier's official residence in Downing Street on Thursday night that he was suffering from a chill and that it would be necessary for him to remain indoors for a few days.

the premier's reference to "inevitable delay" giving rise to hope.

The prevailing indications here are that the desire is to avoid a breach in the negotiations, that a diligent search is in progress for a formula which will enable the proposed conference to be held without the sacrifice of principles on the part of either side, and that it is possible to phrase such a statement of principles in a way to avoid a breach.

The next move, however, it is claimed here, is with Mr. Lloyd George, and further communication with him after the British Cabinet meeting is awaited.

Leaders of the Dail Eireann expressed no concern over the prospect of a general election, taking the view that there was no probability of any party attempting to fight the Sinn Fein on compromise lines, and that if one did so the Sinn Fein would score another triumph, the result being that a renewal of the Sinn Fein republican mandate would be registered by the returns.

As to the truce, there is considered to be no immediate probability of its rupture.

There was little activity at the Mansion House up to noon today. Mr. De Valera had not arrived there at that hour.

"A BREAK-DOWN AND NOT A BREAK-OFF" HAS OCCURRED

(Associated Press Despatch)
LONDON, Sept. 16.—In an editorial, discussing the Irish situation, the Manchester Guardian says the important thing to recognize is that a "breakdown and not a break-off" has occurred in the Irish negotiations.

The newspaper expresses regret that Premier Lloyd George adopted a "venerable formula" and did not put the most favorable construction on Mr. De Valera's words.

"The Sinn Fein position was stated without its acceptance being asked," the newspaper asserts, "but that need not have been taken as a bar to the conference. It is impossible for the moment to admit a claim which would compel the treatment of Irishmen as aliens, but the conference would be for a much more practical purpose, to discover whether we can reconcile the fullest demands of practical liberty for Ireland, with the status of a British Dominion closely examined and clearly defined. It would be lamentable if on a point of form and not of substance the opportunity for an agreement should be lost."

RIOTING WAS RENEWED AT BELFAST AGAIN YESTERDAY

(Associated Press Despatch)
BELFAST, Sept. 16.—Rioting was renewed in the North Queen Street area here yesterday afternoon. Two women were wounded. Troops were called out. The area was affected by the truce agreed to last week.

REFUSES TO BELIEVE THAT DEADLOCK IS LAST PHASE

(Associated Press Despatch)
CORK, Sept. 16.—In commenting on the last exchange of notes between Premier Lloyd George and Sinn Fein leaders, the Examiner emphatically refuses to believe the deadlock is the last phase of the negotiations, "which every sane person in both countries hoped would end in agreement."

"The masses of both countries," the newspaper adds, "want peace," (Continued on Page 10.)

THE CANADIAN CATTLE GIVEN GOOD RECORD

For Last Thirty Years No Cattle Plague Has Existed in Canada.

(Associated Press Despatch)
LONDON, Sept. 16.—The cattle embargo commission in deciding in favor of lifting the embargo on Canadian cattle exported to England, says the estimate is two hundred thousand of such cattle would come in and adds that there seems every reason to believe that Canadian cattle were not suffering from pleuro pneumonia at all when permission to import them was withdrawn in 1892, and that for the last thirty years no cattle plague has existed in Canada.

Point To The Latest Turn In Events As Confirming Ulster Contention That The Republicans Would Prove Irreconcilable

Sir James Craig Declares His Belief that the Questions at Issue Do Not Affect the Six Northern Counties, But Are Matters for Adjustment Between the Government and Representatives of Southern Ireland.

(Associated Press Despatch)
BELFAST, Sept. 16.—Sir James Craig, the Ulster Premier, commenting on the hitch in the Irish peace negotiations, declared today his belief that the questions at issue did not affect the six northern counties, but were matters for adjustment between the Government and the representatives of Southern Ireland.

Of the other political leaders here a number pointed to the last turn in events as confirming the Ulster contention that the republican leaders would prove implacable.

Whig in his comment took a similar view.

BLAME PREMIER LLOYD GEORGE

(Associated Press Despatch)
DUBLIN, Sept. 16.—Premier Lloyd George is blamed by the Freeman's Journal for the cancellation of the proposed Inverness conference.

"Mr. Lloyd George," the newspaper declares, "made an extravagant miscalculation in cancelling the conference on the ground that to confer on the terms of Mr. De Valera's note would be to recognize Ireland as an independent republic, free to dissociate herself from the Empire. It should be remembered that Ireland, many years ago, was a sovereign state within the Empire, and reclaiming the sovereignty does not necessarily imply dissociation and severance."

"The British and Irish peoples will refuse to accept this as the end of efforts toward peace. Letter writing has continued too long. The negotiators long ago should have met at the conference table and got busy framing the peace terms, instead of discussing theoretical objections to such a meeting. It is not too late for the adoption of such a course."

