First Premium Fur Establishment.
A. BRAHADI,
MONTREAL,
RESPECTFULLY invites those who are desirous of purchasing CHOICE FURS, to visit his establishment, where they can see an array of the LATEST FASHIONS and best description. A mere glance at the articles which he has on sale, will be sufficient to convince connoisseurs that they cannot be surpassed in either materials or manufacture. Even the unskilled may safely trust their eyes, his Furs being as good in their quality as handsome in their appearance. But, as there are persons who, distrusting their own judgment, require the attestation of the skilful, he thinks it right to mention that, at the Exhibition held here last autumn, he gained all the prizes [eight in number] offered or superiority in his line of business,—a success not surprising, considering that he obtained a knowledge of his art in those parts of Europe where it has been longest practised and carried to the highest degree of excellence yet reached.

CONSTITUTIOFAL CHANGES.
[From the Londen [C.W.] Free Press.]

The *Globe* told its readers that such a tornado of popular indication would sweep the country as would carry everything before it and annihilate any who dared to oppose the dictation of the Toronto junta. Well, after all this something was expected. Onlookers began to doubt whether the thing was not really as stated in the columns of the ultra journals; and the flood of petitions that was promised was looked for with no little curiosity if not concern.

But what do we find from an inspection of the record of the petitions presented? This: that there have been but 110 petitions presented in all, emanated from 23 constituencies. These were as follows:—

Wentworth	16	Elgin	3
Wellington	14	Perth	3
Ontario	13	Toronto	2
Huron	10	Victoria	1
Lambton	9	Leeds	1
Brant	9	Waterloo	1
Durham	5	Peel	1
Peterboro'	5	Frontenac	1
Grey	4	Simcoe	1
Northumbeland	4	Prince Edward	1
Oxford	4	Stormont	1

Thus not more than one-sixth of the whole constituencies have troubled themselves to send in petitions at all, and out of the twenty-three who have petitioned, the representatives of eleven have voted in the negative! Then, how many persons have subscribed their names to those petitions? These we find amount to 13,535, out of the whole population of Canada, comprising some three millions of people. Such a trumpery number, not equalling the inhabitants of the smallest county, are all who have been found willing to subscribe their names.

This "universal discontent," which is falsely said to prevail, has but these contemptible evidences in its favour, and that too, after all the exertions that have been put forth in order to prove that the ball was rolling, that public opinion had been taken by storm. In the House not a single man in Central Canada was found in support of the proposition,—no votes were given in its favour from any constituency lower down than Northumberland, and by a perusal of the list of constituencies which have been represented by petitions, eight out of the twenty-three have laboured but to produce one petition each! And an examination of these affords food for laughter. Some have a score of names attached, and some hardly that, and have evidently been got up by the village magnates and by no means represent the views of the majority of the electors.

Then, again, about half of the petitioners ask for "some Joint authority," and the other half for Dissolution in its only sensible form—simple and complete. These neutralize one another; because we have been frequently told—indeed, it was notified at the Convention—that the Dissolutionists would prefer things as they are to that hybrid anomaly, "Joint Authority." If, then, we deduct the one portion from the other, or even were we to claim in behalf of the Dissolutionists but the outside number of signatures, viz.; 3,536, it leaves but 10,000 petitioners out of the whole population, as the result of all the tremendous exertions that have been made. Can anything be adduced of a more conclusive nature to show that the whole movement has been a complete failure? Ten thousand names to petitions that have been circulated through the length and breadth of the land, nicely got up with printed headings, and every inducement held out to attract the autographs of those in favor of multiplied legislatures; increased officials, and redoubled expenses. A more miserable failure the strongest opponent of constitutional tinkering could not have desired.

PERILS OF AERONAUTISM—COLLAPSE OF A BALLOON.

In consequence of the advertisement in the daily papers, that "Mr. Connor, pupil of Professor Wise," would make his first aerial voyage on the 10th instant, from Palace Garden, several thousand people were drawn thither, to witness the ascension.

The portentous state of the sky seemed to forbid the promised ascension.

Mr. Connor's assistants had already commenced the process of inflation which the aeronaut in person superintended, and the balloon soon contained gas enough to carry it above the garden walls. Though detained by heavy bags of sand, the bulky globe swayed backward and forward with every guest of wind.

The fears of the spectators began to be fully aroused, and there were loud cries "Don't go up."

A gentleman noticing a hole in the silk, pointed it out to Mr. Connor, who proceeded to tie it up with a piece of twine. The same person asked if the rent would make any difference, when Connor said, "It might cause the balloon to spill him out." Shortly after 4 o'clock, the audience again urged Mr. C. not to make the ascension, but he laughed. Bidding an affectionate adieu to his wife and friends, Mr. Connor entered his car. Everything being in readiness, every man relaxed his hold, but the balloon, instead of rising perpendicularly dunged off in a westerly direction.

The monster body, driven by the squall that just then arose, demolished a large transparency and, striking the metal cornice of the ball and concert building, bent it like so much thin lead. The wind subsiding, the balloon rose above the high ornaments on the building and then suddenly collapsed, and with its basket and occupant instantly disappeared from sight. A scene of the wildest confusion ensued, Mrs. Connor, and a female relative who accompanied her, fainting and falling helpless upon the ground.

Officer Rabineau, and Officer Westerfield succeeded in gaining the roof of the Concert Hall, where they found young Connor lying in an insensible condition, covered with the wreck of his balloon.

Mr. Connor continued to sink very rapidly, and expired at 11 o'clock last night in the arms of his wife. His injuries were of an internal nature, and were received by his striking against the ornaments on the building.—*New York Paper.*

NEW YORK MONEY MARKET.

