THE SECRET OF THE STONEWALL JACKSON'S SUCCESS IS ENTIRELY DUE TO THE RECOMMENDATION OF THE REGULAR CONSUMER.

KRUGER ACCEPTS PEACE TREATY

Such is the Announcement from Brussels

BOER DELEGATES GIVE UP HOPE

THE TREATY WILL BE SIGNED AT VEREENIGING 'ON BEHALF OF THE FORMER CITIZENS' OF THE SOUTH AFRICAN REPUBLIC NOW IN EUROPE'—THE REASON FOR THIS.

Brussels, May 30.—It is said here that the Boer delegates in Europe now admit that peace in South Africa has been secured, and that the settlement between the Boers and Great Britain will be signed in the names of the former citizens of the two South African Republics, who are now in Europe, including Mr. Kruger, thus preventing the irreconcilables from carrying on further warfare on the pretext that they are carrying out the orders of the Boer delegates in Europe.

THE "MAINE" DECORATED.

Havana, May 30.—The officers and crew of the United States gunboat Eagle decorated the wreck of the United States battleship Maine to-day. Decoration Day. President Palma and the Society of Veterans sent wreaths.

A BAD BEGINNING

Madrid, May 30.—A decree suspending the sittings of the Cortes during the present session has been published in the official Gazette, and it is expected that the suspension of the sittings will remain in force until next October. With the exception of the Government organs, all the newspapers unanimously condemn Senator Sagasta's policy in obtaining the consent of King Alfonso to the issuance of the decree.

A BALLOONIST KILLED

Kingstons, N.Y., May 30.—Harry Hicks, an aeronaut, was killed at Kingston Point, a summer resort, to-day. He had been engaged to make daily balloon ascensions, and this afternoon was booked for his first exhibition. When the balloon reached an altitude of about 2000 feet, Hicks commenced his descent by means of a parachute, coming down slowly to about 800 feet above the Hudson River. For some reason, Hicks lost his hold and fell, striking head first on a bar in the river. Hicks was a nephew of Charles K. Brick, well known as a balloonist.

THE CHURCH IN PHILIPPINES

London, May 30.—Cablegrams from Rome the correspondent of the Daily Chronicle says the Taft mission to Rome has every prospect of success. The Vatican is willing to allow the monasteries and convents in the Philippines to be under civil law, and it will permit the expropriation of their property. The American Government, continued the correspondent, will authorize the creation of new dioceses in the Philippines to be under American Bishops only.

LOOKS LIKE FOUL PLAY

Toronto, May 30.—The authorities are seeking to strip the death of Edward Wilkinson, property man at the Grand Opera House, of the mystery surrounding it. Wilkinson, who was 40 years of age and lived alone, was found in a dying condition in his room, 133 King street east, to-day, with a great wound in the back of his head. Friends say they believe Wilkinson had a fall on the street on election night and afterwards was seen to go home, but that it is the case it is somewhat remarkable that a man injured as he was could walk and find his room.

THE LATEST ELECTION NEWS

LATEST INTELLIGENCE LEAVES THE ROSS GOVERNMENT WITH A MAJORITY OF 5, WITH ONE CONSTITUENCY TO HEAR FROM, EXPECTED TO GO CONSERVATIVE.

Toronto, May 30.—The Globe and Mail and Empire agree in their summaries of the results of yesterday's contest, their figures being as follows: Liberals, 51; Conservatives, 46, not reported, 1.

The World's summary is Liberals 52, Conservatives 45, not reported 1. The constituency remaining to be heard from is that of Manitoulin Islands, communication with which is defective. The Globe credits Algoma to the Conservatives, while the Mail and Empire has Huron in the Conservative column. The latest returns from West Huron give the election in that constituency to Cameron, Liberal, by 61 majority.

The latest election returns are as follows: West Huron—Cameron, Liberal elected by 61 majority. Complete returns. South Renfrew—Lambert, Liberal, majority about 900, with three polls to hear from.

East Durham—Full returns give J. J. Preston, Conservative, 995 majority.

Dufferin—Dr. Barr, Conservative, 1059 majority, with seven polling divisions to hear from, which will increase majority to over 1200.

South Perth—Stock, 67 majority still one poll to hear from.

Adair—Reid, Conservative, 565 majority at far as heard from.

North Grey—Result in doubt, both sides claim it. McKay most likely has small majority.

Centre Bruce—All polls in give Clark Conservative, majority of 7.

Manitoulin—Latest returns show Gamay, Conservative, elected by 300 majority.

Algoma—Smythe, Conservative, 100 majority, with three polls to hear from, which are expected to increase majority.

South Lanark—Complete returns give Matheson, Conservative, majority of 802.

North Ontario—W. S. Hoyle, Conservative, elected by 156. Two polls to hear from, which gave Reform majority of 22 last election.

Lennox—No change in last night's figures. Madole, Liberal, 2 majority.

South Huron—Eidler, Conservative, elected by 53 majority.

North Bruce—Complete returns give Bowman, Liberal, 280 majority.

Prescott—With four polls to hear from Evanurel, Liberal has 562 majority.

Lanark—Complete returns give Caldwell, Liberal, 87 majority.

Adair—Reid's total majority so far 623, with four or five places to hear from.

South Norfolk—Complete returns give Charlton, Liberal, 76 majority.

Frontenac—Gallagher, Conservative elected by 50 majority.

Grenville—Joynt, Conservative, majority over all 863.

SMALL-POX ON BOARD

Halifax, N.S., May 30.—The American schooner Arthur M. Binney put into North Sydney this afternoon to land one of her crew suffering with small-pox. The authorities refused to allow the man to land and the vessel has gone into quarantine.

SCALDED TO DEATH

Ottawa, May 30.—The four-year-old son of Nunzio Liberty, fruit dealer, 273 Dalhousie street, was scalded to death in a bucket of water to-day. The mother was engaged in the family washing and had emptied a boiler of hot suds into a bucket on the floor. The little fellow was playing about the room. From an adjoining apartment where the mother had gone she heard screams a moment later. Rushing back to the kitchen she discovered her child writhing in agony on the floor. In her absence it had run foul of the bucket of scalding water and fallen in.

Every time the very young man who owns a boat gets a new girl he changes the name of his boat.

THE SUCCESSOR OF LORD PAUNCEFOTE

The Hon. M. H. Herbert is the Likely Man

HE HAS A WIDE EXPERIENCE

NO DEFINITE APPOINTMENT WILL BE MADE UNTIL AFTER THE LATE AMBASSADOR'S BODY ARRIVES IN ENGLAND AND IS COMMITTED TO THE TOMB—KING EDWARD IS GREATLY INTERESTED IN THE MATTER.

London, May 30.—The Hon. Michael Herbert, who is now Secretary to the British Ambassador at Paris, will probably be the next British Ambassador to the United States in succession to the late Lord Pauncefote.

Mr. Herbert's appointment to this post will probably not be announced until the remains of Lord Pauncefote arrive in England. The only question in regard to Mr. Herbert's selection for the Washington post is the approval of King Edward. The Associated Press understands that His Majesty is taking a keen personal interest in the matter of Lord Pauncefote's successor, but the King will not be asked officially to confirm or disapprove the candidate of the Foreign Office until the period of time during which the Government pays respect to the late Lord Pauncefote has elapsed.

While there is no reason to believe that King Edward will object to Mr. Herbert, who has the backing of both English and American diplomats, there must always remain an element of doubt in the matter until the suggested appointment receives the Royal sanction, and especially in view of the acute attention which His Majesty has given to this important promotion.

Mr. Herbert's marriage with Lella, daughter of Richard T. Wilson, of New York, as a result of which he became closely related to the Vanderbilts, the Ogden Goelets and the Astors, will not in any way interfere, according to opinion here, with his usefulness as Great Britain's Ambassador at Washington. Mr. Herbert's record at Washington as Charge d'Affaires from 1888 until 1889, and as Secretary to the British Legation there from 1892 to 1893, and his work as British agent on the Venezuelan Commission, eminently fit him, so official belief inclines, for his proposed new and important duties.

Mr. Herbert's marriage with Lella, daughter of Richard T. Wilson, of New York, as a result of which he became closely related to the Vanderbilts, the Ogden Goelets and the Astors, will not in any way interfere, according to opinion here, with his usefulness as Great Britain's Ambassador at Washington. MEAT FAMINE IN THE WEST

Striking Teamsters Tied Up Chicago Packing Houses

TROUBLE EXTENDS TO OMAHA

OTHER WESTERN PACKING CONCERNS WILL HAVE TO RECKON WITH THE TEAMSTERS AND THERE IS EVERY PROBABILITY THAT MUCH INCONVENIENCE WILL BE CAUSED ON ACCOUNT OF THE MEAT FAMINE.

Chicago, Ill., May 30.—Every packing house in the west belonging to the big six is to be attacked by the Teamsters Union on Monday if the local houses do not recede from their position and sign the agreement. The tie-up in Chicago, which is declared complete, is to be carried to Omaha, Kansas City and St. Louis, and the teamsters, whose headquarters is in Chicago, have received information from their locals at those points that all the men will obey the summons to go out. This move will be national in its effects. The decision to make the call was reached to-day by the Executive Council of the National Teamsters' Union and came after a conference with Louis F. Swift, of Swift & Company, and Edward Morris, of Nelson, Morris & Company, both of whom refused even to discuss the terms of the agreement the teamsters wished signed.

