PRESERVATION OF QUEBEC BATTLEFIELDS.

Sir Wilfrid Laurier Gives Notice to Provide \$300,000 to Scheme.

PRIVATE SUBSCRIPTIONS ALREADY AMOUNT TO LARGE SUM.

Ottawa, Feb. 20.—(Special.)—Sir Wilfrid Laurier gives the following notice of motion: "That it is expedient to provide for the preservation of the battlefields of Quebec in connection with the tercentenary of the city of Quebec."

This amount will be handed to a commission of four or five men, who will have authority to devote a portion which they may decide upon to the tercentenary fund and a portion to the battlefields park scheme.

The Province of Quebec will contribute \$100,000 and the city of Quebec \$50,000.

In addition other provinces have promised grants, and private subscriptions already amount to a large sum, there is little reason to doubt that eventually the aggregate amount will be sufficient to carry out the project on a scale worthy of the events it is intended to celebrate and worthy of the Canadian people.

A commission to handle the Government portion, it is understood, will include Sir George Drummond, Montreal; Mr. Bryan E. Walker and Col. G. Ferguson, Toronto; Hon. Adolphe Fargue, and Mayor Garneau, of Quebec, have been mentioned as possible additional members.

\$1,678,500 FROM TROLLYS

CHICAGO'S ANNUAL SHARE OF THE PROFITS.

Chicago, Feb. 20.—The city of Chicago will get \$633,831 as its share of the net earnings of the City Railway Company for the last eleven months of last year. This is computed by the company to mean \$675,000 for a full year. Figured on the accepted basis that the Chicago City will furnish two-fifths and the Chicago Railways Company three-fifths of what the city will get altogether from the traction companies, this means a total of \$1,678,500 as the city's annual income from the two traction companies under the new ordinances. President T. E. Mitten of the City Railway Company, in his first report to his stockholders at their annual meeting Monday, showed the company could pay 55 per cent. of its net earnings to the city and still make plenty of money.

GERMANY AND THE PHILIPPINES.

Paris Story Says She Will Buy From States.

SQUADRON TO GO TO MANILA AS A PRECAUTIONARY MEASURE IN CASE JAPAN SHOULD BE IRRITATED.

Paris, February 20.—The following statements are forwarded with all reservation, but they represent an opinion as to the real objective of the American fleet in the Pacific, which is actually entertained at this moment and the satisfaction or dissatisfaction of high diplomatic circles in Europe. With a claim to a definite knowledge of the subject, it is affirmed that an understanding exists between the Washington administration and the German Government whereby Germany will purchase the Philippines on a basis of the payment of the amount heretofore paid by the United States as indemnity to Spain, plus all American expenditure in the islands since the American Government took possession of them. The fleet will go to Manila as a precautionary measure in case Japan should become irritated at the United States will retain a coal station in the Philippines. It is explained that Germany's latest loan, recently negotiated, is to provide funds for this purchase. England's attitude is represented as non-contentious. She would much prefer that America should retain the islands, but if sovereignty is to change, she does not wish Japan to obtain a foothold farther south which would increase the immigration dangers and troubles of Australia.

FORMER SHERBROOKE MAN IN WRECK.

Mr. William Park Gives Thrilling Account.

RECEIVED TWENTY-FIVE WOUNDS BUT IS NOW RECOVERING.

Mr. William Park, formerly superintendent of the Paton Mills, Sherbrooke, and now the prosperous proprietor of the Riverside Woollen Mills at Stafford, Conn., is slowly recovering from injuries received in a railway accident which nearly cost him his life. In a recent letter to a friend, dictated by Mr. Park, he gives the following account of the occurrence: "I had a narrow escape, and it is only through the mercy of God that I am here today. We were going at the rate of forty miles an hour, when the train suddenly was thrown from the track. For a minute all was plain to me, as I endeavored to keep my feet while I held to the back of the seat in front of me.

"The train ploughed through the sand and over the ties with a thundering war and din, and the flying splinters falling lamps, breaking glass and rushing cars produced a scene beyond description. After being struck on the head and body about a hundred times, I lost consciousness, and when I came to myself again, I was lying under the car face downward with my hands extended. Water and ice were all around me and I could neither move head nor body. I must have drowned in another minute if I had not been rescued from my position. I was bleeding from twenty-five wounds, ten of which were on my head, and were by actual measurement from one to three and a half inches in length. My clothing was wet through, torn to shreds and frozen to my body, head tied up with such handkerchiefs as could be hastily procured and face covered with blood. As we were some distance from the nearest house, I was exposed to the bitter cold for nearly an hour. Thanks to a strong constitution, I am rapidly regaining my health and strength, and with the exception of a few scars, expect soon to be as well as ever.

