Quebec, May 20, 1859. 1m

REMOVAL.

J. BROWN & CO. have REMOVED to No. 23, ST. PETER STREET, opposite the Quebec Bank.

Quebec, May 6, 1859.

NOTICE TO MARINERS!

THE TIME BALL in the CITADEL, each day, (Sunday excepted,) at HALF-PAST TWELVE will be hoisted half-mast, at FIVE MINUTES before ONE it will be hoisted to the mast-head, and at ONE o'clock, MEAN TIME AT OBSERVATORY, the BALL will be DROPPED. A Chronometer keeping correct Greenwich time, should then shew 5h. 44m. 49s., and the difference between this, and the time shewn by a Chronometer, is its true error on Greenwich time at that moment;—As it is "Greenwich time" that the Observatory shews when the Ball is dropped it is no matter where the ship is lying, for instance, if a ship half-way across the Atlantic could see the Ball drop, the difference between 5h. 44m. 49s. and the time shewn by the face of her Chronometer, would be its error on Greenwich time.—A ship on arriving should compare her Chronometer by the TIME BALL, as it will enable her to get her "Sea Rate," which seldom or ever agrees with "Harbour Rate."

—EXAMPLE:—

May 23rd, 1859, the Barque "Nancy," of Bristol, on leaving Liverpool found her Chronometer (Dent. 728) fast on Greenwich mean time, 0h. 4m. 57s.—June 20th she anchored at Quebec, and when the Ball dropped her Chronometer shewed .. .. 5h. 50m. 42s.
Greenwich Mean time when Ball dropped .. .. 5h. 44m. 49s.

June 20th, Chronometer fast on Greenwich mean time,. 5m. 53s
May 23rd, " " " 4m. 57s

No. of days.. .. 28 | 56s.

Sea Rate,... .. 2s.

Again, on June 27th when Ball dropped Chronometer shewed 5h. 50m. 54s.
June 20th, Chronometer shewed 5h. 50m. 42s.

No. of days,....... 7 | 0m 12s.

Harbour Rate...... 0m. 1·7

By paying attention to the Sea and Harbour Rates, under different temperatures, the intelligent master of ship will be able to arrive at a better rate for his Chronometer than could be obtained in any other way

It is strongly recommended not to send a Chronometer on shore, when they can be so easily rated on Board, and no one who has the interest of his ship and the wellfare of his owners at heart, will ever give his Chronometer to the charge of another, if it is possible to avoid it.

Should the ship be loading timber, the Chronometer can be slung to the loom of an oar (one end being made fast, the other affords a spring,) that will save the Chronometer from any jar or injury.

OBSERVATORY, { Latitude...46° 48, 30" / Longitude,. 4h. 44m. 49s.

E. D. ASHE,
Lieut. Royal Navy, F. R. A. S.
Director.

Quebec, May, 1859.

☞ These vessels will also carry Passengers on their Return Voyages from Quebec to Europe.

For Passage Tickets from Hamburg to Quebec, and from Quebec to Europe,—Apply to

FALKENBERG & McBLAIN,
Agents.

Quebec, May 25, 1859. 4m

To Ship-Masters AND SHIP OWNERS.

THE undersigned begs to inform his friends and the public in general, that he has considerably enlarged his Establishment and is now ready to undertake all kind of work in his line.

He has also TO LET, THREE STEAM ENGINES for discharging Vessels, Pumping out wrecks, and Moulinetting Timber in the booms; also well adapted for discharging barges laden with Oak Timber.

Winches, Rafting Chains, Jack-Screws, and every thing necessary for the loading of Ships, can be had at the shortest notice.

All orders left with Mr. ROBERT STRIDE, St. Peter Street, will be attended to with despatch.

HUBERT JALBERT,
Ship-Smith,
Spencer Cove.

Quebec, May 4, 1859. 7m

Quebec Timber Towers' Association.

THE TIMBER TOWERS of Quebec having formed themselves into an association for the purpose of securing a fair remuneration for their work, and also for the purpose of binding the members to assist one another, when, in consequence of accident or otherwise, the property entrusted to the charge of any of the members of the Association is in danger of being lost, the following TARIFF of PRICES has been adopted, which will in no case be deviated from:—

For towing the cargoes of Vessels,—

Under 300 Tons,		£3 0 0	per hund. Tons
301 Tons to 400	Tons,	2 15 0	do
401 "	to 500	" 2 12 6	do
501 "	to 600	" 2 10 0	do
601 "	to 700	" 2 7 6	do
701 "	to 800	" 2 5 0	do
801 "	to 900	" 2 2 6	do
901 "	to 1000	" 2 0 0	do

Every additional 100, £2 per hund. Tons.

And if by the stick,—for portions of Cargoes 6d per stick when towed from ponds to ships on the same side of the river;

—AND—

7½ per stick if towed across the St. Lawrence or from the St. Charles.

By the Lump—No charge to be made for 30 pieces remaining, but over that 6d or 7½d a-piece as above.

Deals floated, 3s per standard hundred.

The above rates are exclusive of any charge for the hire of ropes, chains, &c.; the Timber Towers being only obliged to furnish boat and men.

A deduction of 10s per hundred tons to be allowed when the vessels take the whole of their cargo from a boom directly opposite their mooring berth.

☞ In the above tariff the tonnage is calculated according to the old measurement.

☞ Mr. MILES KELLY is the duly appointed Agent in conformity with the Rules and Regulations of the Association, to receive and collect all monies due to any of the Members during the Season.

38¼, Diamond Harbour.

Quebec, May 11, 1859.

NOTICE TO ARCHITECTS.

PLANS AND DESIGNS FOR THE SEVERAL Public Buildings proposed to be erected in the city of Ottawa, addressed to the Honble. Commissioner of Public Works, will be received up to the

FIRST DAY OF AUGUST NEXT,

at the Office of the Department of Public Works.

THEY ARE TO COMPRISE:—

1st. Elevations, Plans, Sections, Longtitudinal and Transverse, Specification and estimate of Buildings for the Provincial Parliament and Library, the latter to be fire-proof.

2nd. Elevations, Plans, and Sections, with Specification and Estimate of the Buildings for the Public Departments.

3rd. Elevations, Plans, and Sections, with Specification and Estimate of the residence for the Governor General, with all the requisite out-offices, &c.

4th. For the most approved sets of designs for the Parliament Buildings, £250 will be awarded as the First Premium, and £100 as the Second.

For the Public Departments, £250 will be awarded as the First Premium, and £100 as the Second.

For the Government House, £100 will be awarded as the First Premium, and £50 as the Second.

The plans selected to become the property of the Commissioner of Public Works.

The above edifices are proposed to be built in a plain substantial style of Architecture, of Coursed hammer-dressed Masonry, with neatly pointed joints, and cut stone quoins, window dressings, cornices entablatures—the Material being found in the vicinity of the City of Ottawa—interior walls to be of brick-work.

The Commissioner of Public Works, with a due regard to ample accommodation, and the most approved arrangements for ventilation and heating, limits the expenditure on these Public Edifices to the following outlay:—

For Parliament House..............$300,000
For Departmental Buildings........ 240,000
Government House and Offices...... 100,000

Due provision to be made for the supply of Water, Gas, &c., &c., &c.

The Drawings are to have a motto attached thereto, accompanied by a sealed envelope containing the name and address of the competitor, only to be opened upon a selection of the designs answering to the motto aforesaid.

All information as to the sites for the Buildings, their sizes, the number of rooms, &c. &c. necessary to the preparation of the Plans, can be obtained at the office of the Department.

MRS. GORDON'S SEMINARY

For Young Ladies,

5 and 6 Argyll Terrace, St. Catherine Street, **MONTREAL.**

THE course of instruction imparted at this Seminary is meant to embrace—without sacrificing either to the other—both the knowledge and accomplishments which are called for by the growing requirements of the age; and, along with History, Geography. General Literature, Music, and Drawing, a prominent place is assigned to the conversational use of the French and German languages.

The Boarders are considered and treated in all respects as members of the family; and conscientious care will always be bestowed on their health, comfort, and manners, as well a on their religious and moral culture.

Reference is permitted to the Revd. Dr HELLMUTH, Quebec.

May 23, 1859. 4w-3aw

PROSPECTUS OF La Banque Nationale

[*Incorporated by Act of Parliament.*]

FOR several years past, the public opinion has been prepossessed with a desire to see established in Quebec a Bank the principal object of which would be to protect the interior trade and industry of this country.

It is unquestionably admitted that the inhabitants of Quebec and its environs possess within themselves all the necessary elements to found an institution of this kind, with the best possible security for conducting its attendant business with economy, and profit, while at the same time its prosperity would be alike honorable to its promoters, supporters, and the community at large.

It is therefore but just that those among us who have studied that particular branch of finances should endeavour, with the assistance of their fellow-citizens, to found an institution which would give to the legitimate wishes of the inhabitants of the District of Quebec, to the numerous acting interests, and to exigencies of the local trade all the necessary securities to order, prosperity and independence.

We think the time has now arrived for us to take up energetically the project of founding in Quebec a Bank which would attain the objects we have above alluded to. It was especially with that intention that on the 15th December last a Circular, signed by ten of the most influential citizens in the Trade, Finances, Professions, and Industry, was addressed to a certain number of the citizens in the different Wards of this City, requesting them to attend a meeting for the purpose of taking into consideration the expediency of founding in Quebec a Bank of Circulation having for its object "the protection of the inland trade and "industry of this country."

The meeting was attended by a large number of persons of influence and standing in the city, and the subject was so favorably entertained, that measures were immediately taken to petition the Legislature at the following session for an Act of Incorporation.

