FRENCH ADVANCE THEIR POSITIONS IN THE OISE SECTOR; BRITISH CARRY OUT SUCCESSFUL RAIDS

German Raiding Party on British Lines in Flanders Repulsed—Enemy Artillery Developed Activity on Front Opposite Beaumont-Hamel—Haig's Troops Now Control Positions in the Merris Sector—Line Pushed Forward Without Much Opposition and 150 Prisoners and Number of Machine Guns Were Captured.

(Associated Press Despatch)

PARIS, July 13.—In an operation carried out last night on the front between Mont Didier and the Oise, the French pushed their advanced posts forward a distance of approximately 500 yards in the vicinity of the Porte Farm, the War Office announced today.

The Porte Farm is in the vicinity of Antheuil, northwest of Compiègne. This farm, together with the Loges Farm, nearby, was captured by the French in a local operation on the evening of July 8.

BRITISH TAKE PRISONERS AND GUNS.

LONDON, July 13.—Successful minor enterprises were carried out by the British last night on the Flanders front, near Vieux Berquin and Merris, as a result of which 76 prisoners were taken and a few machine guns captured, the War Office announces today.

A German raiding party which advanced upon the British lines in Flanders, in the Meteren sector, was repulsed. The German artillery developed activity during the night on the Flanders front and opposite Beaumont-Hamel.

AUSTRALIANS TAKE MORE GROUND

(Associated Press Despatch)
WITH THE BRITISH ARMY IN FRANCE, July 13.—British operations in the Merris sector since Tuesday have brought the line forward to within about a quarter of a mile west of that important hamlet, and secured for the British complete observation of German positions in the village. On Tuesday the Australian units pushed forward northwest of Merris along a front of 1200 yards to a depth of 250 yards, and drove the enemy from the high ground overlooking Merris. Yesterday the British infantry again reached out, and claimed another strip of hostile ground west of Merris. This advance reached a maximum depth of about

half a mile and extended along a front of 2200 yards. As a result the British positions have been greatly improved, and a small salient which had been left in the line after Tuesday's attack has been eliminated. Yesterday's operation was a case of being able to seize an opportunity when it was presented. At one point four Australians ventured across No Man's Land, and by a quick assault on the enemy's defence line captured between 30 and 40 prisoners. A considerable body of British troops were sent forward to exploit the victory. The British line was pushed forward without much opposition and more than 150 prisoners, with a number of machine guns, had been captured up to last night.

FRENCH CAPTURE DOMINATING POSITIONS

(Associated Press Despatch)
On the French front in France, Friday, July 12.—The superbly executed local action carried out by the French today southeast of Amiens, not only gave them a large batch of prisoners but brought into their possession the entire Rouleville Plateau dominating the region between the rivers Avre and Morcuil and the Noye through which the main railroad from Paris to Amiens passes, and which has been in the hands of the enemy since March.

More than 500 German officers and men already captured have been sent to the rear, and others are arriving.

AVIATORS ATTACK POSITIONS BEHIND GERMAN LINES

(Associated Press Despatch)
LONDON, July 13.—The Air Ministry has issued the following statement as to operations:

"During the night of July 11 our machines successfully bombed three enemy airdromes, at two of which fires broke out. Many rounds of machine gun bullets were fired at trains, searchlights and other military objects. On July 12 the railway siding at Saarbrücken were attacked. All our machines returned safely."

The official statement on aerial operations issued by the War Office last night reads:

"On July 11 heavy rain storms limited activity in the air on both sides, but our machines carried out reconnaissance work and observation for the fire of our artillery whenever brighter intervals permitted. Nine tons of bombs were dropped on railway junctions behind the German lines. Three hostile machines were destroyed during the day and two driven down out of control. Three of our machines are missing. Night flying was impossible."

GRANT TO IMPROVE PORT OF PARIS

(Associated Press Despatch)
PARIS, July 13.—(Havas Agency)—A committee of the municipal council of Paris has submitted a report approving the issue of a credit for fifty million francs with which to defray the expenses for improving the port of Paris.

DENIES THAT GERMANY INTENDS TO RETAIN BELGIUM

(Associated Press Despatch)
COPENHAGEN, July 13.—Denial that Germany intended to retain Belgium was made by Count Von Hertling, in the course of his speech before the Reichstag Main Committee on Thursday.

"The present possession of Belgium only means that we have a pawn for future negotiations," the Chancellor said.

"We have no intention to keep Belgium in any form whatever."

NEW SIBERIAN GOVERNMENT WITH ALLIES

Provisional Ruler Declares that All Russian Treaties With the Allied Powers Will Be Renewed and Adhered to.

(Associated Press Despatch)
LONDON, July 13.—The Allied powers will have the full support of the new Siberian Government, according to assurances sent by Lieut. General Horvath, who has been proclaimed provisional ruler at Siberia, to a correspondent of the Daily Mail at Harbin. From his headquarters at Pogranitza, in Eastern Manchuria, General Horvath has telegraphed the Mail correspondent as follows:

"Paragraph five of the programme of my government, which establishes the renewal of all treaties with the allied powers, is at once confirmation of the firm intention on our part to act in complete accord with our brave allies, and to return to the Russian ranks those who are fighting with the enemy."

STATE CONTROL OF WIRE SYSTEMS

Expected that Congress Will Reach a Final Vote Today—Favorable Action is Assured.

(Associated Press Despatch)
WASHINGTON, D. C., July 13.—Plans of a recess of Congress until the middle or last of August, which failed a week ago, were laid before the two Houses today.

In the Senate, adoption of the resolution authorizing the President to take over the telegraph, telephone, cable and radio systems for the period of the war was expected to be brought to a final vote today. Favorable action on the resolution seemed assured. Prohibition advocates were said to have agreed to postponement of a vote on the national wartime prohibition amendment to the Emergency Agricultural Appropriation Bill until after the recess, despite strong opposition.

TURKISH PEOPLE MISLED BY GOVERNMENT

Population of Constantinople Told Grain from Black Sea Port Was from the Ukraine.

(Canadian Press Despatch)
LONDON, July 13.—(British Wireless Service).—A despatch from Constantinople dated July 4 describes one of the methods used by the Turkish Government to make the population of the city believe that wheat was arriving there from Ukraine. Several ships left Constantinople by day and proceeded during the night to a port on the Black Sea where stores of wheat were held for the Turkish army. This wheat was taken aboard and the ships returned to Constantinople, where it was brought ashore. It was announced that this was a grain shipment from the Ukraine. The authorities added, however, that the army was short of wheat. During the night the grain was returned to the Black Sea port from which it had come.

EIGHT KILLED WHEN FLOOR COLLAPSED

Weight of Shells Caused Accident in Lymburner Co's Warehouse in Montreal This Morning.

(Special to The Record.)
(Canadian Press Despatch)
MONTREAL, Que., July 13.—Eight persons were killed and eight seriously injured when the upper floor in the warehouse building of Lymburner's, Limited, St. Paul street, collapsed at an early hour this morning. The company are manufacturing munitions, and the floor which collapsed was stored with empty shells.

The identified dead are George Lymburner, nephew of the head of the firm, and Jos. Portugal. The killed for the most part consists of moulders. When the upper floor gave way its tremendous weight of shells crushed through the floors underneath and fell through three storeys to the cellar.

The eight men killed were tangled up in the debris. Burst pipes filled up the cellar with water, drowning any who may have lived through the fall.

SEVENTEEN EMPLOYEES MISSING.

When the roll of the employees of the company was called after the accident, seventeen were reported missing. It was explained by the company's officials that possibly some of the men went home.

The manager of the local branch of the concern stated that he did not believe that there were any Sherbrooke people at work in the warehouse in Montreal.

FIVE MEN KILLED BY LIVE WIRE

(Canadian Press Despatch)
MONTREAL, Que., July 13.—Five men were killed by coming into contact with a live wire at the plant of the Metal and Munitions Produce Company at Montreal this morning.

AUSTRIAN PEACE EMISSARY GOT COLD SHOULDER

Envoy from Pacifist Party Was Unable to Get a Hearing at Legations in Berne.

(Associated Press Despatch)
WASHINGTON, D. C., July 13.—Reports of the repulse by Allied legations in Berne of an alleged Austrian emissary have been confirmed by the Journal of Geneva, says an official despatch today from Switzerland. According to the reports, an Austrian from the pacifist party of Prof. Lammasch arrived several days ago at Berne. This emissary presented himself at several legations of the Allied Powers, but in no case was he received. Professor Lammasch is the individual who, on several former occasions, is said to have made peace overtures to Americans as well as representatives of other Allied countries.

WANTED CASEMENT TO HEAD IRISH PRESS BUREAU

Jeremiah O'Leary, Sinn Fein Leader, Made Admission When Examined in Court.

(Associated Press Despatch)
NEW YORK, N.Y., July 13.—Jeremiah O'Leary, the Sinn Fein leader, indicted for conspiracy to commit treason, admitted in the Federal Court here yesterday that in September, 1914, he tried to get Sir Roger Casement, later executed by the British Government for high treason, to head an Irish press bureau in this country. This admission was made when Jeremiah was called to the stand again yesterday to testify at the re-trial of his brother, John H. O'Leary, who is accused of aiding him to escape on the eve of his trial for publication of alleged seditious articles in the Bull.

Then he was questioned regarding the organization of the American Truth Society, of which he was president. He declared he did not know that one of its former presidents was also head of the German-American Alliance.

BRITISH REINFORCEMENTS DESPATCHED TO SIBERIA

(Associated Press Despatch)
Washington, D. C., July 13.—British reinforcements have been despatched to Siberia, according to official information received here today, to assist the Russians and Czech-Slovaks guarding the Allied stores from Bolsheviks acting with German prisoners, who are reported to be advancing upon Vladivostok.

From other sources today came reports of constant guerilla fighting in the Ukraine between large bands of peasants and the German military forces. The results were not reported, but it was said the peasants are well equipped with machine guns, rifles and ammunition. It is believed that the peasants secured their military equipment from the stores left by the various armies which retreated after operations in that part of Russia.

CZECHO-SLOVAKS MUST GET HELP FROM ENTENTE

London Times Says Japan in Best Position to Send Assistance Quickly to the Anti-Bolshevik Forces.

