That there should one man die ignorant who had capacity for knowledge, this I call a tragedy.

THE HUNTINGDON GLEANER

THE LEADING ADVERTISING MEDIUM IN THE DISTRICT OF BEAUHARNOIS

SEVENTY-NINTH YEAR — HUNTINGDON, QUE., WEDNESDAY, JANUARY 21st, 1942 — TWELVE PAGES

What a sublime doctrine it is that goodness cherished now is eternal life already entered on!

Huntingdon Boasts Modern Filtration Plant

Central School Boards' Principles are Discussed

Dr. W. O. Rothney and Inspectors Brady and Bartlett Address Meeting of Ratepayers in Huntingdon Consolidated High School

A meeting to discuss the principles of County Central School Board Administration was held in the auditorium of the Huntingdon Consolidated High School on Friday evening. Mr. Malcolm Robb, veteran member of the Protestant committee, presided and welcomed Dr. W. O. Rothney, Professor of Education at Bishop's University, Lennoxville, and Inspectors Brady and Bartlett.

Interest In Students

Inspector R. O. Bartlett, M.A., was the first speaker of the evening. He pointed out clearly that the present system made no provision for the students who do not wish to go to the University. "The curriculum", he added, "is quite comprehensive but the resources which the school boards have at their command are quite inadequate to develop such courses as Art, Agriculture, Typing and Stenography, Home Economics, Manual Training and the like." Inspector Bartlett assured the gathering that the Protestant Committee have the solution for this problem in the establishment of County Central School Boards as suggested in the famous Hepburn report. These are some of the outlines advocated for the adoption of such a report: 1—the equalizing of taxation; 2—the buying of school supplies in large quantities; 3—the abolition of small school houses; 4—representations to the government for help from an entire county would be more likely to produce results than those from a small local school board.

School Honored

Dr. Rothney was the next speaker. He complimented the citizens of Huntingdon County who had been responsible for the erection of the new modern school. As a former principal of Huntingdon High School, he greeted his former students in the audience.

At the Cross Roads

Dr. Rothney introduced his subject by saying that "we are at the cross-roads in the matter of education and would either adopt the new or perish with the old." He said that the instruction of thirty years ago was in no way adequate to meet the needs of the people of this present day. He spoke of the stupidity of statesmen that has been largely responsible for plunging the world into the present inferno. He believed that the new system would train this present group of students to produce a society that would make future war impossible. Dr. Rothney pointed out that the County Central School Boards system was twenty-three years old in Europe and that it had been experimented with in all British countries including all Provinces in the Dominion of Canada except the Province of Quebec. Wherever the system was in practice the enrolment had doubled and in no place did the rate of taxation exceed ten mills. No county had ever gone back to the smaller school system, the speaker concluded.

A Resolution

The chairman, Mr. Robb, called for a resolution in favor of the principle of the act without specific reference to Huntingdon County.

Favor Idea

It was moved by Rev. W. S. Hatcher, seconded by Mr. John Brown, of Elgin, that the meeting go on record as being in favor of the principles of the system. A standing vote was taken. It resulted in a substantial majority in favor of these principles.

Local Opposition

It seemed the opposition locally to the act was due to the fact that there might be an increase in taxation. Dr. Rothney, however, claimed that there was every reason to believe the tax would be substantially low because of definite economies in the larger unit idea. With regard to lessening the power of local school boards, the act clearly states that in the case of high schools their duties would remain the same as under the older system. It was made quite clear that this would never be adopted in the county until a thorough survey of conditions was made by educational and financial experts. It was the intention of the Protestant Committee to be fair to all concerned before recommending its adoption in any character.

The Acts

The Act respecting Protestant Central School Boards reads in part as follows:—

Whereas the Protestant Commitee of the Council of Education has recommended that it is advisable to constitute county central school boards in the areas of the Province most populated by Protestants in order that greater benefits shall accrue to Protestant education;

HOWICK PARISH, VILLAGE ELECTION RESULTS ISSUED

The following are the results of the municipal elections for the parish of Tres St. Sacrement and Howick Village.

The retiring Councillors of Parish of Tres St. Sacrement were:

Robert Anderson replaced by James T. Stewart.

Jos. Vallée replaced by Laurent Bergevin.

Albert MacFarlane was re-elected.

Howick Village retiring Councillors:

Wallace Logan was re-elected.

Sydney Stewart was re-elected.

John MacRae was replaced by Roy Carson.

Thos. T. Gebbie was the presiding officer at the election.

Ormstown Curlers Hold Que. Trophy

Skip Rinks to Victory — A. Soucy, W. McGerrigle Against Heather

Heather curlers failed in their bid Wednesday night to wrest the Quebec Challenge Cup from Ormstown rinks on the latter's ice in a two-game series. The present holders of the trophy emerged victors in a close and interesting match by a four-shot margin, 38-34, by taking both games.

Skips To The Fore

A. Soucy's home four downed Jack McKee's side, 22-20, while W. G. McGerrigle's combination outscored A. G. Cameron's quartette, 16-14.

Meet Aubrey

Ormstown, who won the cup from Royal Montreal recently in the first challenge match of the season, will next play Aubrey. Ste. Anne de Bellevue follows as the next challenger. Thistle will then be the next local club in line to challenge the defenders, the Fort street club being ranked seventh on the challenging list. Three challenges have already been accounted for.

FINANCIAL REPORT IS PRESENTED AT GODMANCHESTER

An adjourned meeting of the Godmanchester Council was held on Thursday for the purpose of presenting the financial statement.

The financial statement was accepted as read. A vote of thanks was extended to the auditor, W. L. Carr, for the clear financial statement of the books of that municipality.

It was moved that the following bill be paid: Mr. W. L. Carr $45.00.

DUNDEE COUPLE CELEBRATE SILVER ANNIVERSARY

Mr. and Mrs. E. B. Gardiner of Dundee who celebrated their 25th wedding anniversary on New Year's day, were guests at a surprise party given by their friends a few days ago in the Community Hall, Dundee. Cards were played at several tables during the early part of the evening and suitable prizes were awarded the winners as well as consolation prizes to the losers. Those not playing games enjoyed a social hour. Rev. H. Lindley was called to make a presentation to Mr. and Mrs. Gardiner of a purse of silver, the gift of their friends in the community. Mr. and Mrs. Gardiner each made suitable remarks and thanked everyone for their kindness in making the party which they both admitted was truly a surprise.

Chateauguay, Huntingdon Sunday School

Report of National Temperance Study Course, 1941

Following is the report of the Chateauguay-Huntingdon National Study Course for Sunday Schools during 1941:

Seniors, 15 to 17 years: 1, Catherine English and Audrey McDougall; 2, Edith McEwen; 3, Irvin Biggar, Beatrice Gamble and Janet McKell; 4, Una Fennell; 5, Glenna Dickenson; 6, June Beattie.

Intermediate, 12 to 14 years: 1, Marjorie Craig; 2, Elizabeth McKell 3, Ross Brooks and Ralph Craig; 4, Carl Waller; 5, Joyce Lamb; 6, Jean Koski; 7, Hazel Clauessen and Louisa Clauesson; 8, Nelson Beattie; 9, Jack Tully and Beatrice Vaincourt, 10 Ruby McCaig; 11, May Anderson; 12, Elsie McCartney; 13, Lloyd McClenaghan; 14, Marjorie McCartney; 15, Norma Stark.

Juniors, 10 to 11 years: 1, Thyra McKell, Merrill Elliott, Drummond Elliott, Bernice Patenaude, Norman Stevenson and Dan Tully; 2, Dorothy McKell and Bobby Barr; 3, Stanley Welburn and Esther Lamb; 4, Margaret Templeton; 5, Marion McKell; 6, Jimmy Greig; 7, Kathryn Maither; 8, Gerald Duncan; 9, Dorothy Stratton.

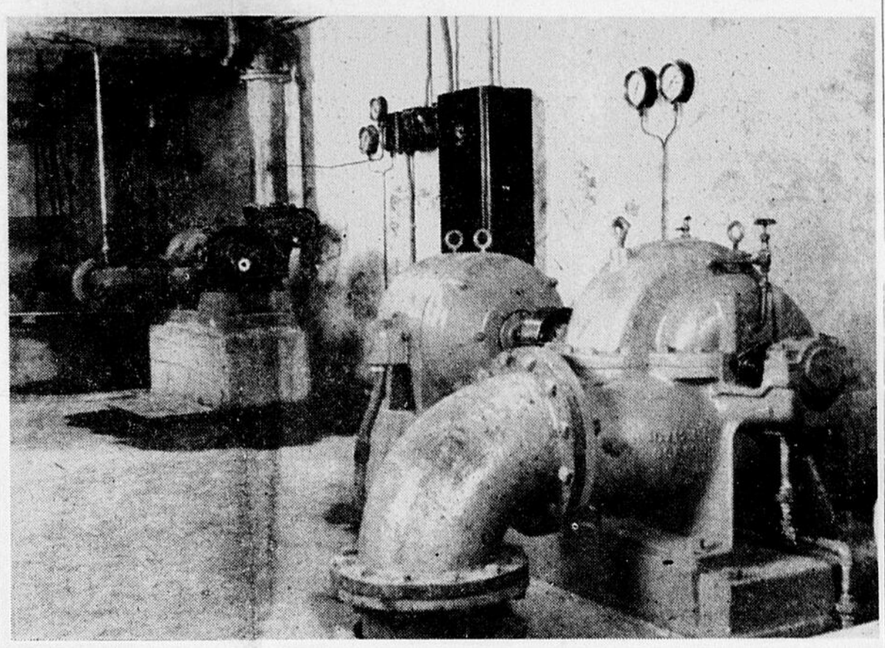
Juniors, 9 years and under: 1, Florence McDougall and Harley Parkinson; 2, Russell Tully; 3, Bobby McClenaghan and James McKell; 4, Janet MacLeod; 5, Mary Dickenson; 6, Keith Rennie; 7, Stanley Craig; 8, Jean Younie; 9, Lorna Fleming; 10, William Perrett and Raeburn Orr; 11, Marjorie Ness; 12, Mona Antoine and Charlie Tatem; 13, Carol Tatem; 14, Jean Patenaude. Mrs. Roy Blair, Superintendent, Mrs. Allan English, Assistant.

FLYING SQUAD VISITS 20 CENTRES, SEEKING RECRUITS

A recruiting flying squad under the command of Lt. G. LaBrosse, recruiting officer at Valleyfield on Monday began a tour of 20 centres in the district to facilitate the enlistment of young men desirous of joining the Canadian Army, it was announced on Tuesday by Major Walter H. Scott, M.C., joint district recruiting officer for M.D. 4.

The squad visited St. Philomene on Monday and on Tuesday was at Vaudreuil and Dorion. It visited St. Timothee and Melocheville today and will visit Valleyfield on Thursday morning and Beauharnois in the afternoon. The week's visits will be completed at Chateauguay on Friday and at Hudson on Saturday.

RAW AND WASH WATER PUMPS



At left is the pump used to distribute the raw water in the different sections of the filter plant. At right is the pump better known as the wash water pump. These pumps are operated by electricity and are located in the old section of Huntingdon's modern filtration plant.

Soldiers' Club Furnishings Already Largely Donated

Social Benefit Parties Increasing in Numbers — Financing Club Progresses — Club Officers Named for 1942

"Soldiers' Club" is to be the official name, and not Soldiers' Hostel, as has been used up to the present, for the social quarters that are to be provided for use by soldiers and their visiting relatives or friends in the O'Connor Bldg. At a committee meeting held in the County Building on Monday evening reports received indicated the financing and furnishing of the "Soldiers' Club" was making very favourable progress. A report on furnishings indicated that a very considerable portion of the necessities would be donated through friends in Montreal. When the various items of furniture are received acknowledgment will be made through the Gleaner columns. The transportation of the furniture donations from Montreal is being provided gratis by one of the Legionaires.

Officers Appointed

Officers appointed for the year 1942 are as follows: President, G. F. Dixon; Vice-Pres., Rev. W. S. Hatcher; secretary-treasurer, Mrs. W. K. Philps; Directors: Mrs. H. R. Clouston as representative from the Womens' Auxiliary. Mrs. Clouston asked to be excused from office and such was agreed to upon the understanding that she would act until such times as the Auxiliary named a successor to her chair. Mrs. D. J. O'Connor representing the Ladies of St. Anne Society; Mr. James E. Barrett representing Huntingdon County Council, and Mr. F. C. Moore, representing the Legion and Alderman J. O. Michaud. Town. Three or four other directors will be named at a latre date to represe named at a later date to repre- are expected to contribute toward the furnishing and maintaining the "Soldiers' Club". Lt.-Col. C. C. Brooks, O.C., Chateauguay Barracks was named a member ex-officio of all committees.

Social benefit parties are being held for the purpose of raising money to help finance the Soldiers' Club. Father Pigeon announced that so far the parishioners of St. Joseph's Parish had contributed $76 to the Soldiers' Club and a like amount towards the contemplated Parish Hall. He hoped to see this amount doubled or trebled before "Lent." Benefit parties are being held at the Convent, by the Badminton Club, Skating Rink, Canadian Legion, Women's Auxiliary and by the Non Commissioned officers in Chateauguay Barracks. It is hoped many more benefit gatherings will be sponsored in Huntingdon Town and throughout the surrounding communities. Mr. Fred C. Moore reported having received four financial contributions from people in Ormstown.

Vanishing Teas

A series of Vanishing Teas are now the order of the day in Huntingdon. The ladies expect to realize $80 from these teas and this money is to be for the benefit of the "Soldiers' Club."

Contributions Welcomed

Might we again remind our readers that those wishing to make a cash contribution towards the "Soldiers' Club" may leave same with Mr. Ken Pope, Bank of Montreal, Mr. N. F. Manning, Bank of Commerce, Mr. W. K. Philps, Chairman of Finance Committee or with Mr. George F. Dixon, Chairman of "Soldiers' Club" committee.

President George Dixon announced that the carpenters would be through with their work in the "Soldiers' Club" this week and that painters and plumbers would be at work before the week-end. The Club is expected to open on or about February 1st.

TRANSPORT BOARD WILL HOLD SITTING ON TRAIN ISSUE

The Board of Transport Commissioners for Canada will hold sittings in Court Room No. 24, Old Court House, Montreal, P.Q., on Tuesday, the 3rd day of February, 1942, commencing at the hour of 10.00 o'clock in the forenoon, (Daylight Saving Time), to hear the following matter, in which you are interested:

Application of the New York Central Railroad Company, for permission to discontinue trains Nos. 23, 25, 30, 31, 32 and 26, running between Malone, N.Y., Valleyfield, and Montreal, P. Q.

MACHINE GUN AT SQUARE GIVEN SALVAGE DIVISION

At an adjourned meeting of the Town Council held on Wednesday evening it was resolved to ask the Quebec Commission to renew a loan for $3,000., the amount being the balance due on a loan of $5,000. borrowed pending the collection of 1941 taxes.

It was resolved that the 75 mm. gun, TM-14631, and the three machine guns that are in the park be donated to the salvage division of the Treasury Department, Ottawa.

Delegation

Messrs. A. L. Sellar, Alex. Fawcett and W. Grant came before the councillors regarding the water taxes. They asked for a reduction in their water taxes. The Council promised to give this matter consideration after water meters are installed at these industries.

The following bills were ordered paid: Lawrence Riel, $43.45; Provincial Treasurer, $176.19; N.Y.C. Railway, $118.94, Railway Express Agency, $302.00; Huntingdon Gleaner Inc., $13.30; Canada Iron Foundries Ltd., $747.91; Pringle, Stark & Co., $215.57; Vipond-Tolhurst Ltd., $300.11; H. Daniel Transport, $1.10; O'Hare and Myers, $8.16; Receiver General of Canada, $49.50.

3 HURT AS AUTO COLLIDES WITH DELIVERY TRUCK

Three men were slightly hurt and a fourth narrowly escaped injury when an automobile and a light delivery truck collided on St. Antoine street near Dominion at 3.45 o'clock on Friday morning.

Taken To Hospital

The injured, all taken to western division of Montreal General Hospital for treatment were Lucien Duhamel, 41, of 6830 DeLaRoche street; Gaston Lebrun, 27 of 1864 Visitation street, and Adrien Lebrun, the latter's brother, of 6452 St. Lawrence boulevard. All sustained minor cuts and bruises and were able to leave the hospital after treatment.

Driver Escapes

The automobile, property of—and driven by —Gaspard Faubert, of Beauharnois, who escaped injury, caught fire after the collison, but the outbreak was rapidly extinguished by firemen under District Chief F. Gilmore.

The Council Spends $100,000 To Improve Water Conditions

1,250,000 Gallons of Water Can be Obtained Daily In Huntingdon—Present Consumption About 750,000 Gallons—Demand is Met in All Sections

After hearing hundreds of complaints, threats, protests and telephone calls during the past twenty-four months, the members of the Huntingdon Town Council and especially the chairman of the water committee and the other members of the committee can now lean back and look with pride and justification to the imposing structure which was completed in the west end of the Town of Huntingdon. Yes, Huntingdonians have now one of the most complete and modern filtration plants in the Province of Quebec for a town of its size.

Residents looked to the year 1942 with more anticipation than 1941. They were assured last year by the administrative members of the town that they would be supplied with adequate water facilities and the Council has kept its word. But this was not accomplished without large expenditures and worries. Huntingdon has just spent more than $100,000. to meet the serious water shortage which has prevailed here during the entire year of 1941 and part of 1940.

Perfect Operation

The members of the Huntingdon Town Council and especially the members of the water committee heard so many complaints last year that even now it seems unusual that some ratepayer or other should not send a general alarm for more and more water. True, the situation is not as yet 100% but with the arrival and installation of metal troughs, this modern water system should be in perfect operation.

Large Supply on Hand

At no time during the past year did the members hesitate to declare that the water shortage in Huntingdon was serious. All possible local resources were attempted to rectify and remedy the situation but this was not good enough. After investigations the engineer from the Provincial Board of Health decreed that Huntingdon would necessarily have to enlarge its filtration plant if it hoped to supply sufficient water for domestic and commercial use.

Nearly Two Million Gallons Used at Barracks in December

Commenting on the reason for this expenditure, Ald. James E. Barrett, chairman of the water committee, stated that the establishment of a training centre in Huntingdon itself warranted the enlargement of the filter plant. Taking into consideration the amount of water consumed at the Chateauguay Military (Basic) Training Centre No. 41 at Huntingdon during the month of December 1941 alone, when 1,914,800 gallons of water were used, citizens can readily understand that this extension was sorely needed. It is pointed out that the consumption of water at the Barracks was as much as the filter plant could furnish with the present equipment, let alone supplying the demands of the citizens of the Town of Huntingdon, trains and industry.

Industries Need Much Water

The establishment of four industries, the Huntingdon Woollen Mills, Spinners Limited, Fry-Cadbury and Fawcett & Grant Ltd., in addition of Leach Textiles Ltd., also meant that the town had to furnish them with a certain quantity of water if they wished to keep these industries within our midst. Athough Spinners Limited and Fawcett & Grant do not consume much water, Huntingdon Woollen Mills and Fry-Cadbury use large quantities of it for dyeing processes and condensation. The Huntingdon Woollen Mills are reported to be using about 65,000 gallons of water daily. Besides the industries many new homes have been erected here since war broke out in 1939.

New and Old Buildings in Use

The new filter plant is on the same location as the old one which was erected in 1925. The addition is somewhat larger than the old structure. Both buildings, which are adjoining, will be in use continuously.

Work on the addition was started early in the summer of 1941 and was completed during the early part of December.

Good Water

Commenting on water improvements here, Ald. Barrett stated Huntingdonians are supplied with exceptionally good and sanitary water, and at a rate as low as could be found in any part of the Province of Quebec.

First Steam System

Mr. George Munro, who has been in the employ of the Town of Huntngdon since 1925 at the filter plant, recalled a few days ago that some time in the neighbourhood of 1894-95, Huntingdon built its first water system which was operated by steam. It served the purpose until 1925 when government officials condemned the system as being inadequate and dangerous to the consumers. The engineers then recommended that Huntingdon

(Continued on page 4)

WORK PROGRESSING FAVOURABLY IN CHATEAUGUAY CO.

Reports from Headquarters at Ormstown indicate that good progress is being made in the organization work of Chateauguay West. Mayor D. A. Barrington of Ormstown and Mr. Simeon Beaudin of Howick, Joint Chairmen for Chateauguay West were in conference on Monday with both the French speaking and English speaking organizers for Chateauguay West. The organization work was discussed from many angles with a view to setting up an active organization in the best interests of the unit. Both Mr. McQueston and Mr. Couture, organizers of the unit, expressed to the Chairmen their appreciation of the spirit of cooperation and friendliness of the citizens of Chateauguay West.

Teachers Seek To Improve Their Methods

War Has Struck at Two Strong Shafts in Youth Aims

Increased youth problems as a result of the war are to be countered by a new technique on the part of Protestant teachers of the province who have just received a new publication from the youth problems' committee of the Provincial Association of Protestant Teachers.

Heads Committee

This committee of teachers, headed by John A. B. McLeish, of the Gault Institute, Valleyfield, Que., maintains that "the war has struck at two of the strong shafts to which youth clings in its climb toward the sunlight of the good life: a feeling of security, and a knowledge of real values.

"Broken homes, disproportionately high wages to later teenage children reared at first on depression standards, a feeling that war means a dead end to cherished ambitions, the general unsettlement caused by international fear and conflict, the nervous strain on adults reflecting itself in child training; these are only some of the factors following in the war's wake," the news bulletin of the committee points out.

The committee plans to meet the new onset of youth problems through the establishment of a "youth problems forum," where typical problem cases will be discussed, and through the establishment of "a permanent sub-committee," which will provide teachers and principals with information of use to them in solving their particular problems.

COUNCILLORS ARE RE-ELECTED BY DUNDEE TOWNSHIP

No elections were necessary at Dundee as the ratepayers gave their representatives on the Township Board another vote of confidence and re-elected them by acclamation.

J. S. McGibbon was re-elected for seat No. 1, as were Joseph Deschambault for seat No. 3 and Gordon Davidson for seat No. 5.

Nomination took place on Wednesday morning.

Huntingdon, Wednesday, Jan. 21, 1942

Quality Water in Abundance

GOOD water and plenty of it is one of the essentials for any community. The depression years that hit Canada, struck western Canada in a double-barreled manner as a very considerable portion of the prairie lands were suffering from drought. Here in Huntingdon we never suffered for water, due to its not being procurable, but it has happened that citizens in the town were not receiving as large a volume of water through their water taps as they had a right to expect.

The water for Huntingdonians is pumped from the Chateauguay River. This source of water supply was tapped back in 1894-95 when the first municipal water pumping system was installed. The people were more than pleased with the municipal water service then accorded. Those of us who remember the quality of water that came through the water mains up to 1925 just wonder why the citizens of that day were proud of the water facilities installed in 1894-95. The water received up to 1925 took on many hues, in accordance with the elements. If the water in the river was dirty, dirty water was delivered, as the filter plant removed few of the impurities that may have been in the water, and certainly little of the clay dirt mixed up with it.

1925 saw a filter plant erected, a modern plant in every detail and, as far as size was concerned, quite in keeping with the town allowing for future development. The foresight exemplified at that date, in building for a larger Huntingdon, has been rewarded for the newly erected plant was not made necessary due to the fact that the filtration plant was outmoded but simply because it was not sufficiently large to supply the demands for water. The money spent by Huntingdon in 1925 for a water filtration plant has not been lost, but is still going to carry on and work for the benefit of the town through pumping filtered water.

The enlarged plant just installed is going to supply the Town with an abundance of water at ease. The plant, being capable of supplying 1,250,000 imperial gallons per day, means the plant will not be taxed to capacity and that water will have sufficient time to be processed from a state of raw river water to that of a clear glass of water to appear on the dinner table, free of impurities and absent from chemical tastes. This will be relished by all users, for of late years the chemical taste of our town water has often been objectionable, especially during the winter and spring months.

In the early part of the present century Huntingdon had a population of almost 1,000 people; our neighbouring village of Ormstown had a couple of hundred fewer citizens. The two villages rivaled one another in trade, sports, aggressive movements and what not else. Huntingdon has stepped ahead by leaps and bounds, for to-day we find it has over 2,600 of a population, apart from the barracks, and we fully believe the water facilities Huntingdon has had to offer played a part in bringing about this development. At the present moment Ormstown is creating an auxiliary source of water supply and we honestly believe that community cannot be held back from increasing in popularity and expansion when its water supply is guaranteed as to volume. Ormstown has always enjoyed having water of excellent quality. With the two towns now about ready to guarantee an almost unlimited amount of excellent water to all comers, we might well consider this the logical and appropriate time for the citizens of both communities to get together in a Board of Trade effort and induce more industrial expansion in the Chateauguay Valley.

