

WILL EXTEND ADVANCE OF FRENCH AND BELGIAN TROOPS IN THE RUHR TODAY

Now Occupy Whole Of Ruhr Basin—Will Occupy Dortmund And Completely Command Important Railroad Junctions In View Of Progressive Obstinacy Of German Attitude—Franco-German Clash Reported In Bochum Railway Station

Paris, January 15.—The French and Belgian troops now occupy the whole Ruhr basin and have reached the limits of that neutral zone, thirty miles in depth, in which the Germans are barred from having Reichswehr or regular garrisons. The troops are at the gates of Dortmund, where they were ordered to stop for the present.

In view of the progressive obstinacy of the German attitude, however, it has been decided to extend the advance Tuesday, occupying Dortmund and establish troops in the northeast, east and southeast, completely commanding the important railroad junctions.

Southward the advance will extend to Barmen and Elberfeld which will not be occupied just now.

The promptitude which the French are showing in countering each fresh measure of obstruction appears to be having its effect, at least on the industrial magnates, who were at first deceived by the polite conciliatory methods of the French, and there are indications that they will not persist in their refusal to deliver the reparations coal. In consequence of this the French may temporarily hold their hand.

The Franco-Belgian operations are being carried out with the regularity of clockwork; no incidents are reported.

Such protests as have been made at the different centres of the occupied area were of a formal nature. The normal life of the great industrial region continues unmodified; the factories are working as usual. It was affirmed in official circles tonight that the French Government had an instant counter-move ready for any move the Reich may make. All arrangements have been made to reply by appropriate measures to German menaces, whether they concern questions of labor, food supplies or transportation. For instance, General Payot, Director of Communications, has taken steps to defeat the German plan to deprive the Ruhr basin of rolling stock.

Protest Meetings
Berlin, Jan. 15.—Government headquarters and the press generally apparently are obtaining considerable comfort from the national protest meetings held Sunday enthusiastically reports of which continue to arrive throughout the day. The demonstration everywhere are said to have brought out huge crowds. There were no disturbances. Today's reports from Essen also impressed official quarters, especially because of statements that the French were finding themselves in a quandary owing to failure to whip the mine owners and operators into line, after the Federal Coal Commission had issued an order prohibiting producers to furnish coal on French and Belgian orders.

These instructions of the Coal Commissioner followed a resolution passed at a special Cabinet session on Sunday and did not represent the personal initiative of the official coal controller.

The editorial comment in the newspapers is beginning to strike a note of confidence now that Parliamentary and popular endorsement have been voted the Government. "It began at Essen but where will it end?" asks the Allgemeine Zeitung in discussing the eventual outcome of the French advance. "The farther they move in the longer will be the way out, for didn't Arminius lure the Roman legions so deep into the Teutoburger forest that escape no longer was open to them?"

This organ of Hugo Stinnes then continues its editorial, praising the courage and fortitude shown by the populace of the Ruhr.

"A contest between brute force and moral resistance supported by right is now on," says Die Zeitung which declares the removal of the headquarters of the coal syndicate to Hamburg is the most effective resistance yet offered to the French, as the coal syndicate literally consider the key to the whole German coal problem. In consequence of this move, it adds, the French and Belgians find themselves in the very heart of the coal fields but unable to bring up a pound of coal. It lauds what it terms "the manly, self-conscious attitude" taken by the mine owners and workers alike. France either will have to admit the failure of her action or proceed to increase her coercive measures ten fold, is the belief of the Boersner Courier which points out that not a single step thus far taken by France has helped her set the complicated mechanism for permanency of production in motion. According to the Deutsch Zeitung the French military enterprise already has succumbed to world ridicule because of the vain glorious ambition to dictate the laws of trade and commerce to Europe and America.

The Kreis Zeitung says that neither an engineer nor an official representative from Italy thus far has gone into the Ruhr.

Requisition Order Suspended.

Paris, Jan. 15.—The Allied Engineers Commission at Essen, according to an agreement with the French Government has decided because of fresh information received to suspend for 24 hours the order given for the requisition at the pit-head of the coal due the Reparations account. There is ground for hope that the mine owners will withdraw their decision, announced this morning to comply with orders from Berlin to cease deliveries of coal and coke to France.

Have Reached Impasse.

London, Jan. 15.—A despatch to the Times from Essen declares that a representative of the French mining experts asserts that the coal commission has full power to confiscate the mines if necessary, but that they will not proceed to such a step without special instructions from Paris.

The correspondent thinks the French have reached an impasse because France cannot readily take the dangerous step of confiscation, considering the large extent of foreign capital invested in the Ruhr industries. He declares it is difficult to see what further France can do. It is added that the imprisonment of the Ruhr coal magnates would not extract coal from the pit, and that even if the commission resorted to confiscation, the essential problem of how the coal is to reach France and Belgium would still be unsolved.

In a later despatch the correspondent says: "M. Coste (Inspector-General of Mines) returned to Essen from Dusseldorf tonight. I learn he has decided to take forcible measures to insure deliveries of coal, but whether by confiscation or other means is not yet announced though it is believed it is quite possible that before confiscation and arrest of persons falling of compliance may be resorted to."

Clash at Bochum.

Berlin, Jan. 15.—A clash between German demonstrators and French troops occurred at the railway station at Bochum this evening. The French fired, killing one person and wounding several.

The incident followed political demonstrations on a big scale. Several thousand people collected in front of the town hall, where the French General had his headquarters and cheered the German Republic, then marched through the streets. A number of young Communists made a counter-demonstration, cheering the Third International and the French Communists.

The police were unable to handle the crowd and towards evening the French troops were obliged to intervene. It was about 8 o'clock in the evening when they opened fire near the railway station.

Won't Work Overtime.

The Essen correspondent of Vorwarts asserts that the miners in the newly occupied area of the Ruhr valley have refused from today to work overtime.

Demonstration in Berlin.

A demonstration occurred Sunday afternoon at the Bellevue Hotel where the Inter-Allied military mission is housed. A crowd which tried to enter the building was stopped by the police, who dispersed the demonstrators without making any arrests.

The German monarchial colors were hoisted on a building opposite the hotel. At Stettin yesterday the police prevented a demonstration against the Entente Commission there.

Anti-French Demonstration

London, Jan. 15.—The half hour stoppage of work at Essen today says a Reuter despatch, was accompanied by a vigorous anti-French demonstration outside the Kaiserhof hotel, the headquarters of the Inter-Allied mission.

The proceedings opened with a patriotic speech by an unnamed orator from a balcony overlooking the square, who exhorted his hearers to look forward to the day when they would victoriously beat back the French into their own territory. Enthusiastic exclamations greeted the sentiments of the orator and the crowd sang "Deutschland über alles," "die wache am Rhein" and other war songs, which were interspersed with fierce denunciations of French official photographers who appeared in the hotel windows. No French troops were seen. The German police arrived before the crowd dispersed.

A despatch to the Times from Essen points out that the aims of the French invasion embrace the whole coal basin and that every coal pit is included in the area to be occupied.

The Times Essen correspondent predicts for France military glory and economic failure. Large troop movements throughout the day brought the French line almost due south of Dortmund and practically due north of that city, at Waltrop. The occupation of Dortmund is expected to-morrow.

The pits in the Ruhr extend to Hamm, and though no information is obtainable, there is little doubt,

says the correspondent, that these parallel lines will extend eastward until Hamm is reached, when a permanent line will be established passing north of Elberfeld, Barmen and Hagen, then northward, to Hamm, inclusive, and thence westward, roughly following the line of the Lippe to the Rhine.

The easy victories the French troops are securing, he adds, are not counterbalanced by economic successes.

Forbidden Coal Deliveries

A Reuter despatch from Essen says that conference proceedings in the morning were opened by Fritz Thyssen who submitted a telegram for the German coal controller, Herr Stutz, expressly forbidding deliveries of coal and coke to France or Belgium, even in return for cash payment. Thereupon, M. Coste, head of the Control Commission, produced a written order which was served on each of the mine representatives, demanding immediate delivery on the terms prescribed by the Reparations Commission.

To this Herr Thyssen in behalf of the Germans, replied that it was impossible to obey the order. "We are Germans," he said, "and subject only to German laws."

The chairman then declared the conference closed.

Many Germans clearly anticipate confiscation of the mines. This they declare will ruin the Ruhr and will also involve the ruin of Alsace-Lorraine, because the railway organization is so complicated that it would take very little to block the whole trade to Alsace.

The opinion was expressed in some responsible British quarters tonight that the Berlin Government is pursuing a blundering, foolhardy policy in forbidding coal deliveries to France and Belgium inasmuch as it is considered this policy will give support to the French extremists views and probably lead to further occupation of the Rhine and more drastic administration of it.

An Italian Threat.

A despatch to the "Times" from Rome says the correspondent has been authoritatively informed that Premier Mussolini threatened to recall the Italian engineers from the Ruhr unless the French consented to place them outside all direct military control, which assurance was immediately given.

Penalties For Deadlock.

Essen, Jan. 15.—The deadlock involving the complete breakdown of all negotiations in the economic field between the French occupying authorities and the German magnates in the Ruhr is creating a critical situation which the French will meet tomorrow with penalties, military, economic and financial. The exact nature of the penalties the French general staff refuses to disclose, saying that instructions from Paris are being awaited. In the meantime the military occupation of Bochum and Gelsenkirchen has been completed according to plans.

The troops which have been pouring into the Ruhr are estimated to be now close to 70,000. They have entered the Basin and every bridge is guarded with machine guns, sentries are at all the cross roads and the strategic points are firmly held. The highways are choked with armored cars machine gun companies and batteries of 75s are moving up to the limits of the new occupied areas.

The workers however, excepting for a half hour's strike ordered from Berlin which was enforced throughout the Ruhr, show no disposition to quit work and all the furnaces and steel works are working. The roads from Essen to Mulheim, Dusseldorf and Dusseldorf, were going at full blast tonight.

Refuse Coal Deliveries.

The German mine directors notified the French control commission today that they must refuse to resume deliveries of coal on the reparations account, even in return for cash payments, on the ground that they were in receipt of an order from the German Federal Coal Commission forbidding such action.

Strike a Failure.

Cologne, Jan. 15.—The half hour strike today in protest against the French occupation was largely a failure while the two minutes of silence, was largely ignored. The extreme patriots doffed their hats for the required time, others maintained silence but occupied the time in lounging and smoking, while the great bulk of the people went about their pursuits as usual. The chief mark of protest was the tolling of the great bell in the cathedral. There were no demonstrations or untoward incidents.

Passed Time Drinking Beer.

Coblenz, Jan. 15.—The half hour strike called as a demonstration of "mourning" for the occupation of the Ruhr, passed off without incident throughout the British and United States zones of occupation. The trains were stopped for the required time and the banks, telegraph offices and all the government offices were closed. The employees of the hotels and shops and factories also were idle during the interval which many passed sipping glasses of beer.

No Combination Against Britain

Rome, Jan. 15.—Premier Mussolini told his Cabinet today that Italy had never proposed a continental combination against Britain, but had advised France to limit her military action in the Ruhr valley to the utmost, and not shut the door upon a possible agreement.

The Premier declared that Italy

A STRANGE CASE COMES TO LIGHT

Band Of Men Lived Under Point St. Charles Dump—Tunnel Entrance

Montreal, Jan. 15.—By the death of a man believed to be A. Campbell, of Sydney, Nova Scotia, who died from cancer, a strange case has come to light on the shores of the St. Lawrence River in, or rather under the Point St. Charles municipal dump in which a band of over a dozen men have been living for an unknown period. The entrance to this mysterious cavern is through a tunnel which is so small that Campbell's body had to be dragged out as there was not sufficient room for the morgue men to carry it. The inhabitants of this strange abode lived by selling and eating rubbish taken from the dump. The "chief" of this band and another member of it were taken to headquarters as witnesses. Police officials declare that they were loud in their protests against sleeping in a cell.

BRITISH PLANES BOMB VILLAGES

In Neighborhood Of Mosul Says Communique Of Angora Government

Constantinople, Jan. 15.—An official communique issued by the Angora Government says: "British airplanes are actively bombing villages in the neighborhood of Mosul, especially Retwanduz, Raynax, Massour, Mourbeit and Nameve. Four of the theplanes were brought down."

Reports of disorders and revolutionary movements in Mosul have been received at intervals since the question of the disposal of the district which contains rich oil deposits, first came actively to the attention of the Lausanne conference. The majority of these reports, emanating like the above, from purely Turkish sources have been denied by the British Foreign Office.

No Confirmation.