(Associated Press Despatch)
LONDON, July 13.—Commenting on developments in Russia, where, it says, events are moving with great rapidity, the Times contends that the Czech-Slovaks, who have practically seized all Siberia must be helped without delay.

"Manifestly, Japan is in the best position to send help quickly," the Times adds, "but we trust that eventually all the Allies will participate in an enterprise so full of promise."

WARM WEATHER HAS GOOD EFFECT ON CROPS IN WEST

(Associated Press Despatch)
SASKATOON, Sask., July 13.—Warm weather is having a splendid effect on the crops on the Prince Albert branch of the G.T.P. around Cudworth and Wakaw. The wheat is reported to be over 30 inches high and evenly headed.

FIELD MARSHAL VON HINDENBURG IS REPORTED DEAD AFTER VIOLENT QUARREL WITH GERMAN EMPEROR

Emperor and Army Leader Declared to Have Had Serious Differences of Opinion Concerning Offensive Toward Paris—During Past Six Months There Have Been Many Varied Rumors Regarding Health of Field Marshal—German Soldier Gained Prominence as Result of Drive Against Russians.

(Associated Press Despatch)
AMSTERDAM, July 13.—Field Marshal Von Hindenburg is dead, according to the newspaper Les Nouvelles. His death is said to have occurred after a stormy interview with the German Emperor at Great Headquarters at Spa.

The Emperor and the Field Marshal are declared to have had serious differences of opinion concerning the German offensive towards Paris. The Field Marshal died from congestion of the brain.

The violent interview between Von Hindenburg and Emperor William occurred on May 16, Les Nouvelles says. It was followed by an apoplectic stroke which ultimately resulted in the Field Marshal's death.

The newspaper says its information was obtained "from good sources in the occupied district of Belgium."

In the past six months there have been several rumors of the death of Field Marshal von Hindenburg and there have been many reports that he has been in poor health. A despatch received in London Friday from The Hague quoted a Dutch traveller from

Gen. Von Hindenburg

Germany as declaring that a report that the Field Marshal was ill and unable to participate in the work at army headquarters had spread all over Germany. German newspapers were not permitted to mention the rumor. The traveller added that General Ludendorff, the first quartermaster-general, had taken over the field marshal's duties.

BIRCHTON

The death of Mrs. Maria C. Hodge took place at the residence of her son, Charles A. Hodge, of Halifax, N.S., on Sunday, July 1. The deceased reached the age of 64 years and 6 months, the last forty eight of which were spent on the old Hodge homestead at Birchtown. Although her health had been failing for some time, the end came most unexpectedly, heart failure being the immediate cause.

She was a daughter of the late Ephraim Barlow, of the Township of Westbury, and widow of the late Hollis M. Hodge, of Birchtown. Her death removes one more of those aged persons of the old school, who will be missed and remembered by a wide circle of friends.

She leaves to mourn her loss three sons and one daughter, Marion B., of Birchtown; Charles A., of Halifax, N.S.; Fred A. and Elsie M., on the old homestead. The remains were laid to rest in the family lot at Sand Hill, Que., on Wednesday, July 10, Rev. Ian A. R. MacDonald and Rev. T. P. Shaver officiating.

The floral offerings were beautiful and numerous, bearing testimony of the esteem in which she was held by her relatives and friends.

WINDSOR MILLS

In spite of adverse weather, there was a very large number attended in the evening and thoroughly enjoyed the good things provided by their genial hostess, Mrs. A. J. Brown. The amount realized for the Red Cross fund was \$146, which will be at once remitted to headquarters.

ROCK ISLAND AND
DERBY LINE

upon the Government road in this municipality by a few laborers, who have been engaged in cutting bushes lying along the Meadow road to Campton.

The frequent showers which have, to a certain extent, brought haying to a standstill, would seem to indicate that in order to keep pace with the otherwise early season, St. Swithin has begun his reign of forty days fully a week ahead of schedule time.

On Thursday afternoon several of the young girls who are members of the "Elsie" class in connection with the Methodist Sunday school, called at the home of Mrs. A. E. Pellerin, who, since the departure of Mrs. Elsie Smith, from whom the class derived its name, has been in charge of this department, and presented her with a silver butter dish and knife in honor of her recent marriage. The presentation was made by the president of the class, Miss Florence Fowler, Mrs. Pellerin expressing her gratitude in a few words of appreciation. Light refreshments were afterwards served to the young members, and a short time spent in social intercourse.

The fortnightly meeting of the Ladies' Aid, which was held at the Methodist vestry on Wednesday afternoon, was well attended, the usual amount of work for the Red Cross was accomplished and a basket tea served at the close. A former member of the Aid, Mrs. M. L. Pope, of Lennoxville, who is spending a few days at the home of her cousin, Mrs. W. A. Hodges, took the opportunity of again meeting with friends and co-workers of other years.

Fre. Harold Sutton, second son of the late E. J. Sutton, of North Barnston, has been ordered to join the colors, and left on Friday for Valcartier.

Mr. and Mrs. A. E. Bowen, with their daughter, Mrs. B. Corey, accompanied Mr. and Mrs. B. F. Bowen in their car to St. John's to visit their son, Pte. Riley Bowen. To their disappointment, Pte. Bowen had already left for Amherst, N.S. Upon their return the party spent a day at Farnham with Mr. and Mrs. A. M. Bowen, formerly of Hatley; Miss Marjorie Bowen is spending a part of her summer holidays with cousins at North Troy, Orleans and Barton, Vt.; Mrs. E. A. Hodges with friends to Montreal by motor to spend a short time at the home of her eldest son, E. A. Hodges, Jr.; Mr. and Mrs. Hugh E. Bowen and Mr. and Mrs. B. F. Bowen in their car to Lennoxville, calling upon Mr. and Mrs. W. D. Parker, formerly of Montreal, a part of her vacation with her brother, Mr. and Mrs. M. J. Robinson; Mrs. Wm. Embury, of Oliver, a guest of her sister, Mrs. H. M. Emery, and brother, Mr. C. S. Sweeney; Miss Evelyn Hodges for a few days with Mrs. Mabel Glidden; Mrs. Colby and Mrs. Libbey, of Ayer's Cliff, and Mrs. Glidden, of Boston, who is their guest, on Thursday at the home of Mr. and Mrs. O. H. Glidden; Mrs. E. Whitcomb and her sister, Miss Stevenson, of Massachusetts, at "The Butternuts" on Tuesday; Mr. and Mrs. W. A. McClary and Mr. Wm. Fowler accompanied Mr. A. McClary in his car to Stanstead on Tuesday; Mrs. Pope, of Lennoxville, for the day with her cousin, Mrs. J. P. Woodman; Mr. Oliver Carrier to his home at Brockton, Mass., after a fortnight at the home of his parents, Mr. and Mrs. Albert Carrier; Mrs. Carrier and two little daughters will remain for a few weeks. Miss Pellerin and her sister, Miss Linda Pellerin, of Springfield, Mass., are in Montreal for a time with their cousins, Mr. and Mrs. E. J. King, formerly of Sherbrooke; Mr. E. H. Whitcomb and his sister, Miss Whitcomb, on Wednesday at the Rowell home, Ayer's Cliff; Miss M. Bustard, who is staying for the summer with Mrs. Ride, spent Wednesday at the home of her cousin, Mrs. W. O. Fish.

In the report of the election of school commissioners for the village of Hatley, the newly elected member of the board for this district should have appeared as Rev. I. N. Kerr, in place of Mr. I. N. Kerr.

A small quilting party was held on Wednesday at the home of Mrs. W. O. Fish, on the Massawippi road, when a few hours of social intercourse was much enjoyed, and a tempting tea served at the close of the afternoon by the hostess, assisted by her daughter, Mrs. Lewis, of East Andover, Mass.

Several from this place attended the theatrical entertainment given by home talent at North Hatley on Tuesday evening.

Mrs. G. McDonald returned to Sherbrooke on Friday.

SOUTH DURHAM

or does your business master you? Does it insist on following you home and to bed and worrying you day and night until you are on the verge of nervous collapse?

A few weeks' use of Dr. Chase's Nerve Food will do wonders for any business man or business woman whose nervous system has failed to stand the strain. It nourishes the nerves back to health and vigor.

