CAUGHT AFTER A HOT CHASE

Kitchener Captures Viljoen's Guns and Supplies.

AN ALL DAY FIGHT IN ZULULAND.

Boers Repeatedly Rush the British Position.

London, July 30.—The War Office has received the following from Lord Kitchener:—
"General F. W. Kitchener, after a long chase of Ben Viljoen's commando, caught up with it. A sharp fight ensued. We captured a pom-pom and 22 wagons, and took 32 prisoners. The British had five wounded.

HOT FIGHT IN ZULULAND.

Durban, Natal, July 30.—Details received here of what at first seemed an ordinary skirmish between a British column and a Boer commando near Nqutu (Zululand), July 28, show that a hard all-day fight occurred, in which the British narrowly escaped the loss of a gun of the 67th Field Battery.

Four hundred Boers repeatedly rushed the British position, killing Major Edwards and Gunner Carpenter. The gun was limbered up and taken at a gallop for three miles under a heavy fire. Five British were killed.

Kitchener Says Full Force is Still Needed.

Cape Town, July 29.—Boers are scattered throughout the upper districts of Cape Colony in small marauding parties. Some are within a few miles of Indwe. Others are around Jamestown and between Molteno and Burgheer dorp. Several parties are closed to Oradock.

It is reported that Mr. Steyn's captured documents letters were found regarding a plan for Gen. DeWet and Delarey to join forces in making a dash into Cape Colony.

Replying to an appeal by the mayor that the members of the Duke of Edinburgh's Volunteer Rifles, a local corps, be released from active duty after twenty months' service, Gen. Kitchener has pointed out that the present disturbed state of the colony makes any reduction of strength very difficult and most undesirable.

Boers Lived in Caves

Pretoria, July 29.—From July 1 to July 22 the number of Boers captured, wounded or who surrendered was 1,908.

Caves that were occupied by Boers have been discovered in the Lydenburg district. They were hurriedly vacated by their occupants when the British approached. The caves were well furnished and stocked with provisions. A quantity of silks and satins were also found in them, and it is supposed that these were looted from stores.

A military census will be taken on July 31.
Gen. Garrett has had a successful skirmish near Vereeniging. His force captured twenty-five Boers and a number of cattle and wagons.

Boers Make New Trek.

Lisbon, July 29.—A despatch received here from Lorenzo Marques, Portuguese East Africa, announced that a Boer commando, accompanied by woman and children has entered Portuguese territory in the neighborhood of the Limpopo River. Troops have been sent to disarm the party.

To Aid The Colonies.

London, July 30.—The supplementary civil service estimate asks for £7,018,910, of which £5,500,000 is required by the Colonial Office as a grant in aid of the Vaal River and Orange River Colonies. Three millions of this will be considered an advance to the colonies, to be repaid out of the first loans issued by them.

WHEN THE WAR IS OVER. South Africa Will Then Bloom Like a Rose.

Montreal, July 30.—"South Africa will bloom like the rose when the war is over," remarked Mr. E. B. Garland, a Cape Town merchant, who is at the Windsor with his daughter, the two now travelling through Canada, and waiting for things to settle down in those disturbed countries.

Mr. Garland believes in Milner and Kitchener, and in the policy of fighting it out till the Boers realize that the two so-called Republics are things of the past, in fact as well as in the name.

He says the Boer farmer is all right when left alone, but it was the promises of Kruger and the other leaders to drive the British into the sea that turned his head. Mr. Garland added that the South African Dutch will settle down in the near future, and work out his own destiny beside his British neighbors.

SANCTIONS GIFT TO ROBERTS.

King Recommends Parliament To Grant Roberts £100,000.

London, July 29.—In the House of Lords to-day, Lord Salisbury, the premier, read a message from King Edwards, to the effect that, in consideration of the eminent services of Field Marshal Lord Roberts, in South Africa, His Majesty recommended the sum of £100,000 (\$500,000).

King Edward distributed further medals this afternoon at Marlborough House. Winston Spencer Churchill, the war correspondent, formerly Hussar officer and now member of Parliament for Oldham, was among the recipients.

Lord Stanley, financial secretary of the War Office, replying to a question in the House of Commons to-day, said the number of Boers made prisoners or who had surrendered, since the declaration of war, totalled, up to July 1st, 33,000.