London, January 15.—No confirmation here of the report of the Angora government of British airplanes bombing villages in the Mosul region. The Colonial Office and the Air Ministry deny knowledge of such happenings.

A Reuter despatch from Baghdad which is the headquarters of the British Air Force, does not mention aerial attacks by the British. This despatch was filed Tuesday morning.

had given France her political and technical support. Italy could not isolate herself without making a very serious mistake, neither could she dissociate herself from the operation for control of the coalfields in the Ruhr, which was a question of fundamental importance for European and Italian economies. The proposal to form a continental combination against Great Britain was non-existent; the Italian Government could never have contemplated such a combination. If an entente were formed which could give Europe peace, it could not, in the Italian opinion, succeed without the participation of Great Britain. Italy said Mussolini had no coal and could not allow herself the luxury of isolation. Italian policy had been inspired by the principles of the memorandum of London for safeguarding Italian interests and the restoration of European economic conditions.

INDIANS TO MAKE ANOTHER APPEAL

To Foot Of Throne If Differences With Canadian Government Not Settled Soon

Osheweken, Ont., Jan. 15.—Another appeal to the foot of the throne is contemplated by the Six Nations Indians if a settlement is not made soon of their differences with the Canadian Government.

This was the information given this afternoon by Chief David Hill, Secretary of the Six Nations Council.

In December last, after a conference with Hon. Charles Stewart, Superintendent-General of Indian Affairs, a board of arbitration was agreed upon by both parties. Since then there has been a hitch in the appointment of this board. The Indians insist on paying one-half of the expenditure in connection with it. They feel that if the Canadian Government paid all the expenses the members of the board might be inclined to favor the party paying them.

The Six Nations Council also wants a further conference to decide a few details in connection with the appointing of the members.

Regarding the coming of the detachment of ten Royal Canadian Mounted Police to a permanent post in Osheweken yesterday, Wm. C. Johnson, President of the Great War Veterans' Association, said that his body would make an official protest against mounted police being stationed here. The returned soldiers, as well as a great many other members of the reserve, keenly resent the Canadian Government showing its authority in this manner.

Mounts On Reserve.

Brantford, Ont., Jan. 15.—A detachment of the R.C.M.P. is now located on the Six Nations Reserve. The mounts reached the Indian village on Sunday afternoon and they took up their quarters on the premises of Alex. Lottridge.

Their arrival was a very quiet affair and there was not the slightest sign of any demonstration. The few Indians who looked on while a lot of paraphernalia was unloaded from sleighs, watched proceedings with stolid indifference. As a matter of fact any resentment regarding the establishment of the post is most manifest at the west end of the reservation.

The first visit of the R.C.M.P. to the reserve a few weeks ago was undertaken at the request of the Indian Revenue Department in order to clean up some stills and make two arrests in connection with summonses.

The present visit and permanent location of a force on the reservation is to enforce the Soldiers' Settlement Act as applied to Indians.

PATENAUDE FOR JACQUES-CARTIER

Unanimous Choice Of Conservatives — "Snowstorm Election" Was Condemned

Montreal, Jan. 15.—Hon. E. L. Patenaude, formerly a member of the Borden Cabinet, who resigned from that administration on the conscription issue, was the unanimous choice of the Jacques-Cartier Conservative party convention held in Lachine this afternoon to select a candidate for the coming provincial general election. The member in the last house for this seat is J. S. A. Ashby, a Liberal. Mr. Patenaude accepted the nomination.

Following the nomination Mr. Patenaude addressed the convention and condemned the Government for precipitating what he described as a "snowstorm election."

"If," he said, "the Government decided to rush the provincial elections through at this time of the year, it was because they saw the handwriting on the wall and they had in sheer panic gone to the elections before the latter could be given reasonable time to think and prepare themselves. 'The Government,' he declared, 'respected the public demand for elections; but the precipitate rush they made is nothing but a sign of weakness. They have forced the sudden elections on us because they are afraid of the rising tide of public indignation, of the light of truth, and of the indictment of the people'."

Referring to Montreal, he said: "The Provincial Government is the master of the city of Montreal, no matter what they may say about autonomy. The same applies to all the other municipalities of the province where the council must travel like so many pilgrims to Quebec to borrow fifty dollars or build a stub road thirty feet long."

He denounced the Government for passing the Roberts bill and concluded: "We call the ministers and the deputies of the Government before the Bar of public opinion to justify yourselves, to answer for your actions and your uninterrupted rampage of autocracy in the province of Quebec."

INSTANTLY KILLED.

Montreal, Jan. 15.—A Lacroix, 43, an employee of Duchesne and Company, Limited, was instantly killed today when his head caught between an elevator in which he was ascending and the side of the shaft.

DUKE OF YORK NOW ENGAGED

Betrothal Of Prince Of Wales' Brother To Lady Elizabeth Bowes-Lyon Announced

London, Jan. 15.—The engagement of Prince Albert, the Duke of York, second son of King George and Queen Mary, to Lady Elizabeth Bowes-Lyon, is announced in a Court circular issued today.

Lady Elizabeth Marguerite Bowes-Lyon is 22 years old, and the daughter of the Earl of Strathmore, whose peerage dates back to 1666. Reports of her engagement to the Duke of York were circulated late in 1921 and early in the following year, but were then denied.

Early this month one London newspaper referred to her as the future wife of the Prince of Wales, but this was followed by a quick disclaimer from the Prince's secretary.

Lady Elizabeth was a bridesmaid at the wedding of Princess Mary to Viscount Lascelles. She is tall, dark-haired and athletic, and extremely popular in British society.

The Duke of York observed his 27th birthday on December 14 last. The official announcement of the betrothal which King George sanctioned "with the greatest of pleasure" has particular interest as finally disposing of the recent rumor of the engagement of the Prince of Wales to Lady Elizabeth. It leaves the gossip still speculating regarding who is to be the bride of the heir to the throne.

The Duke of York like his elder brother, is very popular, and his choice of a bride of his own nation is a source of gratification to the country. Lady Elizabeth is the third and only unmarried daughter of the Earl of Strathmore. Her engagement to the Duke of York has been the subject of rumor, owing to their association on the hunting fields and at various social functions.

Lady Elizabeth has been much in the society of Royalty during the past two years. She is pretty, high spirited and clever, and in addition, an accomplished hostess. She acted in the latter capacity at her home, Glamis Castle, in Scotland, in October 1921, during the illness of her mother, when a Royal party, including the Duke of York and Princess Mary, were entertained there by the Strathmores. This was the first occasion of a visit to the Castle by the son of a reigning King since Prince James, son of Charles I, went there.

The romance between the Duke of York and Lady Elizabeth began at the wedding of Princess Mary to Viscount Lascelles and is said to be a real love match.

The Weather.

Toronto, Jan. 15.—The depression which was over Lower Lake region last night covers the Bay of Fundy and pressure is quite high from Northern Manitoba south to Texas. Snow has fallen today in the Ottawa Valley and over the western half of Quebec, and it is now snowing and raining in the Maritime Provinces.

METAGAMA SAVED

FIVE FISHERMEN

Rescue Effected During High Seas—Sails Blown Away And Engine Dead

Halifax, N.S., Jan. 15.—Five men

of the 15-ton off-shore Liverpool,

Nova Scotia, fisherman, Ida M.

Cunningham, were rescued from

their little craft yesterday afternoon

by the Canadian Pacific steamship

liner Metagama, from St. John, and

are on board that vessel bound for

Glasgow. The rescue was effected

with the high seas from the storms

of Friday and Saturday still run-

ning, and being further whipped by

a fresh northwest gale today. The

Cunningham had failed to return to

Liverpool Friday evening with the

rest of the fleet which ran in be-

fore the easterly storm, and the

gravest fears were entertained that

she might not ride out the gales

that followed. It is thought that

the vessel kept toward the open

sea rather than risk approaching

the coast in the thick snow, or per-

haps with the auxiliary power dis-

abled was unable to work in, and

was blown into the track of the

Metagama coming out of the Bay of

Fundy. When found by the Cana-

dian Pacific liner her sails had been

blown away and her engine was

dead. When last seen by the Me-

tagama she was still about 200

miles from the shore, and according

to Captain W. A. Robson, of the Gov-

ernment steamer Acadia, which had

been searching for the Cunningham,

the little craft with iron ballast and

3,000 pounds of fish on board was

likely soon to sink.

News of the rescue of the crew

came here today in a message to

C. H. Harvey, agent of the Marine

and Fisheries Department. It was

from the Metagama and read:

"Crew five men Ida M. Cunning-

ham taken off the vessel abandoned

at three p.m. today 43.22 north

latitude, 63.05 west longitude. Fresh

northwest gales and high seas.

Vessel with sails gone and auxil-

iary engine disabled. Still afloat and

menace to navigation."

Halifax, N.S., Jan. 15.—The of-

ficer Joseph Zep, en route from

Dunkirk, Jan. 15, for New York,

today notified the Cape Race wire-

less station that she was proceeding

to the assistance of the steamer

Helder, en route from Norfolk,

January 7 to Aalborg, Sweden, and

which was in distress and calling

for immediate aid in latitude 43.21

north, longitude 47.25 west.

The vessel kept toward the open

sea rather than risk approaching

the coast in the thick snow, or per-

haps with the auxiliary power dis-

abled was unable to work in, and

was blown into the track of the

Metagama coming out of the Bay of

Fundy. When found by the Cana-

dian Pacific liner her sails had been

blown away and her engine was

dead. When last seen by the Me-

tagama she was still about 200

miles from the shore, and according

to Captain W. A. Robson, of the Gov-

ernment steamer Acadia, which had

been searching for the Cunningham,

the little craft with iron ballast and

3,000 pounds of fish on board was

likely soon to sink.

News of the rescue of the crew

came here today in a message to

C. H. Harvey, agent of the Marine

and Fisheries Department. It was

from the Metagama and read:

"Crew five men Ida M. Cunning-

ham taken off the vessel abandoned

at three p.m. today 43.22 north

latitude, 63.05 west longitude. Fresh

northwest gales and high seas.

Vessel with sails gone and auxil-

iary engine disabled. Still afloat and

menace to navigation."

A SAD LOSS FOR

OTTAWA JEWELRY

Well Known Resident Of Capital Passed Away At Age Of 94

Ottawa, Ont., Jan. 15.—(Can.

Press)—By the death of Moses

Bilsky here Ottawa Jewry sustained

a profound loss. As the first Jewish

citizen of the Capital, Mr. Bilsky,

who had attained the age of 94

years, was known for many years

as an ardent worker. In fact his

career was one of the most inter-

esting and possibly the most im-

portant in the Capital. Coming

from Russia with his father, Ely

Bilsky when only 14 years old, he

first settled in Montreal. When

his father returned to Russia a few

years later, young Bilsky then went

down to stay with relatives at

Brooklands, N.Y. Of an adventur-

ous spirit he decided to strike

out on his own and returned to

Canada. After staying only a few

months in Montreal, he came to

Ottawa in 1857.

Answering the call of gold from

the north countries, he started out

for the Cariboo gold fields in 1861.

A journey which undertaken before

the steel had been laid across the

country, had to be made by rail and

waived to New York, the Panama

Isthmus, San Francisco and Victo-

ria. The journey took six weeks.

Not satisfied with the conditions of

things up his arrival, he started

back on horseback and on foot.

Arriving in San Francisco, he en-

listed in Uncle Sam's army in '63

during the time of the Civil War.

He served as trooper in 'Prisco at

the time that Abraham Lincoln

was assassinated. The city was

placed under martial law, and he

was kept on duty patrolling the

streets. During this period he had

a lively time helping to subdue ri-

oting, and received a slight wound

in the leg.

After an absence of six years

from Ottawa, Mr. Bilsky returned

and started up in the jewelry busi-

ness. In the '70's he opened up

his first jewelry store on Rideau

street, near Mosgrove. This was

the parent company of the present

business. The late Mr

MONTREAL AND VICE CHARGES

Aldermen Resolve To Leave Matter In Hands Of City Executive Committee

Montreal, Jan. 15.—Following a long debate here this afternoon on the charges made recently by Dr. A. K. Haywood, Superintendent of the Montreal General Hospital in regard to alleged toleration of commercial vice in this city, the aldermen resolved to leave the matter in the hands of the City Executive Committee which is to meet this afternoon. The committee of 16 aldermen, the majority of whom are in the majority, intimated that if any investigation into vice conditions here were needed, it should be carried out by the city executive authorities rather than by a committee of aldermen. The debate was not lacking in pointed comment. Mayor Martin told Alderman Dr. Quintal that the medical men of this city should set their own houses in order as regards the sale of narcotics and cited a case before the Courts last week when a physician was fined \$1,000 and ordered to leave the city at once for selling drugs. His Worship added that this case was not the only one of its kind. Dr. Quintal replied that the Medical Association did not wait for the Courts to act, but had already suspended six members last year for causes which he did not disclose.

