Putting People To Meet May 18

A meeting to discuss plans for this year's putting activities will be held Wednesday, May 18 at the Westmount Athletic Grounds, at 8 p.m. All residents are welcome.

Once again it is hoped to form a committee to handle all tournaments and business, and all other operations for the season are included on the agenda.

Officials are hoping to see many new faces this year, and will welcome anyone interested. The putting is open to both ladies and men.

In the girls' club the officers elected were president, Marion McFeat; secretary, Joan Clayton; treasurer, Claire Nash; chaplain, Claire Armstrong.

Miss Andie Gross, the outgoing president of the 1954-55 club presented her year end report which indicated a successful season had been completed. The club ended the meeting by voting an additional \$10 to Y.M.-C.A. World Service, thereby duplicating a pledge they had fulfilled last November.

The officers elected in the Boy's Club were: president, Bob Millar; vice-president, Hugh Montgomery; secretary, David Moffit; treasurer, Dave Annesley; chaplain, Dave Charles. In his year end report Steve Brewer pointed out that during the 1954-55 season the Westmount Boys' Hi-Y Club had enjoyed a very successful year.

Why is it that the Help Wanted columns increase faster than the relief checks decrease?

**Council Of Social Agencies
Puts An Accent On Planning**

Three pressing problems are in need of urgent action, Hon. Mrs. A. K. Hugessen, President of the Montreal Council of Social Agencies, stated at the annual meeting of that body in the Ritz Carlton Monday. Theme of the meeting was "Spotlight on Planning".

The three problems are: low rental housing and slum clearance, unemployment and education of retarded children.

"The Council has been urging action on slum clearance since the 1920's," said Mrs. Hugessen, pointing out that low rental housing is essential for families with low incomes. It cannot be a money-making proposition, she said, but must be subsidized if it is to be successful. Mrs. Hugessen urged action even if it meant alterations to the Dozois report on housing.

"The problem of the unemployed, for whom there is no unemployment insurance is very serious," continued Mrs. Hugessen. Hopes are held out by the Council, she stated, that it would be successful in providing training facilities for Non-Roman Catholic retarded children.

The part played by old people in the life of the community was being studied carefully by the Council, said Miss Gwyneth Howell, associate executive director, in her report. Establishment of a Gerontology Committee under the chairmanship of Mrs. M. R. Elder to co-ordinate the work being done in the Council on the problem of the aged citizen was revealed by Miss Howell.

"Intensive work has been done in the south area of the city to examine the changing character and changing population of this section of Montreal," stated Miss Howell. Services in other areas, have been re-located to better serve the needs of the people, she continued.

Several West-End Students Win Royal Empire Awards

School boys and girls from all parts of Canada submitted 389 essays in the Annual Essay contest for the season 1954-55 sponsored by the Royal Empire Society, Montreal Branch.

Winning entries came from centres as far apart as Gander, Newfoundland, and South Burnaby, British Columbia.

The subjects offered the children in the latest competition were designed to stimulate a study of Commonwealth affairs in Canadian schools. The results of the contest as announced by C. C. Pettet, O.B.E., Chairman of the Education Committee of the Society were as follows:—

Class "A" (for entrants of 16 to 19 years of age): 1. Walter Kemp, Verdun High School; 2. Carolyn Harasym, Two Hills High School, Two Hills, Alberta; 3. Elizabeth Doktor, Vilna High School, Alberta.

Class "B" (14 to 16 years): 1. Francisco Cardona, Selwyn House School, Montreal; 2. Valerie James, Westmount Junior High School; 3. Winston Baker, Hunt Memorial Academy, Gander, Newfoundland.

Miss Valerie Ross, daughter of Mr. and Mrs. Trevor Ross of 3999 Montrose Avenue, Westmount, and a junior at Smith College, Northampton, Mass., is the chairman of interfaith which organizes students' aid for the community.

"A" selected the same subject, namely "Describe the varying Relationships of the Crown with the Independent Member-countries of the British Commonwealth."

Class "B" winners also wrote on the same topic open to this group, namely, "The Effect of the 1939-45 War on your part of the British Commonwealth and Empire".

In the case of Class "C" different subjects were chosen in each case by the winners. These reflected the fact that the essay competition carried on in Canada each year is part of an all-Commonwealth Competition in countries such as Great Britain, Australia, New Zealand, etc., with the subjects for the essay selected by the group with headquarters in London.