Much space is devoted in the news columns of this issue to the new Huntingdon Water Filtration Plant. It is indeed a commendable asset to Huntingdon. Our Town deserves much credit for its aggressiveness and forethought to provide this utility, and especially at this hour when Canada is making such forward industrial strides and in the years to come will see its population increased perhaps a hundred fold. The towns that are prepared to grow are the most likely places to benefit by such natural developments. With an abundance of filtered water at our service it should act as yeast to the dough and see our community grow so that in another decade or two another enlargement to the filter plant will then be deemed advisable.

Enlarged Water Mains Will Follow

NO MATTER what programme of development takes place something else is sure to follow. When a farmer buys a tractor, he must also buy a double furrowed plow for it, else he is not going to get full use of the tractor. Huntingdon now has an enlarged water filtration plant and in order to deliver the water with a volume of pressure it is highly probable some of the water mains in town will have to be enlarged. It is a known fact that many of our water mains are as sound today as they were when installed in 1894-95. During the past twelve months new water mains have been created and built in Huntingdon. These new water mains are going to perform a commendable service as they were so intended; but for all of that there will still be streets that need larger water mains so that commendable water pressure will be available. It is to be hoped we can relax from this municipal building programme until after the war, but let us not lose sight of this eventual desirable augmentation to our town water works system, and when that building day arrives let us install water mains and sewers of sufficient size to take care of growth that might naturally be expected in the years to come. Justifiable bonded indebtedness will never kill us, especially when it is for such a necessary thing for health as is water. Water likewise protects our homes from possible destruction by fire, provided it is available at the psychological moment and in sufficient volume, and sufficient volume can only be obtained from large water mains that can stand the strain of pressure.

Water Rates

WITH the installation of the new water filtration plant and the installation of some additional water mains, the Town Council has given consideration to the matter of increasing financial returns for water service. A by-law levying new rates was passed in December. The rates in general were raised from $12.50 to $16.25, less a 10% cash discount if water tax were paid before January 15th. This increase in water tax does not appear to be out of the way when one considers the service accorded.

Naturally the Town Council wants to do what is right by the citizens as a whole, and make the water tax levy as near par as is possible to one and all. Unfortunately, one of the aldermen spoke a bit quick when he inferred that the water rate to people living in Godmanchester, alongside the town water mains, should pay a considerably increased water rate so as to help equalize their taxes with what people in the Corporation of Huntingdon pay. The people in Godmanchester who receive such municipal water service have always paid a double water rate over that paid by townspeople. An increase of $10 for such water service over the town rate should certainly seem ample under the existing circumstances. However, when an alderman goes so far as to state the water rate should be stepped up in order to help equalize municipal tax rates it was an expression not consistent with good municipal business administration, and especially so when price ceiling legislation has so recently been put into force.

The increased water rates to Huntingdonians has brought forth protests and it is claimed thirteen such protests have been lodged with the board who is to receive complaints as to infringements on the price ceiling law. From Saturday's Montreal Gazette we quote the following which might apply to the water rates for Huntingdon and mean rebates for water rates would be in order and the mill rate of municipal taxes increased.

London, Ont., January 16.—Municipal taxation is not covered by federal price ceiling rulings, but other specific charges such as electricity, gas steam heat, water and telephone—municipally or privately owned—do come under the jurisdiction of the Wartime Prices and Trade Board, W. Harold McPhillips, Prices and Supply Representative for Southwestern Ontario, said today.

Mr. McPhillips said he had received this information from the administrator of services.

A number of municipalities in this area had inquired as to whether they would be permitted to adopt a higher tax rate for 1942.

It was stated that in municipalities where charges are made for special services the rates must be kept within the principle of the maximum prices regulations which state that "no person or class of persons shall be charged more after December 1, 1941, for the same service which was charged to persons of the same class during the basic period, September 15 to October 11, 1941."

R. R. Ness Made an M.L.C.

PREMIER Adelard Godbout of Quebec Province had led us to believe that the life of the Legislative Council was near its end of usefulness to the Province and that when the Liberal party would be restored to power it was but a matter of time till the Council would be wound up. When Premier Godbout was making such statements he also stated women in Quebec would be accorded the franchise to vote. Many people thought the franchise to women would take longer to put into practice than doing away with the Legislative Council, yet such has not been the case.

Premier Godbout is undoubtedly one of the greatest Provincial Premiers of all times, and from any of Canada's nine provinces. This great little man did not go back on his promise of the vote for women, but accorded it and such votes were exercised for the first time by the women at the recent by-election held in Huntingdon County. Premier Godbout is an astute politician with marked business ability. As a farmer, he is top ranking. As a judge of men, he knows the type he wants to surround him so that they in turn can assume a portion of the task of according good legislation to Quebec Province.

Evidently the lapse of time since Premier Godbout insinuated the Legislative Council could be done away with has altered his opinion, which all thinking people have a perfect right to do. The excellent Government Premier Godbout has accorded Quebec since he took office convinces us that he feels the Legislative Council has yet a duty to perform and that it will be good business for Quebec to keep this body functioning. The Legislative Council represents an annual expenditure of $112,000 and perhaps more, but we can all rest assured Premier Godbout, business premier as he has already demonstrated himself to be, must feel Quebec is getting fair value for this expenditure and that the Province of Quebec still needs the Legislative Council.

Of the four vacancies in the Legislative Council the Chateauguay Valley is particularly interested in the seat vacated through the death of the late Hon. Martin B. Fisher. This vacancy is to be filled by R. R. Ness of "Burnside Farm," Howick. It will be difficult for the people of Chateauguay Valley to accustom themselves to addressing him as the Hon. Robert R. Ness, because he has been plain Bob Ness to nearly everyone for many years.

If the Legislative Council required a man with an agricultural background and at the same time represent the rural English population in the Council, this newly appointed member ought to be able to fill the bill, providing his health permits. Mr. Ness is no longer a young man, but he manages to keep his mind keen and along lines that are of particular interest to the youth of to-day. No doubt his family of sons, all interested in sports, have tended to maintain his interest in young people and sports.

Agriculturally, R. R. Ness went into farming a little over fifty years ago. For capital he had $600 and started out with a 94-acre farm. He used good sense in persevering against obstacles that confronted him and never yielded in his efforts until as commendable achievements as possible were attained. In his early years of more advanced farming he aimed to win the silver and gold medals for all round good farming, and such awards he duly received. He imparted to his four sons excellent farm practices upon which he founded "Burnside" and they in their due turn have rated.

extended this agricultural spirit of progressiveness to a point that to-day, the Ness farms represent some 1,000 acres in the Howick area, stocked with 300 head of Ayrshire cattle, purebred Clydesdale horses, etc.

Ness and Sons have been livestock showmen of distinction and the laurels they have brought to Burnside, the Chateauguay Valley and Quebec Province, could not pass unheeded. Mr. Ness has long been a member of the Quebec Farm Loan Board, President of the Quebec Council of Agriculture, President of Ormstown Show, and an almost innumerable number of other agricultural associations at one time or another. His judgment on all agricultural matters has always been highly

The healing of the world

No doubt there are many agriculturists in this Province who could merit the appointment as Member of the Legislative Council, but the naming of R. R. Ness to this post, representing the seat for Ankerman, does honour to one who has done much in the past for agriculture. We all sincerely hope health will not prevent his continuing the good work.

Hon. Frank L. Connors, Hon. Gordon Hyde of Montreal and Jules Brillant, Rimouski, were also appointed members of the Legislative Council at the same time as the announcement was made by Premier Godbout that Mr. Ness was so appointed.

This Week in OTTAWA

Air Minister Expects Difficulty About Enlisting Men in Sufficient Numbers to Keep The Air Schools in Full Swing—Air Raid Precautions are in Evidence

On the eve of the opening of the new session of parliament there is naturally much rumor and surmise on the Government's measure for a fuller use of the man and woman power of the nation. The scope of this measure which the government has been carefully considering for some time is a well guarded secret. More women will be trained and brought into industry, particularly those branches of war industry for which they have shown special adaptability, but that is of course only one phase of the question. What has been sought is a comprehensive plan of marshalling Canada's human and material power in this deadly struggle for national life and freedom, of giving everyone the opportunity of serving in tasks for which he is best suited and of securing the maximum united national effort. The announcement is expected when the session opens. It will undoubetdly be much the most important measure to be discussed by parliament, and in the debate, members will bring out all the plans and points of dispute on this vital topic that have appeared in the press.

Need For Airmen

The Air Minister, C. G. Power has recently issued a warning that while up to the present there has been no trouble about getting air recruits, there is a definite possibility that there may be some difficulty in the future about enlisting men in sufficient numbers to keep the air schools in full swing. The air force will need every physically fit man between 18 and 25. It may be that the age limit will have to be raised to 30 or 32, al-

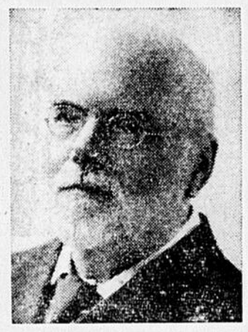
Chronology - of - Chateauguay, Beauharnois and Huntingdon Counties

From Manuscripts of The Late ROBERT SELLAR



WILLIAM TAYLOR (Continued)—

Barren and Nichols came from Caldwell's Manor together. Old Nichols was dead before I came. Barren's second wife was a daughter of Nichols, and old Nichols second wife was a Campbell. Barren's lot is now held by McGinnis and Nichols by Eaton. Barren was tall, fully 6 feet, and must have been strong and active in his prime. He was very fond of bothering people, and would irritate them by discussions on any possible subject. He was Church of England, and would dispute with Presbyterians, and assail Catholics. I remember old Mr. Gentle would come to visit him and they would be sure to dispute and get angry. Neither cared about churches and were both rather coarse in their talk. At Barren's funeral, a bachelor who was a millwright and afterwards went to St. Andrew's, made his coffin. When he was closing it, old Mr. Gentle, tired of the hammering, for there were no screws then, exclaimed "that will do." "Abundance of care is no breaking of it," retorted Fisher as he drove in another nail. I have asked Barren why he left Ile aux Noie and he said they had cleaned all the brush there. His wife was very lonely when they came to Hinchinbrook, when he told her if she had 5 gallons of rum, she would have all the company she wanted. The old man drank, of course, but I never saw him drunk. He was very kind-hearted and would divide his last loaf with you. He always called Chateaugay "Seventh town." I never heard of Piper's road.

Capt. Barren, as he was called, had been Quartermaster's sergeant in the British Service during the Revoluntionary war, after which he went to live on Caldwell's Manor, where he got all the help he wanted at a nominal price from the soldiers stationed at Ile aux Noie. He said the reason he left was that he wanted to be in the woods again, was a rough-spoken, contradictory and somewhat provoking man, a native of County Wicklow, and an Episcopalian. Asked John Johnston his name—"How did you get away; we hanged all the Johnston's when I was there." When regaling some strangers from Chateaugay with potatoes and milk "Eat away, It will be long before you get as good a meal again." There were two large stones, one on either side of his door, at which he sat, ever ready for a talk with the first one who came along. He never worked and lived very poorly. He had 3 sons and 3 daughters and was twice married.

Charles Mooney built the grist and saw mill in or about '24. He was a Catholic and was the means of bringing others. The Irish always came along asking where Mooney's was. Murray bought the Mooney mill in 26-30, he died as market clerk of Quebec, and sold the property to McKay. The grist mill was a poor one, the stones were made at the mill. The toll was one-tenth.

John Mitchell opened his store in 1824, I helped to build the first one, it was in the woods. The new settlers were so poor that they often had to get credit from him for their first axe. They paid in salts.

Mathers, Gibson, Lauder and Craik came in the Fall of '20, old Mathers told me so. I was often in Mather's house, and they had plenty to eat. A daughter of his married Lewis McKay.

The first school was opened on Campbell's lot, in 1827, and was taught by Miss Hudson, an American, who married Isaac Elliott. In 28 and 29 my wife taught.

I found the scholars had only got their letters and knew words of only one or two syllables. I was paid in grain, and orders and very little money, and boarded around. It was while staying Peter and Daniel Campbell's that I met T., and we were married in January, 1830.)

Elder Smith, a Baptist, preached for some time at Patterson's, where they engaged him, but I forget the year. Rev. Mr. Merlin of Hemmingford used to come. He was a very easy man and not punctual. Keeping people waiting he would say I will come sometime. On going one day to service a lady was with me and bantered me about my singing, when I told her I would give her a new tune that day. It was the proclamation of my banns. Merlin married us also.

There were no wagons when I came; only sleds. I remember the road said to be made near Black's by the American's and I travelled part of it once with Mathers in going to Sangster's. I worked about until '27 when I settled down to clear my lot in earnest.

Judge Smith kept a store and sold liquor on the McCoy by road, and where there is a Smith yet. His father, Major Smith, originally stayed about two miles south of the line and went to Chateaugay where he was called Colonel, and did a great business when I came, having a tavern, store, and employing all all kinds of tradesmen. The Roberts had just started in a small way with a little money and some goods.

It was I who told the Fortunes of where the Dr. was. One of them a tailor, came to see me to find out. The tailor afterwards sailed and settled in Huntingdon, and was the cause of bringing out the rest.

Sam Place was married to a sister of Hiram Gentle's.

The Johnston burial place is not as old as some. It contains a good many Catholics who, for some cause the priest could not bury in consecrated ground.

On the advice of the American Conference the Huntingdon and Russelton circuit was assumed by the Canadians. I suspect that it was the Broders who got the Methodist minister to come over first, but do not know. The first Canadian Methodist minister was old father Hotchkiss, who came in 1838. He belonged to Missisquori bay and had been a blacksmith at one time. He was just suited for the backwoods, and could give advice on cattle, building, and so on, so that even the Catholics were eager to see him on his visits. He was a loud, strong preacher, but had so poor a memory or limited stock of sermons that he gave, in the schoolhouse, one on Noah 3 times Black's church had been practically abandoned by the Presbyterians for some time before taken possession of by the Methodists.

One night John McIntosh was driving when he passed a standing sleigh. Thinking something might be wrong, he turned back, and found it was Gamble and his wife who had lost a mitt, for which they were looking. They were going to a prayer-meeting at his brother's house, and asked McIntyre to go too. He attended one or two such meetings, when one night Mrs. Black said she had the key of the church, and as it was not being used, suggested they should have their meeting in it, which they did, and that led to the Methodists using it, the Franklin minister coming and preaching in it. For the acre on which the graveyard is, $10 was paid Mr. Rennie, that being then counted the price of clearing an acre. He and the present Rennie have kept a register of the burials.

FRIENDSHIP WITH U. S. BUT NOT UNION

(The Amherstburg Echo)

Since the United States and Canada have established closer relations and are co-operating on the war effort this has given rise to the old cry of a union between Canada and the United States. They point to the fact that they have common desires, modes of living, speak the same language in both literal and colloquial sense and have lived together in peace and friendship for over a century.

Despite the fact that Canadians and Americans have much in common they are essentially different. We have a different system of government and a different attitude toward law enforcement. Our traditions are different. Many Americans—and some Canadians—think the pomp and splendor of royalty is a hollow sham and think that we're just a little bit gullible to be taken in by that stuff. Whereas to the true Canadian the tradition of King and Empire is something very real. It is the tradition of Empire that made Canadians declare war as soon as England entered the fight against the Nazis. It is the Empire tradition inherent in them all that made thousands of young Canadians volunteer their lives in the fight for the preservation of British ideals.

Yes Canadians want and will do everything in their power to maintain the friendship of their next-door-neighbor but as for becoming part of the union that is only a pipe-dream. You can always be close friends with a person without joining his, or inviting him to join your, family.

Ste. Agnes

Mr. Franklin Arnold of Lachine is spending a few days with his parents, Mr. and Mrs. John Arnold.

Mr. Romeo Savage of Valleyfield spent the week-end with his parents, Mr. and Mrs. Treffle Savage.

Mrs. J. B. Quenneville, Miss Eveline and Mr. David Quenneville spent Sunday in Fort Covington, N.Y., with Mr. Quenneville's mother, Mrs. Martin, who is seriously ill.

SAVE RAGS

THESE MATERIALS ARE VITAL TO WAR INDUSTRY
METALS (PARTICULARLY THOSE OF IRON AND STEEL)
RAGS
PAPER
FATS AND BONES

ALL war industries need **rags** . . . handfuls of rags . . . pounds of rags . . . tons of rags. And **you** can help supply them.

Without rag wipers to clean the cutting lubricant from planes, millers, drills, lathes, Canadian war workers would be inefficient, their output reduced, their efforts hampered.

Without rags, explosive plants would slow up, aeroplane factories would find their production cut, and wheels of shell factories would dawdle.

Start an old-fashioned rag bag in **your** house **today**. All kinds of old, worn-out, too small and otherwise useless garments are badly needed by war industries—everything from cotton underwear to old shirts and ties—from Grandpa's red flannels to Grandson's seatless corduroy pants.

These are real sinews of war which **you** can supply. Every rag in your home should go to war industries through your Salvage Committee. Clean **out** and clean **up** on Hitler!

RED CROSS

HUNTINGDON BRANCH

The following donations are gratefully acknowledged by the Red Cross Society:

Mr. W. K. Philps, ... $20.00
Mrs. Retta Gentle 5.00

Also the following members: Mr. N. F. Manning, Mrs. N. F. Manning, Mrs. E. C. McCoy, Miss Irene Holiday, Rev. Mr. Knowles.

The following articles were shipped this week:

3 Women's outfits, 3 boy's outfits, 2 ladies' helmets, 3 areo helmets, 5 ladies' cardigans, 1 ladies' V-neck sweater, 2 turtleneck sweaters,4 pr. ladies' socks, 5 pr. ladies' gloves, 13 scarves, 1 sleeveless sweater, 16 T bandages, 12 pyjamas, 19 doz. wash cloths.

Donations:

4 quilts donated by St. Anicet Godmanchester group, Pioneer Rebeccas, Western Div. St. Andrew's, Ladies of St. Annes (Mrs. Jos. Brisbois), 31 skirts.

This month the Canadian Red Cross Society is striving to raise $500,000 which is to be used in Russia for Red Cross aid. The appeal is being made in Canada now because thinking people everywhere are fired with admiration for the Russian people in their magnificent resistance to the ruthless Nazis. We are impressed with the vital necessity of doing everything possible to aid that resistance and medical supplies are sorely needed in Russia to-day. This campaign is sponsored by the Red Cross at the direct request of the Canadian Government. The Dominion objective is $500,000 and so far only $175,000 has been collected in Canada and of this, only $30,000 in the province of Quebec.

Cheques should be made payable to the Canadian Red Cross Russian Appeal and forwarded either to Headquarters or your nearest Red Cross branch. Official receipts will be sent subscribers.

"Russia's Resistance is Democracy's Chance."

"Did you hear that every single prize in our band contest was carried off by one man?"

"Good gracious. What did he get?"

"Six months."

ATTEMPTS TO TAKE LIFE WITH RIFLE; CRITICAL CONDITION

Paul-Emile Bertrand, 20, of White's Station, was rushed to the Hotel Dieu hospital in Valleyfield shortly after midnight last night suffering from self-inflicted wounds. His condition is reported as serious.

Bertrand, who was employed by Lawrence Legault at White's Station, apparently attempted to take his life with a .22 rifle shortly after nine o'clock on Tuesday evening. Neighbors were aroused by the shot and rushed to the scene only to find the young man bleeding profusely. Dr. F. G. McCrimmon, of Huntingdon, was summoned and ordered the patient removed to the hospital immediately.

Dr. O. E. Caza, chief surgeon at the hospital, immediately operated and found that the bullet had passed through a lung, liver and spleen. A blood transfusion was to be given Bertrand this morning.

The fracas apparently originated from love trouble, according to information given the Provincial Police at Valleyfield this morning.

Glenelm

The Kensington W.M.S. met at the home of Mrs. W. H. Woodside, on Wednesday afternoon. Mrs. J. E. Wilson, Mrs. D. L. Brown and Mrs. D. C. Elder were appointed delegates to the Annual Presbyterial held in Emmanuel Church, Montreal, in February.

The Kensington Y.W.A. was entertained by Mrs. Nicol Stark at her home on Saturday afternoon.

Miss Marjorie Salter spent the week-end with friends in Montreal and St. Eustache.

Mr. Graham Salter, R.C.N. stationed at Montreal, visited on Tuesday at the home of his parents, Mr. and Mrs. E. A. Salter.

Mrs. D. L. Brown was called to Montreal on Monday, through the illness and sudden death of her brother, Mr. J. Gale. We extend our sympathy to Mrs. Brown and family in their bereavement.

Huntingdon

On Tuesday afternoon the members of the Godmanchester Farmers' Club met in the County Building for the purpose of electing officers for the year 1942. The following have been elected to office: Dr. J. E. Caza, President; Rodolphe Billette, Vice-Pres.; Medario Laberge, Sec.; Jas. E .Barrett, Auditor, and Max Arthur, Nelson Robidoux, Elie Goyer, Leo Legault and Godfroy Leduc, directors.

Ormstown

Mr. Andrew McGerrigle returned to Donnacona, to resume his teaching duties, after having spent the holiday season with his parents, Mr. and Mrs. James McGerrigle.

Wife (in back seat)—Can't you drive a little faster, dear?

Husband—I can, but I'm not going to. This car is so expensive to run that I've got no money to spend when we get to where we're going.

Plumber—Lady, you don't associate with those scandalous people downstairs, do you?

Lady—Heavens, no! Such people err beneath me.

WINNERS OF PROVINCIAL TITLE

Members of the English River Rifle Club, Riverfield, Quebec, who recently won the Provincial title in the 5th annual Dominion Marksmen .22 Sporting Rifle Competition. They are—standing: E. G. Carson; G. B. Angell; R. Carson; G. A. Roy. Sitting: A. A. Allen; G. W. F. Barwick; W. M. Ramsey, Sec. Instructor and K. L. Nish. The team posted the excellent score of 1498-121X out of a possible 1500 points.

Application of Price Control Still Causes Some Confusion

Officials of the Wartime Prices and Trade Board for Quebec province said that there still seemed to be confusion in the minds of some people about the application of price control. There is no pegged price for any particular commodity, they said; each shop or store throughout the country has its own "price ceiling" for each item sold. The law states that no merchant may sell a given item for more than the greatest price he charged for that item between September 1 and October 11.

A letter received in the retail administration offices from a dealer in a small Quebec town complained that it was impossible for that merchant to sell articles at the "prices pegged in the big cities" because of increased transportation and handling costs.

The reply to this is that the small town merchant does not need to follow city prices. He must, however, keep his prices down to the same level at which he sold during the basic period September 15 to October 11.

Many questions have been received about rents. In this connection the Board officials announce that no rents may be raised above the level prevailing on October 11. That applies to cases where written or verbal leases were in effect on that date. Where no lease was in effect, the rent must be no higher than that set by the latest lease since January 1, 1941. And if no lease was in effect at all this year, the rental charged will have to be subject to approval by the Board.

About Christmas turkeys a spokesman says that housewives throughout Quebec should pay no more for their turkeys than they did between the dates September 15 and October 11. The only exception to that is the "specials" which were being saved for the Christmas market and which were not generally being sold during the basic period. These may run a little higher in price because they are of superior quality. The housewife can tell these birds, however, for they are wing-tagged and marked by government inspectors.

SMILES

Mistress—You serve on the left and take the plates away from the right.

New Maid—Why? Superstition or something?

Wife: "Hurry up, dear. I must go out and show off my new costume."

Husband: "Wait a minute while I cut the fringe off the sleeves of my coat."

Salesman: "This new model coach is as reasonably priced as anything you can find."

Prospective Buyer: "I don't care what the price is. How much is the down payment?"

Customer—Are you sure that these shoes are worth repairing?

Shoemaker—Oh, yes; I can put new soles and heels on them, and also some new uppers. The laces seem to be all right.

Teacher (pointing to a deer at the zoo)—Johnny, what is that?

Johnny—I don't know.

Teacher—What does your mother call your father?

Johnny—Don't tell me that's a louse!

"How do you like your new flat?" asked one neighbor of another. And the second neighbor replied, "Oh, we don't have room for complaint."

OPINIONS *of* OTHERS

ROOSEVELT'S SWEEPING POWERS

(Ottawa Farm Journal)

Those are tremendous powers that Congress has vested in President Roosevelt. For example:

1. Establish a censorship over all forms of foreign communications.
2. Redistribute Government administrative functions.
3. Modify defence contracts and permit them to be entered into without competitive bidding or performance bonds.