At Elandsfontein Hospital.

Ottawa, July 30.—A member of the Canadian contingent of the South African Constabulary, writing to friends in Ottawa from hospital at Elandsfontein under date of June 25, says:—"They treat the patients well in hospital, and we have every comfort. The Sister over the ward in which I am located is a niece of Cecil Rhodes. There are a lot of wounded in this ward. The other day over twenty were brought in with severe wounds, and three of them died the next day. The weather here now is lovely. The summer is just setting in, and I am enjoying the life immensely. The daily routine is:—Reveille at 5.30, stables at 6.30, breakfast at 7.30. At 9 we have to go into the trenches and dig till 12, when we get dinner. At 2 o'clock we go back and dig till 4. Supper is at 5. Every day we have patrols out for ten miles around the camp, and every night there are eighteen men on outpost duty about 800 yards from the camp. Seventy men sleep in the trenches every night."

CHARGES AGAINST CHIEF POWELL.

Witnesses Swore They Saw Him Drunk.

Ottawa, July 30.—The investigation into the charges against Chief Powell were resumed this morning. The enquiry had reference more particularly to the charges of alleged drunkenness. Some witnesses swore that the Chief was drunk on three occasions, while others were just as positive that he was not. The enquiry was continued until a late hour, no material evidence against the Chief being forthcoming. A sensational incident of the afternoon was the bout between the Chief and Mr. Dowling, counsel for ex-detective Flanagan, when the Chief called the barrister a scoundrel and liar for insinuating that Powell was a frequenter of houses of ill-fame. The enquiry will be concluded tomorrow.

Reforms In China.

Pekin, July 28.—Li Hung Chang, Prince Ching and Kun Yang, resident members of the regency board, have received from the emperor a long communication laying down general injunctions as to reform, honesty of administration and the desirability of imitating all meritorious features of the institutions of Japan and western nations.

Forest Fires in Nova Scotia.

Halifax, N.S., July 29.—Wide-spread forest fires are raging at River Hebert. Firemen from Amherst have gone to assist in fighting them. A number of large lumber mills are in danger.

PAPER MILL BURNED. Canada Paper Co's MILL Destroyed By Fire.

Windsor Mills, Que., July 29.—By a fire which broke out here to-day, the St. Francis mill of the Canada Paper company was wholly destroyed, with the exception of the boiler room, representing damage to the extent of about \$300,000. The conflagration started in the body of the mill, about 5.30 this afternoon, but for its origin no definite cause can be assigned. The fire spread very rapidly, and it was only a few minutes before the entire structure was in a blaze that the local fire brigade was unable to control. Sherbrooke was telephoned to for assistance, but the help could not get there in time to be of any service. Only one accident has so far been reported, and that was to one of the mill hands, who received some light injuries to the head. About 100 employees will be thrown out of work.

MACHINERY GROUND ON UNTIL WALLS FELL.

Windsor Mills Was In Darkness.

Dynamos Which Supplied Mills and Electric Company Destroyed.

Richmond, July 30.—Further details of the big fire yesterday afternoon at Windsor Mills show more clearly the extent of damage done.

The St. Francis mill was in operation when the fire was discovered, and as the employees had not time to save even their coats it was not shut down and the huge machinery kept revolving while the fire was raging. The grinding and crushing when the machinery was twisted by the heat was terrific. This morning the scene presents a very desolate spectacle, with the ruins of the huge building, with the bent and twisted bolts and shafts stretching through the air in every direction. There were four divisions in the burnt mill, the machine room, pulp mill, press room and stock house.

The dynamos which supplied the three mills and the Windsor electric light were also destroyed, and Windsor Mills was in darkness last night. The two other mills also which run night and day, were shut down last night for want of light.

The St. Francis mill paid out \$5,000 monthly in wages. The acting manager of the Canada Paper Company stated in an interview this morning that while the company would be seriously inconvenienced by the fire which had destroyed the St. Francis mill, the destruction of the mill might not to have a very perceptible effect upon the production of paper generally, nor ought it to affect its price so far as the consumer is concerned.

