The Newspaper.

He pitched his white tent in the wilds
Far from the human "set."
And with a faith just like a child's
He said: "I'll get there yet!"He put him up a case of "ye"
A handpress and a "stick."
And there, where screamed the owl and
snipe,
He made the letters "click."They wondered what he was about
In the woods they found him
But when he got his paper out
They built a town around him!

—Atlanta Constitution.

The Holocaust at St. John's.

SEVEN LIVES REPORTED LOST.

FIFTEEN THOUSAND PEOPLE
HOMELESS.

AID FOR THE SUFFERERS NEEDED.

St. John's, Nfld., July 10.—On Friday, the
8th instant, about 5 p.m., a stable at the
head of Long's Hill caught fire, the wind at
the time blowing from the west, and the
thermometer 75. Rain had not fallen
for three weeks previously and the town
being built of wood, with the exception of
Water street, was extremely inflammable.
The adjoining houses quickly caught and in
a few minutes Long's Hill was a sea of flame.
Human effort was powerless to cope with the
terrible onslaught of the fire, and the
flying embers set fire to houses hundreds of
yards to leeward. So rapid was the destruc-
tion that there was no time to haul down
sufficient buildings to make a fire break.
People seemed paralyzed and disorganized.
Water street was reached at eight o'clock.
The Market house, Court House, Commercial
Bank, Atheneum buildings, St. Andrew's
Church, the Temple Club house, Chamber of
Commerce building, Telegram building, the
English Cathedral, the Post Office, the
Methodist College, Masonic Temple, St.
Patrick's Hall, all fell before the flames.
About 8.30 the waterworks mercantile
premises were attacked and the shipping
began to get out from the piers to the wharves.
The Anglo-American Tele-
graph office became untenable at 8.50 and
communication with the outside world was
cut. The fire swept Water street round
all attempts at saving property. A few
hundred people who had the temerity to
remain indoors, for the most part, escaped
from the piers aboard boats and schooners
that were waiting swinging to their lines
ready to drop off of danger. The air was
filled with blazing embers, a terrific fire
storm swept Water street (which was built
of stone and brick), but these buildings fell
almost as quickly as the wooden structures.
The Atlantic Hotel and Queen's Hotel, nearly
half a mile from the stable on the head
of Long's Hill, fell at 10 o'clock.
The Galway wharf immediately below the
hotel, tobacco factory, and Queen's Hotel,
the Terra Nova Foundry Works, Mackay's
stores, John Woods premises, Harveys
extensive distillery, consisting of bread
factory, Coal Company's stores and wharves,
were speedily taken by the pest. Signal
Hill for a time caused a lull in the storm,
but the wind was shifted and the flames
sifted well up the Hill, was doomed, and
the large brewery and costly dwellings of Mr.
John Lindberg, close by, were included in
the slaughter.
Having expended its fury to the eastward,
when there was nothing more to destroy in
that direction, the fire began to edge north-
ward up the slope which the town is built
on. The fire reached the piers at 10.30.
Cochran's street, leading from Government
House to the harbor, our handsome thor-
oughfare, fell victim, a few dwellings only
on the top escaped. The Methodist Church
on this street also escaped. St. Patrick's
Hall, owing to the bravery of the Christian
Brothers, whose schools were situated therein,
was for a long time considered safe, but in
vain. Their own efforts were not
sufficiently, to prevent the fire from creeping
across to the Mercy Convent, which, if
destroyed, would have been the cause of the
destruction of Market street and of the
factories and built of pretty cottages
and substantial dwellings. The Congrega-
tional Church in the neighborhood could not
be saved. Another church was saved, and
successfully made at Rawlings's Cross and
head of King's road. The Poor Office, a large
wooden building, guarded the rear of the
range or military road, if this could be saved,
that fashionable boulevard was safe. The
firemen by this time were pretty well ex-
hausted, but by intelligent action and the
part and scores of spirited young fellows
manning the roof, they fought the fiery
Jeluge victoriously.
Two-thirds of the business part of the town
and one-half the entire town and three-
fourths of the value of the town has been
obliterated. The people, some 10,000, are
sheltered in the Parliament House and under
sheds and tents in Banerman Park and other
open places.
To-day, Sunday, the town is enveloped in
dense smoke from the burning of the town,
country, which seems to be all on fire.
Kilbride Catholic Church, three miles out
towards Bay of Bulls, was destroyed to-day.
The wind was shifted and the flames
appeared to rain that it is badly needed.
The thermometer keeps in the high seventies.
H. M. S. "Blake" is due here at daylight
on Monday with tents, lumber and other
necessaries.
The great agony is over. "A stout heart
to a stiff breast" is our watchword for the
future.HAGFAZ, N.S., July 9.—Upon learning last
night of the terrible conflagration at St.
John's, Nfld., leaving thousands of persons
homeless, the Mayor called a meeting of citi-
zens to take steps to provide means of relief.
A large number of citizens assembled at the
Mayor's office. A committee was appointed
and they immediately purchased \$4,000 worth
of foodstuffs for the relief of the sufferers.
The committee will leave for St. John's to-
morrow with the same. The military and naval
authorities also sent a lot of tents and canvas
to the relief of the sufferers.
Governor Daly and Archbishop O'Brien
this morning telegraphed to the Newfoundland
Government and the British Government
for aid in the relief of the sufferers.
It is very hard to get any particulars of the
disaster, as the addresses of the people tele-
graphed to cannot be found. It is stated
that two-thirds of the town is entirely de-
stroyed, and it is reported that so far as
is known six children and one man lost their
lives in the fire.
A despatch received states that the fire
destroyed the Parliament Buildings. Ac-
cording to the latest accounts, 600 buildings
have been destroyed. Much suffering exists
among the people and the Mayor has ap-
pealed to other cities for relief.
The latest report, dated St. John's, 1 p.m.,
states that the south side is now on fire and
a big fire is coming from the north side.
The south side contains oil factories and
oil stores.
Another bulletin reads: The fire broke out
back of the city at a place called the "Head."
The fire is now spreading to the north side.
The relief station "Uluda" sailed at 7
o'clock to-night for St. John's with the fol-
lowing cargo: 275 barrels of flour, 100 bar-
rels of cornmeal, 20 chests of tea, 50 barrels
of beans, 50 barrels of pork, 5 puncheons
of molasses, 35,000 spruce boards and 150
boards and 4 marquees to shelter 1,200 people.
H.M.S. "Blake" sails for St. John's to-
night with relief. She is one of the fastest
ships of the day and will probably reach
there in 24 hours, providing there is no
difficulty. The relief station "Uluda" sailed