What is the difference between such powers and the power of Adolf Hitler? The fundamental difference that Roosevelt gets his powers from the United States Congress, which represents the American people, and that Congress, if it so wills, can withdraw them. In Germany there is no one, no agency, to withdraw or in any way interfere with or check the powers of Hitler. He is supreme, answerable to nobody; he can only be removed by a bullet.

And Mr. Roosevelt's powers are no greater, no more sweeping that the Parliament of Canada have conferred upon the Government (through our War Measures Act), and no greater or more sweeping than the Parliament of Great Britain have put into the hands of Mr. Churchill and his Cabinet.

Canadians perhaps hardly realize the powers given the Government of Canada under the War Measures Act. In practice they are all but limitless. Somebody once said that Parliament could do anything but change the sex of a child. Under the War Measures Act, as we read it, we sometimes imagine that the Government could change the sex of a child; could have a mighty good go at it, anyway. The catch in the thing, the great democratic safeguard, is that Parliament when it meets next January could repeal the War Measures Act. The people, fundamentally retain their power.

Japanese housewife explains to Canadian naval officer that her husband is at sea with his fishing boat. Scenes such as this were duplicated in all the Japanese settlements of the West Coast as the Navy started its thorough sweep.

BEAUHARNOIS GIVES $1,594 TO CHRISTMAS SEAL CAMPAIGN

Dr. J. A. Patenaude, County Health Officer, announced on Tuesday morning that Beauharnois District had contributed $1,594 during the Christmas seal drive.

Huntingdon County was very much to the fore in this campaign when the citizens donated $526 as compared with $87 in 1940.

Money contributed in each county will be spent in that county to alleviate the sufferings of those who might be suffering from tuberculosis.

Milk will also be distributed to children attending school and provision has also been made to supply medical aid to needy children or families whenever it is warranted.

Valleyfield, Beauharnois, Chateauguay and Huntingdon counties have been publicly thanked by the organizers for their magnificent contributions to this needy cause.

HUNTINGDON SCHOOL NOTES

Word was received this week from Mrs. Ruth B. Shaw, who is attached to headquarters of the Red Cross in Montreal that the Christmas Box from the Huntingdon High School, always welcome among the officials measured up to the usual standard and brought cheer and comfort to many of the sick and shut-ins.

Courses Outlined

Sergeant Hughes visited the school on Monday to outline what was required in the various courses of signaling, junior, intermediate and advanced. The boys will concentrate on this division of their Cadet work for the next two months. The Cadet Corps will enter a rifle team in a competition sponsored by the Dominion of Canada Rifle Association.

Rink In Operation

One of the finest rinks in the history of the school has been made behind the school. The boys, under the direction of Mr. St. Arnaud, manual training instructor, completed the rink in record time, working late at night in order to obtain a smooth sheet of ice. Although luck was against them when the weather changed over the weekend, there was skating on Tuesday.

Last Thursday, Miss Pringle and Miss Farnsworth entertained the staff to afternoon tea.

Basketball News

The Valleyfield Girls' Basketball team will play the Junior High School Girls' team on Friday night in the gymnasium at 6.30. The second game of the evening will be played between the Dundee Girls' team and the High School Senior Girls' team at 8.30. The Huntingdon teams will entertain their guests after the games. Corporal A. Goldberg of the Huntingdon Training Centre will referee both games.

Guests Entertained

After the meeting on Friday night Miss Arthur, Miss Nussey and Miss McEwen served refreshments to the speakers of the evening and members of the School Board in the Home Economics room.

Staff Meeting

Members of the staff attended the Philosophy of Education Study Circle which met at Principal Munroe's home in Ormstown on Thursday evening. They discussed the "Enterprise Program." The next meeting will be held at Miss Elsie Salter's on February 26th.

Obituary

THE LATE MRS. FRED WOOD

Funeral services were held for Mrs. Fred Wood, of Malone, N.Y., from Notre Dame Church on Monday morning. Burial was in Notre Dame cemetery.

Mrs. Wood died in the Alice Hyde Hospital Saturday afternoon after a long illness. Death was due to complications developing from a heart ailment.

Her maiden name was Emelienne Lefebvre, daughter of Mr. and Mrs. Alfred Lefebvre, formerly of Valleyfield, Que.

Mrs. Wood underwent an operation a month ago and had returned to her home. A week ago she returned to the hospital in a serious condition, complications having developed. Following her death her body was taken to the home of her sister-in-law, Mrs. Laura Menard, also of Malone.

Mrs. Wood, who was a devoted wife and mother, is survived by her husband and six children: Mrs. George Macro, Tupper Lake; Charles, Maurice, James, Bertha and Jeannette, all of Malone; three brothers, Paul E. Lefebvre, Montreal; and Albert and George Lefebvre, of Malone, a sister, Mrs. Paul Tardif, Montreal, and her mother, who resides in Valleyfield.

Among those from out of town who attended the funeral were: Howard Wood, Saranc Lake; Paul E. Lefebvre, Mrs. Paul Tardif, and Mrs. Victor Garry, all of Montreal; Miss Eva Lefebvre, Miss Yvonne Raymond and Albert Lefebvre, all of Valleyfield; Albert Pilon, St. Timothee, Que.; Mrs. Peter Wood, Nehasne; Mr. and Mrs. Homer Wood, Saranac Lake.

SMOKED BACON

Extensive studies have been undertaken by the Division of Biology and Agriculture in the National Research Laborities, Ottawa, on the relative perishability of smoked and unsmoked bacon. In the storage studies, unsmoked bacon was found to be rancid ofter 42 days, whereas the smoked product was usually satisfactory after 70 days. Wiltshire bacon is usually matured for two or three weeks before smoking and then consumed immediately. This procedure is believed to produce the most desirable flavor.

Hitherto, Canadian Wiltshire sides have been exported to Britain in the "green" or unsmoked condition and smoked there. If smoking were employed as a method of preservation during transit, the bacon would have to be smoked shortly after cure and then be carried through a relatively extended transport period before reaching the consumer. These studies are being continued and trial shipments are being made to Britain.

Southward Flight of Snowy Owls

Since mid-October an unusually large number of snowy owls, whose natural home is the Arctic, have been flying southward through the settled regions of Eastern Canada. A study of the extent, duration, and density of the southward flight of these birds is being made and persons who see snowy owls can assist by reporting their obervations, giving date and place, to the National Parks Bureau of the Department of Mines and Resources.

Information received so far indicates a large number of snowy owls have been seen or shot in Ontario and Quebec and that many more have flown on to the Maritime Provinces and the United States. More than two hundred of the birds have already been reported in the New England states.

The snowy owl is conspicuously white, has no tufts of feathers projecting from the rounded contour of its head, and is about two feet long. The white of the plumage is generally broken by a number of dark bars. This owl is generally silent and does much of its hunting by daylight. It prefers open country and may often be seen perched on a haystack, post, or other elevation.

The food of the snowy owl consists largely of small mamals, such as rats, mice, and lemmings. Such food becomes scarce in the Arctic about once in four years and it is believed that this scarcity is the cause of the occasional wholesale southward flights of snowy owls. Since Arctic foxes which are the principal fur bearing animals of the Artic, also depend largely for food on small mammals and are reduced in numbers when food is scarce, it is probable that a big southward flight of snowy owls may be considered an indication that in the following year the output of fur in the Artic will be light.

When snowy owls are, as at present, in southern settled areas, they naturally seek chiefly rats and mice. Because such animals are numerous around open garbage dumps, the snowy owls tend to congregate there. The effect of their presence, under these circumstances, is beneficial. There is no good reason for killing them unless, under stress of want, they are actually attacking poultry.

ELECTED DIRECTOR

Alfred Laungevin, Manager of The Chateau, Huntingdon, who was re-elected a director of the Province of Quebec Hotel Association.

SOLON'S WISE LAWS

Solon, the celebrated Greek reformer, before the Peloponnesian war, aided present day home owners, renters, and the real estate business. The privilege of willing one's holdings as one pleased, now taken for granted, originated with Solon. Before his time no one, not even the wealthy, could dispose of their property as they wished. Estates of all deceased persons went to their families. Plutarch says that the "Archon" esteemed friendship a stronger tie than kinship and affection stronger than necessity, and thus allowed every man to dispose of his estate, but with some restrictions.

Preacher—Wilt thou take this woman to be thy lawfully wedded wife?

Groom—I wilt!

Data on Men Serving in His Majesty's Forces Wanted Now

List of Citizens Who Join Colours Will Appear Weekly in the Gleaner—Next of Kin Invited to Forward Information as Soon as Available

The Gleaner asks the next of kin of men serving in Canada's Active Armed Forces to forward the following information as soon as possible of men whose names have not as yet appeared in The Gleaner. Mail it to The Gleaner offices at your earliest possible convenience.

Huntingdon Boasts Modern Filtration Plant . . . .

(Continued from page 1)

build a filter plant whereby citizens would not fear using it for any purpose whatsoever.

New Plant Warranted

The first steam system had a capacity of about 125,000 gallons per day. In 1925 the consumption was about 300,000 gallons and the building of a filter plant had become a necessity just as much as the expansion of 1941 was warranted.

Capacity of 1,250,000 Gallons Daily

In the brick construction of 1925, two filter beds with a total capacity of 500,000 gallons daily were built and it went in operation in February, 1926. This system, as the present one, was operated electrically and with gasoline for fire protection and emergencies. Two additional beds with a large capacity were installed in 1941. It is estimated that with the present equipment Huntingdon can supply some 1,250,000 gallons of water daily for any use whatsoever, or ten times what was originally set upon as Huntingdon's water requirements.

The water pressure in Huntingdon during 1934-35 was weak and again the Town Council was called up to make improvements to remedy this need. Consequently, a modern, stream-lined steel water reservoir was erected to assure equal water pressure in all sections of Huntingdon. The improvement was satisfactory until two years ago when thousands of additional gallons of water were needed to meet the ordinary demands of the consumers. Something had to be done and done quickly.

D. J. O'Connor, M.P.P., president of O'Connors Inc., was awarded the contract for building the new addition to the filtration plant while Francis Hankin & Co., of Montreal, supplied the equipment.

Four Filter Beds in Use

At the filter plant the gasoline and electric pumps are of great importance. Two are motor driven pumps to pump raw water to the filter beds; two motor driven to pump clear water; one motor driven pump for washing the filters; two gasoline driven pumps for pumping raw water; one gasoline motor driven pump for pumping clear water or for pressure in the event of a fire. Two are operated by gasoline for emergency and fire protection; two are motor driven pumps for commercial and domestic use; two for pumpng and clearing and another operated by gasoline for unexpected falterings in the regular equipment.

There is one idle bed at the present time as the demand can be met easily with three pumps in operation. This fourth bed can be put in use on very short notice.

It may be considered as most difficult to give a concise description of the operations of this filter plant. In brief the plant operates as follows:

Operation of the Filtration Plant

The water flows by gravity from the Chateauguay river into the building and thence to a tank. It is pumped from there into a mixing chamber and by gravity into the setting basin or coagulation basin; and from there to the filter beds. The alum causes the water to coagulate or "flake" so as to be of such a size as to be separated from the water by filtration. From this basin the water passes into two large coagulation basins containing no less than four feet of fine gravel and sand. The coarsest of the gravel is about three-quarters of an inch in size and is graded down to the size of a pea. The sand used is the finest obtainable. On top of the gravel is a bed of sand.

The water to be freed of the flakes of dirt passes through this bed of gravel and sand into the clear water well and the impurities are carried off by a system of washing the sand, and emptied into the river, a considerable distance from the intake. From these basins or wells the water flows into the clear water well, which is very large, having a capacity of around 150,000 gals. of filtered water. The water in the clear well is clear of dirt but not necessarily free of germs, so before the water is pumped to the water tank for consumption by the general public it is treated with chlorine. Chlorinated water has sometimes a disagreeable taste but should not be feared. The amount of chlorine to be used is stipulated by officials of the Provincial Board of Health. Many might wonder how the gravel in the basins is kept clean.

To pump the water to the tank an electric motor and force pump is required and in the event of fire when extra water is needed the gasoline engines will be turned into use producing a great flow of water at high pressure.

The former filter plant which was erected at a cost of $29,000. was 26x65 in size while today it measures 130x26x40x20. Reinforced concrete was used in the structure along with cement blocks with brick face. It is practically fireproof.

Present Demand About 750,000

The demand for water in Huntingdon today is about 750,000 gallons daily. With the present equipment in operation it leaves a surplus of 500,000 gallons a day which can be used for other industries which might be considering to establish in the Town of Huntingdon.

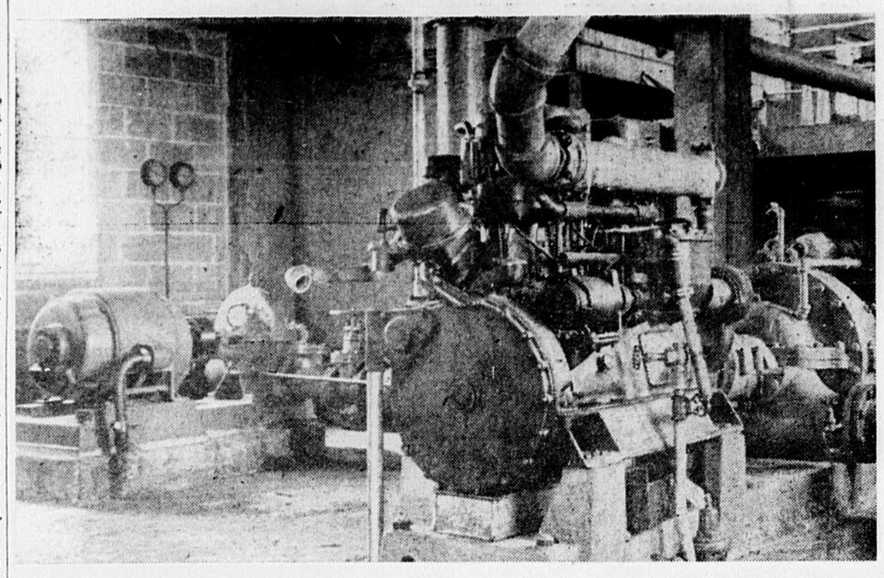
Taxes Increased in 1942

The members of the Huntingdon Town Council had to increase the water taxes for 1942. It is intimated that the slight advance does not justify the expenditures made, when all details are taken into consideration. For example, in 1940 the revenues of the water department amounted to $7,943. and in 1941 the secretary-treasurer expects to issue a financial statement showing revenues of about $11,000. The expenditures at the filter plant and the installation of a new pipe line and sewer reach the amount of $100,000. The building itself will cost about $40,000, while the account of Francis Hankin & Co., will be $25,000. The engineer's fees are $5,000. The installation of a new water main from the filter plant to Lake street and along part of Wellington street cost the Town $27,477 and other incidentals will easily bring the total expenditures to the $100,000. mark.

An Official Opening

The citizens of Huntingdon will be invited to an official opening of the water filtration plant in the near future at which time they can get first hand information as to the actual operation of this gigantic machine which is so vital to the welfare and security of the citizens of this town.

LARGE GAS ENGINE AND PUMP



The filtration plant at Huntingdon is equipped to meet all water requirements. It also has a powerful gasoline engine, at right, which is used in the event of the power being turned off or for extra pressure at the time of a fire. At left is a clear water pump. At the extreme right of photo is a regular water pump. This equipment is situated in the new part of the filtration plant.

Hemmingford Overseas Gift Fund Reports on Activities

Letters of Thanks Received From Hemmingford Boys Now Serving Overseas—Organization Doing Essential Work to Keep up Soldiers' Morale

Since reporting our activities previous to Christmas we have been fairly active. Motion pictures were shown and despite a very bad storm the show was well patronized. Lately the mails have been bringing letters of thanks from several of our boys and their replies have been very appreciative. After reading them one is certain that this organization is doing an essential piece of work towards keeping up the morale of a fine bunch of boys. Here are portions of their letters:

Parcels Received

"It was with a great deal of pleasure that, upon reporting back to my quarters this evening to find your parcel. I glanced at the name of the sender and you may imagine the added pleasure it gave me to unwrap the contents. And when I had finally extracted everything from the box, there lay just about all a soldier could desire upon my bed. That you should think of the boys over here in these times reflects a splendid spirit from back home. I shall share this gifts with the boys in my Company. They will know, too, of the kind thoughts of our people in Canada."

Capt. T. J. Warner.

"The very nice parcel was very much appreciated by all my comrades who shared in it and I hope that whatever we can do for our country, when given the chance, will repay the kindnesses shown to us by the folks at home for they certainly have been numerous."

Cpl. A. N. Leatherbarrow.

Yuletide Greetings

(Telegram) "Parcel received. Many thanks. Best wishes for Christmas and the New Year. Good luck."

Tpr. Mac Orr.

"Just a line to acknowledge the receipt of your lovely gifts. I received them all in good order. I am saving them until I go to sea again as we do not get many luxuries out there."

Ord. Sea. E. F. Fisher.

"Received the lovely Christmas box and the three hundred cigarettes to-day and I am taking this opportunity to thank everybody in Hemmingford who contributed to make up the lovely box. It is very good to know that the people of your home town are standing behind you."

Tpr. K. M. Johnson

"I just received your lovely parcel and I greatly appreciate it as everything of that kind is very hard to get here. Well, there is not much more news I can give. We boys from home are sure going to miss our homes at Christmas. I am asked out to friends in Yorkshire."

Tpr. K. R. MacKay

Visiting

"I am writing to let you know I am feeling fine and that I arrived over here safely. I expect to be going down to see Alex. and Isaac Lawrence and Roland Myre pretty soon. Be seeing you soon, I hope."

Driver R. Swales

"I wish to thank you and the other members of the Overseas Gift Fund for the lovely parcel I received the other day, which was very welcome. I hope all is well in Hemmingford. It is as good as can be expected over here. Wishing you the Season's Greetings."

Pte. Leslie Dey.

Financial Statement

The following is our financial report since December 1, 1941:

Balance in bank		$9.65
Refund on postage		7.80
Cigarette boxes		5.00
Mrs. M. B. Fisher		23.85
Moving pictures		23.15
Rev. W. A. Howard		.50
		$69.95
Cigarettes	2.00	
Parcels	10.12	12.12
Balance		$57.83

Hemmingford Overseas Gift Fund

C. E. Petch, Sec.

Robson

Mr. and Mrs. Robert Turnbull and family of Plattsburg were Sunday guests of Mr. and Mrs. F. A. Sweet.

Mrs. W. D. Sample is a patient in the Barrie Memorial Hospital, Ormstown.

Mr. and Mrs. Prosper Maynard and Mr. Armand Maynard attended the marriage of Mr. Roy Maynard and Miss Therese Lussier in Verdun on Saturday.

Mr. and Mrs. Wilfred Maynard and two children of Verdun were week-end guests of Mr. and Mrs. Jos. Barriere.

The marriage of Miss Therese Lussier to Mr. Roy Maynard took place in Montreal on Saturday morning, after which the bridal couple and their friends had a wedding breakfast at the bride's home on Delorimier St. Later in the afternoon they motored here and had a dinner at the home of the groom's father and mother, Mr. and Mrs. Prosper Maynard. In the evening friends gathered at the Hemmingford Hall where a reception was held and dancing was enjoyed for a few hours. They received a great number of beautiful and useful gifts. They are spending part of this week with their relatives here. They will reside in Montreal. Mr. Maynard is employed by the Borden Milk Co.

Miss Alice Maynard and Mr. Emmett Maynard, Mrs. Lussier and Miss A. Lussier of Montreal attended the dinner and reception for their brother on Saturday night.

Roxham

Mr. and Mrs. Kenneth Akester and children, Audrey and Luena of Montreal spent Sunday with Mr. and Mrs. Gilbert Fewster and Mr. and Mrs. Robt. Akester.

Mr. and Mrs. Warren Sweet of Mooers, N.Y., were Sunday visitors of her parents, Mr. and Mrs. Charles Fewster.

Mr. Leslie Akester of Joliette, Que., and Miss Kathleen MacAleer of Montreal, were Sunday guests at the home of Mr. and Mrs. John Smith.

A motorist was helping his extremely fat victim to rise. "Could you not have gone around me?" growled the victim.

"Sorry," said the motorist, sadly. "I wasn't sure whether I had enough gasoline."

"My sweetie puts everything he has into his work," boasted the blonde.

And her catty girl friend sneered, "Oh, so he makes hamburgers."

Franklin Centre

Messrs. Harry Porter and Gerald Goldie spent Thursday and Friday in Montreal.

Miss Hilda Currie has accepted a position in Montreal.

Miss Mae Leahy of Montreal, spent the week-end at home.

Miss Mary Cassidy and Mr. J. Brennan of Montreal spent the week-end at the home of Mr. and Mrs. Philip Cassidy.

Miss Kathleen Cassidy spent the week-end with her parents, Mr. and Mrs. D. Cassidy.

AC2 Emerson Mulhearn, of the R.C.A.F., of Trenton, spent the week-end with his parents, Mr. and Mrs. O. Renaud.

Mr. Chas. French, R.C.N. of Montreal spent the week-end with his parents, Mr. and Mrs. R. French.

Mr. and Mrs. Albert Curran, Mr. and Mrs. Keith Curran, Harold and Dorothy and Pte. Jas. Curran of Huntingdon, were Sunday guests of Mr. and Mrs. B. M. Johnson and family.

Mrs. Arnold of Montreal is spending a few days with her parents, Mr. and Mrs. H. Porter.

Miss Jean Manning is visiting her uncle, Mr. F. S. Manning, in Toronto.

AC2 Lloyd Bruce, R.C.A.F., of Trenton and Mr. Edgar Bruce, of Montreal, spent the week-end with thetir parents, Mr. and Mrs. Bryce Bruce.

Mrs. McNeice and Mr. Gus. Waddell of Montreal spent the week-end with Mrs. Smith.

Miss Libby Waddell is visiting with Mrs. W. A. Sharpe and family.

Mrs. Smith and little daughter, Mary, are spending this week in Montreal.

Mr. and Mrs. Clarence Blair spent Sunday with Mr. George Moore and family.

Mr. and Mrs. P. Cassidy and daughter, Shirley, Mrs. Fleming of Delson and Miss Bessie Shovelin, of Montreal, were Monday guests of Mr. and Mrs. P. Cassidy, the occasion being Mrs. Cassidy's 87th birthday.

The W.M.S. held their meeting at the home of Mrs. Jas. Manning on Thursday, Jan. 15th. It was decided that some quilts would be sent to the Red Cross. The afternoon was spent in sewing and much work was accomplished.

The Housewife's Problem—Supper Dishes

What shall we have for supper? Something that is just a little different. Something not too extravagant nor too difficult to prepare. Something that will keep your family singing your praises for many a long day afterward. This is the veritable pot of gold at the foot of many a housewife's rainbow.

Macaroni Beehives

Buy uncut macaroni and allow one long piece per person, cooking in the usual manner. When done drain and rinse in cold water. Brush inside of custard cups or individual moulds with melted butter. Line the cups with macaroni by coiling pieces around the inside beginning at the bottom. Fill in the centre of the cup with the following mixture:

2 cups cooked meat, fish or vegetables
2 tablespoons milk
1 tablespoon parsley
1 egg
2 tablespoons butter
¼ cup bread crumbs
Grated onion, salt and pepper.

Mix melted butter, bread crumbs, meat, beaten egg, milk and seasonings. Put into the lined mould and if desired cooked marcaroni can be used to cover the top. Place in a pan of water and thoroughly heat in a moderate oven about 30 minutes. When ready to serve unmould and garnish with tomato sauce and suitable accompaniments such as parsley sprigs, green pepper rings, lemon slices, etc. This makes a most attractive dish and by varying the filling you can always have a surprise.

Sausage and Spaghetti Scramble

1 cup cooked spaghetti
1 lb. pork sausages, cut in pieces
1 cup canned peas
2 cups canned tomatoes
1 medium onion, minced
2 cups bread crumbs
½ cup grated cheese
Salt and pepper.

Cook the sausages. Butter casserole. Place layer of Spaghetti on bottom and continue to alternate with layers of all other ingredients but bread crumbs and cheese which are combined together and sprinkled over the top. Bake in a moderate oven 350 degrees F. for 25 minutes. This recipe serves 4-5.

Creamed Chicken in Noodle Rings

2 tablespoons butter
2 tablespoons flour
2 cups milk
Salt and pepper
2 cups diced cooked chicken (or turkey)
2 tablespoons pimento or green pepper.

Melt butter. Blend flour, add heated milk and cook 10 minutes in a double boiler, stirring well. Add the diced chicken, pimento or green pepper and heat thoroughly. Serve this in a ring of piping hot buttered noodles. 1½ cups of uncooked noodles will be sufficient to make a ring for the creamed chicken.