WORK WILL BE FOUND FOR UNEMPLOYED AT TORONTO

(Associated Press Despatch)
TORONTO, Sept. 16.—At a private session of the Board of Control yesterday, Mayor Church announced that in dealing with the unemployment situation, it had been decided that there should be no doles handed out to the unemployed this fall and winter, but rather that work would be provided by the government and the city.

With this end in view it was decided to meet both governments with a view to having public works started, and it was also suggested, the Mayor stated, that the government should assist municipalities in the building of cheap homes.

Around The World Trip By Aeroplane Is Now Contemplated By Sir Ross Smith

While Actual Date Has Not Been Set, It Is Understood that the Start Is to Be Made Before Winter Sets in—Route to Take in Canada from British Columbia to Cape Breton.

(Associated Press Despatch)
OTTAWA, Sept. 16.—The first round the world trip by aeroplane is contemplated by Sir Ross Smith, the British airman who last summer successfully negotiated the flight from England to Australia. The starting date is not yet announced but it is understood that the trip is to be made before winter sets in. He will use a special type of machine of amphibian design, allowing for alighting with equal facility on land or water. The route is to take in Canada from British Columbia to Cape Breton. Starting from England the line of flight will probably be middle Europe, Mesopotamia, India, China and Japan. Thence northward across the Behring Sea to Alaska. Sir Ross will come into Canada from Wrangell, Alaska, on the northern boundary of British Columbia. In this connection the Canadian Air Board has mapped out

BIG LIBERAL GATHERING TO TAKE PLACE HERE NEXT FRIDAY -- HON. W. L. MACKENZIE KING WILL SPEAK

Convention and Rally Is Called for Friday, September 23—It Is Probable that Mr. F. N. McCrea, Who Has Represented This County Since 1911, Will Again Be the Unanimous Choice—Liberal Chief Will Be Accompanied by Sir Lomer Gouin, Hon. Walter Mitchell and Others.

THE first big political gathering, in connection with the coming elections, is booked for Sherbrooke, Friday, September 23. On that date a convention of the Liberal Association of the County of Sherbrooke will be held at 3 o'clock in the Metropole Building, and it is expected that nearly sixty delegates, representing different parts of the city and the county, will attend.

The object of this meeting will be to choose a Liberal candidate for Sherbrooke. It is probable that Mr. F. N. McCrea, who has represented the county at Ottawa since 1911, will be the unanimous choice of the convention, and it is thought that he will once again consent to represent the Liberals of this county.

On the evening of the 23rd, the Liberal chief, Hon. Mackenzie King, will address a rally, which will take place either at His Majesty's Theatre or the Armory on Belvidere Street. The chief of the Opposition will probably be accompanied here by Sir Lomer Gouin, Hon. Walter Mitchell and others, who will also address the meeting.

Thus far, little in the way of political gossip has come from outside counties.

The representation in the present Parliament for the Eastern Townships stands as follows:

Brome—A. R. McMaster.
Compton—A. B. Hunt.
Arthabaska—
Megantic—Pacaud.
Richmond and Wolfe—E. W. Tobin.
Sherbrooke—F. N. McCrea.
Stanstead—W. K. Baldwin.
Shefford—G. H. Boivin.
Missisquoi—W. F. Kay.

All are supporters of the Liberal Opposition.

Political rumors say that Mr. Tobin may retire in Richmond and Wolfe, and that Hon. W. G. Mitchell may enter the Federal arena. There are many, however, who do not credit the report.

In Arthabaska, it is freely stated that the present member will retire.

The Liberal convention in Sherbrooke will start the ball rolling. It is expected that the Government will contest all Eastern Townships constituencies.

The first Canadian stopping point will be Prince George, then Edmonton, Moose Jaw, Winnipeg, Fort William, Soo, Montreal, Fredericton and Sydney, a total distance of 3,755 miles over Canadian territory. The stages will average 400 miles each.

The Air Board has given Sir Ross particulars as to landing fields available at each point, as also with notes as to repairing, refueling and housing facilities at each place.

The project is one which it is felt that Canadians will naturally take a keen interest in, view of the fact that its success would do much to pave the way for the establishment of greatly accelerated trans-oceanic service by air between Canada and other parts of the British Empire.

chairman; Hon. W. L. Mackenzie King, leader of the Liberal Opposition; Ernest Lapointe, M.P. for Quebec East; Hon. Mr. Lemieux, whose entry into Parliament twenty-five years ago is being feted on the above date.

THE WIDE HIP-LINE

The gayest little frocks of summer have repeated it all along—the quaint fashion of widened hips—and this, of white crepe de chine emphasizes the fashion with a blue line of ribbon, tightly wired. Crisp edges of blue tulle ribbon and plies, in a delicate with streamers, play an important part in the frock's loveliness.

LET NO CORN SPOIL AN HOUR

Any Corn Can Be Stopped Now, Any Moment, by a Touch

Science has solved the corn problem. One can now stop a corn ache instantly, and shortly remove the whole corn.

