LENGTHY PROGRAMME AWAITS PROVINCIAL PREMIERS

Predicts A War Between Nations Of Europe And United States

Inter-Provincial Conference Will Open Tomorrow

An Extensive Social as Well as Business Programme Awaits Provincial Premiers and Their Wives, as Well as Cabinet Ministers Who Are Accompanying Their Chiefs from Provincial Capitals.

RUSHING PREPARATIONS
General Opinion Is that Personal Contacts at Capital of Dominion Will Benefit Whole Country.

(Canadian Press Despatch)
OTTAWA, Nov. 2.—An extensive social as well as business programme awaits the provincial premiers and their wives, as well as the cabinet ministers who are accompanying their chiefs from the provincial capitals. The business sessions of the Premier's Conference begin on Thursday morning, and will continue through the mornings and afternoons for a week.

Tomorrow the city of Ottawa will hold a reception, and at eight o'clock in the evening the government of Canada will give a state dinner in the parliament buildings, followed by a reception in the Hall of Fame, where the guests will include Ottawa's "official list." On Friday evening Premier King will entertain some of the guests at dinner at Laurier House. On Saturday the annual chrysanthemum show at the Experimental farm will be opened by His Excellency the Governor General, and the members of the Conference will be the guests.

Their Excellencies will entertain at tea at Government House on Sunday and on Tuesday of next week the Canadian Clubs of Ottawa will give a dinner at which the visiting premiers will make five minute speeches and Premier King will also speak.

Premiers Gardiner, of Saskatchewan; Saunders, of Prince Edward Island; Rhodes, of Nova Scotia; MacLean, of British Columbia, are already in the city. Premiers Bracken, of Manitoba, Brownlee, of Alberta, and Baxter, of New Brunswick, are expected today.

MANY IMPORTANT MATTERS ARE TO BE DISCUSSED

OTTAWA, November 2.—Preparations are being rushed for the opening of the provincial conference on Thursday morning next week. The federal government and the provincial governments and as many officials of the federal government will meet in the railway committee room of the Parliament Buildings. The seating arrangement in the committee room was completed yesterday and will take the form of a large hollow square.

While the conference is not likely to produce all the results hoped for it will serve at least one useful purpose, that of establishing personal contacts between governmental heads in the various provinces. Much in the way of adjustment of smaller differences between the provinces and federal departments will be effected outside the conference itself by interviews between the interested persons.

Some are cynically disposed, however, in anticipation of the present party, described provincial governments as naturally desirous of retaining every source of revenue by way of taxation and of getting the federal government to do much for them, financially and legislatively. The federal authorities, on the other hand, are just as retentive of their sources of revenue and of the federal rights and powers.

Question of Waterpowers.
On the question of waterpowers, particularly on navigable streams, there will be much exchange of views, but there will be no effort on the part of the federal government

THE WEATHER

MUCH COOLER
The depression which was west of the Lakes yesterday is passing toward the St. Lawrence Valley. The weather is showery in Ontario and fine in other parts of the Dominion.
Forecast: Strong westerly winds; showery. Thursday: Westerly winds, fair and much cooler.

SEVERAL SMALL CASES BEFORE JUDGE LEMAY

Three Cases of Assault on Roll—Sentence Rendered in One—Fined For Having Cigarettes Illegally in Possession—Forgery Charge.

F. E. Morissette, of St. Francois Xavier de Brompton, was fined \$75 and costs this morning by Judge J. H. Lemay in the Magistrate's Court, for assault on the person of Guillaume Robert.

Robert, who had gone into the store of the accused at St. Francois Xavier de Brompton, was struck by Morissette during the course of an argument regarding the sons of the plaintiff.

Robert Aulis, of Boynton, pleaded not guilty to a charge of assault on the person of Ovid Carrier, of the Township of Stanstead, which was said to have taken place on November 27th. The case promises to be an interesting one, for Aulis has made a counter-charge against Carrier for assault on the same day.

Carrier also pleaded "not guilty." The two cases will be heard on Friday next.

C. Asselin, of Coaticook, was fined \$50 and costs for having in his possession cigarettes on which the duty had not been paid. The value of the cigarettes amounted to \$43.82.

Napoleon Connelly, of Windsor Mills, who is facing a charge of forgery in connection with a cheque for \$88, signed with the name of Earl Gifford, which the accused is alleged to have cashed at the store of Adrien Gagnon, pleaded "not guilty" in the Magistrate's Court this morning. The case will be heard on Friday next.

A thirteen-year-old boy came up before Judge J. H. Lemay this morning on a charge of stealing \$60 worth of jewelry. The boy was let off on suspended sentence.

CAPT. STEELE GAVE TALK ON MOUNTED POLICE

Told Rotarians of Fine Work Which Is Being Done by Men of Royal Canadian Mounted Force in Arctic, Making Mention of Many of Experiences and Hardships Which They Endure.

There was perhaps a certain disappointment at the Rotary Club meeting at the New Sherbrooke House last evening, when Captain Horwood Steele, who was scheduled to speak on "Canadian Literature," announced that he had decided to change the subject of his address, and that he would speak on the Royal Canadian Mounted Police and their work in the Arctic.

This week being observed as Canadian Book Week, it was expected that Captain Steele, who is himself an author, would tell the club members something of what is being done in Canada's literary field. The address having been announced as "Canadian Literature" brought several guests to the club, including Dr. F. O. Call, of Bishop's University, one of Canada's well known poets, as well as Mr. M. P. Greenwood Adams, author and lecturer, who is at present touring Canada under the auspices of the National Council of Education.

Taking his subject, the Royal Canadian Mounted Police and their work in the Arctic, Capt. Steele brought out many interesting points regarding this great Canadian organization. He referred to the Arctic region, mentioning that while many people felt that it was of no importance, thinking Canadians realized that there in the frozen north were valuable furs and wealth of minerals.

The speaker spent some time telling of the great sacrifices which are being made by the men of the R.C.M.P. as they spend long lonely months in the frozen region with only one or two white companions, sometimes even having only the natives to live with. The determination of the white man to maintain order in that region was not altogether an easy feat, and much patience had to be exercised and a certain amount of punishment handed out before the natives realized that the white man meant what he said. A tribute was also paid by Capt. Steele to the great help which the dogs of the north are to the Royal Canadian Mounted Police, and a few tales were told of hardships endured by the men and of some of the long, lonely trips that have to be made over the snow covered hills.

The club's weekly stunt last evening was in the hands of Rotarians V. E. Morrill and N. D. Cascarden, and proved to be an interesting one. Each member of the Club was provided with a very interesting sheet of Rotary news and doings, which was briefly commented upon and explained by Mr. Morrill, while Mr. Cascarden gave his fellow clubmen some beneficial health hints, which included a serving of fine grapefruit for all present.

known, the Cantonese government, to Hankow.

Disputed With Quarrelling.
The leaders of the Canton movement, who are reported as disgusted with the quarrelling between Hankow and Nanking, which has resulted in pitched battles between the two, also decided to call a general conference at which Canton's position will be set forth and the other Nationalist committee groups invited to join Canton if they desire.

The Canton group did not issue any ultimatum breaking off with Hankow and Nanking, but foreign observers believe that today's developments amounted virtually to a severance of Canton's relations with the Yangtze Valley groups.

T. V. Soong, brother of Madame Sun Yat Sen, widow of the Nationalist leader, is believed about to take over the financial direction of the Canton regime. He held a similar post at Nanking.

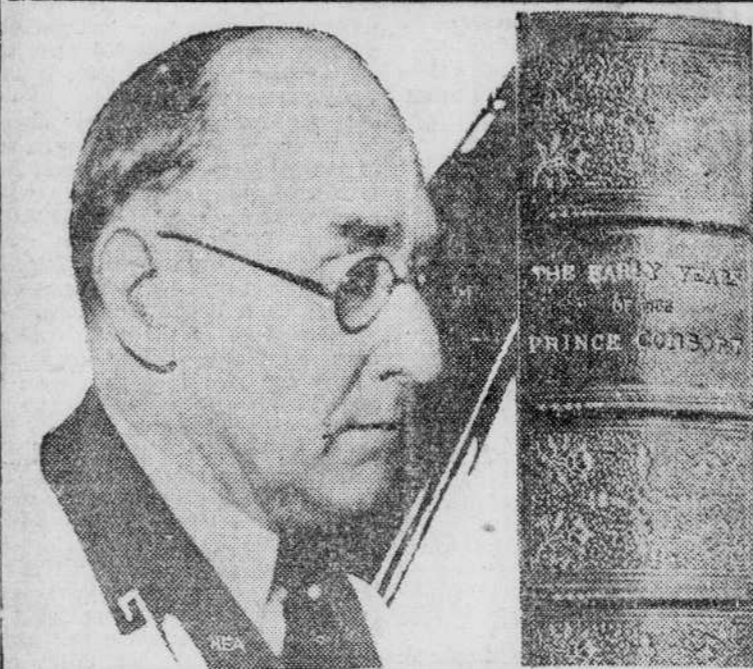

United States Proved To Be This Country's Best Customer During Past Twelve Months

In Year Ending September 30, Exports from Dominion to U.S. Totalled \$492,116,485, Representing an Increase of \$11,882,895 Over Previous Twelve Months.

(Canadian Press Despatch)
OTTAWA, Nov. 2.—The United States was Canada's best customer in the twelve months ended September 30 last. During the period under review exports from the Dominion to the United States totalled \$492,116,485, representing an increase of \$11,882,895 over the previous twelve months. Imports in the period just ended amounted to \$707,654,535, an increase of \$54,748,855 as compared with the year ended September 30, 1926.