Macaroni Mousse

4 cups milk
¼ cup butter
3 eggs
1 pimento finely chopped
1 tablespoon chopped onion
½ teaspoon salt
1 cup bread crumbs

Combine ingredients in order given reserving ¼ cup bread crumbs. Turn into buttered casserole. Sprinkle remaining crumbs on top. Bake in a pan of hot water in moderate oven 350 degrees F. for 25-30 minutes. Serve with mushroom or tomato sauce.

Ormstown

On Saturday, Jan. 10th, the ladies curled, the teams and scores being:

Mrs. Rember	Mrs. Rodger
Mrs. McCaffrey	Mrs. Mann
Mrs. Barrington	Mrs. Derby
Mrs. McIntyre	Mrs. McLaren
(Skip)— 5	(Skip)—14

Tea was served by Mrs. Derby and Mrs. McCaffrey, after which a social hour was spent.

Miss Betty Taylor spent the week-end at Franklin with Miss Doris Stevenson.

Mrs. Christena Armour and Mr. Ross Elliot have returned to their teaching duties at Granby, after having spent the past three weeks with their parents here. An addition is being built to the Granby School.

Miss Verna Barrington returned to Dunham, Que., on Tuesday to resume her studies.

Miss Mildred Graham of McGill University is spending this week at her home here.

Mrs. Merrill Barrington of Montreal was a week-end guest of Mrs. Mervin Barrington.

THE PRESIDENT'S DOG

"FALA," President Roosevelt's Scotch terrier, is probably the most famous dog in America today. Fala, also spelled Falla, was present at the Roosevelt-Churchill meeting a few months ago, and his escapades then were published in many newspapers throughout the country. It was reported that he escaped from a ship's officer, who was attempting to keep him out of mischief while the important conference was on, and jumped playfully around the President and Mr. Churchill. That is the sort of dog Fala is; mischievous and lighthearted, though he does at times assume an air of dignity befitting a dog belonging to the Chief Executive of the nation.

Fala, who was presented to the President by a close friend, is short for Murray of Falahill, one of President Roosevelt's rugged Scottish ancestors. The name, therefore, is highly appropriate since Fala's canine ancestors originally came from bonny auld Scotland.

Fala receives only one meal a day, consisting of mixed vegetables and meat, and this is usually served to him by the President, who takes no chances on endangering the dog's health by overfeeding him.

The Scottie gets sufficient exercise too. He takes walks accompanied by either a secret service guard, or the President's colored valet. He also has a special enclosure near the executive offices to which he can retire, as one reporter said, "when the goings inside get too tiresome."

The President during his leisure moments often reads his favorite detective stories with faithful Fala by his side. Between man and dog there is that inseparable bond which exists between a dog and his master. Fala appears constantly in company with the President and has travelled quite extensively. He has met many prominent people, but, friendly though he is, he naturally reserves his affection for the Roosevelt family, particularly for the President.

SOLUTION

Sometimes when I go walking nights
Along a dark, still lane,
I'm sure I want a dog with size
And prestige, like a Dane.

And then I hear somebody boast
Of his dog's pedigree
And so I think with changing mind,
"A dachshund it will be."

And still I see another proud
As he shows off his pet,
A keen and eager setter, and
I think, "That's what I'll get."

From collie, chow, to Boston bull
I flit just like a bee,
And end up by keeping some stray pup
Who comes to live with me!

THE PIGEON IS DRAFTED

Sturdy little messenger,
Eager and intent,
In the feathered uniform
Of your regiment—
Do you dread the passage home
Through disputed skies?
Do you question or debate
Where your duty lies?

In the moment you attain
Freedom of release,
Instinct reasserts itself,
Gentle bird of peace.
Love of home still motivates
All your active span;
Such a heritage would grace
Either bird or man.

Athelstan

Ladies Aid Society

The January meeting of the Presbyterian Ladies' Aid Society was held at the home of Mrs. Wm. French on Thursday afternoon. One quilt for Red Cross Relief work was finished and other quilt blocks made. Letters of acknowledgement from eight of the sixteen parcels sent to local boys overseas, were read. Interesting letters were received from Emmet Carr, Danny Elder, Rod Elder, Arthur Hampson, Lester Reid, Laurence Roy, Allan Rowatt and David Watson. The ladies hope the remaining eight boys will receive their parcels eventually. Lunch was served to over thirty members and invited guests by the hostess, assisted by Mrs. John Ross, Mrs. Thos. Ross and Mrs. Watson.

Algebra Should be Eliminated From High School Course—Curbs False Boasting, Such as is Heard in Fish Stories—People Brought Back to Earth by War

Arthur Dean and I are in accordance once more. After hearing the true story of how a young girl's evenings were jammed full of home study, and how she actually had to complete school sewing at home in what might otherwise have been a few rare moments of leisure and rerelaxation, my first thought was that it was no wonder that young people in their thirties were now not infrequently stricken with paralysis and other forms of invalidism. My second thought was, Surely some subject or subjects should and could be eliminated from the High School course, and if so, which? I decided that it ought to be al-gée-bra, as an old Scottish acquaintance used to pronounce it, with the accent on the second syllable. I was "in the swithers" between algebra and geometry, but the latter, as I see it, exerts a moral influence on the student thereof, teaching the addle-headed to give reasons for the faith that is in them. What I mean is that it compels you to prove your statements, thus working a work of truth. And it curbs false boasting, such as is heard in fish stories, because Euclid, the ancient Greek, corners you and shames you if you pretend you have done something which you haven't. With Euclid you went back to the land, and might join a surveying party on the frontiers of civilization without the risk of losing yourself in primeval forests. In spirit you could say with Sir Alexander Selkirk,—

I am monarch of all I "survey,"
My right there is none to dispute.

Who Likes Algebra?

But Algebra! I never liked any of it except the problems, and many of them even took on a forbidding look by the introduction of English money. What sort of a cook, or even man, was I. Todhunter to mix up the flour, raisins, and suet in his algebraical pudding with pounds, shillings, and pence instead of milk and eggs? And nary a grain of sugar, salt, or spice, no, not even a grate of nutmeg. If you don't believe me, listen here,—

What is a Pudding?

A pudding consists of 2 parts of flour, 3 parts of raisins and 4 parts of suet: flour costs 3d a lb., raisins, 6d., and suet 8d. Find the cost of the several ingredients of the pudding when the whole cost is 2s. 4d.

Away With Todhunter

The extravagance and resultant indigestibility of Mr. Todhunter's suet pudding must be patent to all. In his time, this might have been deemed of no consequence in a mathematical problem, but under our modern system wherein cooking lessons and the co-relation of subjects are emphasised, it would seem an inconsistency. Twice as much suet as flour! When we are being urged to conserve every atom of fat! Unthinkable! Away with Todhunter!

A Combination

But really the combination of letters and numbers gave me a feeling such as, I fancy, might be raised in one's mind upon first attempting the study of the Chinese language with its myrial characters.

Is Algebra Useless?

What does Dr. Dean say? He has been a teacher, and he considers that algebra is useless except to prepare for professional engineering. He says in part,—I cannot see that algebra contributes one iota to a young person's health or one grain of inspiration to his spirit. I can see no use for it in the home as an aid to a parent ,a citizen, a producer, or a customer. It is one of those subjects that have kept children from finishing high school, . . and from enjoying much of their home study work. Behind the question of algebra is the larger question of academic tradition which teaches that certain subjects long known to be useless, are still to be retained. Algebra and a few other subjects are keeping millions of children from becoming geniuses and artists. But the schools are still kow-towing to the hoary past instead of looking at boys and girls to see what they need to-day in life for their minds, bodies and spirits.

Ceased Certain Subjects

Dr. Dean deprecated the present tendency in the States to try to save money in the schools by doing away with the teaching of music, manual training, nature study, physical training, and other subjects which some people are plased to call "frills and fads", while still retaining algebra, Latin, mediaeval history, etc. He claims that whatever subject cannot be absorbed into the child's cultural life should be abolished.

Affect Countries

The war in a terrible way, as old Euclid in his mildly interesting way, is bringing people back to earth, on to their feet, and up against eternal truths. You hear it said that, in terms of money, every country will be bankrupt, and we shall be bankrupt, too, before the conflict is ended. It is bound to affect education in a drastic degree. Perhaps it will be seen that some of the "frills and fads" of which Dr. Dean makes mention are natural and true means of expression and more healthy from the educative standpoint than some of the classical standbys. Take Latin, for example. About the time of Queen Elizabeth and before people had to learn it if they wanted to read at all they must know Latin for almost all the books had been written in the dead languages. Such knowledge was a necessity to culture. Latin still has its time and place in an educational system, but it should not be allowed to usurp the place of other things more essential to the live interests of youth. Conventional grammar, i.e. formal grammar rules have been rightly superseded to some extent by practical exercise in correct language, spoken and written. Given a taste for good reading, and this is largely a matter of training, the modern boy and girl will be apt to follow up in later life the facts of history and geography which he is learning to-day in every hour's news.

Havelock

Mr. Oswald Mannagh of Valleyfield was a recent guest at his home here.

Mrs. M. Beattie spent the past week with friends in Mooers.

Mrs. Roy Sayers and Children are spending a while with friends at Bath, Ont.

Mr. and Mrs. Arthur Buchanan and family of Howick were guests of her brother Mr. F. Buchanan, on Sunday.

Glad to report Mrs. Wilfrid Robinson is feeling much better and able to enjoy a short motor trip.

Powerscourt

Mr. Walter Boucher of St. Boniface, Manitoba is visiting his mother, sister and brothers here. Mr. Boucher hasn't been back East since he left for the West over 30 years ago.

Mrs. E. M. Wood entertained a few ladies on Friday at a quilting for Red Cross work.

Messers Thos., Clarence and Miss Mildred Forrester of Ormstown were guests Thursday of Mr. and Mrs. Russell Milne.

Mr. John Koski spent the week-end at his home here Mrs. Perjil of Montreal was also a week-end guest at the Koski home.

Mr. and Mrs. Wm. Graham and daughter Hazel of Chateaugay, N. Y., were Sunday guests of Mr. and Mrs. Russell Milne. Miss Doris Graham who has been a guest at the Milne home for the past week, returned home with them.

Mrs. Eldon Ross entertained a few little guests on Saturday to a birthday tea for little Miss Jean Pattanasoff, it being her 7th birthday.

BUCKLEY'S MIXTURE

Aubrey-Riverfield

Mrs. Minnie Kyle had the misfortune to fall on the slippery road on New Year's Day, fracturing her arm at the shoulder. She is convalescing at the home of Mr. and Mrs. W. W. Orr. Her many friends wish her a speedy recovery.

The farmers are busily engaged harvesting their ice which is of good quality and thickness.

The Misses Ruth and Hazel Reddick, Elsie Angell, Joyce Terry and Beaulah Gruer of Montreal, spent the week-end at their respective homes.

Mrs. Ewart Orr entertained on Monday evening in honor of her little son Raeburn's ninth birthday. The table decorations were in pink and white with a beautifully decorated birthday cake, and a very enjoyable evening was spent by the little folks.

The Riverfield Y.W.A. held their annual meeting on Tuesday evening at the home of Miss Olive Robertson, when the following officers were elected for 1942: President, Mrs. Gerald Roy, Vice-President, Mrs. Willis Craig; Sec.-Treas., Mrs. Aubin Reddick; Corresponding Secretary, Mrs A. MacFarlane; Supply Secretary, Miss Gladys Ritchie; Welcome and Welfare Secretary, Miss Mildred Hay. A vote of thanks was given the retiring officers for their very efficient work during the past year.

Miss Vera Bennie is spending some time at the home of Mr. and Mrs J. J. Peddie, as Mrs. Peddie is in the Barrie Memorial Hospital, where she underwent an operation. Her many friends wish her a speedy recovery.

Mrs. Agnes M. Stewart is at present the guest of her brother, Mr. Jas W. Bruce.

Mr. Ewart Orr is busily engaged making ice in Aubrey rink and if this cold weather continues the formal opening of the rink will take place on Saturday evening.

Chateauguay Basin

Mr. and Mrs. M. Russell Clinton and daughter, Joan, who visited with their parents, Mr. and Mrs. W. de Witt Clinton and Mrs. Peter Reid have returned to London, Ont.

Sergeant Robert C. MacGlashan, Co. A, Platoon 15, C.A.T.C. No. 41, of Huntingdon, Que., visited with his parents Mr. and Mrs. C. MacGlashan en route to Farnham, P.Q.

Mr. and Mrs. Douglas Gilmour were guests at the Gilmour-McNeill wedding and reception at Verdun.

Mr. and Mrs. F. E. Dickie spent the holiday season at North Hatley, Que., and attended the weddings of Mrs. Dickie's two nieces, Miss Mary Jean Woodard to Flight Sergeant Gordon E. Beane, of the R. C. A.F., Montreal, and Miss Barbara Woodward to M. Stewart Reed. Returning home Mr. and Mrs. Dickie were accomapnied by Reed Rexford of Newport Vt., and Philip Woodard of North Hatley, who are returning this week to their respective homes.

Miss Marjorie Goodfellow has returned from a delightful holiday spent at Vancouver, Victoria, B.C., Skagaway, Alaska and visited recently with her aunt, Mrs. Wm. Watt. Congratulations are extended to Miss Goodfellow who has been assigned a position at the Lachine General Hospital.

Mrs. Charles Lang, Misses A. E. Lang, Barbara Reay, Mr. and Mrs. Ernest Rowe and Mr. T. E. A. Rowe of Westmount were Sunday guests of Mr. and Mrs. Ross Lang at Langholme.

Mr. Ralph Stephenson and L/AC Sydney G. Stephenson, R.C.A.F., of Montreal, were recent Sunday guests of their aunts, Miss R. Macfarlane and Mrs. D. Lang.

One of the greatest limiting factors in profitable poultry production is disease. It is impossible to maintan a healthy flock unless one starts with disease-free chicks and maintains this desirable condition.

I think you will get a real thrill from this "something different for dessert"—it is easy to make. Follow the directions and the family will say "it's great!"

Chocolate Roll (Serves 8)

4 eggs, 4 tablespoons Fry's Cocoa, 4 tablespoons fruit or icing sugar.

Beat the egg whites stiff. Add sugar. Beat the yolks until lemon colour. Add cocoa, mix quickly with first mixture. Spread in a jelly roll pan lined with a well buttered sheet of brown paper and bake 8 to 10 minutes in a 400 degree F. oven. Whip one cup of cream with 4 teaspoons of sugar and ¼ teaspoon almond extract. Spread half the cream on cake. Roll like a jelly roll. Spread remainder of cream on top.

Do write and tell me how you got on with this recipe. It's one of my favourites. The address is: Jehane Patenaude, Fry-Cadbury Ltd., Montreal. And if you wish, I'll send you a Free copy of our latest Recipe Booklet, "Chocolate Around the Clock," it's full of modern chocolate novelties.

Howick

The Akita C.G.I.T. met at the home of their leader, Mrs. Alister McArthur on Saturday, Jan. 17. The roll call was responded to by a New Year's resolution. It was decided to hold a Valentine tea. Refreshments were served by the committee.

Mrs. Evan Lewis of Westmount visited last week with her mother, Mrs. Charles Gordon.

Miss Pauline Brosseau spent the week-end with friends in Montreal.

Miss Betty Roy visited with friends at Cowansville and Sweetsburg.

Cpl. Ralph Logan and Mrs. Logan of Montreal were week-end guests of Mrs. and Mrs. W. E. Logan and Mr. and Mrs. J. C. Steele.

Miss Mildred Rorison of Montreal was the week-end guest of her parents, Mr. and Mrs. J. S. Rorison.

Ste. Agnes

Mr. and Mrs. Jos. Platt entertained twelve young people on Tuesday evening, on the occasion of the birthday of their daughter, Phyllis. Supper was served by the hostess, after which card playing was enjoyed for the remainder of the evening. Those present were the Misses Joyce McNicol, Gloria Currie, Margie MacPherson, Doris Fraser, Jean Arnold and the Messrs. Harold Fraser, Franklin Cameron, Hugh Ferguson, Cameron Leslie, Stewart Ferguson and Harold Arnold.

Mrs. Arnold has been confined to bed for the past two weeks.

District News Notes

The Gore

The annual meeting of the Gore United Church was held at the home of Mr. and Mrs. Cyril Foster on Tuesday evening, Jan. 13, with a good attendance. The meeting opened with prayer by Rev. T. F. Duncan. A very satisfactory statement for the year 1941 was read by the treasurer, Sam Herdman. The Sunday School report was read by the superintendant, John Ruddock. The W.M.S. report was read by the treasurer, Mrs. Willie Graham. The Y.P.S. report was read by the treasurer, Allister Neely. The Mission Band and Baby Band reports were read by the leader, Mrs. Carl Anderson. All these reports showed an increase in donations. The election of officers took place and are as follows: Sec.-treas., Sam Herdman, re-elected; Elder, Allister Neely, re-elected; Stewards, Willie McCartney, Earl Fennell, Frankie Mason and Willie Graham. Auditors Cyril Foster and Norman Fennell. Caretaker Willie Graham re-elected. At the close of the meeting lunch was served by Mrs. Foster, assisted by the ladies. On Wednesday afternoon the annual joint meeting of the three churches, Franklin, Rennie's and the Gore was held in Rennie's church. We are glad to note that at the meeting a unanimous vote was given that Rev. T. F. Duncan remain with us another year. Mr. and Mrs. Duncan have been with us for the past 11 years.

Mrs. Clyde Shepard, of Montreal, Mr. and Mrs. George Brassard, of Windsor, Ont., and Mr. Cecil Anderson of Woodstock, Ont., are spending a few days at the home of their brother and sister-in-law, Mr. and Mrs. Carl Anderson, having been called here owing to the death of their father, Mr. Jos. Anderson. Mr. Brassard returned to his home on Sunday.

Aircraftsman Jack Donnelly, of Ottawa, Mrs. Donnelly and Miss Eleanor Anderson, of Huntingdon, were week-end guests of their parents, Mr. and Mrs. Stanley Anderson and attended the funeral of their uncle, the late Joseph Anderson on Saturday.

Mr. and Mrs. Frank Peck, of Chateagay, N.Y., were recent guests of Mrs. Bella Anderson.

Mrs. Angus McNaughton has returned to her home after spending the past 2 months with her daughter, Mrs. Jessie Anderson.

Mr. and Mrs. Ernest Wilson and little son Robert, of Montreal were the week-end guests of her mother, Mrs. Jessie Anderson. Little Robert remaining for some time with his grandmother.

Mr. and Mrs. Sam Herdman, Helen, Doris and Joan Anber were Tuesday supper guests of Mr. and Mrs. John Elder in honor of their grand daughter Maureen's ninth birthday.

Mr. and Mrs. Wilmer McMillan and Joyce Pollock of Valleyfield were Sunday guests of Mr. and Mrs. Stanley Anderson and Mr. and Mrs. Nelson Anderson.

Trout River

The annual meeting of the Elgin Presbyterian Church was held on Friday evening with a good attendance. Report from all the different organizations were given, showing that all objectives had been obtained. The church finished the year with a surplus. Lunch was served at the close of the meeting.

Eight members of the Elgin Ladies' Aid Society met at the home of Mrs. G. P. Elder on Friday afternoon. The ladies spent the afternoon working on a quilt, which they were quilting for Mrs. McKay of Pt. St. Charles. Lunch was served by several of the members.

Guests on Sunday at the home of their parents, Mr. and Mrs. Harry Dear were: Mr. and Mrs. Sandy Sutton and son, Chester and little daughter, Dorothy and E. Rousselle all of Burke, N.Y., Mr. Lewis Dear, of Messina, N.Y., Mrs. Russell McDonald, Billie and Ronnie and Miss Gertrude of Huntingdon.

Mr. Ernest Dear and Mr. Bowmaster of the Huntingdon Barracks were supper guests of Mr. and Mrs. Harry Dear on Monday.

Little Faith and June Tannahill are recovering from a slight attack of measles.

Ormstown

The Presbyterian Mission Band met on Monday afternoon, Jan. 12, at the home of Mrs. Alan Hooker. A number of members assisted with the devotional exercises. The lesson "The Message goes to the Indians" was given by the leader and the meeting closed with prayer.

On Tuesday afternoon, Jan. 13th, the Presbyterian W.M.S. was entertained at the home of Mrs. Cecil Bryson. Miss Annie Sangster and Mrs. George Hooker jointly conducted the devotional exercises. This was followed by a few words from the new president, Mrs. Ken Pearce, who welcomed the guests and expressed hope that 1942 would be a banner year for the W.M.S. The secretary, Miss Nettie Hunter, gave an account of the executive meeting held previously, when Mrs. W. H. Brown was appointed 2nd vice-president; Mrs. Alan Hooker, press correspondent; Mrs. Brown and Mrs. Cecil Bryson assistants to the Mission Band superintendent; Mrs. Mary McNeil, Home Helpers' secretary. Delegates to attend the Montreal Presbyterial to be held in February were appointed by the members, namely, Mrs. Pearce, Mrs. A. Hooker, Mrs. W. Harold Brown and Mrs. A. Tannahill.

Mrs. Mary McNeil gave a short paper on "What It Means to be a Life Member of the Presbyterian W.M.S.," then Rev. W. Harold Brown gave an inspiring talk on "The Two Aspects of Chirstian Life." Choosing the familiar story of Mary and Martha to illustrate his topic. Martha's life, an example of service and faith, Mary's life an example of worship, tenderness and love. Mrs. Cecil Bryson expressed the thanks of the W.M.S. to Mr. Brown and the meeting closed with prayer. Miss Nettie Hunter and Mrs. Ken Pearce were hostesses at this meeting.

—The Barrie Memorial Hospital wishes to acknowledge the following donations: 1 hamper apples and carrots, anonymous.

The January meeting of Ormstown Women's Institute was held Wednesday at the home of Mrs. D. A. Barrington.

The answer to the roll-call was an article for a refugee and a number of useful pieces of clothing were received.

Letters of thanks for Christmas boxes were read from soldiers. Mrs. A. Marshall, convenor of Agriculture gave an interesting article on "Starting Seeds in Egg Shells," Mrs. George Murphy, convenor of Health, read an article on Spiritual Welfare of the Child." Mrs. Pearce reported on an open meeting of school boards, to be held in Howick High School.

The speaker of the afternoon was Rev. W. H. Brown, the subject being "Future Citenzship," Mr. Brown stressed the need of youth being taught the sesnse of responsibility towards Church, State and School, and the home to be the foundation of this teaching. Good Old Fashioned Homes are needed to-day to fire youth a high incentive and fit them to face the battles of life.

On Thursday evening, Jan. 15, a challenge game was played for the Hawley Bronze Medal. Mrs. D. F. McIntyre challenged Mrs. R. E. Walsh and her rink, who were the holders of the medals since last winter. They still retained the medals when the game was finished. The rinks and score were as follows:

Mrs. F. Rugar	Mrs. Rember
Mrs. Jarvis	Mrs. Mann
Mrs. Barrington	Mrs. G. McLaren
Mrs. McIntyre	Mrs. E. Walsh
(Skip)—8	(Skip—9

Due to the fact that Rev. H. Brown was suffering from a cold on Sunday morning the Presbyterian congregation listened to a very fine address delivered by Mr. McBride of Montreal. His hearers were well repaid for having ventured forth on such a rainy morning.

Misses Audrey and Doris Reddick of Riverfield were the guests of Miss Barbara Orr for the week-end.

Saturday afternoon, Jan. 17, the members of Ormsdale Rebekah Lodge staged a card party in the lodge rooms. Twelve tables were in play; Bridge and 500 were enjoyed by the guests. Those receiving prizes were: for Bridge, high score, Mrs. Earl Walsh, low score, Mrs. Alice Cavers; for 500, high, Mrs. Neil McCaig, low Mrs. Hugh McAdam. Refreshments were served by the ladies in charge.

Miss Bertha McDonald, of Brysonville was the week-end guest of her friend, Miss Carita Orr.

The January meeting of St. Paul's United W. A. was held in McDougall Hall on Wednesday. The meeting opened with a short devotional period, after which the yearly reports of the different officers and committees of 1941 were asked for. A balance of $193 on hand was reported by the treasurer, the Society had purchased a Victory Bond, value $100 and a War Savings Certificate of $25 during the year.

Many activities had been sponsored by the W.A.: The St. Patrick's Supper. Catering to the Y.P.S. banquet, Entertainment of "The High School Staff," several times in 1941, "The Recent Brides" at the December meeting, also the annual church supper, of which the proceeds of $150 had been given to the church funds $5 to Deaconess work and new linen and dishes had been purchased for use at MacDougall Hall.

