

CHECK TO POWDERLY

THE SUPREME COUNCIL REFUSES TO ORDER A STRIKE.

The K. of L. Left Single Handed to Fight the Battle—The Council Adjourned Since Die-Letter From the Council to Mr. Powderly—Freight Moving Slowly at Albany—Examination of the Discharged Men.

TERRE HAUTE, Ind., Aug. 25.—The federation men will not be called out. The strike motion was defeated late this afternoon.

TERRE HAUTE, Ind., Aug. 25.—The council adjourned sine die at 5.15, after deciding that the official statement of the conference should not be given to the press until 9 p.m.

A United Press representative showed Grand Workman Powderly a dispatch from Terre Haute saying that the strike would not be ordered by the federation. Mr. Powderly said that it was the first intimation he had received of such action, but declined to talk, saying that it would not be policy for him to make any comments upon it until officially notified. He did not seem to be very much surprised or crestfallen at the result, but went to his supper in good spirits. Local labor leaders, however, looked very gloomy, and were evidently very much displeased at the action. Secretary Hays said: "If the dispatch is true it means a single-handed fight, with the Knights doing the fighting and the other organizations aiding financially."

Mr. Powderly notified. TERRE HAUTE, Ind., (6 p.m., Aug. 25).—The following dispatch has just been sent to T. V. Powderly, at Stanwix Hall, Albany:

TERRE HAUTE, Ind., Aug. 25. T. V. Powderly, G.M.W., K. of L., Albany, N.Y.

The Supreme Council adjourned this afternoon after carefully considering the strike in all its details. You will notice the result of our deliberations in tonight's dispatches, which it is hoped will meet with your approval. The committee was unanimous in endorsing your proposition and the proposition of the grand executive board and most earnestly hope that the right of which you are the champion in the great conflict on the N.Y. Central may finally and powerfully prevail.

F. P. SARGENT, Pres't. W. A. SHERMAN, Sec'y.

The Supreme Council Manifesto. TERRE HAUTE, Ind., Aug. 25.—Following is the manifesto of the Federation:

Headquarters of the Supreme Council of the United Order of Railway Employees.

TERRE HAUTE, Ind., Aug. 25. To all Labor Organizations.

MEM AND BROTHERS:

On the night of Aug. 8 a strike began on the N. Y. C. & H. R. R. Ry., involving about 5,000 men in the employ of the said road, who were members of a great labor organization known as the K. of L. The reason set forth by Mr. T. V. Powderly, chief executive of the order, may be summarized as follows:

The peremptory discharge of 50 or 60 employees of the road and members of the K. of L. because they were Knights of Labor, without giving them any reason whatever as to their discharge.

Prior to the strike the men had sought through the representatives of the order to have their grievances adjusted, but their appeal being disregarded a strike was inaugurated. At this juncture T. V. Powderly, master workman of the K. of L., entered upon the task of adjusting the differences and of making such arrangements as would result in an honorable peace.

Result in an Honorable Peace.

Between the employees and the officials of the road, but his efforts were unavailing. Mr. Powderly comprehending the purpose of Mr. Webb, third vice-president of the company to make war upon the K. of L. and ultimately upon all labor organizations represented on his road, sought a conference with the supreme council of the united order of railway employees.

The request of Mr. Powderly was granted to the extent that four members of the council, the chief executive of the federation, met him in the city of Buffalo, viz.: J. P. Sargent, G. M., of the Brotherhood of Locomotive Firemen and President of the Supreme Council, Geo. W. Howard, Grand Chief of the Brotherhood of Railway Conductors and Vice-President of the Railroad Trainmen, and Frank Sweeney, G. M. of the Switchmen's Mutual Aid Association.

At the conference with Mr. Powderly at Buffalo the members of the Supreme Council became satisfied that the officials of the road by every consideration of fair and honorable treatment of labor organizations, should meet Mr. Powderly and adopt some plan for the adjustment of the grievances of the striking employees.

This conclusion having been reached, the members of the Supreme Council in response to the request of Mr. Powderly, extended their journey to the city of New York to afford such aid as was in their power.

To Bring About a Settlement.

between Mr. Webb, 3 vice-president of the company, that official having full authority in all matters pertaining to the strike, and T. V. Powderly, G. M. W. of the K. of L. having the authority to negotiate such arrangement as might end the dispute. An interview having been secured Mr. Powderly sought to have the discharged men reinstated in their own defense, in the presence of Mr. Webb and himself. This was a fair and honorable settlement of the trouble, all of which were refused on the part of Mr. Webb.

This fair and honorable proposition was refused. Mr. Powderly proposed arbitration, which was also refused. There were other propositions made by Mr. Powderly having for their object the settlement of the trouble, all of which were refused on the part of Mr. Webb.

The members of the supreme council while in Buffalo and in the city of New York had ample opportunities to thoroughly inform themselves on all matters concern-

ing the strike. They saw and heard both sides. They appreciated the gravity of the situation and comprehending the

Impending Consequences to Labor organizations deemed it advisable to convene the Supreme Council for deliberation and such conclusion as facts would warrant.

In response to the order of the president of the Supreme Council, J. P. Sargent, that body convened in the city of Terre Haute, Ind., on Saturday, the 23rd day of August, and remained in session until noon on Monday, the 25th.

In making their report to the Council the members who went to New York to confer with Mr. Powderly found all the statements made by him fully corroborated by the facts.

In an interview with Mr. Webb Mr. Le refused to entertain any proposition looking for settlement of the difficulty. He would not arbitrate any question nor make any explanation whatever with regard to the discharged employees.

He claimed the right to discharge employees at will, without seeking explanation or giving to the victims of his will any reason for his despotic action. He would manage his road to suit himself, without reference to any rights claimed by its employees, or any rights claimed by labor organizations to interfere in the matter to protect their members.

The council having heard the statement of its members who had visited New York for the purpose of ascertaining the true condition of affairs, exhaustively discussed every important proposition and arrived at conclusions as follows:

1. That the position of the Knights of Labor as set forth by Mr. Powderly and the general executive board of the Knights of Labor meets with our unqualified approval.