Chief among the Dominion's exports to the United States were wood and paper, animal products, agricultural and vegetable products and non-ferrous metals. Conspicuous among the imports were iron, non-metallic minerals and agricultural and vegetable products. Canada's exports to the United Kingdom in the period under review totalled \$374,347,988, a decrease of \$3,319,598, as against exports for the 1926 period. Imports totalled \$173,844,086, an increase of \$10,525,089 over the twelve months ended September 30, 1926. Agricultural and vegetable products, animal products and wood and paper constituted the chief exports; while fibres and textiles, agricultural and iron comprised the leading imports.

THIS ONE OF BIG BILL'S BAD BOOKS?

Presented to the New Free Library at Chicago by

Carl B. Roden, head librarian of the Chicago public library, is pictured here in a thoughtful moment awaiting developments in Mayor Big Bill Thompson's war on pro-British books which the mayor threatens to have thrown out of the libraries. The book shown was presented by Queen Victoria as a token of sympathy following the Chicago fire, and it bears her autograph, shown above.

Chicago Public Library Trustees Who Are Not in Sympathy With Anti-British Chief Magistrate Have Been Called Upon to Resign—Library Board Declares Library to Be an Institution of Free Speech, Not to Be Throttled—Mayor Thompson and His Famous Pair Have Been Asked to Take History Examination.

England Getting Biggest Laugh In Years By Antics Of Mayor 'Bill' Thompson

Sunday evening club this week on "America First." He said he hoped the Mayor would attend so that he could be enlightened on Great Britain's international relationships. Mr. Steed added that Mayor Thompson's antics were giving England its biggest laugh in years.

The laugh in years was proposed as the name for a new elementary school in the public school system, but after the motion had been seconded at the board of education meeting, it was voted down.

The board decided to name the school after a former county official, Peter Reinberg.

BERLIN, Nov. 2.—Dr. Friedrich Wilhelm Von Pritwitz-Gaffron, counsellor of the German embassy at Rome, has been confirmed as successor to Baron Ago von Maltzan, late German ambassador to the United States; it was learned in diplomatic circles today.

The library board in a letter to the Mayor yesterday declared the library to be an institution of free speech not to be throttled.

"The issue of pro-British propaganda was raised in the last campaign," the Mayor declared, and the people have spoken." By the refusal to accede to the board members are defying the people.

"There are a lot of things about Europe that we cannot say much for, but there is one thing that we can compliment and that is that when a party is defeated in an election, its members in office step out."

An attorney for Edward J. Bohac, who is seeking an injunction to prevent the destruction of library books, invited Mayor Thompson, his lieutenant, Hermann and librarian Carl B. Roden, to take a history examination.

Makes Suggestion
Professor Bertrand Russell, English author and philosopher, in a lecture at the University of Chicago, declared that all history text books should be submitted to an international tribunal of educators to be purged of false sentiments.

"History books all over the world are filled with nationalistic myths," he said. "We must do away with the glorification of the soldier and his battles if we are to have peace. Militarism is the ignorance of the constructive use of skill. Children must be taught to be constructive and not destructive."

EDISON IS CONDUCTING RESEARCH INTO RUBBER PRODUCTION FIELD AS WAR PREPAREDNESS MEASURE

Noted Inventor Predicts a Great War in Future, When Nations of Europe Will Combine Against United States—Says First Thing They Will Do in Such an Event Will Be to Cut Off U.S. Rubber Supply—Researches Are in Progress in All Parts of World.

(Associated Press Despatch)
NEW YORK, Nov. 2.—Thomas A. Edison is conducting his research into the field of rubber production as a war preparedness measure he has revealed in an interview to be published today in the December issue of Popular Science Monthly. His objective is the discovery of a plant which will produce rubber quickly in America in the event of a war with Europe.

The inventor made it clear that he is not interested in rubber as a commercial product, but only for war emergency purposes.

"Don't make any mistake about that war," he said, "it will come. We may run along for a good many years without it, but sooner or later the nations of Europe will combine against the United States. The first thing they will do will be to cut off our rubber supply."

Edison also disclosed that, with the co-operation of Henry Ford and Harvey Firestone, the tire magnate, he is conducting researches in all parts of the world, in addition to personal work on the problem at his West Orange home. They have worked out a definite object by comparison of what Edison was to seek with existing standards, and a scientific edition has been sent on a year's tour of Southwest American desert regions, while other agents are in South America, Asia and Africa, he revealed.

"What we must find is something that will give an adequate supply of rubber at a price of around \$2 a pound," he said. "That would be a high price in peace time, but in war there would not even be an end to joy-riding with rubber at \$2 a pound."

That the case had attracted widespread interest in the city was evinced by the large number present in the Court House this morning. The halls and court room were crowded to such an extent that High Constable Phyllis Lanctot and Deputy High Constable J. H. A. Genest were kept busy preventing the spectators from crowding into the portion reserved for the lawyers.

The two young men were given a scathing lecture by Judge J. H. Lemay before they were sentenced.

"I can't help you," said Judge Lemay to Ruel, "for you have showed a genius in organizing this scheme by which you have defrauded your employers that would do justice to a hardened criminal."

"I am going to sentence you as an example to the large number of young men of this city who are living beyond their means, so that if they are ever tempted to steal they may refrain from doing so. There are too many such boys in the city today who spend all their spare time either in pool rooms or on wild parties. They find that such a life is expensive and their only recourse is theft. Therefore, I will sentence you to three years in the penitentiary, which may prevent others from following in your footsteps."

Judge J. H. Lemay in sentencing Boudreau and Benoit remarked that he was not so evolved in the theft as his companion, but added that the remarks he had made concerning Ruel applied to him also.

The two young men were very much affected by the sentences and during the rest of the session kept their eyes lowered on the floor as if ashamed to be seen by their friends.

In speaking to the Record this morning regarding the theft of goods from the store of Codere & Sons, Limited, for which Charles Ruel was sentenced to three years in the penitentiary, and Benoit Boudreau to one year in the local jail by Judge J. H. Lemay in the Magistrate's Court this morning, Mr. Charles Codere, secretary-treasurer, expressed the hope that the matter of the systematic robbing of the store would be brought to a close.

"This affair has been a great strain on me," continued Mr. Codere, "and although there are ten more men, some of them connected with prominent families of this town, who have been incriminated, we believe that the ringleaders have been captured and do not intend to press the charges against them. Of course, they are known by the police, who will keep a close watch upon them, and if they are found to be mixed up in any unlawful matters we will immediately bring them to task for their part in the thefts from the store. If, however, no further complaint is made, they have nothing to fear, for we will consider they have learned their lesson."

Mr. Codere paid a glowing tribute to the efficiency of Chief Camirand and his men, through whose efforts the store's losses were recovered and the members of the gang discovered.

"It is a good thing that we discovered the method in which the thefts were being made," said Mr. Codere, in closing, "for indications point that the gang was a thoroughly organized one and would have doubtless branched out until a large number of stores were victimized."

White Man's Food, Clothing and Customs Are Today Decimating Esquimaux Of Far North

White Man In North Dependent On Esquimaux.
The white man is dependent on imported supplies of fuel, food and clothing. With the extinction of the few remaining Esquimaux, estimated not to exceed 5,500 in number, all hope of successful development of the reindeer and other industries in the north must vanish.

White men in the north are very largely dependent on the Esquimaux. "It would seem," Captain Munn added, "the time is approaching when the question of the conservation of the Esquimaux population will demand the attention of parliament." He urged the adoption by Canada of a form of administration based on that of the Danes in Greenland.

Necessity For Preserving Wild Life.
The necessity for preserving the wild life of the far north was urged by Captain Munn as the only method of preventing the utter extinction of the Esquimaux. To this

WAR ON RATS IS DECLARED IN GREAT BRITAIN
Estimated that Yearly Loss to Country Through Rats Is 70,000,000 Pounds Sterling.

LONDON, Nov. 2.—Although the Pied Piper of Hamelin is not in the cast, Britain's best rat catchers were out early today in their best work-a-day hat and tucker and their sharpest spears and other things used to make it an unpleasant day for rats of high and low degree. The war on rats—mice are merely incidental—began at dawn and is to be pushed day and night. Sunday included for a busy week. National rat week last year netted millions of rats. Some enthusiastic experts claimed 8,000,000 as the toll—others expected more and some pessimists less.

C. L. Claremont, formerly chemist to the rate research laboratory of the Ministry of Agriculture, has estimated the yearly loss to the country through rats at 70,000,000 pounds. Estimates place the rat population of the British Isle at 40,000,000 in round and hungry figures. This is about the number of persons given in the given census, an active family of rat consumers nearly as much food as a man in good health with a fair appetite.

The main offensive is in the hands of William Dalton, head rat catcher of the city of London. He has eighteen lieutenants and scores of private hunters and scores of the infested districts and put their latest weapons of destruction into action. Rat clubs have been trained to the pink of condition and cats, dogs and ferrets are held in reserve as reinforcements.

The rats are lying low and saying nothing.

MILBY COUPLE MARRIED FOR FORTY YEARS
Mr. and Mrs. J. A. Cowan Guests of Honor at Social Evening—Fifty Friends and Relatives Present—Presentations Made.

MILBY, Que., Nov. 2.—On the evening of October 25th, the relatives, friends and neighbors, numbering about fifty, of Mr. and Mrs. J. A. Cowan assembled at their home in Milby to celebrate the fortieth anniversary of their marriage.

The affair had been planned and invitations issued by the daughters, Mrs. Ashe, Mrs. Daintrey and Mrs. Jack Cowan.

The evening was fine and the company in the best of spirits. Cards were played at seven tables. Old songs were sung and Mr. A. W. Bradley favored the company with one of his humorous recitations.