LEMON JUICE
TAKES OFF TAN

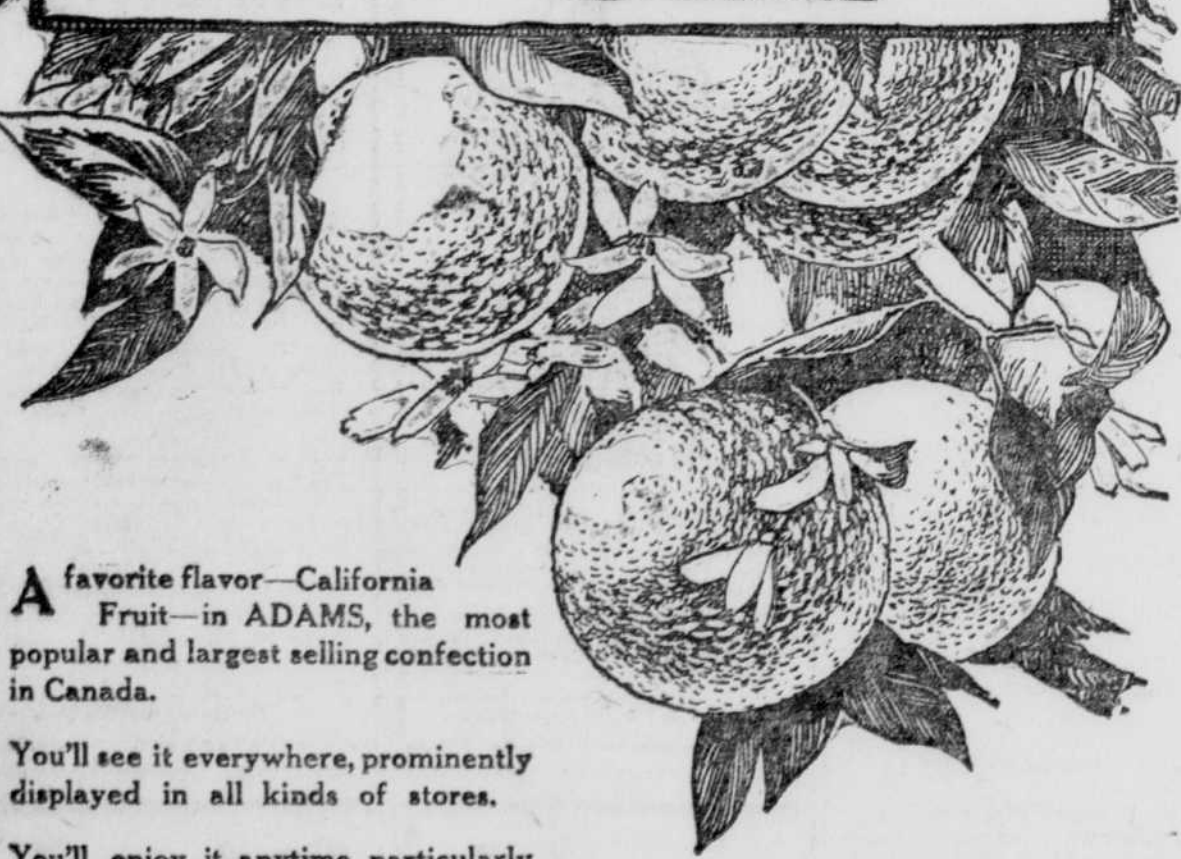

Girls! Make bleaching lotion if skin is sunburned, tanned or freckled

Squeeze the juice of two lemons into a bottle containing three ounces of Orchard White, shake well, and you have a quarter pint of the best freckle, sunburn and tan lotion, and complexion beautifier, at very, very small cost.

Your grocer has the lemons and any drug store or toilet counter will supply three ounces of Orchard White for a few cents. Massage this sweetly fragrant lotion into the face, neck, arms and hands each day and see how freckles, sunburn, windburn and tan disappear and how clear, soft and white the skin becomes. Yes! It is harmless.

SUTTON JUNCTION

On Thursday afternoon Miss F. Westover and Mrs. H. Smith entertained a party of young ladies at the home of the former, in the form of a miscellaneous shower in honor of Miss Muriel Norton, whose marriage to Mr. Davidson is to take place in August. The house was beautifully decorated with ferns and daisies, the yellow and white scheme being carried out through all the rooms. A beautiful decorated basket was placed before the prospective bride, who was thoroughly surprised, and found to contain a pretty gift from all present, and some that were unable to come sent a remembrance. Dainty refreshments were served, and with good wishes for the bride the party broke up.

Brig.-Gen. Draper's friends here are

proud to know of his recent promotion.

DUNHAM

The Women's Patriotic Society received a notice calling attention to the War Charity's Act regarding the registration of societies for raising money for any benevolent war purpose. After due consideration the Society decided to call a public meeting to be held in the town hall. It is to be hoped that a speaker from Red Cross headquarters will address this meeting, and outline the matter in detail, showing the advisability of becoming a branch Red Cross instead of being one of a group.

The usual monthly tea was held on this, the second Thursday, instead of the first Thursday, as the hostesses serving were, Mesdames Ten Eyck, Asa Shephard, Yeats and H. Gilbert, and the receipts for the afternoon were eleven odd dollars. A resolution was adopted to hold business meetings monthly only.

A Serious Matter

There is delicacy about mentioning piles. And yet so many suffer needlessly who could be readily relieved and cured if they only knew about Dr. Chase's Ointment.

Men tell one another about this remarkably successful treatment. But many women pine away their health and vitality, dreading a surgical operation and not knowing how easily they can be cured at home by Dr. Chase's Ointment.

Like Being Hit By Rattle Snake

Says that every time you cut or pick at a corn you invite lockjaw

You reckless men and women who are pestered with corns and who have at least once a week invited an awful death from lockjaw or blood poison are now told by a Cincinnati authority to use a drug called freezone, which the moment a few drops are applied to any corn, the soreness is relieved and soon the entire corn, root and all, lifts right out with the fingers, without one particle of pain.

This freezone is a sticky substance which dries the moment it is applied and just loosens the corn without injuring or even irritating the surrounding tissue or skin. He says a quarter of an ounce will cost very little at any of the drug stores, but this is sufficient to rid one's feet of every hard or soft corn or callus.

You are positively warned that cutting or picking at a corn is a suicidal habit.

LITTLE HAY CUT AROUND BROME

Crop Daily Improving and, Although Below Average, Will Be Superior to that of Last Year.

BROME, July 13. (Special)—At time of writing, July 12th., but little hay has been cut. Along the high-ways, dooryards and some rough corners have been clipped out. In the vicinity of Knowlton a few have started. The crop is daily improving, and, although not as large as last year, will be of a very much superior quality, which will make up to a great extent the loss in quantity.

A handsome roof that defies the weather

An added touch of beauty to any house is a roof of Brantford Asphalt Slates, which are in soft, harmonious shades of reddish brown and dark green. The colors are permanent and unfadeable, being the natural shades of the slate just as it is taken out of the quarries.

It will also prove a very economical roof, because Brantford Asphalt Slates do not split, get loose, absorb water or rot. They are strongly fire-resistant and are classified as non-combustible by the fire insurance companies, and allowed to be used in cities where the most rigid fire-prevention By-laws are in force.

Brantford Asphalt Slates are very moderate in cost. The regular size of the slates and their pliability make them easily and quickly laid, thus saving time and cost of labor. Being made of high grade felt saturated and coated with asphalt, and with a surface of crushed slate, they make a roof that defies the elements and is a permanent part of the building, just like the walls and the foundation.

Brantford Asphalt Slates

are being used more extensively every year for city, country and summer homes, churches, golf clubs, stores, garages, and wherever an artistic effect is desired on a pitch roof.

If you are going to do any building this year or have an old roof that needs replacing, it will be to your advantage to investigate Brantford Asphalt Slates.

The New Edison

"The Phonograph with a Soul"

Through very fortunate arrangements, we are bringing to Sherbrooke the greatest invention of the world's greatest inventor, THE NEW EDISON PHONOGRAPH, which the New York Sun has called "The Phonograph with a Soul."

The New Edison brings with it musical enjoyments and musical opportunities so unlike that of any other instrument that the homes of Sherbrooke will be grateful indeed for its presence. For only the New Edison provides music as it ought to be. Other instruments may imitate music but only the New Edison "Re-Creates" it. This has been proven time and time again by some of the greatest musical artists of the day, singing or playing in direct comparison with their own art re-created on the New Edison Phonograph. More than 2,000,000 music critics and music lovers have heard this test and no one has been able to distinguish a shade of difference between the actual voice of the artist and the New Edison's Re-Creation of it.

Very many things you will be delighted to discover about this marvellous invention; the permanent diamond point which does away with changing needles; the marvellous construction of the tone reproducing devices; the beautiful cabinets in true period styles; the durable Re-Creation Discs made so as to reduce to the minimum the possibilities of breakage and possessing so many more threads of music to the inch that a single disc provides up to twice as much music as the average talking machine record.

An Edison Recital will be held on Monday evening at the Art Hall, to which you are cordially invited.

The New Wilson Piano, Style "D"

This is to introduce to the musical people of Sherbrooke and Eastern Townships the New Wilson Piano, style "D". The Wilson Piano has been before the public for about 20 years, and needs hardly any comment from us. They are giving splendid satisfaction in hundreds of homes and in many of the largest Colleges, Convents, Concert Halls throughout Canada, including King's Hall, Compton, (6 Wilson Pianos); Stanstead College, Notre Dame Convent, Sherbrooke; Bishop's College, Lennoxville; Lennoxville Academy, Convents of Coaticook, St. Hyacinthe, Valcourt, Magog, Weedon, Asbestos, Windsor Mills, etc., High School, Beebe, Sherbrooke Protestant Schools and many others.

The New Wilson Piano, style "D", is an instrument of exceptional merit, and will easily rank with the best high grade Piano made in Canada or the United States. It is medium size, 4 feet 7 inches high; the case is Mahogany, beautifully polished. The New Piano has full iron plate, Wilson Special Action, with latest type of brass Flange, extra quality Hammers, fine Ivory Keys, and solid Ebony Sharps. Full length Swing Music Desk, "Practice Muffler" for children, operated by 3rd pedal.

We hope that every Pianist in Sherbrooke and throughout the Townships may have an opportunity to see and try this new Piano. We believe it will compare favorably with any of the Highest Grade Pianos, even those of the highest price. There are only fifty Pianos in the first lot, and we know they will be bought quickly when seen and heard.

The New Wilson Player-Piano with the same Scale and size of case will be ready shortly, and due notice will be given when the first shipment arrives. This new Player has the latest type of Aluminum Action, with several special features formerly to be had only in the very high priced American instruments. We can safely predict a large demand for the New Wilson Player.

The prices are moderate, considering the splendid quality and real value of the two instruments, and our One Price System will be strictly adhered to. Established prices are printed on the price card.

Our terms of payment are known to be reasonable. A small amount paid down brings the Piano or Player to your home, and the balance can be arranged by monthly or quarterly payments.

If you have an old Piano or Organ to exchange we will allow every dollar it is worth. We invite you to see these Pianos, or write us for Phonograph and Piano prices.

Shorthand and Business College

SHERBROOKE, QUE.

This School is carried on for the purpose of preparing you to become a competent shorthand writer, typist, bookkeeper and a capable all round office assistant, and we take special interest in placing you in a desirable and paying position.

The following subjects are taken up in our Stenographic Course:

SHORTHAND, TYPEWRITING, SPELLING, LETTER WRITING, BILLING AND COMMERCIAL TERMS.

The following subjects are taken up in Commercial Courses:

BOOKKEEPING, ACCOUNTANCY, ARITHMETIC, STATEMENTS AND COMMERCIAL PAPER.

The BOYD SYLLABIC SHORTHAND was discovered in Canada, and at a time when a shorter and more easily learned system was needed. Its three principal characteristics are: IT IS EASY LEARNED; IT IS EASILY WRITTEN; IT IS EASILY READ!

We teach and recommend only the Touch System of Type-writing.

Our Commercial instruction covers all the principles of double-entry bookkeeping and accountancy. We use the Burroughs Adding Machine to verify Trial Balances and the addition of long columns of figures. We do bookkeeping just as it is done in modern business offices.

