Hall's Hair Renewer.

Hall's Hair Renewer.

AS the name indicates, it not only RENEWS the growth of the hair when thin and falling off, but it positively RENEWS THE COLOR to its original shade when it is turning grey or white, whether caused by disease, grief or old age. It will certainly do what is claimed

Hall's Hair Renewer.

for it, a fact which hundreds, nay, thousands who have used it are ready to testify. Where one bottle is fairly used, in any community, its reputation "spreads like wild-fire," and is the best advertisement and recommendation we desire In

Hall's Hair Renewer.

the Eastern States, where the "RENEWER" originated, it is used by all young ladies as a dressing, and it is to be found on the toilet tables of young men (also at their barbers); while older men and women will not be without it, as a renewer and

restorative for their grey locks and bald heads, which it changes to their entire satisfaction.

We are selling, in the city of Boston alone, upwards of 16,000 bottles per month, the dealers giving the "Renewer"

the preference over all other hair preparations. Its effect is miraculous. The old, middle-aged and young unite in praising its virtues. It is an entirely scientific discovery, combining many of the best restoratives in the vegetable kingdom. It

will restore grey hair. It will restore dry, faded and discolored hair to its original color, and change dry, harsh, wiry hair into beautiful silken tresses. We have such confidence in its merits, and are so sure that it will do all that we claim for

will cleanse the scalp. It will leave the hair lustrous, silken and glossy. As its name indicates, it will renew the growth and color of the hair. It is liked by all who use it, and it is a splendid hair dressing. It is rapidly increasing in popularity

The Leading Perfume of the Age, FROM FRESH-CULLED FLOWERS.

MURRAY & LANMANS'

CELEBRATED

Florida Water.

This exquisite Perfume is prepared direct from Blooming Tropical Flowers, of surpassing fragrance. Its aroma is almost inexhaustible; while its influence on the SKIN is most refreshing, imparting a Delightful Buoyancy to the over-taxed Body and Mind, particularly when mixed with the water of the Bath. For

Fainting Turns, Nervousness, Headache, Debility and Hysteria,

It is a sure and speedy relief. With the very *elite* of fashion it has for 25 years maintained its ascendancy over all other perfumes, throughout the West Indies, Cuba, Mexico, and Central and South America, and we confidently recommend it as an article which, for soft delicacy of Flavor, richness of bouquet and permanency, has no equal. It will also remove from the skin

Roughness, Blotches, Sun Burn, Freckles and Pimples.

It is as delicious as the Otto of Roses, and lends freshness and beautiful transparency to the complexion. Diluted with water it makes the best dentifrice, imparting a pearly whiteness to the teeth; it also removes all smarting or pain after shaving.

COUNTERFEITS.

Beware of imitations. Look for the name of Murray & Lanman on the bottle, wrapper and ornamented label.

Prepared only by LANMAN & KEMP, Wholesale Druggists, New York.

And sold by all Druggists and Perfumers everywhere.

—FOR—

The Secret Service, the Field, the Dungeon, and the Escape,

BY ALBERT D. RICHARDSON

N. Y. Tribune Correspondent.

70,000 COPIES SOLD IN SIXTY DAYS!

THE most interesting and exciting book ever published, embracing Mr. Richardson's unparalleled experience for four years, Travelling through the South in the secret service of the 'Tribune' at the outbreak of the war, with our armies and fleets, both East and West, during the first two years of the Rebellion; his thrilling capture, his confinement for twenty months in seven different Rebel prisons; his escape, and almost miraculous journey by night of nearly 400 miles. It will abound in stirring events, and contain more of the fact, incident, and romance of the war, than any other work yet published. Horace Greeley says of it:—

"A great many books will yet be written concerning this war, in addition to the many already in print; but not one of them will give, within a similar compass, a clearer, fuller, more readable account, entirely from personal observation, of the nature, animus, purposes, tendencies and instrumentalities of the slaveholder's Rebellion, than does the unpretending narrative of Mr. Richardson."

Teachers, ladies, energetic young men, and especially returned and disabled officers and soldiers, in want of profitable employment, will find it particularly adapted to their condition Send for Circulars. Address

EXECUTION OF MRS. GRINDER, THE POISONER.

HER CRIME, CONVICTION AND SENTENCE.

OTHER MURDERS SUPPOSED TO HAVE BEEN COMMITTED.

HER CONFESSION.

WONDERFUL STOICISM OF THE CONDEMNED ON THE GALLOWS.

A TERRIBLE SCENE.

(From the New York *Herald.*)

PITTSBURG, PA., Jan. 19th.

In August last a murder of a most cruel nature was brought to light in this city, and investigation revealed the agency of a woman named Martha Grinder, who to-day underwent the death penalty in expiation of the crime.

From the testimony adduced on the trial, it appears that Mrs. Grinder in June last began the systematic poisoning of an acquaintance, a Mrs. Mary Caroline Caruthers, who, with her husband, had been visiting at her house Both the latter were subjected to her attempts; but the husband succeeded in surviving the effects of the poisons. It was his evidence on the trial which afforded the most convincing proof of Mrs. Grinder's guilt.

The poison, which the medical autopsy revealed to be arsenic and antimony, was administered in coffee during a period extending over five weeks, or until the first day of August, when the victim died. During this time both husband and wife had removed from the city at the suggestion of their medical attendant to recuperate their health, which the deadly minerals had been slowly undermining. On their return to Pittsburg their acquaintance with and visits to Mrs Grinder were renewed, resulting in the death of the wife.

The husband objected to what he called the metallic taste of the coffee furnished, and though, taken sick for some time, survived. During the illness of his wife Mrs. Grinder was in the habit of visiting her, and each time took occasion to administer the fatal draught, while her countenance bespoke commisseration and her tongue uttered words of kindness and cheer to the doomed invalid.

Mr. Caruthers, who seems to have passed through this ordeal of suffering without suspecting the true cause at work, though perhaps his ignorance is excusable in view of the fact that even the physicians who attended him and his wife did not detect the effects of poison in his patient, at length had his suspicions aroused by other facts that his wife had been foully dealt with, and, accordingly, on the 26th of August last, he preferred the necessary complaint against Mrs. Grinder, who was taken into custody.

The other facts alluded to were of a most startling nature, and reveal the culprit in the light of a most wantonly cruel monster. The death of Mrs. Caruthers caused an investigation of circumstances which, in their cursory occurrence, they had not received, and though the particular crime mentioned above was the only one for which the prosecuting attorney saw fit to arraign her, there are fearful histories in her record of guilt. At the time referred to the unusual number of deaths which had taken place at her house or among her acquaintances were remarked. Samuel Grinder, her brother-in-law, after his return from the war, was attacked like her other victims, and died in great agony. A little child left to her care, as also her own child; a domestic, Jane R. Buchan; Mrs Caruthers and Mrs. Caruthers' sister, Mrs J. M. Johnston, had all died in the same mysterious manner.

The atrocity of her crimes is only equalled by the mystery which attended her motive. In the Caruthers' case her object may have been money, but such hardly seems to have been the instigation of the others. Many have deemed her a monomaniac on the subject of poisoning; but a commission appointed *de lunatico inquirendo* fully examined her, and, after several lengthy interviews, in which they sought the slightest traces of mental aberration, pronounced her not insane Her crime is, therefore, unmitigated by any plea on this score. On the contrary, the gentlemen of the commission found her a woman of great intelligence and great conversational powers. During the last interview she betrayed a most unfeminine acquaintance with numerous poisonous drugs.

From her own statement and other sources of information it appears that she was born in 1833. All accounts go to confirm her reputation as the most remarkable among the criminals of the world, and in her speciality she might, had she succeeded in longer eluding the meshes of the law, achieved a fame hardly less ignoble than that of the Italian Borgia. At the age of fourteen she was married to her first husband. Subsequently, in Louisville, Kentucky, she married her second husband, George Grinder, and with him moved to Pittsburg about six years since, where at the outset they lived quite humbly. Soon after they made quite a show of wealth, which Mrs. Grinder explained by stating that a large income had been left her child by a rich relative. In August, 1864, she personated a woman in confinement, and an accouchment a la Mrs. Cunningham-Burdell took place, the pretended fruit of which died and was buried from her house as though it was her own offspring The deception would have been complete, and the matter passed into oblivion, had not the real mother of the child quarrelled with Mrs. Grinder on a question of money and disclosed the facts as above. Her object in this transaction is as mysterious as everything else connected with the incentive to her crimes; but when, as subsequently discovered, it also appeared that the little girl which had all along been given out as her own child was the fruit of illicit love of a Kentucky widower, who had hired her to rear it as her own, and when also the legacy of the rich relative is remembered, a slight clew was discovered to her purpose.

Having been duly convicted of the murder of Mrs. Caruthers she was sentenced on the 1st of December ult, to be executed to-day, and was remanded to the care of Sheriff Stuart, who has since charge of her. She was confined in the county gaol, and during the period intervening was attended by the Rev. Dr. Holmes and Rev. Mr. Sinsabaugh, Methodist clergymen, who unceasingly afforded her the consolations within their power and prepared her for her final exit in the last sad act of her life's eventful drama.

During this time she was in the most dejected state of mind, and it was feared indeed that her physical strength would have so left her under the despondency of her situation that she would at the last moment have to be carried to the gallows. Stimulating drugs were prescribed for her by the physician of the jail, and she seemed to have contemplated suicide on two occasions by means of poison which she obtained either surreptitiously or by saving and collecting the doses of morphia ordered her by the doctor. On one occasion, when in consultation with Dr. Holmes, she argued the point of her right to commit the act of self-destruction; and when she had been convinced of the wrong of so doing she produced a quantity of the poison and handed it to him, with the exclamation—"Here, then, take temptation away from me." On a subsequent occasion she was found in a state of insensibility, and it was thought that she had poisoned herself; but she explained to Dr. Holmes again that she was on the point of taking her life when the emotions at the thought overpowered her and she fainted. The drug remained untasted at her side. It seems as though the hand of Providence had interfered to compel her to submit to the punishment which the outraged law had in reserve for her crimes.

Yesterday she was informed that all hope of pardon, commutation or reprieve was futile, and with an unexpected strength and resignation she entered zealously into the religious services which the ever attending clergyman conducted on her behalf.

THE CONFESSION.

Last night paper and writing material were sent to her cell, and the conjecture was that she was about to make a confession. The conjecture proved correct; for, this morning, just before she was removed from the cell, she reiterated the statements of the following document, in presence of the witnesses whose names are attached. It was taken down by Rev. Dr. Holmes from her dictation last night, and was made public just previous to her execution:—

"January 18th.—In view of my departure in a few hours from earth I want to say that I acknowledge my guilt in the case of Mrs. Caruthers and also in the case of Miss Buchanan; but I am innocent of all other charges made against me in the papers for poisoning people. But, bad as I have been, I feel that God, for Christ's sake, has forgiven me, and through his mercy I hope to find an entrance into heaven. I die without any hard feelings to any one, forgiving all as I hope to be forgiven. Mr. Stewart has been very kind to me, doing all in his power to make me comfortable, and I pray that he may be assisted in his duty and be rewarded for his kindness. Mr. White has also been very kind, and has treated me with respect always May God be good to him. If I had been faithful to my church duties it would have been different with me now; but I am thankful that God is so good as to return to me now that I try to return to Him.

"Witnesses—C. A. Holmes, D D; Rev. H. Sinsabaugh, A. G. McCandless, M. D."

