Libby's "Gentle Press"
TOMATO JUICE

Recently 390 grocers made a consumer preference test in 390 grocery stores across

Canada. In 81 stores Libby's "Gentle Press" Tomato Juice and the next most popular brand were offered at the same price. In four out of five instances, the shopper selected Libby's.

The reason for this outstanding preference is easy to understand. Libby's Tomato Juice is processed by Libby's patented "Gentle Press" method which extracts only the purest, sweetest juice from fancy, field-ripened tomatoes—tomatoes which are thin-skinned and heavy with juice, the result of 37 years of seed selection by Libby experts. It takes more tomatoes to fill a tin the

"Gentle Press" Libby way, and you can taste the delectable difference.

Libby's has that smell-of-the-garden freshness because the juice is packed the same day the tomatoes are picked, and nothing is added except a little salt. If you've ever walked into a garden and enjoyed the sun-ripened goodness of the reddest, juiciest tomato on the vine, you know the unsurpassed flavour of Libby's "Gentle Press" Tomato Juice.

Your grocer has just received the 1949 pack of Libby's, fresh from the garden. Order your supply, and serve it regularly. Libby's is Canada's favourite health drink—economical, and as good as it is good for you.

*In 309 stores where distress merchandise—tomato juice reduced in price to clear—was displayed in competition with Libby's, 3 out of 5 shoppers preferred Libby's.

If you don't agree that Libby's "Gentle Press" Tomato Products—Juice, Catsup, Chili Sauce and Soup—are the best you've ever tasted.

CARLING'S CONSERVATION CORNER

The fisher is one of the few animals able to overcome the porcupine. Porcupines eat evergreen bark, often circling the trunk and killing the tree. One porcupine may destroy over an acre of trees, so fishers, by controlling porcupines, help to keep nature in balance.

The Horse Show At The Mitson Show Ring, Cherry River, Was Well Attended And Many Fine Mounts Were Shown

Cherry River, Sept. 22.—The annual Horse Show sponsored by the Magog Horse Shoe Stables and Alton Mitson took place on Sunday afternoon.

The show started promptly at one p. m. The crowds gathered early and came in cars, taxis and buses. The weather was perfect, sunny, but not too warm.

It was held on the Mitson show ring at the Mitson farm on the Mt. Orford Golf Club Road near Cherry River. The spot is surrounded by some of the most beautiful mountain scenery in the Eastern Townships. The fine layout of the grounds and show ring were improvements over other years, due to hard work and

planning by Alton Mitson and the co-operation of the Magog Horse Shoe Riding Club.

Many horse lovers were present and many of the riders had been taught by Alton Mitson, and many of the horses trained by him also.

There was a very warm and friendly atmosphere among the crowd and horsemen.

A 16-class horse show was presented. Entries were from Sherbrooke, Magog, North Hatley and Montreal. The very best of horses and riders were present. "Mike" Minogue, of Montreal, was the judge. Ringmaster was Ernie Gilbey, of Lennoxville. In charge of the hitching ring was Stewart

Hansford, and George Bonnette was the announcer.

Such horses as "White Cloud," "Peggy," "King," "Grand Lex," "Victory" and many others as great, took part in the 1 green jumper class.

The 3-gaited saddle pairs class was won by Alton Mitson and his sister, Mrs. T. Lizotte.

Many trophies were donated by friends and business houses in Magog.

A huge cake was made and donated for the lunch by a Magog baker. Many beautiful flowers were given to top lady rider, Mrs. T. Lizotte who during the show received the most points and she was also presented with a bouquet of roses.

The pony saddle class was next with several taking part. Then came the 3-gaited park saddle class followed by the open hunters' class.

The Hackney pony driven by Mrs. Mitson (mother of Alton Mitson) was one which attracted a lot of attention. Mrs. Mitson has driven for many years and deserves a lot of credit for her fine driving form.

There were open jumpers, open high steppers, pair jumps, hack class, 3-gaited saddle pairs, knock down and out, open 3-gaited saddle class and hackney pairs.

Special mention should be made of the pony show — the riders were some very young but expert riders. One little girl only six years old, a niece of Alton Mitson, had only practiced riding three days before the show but rode her pony well and received a prize. She will no doubt become as good as her famous mother and uncle. Many prizes were won by Alton Mitson, Alton Mitson and his sister, Mrs. T. Lizotte, Mr. Erich Marguardt, Erich Schiller and many others. All who attended this fine show were well paid and a very large crowd attended.

The provincial report showed that splendid work had been accomplished by the Farm Forum Groups in the four counties and work that had been of benefit to all farmers. He then mentioned five groups of Bromfield County, which showed a slackening of interest and work.

Forum Groups and individuals

The Doctor Says

A COMMON MENTAL DISEASE RESULTS IN SPLIT PERSONALITY

By Edwin P. Jordan, M.D.

A rather common mental disease goes under the tongue-twisting names of schizophrenia or dementia praecox. This disorder is responsible for a great deal of anti-social behavior; in many cases persons ill with this disease require institutional care. A "splitting" of the personality is the most characteristic feature. The afflicted individual may show thoroughly normal behavior in some respects and yet be completely abnormal in others.

The most prominent early symptom is likely to be a change in the outlook of the victim. Sometimes a patient will show an unfriendly or relatives may be unjustly suspected of persecutions. Quite often the first signs consist of disorderliness and lack of cleanliness. Judgment is often impaired. The patient frequently complains of hearing or seeing strange objects which are not there. Peculiar patients frequently complain of the personality is likely to become gradually altered.

Causes Difficult to Find
The cause of schizophrenia is not known. Heredity probably plays some part. It has been stated that more than half of those with schizophrenia have some family history of mental illness.

Of the modern treatment available, the various shock methods seem to be the most promising. Shock treatment may have to be repeated a good many times and, of course, must be given under the direction of thoroughly qualified specialists. It does not help in all cases, but it certainly offers hope for many who could not have been helped 30 years ago.

Q—Having had phlebitis in both legs when a child, would it have any effect on the heart?

A—Almost certainly not. If the recovery from the phlebitis was complete there should have been no permanent effect on the heart.