A motion that the City Council be supplied with an official copy of Dr. Haywood's address in which the charges were raised, was defeated on the statement of alderman O'Connell that the city executive were to meet the committee of sixteen this week, when official documents would doubtless be forthcoming.

There were no references to conditions in Toronto or other Canadian cities in the course of the debate.

BIG COUNTERFEIT CASE STARTED

Greatest To Come Before Any Tribunal In Canada—Argument Yesterday

Montreal, Jan. 15.—Argument in what is said to be the greatest counterfeit case to come before any tribunal in Canada opened this morning before Judge Cumson in the court of appeal sessions. The case hinges around the raid carried out last summer on a picturesque apartment house on Isle Ste. Therese when a huge printing press, etc., together with many counterfeit American \$10, \$50 and \$100 bills, amounting to over \$100,000 were seized by officers of the Royal Canadian Mounted Police.

R. L. Calder, K.C., representing the Federal Government stated that this was one of the most gigantic counterfeitings plants ever unearthed in Canada. Hundreds of thousands of dollars of counterfeit bills had been seized and no less than sixteen people said to have been in the conspiracy have been or held under surveillance.

Albert Grignon, said to be the ring leader of the counterfeiting ring, was the object of the attack of Mr. Calder today. Mr. Calder explained to the court how Grignon had come to the Royal Canadian Mounted Police in January last and told them of the gigantic plot to counterfeit money. He explained how Grignon had kept the Mounties informed of the plot until May 8 last when he suddenly ceased to give any information. It was at this time, Mr. Calder contended that the plant at Isle Ste. Therese was set up and operated until June 2 when it was decided to abandon the plant and destroy all evidence of the counterfeiting operations by throwing the printing presses and other paraphernalia in the St. Lawrence River.

LABOR MOTIONS BEFORE HOUSE

Will Be Presented When Parliament Opens By Member For Calgary East

Ottawa, Jan. 15.—William Irvine, Labor member for Calgary East, will have a couple of motions to present when Parliament opens. One calls for investigation by a parliamentary committee of the "basis function" and control of financial credit and the relation of credit to the industrial problem. The other provides that the defeat of a Government measure in the House shall not be considered as a sufficient reason for the resignation of the Government unless followed by a vote of lack of confidence. Mr. Irvine has also given notice of bill to amend the Criminal Code. The purpose of Mr. Irvine's bill it is understood will try to do away with capital punishment.

ADMINISTRATION AVOIDS PRE-ELECTION PROMISES

Winnipeg, Jan. 15.—Charging that the Liberal regime could not carry out promises made before the election because the Quebec Liberals would not stand for them, Right Hon. Arthur Meighen declared before a meeting of Conservatives here that the administration now in power had consistently evaded pre-election promises, especially those in relation to the tariff.

Mr. Meighen is enroute east following a brief visit to Portage la Prairie.

150,000,000 Copper DEAL UNDER NEGOTIATION

New York, Jan. 15.—The Anaconda Copper Mining Company is negotiating for control of the Chile Copper Company in a deal involving \$150,000,000, John D. Ryan, Chairman of the former corporation, announced to-night.

A transaction would combine two of the richest copper companies in the world.

A DAMAGING FIRE

Brookville, Ont., Jan. 15.—William Dwyer, a farmer in South Crosby township, one mile from Crosby Station, suffered the loss of his barn, 35 head of cattle and all his crops, by fire last night. Six additional cattle were saved from the fire.

DOINGS OF THE FEDERAL M.P.'S

Lapointe Expected In Ottawa Today, Robb February 5, Fielding This Week

(By Canadian Press)
Ottawa, Jan. 15.—Although Hon. J. A. Robb, Minister of Trade and Commerce, who is now on his way home from Australia, will not reach Ottawa in time for the opening of Parliament, the House will have hardly settled to business before he arrives. Mr. Robb who is returning by way of Europe will, it is expected, reach Montreal on January 20. He will spend a few days in England, sailing for New York on the Mauretania on January 27. He should, therefore, reach Ottawa on the 4th or 5th of February.

Hon. Ernest Lapointe, Minister of Marine, is expected in Ottawa tomorrow and Hon. W. S. Fielding will probably arrive before the end of the week. Hon. W. C. Kennedy, Minister of Railways, left his home in Windsor early in January for the southern States, where he is now recuperating from a severe illness. It is not expected that Mr. Kennedy will return to Ottawa until spring, but he will probably take his seat during the session.

Robert Forke, leader of the Progressives, is expected in Ottawa about January 24.

TEACH FRANCE TO DRINK WINE

Minister Of Agriculture To Undertake Task—Does Not Develop Alcoholism

Paris, Jan. 15.—Henry Cheron, Minister of Agriculture, has undertaken to teach France to drink wine instead of liquors of high alcoholic content. The Minister has issued a circular to his staff throughout the country to encourage the people "to drink a glass of good French wine," assuring that the Government laboratory tests show that wine contains vitamins necessary to health and that wine not only does not develop alcoholism but "it has been established that alcohol is prevalent where little wine is used."

M. Cheron particularly encourages wine drinking because the yield this year is double that of last year and also because the vintage is good. The ministry is preparing a label that will guarantee wine as being French wine.

GAULT TO RUN IN ST. GEORGE

Rescinds Decision To Withdraw From Provincial Arena—Campaign On In Earnest

Montreal, Que., Jan. 15.—Under strong pressure from friends at a meeting of Conservatives of St. George's Division here tonight, C. E. Gault rescinded his decision to withdraw from the Provincial arena and has consented to run as Conservative candidate in the forthcoming Provincial elections. Mr. Gault has represented the Division at Quebec for the last 15 years.

Lafleur In Verdun.
P. A. Lafleur, Alderman of Verdun, was unanimously chosen at a Conservative convention held in that city tonight to stand as Conservative candidate at the forthcoming Provincial election.

Fight On In Earnest

Montreal, Jan. 15.—The opening of campaign headquarters offices for both Liberal and Conservative parties here today marks the beginning in earnest of the fight in the coming Provincial general elections.

Liberal headquarters were formally opened this morning at the corner of St. James and St. Lawrence streets, and the Conservative headquarters are to open this afternoon at 34 Notre Dame street east.

Liberal campaign headquarters are under the command of Hon. J. L. Perron, Minister of Roads, assisted by Alphonse Decary. The active work of the committee is in charge of two rising young Liberal politicians, Phillip Brail, Assistant Crown Prosecutor, and Albert Allard, son of the Hon. J. A. Allard. The last named has charge of the organization of movements of speakers. Hon. Mr. Perron, Irene Vautrin, M.L.A., and other party leaders were present at the newly opened office this morning.

The Conservatives take their next step in the campaign this afternoon at Lachine when a convention will be held to choose a candidate for Jacques Cartier in the riding of St. Lawrence.

It is practically a foregone conclusion that the candidature will be offered to Hon. L. A. Patenaude. It has been suggested that Mr. Patenaude might prefer Laprairie-Naperville and in event of expressing such a preference, the next choice would probably be Mr. J. L. Perron, former defeated Conservative candidate, or perhaps Joseph Boileau, notary.

Hon. Aurele Lacombe, Minister of Labor, will hold his first meeting tomorrow at St. Paul Academy, accompanied by J. L. Perron, Hon. H. Mercier, Dr. Arthur Denis, M.P., and others.

Dr. Ernest Poulin, candidate in Laurier, is holding his first meeting tonight, accompanied by W. Benoit, K.C., E. Monodard, J. A. Roulier and others.

Edward Masson is unofficially slated for the Conservative nomination at the convention to be held this week for St. Mary's division. He runs as a straight Conservative and supporter of Arthur Sauve.

There is a fluttering among the Liberal devotees in the newly created Merivale county, regarding the rumor that the Liberal party does not intend putting up an opponent for Charlemagne-Rodier, K.C., who is standing as an Independent Liberal.

Liberal headquarters will start sending out their force of public speakers to carry the Liberal doctrine into the surrounding districts.

Dugas For Joliette

Three Rivers, Que., Jan. 15.—At the Liberal convention held at Joliette today, Lucien Dugas was nominated as candidate for the constituency of the forthcoming Provincial elections. Mr. Dugas, who is a local lawyer, is the son of the late Mr. Dugas who was himself a former M.L.A. for this town.

The choice of the candidate was unanimous after a three to one vote for him had been recorded. Other candidates for nomination, G. Breton and E. Pollard, retired in his favor.

Senator Casgrain was Chairman of the convention and speeches were made by J. J. Denis, Federal Member for the constituency; Charles Query, of Montreal, and Ernest Hilbert who was formerly M.L.A. prior to the election of the sitting member, Joseph Dufresne, Conservative.

NO ATTEMPT TO OPEN SNOW-BOUND HIGHWAYS

Springfield, Mass., Jan. 15.—No attempt has yet been made to open the main highways between Berkshire County closed by the heavy snowfall, but today plows were placed in operation by motor trucking concerns between Northampton and Greenfield in an effort to resume deliveries. Considerable hardship is being experienced in isolated communities hereabouts.

FRENCH TROOPS FIRED ON CROWD

Bochum, Jan. 15.—One German was killed and two wounded tonight when French troops fired on a crowd in order to quell a clash between Nationalists and Communists.

GERMAN REFUSAL COMES UP TODAY

Reparations Commission To Declare Germany In Wilful Default On Deliveries

Paris, January 15.—It was definitely announced by one of the highest authorities of the French Government tonight that the Reparations Commission tomorrow morning will take one of the most important decisions, when the question of Germany's refusal to make any further deliveries in kind comes up for discussion.

The recent German note in reply to the notification of the French measures in the Ruhr, announces that in view of French action in the Ruhr the German Government has suspended its deliveries of kind to the Allies, including coal, wood, hay, cattle, building materials and a dozen or more other commodities. The Commission by a majority of three, Great Britain abstaining will declare Germany in wilful default in these deliveries for the year 1923. This will open the way for a new policy of requisition which France will immediately put into effect.

To Discuss Plan

Paris, Jan. 15.—Roland W. Boyden, United States representative with the Reparations Commission, announced tonight that the Commission either next Friday or at the beginning of next week, will discuss a plan for the settlement of the reparations problem in which have been approved by Secretary of State Hughes and drawn up last fall which was submitted by Mr. (Boyden) to the Reparations Commission after its return from Berlin early in November. He declined to make the plan public, but said it would fit in with the United States suggestion for a committee of experts.

It is stated in Government circles that in view of the present situation in the Ruhr there is only slight possibility of the Boyden plan being accepted by the Commission.

Plan Not Approved

Washington, Jan. 15.—In a formal statement issued late today by the State Department, it was officially announced that Mr. Boyden has no instructions to present any plan to the Reparations Commission and that neither Secretary Hughes nor anyone in the Department had approved any plan for submission to the Reparations Commission.

BOB EDWARDS' SEAT FILLED

Editor Of Calgary Albertan Elected To Provincial Legislature

Calgary, Alta., Jan. 15.—William McCartney Davidson, Independent, was elected to the Alberta Legislature today by 1,500 majority over Clinton James Ford, K.C., Citizens' candidate, in the by-election necessitated by the death of Robert C. (Bob) Edwards, Independent.

Mr. Davidson has pledged himself to co-operate with the Greenfield Administration and "to give the benefit of the doubt" to Mr. Ford was nominated at a convention of citizens "opposed to the Greenfield Government."

It was notable that the seat made vacant by Mr. Edwards, who was publisher of the Calgary Eye Opener, will be filled by a member of the Fourth Estate. Mr. Davidson is publisher of the Calgary Albertan. He represented Calgary as a Liberal from 1917 to 1921 when the Farmers' Government was swept into power. Mr. Davidson was not a candidate in 1921.

WESTMOUNT CIVIC ELECTION RESULTS

Montreal, Jan. 15.—Westmount municipal elections were held today when, with only about 25 percent of the electors going to the polls, the five aldermen who sought re-election were all returned to office. Aldermen A. L. Robertson headed the poll, the others being Ald. R. L. Scott, Ald. S. F. Rutherford, Ald. George Hogg and Ald. C. W. H. Rondeau, Mayor P. W. McLagan was elected to office for his third term by acclamation some time ago.