PASSED DOWN IN SAFETY

THE BIG R. & O. STEAMER MONTREAL ARRIVES IN MONTREAL—THE TRIP DOWN THE LACHINE RAPIDS—A TIDY PILOTAGE FEE.

Montreal, May 30.—The Richelieu and Ontario Company's new steamer Montreal, which is the largest river steamer ever built in Canada, arrived in the port of Montreal this evening, having safely got through the big Lachine Rapids. There was some doubt as to whether the steamer, owing to her size, could be got through the rapids, and two of the best pilots on the St. Lawrence were placed in charge and will receive \$1000 each for navigating her down. The Montreal is intended for the Montreal and Quebec route.

MEETING OF CITY COUNCIL

A FEW MATTERS OF ROUTINE AND SOME CORRESPONDENCE OCCUPIED THE ATTENTION OF THE CITY PATRIARCHS FOR A SHORT TIME LAST EVENING.

The City Council held a meeting last evening under the presidency of Mayor Parent; those present being Ald. Foley, Fortier, Vincent, L. Cantin, Dignan, Drolet, U. Cantin, Pettigrew, Tanguay, Taschereau, Blouin, Macklin, Cummings, Marois, Jolin, Poirer, Tremblay, Cote, Barry, Hogan, Gauthier, Drouin, Morissette, Belanger, Griffin, Rancourt.

The market returns for May were as follows: Jacques Cartier, \$100; Montreal, \$55.

A letter was read from Mr. J. B. Digne, advocate, on behalf of J. A. Faucher and others, asking to be incorporated under the name of "Le Club de l'Alliance Nationale."

A petition signed by a number of residents of Montreal and St. John Roads was read and referred to the Road Committee. The petitioners request the prolongation of St. Joachim street through McTavish Market place.

A letter was read from Mr. Chs. Baillarge, requesting to be appointed Consulting Engineer for the city. Referred to the Road Committee.

After the consideration of routine business, a number of reports recently passed by various committees were read and adopted. Among the latter was the awarding of the printing contract to Vincent & Froles, and the contract for advertising was awarded to La Soleil and the Chronicle at \$1400 each.

On motion of Ald. Drolet, seconded by Ald. Drouin, Ald. Tanguay was elected pro-Mayor for the next three months, and the Council adjourned for one month.

POLICE COMMITTEE. Ald. U. Cantin in the chair. The only business transacted was the reception of a letter from Mr. L. B. Moroney, tailor, stating that the sample of E. T. Gaultier for serge for the police uniforms is the best. The price is \$11.49 per uniform, and Mr. Gaultier was awarded the contract.

FINANCE COMMITTEE. Ald. Foley presided. Mr. Lafrance, City Treasurer, reported that the Chronicle contract for printing was \$951.32, while that of Vincent Brothers was \$217. The latter was therefore awarded the contract.

At the last meeting of this committee, tenders for the advertising of the French proceedings of the Council were received from L'Evenement and Le Soleil, the former's tender being \$960 and the latter \$1400. As L'Evevement was then in difficulties, the contract was awarded to Le Soleil, but last evening Mr. S. A. Demers, the present proprietor of L'Evevement, requested the Committee to reconsider its tender of L'Evevement, but the matter was left in abeyance.

When looking for moonshiners the revenue officer goes on a still hunt.

HASN'T COME TO THE SCRATCH

FROM PRESENT APPEARANCES DR. SEWARD WEBB IS GOING TO ALLOW HIS OPTION ON THE CANADA ATLANTIC TO LAPSE—IT EXPIRES ON MONDAY.

Ottawa, May 30.—It seems pretty certain that the purchase of the Canada Atlantic Railway by Dr. W. Seward Webb and his associates is going to fall through. The option which he secured extended until June 1st and consequently expires on Monday.

"We haven't heard anything from Mr. Webb," said General Manager Chamberlain to-day. "Of course, if his option is not taken up at the time specified the whole thing falls through."

FISHERMEN IN TOWN. Robert E. Plumb, Esq., of Detroit, and Mr. Fox, of Harrowgate, London, England, are here on their way to the salmon fishing grounds on the Natchaguan; Mr. E. C. Fitch, of Waltham, Mass., and party, leave here to-day for the Romaine, and Mr. Ivers Adams and friends for the Romaine.

Mr. Holland is here from Philadelphia on his way to the Jupitang. There will probably be a large exodus of local and visiting anglers to-day for the various fishing grounds along the line of the Quebec and Lake St. John Railway, and now that the Great Northern has opened up the back country, north of the St. Lawrence, many anglers that hitherto drove back from Louiseville and Maskinonge to northern waters, now reach them much more easily by the new line. General Henry, United States Consul; General Butterfield, of Vermont; W. A. Root, of Boston, and others leave here this morning for the club house at Lake Sacanoma, the headquarters of the St. Bernard Fish and Game Club, where they will meet several other members of the club, hold their annual meeting for the election of officers and whip their waters for trout.

Amongst those now at the club house are James E. Hackett and his wife, Mary Manning, so well known in New York theatrical circles; Edwin N. Sanderson, of Putnam, Conn.; and Homer L. Bosworth and Joseph T. Herrick, of Springfield, Mass.

AFFAIRS AT MARTINIQUE. Washington, May 30.—Secretary Moody received a number of despatches to-day concerning conditions at Martinique. Commander Thomas C. McLean, commanding the Cincinnati, cables from Port de France, under date of the 29th, as follows: "Eruptions volcanic continue. Occasional outbursts at intervals of few days. Mostly columns and masses of clouds, steam, smoke and ashes, shooting up quickly to great heights. These alarm the people, but no serious damage is being done outside of the district where the first devastations occurred. Plenty of supplies here. French Admiral, with three ships, arrived. Three more expected daily. Corridal, grateful, and say able to manage everything now without assistance. The Cincinnati goes to Castries on the morning of the 30th." In another despatch Commander McLean says that George Kennan, the writer and lecturer, is safe, and was heard from on the 29th, travelling up country. Commander Berry, commanding the Ixus, cables from St. Lucia to-day that he is going to Martinique, and unless otherwise ordered, thence to New York.

Z. PAQUET'S Department Stores.

BUTTERICK. We sell the famous Butterick Patterns and take annual subscriptions to the following fashion publications, viz.: "The Metropolitan," "Delineator," "Mirror des Modes," and "The Glass of the Fashion."

Breathing Disease.

Infectious diseases are breathed
into the system from those affected
with disease of from bad smells; yet
how many women breathe daily the
offensive steam from common soaps
made from rancid fats, and keep their
hands for hours in such solutions,
and the clothing from such soap suds
is worn next the tender skin. No
wonder disease and eczema are
prevalent! Users of Sunlight Soap
—Otagon! Bar—know the difference
between that and the pure, health-
ful smell from the vegetable oils
and pure edible fats in Sunlight
Soap.

The Quebec Chronicle

CHRONICLE TELEPHONE No. 45.

QUEBEC, MAY 31, 1902.

AFTER MANY YEARS.

An unwelcome visitor has made his
appearance in Maryland this year. He
rejoices in the name cicada septendecim,
or seventeen year locust, and is
now emerging from the soil where for
nearly two decades he has been under-
going the change which transforms
him from a grub to a locust. The
hosts have already begun their climb
up the trees to become winged in-
sects and deposit their eggs in hol-
lows bored in twigs. The open ground
in and about Baltimore is covered
with the insects; many thousands of
them can be seen in the parks and
squares, and their emergence has given
to broad acres the appearance of a
vast earthen honeycomb. In London
Park Cemetery it was estimated that
ten millions of the visitors had made
their appearance in one day, and the
cry is "still they come": Franklin
Square rejoiced in the possession of a
quarter of a million at a low esti-
mate, "with more polls to hear from"
and it is impossible to keep the walk
clean. At Towson the swarms have
stripped many trees of their foliage,
and the grass in the overcrowded spots
is nibbled as close as if a flock of
sheep had passed that way; at Boyds,
Montgomery County, farmers were
surprised on waking up in the morn-
ing to find that their visitors had
come out during the night and taken
up every available branch of the fruit
trees, many of which had been plant-
ed since the last visitation. In this
juncture the much-abused English
sparrows have come to the rescue, and
are waging a war of extermination on
the new arrivals. These just at pre-
sent are completely at the mercy of
the birds, for they cannot fly for a
short time after shedding their coats,
and a slaughter vast and great is
going on, only terminated by the ap-
petites of the sparrows.

Some peculiarities of the insect may
prove interesting to our readers:
The male locust alone "sings," while
the female eats, it is said, each being
thus exempt from one quality at least
which is so objectionable to the suf-
fering public. The musical apparatus
of the male consists of two small
membranous drums at each side of
the abdomen. These vibrate and give
rise to the humming which drives the
nervous man to drink. When thou-
sands of the insects start up a chorus
the noise is disconcerting.

Both the males and females live
about six weeks after they emerge from
the ground. Eggs are deposited upon
twigs and leaves. These hatch about
six weeks later, and the larvae drop
to the ground and burrow into the
earth, to remain for 17 long years.

When emerging from the ground the
locusts are of a rusty, light brown
color. A few minutes afterward they
shed the outside skin and appear in
the bright green and brown costumes
in harmony with springtime foliage of
the trees.