The table decorations were more and more centered by the three story wedding cake bearing the dates 1887 and 1927.

Only three persons were present who witnessed the marriage forty years ago and they were seated at the bridal table where Rev. E. Evans, of North Hatley, in his usual happy manner gave a short speech and proposed a toast to the bride and groom of forty years ago, which was suitably responded to by Mr. Cowan, after which Mr. J. B. Campbell led in singing "They Are Jolly Good Fellows". Other guests were seated at small tables. Refreshments were served by the daughters.

The wedding photographs of Mr. and Mrs. Cowan were displayed over the serving table where the family and friends, as a complete surprise, had placed a fine dinner table.

Other gifts were an old rose blanket from Milby friends and a rare piece of wall tapestry from cousins at Beebe, a buffet scarf of the embroidery, a book of poems, some pieces of aluminum and crystal and many cards of congratulation from friends far and near.

The affair was a most pleasant one and after singing "God Save the King", all departed for their homes, leaving many good wishes and hopes to return on the golden wedding day.

DISCUSSION RE PLANS OF NEW MAGOG SCHOOL
School Commissioners Held Meeting—Cost of New Building Estimated at \$42,000—\$15,000 to Be Given by Government—Personals and Other Interesting Notes.

MAGOG, Que., Nov. 2.—The meeting called by the Protestant Board of School Commissioners on Tuesday evening, October twenty-fifth in the High School was quite well attended and was of an interesting character.

The chairman, Mr. J. E. Conner, called the meeting to order at eight o'clock and then explained the purpose of the meeting. The present school building has been condemned by Superior School Inspectors Parker and Rothney, also by the Provincial Health Authorities, as being antiquated, inadequate and unsanitary.

Commissioner A. E. Smith carefully explained all matters pertaining to the cost and financing of the new building, stating that the taxes would be raised only three mills on the dollar. The new High School is to cost about \$42,000, of which \$15,000 has been promised by the provincial government.

Owing to some minor changes in the phrasing of the writings being necessitated, another meeting will be called in the near future for the motion for the adoption of the plans and by-law for the building and thought in preparing the present plans. At present, almost ninety children are being taught in the Primary Department by two teachers, with only a cotton curtain separating the two classes. This represents a waste of energy on the part of both teachers and pupils and thought in preparing the present plans. Terrible Suffering Relieved
Minising, Ontario.—"I am a practical nurse and I recommend Lydia E. Pinkham's Vegetable Compound to suffering women. For three months I was almost helpless and could not sit at the table long enough to drink a cup of tea. Many a time my husband carried me to bed, I would be so weak. Then he read in the paper of a woman suffering as I did who got better after taking the Vegetable Compound, so he went and got it for me. When I had taken three bottles I was just like a new woman and have had splendid health ever since. When I feel any bearing-down pains I always take it; sometimes a half bottle or whatever I need. It is my only medicine and I have told many a one about it. Any one wanting to know more about Lydia E. Pinkham's Vegetable Compound, I will gladly write to her. I do all I can to recommend it for I feel I owe my life and strength to it."—Mrs. NEAL BOWSER, R.R. 1, Minising, Ontario.

There was a young woman of Ryde, who ate some green apples and died;
The apples fermented inside the lamented
And made order inside her inside.

NEVER FELT RIGHT FOR 15 YEARS
Miserable with nausea, heartburn and palpitation! Driven nearly wild by headaches and nervousness! Never feeling well for fifteen years! And then—to find relief and ease, and comfort and health in Tanlac. No wonder Mr. Henry Sholer, 220 Edinburgh St., Peterboro, Ont., says "a medicine must be good to relieve a man's troubles of 15 years' standing and then build him up 21 pounds. Tanlac did this for me."
Before taking Tanlac, I never felt right. Many a night I heard the clock strike every hour and was so weak and miserable that some days I had to stop work. But now I haven't a complaint in the world; hearty eating, steady nerves and sound sleep have made me as strong as an ox. I wouldn't swap Tanlac for all other medicines put together.
Tanlac is made of roots, herbs and barks—the medicines provided by nature for the sick. Get a bottle today and let Tanlac restore you to health. Money back if it doesn't help you.

U.S. CONSULATE SAFE ROBBED AT NANKING
Bound Volumes of Consulate Correspondence Are Being Sold on Streets for a Few Cents as Waste Paper.

PEKING, China, Nov. 2.—The safe of the United States consulate at Nanking has been broken open and its contents stolen, according to official reports at foreign sources here from Nanking. Contents included Colonial silver heirlooms belonging to John K. Davis, the consul. Bound volumes of the consulate correspondence are being hawked on the streets of Nanking for a few cents as waste paper.
The consulate has been unoccupied since March 24, when it was abandoned, following the capture of Nanking by the Cantonese Nationalist forces. The building has been under guard, however, of picked Nationalist troops, avowed to be members of the bodyguard of the former Cantonese commander, General Kai Shek.
The British consulate at Nanking, also abandoned, is being used as a hospital for sufferers from cholera. The dead are being buried on the consulate grounds, and the premises are reported to be in a filthy condition.

ENO'S FRUIT SALT

ROUND THE WORLD

To whatever remote corner of the earth civilized man has penetrated—there ENO is to be found. In Canada, where the extremes of climate are often trying, ENO'S "Fruit Salt" has been the health safeguard of wise people for more than fifty years.

ENO contains no purgative mineral salts—nothing, in fact, that it might be unwise for you to take. It is a pleasant, sparkling saline, cooling and invigorating. It stimulates the digestive and eliminating organs of the body and keeps the whole system toned up and healthy.

WHEN KIDNEYS HURT CONSULT YOUR DOCTOR

Drink Lots of Water All Day And Take Salts If Back Aches.

No man or woman can make a mistake by flushing the kidneys occasionally, says a well-known authority. Eating too much rich food creates acids, which excite the kidneys. They become overworked from the strain, get sluggish and fail to filter the waste and poisons from the blood. Then we get sick. Rheumatism, headaches, liver trouble, nervousness, dizziness, sleeplessness and urinary disorders often come from sluggish kidneys.

The moment you feel a dull ache in the kidneys or your back hurts, or if the urine is cloudy, offensive, full of sediment, irregular of passage or attended by a sensation of scalding, begin drinking a quart of water each day, also get about four ounces of Jad Salts from any pharmacy; take it tablespoonful in a glass of water before breakfast, and in a few days your kidneys may act fine.

This famous salts is made from the acid of grapes and lemon juice, combined with lithia, and has been used for years to flush and stimulate the kidneys; also to help neutralize the acids in the system, so they no longer cause irritation, thus often relieving bladder weakness.

Jad Salts is inexpensive; makes a delightful effervescent lithia-water drink which everyone should take now and then to help keep the kidneys clean and active and the blood pure, thereby often avoiding serious kidney complications.

To End Severe Cough Quickly, Try This

For real results, this old home-made remedy beats them all. Easily prepared.

You'll never know how quickly a bad cough can be conquered, until you try this famous home-made remedy. The immediate relief given is almost like magic. It is easily prepared, and there is nothing better for coughs.

Into a 16-oz. bottle, put 2 1/2 ounces of Pinex; then add plain granulated sugar syrup to make 16 ounces. Or you can use clarified honey instead of sugar syrup. Either way, this mixture saves about two-thirds of the money usually spent for cough preparations, and gives you a more positive, effective remedy. It keeps perfectly, and tastes pleasant—children like it.

DIAGNOSING "HEART TROUBLE"

Many cases of both functional and organic heart troubles are well developed before the patients experience any warning symptoms. A pain in the left chest is not necessarily an indication of heart trouble, but may be due to intercostal neuralgia, pleurisy, faulty position of ribs, gas pressure, or because of the stomach being overloaded with food.

The diagnostician must make a careful study of the patient's symptoms to determine if they are true "heart trouble" indications or merely due to some of the above causes. In addition to this, the physician

FUNERAL OF MR. JAMES A. PRESCOTT HELD The funeral of Mr. James Alton Prescott, who passed away on Friday, September 30th, after a very painful illness of eleven weeks, was held at his late residence, 190 King Street east, on Sunday, October 2nd.

The service was conducted by Rev. Dr. Lennon, of Trinity United Church, and a quartet consisting of Mrs. G. Parsons, Mrs. E. Salter, Mr. Soles, and Mr. Hovard, sang the hymns, "Lead Kindly Light" and "A Few More Years Shall Roll". The bearers were Messrs. H. B. Ross, Norrey Price, Forest Keene, Clifford Coates, Fred Caunter, and Alex McManus.

He leaves to mourn his loss his wife, his father, Mr. D. D. Prescott, two sisters, Mrs. Arthur Coates, and Mrs. Aimer Wilcox, two brothers, Messrs. Edwin Prescott and Clarence Prescott, and many other relatives, and friends. The floral tributes and expres-

REMAINS OF MR. W. S. KILGOUR LAID TO REST

Service Was Conducted at Late Residence With Rev. Mr. Bright Officiating—Interment Took Place in Elmwood Cemetery.

Yesterday afternoon, in the midst of glorious autumn weather, relatives, friends and neighbors assembled to pay their respects to the memory of the late Mr. William Smith Kilgour, whose death occurred at his home, 23 Fulton Avenue, on Sunday evening, and whose mortal remains were peacefully laid to rest in Elmwood Cemetery.