The week has been a quiet one, both in monetary and mercantile circles. As we are now approaching the dull season of the year, there is but little expectation of any extraordinary animation, in any department, for two or three months to come, except among the City retail dealers, who usually reap a rich harvest from the liberal disbursements of pleasure travelers during June and July. There is a fair degree of activity in Grain, Produce, and some descriptions of Groceries, especially Teas, and there is a rather firmer feeling in Cotton and Freights; but apart from this there is nothing out of the usual even current of things to call for special remark.

Of money, there is nothing new to say. The supply is still considerably in excess of the demand, and the Banks during the week, it is said, have been competing, to some extent, with private lenders for business. Under these circumstances, it is not a matter of surprise that the tendency to firmer rates, noticed early in the week, has disappeared. We hear of some very choice lists of September and October paper done as low as 5¼@5¾ per cent, though the regular Bank rate remains at 7 per cent.

NEW YORK MARKET May 12.

COFFEE.—The market for Rio, with increasing supplies, is flat, and prices must again be written one-quarter of a cent lower. For other kinds prices may be called steady, though with a very moderate demand, the market is dull.—Sales 798 bags Rio, per Chevallie and F. S. Means, at 13 cents, ex ship; 212 do. in lots, 13 @13½; 184 Maracaibo, 13¾; 250 @ 300 Laguayra, 14, 4 mos.; 2385 St. Domingo, for export, 12½ @ 12¾, mostly at the lower rate; and 47 Cape, 12¾, cash.

FRUIT.—There is more activity in the market than for some time past, with sales of 2550 pkgs. Malaga Raisins at $2,40 @ $2 42½ for Layer, and $2,35 @ $2,37½ for Bunch; 200 hf. bxs. Bunch, $1,15 @ $1,20; 50 qr. do., 55 cents; 400 bxs Denia, 5¾; 600 bags African Pea Nuts, $1,31¼; 250 cases French Mustard, $2,25, less 10 ₩ cent.; 100 drums Smyrna Figs, 5 cents; 100 bags French Walnuts, 6¼ @ 6¾; 350 frails Dates, part 5¼; 30 casks Turkish Prunes, 5¼ @ 5¾; 5 do. Turkish Plums, 5¾; 2075 kegs Bordeaux do part 6; 35 cases Bordeaux Prunes, in glass jars, 16; 250 cases Sardines, part 22 @ 22¼ for hf bxs and 14½ @ 15 for qr do; 20 bbls Spanish Shelled Almonds, 16½; 200 cases Currants, 5¾ @ 5¾; 100 bbls. old, 3¾ @ 4 4 mos; 200 bushels, Wilmington Pea Nuts, $1,65; 30,000 Baracoa Cocoa Nuts, $30; 2000 bunches Baracoa Bananas, $1,25 @ $1,75; 5000 Matanzas Pine Apples, $10 @ $11; 20 @ 30,000 lb. Dried Apples, 5¼ @ 6¼ cents for State, and 4 @ 4½, cash, for Southern; 330 bags Ivica Almonds, 265 do. Tarragons, 25 do Princess, 20 cases Leghorn Citron, and 30 do Figs, on terms we did not learn. By auction, 2781 bxs Palermo Oranges sold at $3,05 @ $4,05; and 600 do. Lemons, $2,35, cash.

LEATHER—The market for Hemlock Sole has undergone no material change, the demand being still moderate at previous rates—the receipts for the week have been to a fair extent, and the stock is accumulating. There is a good steady inquiry for Oak Sole at full previous rates. We have no change to note either in French Calf or English Salted Sheep Skins. The auction sale on Thursday was largely attended, mainly by manufacturers and dealers from New-England. The prices, considering the dull state of the Upper Leather market for some months past, may be called fair. The better qualities of Wax Leather, however, failed to meet the cost of manufacturing.

MOLASSES—The market until yesterday was pretty bare of stock, but remains steady with a fair demand for home use; sales 254 hhds., 9 tcs. and 68 bbls. Porto Rico at 35 cts.a 87 hhds do. 36@39; 50 hhds and 50 tcs. Cuc; Muscovado, 27@29½; 175 bbls do 31@33; and 803 do New-Orleans, 47@50, 4 mos. By auction, 50 bbls common Porto Rico sold at 28 cts. cash.

OILS—Whale has been in better request, with sales at New-Bedford of 2500 bbls. at 41@43 cents; 200 bbls Sperm were taken there for export at $1,30; Bleached Winter, 55 cents, 4 mos. City Linseed is steady in a jobbing way at 60@61 cents; Liverpool may be bought at 60 cents; there is no London offering at present rates. The price in London has advanced to 28s 3d on the spot, and 29s 10d for forward delivery; 25,600 gallons English sold on private terms; stock of English in store in first hands, 40,000 gallons. We notice besides, 50 bbls. Italian Olive at $2, 6 mos.; 925 bxs. Marseilles, chiefly to arrive, part $3,50 and $4,50 for quarts and pints; 50 baskts. Bordeaux, $4,37½, 4 mos.; 5000 gallons Crude Cotton Seed Oil, 48@52 cents, cash and 4 mos; 3000 gallons Refined Winter do, 80; 4000 do. Yellow Summer do, 66, 4 mos; and 50 bbls. Albertine Coal Oil, made at St. John, N.B., 70 @72 cash.

RICE—The receipts are moderate and market quite firm, with sales of 1210 tcs. at $4 @ $4,50 cash.

SALT—Liverpool is in fair demand, and steady at the recent advanced prices; the sales are 3710 sacks Ashton's Fine at $1,70; and 770 do. Worthingston's do., $1,50, 4 mos. A cargo Turks Islands has arrived and been taken at about previous rates.

SALTPETRE, &c.—100 bags Nitrate Soda, sold at 4½ cents 6 mos. At Boston, 100 bags crude Saltpetre sold at 10½ cents, 6 mos.