We have now the pleasure to state that the Legislature, admitting the necessity of encouraging the establishment of "La Banque Nationale," passed an Act of Incorporation in favour of that institution.

We cannot too strongly approve of the intention of the Provincial Legislature in giving special and particular attention to the class of securities which the public interests should ever command from institutions of this kind.

The Legislature cannot be too stringent on that point. At the same time it does not deviate from established rules and laws which protect the public in the formation of Chartered Banks, the Act of incorporation of "La Banque Nationale" provides some restrictions which tend to connect the people with the conservation of this Bank by their own interest. For, in the fact that the shares are of a sum proportionate to the means of the majority, especially of industrial classes, and that the small stock of each one will be invested in the Institution, the Shareholders of "La Banque Nationale" will be its natural supporters.

It is for the citizens to second us, each one to the extent of his means, and with that intention we have decided to make an appeal to the public.

It is unnecessary to enter into long details upon the general object and spirit of Banking institutions. This would involve a series of explanations which cannot make part of a prospectus.

It will suffice to say that the action of the Bank tends incessantly to augment the invested Capital by the amount of interest accruing, and to reduce at the same time proportionally the rate of interest; it creates a competition for Capital, it procures an interest, at the same time that it removes the chances of loss, and it furnishes a constant credit with almost regular conditions, in view of which the trade establishes its operations

To those who possess capital, it offers an advantageous investment, which can always realize its current value; to those who are engaged in trade, in the mechanical and industrial professions, it furnishes means to multiply their capital by the credit and the circulation of notes The proof of these statements is found in the fact that the Banks in Canada with few exceptions, have given to their Shareholders 8 per cent annual profit for many years, and that the shares are generally quoted at a premium varying from 8 to 16 per cent

This being assumed, we will enter in the principal objects of security and which is imposed by the act of incorporation of "La Banque Nationale."

1. The majority of the Shareholders, in number and value, must be British subjects. This has been wisely adopted, in order to avoid the hazardous speculations of our neighbours of the United States.

2. The subscribed Capital of the Bank must be One Million of Dollars, and the whole must be paid up in a period not exceeding five years from the day on which the Bank commences its operations. However, as soon as a sum of $400,000 is subscribed, and 25 per cent thereof paid in, the Bank can commence its operations. In view of being sooner available to the exigencies of the trade, and with the intention of paying interest as soon as possible to the Shareholders, we have decided upon having first subscribed a sum of $400,000 payable in the following manner, which, we think will meet with general approbation, viz: on each share of $50—

10 per 100	or $5	per share,	1st July	next
10 " "	or $5	" "	1st August	"
5 " "	or 2.50	" "	1st Sept.	"
5 " "	or 2.50	" "	1st Oct.	"

And so on, (5 per cent) as mentioned in the following tableau, viz:

5 per 100	or $2.50	per share	1st Nov.	next
5 " "	or	" "	1st Dec.	"
5 " "	or	" "	1st Febr.	1860
5 " "	or	" "	1st April	"
5 " "	or	" "	1st June	"
5 " "	or	" "	1st July	"
5 " "	or	" "	1st Aug.	"
5 " "	or	" "	1st Sept.	"
5 " "	or	" "	1st Oct.	"
5 " "	or	" "	1st Nov.	"
5 " "	or	" "	1st Dec.	"
5 " "	or	" "	1st Jany.	1861
5 " "	or	" "	1st Feby.	"
5 " "	or	" "	1st March	"

According to this scale, the institution could commence its operations between the 1st Sept. and the 1st Oct. next, with a paid up capital of 100,000 dollars, the same increasing afterwards as above stated, up to the month of March 1861, when if it is necessary, an additional sum may be subscribed.

Should any person subscribing stock, wishes to pay the whole amount of his subscription at once, it can be legally done, and in that case, dividend will be payable on the whole sum paid in.

3rd. The Board of Directors will be composed of seven members holding twenty shares at least of the Capital of the Bank, all paid up, and to be yearly elected by the Shareholders.

4th. Not less than three Directors must be present at any of the meeting of the Board for transacting business, and all the Rules and Regulations which the Board might make or change, must be approved of by the Shareholders either at the annual meeting, or at a special meeting.

5th. Neither the cashier, assistant cashier, clerk or other officer of the Bank, will be permitted to vote, either in person, or by proxy at any of the meetings held for the election of Directors, nor can they act as attornies for that purpose.

6th. It shall not be lawful to grant more than a twentieth of the whole amount available for discount at any time, on any note or paper bearing the name of a director of the Bank or that of the house or firm of which he may be a partner.

7th. Besides a detailed statement of the affairs of the Bank to be laid yearly before the Shareholders, the Directors must publish monthly in the Canada Gazette, a statement of the Assets and Liabilities of the Bank.

We hope that this enterprise will be well appreciated by the public, and that we shall receive the encouragement, we have every reason to expect, and on which we rely. An institution of this kind, managed with all necessary precautions can and must be useful in a city where the export trade and ship building annually require and absorb a large Capital.

If it be thought our object is an opposition to other institutions of the kind already established in Quebec, it is an error. But we have inferred that a new Bank would easily find place in this city, and that it would be welcomed by the old Banks which are florishing in our midst having a constant and most productive employment of their capital.

The position (among the citizens of Quebec) of those who are taking an active interest in this enterprise, is a sufficient security that the institution will be well managed, and that it will to the extent of its means meet the wants of the local trade and help to stimulate the spirit of enterprise in our extensive and populous district.

The Board of Provisional Directors named by the act of incorporation is composed of

The HON. U. J. TESSIER,
M. M. ISIDORE THIBAUDEAU,
EUGENE CHINIC,
CIRICE TETU,
DR. OL. ROBITAILLE,
DAVID DUSSAULT,
PRUDENT VALLEE.

As soon as a sum of $400,000 is subscribed and 10 per cent. of this capital paid up, a meeting of the Shareholders will be held for the election of Directors to replace the Board of Provisional Directors.

The Stock Book is now open at the office of the undersigned, in the Building of Notre Dame Saving's Bank, St. John Street, Upper Town, and that gentleman is authorised to receive the names of subscribers. The office will be open daily from 10 to 3 o'clock.

By order of the Provisional Directors.

F. VEZINA,
Provisional Treasurer.

Quebec, 1st June, 1859.

Agency for the Settlement of the Elgin and Tache Roads,

ST. JEAN PORT JOLI, May, 1859.

THE undersigned Agent appointed by His Excellency the Governor General for the Settlement of the Elgin add Taché Roads, running across the Counties of Dorchester, Montmagny, L'Islet, Kamouraska, &c, &c., on the South Shore of the St. Lawrence, L. C., hereby gives notice to all persons willing and having the means of locating thereon, that the lots on the Elgin Road are now ready for location. His Office will be (for the present) at St. Jean Port Joli, and will be open every day in the week from 9 A.M. to 4 P.M.

Grants of One Hundred Acres will be made to any settler eighteen years old subject to the following conditions, viz:

To take possession within one month, and to put in a state of cultivation at least twelve acres of land in the course of four years; to build a house (at least 20 × 18) and to reside on the lot until the conditions of settlement are duly performed; after which accomplishment only shall the settler have the right of obtaining a title of property. Families comprising several settlers entitled to lands, preferring to reside on a single lot, will be exempted from the obligation of building and of residence (except upon the lot on which they live), provided that the required clearing of the land be made on each lot The non-accomplishment of these conditions will cause the immediate loss of the assigned lot of land, which will be sold or given to another

The Roads having been opened by the Government, the Settlers are required to keep them in repairs

The most direct route to the Agency is by Steamers from Quebec to St. Jean or by land *via* Pointe-Lévi.

STANISLAS DRAPEAU,
Agent for Elgin and Taché Roads.

QUEBEC, JUNE 11, 1859.

Messrs. Forsyth, Bell & Co.'s Timber Prices Current, printed on letter paper, may be had at this office, and at Mr. Jackson's, St. Peter Street.—Price 3d.

We publish to-day a summary of the proceedings of the Synod of the Anglecan Church in the diocese of Montreal. It would be inconvenient, at this season of the year, to attempt to publish an abstract of Bishop Fulford's opening address, or of the several speeches delivered by the Clerical and Lay members in the course of the proceedings. A full report of the whole may be found, by easy reference, in the Montreal Herald of Thursday, and another is promised in the Montreal Gazette. His Lordship's address will be found well worthy of perusal; some of our friends will, of course, think it a one-sided view of the question, and all in favor of episcopal authority. It is very natural that it should be so; and it will be readily acknowledged that the sentiments and arguments are expressed in calm, dispassionate and persuasive language. It would appear from the small number of votes given on the resolutions and amendments, which followed, that the Bishop's method of treating the subject produced a strong impression; for it would be difficult otherwise to account for the circumstance that, in a meeting consisting of 140 members, not more than half the number at any one time thought it necessary to give their suffrages on questions that were considered of great importance. It will be observed that the first resolution, which was presented for the acceptance of the Synod, involved three distinct fundamental principles: the acceptance of the Acts constituting the Synod, the necessity of the concurrence of the Bishop, the Clergy and Laity to give force to any canon law or regulation; and, thirdly, the power of voting by separate orders. Several attempts were made in successive amendments to have these points taken into consideration *per se*, and to divide the resolution at least into two parts. These attempts appear to have been resisted with firmness but in a temperate manner. Although his Lordship expressed no objection to a separation of the clauses it was, however, plainly intimated that a majority of the clergy and many of the Laity would not consent to accept the Acts for constituting a synod without a simultaneous affirmation of the principles enunciated in the latter part of the resolution. If (said the Dean) the motion were divided, a synod might be constituted, which would proceed immediately to deprive the Bishop of his rights. He could only agree, therefore, to constituting the Synod, on condition that these rights were preserved. Those persons professing opposite opinions appear to have brought forward their objections in a spirit of moderation, and not from factious motives. The Rev. Cannon Bancroft, who might be regarded as the leader of the opposition, said that he considered it as his consistent duty to endeavor to get those sentiments, which he had openly professed, established; but should he not succeed he would submit, and would cordially aid in carrying out the determination of the Synod whatever it might be. We cannot help regarding it as fortunate that the Members of the Synod of this Diocese will have the proceedings and conduct of their brethren of Montreal before their eyes, as an example of the temperate spirit and the rational manner, in which so grave a duty should be undertaken and carried out. There are several other remarks, which we should have liked to make on this occasion, but the feelings excited by prejudice and misapprehension polemical on all questions, are so bitter and so uncompromising that we forbear.