2. That the course pursued by Mr. Walter Webb towards Mr. Powderly and the K. of L. notwithstanding his declarations to the contrary, evinces a purpose to disrupt and destroy labor organizations on the N. Y. & H. R. R. as done by Austin Corbin on the Philadelphia & Reading.

3. That the policy of Mr. Walter Webb is despotic to an extent that outrages every principle of American citizenship and world, if successful, reduce American workmen to the degraded condition of slaves.

4. That Mr. Walter Webb, by the employment of Pinkerton thieves, thugs and murderers, vile wretches from the slums and brothels of New York and other cities, to kill workmen because they dared to protest against his rule and strike for their rights, is guilty of a crime of such enormity as will associate the name of H. Walter Webb forever with those who, "dressed in a little brief authority," have used their money to secure power to degrade their fellow-men.

5. That the efforts now being put forth by Mr. Walter Webb to destroy the K. of L. would be circumvented and changed, in like manner be made to destroy the organizations of engineers, firemen, conductors, trainmen and switchmen, and, if successful, it is only a question of time when a similar effort would be made to seal the fate of other labor organizations.

6. That Mr. Walter Webb, by the course he has pursued towards the K. of L. and the representatives of labor organizations, has shown a total disregard of those principles of the citizen sovereignty of every American worthy of the name and considering only his money power and the corporate power of the company he represents, his acts, which speak louder than words, say in the language of W. H. Vanderbilt, once the autocrat of the New York Company: "The public be damned."

7. Mr. Walter Webb seems to support his arrogant attitude towards workmen and labor organizations by assuming that the N. Y. C. & H. R. R. is private property and that his acts in this treatment of his employees are in no sense a matter of public concern; that he can with impunity discharge men and send them to poverty and destitution and render them homeless wanderers, without giving any reason or explanation whatever for his conduct; disregarding the fact that the corporation for which he plays autocrat is

A Thing Created by Laws in the making of which the men he seeks to degrade have a voice, which once unified will bring his corporation to the bar of justice, where his millions and other millions he represents, will cease to be potential in directing questions of right.

In view of the foregoing facts the Supreme Council puts upon record its unanimous and unqualified approval of the strike on the N. Y. C. & H. R. R., for the cause set forth by T. V. Powderly, as also the efforts made by Mr. Powderly to bring the strike to an honorable termination. In this general expression of approval of the action of the K. of L. the course of Vice-President Webb is unequivocally condemned.

The power of the Supreme Council in the matter of the strike has been exercised to aid the K. of L. through their representatives, to secure the recognition of their order by the officials of a rich and powerful corporation, to secure for workmen

The Victims of Autocratic Power, a hearing and to perform such other kindly offices as were proper under the circumstances, demonstrating sympathy, and good will, thereby aiding the K. of L. to bring the strike to a close upon principles of right and justice.

In this the council met with failure, owing to the autocratic attitude of Mr. Walter Webb. It now becomes necessary for the supreme council to say that owing to the fact that the order of the K. of L. is not a member of the federation of railway employees the laws of the supreme council do not permit its doing more than it has done to aid the K. of L. and its inability to participate otherwise in the strike is now known and appreciated by Mr. Powderly.

Referring to the laws of the supreme council relating to strikes, the matter is concisely presented as follows:

In the first place if the members of the organizations on any railroad have a grievance it is submitted to the proper officer of the road by the local grievance committee. In the event of failure to obtain satisfaction the chief executive officer of the order, having the grievance is called upon, and in connection with the committee seeks to amicably adjust the differences. If failure still attends the efforts to adjust the trouble then the Supreme Council is convened at the headquarters of the Railroad officials with whom a conference is requested and its influence exerted to obtain a settlement alike just

to all parties. If failure still follows efforts to remove the cause of complaint and the Council by a unanimous vote decides the grievance to be of such gravity as to justify a strike, it is promptly ordered in which event the members of the various organizations employed on the road, on which the grievance exists, viz.: Firemen, Conductors, Trainmen and Switchmen abandon their work.

In conclusion the supreme council places upon record its high appreciation of the manliness of the K. of L. employed on the New York Central and H. R. R. Co., in struggling to maintain a principle sacred to every workman on the continent and to all men who love justice and hope for the triumph of right over wrong as flagrant as ever stained the pages of history.

Depositions of Discharged Men. ALBANY, Aug. 25.—At the afternoon meeting of the leaders and the Knights of District Assembly 246, the twenty men examined were those who were discharged. All of them said that they were threatened with discharge if they did not leave the Knights of Labor. Supt. Bissell had told one man that he was discharged for working against the interests of the road; afterwards saying that meant being a Knight. Mr. Powderly said that the charge had been made that the Knights had been started in this strike by a foreign element. He asked those born in America to stand up and 67 men rose. He then asked those who were born in foreign countries and 10 stood up. The men were then asked to say what kind of men were in their places and various bad characters were given, many of them being discharged help of other roads. Messrs. Powderly and Devlin each gave an explanation of the position of the order, by saying that the rank and file of the order must aid in supplying money to conduct the strike. A resolution was then adopted calling upon the State Board of Arbitration to arbitrate, as they were paid to do in such cases, and the men were ready for such a course. The men were encouraged to stand firm.

Albany Freight Still Tied Up. ALBANY, Aug. 25.—A tour through the Delaware and Hudson freight yards and houses shows that Superintendent Hammond's and Mr. Farley's statements that the road is in regular operation are somewhat colored. All of the trains that lay on the track near the freight house on Saturday are still there. No freights of any description have gone out of the Green Island yards towards this city and none have been moved from this city north. In the freight houses a few men are busy, but there is no freight being received from Albany merchants. The only trains being moved in the vicinity were a few N. Y. Central cars and Central engines were drawing them out. One of the train dispatchers said this afternoon "we have not moved any more to-day than we did yesterday."

Enquiry Into Foreign Missions. BOSTON, Aug. 25.—The committee of nine chosen to investigate the methods of the executive officers of the American Board of Commissioners for Foreign Missions, which has been sitting in the Congress, House during the past week, has finished its labor for the present. The sessions were occupied with the reading of reports of sub-committees and acting upon the same. The proceedings were secret, and the committee refused to divulge its action. It is understood, however, that harmony prevailed. It is said other sub-committees were appointed to report at a session to be held in Boston Sept. 23, with a view to final action at the annual board meeting.