NO ANTI-PROHIBITION GROUP IN LEGISLATURE

Toronto, Ont., Jan. 15.—"There is no truth whatever in the report, said Sir Thomas White today referring to reports that an anti-prohibition group might be formed in the legislature and Sir Thomas was to be approached in the matter.

"It is absurd on the face of it," said Sir Thomas with emphasis. No one has ever spoken to me on the subject and I do not know of any reason why I should be considered available as leader of an anti-prohibition party. I am not in politics, except of course that I am a member and supporter of the Conservative party.

COLDSTREAM GUARDS MEN WOUNDED BY TURKS

Constantinople, January 15.—Two members of the Coldstream Guards, famous British regiment, were wounded by a number of Turks in Galata, the northern suburb of Constantinople, last night. One of them died from his injuries.

CONFUSION AND TERROR REIGNED

In Heart Of Dublin Last Night With Much Bombing And Shooting

Dublin, Jan. 15.—Confusion and terror prevailed in the heart of the city for a time tonight in consequence of much bombing and shooting. The Royal Barracks, headquarters of the Irish Command, the Freeman's Journal and a garage occupied by National troops were among the places attacked, but it is not known whether there were any casualties.

An ambush in Grafton Street is reported to have led to a number of casualties. In addition to the kidnapping Friday night of Dr. Oliver Gogarty, a Member of the Irish Free State Senate, who later escaped from his captors, the homes of four other physicians in Dublin were raided during the week and the furniture in them smashed. All the physicians were absent at the time of the raids, but the miscreants declared they would visit them again until the physicians were found at home. The four physicians are believed to be sympathetic with the Republicans and the raids are regarded here as reprisals by organizations formed on Fascist lines, designed to meet the irregulars with their own methods. The government is said to disapprove of any official raids.

Four men were executed at Roscrea and one at Carlow by the Free State government today, it is officially announced. The charge against them was possession of arms.

London, Jan. 15.—A Dublin despatch to the Times says that seven persons were wounded in tonight's disorders, including four soldiers, a Catholic priest and a woman, who is not expected to recover.

The Press Association's Dublin despatch says a miniature battle raged there tonight with unknown casualties.

Abandon Chivalry

The Irish Free State government has decided to put women Republicans on the same footing as men, according to a Dublin despatch to the Daily Mail, abandoning the chivalry which heretofore exempted them from search for arms and detention when found in possession of them. There is speculation whether the decision involves the shooting of the possessors of arms. The correspondent reports a riot of fifty women prisoners in Mountjoy. The date of this occurrence is not given. The women destroyed every thing breakable and considerable force was necessary to restore order. The two ring leaders were placed in solitary confinement.

PERMIT U.S. FISHING VESSELS

On Pacific To Sell Catches In Canadian Ports On Paying Duty

(By Canadian Press)

Ottawa, Jan. 15.—United States fishing vessels operating along the Pacific coast of Canada may sell their catches in Canadian ports on payment of the duty, according to a Government decision incorporated in an Order-in-Council made public to-night. These vessels, however, must be equipped with a license which may be obtained from the Department of Marine and Fisheries for one dollar.

Possession of this license also permits United States fishing fishermen to enter Canadian ports for the purpose of landing their catches and transhipping them in bond to any port in the United States. They may also sell their catches in bond to local dealers authorized by the Minister of Customs. The Order-in-Council provides that American fishermen can enter Canadian ports for the purpose of securing bait, crews and certain equipment. On the Atlantic coast, possession of similar licenses authorizes American fishermen to enter Canadian ports to secure bait, supplies and crews and to tranship catches.

PARLIAMENT NOT TO MAKE REPRESENTATIONS

London, Jan. 15.—(Canadian Press Cable)—The Yorkshire Post's London correspondent, says he understands that nothing has arisen to warrant the suggestion that the Canadian parliament is likely to make very definite representations to the Imperial parliament with regard to the famous appeal of September 15 last to Canada to join with the other dominions in a demonstration calculated to impress Turkey when war between Great Britain and that country seemed imminent.

FREIGHT EMBARGO AT ROCHESTER, N.Y.

Rochester, N.Y., Jan. 15.—The Pennsylvania railroad, it was learned today, has declared an embargo on freight here, owing to congestive conditions which have been evident for some time. No freight was accepted by the road destined to, or by the way of the Northern division, Central region of the Pennsylvania, which includes territory bounded on the North by Rochester and Buffalo. Livestock, perishable goods, fuel, coal and freight for the Government will be accepted.

GROWING DEMANDS FOR SCHOOL ROOM

Mayor Samson Predicts There Will Be 200 New Families In Limoilou

Mayor Samson affirmed at the meeting of the Catholic School Board last night that next spring there would be two hundred additional families in St. Francois d'Assise parish alone and that the plans which are being made to give the girls' school several new classes would not suffice to cope with the increase in the school population.

At the last meeting of the Commission a letter was read from the Superior Board of Health complaining that there was too much congestion in the school and suggested that the theatre be divided so as to provide four new classes. Last night it was said that the theatre would be divided temporarily, but that next spring the sisters who reside on the top floor of the school would be given accommodation elsewhere and as a result there would be five new classes provided on the top floor and the theatre could be restored to its original use. At the present time there are eight classes in the school and with the three additional provided by the division of the theatre there will be 11 classes, but next year when the top floor is made into five classes there will be thirteen classes in all.

Mayor Samson contended that even with the increase of class accommodation it would not suffice next September.

Commissioner T. Verret announced that the work on the new school of the Immaculate Conception has been completed and would be officially inaugurated shortly. He invited all the commissioners as well as the representatives of the press to attend the ceremony which will be announced later.

It was announced that the Board had accepted the proposition of the Calme d'Economie for the establishment of a system of thrift banks in the schools, and had authorized J. C. Marcoux, General Manager, and Georges Belleau, Inspector, to organize the system.

The Board also concluded a new arrangement with the Sisters of the Congregation who own the property occupied as the girls' school on St. Francois street. This property has already been leased by the Board and now it has been leased again for a period of ten years. The former lease called for a rental of 8 percent of the cost of the school which was \$22,000, when it was built many years ago. By the new arrangement the Board will pay 1-2 percent on \$25,000, which includes the cost of the building and the value of the land, plus 1-2 percent of the cost of the building to cover depreciation, maintenance and insurance. The new rental will be \$1,150, incidentally in this connection a petition was received from residents of St. Roch's parish asking for an improved lighting system for the new school.

The Cure and parishoners of Stadacona parish asked that the Board erect a new convent in the parish and that the old convent be used as a preparatory school for young children. They suggested that the new building be erected on Blvd. St. Premier Avenue. They pointed out that the additional accommodation was required as there would be twenty-five additional families in the parish next spring. The petition was referred to the Construction Committee.

The Chairman was authorized to enter into an agreement with the St. Vincent de Paul Society whereby school quarters would be provided in the Catholic Sailors' Club on Champlain street to replace the present Lower Town School which has been condemned. In the Sailors' Club there will be four French classes and one English class and possibly another French class later on.

Tenders were received for the supplying of 44 window shades for the new building on Blvd. St. Premier Avenue. The architect was authorized to enter into a contract with the firm of Marier & Tremblay whose prices were the lowest providing they would supply the same quality as asked for in the tenders for their price. If they will not do this the architect will submit the same proposition to the next lowest tenderer.

As regards the supplying of 66 shades for the Immaculate Conception School the contract will be offered to the firm of Myrand & Pouliot at \$2.95 per shade. There was a misunderstanding in this connection. The form of Myrand & Pouliot believed that it was receiving an order for the 66 shades and not simply asked to tender and accordingly look upon the matter as a business transaction. The shades required, in view of the fact that the shades have been made the Board decided to offer to buy them at the price of the lowest tender submitted which was \$2.95 per shade.

MAYORAL ELECTIONS IN THE CHAMBLY DISTRICT

Montreal, Jan. 15.—Mayor and Council elections in the Chamby District have resulted as follows:—Chamby Canton—Ludger Cote elected Mayor, Sylvio Denault, Olivier Benoit and Jacques Benoit, Aldermen.

Chamby Basin—Joseph Trudeau elected Mayor, Vital Billaud, Emile Caron and Pierre Lajeunesse, Aldermen.

Chamby Parish—Alphonse Brunelle elected Mayor, Omer Denault, Oscar Daigneault and Alphonse Jettard, Aldermen.

HABEAS CORPUS WRIT REFUSED

Supreme Court Without Jurisdiction In Application On Behalf Of Roberts

(By Canadian Press)
Ottawa, Jan. 15.—Mr. Justice Anglin decided this afternoon that the Supreme Court was without jurisdiction in the application for a writ of habeas corpus made by John H. Roberts, Montreal editor. "The applicant ruled Justice Anglin, as appears by his petition, is held in custody at Quebec for an alleged offence against the privileges, honor and dignity of the Provincial Legislature of Quebec, and under the authority of special legislation enacted by it. The cause of his commitment is that act of the Legislature. There is in my opinion, no ground whatever for the suggestion that it is in a criminal case under the act of the Parliament of Canada in that short ground I am satisfied that I am without jurisdiction to entertain the present application."

The application was therefore, dismissed, but as is the custom without costs.

John H. Roberts, editor of a Montreal weekly paper and sentenced to one year's imprisonment under act of the Quebec Legislature, was applicant for a writ of habeas corpus before the Supreme Court of Canada today. The case came before Justice Anglin, Roberts being represented by his counsel Armand Lavergne.

The application was opposed by Charles Lanctot, Deputy Attorney General of the Province of Quebec, who argued that the jurisdiction of the Supreme Court in cases of habeas corpus was limited to persons convicted under acts of Parliament.

Roberts, Mr. Lanctot argued was imprisoned by act of the Quebec Legislature.

Mr. Lavergne supporting the application, declared that the Supreme Court had jurisdiction on questions of civil right and therefore had jurisdiction in the present case.

Hearing was adjourned until later in the day when Mr. Justice Anglin will give his ruling as to jurisdiction.

MEMEL CITY IS IN LIMELIGHT

Troop Of Lithuanian Sharpshooters Invaded Town—7 Frenchmen Were Captured

London, Jan. 15.—The insurgents in Memel while originally demanding annexation of the district to Lithuania, now will be satisfied if the German directorate which governs Memel city is removed, according to advices received here.

Memel city is mostly German, but the suburbs are preponderantly Lithuanian, and this section of the population is greatly displeased with the city's administration.

Poland has notified the Allies that she expects them to settle the question, but in view of the present situation in the Rhineland, the Allied Council of Ambassadors is not expected to bring the Memel problem up for consideration very soon.

The Lithuanians have occupied the city of Memel and disarmed the French troops, there, according to a despatch to the Central News.

Frenchmen Captured

Berlin, Jan. 15.—Despatches from Memel report that a troop of thirty Lithuanian franc-tireurs, armed with rifles and machine guns, invaded the town today, occupying the inner city and the French High Commissioner's Bureau.

When the despatches were filed the invaders were attempting to seize other buildings, but the French were still holding a part of the town around their barracks.

A despatch from Tilsit announcing the fall of Memel reports that the Lithuanians captured seven Frenchmen and 15 local policemen and three mine throwers and machine guns.

MISUNDERSTANDINGS THAT HAVE ARISEN ON OCCASIONS

Montreal, Jan. 15.—Sir Robert Falconer, President of Toronto University addressing the Canadian Club here today, discussed misunderstandings that arose during the war and since the armistice. They arose, he said, from the fatal facility for misunderstanding and suggested as a remedy a broader and more generous outlook, both among nations and within the nations themselves. He cited the racial and language difficulties that had from time to time occurred in Canada, declaring that neither Ontario nor Quebec was to blame, but that it was more or less the fault of nationalism in its wider sense.

FRENCH TAX COLLECTIONS MORE THAN FOR 1921

Paris, Jan. 15.—French tax collections and monopolies in 1922 yielded 15,088,000,000 francs, 14 percent more than during the previous year but five and three-tenths percent less than the budget estimate it is announced. The increases were in the customs and business turnover taxes.

UNITED STATES TALKS TO TURKS

Insists On Same Treatment As Turk Nationals In All Matters

Lausanne, January 15.—The United States went on record today

Printed and published by the Quebec Investment Company, Limited, at 9 Buaide Street, Quebec. Subscription: Daily, Town Subscribers, \$4.00 per annum; out of town, \$3.00; Weekly, \$1.50 per annum; payable in advance. Advertisements: 15 cents per space line each insertion.

QUEBEC, JANUARY 16, 1923.

MAYOR SAMSON'S REPLIES.

