NOTICE

This is a quarterly publication, and comprises two separate parts: an alphabetical index and a table of contents.

1. The index identifies in alphabetical order all texts published in Part 2 of the *Gazette officielle du Québec* between January 1 and December 31, 1989.

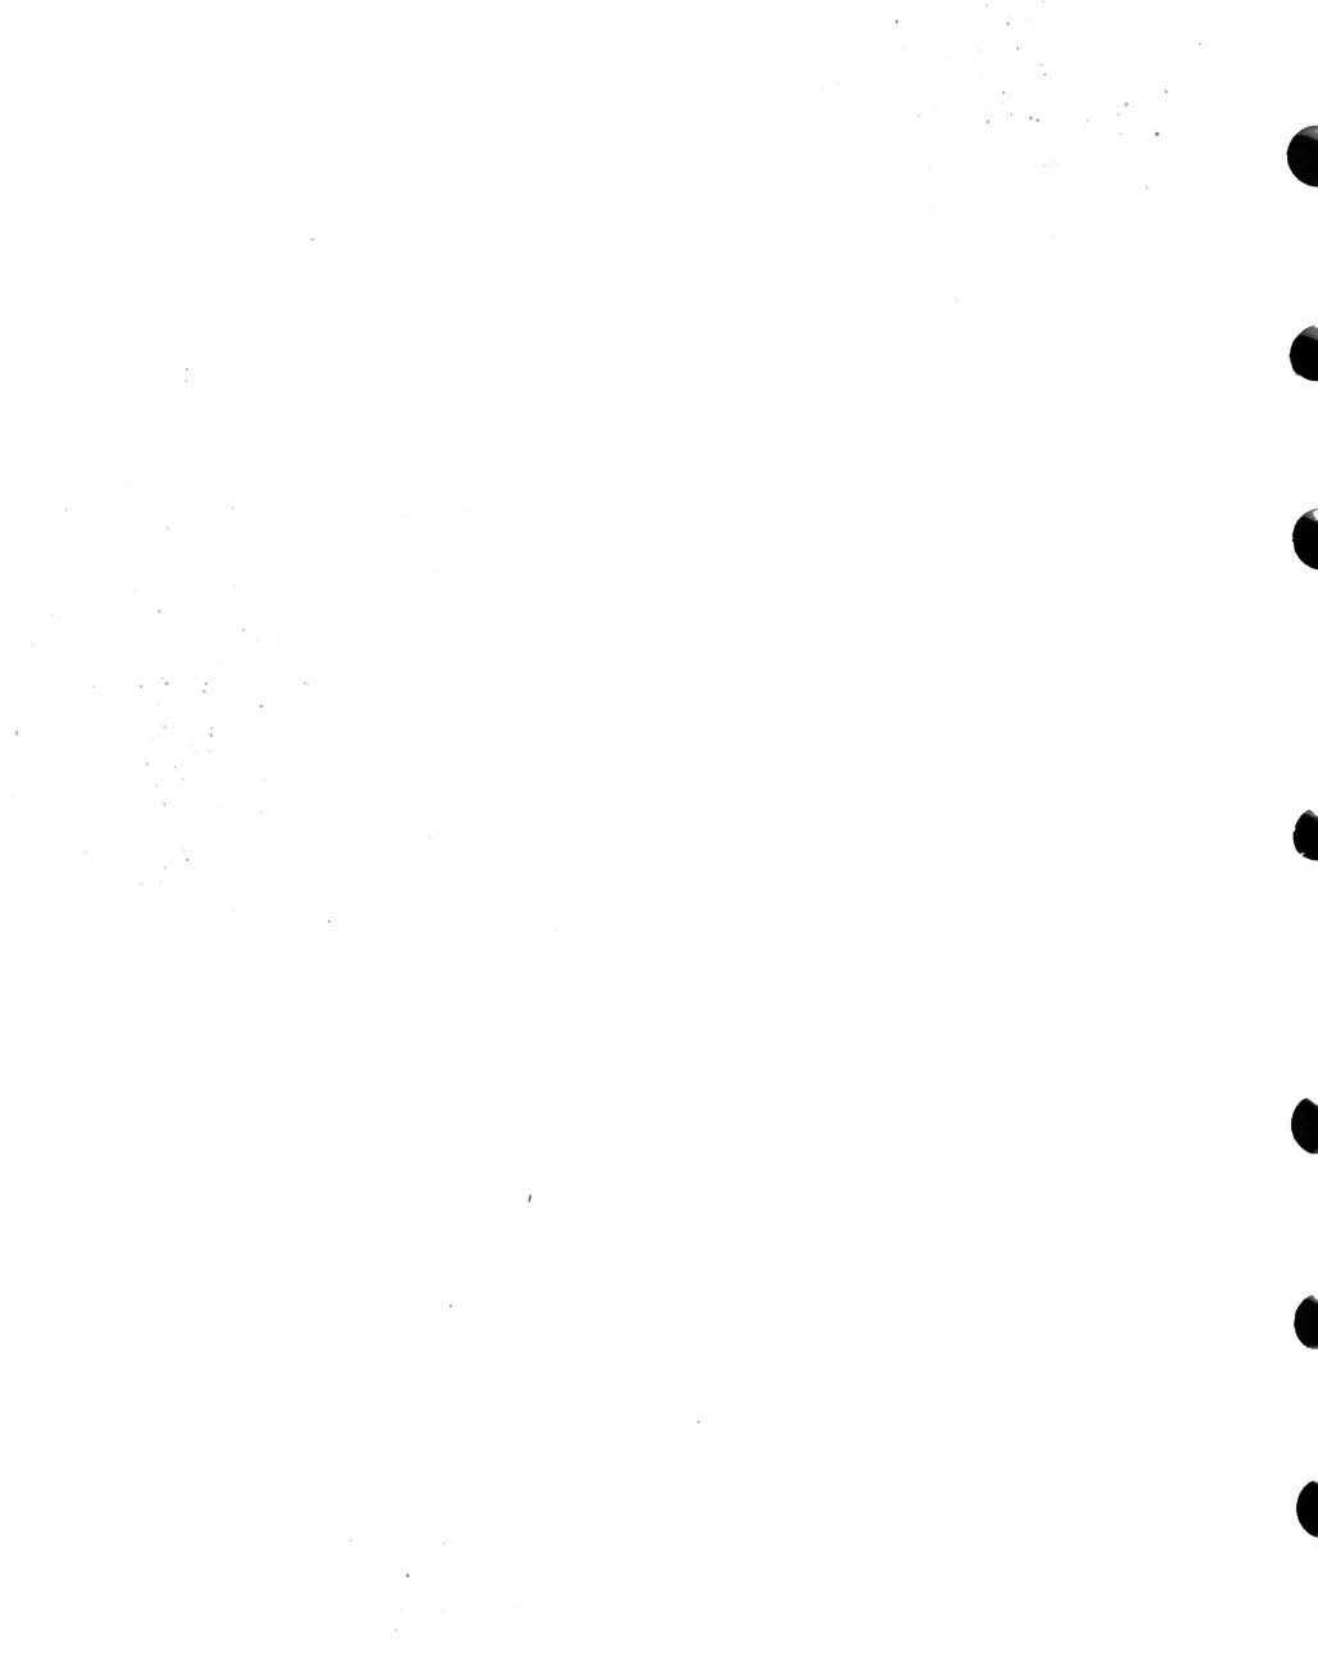

Alphabetical order is determined on the basis of the multiple description method, using either the first significant descriptor of the title of the document or the first significant descriptor of the Act under which the document is published.

Sometimes, precision is necessary; in this case a second level is added although these levels are not classified in alphabetical order. The reader is advised, then, to consult all entries under the same descriptor.

2. The table of contents distinguishes various published documents and groups them together, thus providing a second method of tracking down a title needed.

This instrument has been designed to meet research needs. Along these lines, the publisher will gratefully receive any relevant suggestions and comments.

Where research is more advanced, and involves a regulation published since the 1981 official revision of the regulations, the researcher is referred to the *Tableau des modifications et Index sommaire des Règlements refondus du Québec*, published every year on March 1 and September 1 and available at all sales outlets of *Les Publications du Québec*.