WHERE ARE THE POLICE? Triumphant Reign of Kowdism in a United States Town. BUCYRUS, Ohio, Aug. 25.—A reign of terror exists here. Citizens are boldly assaulted on the streets at night, others are made to give up their money at the muzzle of a revolver, while daring burglaries are committed nightly. The police are powerless to cope with the toughs and at night they do as they please.

Prevalence of Small Pox in a Texas Town. WAGO, Tex., Aug. 25.—Small pox prevails to an alarming extent in this city.

Tariff Debate in the Senate. WASHINGTON, Aug. 25.—In the Senate to-day Mr. Aldrich proposed that the general debate on the tariff bill be closed Sept. 1, with five days' discussion thereafter, under the five minute rule. He accepted a modification, suggested by Mr. Gorman, to close the debate Sept. 3 and take a vote Sept. 8, but Senator Plumb objected to the proposed agreement and the matter went over. The afternoon was spent in the discussion of the lead ore paragraph of the tariff bill.

Suit Against President. PROVIDENCE, R. I., Aug. 25.—Sheriff McKay to-day served papers upon President Chapin, of the Riverside and Oswego Company, which failed a year ago for over \$3,000,000, in an action begun by the Norwich National Bank. The bank claims \$20,000 as a creditor on accommodation notes. The suing creditors are among those who dissent to the proposed plan of liquidation under the reorganization scheme.

Lost in the Woods. MEDFORD, Wis., Aug. 25.—Saturday afternoon Mrs. Barney Molitor, of the town of Molitor, this county, and a sister of Mrs. Molitor, and Mrs. Molitor's daughter 15 years old, residing in Chicago, went into the woods berrying and got lost. They have not yet been found, although the whole town has been hunting for them. This morning at four o'clock the fire bells were rung and the men of the city were called together, and another large party started to Molitor, 15 miles distant, to hunt for the lost ones. The grist mill and also the saw mill have shut down, the employees joining in the search. There is intense excitement here and news of the missing women is most anxiously awaited.

STRIKE, BUT HEAR US

MASS MEETING OF KNIGHTS OF LABOR AT ALBANY.

What is Thought of the News From Terre Haute—Disappointment at the Result of the Council's Deliberations—K. of L. Feel Their Cause Lost—Done to Death at the Hands of Our Friends; Is Their Sad Commentary.

ALBANY, Aug. 25.—A monster meeting of striking employees was held in the Academy of Music to-night, Edward J. Lee, presiding. On the stage were all the members of the grand body including Mr. Powderly. Mr. Jas. Dalin was named as chairman. Mr. Wright was then introduced as the first speaker.

Mr. Wright said that the Vanderbilt old saying was "The public be damned," but before we get through it will be said by the public, "The corporation be damned." The strike now on is one for right and might as against dollars and cents. All the men on the Central are out. There remain some counterfeit presentations, but there were no men on the road.

A despatch to Mr. Powderly from Terre Haute said that the federation was with us and that they would aid us. It intimated that there would not be a general strike, but that the knights would be materially assisted.

Mr. Thomas B. Maguire was the next speaker. Mr. Powderly was then introduced and was received with a perfect tumult of applause.

The Beginning of the End. TERRE HAUTE, Aug. 25.—Nearly all the members of the conference left for their respective headquarters on the midnight train. By their gentlemanly demeanor, substantial presence, general courtesy and conservative bearing they created a decidedly favorable impression. Before leaving, Mr. Downey of the Chicago switchmen said: "We came here in the interests of the people whose servants we are. We are here to serve their interests. While in a moral sense we are in sympathy with the K. of L. the interests of those to whom we are directly responsible, governed our actions and no other course was open. If we have erred, it has been with the head rather than the heart and we are willing to stand the curses of those that disagree with us. I am entirely satisfied with the outcome" said chief Sargent, "there were no kickers when we had finished. If any questions come up in the future directly affecting the orders in the federation, the switchmen for instance, we will meet it like men. There will be no compromise."

Some other delegates spoke in the same strain. Local K. of L. are paralyzed at the result of the appeal of their chiefs. They had confidently expected that the Federation would rush to Powderly's assistance through the medium of a general tie up, and endeavor to bring Webb to terms.

The cause of the men on the Central they say is a lost one, and with the defeat goes the reign of the prestige and strength of the Order.

DEATH BLOW TO THE K. OF L. They Asked for Bread, and the Council Gave Them a Stone.

TERRE HAUTE, Aug. 25.—The K. of L. asked for bread from their brethren of the United Order of Railway Employees, better known as the federation, and it has responded with a stone. It is true that the morsel is concealed in a jar of honey, but it will be none the more digestible to the knights on that account. It is a common remark here to-night that the final decision of the conference could not have been more to Mr. Webb's taste had the third vice-president of the Central Railroad manipulated the wires that controlled the 12 men who compose the Supreme body. The unfortunate knights are left to their own resources. They are not even offered the balm of pecuniary support, and their general master workman is referred by the chief of the federation to press dispatches for the official reply to his appeal. The outcome may prove a

Death Blow to the Knights. At the same time it is a vindication of the conservatism and prudence of the federation. It was formed to prevent strikes instead of to promote them, and in the very first case upon which its supreme tribunal has been called to sit in judgment it has demonstrated its intention of living within the laws, and yet it is only after a warm struggle that the conservatives prevailed against the supporters of war to the knife.

An Ecclesiastical Loan. KINGSFORD, Ont., Aug. 25.—The Archbishop of Kingston has borrowed \$200,000 from the Standard Life Assurance Company at 4 1/2 per cent. The loan is for 20 years. The lives of 40 young men will be insured for \$5,000 each.

Another Victim of the Revolver. On Sunday last rather a peculiar shooting affair occurred near Montreal Junction. One of the fine orchards there is in charge of two keepers, who during the afternoon went on their rounds as usual, each taking a different direction. As they drew near each other again one of them mistook his confere for an orchard thief and fired at him, wounding him in the abdomen. The name of the victim is Napoleon Gagnon, who was taken to the Notre Dame Hospital, where he is doing nicely.