SEEDS—The season for sowing draws to a close. We hear of no sales of Clover, and of only 50 bags Timothy at $4,50. 150 bags German Canary sold on terms we did not learn; and 200 do. $2,50, cash. The market for Linseed was strengthened by advices received yesterday from Calcutta, advising exceedingly light shipments to the United States, and the continued firmness of freights there, $14,50 ₩ ton having been refused for a vessel to arrive—in London, an advance of 1s on Seed, was quoted. Some 2000 bags Bombay per Southampton, are said to have been sold previous to arrival, at $1,80; 5000 bags by the same ship comes to a Crusher, and the remainder will go into store.

SHOT—Drop 6¾ and Buck 7¼ cents net cash.

SUGAR.—Holders of raw are for the most part firm, not offering their stocks freely, but the receipts are again large, and as buyers hold off, the market is dull, and prices must be written one-eighth of a cent lower. Sales 597 hhds. Cuba at 6¼ @ 7¼ cents; 1106 Porto Rico, 6¾ @ 7¾; 79 Texas, 6¼ @ 6¾; and 121 hhds, and 44 tcs. Melado, 4 9-16 @ 5, 4 mos.

TALLOW is in good demand for immediate delivery for shipment, and with a small stock, full prices are paid. Sales 50,000 lb prime at 10½ cents, cash.

TEA.—The auction sale of Green Wednesday was quite animated, and very full if not slightly improved prices were obtained for all descriptions. Among the sales we notice 4000 hf. chests Green, chiefly Young Hyson, per Surprise; 2000 do. per Sancho Panza; and 1000 do. Oolong per Samuel Russell, all at somewhat improved rates—other parcels of less magnitude were also disposed of, and the market closed buoyantly.

TOBACCO.—The demand continues moderate, and prices are without improvement.—Sales 93 hhds. Kentucky at 4½ @ 10½ cents; 117 bales Havana, 27 @ 42½; 78 cases Seed Leaf, 6 @ 14; 30 do. Ohio, 4; 18 do. Florida, 35 bales Yara and 168 do. Cuba, on terms not made public. Manufactured remains dull; the fine grades are firm and held with rather more confidence, but the lower qualities are depressed.

NEW YORK BOOT AND SHOE MARKET.

The market continues dull and prices may be said to be nominal for common goods, which are in abundant supply, and barely saleable at any price. The sales are very light, and confined almost wholly to the wants of the City trade. A few orders have been received from the West, but business with that section is still unpromising. Shipments are very light both from this port and Boston. The Boston Shipping List says:—"Manufacturers have suspended operations to a considerable extent, and if no more goods were produced for at least two months, except to fill orderr, we believe it would be a benefit to the Trade generally, while at the same time there would be ample supplies to meet the opening Fall demand. If manufacturers desire a healthy Fall trade goods must not be crowded on the market in such large quantities as in former years."

NEW YORK DRUG MARKET.

DRUGS AND DYES.—The market generally is very dull, and the transactions mostly in a small way. The sales include 90 cases East India Castor Oil at $1,10 @ $1,14; 10 bbls No. 1 City, $1,10: 50 tons Sal Soda, $1,60 @ $1,62½; 6 bags Honduras Cochineal, 97½ @100 cents; 15 @ 20 cases China Rhubarb, 55; 10 casks Oporto Argols, 15; 50 tons Soda Ash, 2½; 475 kegs Newcastle Bi Carb. Soda, 4; 200 do. Liverpool do, 3¾; 15 casks Dutch Madder, 11½ @ 11¾; 50 kegs Powdered Arsenic, 3¼ @ 3¾; 200 lb. Chlorate Potash, 29 @ 29½; 3000 lb. Oxalic Acid, 19 @ 19½, 6 mos.; 58 ceroons Honduras Cochineal, 9 do. Mexican do, 80 bales Licorice Root, and 1200 lb. Seneka Root, on private terms. The London market for Shell Lac was tending upward. Opium is in ample supply, and the market is quiet. Singapore, 21 March—200 chests Crude Camphor sold at $24 @ $25.

SPECIAL NOTICE.
THE MAYORALTY!
In order to arrive at a distinct understanding as regards a proper and suitable person to fill the civic chair for the coming term, and to be prepared to receive His Royal Highness the Prince of Wales, on his arrival here, to satisfy all parties and the citizens generally, it is advisable for all concerned in the welfare of the city, before arriving at conclusions on any subject of importance or public interest, to remove the bile, clear the system, cool heated blood, and brighten the intellect. In order to obtain these very essential preparatory arrangements, a copious supply of the celebrated Plantagenet Water should be freely taken. If this advice be acted upon, the meeting of the 9th January, 1860, will be more satisfactory than any previous one.

Business Notices.

THE PRINCE OF WALES.
This young Prince, who is now about to visit us, is happily endowed with all the elements of successfully winning the hearts of those who come in contact with him: possessed of agreeable and engaging manners, a symmetrical figure, finely chiselled features, and, above all, of a luxuriantly-beautiful head of hair, which is the admiration of all the Courts of Europe. Evidences of care and attention to his hair—the crowning beauty of man or woman—seems to be a speciality with H. R. H. But what gives it that rich and silky glossy appearance? Reader, shall we tell you? Why, simply BOGLE'S CELEBRATED HYPERION FLUID, which, seven years ago, was introduced to Her Majesty, who graciously complimented the inventor on the excellency of the article, and the euphonious name which it bears (*vide* the original letter from Col. Phipps, in the possession of the inventor, W. Bogle, Boston, U.S.) The Hyperion Fluid has been used since then in the Royal Nursery and at the Toilets of the Nobility, and now supercedes everything as the best article for the hair ever known. It may be purchased of all the Druggists; also, Bogle's Electric Hair Dye, the *best in the world.* 82