The method is gentle, scientific, sure. A famous chemist invented it. A surgical dressing house of world-wide fame produces it.

It is Blue-jay—the liquid of the plaster. A touch applies it. The pain stops at once. Soon the whole corn, however ancient, loosens and comes out.

It makes harsh treatments unnecessary. It makes paring ridiculous. It makes every corn ache a folly. Your druggist has Blue-jay. Let it end your corn—tonight.

Hands were on FIRE

A Remarkable Case of Eczema.

"My hands broke out," says Mrs. Hector McDonald, of Oyster Ponds, N.S., "into a fiery irritable rash which the doctor called eczema. When his treatment failed to check the trouble I tried various salves and so-called blood-purifiers. But I got steadily worse and what were just isolated sores at first became one large mass of eczema. For over a year this went on, and you can imagine my suffering.

"Then I got Zam-Buk and I shall never forget how it soothed the dreadful fiery pain and itching. Even the first box of Zam-Buk effected wonderful improvement. Day by day the sores lessened and died away until, in time, the last sore healed. Zam-Buk banished every trace of disease."

LOTTERY GAME IN STATES
People across the border have been buying tickets in a lottery scheme known as the "Canadian National Drawing." In exchange for a dollar they get a chance on money prizes running up to a grand prize of \$100,000. The drawing, according to a ticket shown here, was to have taken place yesterday.

Lotteries of this nature are illegal in Canada, and just how such a proposition can be pulled off across the line is difficult to understand.

QUIET SESSION OF THE MAGISTRATE'S COURT

The Magistrate's Court was very quiet yesterday, only two cases appearing before Judge Mulvena. Quebec Liquor Commission vs. D. F. Bedard, Richmond.—This case was again adjourned.

The King vs. Francis Gauvin, of Magog.—The accused had been committed for trial some time ago on a charge of assault causing bodily harm to Philip Seleron. He chose a speedy trial and pleaded guilty. After the various circumstances of the case had been disclosed, he was fined ten dollars.

A GROWING SECTION.

A most favorable impression regarding the housing situation in this city can be obtained by a careful survey of the building operations along the three miles stretch between the city limits on Wellington Street S. and Lennoxville.

On the rise of land at the right, which provides a charming view of the St. Francis river and valley, and a little seclusion from the public highway, a number of houses are being built, and look as if they would be ready for occupancy before winter.

While this is not the only suburban part of the city that is being transformed into a residential section, it is a most desirable one. With the same work going on at Lennoxville it means that the city of Sherbrooke and town of Lennoxville are holding out their arms to each other and that they will soon be able to clasp hands, in the way of home-making, at least.

MR. NAKASH HONORED AT CONVENTION.

Mr. Nakash, of this city, has recently returned from a convention of the Photographers' Association of New England, which was held in Springfield, Mass. Mr. Nakash states that the convention was most successful and that a most enjoyable time was spent. Over two hundred delegates attended and during the four days of the convention many important sessions were held. At the last afternoon session election of officers and the salon awards occupied the attention of those present. When the names of the winners were announced Mr. Nakash was very pleased to learn that he had been awarded a first prize on one of his pictures. There were only three other salon awards besides that of Mr. Nakash and he is to be congratulated on the excellent showing he made in competition with so many other photographers.

GABLES FARM OF FOSTER MAKES ADDITIONAL PURCHASE.

The Gables Farm, near Foster, Que., and on Brome Lake, of which Mr. J. W. Norcross is the owner, recently added to their Jersey herd eleven females and a bull calf, purchased from Mr. F. G. Gale, of Waterville, Que. The cows are a good, type dairy bunch. Eight of them are making R.O.P. records at the present time, and the whole lot are high-producing animals. The bull calf is a grandson of Plain Mary, the world's champion Jersey cow, and is a splendid individual.

Mr. Aldrich recently restocked his farm with purebred Jerseys. He acquired four females in milk from H. W. Edwards & Son, of Hillsbury, Que.; four females and a bull from Mr. F. G. Gale, of Waterville. Mr. Aldrich is making sixty pounds of butter a week from seven females, of which four are two-year-old heifers.

A very important part of that programme was the Boys Conference to be held September 30th to October 2nd, for which arrangements had to be made for two separate suppers, one for leaders, at which

about thirty are expected to be present, and the Saturday evening supper, when it is expected that between two and three hundred will be present. Special attention was also called to the work and social events to be held in the building. The secretary stated that at the end of last year we had on an average of three of those per week, but this year there would possibly be just two a week. In connection with the Boys Conference supper it was decided to form an executive committee of one representative from each church, that committee to choose its own chairman, which would undertake the two suppers. The other matter was left in abeyance till the annual meeting in October.

The question of redecoration of the building being raised, the ladies on motion, unanimously decided to accept responsibility for Board Room and curtains for windows downstairs.

The question being raised as to future meetings of the Auxiliary it was decided to hold meetings at the same time in the month as heretofore.

business was taken up at once.