TO GIVE ORGAN RECITAL

The organ numbers to be given by Mr. Whitehead at St. Peter's Church after tomorrow evening's service are "Menuet Gothique," (Boellmann) "Melodie Pastorale," (Demarest), "Idyll," by Allan Gray. The last number is of special interest, being a rhapsody inspired by Kipling's recessional hymn. The theme is based upon the following well known words of the poem:

"God of our fathers, known of old,
Lord of our far flung battle line,
"The Captains and the Kings depart."
"The tumult and the shouting dies:
Still stands thine ancient sacrifice,
A humble and a contrite heart,
Lord God of Hosts, be with us yet,
Lest we forget, lest we forget."

BANFF.

Banff Springs Hotel, in the Canadian Pacific Rockies, is now the summer resort of a large number of discriminating visitors, both American and Canadian. Banff is beautifully situated on the Bow River, under the shadow of huge mountain peaks. It provides outdoor life in many forms, golf, tennis, motoring, pony riding on mountain trails, and climbing. It has wonderful warm, open air sulphur pools for bathing.

The big hotel has a roomy restfulness, and with an excellent ball room and orchestra, a splendid cuisine and service, has a distinctive tone all its own. Taking this hotel as a centre, excursions can be made in all directions into the beauty spots of the Canadian Pacific Rockies. A holiday such as this is a unique experience, tending in addition to health giving results, to enlarge your conception of Canada.

Any Canadian Pacific ticket agent will give particulars, rates, etc., and supply descriptive folder.

BRIDGING THE SUEZ CANAL.

(Christian Science Monitor.)

An announcement has appeared in the newspapers so insignificant that it has almost passed unheeded. The size of the item was altogether out of proportion to its importance. The single paragraph was to the effect that the swinging bridge over the Suez Canal at El Kantara, about thirty-five miles south of Port Said, had been completed. Yet that bridge affords direct railway communication between Cairo and the cities of Palestine; it conquers the desert which separated Egypt from Palestine, and which has for centuries barred the march of nations; it joins Asia to Africa; and it assures the world that the Holy Land will henceforth be under Christian guardianship. Xerxes bridging the Hellespont is nothing to the British bridging the Suez Canal! Surely the bells of all Christendom ought to have been rung when that insignificant announcement crept into the corners of the papers!

have returned home after having spent the past two weeks in Sutton; Mrs. James Cannon to Toronto and Buffalo; Miss J. Shufeldt the past week the guest of Miss Thelma Royce, Sutton; Mr. and Mrs. Hugh Miller and young daughter to their home after visiting Mr. Miller's brother, Mr. James Miller; Mr. and Mrs. James Miller to Montreal, where the latter will consult a specialist; the Misses O'Brien, Sherbrooke, with their mother, Mr. O'Brien; Mr. Arthur Geasson and family from an auto trip to Quebec and other points; Mrs. S. A. Martin and children to Foster for a few weeks.

Mr. J. A. Belanger has resigned his position as care taker at the post office. The vacancy is being filled temporarily by Mr. S. Girard.

MRS. ARMSTRONG GAVE INTERESTING ACCOUNT OF HALIFAX DISASTER

Sir John Sherbrooke Chapter
Thanked By Soldiers for Cigarettes and Tobacco.

Mrs. J. H. Armstrong, formerly of Sherbrooke, who has been living for the past two years in Halifax, was a guest yesterday at the regular meeting of the Sir John Sherbrooke Chapter, I.O.D.E., and received a cordial welcome. At the request of the regent, Mrs. M. R. MacLeod, who presided, Mrs. Armstrong gave an account of the terrible disaster at Halifax, through which she had passed—the story of an eye-witness, vastly more graphic and thrilling in all its details than the newspaper reports tell, and complete as they seemed at the time. There was no exaggeration in the reports; in fact, had not been told.

Mrs. Armstrong spoke first of the effect on that bright winter morning, when, after a first slight explosion, 40,000 tons of one of the highest explosives known exploded in the harbor, shook the whole city and wrecked the northern portion, while the other sections by no means escaped.

"The work of rescue," the speaker said, began at once, and was carried on night and day—at night by the light of torches, for the city was in total darkness. All means of communication with the outside world had been destroyed, except one cable to Ireland, and before long the condition of the city was made known, and help was rushing to the stricken town. Trains of supplies, food, clothing, doctors, nurses and social service workers arrived almost every hour. The generosity and sympathy of the whole of Canada and the United States knew no bounds. A hospital system was organized in every large building; the sick, wounded and blinded attended to by the best physicians and oculists in the country, and out of the chaos gradually came order and relief," said the speaker.

Mrs. Armstrong said the people whose homes were destroyed are housed temporarily, but comfortably. The devastated portion will become a model city, and those who lost their all will be restored to their homes and due compensation granted them.

The regent thanked Mrs. Armstrong on behalf of the chapter for her talk and able portrayal of one of the world's memorable events.

The standard was raised by Mrs. H. R. Fraser, national standard bearer, and the I.O.D.E. prayer repeated in unison. The minutes of the last meeting were read, and confirmed, and the report of the treasurer given, showing a small balance on hand. Two new members were balloted for and elected.

SOLDIERS APPRECIATE TOBACCO.

A letter was read by Mrs. Rugg, the treasurer, from the secretary of the overseas tobacco fund, thanking the chapter for the money raised in connection with that fund, and trusting that the efforts of the chapter would be continued.

A number of cards and letters were also read from societies at the front, acknowledging with warm gratitude the cigarettes and tobacco received by them, often at the most opportune moments.

The regent said that she hoped that that every effort would be continued to keep up the fund, and a number of suggestions were made to this end, one of which will, no doubt, be adopted.

A communication was read by the regent from the Canadian Red Cross Society, addressed to prisoners of war, stating that the number of prisoners and the cost of their maintenance had so largely increased that a new and more economical system must necessarily be put in practice, and accordingly all monies for this purpose would, in future, be transmitted through the local Red Cross Society.

The regent pointed out that the expense of sending parcels to the two prisoners adopted by the Sir John Sherbrooke Chapter would now be donated, but there must be no thought of giving up this work so dear to every member, and that strenuous efforts must be made to raise more funds. The matter was placed in the hands of the entertainment committee for their consideration.

The sum of \$75 was voted for the French hospital fund.

Mrs. Trampier, recently arrived in Sherbrooke and an accomplished pianist, rendered a delightful piano solo.

DEMOCRATS ARRIVE AT KIEV.

(Associated Press Despatch) AMSTERDAM, July 13.—Despatches from Kiev, received in Vienna, report that a continuous stream of constitutional democrats is arriving in the ancient Russian city to join their leader, Prof. Paul N. Milukoff. Prof. Milukoff is reported to have declared in a conversation with representatives of Great Russia that the published statement that he offered Germany a formal protectorate over Great Russia was based on a misunderstanding. The constitutional democratic leader admitted, however, that he belonged to a section of his party which was desirous of "orientating itself towards the Central Powers."

Refrigerators

That Save
Food
Ice
and
Money

The purchase of one of our Refrigerators is an act of war-time thrift and economy.

Our Refrigerators will prevent your food from becoming spoiled during the hot summer weather and save the health of your family which might otherwise be endangered from eating articles of food that had begun to decompose.

Our Refrigerators are guaranteed to give a maximum of cold air with a minimum use of ice, which means at least a 25% saving in your ice bills.

Our Refrigerators are sold to you at a selling price based on the 1917 cost of Refrigerators, which is the year our order was placed. Since we purchased them prices have advanced over 25% and this big increase is what we can save you. It represents an amount of saving that nobody can afford to lose.

Our Refrigerators are built on scientific principles that ensure a continuous circulation of cold air in the food chamber. They are strongly built and finished so that they will be an attractive piece of furniture in any home.

MARRIAGES

SMITH — TAYLOR.

A quiet wedding took place on Thursday evening, at the bride's residence on Queen street, when Mrs. Jessie M. Taylor, formerly of Scottstown, was married to Mr. Kenneth Smith, of Sherbrooke.

The bride, who was unattended, was most becomingly gowned in brown, with hat to match. The cere-

mony was performed by the Rev. Alfred Bright, of St. Andrew's Presbyterian Church. At the conclusion of the ceremony refreshments were served, and the bride party left at once for a short trip.

Among those present were: Dr. C. M. Smith, and Mrs. Smith, of Scottstown; Miss Jean Stewart, Misses Evelyn and Grace Todd, Miss Matilda Turner, of Cookshire, and Mr. Thos. Keeley.

COBB STAGED BRILLIANT FEAT IN HIS BATTING

Rushed to the Front in Amazing
Style and Now Heads American
League Huggers By Fair Margin.

CHICAGO, Ill., July 13.—Tyrus
Raymond Cobb, batting champion of
the American League, after getting
away to a late start, is blazing the
trail for the 1918 batting supremacy.
Averages, including games of Wed-
nesday, released today, give the De-
troit star a mark of .371, as against
355 for George Sisler, of St. Louis,
the elder a week ago. Sisler, how-
ever, still leads the Georgian in base
stealing with 30 against 25.

The remarkable batting streak
which sent Cobb rushing to the top
was started on June 17, and he pushed
ahead until he was neck and neck with
the leader a week ago. Sisler, how-
ever, still leads the Georgian in base
stealing with 30 against 25.

He passed Hooper, of Boston, for
the lead in scoring, having counted 54
times against 51 for Hooper. Ruth of
Boston, remains in the lead in home
runs, with eleven. Shean, also of Bos-
ton, holds the honors in sacrifice hit-
ting with a total of 22. New York is
showing the way in team batting with
267 and Boston in team fielding with
970. Leading batters for 35 or more
games:

Cobb, Detroit, .371; Sisler, St. Louis,
355; Baker, New York, .341; Burns,
Philadelphia, .336; Pipp, New York,
317; Milan, Washington, .314; Walk-
er, Philadelphia, .311; Hooper, Boston,
306; Ruth, Boston, .302; Murphy, Chi-
cago, .302.

National League Averages.

Heine Groh, the Cincinnati outfield-
er, pushed ahead to maintain his bat-
ting lead in the National League, av-
erages including games of Wednesday
giving him a mark of .352, two points
above his average of a week ago. J.
C. Smith, of Boston, drove Merkle, of
Chicago, out of second place, with .335.
Max Carey, Pittsburgh, the leading
base stealer, has a margin of ten
thefts over Burns, of the Giants, his
nearest competitor.