The advent of the present brood has
suggested some interesting views on
the question of periodicity, which the
Baltimore Sun thus sets forth:

"In an interesting and very sugges-
tive book on the 'Law of Periodicity,'
published by Rev. George Arpiazad
Leaken, of this city, in 1868, a full
description is given of the Cicada sep-
tendecim and its periodical return. The
whole round of events of which this
insect's arrival at maturity is the cli-
max is astonishing, hinting at the ex-
istence of subtle forces of which at
present we have little or no know-
ledge. 'This,' says Dr. Leaken, in a
letter to the Sun, 'is the fifth recur-
rence I have seen, and now, while sur-
rounded by them, I remark that on
the Barre Hills above my house no
cicadae appear, but in the descending
alluvial ground they abound.' Increas-
ing study develops higher truths. These
insects, for instance, pass solitary
lives beneath the ground for 17 years,
and then, rising to meet their chosen
company, after some 5 days both
male and female die, a twig having
been previously perforated by the lat-
ter with a longitudinal incision for
the eggs, and cut across, nearer the
stem, to facilitate its breakage. The
larvae from these eggs penetrating the
ground beneath the frost line, will
rise in 1919 with unusual rudimentary
wings, and then in a few hours will
fly to an elevated tree." How is the

period of seventeen years determined
for the "locusts"? By a series of
changes within his own body, of which
he is conscious and has arithmetic
enough to count? Or is there every
seventeen years some force developed
outside of him in the earth where the
locust lies—a force which he feels and
to which he responds the first time he
feels it? In his book Dr. Leaken men-
tions a multitude of phenomena which
suggests a law of periodicity, but none
are more curious than those presented
by Cicada septendecim.

CUBAN TRADE.

At the time that the Cuban insurrec-
tion had apparently reached its most
acute stage, and the outlook of Gen-
eral Weyler and the Spaniards appear-
ed peculiarly dark, there came to Ot-
tawa a very intelligent gentleman from
the island, and, as reported in the
Free Press of the period, he expressed
himself very freely on the subject of
the commercial economy of his coun-
try. He as an enthusiastic Cuban
seemed convinced that its independence
was an assured thing in the very near
future, and he asserted in the inter-
view referred to that the trade issue
would have to be one of the very first
items which would have to be dealt
with. It will be remembered that, un-
der Spanish rule, the Cubans were
greatly restricted in trade matters and
were compelled to buy in accordance
with the tariff made in the interests
of Spain. Mr. Alvarez would have ad-
dressed the Boards of Trade in Ot-
tawa and elsewhere, only the sudden
change in the aspect of affairs con-
sequent on the events which led up to
the sinking of the Maine and the war
prevented his continuing his mission-
ary labors. Now the freedom of Cuba
for good or evil has been declared and
Canadians may as well commence to
consider their position in view of the
changed condition of affairs. Mr. Al-
varez proposed to tell our Board of
Trade what was the field of com-
merce that would be opened to
Canada when the obnoxious
tariff laws were broken down. It ap-
pears that this country can produce
almost every item in commerce which
the island calls for, and without go-
ing into details it may be instructive
for our enterprising Canadian manu-
facturers to know that the imports
into the "new republic" from this
continent are rapidly increasing. The
monthly bulletin of the "Insular Di-
vision of the War Department" which
takes cognizance of the new "expan-
sion" of the States, returns the total
value of merchandise imported during
the nine months ended March 31, 1902,
was \$19,675,748, as against \$48,365,
193 for the corresponding period of
1901, and the exports of merchandise
during the nine months ended March
31, 1902, amounted to \$33,847,749, as
against \$40,368,995 for the same pe-
riod of 1901. These figures show an
increase of 2 per cent. in the imports
and a decrease of 16 per cent. in the
exports. The details of imports as
said need not be given, but they indi-
cate that the majority of them are ad-
ministrable in Canada. It was stated
by Mr. Alvarez that Cuba was inclin-
ed to favor free trade. "It remains
to be seen how far under the new re-
gime, she will do so,"—Ottawa Citizen.

THE GOVERNMENT'S OPPORTUNITY.

It is now more than ever important
that a fast steamship service between
Canada and the Mother Country
should be established, and the oppor-
tunity for its inauguration is espe-
cially favorable. One of the worst blun-
ders of the Laurier Government was
committed when it refused to ratify
the very favorable contract which had
been secured by Sir Charles Tupper.
Although members of the present Ad-
ministration have declared that it is
of the utmost importance that a fast
service should be established, the ac-
tion of the Government has had the
effect of depriving this country of the
advantages which would have been se-
cured by the Conservative contract,
and, even now, no alternative scheme
has been submitted. What attempts
the Government has made to procure
an Atlantic steamship service have
been characterized by incompetence
and unbusiness-like bungling which has
been very unfortunate for the coun-
try.

In the meantime the importance of
Canada has increased, and her trade
and population have been substantially
augmented. With this growth the ne-
cessity for a fast trans-Atlantic ser-
vice has increased, until now the de-
mand for it is more than ever insis-
tent. Other developments have also
tended to make the establishment of
the service more necessary. The newly
formed shipping combine has not only
alarmed the people of Great Britain
and led to a demand there for the in-
auguration of an independent Atlantic
service, but it has also threatened the
interests of Canada. The people of
Great Britain would welcome a ser-
vice between Canada and the Mother
Country independent of United States
influence, and such a service would be
of great value in preventing this coun-
try from being overshadowed by her
powerful and energetic neighbor. The
Government of Great Britain would,
without doubt, afford substantial aid

to any satisfactory scheme which the

Canadian Government might propose.

The Laurier Government should un-
doubtedly do something to rectify, as
far as possible, the disastrous effects
of its early blunder. Now is the time
for it to act. In London this matter
will in all probability be discussed at
the forthcoming conference, and if the
Government will only propound some
sensible scheme it will have the assis-
tance of the British Government and of
British capitalists. There is an excel-
lent opportunity for the Government
to atone to some extent for its previ-
ous blunders, and to obtain for Can-
ada the fast trans-Atlantic service
which is so very necessary. It is
hoped that this time the opportunity
will not be neglected.—Winnipeg Tele-
gram.

BRIGHT BABIES

Are a Joy to Mothers and a Treasure
in the Home.

All babies should be bright, good
natured and well. If you have a child
that is sickly, fretful, nervous, restless
at night, or suffers from stomach or
bowel troubles of any sort, give it
Baby's Own Tablets and it will soon
be well. There is no other medicine
in the world will so safely and speedily
cure indigestion, sour stomach,
colic, constipation, diarrhoea and
teething troubles. Thousands of grate-
ful mothers speak of this medicine in
words of warmest praise. Mrs. Fred
Power, 18, Scollard Street, Toronto,
says: "My baby suffered greatly from
indigestion. She was pale and very
thin and would cry with pain in the
stomach, and sometimes would not
sleep either day or night. I got a
box of Baby's Own Tablets and they
have made a great change in my little
one. She now digests her food readi-
ly; is not troubled with the pain in
the stomach, and has grown quite
plump. I do not know of any medi-
cine that can equal Baby's Own Ta-
blets for little ones."

This medicine is guaranteed to con-
tain neither opiate nor other harmful
drugs. Children take the tablets as
readily as candy and crushed to a
powder they can be given to the small-
est, weakest baby. Sold at all drug
stores, or sent post paid at 25c. a
box by addressing The Dr. Williams'
Medicine Co., Brockville, Ont., or
Schenectady, N.Y.

For the convenience of city
families wishing to move early to the

SS Vaderland, at Antwerp from New York.

SS Augusta Victoria, at Cherbourg from New York.

SS Graf Waldersee, at Plymouth from New York.

SS Brazilian, at London from Montreal.

SS Rhyndland, at Liverpool from Philadelphia.

SS Dominion, at Liverpool from Montreal.

SS Trave, at Genoa from New York.

ALLAN LINE.

The ss Norwegian, Capt. Moor, having discharged her Quebec cargo, left for Montreal last evening.

The ss Brazilian, Capt. Williams, from Montreal for London, arrived on Wednesday afternoon, and landed all her live stock without loss.

The R.M.S. Parisian, Capt. Wallace, from Liverpool, 22nd, and Moville, 23rd May, passed St. Paul's Island at 11 a.m. yesterday and is due in port early to-morrow (Sunday) morning.

The R.M.S. Tunisian, Capt. Vipond, sailed on Thursday afternoon from Liverpool for the St. Lawrence with 69 cabin, 250 intermediate and 92 steerage passengers.

DOMINION LINE.

The ss Maxman sailed from Liverpool for the St. Lawrence on Thursday afternoon.

The ss New England, from Liverpool, on the 22nd May, arrived at Boston at seven p.m. yesterday.

ELDER-DEMPSTER LINE.

The ss Lake Simcoe, Capt. Carey, from Liverpool, with 62 cabin, 76 second cabin and 1036 steerage passengers, besides a general cargo, arrived in port at 10 a.m. yesterday, mooring at the Breakwater.

After landing passengers and Quebec cargo, she left for Montreal at 6 p.m. Among the passengers were the Toronto Lacrosse Club returning from their victorious tour through Great Britain and Ireland. When the steamer touched the dock the boys gave their club yell in a manner that would make a bunch of Six Nation Indians green with envy. The members of the team are highly delighted with the treatment they received wherever they went in the Old Country, and all of them have nothing but words of praise for the people whom they met. Other passengers say the team made things lively around the embarking stage at Liverpool just before the steamer left.