Certain questions were addressed in these columns yesterday morning to His Worship Mayor Samson with regard to the status of Mr. O. H. Cote, former Industrial Commissioner of the Board of Trade, but although His Worship has vouchsafed what are described as "definite answers" they are about as illuminating as though he had put the conundrum, when is employment not employment?

At the present time Mr. Cote is said to be working on tenders for the new Industrial Palace at the Exhibition Grounds in an endeavor to give the city such information as will enable it to build at the price for which borrowing powers have been asked. This would seem to be normally a problem for an architect or building contractor and Mr. Cote, if we mistake not, is a civil engineer. However, it is said that he is receiving no salary for his services; the arrangement being purely a personal one between the Mayor and himself; and it would therefore be ungenerous to look at a gift horse too closely in the mouth.

In the past Mr. Cote is declared to have rendered valuable services to the city on frequent occasions; specific instances cited being in connection with the breakages to the forty-inch water main and with the Bastien claim for water-rights at Lorette. Mayor Samson might also have cited the Battlefields Park arbitration for encroachment on the property of that body and, in all these cases, it would seem that the city ought to have had sufficient expert advice of its own without taking Mr. Cote away from his duties at the Board of Trade, but once more these services are said to have been gratuitous and we will not examine the mouth of the gift horse too searchingly.

For the future, His Worship professes himself to be anxious to secure Mr. Cote's services permanently for the city and the most cautious critic must admit that a man who is willing to work for nothing is not to be found every day. When he goes on to say, however, that Mr. Cote "has done more than any other one man to further the interests of Quebec" and that "his advice with regard to the possibility of bringing new industries to the Ancient Capital has been invaluable," we must politely ask for further particulars.

So far as the Mayor's statements show anything it is that, while Mr. Cote has been paid by the Board of Trade out of funds subscribed by individual citizens to bring new industries to the city, he has been amusing himself in solving engineering problems for the municipality. It might also be in order to inquire whether the former Commissioner engaged in still further activities, unconnected with his official duties and, if so, whether he likewise derived no revenue therefrom. These considerations apart, we challenge His Worship to prove that Mr. Cote has been able to achieve adequate results in securing new industries or to show that the \$25,000 subscribed and spent for that purpose has not been as absolutely wasted as though it had been thrown into the river.

In this respect we do not blame Mr. Cote too severely for we have never had undue confidence in the efficacy of Trade Commissionerships and we have realized that the past five years have been particularly unfavorable for industrial expansion. At the same time that was the period fixed for the experiment, while Mr. Cote applied for and accepted the position, so that he should be prepared to be judged by results and it would certainly appear that the task was one calling for the devotion of his entire time and energies. Had he served the Board of Trade as successfully as he appears to have served Mayor Samson it is possible that the Industrial Commissionership might not now have been abolished by the Board.

After reading the Mayor's reply the public will be chiefly curious to know what was the affinity between Mr. Cote and himself which induced the latter to give expert services for nothing, for which any other civil engineer would have demanded expert fees. Remuneration may be either prospective or retroactive or both, and His Worship admits that he was anxious to employ Mr. Cote permanently if at all possible, though he does not say what his duties were to be nor what salary the city would have been prepared to pay for them. As Mr. Cote himself avouches that he is not willing to enter permanent municipal service there is, of course, no more to be said but, had it been otherwise, Mayor Samson would still have had to show that the arrangement he proposed to make was necessary and well-advised.

THORNTON'S INCONSISTENCY.

Sir Henry Thornton was doubtless actuated by the highest motives in rescinding the Hanna order and in this, as in every matter connected with the Canadian National Railways, we desire to give his policies fair play and reasonable time in which to justify themselves. On the other hand there is a strange and open inconsistency between his original stand that the C.N.R. should be kept out of politics at all costs and his subsequent statement that every C.N.R. employee should be free to enter politics if he desired to do so.

This is by no means a new issue and the Chronicle does not propose to re-traverse ground already covered at any length, but it is evident that a salaried worker, unless he happens to be resident in the city where it sits, can spend from two to six months of the year attending Parliament or Legislature and at the same time do reasonable justice to the job for which he is drawing his pay. The C.P.R. may not have any ruling on the matter, but we venture to say that if an employee presented himself and were elected, he would soon be invited to choose between his seat and his job. The rule does not exist in other concerns because it is unnecessary and for the same reason.

Of course where a worker absents himself from his job to attend to his Parliamentary duties with the consent of his employer that is a matter between themselves and the business of no one else, but it will be hard for Sir Henry to show that it will conduce either to efficient or to economical operation of the system placed in his charge to have his employees running as candidates or sitting as members at their will. Nor can he now get rid of such employees even although he may find after their election that the work is suffering by their absence at Ottawa or elsewhere. He has given them his permission and his blessing; the consequences are now upon his own head.

But the main fact which is inescapable is that C.N.R. employees are civil servants and that every other civil servant is entitled to the same rights and privileges that they possess. As the Montreal Gazette comments, the National Railway employees may hereafter seek election to public office, Provincial or Federal, without jeopardizing their railway position; such is the new rule; such the method of taking the road out of politics. And why stop with the railway? There

are tens of thousands of civil servants still in thrall, Canadians deprived of the rights of citizenship by a despotic law which makes dismissal from office the price of participation in politics. It was only a few weeks ago that the Dominion Government appointed Commissioners to enquire whether any appointees of its predecessor had committed the high crime and misdemeanor of supporting Conservative candidates, in order that they might be dismissed and place made for friends. There should now be an end to this inquisition, since it will never do to make fish of a railway official and fowl of a canal official. The law prohibiting civil servants from participating in politics should be rescinded at the next session of Parliament, if the Thornton order is to stand; unless, indeed, the Government is to have one rule of conduct for organized and another for unorganized labor.

DISCOVERIES OF 1922.

Some important scientific discoveries were made during the year 1922. Researches carried on in many fields resulted in a large number of valuable additions to the available knowledge of materials, methods, and processes, and in other cases the experimentation is still under way. Among the events of the year in scientific achievement were the following, as listed by a Washington bureau:

Ten years of solar radiation observations were announced and the average value of the sun's heat on the earth is 1.94 calories per square centimetre per minute or enough heat to melt a layer of ice 424 feet in one year.

Professor Sir Ernest Rutherford, of Cambridge, England, announced that he is able to disintegrate the chemical elements, boron, fluorine, sodium, aluminum and phosphorus as well as nitrogen, and to obtain hydrogen from them by bombarding them with the powerful alpha particles of radium.

A new device for sounding ocean depths by sound waves, without the use of the sounding line, was perfected by the United States navy.

A liquid, called furfural, was produced from waste corn cobs at low cost and can be used in making synthetic resins and as a motor fuel, saving the more expensive alcohols and gasoline now used.

Post-mortems of human beings who lived 4,000 years ago were made by means of an examination of Egyptian mummies who were found to have many of the diseases of today.

An extract of the pancreas was isolated at the University of Toronto and this substance, called insulin, when administered to a sufferer from diabetes allows him to eat normal food, thus promising to control this disease which is usually fatal.

An anti-serum to cure the highly fatal Rocky Mountain spotted fever was produced at the Rockefeller Institute for Medical Research.

The true wild species of potato, from which our cultivated potatoes come, was found in the mountains of Northern Ecuador.

The mystery of why a heifer born twin with a bull is usually sterile was found to be due to the action of gland secretions before birth.

It was found that artificial illumination can entirely replace sunlight in growing any common crop plants and weeds and that, as the seed is perfectly normal, it will be possible to grow three generations in a year instead of one by this method.

A platypus, an Australian animal that has the bill of a bird, the fur of an animal, lays eggs, yet suckles its young was brought to America alive for the first time.

The essential oils that cause the fragrance of flowers were found to serve as a protection against extreme heat and chill.

A method of protecting wood from land and water insect damage by treating with paraffin and poisonous salts was discovered.

Writing in the sky by means of smoke sent out from aeroplanes in flight was perfected.

In gliding and soaring contests in Germany, France and England two motorless flights over three hours in length were attained.

Prospecting and mapping by aeroplane came into more general use and was made more accurate.

Researches on the level of water in the great lakes lead to the conclusion that man would have to regulate their level artificially in order to secure their most economical use in power and transportation.

Finding of the Rhodesia skull of pre-historic man during the previous year revived interest and speculation in ancient man. Evidence was presented that man existed before the great ice age, at least 520,000 years ago.

Radio broadcasting of speeches, music, entertainment and news became continental in scope.

Dr. D. B. MacMillan returned from his expedition to Baffinland bringing important geographical, magnetic and other scientific data.

Capt. Roald Amundsen and his expedition left on the schooner Maud for a drift across the Arctic ocean.

The discovery of an archaic pyramid in Mexico indicated that human history in America began as early as the primitive civilizations around the Mediterranean.

Five Mayan cities abandoned hundreds of years ago were discovered in the forests of Yucatan and Guatemala.

A rich collection of utensils and adornments was discovered in the tomb of King Tutankhamen, in the Valley of Kings, near Luxor, Egypt.

A Verse Or Two

AFTER A SNOWSTORM.

They are not fair, the city knows— Her brick fronts set in endless rows.

Stark, weatherbeaten, dingy lanes Of brick walls, sodden after rains.

But in their Cinderella dress They stand forth in veiled loveliness.

An east wind blows; the light snow sifts Night-long in whirling gusts and drifts;

By morn a snow mantle clings Upon unloved, unlovely things.

And nothing lovelier could be Than those brick fronts etched frostily.

Roofs, windows crowned with drifts of white, White sills where sparrows fed, last night!

Against the dull face of the brick Caressing flakes cling, white and thick.

"Dear ugly walls," they seem to say, "We've come to make you fair to-day!"

Frances Crosby Hamlet, in Christian Science Monitor.

Press Comment

A WELL-QUALIFIED PHILOSOPHER. (Minneapolis Journal.)

Dr. Nicholas Mironovitch Butler, of Columbia, declares that journalism is a vice. The doctor has been reading some of our contemporaries.

WE MUST HAVE MORE POPULATION

Is A Matter Of Vital Importance To West, Says Thornton

Calgary, Jan. 15.—"We must have more population," remarked Sir Henry Thornton, to a representative of the Canadian Press during a few minutes' lull between receiving deputations this morning. "That is a matter of vital importance to the West."

In reply to a question he said he had no criticism to offer of the system that had been employed in the past in securing settlers, and could not say what the future plan would be. He intimated, however, that one or two experts connected with the Canadian National were at the present time studying the whole matter and it was hoped before long that something constructive would be offered.

There was no doubt, said Sir Henry, that there would be a large immigration from the Old Country if it were reiterated that it was his hope that some of the more satisfactory plan would be evolved of taking care of the settlers better than had been done in the past.

Policy Made Clear

The policy of the Canadian National Railways regarding the extension of branch lines was made clear by Sir Henry Thornton when several delegations of farmers waited upon him in Calgary this morning. The position is that the National Railways has only a certain amount of money, that it would be impossible to complete all branches in one year and that the policy will be to collect all the information possible and to render assistance where relief was most urgently needed.

As soon as possible a definite program would be announced.

The President stated that it was not proposed to adopt a "dog in the manger" policy if any other railway, such as the Canadian Pacific Railway, was prepared to afford a measure of relief. "Our policy will be to do the maximum amount of good for the maximum number of people. In the long run we feel convinced that much more will be accomplished by this than by the pursuing of a narrow minded policy," said Sir Henry.

Assistance to the port of Vancouver in obtaining additional grain elevator service from the Canadian National Railways may have to wait until the farmers in western Canada obtain better service in getting their grain to market, according to Sir Henry Thornton, President of the Canadian National Railways who arrived in Calgary Sunday. He will address the Calgary Board of Trade at noon today and will leave later for Edmonton.

Duty Affords No Protection

Drumheller, Alberta, Jan. 15.—Speaking at a luncheon given Sir Henry Thornton by the Drumheller Board of Trade Sunday, Jesse Gough, Vice-President of Western Canadian Operators' Association, in a discussion on wider markets for Alberta coal, advised elimination of the Canada import duty of fifty-three cents a ton on lignite coal. This duty, he said, afforded no protection to the Canadian industry and suggested that through coal trains, with commensurately reduced freight rates, might help to establish Alberta coal in the Ontario market in competition with American.

Yes, the burdens are fairly well distributed between the sexes after all and we'd soon as soon crank the Ford as the eggbeater.—Columbus, Ohio, State Journal.