Chicago and Cincinnati are on even
terms in club batting with 267, while
New York has a one point advantage
over Chicago in fielding with 971.

Leading batters for 35 or more
games are: Groh, Cincinnati, .352; J.
C. Smith, Boston, .335; Merkle, Chi-
cago, .325; Daubert, Brooklyn, .320;
Hollocher, Chicago, .310; Paskert, Chi-
cago, .309; Mann, Chicago, .304;
Roush, Cincinnati, .302; Magee, Cin-
cinnati, .299.

SET NEW SWIMMING MARK.
CHICAGO, Ill., July 13.—Duke Ka-
hanamoku, of Hawaii, today made a
new record for sixty yards in the
Chicago Athletic Association tank
meet, covering the distance with the
crawl stroke in 25 1-5 seconds.

THE ONLOOKER COMMENTS

GERMAN PROPAGANDA IN AM- ERICA.

New York papers assert that infor-
mation in possession of Federal
authorities will show that Germany
provided a fund of \$30,000,000 with
which to get control of newspapers on
this continent. The publisher of the
New York Mail has been placed under
arrest, but it is not claimed that more
than a small portion of the huge sum
was required for operations relative
to the Mail. What other newspapers
of the United States have received
German financial backing? Did this
campaign of developing a pro-German
press extend across the international
boundary? These and other interesting
questions will be asked in connection
with this assertion. If the United
States Federal authorities are in a
position to prove the existence of such
a fund and show its distribution, reve-
lations of startling interest are likely
to follow.

Germany's war from the beginning
was against the whole world.

THE FISH CAMPAIGN.

The first week's setback in the local
fish campaign should not discourage
either dealers or public. The fish
supply is adequate for the Canadian
demand, and the Canada Food Board
is back of the movement to encourage
the consumption of fish.

There is no doubt whatever that a
sufficient supply can be secured to
meet all local requirements. If the
dealers will content themselves with
a reasonable profit, the price of this
class of food can be pulled down to a
figure which will result in a greatly
increased demand.

DR. BELAND'S RETURN.

Dr. Beland is on his way home and
very shortly will land in Canada after
his trying years abroad, the greater
part of that time as a war prisoner
in Germany. All Canada will welcome
Dr. Beland. His native county of
Beauce is preparing a fitting reception
for its distinguished representative.
If Dr. Beland's health is such as to
enable him to resume his parliamen-
tary duties, he will undoubtedly return
to Ottawa and the Federal Cabinet.

CHECKING UP THE AUTOISTS.

Efforts to enforce the motor law, so
long as they are made reasonably and
with a view to stopping reckless driv-
ing and speeding, are greatly to be
desired and will receive the commen-
dation of motorists as a whole and
the general public.

Persons who look upon every strip
of level road as a race-track, and
place the whole Government road
in this category, must be made to re-
vise their opinions. The Government
has not expended three hundred thou-
sand dollars to build a speedway upon
which to smash the speed records of
the various makes of automobiles and
the auto laws of the province at the
same time. Nor can the Government
permit the operation of cars by per-
sons who will insist upon too frequent
communication with John Barleycorn.
Careful autoists who represent the
great bulk of drivers, and who pay the
greater part of the revenue from auto
licenses, must be protected.

The authorities will find support in
any fairly applied measures to rid the
highways of the reckless and ir-
responsible driver.

WHAT IS DOING IN GRANBY CITY

Many Pay Last Tribute to the Late
Hiram L. Savage—Was One of
the Pioneers of County.

GRANBY, July 13.—(Special)—The
funeral of the late Hiram L. Savage
took place on Tuesday afternoon at
St. George's Church, Granby, and was
largely attended. In the absence of
the rector, Ven. Archdeacon Long-
hurst, the Rev. W. J. Lummis offici-
ated. The late Mr. Savage, who was 71
years of age, was the son of the late
Charles and May Savage, who were
among the first settlers of Shefford.
Some six years ago, when his health
failed, he sold his farm and removed
to Granby, where he continued to re-
side until his death. He passed away
on July 6 at his home on Dennison
avenue, after suffering a severe at-
tack of pneumonia, from which he never
rallied. He leaves to mourn his loss
a widow, four daughters, Mrs. J. Flem-
ming, Misses Alice and Helen Savage,
of Granby, and Miss Gladys Savage,
of St. Johnsbury, Vt.; three sisters,
Mrs. Lyman Savage, of South Rox-
ton; Mrs. L. J. Bell, of Montreal; Miss
Louisa Savage, of Shefford, and one
brother, Mr. John Savage, also of
Shefford. The bearers were Messrs. J.
Irving, W. Galbraith, Edward Payne
and W. J. Galbraith, the funeral man-
ager being Mr. A. W. Hale. The inter-
ment took place in the Methodist
Cemetery.

Work of Q.M.N.G.

The Queen Mary's Guild shipped a
box to headquarters last week con-
taining the following articles: 20 flannel
shirts, 16 pyjama suits, 10 open
back night shirts, 13 shrouds, 94 tow-
els, 95 pairs socks, 44 knitted trench
caps, 1 quilt, 1 knitted wool sweater,
36 pneumonia jackets, 65 many tailed
handkerchiefs, 190 handkerchiefs, 50
tate squares.

New Pipe Organ.

The new pipe organ for St. George's
Church, the gift of the late Mrs. W. H.
Robinson, is now being installed, and
it is expected the dedication will take
place early in August.

Local Soldier Wounded.

Word was received this week that
Gunner B. Blampin, of the 3rd Cana-
dian Siege Battery, was suffering
from a gunshot wound received on the
battlefield in France.

Ladies' Aid Society.

The monthly meeting of the Ladies'
Aid Society of the Congregational
Church will be held in the basement
next Tuesday afternoon at 3 o'clock.
Tea will be served from 5 to 6, and
everybody will be made welcome.

Passed Music Exams.

In the recent McGill College musi-
cal examinations Master Keith Gid-
dings passed successfully the elemen-
tary piano grade. He is a pupil of Mr.
W. Smithson.

Reduce Height of Boots.

Mr. Frank Fogarty returned on
Wednesday from a business trip to
Manchester and Malden in the inter-
ests of the Granby Rubber Factory.
At the Cox Rubber Factory in Malden
he learned that the height of the heel
and the height of the shoes in future
are to be limited in the interests of
economy.

AUTO-INTOXICATION OR SELF-POISONING

"FRUIT-A-TIVES" Absolutely Pre-
vents This Dangerous Condition.

The chief cause of poor health is
our neglect of the bowels. Waste
matter, instead of passing from the
lower intestine regularly every day,
is allowed to remain there, generating
poisons which are absorbed by the
blood.

In other words, a person who is
habitually constipated, is poisoning
himself. We know now that *Auto-
intoxication*, due to non-action of the
bowels, is directly responsible for
serious Kidney and Bladder Troubles;
that it upsets the Stomach, causes
Indigestion, Loss of Appetite and
Sleeplessness; that chronic Rheuma-
tism, Gout, Pain In The Back, are
relieved as soon as the bowels become
regular; and that Pimples, Rashes,
Eczema and other Skin Affections
disappear when "Fruit-a-tives" are
taken to correct Constipation.

"Fruit-a-tives" will protect you
against Auto-intoxication because
this wonderful fruit medicine acts
directly on all the eliminating organs.

Weenty knew all about how even the littlest tot could do her bit, and her corner of the Thrift Garden was always kept quite free from weeds so that the vegetables would have a chance to grow. She had worked so very industriously all day, that it was little wonder that when she went to Dreamland that night, a-sailing in her trusty crib, she should find herself sitting right in her very own garden with the oddest sort of people standing around her. They looked

Weenty sat down where the tomato pointed and the vegetables gathered around her.

like vegetables but they had faces and arms and legs and, yes, they were talking too.

"I'm the most patriotic," a big fat Tomato was saying. "See, I am red and that is one of the colors of our flag."

"Goodness," cried a long String Bean, "as if that counted. It's whether you grow or not—when I get to growing, I don't just stay near the ground. I get longer and longer and climb up a pole and have room for ever so many more beans on my stalk than if I stayed short."

"Hal hal!" laughed a potato. "That's all very well, but I go underground, where I'm in nobody's way at all and so I don't take up so much space on top."

"Well," put in the Onion, "look at me, my family came from India and Egypt, and I have cousins in Spain too, it isn't quantity, it's quality that counts. Just a wee bit of me goes a long, long way."

Weenty laughed and they all turned around to see her.

"Well, well," cried the Tomato, "here's a human, she can tell us which is the best. Here, let's let her sit in the middle of us and ask her."

FOOD BOARD FLASHES FOR FEMININE FOLK

It is an old, old saying that union is strength. War serves but to emphasize the truth of it.

Organized women can do more than unorganized women. This is why it pays to cultivate the community spirit, to pool equipment and ideas and energies.

A dozen women working as one can accomplish infinitely more than twelve women going their several ways. It is estimated that only 12 per cent. of Canada's women belong to organized bodies. This is a small percentage.

It does not matter whether it is Red Cross work or canning, or knitting, or gardening or reforming—do it en masse! In the community way! Belonging to an organization is an incentive to work. Instead of criticizing freely wouldn't it be a good idea to belong to some organization and help to "make things go." They are all doing what they consider best for the national cause.

Solution To Red Cross Puzzle

WAR GARDEN BULLETIN.

PRACTICAL DAILY GUIDE FOR VACANT LOT AND BACKYARD GARDENERS ENLISTED IN GREATER PRODUCTION CAMPAIGN.

Issued by the Canada Food Board in Collaboration with Experts on the Staff of the Dominion Experimental Farm.

BOOKLET THAT WILL HELP.

"Canada's war gardeners and all classes of our people who have engaged in food production this year have done splendid service. The response to the call for more food has been magnificent, and there is every prospect of a bountiful harvest."

Such is the statement made by Mr. Henry B. Thomson, Chairman of the Canada Food Board, in a prefatory note to the new booklet dealing with the canning, drying and storing of fruit and vegetables, which has been issued by the Board for the benefit of war gardeners.