She had previously confessed the murder of Jane Buchanan to her spiritual adviser, who, however, was restrained from making it public by request of the condemned woman—a request which he could not avoid complying with, as the confession had been made to him under the secrecy of his religious office. Rumor has it also that from time to time she has made oral confession to him of other crimes, which implicate the names of some of the most respectable families of Pittsburg. It is even whispered

that she has added the crime of abortion to the long list of her wickedness. But those facts, if confessed, are locked in the breast of her attendant minister, who has given to the public an exposition which, while it settles the question of her guilt in the public mind, saves from opprobrium the names of persons who may unhappily have been connected with her.

Her husband parted with her yesterday and avoided the final scene. Last evening the wretched woman continued in earnest prayer with the reverend gentleman in attendance upon her. At one o'clock this morning she retired to bed and slept soundly until six o'clock. At seven she ate a hearty breakfast, and at nine o'clock rejoined the minister in prayer.

At eleven o'clock in the forenoon the clergymen withdrew, when, with the assistance of a lady attendant, she prepared herself for execution. Her dress she exchanged for a brown robe, and her shoes and stockings for a pair of pumps and white hose. She also arranged her hair quite neatly, and thus arrayed, re-admitted the clergymen, and final services took place. She joined in prayer most fervently, and took part in the hymns, the solemn tones of which resounded from her cell through the dreary corridors of the prison.

At twelve o'clock the privileged spectators numbering about one hundred and fifty persons, were admitted to the jail yard, where they spent the interval in examing the gallows and its dread machinery. At length all was in readiness, and the wretched woman was pinioned in her cell. Her courage at this trying moment was most remarkable. Her religious fortitude was of such great strength that she remarked in a most pleasant manner to Sheriff Stewart, "I have a pardon; but it is from no earthly authority; it is from the Above." The procession emerged from the cell at a few minutes past one o'clock. As she prepared to descend the stairs she caught a glance of the assembled spectators, and said to Dr. Holmes, that she did not think there were to be so many present The Doctor, fearing that her feelings might overcome her to faintness, requested her to look down, to which she replied, "I am not afraid to die." Steadily and solemnly the procession came down the two flights of stairs to the main floor of the prison, whence it turned and moved out through the door into the jail yard. Here she met the assembled crowd face to face, and returned the gaze with a slight nod and a pleasant smile. Though supported on either side by the clergymen, she walked with a firm step and with the utmost composure. As the procession turned the angle of the prison wall the rectangle of the yard came into full view with the terrible instrument of death looming up from its centre. This was her first sight of the scaffold. But she regarded it without the slightest surprise or horror as far as was visible to the eye, and preserved a calm, half mincing smile throughout.

For the first time most of the spectators had an opportunity of seeing the culprit. She appeared to be much older than her age, namely, thirty-three, and in figure was slightly built and of medium stature. She was bareheaded and carried in her hand a handkerchief which she applied once or twice to her face, or at least as far as her pinioned arms permitted her. Her complexion, naturally very dark, was of an olive color, in strong contrast to the bright red which suffused either side of the face just over the cheek bone. Her eyes were small and cunning, though her great mental suffering was evident in their dimmed and dull appearance. Her composure gave rise to the belief that she was under the effect of stimulants; but I have the assurance of those in charge of her that their use was not permitted, her courage, so unusual in any one, so remarkable in a woman under such awful circumstances, being the result of a highly wrought religious fervor, which sustained her unflinchingly to the last moment.

Treading a narrow foot-board which led from the pavement to the jail yard across the mud of the centre plot, she reached the foot of the gallows, supported as before, and ascended the steps in the same firm manner. Reaching the platform, she surveyed the throng at the further end of the rectangle with the same pleasant smile, and gave a slight nod as if of recognition. She turned to look up at the fatal noose which swung above her head, but was reproved again by her spiritual adviser, who, fearing the effects, told her to look down.

"Oh! no, sir," she said; "it is time now to look up."

She was then seated upon a chair which was placed upon the trap, and here she bid goodbye to and shook hands with Sheriff Stuart, Deputy Sheriff Auly and her ministers. Dr. Holmes offered up a brief prayer, to which she listened with clasped hands and closed eyes. At its close he conversed with her for a moment in a low tone. She reiterated her hopes of forgiveness and of Heaven. She was now requested to rise, which she did with considerable alacrity. The chair was removed, and she stood firm and erect upon the trap while the cord was finally adjusted. As its coil tightened around her throat it seemed to hurt her, and an expression of pain crossed her features; but, clasping her hands still more tightly, she closed her eyes as if in prayer, and as the white cap was drawn over her head her face resumed its resigned if not resolute aspect. It was indeed a most unusual exhibition of stoicism, and it seemed as though the Almighty had vouchsafed her that firmness which she prayed for. It certainly did not appear human.

The slip cord which circled the lower edge of her dress was tightly drawn, bringing its folds in closely to the feet and enclosing her extremities as in a sack. The Sheriff descended from the platform, the minister once more bid her goodbye, and the trap was sprung.

THE EXECUTION—AN AWFUL SCENE.

The wretched woman fell a distance of about three feet. Owing to an oversight in adjusting the rope connected with the upright under the trap her fall was not sudden; the neck was not dislocated, and she slowly strangled to death. Her contortions and writhings for several minutes were most agonising to behold. The knot, too, had slipped, and the circulation of the blood on the right side of the neck was wholly uninterrupted. Her death was literally a hard one.

After suspending a moment she moved her hands as if to clasp them in prayer—another indication of the deeply religious sentiments with which she was inspired, and which sought at that terrible instant of agony to accompany itself with the outward signs of devotion. A series of fearful struggles succeeded, during which she caught with her right hand the edge of the fallen trap, and grasped and held it firmly for some time. At length the struggles became fainter, died away to a shrug, and finally ceased. Her pulse continued to beat until twelve minutes after the falling of the trap, during which time she was alive, but it is hoped not conscious of suffering.

Half an hour the body dangled in the air, slowly turning and swaying, until at last, the prescribed time having elapsed, it was lowered to the ground and placed in a coffin, which was resting on a couple of chairs immediately behind the gallows. Here the cap was removed from the face, and the features were found to present a most singular appearance. The same inevitable smile was there. The mouth and eyes were closed as calmly as in sleep, and were it not for the black and blue mark of the cord around the throat and under the left ear, she would have seemed to have died a natural death.

The Sheriff folded the hands across the breast. The dress was tucked in on either side of the lifeless form; the lid was drawn over the coffin, and so vanished from human sight the last of this wretched criminal.

A strange disease has broken out among the poultry in Ohio. The chicken's comb and gills turn black, it gapes, sneezes, and falls dead in a few minutes.

The New Orleans papers announce the arrival there, on the 6th inst., of Bishop Wilmer, and states that Louisiana has been without Episcopal visitation during the past four years.

Louis Allipe, of Colchester, Vt., avers that he has a lively recollection of the occupation of Quebec by the British, being, as he declares, a boy ten years old at the time. If Louis tells the truth, he must be exceeding old, for Quebec was taken from the French in September, 1759.

The Richmond papers contain a correspondence between General Turner and the manager of a theatre who proposes to give a benefit performance for the widow of "Stonewall" Jackson, which General Turner says will not be objected to, if it is not made an occasion for demonstrations of disloyalty.

Ashland, for fifty years the home of the great Kentuckian, Henry Clay, was recently sold for $90,000 by Mrs James B. Clay. It is designed to transform it into an agricultural college The estate comprises 325 acres of the richest land in the Blue Grass region.

A special from Columbus, Ohio, to the Cincinnati *Gazette*, says: "General Sherman has written a private letter to a prominent gentleman now in this city, in which he takes strong grounds against any interference in the Mexican imbroglio."

A number of Southern women in Mississippi have formed themselves into a "Ladies' Southern Aid Association," a branch of which is to be established in each of the late Confederate States. Its principal object is to raise funds for the benefit of the wife and children of Jefferson Davis.

A man named John Daly entered the gas house of the Norwich Bleaching Company, at Greenville, with a lighted lantern, on Thursday evening, whereupon an instantaneous explosion occurred, killing Daly, throwing his body fifty feet from the spot, and blowing the building to atoms.

OUR COUNTRY SUBSCRIBERS.

We have to remind country subscribers, *in arrears*, that we have already appealed to them in vain. We are now sending out their accounts, and unless an immediate remittance be made, we shall cease mailing papers to these defaulting patrons forthwith. We have already lost so much through the negligence of parties residing in the country, upon whom our collectors cannot call, that further forbearance would be an injustice to ourselves.

NEWS OF THE DAY.

The letters of Buenos Ayres and Rio Janeiro correspondents, published in the New York *Herald*, give a mass of additional information of much interest regarding the war between Paraguay and the allies. The rumors of prospects of immediate peace, which for a time received considerable credence, owing to the announcement that a despatch of some kind had been sent by Lopez, President of Paraguay, to the Argentine President, had come to be generally discredited, and troops and war munitions were still being sent forward to the scene of hostilities. The retreat of the Paraguayans continued, and they had been driven entirely from the foreign territory which they invaded and across the Parana river to their own soil, at the borders of which, on the banks of the river, it was reported the allied army had arrived in the latter part of November. The Brazilian fleet too was pushing steadily up the Parana towards the Paraguayan capital, to meet and co-operate on the river with the allied land forces. Meanwhile, however, Lopez, though falling back before a superior force, was far from idle. Formidable water obstructions, strong fortresses and garrisons of considerable numbers stood in the way of the continued advance of the Brazilian ships, and the Paraguayan Dictator had a large and well drilled army to stand in the path of the opposing allies on land.

The *Herald's* Washington correspondent says:—"The French Minister in Washington has applied to the State Department for information regarding the recent capture from the Imperialists of Bagdad, on the Rio Grande; but, as nothing official relating to it has been received, of course he cannot yet be gratified. General Sheridan has been instructed from Washington to investigate the affair, and punish any United States soldiers who may have been engaged in it. Several French officers lately in the service of Maximilian arrived in Washington yesterday, on their way back to their own country. They give a highly colored picture of the fine prospects of the Mexican empire."

In describing the reception at the White House, Washington, the *Star* says:—A peculiar style of wearing the hair last evening among the ladies was a subject of much comment, and the remarks were, for the most part, altogether in its favor, as a becoming substitute for the waterfall. The hair was allowed to fall its full length, without fetter or bond of any description, and was thought by many to be the most graceful style the ever changing empress fashion has yet presented to public patronage.

Speaking of the recent fillibustering expedition into Mexico, the New York *World* says:—"These men have violated our laws, as much so as did the famous Lopez expedition in 1850, against which the President of the United States issued his proclamation, but which, nevertheless, eluded our authorities and stole out of New Orleans on its ill-fated errand. It will be recollected that Gen Quitman, then Governor of Mississippi, was indicted for abetting that expedition, and resigned his governorship to meet the arrest.—The same laws are in force now as then; and this is an occurrence of a similar nature. As it has taken place without the privity of our Government, and in spite of its efforts to preserve the peace on the Rio Grande, it can lead to nothing beyond a demand for explanations—probably not even to that. For, if our Government were to be held so far responsible as to subject it to such a demand, by whom would it be made? If a trespass, it is a trespass against Mexico, whose territory has been invaded in time of peace. The only government which we recognise in Mexico is not likely to complain, and that of Maximilian cannot, for want of any channel of communication. Will France complain? She would seem to have precluded herself by the recently published reply of the French Minister of Foreign Affairs to Mr. Bigelow. We were therein told that France is not responsible for things done in Mexico; that if we had any grievances against that we must go for redress to its government. Logically, the converse of this rule must hold equally good. If France declines to listen to our complaints against Maximilian, on the ground that his is an independent government, capable of answering for itself, she must equally decline to listen to his complaints against us, for the same reason. The fact that all channels of complaint are thus closed, should make us even more scrupulous in the observance of our appropriate duties. The time may come when we shall feel compelled to go to war to expel the Austrian Prince. But that war, if it becomes necessary, must be the deliberate act of our government, at a time selected by itself; not precipitated by a band of desperadoes and robbers, proceeding in violation of our laws. If these men can be detected and identified, they ought to be made an example of, for the vindication of the national dignity. But their disguise as negroes may render identification impossible, and baffle the efforts of justice."