A large number of people came down to see the boys and the yell of the Canadians fairly startled the citizens of busy commercial Liverpool. The Lake Simcoe also brought out a number of the men of the Army Medical Corps, and Royal Marines bound to Halifax. Captain Carey reports very heavy weather, with strong head seas during the entire passage. Met thick fog on the Banks, which continued until Fame Point was reached. Saw no ice. While the ship was in mid-ocean, Yokov Conic, a Hungarian, aged 42 years; married, a steerage passenger, is supposed to have been washed overboard. People on the after part of the ship saw him float past and raised an alarm. The vessel was put about as soon as possible, but no trace of the unfortunate man could be found. In fact, the sea was so rough at the time, the poor fellow could not be seen at 1000 yards distance. Despite the head winds the Lake Simcoe encountered, on one day she ran 368 knots.

LEYLAND LINE.

The latest addition to the Leyland fleet is the new twin-screw steamer, Hanoverian, 13,700 tons, which will sail on her maiden voyage to New York on Wednesday, July 9. The steamer has been specially built for the trans-Atlantic trade. She is fitted with the most recent improvements, and has accommodation for 240 second cabin passengers. The saloon, staterooms, smoke-room and music room are all situated on the main deck. The ship is built to Lloyd's highest class, and is fitted with a cellular double bottom and big keels. There are nine water-gate bulkheads, all extending to the upper deck, which like the lower and main decks is constructed of steel in accordance with Lloyd's rules. She has been specially designed with a view to securing the maximum of steadiness and the minimum of vibration characteristics for which the other steamers of the line have earned a reputation. Electric light is installed throughout, and special attention has been given to heating and ventilation, so that in this, as in every other respect, the details necessary for the comfort of passengers have received careful consideration. The saloon, smoke-room and music rooms are luxuriously furnished, and decorated in a classic and elegant taste. The staterooms are situated on the upper part of the main deck, and are all handily appointed. Living spaces and well lighted and ventilated, and are painted in white enamel, with fittings in polished hardwood. Ladies and gentlemen's

bathrooms and lavatories are provided on both promenade and saloon decks. Altogether, nothing has been left undone, and no expense spared to ensure the comfort of the passengers. The vessel is a twin-screw force and aft rigged ship, with one funnel and four pole masts, raised stem, and elliptical stern, and is Lloyd's highest class under the three deck rule, with shelter deck. Her length is 601 feet over all; the breadth 60 feet, and depth 42 feet moulded; she has a total carrying capacity of 13,720 tons with a gross tonnage of 11,750. The vessel generally is constructed of mild steel, with a continuous shelter deck, the space between which and the upper deck is fitted out for the transport of 730 cattle on the latest improved plan.

NOTES.

The ss Pola, arrived from Montreal yesterday and proceeded for Sydney.

Steamer Britannic, from Duluth for Quebec, with a cargo of flour, passed Port Dalhousie on Thursday.

The ss Manchester Commerce, Captain Baxter, sailed from Manchester for the St. Lawrence, on Thursday last.

The ss Tritonia, Capt. Stitt, from Glasgow, with a general cargo, arrived in port last night and proceeded for Montreal.

The ss Rodney, Capt. Aigman, from Rotterdam, with a cargo of grain, arrived in port yesterday morning and proceeded for Montreal.

The Manchester Importer, from Manchester, with a general cargo, arrived in port yesterday morning, and proceeded to Montreal.

The new ss King Edward, Captain Cass, leaves port to-night for the North Shore, with passengers and general cargo.

The ss Potomac, from Antwerp, May 11, with a general cargo, arrived in port last evening, mooring in the Louis Basin.

The ss Hermann arrived from Batisca yesterday morning, anchoring in the stream. After taking on board some coal, she left for Rimouski, where she will load.

The ss Lakonia, arrived at Glasgow on Thursday with all her live stock, consisting of 219 cattle, 165 sheep and 38 horses, in good condition, not having lost any on her journey.

The ss Manchester Trader, from Manchester, May 18, bound for Montreal, has been obliged to return to Queens-town on account of her engines breaking down.

The ss Britannic, a Capt. Neilson, from Sydney with a cargo of coal, arrived in port yesterday morning, and proceeded to Montreal. The captain reports encountering thick snow while coming up the river. Had main deck covered with three or four inches of the beautiful.

A Healthy and Sound Body Will Enable Us to Battle Against the Wrongs and Injuries of Our Enemies.

PAIN'S CELERY COMPOUND

Banishes Disease. Establishes Health and Gives Us Physical Strength to Maintain Our Place in Life's Conflict.

Many of us find life hard and full of pain. While we cannot well avoid the sufferings that result from wrongs and injuries, we can keep ourselves from the pains and ravages of bodily ailments and diseases, and maintain that full measure of health that will enable us to meet the wrongs that assail us from day to day.

If you are rundown, fretful, despondent, irritable, sleepless, if assured you are becoming physically impaired and weakened. If the relaxed and sluggish action of the excretory organs has loaded the blood and body with poison, producing headache, rheumatism, neuralgia, kidney and liver troubles; then disease is encircling you in its chains.

Prompt use of Paine's Celery Compound will save the weakened parts of the body from yielding to disease. The great medicine saves weak and enfeebled nerves from prostration and removes every feeling of exhaustion and despondency. It cures and saves those who are bound by disease and suffering and gives them a new lease of life. Mrs. J. H. Pierce, King St., St. John, N.B., writes thus:

"I suffered terribly from constipation, weakness, nervousness, kidney and liver troubles; I was also subject to those tired, weary feelings, and had a slight touch of skin disease. The first dose of Paine's Celery Compound relieved me; and now, after having taken three bottles, I feel much better. I am not constipated, I have no weak feelings, and I can eat and sleep well. It is a grand remedy, and I hope all who read this may benefit by my recommendation."

CHURCH SERVICES.

CATHEDRAL OF THE HOLY TRINITY.—Sunday, 1st June—Holy Communion in All Saint's Chapel at 8 a.m. Morning Prayer and Sermon in the Church Hall at 11 a.m. Holy Communion in All Saint's Chapel at 12 (noon). Mines and Fisheries

A BIG JOB

AT ST. PAUL'S

(London Telegraph.)

In a little country village, deep em-

bowered in the wooded valleys of Sus-

sex, some energetic members of the

choir resolved to give out a new line

in their annual "outing." They would

not go to the neighboring seaside

town, they would come to London and

see all the sights of the town—the

Tower, St. Paul's, the Houses of Par-

liament. The choir did not in their

pleasure forget old friends, and they

resolved to take with them the old

lady who kept the little church in or-

der and to whose careful diligence

some of the "single members of the

choir owed the spotless white of their

Sunday surplices. So they subscribed

the necessary funds and presented her

with a ticket. Of course, she was de-

lighted with the kind attention and

much flattered, for all her life, as girl

and woman, had been given to keep-

ing the church clean and tidy, and she

had never gone far outside the hamlet.

Her companions in the expedition prom-

ised themselves genuine pleasure in watch-

ing the astonishment of the old dame

when the new experience should open

out before her. Throughout the jour-

ney she seemed too bewildered by the

swift changing panorama to ask any

questions. In the great city itself,

while clearly awed by the ever hur-

rying crowds and the ceaseless stream

of traffic, she did not express any

enthusiasm, but seemed wholly sur-

prised that there were so many people

in the town. How do they all manage

to get breath? It makes me feel al-

most choking," she said. Her next

pointed out Big Ben in the distance.

"Yes, it's big," she admitted, grul-

ingly, "but," she added, brighten-

ing up, "it's a very fine clock we have

in the town hall," alluding to a neigh-

boring market town. The kindly choir-

men were a little damped, but they

had the feeling of disappointment, and

waited till she should see St. Paul's.

When she entered the massive doorway

and saw the wide aisle stretching out

in grey vista before her and the mighty

dome towering high above, she seemed

at last to feel a sense of the vastness

and age of the edifice. Those with

her felt that the journey was not

to be fruitless, and they waited for

expression of the immensity of it all.

"Look," she said, at length, drawing a

deep breath, "it would be a big job

to clean all this; I reckon it would

take more than

IMPORTANT MEETING

PROTESTANT COMMITTEE OF PUBLIC INSTRUCTION — A LARGE VOLUME OF BUSINESS TRANSACTED, INCLUDING THE PROBLEM OF RURAL EDUCATION, AND GENEROUS OFFER MADE BY SIR WILLIAM McDONALD, OF MONTREAL, FOR ITS ADVANCEMENT.

A general quarterly meeting of the Protestant Committee of Public Instruction was held yesterday at the Council Chamber of the Department of Education, Parliament Buildings. There were present the Rev. Dr. Shaw, of Montreal; His Lordship the Bishop of Quebec, Dr. Peters, Principal of McGill College, Montreal; Alderman Ames, Montreal; Prof. Kneeland, McGill Normal School, Montreal; Dr. Cotton, M.P.P., Compton; Rev. E. I. Rexford, Principal Boys' High School, Montreal; Dr. Robb, Principal McGill Normal School, Montreal; Dr. Dunbar, K.C., Quebec; Rev. A. T. Love, Quebec; Hon. Sydney Fisher, Dominion Minister of Agriculture; Mr. A. McLaren, M.P., Huntingdon; Mr. John White, Megantic; Hon. T. H. Duffy, Provincial Treasurer; Mr. J. Masten, Mr. W. Walker, Lachute, P.Q., and Mr. Silver, ex-officio members, representing the Provincial teachers.

After the minutes of the previous meeting were read and adopted, the day's proceedings commenced by the Secretary of the Committee, Mr. G. W. Parmelee, reading his report on the state of business, which was very interesting.