The Canadian winner of Class "C" had as his subject "Give a Description of any of the Commonwealth Countries which the Queen and Duke of Edinburgh visited during their Royal Tour." The second and third dealt with flowers and birds of various Commonwealth Countries.

Those receiving Honourable Mention included school children from Calgary; South Burnaby, B.C.; Noranda, Que.; St. John's, Newfoundland; Baron Byng High School, Montreal; several from Selwyn House School, Montreal; two from Presentation Convent School, St. John's, Newfoundland; St. Mary's School, Calgary; Westmount Junior High School, Westmount, Que.; Park School, Valois, Que.; Chebucto School, Halifax, and Herbert Symonds School, Montreal.

Parks, Playgrounds Story Is Told By C. Robillard

The Montreal Parks and Playgrounds program for children try to develop minds as well as muscles, Claude Robillard, Montreal Parks and Playgrounds Director, told members of the Westmount Rotary Club Wednesday at Victoria Hall.

Mr. Robillard, who brought along a number of slides to illustrate his address, said that arts and crafts, dramatics, as well as athletics all go towards making up the schedules at Montreal's 247 parks and playgrounds.

In describing his department he said it was split up into five divisions, needing from 900 to 2400 staff members, and was provided with a budget of \$4,000,000 for a year.

He said the department, besides operating the three pools on St. Helen's Island, also look after 18 indoor swimming pools,

which are in use all year round, and numerous wading pools in various parks and playgrounds throughout the city. The facilities at St. Helen's Island were designed to handle approximately 5000 persons a day, but last summer more than 7000 people were accommodated between opening and closing hours in one day, he said.

At Beaver Lake, Mr. Robillard said it was the intention of his department to do away with the numerous shacks which house the various facilities there, and bring them all together in one

chalet. He said that an outdoor theatre, with a 2500 seating capacity is to be opened in Lafontaine Park early in July.

Mr. Robillard showed pictures of Trenholme Park in NDG which he described to the members as a typical Montreal playground. He said apparatus, such as Trenholme park is equipped with is found in 72 playgrounds in the city.

LEADERS

"The important thing in any playground is not so much the apparatus, but the leaders who handle the children throughout the summer months," Mr. Robillard said. He said there were approximately 500 monitors working in the playgrounds during the summer, giving supervised instruction to the children.

Last year 55,000 children registered with the playgrounds, 1,700,000 attended, and more than 10,000,000 took part in activities.

He said the parks and playgrounds organized into leagues 900 baseball teams and more than 1000 hockey teams in Montreal.

The department is equipped with a mobile theatre which travels from playground to playground during the summer bringing professional staging facilities to the youngsters in order that they may put on their own dramatic productions.

DANCING

Mr. Robillard pointed out that dancing, especially of the folk variety, is very popular with the youngsters.

The city also operates seven permanent recreation centres, and is now attempting to cooperate with the various school boards in order that schools can be used for recreation purposes after regular school hours. This has already been accomplished in the westend, where an agreement was reached with the Protestant School Board concerning Sir Arthur Currie School. This school uses land owned by the city as a play area, in return for which facilities of the school are open to the parks and playgrounds department after hours.

Another similar plan is in the offing for Coronation park in the westend, and has been labelled the Loyola Park development by the city department. This park will contain besides the school, playground facilities, wading pools, etc.

St. George's School Open House Reveals Teacher For 5 Pupils

Harassed public school officials, trying to solve the problem of teaching too many children in too few classrooms, might well have visited St. George's School this week during its "Open House — 1955." They would have seen an educator's dream a school with a teacher for every five pupils where Grade 1 pupils learn French and a 14-year-old boy does university mathematics.

St. George's School is a miracle but many of the best things in life, including education, aren't free. Working on the assumption of more than \$300 a year in tuition fees from every pupil, parents have created in St. George's something close to a perfect school.

It was started 25 years ago by a group dissatisfied with teaching methods in public schools. Today St. George's, housed in three old homes on Westmount boulevard near Ramezay avenue, is still owned by parents and administered by an elected board. When a child is enrolled at the school, the parents automatically become co-owners.