He goes on to say: "By eating fruit and vegetables freely while they are in season, and by canning, drying and storing our surplus for winter use, we can release more wheat and other foods for shipment overseas. At the same time we can reduce our own cost of living. Fruit and vegetables are conducive to health, and greater and more regular use of them throughout the year would have positively beneficial effects."

Those who want to make the best use of the produce of the war gardens should write either to the Food Board direct or to its provincial committees, asking for a copy of the fruit and vegetable booklet. A sister publication, which will be equally valuable, contains vegetable recipes. Five cents must be enclosed for each copy.

FREEDOM OF THE SEAS.

Can Only Be Secured by Understanding, Says German.

In rejecting unceremoniously the pan-German idea of freedom of the seas, Capt. Persius, the German naval expert, in an analysis of the question in the Berliner Tageblatt of March 2, reaches this conclusion: "We can, in other words, gain freedom of the seas of advantage to us only by means of a peace by understanding. Every peace by force would seal the unfreedom of the seas for us also in times of peace."

From the captain's article it appears that there are two views of how Germany must secure freedom of the seas "for the future." The policy of force is that Great Britain must be defeated as a necessary preliminary, while the adherents of international treaties hope to gain the same end by applying to the seas rules of land warfare.

"Acquisition of the Azores," a pamphlet by Dr. Victor Hensel, of Kiel, is referred to by Capt. Persius. Dr. Hensel believed that German use of the Azores would prove a strong card in the German campaign. The following passage from his pamphlet is quoted by Persius:

"A German fleet, however strong, will not be able to prevent a breach of international treaties, for the enemy will always possess enough U-boats to disturb our commerce. If we could use the Azores as a base of support for our U-boats, there would follow, in case of the destruction of treaties, a mutual destruction of merchantmen, which necessarily would have to be avoided by both sides as sheer nonsense. That would lead then to the desired freedom of the seas."

Capt. Persius then says: "Even if the British sea power, which to-day dictates the conditions under which the seas are to be used, could be broken, hardly anything would be gained thereby. For, if the British fleet would have to cede its position to some other power, the latter would undoubtedly pursue, not a policy of sentiment, but one of materialism—to do what best serves its own interests. There will never be an undisturbed use of the seas in times of war."

"It should be clear to us that even if our army and fleet should achieve the greatest victories we could not force the other nations to trade with us and could not force them to exchange raw materials for our industrial products. If other nations are not willing to resume friendly commercial competition, then our merchant fleet would be of no advantage to us."

"Our enemies in the west hold in their hands a large part of our possibilities of existence. Having this in mind, Dr. Michaelis, the Chancellor, said in the Reichstag on July 17, 1917, 'We must safeguard the conditions of existence of the German people on the continent and abroad by understandings and compensation.'"

Sunshine Furnace Efficiency

The test of furnace efficiency is the volume of heat it conserves for actual use, from the heat generated in burning your fuel.

There is a fixed volume of heat in every kind of fuel, whether it is wood, soft coal or anthracite.

The business of your furnace is to extract all the heat, which all furnaces do—and to conserve the maximum of it for use—which the Sunshine furnace does.

The Sunshine semi-steel firepot is built with straight walls—not sloping to form and hold a non-combusting deposit of ashes. A very important point in furnace efficiency.

The grates of the Sunshine furnace are equal in area to the firepot, so that fresh oxygen—without which proper combustion is impossible—flows to every part of the fire all the time.

All air passages are exactly proportioned so that neither too much nor too little air passes over the radiator—there can be no superheated air, nor any under heated air, sent to the rooms above.

The doors, drafts and dampers are machined to fit snugly and to exclude heat-wasting air currents from the outside.

Engineering Service Free.

McClary's own heating engineers are at your service when you buy a Sunshine Furnace, to give you free expert advice on your home-heating requirements. Prepared only by Thomas Beecham, St. Helens, Lancashire, England. Sold everywhere in Canada and U.S.A. in boxes, 25 cents.

The plea advanced by the Indian was that under Treaty of Paris they were exempt.

In court, J. W. Bowby, K.C., acting for Martin, also made the defence that the Indian was not a person in law, and did not come under the meaning of the word "person" in the Registration Act.

Having referred to the exemption of Indians provided in the Treaty of Paris, he was asked to produce copies of it, but was unable to do so.

No appeal was entered though it is possible that this will follow as the Indian Council of Chiefs has expressed the intention of carrying the case to the Privy Council.

1918 AUTOMOBILE MODELS 1918

The AUTO SCRIBE'S
SCRIBBLINGS

RECKLESS AUTOMOBILE DRIVING.

WANTED—A careful, sensible, capable and reliable driver for an automobile.

Apparently such an advertisement could well be inserted in the classified columns by quite a few automobile owners of the present day whose cars are to be seen either tearing along the streets or being recklessly handled. Several bad collisions were recorded in this district lately week, and Judge Mulvena was called upon to punish a number of drivers who were brought up before him in the District Magistrate's Court on charges laid by the collectors of provincial revenue or Chief Couture.

Drivers found guilty of reckless driving should be dealt with severely, for they are not only a great nuisance. There are traffic laws but appearance, but a great danger to the com-

been let off, and it would not be out of order for Chief Couture and his men to start an active campaign to put a stop to this dangerous practice. There are traffic laws, but apparently they are being broken today faster than they were made. A great majority of the motorists not only fail to observe the speed limit law, but a great many appear to take a delight in making the pedestrian hurry over the street crossings in order to save himself being taken to an hospital or having his remains conveyed to the morgue in a nice black wagon, and a great number of drivers do not even hesitate in passing a street car when it is stopped to allow passengers to board or descend.

Automobile drivers should realize that a pedestrian has as much right of way as the automobile at the crossings, but many of the drivers, especially the younger set, do not

appear to think that this should be so. The old rule "Safety First," should be put in force by the automobile drivers as well as the pedestrians.

GARAGE MEN ONLY SMILE.

Of course when it comes to a matter of reckless driving, the garage men only sit back and smile. They well know that while a driver may escape time and again, he is scheduled to meet disaster sooner or later. In fact, reckless driving provides work and a good return for the garage owners, and this past week they have been kept very busy hauling home wrecked cars and repairing them. That is, if they are fit to be repaired.

Thus the garage men realize the fact that they no longer have to work seven days a week to earn a living, and from now on will be found at their stands only on week days, and not on Sundays. "You see, these reckless fellows give us so much work, that we are unable to stand the seven working days a week schedule," said one of the garage owners as he looked over the checks he had received during the week for repair work. "Oh, it's a grand life, if they don't weaken," he commented with a smile.

THE CUSTOM TAX ON SUNDAYS
The Montreal Automobile Association have been in communication with the Minister of Customs with a view to getting the Sunday charge of 25c. for motorists passing through the Customs at the border discontinued. The following reply has been received from the Department of Customs at Ottawa:

In reply I am to state that Sunday is not a regular Custom business day.

It is the standing rule that if Customs Officers serve on that day, the charge of their services shall be repaid to the Department by the applicants for the service. This rule applies to railways, steamships, Express Companies and other applicants for Sunday Customs service.

In the circumstances, the application to discontinue the charge for Customs service to autoists on Sunday, is not entertained.

CAMEL LOSING HIS JOB TOO?

With the horse already losing his job to the automobile, now it's the camel's turn to be displaced by the motor car as a common carrier. At least such is the purport of a letter forwarded by Mons. Paul Mayeur, Maxwell dealer at Algiers, Africa.

The letter, inscribed in quaint Arabic characters, is from Baba Ben Amada, grandson of the Caid Kasi, mogul of an Algerian province called Guerrara on the edge of the Sahara desert and under French rule. As translated, it reads:

"Praise only be to God and let him bestow his mercies on our prophet Mahomed."

Guerrara, Jan. 18, 1918.

"To our friend the most dear of men to us:

"Mr. Paul Mayeur, Rue Borely-la-Sapie, Algiers.

"Let greeting be on you.

"I understand that you have a Maxwell car for disposal and I ask you to be good enough to reserve it for me, because I desire to purchase a car of this make as it is very well known amongst us in the Sahara, and stands the conditions of this country. I will take delivery of this car on Wednesday next.

Yours faithfully,
BABA BEN AMADA."

Consolidated Financial Statement of the
National Council, Y.M.C.A. of Canada
(CANADA - ENGLAND - FRANCE)

The National Council of the Y.M.C.A. herewith presents a complete statement of its finances for the year 1917, covering its entire service Overseas and in Canada.

The Executive Committee of the Council arranged last November to have a complete statement for the year 1917 ready for publication before the recent Red Triangle Fund Campaign, but owing to conditions arising out of Military operations in France, this has been unavoidably delayed. It is presented now at the earliest date that existing conditions have permitted.

The portion of the following statement which concerns England and France has already been submitted to the Overseas Military authorities. Audited statements of the funds handled have been submitted to the Militia Department at Ottawa and for the past two years regular accounting has been made as well to the authorities in England and in France. In addition to the regular audit in France, the canteen business is checked every month by the Military Field cashiers, to determine the amount which is paid to Military units as indicated in the Expenditures. Printed copies of the audited statements are posted up in the huts for the information of the soldiers.

The General Operation Account shows on the one hand the entire receipts of the National Council; first, from the gross sales of its Military canteens in Canada, England and France, and second, from subscriptions received during the year. On the other hand, there is shown the entire expenditures for the year, including, first, the cost of the goods sold in the canteens and, second, the expenditures connected with the entire service which is carried on under the direction of the National Council.

The Balance represents the excess of receipts over expenditures. Of this sum of \$118,351.43 was the balance at the National Headquarters at Toronto, and the remainder was Overseas. This balance at the end of the calendar year represents the amount available to carry on operations until the time of the campaign in 1918. While the financial statement is drawn up on the basis of the calendar year the receipts from the campaign of one year have to serve until the campaign of the next year. The above balance at the National Headquarters was by April 30th, just before the new campaign, not only used up but changed to a deficit of \$237,930.13. This deficit was, however, offset by the balance overseas, which has to be maintained there as a working balance to carry on operations.