The Boston *Post* says: That terrible Eastern plague, the cholera, has found its way to this continent at last, landing first on one of the West India islands, where its ravages are described to be unobstructed. One hundred and thirty-one deaths a day, out of a population of but ten thousand, is a ratio which must soon change any peopled locality into a solitude. It appears to be satisfactorily known that the pestilence was brought direct from Marseilles, a vessel having arrived from that port with cases on board; and from the clothing of two of the passengers, which was washed on shore, the disease was communicated to the family performing that service, and thence spread with frightful rapidity. The family in question all died. The pilot of the vessel was placed under arrest for his criminal negligence in not informing the authorities of the island of the fatal cargo of infection he brought. Apprehensions were likewise felt at Havana, on last accounts, lest a vessel just arrived from Cadiz might not be similarly infected. With this devastating plague at work among the West India islands, we shall indeed feel that it is at our very doors."

Quite a novel scene was witnessed in the Tremont House, Boston, billiard-room, on Tuesday, Four commissioned officers engaged in the late war, all bereft of their right arms, were enjoying themselves in playing a game of billiards. Though compelled to ply the mace with their left hands only, yet their performance well demonstrated their skill. Three of the parties were Captains of the Massachusetts Twentieth Regiment, and the other was a Colonel of a Rhode Island regiment.

The *Trade Review* says:—Not a few Americans may be expected in Canada next spring, in consequence of its daily becoming more difficult to "make both ends meet." Dwelling houses, which rent in this Province from $100 to $150 per year, are there worth from $400 to $500; servant girls receive from $10 to $12 per month. Beef and mutton sell at from 20 cts. to 35 cts. per pound; turkeys at 25 and 30 cents per pound; geese at $1 to $1.50 a piece, and other articles at proportionately high rates.

The municipal authorities at Kingston have followed those at Toronto in arming the police with revolvers. It is probably true that criminals are now more desperate than usual, but the placing of firearms in the hands of ordinary policemen is a measure of very doubtful wisdom, and we fear it will lead to the unnecessary killing and maiming of real and supposed offenders, so common in American cities where the police are similarly armed.

They have had extraordinary weather in Ottawa. A despatch of Saturday evening, from that city, says: "At half-past seven o'clock this morning a violent thunder storm passed over the city Several vivid flashes of lightning, accompanied by loud peals of thunder, were observed. For a short time the rain fell in torrents, and during the greater part of the day, rain has been falling Very high winds have also prevailed. The weather has now cleared up and it is turning cold again. The thermometer is 10 above zero this evening."

A Boston paper (the *Post*) thus discourses upon Senator Chandler and his non-intercourse motion: "It assuredly must be that Senator Chandler eats his roast beef very rare done. With his every 'fee-faw-fum,' he smells 'the blood of an Englishman.' He was a professed disciple of the Dr. Sangrado practice for some little time before the war, and held so positively to his opinion that 'a little blood letting' was what the nation needed, as to put forth unexampled efforts to bring the deliberations of the February, 1861, Peace Congress to nought beforehand. With him, the rebellion is of course still going on. He, too, is to be counted in with the roaring, rampant philanthropists, who have such a horror of the crack of all whips but the one they hold in their own hands. Mr. Chandler has lately played out his part by introducing into the Senate the resolution of non-intercourse with Great Britain, which was finally laid on the table by the members of that body. He has such a heat coursing in his veins at this crisis, that nothing less than the immediate recall of Minister Adams and the peremptory dismissal of Sir Frederick Bruce will serve to cool its consuming tide. It seems that the little lap of blood he has enjoyed for the past four years has failed to appease the tigerish thirst that rages so within him. He would have more—he would drink it off as men quaff ale. To this extent, at least, we are willing to believe him a lineal descendant of Romulus, with the milk of the old she-wolf still working in his veins. Even a fight with Great Britain will not satisfy that gladiatorial heart which beats in his bosom, for he wants to learn instanter from the President all about the French in Mexico, too, preparatory to scaring the Gallic cock off his new roost at the same time that he stirs up the battered old British lion. It is war to the hilt of the knife with him; such war, however, as Artemas Ward so considerately favored, in which the blood of all his wife's relations was to be shed in a spirit of most generous sacrifice."

VERY LATEST FROM MONTREAL.

THE RESULT OF THE BOARD OF TRADE MEETING.

PLANTING TREES IN THE STREETS.

A DISHONEST SERVANT-GIRL.

SUCCESS OF THE ST. PATRICK'S HALL.

EXTENSIVE PROPERTY SALE.

(Special telegram to the Morning Chronicle.)

MONTREAL, Wednesday, Jany. 24th.—The vote on Mr. Gould's resolution in the Board of Trade was 36 to 11, which indicates a division on Mr. Allan's amendment. Mr. Holton voted with the majority.

The City Council proposes to plant trees in the streets. The City Surveyor estimates the cost of 23,684 trees at $30,000.

The Driving Club had a splendid turn-out to-day. A large number drove tandem.

Whilst left in the house, alone, a servant-girl packed up her mistress's clothes, and was driving out of the city when arrested.

The religious anniversary meetings are being held, and are well attended.

Senor Orestes, of Mexico, and Rily, of Chili, were amongst the speakers. The people attending the meetings are carried for half fare by the Grand Trunk.

Over $65,000 have been subscribed for the St. Patrick's Hall.

Mr. Jesse Joseph bought a block of buildings on McGill street for $56,300. He possesses many other fine buildings.

Three youths broke into a house where there was a wedding party, and attempted to dance with the females. A row followed, and a fine of $20 was imposed to-day.

The weather is delightful and the sleighing excellent.

Le Canada, the new French journal published at Ottawa, contains an article on the ex-President of the Council, from which we make the following suggestive extract:

"Mr. Brown's intractable character and his despotic manners all presaged the rupture which did not fail to arrive. Some journals repeated, without ceasing, that Mr. Brown was omnipotent in the Cabinet, that his colleagues dared not resist him, and in a word that he governed as he pleased. Those who knew Messrs. Cartier, John A. Macdonald and Galt, or who have studied their political career, ought to know that they are not the men to allow themselves to be led either by Mr. Brown or anyone else. They have common political principles, agree among themselves, and their union alone is sufficient in present circumstances without other forces to give a triumph to their joint will. We see to-day, in a striking light, what was the personal influence of Mr. Brown in the Government. On a question which he considered very important he could not induce a single Minister to share his opinion. Even Mr. Howland, regarded somewhat as Mr. Brown's creature, ranged himself on the side of the majority. Mr. Brown, annoyed by this check, threatened to resign. He was allowed to put his threat into execution without any further consideration. Mr. Brown thought it his duty to retire precipitately from the Ministry, and now he may bite his thumbs."

This is strong language, and affords abundant food for reflection. But although *Le Canada* is a staunch supporter of the Government, we are far from attributing the sentiments which it utters to any of the gentlemen who, until recently, sat at the Council-board of the Province with Mr. Brown. The language of our Ottawa contemporary has, in fact, a wider and deeper significance. It may be accepted as undeniable proof of the fact that the French Canadian Conservatives never forgave Mr. Brown his extreme views and his bitter denunciations of all that was dear to Lower Canadians—albeit they consented to join hands with him for the attainment of a great object. The French section of the Conservative party owed him too deep a grudge, for many a fierce attack and many a keen invective, to be easily forgotten. He had been so long the champion of extreme antagonism that it would have required the lapse of more than a few months to efface the remembrance of a party warfare of many years. His Lower Canadian colleagues, however, evidently gave him credit for sincerity of purpose which we think rightly belongs to him, and which has ever been claimed for him by his own adherents. With the leading French Canadian Conservative journals, and indeed with the great masses of the French Canadian people, the case was different. As long as Mr. Brown remained a cordial co-laborer in the Ministerial ranks—working earnestly in the cause of Colonial Union—the feeling of hostility towards him remained in abeyance; but the moment he considered it his duty to withdraw, somewhat mysteriously it must be confessed, from the Coalition, the old enmity, which had only slumbered instead of being eradicated, broke out afresh. The result ought to afford an instructive lesson to Mr. Brown and his friends. Nothing could more effectually prove the great difficulty of healing the wound caused by extreme sectionalism in politics We do not profess to attach any importance to the prevalent rumor that Mr. Brown has some intention of withdrawing entirely from politics and returning to his native land; but we should not be much surprised to find it true.

The discussion respecting the possibility of navigating the Lower St. Lawrence in winter has assumed such a wide range, and seems to have attracted such a share of public attention, that we are induced to hope for something practical in the way of result. Our Montreal and Toronto contemporaries have taken up the matter in their editorial columns; and there appears to be no lack of interest among newspaper correspondents. In a recent number of the Ottawa *Times* we find a rather remarkable letter upon the subject, over the signature of "W. F. C.," from which we propose to make one or two extracts. After narrating the history of the Caughnawaga ferry enterprise, of which the writer evidently possesses a thorough knowledge, "W. F. C." goes on to say:

"But, sir, I am not here simply 'to shoulder my crutch,' but rather in reply to your invitation, to inquire whether the aspirations of former days may not be viewed for the benefit of the present

"The project of the Caughnawaga ferry was, at the time, merely a chip off the nugget—a feature in a much wider speculation, as to the practicability of navigating the St Lawrence below Quebec in the winter season. It was the opinion of many, at that time, that our system of Canadian Railroads should have followed the North Shore of the St. Lawrence, and in connection with this predilection, an impression had obtained not only that the Lower St. Lawrence was navigable in winter; but that, in connection with a North Shore Railroad, the Saguenay, from the great depth of water and force of current, might have proved so far free from ice as to have afforded a safe winter harbor.

"The inquiries of myself and friends had led to the conviction that the exigencies of trade compelled our merchantmen to take the bull by the horns They are bound to get into the St Lawrence just at the moment when the masses of ice are bound to get out. To reach Quebec in May, the spring fleet encounters the detached and descending floes and *battures* which a fortnight earlier, *in situ*, would have acted as a landmark, or, a fortnight later, would have disappeared at sea What is chiefly required to secure earlier and safe arrivals is a safe harbor for their reception, in the interval between the taking and the departure of the *battures*. Say, January, February and March.

"Had Quebec been Wilmington, there can be no doubt but that Clyde steamers and British seamen would have set at defiance all blockade, of war or climate, but it is to be hoped that Quebec will never be placed in the predicament of Wilmington, and it is our business to provide, not for an emergency only, but reliable means for docking, loading and unloading a merchant vessel at all times of tide and season. To secure this object we must find a harbor as far as possible free from ice. The harbor of Quebec, admirable otherwise, fails in this. It is never free from ice, and in some seasons is closed up by an ice-bridge or *pont*.