The mill, said he, "is one of three, the two others being known as the Windsor and Spring Vale. Altogether we have five paper-making machines at the three mills, and there was only one at St. Francis mill. We have thus got four machines still running. The machine which has been destroyed was capable of producing upwards of twenty tons of paper a day, and this, although a matter of considerable importance to us as regards the prompt fulfillment of our contracts, cannot seriously affect the general supply in the market, and that I take it is what concerns the public most."

"The loss is fully covered by insurance."

Company Will Rebuild.

The general manager of the company, Mr. McFarlane, states that the company will rebuild. The fire will not interfere with the operations of the other two mills.

Assistance was asked for from Sherbrooke and preparations were at once made to send down a portion of the brigade, but the request was cancelled before a start was made, as it was found that nothing could save the mill, and no other property was in danger.

Queen's University, Kingston, will confer an honorary degree on the Duke of York, on the occasion of his visit to Kingston.

Do Eyeglasses Injure?

Some people think glasses injure, because when once worn a person becomes dependent upon them. The truth is because a glass gives relief by removing the existing strain upon the eye, no time should be lost in affording this relief. Consultation free. Satisfaction guaranteed.

LOST ON GRAND BANKS.
Two Fishermen Adrift in Dory.
Quebec, July 29.—Two fishermen, who have been saved from starving to death on the ocean, have been brought to Quebec by the steamship Manchester Commerce. The two fishermen are Michael Mahoney, aged 25, of Saulmoniere, and George Welch, aged 18, from Grand Banks. Some five weeks ago they left Fortune Bay on the schooner Ohio to fish. On Tuesday morning last they left the schooner in a sixteen foot dory to pick up their lines. A heavy fog obscured the atmosphere at the time, and the two occupants of the little craft being unable to find their way back, drifted off on the ocean. Their position can readily be imagined when it is considered that they could only see a few yards ahead of them and realized that they were being carried miles away from the schooner. The fog finally cleared, but Mahoney and Welch found that sky and ocean limited their view. For two days and two nights they remained thus without a bite to eat until Thursday, when an outgoing vessel passed within five miles of them. The atmosphere was perfectly clear at the time, and the two fishermen strove frantically to attract the attention of those on board. In this they were undoubtedly successful, as figures could be distinguished on the deck without difficulty, but the steam-er continued on and the two poor fellows were left to perish. Gradually their strength left them and it was when well nigh exhausted that the Manchester Commerce, which was on her way to Quebec, sighted them on Friday morning about 5 o'clock, and bringing the vessel to a standstill, the men were taken on board. They will be sent back to Fortune Bay by the Government.

Special services were held in the Methodist Church on Sunday, the 14th inst., when Rev. Mr. Lett of Sherbrooke occupied the pulpit. The church was tastefully decorated for the occasion. Mr. A. Jackson of North Hatley assisted the choir and sang a solo at the evening meeting. The sum of \$60 was raised for extra pews needed for the church.

Last Sabbath was Children's Sunday. The church was again decorated, and a children's choir furnished the music. The Rev. Mr. Pates and Mr. Dobson conducted the service.

On Monday a Sunday-School Convention was held here for this district, with Rev. E. Wesley Halpenny, general secretary of S. S. union, in attendance. At the afternoon session papers were read by Rev. Mr. McDonald, Rev. Mr. Ball of Waterville and Miss Hutchinson of Compton, followed by discussion. Miss Carbee, of Compton, and Mr. Farnham, of Martinville, furnished excellent papers for the evening meeting, and Mr. Halpenny gave a fine address. A Question Box was a special feature, and was answered in an interesting manner by Mr. Halpenny.

Mrs. McLean, Mrs. Reade and children, of Manchester, N. H., are visiting at C. G. Craig's.

SAND HILL.

Weather permitting the majority of farmers will finish haying this week. They have had a splendid season for haying, as there has been scarcely any rain since haying commenced, and the crop is very good.

Raspberries are not very plentiful here this year.

The Rev. Weyman is to be away on his vacation during the month of August. We hope he may enjoy his much needed rest. Rev. Robertson of Cookshire will officiate in his stead.

Miss Ada Oakes of Johnville, has been visiting her sister, Mrs. T. A. Butler, for a few days. Miss Oakes has lately completed a successful term of teaching in the vicinity of Hillhurst, where at the close she received some very handsome presents from her scholars, also a nice letter signed by all her pupils.