The school has 130 students, from three-year-olds to high-school juniors, and 23 teachers. Next term the high school course will be extended to Grade 11.

Since its founding in 1930 St. George's has pioneered in methods of "modern" education. Agnes Matthews, principal of the school for the past 21 years, describes them as "ways of leading each child to work at his maximum ability."

"In the first place," she said, "we have the advantage of being able to choose our pupils. We don't accept those with serious mental or intellectual problems. Of course there are exceptions. We once had a boy with an IQ of more than 130 who couldn't learn to read. The product of a broken marriage, he found here a sense of security he lacked at home, and later went on to do extremely well at university."

From the start pupils are encouraged to work for themselves. Representatives of nursery-school pupils have regular seats on the student council. The "problem-solving" technique of education has been used since the school began.

"We try to feel out the interests of the children," said Mrs. Frances Foster, vice-principal. "This year my class of eight-year-olds, influenced by television programs and comic books, became intensely interested in space travel. So we started a project."

"The children searched libraries for reference books and a parent loaned a small planetarium. We even used science fiction stories."

Hardly realizing it, pupils obtained a good working knowledge of astronomy.

"The kids haven't a doubt they'll get there someday," Mrs. Foster laughed.

Pupils working on a recent Shakespeare project decided to make an excursion to Stratford, Ont., for the festival this summer with their teacher, Mrs. Leslie Adamson.

"But don't think we forget academic standards," warned Miss Matthews. "Our students win their share of scholarships. In the elementary school we concentrate on reading and arithmetic and, where the problem lies in education today, on the ability to write and speak English."

Teachers reflect their pupils' attitude of intellectual independence.

"The first thing we all noticed here was a real freedom to teach," said one. "We aren't hampered by a curriculum mapped out years in advance."

"The Chinook," fabulous wind of the Alberta foothills, frequently in the winter raises temperatures from sub-zero readings to thaws in the matter of minutes.

Mrs. de Yturralde Is Guest Of Honor At Fête des Fleurs

Mrs. Mariano de Yturralde, wife of His Excellency the Spanish Ambassador to Canada, will be the guest of honor at the fourth annual Fete des Fleurs, to be held at the Montreal Museum of Fine Arts, on May 31. The guest of honor will present the prizes, following the judging of the floral arrangements in the afternoon.

Proceeds from the Fete des

Fleurs, sponsored by the Ladies' Committee of the Museum, will be used for two purposes: for the purchase of contemporary Canadian paintings for the permanent collection of the museum, and to aid in bringing to Montreal outstanding art exhibitions.

A feature of this year's flower show will be the awarding of a painting by the Montreal artist John Little to the holder of the lucky program number. The painting, donated by Watson Art Galleries, is now on view in the foyer of the museum.

Those wishing to enter the competitions must complete their

entry forms, obtainable at the museum, and return them by May 14. Entry in competitions is free.

Out in the field goes the radio operator, supplying communications for a fast-moving army. Trained in the rapid dispatching of tactical messages.

A Few Complaints

History Casts Interesting Shadow On Pickersgill Remarks

The minister of citizenship and immigration is the last person who should have asserted the natural superiority of a native-born Canadian citizen to one born anywhere else. Native-born Canadians, remembering the qualities of immigrant fathers or grandfathers, have not been flattered, and recent immigrants have taken his remarks as a gratuitous insult.

No doubt the minister meant well. Well-meaning people cause much of the world's trouble. He may have had in mind the public complaints of a few recent immigrants who have thought that they were coming to a land flowing with milk and honey and have been unpleasantly surprised to find that cows and bees require human labor before they will yield their products.

Moses, it will be recalled, had trouble with his people when he was in charge of

one of the early mass migrations of history. Hardly had he got his Israelites on the road to the promised land than they were complaining: "Wherefore has thou dealt with us, to carry us forth out of Egypt?"

Saved from the pursuing Egyptians by the Red Sea miracle, the Israelites were soon grousing again, this time about a water shortage. Relieved by another miracle, they were grateful for about a week and then were complaining: "Would to God we had died by the hand of the Lord in the land of Egypt, when we sat by the fleshpots and when we did eat bread to the full."

The miracle of the manna saved that situation and almost went wrong because some of the people would not follow simple directions. Other miracles followed as needed, but any gratitude produced among the grouseurs was short-lived.