No Quorum. A special civic committee meeting was called for yesterday afternoon for the purpose of considering the abolition of tolls, but no quorum could be obtained and nothing was done. The aldermen present were Messrs. Prefontaine, Boisseau, and Tansey. Mr. L. H. Senecal, secretary of the Turnpike Trust, was in attendance, and was requested to prepare papers showing a detailed amount of the debentures, at what interest and on what length of roads applicable. Another meeting will be called shortly when the answers will be submitted.

The Emperor of Germany is credited with the intention of spending some \$7,000,000 in fortifying Heligoland. (When the story started it was 7,000,000 marks.) The German taxpayers will be apt to come to the conclusion that rounding off the Empire is a costly business.

The United States iron-clad Charleston is in Puget Sound, and the sensation-mongers scent "a grave crisis." As American men-of-war are entitled to take a cruise as well as those of any other nation, it may be safely put down beforehand that there is no crisis, and that there will be no sensation.

A STATE OF WAR—on a small scale of course—exists between Hayti and Dominica. Haytian troops invaded Dominica, but were repulsed by the troops of the latter, and no doubt there will be more of it. The annual revolution in Hayti is now due, and as soon as the trouble with Dominica is off hand, will no doubt be forthcoming.

It is not certain that anyone who stood at a window to see troops go by during the civil war in the United States is entitled to a pension, but it would probably be considered by the present Congress as fair grounds for a claim. Persons arriving in the United States after the war was over may make affidavit or declaration that if they had been in the country they would have served in the war, and they can then apply for a pension.

TORONTO MONETARY TIMES: Our protectionist tariff, it is true, stands in the way of our competing with the cheaper manufactured goods of free trade England, but the trade in our natural products, those of the sea, the soil, the forest, is capable of further development. Return cargoes are thus far the common difficulty.

And the difficulty in the way of return cargoes is our protective tariff. Strike that down, or even materially modify it, and further development of our trade in natural products will be in order.

PREMIER BLAIR, of New Brunswick, has met with a disaster on a small scale, in the defeat of the government candidate, Mr. Baird, at the by-election in Victoria County on Saturday—Mr. Porter, his opponent, being elected by a majority of twelve. At the general election Mr. Baird had a majority of nineteen. His election was protested, and when the case came to trial he resigned. Hence the by-election.

BROCKVILLE RECORDER: What a picnic Mr. Adam Brown, M.P., is having at the expense of Canadian tax payers these days.

You need not worry Mr. Brown. He is in for the picnic now and cares very little who pays for the fun he is going to have. No doubt he thinks he has as much right to have a picnic at the expense of the tax-payers as Mr. Wood, Mr. Wyldie or Mr. Jones, and he entertains the fullest confidence that his trip will result as beneficially to Canada as did the trips of the three gentlemen mentioned. That was, of course, very, very small, but then Canadians are learning to be thankful for small results.

THE GAZETTE on Saturday expressed sympathy for Canadian Liberals because a combine of Scotch oil refiners has decided not to sell oil in Scotland under 63d. per gallon. As this is about the equivalent of 13 cents, we have no doubt Canadian consumers, Tories as well as Liberals, would welcome any combine which would reduce the price of oil from 30 and 35 cents, the present price, to anything near the price in Scotland. Gazette readers will perhaps wonder why oil should be so cheap in Scotland where they have no oil wells and so dear in Canada with the wells practically at our doors. The absence of a protective tariff may have something to do with it. Our contemporary, however, can furnish its own explanation.

According to statements recently made in Congress some of the "pure refined family lard" made in the United States, is composed to a greater or less extent of the following articles: Cotton seed oil, sesame oil, vegetable oil, mineral oil, starch, caustic, lime, alum, carbonate of potash, salt, potatoes, potato flour, chalk, plaster of Paris and barytes. Occasionally a little lard is thrown in to adulterate the mixture. Over 300,000,000 lbs. annually of this stuff is made and sold in the United States, and the manufacturers thereof have grown immensely rich. And now Congress is going to interfere with this flourishing poisoning industry, and compel the manufacturers to label it honestly so that consumers may know whether they are purchasing lard or the caustic and barytes mixture.

THE IMMIGRATION QUESTION.

The Halifax Herald is evidently of opinion that the Conservative papers in the Northwest are making too much fuss over the immigration question. It enters "a decided protest" against what it calls the doctrine that "the great end and aim of all our efforts should be to get people no matter who or what they are so long as they are people to go to our Northwest, take up lands there and occupy them." The Conservative papers of the Northwest can, of course defend themselves, but to do them justice it must be said that the Halifax Tory organ misrepresents the position they have taken—they have never insisted or hinted that any kind of people should be induced to settle in that section of Canada; but they have urged, and justly so, that reasonable efforts should be used to divert to the Northwest the stream of agricultural immigrants from Great Britain and other European countries, who are seeking homes in more favored and less crowded countries. The character of the immigrants is all important, but it is begging the question to say that vigorous promotion of agricultural immigration is inconsistent with scrupulous regard for its character. When the Halifax organ says that the Northwest is "good enough to keep—until the right men come to occupy it," it is merely taking an indirect way of justifying the Government's halting, dilatory policy in the matter, and their waste of public money on useless officials, useless pamphlets, of which latter people in Great Britain and elsewhere appear to have become suspicious. In one way and another Canada has spent well on to a hundred million dollars in opening up the Northwest and cannot afford to allow the farming lands of that section to remain uncultivated and undeveloped. Too large an area of these lands is locked up in the hands of speculators, thanks to the Rykterian policy which so long ruled the department of the Interior. It is time Canada received some return for her large expenditure in the Northwest, some outlet for the cramped trade and congested manufactured products of the Eastern Provinces, and that return can only come from the settlement and agricultural development of that section of the Dominion. At the last session of Parliament a special grant was made for the promotion of immigration to the Northwest, and so far as the public know, very little has been done to carry out that object. Members of Parliament, and especially the people of Manitoba and the Northwest, want that money spent on bona fide immigration, not on Government boudlers and hangers on; and probably it is just here the difficulty comes in—the political favorites want to spend the money as of old, so that between their duty to the people and the importance of the political leeches who hang around them the administration is in a quandary, and so nothing is done. It is this waste that is doing policy that the Halifax Herald is defending, and this will be thoroughly understood by the people and journals of the Northwest.