The minutes of the last meeting
were read by the secretary, Mrs. W.
G. Cross, and the report of the

stated that the gross receipts am-

venient for the majority of fair-
goers, and the inadequate seating
capacity of the building used by the
committee, which she hoped would
be remedied next year, she consid-
ered the hospital work at the Fair a
success. In this connection thanks
were due to the canvassers, the
contributions of food and money, to
the workers for every day of the
Exhibition, and to all who assisted
in any way to bring about so satis-
sfactory a result.

The president asked for a stand-
ing vote of thanks to the conveners,
with whose excellent work, both
previous to and during the week, she
was familiar, and who had been un-
tiring in their energy and interest.
The request was unanimously re-
sponded to.

It was moved and carried that a
letter of sympathy be sent to two
faithful members of the committee
who had recently suffered a great
bereavement.

Much discussion followed on the
various details of the hospital com-
ing within the province of the wo-
men's committee, and all were sat-
isfactorily arranged. Miss Upton,
the superintendent, was present and
spoke of the requirements of the
hospital, giving a list of the special
needs of an institution which is
worthy of every aid, and the super-
intendent's words met with an im-
mediate response on the part of the

and tea was poured by Mrs. Delaney,

Lothrop and Mrs. M. R. D'Donnell.

Mrs. Andrew Faith, of Rock For-

afternoon at a tea and miscellaneous
shower for Miss Lilly Crawford,
whose marriage takes place shortly.
The rooms were prettily decorated
with flowers, golden glow and as-
ters being used effectively, and
about fifty guests were present
from the neighborhood, Sherbrooke,
Lennoxville, St. Elie and other
points, and the hours were pleas-
antly spent. The beautiful gifts, ar-
ranged in two tastefully-trimmed
baskets, were brought into the liv-
ing room by two little girls, Misses
Gladys Sweet and Pearl Sweet
Coombs, arranged in pretty frocks,
and presented to the bride-elect,
who thanked her friends, and pro-
ceeded to open the parcels and to
read, amidst much fun and laugh-
ter, the verses attached to many.
As the guest of honor was also cel-
ebrating her birthday, a birthday
cake provided by Mrs. Faith was a

ices, etc., all of which were appre-

brooke; Mrs. W. E. Hetherington,

NEW ELEMENTS IN COMING ELECTION.

The Federal Elections are approaching and the situation, in its bearing upon probable results, is more confusing than probably at any previous elections.

In the first place there are three definite parties in the field, that of the Farmers coming in as an extra to the two old time political organizations.

Furthermore, for the first time the women of Canada will enjoy the franchise in a very general sense. The revision of lists must take place between now and election date and the names of tens of thousands of women will be included.

This is a feature that will puzzle the politicians and prophets.

It should result in a purer political atmosphere and a wise decision is not likely to be prejudiced by this new element.

MOTOR PROBLEMS.

The Quebec Provincial Motor League, at its convention, in Montreal, at which were present representatives from Sherbrooke and the Townships, discussed many problems of interest to motorists and the public generally.

"How to surmount the dazzling headlight glare?" was one of these questions. Legislation, to go into effect after fair warning, and then enforcement, would appear to be the proper step in this connection. Canadians who have motored in the States well know that the glaring headlight is not allowed in American cities and in most states and they do not venture into the south land without seeing that their equipment complies with the law.

Modern methods for the enforcement of speed regulations came up for consideration. It was felt that the system of laying traps and making wholesale convictions was unfair to many careful motorists. The speed fiend should be caught and punished, but the man who might go a little over the village speed limit in a certain thousand yard trip was not really guilty of an offence against public safety.

The association went on record as favoring the enforcement of the motor regulations "with judgment" and the strenuous prosecution of the reckless or intoxicated driver.

The question of the necessity of all vehicles carrying lights came in for consideration. At the present time, at a good deal of risk to themselves, people in horse-drawn vehicles drive along motor highways without carrying any warning light. They are in special danger on curves when the light of an approaching car throws straight ahead and misses the team just around the bend in the road.

Many other problems received attention, such as "Protection devices at railroad crossings," "automobile thefts," "price of gasoline in rural districts," "direction signs throughout the province," "highway maintenance," "excessive costs in connection with contravention cases," "supervision of garage repairmen, etc.

As the number of automobiles increase and good roads are extended, the problems in connection with motor traffic become more numerous and more pressing.

Discussions at public assemblies are very helpful in forming public opinion in regard to these matters and serve as an aid to law makers as well.

Goodyears Priced 25% to 30% Lower because they are made in Canada

Goodyear Tires dominate the market in the United States. More Goodyears are used than any other kind. They outsell cheaper tires. They outsell tires fictitiously priced higher. They dominate because they are better value.

Goodyear Tires head the list in Canada in the same way and for the same reason. And Goodyear Tires sell in Canada at Made-in-Canada prices. The same tires, if imported would cost you more. Note the big saving against the cost of Goodyear Tires if you imported them.