The Sunshine committee reported busy year, many sick and shut-ins remembered all during the year and at Christmas time. 16 boxes at this season were packed and sent overseas to "Our Boys of the Church," who are on Active Service. The ones in Canada were also remembered.

Miss Lydia Bazin took charge of the program which included a sing-song, led by Miss Mary Bazin. A pageant, "Ring Out the Old Year, Ring in the New," acted in costumes by the members, Miss Elizabeth Sadler reading the poem. A game followed making words out of "New Year," provided supper partners, after which a pleasant social hour around the tea-tables brought the afternoon to a close. New members had ben added to the roll-call during the year.

Rev. A. F. and Mrs. Pollock had as their guest over the week-end, Dr. John H. MacVicar, of Montreal. His father was principal of Montreal Presbyterian College for a number of years. Dr. J. H. MacVicar spent 20 years as a missionary in China and has been a close friend of Rev. Pollock for nearly 50 years.

Leach Defeat Army 3-2 in Opening Game

Game Fast and Exciting — Army Rallied in Last Period

The Huntingdon Town League swung open on Thursday evening in a traditional fashion. A crammed house saw Leach Textiles and Army team fight out one of these old fashion games where sticks and fists predominate. When the players could get within close range, punches were pulled and at a distance sticks were branded vigourously and anyone within range felt the effects of the blows. Fortunately, no serious accidents occurred and the teams are anxiously awaiting another match to feature better hockey and only hockey.

The 1940-41 champions of the Huntingdon Town League Leach Textiles, started off in the same manner as they finished the past hockey season. They defeated a renovated Army sextette by 3-2 in three periods of hard fought hockey.

Leach opened the scoring in the first period when Harry Hoy, a new-comer in the Leach team, beat the Army goaler on a close shot. The talley came at the 18-minute mark. One penalty was handed out to Ernest "Sonny" Grant in this stanza for boarding.

A. Warden and Rene Senecal were goal-getters in the middle frame with assists going to Charlie Grant, Julius Boyd and Allan Helm. Senecal's goal proved to be the winning marker. Four players were penalized in this second period with the Army claiming three of them.

Sgt. Stan Williams, who played exceptionally good hockey on Thursday evening, scored both goals for the Army team. The last counter by Williams was registered when the Leach team had two players in the cooler for fighting and tripping.

Goalers Cameron and Wylie were kept busy throughout the game and they were called upon to make some hard saves, especially at close range.

Gordon Ferry and Private Zeagman handled the game efficiently and handed out penalties whenever the offence warranted such action.

Gordon Lanktree and Sgt. H. Nutik acted as time-keepers.

The drawing for a suit length of cloth, sponsored by Leach Hockey Club, took place that evening. Stewart McDermid was the winner He held No. 305. Proceeds of this drawing amounted to $59.05.

SUMMARY

First Period

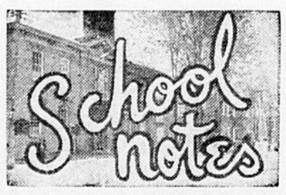
1—Leach.... H. Hoy 18.22
Penalty: E. Grant.

Second Period

2—Leach..A. Warden
(C. Grant, J. Boyd) 8.14
3—Leach..R. Senecal
(A. Helm) 14.34
Penalties: Williams, Hunter, Muncey, B. Boyd.

Third Period

4—Army..Williams
(Crossman) 0.35
5—Army..Williams
(Tate) 15.05
Penalties: C. Fortune, E. Lefebvre, Muncey, B. Boyd.



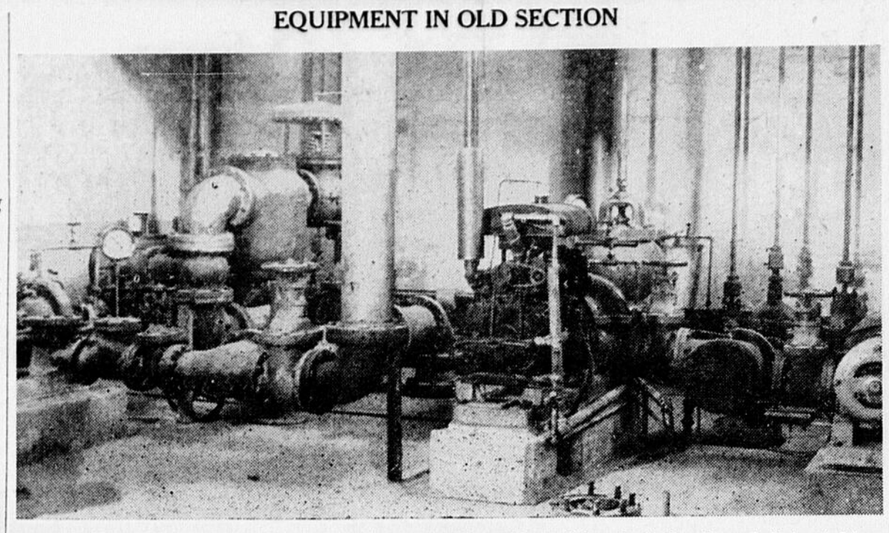
BEAUHARNOIS INTERMEDIATE

Miss Ruth Turnbull student in the School for Teachers, Macdonald College, and former pupil of this school, spent the week from January 5 to 9 here for the purpose of observation and practice teaching.

Miss Thompson, President of the Quebec Dietitians' Association, spoke on "Nutrition" at the P.T.A. meeting on Tuesday, January 13.

Dr. W. O. Rothney and Inspector R. O. Bartlett explained the proposed Central School Boards Acts at a public meeting held in Beauharnois Intermediate School on Saturday, January 17, at 3 p.m. A lengthy discussion period followed. By a unanimous vote, the meeting declared itself in favour of the principle underlying the proposed legislation.

EQUIPMENT IN OLD SECTION



All the equipment purchased by the Town of Huntingdon when the first filter plant was erected in Huntingdon in 1925 is still in use today. The above equipment, which is installed in the old building includes, from left to right, a pump strainer, reducing valve and a small gasoline engine. This engine is also used in case of fire and extra water pressure.

Hemmingford

On Friday evening, the annual meeting of St. Andrew's United Church, was held in the new hall of the church. The Pastor of the church, the Rev. J. R. Burt, occupied the chair and there was a representative attendance of members of the congregation.

The reports of the various Boards and organizations of the church were received These were uniformly encouraging, all reporting favorably on the work of 1941. The report of the Treasurer of the church showed that the financial position of the church had been satisfactorily maintained during the year. For the first time in several years no loan was required from the Bank to finance the work of the church during part of the year.

The Women's Missionary Society and the Ladies' Aid each presented reports of a full year's activity and most encouraging financial statements for the year. The financial statement of the Ladies' Aid was the best for several years.

The report of the Session showed that the life and work of the congregation had been well maintained during the year and that eleven new members had been received into membership of the church during the year. The Board of Trustees reported a satisfactory condition of their Trusts. The Hall Committee responsible for the administration of the new hall presented their first annual report, showing that the Hall had been of considerable service and was now well equipped for the service of the congregation. The financial Statement showed the itemized cost of the construction of the Hall and the income and expenditures in connection with same since its opening The completed Statement of the building Committee showed the total cost of the Hall as it now stands to be a little less than $5.000. The report of the Motion Picture Committee presented separately at the previous meeting of the Official Board showed the affairs of this committee to be in a satisfactory financial condition.

The Pastor expressed the appreciation of Mrs. Burt and himself for the kindness received and the support given them in all the work of the church since coming to Hemmingford in July of 1941. A vote of thanks to Mr. and Mrs. Burt was extended for their leadership in the work of the church since coming to Hemmingford.

Following the Congregational meeting a committee of ladies of the congregation served refreshments.

Tatehurst

Mrs. Herbert Ovans entertained the Associate Helpers of the United W.M.S. on Wednesday afternoon, Jan. 7th when there was a good attendance. Mrs. Robert MacDougall conducted the meeting in the usual manner. The ladies worked on a quilt and lunch was served by the hostess, assisted by Mrs. Glenn Cruickshank, of Huntingdon.

Mr. John Whiteford, Mrs. Mary McNeil, Mr. and Mrs. Alan Hooker and family were Sunday guests of Mr. and Mrs. Harold Robertson, Riverfield.

BRYSONVILLE FETE COUPLE ON WEDDING ANNIVERSARY

A happy event took place recently when the relatives and neighbours of Mr. and Mrs. McIntyre gathered in the Brysonville Community Club Hall to tender them a surprise party. The bride and groom of 56 years ago were congratulated by their many friends on this occasion. After a few games of cards lunch was served by the ladies.

J.D. Lang acted as chairman and after proposing a Toast to "Our King" called upon the Rev. Mr. Hudson to propose the Toast to the bride and groom. This was followed by "For they are jolly good fellows."

Mr. J. D. Bryson read a presentation address while Mr. Geo. Hope asked Mr. and Mrs. McIntyre to accept a gift as a small token of the high esteem in which the honoured couple are held throughout the community.

Mrs. John Graham, on behalf of the friends presented Mrs. McIntyre with a potted plant.

Both Mr. and Mrs. McIntyre, although taken very much by surprise, thanked their friends for all the good wishes extended to them.

Among those present were Mr. and Mrs. Malcolm McIntyre, Jr., and son Eric, Mr. and Mrs. Melville McIntyre, and other friends of Montreal, also Mr. and Mrs. D. F. McIntyre of Ormstown. A social hour was spent after the presentation, enjoying the music provided by Mr. and Mrs. Jas. Cullen.

Actress—On one of my tours our company was stranded in Podunk. Now can you think of anything worse than being stranded in Podunk?"

Actor—No, my wife's mother lives there.

Covey Hill

On Wednesday afternoon a representative gathering took place at the Town Hall when Inspectors Bartlett and Brady explained the County Central School Board's Bill. The perennial protest against the use of fairy tales in the literature course was voiced by one person present. It was pointed out that the local boards would still have the honor of collecting the school taxes without the responsibility or power of expending them. The consensus of opinion seemed to be that the rural districts would lose in order that the Central High School might gain. The vote taken by a show of hands indicated that the number present opposing the plan greatly outnumbered those in favor of it.

Wesley Church Ladies' Aid met on Thursday afternoon at the Curran home.

Mr. Fred Bourdeau's neighbors are pleased to know that he is improved after a bad attack of quinsy, which confined him to bed. He was visited on Sunday by his brother George of Montreal.

Mrs. Thos. Waddell returned home from the Barrie Memorial Hospital, on Wednesday, and is convalescing favorably. Her daughter, Mrs. Hollis Lowden and Mr. Lowden came from Huntingdon for a visit last Sunday afternoon.

Miss Beulah Lowden visited Mrs. Lowden, Sr., and Mr. John Lowden of Dewittville recently.

Mr. James Curran of Chateauguay Camp has been a visitor at his home here.

Mrs. M. H. Sample has received word that her sister, Mrs. Gebbie of Regina, is recovering after having been dangerously ill in hospital.

Mrs. Wm. Berry has returned home from Montreal after a lengthy course of hospital treatment, and a visit with members of her family. Mr. and Mrs. Berry's youngest son has enlisted.

Victory Loan Work Started

Joint Chairmen Named and Public Relations Committees to Prepare Publicity Programme

On Tuesday afternoon Victory Loan organizers held a committee meeting in their offices in the County Building. District supervisors, Messers Davis and Rochon were present. It was intimated at this meeting that plans for the conducting of this second Victory Loan would follow much along the lines of the 1941 Victory Loan campaign.

A few changes will likely be made in the township organizations and some changes may be made when it comes to compiling the list of men who will be sent out to write up orders for Victory Loan bonds.

Messrs A. A. Lunan and J. O. Michaud are to act as joint chairmen for Huntingdon County with Mr. W. K. Phipps as secretary. In Chateauguay County (West) Messrs D. A. Barrington, Ormstown, and Simeon Beaudin, Howick Station, will act as joint chairmen with Mr. W. G. McGerrigle, Ormstown, as secretary.

The Victory Loan campaign will open on February 16th and continue for three weeks, with a possibility of being extended another week. Quota to be raised in these two districts has not yet been announced.

In place of a "Torch" pin being accorded each purchaser of a bond, a pin in the form of a celluloid cut-out emblem of a maple leaf in red will be used.

The public relations committeee will be called upon to arrange for some publicity propaganda, but as yet it is too early to state just what will be done. The one essential thing to strive for is to make everyone conscious of the fact that this war has to be financed and the money must be raised through borrowed money, whether it be borrowed in the form of Victory Bonds or through the sale af War Savings certificates. The War Savings Certificate organization has been combined with that of the Victory Loan, so between the two organizations the War Financing story should be driven home to every individual in no mistaken manner. A series of war films that can materially aid in impressing the public of the need of money will be placed in the hands of the Campaign organizers and they in turn will arrange for the films being screened throughout the entire Chateaguay Valley for the general enlightenment of all.

WEDDING

COOKMAN— MacKENZIE

The marriage of Olga Jean, elder daughter of Mr. and Mrs. W. S. MacKenzie, of Skegawake, Que., to Kenneth Elvidge Cookman, younger son of Mrs. W. S. Cookman and the late Major Cookman, formerly of Henrysburg, Que., was quietly solemnized at St. Clement's Church, Verdun. The Rev. Deane performed the ceremony.

The bride, who was given in marriage by her cousin, Mr. Munkittrick, of Verdun, was dressed in turquoise blue moss crepe with a small hat of the same materials and black accessories. She wore a corsage of pink carnations. Both bride and groom were unattended.

Out of town guests included: Mrs. W. S. Cookman, the groom's mother, Mr. and Mrs. Lynwood Cookman and son Raymond, Mr. and Mrs. R. T. Brownlee, all of Hemmingford, Que.

We extend our hearty congratulations to the Town of Huntingdon upon the completion of its modern Filtration Plant.

Coagulation Basin and Water Wells are Interesting Features

Basin Covered by a Heavy Blanket of Earth—Clear Water Wells are Eleven Feet in Depth, Have Capacity of 150,000 Gallons—Building on Rock Foundation

Hundreds of citizens have visited the filter plant since the new addition was completed in December. Others watched the steady progress of the structure since the forms were laid early in June, 1941. The intricate operations of the mechanical end of the filtration plant have aroused much interest among the young and older element.

New Scenery

Beneath all these developments and new scenery at the west end of the Town of Huntingdon there are some more important factors which are of vital importance to this industrial centre.

For instance, there are probably few people who are aware of the fact that there are two clear wells directly underneath the filtration plant building itself which act as reservoirs of pure water, ready for distribution in any part of the town at a given moment. Another new feature which is to be found in the west part of the filter plant is the coagulation basin.

Strike Quicksand

When D. J. O'Connor accepted the responsibility of building the addition to the filtration plant, he was told by the engineers of the Provincial Board of Health that he would have to dig to a depth of eleven feet so that the water well or reservoir would be at the same level in the new building as in the old one. Plans and work progressed satisfactorily until they reached seven or eight feet when workmen struck clay. This was the case until workmen dug to ten feet in depth when quicksand was reached. The contractor was temporarily puzzled but the problem was solved without delay. The engineer instructed him to dig until a solid foundation was reached. This was obtained at the thirteenth foot mark. The building now stands on solid rock and should last for a century without changes unless Hitler decides to play his funny games on this continent.

A Perfect Building

As described in another column, the building is of concrete and brick. When the engineers tested it as to strength and durability, they found that it was as perfect a building as they had seen in any section of Canada. This spoke well for the contractor, D. J. O'Connor, who deserves much praise for his workmanship.

Twe Clear Water Wells

The clear water wells are eleven feet below the surface of the earth and extend all over the new and old buildings. The capacity of each of these wells is 150,000 gallons. Heavy steel ladders are erected at strategic points in these wells so that filter plant workmen might be able to reach the bottom or any other part of the wells in the event of unexpected happenings.

The Coagulation Basin

The purpose of the coagulation basin is to have a great quantity of raw water on hand. As soon as clear water diminishes in the wells, raw water passes through the filter system and keeps the number of gallons in the wells at the same level. As the water diminishes in the coagulation basin pumps are started and more water is drawn in from the Chateauguay River. This increase and reduction in water is constant and assures the residents of Huntingdon of a regular supply of water twenty-four hours a day.

Natural Facilities

The coagulation basin is about sixteen feet in depth. It is covered by a heavy blanket of dirt which is more than seven feet in thickness in some places. At the top of it, there are about four feet of dirt on the cement slab roof. This action prevents freezing in the cold winter months and helps to keep the water at a fair temperature of coolness in the summer. Nature thus provides the heating and refrigeration system for the coagulation basin throughout the year, without forcing the town to spend money for heating apparatus.

An Invitation

Citizens are invited to view the filter plant where offcials will be pleased to show them the intricate operation of this water system.

Obituary

THOMAS G. MURPHY

Thomas G. Murphy, brother of C. J. Murphy, Huntingdon, who was widely known in southern Nevada as a mining executive, died at his home in Los Angeles on December 26.

Thomas Murphy was born here in 1878. After having been educated in Huntingdon, he went to the United States and at an early age held a responsible position with the Amalgamated Copper Company at Butte, Montana.

Shortly after the discovery of the rich silver ore in Tonopah, he resigned his positoin with the copper company and moved to southern Nevada. He was one of the first to enter the Bullfrog district and later extended his mine interests to Goldfield, Tonopah, Manhattan and his most promising ventures was at other sections of the State. One of his most promising ventures was at Ramsey, where he was associated with Ed Benana and others in the development of mining property. His most successful mining venture was made at Lucky Boy mine near Hawthorne. He developed the mine for several years and reportedly took out many thousands of dollars in rich silver ore.

Since leaving Nevada he has been associated with the Western Loan and Building Company at Oakland and Los Angeles, Calif., making his home in Los Angeles.

He is survived by his wife, three sons, Thomas G., Jr., who is with the U.S. Marine Corps, William, of Glendale, Calif., and James at home, one daughter, Regina, is now in Washington, D.C. Three brothers, Dan, of Tonopah, James, of Los Angeles and Con. J. Murphy, Huntingdon; two sisters, Mrs. Helena McCormick of Los Angeles and Mrs. Gertrude McGinnis, of Montreal.

Valleyfield Bow Again to Joliette, 9-2

Visitors Score Two Lone Goals Late in Third Period — David, Marks Star

Joliette played host to Valleyfield at a Montreal and District Hockey League game on Thursday night, but the visitors will not want to go there again for some time.

They dropped a 9-2 decision to the Joliette crew, not even getting a goal until the game was more than half over.

Score Early

David and Johnny Marks whipped in a pair for Joliette in the first frame, five more went by goaltender Lascelles in the middle session and another in the third.

Paquette scored the Valleyfield club's first tally in the second, and Tremblay and Leger got the other pair when it was too late in the third frame.

The teams:

Valleyfield: Goal, Lascelles; defence, Slater, Despelteau; centre, Joannettte; wings, Boyer; Cadieux; subs, Bastien, Dalgleish, Lalonde, Hysted, Bennison, Paquette.

Joliette: Goal, Leclerc; defence, Leger, Bean; centre, Tremblay; wings, Bessette, David; subs., Burr, Kelly, Bernard, Desautels, Marks, Arcand, Levesque.

Referees: Murray and Legace.

First Period

1—Joliette: David (Bessette, Archambault) 11.45
2—Joliette: Marks (Leger) 12.10

Penalties: Leger Despelteau.

Second Period

3—Joliette: David (Tremblay) ..... .27
4—Joliette: Bernard (Burr, Leger) 7.02
5—Joliette: David (Archambault) 12.12
6—Joliette: Bernard (Kelly) 13.43
7—Valleyfield: Paquette .. 14.52
8—Joliette: Marks (Arcand) 16.32

Penalties: Slater, Arcand, Despelteau (2), Arcand, Leger.

Third Period

9—Valleyfield: Bastien (Lalonde) ..... .32
10—Joliette: Tremblay (Marks, Bernard) 9.18
11—Joliette: Leger (Marks, Bernard 16.40

Penalties: None.

Franklin Centre

The Y.P.S. met at the home of Mr. and Mrs. H. Porter on Tuesday, Jan. 13th. An address on Missionaries from Trinidad was given by Mrs. Jas. Manning. A skating party was arranged for Tuesday night. A delicious bean supoer was served and enjoyed.

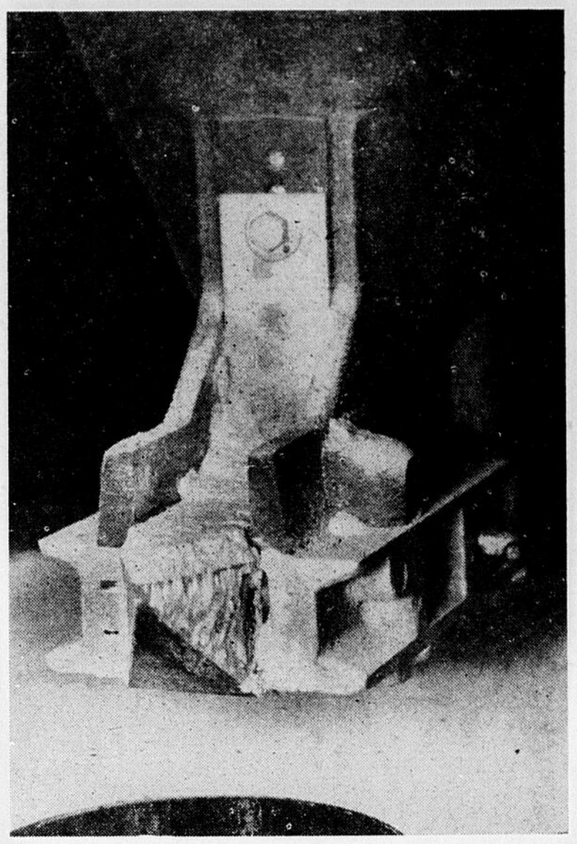
Mr. Dan Cassidy is spending a few days in Montreal.

Mrs. Harry Moneypenny is spending a few days in Ormstown with Mr. and Mrs. Wm. Greig.

Brysonville

Mr. and Mrs. Wm. Cairns spent Sunday in Montreal visiting with relatives and friends.

ALUM FEEDING MACHINE



This important feeding machine is operated electrically. It is located in the new section of the filtration plant, on the second floor. The alum falls into the water from the "V" shaped metal disc which appears in the foreground of this photo.

J. Anderson, Gore Resident, Is Killed by an Enraged Bull

Animal Smashed Victim Into Walls and Tramps On Him — Died Before Medical Aid Arrived — Widely Known Throughout Chateauguay Valley

A fatal and tragic accident occurred at The Gore on Thursday afternoon when Joseph Anderson was gored by an enraged bull. The victim died at his home a few hours after the accident.

Early on Thursday afternoon Mr. Anderson was doing some chores in the stable on his farm when a cattle buyer came to examine a bull which was for sale. After entering the boxstall to turn the animal so that the prospective buyer could get a clear view, Mr. Anderson was suddenly attacked. The victim was smashed against the walls and tramped on by the enraged beast. Severe chest injuries were the result.

Mr. Levine, the cattle buyer, who was standing nearby, rushed immediately into the stall and warded off the animal with a pitch fork. After a brief but dangerous tussle he was able to remove Mr. Anderson.

Carl Anderson, who was in the house at the time, rushed to help the victim and his rescuer. Medical aid was summoned but the injured man passed away before the doctor arrived.

Born on Sept. 16th, 1865; Mr. Anderson had lived his whole lifetime on The Gore, being brought up on the adjoining farm the son of the late Joseph Anderson and Margaret Graham who were also lifetime residents of the community.

Mr. Anderson was well known throughout this district as a great horseman and carried off many prizes at different shows. He was the type of man who made friends very easily. He will be widely mourned throughout this district. A loving and kind father and a true friend his death has been a terrible shock to this neighborhood. In 1896 Mr. Anderson was united in marriage to Dina Foster who predeceased him five years ago.

He leaves to mourn his loss three sons and four daughters. Cecil of Woodstock, Ont., Carl at home and Willis who is overseas with the 5th Armoured Division; Ada, Mrs. Paul Barlow of Glenn Falls, N.Y.; Phyllis, Mrs. Geo. Brossard of Windsor, Ont., Hilda, Mrs. Clyde Shepard of Montreal; Eileen, Mrs. Geo. Nixon, of Windsor, Ont. One brother Mr. Robert Anderson of The Gore, besides many grandchildren, nieces and nephews.

The funeral services took place at The Gore United Church, on Saturday afternoon. The service was conducted by his pastor, Rev. T. H. Duncan. The pallbearers were Messrs Randals Boyd, John Fitzsimmons, Stanley Whaley, Hearn Graham, Felix McCormick, and Kerr Neely. The floral wreaths and sprays which were deeply appreciated, were carried by the boys of the Young Peoples' Union.