We quite agree with The Herald that it is better to have these "lands settled gradually by a thoroughly Canadian population, than overrun in a few years by people incapable of becoming good citizens." The trouble is the settlement of the Northwest has been too gradual entirely. The settlement of these lands can be promoted with a great deal more vigor than has been manifested in the past, and at the same time ordinary vigilance and prudence exercised by the immigration department will serve to prevent the influx of those undesirable people of whom the Halifax organ professes to be so much afraid. As a rule the hoodlums and anarchists of European cities do not want to settle on farm lands, they want to hang around the cities and towns; but there is no reason why many of these people, freed from the repressive laws which exist in many parts of continental Europe, brought under the influence of equitable laws and Christian civilization which prevail in Canada, and treated as intelligent, thinking beings, might not be transformed into good citizens. We do not advise that they should be deliberately brought here for the purpose trying that experiment, but if some of them should come to Canada, it will be our duty to at least attempt their transformation into good citizens.

MOVING WITH THE TIMES.

The Republican party in the United States is changing its course, and is now heading for complete reciprocity. Pan-American reciprocity is what the Chicago Tribune calls it. The Democratic party have long confessed their folly in supporting a system which puts the wage-earner under the heel of the trusts, and Mr. Cleveland, a short time before the last presidential election, placed his party on record concerning the tariff question. But it is the Republican party that is now in rebellion. The Chicago Tribune and the St. Paul Pioneer Press are both pioneers of a sentiment, spreading some convincing reasons for opening up free trade between the United States and the Southern Republics, and says that the amendment to the sugar bill, which makes sugar free from those countries that within a certain time admit United States goods free, is the first step in the direction of a grand plan of Pan-American commercial reciprocity, aiming at a complete reciprocal exchange of products between the United States and all other lands of the Western world, from the Arctic to Cape Horn. This, we are told, is the reciprocity that Mr. Blaine is aiming at. This seems to be in accord with the opinions—the recently acquired opinions—of several other Republican journals

which at one time saw only the phantasmagoria of countries growing richer and richer by keeping from their shores the products of other regions, and the chief priest of whose strange religion was Mr. Blaine. The Tribune thinks that the only possible competitors with the United States will be Canada and the Argentine Republic, but it feels that the States have nothing to fear from either of them. On the other hand, though the Canadian combines and their bondsmen, the ministers at Ottawa, are very much afraid of the United States, coming in and selling to the Canadian consumer at market rates yet the bulk of the Canadian people have as little fear of American competitors as Americans can have of Canadian competition. The Liberals are instilling, and have to a great extent instilled, commercial courage into their countrymen, and the mournful whinnies and thirousous beechings of the Tory weaklings are not now so much heeded. But this new attitude of Mr. Blaine cuts the ground from under the feet of the restrictionist party. They have pleaded so often that they were desirous of reciprocity, but that the Americans would not listen to anything of the kind, that the changing views across the line must alarm them. Possibly it is the fear of an offer, direct or indirect, from the States, that induced the Government to say through Mr. Colby—one of the most unflinching phonographs they could have selected for the purpose—that they were opposed to reciprocity of all or any kinds. But the waves of commerce are not to be stopped by King Canute Macdonald.

ENGLISH EXHIBITIONS.

In a brief interview published in yesterday's Herald, Mr. Moore, of London, Eng., Editor of The Mark Lane Express, &c., emphasized the views expressed by The Herald about a fortnight ago in regard to the importance of Canadian products being kept on view at English exhibitions. He said: One thing I would like your papers to do is to stir up the Government and get them to take part in our English agricultural shows. Up to 10 years ago you always had a stand at the Royal Agricultural Shows in England at which wheat and Canadian produce, as well as minerals, were on exhibition and it was really very interesting. But for the past two years they have been absent. The time seems, I think, to have arrived when they might try it again. These shows are very important for such an object is making Canada and the possibilities of her soil better known, as our large shows embrace a number of counties, and the laborers are generally taken by their employers, and in this way a knowledge of the country can be brought to these men such as would be impossible in any other manner to accomplish. There can be no doubt of the soundness of Mr. Moore's views, the neglect of the Government to have Canadian products so represented is much to be regretted. The cost of doing so would be comparatively small and would be justified as an expenditure that would yield excellent results in connection with immigration. Enough money is wasted in many other directions to pay the cost ten times over. Indeed, the money that will be spent on Mr. Brown's probably useless mission to Jamaica—unless the Government are prepared to emasculate the N. P.—would go a good way towards meeting the necessary expense and be productive of tangible benefits to Canada. If the Government organs would note Mr. Moore's suggestion and press it upon the administration, and especially upon the Minister of Agriculture, they would render the country some real service and do something to justify their existence.

An independent Conservative organ rises to remark that General Middleton's "parting address to the people of Canada" is exceedingly truth-like and "frank to the verge of indiscretion."

Probably Sir John, Sir Hector and Sir Adolphe think it is exceedingly too much so.

The Committee of Management of the Great Eastern Exhibition, to be held at Sherbrooke from Sept. 1 to 5, are sparing no pains to render it a success—and they generally have successful exhibitions in the Eastern Townships capital. A prize list of \$10,000 is offered and a capital programme of outside attractions provided, particulars of which will be found in The Herald's advertising columns. It will pay Montreal business men and manufacturers to take an active part in that exhibition and help make it a success.

The last move in the great N. Y. C. Railway strike appears to be a complete check to the Knights. As was anticipated the meeting of leaders from the various railway organizations, the engineers, firemen, conductors, switchmen, etc., assembled at Terre-Haute, under the name of the Supreme Council, has decided not to call on the federation. A later telegram informs us that the council adjourned sine die, from which it would appear that the feeling against a general strike was so strong that those who favored one felt further discussion would be useless. This limits the trouble to its original dimensions, and practically means that the federation men will throw all the weight of their influence in the direction of a speedy settlement, as further attempt to coerce the Railway Company can only result in pecuniary loss to themselves, by interfering with their own work. This decision will be a great blow to the influence of the Knights, as it shows that after several days of careful investigation, the members of the council consider that the extreme measure of a strike was ill advised and was taken upon insufficient grounds.

Return of the Pilgrims.