STOCKMEN AND STABLEMEN ARE OFTEN BRUTAL

Cases in Court Sometimes Bring
Out Facts Regarding Extreme
Cruelty to Live Stock.

A northern stockbreeder the other day brought a case, of cruelty to stock before the Court, not vindictively or merely for the punishment of an individual stockman in his employ, but in a public spirit. It transpired in evidence that the prosecutor employs several men amongst his milk cows, and that, despite remonstrances from the others, one of these men tied a cow's head down with its chain so that it could not move, and, after kicking it about the head and udder, he seized a piece of wood containing nails and belabored the animal all over the body. Usually a quiet beast, this cow had kicked over the milk pail, and this was the only excuse and defence the man could offer. It was stated that since the cruel treatment to which it was subjected, the animal had been so nervous that it could hardly be approached to be milked, though neither before nor since had it ever shown the slightest signs of vice. The Court gave the cowman three months in prison with hard labor to remunerate on his vicious conduct. It was mentioned in the course of evidence that there was too much of this sort of thing amongst stockmen who were not continually under the eye of their master. Without suggesting for one moment that it is general, for, as everyone knows, a great many men employed amongst horses and cattle take an almost affectionate interest in them, many of us also know that there are both drovers and those regularly employed amongst horses and stock who are naturally vicious and cruel. They are given, when the opportunity occurs, to what they call "taking it out" of animals which have caused them annoyance, trodden on their feet, been intractable, difficult to catch, over-anxious for food, and so forth.

An old friend of mine, well known in bloodstock world, always says, "God sends the horses and the devil sends the men to look after them." One daily sees evidence to substantiate this. At a race meeting watch the average boy leading a hot or nervous animal round. His means of checking it is to continually "jag" it in the mouth. Notice a certain type of groom who, when leading a horse and not looking where he is going, gets trodden on, or the same class of man when a horse shies or is afraid of some object and shows reluctance to pass it. His conduct is often ruinous to a young and nervous horse. Nor is this harsh and often brutal conduct confined to men. Observe the stick which some girls who feed calves take with them, and hear the belaboring over the head those calves get which are considered to have had their share, but are loath to leave the pail. The fault there, perhaps, is with the system of housing too many calves together more than the girls, but it is to be feared that there are a great many employees amongst stock who lack restraint and humane treatment when dealing with stock and lay themselves out to be what they call "master". When you hear a man admit that he showed a horse, a sow, bull or bullock "who was master," that he has had his teeth set and a stick in his hand, and that the particular animal has had a pretty bad time of it. I recall that when a boy a whole succession of horsemen on a farm (owned by an uncle of mine with whom I spent much of my youth) regularly drove heavy horses stacked in hand. They took a savage delight in prodding them with the sharpened end in the anus to make them increase their pace homeward at meal-times. At fortifying time at night I remember, too, seeing them almost nightly take a stick to horses which had raked their bedding behind them with their forefeet. I was too young, or too afraid of getting my horses into trouble, to report the matter at the fountain head, but they were discovered in time, and these men invariably are. My uncle, noticing one or two horses which

FRUIT PICKING LADDER

The seat and foot rest here can be moved up or down on the standard, or each can be fixed at any height by means of a tooth which engages the

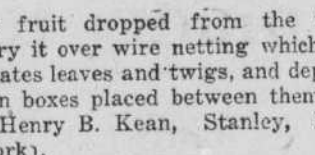

notches on the standard. They leave the operator's hands entirely free for picking. (Benjamin F. Wells, Loveland, Colorado.)

STEP AND WALL LADDER

The metal caps at the tops of the columns of this ladder are bolted at one edge only when it is used as a step ladder, but at both edges when it is used as a wall ladder. The cross braces are arranged as shown. (Ludwig Seger, Edgewater, New Jersey.)

FRUIT PICKER

The canvas sheets of this device are stretched on metal frames on opposite side of the tree. They catch the fruit dropped from the tree, carry it over wire netting which separates leaves and twigs, and deposit it in boxes placed between them. (Henry B. Kean, Stanley, New York.)

rushed up into the manger as soon as approached, grew suspicious, and, walking quietly round on one or two evenings, discovered the cause. Ever after that he walked round his horses at evening feeding time at least twice a week, and occasionally in the early morning. As the men never knew quite where they had him this brutality in the stable ceased. The master's eye not only makes the horse fat, but also tends to preserve the said horse's confidence in mankind and his freedom from abuse. There are some stablemen and stockmen of known and habitual brutality who are allowed to go on from year to year finding new masters without a word of warning being given as to their vicious character. They may be good feeders, early risers and hard workers and yet possess ungovernable tempers, which makes them quite unfitted to be employed amongst living creatures of any description, let alone valuable stock. We have sometimes heard grooms described as "butchers with a horse," and if they once get this reputation no real horse lover will knowingly employ them. The moral of my tale is that it is well for owners of stock to walk round their byres and boxes at unexpected times no matter how trustworthy most of their men are, and if they find one of the type of the Northern cowman, who is at present having what I hope will be an extremely unpleasant three months, then they should see to it that he turns his attention to touring with a travelling menagerie, or, at any rate, that others be warned against employing him amongst live stock.