"You may imagine what a shock it was to the family when I was brought home."

FAIRBANKS CO. GETTING BUSIER.

Resume Nine Hour Day at St. Johnsburry.

EXPECTED CONSTRUCTION OF SHERBROOKE SHOPS WILL BEGIN IN SPRING.

The E. T. Fairbanks and Company, of St. Johnsburry, has resumed the nine-hour day instead of the eight-hour rule, which has been in force for some time. This change is looked upon as an indication of the close of the period of financial stringency, which has affected even the most prosperous firms.

It is understood here that the work of constructing the new Sherbrooke shops will begin in the spring.

The plans show an extensive plant, which will rank among Sherbrooke's first industries.

INTERESTING TALK ON LAND LIT-TLE KNOWN TO CIVILIZED WORLD.

Lennoxville, Feb. 19.—(Special.)—The Venerable Archdeacon Balfour, of Quebec, gave a very instructive, as well as interesting address on the Island of Borneo, Tuesday evening. There was a goodly number present and all enjoyed Mr. Balfour's description of Borneo.

"One of the most prominent men in connection with this island," he said "was Mr. Brooke, who was afterwards made Sir James of Borneo. Both these honors were bestowed on him for his services rendered in the defence of the British Government, and for his splendid work done in the Island of Borneo. The character of the man was well described, as he had a determined will even from boyhood, yet he had a kindly way in dealing with his enemies which effectually won his adversaries over to his cause. Sir James Brooke went to China in 1830 on a voyage and came back to England with a determination to make some reforms in some of the Asiatic countries, as they were of necessity; and having heard of the slave trade or human traffic, along with head hunting, (Gee), these savage natives of Borneo, who lived in huts, which held several fam-

MAY SUCCEED LIEUT.-GOV. JETTE.

Hon. Arthur Boyer, of Montreal, is Mentioned.

SIR WILFRID LAURIER, ACCORDING TO GOSSIP, HAS GIVEN ASSURANCE TO MR. BOYER'S SUPPORTERS.

Montreal, Feb. 20.—Confirmation of the report that Hon. Arthur Boyer will be the next Lieutenant-Governor of Quebec, is expected shortly by many who think they know what is going on. It is said that Sir Wilfrid Laurier has given assurance to influential Montreal Liberals that Sir Louis Jette's successor at Spencers wood will be no other than the gentleman named. The district of Montreal appears to be unanimous in support of Mr. Boyer's claims, and if Quebec does not offer too much objection his appointment will more than likely be gazetted within the next few weeks. It is said that a deputation of Sir Wilfrid Laurier a few days ago and urged the appointment of Mr. Boyer with so much persistence that the Premier really promised the delegation that their choice would be the name sent to the Governor-General.

The young lad climbed on top and allowed one foot to hang down between the logs.

In its progress, the sled slowed violently to the side and tipped over. One of the logs rolled on to the boy and crushed him to the ground.

It was some time before he could be released. Two young men were in charge of the load and were unable to raise the heavy log. They were obliged to hitch the team to it and haul it from the body of the unfortunate lad.

INDIAN LAD WRITES FROM YUKON MISSION.

The following quaint letter was recently received by Mrs. Bompas, widow of the late Bishop Bompas, the apostle of the North, who is in Montreal, from John Black, an Indian boy in Carcross School, Yukon. "Dear Ma'am, I hope you are getting along. We had holiday on Thanksgiving Day. We had lots of fun on Hallowe'en, apples hanging in house, and tried to bite them, and nuts and candy hanging down. I am going to send you a handkerchief. We have a new dormitory, on the 27th we are going to have a concert, and we are going to dance. Maggie, Mary and Jessie Black make bread. Two little Indian girls came to stay in Mission School, Angela and Daisy. "Write a letter to me again, please. We split wood and make twelve pies. Jimmy and I read in First Reader. "I wrote to Santa Claus and asked him for pair of skates. I am going to learn to skate. Sergeant Evans keeps a rink in Lagoon. I hope you are happy in Montreal. Good-bye, Ma'am. The above letter was written by one of eight little braves brought up from Moose Hide last September. He could not then speak English.

THE APPEAL OF THE SHERBROOKE PROTESTANT HOSPITAL FOR EASTERN TOWNSHIPS SUPPORT.