BARRY'S TRICOPHEROUS is the best and cheapest article for dressing, beautifying, cleansing, curling, preserving and restoring the hair. Ladies, try it. Sold by all Druggists and Perfumers. 6m 64

Best Hair Dye in the World.—This is rather strong language, yet Bogle's Electric Hair Dye, [recently improved] was *proven* to be so by the judges at the late Mechanics' Fair, held in Boston, (among whom was Dr. Hayes, the eminent chemist and State assayer,) who awarded it the *Prize Medal and Diploma*, over the choicest hair dyes on exhibition from all parts of the Union. Its unparalleled superiority consists in: 1st. The ingredients are nourishing to the hair, not destructive, as others are. 2d. Does not stain nor hurt the skin. 3d. Is easily applied, and dyes the hair any color required, from a delicate brown to a deep black, so natural as to appear marvellous. Manufactured, sold and applied by Wm. Bogle, 202 Washington St., Boston, and may be had of Druggists everywhere. DC 92

BOGLE'S CELEBRATED HYPERION FLUID permeates to the cellular tissue of the cuticle, and instantly forces the hair and moustaches to grow. It cures scurf and all diseases of the skin, and is the most beautiful embellisher of the hair to be found. Price 25 50, and 75 cents per bottle.
BOGLE'S AMERICAN ELECTRIC HAIR DYE magically changes unsightly hair into a beautiful black or brown, without staining the skin. Price 50 cents, $1, and $1,50 per box.
To be had of the inventor WM. BOGLE, an agents throughout the world.
BOGLE'S HEBEAIONA, or BALM OF CYTHEREA, is unrivalled for beautifying the complexion and eradicating tan and pimples.—Price 50 cents per bottle.

PROVINCIAL PARLIAMENT.

LEGISLATIVE COUNCIL.

Quebec, May 16.

Last night after our report left,

A motion for the 2nd reading of a bill for the protection of settlers in Lower Canada was lost; notarial profession laws amendment Bill and Joint Stock Company's judicial incorporation bill were read a second time.

Today bills regarding a by Law passed by the corporation of Toronto; Mount Hope Institute; Joint Stock Road Companies; Eastwood and Berlin Railway Company; To annex to County Levis certain parishes; Board of Arts and Manufactures; To incorporate Three Rivers; were read a third time and passed.

Bills relating to Police forces in Cities and Towns, to incorporate the Metropolitan Fire Insurance Commpany, were thrown out.

Beverly side lines; Stock Gas company; Extension of St. Hubert muncipal division; Separation of York and Peel, and Victoriaville incorporation Bills, were read a 2nd time.

LEGISLATIVE ASSEMBLY.

Quebec, May 15.

Last night, after report left,

Resolutions passed in Committee of Supply on Friday last, were reported.

Mr. Galt moved 2nd reading.

Mr. Brown moved, in amendment, that the resolutions be not now read a 2nd time, but be recommitted forthwith, to strike out the item of $2000 to G. Benjamin, for services rendered as member of the Printing Committee of this House. Yeas 50, Nays 52.

Mr. Brown again moved, in amendment to the main motion, that the resolutions be recommitted forthwith, to strike out item 24, by which it is proposed to assume, as a provincial obligation, a debt of $68,000 for deepening Lake St. Peter. Yeas 43. Nays 63.

Mr. Brown again moved that the resolutions be recommitted, to provide, as a condition of granting item 24, that the tonnage dues now paid to the Harbor Commissioners of Montreal, to defray expense of works on Lake St. Peter, shall not be abolished, but on the assumption of the Montreal Harbor Fund debt by the Province, shall continue to be levied, and the proceeds paid over to the Receiver General.

Yeas 41. Nays 65.

Mr. Cameron moved, in amendment to the main motion, that the resolutions be recommitted, to provide as a condition for granting the item, that the proposition of the Government to abolish all tolls on merchandize passing through the Provincial Canals by way of the St. Lawrence and returning them as merchandize destined for American ports, shall not be carried out. Yeas 41, Nays 59.

Mr. McDougall moved in amendment that the resolutions be recommitted forthwith, to strike out $18,000 for constructing certain local turnpike roads in Lower Canada. Yeas 30. Nays 67.

Mr. Piche moved, that the resolutions be not now read a 2d time, but that an humble address be presented to His Excellency, praying that he will be pleased to recommend an appropriation for opening of communication to the public lands of Upper and Lower Canada, of $64,000, instead of appropriating it to meet interest and expenditure of deepening ship channels between Quebec and Montreal. Yeas 33. Nays 59.

The main motion was then agreed to.

Mr. Galt moved that the House again go into Committee of Supply.

Mr. Brown moved an amendment that the House do not now go into Committee, but that it be resolved that in view of the unsatisfactory state of laws of debtor and creditor in Upper Canada, this House deeply regrets that the anticipations on this subject excited by His Excellency's speech at the opening of the session, have not been realized; and that the attention of Parliament has not been invited by the Government to a measure protecting creditors from frauds by debtors. Yeas 26; Nays 62.

The main motion was then agreed to and the House went into Committee and adopted the items relating to the Baby steamers, &c. The Committee then rose and reported.

Attorney General McDonald moved the House into Committee on the Bill for the promotion of publiu instructions in Upper Canada.

Mr. Brown moved a three months hoist. Yeas 26. Nays 49.

The House then went into committee. Various ammendments were made and reported.

To-day, after routine, Mr. Rose moved the adoption of the resolutions relative to the Baby steamers.

Mr. Brown moved that that resolution be not now read a second time; but that this House disapproves of Government purchasing 5 steamers at $225,545, and views with alarm the declared intention of Government to run the said boat at the expense of the province.—Yeas 39, Nays 63.

The Resolutions were then adopted.

The supply Bill was introduced and read a second time.