Rockburn

The regular annual meeting of the Rockburn Presbyterian congregation was held in the church hall on Monday evening with the pastor, Rev. W. H. Brown, presiding. Reports of all departments were encouraging, all showing a cash balance. The secretary was instructed to purchase an additional Victory Bond of $100.00. Messrs. Oscar Trainer, Arden Douglas, George Lindsay and G. A. Goldie were re-elected trustees and Charles Waller, auditor and W. G. Gibson, sec.-treas.

Mr. H. Percy of the Merchant Marine, is paying a short visit at the home of Mr. and Mrs. J. Sloan.

Mr. and Mrs. L. Graves and sons were guests on Sunday of Mr. and Mrs. A. Pollock. Mr. Graves left on Monday for New York City enroute to South Africa.

The annual meeting of the L.A. and regular meeting of the W.M.S. Aux. met at the home of Mrs. Pollock on Thursday. After business and devotional periods conducted by the presidents the election of officers for the L.A. resulted in the appointment of Mrs. Pollock, Pres.; Mrs. J. Sloan, Vice-Pres.; Mrs. Wallaer, Sec.-Treas.; Miss A. G. Cain, Social Sec. Work Committee: Mrs. M. Oliver, Mrs. Geo. Lindsay, Mrs. Trainer and Miss F. Johnston. Plans for the year's work were discussed and a delicious dinner was served by the hostess, assisted by Mrs. A. Douglas.

Central School Board Studies Principles .....

(Continued from page 1)

Benefits

Whereas the chief benefits to be derived from the creation of such county central school boards will be the more equitable distribution of government grants, the adjustment of tax rates and school fees over wider areas; giving increasing opportunities to children in rural and remote areas to receive the fullest possible benefits of education, and increasing the general level of education in the Protestant schools of the Province;

Whereas it is expedient to preserve the identity of the various local school boards already constituted in the Province;

Whereas it is expedient to give effect to this legislation;

Therefore, His Majesty, with the advice and consent of the Legislative Assembly, enacts as follows:

Schools Affected

There shall be erected, constituted and incorporated the following eighteen Protestant central school boards for the counties of Argenteuil and Electoral District of Two Mountains, Bonaventure, Brome, Chambly, Chateauguay and Beauharnois, Compton, Gaspé, Gatineau and City of Hull, Huntingdon, Megantic, Missisquoi, Papineau, Pontiac, Levis and City of Quebec, Richmond, Drummond and Arthabasca, Shefford, Sherbrooke, Stanstead, hereinafter referred to as the county central school boards.

Special Provisions

The said corporations shall, when the members thereof shall have been appointed, have perpetual succession and possess all the rights and powers generally vested in corporations, subject to the special provisions of this act.

The territory under the jurisdiction of the eighteen county central school boards referred to in section 1 shall comprise the territories now under the jurisdiction of the Protestant school boards named in section 4 of this act.

Privileges

The Protestant Committee of the Council of Education, if deemed advisable, may from time to time by resolution increase, decrease or otherwise alter the area of the territory under the jurisdiction of any county central school board. Notice of any such resolution shall be published in the Quebec Official Gazette.

Any Protestant school municipality hereafter erected in the territory of any county central school board shall be annexed for all school purposes to such existing school municipality as the county central school board concerned may by resolution determine.

Fine Ratepayers

Each county central school board shall consist of five ratepayers professing the Protestant religion who are qualified to be school commissioners or trustees in accordance with section 122 of the Education Act and who reside within the territory over which the county central school board concerned has jurisdiction.

Chateauguay and Beauharnois County Board

One member shall be appointed by resolution of the school trustees of Salaberry de Valleyfield.

One member shall be appointed by resolution of the school commissioners of Ormstown Village.

One member shall be appointed by resolution of the school commissioners of Howick.

Two members shall be elected by delegates of the Protestant Boards of school commissioners or trustees of the school municipalies of: Chateauguay, St. Clement, St. Louis de Gonzague, St. Urbain Premier, St. Jean Chrysostome No. 2.

Huntingdon County School Board

Two members shall be appointed by resolution of the school commissioners of Huntingdon.

One member shall be appointed by resolution of the school commissioners of Hinchinbrook.

One member shall be elected by delegates of the school commissioners of Dundee and Hemmingford.

One member shall be elected by delegates of the Protestant Board sof school commissioners or trustees of the school municipalities of: Elgin, St. Anicet No. 1, Havelock and Franklin.

Tatehurst

On Friday evening, Mr. and Mrs. Allan Cavers entertained the Presbyterian Young People's Society when twenty young people were present. Mrs. Allan Cavers and Alan Hooker were in charge of this meeting and conducted the devotional period. Several letters were read from soldiers who had received Christmas boxes. The secretary-treasurer gave a report on the year's activities. Election of officers followed, resulting in the re-election of the officers of the past year, namely: Hon. Pres., Rev. W. Harold Brown; Pres., Alvin Gruer; Vice-Pres., Ivan Rember; Sec.-Treas., Marjorie Hooker; Organist, Margaret Brown. The president gave a report on the executive meeting of the South Shore Young People's Union held recently at the Ormstown Manse.

Games were then played and refreshments served by the committee in charge. Alvin Gruer thanked the host and hostess for their hospitality and announced that the Feb. meeting would be in the form of a sleigh drive to Mr. and Mrs. Walter Scott's.

Mrs. J. Whyte of Howick, was a week-end guest of Mr. and Mrs. Ivan Rember.

Miss Elizabeth Roy spent last week-end with Mr. and Mrs. Allan Cavers and Judith.

On Friday evening the Lower Ormstown Euchre Club was entertained at the home of Mr. and Mrs. Russell Towns when cards were played at fourteen tables. Ladies' prizes were awarded to Mrs. Robert McGerrigle and Mrs. Wallace McMullan, while gents' prizes went to Messrs. Eddie Hooker and Wallace Sproule. Following refreshments dancing was enjoyed.

On Thursday afternoon the sewing meeting of the Upper and Lower Ormstown Home Helpers was held at the home of Mrs. Alan Hooker when sixteen ladies were present. Mrs. Wm. Kilgour took charge of the devotional period. This being the annual meeting, a work committee consisting of Mrs. Wm. Kilgour and Mrs. Gordon Leney was appointed to replace Mrs. Robert Gruer and Mrs. Eddie Hooker who have done splendid work in this capacity. Mrs. Hooker gave a full report of the work done in 1941, $56.00 being forwarded by this group to the treasurer of the W.M.S. Two crib quilts were completed during the afternoon and tea was served.

Mrs. Preston Hooker returned home on Friday, having spent the past three weeks in Montreal.

"Hurry up, wifey dear, or we'll be late for the theatre."

"I'm just trying my reducing machine. I'll be ready in two hundred shakes."

Congratulations, HUNTINGDONIANS!

WE CONGRATULATE the TOWN OF HUNTINGDON and its progressive citizens on their modern enlarged water filtration plant now serving over 4100 people.

WE ARE PROUD that "DARLING" CENTRIFUGAL PUMPS have been used exclusively in this plant. The first pumps were installed in 1925, another was added in 1935, two more in 1940 and the latest ones in 1941.

HUNTINGDON WATERWORKS is one of 40 such installations in the Province of Quebec which are equipped with "DARLING" CENTRIFUGAL PUMPS. These pumps are manufactured completely in our factory in Montreal.

DISTRICT NEWS NOTES

Ormstown

Mrs. R. J. McNeil was the recipient of a shower of birthday cards on Saturday from the members of the W.C.T.U., of which she is a member. Mrs. McNeil attained her 89th birthday on Sunday, Jan. 11th, and still enjoys reading to keep posted on the latest happenings of the community.

Miss May McCaig of Montreal spent the week-end with her mother, Mrs. Robt. McCaig.

Mr. Lyman Roberts of the R.C.A.F., Toronto, spent the week-end with his father, Mr. Willis Roberts.

On Thursday evening, Jan. 8, Mrs. J. Campbell entertained at Bridge.

Miss Janet Kerr of Montreal spent last week at the home of Mr. and Mrs. Harold Kerr.

Birthday greetings to Miss Sadie Thompson, Ormstown, Jan. 8th, 1933.

The W.A. of the Barrie Memorial Hospital met at the hospital on Thursday afternoon. Mending and sewing for the hospital was done during the afternoon.

Mr. William Elliot, who was a guest of Mr. and Mrs. Allan English for a week has returned to his home in Beebe, Que.

Miss Albertine Forget has replaced Miss Luella McMillan as "Chief Operator" at the Ormstown office of "The Farmers' Telephone Company." Miss McMillan left last week for Montreal where she has accepted another position.

Mr. W. E. Moffat, the genial and generous supporter of curling and softball, made his annual visit to the Ormstown Curling Club during the past week. During his visit he donated War Savings Stamps for a Club Bonspiel and helped in the lifting of the District Challege Cup from the Fertile Creek Club.

Saturday visitors at the home of Mr. and Mrs. Howard Millar were Mrs. W. D. Sample and son Wilmer, Mrs. Hubert McNaughton and niece, Patricia, and Mr. and Mrs. Kenneth Kearns, of Hemmingford, Que.

Miss Elizabeth Sadler spent the week-end with friends in Montreal.

Miss Mary Winter of Montreal spent the week-end at home.

Mr. and Mrs. Bert McCartney spent Saturday in Montreal.

A week-end guest of Mr. and Mrs. Howard Millar, was Mr. Allan Campbell of Hemmingford.

Athelstan

The January meeting of the Women's Christian Temperance Union was held on Thursday afternoon at the home of Mrs. Gardner. This being the annual meeting, the officers for this year were elected. The Secretary and Treasurer gave their reports which were gratifying. It was decided that each member give an individual contribution toward the Home Centre of the Soldiers and Airmen's Christian Association at Petawawa, Ont., which is being built and equipped in the name of the Canadian Women's Christian Union. Letters of thanks for parcels sent to boys overseas by the local Union were read from the following: Arthur Hampson, Leslie Reid, Danny Elder, Emmet Carr and David Watson. Fifteen boxes were sent in all and we trust the remainder of the lads have also received theirs.

Successful Church Year

The annual meeting of the Athelstan and Powerscourt United Churches, was held on Thursday evening. Both congregations have had a very successful year, as reports showed. It was decided to resume early morning service beginning May 1st. Rev. J. H. Woodside expressed his sincere thanks to the families of both Churches for their kindly co-operation and in turn he and Mrs. Woodside were heartily thanked for their faithful services during the past year.

Mr. Walter Boucher of St. Boniface, Man., spent a few days here this week-end with friends.

Mr. Percy Chauvin was in Montreal on Saturday where he attended the funeral of his sister-in-law, Mrs. H. Chauvin.

Mr. and Mrs. Damase Larche of Malone, N.Y., spent the week-end at the home of his sisters Miss Larche and Mrs. F. Roy.

Leduc & Prieur

Brooklet

Mr. and Mrs. N. J. Wilson spent Wednesday at Ormstown visiting at the home of their son, Mr. Ellis Wilson.

Misses Florence and Jeanette Thurston are spending a few weeks visiting at the home of their grandparents, Mr. and Mrs. Quenneville.

W.M.S. Meets.

The W.M.S. of Rennie's United Church held their regular meeting on Thursday afternoon at the home of Mrs. Verden Leggatt. Reports of the year's work were given by the secretaries. The year's allocation of $100 was reached with $6 over to start a new year. Proceeds of the meeting amounted to $3.30. Lunch was served. Mrs. H. E. Wilson, Mrs. R. J. Steele and Mrs. D. H. McKell were appointed delegates to the W.M.S. Presbyterial to be held in Emmanuel Church, Montreal on Feb. 18th and 19th.

A joint quarterly board meeting of the three congregations, The Gore, Franklin Centre and Rennie's met on Wednesday afternoon in the Rennie United Church. Satisfactory reports of the three congregations were given. Rev. T. F. Duncan is staying for another year.

The annual congregational meeting of Rennie's United Church was held in the Sunday School room on Wednesday evening. Reports of the year's work were given. A social hour was spent and lunch served.

Ste. Agnes

Mr. and Mrs. Paul-Emile Leboeuf and son, André, Mr. René Dupuis and Private Marcel Dupuis of Valleyfield spent Sunday with their parents, Mr. and Mrs. Laurent Dupuis.

ENGAGEMENT

The engagement is announced of Margaret Elizabeth (Betty), only daughter of the Harold D. Roberts and Mrs. Roberts of Magog, Que., to Mr. Julius Boyd Richardson, eldest son of the late Gordon Richardson and Mrs. Richardson of Hampstead, Que., formerly of Chateauguay Basin, Que.

Back in 1919 several men nearly crashed to their deaths over Niagara Falls in a runaway barge. But a miracle saved them. The barge struck an obstacle, and the men were rescued. The barge still remains, after more than 20 years, in the rapids above the Falls for all to see.

This and a number of other intriguing, little-known facts are related in the Canadian Cameo short produced by Associated Screen Studios. This "Did You Know That?" proves again that Canada is a rich field for the seeker of oddities.

"Mrs. Angus McTavish seems to be having an awful time writing her telegram."

"Yes. She's trying to tell her husband what she thinks of him in ten words."

MANUFACTURERS LIFE REPORTS SUBSTANTIAL GROWTH

The 55th Annual Report of the Manufacturers Life Insurance Company shows substantial gains in New Insurance and Insurance in Force. New Insurance amounted to $60 million, an increase of $9,800,000 over 1940, bringing the Insurance in Force to $632 million, an increase of $27,400,000. Income from all sources exceeded $39 million and Assets increased by $15 million to $205 million. After making provision for all liabilities, the Contingency Reserve and Surplus amounts to $9,600,000.

Total payments to policyholders and beneficiaries were $15,455,000 of which $4,583,000 were death claims. The favorable mortality experience of recent years continued in 1941.

Obituary

Miss CATHERINE I. V. ARMSTRONG

Mr. and Mrs. A. F. Armstrong's only daughter, Catherine Isabel Victoria, 24, a nurse at the Montreal General Hospital died there Sunday evening, January 11th, after a short period of illness.

Catherine was a lovely girl, of wholesome character and wholesome beauty who had but recently completed her professional training, and in love with her work and fully enthralled by life, was bent on a career of service to humanity when meningitis, a disease from which there is little hope of recovery, overtook her.

Catherine was taken sick Christmas day when she had hoped to come home for the holidays. In the days and weeks which followed she suffered excruciating pain but fought back valiantly against the ravages of the disease which early left her blind, escape from which, death came mercifully. Her mother was by her bedside constantly and her father, too, much of the time during those days. The resources of the institution and the skill and science of its staff of nurses and doctors were devoted to Catherine's recovery without avail. Staff members who had been so closely associated with her, mourned her untimely passing, with her family and other friends.

Miss Armstrong was born in Dundee on May 24th, 1917, the daughter of Albert F. and Florence Johnson Armstrong. She graduated from Fort Covington high school in June of 1937, and in August of the same year entered the nurses' training school of the Montreal General Hospital, a course which she completed in August, 1940. Since her graduation as nurse she had served at the same hospital as night supervisor in charge of surgery. She was a member off Zion United Church of Dundee but transferred to St. James United Church when she went to Montreal. She was a member of the Nurses' Alumnae Association of her hospital.

Surviving besides her parents, are three brothers, L.A.C. Frederick Armstrong of Victoriaville, Que.; Sgt.-Pilot A. W. Armstrong, with the Royal Canadian Air Force overseas; Pierce, at home.

Funeral services were held Wednesday at 2:00 from the home and at 2:30 from Zion Church. Rev. H. Lindley, pastor, officiated at the rites which were very largely attended. Burial was made in the Zion Church Cemetery.

Pall-bearers were: the two brothers, Fred and Pierce; B. A. Rankin of Huntingdon; George Tait of Prescott; John Ellsworth of Fort Covington and Lucien Picard of Malone.

Among out-of-town people who attended the funeral were: Tracy Ludington, Montreal; Miss Sims, R. N. and Miss Pickens, R.N., of Montreal; and Mr. and Mrs. George Tait of Prescott, Ont., uncle and aunt, and others.

In the storage of potatoes towards the spring when the air is warm, it may be necessary to open ventilators and doors at night when the air is cool, and to close them in the morning. By this means the potatoes may be kept dormant for a much longer period.

LETTER TO THE EDITOR

The Editor,
Huntingdon Gleaner,
Dear Sir:—

In the midst of so many demands and suggestions for saving in an all-out war effort, I wish to voice a protest against the apparent approval of the Press in general, and your recent editorial regarding the issue of a fancy-dress uniform to the army.

As the forces now number several hundreds of thousands the cost of this is going to run into many millions of dollars. The eve of a campaign to ask the public to loan six hundred millions for the war effort, would seem a very inappropriate time for our government to announce the useless spending of so many millions on such an unnecessary and cumbersome addition to the present load the soldier has to carry.

I shall always have a very vivid memory of the four most interesting years of my life, doing my bit as one of the six hundred and fifty thousands who fought for and against practically the same principles as are at stake today. I certainly cannot remember much complaint for an extra uniform, though there were times when a new one would have been acceptable. On the social side the previous generation of the 'fairer sex', both at home and overseas, were proud of their boy friends in their every day uniform in spite of traces of previous exertions, or evidences of wear and tear.

One has to admit that the infantry uniform of to-day is terribly handicapped, for the fascination of 'sweet sixteen', against the blue bird-men but that should hardly be a factor in voluntary service to one's country.

The idea of a chocolate soldier uniform being an incentive to recruiting is rather incongruous in view of the seriousness of the present situation. Churchill has suggested an offensive for 1943 so it will be 'fighting men' that will be needed, not fops who could be induced into the army by a fancy uniform.

In spite of war loans, taxes, uniforms, etc., the country, after twenty-eight months of war, needs an awakening or revival of patriotism or pride of origin which I believe was behind the service to the Empire of the volunteers in the Boer and Great Wars. The Empire has still to 'finish the job.'

AN OLD SOLDIER.

COMPLIMENT

At the request of her fifteen-year-old son, a young Toronto matron the other day called at the neighborhood cleaner's shop to pick up his hat that had been left there for reblocking.

Asking for the hat, she said: "My son brought it in to you last week."

"Was that your son?" said the cleaner. "What a fine big boy he is!"

The young matron agreed.

"You're sure that was your son that left the hat?" said the cleaner, showing incredulity.

Flattered by the implied compliment, the mother smilingly said that she was sure.

At the dinner-table that night, she told the story, only to have her pleasure spoiled when her son piped up: "But Mother, it was Father who took the hat in."

Macdonald Intensifies Its Programme

Despite Fact That Section of College is Requisitioned—Vital Activities

The Department of National Defense has requisitioned the Women's Residence at Macdonald College for the purpose of establishing a training centre for the Canadian Women's Army Corps. The building is expected to be ready for occupance in February, and will house from 300 to 500 trainees. It is gratifying to record, however, that, with minor exceptions, all the activities of Macdonald College will proceed as usual. In fact, the staff is determined that the programme shall be intensified rather than diminished as a result of this move.

The College staff are already engaged in many vital activities in connection with the war effort. This latest move represents only one other contribution, and it has been accepted as such by staff and students. All realize that it will involve inconvenience and even hardship, but all of this will be accepted in the true Macdonald spirit.

The most radical change will be the removal of the School for Teachers to Strathcona Hall in Montreal. Those remaining will miss the association of friends and colleagues of this School, and will eagerly await their return to their natural home. They, in turn, will no doubt miss the superb surroundings and facilities of the College, so appropriate for teachers-in-training. It is gratifying to know, however, that the University has been able to provide entirely suitable arrangements in Montreal for the housing and teaching of the students of this School. All these arrangements are temporary, but they guarantee complete stability for the duration of the war. It is fully realized that the training of teachers is a vital national necessity and it is intended to let nothing interfere with already matured plans for improving academic standards.

Equally suitable arrangements have been made for carrying on the work in Household Science and Agriculture. Suitable buildings on the campus have been made ready to house the students and plans have been formulated to ensure that student life will continue with little important change. None of the laboritories are being interfered with in any way, and the quarters vacated by the School for Teachers will afford adequate classroom facilities for the Canadian Women's Army Corps.

The authorities of the University desire to emphasize the fact that, other than certain projected Short Courses, all the regular activities of the College will be continued under equally favourable conditions to those that have existed in the past.

The devotion of the staff and the enthusiastic co-operation of the students will undoubtedly place the College in a stronger position than ever before, fully prepared to play an important part in the reconstruction period which must follow the war.

Dirty nests and poultry houses and allowing the birds to run out of doors into muddy yards are responsible for soiled eggs being placed in lower grades, with a loss to the producer of eight to ten cents a dozen as compared with the value of the same eggs if they were clean.

WEEK AT OTTAWA

(Continued from page 2)

though men of the higher ages will not be suitable for air fighters but will be used on reconnaissance or bombing planes. The air force is starting "preservice" training for young men. The air cadet league is part of this plan, but the program will be wider. There is at the present time a "cease training school" at Trenton which trains for other posts young men who have been disqualified for certain branches of the air service. The commonwealth joint air training plan is a great reservoir of trained men for the planes turned out in ever increasoing quantity by the factories of the English speaking nations, and the reservoir must be kept at full head

Tons of Supplies

There are now 28,000 men in the Canadian navy and between 300 and 400 naval ships are in commission. During the open season between April and November two naval vessels are turned out on an average each week by Canadian shipyards. This was true in 1941 and the same number will be built in 1942. Every increasing vigilance is required of the officers and crew of ships of the Canadian navy as enemy submarines now operate in coastal waters. The convoy work, however, goes steadily forward. Under Canadian escort over 50 million tons of supplies have been transported to Britain, and whatever the hazard, the life line to Britain will be kept open.

An Agreement

The provincial governments and legislatures will pass on draft agreements in connection with income and corporation taxes which have been sent out by Finance Minister Ilsley. The plan which has been long discussed is that the provinces will withdraw from the income and corporation tax fields for the duration of the war and for one year after its close. In compensation for the loss of this revenue the Dominion government will pay Prince Edward Island $701,949, Nova Scotia $2,909,430, New Brunswick, $3,650,067, Quebec $20,704,737, Ontario $28,961,488, Manitoba $5,634,740, Saskatchewan $5,830,471, Alberta $4,080,218 and British Columbia $12,048,967. The total is just about $84,500,000. In the case of some provinces the compensation was based on the amount of the interest on their funded debt, while with others it was based on the actual amount raised by the taxes involved in the last fiscal year. The three Maritime provinces and Manitoba and Saskatchewan were also granted subsidies to cover fiscal needs.

Guarantee Gas Tax

The Dominion government has also guaranteed the gasoline tax revenues of the province and this compenstation it is believed may reach a considerable sum in view of restriction on tires, gas consumption and other measures of war economy.

Remove Aliens

With the war drawing closer to our shores, interest has greatly increased both in air raid precautions and in the handling of enemy aliens in this country. One of the salient points of the general policy recently announced in Ottawa is that enemy aliens will be removed from protected areas on the west coast. Just treatment is promised to all persons of enemy origin, but the R.C.M.P. are keeping a watchful eye on them.

Said Mr. Bings to Mrs. Bings, "Really, my dog knows as much as I do." And, Mrs. Biggs snapped, "Oh, well, he'll get smarter later on."

Here's Quick Relief from SINUS PAIN
3-Purpose Medicine Helps Clear Out Congested Sinus Areas
ONE best way to get relief from torturing sinus pain is to clear congestion from nasal passages and give sinuses a chance to drain. A few drops of Vicks Va-tro-nol in each nostril is usually enough to bring this comforting relief.
3-PURPOSE MEDICINE
Va-tro-nol is so successful because it does three important things: (1) shrinks swollen membranes of the nose; (2) helps clear out pain-causing congestion and (3) soothes irritation. Many sinus sufferers say it's best relief they've found. Try it!

IT'S NOT HARD TO TAKE!

No, electricity is anything but hard to take. It can be installed at little or no initial cost and without inconvenience. It is a many-sided time, labor and money saver. It aids health; lengthens life; preserves eyesight.
Cheerfully it does the dishes, sweeps the floor, washes, irons and cooks, and it costs less to do it electrically than by old-fashioned methods.
Do it electrically
THE MORE YOU USE THE LESS IT COSTS

From the Observatory

"By Observer"

Many people think since the United States is at war with Germany and an ally of Canada and Great Britain, there is no further need for closing the border between Canada and the United States. It is thought the war restrictions between the two countries could quite readily be relaxed; that the travel restrictions could be lifted and the peoples of the two countries be allowed to travel back and forth in the same way they did before the war. The view is shared by a large number of residents in Huntingdon. There is a large number who were in the habit of going to Malone and other nearby points and would be glad of the opportunity of again doing so. Several delegations are going to, or writing to Ottawa to see if something can be done about this. I do not see any reason why these restrictions could not be relaxed now, if only a little. It has been suggested that all the allied nations pool their resources, so there would be no object in gathering the American dollars for purchasing purposes. If the people of this district are anxious for this to happen, it might be a good idea for some kind of action to bring it to the Government's attention.