Mr. T. A. Butler purchased at auction in Sherbrooke, a short time ago, a Montana horse which promises to be a beautiful and valuable creature, when he succeeds in training it.

CANADIAN SCOUTS HOME

Party of Sixty Arrive at Quebec

Quebec, July 29.—The steamship Numidian, of the Allan line, arrived in port at 5 o'clock this afternoon. Among the passengers were five officers and sixty men of the Canadian scouts, from South Africa. The names of the officers are as follows: Lieut. Gallagher, Lieut. Macdonald, Lieut. Ross, Lieut. Ryan and Lieut. Thompson.

Most of the men are coming straight from South Africa. Their time was up seven months ago, and they re-enlisted for six more months. They are all healthy; and are all speaking of the hostilities in South Africa as being nearly over. Five of the privates being from Quebec have landed here. Thirty-five others are starting to-night on board the Numidian for Montreal. The names of the Quebecers who have landed here are: Miller, Fradette, Vincent, Ferguson and Rae. They were met on the landing on the arrival of the steamer at the Commissioner's wharf by Metcory, an orderly from the brigade office.

Ottawa, July 27.—Hon. Joseph Chamberlain cables that No. 1820, Trooper Nelson, is dangerously ill of enteric, his next of kin is Thomas Hill, Virdean, Man.

Mr. Chamberlain sends another message stating that 2108, Trooper George Richard Serpell, South African Constabulary, died of acute tuberculosis, following pneumonia at Petrusburg on July 21. His next of kin was Albert Serpell, of Exeter, England.

MILLFIELD VALLEY

Owing to the exceptional fine weather many of our farmers have finished their haying, and report a good crop.

Mrs. John Arkley of Barrie, Vt., is the guest of her parents, Mr. and Mrs. Butler.

Quite a number of the young men of our vicinity intend to take the opportunity of seeing Manitoba, by going out during the harvest excursion.

Mrs. (Rev.) Deeprose and Miss Mary Mooney, were the guests of Mrs. William Johnston.

Miss Kate E. Kelso of Manchester, N.H., is home on a visit to her brother, Mr. Alexander Kelso.

Miss Kate McKillop is at present suffering from an attack of asthma.

We are sorry to chronicle the death of Mr. Henry R. Ralston, of the Belcher Range, who, although he did not reside in our immediate vicinity, was well known to all.

He leaves a wife and family to mourn his loss. The sorrowing family have the sympathy of the entire community. Rev. Mr. Corrigan will conduct the funeral service.

EAST CLIFTON.

The weather for the last three weeks has been very favorable for farmers to secure the hay crop, which, in this section, has been very heavy, and is now very nearly all secured; the quality as well as the quantity is very good. All other crops are also very good.

We are sorry to have to report that Mrs. Stephen Gray, who has been confined to the sick room since last winter, is no better yet. Her two daughters, Mrs. Lee and Mrs. Vaid, from Portland, Me., are with her at present.

Mr. and Mrs. Elmer Williams, from Boston, are at home at Frederick Williams, on a visit. We noticed them at church on Sunday evening last.

Mr. Edwin Waldron is building an addition of a kitchen and shed to his dwelling house, and intends painting the whole throughout, which will be a very great improvement.

The Cause of Hay Fever.

It's a microbe that floats in the air, gets into the throat and lungs, develops rapidly, excites inflammation, &c. The cause is as simple as a thistle in the finger. Extract the thistle, away goes the pain. Destroy the Hay Fever germ—you get well. That's why Catarrhzone acts so marvelously in Hay Fever. Its fragrant vapor to you brings cure, but to the microbe death. Catarrhzone is as quick to act on these microscopic organisms as lightning. Prevents as well as cures, and is always successful. Druggists, 25c and \$1.00, or Polson & Co., Kingston, Ont. 3in

OLIVER.

Haymakers and berry-pickers are taking advantage of the fine weather.

Mr. and Mrs. Josiah Feltus, and daughter of Beebe Plain, were visiting at Mr. Frank Rexford's last week.

Rev. Mr. Vial of Fitch Bay called on friends in this vicinity last Friday.