At the house the service was conducted by Rev. Alfred Bright, of St. Andrew's Presbyterian Church, who brought a very comforting message to the bereaved family, while the prayers at the grave were also said by Rev. Mr. Bright. Following the service the bearers, Messrs. A. Johnston, S. Hansford, Albert Wiggett, W. Murray, M. Biron and W. Mennie, followed by many friends and neighbors of the deceased, proceeded to Elmwood Cemetery, where interment took place. The casket was headed by the funeral procession was a car containing other beautiful floral tributes which had been sent by sympathizing friends of the deceased and of the family, each a silent token of respect to the memory of the man who during his long life in Sherbrooke had enjoyed the esteem of a large circle of friends and whose death is keenly regretted.

The late Mr. Kilgour, who was born at Saguenay, Quebec, on March 11th, 1851, and who has lived in Sherbrooke since he was a boy of eighteen years, is survived by his widow, Mary Kenalty Kilgour, and by two sons, Messrs. James Kilgour, of Montreal, and Donald Kilgour, of this city. Other mourners include, one daughter-in-law, Mrs. James Kilgour; one brother, Mr. Andrew Kilgour, of this city, the last surviving member of the family; Mr. and Mrs. James Kenalty, brother-in-law and sister-in-law; also five nephews, Messrs. Weldon, Ronald, Emmett, Francis and Brendon Kenalty and one niece, Miss Kathleen Kenalty, all of this city.

The floral tributes came from the following: Wreaths, the Belding Corticelli Co., Ltd., Montreal, Mechanical Department, Sherbrooke Daily Record, and Mr. and Mrs. James Kenalty and family; sheaf, Mr. and Mrs. George McLean; sprays, Mr. Andrew Kilgour, St. Andrew's Auxiliary, Macabees Tent No. 42, Mrs. T. Plaherty and family, Mr. and Mrs. S. W. Hansford, Mrs. R. G. Plaw and family, Montreal; Mr. and Mrs. Wm. Murray, Mr. and Mrs. J. Dean and family, Mr. and Mrs. J. Farquhar, Mr. and Mrs. J. W. Kenalty, Mr. and Mrs. A. J. Shaw and family, Mr. and Mrs. Forest Keene, Mr. and Mrs. Jas. Shaw, Mr. and Mrs. Charles Scrimgeour, Mr. and Mrs. Geo. Waller and family, Mrs. I. F. Fuller, Mr. and Mrs. A. Bryant, Mr. and Mrs. A. Johnston and "Billy"; Mr. and Mrs. A. A. Gunning, Mrs. J. Stewart, Miss F. O. Stewart, Mr. and Mrs. C. A. Turner and family, Messrs. H. J. and W. R. Lacey, Miss Violet Robinson, Mr. and Mrs. C. Joachim and family, Mr. and Mrs. L. Greenland, Mr. and Mrs. Michel Biron and family, Mr. and Mrs. P. H. Royer, Mr. and Mrs. T. C. Thompson.

sions of sympathy were many testifying the esteem in which Mr. Prescott was held by all who knew him. Interment was made in Malvern Cemetery, Lennoxville, beside his only daughter, Eileen, who predeceased him two years ago. The relatives attending the funeral from out-of-town were Mr. and Mrs. Aimer Wilcox, of St. Catharines, Ont.; Mr. and Mrs. Arthur Coates, Mr. and Mrs. Arthur Smith, and Mrs. Churchill, of Canterbury; Mr. and Mrs. Edwin Prescott, of Pulver, Que.; Mr. and Mrs. R. E. Veale, Ont., and Mr. M. Smith, of North Hatley.

LENNOXVILLE

Lennoxville Will Hold Armistice Celebration.

The Lennoxville Armistice Day committee, at a meeting held in the Town Hall last evening, decided that in view of the fact that Sherbrooke would probably hold the annual Armistice ceremony on Sunday, the 6th of November, Lennoxville would take Sunday, November 13th, as the date for the local celebration. Mayor H. W. S. Downs presided, and it was agreed that notice and invitations would be sent out to the various institutions and organizations in the town to attend and march in the procession which will leave the High School at 2:30 o'clock. Colonel S. E. Francis was asked to issue the invitations and to draw up a program of the order of march. It is expected that the celebration will be more of a military character than in previous years, and that the public will assist in keeping up the standard of the success of this annual memorial service to that of previous years.

Minstrel Show To Be Given.

The Lennoxville Taxis Group is preparing for its second annual minstrel show which will be given in the Town Hall on two evenings of next week, Tuesday and Wednesday, November 8th and 9th. The programme to be given is a varied one of songs, monologues, jokes, dances, laughs, etc., and promises to exceed in merit even the excellent one given by the Taxis boys last year. The enthusiastic manner in which the boys have undertaken the necessary

Who is responsible for the remarkable standard of the Montreal Citadel Band, which is visiting the city during the next week-end. The band came into existence forty years ago and has been in continuous service ever since.

Young Goodier joined the band at an early age and because of his enthusiasm and ability was made Deputy Bandmaster at the age of eighteen, assuming full control twelve years ago. His leadership has brought the band to the front. His visitation of cities in Canada and the U. S. A. has made it famous over a wide area, and consequently it is in great demand everywhere. The band numbers forty-five musicians, who with forty thousand comrades bandmen throughout the world, give their services without any remuneration but purchase their own uniforms, and subscribe to the band funds, and are pledged non-smokers and total abstainers.

work of the entertainment is a sufficient guarantee for its success. An Act of Vandalism.

The Catholic Board of School Commissioners last spring planted a row of poplar trees on each side of the walk leading to the school on Church street. On Friday night the trees were slashed and cut and then bent over so as to completely destroy them. The Boy Scout room, in the rear of the building, was also entered, pictures torn from the walls and defaced, stove pipes thrown down, etc., and the room left in this condition. No reasons for such acts of destruction are known.

A Birthday Gift. Mrs. Robert McFadden recently celebrated a birthday and received as a gift a life membership in the Women's Missionary Society of the United Church. The membership was the gift of Mrs. McFadden's family, Mrs. F. O. Johnston, Mr. G. S. McFadden and Mrs. Roy Stafford.

Y. P. L. Hold Hallowe'en Party. The Young People's Society of the United Church enjoyed a Hallowe'en party on Monday evening in Douglas Hall, to which all of the younger members of the congregation of the church were invited. The time was spent in games, guessing contests, etc., and closed with the singing of refreshments. The hall was decorated in the Hallowe'en colors, and with black cats, jack o' lanterns, witches and shaded lights presented the necessary weird aspect.

General Notes. Mr. and Mrs. H. Messenger, of Danville, are guests at the home of Mr. S. Messenger.

Mr. Gordon Titcombe's name was inadvertently omitted from the list of eleventh grade pupils in the High School who received one of Mr. Wilder's cash prizes.

Professor John A. Nicholls, of Boston, well known temperance lecturer, was in town on Monday in the interests of his work.

MOTTO - Before Forming An Opinion Let Us View The Subject From All Angles. Then Be Willing To Accept Criticism Little Brown Owl

TODAY'S QUOTATION: "IT IS NOT SO MUCH THE LENGTH OF THE STEP, BUT THE DIRECTION THAT COUNTS IN ANY ENDEAVOR."—W. H. HAYS.

Here's the Professor Again My Dear Little Brown Owl!—This is my third advent to your corner, which ought to appear daily. Cannot you persuade the editor to allow you to have the space every day? I think that it is a good feature. Look at Margaret Currie's page in the "Star".

Now, can you tell me: Why was the cannon in Strathcona Square painted such a hideous shade of green? I have never heard of green before. I hope it will be the last! Another thing: There ought to be a sidewalk on Ontario street between Portland avenue and the High School. The road is almost always muddy and the pitch of the land requires autos to go at a good speed rate along that part, making it dangerous for pupils and pedestrians.

Also, speaking of pavements, there ought to be something done about the walk in front of the Griffith block on Dufferin avenue, where McLean's and Stevenson's stores are. The antiquated walk is both dangerous and disgraceful. Hoping that more notice will be taken of this than my suggestion for receptacles for rubbish to be placed along the streets, I remain, H. S. PROFESSOR.

Reply:—Welcome to the Turret Window, "Professor." It can be easily seen that you are interested in the city in which you live; we might pray that there were more of your kind. Now, about the daily section, Professor, you may remember that old saying about too much pie not being good for Tommy. While the Turret Window cannot claim to be as satisfying as a good piece of pie, we must consider it an "extra," and in that way have more anticipation regarding its appearance. From many readers come kind words about the section and Little Brown Owl hopes to keep the Turret cheerful and a light in the window for any one who passes.

Yes, Margaret Currie's page is popular, and let us, as Turret folk, try to grow into a bright daily corner in the only English daily newspaper in the Eastern Townships, though we hardly as yet aspire to the same standing as the popular page in the "Star".

No, L.B.O. cannot say why that color of paint was used, unless it was because the one who committed the deed was color blind. Green is for landscape, not cannons, and perhaps an afterthought may come to the misguided painter with the result that the cannon will be transformed into a more artistic ornament to the pretty Square.

Another good suggestion—a sidewalk leading to the High School. As to that there should not be any need of suggesting such a thing. Let us hope that the ones responsible for such an oversight are wise enough to read the Turret Window and profit thereby.

A sad look always come into the Brown Owl's eyes when it beholds that "disgraceful and disgraceful" piece of board walk on one of Sherbrooke's principal streets. Why didn't you write us sooner about it, Professor? Perhaps some of the mischief-inclined folk who celebrate Hallowe'en would have included that part of the city in their pranks—it would be good fun tearing it up. We might suggest that the two shop-keepers whose doors open on to that board walk take up the offensive, and let us hope they win the war.

Well, Professor, come again with your good suggestions, and perhaps some day the city will look after all these things, even to the rubbish cans. Today's quotation has slight bearing on this subject.

Quebec's Mountain Peaks Dear L.B.O.—Can you tell me if Mount Orford is the highest point east of the Rockies? Some people have that idea. Also, please give me its height. C. B.