"Sixteen years have elapsed since the questions arose which led to the Caughnawaga experiment. Great changes have taken place since that time, and no change so important to the subject before us, as the construction of the extensive piers and wharves, which now exist below Point Levi. I believe that *there* will be found, created for other purposes, all the preliminary conditions necessary for the establishment of a safe winter harbor for Canada, *and that little indeed is wanting which human genius, skill and money properly applied will not supply.*

"It will be observed that the ice-bridge or *pont* always takes and terminates, seaward, on a huge westerly curve, extending from about the point at Point Levi to the Beauport shoals. In this it only follows the ordinary direction of the tide, which, on the ebb, sweeps over the north and carries the descending masses of floating ice out on the Orleans shore. I believe that but little floating ice descends the south side of the channel. The returning tide may more diffusively hug the southern shore, but the ice brought back bears no proportion to the ice carried down, and it is easy to provide against the impact of the ice, if it only approaches in one known direction. The slips constructed at Lachine to resist the effect of ice borne down by the current, in one unvarying direction, will explain what I mean.

"I believe that a careful study of the question in all its bearings, on the spot, in the present condition of things, is most desirable *and I am deeply impressed with the idea that a safe winter harbor may be established at Point Levi, under the guns of the fortifications there erecting.*

"Much more might be said in relation to this important subject, on a system of lights and signals on the coast, beginning with the Bird Rocks in the Gulf. The providing of a harbor of refuge at the Magdalen Islands, or elsewhere, where steamers could obtain coals and refit, if necessary, and on the construction of ships for the trade, with movable bowsprits and iron rams at the prow; but these and cognate subjects I leave to the man in Canada most qualified to deal with them, namely, Captain Jesse Armstrong, Harbor Master of Quebec"

The writer closes by eulogizing the enterprize of the winter steam-ferry between Quebec and Levis; and expressing a hope that an attempt will be made to solve "this great national problem—the winter navigation of the "St. Lawrence." We have little to add in the way of comment. We trust "W.F.C's" views will serve to throw additional light upon the discussion of this all-important question. His argument in favor of Levis is likely to rouse up some of the enterprising inhabitants of that thriving community. It is of the utmost consequence, however, that the matter should not be allowed to expire amid a mass of mere talk or newspaper debate; but that the solution of the problem should be attempted.

LOCAL NEWS.

FROSTY WEATHER.—Yesterday we had again clear, frosty and bracing, but not disagreeable weather.

THE NEW GAOL.—The Provincial Arbitrators have allowed the contractors for the new gaol $17,000 instead of the $90,000 claimed.

OBTAINED HIS CERTIFICATE.—Mr. Joseph Marié, of St. Roch des Aulnets (L'Islet), has obtained a second-class certificate, after a very creditable examination at the Quebec Military School.

THE MAILS.—The mails from Portland and the West did not arrive until two o'clock yesterday afternoon, and were not delivered until half-past three o'clock. The mails from Portland included the English letters and papers per *North American* and *Asia*.

RECORDER'S COURT, YESTERDAY.—Two prisoners, for drunkenness, were convicted. One was sentenced to four days' imprisonment, and another to one month. A girl, on conviction for throwing filth in Buteau street, was fined four dollars and costs, or six days. Four drivers, on conviction for leaving their horses alone and without a 25 lb. weight attached to the bridle by a chain and deposited on the ground, were fined $2 and costs.

QUEBEC ASSEMBLIES.—These Assemblies having been fully organized, the first entertainment is advertized to take place on Wednesday, the 31st instant. They are likely, we understand, to prove highly successful. Tickets may be procured from the Secretary, Mr. E. H. Pemberton.

QUEBEC MILITARY SCHOOL.—Mr. Charles Marcotte, of Cap-Santé, has obtained a second-class certificate at the Military School of Instruction, in this city, after a very successful examination before Col. Lord Alexander Russell.

AMERICAN FASHION MAGAZINE.—We have received from the proprietors, the February number of "Demorest's Monthly Magazine" for February, containing an original ballad with music, a valentine picture, a colored fashion plate, a steel engraving—view of Washington, and a variety of interesting literary contributions.

ANOTHER DESTRUCTIVE FIRE IN ST. PETER STREET.—About half-past one o'clock this morning an alarm of fire was given in St. Peter street, by the night-patrol, Messrs. Batterton, Griffin, Flynn, Hickey and Stephens, who immediately notified the police, who, under Constable Rigby, were promptly on the spot. On proceeding to the scene, it was discovered that the centre portion of the block adjoining that destroyed by fire on the 6th instant was in flames. The fire seems to have originated in the lower portion of the building occupied by Mrs. Widow Edward O'Brien, as an hotel, and Mr. E. B. Harris as a jewellery store, the upper portions being occupied by Mr. A. McDonnell, boot and shoe maker, and another family. The flames spread with such fearful rapidity that the occupants barely escaped in their night-clothes. The building was totally destroyed. We understand that all the sufferers are partially insured. The property destroyed belonged to the Richelieu Navigation Company.

PROMENADE CONCERT, TO-NIGHT.—We have to remind our readers that the second military promenade concert, under the direction of Mr. Cleary, bandmaster of the 2nd battalion 7th Royal Fusiliers, will take place this evening, at the Music Hall. We hope to see a numerous attendance. We subjoin the programme:—Part 1st: 1. Overture—"Nabucco," Verdi; 2. The "Kinslur Potpouri," Kuhner; 3. The "Mabel Waltz," Godfrey; 4. Aria from "Saffo" (clart. solo). Pacini; 5. Chorus (vocal) from "Preciosa," Weber; (The stars that above us are shining). Part 2nd: 1. Selection from "Martha," Flotow; 2. Quadrille—"Swiss," Jullien; 3. Selection—"La Figlia del Regimento," Donizetti; 4. Galop—"Corneys" (with song), Capt. Lewis; God save the Queen.

ENGLISH PERIODICALS FOR JANUARY.—Messrs. P. Sinclair & Son, of St. John street, have received a large stock of standard English periodicals for January. We may enumerate the following:—*The Family Herald*, containing no less than eleven famous serial tales, including "Tracked at Last," besides poetry, family matters, recipes, leading articles, miscellaneous matters, &c; *Reynold's Miscellany*, containing "L'Africaine," a tale founded upon the celebrated opera, twelve complete tales, ten illustrated subjects, a Christmas story, six chess-problems, &c; *Cassells' Family Paper*, containing additional chapters of the well-known stories "The Secret Sign" and "Bound to the Wheel," four short tales, complete—two biographical sketches with portraits, eleven poetical contributions; chess and mathematical problems, miscellaneous articles, &c. The *London Journal* contains stories by Mrs. Southworth, Pierce Egan, James Grant and other noted writers.

A VOLUNTEER GRIEVANCE.—Yesterday evening, at the Grande-Allée drill-shed, some twenty-two men of the Wellington Rifles (No. 4 Company, 8th Battalion,) turned out in rather miscellaneous head-gear. They did so, inasmuch as they had never received any winter caps from the Government, and had, in fact, no uniform head-dress, for the season, in which they could parade. The result was that they were severely censured by the officer commanding the battalion; and that the back-pay due the men of the company was only paid to these who had on the fur caps furnished some four winters ago by the officers of the company. We think the case of these men is a very hard one indeed, and we commend it to the attention of the Adjutant-General of Militia. Ludicrous as the spectacle of miscellaneous hats may have seemed, it would have been in the last degree unreasonable to expect these men to turn out in uniform style when there was, in reality, no uniformity possible. We hope the matter will receive due consideration at head-quarters.

THE RIVER AND THE PROSPECTS OF AN ICE-BRIDGE.—Last evening's *Journal* (which may be said to express the opinion of His Worship the Mayor) has the following: "Yesterday we were informed that the *Arctic* and the ferry canoes were breaking the ice which had formed in front of the city. The same information was given to the police, who hastened to the spot in order to prevent a continuance of the evil; but, an instant afterwards, the ice was moving. This morning, at an early hour, that which the *habitants* call the 'key of the bridge' had formed, and the ice still held at nine a.m., before the city itself. The *Arctic*, crossing in all directions, and the canoes broke up the bridge before the city; but the 'key' has held firm up to the present moment. This leads us to hope that we shall have a bridge to-morrow morning if the calm and cold weather continues. At 10 o'clock to-day, the Mayor, accompanied by the Chief, Deputy Chief and several Police Constables, notified the captain of the *Arctic* and the conductors of the canoes, that if they recommenced that which they had done yesterday morning, he would act against them with the powers conferred by law. In the meantime, a *surveillance* has been established upon their movements; and they may be held as warned that they cannot, with impunity, destroy the hopes of the city and the surrounding country."—Between one and two p.m., the ice was still solid opposite Gilmour's Cove, but two canoes crossed and broke it up.

Since the above was in type the bridge has formed. The ice formed in solid mass from shore to shore about ten o'clock last night, and parties were out marking off skating-rinks, amongst the first of whom were our enterprising fellow-citizens Messrs. Hutton & Chevalier, who marked off their rink on the same spot occupied by them last season.

COURT OF QUEEN'S BENCH—FIRST DAY.—The Court of Queen's Bench (Crown side) opened yesterday, before Hon. Justices Duval and Meredith. The gaol calendar contains the names of only seven prisoners for trial; of these two are charged with murder, two with arson, two with robbery, and one with cutting and wounding. The list of persons on bail to answer accusations to be preferred against them is also small. The Grand Jury (Mr. Charles Huot, Foreman,) having been sworn in, His Honor the Chief Justice delivered a charge to them explanatory of their duties, in the course of which he observed that, though some of the cases were of the gravest character, the calendar was not heavier than usual. Having called attention to different charges likely to be submitted, and explained the law applicable to them, His Honor proceeded to notice the nuisance of furious driving in and near the city. If the penalty imposed by law were enforced more frequently, offences of this description would soon be suppressed. The Grand Jury, in the course of the day, returned the following true bills:—Against Ebenezer Black and George Wilson *alias* James Cary, for robbery; George Black, for assault; Jean Giroux, for cutting and wounding; and James Sweeney, for feloniously shooting at one William Boyle. These prisoners were all arraigned and pleaded not guilty. In the case of Lawrence Gorman, indicted for robbery, the prosecution was abandoned, and the prisoner acquitted. The absent petit jurors were fined $5 each.

STEALING CORPSES FROM THE CEMETERIES.—A singular case of "body snatching" on a large scale has just come to light. Information was received yesterday, by the Chief of Police, that two large cases containing human remains had been placed in the cars at South Quebec, consigned to a party who should call for them at Montreal. An offensive odor having been remarked in the vicinity of the boxes, one of the men in charge felt it his duty to partially raise the end of one of the boards covering one of them. The case was filled with something very heavy and packed in snow, at first supposed to be deer for the Montreal market, but on closer investigation a naked human arm was felt and then other portions of whole bodies. The train being at the point of departure when the discovery was made, and the shippers being, of course, unknown to any one about the depot or in the cars, it was decided to forward the cases as directed, and meanwhile to put the authorities in Quebec and Montreal on the alert, so that the applicants there and the forwarders here might be simultaneously arrested and the chain of evidence against them be completed. Telegrams were subsequently forwarded by Mr. Bureau to the Chief of Police at Montreal to be on the look-out, and also to the Grand Trunk authorities there to return the bodies to Quebec. Meanwhile, on enquiry at the cemeteries here, it has been discovered that several bodies, of persons recently deceased, have been exhumed from the St. Charles Cemetery, Little River, from St. Patrick's, or old cholera burying ground, and it is stated from the Belmont Cemetery, St. Foy road. It is to be hoped the authors of this outrage may be discovered.