SOLUBLE AND INSOLUBLE PHOSPHATES.

In order to appreciate the respective values of soluble and insoluble phosphate, the fact that phosphates rendered soluble in water are quickly distributed in the soil amongst the roots of plants, and that the plant food derived from the soil is absorbed through the minute attachments of the feeding rootlets, must be kept in view. From this deduction there is no doubt that superphosphate may be expected to give a more immediate return to the crop to which it is applied. If water does not dissolve the phosphate the process is slower, and the availability depends on the degree of acidity in the soil.

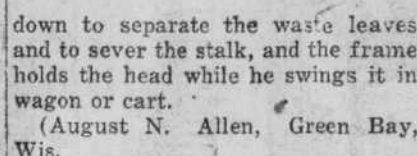

The standard by which a weak solution of citric acid is used as the method of determining the amount of phosphate likely to be available in acid soils, even if not exactly accurate, is most useful. Yet a profitable and immediate return, even under the most suitable conditions, is doubtful, and is not a commercial proposition. Under existing conditions of agriculture, farmers will appreciate the advantage of using manures which will give full benefit to the crop under treatment, and, with this end in view, the treatise rightly states that water soluble phosphate is preferable to citric solubility.

CABBAGE HARVESTER.

The special feature of this harvester is the frame which holds the cabbage head on the shovel blade. The operator places the pullers on the head, forces the rollers and blade

down to separate the waste leaves and to sever the stalk, and the frame holds the head while he swings it in wagon or cart. (August N. Allen, Green Bay, Wis.)

CURING SWEET POTATOES

The potatoes here are cured without discoloration or excessive shrinkage. They are stored in shipping cases and subjected to a gentle but continuous current of air. The temperature is that of the outside air for two days, then it is gradually raised to 75° F. during three days and kept at this for ten days, then it is gradually lowered to the outside temperature during two days, and the process is finished. PLANT FOOD REQUIREMENTS OF THE WHEAT CROP.

One of the principal causes of failure to secure satisfactory yields of wheat at the present time is lack of proper attention to the matter of feeding or fertilizing the crop. There is no doubt that our farmers will have to pay more attention to this point if they wish to grow wheat at a profit. It is just as necessary to have an adequate supply of food available for a crop of wheat as it is to have plenty of food at hand in order to grow a drove of hogs.

The food used by the wheat crop consists of compounds of about a dozen of the chemical elements, most of which are derived from the soil. All of these food elements must be present or the crop cannot grow. Just as an animal must have salt and various other substances in its food, so must wheat have nitrogen, phosphorus, potash, lime and a number of other elements in its food. If any of the essential food elements are lacking, the plant will not develop. Wheat responds to the use of fertilizers more readily than most of the other ordinary crops. This is due largely to the fact that wheat makes the principal part of its growth during a comparatively short period and requires an abundant supply of readily available food at that time. Then again wheat is a comparatively shallow-rooted crop and does not have access to the depth of soil available to deeper-rooted crops and consequently must have an abundant supply of available food in the surface soil.

Taking ten representative one-year experiments from the following widely-separated locations, Scott, Fayette, Ripley, Sullivan, Clinton, DeKalb, Bartholomew, Johnson, Tippecanoe and St. Joseph counties, it has been found that the average grain in bushels per acre due to fertilization has been 11.6, the average cost per acre of fertilization has been \$4.14 and the average net profit per acre has been \$7.46. To this profit must also be added the benefit accruing to the land from the residual fertilizer left behind by the wheat crop and benefiting following crops.

THE COMFORT SOAP
GUESSING CONTESTQUEBEC WOMAN WINS \$50—
SHERBROOKE WINNERS
ALSO.

One of the features of the recent Sherbrooke Exhibition was the free guessing contest in connection with the mammoth bar of Comfort Soap. This huge bar of soap was the drawing card of the Comfort Soap Exhibit.

The big Comfort Soap bar was officially weighed on Sept. 2nd, and its certified weight found to be 360 lbs. 8 ozs. The first lucky mortal to guess its exact weight was Mrs. H. Wale, of Quebec City, and she is today admiring the Fifty Dollar Check which the Comfort Soap Company mailed to her as the winner of the Grand First Prize. Miss Valmore Jutras, of Sherbrooke, receives a cash prize of Thirty Five Dollars awarded her as the Grand Second Prize. Mrs. H. C. G. Reid, of Ottawa, is all smiles just now over her Grand Third Prize of Twenty Five Dollars cash. The following five lucky individuals each are sure of household cleanliness for another twelve months, being the proud winners each of a full case of 100 bars of Comfort Soap which they will duly, and with proper pride escort to their respective homes: Mrs. S. W. Jenckes, 28 Prospect St., Sherbrooke; Mrs. Romeo St. Jean, Sherbrooke; Miss Irene Wright, Sherbrooke; Miss Gertrude Barfield, Sherbrooke; Mr. Lucien Russell, Sherbrooke.