The Sherbrooke Protestant Hospital is not the only institution of its kind which has had a larger expenditure than revenue during the past year. The following extracts are taken from the annual report of the Montreal General Hospital: "Looking back at the work of the hospital, we find in 1897 the number of indoor patients that received attendance in the wards of the hospital to be 966, and the outdoor 4,953; or a total of 5,919, as against 5,187 last year. The income was \$12,280, and the expenditure, \$12,510; or \$230 in excess of income. During the past fifty years 100,121 indoor patients passed through the wards of the hospital, and the outdoor patients which received treatment numbered 1,094,222; a total of 1,194,343. These figures indicate that if the doors of this hospital had not been open day and night, to care and prescribe for such a large number of indoor and outdoor patients, the death rate of the city would, without doubt, have been largely increased. We regard this as the People's Hospital, and as such our committee feel that the institution is entitled to more liberal support from the citizens of Montreal, and they do hope that in the present year the income will at least cover the required expenditure." "In accordance with the secretary's statement, the income from all sources for the past year amounted to \$105,007, and the expenditure to \$124,738, being an expenditure of \$19,731 over income."

The above shows that hospitals, which must always be at least semi-charitable, must have generous public support if they would continue their work.

The Montreal General Hospital is generously supported by charitable people of Montreal and elsewhere.

An appeal was made at the recent annual meeting of the Sherbrooke Protestant Hospital for more generous support of this institution.

Like the Montreal General Hospital the balance between income and expenditure was on the wrong side in 1907.

If the people of the Eastern Townships are in accord with the work the institution is doing, it is felt, they will not withhold generous support.

If the hospital is not taking the place it was designated to fill, as an Eastern Townships institution, deserving of support of Eastern Townships people generally, the "reason why" should, it is apparent, receive all possible light.

The Hospital needs liberal contributions. If these are not forthcoming a question at once suggested is, "Why not?"

THE LATE CURTIS BISHOP, OF MARBLETON.

The late Curtis Bishop, who met with a violent death on the lumber woods, near Lake Beauport, on Feb. 12th, was a life-long and respected resident of Marbleton, in which village he was born 58 years ago, of the marriage of the late Henry Gordon Bishop and Catherine Parnsworth, and his untimely death in the midst of an ever active and useful life, came as a great shock to his family and relatives and is greatly regretted by a host of acquaintances.

Mrs. Bishop had never fully recovered from the shock occasioned by the death of her daughter, Mrs. L. P. Bishop, which occurred only a little more than a year ago, and this sudden bereavement has almost prostrated her.

The late Mr. Bishop, who resided on the old homestead, was very well known in this vicinity, having been for more than twenty-five years proprietor of the Temperance Hotel and livery stable. He was a village miller for a number of years, and held various municipal offices at different times, always to the satisfaction of the public. Was a lumber contractor and boss of railway and shanty work in various parts of the country; a charter member of Court Triumph, No. 14, C.O.F., and a most useful member of the Order. Mrs. Taylor had had a gripe and Mrs. Albee had cared for her until she was well out of it, and then returned home. She got news by letter, that Gertrude Taylor, was down with pneumonia, and to come back at once, followed by a telegram that she had passed away. Mr. and Mrs. B. B. Albee took the noon train for Boston. Mrs. Taylor leaves an infant son, 6 months old, and a daughter, 7 years old. Mr. Albee is left childless and has the sympathy of all. Mr. Samuel Taylor, his son-in-law, is sick in bed.

MRS. DONALD MCRITCHIE, LAKE MEGANTIC. Lake Megantic, Feb. 20, (Special)—The death of Mrs. Donald McRitchie took place, on Monday morning, February 17th, in her 90th year, at the home of her daughter, Mrs. Norman Morrison, Main St., after having been a sufferer for many years. Mrs. McRitchie is the very oldest resident of the Lake Megantic district, having come here with her husband in 1857 and settled on Ness Hill and has lived there ever since, except for the past two years. When her husband died she went to live with her son, Donald, and her daughter, Mrs. Kenneth McKay, of Spring Hill, and last fall came back to Megantic to be near the old home. She is survived by all of her large family, three daughters and five sons.

The funeral took place on Wednesday to the Echo Valley cemetery.

MRS. THOS. POWERS, SUTTON. Sutton, Feb. 20, (Special)—Mrs. Thomas Powers died on Wednesday at about eleven o'clock from the effect of paralysis of the left side, following a recent attack of bronchitis, threatening pneumonia. As before stated Mrs. Powers was stricken on Saturday last followed by a second attack on Sunday. She rallied from the effects of the shock, however, and was able to converse with her son, Mr. Nathan Powers, with whom she lived. The late Mrs. Powers whose maiden name was Elizabeth West, was born in North Sutton on Oct. 28th, 1815, and was thus in her 93 year. Her husband died in Dec. 1905. The funeral took place on Thursday from the house at 10:30 and at the Advent Church at 10:30. Rev. A. Wallace in attendance. The bearers are the same as at Mr. Powers' funeral, viz: Messrs. Henry Hawley, Henry Woodard, W. A. Walls and Van Sears. The late Mrs. Powers was a lifelong resident of this town, a quiet, unassuming, but a very worthy woman, and in her rather sudden and unexpected death a void is left, that will be hard to fill. Her son, Nathan with whom she lived, has the sympathy of many friends in his hour of sorrow.

