'Twas the voice of the plumber,
I heard him exclaim:
"It's the coarse kind of paper
That blocks up the drain."

EIGHTY-SIXTH YEAR, NO. 214. MONTREAL, THURSDAY MORNING, SEPTEMBER 7, 1893. PRICE, TWO CENTS.

IT WAS NAVAL DAY.

The Mohawk's Sailors at the Exhibition.

AN INTERESTING SHAM-FIGHT.

Montreal's Citizens See What the Sailors Can Do With Cutlass, Rifle and Field Guns—Some Lightning Work in Shifting Ordnance—They Will Repeat the Drill Today—The Prize Lists.

EALLY yesterday was the banner day for the Exposition so far. Over thirty thousand people must have passed through the turnstile in the course of the day, for at twelve noon over 13,000 admissions had already been registered. All through the afternoon a steady stream of visitors poured in through the gates and the electric cars on all routes leading to the grounds were jammed to suffocation. A good-tempered, good-natured crowd it was, too; for there was not one single person intoxicated or even under the influence of liquor in the lot which says a great deal for the sobriety and good sense of the citizens of Montreal.

Of course the glorious weather was one reason for the enormous crowd that visited the great fair, but the chief attraction was the fact that it was "naval" day. The sailors of H. M. S. Mohawk were to show our citizens what British tars can do, and Montreal was there to applaud them to the echo. From the moment they arrived on the ground to when they finally marched off headed by McKee's band, they were the cynosure of all eyes, and all the other attractions paled into insignificance before them.

It was well on into the afternoon when the rattle of drums announced their arrival, and the crowd made a rush for the gate to receive them. First came the fine band of the 65th Battalion and then came "Jack" in all his glory. Forty-two strapping bronzed seamen in their neat blue dungaree jumpers, their wide blue trousers gathered into brown hemp gaiters, and wearing their jaunty flat caps, marched past with the precision of soldiery. They wore brown leather belts with their heavy cutlasses at their sides and carried Martini-Henry rifles and sword bayonets. In the rear came the gun detachment dragging a seven-pounder field piece behind them like a plaything. The whole body was under the command of Mr. Edwards, Gunner (T), of the Mohawk, and the Gunner's mate, J. Chamberlain.

After making a tour of the grounds the seamen marched across the wooden bridge to the park side, where an enormous crowd had gathered on the grand stand and around the fences to receive them. In the director's enclosure were noticed Commander Baily, H.M.S. Mohawk, Lieut.-Col. Stevenson, Ald. Prefontaine, Villeneuve, J. A. Stearns, D. Wilson, Desmarteau, Tansey and Clendenneng, besides other prominent citizens and a number of ladies; and scattered among the audience were an unusually large number of volunteers in uniform anxious to see their brethren in arms of the sea do their prettiest manœuvering.

The afternoon's exercises began with cutlass drill, and as the men marched out from the mimic city of canvas they were loudly and deservedly cheered. The drill was almost perfection. The forty glittering cutlasses moved like the parts of one machine, and the manual, done with the rifle and sword, bayonet, was almost equally excellent. Next came the volley firing which seemed to please the crowd most, the reports sounding like one thunderous crash so evenly was every trigger pulled.

Then came a sort of sham fight with an imaginary enemy which elicited repeated applause. The gun was hurried to the front. In an instant it was in action and opened fire on the enemy while the infantry drew up behind it. But the enemy were too strong, and orders were given to dismantle the gun. In an instant both wheels were off, the gun was rolled into the grass, and the gun's crew scampered behind their supports, taking the wheels, limber and ammunition boxes with them. The supports deployed into line to cover the beaten gun's crew, and fired two volleys, which checked the enemy's advance. Instantly the gun's crew dashed out again. In a moment the wheels were on, the gun remounted on the limber, the ammunition brought up, and round after round poured upon the retreating foe. Then the solid phalanx of sailors marched up with fixed swords to complete the victory, the gun fell to the rear, and amid the strains of "God Save the Queen," the grim array retired to pile arms behind the mimic walls of Moscow.

The next event of the afternoon was the tug-of-war, and great interest was taken in this, as it was expected that Sergeant Loye's champion police team would be on hand to try conclusions with the four giants of the Bell Telephone Co. Promptly on time the Bell Telephone's men marched on the platform. They were: A. Belanger, anchor, A. Gonthier, N. Martin, A. Mallette, and I. E. Armstrong, captain. But the police did not put in an appearance, and, after waiting for some time, four of the Mohawk's sailors generously volunteered to pull them, in order that the public should not be disappointed. Of course they did not expect to win, as they had never pulled on cleats before, but they did their best, and, although their opponents were nearly twice their size, they were only beaten by nine inches on the first pull and three inches on the second. Their names were F. Spendley, W. Rose, Robert Seaman, Wm. Bently, and H. Bodman, captain. The Bell Telephone team is a magnificent one, and their size may be judged from the fact that the smallest of them weighs 197 pounds, and that the team of four men total 820 pounds in all.