We are requested by the Chairman of the Committee of the City Council, appointed to carry out the proceedings for celebrating the Queen's birthday to state, that on the day following that on which the several accounts connected with the expenses incurred were passed by the Council; he was informed by Mr. Forsyth, one of the Churchwardens of the English Cathedral, that the charge for ringing the bells was made without the knowledge or authority of the Churchwardens; and that at the same time, Mr. Forsyth requested that the bill sent in should not be paid by the Corporation, as the wardens would settle it themselves We have but to add, that the account in question (although sanctioned as already stated) has not been paid by the City Council.

The steamer "Bowmanville" Capt Charles Perry, arrived here yesterday afternoon at 5 o'clock from Toronto, which place she left on Wednesday, on her second trip, with a large load of freight and cabin passengers for Quebec, principally government employees. She has part of her load engaged for a third trip, which will be about the 17th instant. She leaves for the West this evening.—See advertisement.

There will be a religious service, D. V., in connection with the City Mission, on board the barque "Glasgow," Dumlin's wharf, at 10½ A. M.; on board the "Lady Seymour," at Black's booms, at 3 in the afternoon; and on board the ship "Olive," Martin's wharf, at 6 in the evening to-morrow Sunday.

ACCIDENT TO THE EDINBURGH.

St. Johns, N. F., June 8.—The steamship *Edinburgh*, from New York for Glasgow, put in here at 7 o'clock last evening with two of her compartments full of water, having struck an iceberg on Monday at 11:20 A.M., one hundred and eighty miles east of St. Johns, in a dense fog. The iceberg was first discovered directly ahead, the ship being in lat. 47 40, long. 48 20. The helm was put hard a-port, and she passed close alongside without touching the part above water, but struck under water a little abaft the port bow, and stove in one of her forward plates. The engines were stopped and backed, but the ship had passed the iceberg before her way was stopped. Two foremost compartments filled almost immediately with water. The pumps were quickly set going and sails and bedding lowered over into the boats. All the male passengers assisted the crew in working the pumps and bailing. There was a dense fog all day Monday and Monday night, with rain, wind fresh but sea smooth.

At noon of Tuesday an observation was taken for the first time for three days, and the ship was found to be in lat. 47 41 N., long. 50 29 W., distance from St. Johns 47 miles. At — o'clock made the land, all hands working vigorously at the pumps, and bailing, to keep the ship from sinking. The water was only kept from flowing into the other compartments by their incessant labor. The passengers speak in the highest terms of Captain Cummings' conduct throughout. Every preparation was made, even to preparing the small boats and providing them with provisions, clothing, etc. The different boats were distributed, and lists of the male passengers, were also carefully prepared. The lady passengers sat up all night, ready dressed to embark. By six o'clock, Tuesday morning, a number of the male passengers had become exhausted, and yet the severe labor imposed upon them was continued until she reached port. All the passengers and crew are safe.

The Captain speaks of the passengers as having behaved with the utmost coolness, and laboured unremittingly for thirty hours. The extent of the damage is not ascertained, but the ship will probably have to undergo repairs.

☞ There will be Divine Service, D. V., in connexion with the Church of England, on board the ship Commerce, lying at the Ocean Steamship Wharf, on Sunday next, at half-past three o'clock P.M.

THE ANGLICAN SYNOD.

[Reported for the Montreal Gazette.]

At Montreal, on Tuesday, the Anglican Synod met at St. John's Ocurch, in that city: 43 clergymen and 91 lay delegates were present.

The Morning Service was read by the Venerable Archdeacon Gilson; the Very Rev. Dean Bethune read the lessons, and the Rev. Mr. Bond preached the sermon from 1 Corinthians, 3rd chap., 10 v., "For other foundation can no man lay than that is laid, which is Jesus Christ."

The Holy Communion was then administered to those present, after which the Synod assembled for business in the basement of the Church. The morning session was occupied in making up the roll of those present.

At 2 P. M. the Synod re-assembled when the Bishop introduced the proceedings with a long and eloquent address.

It was then

Moved by Lieut-Col. S. Baker, and seconded by the Hon. Geo. Moffatt:

'That an Act having been passed by the Provincial Legislature, and sanctioned by Her Majesty the Queen entitled "An Act to enable the Members of the United Church of England and Ireland in Canada to meet in Synod," the said Act being the 19th and 20th Victoria, ch. 121; and also another Act to explain and amend the same, being the 22nd Vict., ch. 139; by which Acts the Bishops of the several Dioceses in Canada have authority to call the first meetings of such Synods; and, when so called, such Synods have authority to frame Constitutions, and make Regulations for their own order and goverement,—the Lord Bishop of this Diocese having now summoned the Clergy and Lay Delegates of the several Parishes and Missions, chosen according to the directions given in the said Acts, for the purpose of taking action under the provisions of the same: We, the Bishop, Clergy, and Lay Delegates now assembled, do hereby accept the said Acts, and declare ourselves a Synod for the Diocese of Montreal, and will proceed to the consideration of the Constitution and Regulations to be adopted for the due ordering of the same:—no rule, canon, law or regulation to be in force in this Diocese, as the act of the Synod, unless it shall have received the concurrent assent of the Bishop, the Clergy, and the Lay Delegates; the assent of the Clergy and the Lay Delegates to be determined by a majority of votes, the same to be taken separately, in each order whenever it shall be so required.'

Mr. H. Bancroft moved in amendment, seconded by the Rev. Mr. Irwin:

"That the resolution be divided, so that all the words after 'for the due ordering of the same,' shall stand as a second revolution, and that the vote be taken upon the two separately."

After discussion this resolution was thrown out, only 15 voting for it.

Col. Wilgress then moved, seconded by the Rev. Mr. Bond:

"That all the words after 'for the due ordering of the same,' be struck out."

After debate this amendment was also negatived, only 17 voting for it.

It was then

Moved by the Rev. Mr. Bancroft, seconded by H. Taylor, Esq.:

"That the words after "concurent assent" in the —— line of the proposed resolution be left out, and the following substituted:—' Of the Clergy and Lay Delegates; should the Bishop express his disapprobation of any such rule, canon, law or regulation, it shall be reconsidered at the next annual meeting, and shall become binding on the Church in this Diocese when it shall again have received the assent of two-thirds of the Clergy and Lay delegates present at such next annual meeting.'"

The motion was lost negatived after debate, 23 voting for it.

The original motion was then put and carried on a division.

On motion of Mr. F. D. Fulford thanks of the Synod were voted to the Rev. Mr. Bond for his sermon by acclamation;

And the Synod adjourned till Wednesday morning at 10 o'clock.

The members re-assembled on Wednesday morning at St. John's Church. After Morning Prayers in the Church, the Lord Bishop formally opened the first regular Synod of this Diocese "In the name of God—Amen," with prayer.

Upon motion of the Rev. Canon Bancroft, seconded by the Very Rev. Dean Bethune the Rev. E. J. Rogers was appointed Clerical Secretary.

Upon motion of E.E. Shelton, Esq, seconded by Archdeacon Gilson, James Armstrong Esq., was appointed Lay Secretary.

Upon motion of Mr. Justice McCord, seconded by Hugh Taylor; Esq., T. B. Anderson, Esq., was appointed Treasurer.

On motion of the Very Reverend Dean Bethune, seconded by the Rev. Mr. Lonsdell, the draft Declaration and Constitution, formerly prepared, and which had been distributed among the Clergy and Delegates for consideration, was ordered to be taken up, and the clauses read and put seriatim from the Chair.

This being done, several amendments were proposed, and the Declaration and Constitution finally adopted in the following from:—

DECLARATION.

We, the Bishop, the Clergy, and the Laity of the United Church of England and Ireland, within the Diocese of Montreal, assembled in Synod, and intending, under God's blessing and guidance, to consider and determine upon such matters as shall appear necessary for the welfare of the Church in this Diocese, desire, in the first place for the avoiding of all misunderstanding, to make a declaration of the principles upon which we propose to proceed.

We desire that the Church in this Diocese shall continue, as it has been, an integral portion of the United Church of England and Ireland, and we declare our firm and unanimous resolution, in dependence on Divine aid, to preserve those doctrines, and that form of Church government, which are at present recognized by the Church of England and Ireland.

It is our earnest wish and determination to confine our deliberations and action to matters of discipline, to the temporalities of the Church and to such regulations of order as may tend to her efficiency and extension; and we desire no control or authority over any but those who are or shall be members of our own Church.

CONSTITUTION OF THE SYNOD.