The item of \$240,524.85 is a special amount which had to be expended for the purchase of canteen and other supplies in Canada for shipment to France. Beginning with June, 1917, on account of the scarcity of supplies in Great Britain, much of the purchasing formerly done there had to be transferred to Canada. The long period of time required for the shipment of these supplies to France involves the continuous employment of a large sum. The amount expended for this purpose, as at December 31st, has had to be treated as an expenditure and placed in a Reserve Account against the merchandise in hand. It is, however, a possible asset and will, when realized upon, be devoted to other forms of service to the soldiers, when it is no longer required to maintain the canteen service in France.

It was possible to provide for this expenditure only because the amount asked by the National Council in 1917 was oversubscribed by more than the amount required just at the time the Canadian Purchasing had to be undertaken. But for this it would have been necessary either to borrow this large amount or greatly curtail the service in France.

It is to be remembered that the goods at the front in France, where the greater part of the stock is carried, are subject to enormous

risks. The English Y.M.C.A. in the German offensive of March and April suffered losses in huts and canteen supplies of nearly One Million Dollars. In the more recent offensive the American Y.M.C.A. has suffered losses nearly as large, and the National Executive have deemed it a matter of prudence to be prepared to meet a similar loss if it should fall on the Canadian Y.M.C.A.

The National Council has from the first declared the policy of devoting to the service of the soldiers whatever balance remains in the Military Fund at the close of the war. This policy has been made known to and accepted by the Overseas Military authorities. The need for the Y.M.C.A. service will continue all through the period of demobilization and the plan of the National Council is to use whatever balance then exists to keep up the efficiency of the service to the soldiers during that important period.

The National Council of the Y.M.C.A., under which the Military Work is conducted, is a representative body of the various Y.M.C.A.'s throughout Canada, but it has no authority over or financial responsibility for any local branch. The funds which it handles have no connection with those of any local branch of the regular Y.M.C.A. It wishes to make clear, therefore, that the funds which are acquired in or subscribed for the Y.M.C.A. Military Work have not been and will not be used in connection with the regular work of any of these branches, but will, according to the policy already announced, be kept in the Military Work and devoted exclusively to the service of soldiers.

The service represented in the expenditures of the accompanying statement covered at the opening of the present year, 96 centres of operation in France and 76 in England, including all regular camps and units, base camps, convalescent camps, hospitals, railway troops, cavalry, London and Paris, and forestry units from the north of Scotland to the South of France.

There were on the Overseas staff 133 Secretaries carrying honorary commissions, 50 of whom were at the expense of the Y.M.C.A. for pay and allowances and the remainder at the expense of the Government. There are also a considerable number of other ranks, non-commissioned officers and men, detailed to the Y.M.C.A. staff by the Military authorities. A number of these, who are given non-commissioned rank because of special responsibility, are at the expense of the Y.M.C.A. for the extra pay over that of their regular rank. Civilian help is also employed where required and where circumstances permit.

In Canada the soldiers are served in 38 centres, including camps, barracks, Red Triangle Clubs, hospitals, naval stations and on troop trains. This has required approximately 100 Secretaries, who work on a civilian basis and are entirely at Y.M.C.A. expense. There is also required a considerable staff of employed helpers, exclusive of the committees of ladies who render their service free.

The scope and variety of the entire service, in so far as expenditures can reveal them, are indicated in the following statement.

Signed on behalf of the National Council of the Y.M.C.A.

G. H. WOOD, Chairman.

F. L. RATCLIFF, Chairman of Finance Committee.

CHAS. W. BISHOP, General Secretary.

AUDITOR'S CERTIFICATE

We have audited the books, vouchers and accounts of the National Council Headquarters at Toronto, and of the Central Territorial Division, for the year-ended 31st December, 1917, and have been furnished with the audited statements of the Maritime and Western Divisions of the National Council for the same period. We have also been furnished with the Annual Statement for England for 1917, duly audited, and the Annual Statement for France for 1917 with the auditor's Certified Statement for the six months to June 30th. Owing, we understand, to Military restriction on civilian travel between England and France, it was impossible for the auditor to go to France and complete the audit to 31st December, 1917. We have agreed the Canadian and Overseas statements with the above General Statement, which combines them, and, according to the books and statements furnished, the above statement in our opinion, correctly sets forth the operations of the National Council at home and overseas.

PRICES AND DETAILS OF SHERBROOKE MARKET

It might possibly have been the increased demand created for fish, but at any rate for some reason or other there was quite a sharp break noticed this week in the prices quoted on several items in the provision department of the Lansdowne Market. Probably the outstanding feature was the drop noticed in the general ruling prices of beef and pork, both dropping from two to three cents a pound as compared with the quotations of a week ago. While green beef hides advanced two cents to 18c, roast beef which last week was quoted at from 25c to 35c a pound, was today selling at from 25c to 35c, while beef carcasses quoted a week ago at from 18c to 22c, sold for from 15c to 20c per pound.

Pork last week was being sold at from 30c to 35c a pound, but today was quoted to 28c to 33c a pound, while pork carcasses dropped two cents per pound. Boiling meat was also lower this week, being quoted at 12½c to 20c a pound, as compared with 15c to 22c last week. Calf skins showed an advance of five cents, while shirlings jumped in price twenty-five cents.

There was little change in the general ruling prices of fruits and vegetables. Lemons were a little easier, and tomatoes were down to 20c a pound. The outstanding feature of the vegetable market was the high ruling price of new potatoes of 75c a peck. There were no old potatoes to be had.

The prices of dairy produce held very firm, notwithstanding the fact that the Ideal Meat Market cut their quotations down to 46c for the best creamery butter and 42c for dairy butter. Eggs remained at the old high price of from 45c to 50c a dozen, notwithstanding the fact that there appeared to be quite a large quantity on hand. The general ruling prices today were as follows:

THE PROVISION MARKET
Beef hides, green 18c
Beef, roast, per lb. 22c to 35c

Rhubarb, per bunch 5c
Sugar, per bunch 5c
Turnips, per peck 30c to 45c

DAIRY PRODUCE

The quality of creamery butter up to the present has been all that could be desired, due largely to the cool weather, and also to improved methods. Sales in the open market were reported of finest creamery at 43½c, 43½c, and 44c, about 150 packages changing hands at these figures. Prices of butter in the Northwest have kept very high up till last week, but they are now being quoted in Calgary at 45½c, 45c, as to quality and quantity. In Regina it was quoted at 50c, for finest and in Vancouver at 51c, to 52c, for finest creamery. In Toronto, sales of finest creamery were reported in a wholesale way at 44c, 45c, and in the interior at 45c, to 45½c. At St. John, N.B., butter is quoted at 42c, to 44c. The Dairy Produce Commission is evidently not very anxious for butter or their buyers would have secured a portion of the finest goods at the last auction sale as he could have picked up one or two lots which were sold at below his limits.

NO CHANGE IN CHEESE PRICES.

There has been no radical change in the cheese market since our last report, as the ruling price at country boards has been 22½c, but as one of our largest exporters remarked "the ruling price should be 22c, in order to give adequate returns to the farmer, or his cheese at the factory the farmer realizes a handsome profit, and should be satisfied." The prices of the Dairy Produce Commission are: No. 1, 23c, No. 2, 22½c, and No. 3, 22c.

COUNTRY PRODUCE

Eggs—With the export of Canadian eggs still in abeyance and likely to be for some time owing to lack of ocean space along with liberal receipts, it is thought to be about time to call a halt in the upward trend of country prices, which today are quoted at 41c, to 43c, at different Ontario points. If freight were available some good profits could be realized in exporting eggs to England where with liberal and fall shipments. It is reported that a bid of 43c, f.o.b., was turned down for a lot of 150 cases at a shipping point in Ontario. At this time last year new laid were quoted in this market at 35c, to 40c, selects at 37c, and No. 1 candled at 44c.

Beans—The bean market remains quiet. Hand picked beans are quoted at \$8.50 to \$8.75 in car lots, and \$7.75 in smaller lots. Quebec beans are quoted at \$7.50 to \$8.00 per bushel. Japan beans are quoted at \$8 to \$8.25.

Potatoes—There are no old potatoes on the market worth mentioning. New potatoes are quoted at \$6.25 to \$6.75 per barrel for No. 1 Red Star, and \$5 to \$5.25 for No. 2 per barrel on track.

Syrup is quoted at \$1.00 to \$2 per gallon in wood, and at \$1.55 in 5 gallon tins.

Honey—The market is quiet. No new honey has arrived yet. Last sales of white clover in comb were reported to us at 21c, to 21½c, and in 30-lb. pails at 19c, to 19½c.

HAY MARKET

MARKET KEEPS STRONG.
The market for good No. 2 is quoted at \$15 to \$15.50, but ordinary No. 2 is quoted at \$14. No. 3 is quoted at \$13 to \$13.25, and lower grades from \$6 to \$10.

GRAIN MARKET

Feed Wheat—The market remains quiet at \$1.00 to \$1.05.

Corn—The market is firm, but there is such a wide range of qualities that it is difficult to quote exact values, as no two dealers quote alike. For instance, we have quoted to us by reliable merchants No. 3 yellow, \$1.00 to \$1.04, No. 4 yellow, \$1.00 to \$1.04, and sample corn ranges

and Guns Captured in Piave
Fighting are Fully Substantiated**

(Associated Press Despatch)
PARIS, July 13 — Italian military authorities, in answer to a new Austrian denial from Budapest relative to the Italian claims of prisoners and guns captured in the Piave fighting, assert their figures are fully substantiated, by the fact that they have submitted a full list of names to the Red Cross at Geneva under the rules of war, according to a Havas despatch from Rome.

The report adds that the number of guns captured was greater, instead of less, than was claimed on July 6, having been augmented by twenty two guns taken in the Piave Delta, the loss of which has been ignored by the Austrians.

(Associated Press Despatch)
LONDON, July 13—Charges made by Naval Paymaster Collingwood derelict German submarine left four British seamen on board the U-boat when he knew that it was about to be destroyed by a patrol boat, were unauthorized, according to a statement issued by the British Admiralty last night. The statement reads:

"There is no information in the possession of the Admiralty in confirmation of the statement made by Mr. Hughes, which were made entirely without authority."