Reply:—No, Mount Orford is far from being the highest point. From Heaton's Handbook we give the following "high spots" in Quebec mountains. Altitudes—According to the Geological Survey the highest altitude in Quebec Province is Table Top Mountain, (Gaspé) 4,000 feet. Mountains over 3,000 feet are: Mt. Albert, (Gaspé) 3,550 feet; Mt. Barn, (Gaspé) 3,400 ft.; Mt. Bayfield, (Matane) 3,471; Gipp Peak, (Compton) 3,060; Mt. Gosford, (Frontenac) 3,665; Mt. Logan, (Matane) 3,708; Mt. Matawee, (Matane) 3,365; Mt. Saddleback, (Frontenac) 3,187; Shickshock Mountains, (Gaspé) 3,500.

The height given Mount Orford on the Government topographical map is 2,500 feet.

Household Worry Dear Brown Owl:—Why will maids place the small rugs on the floor cornerways, and chairs and small tables out of line with the large pieces of furniture? Everything catty-cornered seems to be the rule. It makes me dizzy. I follow the new maid around and straighten the rugs, chairs and tables, only to find them all angles the next morning. All furniture should be placed with reference to the lines of the walls, and the large pieces of the furniture.

LADY-OF-THE-HOUSE. Reply:—This is a big question, Lady, and so far as L.B.O. can see it, there is only one answer: The arranging of rugs, etc., is just as difficult as the hanging of pictures and placing of statuary, and this line of household work relies upon the artistic qualifications of the maid, or housewife. Only those who have a keen eye for beauty and an insight into art can do all those things just as they should be done. A woman who is artistic can be a good missionary if she tries to impart some of her skill into the mind and hands of her maid. Our household world is not filled to overflowing with artists, but we must not expect too much.

FARMER LOST BARN BY FIRE LAST EVENING

Stock and Crops Destroyed—Building Owned by Eugene Godbout, of St. Francois-Xavier de Brompton—Loss Estimated at \$4,000.

The large barn of Eugene Godbout, of St. Francois Xavier de Brompton, was burned to the ground last evening, along with the greater part of his stock, as well as all grain, hay and straw, which had been stored there. There was very little insurance to cover the \$4,000 loss suffered by the farmer.

The cause of the fire is unknown. The flames were first noticed by a passing motorist. When discovered the fire had just started, but Mr. Godbout and family were sleeping so soundly in the farm house that it proved to be difficult to arouse them and by the time the motorist was able to do so, the flames had much such a headway that it was impossible to save more than a few animals. Neighbors came to the aid of the farmer and through their united efforts the house, which was in great danger of being destroyed by the sparks and flaming debris, was saved.

THE BRITISH DOLE A revision of the dole system in Great Britain is to be attempted. A bill is to come before parliament and if passed the charge upon the country will be considerably reduced.

It is said the new bill contemplates a continuous draw upon the dole from 700,000 persons unemployed. The normal unemployed in Great Britain since the war has numbered about a million.

What physicians do not know is the best of them are freely confessing. The verdict that carries with it despair eliminates the hope element, crushes the will to get well which is sometimes of more use than medicines, and it is often erroneous. To render such a verdict is to assume a grave and uncalled-for responsibility.

Incidentally, New York has a finely endowed and admirably conducted institution for the chronically weak or in every comfort and every consideration for the patients, excellently equipped and managed, we believe, in accordance with the broadest spirit of Christian humanitarianism. Only its name is "The Home for Incurables." Beneficiaries forget the name after a while. But few have failed to shudder at the entrance. That is human nature.

What has become of the much-heralded approach of the "saturation point" in the production of automobiles which students in economics have been forecasting in the last few years? Statistics indicate that there are now enough automobiles in operation in the United States to give everybody within its borders a ride at one time.

But to get back to this elusive "saturation point." Is it ever going to be reached in the United States and if so, when? In the first place, it might be well to ascertain definitely just what is a "saturation point." It is a modern business term which may be generally defined as the point at which maximum demand and maximum production meet. Perhaps a better and more comprehensible definition would be a market so filled with automobiles that it cannot stand any more—in other words, a market thoroughly saturated.

The "saturation point" in the automobile industry apparently is much further away than economists have tended to predict. Just as they seem to get their instruments well focused upon it and prepare to compute the time to elapse before it is finally and definitely reached, it appears to "slip out from under." And at the present moment it is a somewhat nebulous proposition far beyond the range of the naked eye.

The "saturation point" may come when there is an automobile to every man, woman and child in the United States and it may not. Who can say with assurance that there will not be two automobiles to everybody before it is reached? Perhaps, therefore, a more logical question at this time is not when will the "saturation point" be reached, but will it ever be reached?

The anniversary supper of the L.O.L., which was held last evening in the S. O. E. Hall in the Art Building, proved very successful, being largely attended. Friends and members of the Association and visiting brothers and sisters from lodges in towns outside the city were present. The principal speaker of the evening was Rev. Mr. Shires, of Windsor Mills. After the close of the address the members and their friends spent the remainder of the evening socially and in dancing. The evening concluded about midnight with the singing of the National Anthem. All agreed that the event was one of the most successful and enjoyable in the history of the lodge.

Mr. and Mrs. C. E. Bentley, Cambridge School, who have been in Denver, Colorado, for the dedication of the new Christ Methodist-Episcopal Church, where their son, Rev. W. H. A very happy gathering took place last Saturday night when the "Neaga" C.G.I.T. group of St. Peter's Church entertained their friends at a Halloween masquerade. There were about forty girls present and the costumes were various and pretty. Both halls were attractively decorated in the popular orange and black color scheme. On entering the hall the girls were conducted by weird-looking ghosts through "Spooks' Alley," where many mysterious happenings took place. Then, after a grand march, and unmasking, fortune telling, games and ducking for apples were the order of the evening. Later supper was served after which a most enjoyable evening was brought to a close with the singing of the National Anthem.

The Ladies' Aid of Trinity United Church met yesterday afternoon at the home of Mrs. J. G. Armitage, Portland Avenue, with Mrs. E. M. Armitage as joint hostesses. The president, Mrs. R. E. YOUNG LADIES' CLASS ELECT OFFICERS Last night the members of the Young Ladies' gym class met after the class period and held the annual meeting with election of officers. As a result the following were duly elected: President, Miss M. Grimes; Vice-President, Miss Florence Leslie; Social Committee, Miss Emily Odell, chairwoman, Misses Florence Pearson and Rena McGinty.

After the election the executive met with representatives of the Young Men's Class and arranged for a united social evening on Monday, November 14th. This is expected to be one of the largest and best social gatherings ever held in connection with the two groups.

V. O. N. DRAW UP PLANS The regular meeting of the Victorian Order of Nurses was held in the Child Welfare Clinic Room yesterday afternoon. The president, Mrs. Andrew Sangster, was in the chair and the treasurer's and secretary's reports were read. The nurse reported that two hundred and twenty-two calls had been made and that there were twenty-one new cases for which she had collected \$46.75.

A vote of thanks was passed to Mrs. Waite, Mr. Leslie Waite and the staff of the Chateau Frontenac for the great assistance they had given the Order in connection with the benefit bridge held in that hotel last Friday afternoon. Much appreciation is felt by all members of the V.O.N. for this kind and generous assistance, which did so much to make the bridge a success. During the meeting arrangements were made for the wreath for Armistice Day and plans for a rummage sale in the near future were discussed. A benefit dance will be given by the Order when arrangements can be made, and Mr. Ralph Giff has kindly offered his orchestra for the occasion.

MR. NAKASH TO ADDRESS HI-Y CLUB The guest and speaker at the Hi-Y Club on Friday will be Mr. A. G. Nakash, who is to talk to the boys on "Abdul Hamid's Palace." Having lived in the surroundings, knowing the nature of the country and the people, Mr. Nakash should have a fine story to tell.

SATURDAY WILL BE "POPPY DAY" The I.O.D.E. members are holding a "Poppy Day" on Saturday of this week and poppies will also be sold by them in some sections of the city on Friday. The poppies are made by disabled soldiers in Montreal and are purchased by the I.O.D.E. This is an annual event and has proved more successful each year.

Committees of the different I.O.D.E. Chapters are meeting every day to make wreaths and crosses for Armistice Day. It is expected that many of these wreaths will be sold for the Armistice Day observance.

On Saturday, November 5th, there will be many "taggers" busy throughout the day, and it is hoped that people will give their co-operation and help to make this event successful. On Friday the tagging will be chiefly at the market.

BOY'S FOOLISHNESS MIGHT HAVE HAD SERIOUS RESULTS The degree to which a joke may be carried and the foolish thing which a young boy will think of doing is clearly shown by a recent Halloween trick which might have cost the young lad in question a term in the penitentiary.

The affair in question occurred in the north ward, when a young lad, whose age should have warranted better judgment, put a lighted fire cracker into one of the letter boxes. The result was that the cracker exploded in the mail box, and had there been any important mail in the box at the time this surely would have been destroyed. Fortunately, however, the letter box had been emptied only a short time before.

The young boy responsible for this affair was located and brought before the Chief of Police and given a severe lecture. It was impressed upon the boy, and it would be well for all boys and the public generally to remember, that interfering in any way with His Majesty's mails is a very serious offense and one which would result in a heavy penitentiary sentence being handed down to the guilty party.

CHILD WELFARE CLINIC MEETING The regular monthly meeting of the Child Welfare Clinic was held in the Clinic Room, Whiting Block, yesterday afternoon, with the president, Mrs. W. S. Allen, in the chair. It was reported that there had been four clinics in October, and that there were seventeen new cases, which included two for the eye doctor and fourteen for the dentist.