1. The Synod shall consist of the Bishop of the Diocese, of the Clergy of the same licensed to the cure of souls therein, or holding office in any College or School under the jurisdiction of the Bishop (such Clergy not being under ecclesiastical censure,) and of Lay representatives to be elected as hereinafter provided.

2. The Lay representatives shall be male communicants of at least one year's standing, of the full age of twenty-one years, and shall be elected annually at the Easter meetings, or at any Vestry meeting (specially called for such purpose by incumbents after due notice on two Sundays) held by each Minister having a separate cure of souls; and all Laymen within the cure, of twenty-one years or upwards, entitled within such cure to vote at Vestry meetings, or who hold pews or sittings in the church, though not entitled so to vote, who hall have declared themselves in writing to be "Members of the United Church of England and Ireland, and to belong to no other religious denomination," shall have the right of voting at the election; provided always that the first election under this rule shall not take place until the Easter meetings in the several parishes in the year 1861.

3. The Minister himself, if present, shall preside at the election; and in his absence, the Curate or assistant Minister, or the Senior Church Warden, or a Chairman elected by the majority of those present, taking precedence in the order in which they are here named.

4. Every seperate cure served by a licensed Minister, shall be entitled to elect two Lay representatives. But when there shall be two or more congregations, having a corresponding number of church edifices, within one cure, then each of such congregations shall be entitled to elect two representatives.

5. Each representative shall receive from the Minister or Chairman of the meeting a certificate of his election, signed by the person presiding at the election, in the subjoined form; and shall continue in office until his successor is appointed.

6. If a vacancy should occur in the number of representatives, by death, resignation, or any other cause, the Minister shall proceed to hold a new election with as little delay as possible, after due notice.

7. Clergymen who have served in the Diocese and are resident in the same, but are now super-annuated, may attend the meetings of the Synod and vote at the same.

8. That the Synod shall meet on the third Tuesday in June in every year after the present in the City of Montreal, or at any other such time or place as the Synod shall appoint at its last previous meeting; provided also that the Bishop may cal a special meeting when he shall consider it necessary to do so; or at the request of 10 Clerical and 30 Lay members.

9. When the Bishop is not present his Commissary shall preside in his place; and when the See is vacant, the senior Dignitary of the Church next in rank to the Bishop, in the Diocese, shall, within a fortnight of the occurrence of such vacancy summon a Synod, to be held in not less than 30 days, to elect a successor to the See, at which he shall preside, and at such meeting no business except such election shall be proceeded with.

10. A quorum of the Synod shall consist of not less than one-fourth of the whole number of both Clergy and Lay representatives respectively.

11. There shall be two Secretaries, one from the Clergy, the other from the Laity, who shall keep regular minutes of all proceedings of the Synod, shall record them in a book provided for that purpose, shall preserve all papers, memorials, and other documents, shall certify the public acts of the Synod, and shall deliver all records and documents to their successors.

12. There shall be a Treasurer of the Synod, who shall receive and disburse all moneys collected and paid under its authority; and two Auditors who shall annually inspect and report on the condition of the accounts.

13. The vote of each order shall be taken separately, when so required by any three members, each vote being determined by the majority of the members present, in each order.

14. No Rule shall be binding on the members of the Church of this Diocese at large, which has not received the concurrent assent of the Bishop, the Clergy and Laity, and have been passed in the Synod.

15. Any proposition for an alteration of the Constitution, Regulations, Rules of Order, or Canons, shall be introduced in writing, and considered at the meeting at which it is introduced; and, if approved by a majority of each order, shall lie over till the next meeting of the Synod, but shall not be finally adopted unless approved by majorities consisting of two-thirds of both Clergy and Laity then present.

His Lordship suggested an additional Rule with respect to the mode of proceeding to take the vote for Bishop,—and read the Rule adopted in Toronto, which was adopted by the Synod.

The Rev. Mr. Slack, seconded by the Rev. Mr. Fulton, moved an additional Rule to provide for a Standing Committee advisory of the Bishop, to consist of three Clergymen and three Laymen. Mr. Chamberlin, seconded by the Rev. Mr. Flanigan, moved that the proposed Rule lie over for consideration at next meeting of Synod. Carried.

His Lordship then stated that he had had communication with the Bishops of Toronto and Huron about the assembling of a Provincial Synod, and he had at their suggestion drafted a Memorial to the Queen praying her to appoint a Metropolitan and allow such meeting, which he read.

The draft was approved, and the Bishop authorized to signed it on behalf of the Synod, and transmit it to the Colonial Secretary to be laid to the foot of the throne.

The Synod then proceeded to elect representatives to represent it in the Provincial Synod, when called. The following Delegates were elected, viz:

To represent the Clergy:—The Very Reverend the Dean, the Venerable Archdeacon, Reverend Canon Leach, Rev. Canon Bancroft, Rev. Mr. Bond, Rev. Mr. Ellegood, Rev. Mr. Duvernet, Rev. Mr. Davidson, Rev. D. Lindsay, Rev. Mr. Scott, Rev. Mr. White, Rev. Mr. Slack.

To represent the Laity:—The Hon'bles Judge McCord, Judge Aylwin, George Moffat, and P. H. Moor, Dr. Smallwood, Major Campbell C. B. and Messrs. Hugh Taylor, James Armstrong, Stevens Baker, John Yule, Hiram Foster, and Robert A. Young.

After which the Bishop was authorized to appoint Standing Committees—on Finances, on Rules, Regulations and order of proceedings and on the Division of Parishes.

After which the Synod adjourned *sine die*, and the meeting was closed by the Bishop with the Apostolic Benediction.

(To the Editor of the Morning Chronicle.)

QUEBEC WATER WORKS.

Sir,—From some unexplained cause the general supply of water is said to be less than on previous years. In St. Louis ward complaints are made from almost every house, and a protest was served on the Mayor last Friday from occupants of that ward. In Palace ward also the subscribers to the Bath received the cooling information of no water during last week's heat and dust. This no doubt is unsatistactory even to the Water Committee, with whom the blame at present lays; but as several proprietors on the Cape refuse to pay their water rate, unless they get a supply of water, as per contract, the gentlemen of the committee may find they have carried their parsimony too far, and dismissed too many officers, as no water, in summer, may make a very deficient revenue in winter. It is just possible the pro-Mayor has until now overlooked Cold Water matters. If so, the sooner he wakes up, the better, as one, or more cases are now disputed in the Recorder's Court.

A Citizen.

Quebec, 8th June, 1859.

(To the Editor of the Morning Chronicle.)

Dear Sir,—As you have treated the public to a lengthened editorial yesterday morning, commenting upon the conduct of the bakers and monopolisers of Quebec, and calling upon them to come forward boldly and reply to the reasonable expostulations of the public voice why is the staff of life, at such a favourable crisis as this, dealed out to the community at such exorbitant and unreasonable prices? I would ask you simply how you can call it a favourable crisis, when we are obliged to get supplies from England and likewise from France, you should have put yourself in a proper position to explain to the public why the flour is dearer in a wheat growing country than in Europe, where war and warlike preparations are going on, before calling upon bakers and flour merchants for an explanation? Any person writing to enlighten the public should keep himself well posted up in all matters concerning which he writes about before using such language as you have done, calling them extortioners and monopolisers. I call upon you to prove your assertion. And as for your threats about what you will tolerate and what you will not, we will let it pass for what it's worth. I can now inform the public that they can be accommodated in Quebec with bread to suit every man's pocket, I will not vouch for it whether it will suit every man's taste or not, but all grumblers can save the money if they think well of it. They can get the six lb loaf at eleven pence. By giving these few lines an insertion you will much oblige a

Baker.

(To the Editor of the Morning Chronicle.)

Sir,—Your editorial in this day's issue of the "Chronicle" though timely, was not written one day too soon, and though to the point will hardly succeed in inducing bakers to reduce the price of bread, for I fear that they and the flour dealers of this city are not to be acted upon by moral suasion; indeed, unless something can be held up to their sight, likely to touch their pockets, the chances in favour of an alteration in their present course of extortion are very slender. An association, such as was organized here a few years ago, for the purpose of furnishing bread at a fair price, would have a greater influence upon the flour speculators and bakers, than all the appeals that you could make to their hearts in a twelve month. Therefore let some man of influence take the initiative in the matter, call a meeting, and organize a company or society, that the poor man may eat his bread, in the sweat of his brow merely, and not in the blood of his vitals. While writing on the subject of bread, and incidentally of flour, I might say that some of our Banks could employ their capital in a manner more beneficial to the public, than by allowing a few large operators to absorb so much of it, as to allow one single house to buy up flour in Montreal, Kingston, and Toronto, to the amount of twelve hundred thousand dollars, as is currently reported. I would hint to those banks, that they might, in the evening after the shutters are up, look over their books for 1847 and '48, and profit by it.

I remain Mr. Editor
Yours, &c.,
Artophagns.

Quebec, 8th June, 1859.

BOARD OF NOTARIES OF QUEBEC.

Sitting of the 25th May, 1859.

Mr. Octave Fortier, of Quebec, was admitted as a Notarial clerk.

Sitting of the 31st May.

Cyrille Tessier, Esq., of Quebec, was admitted to practice as a Notary Public in and for Lower Canada.

Jos. Laurin,
Secretary.

Washington, June 9.

Information has reached here of active movements in Louisana of certain Mexican Reactionists in favor of Santa Anna. Their arrangements, it is said, are now perfected, and they are about to leave Mobile for some Mexican port on the Gulf, where they intend to land and pronounce in favor of the ex-dictator.

A despatch from St. Louis, received here today, says, a message had just arrived in that city with despatches from Governor Cummings stating that the Mormon difficulty was in a fair way of a satisfactory settlement.