DESTRUCTIVE FIRE IN DUNKIRK, N.Y.—SEVERAL LIVES LOST.

PRIVATEERS FOR THE CHILIAN GOVERNMENT.

FATAL AFFRAY ON A STEAMER IN NEW YORK HARBOR.

A FENIAN "BOLD PRIVATEER."

ALBANY, Jan. 23.—A late despatch from Utica says the loss to the Utica steam cotton mills is stated at $75,000.

The head works at Westmoreland, Oneida County, and saw-mill were destroyed by fire on Monday. Loss $60,000. Insured for $20,000.

NEW YORK, Jan. 23.—The *Commercial* gives further particulars regarding the seizure of supposed Chilian privateers yesterday. A clearance for a splendid propeller was applied for at the Custom House, and after a careful investigation of the crew by Surveyor Walker, the clearance was granted. The vessel was about leaving port to-day when she was seized by the United States Marshal, under an order from Judge Betts, which was granted on representations made by the Spanish Consul, who stated that the vessel was going to sea to enter the service of Chili against Spain. She had no armament on board but was well manned. The vessel is the *Meteor*, which was built by Forbes, in Boston, for the purpose of chasing and capturing the pirate *Alabama*. She is a fine ship, about 300 feet in length and a perfect model in shape. The fact of her having received a clearance created much excitement among the Spanish houses down town, and the Spanish Consul showed by his prompt action in the matter that he really entertained secret fears of her hostile character. She is now in the charge of United States officers.

The *Post* has a report that the steamer *Cuba*, Capt. Smedberg, which sailed yesterday for Baltimore, is a Fenian privateer.

The report is doubtless a *canard*.

NEW YORK, Jan. 24.—The suspension of business by the Columbian Marine Insurance Company creates immense excitement in commercial circles. The Company's buildings were thronged yesterday by the stockholders, many of whom, on ascertaining the causes of the alleged failure, proposed to stand an assessment of 50 per cent., in order that business might be resumed by the directors.

A meeting of the latter will take place to-day, at which it is expected some satisfactory arrangement may be entered into.

The exact amount of the liabilities is not yet ascertained, but they will reach a very high figure.

The *Herald's* telegram says: The Navy Department is in receipt of correspondence from Commodore Goldsboro which leads it to suppose that the Confederate privateer *Shenandoah* may shortly be expected from Liverpool.

At Mr. Adams' request, the Commodore will probably detail a small crew to bring her across the Atlantic.

The *Herald* has the following telegram, dated Cincinnati 23rd: To-day a consignment of 300 barrels of crude oil arrived from Creeksboro, on the Cumberland river, a new source just discovered.

Nearly all the white troops have been withdrawn from Kentucky, which is now garrisoned by negroes.

Forty-one flowing wells are now in operation in Barron Co., Ky.

On Monday the first train in a number of years ran through to Brownsville, on the Memphis and Ohio railroad.

The *Times'* Washington telegram says: Mrs. Stephen A. Douglas was last evening married to Maj. Robert Williams, U.S.A., at her residence in Washington. The ceremony was performed by Father Lynch, of the Catholic church, in the presence of a small and select circle of friends of both parties.

A serious affray occurred on board the s.s. *Manhattan*, at Pier 3, North River, yesterday afternoon, between the firemen and coal-passers and the second-mate, Henry Curwin. The latter being severely pressed, drew a revolver and discharged it at the crowd, the shot taking effect in the head of Michael Halley, a fireman, producing probably a fatal wound. Curwin was arrested.

A large meeting of cigar-makers of this city and vicinity was held in the Turner's Hall last evening, for the purpose of considering the inefficiency of the present tariff on imported cigars, and the burdens of taxation on the domestic article. The form of a petition to Congress was adopted, setting forth that those engaged in the trade of cigar-makers are, in a measure, deprived of the means of livelihood, by reason of the increased value given to domestic cigars, by the cost of material, and the internal revenue tax, which enables importers of cigars to undersell the manufacturers of a good quality of cigars, and requesting Congress to take proper action in the matter, either by the reduction of tax upon domestic cigars or increase of duty upon imported cigars.

The *Tribune's* Washington telegram says: The River St. Lawrence being frozen over, and consequently affording extra facilities for smuggling, the Commissioner of Customs has ordered an increase of his force of revenue officers stationed on the Canadian frontier. The Commissioner states that many of his officers are armless soldiers, who, notwithstanding their disability, make most efficient and valuable officers.

BOSTON, Jan. 24th.—John N. Y. Bell, of Morris Bros, Bell and Trowbridge's Ministrels, died this morning, after an illness of several weeks' duration.

DUNKIRK, 24th Jan.—A row of wooden buildings, on 3rd street, near the depot, in this city, near an entire block in length, was destroyed by fire, last night. The fire originated through carelessness and exposure of coal oil. Four bodies have been taken from the ruins, burned beyond identification. They are supposed to be emigrants. One man was rescued from the flames, but was so badly burned that his recovery is doubtful. The amount of loss and insurance is not ascertained.

FORTRESS MONROE, Jan. 24th.—The U. S. str. *Rhode Island* sailed for the West India squadron to-day.

NEW YORK, 24th Jan.—The *Scotia*, to-day, took $337,000 in gold for Europe.

(Farnworth & Jardine's Timber Circular.)

Liverpool and London Chambers, and Canada Dock, Liverpool, 5th Jan, 1866.

The arrivals from British North America during the past fortnight have been 5 vessels, 3,968 tons.

As usual at this time of the year the market has been very quiet, with few arrivals, and no sales of importance; prices generally remain steady, but the recent advance to 7 and 8 per cent of the Bank rate of discount, and the prospect of dear money for some time to come, will tend to check building operations, and limit the consumption of timber.

In Canadian Woods there has been little business done. Pine Timber remains steady in price, but there have been few sales. In Oak, which had advanced in price at the date of our last Circular, there have been no further operations. Red Pine, especially of small average, is dull of sale; but good Elm and Ash are in demand at full prices.

Of Spruce Deals the stock is extremely light, but there is little activity in the market, and prices remain without variation, with perhaps a little more firmness on the part of holders.

Of Baltic Woods the arrivals have been 4 vessels 1287 tons. No sales have taken place for some time past to give any fair criterion of the market, the bulk of the imports having been contract cargoes.

Furniture Woods—The arrivals of Mahogany during the past fortnight have been 363 logs from St Domingo, and 846 logs from Mexico. No sales have taken place since the date of our Circular, and the market is without change, with moderate stocks and the prospect of improved business as the year advances. Rio Rosewood is exhausted in stock, and a little inquired for; but of Bahia the stock is heavy and the demand limited. Italian Walnut is in moderate demand, but the stock, though moderate, is sufficient. In Lignumvitae there has been a little more business doing, chiefly induced by the present low prices; small sizes are heavy in stock and dull of sale, but of 8-inch and upwards the market is bare.

The aggregate tonnage from the British Colonies to this date in 1863, 1864, and 1865 is respectively 380,646, 332,118, and 303,234 tons.

COLONIAL WOOD.

Pine Timber—Quebec, of small average, has been sold at from 1s 1d to 1s 2d per foot, and larger average at about 16d to 17d per foot. Small average Miramichi brought by auction about 13½d per foot. To-day by auction a parcel of prime Yellow Pine, 111 feet average, was sold at an average of about 18⅜d per foot.

Red Pine—To-day by auction a parcel, 52 feet average, was sold at from 14d to 20⅜d per foot, averaging about 17½d per foot.

Oak—A few Logs were sold to-day by auction at 2s 6d per foot.

Elm and Ash—No sales reported.

Hardwood is low in stock and high in price. The last sale was of some Miramichi, about 14 inches average, at from 16d to 18d, averaging about 17d per foot.

Spruce and Pine Deals—Of Miramichi the parcel ex New Zealand, was sold by auction at an average of £8 1s 6d for Spruce and £8 5s per std for Pine, all stored. To-day by auction the cargo ex Joseph Weir, from St John, was sold at an average of about £8 10s per std.

Boards and Scantling have been sold at from £7 5s to £7 10s per std.

Lathwood—Quebec has been sold at £6 per fathom.

Quebec Staves—Merchantable Puncheon have been sold at £25, and Culls at £19 per M; and Merchantable Pipe at from £70 to £76 10s per M.

Quebec Deals—1st quality Pine have been sold at £15 10s, 2nd quality at £11 10s, and 3rd quality at £7 to £7 10s per std.

Wholesale Prices of Timber, &c, from British America.—Yellow Pine Timber, Quebec, per cubic foot, 1s 1d to 1s 6d; Waney Board, 1s 7d to 2s 0d.

Red Pine—Quebec, per cubic foot, 1s 1d to 1s 7d.
Oak, 1s 10d to 2s 1d.
Elm, 1s 1d to 1s 9d.
Ash, 1s 0d to 1s 6d.
Birch, Quebec, 1s 5d to 1s 8d.
Spars, Spruce, 0s 9d. to 1s 2d.
Deals, Quebec, Yellow, per standard, 1st quality, £15 10s to £16 10s. 2nd quality, £11 0s. to £12, 3rd quality, £7 to £7 15s.

MARITIME EXTRACTS.

Benmore, Dec 28—The Viceroy, Taylor, from Quebec to Swansea, came in here to-night waterlogged, and with decks blown up, bulwarks gone, and part of deck load washed overboard, and lashed with ropes to keep her together; master and crew in the tops for several days in a sickly condition. 30—The Viceroy drove from her anchors yesterday and went ashore a wreck, and may break up any moment; her stern framework is all gone.

Burton Port, Dec. 30—The Elizabeth, Benson, from Quebec to Liverpool, was abandoned on the 26th Dec; master and ten men landed near Killybegs. She has broken up, and the cargo is drifting ashore, and being secured. She had experienced heavy gales, causing the vessel to make a great deal of water, and keeping the pumps constantly going from the 1st Dec until she was abandoned.

Dartmouth, Jan 1—The Ingleborough, Campbell, for Hull—leaky, with loss of sails, bulwarks, stanchions, cutwater started, and other damage, boats smashed, and deckload and half-deckload thrown overboard.

Derry, Jan 3—The s s St Andrew, for New York, put back to Ennishowen Lights last night and landed the crew of the Pleiades, from Richibucto to Belfast. A tug has gone in search of the vessel. 4—The Pleiades was towed up here last night.

Liverpool, Dec 29—The Himalaya, from Quebec to Silloth, was abandoned in a sinking state Dec 21, in lat 51 N, lon 12 W; crew taken off by the Annie Kimball, from New Orleans, arrived here yesterday.

The Otillia, from Quebec, is ashore near Campeltown.

Galway, Jan 5—The Mersey, of Liverpool, has put in in distress, from Quebec, making much water, with loss of bulwarks, stanchions, and deckload; also one man drowned.