Selective Service

Much has been heard of late on the selective service. This is apparently a new phrase coined from effects of Total War. The Government is trying to get away from using the word conscription. After all, the word conscription has been associated with compulsory service in the armed forces. But with Total War, a new phrase is absolutely necessary as the scope of compulsory service has to be considerably broadened. It has to take in practically everyone, otherwise it would not be Total War. Selective Service is the phrase that is being used and if put into effect it will cover both men and women, the armed forces and the munition workers. The government will have the power to draft both men and women into the factories, or into the armed forces as they best see fit. From figures published there is very little unemployment at this time, but there are a number of industries operating which are not absolutely essential to the war effort or to public livelihood. In other words such industries could be dispensed with and their employees put to better use in war time occupation. There are still a number of women who could take the places of men of military age in the factories and other business. There are a number of men of military age who are still engaged in their regular peace-time occupations, who could be replaced by women. In other countries this scheme of selective service is working and every able-bodied person, man or women is being pressed into service of the country for war time needs.

Women Needed

A man or woman may not be able to take up duty in the armed forces of the country, but he or she may be able to work in a factory or take the place of a man who could be released for the armed services. This is total war.

All Men Are Needed

The only way we can bring victory nearer is for every possible man and woman to be engaged in either the production of war materials or in the armed forces of the country. There is much comment on what Quebec thinks about selective service and there is a general feeling that this province is unfavorable to it. However, Premier Godbout in a recent speech said, that if conscription meant the winning of the war, then he was in favor of it. Of course the Premier is only one man. But the people of Quebec must realize that their future is just as much at stake as the rest of the people in Canada and the other countries who are fighting for democratic ideals. If victory is won, it will be much better to say that the people of Quebec did their part and did it well, sparing no effort, than to say the people of Quebec refused to co-operate with the rest of the people in Canada. There is a movement on foot in Ontario to have everyone write a letter to their Federal Member asking him to endorse the adoption if selective service on the floor of the House. It is thus thought that weight will be brought to bear upon the government and show the wishes of the people.

Country Hotels Seek Revision To Liquor Law

Quebec Hotelkeepers Pledge Total Support In Victory Loan Drive

Robert Smith, comptroller of the Windsor Hotel, was re-elected president of the Province of Quebec Hotel Association at the annual meeting of that body in Montreal on Wednesday afternoon.

E. H. Frappier, manager ,Hotel LaSalle, Montreal, was re-elected first vice-president; F. H. Wheeler, of Gray Rocks Inn, St. Jovite, was named second vice-president, and Percy D. Martin, New Carlton Hotel, Montreal, was re-elected treasurer.

New Directors

Directors for the ensuing year included: Alfred Langevin, Chateau Huntingdon, Huntingdon; R. L. Desmond, Cascade Inn, Shawinigan Falls; Vernon G. Cardy, Mount Royal Hotel, Montreal.

Country Laws

At a meeting of the Country Hotel Keepers Association of the Province of Quebec, held during the afternoon, a resolution was adopted unanimously, asking the Provincial Government to change the liquor laws so that the hotels could sell liquor on Sundays from 12 noon to 12 midnight without the necessity of buying a meal costing at least 40 cents. At present beer and wine can be sold on Sundays from 1 p.m. to 9 p.m., but a meal has to be purchased with it.

Special Adviser

B. W. Keightley, special adviser to the public relations committees of the Province of Quebec and Island of Montreal Victory Loan organizations, outlined the necessity of maximum support by every Canadian for the forthcoming loan. He was assured of that support from all branches of the hotel industry by E. H. Frappier, manager, LaSalle Hotel, Montreal, who served as luncheon toastmaster. Mr. Frappier also pledged the support of members to the carrying out of the price control regulations, as described.

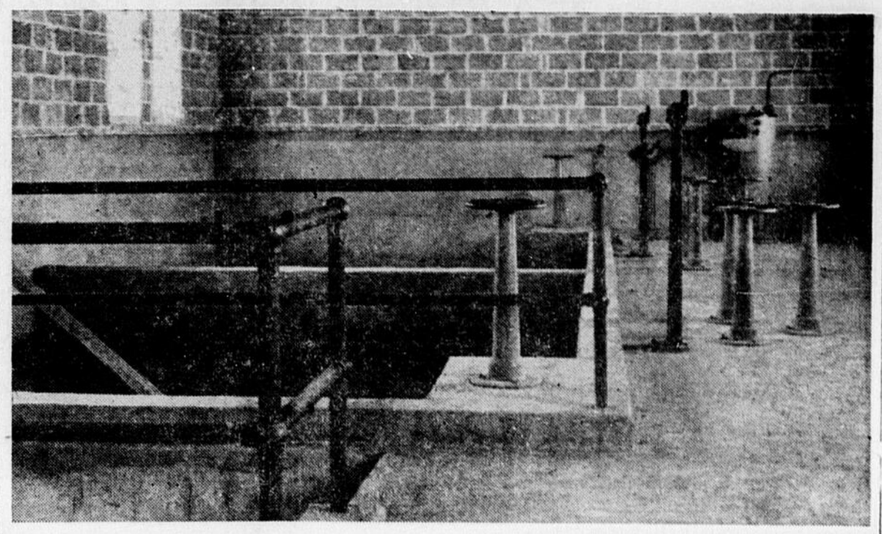
TWO EXTRA FILTER BEDS



With the installation of two new filter beds the filter plant at Huntingdon now has a capacity of about 1,250,000 gallons of water daily. Each of the four filter beds has a capacity of 150,000 gallons. Three of these beds are in constant use and the fourth can be put in operation at any given moment. The above photo shows the filter beds in the new section. At right, near concrete wall, can be seen the lime dry feed machine which is used to treat water from impurities.

Huntingdon Has Eight Miles Of Water Mains, Sewer Pipes

Water and Sewers are Found on all Streets—Noted Improvements Made to Water System in Past Three Years—Taxpayers Receiving Generous Flow

The underground water system in the Town of Huntingdon is considered good, according to certain reports made by the engineers during their frequent visits to Huntingdon during the past six months. With the installation of an addition to the water filtration plant, however, it may be necessary to eventually enlarge certain water mains.

When the water was turned on in the new section of the filter plant some time during the latter part of December, 1941, residents in the north end of the town were able to use as much water as they desired. This had not been the case for more than a year. Ratepayers near the Woollen Mills saw water flow steadily in the second floor of their homes. Industries had all the water they needed at their disposal. In other words, all water taxpayers were receiving a generous flow of water.

Eight Miles of Water Pipes, Sewers

A rough estimate of the town's water system shows that there are about eight miles of water mains and sewers in Huntingdon. The water mains start at the filter plant and are found on all the streets of Huntingdon and as far as the A. C. H. Picard property on Bouchette street. Sewers are also located on all streets, except a small part of Wellington and Dalhousie streets.

Vary in Size

The water mains vary in size from about two inches to eight inches. At the filter plant they are about ten inches in diameter and decrease gradually throughout the other sections of the town in order to keep the pressure equal in all homes. The opposite is in keeping with the sewer pipes. At the east end of Chateauguay street the sewers are about thirty inches in diameter and near the filter plant they are about twelve inches. Pressure decreases from the west end of the town to the eastern section.

Noted Improvements

Some of the recent changes made on the sewer and water lines in Huntingdon took place on Chateauguay and Wellington streets. As a relief project, the Provincial authorities granted a substantial sum of money to the Town of Huntingdon three years ago in order to improve the sewer on Chateauguay street. The project lasted about six months and gave employment to some one hundred workmen who were out of work. This improvement was a timely one and relieved much anxiety from the members of the council. In the fall of 1940, the Huntingdon Woollen Mills and other residents in that section of Huntingdon complained about the poor water pressure. Some homes at that time were hardly able to get enough water to meet the very ordinary requirements of the household.

The council decided to install a water main from the filter plant to Wellington street, as far as the residence of Ald. J. E. Barrett. The main was laid through the fields, passing near the Shirriff property and across the Brown, Clyde and McCormick properties, then to Lake street and Wellington street. It was extended from the extremity of Lake and Wellington streets to a few feet from the corner of Wellington and Dalhousie.

For the Industries

The erection of the Military Training Centre also obliged the town to lay a water pipe across the river to Lorne avenue, along Fairview road to the corner of Henderson street. Water extensions have also been granted Fawcett & Grant Limited, Leach Textiles Limited, for their new buildings on Lake street and on Lorne avenue, respectively, as well as special water connections to the newly arrived Fry-Cadbury Limited milk plant on York street.

Other Changes

Many other minor changes were effected to the water mains and sewer system in Huntingdon which have helped to maintain the good standing that the town has gained far and wide through the passing of years.

Cazaville

Private Charles Edouard Trépanier, who is training in Huntingdon's Military Camp, spent the week-end at the home of his parents, Mr. and Mrs. Alexis Trépanier.

On Sunday evening at Mr. Ulric Hurteau's, a gathering of relatives and friends was held.

Miss Lorraine Quesnel, of Valleyfield spent the week-end at her home.

Mr. Napolen Quesnel is following treatments in the Valleyfield Hospital.

Cazaville lost one of its oldest residents in the person of Mrs. Thomas Lauzon, who died on Monday, Jan. 19th, at Lancaster, Ont. The remains were brought to Cazaville to the home of her grandson, Mr. Emile Lauzon. The funeral was held at St. Anicet on Wednesday. We offer our sincere sympathy to the sorrowing relatives.

"Melvin! . . . Mel-VIN!"
"Huh, ma?"
"Are you spitting in the fish bowl?"
"No, but I been coming pretty close."

"Say, do you know Joe's weakness?" queried the inquisitive broker. To which the banker smiled, "Sure, I've even got her phone number."

CURED!

"Hey, Zeke, ya got ya shoes on wrong, ya got the right one on the left foot."

"My gosh, they been thataway fer twenty years; I thawt I was club footed."

Executive MacHeather—Have a bite of lunch with me, girlie?

New Steno—Oh, sir, I really don't think I should go out to lunch with you.

MacHeather—Who said anything about going out to lunch? I'll unwrap it right here.

She—Jim's in the car waiting for us. How soon will your wife be ready?

He—Well, it'll take her a little longer than usual—she's hurrying so.

Officers are Installed at Leaf Grange

Third and Fourth Degrees are Instituted—Visitors Perform Ceremony

A degree team composed of ladies from Malone and Westville instituted the 3rd and 4th degrees at Maple Leaf Grange, on Tuesday evening. The visitors included District State Deputy Hapgood who has been most faithful in his duty of instructing the new Canadian Grange.

The Master, Fred Donnelly, opened the meeting.

Robert Burns, the Scottish poet was honored in a brief literary programme when some members responded to a roll call by quotations.

Miss Jean Barrie sang "Flow Gently Sweet Afton." All joined in the popular "Blue Bells of Scotland." Instrumental Scotch selections were given by Nicol Stark and Chas. McKenzie.

A motion was passed thanking the Tupper Lake Grange for the gift of regalia and other equipment, a copy to be sent to Mrs. Hathway and the Master of State Grange.

Bro. Bernard Fleury, Master of Westville Grange, extended greetings and an invitation to members to attend their regular meetings on the fourth Friday each month.

Bro. Hinman, Past Master of Malone Grange, congratulated Maple Leaf on the splendid work they were doing for themselves and the community.

Visiting ladies were: Mrs. May Fitzsimmons, Mrs. Katherine Collins, Mrs. Chas. Williams, Mrs. Fay Hapgood, Mrs. Mabel Killam, Mrs. Chester Hinman, Mrs. Gertrude Connors, Malone; Mesdames Rawley, Ruth Armstrong, Hughes, Catherine Cushman, Westville. Mrs. Hollis Foote acted as pianist for the degree team.

Mrs. Ernest Watterson moved a vote of thanks to the visiting ladies which was concurred in by hearty applause.

An enjoyable supper was served by Mrs. H. Wilson and Committee.

Happy Birthday To You

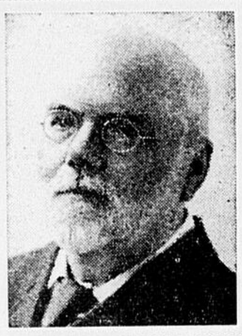
Chronology - of - Chateauguay, Beauharnois and Huntingdon Counties

From Manuscripts of The Late ROBERT SELLAR



(Continued from page 2)

JOHN ANDERSON, South Georgetown—I was born on the river. My father had not a dollar when he came and told me he could not have lived had it not been for Sandy Williamson, who was the only neighbor well enough off to give him work. Sandy was different then from what he became afterwards, and would have driven a man away who offered more than 6%. When he got old, he became grasping and would take 15 and 20 per cent from the habitants. I have heard him say people were less to be trusted lately. That for a long time he lent without a note or obligation and never lost.

To make room for the shanty my father had to fell the trees into the river, they stood so close. I can recall when my mother had trouble to give us three meals a day, and sometimes had to do with two. If she got a piece of meat from Williamson, she cooked it and the gravy did with potatoes for breakfast and the meat was kept for dinner. I was a boy of 12 when the rebellion took place. On the night of the rising they went to James Brown's house first. He gave up his gun and promised not to interfere. When they left, he took his canoe and crossed to the Logan's, whom he warned and they carried it to their neighbor's above, and so the warning came.

My brother when awakened took his gun and left for the blockhouse. I was sent that morning, (Sunday) to see him and found two men slaughtering two pigs for food. They were burning them and spoiled them, by letting them go on fire. There was a great waste of food. When Dr. Muir went to the church (as told in your book) he found old Wright advising them to go to the rebels and make the best terms they could. He said it was foolishness to think of beating them. Dr. Muir protested an exhorted them to fight to the last and if overpowered to fall back to the States, where they could refuge with men of their own language. He prevailed. The rebels could easily have been united that morning for five young men who went down by Logan's point to see how the Grey's were fairing had no difficulty in reaching Grey's but they were away, having been taken prisoners. They saw only a few rebels at Bakers and were confident the movement could have been nipped then had the settlers gone down. Towards noon the rebels came in thick to Bakers. After the affair was over, I helped to ferry the stores of the Highlanders with planks placed across 4 canoes. They were a wild lot. In a house I saw one force old Turcot to take off a good pair of shoes he had on and exchange them for his worn out moccasins.

John McCormick on coming from Ormstown half drunk saw a Canadian carrying a bag on his back from Jas. Muir's. He came to the conclusion the man had been stealing, though it was a half bushel of peas he had bought. The man resisted when McCormick came on to where the Glengarry men were and got a body of them to go to the Canadian's house. The men fled. The house was set on fire with some 30 or 40 turkeys hid in the cellar. The family left.

John Glen knew all about the murder of Harkness and got a beating for hinting he might tell, that ruptured him. Men, on wet days, gathered at Douglas' to drink. It would be about 1830 when Simpson's murderers were tried for I was in court as witness against Goodwin for stealing horses.

My father came from near Dunlop Scotland. He left in 1818 and worked around Montreal until 1820, when he came to the Chateaugay. Boyd came with him and took the next lot. He was an industrious man, but notional; not keeping to one thing. He was a Paisley man and brought machinery for making thread, but got no encouragement. He made lime near Caughnawaga before coming to South Georgetown. There was no clearance on our lot. It was all pine land and part brush. A lumber man, who had a shanty where the Ness house is, cut all the good pine. My father could make no potash, for want of lumber, and it was long before he got returns from his fields, for the land was wet and had to be drained. It was 1840 before we had plenty. He did many a day's threshing with the flail for Sandy Williamson at 20c a day. Old Baker ground the habitants with extortionate interest. If one wanted a loan of $50 in the spring, he would give it on the understanding he was to get $75 on repayment—100%.

Louis Vallee had half of Wm. Ogilvie's lot; he had been long on it. Whether in 1812 I cannot say. There was another Vallee who lived near Baker. None of the French, except Turcot, did well in South Georgetown. The later prosperity of these was due to Thos. Watson's example.

My father worked a while for David Clark. There was a Canadian whose lot adjoined his on the south Ste. Philomene—who remarked to him one day he could hardly get into his buildings for the stuff that gathered and was going to move it. Clark asked what he would give to take it away—two men and a cart for a week. Clark went to work, his brother Tom and my father helping and they were a fortnight in getting away the manure, which covered several fields 8 inches deep. The farmers on the Basin had no trouble at first in getting all the manure they wanted from their French neighbors. After a while, the habitants did as their Scotch neighbors and spread it on the land.

JAMES McDONALD—We came from a few miles east of Melrose, Scotland, my father was a miller; I had held the plow for two years when we left, when I was sixteen years of age. My grandfather may have come from the Highlands. We sailed from Annan, in a Liverpool ship, which called there for emigrants, in the spring of 1820. My brother had preceded us, and was a miller in Williamstown. We went up to the Salmon river, where my father was engaged at Fort Covington, as miller by Robert Buchanan. That summer the family of Mr. Davidson arrived; he was out the year before I think and had a store as had also (Norman) Macdonald. Fort Covington was then a very small place. Buchanan caught several barrels of salmon at his dam for winter use. I worked out in the States' side and did well, and was offered $12 a month to team when we left.

My father was anxious to get land and settle down, so when his year was up with Buchanan, we left to see the newly opened lands in Huntingdon, about which we had made enquiries. We either walked or sailed to Hungry Bay to see James Brown whom we believed to be agent. We arrived about noon, and I remember the settlement was excited by a contest between Thomas Marshall and an American who had challenged him to chop one cord for his two. Marshall accepted and won the bet easily. They were both stripped to shirt and pants and the settlers were piling the wood as cut. I should not wonder if they cut cordwood to send in rafts to Montreal. Brown gave us the information about the lots offered, and told us to take our choice. We walked out through the Teafield by a soft pathway that had been tracked, until we reached Hamilton's house, where we halted for a while. When we got out to the river we found that the raising of Hunter's house had been begun that day. The men employed under Bob Barter, were, with him, all all drunk, and a gable was chained to a stump to prevent its falling. We slept that night in a shanty with the Hunter boys. My father was led to select his lot mainly by their proximity to the river. The land between Huntingdon and Murray Bridge was largely composed of hemlocks, and above that of large elms and black ash.

We saw everywhere we went the stumps of pines that had been cut by the lumbermen. Back on the ridge was heavily timbered by maple. Having chosen our lots, we left Fort Covington late in the Fall for our new home. We drove on the States' side until we reached the Lines, when we turned down to near Morrison's, where the road ceased, and after that was only a winter road. Barlow's mill was in operation. We got a canoe from the people at Morrison's, whose names I do not recollect, and embarking with our goods sailed down to our lot. Old Suttle, who hunted a good deal, with his wife and two daughters, then lived in a shanty near Thos. Stark's and there was an old soldier, who abode by himself on Wallis' lot, and who was sustained mainly, I think, by his pension. Major Wright lived on Creighton's lot and Page was on McFarlane's.

Below there was nobody until, on the river bank, you came to Stebbin's house on Lunan's lot, and who lived by his day's work, and then his father-in-law Palmer. I think Hunter and Percy were the only settlers in Huntingdon. Percy's mill looked old, and must have been up some time. We raised a shanty, at which we were assisted by the pensioner, Palmer and other neighbors. Palmer had a yoke of oxen, with which he drew the logs for the shanty and, I rather think, brought up a load of boards for the roof, as it was too late to peel the trees of their bark. We had brought provisions with us, and lived tolerably all winter. I working hard, even by moonlight, in chopping. In the spring we planted, among the logs, potatoes and corn, which yielded tolerably. That spring, ('22) just before the snow went away, Hugh Barr and his father-in-law, Laird, came in from Cornwall, by way of La Guerre. Laird settled on Wm. Lamb's lot, but afterwards moved back to the Ridge. I think they had been out three years, and that Barr married before he left Scotland.

Our nearist grist mills were at Westville and Percy's at (Brighton Hollow). My father, went, however, to Fort Covington, and in the winter of '22-'23 he carried a bushel of flour all the way from there on his shoulder. I cannot say when the road to Huntingdon and up to Morrison's was cut out but it and the La Guerre road we opened out soon after our settlement. William Lamb worked with his brother-in-law Todd and at the Lines for some time before he took up his farm. I did a good deal of lumbering myself, and went down repeatedly with rafts. I was at Dewittville the morning Peter McFarlane was drowned, his companion was saved by catching a chain from a raft. My brother the miller, on going down the river the following spring, found his body among some trees on a bend below Dewittville. My brother sailed down. All the loads were taken by water, the roads being so bad.

I helped Cameron to raise his grist mill at Huntingdon and while working at it Brown and an American named Jacob Dovewell, came with several men to drive us away and tear down the logs, but we repulsed them. I was a witness at the case that arose out of the matter, and in which Cameron was successful. Brown wanted to frighten him off in order to give the privilege to Dovewell, of whom I do not know what became of him. The American squatters, Page, Wright and others, lived by making ashes, and did not attempt to clear up the land beyond a patch for potatoes and corn. Page who was a methodist exhorted a little in a poor sort of way on Sundays and sometimes for want of better we would go up and hear him. The Americans left as the Old Countrymen began to move in.

I got my first horse from Deacon Allen, which I afterwards sold or traded for a yoke of oxen. Allen was a gardener by trade and had a son, who was a carpenter. I saw him the morning of his death, when he presented a fearful sight. The road near my own house was so bad that to get logs over, I had to lengthen the chains across for the oxen. The year of the fire, Mrs. Leggett went into her cellar and stayed three days. The country was full of fire and smoke, so that you could hardly move in any direction. The March following, smoke could be seen, on the swamps, rising through the snow. It did great damage to the timber in the swaps. I made ashes, and sold them to McDonald at Dundee mostly until I got a kettle, weighing 800 lbs. from Montreal. It came by La Guerre and it took two days to dray it home. I was well acquainted with Lownie. He had been a baker in a good way in New York and afterwards took a farm near Fort Covington, moving down opposite to Muir's subsequently.

WEDDING

HENDERSON-TAYLOR

Holy Cross Episcopal Church, on 36th Street, Miami, Fla., was the scene of a pretty wedding on Saturday, Dec. 27, at 8 o'clock, when Frances Taylor, only daughter of Mr. and Mrs. D. E. Roberts, and W. R. Roslyn Henderson, eldest son of Mr. and Mrs. Gordon Henderson, 32 East 5th Street, Hialeah, were united in marriage. The Rev. Herbert W. Frick officiated.

Given in marriage by her father, the bride wore a street length dress of powder blue crepe, with large white picture hat and veil, with white accessories and a corsage of gardenias. Their only attendants were their close friends, Mr. and Mrs. M. E. Baird.

The church was beautifully decorated with poinsettias and gladioli, and other Christmas suggestions that made it a truly Christmas wedding. Following the ceremony, the bridal couple left for a short honeymoon trip to Daytona Beach. On their return they will reside in Miami, Florida.

Died

ANDERSON—At his residence, The Gore, on Thursday, January 13th, 1942, Joseph Anderson, son of the late Joseph Anderson and Margaret Graham, in his 78th year.

GALE—Suddenly on Saturday, January 17th, 1942, at his residence, 4367 Girouard Ave., Montreal, Arthur Edwin Gale, aged 43 years, beloved husband of Margaret Lawrence and brother of Mr. D. L. Brown, Glenelm. Interment at Cape Cove, Gaspe, Quebec.

HUMPHREY—At Barrington, Que., on Wednesday, January 14th, 1942 Hirm Humphrey, aged 80 years.

MacDiarmid—On January 7th, 1942, at his residence, 90 de Salaberry Avenue, Quebec City, Archibald Alexander MacDiarmid, beloved son of the late Richard MacDiarmid and Mrs. MacDiarmid of Covey Hill, and brother of Miss M. L. MacDiarmid. Interment at Mt. Hermon cemetery, Quebec City, on Friday, January 9th.

MURPHY—At Los Angeles, Calif., on December 26, 1941, Thomas G. Murphy, brother of Mr. C. J. Murphy, Huntingdon, at the age of 63 years.

POND—At Malone, N.Y., on Thursday, January 15th, 1942, Floyd O. Pond, husband of Lillian LeDuc, and father of Mrs. John C. Lefebvre, of Huntingdon, Que., in his 55th year.

WOOD—At Malone, N.Y., on Saturday, January 17th, 1942, Mrs. Fred Wood, née Emilienne Lefebvre, formerly of Valleyveld, aged 40 years.

Thinking Back ... and ... Looking Ahead

Secretary of Navy Knox Says That United States' Greatest Enemy is Still Germany—Fight a Delaying Action in the Pacific—Reich is Nerve Center and Strength of Axis Powers—Germany or Japan First?