THREE DAYS LATER FROM EUROPE.—The Cunard S.S "Europa," from Liverpool on the 5th instant, reached Halifax yesterday. A telegraphic summary of the news, which is interesting, will be found under the proper heading.

THE CORPORATION BILL has now reached the Legislative Council and will probably meet with such obstinate opposition there as will cause it either to fall through, or at least to be sent back to the Lower House where the loss of time will of itself suffice to prevent it from becoming law. We have never supposed that the bill would go through this session. But let not the opponents of the principle of the tax upon personal property and income, suppose that such a temporary defeat insures a triumph for them. For two sessions the measure has been staved-off in the House; but has at length passed there by a considerable majority. It will probably be now defeated, as we have said, in the Upper House; but it will owe this defeat not so much to the opposition, which can be raised against it by the objects or to the tax on personal property, and on income, as to that which will be brought to bear upon it in behalf of landholders possessed of large tracts of vacant ground, and who are desirous of holding this property and deriving the profit on the investment without carrying the same burden that they would have to bear if they had invested the same amount in bricks and mortar, and drew the revenue in the shape of rent. It is the clause which enacts that all real property must be assessed at an annual value of at least 6 per cent on the actual value, which pinches this class, and if that were struck out of the bill a very powerful party among the Legislative Counsellors would be conciliated, and would care nothing for the evils likely to be inflicted on the mercantile classes. We do not suppose that the fears of these landholders have much sympathy from those who are opposing the measure on other grounds; nor, though we believe that there are modifications required to make the scheme of assessments on vacant land perfectly just, do we believe that there is much reason in all the complaints on that side. They have not indeed been very loud but they have come from people who have power. Under all the circumstances, we are still of the opinion which we have always entertained, that the fight against the principle of the personal property and income tax is a hopeless one. By and by, and before very long, the Municipal finances of the City will be in a position to make farther postponement from year to year out of the question. Then, all parts of the City population will be aroused, and the majority, now quiescent, will be active, and they will not be of the same way of thinking as the meetings which have taken place at the Mercantile News Room and the Mechanics' Institute. The probability is that a strife once begun between classes within the City, the minority will find themselves pushed much harder than if they acted with more foresight now. And this strife will take place whenever the time comes for a settlement of the question to be imperative. It has been postponed because means have been found to tide-over the difficulty; but that cannot last forever. It is all very well to propose in some shape new taxes upon real property or on rentals in assemblies where all are favorable to such a course. But call a meeting of the men who return City Councillors and members of Parliament throughout the City, and see whether you have the same unanimity—see whether you get even a hearing. We should be glad if this question could be settled before it comes into the domain of an angry class discussion, and, though we hardly think it possible to make head against the influence we have spoken of, we shall be glad, if even yet, some attempts could be made to pass the bill in a shape not so oppressive as it now is upon that important class of traders who hold large stocks; for let it be remembered that in parliament, whenever the time comes when an extension of taxation can be no longer staved off, and we can hope for no better success there than with the citizens of Montreal. Except when no tangible property can be found in the hands of the tax-payer, in which case the property tax is levied upon the value of one year's income, the assessment on personal property of all kinds, except household furniture and Bank stock, is by law required to be at the same rate as on real estate. In practice we know that this has not been done and we feel sure that the attempt to do it in some overburdened municipalities will lead to a conviction of the absurdity of so high a rate. But we mention this to show how little sympathy a minority in one city, can expect to meet with in opposing a principle legally enforced, in a more highly strained shape, on all the rest of the country. We believe that the great mistake has been made in not adopting for the whole trade of the city the 1 per cent tax on income. The difference between the burdens borne by different traders is so considerable, that a portion of them will be from the first exerting themselves to reopen the whole subject, and the trading community, instead of being allies, will be a divided camp. But it is said that this is inquisitorial. Now, there is one word to say upon that. Can the supposed inquisitorial nature of the tax be a great practical evil? There would be less said on this head if there were more careful attempts to ascertain, with some definiteness, the proportions of the tax. The tax, as originally proposed, of ½ per cent., deducting debts, &c., would have been inquisitorial practically as well as theoretically, because the burden would be so great as to make it a great object to avoid surcharge, just as it will now be an object to prevent such surcharge on stocks in trade. Hence combats with the assessors, in which very disagreeable disclosures might, doubtless, sometimes be required. But what contests and, therefore, what disclosures need there be respecting 1 per cent. on income? Let us suppose one of our thriving mercantile firms over assessed on an income of £1000, £2000, £3000, £4000, or £5,000, not upon their own returns, but upon the charges made for them by the assessors, if, as the bill permits, they decline to make it themselves. What would such a sum as the tax on those surcharges amount to in the yearly outgoings of such an establishment? And for smaller men, whose surcharges might be of £100 up to £500 a year, what again would 1 per cent. be upon this amount? No one, in such a case, will contest the charge. No one will, therefore, be required to make any disclosures. We may be wrong; but it appears to us that this is a view of the case which has not yet been taken, and which, if taken, would remove very much of the present objection. The Provision merchants, probably, like as little as any others to disclose their affairs; yet they prefer to adopt the 1 per cent. on income to the ½ per cent. on stocks, and there is a very large class, who, if they had been at Quebec to speak for themselves, as some of the provision merchants were, would have done the same thing. We are, perhaps, not taking a highly popular course in saying anything in favour of a measure which meets with such general reprobation. It not unfrequently happens that prophesiers of danger are not greatly thanked by those who, in the security of the present, do not understand that they risk a great deal by refusing to give up a little. But our position is at least a guarantee of our desire to secure a measure which will be satisfactory, and especially which will not be injurious to the trade of the city. We are convinced, as we always have been, that the ½ per cent. upon stocks is so monstrous an imposition as to work great detriment in that direction, and we, therefore, trust that it will be changed for a method which we believe will not in operation be found as objectionable as it appears to be at a distance.