The pilgrimage of the ladies of St. Anne's parish, which left Montreal per steamer "Three Rivers" on Saturday evening last, returned to the city yesterday morning. It was most successful in every way, and one miracle was reported.

It appears that a young girl named Smith, of St. Mary's parish, who has been lame for years past, necessitating the use of two crutches, took advantage of the trip to the shrine, and after leaving the communion table she found herself capable of walking without the aid of the crutches. There was a very large number of pilgrims, and the voyage proved a pleasant one, except on the return home, when a storm was raging in the Lake, and many of those on board were greatly scared. The order of the exercises was carried out with systematic precision under the direction of the Rev. Father Strubbe, and the other Redemptorist Fathers in charge. The sermon on the boat was preached by Rev. Father McCullen, of St. Patrick's, Montreal, and Rev. Father Currier, C.S.S.R. of the Church of Our Lady of Perpetual Help, of Boston, Mass. At St. Anne an appropriate sermon was delivered by the Rev. Father Slattery, director of St. Joseph's Seminary, Baltimore. The pilgrims were allowed from 2 o'clock until 3 on Sunday afternoon in Quebec, which they availed themselves of by taking a view of the principal sights. They reached home at 8 o'clock yesterday morning.

The low price of cheese is waking up some of the Eastern Township manufacturers. One of them spoke thus a few days ago:—"In years formerly this cheese of the Townships brought a higher price than that on the Brockville Board of Trade. This year we are far below their prices, and cannot understand it."

J. Hamel while working in McKenna's well at Magog on Saturday met with a serious accident. A pile containing a heavy weight of stones and debris fell on his head, cutting through the scalp and injuring his skull.

Levi Rexford of Magog lost his Oliver Corner house and barns Friday night by fire. Forty tons of hay were destroyed. Mr. Rexford was sleeping in the house and had a narrow escape, being aroused by the falling of the chimney.

The mission school at Bonville will hold what promises to be a very enjoyable festival, on Wednesday, 27th. In the morning the altar, windows and furnishings are to be solemnly dedicated to the service of Almighty God; in the afternoon the Sunday school holds its first picnic, and later in the day is to be a harvest thanksgiving service.

St. Francis College, at Richmond, has received a large and valuable assortment of mineral and rock specimens from the Geological Survey department at Ottawa. A number of them are illustrative of Eastern Township mineralogy and geology. Principal Bannister is fitting up a room (which will be used as a library also) in which they will be neatly placed.

A serious accident happened to Mrs. Mackey, in the village of Cookshire, on Aug. 9. She, with her husband, was driving into the yard of Mr. Thomas Macrae, her son-in-law, when by some means the horse became frightened, and its actions so alarmed Mrs. Mackey that she jumped from the wagon. She alighted upon her feet, but the shock of alighting broke one of the bones in her right leg. Owing to the swelling the doctor could not set the injured limb for several days.

An inmate of the hospital at St. Hyacinthe has just celebrated his 104th birthday. He was born at Baie du Fevre and is called Pierre Lambert.

Antoine Lervedue, of North Ely, is the happy father of triplets, all boys. The three weighed six pounds each at birth and are doing finely. By careful nursing it is thought that the triplets will survive.

The large steam saw-mill of Mr. Joseph Bedard, M. P. P., in Windsor Township was totally destroyed by a fire on Wednesday night. The fire is supposed to have originated from a spark from the engine smoldering in the sawdust. The loss is a serious one, as Mr. Bedard had 22 men at work. He arranged to rebuild without delay. Insured for \$1,500 in the E. T. Mutual; loss about \$4,000.

On Saturday a narrow escape from drowning occurred at Warden, near Waterloo. Two eleven-year-old boys, Stewart Roberts and his cousin, a son of Col. Whitcomb, were boating, when young Whitcomb lost his balance and fell into twenty feet of water. Neither of the boys could swim, but as there was no other help at hand Roberts jumped in and tried to seize his companion. He caught him just as he was sinking, for the third time, and almost losing for the water, he caught the side of the boat. Both boys were thoroughly exhausted, but succeeded in climbing in, only the worse of a ducking and a great scare.

A sad and painful accident occurred in the claphoard mill of the Scottsboro Lumber Co. on Wednesday, the 13th inst. A young boy, John Noel, was engaged in running a claphoard edger. A pile of claphboards was put standing near the machine. It seems that some of them fell down against the bit, and in trying to remove them from the bit he reached over the saws to the opposite side and fell on the saw, which inflicted a wound some five inches just below his head, cutting his stomach some four inches. He was taken to Doctor MacDonald's immediately, and he pronounced the wound fatal, and the boy died some thirty hours afterwards. The coroner's jury rendered a verdict of accidental death.

Recorder's Judgment Quashed.
Judgment was rendered yesterday morning by Judge Oimmet, on a writ of prohibition taken against a judgment of the Recorder sentencing one Joseph St. Pierre to three months imprisonment on the charge of being an idle person. The writ was granted, and the prisoner will be liberated tomorrow. His honor held that the charge should also have mentioned that he was able and he needed to earn his living.

Suddenly Prostrated.
GENTLEMEN—I was suddenly prostrated while at work by a severe attack of cholera morbus. We sent at once for a doctor, but he seemed unable to help. An evacuation about every 15 minutes was fast wearing me out, when we sent for a bottle of Wild Strawberry, which saved my life.

THE LAKE SUPERIOR.

Had a Good Passage—Saw Some Teachers—A Consignment of Live Stock.

There was an unusual amount of stir around the Beaver Line docks last night as the Lake Superior, Capt. Stewart, steamed into her berth. Friends of passengers, who were returning in large numbers from Europe, were there in full force, and soon after the gangway was lowered, the ship was the scene of an animated crowd of passengers, friends and officials.

Coming out, the passengers, a number of whom are well-known and respected citizens of Montreal, enjoyed themselves in the usual way. They had favorable weather and all expressed themselves highly pleased with their trip. The fall list of saloon passengers has already been published in The Herald.