RUBBER EXPORT FIGURES (Associated Press Despatch) LONDON, Nov. 2. For the quarter opened yesterday the percentage of standard reduction of rubber exportable under the Stevenson plan from Ceylon and Malay will remain at sixty per cent as in the last period. The percentage is based on the market price of crude rubber.

This sixty per cent of exportable rubber will bear the minimum rate of duty.

PRESS COMMENT

ANOTHER CLOSE RACE (Cleveland Plain Dealer) Philadelphia policeman rescues a Boston man's \$25,000, and gets a box of candy as a reward. Why do we tell such stories about the Scottish race, when we have Boston?

WELL BLESSED. (Toronto Financial Post) Do we Canadians fully appreciate the blessing we have in a stable system of government? Even in this enlightened day, there are many large countries the world over that are threatening volcanoes.

TO THE INVESTOR INSTABILITY MEANS LOSS. One example alone will suffice to prove this: Mexican Light and Power common stock would probably be selling at twice or four times its present level if there were certainty of stable government in that country. Capital is safe in Canada.

'GOING THROUGH' COLLEGE. (Minneapolis Journal) That too many young men merely go through college, instead of letting college go through them, was the message that Colonel William G. Edens brought to the St. Paul Chapter of the American Institute of Banking, recently.

Colonel Edens' talk was to a gathering. He admits, somewhat facetiously, that he has "never attended no college," having started in life as a railroad brakeman. But he cannot be ruled out as an incompetent witness on that account. As vice-president of an important Chicago trust company, he has hired and fired, in his time, a great many college graduates. And the keen judgment that aided his rise from box-car to mahogany desk enables him to discern just what the trouble is with young men who fail to make good.

Colonel Edens' talk was to a gathering of bank employees. We wish that it had been to a greater assemblage of entering freshmen, wise sophomores, sophisticated juniors and haughty seniors.

'INCURABLE' A WICKED WORD. (Brooklyn Eagle) 'Incurable' is a word that should be removed from the dictionary," says Dr Ernest P. Boas, director of the Montefiore Hospital, at the Minneapolis Conference. And his utterance will go home to a million hearts.

What physicians do not know is the best of them are freely confessing. The verdict that carries with it despair eliminates the hope element, crushes the will to get well which is sometimes of more use than medicines, and it is often erroneous. To render such a verdict is to assume a grave and uncalled-for responsibility.

Incidentally, New York has a finely endowed and admirably conducted institution for the chronically weak or in every comfort and every consideration for the patients, excellently equipped and managed, we believe, in accordance with the broadest spirit of Christian humanitarianism. Only its name is "The Home for Incurables." Beneficiaries forget the name after a while. But few have failed to shudder at the entrance. That is human nature.

We agree with Dr. Boas. The word "incurable" should at least be eliminated from the medical dictionaries and from the hospital dictionaries. For the afflicted even baseless hope is a godsend.

MISSING THE POINT! (Christian Science Monitor) What has become of the much-heralded approach of the "saturation point" in the production of automobiles which students in economics have been forecasting in the last few years? Statistics indicate that there are now enough automobiles in operation in the United States to give everybody within its borders a ride at one time.

There might be a little overcrowding, but what of that? Anybody who has observed a caravan of motortrucks carrying a group of picnickers into the rural area has particularly noticed that lack of seating capacity was not an important factor in the excursion.

But to get back to this elusive "saturation point." Is it ever going to be reached in the United States and if so, when? In the first place, it might be well to ascertain definitely just what is a "saturation point." It is a modern business term which may be generally defined as the point at which maximum demand and maximum production meet. Perhaps a better and more comprehensible definition would be a market so filled with automobiles that it cannot stand any more—in other words, a market thoroughly saturated.

The "saturation point" in the automobile industry apparently is much further away than economists have tended to predict. Just as they seem to get their instruments well focused upon it and prepare to compute the time to elapse before it is finally and definitely reached, it appears to "slip out from under." And at the present moment it is a somewhat nebulous proposition far beyond the range of the naked eye.

The "saturation point" may come when there is an automobile to every man, woman and child in the United States and it may not. Who can say with assurance that there will not be two automobiles to everybody before it is reached? Perhaps, therefore, a more logical question at this time is not when will the "saturation point" be reached, but will it ever be reached?

DEATHS REPORTED

MR. JOHN CARROLL, ST. MARY'S ELY.

The late Mr. John Carroll died at St. Mary's Ely, on October 17th, after a long and painful illness during which he was tenderly cared for by his faithful wife and children, assisted by a sister-in-law, Miss Ellen McMahon. The deceased was sixty-one years of age and leaves his widow and five children, three boys and two girls, besides a large number of near relatives.

The funeral was held at St. Mary's Parish Church, October 19, and there was a very large attendance. Many beautiful wreaths and sprays covered the coffin, and many spiritual offerings were given. The parish priest officiated and celebrated the solemn ritual mass, assisted by a full choir.

The bearers were his brothers-in-law, Messrs. Morrissy, McMahon, Thomas, McGowan and Nicholas Carey. Mr. Joseph McMahon, also a brother-in-law, was funeral director.

Interment was made in the family lot at St. Mary's Cemetery.

The bereaved family have the sympathy of the entire community.

Stoney Chiefs Register at Banff Springs Hotel

A dash of the primitive was added to the ultra-modern interior of the fashionable Banff Springs Hotel, recently when four Indian Chiefs, leaders of the Stoney Tribe from Morley, Alberta, filed through the Rotunda of the mountain hostelry towards the room clerk's desk. Their moss-haired feet felt with traditional silence on the carpeted floors of the hotel and only the faint rustle of their long eagle-feathered headdresses indicated their presence.

The incident occurred on the opening day of the Highland Gathering and Scottish Song Festival held at the Banff Springs Hotel September 5 to 7. The Indians from the surrounding districts had gathered to take part in and witness the Festival, and their chiefs were honored by reservation at the mountain hotel that has gained the distinction of being one of the finest of its kind in the world.

The Chiefs demonstrated their knowledge of the white man's art of writing, when the hotel register card was handed to them. Chief

'Child Of The North'

By Ridgwell Cullum.

"Just one word," he said inter-rupting the deliberate movements of his servant, "Charlie hasn't found color yet, so he don't need to worry. If he does I guess he'll take his chance with the devilman anyway. Same as we're all ready to do. Devilman wouldn't worry me a cent if I happened to strike gold in these hills we're going to after tonight.

An Indian man sits around and weeps when he hears about devil-man. White men get up and fight them. That's the difference between us. That's why Indian man is servant to the white man instead of master. That's why the white man is master of the world, and makes it serve his purpose. The white man isn't scared a little bit of devil-man."

The Indian looked into his eyes and was smiling in their superi-ority. And thousands of years of savagery lay in the glance that searched the white man's face. He took his head with dogged conviction.

"Boss Charlie find him gold sure. Oh, yes," he said. "Then devilman get him and he no more laff lak the sun on the waters. He buy all things much. Yes. Maybe. An' then I'll just—"

"Beat it!"

Bill's impatience broke under his restraint, and Oheh abandoned his flow of pessimism for active preparations for the resumption of their journey.

CHAPTER VII.

Friends

Joe was very busy, and his father watched him from a seat on a log driven deep into the mud of the river bank, a mooring for the raft-landing, which was a product of Hooch Dan's primitive methods.

The child was setting his small kayak in order, as though he, too, were about to set out for the hills. He had an accumulation of kit lying ready for shipment. He had an old kettle, and a small soap-bow contained a pannikin, and a fork, and several packets carefully tied about with rawhide lashings to re-present the food he would require

ing soon to Macdonald College to resume his studies.

ged at it. Then suddenly he flung his arms about his father's neck, and nestled his soft cheeks into the man's curling beard.

"I want to be with you, Pop," he cried in a tearful tone. "I want to go right up into the big hills where there's bears, an' wolves, an' an' devilmen. I want to help you dig up the ground, an' an'—what'll we find? Gold? Oh, yes, Heaps an' heaps of gold! I'll find it for you. You won't leave me around with Hooch. I may come with you—sure. I got my boat, an' its all fixed same as yours. The blankets is only pretending an' the food. But I can get my blankets if you say you'll take me, Pop. Say 'yes,' he coaxed.

"Pop, say 'yes!' I'll just be ever so good an' won't ever do a thing. I mustn't. An' I'm getting big, too, Hooch says so. And he reckons I can dig fine, and I'll make all sorts of a gold man. Pop—do!"

Charlie sighed. But he took hold of himself. He shook his head and the boy's caresses ceased abruptly.

"No, boy, not this time." And his gaze sought the far-off hills for which the child was pleading.

It was nearly time for the evening meal. The sleepless sun of the northern world was still blazing inten-sely. The gorge of the river was wide and inspiring in the sun-licht. It was wild and still, calm with Nature's majesty. The heavily-gliding river was lit from end to end, and only the shadows of primordial woods had power to resist the search-ing eye of day. It was the peace which humanity can never know. And it stilled Charlie Burton as he lit his pipe.

The child was disappointed but without rebellion. Fearfulness had passed. But grief was there in the clear blue eyes whose reproach the man was avoiding.

One of Joe's pups came over the rise and barked a furious welcome at his human playmate. Charlie glanced round, and turned again at once to the hills which held the world for him.

"Sure he would, Pop," he said coming to his father's side and caressing one of his hands, regard-less of the tar on his own. "But he reckons right away. You see, Hooch don't know how to be mad proper, same as Mister Garnet."

"That's because he's most as fond of you as I am, Joe

WALKER SCORED QUICK VICTORY OVER McTIGUE

Knockout in First Round—Jack Kearns Declares that Walker Is Now Ready to Meet Dempsey.