IMPORTANT CASE IN SUPERIOR COURT.

Has to do With Transaction Connected With Royal Paper Mills.

EXECUTORS OF LATE FRANK JONES VS. E. T. BANK, R. P. CO., ETC. An important case has begun in the Superior Court before Mr. Justice Hutchinson.

The action brought by Irving H. Jones, of Lancaster, N.H., and Calvin Paige, of Portsmouth, N.H., as executors and trustees under the will and testament of the late Frank Jones, of Portsmouth, N.H., against the Eastern Paper Mills Company of East

The plaintiffs allege that in the month of December, 1900, the Royal Paper Mills Company was about to get out the yearly supply of logs, etc., and required large advances; that prior to the date mentioned the bank had advanced the money for such purposes, but in December, 1900, the bank had advanced large sums of money to the company and as security held as collateral security for debts due to it the stock of the said company

The executors of the late Frank Jones also demand that the bank pay them the sum of \$40,845.14, which had been paid on the said note.

The defendants contend that the note was given in the ordinary course of business; that there was no agreement and that the bank did not make any agreement that it would look after the payment of the note.

The witnesses examined this morning were Mr. W. H. Learned, Cookshire, and Mr. E. L. Stuart-Patterson, of the E. T. Bank.

The Court adjourned at 11.30, as one of the witnesses had not arrived.

U. S. SUNDAY PAPERS. CLASSIFIED AS WEEKLIES AND MUST PAY THE HIGHER RATE.

Ottawa, Feb. 18.—The Toronto postmaster has interpreted the amended postal regulations reducing the rate of postage on daily newspapers entering Canada from the United States as applicable to Sunday editions, and has required that they pay the higher postal rate.

The New York publishers have been advised by the Washington postal authorities that all daily newspapers entering Canada should enjoy the lower rate.

They have accordingly appealed to the Canadian postmaster-general asking for a harmonizing of the difference between Washington opinion and Toronto practice.

The Gazette correspondent said Deputy Postmaster-General Colter Saturday respecting the subject and he said it was a very simple problem.

"The Sunday editions of the American papers," he said, "are distinct publications, issued only weekly and sold to a distinct class of subscribers; they should, therefore, be classed as weekly and not daily publications, and the Toronto postmaster had acted within the law in charging this rate of postage chargeable on weekly and monthly publications."

"Besides," he added, "the Sunday papers were the most objectionable class of American publications and the regulations were framed for the purpose of excluding them."

RHEUMATISM AND MEAT EATING. (From Green's Fruit-Grower.) A great many medical authorities take the ground that rheumatism is peculiarly the disease of the flesh eater, and the theory is strengthened by the fact that the further you go South the less rheumatism you find, until when you get into the tropics, where a vegetable food is the rule and people eat very little flesh of any description, there is hardly any rheumatism.

An enjoyable tobogganing party was given last evening at Lennoxville by Mr. Arthur Speid, about forty being present. In spite of the snow storm, which set in during the afternoon the sleighing on Pottery Hill was greatly enjoyed. After an hour and a half of the party, which included a dozen young people from Sherbrooke, returned to the residence of the host and his mother for refreshments and spent a pleasant hour.

A very pleasant surprise party took place Monday evening at the home of Mr. and Mrs. J. C. Faith, Orford, it being the tenth anniversary of their marriage. Music and dancing were kept up until towards midnight, when the guests numbering about seventy-five repaired to the dining-room, where all partook of most appetizing refreshments. Then bidding the host and hostess good night and wishing them many more years of happy wedded life, the guests returned home having spent a very enjoyable evening.

The death of Lady Cyoski, widow of the late Col. Sir Casimir K. C. M.G., A.D.C., of Her late Majesty Queen Victoria recalls to the minds of the older residents of the city, the days in the early fifties, when Sir Casimir, then only Mr. Cyoski, was engaged in engineering work on the Grand Trunk Railway, which was being built, and lived with his family at "Rockmount," the residence at present of Mrs. Eaton. The young Irishman engineer, who afterwards attained such eminence was an exile from Poland. He and his charming wife, who was the daughter of an eminent United States physician, were great social favorites in the little Canadian town and their departure was much regretted.