Mrs. Emily Ruter started for Maine on Saturday.

Mr. A. A. Bachelder and wife, were visiting here last Wednesday.

Miss Ives finished a very successful term of school at Oliver, last Friday.

HATLEY.

The Rt. Rev. W. W. Niles, Bishop of New Hampshire, and his son the Rev. Wm. Porter Niles, are expected to be in Hatley about the 7th of August, and will remain a week. The Rev. Wm. Porter Niles will preach at the 10.20 morning service in St. James Church on Sunday, Aug. 11th, and there will be a service in the "Old Church" at 2.30 p.m., when the Bishop and his son will be present and officiate.

Coughed Up A Brooch.

Toronto, July 30.—The four month-old child of George Billinghurst, 76 Wellington avenue, yesterday morning, during a violent coughing, vomited a brooch, which it had in its interior economy for exactly two months, thirteen days and three hours. The child suffered no pain and is none the worse for its strange experience.

PRODUCE MARKET.

CHEESE.

Montreal, July 30. While the country markets continue to exhibit strength and holders talk very full prices, generally on this side of the water, shippers who have tried to place some new business on the basis of the higher prices paid in the country last week have not met with a very encouraging reception from their correspondents on the other side. At the wharf this morning some 7,000 boxes were offered, and sold at a range of 9 1/2c to 9 3/4c, with some lots fetching a fraction more.

BUTTER.

The butter market continues steady in tone, and 19 1/2c was paid at the wharf this morning for a couple of hundred packages. On spot finest creamery is still stiffly held at 19 1/2c to 20c, with seconds at 18c to 19c, as to grade.

EGGS.

Receipts of eggs to-day were 937 cases as against 406 on Saturday. There was no change in the condition of the market. The continued warm weather checks the demand to some extent; consequently trade is rather quiet, and sales are chiefly in small lots to fill actual requirements. We quote: Canned stock at 11 1/2c to 12c; straight receipts at 10 1/2c to 11c, and No. 2 candled stock at 9c to 9 1/2c per dozen.

LIVE STOCK MARKET.

London, July 29.—The trade in cattle was fair and as the supply was just about equal to requirements the undertone to the market was firm, and prices show no change from a week ago. Choice States sold at 13c, and Canadians at 12 1/2c. A very strong feeling has developed in the market for sheep, and prices show an advance of 2c to 2 1/2c since this day week, with sales of Canadians at 12 1/2c to 13c.

Liverpool, July 29.—The tone of this market for Canadian cattle was stronger, and prices show an advance of 1/2c, with sales of choice at 12 1/2c.

A private cable from Liverpool quoted Canadian cattle at 12c to 12 1/2c, and sheep at 11c.

Another cable from Liverpool quoted Canadian cattle at 12 1/2c, and sheep at 11c.

Strike Not Yet Settled.

No Decision Reached By Strikers' Executive.

Pittsburg, Pa., July 30.—Disappointment and apprehension pervade the air of Pittsburg to-night, because of the failure of the executive board of the Amalgamated Association of Iron, Steel and Tin Workers to ratify the peace proposals arranged at the conference in New York last Saturday between the National officers of the Amalgamated Association and Messrs. Morgan, Schwab and Gary, representing the United States Steel Corporation. When the conference opened this morning it was confidently expected that an agreement would be reached, but after a session lasting from 9.30 a. m. until 6.50 p. m., the meeting adjourned without arriving at any conclusion, so far as known, to meet again to-morrow morning.

The protracted session indicated that the board is not satisfied with the provisions of the compromise measures, and unless some modifications are made its ratification is doubtful.

AN UNLIKELY STORY.

Americans Said To Be Anxious To Buy Osborne House.

New York, July 30.—The possibility, even the probability, that Osborne House, on the Isle of Wight, where Queen Victoria died, might pass into the hands of an American, is suggested in a despatch to the "World," which says: "King Edwards wants to get rid of it because of its inaccessibility and it costs sixty thousand dollars to keep it up. William Waldorf Astor is said to have offered any price the king might fix, desiring to present the famous royal residence to his daughter when she marries the Duke of Roxburghe, but it was found that under Queen Victoria's will the King is given only a life title to the palace. Rumor says that Mr. Astor now wishes to lease the property. Senator William A. Clark, of Montana, is reported to have written to the King, asking him how much he will take. Chas. T. Yerkes is also reported to be a bidder.