It is interesting to note that six out of the eight clever guessers were Sherbrooke people which shows how often Sherbrooke can hit the nail on the head.

LENNOXVILLE

FIRST MEETING OF NEW SEASON.

The Epworth League of the Methodist Church held its reopening meeting after the holidays on Wednesday evening. Mrs. J. A. Seale, president, presided, part of the business being the filling of several vacancies in the offices caused by the departure of some of the young people to attend college.

Miss Ruth Edwards was elected secretary; Miss Ruby Bailey, corresponding secretary; Mr. Malcolm Greene, treasurer, and Miss Brundage, third vice-president. A few words of explanation of the broad nature of the League work were spoken by Rev. P. Pergau, and several committees were named to take up the various departments of work for the winter.

Women's Institute Meeting.

The meeting of the W. I., postponed from last week, was held in the club room on Thursday afternoon with a fair attendance. Mrs. W. S. Armitage, president, occupied the chair, conducting the routine business as usual. A request that the soap wrappers in aid of the temperance exhibit in St. James' Church, Montreal, be brought in at the next meeting, was made.

The matter of the educational meeting to be held in the town hall on Wednesday evening, September 28th, to be addressed by Mr. Harold McQuat, of Macdonald College, was fully discussed, and plans made to ensure a large audience.

Mrs. G. G. McCurdy, convener of legislation, called attention to the fact that women of Canada would vote for the first time in a Dominion election very shortly, possibly in November, and urged the women to see that their names were duly registered as soon as it became known what method would be followed.

In order to fall in line with the provincial and county organization, the following were appointed as conveners of committees for the local club: Agriculture, Mrs. Frank Mitchell; child welfare, Mrs. E. L. Atto; education and better schools, Mrs. J. A. Seale; household science, Mrs. Jackson; immigration, Mrs. Reed; legislation, Mrs. McCurdy; publicity, Mrs. Atto; social service, Mrs. Bert Dundin.

A petition asking that the work of the school fairs be taken from the Department of Agriculture and placed under that of education, was largely signed in duplicate, to be forwarded to the respective ministers of these departments.

The programme for the meeting being "Our Town Library," a very comprehensive paper was contributed by Mr. D. J. Harrison, secretary-treasurer of the library, and read by Mrs. Bert Dundin. It was arranged that the next meeting should be followed by a public tea in aid of the library. The hostesses of the afternoon, Mrs. Wm. Paige, Mrs. Ed. Paige and Mrs. W. Byrne served a bountiful tea, which all present enjoyed. A pleasing feature of the afternoon was the presence of visiting members of the Belvidere Institute, the president, Mrs. Parkin, expressing in a few words greetings from her club.

Wall Street Journal—Many industrial corporations that were forced to borrow large sums of money largely on account of large inventories and small cash holdings have been paying off their indebtedness. Conversion of raw materials into finished goods is one reason for better cash position of industrials. Money was easy in the face of Federal tax payments yesterday and one reason is liquidation that has been going on in inventories.

World—The street is of the opinion that with reconvening of Congress the latter part of the month and voting by that body of the \$500,000,000 owed to the railroads the foundation will be laid for a continuance of the upward tendency in stocks.

Journal of Commerce—The weaker tendency was evident from the very outset. This was particularly the case with Steel and Oil shares.

Wall Street Journal will say today:

Copper prices up 1-8 cent with a moderate demand.

B. F. Goodrich Rubber maintaining sales volume; tire demand expected to continue steady through the fall. Bank loans have been reduced by liquidating inventories.

American Smelting outlook is slightly better.

Lead consumption higher with the demand widespread; as production has not been responded to price increases slow, but moderate rise is expected.

Iron and Steel consumption seems to be broadening.

Burns Brothers Coal merger proposed presented to Wm. Farrell and Son may be acted on at meeting next week.

Wabash July showing makes big improvement; company must do even better in last five months however, to meet fixed charges.

Encounters Between
Opposing Factions
In Interior Ulster

Unionist Farmers in the District, Arming Themselves and Setting Out, Surprised a Party of Republicans, and Shots Were Exchanged—Several Revolvers Are Captured.

(Associated Press Despatch)

BELFAST, Sept. 16.—Encounters between opposing factions in interior Ulster were reported here this afternoon.

Two unarmed constables, on cycle patrol, near Cookstown, in East Tyrone, were shot at by scouts alleged to be covering Republicans at drill. They reported the matter to their barracks, and a patrol was sent out, which intercepted three cyclists, one of whom had a loaded revolver and other weapons. This man was arrested.