(Associated Press Despatch) CHICAGO, Nov. 2.—Dave Barry, the referee who made a name for himself as he counted over Gene Tunney in September, could have counted three hundred over the ancient Mike McTigue last night, for all Mike cared.

Barry, appearing for the first time since the Tunney-Dempsey fight, as the third man in the ring as McTigue, looking frail and drawn, faced Mickey Walker, the middleweight champion, for what was supposed to be ten rounds of fighting. Actually the fight lasted two minutes and fifteen seconds—not including the five minutes McTigue was unconscious.

Three times Mike went down before a smart, champion-like attack. The first time he was up at nine, but groggy. Walker, avoiding Dempsey's ring, went to the far corner of the ring. When McTigue got up, Mickey tatted the older fighter's midsection and then, when the McTigue guard dropped, sent lefts and rights to the jaw. McTigue fell against the ropes and slid to the canvas.

Up at nine, Mike was a wide open mark for Walker's machine gun sized and cannon power. McTigue was out against the ropes, hanging partly from the ring over the middle strand. Then he slumped to the floor and the formality of a count was completed. In his corner his seconds labored long before Mike, principal in many a great fight and a former light-heavyweight champion himself, was able to understand who threw the brick.

Walker, who won his title in Chicago, beating Tiger Flowers, was not the only jubilant over the way last night's fight ended. His manager, Jack Kearns, said that Walker is ready for Jack Dempsey, whom Kearns piloted to the heavy-weight championship. Mickey, according to Kearns, aspires to hold middleweight, light heavyweight and heavy-weight championships all at the same time, just as Robert Fitzsimmons did.

RESULTS OF LAST NIGHT'S BOUTS
The results of the fights last night are:
Minneapolis — Johnny Deering, Sedalia, Mo., defeated Johnny Tillman, St. Paul, in ten rounds; and Dudley Ringo, Cincinnati, shaded Erving Goldberg, Brooklyn, in eight rounds.

Des Moines — Erwin Bige, New York, won from Eddie Debeau, Chippewa Falls, Wis., in ten rounds. Columbus, O. — Rod Fitzsimmons, Columbus, knocked out Quentin Rojas, South American, in the first round.

Fresno, Calif. — Young Corbett, Fresno, knocked out Dave Cook, Pennsylvania, in two rounds. Harrisburg, Pa. — Harry (Kid) Wallace, New York, shaded Johnny Hayes, Philadelphia, in eight rounds and Chick Lynch, Wilmington, knocked out Kid Colman, Jersey City, in three rounds.

Los Angeles, Calif. — Midget Mike O'Dowd, Columbus, Ohio, beat Young Nationalist, Filipino, in ten rounds; and Jackie Dugan, Columbus, defeated Dario Barron, in one round.

Seattle, Wn. — Frankie Murray, Philadelphia, and Mickey Gill, Vancouver, fought a six round draw.

BOWLING
INDUSTRIAL LEAGUE GAMES
Last night in the Industrial Bowling League, Fairbanks took two strings from Pure Milk. The scores: PURE MILK M.T. PROPER ACTION HERE

WILL ENABLE THE PLAYER TO PERFECT THE BACKSPIN SHOT

Is it a good idea for an average player to use a backspin mashie?

By ABE C. ESPINOSA
One of America's Leading Professionals.
The backspin mashie is no longer used by any player, so all players should perfect the backspin shot by developing the proper wrist action when using the regular mashie. The stop is put on the ball by the action of the wrist on the mashie nibble, rather than by the rough face of the old-time backspin mashie which has been barred from tournament play.

BASKETBALL ON ICY FLOOR NEW NOVELTY

Feat Will Likely Be Tried Out at Madison Square Garden This Month.

NEW YORK, Nov. 2.—Basketball on an icy floor is Tex Rickard's latest sports novelty. When the promoter's original Celtics basketball team of the American Basketball League opens its season at Madison Square Garden on November 21, against the Philadelphia Warriors, they will be playing, in all probability, on an ice surface.

One of Rickard's employees has discovered that if imitation glass is laid on the terrazo marble base of the floor at Madison Square Garden and a thin coating of ice placed over that, a surface with the resiliency of rubber is obtained. Further experiments are being made to determine if the ice will last long enough for a basketball game.

TENNIS

MAPLE LEAF CLUB ELECT OFFICERS

The annual meeting of the Maple Leaf Tennis Club was held at the Y. M. C. A., on Monday evening with the president, Mr. Clarence Blake, in the chair. The reports of the secretary-treasurer, Miss Doris Bray, were read, showing that the past year had been a very successful one.

During the course of the evening the trophies gained during the year were presented. Mr. Webster Cook and Miss Sadie Price won silver cups for the gentlemen's and ladies' singles, respectively, while the bronze medals for mixed doubles were won by Miss Irene McCrea and Mr. Westley Pierce.

A discussion regarding the purchase of the courts of the Woodlands Tennis Club resulted in a vote for the affirmative. In view of the fact that the Club will be in a position to expand next season, it was decided to increase the membership from twenty to forty players.

Country And Dairy Produce Prices

MONTREAL, Nov. 2.—The following are the prices ruling yesterday in country and dairy produce:

BUTTER—Owing to yesterday being partly a holiday the trading in butter was much quieter, the demand being only for odd small lots, but the tone of the market was firm at the recent improvement in prices with Eastern Townships No. 1 pasteurized September made creamery butter selling at 38 1-2c per lb.; June-July make at 37 1-2c to 37 3-4c per lb., and current receipts at 37c to 37 1-4c per lb.

CHEESE—There was no improvement in the condition of the cheese trade yesterday owing to the fact that cable advices generally were of a very discouraging nature, reporting the markets weak and prices tending lower. There is also a lull in the demand from American buyers and in consequence the market on the whole was very quiet with western September made No. 1 white and colored nominally quoted at 20 1-2c per lb.; current receipts waxed at 19 1-8c per lb. and eastern waxed at 18 3-4c per lb. The receipts yesterday were 6,336 boxes, as compared with 7,974 for the same day last week, and 6,852 for the corresponding day a year ago.

EGGS—The trade in eggs yesterday was rather quiet owing to it being partly a holiday and a number of retail stores were closed, therefore demand was somewhat limited for supplies, but the undertone to the market was steady and prices were steady with sales of British Columbia fresh extras at 60c, other extras at 56c to 57c, firsts at 47c to 48c and seconds at 40c to 41c per dozen, while storage extras sold at 44c, firsts at 42c and seconds at 38c per dozen.

POULTRY—There was no actual change in prices for fresh-killed dressed poultry announced yesterday, but the undertone to the market was easier for some lines owing to the liberal arrivals, the unseasonable weather and the fact that the demand was only for sufficient stock to meet immediate wants. Sales of good to choice turkeys were made at 38c to 40c per lb., chickens at 20c to 30c per lb., fowl at 22c to 25c per lb., geese at 20c per lb., and ducks at 22c per lb.

POTATOES—Owing to yesterday being partly a holiday the trade in potatoes was slow and there was no further change in the condition of the market to note, prices being about steady at the late decline noted with car lots of Prince Edward Island white potatoes at \$135 per bag of 90 lbs.; New Brunswick Green Mountains at \$130 per bag in bulk, cobbles at \$130 per bag in bulk, and Quebec stock \$115 to \$120 per bag in bulk, ex-truck.

BEANS—The trade in imported beans yesterday was quiet, but as supplies on spot were not heavy the undertone to the market remained steady with car lots of choice white hand-picked on spot selling at \$2.50 per bushel and to arrive at \$2.60 per bushel, while smaller quantities at \$2.75 per bushel.

HONEY—A steady feeling prevailed in the market for honey, but the volume of business was small yesterday on account of the holiday and only odd sales of white clover in 60-lb. tins at 11 1-2c per lb., in 30-lb. tins at 12c per lb., 10-lb. tins at 12 1-2c per lb., 5-lb. tins at 13c per lb., and 2 1-2-lb. tins at 14c per lb.

"What became of Brown's summer hotel that failed because the place was so unhealthful?"
"Oh, he's running it now as a sanitarium."

Vacuum Oil declared special dividend of one dollar, special extra dividend of 50c and regular quarterly dividend of 50c.

Freight car loading in U.S. during week ended Oct. 22 were 1,128,486, an increase of 8,614 cars over the preceding week, but a decrease of 72,455 from the corresponding week in Sept.

5% Refunding Mortgage and Collateral Trust Sinking Fund Gold Bonds, Series "A"

To be dated October 1st, 1927, maturing October 1st, 1937. Principal and semi-annual interest (April 1st and October 1st) payable at the Bank of Montreal, Ottawa, Montreal, Toronto, Winnipeg, Vancouver, Quebec, Halifax and Saint John, or at the option of the holder, at the Agency of the Bank of Montreal, New York, or at the Bank of Montreal, London, England.

Table with columns: CAPITAL STOCK, FUNDED DEBT. Rows include 6 1/2% Cumulative Preferred Shares, Common Stock, Refunding Mortgage and Collateral Trust Bonds, etc.

The equity represented by the Company's Preferred and Common Shares, according to current quotations on the Montreal Stock Exchange, has a market value in excess of \$6,250,000. Dividends on Common Shares have been paid at a rate of not less than 6% per annum continuously since 1910.

THE COMPANY: Ottawa Light Heat & Power Company, Limited, incorporated under the laws of the Dominion of Canada, controls, through ownership of the entire capital stock (except Directors' qualifying shares) of the Ottawa Electric Company and The Ottawa Gas Company, a modern, completely equipped, dual-service public utility system in Ottawa—the capital and one of the principal cities of Canada—serving a population in excess of 160,000.