PERSONAL.—It is the penalty of our "vocation" to encounter—and despise—the foul aspersions of such lean-witted, eaves-dropping lackeys. The master and the servant are worthy of each other; and alike unworthy of our notice, where the public interest is not concerned—*tel maitre tel valet:*

THE LATE MCGILL COLLEGE CONVOCATION.—The conclusion of Principal Dawson's speech at the recent Convocation went to press uncorrected. The last sentence should have read thus:—"I believe that the training imparted here includes the essence of the higher mental life of this country, and through this the elements of its highest prosperity, and that the exertions and sacrifices made for the University will be fully justified by the event."

In addition fo the gentlemen noticed in the report of the Convocation of McGill College, as having taken the degree of L.A., we have much pleasure in stating that Mr. R.W. Ferrier, B.A., of McGill College, took his degree of M.A., in the University of Edinburgh at the examination in April last. Mr Ferrier is a son of the Hon. James Ferrier and is we believe at present studying for the ministry in connexion with the Wesleyan Church.

POLICE INTELLIGENCE.—Yesterday morning, Mr. Coursol gave judgment in the case of a man, named Jean-Bte. Bertrand, who had been summoned on the day previous for selling liquor without license. Bertrand was fined in the sum of £12 10s, or in default, to go to gaol for three months. The fine was not immediately paid, and the man was remanded. At the Recorder's Court, yesterday morning, nothing was done worthy of mention.

IMPROVEMENTS ABOUT THE COURT HOUSE.—We have been given to understand, that instruction has been received here, by the proper parties, to remove the old Court House. It is to be hoped that this is true, for, besides being an eye-sore, this tottering old place, as we mentioned last week, is in imminent danger of falling down at any moment. The city authorities have long done their best to have this building removed; and at length the Board of Works, we trust, have thought fit to turn their attention to the matter.

FALL OF ANOTHER WALL.—It is only a few days ago since we had the painful duty of recording the fall of a portion of the wall on the Champ de Mars, the consequence of which resulted in the death of a woman. This morning we have to notice the fall of about 40 feet of the side wall of the New Market at the corner of Bonaventure and Mountain streets. Fortunately no person was injured by the accident, though a few minutes before a man and a little child had just passed. The scene presented just now is a woful one of waste—as far as regards bricks and mortar. We trust the contractor, who built this insecure structure, will be held responsible for his work.

The Caledonian Society are making preparations for their Annual Gathering, which will be held during the Celebration week, in August next. Fuller particulars will be given shortly.

DEATH OF LIEUT.-GENERAL JOHN HOME HOME.—It is with deep regret—in which, his "hosts of friends in Canada" will, we feel satisfied, unite with us,—that we record the recent sudden decease of this gallant officer, and former Commander of Her Majesty's forces in North America. General Home, of Bassendean, Berwickshire, and Colonel of Her M's 56th regiment, we learn from late English papers, died on the 22d ultimo, at his lodgings in Pall Mall, London, after a very short illness, aged sixty-three.

MONTREAL ROWING CLUB.—We are glad to learn that several gentlemen who have always taken a great interest in the athletic sports among us, have determined to form a rowing club—an institution which formerly flourished in Montreal, but which for some time past has, from unavoidable circumstances, fallen into decay. A preliminary meeting has already taken place, and what may be called a skeleton organization has been agreed upon. Mr. Philips, 14 St. Sacrament Street, is the *pro. tem.* secretary, and any gentlemen desirous of making one of the crew may communicate with him.

CURLING.—The matches in which the "Montreal Club" (the veterans) were engaged the past winter have, through some unaccountable omission, remained unchronicled. The Club, although not quite so successful as usual, has managed to maintain a very high position. The first match of the season was against the "Thistle Club," in which, for the third time in succession, the "Old Club" was completely victorious, but from the hard struggle the "Junior Club" made to *stave off defeat*, there is no doubt, if it perseveres and contrives to enlist a few more keen recruits, it may yet hope for better things.

The following is the score:—

RINK NO. 1.			
Montreal	23	Thistle	31
RINK NO. 2.			
Do.	31	Do.	19
RINK NO. 3.			
Do.	31	Do.	22
RINK NO. 4.

RINK NO. 5.			
Do.	31	Do.	22
RINK NO. 6.			
Do.	25	Do.	6
	171		110

The "Montreal Club" winning by 61 shots. The next match was against four players of the "Kingston Club," which was very keenly and closely contested, for when time was called the "Montreal Club" had counted 25 and the "Kingston" 24. Then came the match with those—*perfervidum ingenium!*—tough and steady customers, the sons of "Old Scotia," the Caledonians, who gallantly carried off the palm.

There has been no skip matches for the last two years, the skips of the other Clubs, after their former defeats, probably, not thinking it prudent or expedient to challenge the veteran skips, who may now, from their achievements, be considered invincible.

HARDWARE.—The catalogue sale by A. Bryson & Co., at their Stores, No 275 St. Paul street, will be continued to-day at half-past 2 and 7 o'clock punctually, and carried on at these hours from day to day until all the lots in the Catalogue, and a large assortment of valuable goods not included in it, shall have been disposed of.

CORRESPONDENCE.

To the Editor of the MONTREAL HERALD.

Sir,—May I ask through your columns if there is not a law against opening graves in the Old Protestant Burying ground after the first of May? During these warm days it seems dangerous to the health of the city, yet every day removals are made of long-buried dead to the Mount Royal Cemetery.

A NEIGHBOR.

May 15, 1860.

CLAIMS OF THE VOLUNTEERS ON THE CITY.

When danger's rife, and wars are nigh,
God and the soldier's all the cry:
When wars are o'er, and matters righted,
God is forgotten and the soldier's slighted.