Capt Bruce, of the ship Ardmore, of Greenock, who, along with his crew, were brought here by the Hibernia (s s,) reports: We sailed from Quebec on the 18th November, and on the 28th from the Brandy Pots. We had light westerly breezes and moderate weather till we got to the east of the Banks of Newfoundland. Since that time we have had a succession of gales and hurricanes from SSE to W, and on Saturday last were running with a reefed foresail. The foresail split, and while furling it up we pooped a heavy sea aft, which broke in the cabins and did other damage. The ship then broached to, and filled with water in two hours. Signals of distress were hoisted, and on Monday forenoon, twenty miles to the north of Arranmore, a steamer hove in sight, which proved to be the Hibernia, of Glasgow, from New York, bound to Clyde. We signalled her, expressing our wish to be taken off, as the Ardmore was fast breaking up. About 3 p.m. on Monday one of the steamer's lifeboats was launched for the purpose of rendering assistance, but owing to the violence of the gale it was immediately stove in. As it was found impossible, from the heavy sea, to launch another boat with safety that afternoon, the Hibernia hove to for the night, and remained as near as possible to us. Next morning, about 7, a second lifeboat was launched successfully, and, under the command of the chief officer of the Hibernia, Mr Rhynas, proceeded to the Ardmore, but, owing to the heavy sea, it was found impossible to come alongside. A rope was accordingly thrown from the ship to the boat, and man after man fastened himself to the rope, and was drawn through the water. Mr Rhynas was successful in this way in saving the whole of the crew. The boat had to make two trips to and from the Ardmore. When taken on board the Hibernia every kindness was shown to us by Capt Craig and officers; and I now desire, in name of myself, officers, and crew, to express my warmest gratitude to them for the kindness shown to us.

HEALTH IS STRENGTH.—To prevent or conquer disease is one of the grandest attainments ever aimed at by man; and Bryan's Pulmonic Wafers will as sure cure coughs, colds, tickling in the throat and pulmonary complaints, as war and pestilence will destroy. Severe colds, if not attended to, sooner or later lead to incurable consumption, and the strength of the strongest soon fails if neglected. The readiest and best means known for the cure of these complaints is Bryan's Pulmonic Wafers, which have been thoroughly tried for the last twenty years, and have never been known to fail. Singers and public speakers will also derive great benefit from the use of them.
Sold by all medicine dealers, at 25cts. per box.

DON'T KNOW WHAT TO DO.
We sometimes hear persons say, "my horse is sadly out of condition, and I cannot tell either what is the matter with him, or how to get him into better case;" they appear to be ignorant of the fact that there is within their reach a remedy safe, sure and effectual in all cases. Many persons who deal in horses use large quantities of it, and testify that its effects are most satisfactory. One horse dealer informs us that his horses' condition and appearance are so much improved by its use that they sell more readily and for higher prices. The article is "Darley's Arabian Heave Remedy and Condition Medicine." Nothing else is equal to it for the same purpose.
Remember the name, and see that the signature of *Hurd & Co.* is on each package.

PRIZES THEM HIGHLY.—Mrs. S. A. Allen's World's Hair Restorer and Zylobalsamum, or Hair Dressing, are prized highly by all who use them. Careful study and experience has made them what they are acknowledged in foreign countries as well as at home, the only valuable preparation for restoring, invigorating, beautifying and dressing the hair. Those who use them have no grey hair or bald spots. Every Druggist sells them.

Sure to Regulate the Bowels.—Mrs. Winslow's Soothing Syrup is the only thing that mothers can rely upon for their children. It corrects acidity of the stomach, regulates the bowels, and gives rest, health and comfort to mother and child. During the process of teething, its value is incalculable. It softens the gums, reduces inflammation and allays all pain, thereby giving rest to the child and comfort to the mother.

GET THE BEST.—Never buy an inferior article because it is cheap. Don't get a worthless thing merely because it is popular, or because somebody else has it. Get the Best. Downs' Vegetable Balsamic Elixir is the best remedy for coughs, colds, asthma, croup, hoarseness, and all kindred pulmonary complaints that lead on to consumption. Take care of your health in season, for health is wealth. Without it the poor man would starve, and the rich have but an indifferent enjoyment of life. Try Downs' Elixir.

Aug. 2, 1865.

Of the long train of physical ills to which humanity is heir, there is none more distressing than the general derangement of the digestive apparatus, which never fails to accompany a disordered state of the liver. Headache, piles, languor, fretfulness, a bilious tongue, a morbid breath, loss of appetite, in short, an indescribable wretchedness of existence, are its insufferable and life-wasting attendants. These diseases, which have baffled the skill of the ablest doctors, have been radically cured by Hoofland's German Bitters.
Read what the Hon. Jacob Broom says:
Philadelphia, Oct. 7th, 1863.
Gentlemen:—In reply to your inquiry as to the effect produced by the use of Hoofland's German Bitters in my family, I have no hesitation in saying that it has been highly beneficial. In one instance, a case of dyspepsia of thirteen years' standing, and which had become very distressing, the use of one bottle gave decided relief, the second effecting a cure, and the third, it seems, has confirmed the cure, for there has been no symptoms of its return for the last six years. In my individual use of it, I find it to be an unequalled tonic, and sincerely recommend its use to the sufferers.
Truly yours, JACOB BROOM, 1707 Spruce St.

The New York *Tribune* says, "the reason why Drake's Plantation Bitters are so universally used and have such an immense sale, is that they are always made up to the original standard, of highly invigorating material and of pure quality, although the prices have so largely advanced," &c.

The *Tribune* just hits the nail on the head. The Plantation Bitters are not only made of pure material, but the people are told what it is. The Recipe is published around each Bottle, and the bottles are not reduced in size. At least twenty imitations and counterfeits have sprung up. They impose upon the people once and that's the last of them.

The Plantation Bitters are now used in all the Government Hospitals, are recommended by the best physicians, and are warranted to produce an *immediate* beneficial effect. Facts are stubborn things.

"......... I owe much to you, for I verily believe the Plantation Bitters have saved my life.
REV. W. H. WAGGONER, Madrid, N. Y."

"......... Thou wilt send me two bottles more of thy Plantation Bitters. My wife has been greatly benefited by their use.
Thy Friend. ASA CURRIN, Philadelphia, Pa."

"......... I have been a great sufferer from Dyspepsia, and had to abandon preaching. .... The Plantation Bitters have cured me.
REV. J. S. CATHORN, Rochester, N.Y."

"......... Send us twenty-four dozen more of your Plantation Bitters, the popularity of which are daily increasing with the guests of our house.
SYKES, CHADWICK & CO.,
Proprietors, Willard's Hotel, Washington, D.C."

"......... I have given the Plantation Bitters to hundreds of our disabled soldiers with the most astonishing effect.
G. W. D. ANDREWS,
Superintendent Soldiers' Home, Cincinnati, O."

"......... The Plantation Bitters have cured me of liver complaint, with which I was laid up prostrate and had to abandon my business.
H. B KINGSLEY, Cleveland, O."

"......... The Plantation Bitters have cured me of a derangement of the kidneys and the urinary organs that has distressed me for years. It acts like a charm.
C. C. MOORE, 254 Broadway."

NEW-BEDFORD, Mass., Nov. 24, 1863.

DEAR SIR:—I have been afflicted many years with severe prostrating cramps in my limbs, cold feet and hands, and a general disordered system. Physicians and medicine failed to relieve me. Some friends in New York, who were using Plantation Bitters, prevailed upon me to try them. I commenced with a small wine-glassful after dinner. Feeling better by degrees, in a few days I was astonished to find the coldness and cramps had entirely left me and I could sleep the night through, which I had not done for years. I feel like another being. My appetite and strength have also greatly improved by the use of the Plantation Bitters.

Respectfully, JUDITH RUSSELL.

If the ladies but knew what thousands of them are constantly relating to us, we candidly believe one-half of the weakness, prostration and distress experienced by them would vanish. James Marsh, Esq., of 159 West 14th St., N. Y., says "he has three children, the first two are weak and puny, his wife having been unable to nurse or attend them, but that she has taken Plantation Bitters for the last two years, and has a child now eighteen months old which she has nursed and reared herself, and both are hearty, saucy and well. The article is invaluable to mothers," &c.

Such evidence might be continued for a volume. The best evidence is to try them. They speak for themselves. Persons of sedentary habits troubled with weakness, lassitude, palpitation of the heart, lack of appetite, distress after eating, torpid liver, constipation, diabetes, &c., will find speedy relief through these Bitters.

Every bottle for exportation and sale out of the United States has a metal cap and green label around the neck.

Beware of refilled bottles. See that the cap has not been mutilated. Any person pretending to sell Plantation Bitters in bulk or by the gallon is an imposter. We sell it *only* in bottles.

Sold by principal dealers throughout the habitable globe.

NOTICE

Prof. P. M. Brenan

WOULD most respectfully announce to the public generally, and his former friends and patients, that he has arrived in this City, where he intends to remain during the winter.

He will devote his whole attention to the examination, treatment and cure of all diseases which may come under his notice, and more especially to the more prevalent and fatal diseases of the throat and chest, such as bronchitis, asthma, catarrh, disease of the heart and pleura; also, diseases of the liver, kidneys, and generative organs.

Those organs can be restored to perfect health and vigor without the use of poisonous, nauseating drugs, such as are generally used for the purpose.

Special attention paid to rheumatism, gout, neuralgia and diseases of the nervous system, including nervous debility, loss of memory, dimness of vision, weak and tremulous nerves, sleeplessness, indisposition to study, lack of confidence, palpitation of the heart, and unpleasant mental emotions of every kind.

The Prof. has had great experience in the treatment of these diseases by his extensive acquaintance with the human character, which his observation while travelling through all the large Cities of America and Europe has afforded him.

He has instruments for examining the above-mentioned organs, which will detect the slightest symptoms of disease and its exact locality; and he will describe the cause, symptoms and tendency of the same, and will point out plainly and accurately the proper method for its prevention and cure.

Special attention paid to disease of children, such as croup, whooping cough, measles, scarlatina, putrid sore throat, neva materna, &c.

Being a diligent student of the human character, and necessarily called by his profession into the society of all classes, from the humblest to the highest in the land, together with his extensive experience in the hospitals and colleges of the United States and Europe for the past seven years; and also, having been a clinical lecturer in the Philadelphia Hospital, one of the largest medical institutions in the world, where all classes of patients are treated for almost every species of disease with the most wonderful success. This, together with his own inventive genius, amply qualifies him for the treatment of all diseases which may come under his notice, and the happiest result may be looked for by the sufferer.

Thousands of certificates of cures made by PROF. BRENAN, which are of the most reliable source, can be seen by calling on his Secretary, many of which can be referred to in this City and Montreal.

The aged, weak and infirm will be waited upon at their residence, if desired. People who are unable to pay, will be treated free of charge, and all persons will be treated on the most liberal terms.

A word to the Ladies.

PROF. BRENAN has had the most extensive experience in the treatment of all female complaints, and being connected with the Lying-in Charity Hospital in Philadelphia for two years, and also lecturer to the nurses, at the Nurses' Home, New York City, has given him a knowledge of those diseases, which no other man can have without this experience.

The most strict attention will be paid to the examination and treatment of such diseases as do exist among that refined class of our community.

The ladies may depend that every attention will be paid them, and that they shall receive the most marked attention. The most delicate and trustworthy system shall be adopted for the prompt relief and radical cure of their maladies. Separate rooms for ladies and gentlemen.

All diseases of the skin can be cured by PROF. BRENAN; also loss of hair, sore and inflamed eyes, diseases of the joints, tumours, bunions, pimples and excrescences of every description, which mar the beauty and disfigure the person, without leaving a scar or any inconvenience to the patients whatever.