EARNINGS: Consolidated net earnings of the operating subsidiaries of Ottawa Light Heat & Power Company, Limited (with inter-company charges eliminated), after operating and maintenance expenses and local taxes, but before depreciation, and available for bond interest, for the three years ended December 31st, 1926, were equivalent to an average annual amount of \$589,638.

SECURITY: These Bonds will be a direct obligation of the Company and will be secured, in the opinion of Counsel, by a specific mortgage and pledge of all the Company's holdings of bonds and shares of its subsidiaries as shown in the President's letter and as more particularly described in the Trust Deed under which these Bonds are being issued; by specific mortgage and charge on all fixed assets subsequently acquired, and by a floating charge on its other assets both present and future.

VALUE OF ASSETS: The physical properties of The Ottawa Electric Company and The Ottawa Gas Company are conservatively estimated to have a depreciated present value very largely in excess of the amount of these Bonds and bonds of subsidiary companies outstanding in the hands of the public.

WHAT OF SUDBURY?

Nickel—Copper—Lead

The Sudbury region is best known to the world as the seat of operations of the International Nickel Company, where their large deposits of nickel and copper are located.

Recently the Banker Hill and Sullivan Company, powerful American mining corporation, commenced development of its valuable holdings in this district through a subsidiary known as the

TREADWELL-YUKON CO. Another important group is also developing property known as the

SUDBURY BASIN CO. LTD. The shares of both these companies are quoted on the Standard Stock and Mining Exchange, Toronto. Widespread interest is developing in the two enterprises, and the situation, from the standpoint of both mining development and speculation, is considered replete with interesting possibilities.

AUSTRALIA, A WONDER LAND, IS DESCRIBED

Mr. Greenwood Adams Addresses Two Gatherings Here--Lecture Entertaining and Instructive and Fully Illustrated.

The lectures given in this city yesterday by Mr. Greenwood Adams, Australian traveler, writer and lecturer, on "Australia and Its Wild West" were most interesting and instructive. The lecture was accompanied by both moving and still pictures which portrayed clearly the scenery, animals and people in that country.

A matinee was held in the afternoon for the school children and the Victoria Theatre was filled with enthusiastic young people for this event. Mr. Adams presented his subject to them in a very interesting way and held their attention throughout his lecture.

In the evening, Mr. Adams spoke in the Victoria Theatre to an audience which was not as large as had been expected but was very appreciative. The lecturer was thoroughly familiar with his subject, having spent twenty years in travel in Australia and he gave a comprehensive description of the country.

After a few short introductory remarks, Mr. Adams paid a tribute to Captain James Cook, the great explorer who first made Australia known to the world. He then showed the audience outstanding scenes in the city of Sydney, illustrating the fact that the large cities of this island are thoroughly modern. Views of lovely mountain ranges clothed with evergreen eucalyptus trees, the fairy-like Jenolan Caves and scenes from Mount Buffalo were shown and gave evidence of the extraordinary beauty of the scenery in the mountainous parts of Australia.

The audience was next taken to the Australia bush and was later shown the broad plains of the sheep and cattle country which is also the section inhabited by kangaroos. The lecturer told of the search for gold which was still going on in Australia, of the work of pearl diving, of sea-cow hunting and pictures were given to illustrate these. Interesting pictures of the animals to be found in this country were shown. The jumping kangaroos were a feature of this section of his talk.

A striking contrast between the civilized sections in this country and those occupied by the aboriginals was illustrated when pictures of

GAINS MADE BY SOCIALISTS IN LONDON VOTING

Laborites Contend that Results in Municipal Elections Indicate Trend of Popular Opinion.

(Associated Press Despatch) LONDON, Nov. 2.—London labor socialists made sweeping gains in the municipal elections held throughout Great Britain yesterday, capturing as far as incomplete returns show more than one hundred seats, mostly in the big industrial centres.

The Conservatives were the heaviest losers. The Laborites contend that the results indicate the trend of popular opinion, which they say will be shown further at the next general parliamentary election.

Glasgow, where radicalism is notoriously strong, furnished a surprise when the Laborites failed to make a solid gain, losing five seats. The Laborites in Dundee also failed to increase their strength.

The Communist vote in Glasgow and Dundee was negligible.

SPORTING NOTES

"GUS" WOOD NAMED AS DELEGATE TO EDMONTON

Mr. A. Wood, one of the prominent local sport promoters, has been named as a delegate representing the Quebec Branch of the Amateur Athletic Union of Canada, for the convention, which is to be held at Edmonton in February.

At this meeting one of the chief topics of discussion will be the question of the mixing of professionals in one sport with amateurs in another sport, to which it is expected the Quebec Branch will furnish a stiff rebuff.

A special committee has also been formed to look after the interests of the Eastern Townships under their own board. This board will consist of A. Wood, Sherbrooke, president; H. Smith, of Danville, vice-president and W. P. McVie, of Sherbrooke, secretary. This new division will take in eight cities, which, to date, have been more or less with amateur jurisdiction. Such towns as Sherbrooke, Danville, Waterloo and Asbestos will come under the new board.

SHERBROOKE PLAY BISHOP'S NEXT MONDAY

In preparation for the game with Bishop's University on Monday, Nov. 7th, a practice of the Sherbrooke Athletic Club team is called for tonight at 5:15 o'clock, when it is hoped that every member of the team will be on hand.

The first of the games for the Eastern Townships Cup is scheduled for Bishop's University on Monday, Nov. 7th, and the Sherbrooke game will be played at the Parade Grounds on Saturday, Nov. 12th. As these are for the premier honors of the Eastern Townships, and as the two local teams have shown up well in the struggle, they have had interested sessions are looked for.

BRITISH EXPEDITION TO SOLOMON ISLANDS HELD UP BY HEAVY RAINS

Sent to Punish Natives for Murder of Two British Officials and Their Native Escort.

SUVA, Fiji, Nov. 2.—The British expedition to punish natives of the Solomon Islands for the murder on October 4 of two British officials and several of their native escort has advanced ten miles into the hills of Malaita Island.

The natives evacuated a village and took to the bush country. Operations have been delayed owing to heavy rains in mountainous territory, heavily covered with brush.

District officer Bell and Cadet Officer Lillies were killed while leading a party collecting taxes at the village of Sinarago on Malaita Island. The party was attacked by two hundred to three hundred natives with axes, knives and bows and arrows. Fifteen native police and the native crew of the steamer Auk were said to have perished in attempting to protect the two officials, and at least three of the attacking natives were believed to have been killed. The Australian cruiser Adelaide and the British sloop Veronica were despatched to Malaita Island to form an expedition against the natives.

A REAL MARATHON ALLENTOWN, Pa., Nov. 2.—William H. Busch, veteran marathon runner of Boston, Mass., passed through here last night on the final lap of his 3,000 miles from Los Angeles to New York. He carries a letter from Mayor Quier, of Los Angeles, to Mayor Walker, of New York, and expects to reach the latter city tomorrow at 2 p.m. Busch left Los Angeles September 1, and is paced by a brother, riding a bicycle.

the huge savages hurling spears, making fires and engaging in the alligator and crow corroborees and in war dances were put on the screen.

These were followed by pictures of the city of Melbourne which concluded the evening's entertainment. Those present learned much of the great sister commonwealth of Australia and, at the same time, were highly entertained. Mr. Adams is a pleasing speaker, and so thoroughly acquainted with his subject that with the illustrations the evening was one that will be long remembered by those present.

MUCH INTEREST WAS SHOWN IN KING'S AUTO

Limousine Used by His Majesty King George from 1910 Until Last Year Is on View in Sangster's Garage--Attracted Much Interest as It Was Driven Through City Yesterday.

Yesterday several citizens, including Mr. Justice C. D. White and several members of the city council, were privileged to make a tour of the city in the same automobile which, from 1910, until last year, was the personal car of His Majesty King George V.

The car, which is a Daimler Knight limousine, arrived in Sherbrooke shortly before noon and will remain here on exhibition at Sangster's Garage, Wellington street south, for several days. The car is being shown throughout Canada, and wherever it goes is certain of attracting attention. It was purchased last year by Mr. Charles Y. Knight, the inventor of the engine, from the British Government, and was sent to Sherbrooke by the Willys-Overland Co., of Toronto, manufacturers of Overland and Willys-Knight cars.

While the car has very special attractions purely from the thought that it was used by the Royal family for so many years, it is also a very remarkable machine from many other viewpoints. Altogether it has traveled well over 200,000 miles, its registered mileage on July 31st, 1927, being 199,400 miles.

The body of the car is certainly of the old type and its appearance rather foreign to the Canadian type of cars. The chassis was built in 1910 by the Daimler Co. Ltd., of England, and the body by Hooper and Co. Ltd., of London. The body is of solid mahogany, except for the front doors and dash. The body

lining is of goat skin. The original cost of the car was a little over \$17,000. The weight of the machine is 5,850 pounds. It is seventeen feet long and seven feet, ten inches high. The gas tank capacity is thirty gallons (Imperial) with a mileage of eight miles per gallon. The oil capacity is three gallons and the water capacity seven gallons. The speed of the car is sixty-two miles per hour. On the two doors can be seen the Royal coat of arms.

The party from Sherbrooke met the auto just outside of Lennoxville, the car having been driven from Quebec, and headed by a local motorcycle officer, proceeded to Sherbrooke, where it was taken along all the main business and residential streets of the city.

In connection with this car it is interesting to note that while the body and equipment used were all specially built for this limousine at a very high cost, the engine is the standard Daimler Knight, using the same basic design and embodying the same principles of operation as the Willys-Knight.