The petition from the Gould Model School and the Sawyerville Model School, applying for permission to continue academy work, was granted on certain conditions. The recommendation for the appointment of a drawing master, made by the Normal School Committee, was considered and caused considerable discussion. Principal Robbins recommended that Mr. Henry F. Armstrong be appointed with a salary of \$500 per annum, to take the place of Miss Henry, deceased. Mr. Armstrong was officially appointed, subject to the approval of the Normal School committee, and at the same time it was resolved that the first duty of the instructor of drawing would be to formulate a schedule for the first six years of this public work.

Rev. A. T. Love, Rev. E. I. Rexford, Messrs. Mason and Silver were appointed a sub-committee to prepare for the distribution of superior education grants in September next.

The opinion of Dr. Dunbar, K.C., relative to Normal School diplomas was read, and on the suggestion of Hon. Mr. Duffy, Dr. Dunbar was instructed to prepare for submission to the next meeting a rule in conformity with this opinion and the law to be adopted.

A number of reports of sub-committees were read and adopted. The suggestion of changing the present procedure of inspection to the former rule of twice a year was the cause of considerable discussion during which Rev. Mr. Rexford said that what was most required was an independent officer, with Mr. Parmelee, who would have full power to act in cases of emergency, such as had been adopted with great benefits by the Committee on Catholic Education.

The Committee took recess at one o'clock for luncheon.

AFTERNOON SESSION.
The afternoon session opened for business at 2.30 o'clock, when in addition to the gentlemen and members of the Committee present during the forenoon, there were in attendance Prof. Adams, of Glasgow, Scotland, and Prof. Torrey, of Montreal.

The report on the Rural Schools was read by Mr. John White, of Megantic, when the Chairman, Rev. Dr. Shaw, informed the meeting that there was present Prof. Adams, a distinguished scholar and member of the Glasgow University, who had come to this country on the invitation of Sir William McDonald in connection with his project of locating experimental consolidated schools in the rural districts of the Province for the advancement of education.

This scheme, which Sir William McDonald has so kindly and generously taken an interest in, is an endeavor to try and solve the problem of advancing the education of the poor people of the rural districts. As matters stand at present there are a number of districts where there exist several schools, in some instances four and five, where the families residing are very poor, consequently the buildings are shacks and the teachers poorly paid. To remedy this it was proposed to centralize and consolidate these schools, whereby the children could be driven to one central and comfortable building that would be presided over by competent teachers. The Protestant School Committee not having the means to carry out this idea, Sir William McDonald came to the rescue and offered to provide the means to have the experiment made. He put himself in communication with Prof. W. Robertson, the well-known Dominion Government Dairy Commissioner, who has advanced the agricultural interests of Canada so much since he took hold of his present position. Prof. Robertson was asked by Sir William to take an interest in his rural educational scheme, which he consented to, and in turn was instrumental in having Prof. Adams come from Scotland to look over the Province and report on the matter. Prof. Adams and Prof. Torrey, of Montreal, are at present engaged in their work, and it is expected that they will be in a position to make a report by the end of June, and in September next, when the Committee on Protestant Education meets, the matter will come up for a settlement.

Rev. Dr. Shaw introduced the distinguished Glasgow educationist to the meeting and requested him to make a few remarks.

Prof. Adams said that he did not wish to make any remarks at present on the subject of his visit, inasmuch as he had not finished his work and knew less now than he hoped to know in one month hence, but he took the opportunity of returning his sincere thanks, on behalf of himself and Prof. Torrey, for the kind courtesy that they had received in all the schools that they had visited.

Mr. Parmelee, who was called upon by the meeting to describe from his own experience the condition of the rural schools in the Province, explained that there were about 100 poor rural schools in the Province, whose condition called for immediate remedy. At the same time he pointed out several localities where these schools could be consolidated and centralized as a benefit. He also referred to the scheme under consideration, in which Sir William McDonald had offered financial assistance, and in which plan Prof. Robertson, of the Agricultural Department of Ottawa, was deeply interested, in behalf of Sir William, but pending a definite conclusion of plans he was unable at this stage to make any positive comments.

Hon. Sydney Fisher suggested that a meeting should be held at Montreal and Sir William McDonald consulted on the subject. On being informed that this had already been done and an agreement arrived at, he regretted to learn of the impoverished condition of the rural schools and wanted to know if there was no means of raising a sufficient revenue without having recourse to the Provincial Government.

NERVOUS TROUBLES

There is no torture more acute and intolerable than nervousness. A nervous person is in a state of constant irritation by day and sleeplessness by night. The sufferer starts at every noise, is worried by a feeling that something awful is going to happen; is shaky, depressed, and, although in a constantly exhausted state, is unable to sit or lie still. If you are nervous or worried or suffer from a combination of languor and constant irritation, you need a nerve food and nerve tonic, and

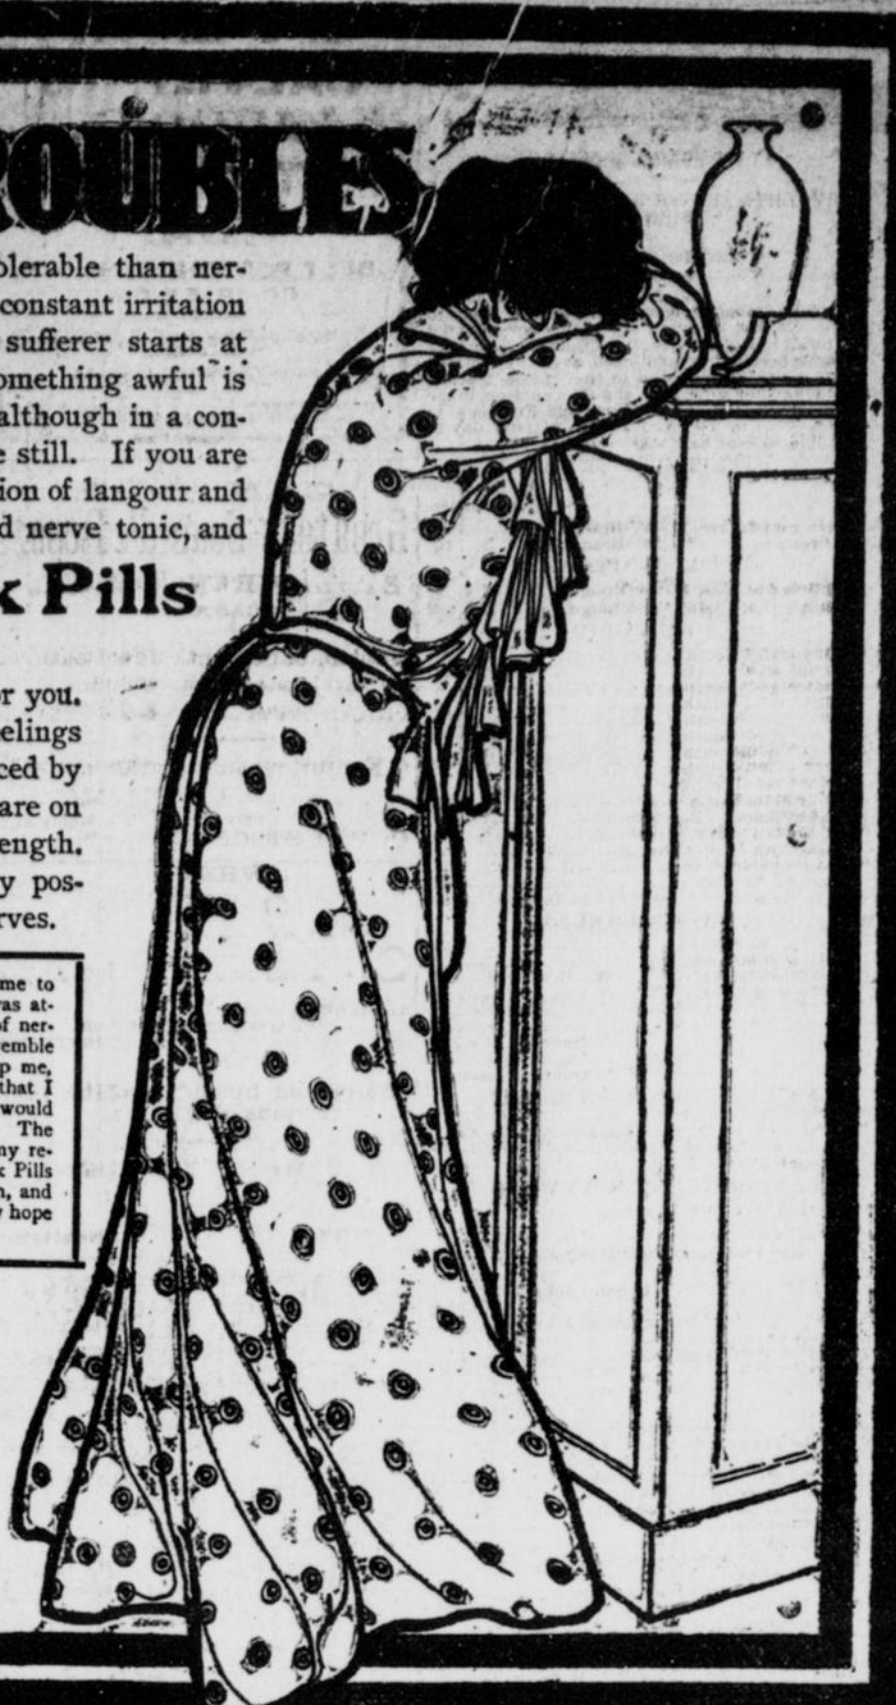

Dr. Williams' Pink Pills for Pale People

are absolutely the best thing in the world for you. You will find after taking them that your feelings of distress and worry are being rapidly replaced by strength, confidence, and a feeling that you are on the road to full and complete health and strength.