The throat, breathing passages and lungs are the weak spots at which colds strike. And these are the very organs most difficult to treat. Because only a breathable remedy is capable of reaching the troublelodged there. Peps provide a breathable remedy, and their superiority over remedies which are swallowed into the stomach is therefore obvious. For convenience, this breathable remedy is condensed into tablet form. To take the treatment, merely dissolve Peps in your mouth, and the medicinal vapor that is released is carried by the breath to the remotest parts of the breathing passages and lungs, healing, soothing and strengthening every part with which it comes in contact. At the same time, by destroying all disease germs, these medicinal fumes prevent the development of colds, coughs and serious chest trouble. Carry Peps with you, and when you go from an overheated building to the bitter cold outdoors, put a pastille in your mouth. Also as a protection against germs, keep a Peps in your mouth, when breathing the impure air of a crowded theatre or store. For colds, asthma, or chest troubles, which have already developed, Peps are usually invaluable. Also for bronchitis, sore throat, laryngitis, etc. All dealers, etc. box.

This Laxative Works Fine on Old People

Thousands have kept themselves healthy with Dr. Caldwell's Laxative Syrup Pepsin. ADVANCING age with its subdued ambitions and strivings could be made very happy if only good health accompanied it, and the basis of good health, as everyone learns upon reaching the age of 60, is the regular daily movement of the bowels. If it can be effected through the food you eat, the water you drink and the exercise you take, so much the better. But if nature will not operate it must be assisted or sickness will follow. Neglected constipation causes the blood pressure to go up 25 per cent, and that is the forerunner of hardening of the arteries. It makes rheumatism and gout worse, too.

The ideal constipation remedy for people of advancing years is Dr. Caldwell's Laxative Syrup Pepsin, a vegetable compound of Egyptian senna and pepsin with pleasant-tasting aromatics. It is gentle and mild, and does not cramp or gripe. It is a mistake to think you need a violent salt or powder or pill, calomel, coal-tar drugs and such things. They purge and weaken you, and their reaction tends to make you more constipated than before.

Now try the milder method. Dr. Caldwell's Laxative Syrup Pepsin does not lose its good effect with repeated use, and increased doses are unnecessary. Mrs. Ellen Laird of Pictou, N. S. who is 87, keeps herself in good health with it, and Mr. Chas. N. Nicholas of Winnipeg, Man., finds it both helpful and beneficial, and everything that can be desired from a laxative standpoint. Use Dr. Caldwell's Laxative Syrup Pepsin yourself the next time you suffer from constipation, biliousness, headache, sleeplessness, indigestion, piles or night cramps. Many thousands of elderly people use nothing else, and it costs them less than a cent a dose. Druggists have sold it successfully for 30 years, and it is the most widely bought family laxative in the world.

Take Dr. Caldwell's Laxative Syrup Pepsin. The family remedy.

HAVANA-SANTIAGO AIR SERVICE IS PLANNED.

Berlin, Jan. 15.—(Can. Press).—Two aeroplanes with aluminum bodies have just been shipped to an aircraft firm in Havana for the inauguration of a regular air service between Havana and Santiago de Cuba. These machines are giant hydroplanes of the Junker type. Each plane is built for five passengers in addition to the pilot and mail. The German promoters expect to make the trip of 600 miles between the two points in about six hours. The same firm it is stated are establishing a service between two of the main cities of Columbia and intend eventually to include Mexico, Haiti, Santo Domingo and Jamaica in their sphere of operations.

WOMAN, grammatically speaking, is not a part of speech; she's the whole oration.

Nerves So Bad That She Would Sit and Cry

Mrs. Mary Hocking, Madoc, Ont., writes:—

"Dr. Chase's Nerve Food has done me a wonderful lot of good. I suffered from general weakness and was so run down and my heart and nerves were in such bad shape that I would sit down and cry and not know what I was crying about. I also used to have weak spells. Thanks to Dr. Chase's Nerve Food, however, I am real well now. I shall always keep a box of the Nerve Food in the house, and recommend them to my friends; they are a wonderful medicine."

(Mr. J. W. Vince, Druggist, of Madoc, Ont., says: "I have sold Mrs. Hocking your Nerve Food, and the medicine has done her much good.")

CITY TREASURER'S OFFICE.

CITY HALL Quebec, Jan. 9th, 1923.

NOTICE TO PROPRIETORS.

All tax bills for proprietors for the current year (1922-23) which have not yet been paid will be handed to the Recorder's Court on February 1st for procedures. (Sincerely) P. N. VERGE, City Treasurer. Jan1031

CITY CLERK'S OFFICE

CITY HALL Quebec, 2nd January, 1923.

PUBLIC NOTICE

is hereby given that, pursuant to the provisions of the law two alphabetical lists, one of the persons qualified to vote at the municipal elections for Aldermen for seat No. 1 in each ward of the city, and the other for persons qualified to vote for Mayor and Aldermen for seat No. two in each ward of the city, shall be deposited in the office of the undersigned on the SECOND DAY OF JANUARY, 1923, and will be communicated to whomsoever shall apply for them, every day beginning said second day of January, 1923, to the TWELFTH DAY OF JANUARY, 1923, from NINE O'CLOCK IN THE MORNING TO FOUR O'CLOCK IN THE AFTERNOON. The said lists shall, during the said period, be shown to any person making application therefor, and every elector who may wish to apply for the insertion or for the correction of a name in any of the said lists, or for striking a name therefrom, shall do so within the delay fixed by law for so doing. All claims or demands in relation to any names being added to or corrected or erased from the said lists must be filed in the office of the City Clerk, on or before four of the clock in the afternoon of the SIXTEENTH DAY OF JANUARY, 1923, being the day appointed by law, as final, and after the said day, no claim or demand will be received by the said City Clerk. Printed blank forms for complaints may be had by applying at the City Clerk's office during office hours. By order, H. J. B. CHOINARD, City Clerk. Jan1016

DESCHAMPS WON; SHERBROOKE HERE TOMORROW

DESCHAMPS WAS AWARDED THE DECISION OVER DUBE IN FAST TEN ROUND BOUT LAST NIGHT

Contest Was About The Best Seen Here In Long Time—Newton Put Mitchell Away In The Sixth—McNaughton Knocked Out Burke In The Opening Round

Oscar Deschamps, the Montreal lightweight, was awarded the judges' decision over Kid Dube of Lewiston, Me., in the feature bout on the card staged by the Quebec Sporting Club at the Imperial Theatre last night. The fight was fast and furious throughout and turned out to be the best contest witnessed in this city for some time. Deschamps had the better of four rounds, two went to Dube while the remaining four were even.

Deschamps went into the ring determined to have a knockout but soon found that he was up against an opponent who could take his hardest blows on his jaw or body without showing any signs of distress. Deschamps concentrated his attack for the first two rounds on his opponent's head but changed his attack to the body after the third round. In this round the Montrealer rained in blow after blow to Dube's face though all the effect they had was to make Dube stick out his face for Deschamps to hit at.

Dube made a fine showing against the clever Montrealer and had him missing on numerous occasions by clever dodging. He went after Deschamps from the opening bell and devoted his attack to the body, getting in many blows that made the Montrealer step back on numerous occasions.

Deschamps had the better of the first round and sent in three right crosses that landed flush on Dube's jaw. The second round was Dube's, the Lewiston boy getting his opponent as he was rushing in with hard body punches. Deschamps during this round seemed unable to solve his opponent's defence and was continually looking to his corner for instructions.

The third round was Deschamps' from the outset, the Montrealer sending in blow after blow to Dube's face without a return. However, the blows did not seem to bother Dube as he laid on the ropes and stuck out his face for Deschamps to hit at. In this round Deschamps opened a cut over Dube's left eye which bled profusely throughout the remaining rounds.

The fourth and fifth rounds were even both scrappers having a fair exchange of punches. Deschamps won the sixth round while the honors for the seventh went to Dube. In the sixth Dube struck Deschamps low but the latter refused to claim a foul. Deschamps was again fouled in the seventh though once again he refused to take the opportunity to claim the right on a foul. The eighth round went to Deschamps while the remaining two rounds were even. The boys put up a great struggle and were heavily applauded by the crowded house. The weights announced were Deschamps 135½, Dube 133½, Mitchell 140, and Burke 137½.

The semi-final which brought together Kid Mitchell of this city and Chris Newton of Toronto ended in the sixth round when Mitchell went down for the count.

Honors in this scrap were pretty even to the end. Mitchell had a slight edge in the second, Newton took the third while the remaining rounds to the sixth were even. In the sixth Newton waded into his opponent with both hands and a right to the stomach sent Mitchell down for the count of nine. Newton went after the Quebecer as he arose and another blow to the same spot put Mitchell in dreamland. Mitchell fought the six rounds with one hand, his left, and on the showing of both boys on the night the honors would have been reversed had Mitchell not been handicapped. Mitchell's right hand, which was poisoned some time ago went wrong again while in training Saturday. Newton, who is a former Olympic champion, substituted for Sarazen of Hull who was unable to appear. Newton weighed 136½ and Mitchell 137½.

Another K.O. for Mac. In the six-round bout Young McNaughton of this city knocked out K.O. Burke of Toronto after two minutes and a half of fighting in the first round. McNaughton forced the pace at the outset and a left to the jaw put Burke hors de combat. Young Guilmette was awarded the decision over Willie Allen in the four-round preliminary.

Albie Lynch refereed the four bouts while the judges were Ed. McDermott, Sr., and A. Coveny.

WELTERWEIGHT CHAMP SCORED KNOCKOUT. Philadelphia, Jan. 15.—Mickey Walker, of Elizabeth, N.J., welterweight champion, knocked out Steve Latzo, of Hazleton, Pa., in the third round of a scheduled eight-round bout to-night. Walker carried the fight to Latzo throughout the short but terrific bout. A series of heavy body punches and a hard left to the jaw finished the Hazleton fighter.

PHILADELPHIA SIGN PITCHER. Philadelphia, Pa., Jan. 15.—Manager Arthur Fletcher of Philadelphia Nationals today announced the signing of Patrick Ragan, veteran pitcher, as utility hurler and coach. Ragan formerly was a member of the Brooklyn, Boston, and other National League teams.

WANT NO GOLF PLAYED ON SUNDAY. Winnipeg Jan. 15.—Denouncing Sunday golf as an evil, the Lord's Day Alliance today went on record as being opposed to the continuance of the sport on the Sabbath. The city came in for a special attack for permitting the game to be played on the municipal course on Sunday.

THAT conference of Premiers resolved to stick together "until death do us part."

MILITARY INDOOR RIFLE LEAGUE

Voltigeurs De Quebec By Victory Last Night Assume Leadership Of League

The rifle team of the Voltigeurs de Quebec went into the undisputed lead in the Quebec Military Indoor Rifle League by winning their match against the 22nd Regiment, while the Royal Rifles of Canada were being defeated by the 6th C.G.A. The defeat of the Rifles marked their initial loss so far this season while Voltigeurs have yet to taste defeat. In the other matches scheduled R.C.E. won from 67th C.F.A. and R.C.A.V.C. was awarded their contest with 5th M.G.B. by default.

Sergt. Todd and Sergt. L. E. Chabot were the high scorers of the evening with marks of 92 each. Following are the teams and scores:

HIGH SCORES IN NATIONAL LEAGUE

Laval-Amateurs Defeated The Q.S.A.C. 8-2 — St. Louis Won From St. Charles 9-6

The final games of the first half of the National Hockey League schedule were played at the Arena last night and resulted in Laval-Amateurs, first half champions, defeating the Q.S.A.C. by a score of 8-2 and St. Louis winning from St. Charles by a 9-6 count. A crowd of about two hundred spectators attended the games.

The opening contest which brought together Laval-Amateur and Q.S.A.C. was Laval's after the first couple of minutes of play, the Laval players experiencing no difficulty in getting by the scratch team presented by the Swimmers who were without the services of Price, Zinec and Genereux, three of their regular players. Laval tallied six goals in the first period, one in the second and their final one in the third. The Swimmers scored their both goals in the second.

The St. Charles-St. Louis contest was the best exhibition of hockey witnessed in this League this winter. Both teams played excellent combination and it was mainly through this reason that the score on both sides went up so high.

Following are the teams: Laval-Amateur Goal, McWilliam Point, A. Scott Bedard C. Point. C. Cantin Hall Dubois Rameay Beaumont Jacques Patry McGibbons Substitutes

UMPIRE CLEARED OF ALL BLAME

Ollie Chill Former American League Official Exonerated Of Murder Charge

Cleveland, Ohio, Jan. 15.—Ollie Chill, veteran American League umpire, was exonerated from all blame in connection with the murder of Edward J. McGregor, 26, who was shot to death during a drunken brawl late Saturday night in an apartment house, in an alleged confession made by George C. Rodi late today.