There is reason to believe that our Minister to Madrid has been instructed to avail himself of the earliest opportunity to assure the Spanish Government of the earnestness of the U. S. to purchase Cuba, and that the money will be promptly paid.

DEPARTMENTAL INTERPRETATION.

Of the Tariff of 26th March, 1859, in reference to certain Articles hereunder mentioned, for the guidance of Collectors of Customs.

GOODS PAYING 30 PER CENT.

Nuts of all kinds—Nuts do not come under the designation of dried fruits, and are not therefore free under the Reciprocity Treaty.
Starch, includes all preparations of Starch for whatever use intended and therefore Corn or other Starch.
Patent Medicines and Medicinal preparations refer to all Medicines as proprietary articles and all other compounded or prepared Medicines ready for the dispensary.

GOODS PAYING 25 PER CENT.

Harness and Saddlery, as Leather Manufactures, to apply to ready made articles of that description or parts thereof.
Boots and Shoes, whether wholly made of leather or partly only of leather.
Clothing or Wearing Apparel made by hand or sewing machine—not to include shirts and other under garments for male and female, nor shirt collars, stocks, neck ties and gloves.

GOODS PAYING 20 PER CENT.

AS NON ENUMERATED.

Ground Sulphur or Flour of Sulphur.
Veneers.
Earths, Clays and Ochres—ground, roasted or burned.
Quinine, pulverized Rhubarb and similar Drugs, as coming under the designation of Drugs and Chemicals in their first state of preparation for commercial uses.
Oils that have been subjected to any artificial process of purification.
Gum Opium as a Drug.
Packages containing liquids and subject to duty when the duty on their contents exceeds or is 20 per cent., in other cases the duty as their contents

GOODS PAYING 10 PER CENT.

Boiler Plate, Angle and T iron punched or not punched.
Printed Sheet Music, considered as Pamphlets.
The terms Devotional Books apply to Hymn, Psalm and Chant Books used during divine worship in Churches,—and do not extend to Books or Pamphlets on religious subjects generally, all of which except Bibles, Prayer Books, and the Hymn, Psalm and Chant Books referred to, are subject to 10 per cent duty.
Yellow Metal—as Brass in bars, rods and sheets.
Iron—hollow or other knee iron in bars.
Jewelry includes Jewels of all kinds or imitations, whether of gold or other metals worn as ornaments on the person—but does not extend to Pencil cases, Card cases, Thimbles Spectacles or Eye Glasses.
Watches including Watch materials of all kinds or parts of Watches.
Prints include Photographic and Daguerrerian Prints on whatever material.
Straw, Tuscan and Grass Fancy Plaits, not Hats Caps or Bonnets made up of such Plaits.

FREE GOODS.

Devotional Books—See Interpretation under Goods paying 10 per cent.
Brimstone, other than ground or in flour
Cables of hemp or grass, seven inches and over in circumference.
Earths, Clay and Ochres, dry—(See 20 per cent.)
Felt hat-bodies—in the rough but not stiffened or dressed.
Woods of all kinds under the same restrictions as Timber and Lumber.
Philosophical Instruments and Apparatus, not to include Astronomical, Mathematical, Nautical, Surveying, Optical, Surgical, Daguerreian or Photographic Instruments, nor Thermometers nor Barometers—except when such Instruments and Thermometers and Barometers are imported directly by scientific bodies or by persons professionally engaged in the pursuits of science and natural philosophy and not for sale as articles of commerce.
Oils, that is, Fish, Cocoa Nut, Pine and Palm Oils, in their crude and natural state, are free; but as it is not always obvious whether such Oils are simply clarified by repose and precipitation, or by some artificial process of bleaching, pressing or otherwise, it is considered sufficient, in order to avoid detention in passing such goods at the Custom House, that the owner should sign a declaration, to be written on the face of the entry, that the Oils, thereby entered, are in their crude and natural state, and entitled, as such, to the exemption claimed, to which fact the importer shall be sworn by the Collector, and small samples, duly, labelled, of the Oils, so entered, shall be taken for future verification.

R. S. M. BOUCHETTE.

I. G. O. Customs Department,
Toronto, 6th June, 1859.

COMMERCIAL.

Imports and Exports at Quebec.

[Compiled for the Morning Chronicle.]

IMPORTS.

June 10.

Per bark Gellert, Terry, from Hamburg—2 cases glassware, 19 cases and 2 bbls mdze to W Darling & Co. 4 cases pianos to F Wyse. 4 cases harmoniums, 4 do pianos, 1 case wooden manufactures to Mrs J C Sheppard. 5 cases glass to Nelson & Butters. 8 cases mdze to A Laurie & Co. 3 do musical instruments to Hamel & Freres. 8 casks wine, 1 do rum, 1 do whiskey, 1 do cheese to Ryan Bros & Co. 2 cases stone statues to T H Hardy. 1 case mdze, 1 do wooden ware, 2 do hardware to M Moodie. 5 cases slates, 1 do hardware, 1 do Jews Harps to Gilmour & Thomson. 1 case printed books to Louis Eglauch. 2 casks cherry juice, 2 casks and 10 cases mdze, 7 bales and 1 bag do. 5 cases lead pencils to order.

Per brig Defender, Wilson, from Sunderland—131 chaldrons nut coals, 54 tons coke to Bickell & Taylor.

N. B.—Parties in England will bear in mind that timber sold in the Raft subjects the purchaser to great expense in dressing, butting, and at times heavy loss for culls—if sold in shipping order, the expense of shipping only to be added.

REMARKS.

The news from England is by no means encouraging as the consumption of wood has been seriously interfered with owing to the unsettled state of Europe and the disinclination of parties to extend their business, as well as the uncertainty that still attaches to England's being able to steer clear of complications. In spite of every determination on the part of her rulers and people she may drift into war for self preservation, or she may be driven into it by a series of studied insults. This consideration alone tends to prevent speculative purchases both on this or the other side of the Atlantic, and until some favorable change takes place in the political horizon we see little chance of improvement in our market for wood.

White Pine is arriving earlier than usual and as a great deal of last year's stock is offered for sale, rafts are very unsaleable although several have changed hands at prices varying from our lowest to our highest quotations.

Though the number of arrivals from sea is about equal to last year up to this date the tonnage is less and of this the weekly line of Ocean Steamers must be taken into account.

Red Pine was in some demand in the early part of last month for small parcels in shipping order but is now as dull as White.

Oak is arriving in excess of last year, and owing to the competition of the "Thornton Oak" from Virginia, which is preferred for Railway purposes in the Liverpool market is not enquired for here and a large portion of last year's stock is still on sale.

Elm is also accumulating without finding buyers, although some lots of good size sell on arrival.

Staves have arrived unusually early and are most plentiful with little enquiry for either Standard or West India.

Deals are the only saleable article in the market though we question if any large parcels could be placed readily, yet owing to the scarcity of other freight the weekly sailing of our steamers will we think ensure a sale for them during the whole season.

Freights share in the general depression and are dull at 27s. for Liverpool and 90s for London. There is however a better enquiry for the outports at corresponding rates.

REMARKS.

In Ashes prices are somewhat better with fair enquiry, but supply is small.

Our business for the week in produce and Provisions has been very small, with a marked downward tendency in prices, holders are anxious to realise, but there is no export demand.

The Grocery trade is languid, two auction sales advertised for the coming week will test the wants of retailers.

Fish and Oils are not much enquired for.

Coals as will be observed by our figures, have advanced. Salt remains about at last week's prices.

Freights since arrival of last English advices have declined on rates to Liverpool, but from scarcity of vessels seeking, figures for outports are looking up.

The general trade is unprecedentedly dull.

O. MURPHY & CO.,
Hunt's Wharf.

REVIEW OF THE MONTREAL PRODUCE AND STOCK MARKET.

Board Room Exchange
Montreal, June 9, 1859.

Flour.—Since our last the Market has been inactive. Good brands of Superfine are held firmly at $6.50, but to make Sales in quantity $6, and under would have to be accepted. There has been an increase in the week compared with that of last year of 491 barrels, but a decrease on the total receipts of the year of 95,488 barrels.

Wheat.—Nothing doing in Wheat, and our quotations are quite nominal.

Corn.—Market without any Sales of importance.

Barley.—Nothing doing; 75 cents offered, 80 cents asked.

Oats.—Heavy at our quotations.

Rye.—None.

Peas.—Small Sales at $1,2¾ cents; at which the Market is firm.

Provisions.—Of all descriptions dull, and to make Sales a reduction on our quotations would have to be submitted to.

Ashes.—Have declined, and to-day are difficult of Sale at $6.20 for Pots, and $6.20 to $6.25 for Pearls.

Freights—No engagement of Grain or Flour. Ashes have been taken to Glasgow at 16s 6d and to Liverpool at 17s 6d.

Stocks—Bank of Montreal.—A good deal has been done since payment of the dividend on the 1st instant at 112 to 112¼, sellers to-day asking 112¼. Do. New Stock—Same price as old. Bank of B, N. A.—None offered. Commercial Bank of Canada.—Steady at 114. With very little Stock in market. City Bank.—Heavy. Sellers but no buyers at 107½. Bank of Upper Canada.—Asked for at 91½. People's Bank.—Very little doing. Quotations nominal. Molson's Bank.—No Stock in market. Montreal Mining Co.'s Consols.—There is some demand. $2.25 being offered and refused. Champlain and St. Lawrence Railroad.—Buyers of Stock at 16, which is refused. Second Mortgage bonds offering at 80. Grand Trunk Railroad.—No Stock in market. Great Western of Canada.—No Stock in market. Montreal Telegraph Company Stock.—Transfers during the week of several small amounts at 115. Montreal City Gas Company.—Buyers at 107½. Government Debentures.—Nothing whatever doing. Consolidated Municipal Loan Fund Debentures.—Sales to some extent at 91. In other Stocks.—Nothing to report. Exchange.—As quoted, good private bills being scarce.