At a meeting of the Officers of the Active Force, called together by the Commandant, at the Brigade Orderly Room, to take into consideration the best mode of proceedure to be adopted in consequence of the Corporation refusing the payment, now due them by that body, for certain services rendered, in aid of the Civil Power, during the last civic elections, decided, unanimously, upon forwarding a Memorial, of which the following is a copy, to His Excellency the Governor General and Commander in Chief, praying for such redress as the case merits.

The Memorial of the undersigned, Officers of the Active Volunteer Militia Force, belonging to the Montreal Volunteer Brigade, who were called out in aid of the Civil Power during the last Municipal Elections for the city of Montreal,

RESPECTFULLY SHEWETH:

That your Memorialists, in the month of February last, were called upon by the proper authority to aid in preserving the peace of the city of Montreal during the Civic Elections then pending. In command of their men they obeyed this call cheerfully and promptly,* and did duty for five days successively, at considerable inconvenience, and at whatever risk might have ensued to themselves either immediate or prospective. This duty performed, and the peace of the city preserved, they believed themselves justly entitled to be paid for the services thus performed—*pro rata* of their rank. They are now informed, after a lapse of nearly three months, that they are not entitled, by Law, to any pay, and are not to expect it for any services then rendered. If the Corporation thus dishonestly persist in interpreting the Law to their own advantage after availing themselves of your memorialists services when they were needed, a gross injustice will be practised towards them, and one which will tend hereafter seriously to impair the efficiency of the Force. It is manifestly absurd to expect that men can be employed on any duty without their Officers, it is equally so to expect the latter to give up their business and employments, and incur certain risks without any prospect of remuneration. Your memorialists feel that a great principle is involved in this matter, which, in justice to themselves and the rest of the Force, they feel bound to maintain to the utmost. If compelled to serve one day without pay they may be compelled to serve many. A doctrine of this kind is so totally at variance with our common rights as citizens as to need no comment. Your memorialists therefore, in defence of what they conceive to be their just rights, beg leave most earnestly, yet respectfully to lay their case before Your Excellency as their Commander-in-Chief, praying for your intervention in the matter, and for justice in the premises.

The whole nevertheless respectfully submitted.

Signed by the Commandant and all the Officers employed.

Montreal, 14th May, 1860.

*It may be added that, though the resolutions relate to the officers exclusively, the men have not yet been paid.

ANOTHER FIRE IN OTTAWA—ELEVEN BUILDINGS DESTROYED.

(From the Ottawa Citizen.)

Again it becomes our duty to record another and more disastrous conflagration than any of its four precursors, which have all occurred within a month. Scarcely have the smouldering embers of one fire gone out ere another more appalling in its consequences visits us.—About 10 o'clock on Tuesday night the bookstore of Mr. Ritchie, situated in the middle of a three story wooden block of eight stores, on the north side of Sparks-street, Centre Town, was discovered to be in flames, and before any effectual means could be taken to stay the spread of the fire, the buildings on each side ignited, and soon the whole range became one mass of flame, defying every attempt to extinguish it.—To save as much as possible of the contents of the buildings seemed the only way of rendering service, and to the performance of this duty many of our citizens energetially applied themselves. While thus engaged, the flame was wafted across the street and ignited the premises of Mr. H. M'Cormick, flour merchant, which soon communicated the devouring element to the adjoining stone store of Mr. A. M'Cormick, grocer, and the large stone hotel of Mr. Richard Bishop; each of which in turn succumbed to the flames and became a mass of ruins—except the hotel, the walls of which are still standing and apparently uninjured, though its interior was completely destroyed. The firemen were unable to render efficient aid in consequence of the poor supply of water. Four stores in the wooden block were owned by Mr. Chas. Laporte, and the other four by Mr. James Lang. They were occupied by Mr. Minore, cabinet-maker; Mr. James Lang, painter; Mr. Gauthier, innkeeper; Mr. Ritchie, bookseller; Mr. H. Lang, gunsmith; and Messrs. Walkley & Hay, marble-dealers; the other two were vacant. Mr. Lang's portion of the block was insured for $1,800, which will not cover his loss by about $1,200. Mr. Laporte had no insurance, and is a loser to the amount of about $3,000. The only stocks insured in this row belonged to Minore and Ritchie, whose insurance will cover their losses. Most of the marble of Walkley & Hay was saved, though in a somewhat damaged state. Gauthier lost almost everything; so did the Messrs. Lang. From the buildings on the South side of the street, most of the contents were removed; though the furniture of Mr. Bishop's hotel was much damaged in its removal. H. McCormick was insured for $1,200, which will leave him a loser in the sum of about $2,800. A. McCormick had an insurance of $2,000, which does not cover his loss by about $2,400; and R. Bishop, who was insured for $1,600, will lose some $2,500. Though the fire broke out in the store of Mr. Ritchie, it is not known how it originated, as no one was in the premises at the time.

CAPTURE OF THE SLAVER WILDFIRE.

KEY WEST, May 6, 1860.

The Mohawk sailed from Key West on the 9th of April, and had two or three exciting chases after suspicious craft. On the 23rd she put into the harbnur of the Neuvitas, and remained there until the 25th, when she took the American brig in tow, and carried her outside of the reefs. She remained in company wite the brig until the next morrning, when, discovering a sail, she cast off the brig and made chase.

There being no wind, the sail was speedily approached. she was evidently an American built vessel, but having no name upon her stern she was requested to show her colors, in response to which the American flag was hoisted. As the Mohawk ranged alongside, men were observed at work in the rigging, others about the decks—while the captain and his officers coolly leaned upon the rail observing the steamer's movements. She did not look like a slaver but Captain Craven ordered Lieut. Carpenter to board her. As the boat approached the vessel, it was evident that the visit was not agreeable.