Chill and Robert J. Burke, a local contractor who with Rodi were found in the apartment were released from custody, and Rodi was charged with first degree murder. The police say that Rodi admitted he had shot McGregor after the latter had fired two shots at him.

DEFENDERS KEEP BOSWELL SHIELD

Score Fifth Consecutive Victory In Retaining Trophy At Victoria Club

A very closely contested Boswell Shield match took place last evening at the Victoria Curling Club between rinks skipped by A. E. Scott and F. J. Home, Defenders and Challengers respectively. The game was one of the most stubbornly fought affairs seen this winter on the ice of the Club, and the score, fourteen points in twelve ends, is an indication of how keenly the game was played.

Scott's rink won the game, and incidentally it marked the fifth consecutive victory for the Defenders, a record that will take a lot of beating. The Defenders secured eight ends out of the twelve, while the Challengers captured four ends, scoring a point in each.

The rinks and scores:	
Defenders	Challengers
A. R. Van	E. C. Smith
R. F. Lindsay	A. Laurie
J. Brodie	A. W. Colley

VICS TRIMMED ST ANN'S: NATIONALS BEAT SHAMROCKS. Montreal Jan. 15.—In the Montreal City Hockey League fixtures played here tonight the results were: Victoria defeated St. Ann's by 5 to 2, and Nationals won from Shamrocks after twenty minutes overtime by 2 to 1.

ST. AMAND AND DELANY WINNERS

Two Contests Played At Quebec Curling Club Last Evening—Keen Curling

Two Grade games were run off last evening on the ice of the Quebec Curling Club, one of them being in Grade B and the other in Grade A. In the former the quartette skipped by T. J. Delany scored an 11-4 victory over the four led by J. D. Sutherland in ten ends of interesting curling, while in the second game of the evening E. St. Amant's four just noosed out the warriors headed by John Thomson by one shot in twelve exciting ends. The game was a ding dong affair all the way through, first one rink securing a lead and then the other, until the final end had been played when it was discovered that Thomson was one short of his opponent's count.

The rinks and scores:	
Grade B, Section 1.

HALPIN CIRCUIT ALL SET AGAIN

Provincial Hockey League Drew Up Three Team Schedule Last Night

The opening game in the second half of the Provincial Hockey League schedule which will be completed with three teams, will be staged Friday evening, January 19 at the Arena when La Tuque comes here to play Sons of Ireland. This was decided last night when the schedule was adopted at a meeting held at the residence of the President, Roy Halpin. Sons of Ireland were represented at this assembly by A. Maranda and Jimmy Loneragan, La Tuque by W. Gilman and Chicoutimi by R. E. Joron.

The franchise of the Three Rivers was declared forfeited owing to their failure to complete their scheduled games and their guarantee of three hundred dollars was ordered divided between the three teams now in the League, Sons and Chicoutimi to receive \$120.00 each while La Tuque receives \$60.00. The division was made in this manner as Three Rivers have played their scheduled games at La Tuque while they have only fulfilled on engagement with Sons and Chicoutimi, thereby forcing Sons and Chicoutimi to be the losers of the receipts of one home game. The schedule was the next item of business and this took some time to decide owing to La Tuque requesting that all their home games be played on a Sunday. However, it was pointed out that it would be

practically impossible to provide La Tuque with Sunday dates and wind-up the schedule in time to play in the Allan Cup elimination series. The La Tuque delegate finally decided to accept to play one game during the week in La Tuque. This game will be played on the 24th and Sons will be the visiting team. The schedule for the second half is as follows: January 19—La Tuque at Sons of Ireland. January 21—La Tuque at Chicoutimi. January 24—Sons of Ireland at La Tuque. January 28—Sons of Ireland at Chicoutimi. February 2—Chicoutimi at Sons of Ireland. February 4—Chicoutimi at La Tuque. February 7—La Tuque at Chicoutimi. February 9—La Tuque at Sons of Ireland. February 11—Sons of Ireland at La Tuque. February 13—Sons of Ireland at Chicoutimi. February 15—Chicoutimi at La Tuque. February 20—Chicoutimi at Sons of Ireland.

SHERBROOKE TEAM HERE TO-MORROW. The Sherbrooke hockey team, of the Province of Quebec Hockey League, will be here to-morrow evening to play Quebec in a scheduled league fixture at the Arena. The Quebec team put up a great fight against the reinforced Lavolette team in Three Rivers on Sunday, only losing out by one goal, and are quite confident that they will come out on the long end of the score with Sherbrooke. La-combe, the Three Rivers goaler, has been signed on by Quebec and also Charbona, a sterling defense player. Both these players will be out to-morrow evening.

LOSSES OF ONE TO THREE POINTS QUITE COMMON

SPECULATORS FOR DECLINE STAGED AN ASSAULT UPON YESTERDAY'S STOCK MARKET

Operators For Advance Made Two Unsuccessful Attempts To Rally List—First By Bidding Up Steel Stocks And Then By Brisk Buying Movement In Railroad Shares

New York, Jan. 15.—French occupation of additional German territory with reports of a more threatening attitude on the part of the inhabitants provided speculators for the decline with an excuse for an assault on today's stock market, losses of one to three points being quite common among industrial shares and specialties. Operators to the advance made two unsuccessful attempts to rally the list first by bidding up the steel stocks and then by a brisk buying movement in railroad shares, but they eventually abandoned their constructive efforts.

Convinced that the technical condition of the market warranted a reaction, the Bear interests began offering stock freely around the end of the first hour and prices began to sag throughout the list. Industrials and specialties which had taken a prominent part in the recent upward movement were the hardest hit, the reaction in these shares being accelerated by profit taking on the part of recent buyers.

Baldwin fluctuated with a range of 3 1/4 points, closing at 132 1/4 for a net loss of 2 1/4. Studebaker dropped below 114 for a net loss of 2 1/4 points. Other prominent industrials and specialties recorded net losses of two to three points.

Southern Railway was one of the features of the short lived rally in the railroad group, getting as high as 28 1/8 and reaching at the close to 27 3/4. Buying in this issue was based on reports that the road would show earnings of nearly \$4 a share on its common stock for 1922. Special weakness again cropped up in New Haven, which got as low as 18 1/4, but rallied at the close to 17 7/8. Steel shares also forfeited their early gains. United States Steel got as high as 107 3/8 but yielded to 105 3/4. Crucible and Republic each registered net losses of more than a point. There were a few exceptions to the downward trend. Anaconda closed at 49 7/8, or 1 3/8 points above Saturday's close, late buying being based on reports that the terms of the Anaconda-Chile merger would be announced after the market closed. The usual "selling on the good news" followed the announcement of a 20 per cent. stock dividend by the Endicott Johnson Corporation, the stock closing at a net loss of 1 1/4.

Marine preferred dropped to 40 7/8, its lowest point since 1922. Foreign exchanges were weak. Demand sterling dropped to \$4.86 3/8 or more than two cents below last week's high. French franc dropped more than 15 points below 4.80 cents and German marks made another extreme low record, being quoted at 72-100th of a cent, or about 18,700 to the United States dollar.

The day's total sales were 1,235,000 shares.

Fresh complications in the German Reparation situation combined with a decided reaction in foreign exchange rates induced extensive selling of foreign bonds in today's market the general list displaying irregularly with losses outnumbering the gains.

The decline in foreign securities was conducted in an orderly manner. Dominican Republic 5 1/2s, lost 2 points and Seine 7s, 1 3/4, while Italian 6s, Brazilian 7s, Bolivian 8s, State of Sao Paulo 8s, French 5s, Marcellite 6s, Paris-Lyon-Mediterranean 6s, Francher 7s, 1 1/2s, Serbian 8s, and Prague 7 1/2s, yielded a point each.

Except for gains of four cents on liberty 3 1/2s and 8 cents on the third 4 1/4s, all the active United States government securities showed losses of 2 to 6 cents.

The chief features of the railroad group were a break of three points in New Haven 6s, weakness of Erie and Northern Pacific issues and further recovery in St. Paul bonds.

Chile Copper 8s, off 2 and Marine 6s, off one, were the weak spots of the industrial group.

Total sales, par value, were \$9,944,000.

Good absorption was reported in the \$50,000,000 Cuban 5 1/2 per cent. bond issue which was put out at 99 1/4 to yield over 5.55 per cent.

VOLUME OF TRADING WAS LIGHTEST IN OVER TWO MONTHS AT MONTREAL

Fairly Strong Tone Prevailed—Spanish Common Only Soft Spot Among Papers—Also Proved Weak Feature Of Whole List—Thirteen Issues Made Gains

Montreal, January 15.—Volume of trading in listed shares on the local stock market today was the lightest in over two months, but a fairly strong tone prevailed. Spanish common was the only soft spot among the papers and also proved the weak feature of the whole list, closing at 95 1/2 for a net loss of 1 1/2. Thirteen issues made gains ranging up to 2 1/2 points, against four stocks declining.

The greatest advance of today was recorded by Howard Smith preferred which closed 2 1/2 points up at 102. Of the other papers, Abitibi was up 1 1/2 to 67 7/8 and Spanish preferred was unchanged at 105. Brompton which led the whole market in activity also closed unchanged at 39.

Brazilian came second in market activity and advanced 1 1/2 at 44 1/2. Montreal Power was third and was up 1 1/2 at 103 1/2.

Other price changes took in Bell Telephone, up 3/4; B.E. Steel, off 3/4; Canadian General Electric, up 1/2; Canada Steamships preferred up 1/4; Canadian Woolfens, preferred, off a point; Smelters off 1/4; Dominion Iron preferred up a point; Mackay up 1/2; Quebec Railway, up 3/4 and Shawinigan up 1/2.

Bank stocks continued to show the strength that had characterized them for the past few weeks. Bank of Commerce advanced 2 points to 200 and Royal Bank advanced 1 3/4 to 222.

Trading in bonds was fairly light with a continuation of the upward trend in prices in this section of the trading.

Total sales listed, 3,823; bonds \$104,306.

Daily Gossip On Leading Stocks

(Special to The Chronicle)

The revenue of the Dominion of New Zealand for the nine months ended December 31st, shows an increase of \$84,340 as compared with the revenue for the corresponding period in the previous year. The expenditure for the same period last year shows a decrease of \$2,645,930.

At the Department of Lands and Forests, the Roridon Company is now reported to be in an excellent financial situation as compared with a year ago. Less than 12 months ago the firm owed due to the department which was said to reach \$127,000, which was guaranteed by notes. These notes were renewed a few times and now it is learned that they only amount to a total of \$50,000 due to partial payments. The company has been paying cash new dues. The activity reigning in the lumber business since a few months is credited for that improvement in the financial condition of the Company.

Stocks are fluctuating very irregularly with a slight downward trend, but without signs of important liquidation.

Respective reactions which may develop, underlying economic factors, especially the plethoric money supply, forecast that the long range trend of prices is upward.

The investment market is displaying vitality, but price changes are negligible.—(Standard Trade Statistics.)

Total net debt of Canada increased \$20,800,333 during December, and now stands at \$2,412,496,151.

In some quarters on the Street, the question "Is Steamships decline deliberate manipulation?" is being asked as rumour has it that two houses are accumulating the stock and at the same time are bearish on the issue.

Financial Service, Limited, has carefully investigated the situation, and is of the opinion that the weakness is purely the result of the working of the law of supply and demand.

Someone is selling their holdings on a quiet market, and the demand is not sufficient to absorb all the offerings, and hold up the price. Just how much will be sold at these prices remains to be seen. One large holder whose name was mentioned as having been selling, is understood not to have sold at all so that other sources have to be looked for.

It is stated that some pending changes in the personnel of the heads of one of our active financial houses may have something to do with the selling.

This "Service" has been advised from reliable sources that far from trying to bear the issue, it is being recommended by some of the houses interested therein. That being the case, it would appear foolish to talk of its being manipulated.

Syndicate headed by J. P. Morgan & Co. submits highest bid of 98.77 for 30-year \$50,000,000 5 1/2 per cent. Cuban bonds and award expected shortly.

New Issue

\$750,000

The Donnacona Paper Company, Limited

6% First (Closed) Mortgage Bonds	\$3,000,000	
Less: Sinking Fund	44,500	2,955,500

THE COMPANY

The Donnacona Paper Company, Limited, operates successfully a large newsprint paper mill at Donnacona, Que., at the junction of the Jacques Cartier and St. Lawrence Rivers. Present annual output 42,000 tons groundwood pulp and 18,000 tons news sulphite pulp, used in the annual production of 30,000 tons newsprint paper. Proceeds of these Bonds will be used to complete construction by January 1st, 1924, increasing output of newsprint paper to 60,000 tons per annum.