Certificates from persons of the first respectability in N. Brunswick, concerning Fellows' Worm Lozenges.

The box of your Worm Lozenges I used in my family surpassed my expectations; before using half on a child two years old, ten large Worms were discharged.—There is a great demand here, and none to be had.

GEO. C. CROCKER,
Westport, N. S.

Your Worm Lozenges are very highly spoken of in this locality.

C. HERIOT SMITH,
Lepreun, N. B.

Fellows' Worm Lozenges are sold by all Apothecaries.

JOHN MUSSON & Co.,
Agents.

Quebec, April 30, 1859.

Best Hair Dye in the World.—This is rather strong language, yet Bogle's Electric Hair Dye, (recently improved) was *proven* to be so by the judges at the late Mechanics' Fair, held in Boston, (among whom was Dr. Hayes, the eminent chemist and State assayer,) who awarded it the *Prize Medal and Diploma*, over the choicest hair dyes on exhibition from all parts of the Union. Its unparalleled superiority consists in, 1st. The ingredients are nourishing to the hair, not destructive, as others are. 2nd. Does not stain nor hurt the skin 3rd. Is easily applied, and dyes the hair any color required, from a delicate brown to a deep black, so natural as to appear marvellous. Manufactured, sold and applied by Wm. Bogle, 227, Washington St. Boston, and may be had of Druggists everywhere.

JOSEPH BOWLES,
Apothecary,
Agent for Quebec.

TO THE SICK.—Impelled by a desire to do unto others as I would that some one had done by me when similarly situated, I hereby earnestly caution all sufferers from Spermatorrœa or Involuntary Exhaustion, against all the "tricks and traps" of the various swindling quacks.

Shun them all, and if disposed to profit by my experience, enclose return stamp, and send a brief description of your case to **BOX 176** Charlestown, Mass.

Camp and Pain Killer.

The world is astonished at the wonderful cures performed by the CRAMP AND PAIN KILLER, prepared by CURTIS & PERKINS. Its equal has never been known for removing pain in all cases; for the cure of spinal complaints, cramp in the limbs and stomach, rheumatism in all its forms, billious cholic, chills and fever burns, sore throat, and gravel, it is decidedly the best remedy in the world. Evidence of the most wonderful cures ever performed by any medicine are on circulars in the hands of Agents.—You may be positively sure of relief if you use it.—Millions of Bottles of this medicine have been sold in New England the past six or eight years.

N. B.—Be sure and call for CURTIS & PERKINS' Cramp and Pain Killer. All others bearing this name are base imitations. Price 12½, 25, 37½ cents per bottle, according to ize. 12m-mar.17

☞ HIGHLY IMPORTANT TO MOTHERS—Mrs. Winslow's Soothing Syrup is the only thing that you can rely upon to give rest to yourself, and relief and health to your infant.—See advertisement in an another column.

On Board the Steamer Bowmanville,

Off Quebec, June 10th, 1859.

TO CAPTAIN CHARLES PERRY.

Dear Sir,—It affords us much pleasure, on our arrival at the end of our journey from Toronto (without transhipment of furniture and passengers) to express to you our entire statisfaction of the care and attention you have given to our comforts during our passage, and to assure you that we highly appreciate the urbanity and gentlemanly conduct which we have received at your hands, whilst discharging the various duties attached to your situation.—And of this unremitting care to our comforts we shall retain a lively and agreeable recollection—and with best wishes for your welfare and that of Mrs. Perry.

We are, dear Sir,
Yours, very truly,

LAVAL UNIVERSITY.

THE 16th of the present month being the TWO-HUNDRETH ANNIVERSARY of the arrival at Quebec of MONSEIGNEUR DE LAVAL, First Bishop of this Country, and Founder of the Seminary of Quebec, the Members of the latter Institution and the authorities of Laval University have resolved to celebrate the commemoration of an event, which is especially dear to them, by assembling together, at TWO SOIREES,—one of which will be LITERARY and the other MUSICAL,—the Members of the Clergy, their friends, and persons of Education in general, particularly those who have received their education at the Seminary.

The re-unions will be held in the large Hall of the University, on the 15th and 16th inst., at 7 o'clock, P. M.

Persons desirous of being present at the Soirées, as well as at the delivery of the Thesis by Mr. Larue, on the 15th, must be provided with tickets of admission, or be introduced by a Member of the Seminary or by a Professor of the University.

Ladies will be admitted to the Soirées. The Galleries of the Hall will be reserved for them. They will have to be introduced by a gentleman, provided with a Card for that purpose.

Cards of admission can be procured on application at the Office of the Secretary of the University, on Monday and Tuesday, between 2 and 4 o'clock, P. M., and on Wednesday, between 8 and 10 o'clock, A. M.

Quebec, June 11, 1859. 2

PUBLIC LECTURES.

MR CHARLES FRESHMAN, late Minister of the Jewish Congregation in this city, will deliver TWO PUBLIC LECTURES, on MONDAY, the 13th, and THURSDAY, the 16th of JUNE, at the

LECTURE HALL, STE. ANNE STREET.

Subjects.—Monday, 13th. "The Spiritual necessities of Man and the adaptation of Christianity to supply them."
Thursday, 16th—"On the evidences of the Truth and the nature of Faith."

☞ Lecture to commence each evening at EIGHT o'clock

Tickets for the course (two lectures) 37½ c. Single lecture 25c. to be had at Miss Cocurane's Tract Depot, John Street; Middleton & Dawson, Lower Town; Mr. Hossack, Confectioner, St. Roch; at the Vindicator Office, opposite the Post-Office; and Mr. John Giblin's, Diamond Harbor.

PERUVIAN SYRUP!

OR, PROTECTED

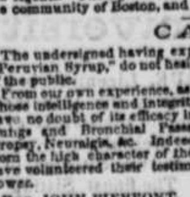
Solution of Protoxide of Iron.

Having successfully passed the ordeal to which new discoveries in the Materia Medica are subjected, must now be received as an established medicine.

ITS EFFICACY IN CURING

DYSPEPSIA,

Affections of the Liver, Dropsy, Neuralgia, Bronchitis and Consumptive Tendencies, Disordered State of the Blood, Boils, Scurvy, and the Prostrative Effects of Lead or Mercury, General Debility, and all Diseases requiring a tonic, or alterative Medicine, is now beyond question.



The proofs of its efficacy are so numerous, so well authenticated, and of such peculiar character, that sufferers cannot reasonably hesitate to receive the proffered aid.

The Peruvian Syrup does not profess to be a cure-all, but its range is extensive, because many diseases, apparently unlike, are intimately related, and, proceeding from one cause, may be cured by one remedy.

The class of diseases for which the Syrup provides a cure is precisely that which has so often baffled the highest order of medical skill. The facts are tangible, the witnesses are accessible, and the safety and efficacy of the Syrup incontrovertible.

Those who may wish for an opinion from disinterested persons respecting the character of the Syrup, cannot fail to be satisfied with the following, among numerous testimonials in the hands of the Agents. The signatures are those of gentlemen well known to the community of Boston, and of the highest respectability.

CARD.

The undersigned having experienced the beneficial effects of the "Peruvian Syrup," do not hesitate to recommend it to the attention of the public.

From our own experience, as well as from the testimony of others whose intelligence and integrity are altogether unquestionable, we have no doubt of its efficacy in cases of Incipient Diseases of the Lungs and Bronchial Passages, Dyspepsia, Liver Complaint, Dropsy, Neuralgia, &c. Indeed its effects would be incredible but from the high character of those who have witnessed them and have volunteered their testimony as we do ours, to its restorative power.

REV. JOHN PIERPONT, THOMAS A. DEXTER, S. H. KENDALL, M.D. SAMUEL MAY. THOMAS C. AMORY, PETER HARVEY, JAMES C. DUNN, REV. T. WHITTEMORE.

CERTIFICATE OF DR. HAYES.

It is well known that the medicinal effect of Protoxide of Iron is lost by even a brief exposure to air, and that to maintain a solution of Protoxide of Iron, without further oxidation, has been deemed impossible.

In the Peruvian Syrup this desirable point is attained by COMBINATION IN A WAY BEFORE UNKNOWN; and this solution may replace all the proto-carbonates, citrates and tartrates of the Materia Medica.

A. A. HAYES, M.D. Assayer to the State of Mass. Boston, U. S. A.

Sold by N. L. CLARK & CO. Proprietors, No. 5 Water St., Boston.

Retailed by all Respectable Druggists.

FIRE DEPARTMENT.

THIS Company continues to INSURE Buildings and all other descriptions of Property against LOSS or DAMAGE BY FIRE, on LIBERAL TERMS.

All just losses promptly settled, without deduction or discount, and without reference to England.

The large Capital and judicious management of this Company insures the most perfect safety to the assured.

No charge for Policies or Transfers.

Insurance effected on RENTS OF BUILDINGS.

LIFE DEPARTMENT.

The following advantages amongst numerous others, are offered by this Company to parties intending to insure their lives:—

Perfect security for the fulfilment of its engagements to Policy holders.

Favorable Rates of Premium.

A high reputation for Prudence and Judgment, and the most liberal consideration of all questions connected with the interests of the assured.