Yet the real miracle seems to be that Moses was able to get his people to the promised land at all. It may be guessed that while the migrating Israelites, by their own records, show up as a pretty mouldy lot, this is because their historians have given undue importance to the complaining rabble. Moses must have had a good many tougher people on whom he could rely.

It would be interesting to have the comments of the Palestinian minister of citizenship and immigration on the Israelites. Unfortunately the Israelites killed off the Palestinians and so it was the Israelites who wrote the history.

Call The Witnesses IV

BY REV. CANON R. KENNETH NAYLOR
Rector of Trinity Memorial Church

We have considered the Empty Tomb about which all the witnesses agree. We have looked at the appearances of our Lord to His disciples. All the witnesses agree that there were appearances but they do not agree about the form of them, which is not surprising. Matthew and Mark and John also emphasize in one way and another the bodily nature of the Resurrection. They took hold of His feet; they observed the print of the nails and the spear; He ate before them; He assured them that He was not a spirit, "for a spirit hath not flesh and bones as ye see me have." Luke 24-39.

That is where the sceptic tends to make merry at the expense of the witnesses; it is also where the Christian writer tends to be apologetic. But there is no reason for apology. The witnesses are describing events which never happened before or since. Our Lord's Resurrection has no parallel in history and we have no standard by which to judge it. We must explain it as it is or reject it. The witnesses say the tomb was empty, and that they met the occupant of it in bodily form. What was their experience of that body? We can say two things about it from the point of view of the witnesses. First it was a real body, and secondly it was not subject to the ordinary laws of bodies. He emphasized the first point in talking with His disciples. He emphasized the second point in His acts: He appeared to the two disciples on the way to Emmaus and talked with them, but they did not know Him till He revealed Himself in the blessing of the bread. He appeared to the Ten in the Upper Room, and again a week later to the Eleven. He finally led them out to the Mount of Olives and gave them His blessing and then a cloud received Him out of their sight. It would seem that the witnesses felt that they were reporting an extraordinary body.

St. Matthew and St. John report appearances in Galilee and

St. Mark implies them. St. Matthew has no hesitation in reporting doubt on the part of some disciples; St. John reports the return of some of the disciples to their fishing, and the appearance of Jesus to them; then the reconciliation of Peter, and the statement concerning the disciple whom Jesus loved. In all this there are incidents peculiar to one Gospel or another, but there is nothing in any one Gospel which is inconsistent with the others. It is inconceivable stories so strange and yet so in harmony with one another should be sheer legend.

5-Year 21,000,000 Plan Announced For Hospitals

A five-year plan to raise \$21,000,000 on behalf of the teaching hospitals affiliated with McGill University has been announced by Hartland deM. Molson, chairman of the Joint Hospital Fund Committee.

Mr. Molson said the \$21,000,000 will be sought in three campaigns between now and 1960.

The \$21,000,000 is the total anticipated requirement of the hospitals between now and 1960. Of the total, \$13,400,000 is needed by three hospitals — the Royal Victoria, the Montreal Children's and the Royal Edward Laurentian Hospitals — to complete capital construction and reconstruction programs outlined in 1950.

The Montreal General Hospital, which will move this month into its new buildings, has no capital needs at this time.

Besides their capital needs, the other three hospitals also require a combined total of nearly \$2,700,000 to apply against deficits incurred in 1953, 1954 and 1955 through the care of indigent patients.

Mr. Molson also pointed out that in addition to the immediate

capital and deficit needs of the Royal Victoria, the Montreal Children's and the Royal Edward Laurentian Hospitals, \$5,000,000 must be added to cover the anticipated "free work" deficits from 1956 to 1960 of the four hospitals — including the Montreal General Hospital. These deficits are estimated at \$1,000,000 annually for the four institutions.

First of the three campaigns has an objective of \$7,000,000. It is being held in two phases — an Advance Phase at this time and a Public Phase in early 1956.

The Advance Phase, under the leadership of S. H. Dobell, DSO, CA, is already underway. Mr. Dobell is comptroller of McGill University and executive assistant to the principal, Dr. F. Cyril James. Prior to assuming his post at McGill in 1947, Mr. Dobell was for nearly 25 years a partner in the firm of McDonald Currie & Co., Chartered Accountants.