Unionist farmers in the district, arming themselves and setting out, surprised a party of Republicans, and shots were exchanged. The Cookstown cyclist contingent captured eight loaded revolvers they reported having found upon members of this party and seized a youth who had been shot in the leg. The wounded prisoner was taken to a hospital in Belfast.

THE AUSTRALIAN MINERS MAKING A NEW MOVE

Mine Owners Regard Move as an Attempt to Secure a Six-Hour Day.

(Associated Press Despatch.)
LONDON, Sept. 16.—A Reuter despatch from Sydney says the Australian coal miners have decided to limit the working fortnight to nine days instead of eleven.
The owners regard this move as an attempt to obtain the six hour day.

IRISH RELATIONS AS THEY WERE

and the only practical means of reaching a satisfactory understanding, by direct conference. There has been enough of notes and of counter notes. Let plenipotentiaries of England and Ireland meet with absolute open minds, and without any conditions whatsoever. This is probably what will eventually happen. Neither would be prejudiced in such a conference, and, with good will, a settlement should be reached.

DE VALERA'S REPLY TO BRITISH GOVERNMENT WAS AN ULTIMATUM, AND LLOYD GEORGE TREATED IT AS SUCH

(Associated Press Despatch.)
BELFAST, Sept. 16.—Appeals to Premier Lloyd George and the leaders of the Sinn Fein to make every effort to solve the Irish question are made by the Northern Whig of this city in commenting upon the critical situation which developed yesterday when the proposed conference at Inverness was canceled.

"Premier Lloyd George," the newspaper says, "at last is alive to the futility of endeavoring to conciliate the Sinn Fein leaders and the only course open to the Government, if it is sincere in its expressed desire to maintain the essential unity of the realm, is immediately to take adequate measures to break the treasonable tyranny which has three-fourths of Ireland in its grip. The conciliating and tempering policy of the past two years, for which a heavy price has been paid, must end."

The Belfast News-Letter says: "Mr. De Valera's reply was more

than a refusal of the Government's conditions. It was an ultimatum and Mr. Lloyd George treated it as such. The only way out of the deadlock is to surrender the claim of independence for Ireland. The Sinn Fein is now at the parting of the ways for good or evil to Ireland. The only hope for good lies in abandonment of the impossible."

ARBUCKLE CASE WILL COME UP VERY SHORTLY

District Attorney Brady States Expects to Be Ready for Trial Within Three Weeks.

(Associated Press Despatch.)
SAN FRANCISCO, Sept. 16.—Roscoe Arbuckle will go on trial on some charge in connection with the death of Miss Virginia Rappe, within the next three weeks, District Attorney Brady announced today.

"I am going ahead with the prosecution of this case with all the speed possible," said Brady. "I expect to be ready for the trial in about three weeks, and I believe the defense will be too."

He declared that he had several reasons for making no decision at a conference with his deputies and police officials as to whether to try the film star on a charge of murder or manslaughter.

"We think we have sufficient evidence to convict Arbuckle of murder," he said, "but that is up to the Commissioning Magistrate."

A county grand jury indictment charging Arbuckle with manslaughter was returned to presiding Judge Shortall yesterday. Bail was set at \$5,000 cash or ten thousand dollars bonds. Arbuckle will not be admitted to bail until the two murder charges pending against him have been disposed of.

WILL TELL ALL ABOUT PARTY

(Associated Press Despatch.)
LOS ANGELES, Cal., Sept. 16.—Roscoe Arbuckle, in jail at San Francisco, charged with murder, declared that he had ordered a reservation on a train to Los Angeles this evening and that he was going back to his home, in an interview at San Francisco, published here today.

Arbuckle, according to the article, said that he intended to go back into pictures and that the case would clear up as soon as the public knew about it. He said that there were a number of people at the party whose names had not been mentioned, some from Los Angeles, of considerable prominence. He said he would like to tell about it, and would give full details of the party and all the names at the trial.

He said that he could not understand why the newspapers printed so much about the case. Explaining the odd reservation, he said his attorneys were arranging it.

COLLAPSED IN BALL GAME AND DIED QUICKLY

William Beaulne, of Farnham, Died Two Hours After Collapse in Sixth Inning.

WATERLOO, Sept. 16.—William Beaulne, of Farnham, collapsed here on Wednesday while playing baseball and died about two hours afterwards.

Beaulne, who was a C. P. R. railway engineer, came here with the Farnham ball team to play against Waterloo in a game, which proved to be a fatal one for this baseball enthusiast. The contest started alright, but when Beaulne was running after a ball in the first half of the sixth inning he dropped to the ground and was immediately carried off the field in a state of collapse. Dr. Corcoran was immediately called and treated the man, who was removed to the hotel. Everything possible was done, but the patient weakened rapidly and died about two hours after the commencement of the unhappy incident. The doctor declared death was due to heart failure.

The body was removed to Farnham yesterday.