On board were quite a number of horse importers, who brought out a fine consignment of Shires, Cleveland Bays and English coach horses. Mr. D. A. Duggan, manager of the Montreal Horse Exchange, was on hand to look after the stock, and held a consultation on board with the importers, when it was decided to unload the live stock until this morning. It was arranged that the work of unloading should be commenced at 3 o'clock this morning, and the horses at once removed to the Horse Exchange for shipment to their destinations by Grand Trunk specials. A number of the horses will remain at the Exchange until Thursday or Friday in order to allow them to rest. In the meantime, Mr. Duggan says he will be pleased to show the horses to any gentleman who take an interest in horse flesh. The owners of the stock are very complimentary in speaking of their treatment at the hands of the officers of the Lake Superior. They also speak highly of the kindness of Mr. Roberts, of the Liverpool office, who they say, did all he could on their behalf. The fine qualities of the Lake Superior for live stock carrying have been referred to on previous occasions in the columns of The Herald.

The following is a list of the owners of the stock: W. Stewart, Burlington, Vt., 13 horses; John Rockwood, Illinois, 6 horses and 127 sheep; A. C. Wheeler, Iowa, 48 horses; Frank James, Iowa, 30 horses; L. Banks Wilson, Ohio, 20 horses; G. Y. McDowell, Illinois, 16 horses; J. A. Hayter, Illinois, 23 horses; W. A. Watkins, Nebraska, 77 sheep; J. Collins, Harrison, Ont., 1 horse; Geo. S. Chapman, Ontario, 2 horses and 20 pigs; John Braithwaite, Omaha, Neb., 4 horses and 15 sheep.

The officers made the following report of passage from Liverpool to Montreal. Left Liverpool at midnight of the 13th inst., had strong S.W. to N.W. gale for the first two days and fine weather for the rest of the passage. Had considerable fog outside the straits and passed a large number of icebergs from 200 miles east of Belle Isle to Point Amour. Had fine weather up the Gulf, strong east wind and thick rain in the river, arriving at Quebec at 10 p.m. on the 24th inst., with 21 sheep and 20 pigs, all in first-class condition, with the exception of one horse which died during the passage. Left Quebec at 5:15 a.m. on the 25th inst. and arrived at Montreal at 7 p.m. Aug. 20. Also a consignment of 152 horses, 21 sheep and 20 pigs, all in first-class condition, with the exception of one horse which died during the passage. Left Montreal at 5:25 p.m. on the 25th inst. and arrived at Lake Ontario steamship in 50:57 n. 57:51 west, bound east; Aug. 23, Allan steamship in lat. 49:55 n. 59:51 west, bound east; Dominion steamship in lat. 49:23 n. 61:00 west, bound east; Aug. 24, steamship Rosarian off Matan, bound east.

THE FUTURE QUEEN OF ENGLAND.

A Lovely Woman With a Most Magnificent Figure.

H. R. H. the Princess Victoria of Teck, daughter of the Princess Mary of Teck, one of the German royalties is a tall, fair girl, with rather full face and blue-grey eyes. She is lucky enough to have such a wide shoulder and swelling bust as are seen to best advantage in a tailor made gown. Her figure is truly magnificent, and she is reckoned among the divinest and fairest daughters of Europe. Princess Victoria is 18 years of age, and is partially engaged to Prince Albert Victor, eldest son of the Prince of Wales and heir-apparent to the throne of England. The Prince is much in love with the charming Victoria, but his grandmother, the Queen and his father, do not as yet quite approve of the match. "Collars and Cuffs" as the Prince is facetiously called is the Princess' second cousin.

sin, and has been fortunate enough to gain her favor. The Princess is a very cultivated and clever woman and is admirably fitted to fill the position she may in the future be called upon to occupy—that of Queen of England. The accompanying cut is from one of the latest photographs of the beautiful girl.

SOCIAL ETIQUETTE.

Some Interesting Suggestions About "Afternoon Tea."

To people of small or moderate means an "afternoon tea" offers a solution of a difficult problem. It is inexpensive, enjoyable, and in its simplicity above criticism. Concerning this pleasing form of hospitality Good Housekeeping has, among other useful suggestions, the following: When one feels one's house too small to comfortably accommodate the desired number, a good plan is for the hostess to send out her own visiting card, which is, by the way, the only correct invitation to such an affair as this, the card, in addition to the name, bearing the written or engraved words, "At home Thursdays in December."

Of course no reply is required to such informal invitations. The latter plan will do away with the danger of a crush, as people will not naturally all select the same day. More people, however, may be expected on the fourth afternoon, as in all such things prearrangement is characteristic with many. But the guest once bidden, let the faith of the hostess in the simple form of her entertainment remain perfect, as it will if she owns the truly hospitable spirit. Let her remember that to ask a friend to break one's bread is a compliment, and to entertain according to one's means is always in good taste.

The lady who presides over the tea urn has a very delicate office to perform, but if she has a correct understanding of her duties she will not find her place a snore. The hostess cannot perform her task as such and preside at the tea table, but she will, if there be no daughter of the house, select some guest under her roof or an intimate friend to act for her. It is the duty of this person to see that each cup of tea which she dispenses, is as perfect as it is possible for her to make it, and one of the first requisites of this is heat. The English complain that it is impossible to get a cup of hot tea in America, and yet this difficulty is an easy one to overcome. But of the method of preparing this piece de resistance I will speak later. The water boiling the tea "drawn," a "cozy" should be pulled over, the teapot kept in the steam with which would escape the loss of the aroma. Before pouring a little boiling water should be left for a few moments in the cup. With these precautions our transatlantic friends will find no fault, though there may be some truth in the statement I once heard made that their throats, like a ship's bottom, are "scorched."

Each guest will find the way to the tea table, and make her wishes known without waiting to be asked. Here let me say what would hardly appear needful but for many inquiries which have proved it so. No special introduction to the lady presiding is required. It is not only proper but obligatory that the guest show breeding as well as kindness, by making, if need be, an effort to enter into conversation with her. The fact of meeting under the roof of a mutual friend is sufficient introduction. A witty and observing person should fill this place, that she may aid in setting the ball of conversation rolling among those she gathers about her. In the drawing room even quite young children will prove useful in passing biscuits, tea and plates. The help of a servant will be needed most in quietly replenishing and removing dishes.