THIRTY DAYS GRACE ALLOWED FOR PAYMENT OF RENEWAL PREMIUMS, and no forfeiture of policy from unintentional mistake.

Policies lapsed by non-payment of premiums may be renewed within three months, by paying the premium, with a fine of ten shillings per cent, on the production of satisfactory evidence of the good state of health of the life assured.

Participation of profits by the assured, amounting to two-thirds of its net amount.

Large Bonus declared 1855, amounting to £2 per cent per annum on the sum assured, being on ages from 20 to forty 80 per cent on the premium. Next division of profits in 1860.

Stamps and Policies not charged for.

All Medical Fees paid by the Company.

INSURANCES.

BRITANNIA LIFE ASSURANCE COMPANY,

1 PRINCES' STREET, BANK, LONDON

ESTABLISHED AUG. 1, 1837.

Empowered by Special Act of Parliament, 4 Vict. Cap. 9.

COL. ROBERT ALEXANDER, Blackheath Park *Chairman.*

DAVANTAGES OF THIS INSTITUTION,

INCREASING RATES OF PREMIUM.

A TABLE especially adapted to the securing of Loans or Debts, and to all other cases where a Policy may be required for a temporary purpose only, but which may be kept up, if necessary, throughout the whole term of Life.

HALF-CREDIT RATES OF PREMIUM.

Credit given for half the amount of the *First Seven Annual Premiums* the amount of the unpaid Half-Premiums being deducted from the sum assured when the Policy becomes a claim.

SUM ASSURED PAYABLE DURING LIFE.

The amount payable at the death of the Assured, if he die before attaining the age of SIXTY, but *to the assured himself, if he attain that age,* thus combining a provision for old age with an insurance upon life.

ORPHAN'S ENDOWMENT BRANCH.

Established for the purpose of affording to parents and others the means of having Children educated and started in Life, by securing annuities, to commence at the Parents' death, and to be paid until a child, if a son, shall attain his 21st year, or, if a daughter, her 25th year of Age

BRITANNIA MUTUAL LIFE ASSOCIATION

1, PRINCES STREET, BANK, LONDON.

Empowered by her Majesty's Royal Letters Patent.

Annual Division of Profits—applied in reduction of the current year's Premium.

Policy-holders entitled to participate in the profits after payment of Five or Seven Annual Premiums according to the table of Rates selected.

Premiums charged for *every three months'* difference of age—not, as is usually the case, for every whole year only.

Half Credit Policies granted on terms unusually favourable to the assured, the amount of half premiums for which credit is given, being liquidated out of the profits.

At the Annual General Meeting on the 27th April last, a reduction of 30 per cent was made in the present year's premium on all Policies of Five or seven years standing.

A Board of Directors in attendance daily at 2 o'clock.

Age of the Assured in every case admitted in the Policy.

Medical Attendants remunerated in all cases for their reports.

E. R. FOSTER, Resident Director

ANDREW FRANCIS, Secretary.

Detailed Prospectuses and every requisite information as to the mode of effecting Assurance may be obtained upon application to

R. PENISTON, Agent to the Company at Quebec.

Quebec, June 23, 1858.

UNITED KINGDOM LIFE ASSURANCE COMPANY,

8, Waterloo Place, Pall Mall, London, S. W.

Established nearly a Quarter of a Century.

Annual Income Upwards of £136,000.

CHAIRMAN:

THE HON. FRANCIS SCOTT, M.P.

DEPUTY CHAIRMAN:

CHARLES BERWICK CURTIS, ESQ.

THIS Company offers the security of a large paid up Capital, held in Shares by a numerous and wealthy Proprietary, thus protecting the Assured from the risk attending Mutual Offices.

There have been three divisions of profits, the Bonuses averaging nearly 2 per cent. per annum on the sums assured, or from 30 to 100 per cent. on the Premiums paid.

Sums Assured.	Bonuses added.	Payable at Death
£5,000	£1,987 10 0	£6,987 10 0
4,000	1,590 9 0	5,590 0 0
3,000	1,192 10 0	4,192 10 0
1,000	397 10 0	1,397 10 0
500	198 15 0	698 15 0
100	39 15 0	139 15 0

The Premiums, nevertheless, are extremely moderate, and

☞ One half of the Annual Premium for a term of years may remain unpaid, bearing interest (without requiring the deposit of the Policy as in other offices.) This Company likewise foregoes all claim for the debt, should the Policy be discontinued.

Upwards of SEVEN HUNDRED THOUSAND POUNDS (including Bonuses) has been paid to Widows, Children, and other Parties holding Policies with this Company, which have become Claims by Death since its formation.

During the last Three Years this Company has issued 1,280 new Policies, insuring £888,-758, and producing new Premiums to the amount of £33,993 8s. 0d.

The attention of the Public is earnestly requested to the annexed scale of Premiums, which will be found extremely moderate, and the mode of payment affords every accommodation and facility consistent with security.

1st. Premiums may be paid quarterly, half-yearly, or annually, as may best suit the convenience of the Assured.

2nd. When an Insurance is for Life, half the Annual Premium may remain unpaid for five years, at interest, to be deducted eventually from the Policy, to be paid off at convenience, a system peculiarly suited to obtain Temporary Loans.

3rd. The principle of an ascending and descending scale, which has been adopted, is equally applicable to the opulent, and to those of limited incomes.

4th. Policies are granted on very moderate terms, payable on the death of two, or three parties (as the case may be,) so as to render Leasehold Property, held upon Lives, nearly equal in value to Lands held in perpetuity.

This office has Agents in almost all the principal Towns of Great Britain and Canada, from whom full particulars can be obtained gratuitously, and the means furnished for effecting Insurances; and the same can be had on application to R. LENNOX BOYD, Esq., at the Office, 8, WATERLOO PLACE, LONDON, or to

W. G. SHEPPARD, Agent for Quebec, 42, St. Anne Street, U. T.

Or of the Medical Referee—W. MARSDEN, M.D. 35, St. Anne St., Place-D'Armes.

N.B.—Policies now effected on the Participating Scale, will participate in the next Division of Profits to a greater extent than if delayed to a later period, besides obtaining the advantage of a lower rate of premium.

Quebec, 23rd April, 1858.

High School of Quebec.

THE usual course of instruction in this Institution comprises English Reading, Grammar and Composition, History, Geography, Writing; Arithmetic, General and Commercial Mathematics, including Geometry, Algebra, Mensuration, &c., French, Latin, and Greek.

TERMS, as heretofore, £12 10s. per annum payable quarterly in advance; Scholars under 10 years of age £10 per annum.

By a due distribution of labour among the Teachers and other arrangements, a full opportunity is afforded of securing proficiency in the practically useful, as well as the Classical branches.

Quebec, 27th Dec., 1856.

AND IN ALL CASES OF

Bruises, Wounds, Strains, and Sprains,

the moment it is applied to the injured parts, all pain and uneasiness cease. Look out for Counterfeits and Imitations—Purchase only RADWAY'S READY RELIEF. Price 25 cts., 50 cts., and $1 per bottle.

A NEW CONTRIBUTION TO SCIENCE.

The Great Grand Discovery.

R. R. R.

(No. 3.)

RADWAY'S REGULATING PILLS,

DR. RADWAY & CO. have recently discovered a method for extracting from roots, herbs, plants and gums, a nutritious extract of such wonderful nourishing power—which they have combined with RADWAY'S REGULATING PILLS—that six of these Pills will supply the blood with the same amount of nutrition as one ounce of ordinary bread; so that, while the system is undergoing a thorough physicking process, it daily becomes strengthened.

Persons afflicted with LIVER COMPLAINT, DYSPEPSIA, HEART DISEASES, FULLNESS OF BLOOD, and all Females who are sucject to IRREGULARITIES, HYSTERIA, &C., are particularly recommended to use these Pills. They are pleasant to take—elegantly coated with gum—free from taste, and will not gripe, sicken or weaken the system, or leave the bowels costive. Mothers nursing should likewise take one or two of these Pills once or twice per week. They will not only keep your system healthy and regular, but will protect your infants against Cramp and Pains in the stomach, and insure not only a healthy child, but will invest every child, thus suckled, with a sweet disposition.

RADWAY'S REGULATING PILLS

Regulate each and every organ of the system, and correct all derangements of the Liver, Bowels, Stomach, Heart and Kidneys.

THEY CURE

Costiveness,	Indigestion,
Heart-Burn,	Dyspepsia,
Biliousness,	Constipation,
Dropsy,	Head-Ache,
Palpatation of the Heart,	Congestion, &c., &c., &c.

They are entirely vegetable and harmless; an infant at the breast can take them with safety, and persons who are subject to Fits of Apoplexy, Epileptic, Heart Diseases, &c., should always keep a box on hand.

Price 25 Cents

Ask for RADWAY'S REGULATORS, or REGULATING PILLS.

MRS. WINSLOW.

An experienced Nurse and Female Physician, presents to the attention of mothers, her

SOOTHING SYRUP,

For Children Teething,

which greatly facilitates the process of teething, by softening the gums, reducing all inflammation—will allay ALL PAIN and spasmodic action, and is

SURE TO REGULATE THE BOWELS.

Depend upon it, mothers it will give rest to yourselves, and

RELIEF AND HEALTH TO YOUR NFIANTS

We have put up and sold this article for over ten years, and can say, in confidence and truth of it what we have never been able to say of any other medicine—NEVER HAS IT FAILED, IN A SINGLE INSTANCE, TO EFFECT A CURE when timely used. Never did we know an instance of dissatisfaction by any one who used it. On the contrary, all are delighted, with its operations, and speak in terms of highest commendation of its magical effects and medical virtues. We speak in this matter "what we do know" after ten years' experience and pledge our reputation for the fulfilment of what we here declare. In almost every instance where the infant is suffering from pain and exhaustion, relief will be found in fifteen or twenty minutes after the syrup is administered.