SECURITY FOR BONDS

Bonds are a first mortgage on mill properties (including new construction), timber limits, water powers, etc., having a total value of \$6,785,338, equivalent to over \$2,300 per \$1,000 Bond. Company's freehold and leasehold timber lands, situated adjacent to the Jacques Cartier and St. Lawrence Rivers, aggregate 595,440 acres and contain approximately 4,525,000 cords of spruce pulpwood. Water powers owned by the Company have a capacity of 24,000 h.p., of which 7,000 h.p. is in operation. Net working capital, after deducting current liabilities, as at November 30th, 1922, without including the proceeds of this issue, \$1,670,202, equivalent to over \$550 per \$1,000 Bond.

EARNINGS

Certified annual net earnings, available for interest, etc., three years 1919 to 1921 inclusive, were \$1,128,310, over six times Bond interest requirements. Net earnings for year ended December 31st, 1922 (December estimated), available for interest, etc., are estimated to be not less than \$800,000, as compared with annual Bond interest of \$177,330.

We recommend these bonds for safe investment at—

Egg Market

Ottawa, Jan. 15.—The egg market remains practically unchanged. The undertone is a little weaker on account of heavier receipts of fresh eggs and the price of United States fresh can be laid down in Toronto and Montreal. A shipment of 500 cases of dressed chickens was reported as having gone forward to Great Britain from Montreal. Toronto unchanged. Montreal specials 55c to 58c; storage extras 45c; firsts 40c; seconds 35c.

SEVERAL FIVE HOUR TRAINS TO MONTREAL

via CANADIAN PACIFIC.

Compartment Cars on Night Trains

With trains leaving Quebec, Palais Station, 9.00 a.m., except Sunday, 1.30 p.m., daily, 4.40 p.m., daily except Sunday, and 11.55 p.m. daily. Canadian Pacific offers a most convenient and unexcelled service to the Metropolis. Eastbound Canadian Pacific service offers four trains on week days and three on Sundays. Day trains carry first and second class coaches, as well as dining and observation parlor cars. In addition to first and second class coaches and ordinary sleeping cars, night trains are equipped with the popular compartment sleeping cars. To business men and tourists who prefer the night travel as an economy of time and the additional privacy, the compartment sleeping cars are specially recommended for the convenience and comfort they add to the trip. Tickets and sleeping car accommodation can be secured at 30 St. John Street, phone 93; Chateau Frontenac, phone 1840; Palais Station, phone 662. C. A. LANGEVIN, City Passenger Agent.

NOWADAYS, "When a love affair goes wrong, it's usually the woman that pays," remarked the professor. "Not if she hires a good breach-of-promiss lawyer!" chuckled the cynic.

BUADE STREET

JAP SHIPBUILDERS WIN FIGHT FOR COMPENSATION

Yokohama, Jan. 15. — Japanese shipbuilders have won their fight for compensation from the government for losses they incurred as a result of cancellation of ship contracts brought about by the Washington conference. It is improbable that the yards will receive the entire sum originally asked for—about \$30,000,000—but the government has held several secret sessions at which the matter has been discussed, and it is probable that a substantial amount will be included in the supplementary estimates to partially meet claims of the shipbuilders. Japanese shipyards are expecting to profit to some extent by the decision of the major shipping companies to convert many of their large vessel into oil burners. The Mitsui Bussan Kaisha has decided to build three Diesel equipped ships of 9,000 tons deadweight, and the Kawasaki yards are about to build three oil-burners of 9,700 tons. The Nippon Yusen Kaisha is arranging for conversion of its Japan-New York freight carriers, it being found that oil can be secured much cheaper than Kyushu coal, which has been burnt extensively by Japanese ships in the past.

EVEREADY SAFETY LIGHTS

The light that says "There it is!"

LOOK out for that tack!!

Don't let the dark trip you. Don't stumble over a chunk of night. Don't trip on a chair wrapped in blackness. Don't fall victim to the garden rake; or the baby's tin soldiers that lie in wait for your bare feet.

Don't flirt with fickle night. Go where you want to and get what you go after, and do it decently.

Take an EVEREADY into the night—and make things easy. You'll need it before bed-time.

VERDUN TEACHERS TO FIGHT SALARY CUT.

Montreal, Jan. 15.—Absolute refusal to consider or submit to any reduction in salaries was the stand unanimously adopted by the teachers of the Protestant schools of Verdun at a meeting held there this afternoon. A formal resolution was adopted embodying this sentiment and pointing out that the teachers in Protestant schools in Verdun were receiving smaller salaries than those of other municipalities on the Island of Montreal.

ASPIRIN

ENGINEER MAKES 17 POUNDS GAIN

Old Time R.R. Man Says Tan-lac Put Him Back On Job Feeling Fine

John Denne, a veteran railroad man, living at 53 Forest Ave. St. Thomas, Ont., has obtained remarkable results from the use of Tan-lac. Mr. Denne wears a gold button given him by the Michigan Central, in recognition of his forty years continuous service to that road.

"A year ago," said Mr. Denne, "I was all down and out. I had indigestion so bad I couldn't eat and was too nervous and miserable to sleep. I was almost wild with headaches and dizziness, lost weight rapidly, and though I was about done for. After getting so weak I couldn't work I took a trip out West, thinking the change might help me.

"But I kept getting worse until my sister, whom I visited in Kallispell, Montana, got me to try a bottle of Tan-lac. In a week's time I was a different man, so I got more Tan-lac and kept on improving. In seven weeks I had gained seventeen pounds and returned to my work in as good health as any man in St. Thomas. I never have any of my old troubles now. That's just how good a job Tan-lac has done for me."

Tan-lac is for sale by all good druggists. Over 35 million bottles sold.

WISH AMENDMENTS TO THE BANKRUPTCY ACT

C.M.A. Calls Meeting Of Commercial Organizations For Thursday Next

Montreal, Jan. 15.—As a result of a questionnaire recently issued to all manufacturers of the province of Quebec asking whether they favor the present Dominion Bankruptcy Act and what suggestions they have for its amendments, the Canadian Manufacturers' Association have called a meeting of the various commercial organizations of this city to be held here next Thursday. The object of the meeting is also it is stated to find some common ground upon which all organizations and Trade Associations can combine in approaching the Dominion Government during the next session of Parliament with a view to asking amendments to the act calculated to prevent the flagrant abuses said to exist in its administration in this province.

ARGENTINA'S CORN CROP HURT BY LOCUST INVASION

Buenos Aires, Jan. 15.—Four percent of Argentina's corn crop has been destroyed by a vast invasion of locusts according to a report issued by the Department of Agriculture. The Department says the damage done to other crops is not yet known, but it is believed to be less serious.

Shoe Factory Changes.

Mr. H. W. Polley has sold his factory and plant on St. Joseph street to Mr. Ernest Woodley, who will continue the business. Mr. Polley has purchased Mr. J. H. Botticelli's factory at the corner of St. Valer street and Boulevard Langeller, and will conduct his business at the new stand.

Fashionable Wedding.

Mr. Neuville Belleau, who was married on Tuesday last to Miss Alphonsine Tardif de Montigny, is the grand nephew of the late Sir Narcisse Belleau, and son of Dr. A. G. Belleau, of this city. Miss Tardif de Montigny is the daughter of Major de Montigny, Prothonotary of the District of Two Mountains. The ceremony was a very pretty one and the nuptial knot was tied by the Rev. A. A. Labelle, Parish Priest of Aylmer. Only relatives and intimate friends were invited to the ceremony, and amongst those present were Dr. and Mrs. Belleau and family, Mr. E. B. Devlin, of Montreal; Mrs. C. R. Devlin, sister of the bride, and Mr. C. R. Devlin, Canadian Commissioner in Ireland. The last named gentleman left for Ireland immediately after the ceremony. The happy couple will stop at the Chateau Frontenac for several weeks after their wedding trip, previous to leaving for Europe.

MURDER AND SUICIDE ACCOUNTED FOR TWO

Father Killed Son And Then Turned Revolver Upon Himself

Lethbridge, Alberta, Jan. 15.—Murder and suicide accounted for the death of Edwin Worth, 29, and his father, Charles H. Worth, 55, miners at Bellevue, during the past thirty-six hours.

Police investigating the disappearance of the men, broke into the house. While doing so a shot was heard and when entering they found the father lying unconscious with a smoking revolver in his hand, and the son dead, upon the bed. The son had been shot through the temple and appeared to have been dead about twenty-four hours. The father was removed to a hospital at Blairmore where he died last evening. Domestic trouble is held responsible. Worth senior was separated from his wife.

RHEUMATISM PAINS ARE NOW IN SEASON

Says glass of Salts helps to overcome Rheumatism acid.

Rheumatism is easier to avoid than to cure, states a well-known authority. We are advised to dress warmly, keep the feet dry, avoid exposure, and above all, drink plenty of good water and avoid eating sweets of all kinds.

Rheumatism is caused by body waste and acids resulting from food fermentation. It is the function of the kidneys to filter this poison from the blood and cast it out in the urine; the pores of the skin is also a means of freeing the blood of this impurity. In damp and chilly cold weather the skin pores are closed, thus forcing the kidneys to do double work; they become weak and sluggish and fail to eliminate this waste and acids, which keep accumulating and circulating through the system, eventually settling in the joints and muscles, causing stiffness, soreness and pain, called rheumatism.

At the first twinge of rheumatism get from any pharmacy about four ounces of Jad Salts; put a tablespoonful in a glass of water and drink before breakfast each morning for a week. This is helpful to neutralize acidity, remove waste matter, also to stimulate the kidneys, thus often ridding the blood of rheumatic poison.

Jad Salts is inexpensive, and is made from the acid of grapes and lemon juice, combined with lithia, and is used with excellent results by thousands of folks who are subject to rheumatism.

WOMAN SO ILL COULD NOT STAND

Says Lydia E. Pinkham's Vegetable Compound Made Her Well and Strong

AN IDEAL HOUSE DRESS.

4179. The simplicity of this model is its best feature. The pleasing fulness above the bust and an equally comfortable allowance on the sides at the hips, are practical points that will appeal to the woman who likes neatness and comfort in her house-dresses. The sleeve in short length is attractive and comfortable. The long sleeve may be turned up for convenience in working.

This Pattern is cut in 6 Sizes: 34, 36, 38, 40, 42, and 44 inches bust measure. A 38 inch size requires 4 5/8 yards of 32 inch material. The width at the foot is 2 1/8 yards.

Pattern mailed to any address on receipt of 15c in silver or stamps.

Address all orders to Pattern Department, Quebec Chronicle.

MOTHER! BREAK CHILD'S COLD

Hurry! Move Little Bowels with "California Fig Syrup"

Whatever else you give your child to relieve a bad cold, sore throat or congestion, be sure to first open the little one's bowels with "California Fig Syrup" to get rid of the poisons and waste which are causing the cold and congestion. In a few hours you can see for yourself how thoroughly it works the constipation, poison, sour bile and waste right out. Even if you call your family physician he will praise you for having given "California Fig Syrup" as the laxative because it never fails, never cramps or overacts, and even sick children love its pleasant taste.

Ask your druggist for genuine "California Fig Syrup" which has directions for babies and children of all ages printed on the bottle. Mother! You must say "California" or you may get an imitation fig syrup.

WINTER ECZEMA 'CHAPS' & COLD-SORES

KEEN wintry weather brings a host of skin troubles. Cold-sores, chapped hands, unsightly face-sores and blotches, become a source of discomfort and annoyance. To end the trouble and make your skin clear, healthy and flexible, give the face, arms and hands, a nightly dressing with pure hermal Zam-Buk.

Zam-Buk instantly soothes the smarting irritation, it kills disease germs, and quickly heals all soreness, roughness and chafing which, neglected, often develops into eczema or other chronic skin disease. Use also Zam-Buk Medicinal Soap and enjoy real skin health.

This was an obstinate case.

Mrs. Henry Remy, 42, Lyall Avenue, Toronto, says:—"My daughter's face and neck were a mass of eczema. Her doctor prescribed treatment for over two months, but to little avail. I was about to call in a skin specialist when I heard of Zam-Buk treatment rescuing other sufferers from this dread disease. So I got a box of Zam-Buk and a tablet of Zam-Buk Medicinal Soap. In a few days there was a decided improvement. Day by day the sores gradually healed, and within a month my daughter's skin was thoroughly cleared of the terrible disease."

FREE SAMPLE BOXES of this great skin remedy! Send 1c stamp (for return postage), give name and date of paper, and address Zam-Buk Co., Dupont St., Toronto. One box, all postpaid.
