## LAPRAIRIE.

An extensive municipal village and parish of the south shore of the River St. Lawrence, between the Lachine rapids and Victoria bridge, district of Montreal, seigniorly and county of the same name. Incorporated March 30, 1846. The parish was erected on the 17th November, 1668. A market is open every day. An aqueduct is constructed. The first railway in British North America

was constructed from here to St. Johns in 1836. It was first worked with horses, afterwards by steam, but was discontinued, and the rails taken up a number of years ago. A steamboat maintains regular communication between Montreal and Laprairie. A branch of the Grand Trunk Railway, starting at Fort Covington, in the State of New York, to reach the Victoria bridge, now runs twice a day in close proximity to the village, with a good station and depot, and contributes materially to the future development of the locality, which is considered a very healthy and pleasant summer place. There is also a fire station, thoroughly supplied with new fire apparatus, such as a fire engine and hook and ladders. Fishing and hunting is also largely practised. A new billiard room has been organized. A permanent wharf has been erected, and will be much improved during the present summer. A new channel is also partly made up. The aqueduct is now giving a very good service to the village, and the work of putting up pipes is being done very rapidly in the different streets. The pressure of water in case of fire is also very powerful, as the water is drawn by steam and air pressure, which brings it at a distance of 1,350 feet, from the St. Lawrence river. The premiums upon insurances have also been greatly reduced on account of the recent ameliorations to the fire system apparatus. Great North-Western Telegraph Company has an office here. Telephone connection with Montreal. Distant from Montreal, 9 miles, fare 15 cts.; from St. Johns, 18 miles. Mail daily. Population of village about 1,800; of parish 2,200.

## ST. LAMBERT.

A suburban villa on the south shore of the St. Lawrence, directly opposite Montreal, in the county of Chambly, district of Montreal, with a population about 1,500, and growing rapidly. It is an important railway centre, and is supplied with an excellent train service by the Grand Trunk Railway, having over twenty trains each way daily. Return 25c, single 15c, on suburban trains, return good for day of issue only, 25c; return good for 1 month 45c; single fare on regular train 25c; by commutation tickets, 52 trips for \$2.60, or 5c a trip.

The Victoria Bridge spans the St. Lawrence here, and all trains to and from the City stop at the railway station. Several lines of railway run here, viz.: Grand Trunk for points South, East and West; Central Vermont for Farnham, New York and Boston; Delaware & Hudson for New York; Montreal & Sorel for Sorel. The distance to Longueuil, the county seat, is three miles. There are four churches: Methodist, Episcopal, Roman Catholic and Presbyterian, with resident ministers and curé. There is a large Model school, conducted by the Protestant School Commissioners, with a staff of five teachers; and a French school, conducted by the R. C. Commissioners, with two teachers. There is excellent boating on the river, and the St. Lambert Boat Club is recognized as one of the best clubs in the vicinity of Montreal. The residents are mostly employed in the City, and select it for a suburban home from its favorable situation and excellent means of communication at all seasons with the City. During the winter months direct communication is had with Montreal by an ice road across the St. Lawrence, on which considerable driving is done. St. Lambert is being rapidly built up, and is destined to become a very important point; and it is expected that a system of water and drainage will soon be inaugurated. The distance by rail is six miles. Mail twice daily. G.N.W. Tel. Co. has an office, also telephone communication at post office.