All persons, and more especially the young, will be advised how they can prevent disease, retain their natural strength and function unimpaired; also how to cultivate the figure, add to the beauty of personal appearance, increase the mental powers, cultivate the memory, strengthen the muscular system, and, in fact, show how the greatest perfection of body and mind can be attained.

PROF. BRENAN treats many diseases with the most miraculous success by Electro Magnetism; he has cured many diseases in this and other cities of long standing, which have been given up by eminent medical gentlemen, by a few applications only.

He has Electro Apparatus of every description, invented by himself, for the examination and treatment of almost every disease.

The purest medicines will be prepared with the most skilful attention, and will be administered with the greatest care.

Correspondence will be promptly answered, and written instructions will be made for all persons who cannot consult the Prof. personally. All letters of consultation must contain one dollar, or they cannot be answered.

Consultation at the office FREE.

Office hours: from 9 to 1, and from 3 to 6, P.M. Evening, from 7½ to 10 o'clock.

The poor will be treated free of expense every Thursday from 2 P.M. to 7.30.

CURES DONE BY Prof Paul M. Brenan IN QUEBEC.

JOSEPH SHEA, dealer, in the Lower Town Market, cured of Bronchitis of three years' standing.

JAMES GORDON, Shoemaker, St. John's Suburbs, Latourelle Street, No. 12½, cured of Spasmodic Asthma of twenty years' standing.

MISS MARIA SMITH, of Lorette, daughter of Peter Smith, Esquire, paper manufacturer, cured of Chronic Catarrh in the head; a very obstinate case.

MRS. WIDOW LAPOINTE, Coteau Sainte Genevieve, cured of Humoral Asthma, Disease of the Left Lung, Inflammation of the Bowels and Stomach; she could not swallow when the Professor took the case. Her nurse stood by her bed-side, moistening her tongue with the feather, which she dipt in arrowroot gruel. She had been given up by her Physician, and had been seen for the last time by her confessor.

JAMES BARADEN, Stadacona Club, cured of Neuralgia of the Spine and Weakness of the Nervous System.

MICHAEL POWER, Stevedore, cured of Disease of the Kidneys, Shortness of Breath and Rheumatism, a very difficult case.

MRS. G ANDREWS, residence Cul-de-Sac Street, No. 14, cured of an indolent Ulcer in the Leg, of four years' standing, caused by want of circulation of blood in the part owing to her having had the Femoral Artery tied for the cure of Popliteal Anurism. A very rare operation.

With many others too numerous to mention, and many diseases which it is unnecessary to publish.

Prof. Paul M. Brenan's Hair Regerminator,

For promoting a luxuriant growth of the hair. It beautifies, softens and prevents the hair from turning grey.

And also prevents baldness, and will produce the most beautiful head of hair in six months on any person under the age of 45 years; the hair has ever been considered one of the most beautiful ornaments of both men and women.

MR EDITOR—Sir, my hair has been falling for the last year, and, indeed, I was nearly bald when I called on Prof. Brenan two months ago. I am now happy to say that, by the use of his hair regerminator, my hair has stopped falling, and is growing quite as thick as ever.

J. B. VEZINA,
Clerk at Glover & Fry's.

Prof. Paul M. Brenan's Liquid of Beauty,

For cleansing, preserving, whitening, softening and purifying the complexion.

It removes all eruptions, pimples and blotches,—imparts a remarkable smoothness, brightness and transparency to the skin.

The "Index of the Soul" should be kept as clean, bright and beautiful as possible.

PRICE: ONE DOLLAR a bottle.

SPECIAL NOTICE.
DAVIS' MEDICATED CIGARS!

THE undersigned respectfully calls the attention of the public to his recently patented MEDICATED CIGARS. These Cigars have been manufactured in this city from the finest Havana Leaf Tobacco, under the immediate inspection of the undersigned, and as their medicinal properties are known to several eminent physicians in this city, one trial will convince the most sceptical of their superior properties in relieving the undermentioned complaints:—

MEDICATED CIGARS No. 1.
These Cigars will be found to have an almost magical effect in relieving the more distressing symptoms of the following diseases:—Headache, Asthma, Bronchitis, Spasmodic Complaints (especially of the Stomach), Liver Complaints, Neuralgia, Epilepsy, Ambly Opia or dullness of sight, Gout and all kindred diseases

MEDICATED CIGARS No. 2
Will greatly ameliorate the following complaints:—Organic Diseases of the Heart, Dropsy, Weak Lungs, Nervousness, Incipient Consumption, &c., &c. The immediate relief they give in these cases makes them invaluable to all persons afflicted with any of the above complaints.

In consumption they will, in relieving the cough, &c., tend to prolong life.

Previous to introducing these Cigars the undersigned made known their composition to some of the principal medical gentlemen of this city, among whom he begs to be permitted to name the following:—Drs. Campbell, Hall, Sutherland, Hingston, Macdonnell, Fraser, Reddy, Fenwick, Munroe, David, &c.
Directions accompany each package.
Sold by all Druggists.

SONGS.

THE NATIONAL JUBILEE PRIZE SONG, by Konrad Treuer, with a jubilant and effective chorus. 30 cents.

"To predict popularity for this able production would be superfluous."—*Home Journal.*
"It is unquestionably a superior composition"—*N. Y. Dispatch.*
"The words and melody are very grand and effective."—*N. Y. Courier.*
"This song is destined to be universally popular."—*Musical Review.*

THE GOOD Dispecker. This song is very spirited, patriotic, and popular. 30 cents.

WE NEVER CAN FORGET IT; or, The Memories of Andersonville Prison-Pens. By Henry Tucker. If you wish your sensibilities awakened with touching words and a rich and plaintive melody, do not fail to procure this song. Every soldier and soldier's friend, especially the friends of our tortured heroes at Andersonville, should hear this exquisite song. 30 cents.

LOVE ON THE BRAIN. By Mrs. Parkhurst. A very amusing and popular song. 30 cents.

THE "NATION IN TEARS." A Dirge to the Memory of Abraham Lincoln. By Konrad Treuer. 30 cents.

OUR SONG OF LIBERTY. With the *Reveille* as an introduction. By H. Millard. This song combines a charming melody with very spirited and patriotic words, and pleases everybody. 30 cents.

THE WHIP-POOR-WILL SONG. By H. Millard. A beautiful woodland love-song, with the pathetic and familiar echo of the "Whip-poor-Will." 30 cents.

"KISS ME WHILE I'M SLEEPING." Words by Wild Edgerton. Music by Konrad Treuer. This beautiful and artistic song is one of Miss Morris's favorites, and is sung by her at nearly all her concerts. 30 cents.

DE LORD HE MAKE US FREE. Minstrel Song. By Eman C. Pation. This song has very comic words, and a brilliant melody. No one can fail to be delighted with it. 30 cents.

EVERY-BODY'S LOVE-SONG. Words by W. Jennings Demorest. Music by Konrad Treuer. Comprising the titles of all the popular love-songs, and illustrating love in all its phases. 30 cents.

THE COTTAGE ROUND THE CORNER. Words by Mrs. M. A. Kidder. Music by Henry Tucker. This is a very charming song; the words beautiful, and the melody delicious. 30 cents.

MR. CARNEY, NONE OF YOUR BLARNEY. By A. Sedgwick. A very comic and beautiful Irish song. 30 cents

THE BOYS THAT WEAR THE BLUE. By Henry Tucker. A splendid song, both in words and melody, and a beautiful and just tribute to our returning heroes. 30 cents.

THE CHAIN OF LOVE. 30 cents.
CHORUS.
We'll brighten up the chain, love,
That binds our hearts in one,
For sweet the kiss
And rare the bliss
In union thus begun.

Any of the above songs will be sent by mail, post-paid, on receipt of the price, or at discount of one-third when the order amounts to one dollar.

Hot Hands,	Flushing of the Body,
Dryness of the Skin,	Eruptions of the Face,
Universal Lassitude,	Pallid Countenance,
	Muscular System.

These symptoms, if allowed to go on (which this Medicine invariably removes), soon follow
FATUITY, EPILEPTIC FITS, &c.,
in one of which the patient may expire. Who can say they are not frequently followed by those "direful diseases,"
INSANITY AND CONSUMPTION?
Many are aware of the cause of their suffering, but none will confess. The records of the insane asylums and the melancholy deaths by consumption bear ample witness to the truth of the assertion.
The Constitution, once affected by organic weakness, requires the aid of medicine to strenghten and invigorate the system, which HELMBOLD'S EXTRACT OF BUCHU invariably does. A trial will convince the most sceptical.

of the worst disorders that afflict mankind arise from the corruption that accumulates in the Blood. Of all the discoveries that have been made to purge it out, none can equal in effect *Helmbold's Compound Extract of Sarsaparilla.* It cleanses and renovates the Blood, instills the vigor of health into the system, and purges out the humors which make disease. It stimulates the healthy functions of the body, and expels the disorders that grow and rankle in the blood Such a remedy that could be relied on has long been sought for, and now, for the first time, the public have one on which they can depend. Our space here does not admit of certificates to show its effects, but the trial of a single bottle will show to the sick that it has virtues surpassing anything they have ever taken.

Two tablespoonsful of the Extract of Sarsaparilla added to a pint of water is equal to the Lisbon Diet Drink, and one bottle is fully equal to a gallon of the Syrup of Sarsaparilla, or the decoction as usually made.

O

Helmbold's Rose Wash,

An excellent Lotion for diseases arising from habits of dissipation, used in connection with the Extracts Buchu and Sarsaparilla, in such diseases as recommended. Evidence of the most responsible and reliable character will accompany the medicines. Also explicit directions for use, *with hundreds of thousands* living witnesses, and upwards of 30,000 unsolicited certificates and recommendatory letters, many of which are from the highest sources, including eminent Physicians, Clergymen, Statesmen, &c. The Proprietor has never resorted to their publication in the newspapers; he does not do this from the fact that his articles rank as Standard Preparations, and do not need to be propped up by certificates.

The Science of Medicine, like the Doric Column, should stand simple, pure, majestic, having Fact for its basis, Induction for its pillar, and Truth alone for its Capital

L

My Extract Sarsaparilla is a Blood Purifier; my Extract Buchu is a Diuretic, and will act as such in all cases

Both are prepared on purely scientific principles—*in vacuo*—and are the most active measures of either that can be made. A ready and conclusive test will be a comparison of their properties with those set forth in the following works:

NOTICE TO MARINERS.

Newfoundland—South-East Coast.

Lights at Cape Race and Cape Pine.

The following important Notice to Navigators has been issued from the Hydrographic Office, Admiralty, London, in reference to Lights at Cape Race and Cape Pine, on the South-East Coast of Newfoundland, to which the attention of all concerned is especially directed.

By Command,
R. S. M. BOUCHETTE,
Commissioner of Customs.

The substance of this Notice, as soon as it is received on board, is to be inserted in red ink on the Charts affected by it; and introduced into the margin, or otherwise in the page, of the Sailing Directions to which it relates. *See* Instructions, Navigation and Pilotage, p. 172.

NOTICE TO MARINERS.
[No. 28.]

NEWFOUNDLAND—SOUTH-EAST COAST.

Lights at Cape Race and Cape Pine.

Information has been received at the Admiralty, that it has been decided to make the following changes in the lights at Cape Race and Cape Pine, on the south-east coast of Newfoundland, viz:

The fixed light at Cape Race, to be altered to a *revolving* white light, attaining its greatest brilliancy every *half minute.*

The revolving light at Cape Pine to be altered to a fixed white light.