Honorary treasurers for the first campaign are Gordon R. Ball, president of the Bank of Montreal, and James Muir, president of the Royal Bank of Canada. Advance corporations chairman is M. W. Mackenzie, president of Canadian Chemical & Cellulose Co. Ltd.; and H. Roy Crabtree, vice-president and general manager of Woods Manufacturing Co. Ltd., is chairman of the advance men's group. Mrs. A. Sidney Dawes is chairman of the advance women's committee; and John E. Birks, a director of Cockfield Brown & Co. Ltd., is public relations chairman.

West Meets East In Home Fashions

"In home fashions, the strongest new trend is the reflection of far-eastern design, blending functionalism, beauty of line, and gentle embellishment!"

"Just what our designers have been looking for", says Mrs. Gertrude Brooks Dixon, American Home, home furnishings editor in her current article, West Meets East.

A study of far eastern fabrics and furniture by our designers... especially Japanese fabrics and furniture, has resulted in a blending of function with simple beauty, that has undoubtedly enriched modern American objects.

The far eastern influence first appeared a few years back only in very costly things. Then, it was tentatively offered at popular prices last autumn. It met with such instant success that it has become the most important single influence in new home furnishings.

To show its scope, Mrs. Dixon has combined rugs, wallpaper, chairs, tables, lamps, a chest, and fabric in her article West Meets East. It's a striking yet subtle motif... that's easy to live with... and will be for years to come.

Children's Theatre Program Wins Radio Award For C.F.C.F.

CFCF-RADIO has been chosen for the Canadian Beaver Award, the "Oscar" of Radio and TV broadcasting.

The Award was presented for CFCF's "Montreal Children's Theatre," produced over CFCF by the well known drama team of Dorothy Davis and Violet Walters for the past 15 years.

Year ago, Jerry Herbert - one of Canada's foremost radio announcers - got his start on the Children's Theatre. Today, almost 12 years later, Herbert has returned to CFCF, starring as M. SNOWDON | OUTREMONT | STRAND

OPENING DAY: Dow Brewers got off to a good start in this year's Snowdon Major Fastball League, with a one hit 1-0 victory over Steinbergs. Gathered for a pre-game talk

are, left to right, Dow general manager Paul Bertrand, manager Stan Kalinauskas, league president Bob Foster and manager Jack Eagan.

Dow Brewers Play Double Sunday

Dow Brewers will seek a first place tie or better in the young Snowdon Major Fastball League season, when they meet FBI and St. Augustine's this Sunday at Macdonald Park and NDG Park. The Brewers' first line hurler, Huey Hall, will toss the tilt against the league leading Tomatoes Kings, starting at 2 p.m. Sunday. Gibby Wesolowski, who

along with Hall tossed a one place tie at the defending champion Steinberg's crew last weekend, will start for the Kings. "It was a great victory," Dow manager Stan Kalinauskas said this week, referring to Hall's one hit 1-0 victory last week. The flashy hurler struck out six in the seven inning tilt, won on a round tripper by Dave Barnard.

Dow picked up four other hits, with Barnard adding one. He just missed a third bingle when a topped ground ball was called foul by plate umpire Mike Fanlon. Last year's most valuable player Gilles Legare will start the evening tilt against St. Augustine's; it will be his first league appearance.

Kalinauskas was also high on newcomer Ian Slater, who he claims "has the best arm in the league." He was also high on Barnard, who has been the hottest hitter on the squad in practice. "If he can keep it up, he'll have his best season ever," Stan said.

He also rejoiced over the fine performance by the team as a whole. "Sure makes a difference to have the whole squad out," he said. Dow's only other appearance during the course of the week will be Wednesday at Macdonald Park, at 6:30 p.m. again against St. Augustine's.

Fourteen games were run off in the Westmount Municipal Softball Leagues during the past week.

In the termite section (under 10) two games were won by one run margins. Rocks edged Rams 13-12 and St. Leo's got one run in the last half of the fifth as they trimmed Barons 12-11. Guards won their first start

in the mosquito division as they won out 13-11 over Greens. Down 11-6, going into the last of the fourth, they came up with a seven run rally to win the game.

Alan Smith pitched three hit, one run ball to lead the Indians to an 11-1 win over Tigers in the midget section.

Tigers' lone run came as the result of a round tripper off the bat of Percy McArdle.