A Poor Millionaire.

Lately starved in London because he could not digest his food. Early use of Dr. King's New Life Pills would have saved him. They strengthen the stomach, aid digestion, promote assimilation, improve appetite. Price 25c. Money back if not satisfied. Sold by all Druggists. Im.

Boxers Again Active.

Shanghai, July 30.—The "North China Daily News" announces that there has been a recurrence of outbreaks by the Boxers in the province of Shantung, in consequence of the success of the allied villagers in Chihli province against the troops of Li Hung Chang.

The notorious young Lu (who was imperial treasurer, and later generalissimo of the northern army) has been appointed to the lucrative post of comptroller-general of the revenue board.

The Pacific Cable.

London, July 30.—By a vote of 150 to 44 the House adopted a resolution authorizing the expenditure of £2,000,000 on the Pacific cable, Great Britain's share under the agreement with the colonies.

HEALTHY HAIR

A man with a thin head of hair is a marked man. But the big bald spot is not the kind of a mark most men like.

Too many men in their twenties are bald. This is absurd and all unnecessary. Healthy hair shows man's strength. To build up the hair from the roots, to prevent and to cure baldness, use—

It always restores color to faded or gray hair. Notice that word, "always." And it cures dandruff.

\$1.00 a bottle. All druggists. My business calls me out among strangers a great deal. I would actually feel ashamed every time I would take off my hat, but I was so thin and the bald spots showed so plainly. I began the use of your Hair Vigor less than three months ago. Today I find I have as fine a head of hair as I ever had. I tell everybody what I need, and they say "it must be a wonderful remedy." Geo. J. Baker, Dec. 14, 1898. Chicago, Ill.

We have a book on The Hair and Scalp which we will send free upon request. If you do not obtain all the benefits you expect from the use of the Vigor, write the Doctor about it. Address: Dr. J. C. AYER, Lowell, Mass.

UPROAR IN HOUSE

John Redmond Suspended.

London, July 30.—There was a wild uproar in the House of Commons between 1 and 2 o'clock in the morning at the conclusion of the debate on the taxation on agricultural property. Conservative interrupted Mr. Walton, Liberal, with cries of "divide." William Redmond, on a point of order, called the attention of the Speaker on the interruption, but the speaker ruled that the point was not well taken. Mr. Walton resumed, but quite inaudibly, owing to the persistent cries of "divide." Mr. Redmond shouted: "Police, police." The speaker said this expression was disorderly. Mr. Redmond—"Why don't you keep order?" The speaker directed him to leave the House and named him. Mr. Balfour, the Government leader, moved Mr. Redmond's suspension, and this was carried by a vote of 303 to 71. Patrick O'Brien persisted in the same point of order, and was in turn named and suspended. The bill was then adopted.

Weak Back and Spinal Pains.

Pains in the back number their victims in thousands. Only very powerful and penetrating remedies will reach these distressing complaints, but Polson's Nervine is as sure to cure them as anything in this world can be sure. Rub Nervine over the sore parts night and morning, and see how quickly it drives out the pain. Five times stronger than any other. Good for internal and external use. Large bottles, 25c. 3 ins.

List of Fall Fairs.

Agricultural Society, Brome Corner, Sept. 10th and 11th. St. Lawrence Valley Exhibition, Three Rivers, September 14th to 21st.

Anglo-Saxon Friendship.

London, July 30.—Mr. Choate, United States ambassador, in distributing prizes at the University College to-day, said he wished the experiment could be tried of sending prize-winners to the United States and distributing them among the various schools and colleges, while an equal number of American prize boys were sent here to attend school or colleges. He added that he believed the experiment, if repeated for three or four years, would greatly promote harmony and kindly feeling between the two countries, and of that altogether of which the head master of the college had just spoken.

Drank Iced Milk.

Toronto, July 30.—Word comes from Penetanguishene of the death at that place of Capt. Keiser, of St. Louis. Death was caused by paralysis of the stomach, the result of drinking a quantity of iced milk while overheated.