Get rid of your nervousness in the only possible way—by building up strong, steady nerves.

Miss Ina Doucet, Bathurst, N. B., says:—"Words fail me to adequately express what I owe to Dr. Williams' Pink Pills. I was attacked with la grippe, the after-effects of which took the form of nervous exhaustion. The least noise would startle me and I would tremble for some time. I used several medicines but they did not help me, and as time went on I was growing worse and was so nervous that I was afraid to remain alone in a room. I slept badly at night and would frequently awake with a start that would compel me to scream. The trouble told on me to such an extent that my friends feared for my recovery. At this time an aunt urged me to try Dr. Williams' Pink Pills and after using eight boxes I was completely restored to health, and I feel that Dr. Williams' Pink Pills saved my life. I sincerely hope my experience will benefit some other sufferer."

Always look at the box when you ask for Dr. Williams' Pink Pills for Pale People. If the full name is not on the box, you are not getting what you ask for. Refuse all so-called "just-as-good-as," and if you have any trouble getting the pills, they will be sent you by mail post paid at 50 cents a box or six boxes for \$2.50, by addressing The Dr. Williams' Medicine Co., Brockville, Ont.

Correspondence.

To the Editor of the Chronicle:

Sir,—Quebec enjoys wonderful privileges as a centre for manufactures, provided as it is with cheap fuel as well as electric power from the different water powers which surround the city, so that it is not astonishing that we should learn that a new factory is likely soon to be established in our neighborhood, which will give employment to a large number of workmen. Few cities are surrounded with such suitable sites for establishing factories as Quebec is. The Beauport Flats, the valley of the St. Charles and Montmorency, have abundant suitable situations, being in close proximity to the river, and having three railways now running down to the Louise docks, with every possibility of, at an early date, having the Grand Trunk, Intercolonial, Quebec Central and all railways on the South Shore using the new railway bridge; also making their terminus at the docks. There are also very valuable sites for factories along the shores of the St. Lawrence from the Kings wharf to west, property which unfortunately has been lying unproductive for some years, and it is a delight to the citizens of Quebec to learn that some of the many sites known as the "Coves" may soon be made use of by factories, giving employment to a number of workmen. The citizens of Quebec are anxious to do everything in their power to see enterprise brought into Quebec, even should the city be called upon to do, as other cities have done, give free sites for mills or factories which would give employment to labor.

A report has been circulated which has met with universal disapprobation by the citizens of Quebec, to the effect that a factory may be placed on the "Cove Fields," because, should such an act be perpetrated, it would deprive the city of one of its greatest health resorts and places of amusement for the young and growing citizens of the future. This valuable piece of land given to the Dominion Government by the Imperial Government, is one of the most valuable trusts in the hands of the Dominion Government, for their health and benefit of the citizens of Quebec, guarded and preserved by our Mayor and Corporation. I cannot for a moment think that our esteemed Mayor would allow the city, which he has taken such pride in, to be deprived of one of its greatest health giving and pleasure resorts, and rather than suffer

this loss, and be deprived of property in the centre of the city, no doubt the citizens would willingly subscribe to buy a suitable piece of ground for a valuable factory, taking a warning from the example of other cities, which are realizing the disadvantages of being without parks, and are even buying property and pulling down houses to acquire health resorts.

A practical joker in Halifax had a lot of fun Halloween. A surprise party had been arranged, each person being expected to bring something in the way of cakes, sandwiches, fruit or anything of that kind. The joker got possession of the invitations, and wrote on the corner of each one a request that the recipient should bring a dozen lemons. Being a surprise party, the whole thing was kept quiet and the result was that each guest appeared on the scene bearing a paper bag full of lemons and nothing else.

YACHTING.

The racing season of the Quebec
Yacht Club will begin on Saturday
next, June 7th, when there will be a
contest for the Q. Y. C. Challenge
Cup.

The race will be for second class
yachts, over the triangular course in
the harbor, Yacht's Onyx, Pirate and
Iola have entered so far.

ROWING.

Philadelphia, May 30.—The triangu-
lar boat race between the junior crews
of Columbia, Pennsylvania and Con-
necticut, which was rowed on the Shuyl-
kill River late this afternoon, was
won by Pennsylvania, Columbia be-
ing second, Cornell third. Time, 18:48. The
distance was 14 miles straight away.

CRICKET.

PRACTICE TO DAY.
The Quebec Cricket Club will have
its second practice this afternoon on
their new grounds at Kent House. A
large turnout is requested, and as a
first class matting wicket has been pre-
pared, it is sure to be a success.

ATHLETICS.

HURON ATHLETIC ASSOCIATION.
At a general meeting of the Huron
Athletic Association, on the 21st inst.
at the Victoria Hotel, the following
gentlemen were elected officers for the
year:

Patron—Mr. Bastien.
Hon. President—Henry O'Sullivan.
Hon. Vice-President—Theo. Hamel.
President—Chas. Gouin.
Vice-President—Michael Thibaudon.
Second Vice-President—J. E. Marti-
neau.

Secretary—Albert Thibaudon.
Assistant Secretary—Lawrence Bogue.
Treasurer—Jules Dechené.
Committee—H. Legare, J. A. Wat-
ters, A. St. Jacques, Alph. Dechené,
G. A. Cloutier, Ernest Matte.

The Club is organizing a grand con-
cert for the 30th June, also an au-
tumn sports for August 14th, 1902.

LACROSSE.

THE VICTORIOUS TORONTOS.

The Toronto lacrosse team, after a
victorious career in England and Ire-
land, returned yesterday on the ss
Lake Simcoe. The boys were met by
President Rutter, of the N. A. L. U.,
and President Howard, of the To-
ronto Lacrosse Club, and were escorted
to the Chateau Frontenac for lunch-
eon. The party left for the West
in C. P. R. last night. Captain
Whelan, interviewed, said that the
game had undoubtedly become very
popular in England, six new clubs hav-
ing been formed in Manchester district
since the Torontos played there. The
Manchester talk of sending over a
team in 1903, and a crowd of them
saw the boys off at Liverpool, even
following them to sea in a tug to bid
them farewell. As they left Ireland
the crowd sang "Come back to Erin,"
and the Irish clubs sent on telegrams
and letters of farewell to Liverpool.
The Torontos seem particularly grati-
fied at the King's attendance at the
game at Lord's, and say that while
the Englishmen have less snap than
the Canadians in their playing, they
are great on body-checking, especially
in the north.

THEIR WELCOME HOME.

Toronto, May 30.—To-morrow night
the lacrosse team will be tendered a
fitting reception and welcome upon
their return from their tour of Great
Britain. On arrival at the Union Sta-
tion they will be met by the Mayor
and Aldermen, who will escort them
to the Horticultural Pavilion. The
procession will be headed by the
Queen's Own band. At the Pavilion
the Mayor will deliver an address of
welcome and Alderman Ward will pre-
sent the Toronto Lacrosse Club with a
silk Dominion ensign as a memento of
the occasion.

VARITY DEFEATS CRESCENTS.

New York, May 30.—The Toronto
University lacrosse team defeated the
Crescents of Brooklyn to-day by a
score of seven goals to two.

THE RING.

ALLEN VS. ROUTHIER.

The round boxing exhibition be-
tween Routhier and Allen which takes
place at Savard Park, on June 18th,
is already causing considerable dis-
cussion. Allen, of Ottawa, is one of
the cleverest of the Canadian welter-
weights and is a remarkably hard
nut to crack. He is training hard in
Ottawa, and George Dixon, ex-feather-
weight champion of the world, is his
sparring partner. Routhier, who put
D'Aoust out of business so recently is
decidedly a handy man. He knows he
will have no "padding" with the bald-
headed Ottawa boy, and he is work-
ing hard daily to get into condition.
Shadow Maher has Routhier in hand,
and is confident that his man will
make another D'Aoust out of Allen.

A COMING FEATHERWEIGHT.

Speaking of Yanger's future, John
Hertz says:

"I really do not know what to do
with Benny. He is a legitimate feath-
erweight, but the top-notchers in his
division, Corbett and McGovern, are
so large, it seems like giving away a
ton of weight to match him against
either of them. Still he aspires to be
champion, and the only road to that
goal is via the McGovern-Corbett
route. I am going to have a long
talk with him, and if he signifies any
willingness whatever to meet either
Terry or Corbett, I will immediately
post \$1,000 forfeit to back up a chal-
lenge to fight from 10 to 25 rounds
at 128 ringside. I presume they will
hold out for 126 pounds at 3 o'clock,
but I will have none of that in mine.
At the weight I suggest Benny will be
handicapped by at least four pounds,
which I am sure they would not give
to a boxer in the class above them."

San Francisco, May 30.—Sparingly
twelve hours from the conclusion of
all arrangements for his fight with
Jeffries, Fitzsimmons, accompanied by
his wife and young son, his manager,
Clark Ball, his sparring partner, Tom
Wilson, and Frank Mulgrew, left
Frisco for the training quarters at
Skaggs Springs, Cal. Despite disad-
vantage in age, weight and strength
Fitzsimmons is confident of results. A
big wrestling mat, upon which he ex-

pects later in his training to try
conclusions with Ernest Rober, was
taken along. Hunting over the Sono-
ma Mountains will be the exercise tak-
en by Fitz instead of the road work
that has heretofore been a feature of
his training.