The lieutenant boarded the vessel, and was no sooner on her bulwarks than he waved his sword, and the men in the boat raised a shout, a signal that she was a prize. The moment that the slaves, who had just been driven below, caught sight of the officer's uniform they sang with joy. They knew that their deliverers were at hand.

The bark prove to be the Wildfire. She sailed from New York on the 16th December, 1859 with an American crew, for West Indies. She made a good run to St. Thomas, where she remained eight days, and then sailed for the Congo river. She took on board 603 slaves the night of March 21. When they left the coast the American captain and crew were superseded by a Spanish captain and crew, the former then acting as passengers. This cargo consists of children and young men and women, the majority being from twelve to sixteen years of age. The negroes, since their transfer to the shore, seem happy and contented.

BOOKS AT REDUCED PRICES.

THE Subscribers have great pleasure in informing their customers and the public generally, that, in view of the Repeal of the Book Duty, they will in future sell Books at NEW YORK AND BOSTON PRICES, and English Books at a corresponding reduction. They have also effected an arrangement, by which they can in future supply the CORNHILL MAGAZINE and MACMILLAN'S MAGAZINE at the largely reduced rate of $3 per annum.

The Cornhill Magazine, Edited by W. M. Thackeray, has now attained a circulation (100,000 copies monthly) unparalleled among English periodicals.

Macmillan's Magazine, established only in November last, has reached a very large cirlation. David Masson, Rev. T. D. Maurice, and Thomas Hughes, author of "Tom Browne's School Days," are among its contributors.

The period of any paid up subscriptions to these Magazines will be extended to meet the reduction.

TERMS OF SUBSCRIPTION,

IN AID OF THE BUILDING FOR THE

Exhibition of Arts and Industry,

TO BE HELD IN MONTREAL IN 1860,

ON THE OCCASION OF THE VISIT OF

H. R. H. THE PRINCE OF WALES.

THE Board of Arts and Manufactures for Lower Canada, under whose direction the above Exhibition is to take place, had not contemplated any direct appeal to the citizens of Montreal in behalf of the Exhibition. The object is Provincial rather than Local, and any aid which could fairly be asked of the City could, it was supposed, be obtained through the City Council. A majority of that body appears, however, to be of the opinion that no aid can be given, except on conditions with which, for reasons already laid before the public, the Board did not think it possible to comply. It is fully believed that the immense advantages to be derived from the Exhibition must so commend themselves to the Citizens, as ultimately to overrule the objections of Members of the City Council; but in the meantime it is necessary to provide a Building as creditable as possible to the Province and to the City; and to secure this end, as well as to enable the City to take that part which becomes its interest in this important undertaking, this Board has determined to solicit a Subscription for the purpose of erecting the Building, which the Board will use every exertion to make at once an ornament to the City, and of great and permanent utility to the people of Montreal.

The Board has resolved to make provision, that, inasmuch as the number of visitors to be admitted on the occasion of the Inauguration of the Exhibition, in which ceremony it is expected that His Royal Highness the Prince of Wales will take part, will necessarily be limited, places will be reserved for Subscribers of the following amounts, viz.:—For every Subscriber of $20 or upwards, tickets for a Gentleman and Lady to *reserved places* at the Inauguration, and admission for the whole period of the Exhibition; for every Subscriber of $10 or upwards the same privileges for one person, or for admission to Inauguration alone; for every Subscriber of $5 or upwards, a ticket for admission to the Inauguration alone. The admission on the occasion will be strictly limited to the number that the building will comfortably contain.

Lists will be found at Dawson's Book Store, and at the Board Rooms, Mechanics' Hall.

SIDNEY FORD JONES & CO'S

DAILY

Through Line of Freight Steamers

BETWEEN

Montreal, Toronto, Hamilton & Port Dalhousie.

WE beg to advise the Public that, having made arrangements for a connexion with the Steamers *MAGNET* and *OTTAWA*, which, together with our own Steamers *WHITBY, OSHAWA, RANGER* and *PROTECTION*, will make a LINE of SIX STEAMERS, enabling us to SHIP GOODS DAILY, and thus avoid the delay that occurs when there are not a sufficient number of Steamers in a Line. All Goods entrusted to our care will receive attention and despatch, and will be carried at LOWEST CURRENT RATES of FREIGHT.

Having made arrangements with the several Railroads, we are enabled to carry GOODS at THROUGH RATES for all places herein named:—

Ports on Lake Ontario and River St. Lawrence.

Toronto, Hamilton, Port Dalhousie, Cobourg, Port Hope, Kingston, Newcastle, Darlington, Bowmanville, Oshawa, Whitby, Bronte, Oakville, Port Credit, Wellington Square, Brockville, Gananoque, Prescott, Ogdensburgh and Edwardsburgh.

Canadian Ports on Lake Erie, Port Dover, Port Stanley

Places on Welland Railway.

St. Catherines, Thorold, Port Robinson and Port Colborne.

Places on Great Western Railway.

London, Guelph, Chatham, Windsor and Sarnia.

Places on Buffalo and Huron Railroad.

Caledonia, Brantford, Paris, Stratford, Clinton, Seaforth, Mitchell and Goderich.

Places on Brockville & Ottawa Railroad.

Smith's Falls, Perth, Carlton Place, and Almonte.

On Lakes Huron, Erie and Michigan.

Cleveland, Sandusky, Toledo, Detroit, Chicago, Milwaukie, Bruce Mines, Wellington Mines and Sault Ste. Marie.

IMPORTERS will please bear in mind the necessity of having Duplicate Invoices and Bills of Lading of all Goods Shipped from abroad addressed to us at Montreal, so as to enable us to pass the Entries at Customs immediately on arrival of the Ship, and thus avoid delay, which most generally occurs when this is not done.

☞ For Down Freight, please communicate with our Toronto Agent, Mr. ROBERT BYERS, No. 50 Front Street (up stairs).