Appropos of dinners, one of the burning questions in society relates to the length of time that guests should wait for dainty guests on such occasions. There are a few people, most of them women, who are notoriously unpunctual, and it is embarrassing to decide whether dinner shall be kept waiting for them or whether it shall be served without their presence. According to The New York Sun, common sense declares that fifteen minutes' grace is enough to allow for difference in timepieces and for accidents, and that after that period has elapsed the banquet should go on with those who have arrived, and the others be allowed to come when they choose. A longer delay destroys appetites, is detrimental to the cookery, and where the theatre or the opera is to follow the pleasure of the evening may be spoiled by it.

Use for Old Towels.

Is there any use for other towels that have developed very thin "middle" and lost most of their fringe? If one has time to devote to such saving work, or if there are little girls in the family who need employment, my advice is to cut the towels down the center, lengthwise, and "over and over" the edges together. This gives a firm "middle," good enough to cut square wash cloths from, for those who like such, or to use for any other purpose for which soft old linen can be used. —Good Housekeeping.

A Feminine Freak.

Miss Ella Ewing, living near Rainbow, Mo., eighteen years old, is now 7 feet 10 inches high, weighs 235 pounds, wears a 15 inch, which of course she has to have made to order, and her shoemaker had to order a special last. The girl's parents are of about the usual size, the father being possibly a little taller than the average man.

"PERSIAN LOTION"

For whitening the complexion, imparting or

preserving its rosy hue, or removing

freckles, the mark and other spots on the

skin, and for removing pimples and all

other eruptions.

The PERSIAN LOTION is a bona fide prepa-

ration, unique of its kind. It is a true specific

for the skin. It is not a white powder suspen-

ded in water, or perfume. The PERSIAN LOTION,

on the contrary is a medicinal preparation,

transparent and limpid like water.

When the skin is beset by the eruptions,

the PERSIAN LOTION immediately restores its fresh-

ness and rosy hue, by adding a transparent

and cooling element to the skin, and by the im-

mediate action of the medicine used for the treat-

ment. The PERSIAN LOTION is sold in all respect-

able Drug stores in the Dominion, at 50 cents

per bottle. Beware of imitations.

Miss Vernona Jarbeau made her s-

how to a Montreal audience last night at the Academy. It was also the occasion of the opening of the theatre for the season, and, in consequence, a large audience was present to demonstrate to Manager Thomas their appreciation of the services already rendered by him in their behalf. To describe the farce-comedy "Starlight," in which Miss Jarbeau and her company appear, would be next to impossible. It was evidently written for the occasion.

variety actors, and in this respect Miss Jarbeau is to be congratulated upon having gathered about her a supporting company, each member of which is versatile and competent for the work allotted to him or her. There is little or no plot to the piece, (as is usually the case with farce comedies,) and the success of the evening's entertainment rested entirely upon the abilities dis-

played by four or five members of the company, Mlle Jarbeau was most successful in everything she attempted. Her singing and dancing captivated the audience, but she took the house by storm when she gave her realistic imitation of Mme. Theo. "Where Are You Going, My Pretty Maid?" Her topical song, "That's Enough, Don't You Think," also made a decided hit, and she was repeatedly

cured, until she was finally forced to say again, "That's enough, don't you think?" She is an entertaining, sprightly little artist, and possesses imitative qualities of a high order. In the company which she has gathered about her she has several veritable artists in their particular specialties. Among them might be mentioned Mr. B. C. Coone, Mr. Andy Annan and Mr. Martin O'Neill who, while not theatrical,

kept the audience in the best of good humor. Mr. Wm. Selley, as "Munoz Piametti," sang one of his bass solos, "Oid Madrid," in the first act, and the audience were so much taken up with him that they longed to hear him again in a solo during the evening, but in this they were disappointed. While on this point it is suggested to Miss Jarbeau the advisability of according Mr. Selley more

regret opportunities of displaying his rare musical talents. It is expected that Miss Jarbeau's own ability will be sufficient to draw large audiences to the Academy during the present week, although at the same time, the performance can be classed more as a variety show than anything else.

Tony Pastor at the Royal.

Tony Pastor's name at the head of a theatrical company has always been

considered as a criterion for a good show. He has frequently visited Montreal, and he has never yet given the amusement-loving public cause to regret the confidence they have placed in him. Perhaps this will account to a great extent for the trouble experienced by the Theatre Royal management, yesterday, in procuring seats for the numerous patrons who were present.

who booked the aisles or the theatre in their determination to see the show at once. As usual, everybody was anxious to see "Tony" himself and when he appeared he received a warm welcome. His comic songs were repeatedly encored. He made particularly great hits in "After me" and "They've all got 'em." He has gathered about him a company of rare ability, and of a diversity of talent that reflects great credit on his management.

upon his judgment. The aerial grotesque performance on the flying rings by Messrs. Turle and Turle, which opened the show, was very original and highly appreciated. Messrs. Kelly and Ashby brought down the house in their laughable specialty, "Fun in a Chinese laundry," while Messrs. Seeley and West afforded much amusement in their solos and duets on musical instruments. Miss Maggie Cline, America's fa-

torite character singer made a great hit on her first appearance and was repeatedly encores. Miss Edith Vincennes and the Hedderwicke sisters were also very good in their respective specialties. Mlle. Beatrice astonished the audience by her marvellous contortionist act, and John and James Russell by their fine "make up" and clever representation of the two "neat Irish servant girls," scored a decided success. The great

English artiste, Miss Bonehill, received a warm reception and fully warranted by her performances, the high eulogiums already bestowed upon her. She is bound to be a favorite during her stay in Montreal. One of the best parts of the show is reserved for the last, which is entitled a "pantomimic absurdity." As its name almost insinuates, it is impossible to describe it, but we can only say that it is one of the best after-nights.

to one of the best after-pieces ever given to a variety performance, and that Miss Edith Haytor and Messrs. Frank and Arthur Haytor fully deserved all the applause that was bestowed upon them. That there will be crowded houses at the Royal for the remainder of the week is a foregone conclusion.

Pawnce Bill's Show,

Two very good performances were given yesterday afternoon, and during

givers yesterday afternoon and evening by "Pawnee Bill's" strong combination at the Montreal Driving Park and on both occasions large audiences were present. The troupe will remain here until Thursday night, when they leave for the West to fulfill other engagements.