Jeffries left for Harbin Springs with
Delaney. Jeff is as confident of Fitz
that he will be the winner in the com-
ing battle. Delaney has wired to
Denver to Bob Armstrong to come to
San Francisco to act as Jeff's spar-
ring partner, but the negro has not
answered, and is reported to have sail-
ed for England.

The training quarters of the two
men are both in Sonoma County, and
though only twenty miles apart, are
separated by a high mountain ridge,
which it would take an expert moun-
taineer an entire day to cross, as the
country is covered with a thick growth
of chaparral which even a man on
horseback cannot penetrate.

SCENIC WONDER OF ARIZONA.

Nowhere in the world will the tour-
ist or sight-seer behold more wonder-
ful scenic features than are to be seen
in Arizona. The world's discoveries
of the beautiful in nature have never
given us gorges of such wild magnif-
cence, valleys of a wondrous charm-
ingness never to be forgotten, and moun-
tain regions of such great and indes-
cribable wonder.

Most stupendous and awe-inspiring
of all those wonders is the Grand Can-
yon of the Colorado, which lies main-
ly in Arizona, but touching Utah, Ne-
vada, and California. With its intri-
cate windings and numerous side can-
yons, or cañonettes, if we may use
such a term, it is about seven hundred
miles in length. In many places the
depth extends beyond a mile. It is a
chasm of awful yet grand magnitude,
its width at the top being from eight
to twenty miles, and looking down
into its rugged and devious turnings
the Colorado River gleams like an im-
prisoned thread of rare silver. It is a
sight to make a tourist who has suc-
cessfully scaled its rocky barriers ever
carries back into the world quite the
same lofty estimate of his own im-
portance, as he may have felt before
exploring this grandest of all North
America's wonder-abounding canyons.
Very remarkable are the Yosemite and
Yellowstones in their precipices, but
they are mere infants beside the Colo-
rado's peerless Canyon.

The far-famed Petrified Forest in
Apache County claims a due quota of
the tourist's attention, and well re-
paid will any one be for a journey to
this strange fallen forest of stone.
It covers an area of about two square
miles, and is a scene that no counter-
part of which the bold explorer of Nature's
mysteries has ever discovered.
Through some change of nature not
readily explained a forest was sub-
merged, and as the tissues of the trees
decayed they were replaced by silica
held in solution by the water. Even
the minutest detail of the wood's
structure has been singularly preserv-
ed, and it reveals a most magnificent
interblending of tint and color. The
wood is spoken of as silicified, agatized,
petrified, and fossilized. Some of
these fallen giants of trees measure
five feet in diameter; in length, from
one hundred to two hundred feet. They
lie scattered about in wildest profu-
sion. Not one remains standing. It
is a silent fallen forest, where never a
leaf whispers its tale to passing
breeze. The giants are prone upon
the ground, most of them broken into
hazy sections; stripped of branches
and limbs, they lie in great, glistening
logs of rock. Even when Columbus
planted the Spanish flag on the West
Indies, this forest was as we now see
it. Centuries before that celebrated
event the petrified logs furnished rude
habitations for the prehistoric tribes
who lived and loved in their ways in
this region.

Nervous Dyspepsia

CAN NEVER BE CURED BY MERE
TEMPORARY AIDS TO DIGES-
TION—THE NERVES MUST BE
RESTORED AND FILLED WITH
VITALIZING NERVE FORCE.

You know that certain drugs such
as opium and bismuth, bring about
artificial digestion, and, if you have
dyspepsia or indigestion, it is possi-
ble that, like hosts of others, you
have taken these into the stomach,
hoping that they will take the place
of gastric juice and other digestive
fluids, digest the food, and, by rest-
ing the stomach, effect a cure.

Did you ever hear of a bodily organ
being strengthened by inactivity? It
is to the organ that is exercised, in
the new, rich blood is conveyed, in
order to restore the tissues wasted by
the functions of that organ, and so
the stomach that is given rest does
not get stronger, but the gastric
juice gradually ceases to flow, and
you are finally compelled to resort
to the continual use of artificial di-
gestants.

If, instead of these temporary aids,
you seek permanent cure, you must
treat the nerves, because it is the
nerves that control the glands of the
stomach, and only when the supply
of nerve force is liberal, is digestion
rightly performed, and the body pro-
perly nourished.

Dr. Chase's Nerve Food is no ex-
periment, as you know, if you have
read the hundreds of testimonials
that are appearing in the daily press.
He recommends it for nervous dyspep-
sia and headache, because it has ac-
tually cured scores and hundreds of
cases. Here is an interesting letter:
Mrs. R. H. Scott, 677 Queen street,
Toronto, states: "For a long time I
was a great sufferer from nervous
dyspepsia, and, as a consequence, of
the stomach trouble. I was nervous
and sometimes had severe headaches
and dizzy spells. Since using Dr.
Chase's Nerve Food, I can say that
my digestion is good, and, as a re-
sult, I have been entirely freed of the
other troublesome symptoms. I think
this is an excellent treatment for
nervous dyspepsia, as well as an inval-
uable system-builder."

This treatment will prove equally
effective in your case, because it ac-
tually contains the most powerful res-
tatives known to the medical pro-
fession. It cures by building up the
system, and instilling new vital nerve
force into the wasted and depleted
nerve cells; 50 cents a box; 6 boxes
for \$2.50, at all druggists, or Edman-
son Bates & Co., Toronto.

The Best That Money Can Buy.

KUMFORT Headache Powders.

Are not simply the best, but they
are a good deal better than
any other sort.

They are absolutely safe, pleasant and effectual, and usually cure in from ten to
twenty minutes.

They create no habit from continued use. They contain no opiates.

If you suffer from nervous, Neuralgic or Bilious Headache, you will find KUM-
FORT Headache Powders will cure you. But you must get the GENUINE.

All sorts of stores sell them in 10 and 25 cent packages
or by mail postpaid on receipt of price.

MOON'S PHASES.

New Moon, Friday, 6th June, 1.11 a.m.
First Quarter, Thursday, 12th June, 6.54 p.m.
Full Moon, Friday, 20th, 9.17 p.m.
Last Quarter, Saturday, 28th, 4.52 p.m.

TODAY'S WEATHER.

Toronto, May 30.—Pressure remains low in the North-West, accompanied by local showers, while a marked anticyclone has moved into Ontario and Quebec from the north. Showers were fairly general during the early part of the day from the Lakes to the Maritime Provinces, but the weather has now cleared.

Minimum and Maximum Temperatures.—Victoria, 44-58; Calgary, 36-50; Qu'Appelle, 58-84; Winnipeg, 52-88; Port Arthur, 42-50; Parry Sound, 44-52; Toronto, 47-62; Ottawa, 44-66; Montreal, 44-62; Quebec, 36-50; Halifax, 40-56.
Lower Lakes and Georgian Bay, Ottawa Valley, Upper and Lower St. Lawrence.—Fine; a little warmer at most places.
Gulf and Maritime Provinces.—Fine; stationary or slightly higher temperature.

DIED.

FOULDS.—At Dorchester, near Edinburgh, Scotland, on the 20th of May, instant, Mrs. John Foulds, aged ninety-seven years, mother of Mrs. H. D. Powis, formerly of this city.

THIBAUDEAU.—On the 29th instant, at the age of 37 years and 9 months, Dame Marie Louise Corinne Bolduc, wife of J. M. Thibaudau, traveller for the American Tobacco Company. The funeral will leave her late residence, 457 St. John street, at 8.45 a.m., on Monday next, for St. Jean Baptiste Church, thence to Belmont Cemetery. Relations and friends are requested to attend without further notice.

Address THE SUN, New York.

Mainly About Persons.

Mr. H. J. Deemer, contractor, was in the city yesterday.

Dr. Groulx sailed yesterday from France for Quebec.

Mr. and Mrs. James Holliday have returned home from Europe.

Ald. Drolet returned last evening from a business trip to New York.

Dr. A. J. Howlin has returned to town from London, Eng., and is registered at the Chateau.

The Rev. H. C. Sutherland, B.D., of Inverness, will preach to-morrow in Chalmers' Church.

Add. G. Tanguay, M.P.P., who has been confined to his residence through illness for several days past, is recovering rapidly and will probably be able to leave his residence at the commencement of next week.

At the St. Louis.—A. W. Kneeland, E. I. Rexford, Montreal; E. O. Burns, Toronto; Wm. F. Donahoe, Boston; H. L. Bosworth, J. T. Herrick, Springfield, Mass.; H. C. Atkinson, St. Raymond; V. G. Herser, U. S. Marine Hosp.; Wm. Stuart, Ottawa.

In Friday's issue of our paper, referring to the distinctions carried by Quebecers at the McGill Normal School, of Montreal, we omitted to mention a notable one won by Miss Georgina de Kaster (a daughter of Professor de Kaster) to whom was awarded the first prize for French, presented by Hon. Mr. de la Bruere, Superintendent of Public Instruction.

At the Victoria: J. C. Comeau, St. John's; A. Young, Erie, Pa.; F. G. Gardner, Berling, Ont.; W. Stock, Liverpool; J. H. Squires, New York; O. Larue, Point aux Trembles; P. A. Guey and wife, Chicoutimi; Dr. Boach Gely, Montreal; H. Burns, Bristol, Eng.; Alex. McCulloch, Montreal; L. G. Bassett, El Irving, Chicago; M. F. Rowen, Lynn; W. R. Coggeshall, Toronto; T. E. Grenier and wife, E. H. Tiffany, Montreal.