It is expected that these changes may take place some time in August 1865, but the precise date, with further information, will be published in a subsequent Notice.

By Command of their Lordships,
GEO. HENRY RICHARDS,
Hydrographer.
Hydrographic Office, Admiralty,
London, 12th June, 1865.

This Notice will affect the following Admiralty Charts:—Newfoundland, South-East Coast, No. 2915; and Gulf of St. Lawrence No. 2516. Also, British North America, Lights List, Nos. 14, 15.

SIR,
I transmit to you herewith, for your information, an Order of Her Majesty in Council, extending the provisions of the Foreign Deserters' Act of 1852 to the Sublime Ottoman Porte.

I have, &c.,
(Signed,) EDWARD CARDWELL.

Governor
VISCOUNT MONCK,
&c., &c., &c.

(Copy of Order in Council referred to.)

At the Court at Windsor, the 18th day of May, 1865.

PRESENT:

The QUEEN'S Most Excellent Majesty in Council.

WHEREAS, by the Foreign Deserters' Act, 1852, it is provided that whenever it is made to appear to Her Majesty that due facilities are or will be given for recovering and apprehending seamen who desert from British merchant ships, in the territories of any foreign power, Her Majesty may by Order in Council, stating that such facilities are or will be given, declare that seamen, not being slaves, who desert from merchant ships belonging to a subject of such power when within Her Majesty's dominions, shall be liable to be apprehended and carried on board their respective ships, and may limit the operation of such Order, and may render the operation thereof subject to such conditions and qualifications (if any) as may be deemed expedient:

And whereas it has been made to appear to Her Majesty, that due facilities will be given for recovering and apprehending seamen, not being Turkish subjects, who desert from British merchant ships in the territories of the Sublime Porte:

Now, therefore, Her Majesty, by virtue of the powers vested in Her by the said Foreign Deserters' Act, 1852, and by and with the advice of Her Privy Council, is pleased to order and declare, and it is hereby ordered and declared, that from and after the publication hereof in the London Gazette, seamen not being slaves, and not being British subjects, who desert from merchant ships belonging to subjects of the Sublime Porte within Her Majesty's dominions, shall be liable to be apprehended and carried on board their respective ships; provided always, that if any such deserter has committed any crime in Her Majesty's dominions, he may be detained until he has been tried by a competent Court, and until his sentence (if any) has been fully carried into effect.

And the Right Honorable the Lords Commissioners of Her Majesty's Treasury, the Secretary of State for the Colonies, and the Secretary of State for India in Council, are to give the necessary directions herein accordingly.

FROM THE HON. THOMAS B. FLORENCE
FROM THE HON. THOMAS B. FLORENCE
FROM THE HON. THOMAS B. FLORENCE
Washington, Jan. 1st, 1864.

Gentlemen,—Having stated it verbally to you, I have no hesitation, in writing the fact, that I experienced marked benefit from your Hoofland's German Bitters. During a long and tedious session of Congress, pressing and onerous duties nearly prostrated me. A kind friend suggested the use of the preparation I have named. I took his advice, and the result was improvement of health, renewed energy, and that particular relief I so much needed and obtained. Others may be similarly advantaged if they desire to be.

Truly your friend,
THOMAS B. FLORENCE.

From JOHN B. WICKERSHAM, Esq., firm of Wickersham & Hutchison, the celebrated Manufacturers of Fancy Iron Works, 259 Canal St.

I am the receipient from you of one of the greatest favors that can be conferred upon man, viz., that of health. For many years have I suffered from one of the most annoying and debilitating complaints that the human family can be afflicted with, Chronic Diarrhea.

During the long time I was suffering from this disease, I was attended by regular physicians, giving me but temporary relief. The cause seemed to remain until I was induced to try Hoofland's German Bitters. After the use of a few bottles of that valuable medicine, the complaint appeared to be completely eradicated.

I often inwardly thank you for such a valuable specific, and, whenever I have an opportunity, cheerfully recommend it, with full confidence in its reliability.

Truly yours,
JOHN B. WICKERSHAM.
New York, Feb. 2, 1864.

From JULIUS LEE, Esq., firm of Lee & Walker, the most extensive Music Publishers in the United States, No. 722 Chestnut Street, Philadelphia.

February 8th, 1864.

Messrs Jones & Evans—Gentlemen:—My mother-in-law has been so greatly benefitted by your Hoofland's German Bitters that I concluded to try it myself. I find it to be an invaluable tonic, and unhesitatingly recommend it to all who are suffering from dyspepsia. I have had that disease in its most obstinate form—flatulence—for many years, and your Bitters has given me ease when every thing else had failed.

Yours truly, JULIUS LEE.

From the HON. JACOB BROOM.
Philadelphia, Oct. 7th, 1863.

Gentlemen:—In reply to your inquiry as to the effect produced by the use of Hoofland's German Bitters, in my family, I have no hesitation in saying that it has been highly beneficial. In one instance, a case of dyspepsia of thirteen years' standing, and which had become very distressing, the use of one bottle gave decided relief, the second effecting a cure, and the third, it seems, has confirmed the cure, for there has been no symptoms of its return for the last six years. In my individual use of it, I find it to be an unequalled tonic, and sincerely recommend its use to the sufferers.

Truly yours, JACOB BROOM,
1707 Spruce St.

From REV. W. D. SEIGFRIED, Pastor of 12th Baptist Church.
Philadelphia, December 26th, 1863.

Messrs. Jones & Evans—Gentlemen:—I have recently been laboring under the distressing effects of indigestion, accompanied by a prostration of the nervous system. Numerous remedies were recommended by friends, and some of them tested, but without relief. Your Hoofland's German Bitters were recommended by persons who had tried them, and whose favorable mention of the Bitters induced me also to try them. I must confess that I had an aversion to Patent Medicines, from the "thousand and one quack Bitters," whose only aim seems to be to palm off sweetened and drugged liquor upon the community, in a sly way; and the tendency of which, I fear, is to make many a confirmed drunkard. Upon learning that yours was really a medicinal preparation, I took it with happy effect. Its action not only upon the stomach, but upon the nervous system, was prompt and gratifying. I feel that I have derived great and permanent benefit from the use of a few bottles.

Very respectfully yours,
W. D. SEIGFRIED,
No. 254 Shackamaxon St.

From the REV. THOS. WINTER, D.D., Pastor of Roxborough Baptist Church.

Dr. Jackson—Dear Sir:—I feel it due to your excellent preparation, Hoofland's German Bitters, to add my testimony to the deserved reputation it has obtained. I have for years, at times, been troubled with great disorder in my head and nervous system. I was advised by a friend to try a bottle of your German Bitters, I did so, and have experienced great and unexpected relief; my health has been very materially benefitted. I confidently recommend the article where I meet with cases similar to my own, and have been assured by many of their good effects.

Respectfully yours, T. WINTER,
Roxborough, Pa.

From REV. J. S. HERMAN, of the German Reformed Church, Kutztown, Berks County, Pa.

Dr. C. Jackson—Respected Sir:—I have been troubled with Dyspepsia nearly twenty years, and have never used any medicine that did me as much good as Hoofland's Bitters. I am very much improved in health, after having taken five bottles.

Yours, with respect, J. S. HERMAN.

"JOY TO THE WORLD."

THE INTRODUCTION OF
Perry Davis' Pain Killer,
To the Suffering Humanity of this Age,

Has Relieved More Pain, and caused more Real Joy than any other one Thing that can be named.

It is a "Balm for Every Wound!"

Our first Physicians use it and recommend its use; the Apothecary finds it first among the medicines called for, and the wholesale Druggist considers it a leading article of his trade. All the dealers in medicine speak alike in its favor; and its reputation as a Medicine of Great Merit and Virtue is fully and permanently established, and it is

New Medicines.
The Greatest Success of the Age.

DISEASES of the Chest. Syrup of Hypophosphite of Lime, manufactured by Grimault and Co., chemists, 7, rue de la Feuillade, Paris. This new medicine, delicious to the palate, is a sovereign remedy for coughs, colds, irritation of the lungs, and is also an excellent remedy in cases of consumption. Under its influence, the cough abates, nocturnal prespirations cease and the patient rapidly recovers health and flesh.

ELIXIR of Pepsine, prepared by Grimault and Co., chemists, 7, rue de la Feuillade, Paris, according to the formula of Dr. Corvisart, knight of the Legion of Honour, physician to H. M. the Emperor of the French. Pepsine is the gastric juice itself, or rather the digestive principle purified, which digests food in the stomach. When from various causes the supply of the digestive fluid is too small, the inevitable consequences are bad digestion, gastritis, gastralgia, inflammation of the mucous coats of the stomach and bowels, heartburn, anœmia, loss of strength, and in females, general derangement. The Elixir of Pepsine, which is sanctioned by the approbation of the Paris Academy of Medicine, speedily cures all diseases, and prevents vomiting during pregnancy.

VEGETABLE Matico Injection and Capsules, prepared by Grimault and Co., apothecaries in Paris. This new remedy is prepared from the leaves of the Matico, a tree of Peru, for the prompt and infallible cure of gonorrhœa without fear of stricture of the urethra or inflammation of the bowels. The celebrated Dr. Ricord of Paris, ceased to prescribe all other medicaments as soon as Matico was discovered. The Injection is used at the commencement of the discharge; the Capsules in chronic and inveterate cases, which have resisted the preparations of copaiba, cubebs, and injections of a metallic basis.

NO more Cod Liver Oil. Syrup of Iodized Horse-Radish, of Grimault and Co., Apocaries chemists, 7, rue de la Feuillade, Paris. According to the certificates of the physicians of the Paris Hospitals detailed in the prospectus, and with the approbation of several Academies, this Syrup is employed with the greatest success in place of Cod Liver Oil, to which it is really superior. It cures diseases of the chest, scrofula, lymphatic disorders, green sickness, muscular atony, and loss of appetite, it regenerates the constitution by purifying the blood, and is, in a word, the most powerful depurative known. It never fatigues the stomach and bowels like the iodide of potassium and the iodide of iron, and is administered with the greatest efficacy to young children subject to humours, or obstruction of the glands. Dr. Casenave, of St. Louis hospital, Paris, recommends it particularly in cutaneous diseases conjointly with the pills which bear his name.

PHOSPHATE of Iron De Leras, apothecary doctor of science, 7, rue de la Feuillade, Paris,—This new ferruginous medicine contains the elements of the bones and blood, and iron in a liquid state. From observations made in the Paris hospitals and detailed in the prospectus, it is superior to ferruginous pills, lactate of iron, iron reduced by hydrogen, pills and syrup of the iodide of iron, and cures rapidly, stomach complaints, painful digestion, poverty of the blood, loss of strength and appetite, and the diseases incident to females. It is the best adjunct to Cod-Liver Oil, and the best preserver in health in tropical climates. General Depot: of London, at Newbery and Sons, 45 St. Paul's Churchyard; in Calcutta, at Percy Douglas and Co.; and every good druggist of India.

No more Copaiba or Cubebs.
Capsules of Matico Vegetales.
Also, liquid extract of Matico.

THESE elegant preparations effect rapid and extraordinary cures of recent and old and severe cases of disease. They are used in all the Hospitals of Paris by the celebrated Dr. Ricord, and are found greatly superior to all preparations of Copaiba, Cubebs, ect., and mineral remedies. The liquid extract is used in recent cases, and the Capsules in the more chronic; and where all other medicines have failed, these preparations will always effect a cure