DEFENDER ASKS FOR DEATH SENTENCE, IF THE COURT CONSIDERS THE SURRENDER A CRIME.

St. Petersburg, Feb. 19.—The trial of Lieut.-General Stoessel reached the last act yesterday, the prosecution waiving the privilege of putting in rebuttal to the defence. The last word was given to the accused General, who uttered only a few sentences in a firm voice and shouldered the entire responsibility for the surrender of Port Arthur.

"If the court decides that the surrender was a crime," he concluded, "I ask for the death sentence."

The court is expected to close the proceedings today with its decision.

McClarty and H. H. Dyer. There were several very fine costumes on the ice outside the prize winners.

MAKING THE ROADS. Dunham, Feb. 20.—(Special)—The rains of last Friday and Saturday rendered many of the roads in this township completely bare and two of the road officers of the divisions between here and Cowansville overcame the difficulty by hauling and shovelling snow on to all this bare ground, thus artificially producing sleighing. The last session of the municipal council's instructions to road officers says that "It is as much the duty of the road inspector to put snow on to bare roads in the winter time as it is to break out the roads after severe storms." The fulfilling of these instructions was of great benefit on Monday and Tuesday of this week.

The rivers teeming with salmon, the railway construction, the rich mining lands, and lumber limits, the lakes and indescribable mountain scenery, were all thrown on canvas, touched up by Mr. Sutherland's grand powers of description. A vote of thanks was made by Dr. Tomkins, in well chosen and very appreciative words, and seconded by Mr. Arthur Barrie. The audience responded in hearty applause. A large audience was in attendance.

A PECULIAR ACCIDENT. Baldwin Mills, Feb. 20. (Special)—Mrs. E. P. Hill met a rather serious accident on Monday morning. She had on the stove a boiler of water heated to a scalding point. A wardrobe which stood near by, contained some articles of clothing she wished to obtain for the wash, and in her efforts to secure them climbed up to one of the high shelves. This caused the wardrobe to pitch forward, knocking the boiler of water off the stove and securely pinning the unfortunate woman directly opposite the spot where the boiler had sat. The screams of her sister, Mrs. N. Hartley brought in a young man who was working outside and she was taken from her perilous position. As it was Mrs. Hill was somewhat burned and badly bruised, but is thankful she escaped what might have been a horrible death.

PRICE OF BUTTER. Fairfax, Feb. 20.—(Special)—The Eastern Townships Dairy Produce Co. for the first 28 days of January averaged \$1.35 per hundred pounds of milk and at present butter is selling at 30c per pound, this price being an advanced price over former sales in January.

SALE OF PORK. Clarenceville, Feb. 20.—(Special)—Mr. H. F. Green, an enterprising farmer of this village, made a sale in St. Johns this week of dressed pork, which amounted to \$115. He received the hogs during the first part of October, 1907, and never ceased to feed them well during nearly five months. The raising and fitting this pork for market cost him \$58, so that he has a gain of \$60, besides about \$6 worth of feed still remaining on the land for family use. Placing the gain at \$67, it will be seen that Mr. Green has more than doubled his money. He attributed his success to two main causes, viz., a large warm pen into which plenty of straw and manure were constantly thrown and all the feed that their nature demanded.

Morse's passion for steamships was perhaps attributable to their property of floating in water.—New York American.

Ten deer hidden in a car load of lumber have been seized by a Wisconsin game warden. Probably they got killed as table-board.—Chicago Post.

RINGWORM STUBBORN CASE. HEALED BY ZAM-BUK.

The most troublesome and obstinate of all scalp troubles is Ringworm. Mrs. H. Gledstone, of 106 Rawdon St., Brantford, Ont., says: "My daughter had ringworm very bad, so bad that I was compelled to have her hair cut off. I obtained a preparation from the druggist to paint the sores, but instead of curing the Ringworm developed into nasty sores irritating and smelling badly. I saw Zam-Buk advertised in the newspaper and immediately sent for a box. After several applications I could see a great improvement, and as I kept up the Zam-Buk treatment daily the disease was soon checked. The nasty sores were thoroughly cleaned and healed and all trace of Ringworm banished from the child's scalp in a few weeks after commencing with Zam-Buk. I cannot recommend Zam-Buk too highly."

Zam-Buk cures cuts, burns, chapped hands, cold sores, itch, ulcers, eczema, running sores, catarrh, piles, bad legs, rheumatism, neuralgia, sciatica, abscesses and all diseases of the skin. Of all druggists and stores, 50c, or post-paid upon receipt of price, from Zam-Buk Co., Toronto. 6 boxes \$2.50.