REV. EDWARD J. LAPOINTE, P.P. Church of the Ascension of Our Lord, presenting trophy bearing his name to Gerald Ramsey, St. Leo's best senior athlete 1955, at the annual awards day.

Fr. Lapointe Speaker At St. Leo's Award Day

Fr. Edward J. Lapointe, of the Church of the Ascension of Our Lord, was the guest speaker at St. Leo's Academy's Hall on Clarke avenue.

His brief address was well received by the audience, as he advised his young listeners to go overboard for the ever increasing commercial trend in present day sports. He described this as mostly a money making proposition and not in accord with the spirit of true amateurism that should govern scholastic sports.

He warned all the boys to be good losers, and said it takes a lot of courage to be a good sport when not winning regularly. He added that sports like life has its

ups and downs, and the world respects a fellow that can come up smiling when things are working against him.

Among the special guests were, Rev. John Colford, Mrs. J. A. Ryan, president of the Catholic Mothers Club, Guy Wilson, president of French Speaking Parents Association, James McMahon, president of the English speaking Teachers-Parents Association and Rocky Rothwell, director of recreation for the City of Westmount.

The following athletes were honored: The Rev. Edward J. Lapointe Trophy to Gerald Ramsey, best senior athlete in the school.

Permit Tickets Being Issued

Permit tickets for the tennis courts, shuffleboard, horseshoes, putting green and checkers are now being issued from the recreation department, at the Westmount Athletic Grounds. Residents must have some proof of address when applying for these tickets, for example a light department bill, a car license, etc.

During the week of May 16 to 20, the offices will be open from 9 to 5 p.m. on Monday, Wednesday, and Friday. Working people may get their tickets on Tuesday or Thursday, when the offices will be open from 9 a.m. to 6:30 p.m.

Average size of Alberta ranches are 2,000 acres owned by the individual rancher with 8,000 additional acres under lease from the provincial government.

4 Are Definite In Inter Loop; Juniors Shaky

Four definite starters and possibly two more were named this week for the intermediate softball league, by district monitor Roger Bastien.

Working feverishly to make an early start, Bastien said Trenholme, RCMP, MacRae Electric and Prudential Life Insurance were all set. The first three are all holdovers, while Prudential replace St. Augustine's.

In addition Columbus may still enter, while lack of junior teams may end up in a sixth entry.

RCMP and MacRae both entered the league after plans for a separate Westmount loop collapsed, as last year's Dow squad failed to find a sponsor.

The Columbus entry according to reports depends very much on obtaining waivers on several senior ballplayers wishing to play intermediate.

All teams agreed on a rule to allow only four senior players on any one team.

Final entries must be made by midnight of Friday, May 13.

St. Augustine's, Columbus and Oxford are all set to go in the junior league, but if a fourth entry can't be found, the Saints may move up to the higher bracket.

Miss Peterson of the Unity Boys Club, announced this week that a piano recital of her pupils will be held at the club on Friday, May 27, at 8 p.m.

In conjunction with the piano recital, ballet instructor Lois Allum will present her pupils in a ballet demonstration. Parents are urged to attend.

"Education First, Pro Sports After", Vic Obeck

Vic Obeck, former coach of McGill Redmen Football team and now vice-president of Montreal Alouettes told a group of Verdun High footballers at the Spring clinic that "education comes first, as football is never an end in itself but a preparation for later life."

"A high school player should take advantage of educational opportunities and should aspire to getting a college education. Any player who is capable of entering college and does not but goes on to professional sport, should have his head examined," said Mr. Obeck.

"The most important thing to notice as regards to Pro-Football in Canada is the great stride and advancement it has made in the last eight years. Football now falls into three definite classes — Professional — College — Recreational; whereas at the beginning teams like Alouettes were neither "fish nor fowl" — neither amateur or professional football."

"Within the next two years we can expect to see nine top-flight professional football clubs operating in two divisions under the supervision of a commissioner. In a year there should

be an agreement between the NFL of the USA and the Pro teams of Canada. From here in everything should carry on in a truly ethical and business-like manner," he added.

"It is important to remember that Professional Football, like any other professional sport, is only a means to an end and not the end itself. The high school player should take advantage of educational opportunities and should aspire to getting a college education. The football player with an education can set himself up in business when his football days are over.