At the Clarendon: O. Laurin, River du Loup; G. L. Maston, Conception; Miss C. Lloyd, California; J. Whyte, Leeds Village; A. McTeer, W. M. Harrison, G. T. Robins, Montreal; W. J. Peters and wife, Three Rivers; H. G. St. Georges and wife, Cap Sante; J. F. Davis, Gaspe; G. H. Gordon, J. S. Russell, Cape Chatte; G. J. Walker, Lacute; N. M. Mathe, Malbaie; C. J. Powell, Ottawa; A. Cotton, St. John's; P. Q.; R. A. Eaton, Montreal.

At the Chateau: John L. Percival, W. H. Tyndale, T. LaRiviere, W. Peterson, H. B. Ames, Mrs. Ames, F. W. Giklay, L. E. Marsh, W. A. Watts, P. Burnett, Judge Quimet, W. Langland, J. G. Landland, Col. Burton, R. J. Griffin, E. H. Burton, E. Ferrer, Sir Alex. Lacoste; Judge Hall, F. W. Knowlton, Geo. Stephens, Jr., Montreal; Geo. Duke, New York; E. D. Cox, H. P. Crowell, E. Remington, Watertown, N.Y.; D. J. Carroll, A. K. Shaw, New York; E. C. Fitch, Boston; Mr. and Mrs. R. W. Patterson, New York; Mr. and Mrs. T. W. Carter, Boston; J. H. Crosby and wife, Boston; E. D. Foland, Philadelphia; C. W. Walker, Columbus, O.; R. S. Whitney, Boston; Mrs. Pearson, Miss Japp, Miss Parsons, England; the Toronto lacrosse team returning from England.

THE WESTMINSTER ABBEY CHOIR

The auditorium of the Methodist Church seats, according to the most careful calculation, 1,050 persons. For the Westminster Abbey choir concert, 450 of these seats will constitute a reserved section. This section will consist of the centre pews on the ground floor and the first two rows on the gallery. These seats, of course, are not numbered, and a reserved seat ticket simply entitles the holder to a position in this section. The first to come will be the best served. Tickets are selling very rapidly and a very large crowd is absolutely certain. But let your reserved seat ticket before they are all gone. A list of the stores where the tickets can be procured can be seen in the advertisement.

UNPARDONABLE NEGLECT.

Last summer it was publicly given out that the Esplanade had passed out of the hands of the municipal Government, and big things by way of improvement were prophesied by citizens who fully believed the old military parade grounds would be turned into a beautiful attractive park. It is evident by the present appearance of the Esplanade that it now goes a-begging for an owner, juggling about in all directions near the Grande Allee part, and the absence of the benches that used to adorn the green and afford citizens rest. The neglected condition of the grounds leads the public to believe that the Government must still claim ownership to the property, because it is hard for any intelligent citizen to believe that if the property had passed over to the ownership of the city, its worthy Mayor would tolerate its present dilapidated condition.

TALKS OUT.

Doctor Talks About Food.

It is often the case that doctors themselves drift into bad habits of food and drink although they know better, but doctors are human you know like the rest of us, but when they get into trouble they generally know better how to get out of it, and the "food route" is common one among them.

Dr. H. Barber, of Laurel, Ind., concluded that coffee and badly selected food was the cause of his stomach trouble and his loss of weight from 184 pounds to 153 pounds with nerves impaired and general nervous breakdown.

He did not give coffee up at once but began the use of Grape-Nuts and says: "Within a month I could eat a wonderful change had taken place due to the use of the new food. I decided to give up coffee and use Postum in its place. So regularly for a time I have been on a breakfast made up of Grape-Nuts, a little graham bread, and Postum Food Coffee. My weight has increased to 174 pounds, my stomach trouble has utterly gone and my mind is clear and vigorous as ever. Wish you ever success I beg to assure you of my warm appreciation of Grape-Nuts and Postum."

ARMY LIFE.

Today will be the last of the views of "Army Life" at Tara Hall. The great audience will take place at 4 p.m., and the evening performance at 8 p.m.

POLICE COURT.

Yesterday a young man, a resident of Bienville, was before the Police Court on the charge of assault and gave bail to appear for trial on Thursday next. A warrant was issued for the arrest of a man accused of assaulting a Corporation night watchman.

THE FETE DIEU.

Tomorrow is the annual Fete Dieu, and the procession in Upper Town will proceed from the Basilica by way of the following streets: Ste. Famille, Couillard, Collins, Charlevoix, Palace McMahon, St. Stanislas, St. John and Fairbairn. The procession will start at the Maternity Hospital, at the Hotel Dieu and at St. Patrick's Church.

OBITUARY.

Mr. David McAneney, an old and respected resident of this city, died yesterday at the residence of his son-in-law, Mr. Stephen Burke, of the ripe old age of 79 years. Deceased was a native of Fermanagh, Ireland, and came to this country when a young man and settled in Quebec, where he was always respected for his upright, industrious character. He leaves one son, Constable W. H. McAneney, of the city police, and two daughters living, Mrs. Peter Barry, of New York, and Mrs. Stephen Burke, of this city.

RUNAWAY YESTERDAY.

Narrow Escape of a Young Couple.

Yesterday afternoon at three o'clock a runaway occurred on the Little River road, by which a young man named Paradis, of St. Roch, and Miss Cantin, had a narrow escape. The horse was being driven by the former when it suddenly took fright and ran away. The vehicle upset and threw Miss Cantin onto the roadway where she landed more frightened than hurt, but her escort was not so fortunate. His legs became caught under the rig, which the infuriated animal was dragging after him over the rough road, and proceeded a considerable distance before it could be stopped, when Paradis was rescued in an unconscious condition and found to be badly hurt.

FLAGS.

Flags of all sizes on hand. We will give a flag of 15 feet long for \$2.49.

T. BELAND & CIE.

DAMAGE BY COLD AND FROST.

The damage caused by the late cold and frost throughout the country has been quite extensive and the country folk will feel it. The city people have suffered also and merchants have had very light sales in seasonal goods. The citizens of Quebec in general will have a great opportunity next week to gain by their loss. P. J. Cote, 31 St. John street, opens up a cheap sale of seasonal goods to-day. Every department is reduced. The ladies should flock to the above address to French de laine, worth 15 cents, will be sacrificed for 7 cents per yard. Read the advertisement and note where you can save big money in buying at once.

PARASOLS, PARASOLS.

300 handsome colored parasols will be offered for sale to-day at 25 cents on the dollar at

GAUVIN, NOEL & CIE.,
183 St. Joseph street.

TIMING YOUR TRAIN.

Ways in Which to Learn How Fast You Are Travelling.

"There has been some picturesque fiction written about the ease with which railroad men and drummers are supposed to tick off the miles as the train speeds along from things they can see from the car windows," said a railroad conductor to a reporter.

"There is only one strictly accurate way, and that is to seat yourself on the side of the train from which may be observed the white mile posts that line the road and hold your watch on them. If you have a split second watch, it will prove interesting to note while you made one mile in 60 seconds the next was covered in 53 and the third in 70 seconds, and so on, as the speed of the train increases or slackens. You may also follow around the little second hand on an ordinary watch. It kills time.

"Some pretend to say that they can tell the speed of the train by counting the telegraph poles. If there were an exact number of telegraph poles to every mile, this might be done by a little figuring, but there is a difference. The number of telegraph poles to a mile vary from 33 to 40, depending on the straight stretches and the curves in the track, the latter having more poles than the former. So, you see, it is not as easy as the drummer would have the other passengers believe.

"If the poles are planted 33 to the mile, they are 160 feet apart, and every 11 passed represents a third of a mile. If placed 40 to a mile, they are 132 feet apart, and every 20 represents half a mile.

"These are easy figures to remember, and by applying them on a journey a passenger may obtain an idea more or less accurate of the speed of the train. Another way is to attempt to count the clicks of the wheels of the train over the rails as they pass over the rails where joined. The rails of the roads as placed to-day are too evenly joined to arrive at an exact determination by this method, because if you miss two or three joints your calculations are thrown out as to accuracy.

"However, there are railroad men who cannot tell you the number of rails to the mile of their own roads, and rails vary in length, the average being 30 feet, some 33 feet and some 60 feet. At 30 feet there are 176 rails to the mile, and if you can count 176 consecutive clicks as your train flies along you may determine its speed and not otherwise."

All the world's a stage—but the engines are few and far between.

THE TASTE OF
"APENTA"

is preferable to that of other Purgative Waters. More gentle in action. Does not cause crampy pains.

THE HOSPITALS of EUROPE and the UNITED STATES use Apenta regularly. It is recommended by the leading Physicians of the World.

The Name of the APOLLINARIS CO., Ltd., London, on the label is a guarantee of uniformity and superiority.

P. J. COTE, 31 ST. JOHN STREET,

Opposite Palace Hill

While smokeless powder has been expected to give battle scenes in the future a greatly changed appearance, a new German shell is intended to reverse them. The powder contains a phosphorus, and when the shell bursts it emits a thick white smoke

shows the gunner, even at a great distance, how accurate has been his aim. The smoke also tends to obstruct the enemy's view.

The average woman has but few speaking acquaintances; the most of them are listening acquaintances.