**GUILMETTE WAS
SENTENCED TO
FIVE YEARS**

**Judge Mulvena Passed Sentence
After Receiving Report from the
Physician of the Local Jail.**

Samuel Guilmette will return to spend another five years in the St. Vincent de Paul Penitentiary as a result of the judgment handed down by Judge Mulvena in the District Magistrate's Court yesterday. Guilmette, who was just recently liberated after serving a seven year sentence, was charged with setting his own residence at Stratford on fire. When brought up for a preliminary hearing, the accused elected a speedy trial and pleaded guilty to the charge. The evidence submitted established to the satisfaction of the Court that Guilmette was guilty of arson, but before passing sentence Judge Mulvena remanded the accused to jail in order that he might undergo an examination as to his sanity.

The jail physician's report stated that the accused was a degenerate and was subject to intermittent fits of mania. In passing sentence the Court remarked that the first object of the criminal law was to safeguard the public, pointing out that Guilmette had a very bad record, and that if he was sent to an asylum he might shortly be released as sane or make an escape. Consequently, the Court deemed it advisable to sentence Guilmette to five years in the penitentiary with the request that the warden have him thoroughly examined and see that his case was properly handled.

**Woman Was Arrested at Levis and
Brought Back to Richmond to
Face Charge This Morning.**

(Special to The Record.)
RICHMOND, Que., July 13.—Apparently only the quick action on the part of the police authorities saved Joseph Boucher from losing sight altogether of his nice little roll of bills which he had saved, and also, no doubt, broke up a most enjoyable pleasure trip which had been planned by Mrs. Sam Bull. Anyway, it is alleged that Mrs. Bull, with whom he was boarding, went to Boucher's room during his absence and extracted the sum of \$630 in United States bills which Boucher had put away in his tobacco pouch for safe keeping. With the nice little roll tucked safely in her purse she started out on a tour, but she only got as far as Levis when the police authorities brought her journey to an abrupt climax.

When informed that a charge of stealing \$630 had been laid against her, the woman consented to return to Richmond, and this morning, before Judge Mulvena, elected a speedy trial, pleading guilty. She will come up for trial at the Sherbrooke Magistrate's Court on Monday. When arrested and searched the woman was found to have \$616, most of it American money, in her possession.

AMSTERDAM, July 13.—Karl Neufeld, known as "the prisoner of the Mahdi," has died in a sanitarium near Berlin, according to advices reaching here.

Karl Neufeld was rescued from a Mahdist jail at Omdurman in September, 1898, where he had been prisoner for ten years, and subjected to horrible torture. His rescuers were British troops commanded by Lord Kitchener.

**FIELD MARSHAL
VON HINDENBURG**

(Continued from page One)
shall's duties as chief of the general staff.

Keeping step with the reports of the Field Marshal's health have been despatches from Germany indicating that the Field Marshal and the Emperor had had disagreements concerning the German offensive movement in the West.

Late in May, Field Marshal von Hindenburg was reported ill with typhoid fever at Strassburg. The Field Marshal on June 18 was reported by the Tribune of Geneva to be suffering from an acute nervous disease. The newspaper declared it had learned from a reliable source that his mental capacity was much affected and that he was confined in a private sanitarium. It added that the Field Marshal had taken no responsible part in the offensive on the western front.

At the outbreak of the war, Field Marshal von Hindenburg was a general in retirement. He was credited with evolving and carrying out the campaign against the Russians in East Russia which resulted in the serious Russian defeat at Tannenberg, for which he was promoted to field marshal. He continued to command the German forces on the Russian front until August 30, 1916, when he was appointed chief of the general staff, in succession to General von Falkenhayn. When he became chief of the general staff, General Ludendorff, who had acted as his chief of staff on the Russian front, came with him as his right hand man, with the title of chief quartermaster-general.

Field Marshal Paul Beneckendorff and von Hindenburg was 70 years old last September 28.

The newspaper Les Nouvelles, which reports the death of the German leader, is a newspaper in the French language published at The Hague.

(Associated Press Despatch)
WASHINGTON, D.C., July 13.—A plan for action in Russia contemplating propaganda and trade extension work by Russians who have resided in this country was presented yesterday to Chairman Hitchcock, of the Senate Foreign Relations Committee, by a committee from the Russian Economic League, said to represent 500,000 Russians in the United States. The committee opposed military intervention in Russia at this time.

Senator Hitchcock promised to aid the Russian committee in arranging a conference with President Wilson for submission of their plans.

They proposed that many Russians in this country be sent through Russia for quiet, but persistent propaganda, and also by fostering Russian-American trade relations create sentiment for the United States and the Allies.

**SPECIAL NEWS
FROM TOWNSHIPS**

**SCOTSTOWN LOSES POPULAR
OLD CITIZEN.**

SCOTSTOWN, July 13.—(Special)—Sincere regret was expressed at the death of Mr. W. F. Bowman. Not having been sick long, the news came as a shock to everyone. The late Mr. Bowman was born in Scotland and came to Canada in 1872. He married Miss Mary MacMaster. He was foreman for the Glasgow-Canadian Land Trust Co. Afterwards he became manager of the same. He was one of the founders of Scotstown in 1872 and has resided here ever since. He was prominently identified with the commercial and moral welfare of the town, having been mayor for several years and councillor for a quarter of a century. Open-hearted and generous, his home was always open to the stranger, and he was ever ready to assist anyone who needed it. He lived a quiet and peaceful life here for over 45 years, and commanded the respect of all who knew him.

The funeral service was conducted by the Rev. Dr. MacLeod, pastor of the church. He was assisted by the Rev. Duncan MacLeod, of Gould, Rev. J. J. Roy of the Anglican Church of this place, and Rev. Malcolm MacLeod, of Milan, also assisted. The favorite hymns of the deceased were sung. The Rev. Duncan MacLeod gave comforting remarks from Acts 13:36. He also stated that he had been a friend of the family for years and considered it a great privilege to have been his friend, as by his Christian life he was a shining example to all. At the close of this address Rev. Dr. MacLeod in a few words spoke of his great interest in church work, and his never failing to attend divine services. Many attended the service, showing that the deceased was highly esteemed by both English and French in the district. The large floral tributes also showed his popularity.

The late Mr. Bowman will be greatly missed by all. He leaves to mourn Mrs. Bowman, two daughters, Mrs. R. A. Scott, Margaret Bowman; one son, W. W. Bowman. Among those from out of town were Mr. James Bowman, from New Jersey; Miss J. Bowman, from Saskatchewan; Mr. John Muir, from Manchester, N.H.; Mr. Wallace Brown, from Manchester, N.H.; Mrs. John Scott, of Montreal.

**GERMAN FUTURE

**Favorite Correspondent Tells of
Flights of Fancy Indulged in
By His Master After Surveying
Operations at the Front.**

AMSTERDAM, July 13.—How the German Emperor pictures the future of Germany as recorded by his favorite war correspondent, the faithful Karl Rosner of the Lokai Anzeiger.

One evening, after a busy day in surveying operations from a chain of observation posts, the emperor, chatting with his entourage, spoke with glowing enthusiasm, says Rosner, of the time when the forces now let loose on destruction would again be placed in the service of peaceful pursuits. He sketched far reaching advances in the technical domain, in physics, chemistry and scientific farming. The emperor forecasts that all of Germany's needs in nitrates would be covered by extracting nitrates from the air.

The emperor then described "the marvellous possibilities" of the new gas motors and how purified waste waters from metal works would serve to fertilize the fields so that deserts will blossom like roses and make arid regions self-supporting as regards food.

"With soaring flights of fancy," continues Rosner, "the emperor predicted the harnessing of the rays of the sun and the recovery of the ocean's innermost treasures."

This will all come to pass, the emperor assured his hearers, once Germany secures the "strong peace," for chatting with his entourage, spoke which she is working.

Brought Down in Enemy
Lines Last April.**

(Via Reuter's Ottawa Agency)
FRENCH ARMY HEADQUARTERS, July 13.—A letter has been received by a friend in France, from Captain James Norman Hall, the American airman, and author of "Kitchener's Mob," who since April, when he was brought down in the enemy's lines has been a prisoner in Germany. Captain Hall, writing from a hospital in Germany, says:

"During a combat I had the misfortune to break the wing of my aeroplane and then a shell from a small quick firer hit my motor. My ankle was badly broken in landing, so that I am now in hospital, where I am most likely to remain for some time."

**Rene Dion Was a Victim of Accident at the Rand Drill Plant at
Early Hour This Morning.**

Rene Dion, an operator employed at the Canadian Ingersoll-Rand Co.'s plant, suffered rather painful but not serious injuries this morning, when he was caught in the feeding belt of his machine. The unfortunate man, who resides at 55 Queen street, while at work in the plant in some way got his clothing caught in the belt and was thrown heavily to the floor.

However, on hearing his cries, quick action was taken by his fellow-workers, with the result that Dion was soon extricated from his dangerous position. A call was sent in for Lord's ambulance, and the injured man was removed to the Sherbrooke Hospital. On examination it was found that the man had sustained nothing more serious than severe bruises and several cuts, and it is expected that he will be able to return to his home tomorrow.

**How The Bayonet
Lost a Great Battle**

BAYONETS, first made at Bayonne, France, whence they get their name, to begin, were almost as dangerous to the army with them as to its foe.

Fashioned with a solid butt, to be jammed into the muzzle, it rendered a gun useless for firing.

The butt was soon changed to a socket, but not before the new fangled bayonet brought the English army to grief at Killiecrankie.

The English soldier found the bayonet a poor fit, hard to get into his gun; and when he got it in, hard to get out. When he had to bayonet, he couldn't bayonet; when he had to shoot, he couldn't shoot.

**GOODRICH
SERVICE
VALUE TIRES**

The bayonet experiment gave the Scots the battle. To safeguard tire users against the chance of experiment, Goodrich Test Car Fleets put the road test to Goodrich Tire, to make them in word and deed SERVICE VALUE TIRES.

Goodrich sees but one tire value, SERVICE VALUE.—That is, what a tire proves it is worth to the motorist on his car and on the road, in comfort, economy, dependability, and durability.

All Goodrich skill and sincerity build up SERVICE VALUE, whether you get SILVERTOWN CORD TIRES, or BLACK SAFETY TREADS, or get SERVICE VALUE TIRES.

Gain mileage, and the security of knowing your tires will not fail, by demanding SERVICE VALUE TIRES.