By DONALD C. MACDONALD

Winston Churchill is back in England—safe. That relieves many a nervous person whose imagination has pictured the British Prime Minister suffering any one of a dozzen gruesome ends. And at the time is perhaps appropriate to assess, in so far as is yet possible, the reults of his truly historic visit to the United States.

Secrecy

I say "in so far as is possible"—for obviously, we stand as yet too close to the event to judge its full significance, and since the main purpose of the visit was to map out the Allied world strategy, it pertained chiefly to military affairs, and therefore, was for the most part secret. The only specific development to which the world was given complete information was the Declaration of 26 Allied Nations, reiterating their determination to pursue the present war against those members of the Axis against whom they are now engaged, without any separate peace. Vague, it is granted; but for the moment substantial enough, and of world-wide importance for the present and the future.

Allied Grand Strategy

Though the great bulk of the decisions reached at Washington were secret, events already seem to indicate the lines along which Allied strategy was drawn. For weeks the whole American nation has been waiting hourly for news of their Pacific fleet swinging into action, and there were visions of a battle, along lines as stupendous as those of Jutland in the last war, in which the question of American and Japanese sea-power would be decided once and for all. Speaking last week, Col. Frank Knox, Secretary of the Navy, told the nation that it should not expect any spectacular battle—any single blow which would decide the naval strength. Instead, he reminded the American people—and here lies the great significance of his address—that their real enemy is still Germany, that the United States will under no condition qualify for contribution to the Battle of the Atlantic, or any sphere where Allied power is now striking at the Reich.

Fight In Pacific

This, combined with developments in the Far East, and numerous isolated statements made by administration spokesmen in Washington, seems to indicate that the grand strategy decided by President Roosevelt and Prime Minister Churchill is to fight a delaying action in the Pacific and to concentrate the full strength of the United States on Germany and Italy. The Reich is the nerve centre and the strength of the Axis. The war will be won or lost on the strength of what happens to Germany. Once the Nazi armies are defeated, Japan becomes a military problem of almost routine nature, it is argued.

Germany or Japan First?

That brings up the topic which claims perhaps most attention among arm-chair strategists at the moment. The problem the Allies face in attempting to cope with the Japanese attack, and especially in contemplating any offensive action, is that of communications. Six thousand miles or so, from either the United States or Britain to the battle scene is a tremendous distance, and obviously gives rise to a problem of almost unbelievable proportions. For example, to transport a half million men, and all the supplies they would require for an attack such as the Japanese have carried out against the Philippines, would necessitate an armada of troop transports, merchant ships, to say nothing of protecting naval units—in all, the most extensive movement by sea that has ever been attempted in history. For let us never forget, it is problem enough in itself to prepare for an invasion of the continent of Europe in numbers which assure its success. How much greater that problem becomes when the distance is not a mere 20 miles across the Channel, but at least hundreds from Asutralia, after a stop-off following literally thousands of miles from Britain and the United States.

A Delaying Action

There are some who have argued, therefore, from the start of the Far Pacific warfare, that the Allied best strategy is to fight a delaying action. In the week following December 7, I quoted Vincent Sheean in my article, to the effect that it was probable the allies would lose everything in the Pacific except Hawaii and Singapore; and even with such an eventuality, their position would be not without hope, for they would hold the key points for offensive action when the appropriate time came.

Defensive Action in Far East

But will we ever be in a position to go after the Japs with power enough—until Allied forces are freed in Europe? It is contended by some that the answer is "Never!". In other words, the obvious lines of grand strategy is to concentrate on Europe, on Germany where signs of disintegration grow every week, and having cleaned up that situation, turn our full attention to the Far East. The same school of thought argues that it would be foolish for the Allies to attempt recovering our losses from the Japs by sea-borne attacks on, say, the Philippines. The result would only be, they contend, extremely high losses, for they are unavoidable in such an attack.

A Land Force

Instead, does the obvious way of striking at the Japs not lie through a land force, launched against them in numbers such that the Allies will stand on more or less equal footing. And this can only be done by a a great Allied expeditionary force, landed in India, in Burma, and moving eastward, cutting off the Japanese troops further south in the Malaya Peninsula, joining force with the army of millions of Chinese, for whom heavier equipment and air support will be provided, and then moving irresistibly northward through China, driving the Nipponese forces back into the sea. Then, an all-out attack on Japan by the air, and perhaps by sea-borne expeditionary force striking at the heart of the enemy's power. Once he was brought down at home, the problem of Philippines would solve itself.

Hit Germany and Italy

If that be the grand strategy upon which the Allies plan to work, it obviously calls for extra special attention being devoted to Germany this year. We recall the statement of President Roosevelt to the American Congress that an expeditionary force to Britain is contemplated. That island fortress is already adequately supplied with manpower for its own protection—the proof being that Hitler has never attempted its invasion. Obviously, then, if the Americans are going to send an army to Britain, it is merely that it may be used as a jumping-off point for invasion of the continent. And meanwhile, the problem lies in cleaning up the North African coast—a venture which would ease the mind of at least this arm-chair strategist if it were progressing more rapidly. Because if we do not get that corner of Axis strength eliminated, we shall be faced by a terrific—all the more terrific because it is desperate—attack by the Nazis, either directly across from Italy by way of Malta, or on toward Spring, by way of a giant pincers movement in the Mediterranean, into Spain in the West, and through Turkey in the East.

Strike at the Suez

Such a venture, if at all successful, would immediately ease the pressure we are placing on General Rommel in Libya, because if the Germans break through Turkey into the Mosul oil-fields, they will not only get the oil which they failed to gain in the Caucasus but they will be in a position to strike at the Suez. Likewise in the west, with comparatively little trouble, because of the certain acquiescence of Spain, siege could be laid to Gibraltar, and although it is improbable that the rock could be reduced, its use as a naval base would end rapidly, and the western entrance to the Mediterranean would be closed through enemy guns, for long mounted and ready, on the Spanish side at Algeciras, and on the African side, at Ceuta.

Bricklaying, Plastering and Cement Work

Our Specialty: Fireplaces

•

Having completed the Bricklaying and Cement Work on the new Huntingdon Filtration Plant, it is now open for inspection as to quality of workmanship.

Aubrey-Riverfield

Mrs. George Robb was pleasantly surprised on Saturday evening when her sons, daughters, brothers and sister with their families gathered at her home to celebrate her birthday. A beautiful birthday cake, made by Mrs. Sherman Robb graced the centre of the table, while the many friends extended happy returns of the day. The evening was pleasantly passed with cards and music.

Word has been received that Mrs. R. L. Ballantyne of St. Andrews East, had suffered a slight stroke and is at present a patient in the Western Hospital, Montreal.

The P.Y.P.S. met at the home of Mr. and Mrs. E. Robertson on Wednesday evening. The guest speaker for the evening was Mrs. C. W. Orr, who gave an interesting talk on "Childhood days of Winston Churchill." The following officers for 1942 were elected: President, Burton Reddick; Vice-Pres., Lawrence McClenaghan; Sec., Mrs. H. Robertson; Treas., Merle MacFarlane. Games were played and a social lunch hour enjoyed.

On Saturday afternoon the Y.W.A. met at the home of Mrs. Willis Craig, when the annual questionnaire was filled out and delegates, Misses Olive Robertson and Irene Carmichael were appointed to attend the Y.W.A. Rally in Montreal on Feb. 2. Tea was served.

The W.M.S. met on Tuesday at the home of Mrs. E. Robertson. An interesting item from the Presbyterian Record was read by the President, Mrs. S. Reddick, while Mrs. W. Stewart gave the Glad Tidings prayer. Mrs. James Angell and Mrs. Ern. Reddick were appointed delegates to the Presbyterial to be held in Knox-Crescent Church, Montreal on Feb. 2.

Misses Ruth and Hazel Reddick, Reta Robertson, Joyce Terry and Elsie Angell of Montreal spent the week-end at their homes.

Mrs. James E. Orr returned home Saturday after having spent several days in Ormstown with her mother, Mrs. Curran, who has been on the sick list.

Miss Luella McKell, R.N. of the Barrie Memorial Hospital, Ormtown, spent Sunday with her parents, Mr. and Mrs. J. E. Edgar McKell.

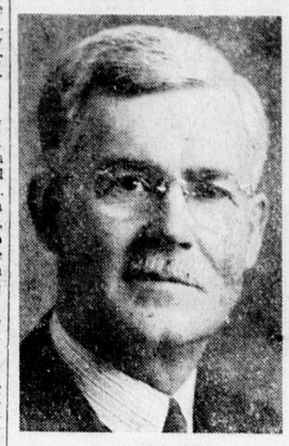
Ormstown

Miss Ina Barrington, of Howick, spent last week with her cousin, Miss Verna Barrington.

On Friday evening, Mr. and Mrs. Wm. Greig entertained their friends to a social evening. Cards were played at three tables, highest score for ladies being won by Mrs. Ivan Barrington; low score by Miss Myrtle Brooks; highest score for gents, by Mr. Norman Tobin, lowest score by Mr. Wm. Ryan.

A game between our Ormstown gentlemen vs. Heather Curlers on Saturday was postponed on account of the death of Mr. Cockfield, one of Montreal's prominent curlers. This game is expected to take place Wednesday.

PRESENT 95th CANADA LIFE REPORT



A. N. MITCHELL

S. C. McEVENUE

A. N. Mitchell, president, and S. C. McEvenue, general manager of The Canada Life Assurance Company whose 95th annual report has just been presented. It was stated at the annual meeting that the Company purchased $24,200,009 of government war and defense bonds during 1941. This amount is greater than the entire renewal premium income of the Company for theyear.

Canada Life Purchased $24. Millions in War, Defense Bonds

Life Insurance at Force at the End of 1941 Amounted to $815,470,716. — Payments Reach $22,956,250. — Improvements in Standards of Living Without Thrift

The Canada Life Assurance Company purchased $24,200,000 of government war and defense bonds during 1941, S. C. McEvenue, general manager, stated before the 95th annual meeting of the Company. This amount is greater than the Company's entire renewal premium income for the year.

"It is the firm resolve of the Canada Life to provide the governments of Canada, Great Britain and the United States with every dollar we possibly can" Mr. McEvenue continued.

The company's operations in 1941 resulted in the security of its policyholders being still further strengthened, and from a sales viewpoint were the most successful in the past ten years.

New paid-for life insurance placed with the company during the year showed an increase of 23 per cent over the comparable figure for 1940. In addition, annuity business also was increased.

Life insurance in force at the end of 1941 amounted to $815,470,716, an increase of almost $10,000,000 over the previous year. This figure does not include annuity business, which has also shown a substantial increase. To ensure payment of these contracts, the Company has assets of $284,617,288, which, combined with future premium payments, will be ample to meet the obligations involved as they fall due.

Policies discontinued by lapse or surrender before they mature were at the lowest level in 17 years.

Payments to Policyholders and beneficiaries during the year amounted to $22,956,250 - an average of $75,514 each working day. Since 1847, the Canada Life has paid to policyholders and beneficiaries, or has accumulated on their behalf, more than $770 millions over $72 millions more than it has received in premiums.

Mortality experience again was favourable. In the last ten years only twice has the percentage of actual mortality to the expected been lower than last year. A surprising feature is that our experience in Great Britain continues to be more favourable than in the United States, or in fact on all business outside the British Isles, even though the largest proportion of war claims comes from Great Britain.

For further protection of policyholders surplus has again been increased.

In 1941, the rate of interest earned by the company was 4.21%.

In discussing the trend of interest rates, A. N. Mitchell, President of the Canada Life, stated that this question is one of major importance in the national economy. "There can be no doubt that a lessening of interest rates could be carried to a point where thrift would be seriously discouraged," he said. "There can be no real world progress or improvement in standards of living without thrift. All improvements in standards of living depend upon a steadily increasing ability to produce, combined with constant improvements in the methods of distribution. These are only possible if thrift creates through saving from previous production, the necessary capital by which new instruments of production and distribution can be financed. Interest rates and thrift are certainly interlocked and thrift is the father of progress."

LOOK OUT FOR YOUR LIVER
Buck it up right now and feel like a million!
Your liver is the largest organ in your body and most important to your health. It pours out bile to digest food, gets rid of waste, supplies new energy, allows proper nourishment to reach your blood. When your liver gets out of order food decomposes in your intestines. You become constipated, stomach and kidneys can't work properly. You feel "rotten"—headachy, backachy, dizzy, dragged out all the time.
For over 35 years thousands have won prompt relief from these miseries—with Fruit-a-tives. So can you *now*. Try Fruit-a-tives—you'll be simply delighted how quickly you'll feel like a new person, happy and well again. 25c, 50c.

Highlights from the

95th Annual Report

of Canada's Oldest Life Assurance Company

"We believe that a life insurance company cannot stand on the sidelines in this supreme struggle."

During 1941, the Canada Life purchased $24,200,000 of government war and defense bonds. This amount is greater than the entire renewal premium income of the Company for the year.

- New paid-for life insurance placed with the Company in 1941 showed an increase of 23 per cent. over the comparable figure for the previous year.
- In addition, an increased volume of annuity business was completed during the year.
- Life insurance in force at the end of 1941 amounted to $815,470,716, an increase of almost $10,000,000 over the previous year. This figure does not include annuity business, which has also shown a substantial increase. To ensure payment of these contracts, the Company has assets of $284,617,288, which, combined with future premium payments, will be ample to meet the obligations involved as they fall due.
- Lapses and surrenders—policies which are discontinued before they mature—were at the lowest level in 17 years.
- In the last ten years, only twice has mortality experience been more favourable.
- Payments to policyholders and beneficiaries during the year amounted to $22,956,250—an average of $75,514 each working day.
- The security of policyholders has again been strengthened by a further increase in surplus.
- The rate of interest earned by the Company in 1941 was 4.21 per cent.

Signatures Are Like Hen Tracks

The Ontario Library Review and Canadian Periodical Index notes that an indictment found by a Canadian grand jury on a criminal charge was quashed by the court, when the defendant's counsel argued that the scrawl which the foreman of the jury intended for his name was not his name, and bore no resemblance to it.

The Review comments: "Some people when signing a letter or document, seem to think that an abbreviated skyline of the hill country will pass for a signature."

Perhaps harried editors of newspapers know as well as any other the grief and woe that can be caused by an unrecognizable signature. Yet they seem to be growing more common. It now appears that a man's station in life is somehow connected with the legibility of his handwriting. If you can read it, he doesn't count, so to speak.

Often we have wondered why this was so. Perhaps it is meant to bear the impression that the man of affairs signs his name so often during the course of the day that he cannot afford the time to sign it so that someone else can read it. But this idea is misleading. We have watched a man wind up for a full two seconds before his pen hit the paper. By that time, of course, he was in full stride and he dashed off his name at a terrific clip. The finished product looked something like the curleycues we used to make in our school writing books to practise the free-arm motion.

Then again, these illegible signatures may be meant to stampede possible forgers. If one has a lot of money in the bank, a distinctive signature may be useful; but surely it can be both legible and distinctive. We often feel sorry for bank clerks who must have to memorize several hundred illegible scrawls in order to recognize them when they see them on cheques. We would imagine it would be much easier to forge a signature that looked like a free-hand landscape drawing than one which really spelled a name.

We pay good money to teach our children how to write neatly in schools; then by our own example encourage them to write in fly-tracks or worse. Perhaps we can blame the typewriter for getting us out of practice, but it is getting to the point where a great many of us should go back to school to learn to write again.

Help Wanted

If you are over 21 and need work, either part-time or full-time, register with D. Clendenning, DEPT. QC-H-1, 2177 Masson Street, Montreal. Experience not essential - no obligation - opportunity assured.

DISTRICT FARM NOTES

D. M. Rowat, Montreal, has recently purchased from W. Elmo Ashton, Foster, Que., Golden Creek Prince, born October 1940, bred by Albert Quinlan, Warden, Que. This bull's great grand dam, grand dam and dam are all living, sound and strong and have excellent breeding behind them.

The grand dam and dam have the following records: Grand dam, Golden Crown Princess, C.J.C.C. 81064. Three joint average records, 2 year old, 3 yr. old and mature. Milk 17741 lbs. Butter fat 849.3 lbs. 4.81%.

Dam, Aggie Girl Beauty, C.J.C.C. 89666. Three joint average records, 2 year old, 3 yr. old and mature—Milk, 13,497 lbs. Butter fat 736.6 lbs. 5.45%.

Mr. Rowat purchased Aggie Girl Beauty from Mr. Quinlan last June and she gave him on the 17th of November last a handsome heifer calf. He thus has now three animals with the Quinlan blood. The ancestral owners of the Quinlan blood comprise prominent Jersey breeders in Jersey Island, England, United States and Canada.

Mr. Rowat has also sold Glenness Fern's Lad, the first calf sired by his Bull Brampton Radiant Lord, to James Cowan & Son of West Brome. This bull was born on the 22nd of July 1939, and has since been in the possession of James Ferns, of Huntingdon who has from him several nice heifer calves. Mr. Rowat is also placing with Robert Crawford a bull calf.

Mr. Andrew Elder, Glenelm, reports that his registered Holstein herd, numbering 35 head, have been listed, hasing passed Blood Tests with a clean record.

Dewittville

The United Church Women's Missionary Auxiliary, Eastern Division, was entertained on Thursday afternoon, Jan. 15th, at the home of Mrs. Richard McIntosh. A quilt was quilted and other sewing and knitting done. Mrs. McIntosh, assisted by Mrs. K. McIntosh and Mrs. C. A. McArthur, served a delicious hot supper.

There was a fire on Monday afternoon in the house occupied by James Costello, which started between the boards of the ceiling and the upper floor. It was quickly extinguished by Mr. Costello before much damage was done.

Mr. L. R. Ross was a week-end guest of Mr. and Mrs. Colin McArthur. Mr. and Mrs. Claude Parker and son James, of Lachine, were Sunday guests at the same home.

Mr. John Savage is further improving his property by having his house wired for electricity.

Mrs. Mattie Harvey has returned from spending a couple of weeks in Montreal.

Emillio Laplante, second son of Mr. and Mrs. John Laplante, who enlisted in the Black Watch Regiment on Oct. 24th and is training at the Military Barracks, Huntingdon, spent the week-end at his home.

Colds and la grippe are prevalent in many homes, and Mrs. Wm. Graham is confined to bed since Saturday, with an attack of pleurisy.

Mrs. Wm. Coults and daughter Florence, of Montreal, spent the week-end as guests of Mr. and Mrs. Joseph Rabidoux.

Mr. Archie McIntosh and Miss Arline McIntosh spent Saturday in Montreal.

Tenders Wanted

Tenders will be received by the undersigned up till January 26th, for delivering to Zion Church, Dundee, 10 cords of hard maple body wood, 16 inches long. 5 cords dry for immediate delivery and the balance green.

J. S. ARNOLD, Sec.-Treas.

DUKE OF CONNAUGHT DIES IN 92nd YEAR

Huntingdon has never lost sight of the fact that the Duke of Connaught who died on January 16, 1942, paid an official visit to this community in 1870 at the time of the Fenian Raid. It was on the occasion of that visit that the Huntingdon Borderers ,were presented with their Colors by the Duke of Connaught. In 1937 the "Colors" were restored and on Remembrance Day were deposited with military honors in St. John's Anglican Church where they presently adorn the edifice. On that occasion a cable gram was received from the Duke of Connaught expressing pleasure in knowing "the colors" were being so honored.

In 1870, when the Duke of Connaught was in Huntingdon he was entertained at the home of the late Archibald Henderson and presently owned by Mr. and Mrs. F. H. Hunter. Thanks to Mr. Hunter we are able to reproduce the above picture which shows His Royal Highness Prince Arthur, Duke of Connaught reading an address, to the troops on their return from the Battle at Trout River, from the verandah of this historic landmark in Huntingdon. To the left of the Duke of Connaught is C. J. Bridges who at that time was manager of the Grand Trunk Railway, second to his left is his son. The tall officer in the front with the broad sash is General Lindsay, who accompanied the Militia. The officer standing in the door way is Colonel Fitzgeorge, A. D. C. to Prince Arthur. The late Archibald Henderson is at the extreme right.

What's in the Wind
by PAULA DICKS

Nebuchadnezzar ate grass; the British seamen of the eighteenth century drank raw lemon juice; the Alaskan miners in the gold rush drank pine needle tea; and the English mother to-day gives her children syrup of rose hips. Not because any of these concoctions are particularly pleasant, but because their high Vitamin C content prevents that most virulent of vitamin-deficiency diseases known as Scurvy.

This terrible condition has always been prevalent wherever diet is restricted by poverty, war or famine. The danger of it, even in its mildest form, should be easily avoided in this country if every housewife remembers the importance of Vitamin C when planning the family meals, nutrition services of the Department of Pensions and Health advises.

Fortunately for the family food budget, Vitamin C is present in appreciable quantity in such simple foods as potatoes and parsnips, fresh cabbage, cauliflower, turnips, beet tops, spinach and watercress. Eaten raw they would give the highest value, and faulty cooking can render them almost useless. So cook your potatoes in their skins; plunge the cabbage into fast boiling water and cook rapidly with a lid on the saucepan for not more than 7-10 minutes; spinach needs only the water that clings to the leaves after washing. Use shredded cabbage and watercress in salad rather than lettuce.

Fresh oranges, grapefruit and lemons are so rich in Vitamin C that four ounces of juice a day is sufficient for an adult. Twice that quantity is needed of tomato juice, fresh or canned. The homely banana is a valuable food for small children, and its Vitamin C content has helped it to live down a reputation for being indigestible.

Save the Hen Feathers!

Have you ever rested your head against a bombax tree? You probably have without knowing it for bombax trees are the tall evergreens which supply the world with kapok used for stuffing cushions.

Because of war in the Pacific, kapok, like rubber, has been "frozen" by the Controller of Supplies. The Bombax tree grows chiefly in Java and shipments of kapok may cease—or may be few and far between.

Housewives who like kapok because it doesn't get lumpy and does not attract moths and other insect pests will probably find that there is a shortage. The kapok that is not already distributed will have to be kept for war purposes as it is needed to line air force flying suits as well as floats and life preservers.

The old cry: "Rags and Bones. Rags and Bones" has an important meaning these days because rags and bones along with many other things are needed in the war effort.

Among the many places where rags are wanted is in the Commonwealth Air Training Schools, where wipers are in constant use. Not long ago Wing Commander E. A. McNab, D.F.C., who is now in charge of No. 4 Service Flying Training School near Saskatoon, made a person appeal in that city for rags—rags for the air force.

"No old duster is too old for salvage", the Director of Salvage assures housewives. "Clean out your cupboards for rags, cotton, linen, woollen or silk rags, and give them to the local salvage collectors.

The plumber's lot is not a happy one. Shortages of metals make it difficult for him to get household equipment and replacements.

Firms manufacturing plumbing equipment are making experiments with new materials to replace those needed for the war effort. For example, faucet handles, towel rails and shower curtain rods, may be made of wood in future.

Glass is a possible alternative to both metals and plastics and it is likely that tanks will be lined with glass instead of zinc, and glass floats will be used in toilets instead of copper. Malleable iron can take the place of steel for kitchen and bathroom traps and in future many brass fixtures may be made of cast iron with brass only at essential points.

All in all the problem is a complex one and the consumer must be prepared to strike snags when he tries to purchase these articles. Increasing standardization in the hardware trade will make odd sizes of screws and washers unobtainable, which is just too bad for the people who happen to have out-of-date fittings.

ADMISSION:
Adults 25c., Soldiers & Children 15c.

Vanishing Teas, sponsored by the W.A. of the Canadian Legion, have been held in the past week to raise funds for the local war services. Some of th recent hostesses have been: Mrs. F. H. Hunter, Mrs. N. W. Sparrow, Mrs. A. A. Lunan, Mrs. D. L. Kelly, Mrs. L. Brown, Miss M. McMillan, Mrs. W. S. Hatcher, Mrs. J. Fox and Mrs. E. C. Martin.

The steady rain on Sunday and Monday that turned to ice at night made walking and driving dangerous. Although there were no serious accidents reported, many people sustained bruises and there were many minor car accidents because of the coat of ice.

Paul Patterson, Athelstan youth attending the Huntingdon High School, successfully passed his medical examinations, qualifying him for the R.C.A.F.. He expects to enter this branch of the service as a pilot.

AC/2 Andrew Fawcett of No. 1, Manning Pool, Toronto, spent the week-end with his parents.

Messrs. Alan Mann, MacRae Clouston and Robert Cluff, of Montreal, spent the week-end here.

Mr. Charles Grant, popular young athlete is now taking a preparatory course prior to enlisting in the R.C.A.F.