This valuable preparation is the prescription of one of the most EXPERIENCED and SKILLFUL NURSES in New England, and has been used with never failing success in THOUSANDS OF CASES.

It not only relieves the child from pain, but invigorates the stomach and bowels, corrects acidity, and gives tone and energy to the whole system. It will almost instantly relieve GRIPING IN THE BOWELS, AND WIND COLIC and overcome convulsions, which if not speedily remedied, end in death. We believe it the best and surest remedy in the world, in all cases of DYSENTRY, AND DIARRHŒA IN CHILDREN, whether it arises from teething, or from any other cause. We would say to every mother who has a child suffering from any of the foregoing complaints—do not let your prejudices, nor the prejudices of others stand between your suffering child and the relief that will be SURE—yes, ABSOLUTELY SURE—to follow the use of this medicine, if timely used. Full directions for using will accompany each bottle None genuine unless the fac-simile of CURTIS & PERKINS. New-York, is on the outside wrapper.

Sold by Druggists throughout the world.

Principal Office, No. 12, Cedar St., New-York.

March 17, 1859. 12m—d&w

THE LIVER INVIGORATOR!

PREPARED BY DR. SANFORD,

Compounded entirely from GUMS.

IS ONE OF THE BEST PURGATIVE AND LIVER MEDICINES now before the public, that acts as a *Cathartic,* easier, milder, and more effectual than any other medicine known. It is not only a *Cathartic,* but a *Liver* remedy, acting first on the *Liver* to eject its morbid matter, then on the stomach and bowels to carry off that matter, thus accomplishing two purposes effectually, without any of the painful feelings experienced in the operations of most *Cathartics.* Its strengthens the system at the same time that it purges it; and when taken daily in moderate doses, will strengthen and build it up with unusual rapidity.

The LIVER is one of the principal regulators of the human body; and when it performs its functions well, the powers of the system are fully developed. The STOMACH is almost entirely dependent on the healthy action of the LIVER for the proper performance of its functions; when the stomach is at fault, the bowels are at fault, and the whole system suffers in consequence of one organ—the LIVER—having ceased to do its duty. For the diseases of that organ, one of the proprietors has made it his study, in a practice of more than twenty years to find some remedy wherewith to counteract the many derangements to which it is liable.

To prove that this remedy is at last found, any person troubled with LIVER COMPLAINT, in any of its forms, has but to try a bottle, and conviction is certain.

These Gums remove all morbid or bad matter from the system, supplying in their place a healthy flow of bile, invigorating the stomach, causing food to digest well, PURIFYING THE BLOOD, giving tone and health to the whole machinery, removing the cause of the disease—effecting a radical cure.

BILIOUS ATTACKS are cured, AND, WHAT IS BETTER, PREVENTED, by the occasional use of the LIVER INVIGORATOR.

One dose after eating is sufficient to relieve the stomach and prevent the food from rising and souring.

Only one dose taken before retiring, prevents NIGHTMARE.

Only one dose taken at night, loosens the bowels gently, and cures COSTIVENESS.

One dose taken after each meal will cure DYSPEPSIA.

☞ One dose of two tea-spoonfuls will always relieve SICK HEADACHE.

One bottle taken for female obstruction removes the cause of the disease, and makes a perfect cure.

Only one dose immediately relieves CHOLIC while

One dose often repeated is a sure cure for CHOLERA MORBUS, and a preventive of CHOLERA.

☞ Only one bottle is needed to throw out of the system the effects of medicine after a long sickness.

☞ One bottle taken for JAUNDICE removes all sallowness or unnatural color from the skin.

One dose taken a short time before eating gives vigor to the appetite, and makes food digest well.

One dose often repeated cures CHRONIC DIARRHŒA in its worst forms, while SUMMER and BOWEL complaints yield almost to the first dose.

One or two doses cures attacks caused by WORMS in Children: there is no surer, safer, or speedier remedy in the world, as it NEVER FAILS.

☞ A few bottles cures DROPSY, by exciting the absorbents.

We take pleasure in recommending this medicine as a preventive for FEVER AND AGUE, CHILL FEVER, and all FEVERS of a BILLOUS TYPE. It operates with certainty, and thousands are willing to testify to its wonderful virtues.

☞ All who use it are giving their unanimous testimony in its favor.

☞ Mix Water in the mouth with the Invigorator, and swallow both together.

THE LIVER INVIGORATOR.

IS A SCIENTIFIC MEDICAL DISCOVERY, and is daily working cures, almost too great to believe. It cures as if by magic, *even the first dose giving benefit,* and seldom more than one bottle is required to cure any kind of LIVER Complains, from the worst *Jaundice* or *Dyspepsia* to a common *Headache,* all of which are the result of a DISEASED LIVER.

PRICE ONE DOLLAR PER BOTTLE.

A prospectus with full particulars, may be obtained at the School, and at Mr Sinclair's Book Store.

Quebec, July 29, 1858. 12m

Scrofula, or King's Evil,

is a constitutional disease, a corruption of the blood, by which this fluid becomes vitiated, weak, and poor. Being in the circulation, it pervades the whole body, and may burst out in disease on any part of it. No organ is free from its attacks, nor is there one which it may not destroy. The scrofulous taint is variously caused by mercurial disease, low living, disordered or unhealthy food, impure air, filth and filthy habits, the depressing vices, and, above all, by the venereal infection. Whatever be its origin, it is hereditary in the constitution, descending "from parents to children unto the third and fourth generation;" indeed, it seems to be the rod of Him who says, "I will visit the iniquities of the fathers upon their children."

Its effects commence by deposition from the blood of corrupt or ulcerous matter, which, in the lungs, liver, and internal organs, is termed tubercles; in the glands, swellings; and on the surface, eruptions or sores. This foul corruption, which genders in the blood, depresses the energies of life, so that scrofulous constitutions not only suffer from scrofulous complaints, but they have far less power to withstand the attacks of other diseases; consequently, vast numbers perish by disorders which, although not scrofulous in their nature, are still rendered fatal by this taint in the system. Most of the consumption which decimates the human family has its origin directly in this scrofulous contamination; and many destructive diseases of the liver, kidneys, brain, and, indeed, of all the organs, arise from or are aggravated by the same cause.

One quarter of all our people are scrofulous; their persons are invaded by this lurking infection, and their health is undermined by it. To cleanse it from the system we must renovate the blood by an alterative medicine, and invigorate it by healthy food and exercise. Such a medicine we supply in

AYER'S Compound Extract of Sarsaparilla,

the most effectual remedy which the medical skill of our times can devise for this every where prevailing and fatal malady. It is combined from the most active remedials that have been discovered for the expurgation of this foul disorder from the blood, and the rescue of the system from its destructive consequences. Hence it should be employed for the cure of not only scrofula, but also those other affections which arise from it, such as ERUPTIVE and SKIN DISEASES, ST. ANTHONY'S FIRE, ROSE, or ERYSIPELAS, PIMPLES, PUSTULES, BLOTCHES, BLAINS and BOILS, TUMORS, TETTER and SALT RHEUM, SCALD HEAD, RINGWORM, RHEUMATISM, SYPHILITIC and MERCURIAL DISEASES, DROPSY, DYSPEPSIA, DEBILITY, and, indeed, ALL COMPLAINTS ARISING FROM VITIATED OR IMPURE BLOOD. The popular belief in "*impurity of the blood*" is founded in truth, for scrofula is a degeneration of the blood. The particular purpose and virtue of this Sarsaparilla is to purify and regenerate this vital fluid, without which sound health is impossible in contaminated constitutions.

Ayer's Cathartic Pills,

FOR ALL THE PURPOSES OF A FAMILY PHYSIC,

are so composed that disease within the range of their action can rarely withstand or evade them Their penetrating properties search, and cleanse, and invigorate every portion of the human organism, correcting its diseased action, and restoring its healthy vitalities. As a consequence of these properties, the invalid who is bowed down with pain or physical debility is astonished to find his health or energy restored by a remedy at once so simple and inviting.

Not only do they cure the every-day complaints of every body, but also many formidable and dangerous diseases. The agent below named is pleased to furnish gratis my American Almanac, containing certificates of their cures and directions for their use in the following complaints: *Costiveness, Heartburn, Headache arising from disordered Stomach, Nausea, Indigestion, Pain in and Morbid Inaction of the Bowels, Flatulency, Loss of Appetite, Jaundice,* and other kindred complaints, arising from a low state of the body or obstruction of its functions.

Ayer's Cherry Pectoral,

FOR THE RAPID CURE OF

Coughs, Colds, Influenza, Hoarseness, Croup, Bronchitis, Incipient Consumption, and for the relief of Consumptive Patients in advanced stages of the disease.

So wide is the field of its usefulness and so numerous are the cases of its cures, that almost every section of country abounds in persons publicly known, who have been restored from alarming and even desperate diseases of the lungs by its use. When once tried, its superiority over every other medicine of its kind is too apparent to escape observation, and where its virtues are known, the public no longer hesitate what antidote to employ for the distressing and dangerous affections of the pulmonary organs that are incident to our climate. While many inferior remedies thrust upon the community have failed and been discarded, this has gained friends by every trial, conferred benefits on the afflicted they can never forget, and produced cures too numerous and too remarkable to be forgotten.