Following the tug-of-war came the high leaping contest for horses. For this event Lieut.-Col. Strathy and Mr. E. M. Galarneau were the judges, while Mr. Sidney J. Doran marshalled the competitors and saw to the details. The entries were:

Mr. Buzzell's Flying Dutchman, Osborne and Hardy's Raven, Osborne and Hardy's Charlie, J. H. McGee's Quito, J. Prudhomme's Nellie Cutter, Mr. Craig's Glen Walter, J. H. Smith's Elmhurst, J. H. Smith's Elmwood.

The contest was a close one, but it was eventually won by Flying Dutchman, who cleared 4 feet 6 inches and was piloted to victory by R. A. Atkinson. Elmwood, ridden by Henry Burst, was second, and Elmhurst; ridden by Jas. Nicholls, third.

FRUITS AND FLOWERS.

Further Awards in the Horticultural Department.

Further awards as follows were made in yesterday's Horticultural Exhibition:

CLASS C.—FRUITS.

Apples, peach of Montreal—1, Jas. Robson, Outremont: 2, Geo. B. Edwards, Covey Hill; 3, A Aubertin, Cote St. Paul.

Apples, Pewaukee—1, Geo B Edwards; 2, Jas Coupland, Shefford; 3, A Aubertin.

Apples, Pomme Grise—1, Geo Trussell, gardener to J H R Molson; 2, Rev. Canon Fulton, St. Vincent de Paul; 3, Geo B Edwards.

Apples, strawberry of Montreal—1, George Copeland; 2, Geo B Edwards; 3, F Ignace, College Notre Dame des Neiges.

Apples, winter St. Lawrence, 1, R W Shepherd, jun., Como.

Apples, yellow, transparent, 1, Wm. Greer, Grand Freniere, Q.; 2, A Ducharme, St. Paul, Abbottsford; 3, R W Shepherd, jun.

Any other variety, 1, Wm. Greer; 2, R W Shepherd, jr.; 3, Geo B Edwards.

Crab apples, 5 varieties, 1, Jas Robson; 2, R W Shepherd, jr.

Crab apples, 1 variety, 1, J B Edward, Outremont; 2, B T Baud; gardener to A A Ayer.

Pears, 6 varieties, (Special prize of $11 from Messrs Stone & Wellington, Toronto, per J W Beall, Esq., Montreal, manager). 1, John Eddy, gardener to Mrs. Redpath; 2, Jules Betrix, gardener to Andrew Allan; 3, Geo Trussell.

Pears, 3 varieties—1, John Eddy; 2, Jules Betrix; 3, Geo Trussell.

Pears, 1 variety—1, Jules Betrix; 2, John Eddy; 3, Geo Trussell.

Plums, collection (special prize of $10 from Messrs. Stone and Wellington, per J. W. Beall, Esq., Montreal, manager)—1, B T Graves, Cote St Antoine; 2. W B Davidson and Sons, Cote St. Paul.

Plums, two varieties (special prize of $4.50 from Messrs. Stone and Wellington, Toronto, per J W Beall, Esq, Montreal, manager)—1, B T Graves; 2, W B Davidson and Sons; 3, Robert Jack, Chateauguay.

Plums, plate of one variety—1, B T Graves; 2, Jules Betrix; 3, W B Davidson and Sons.

Plums, wild, of North Western States—1, R W Shepherd, jr.; 2. R Hamilton, Grenville.

BASKETS OF FRUIT.

Basket of fruit for dessert—1, John Eddy; 2, Jules Betrix; 3, Robert Jack; 4, George Trussell.

Basket of out-door grown fruit—1, Jules Betrix; 2, John Eddy; 3, Robert Jack; 4, George Trussell.

OUT-DOOR GRAPES.

Grapes, collection 12 varieties (special prize of $25 from James Morgan, Esq.,); 1, Wm Mead Pattison, Clarenceville; 2, Robt. Jack.

Grapes, 6 varieties, 1, Robt Reid, city; 2, Robt Jack; 3, Wm Mead Pattison; 4, John Eddy.

Grapes, 3 varieties white, 1, Wm Mead Pattison; 2, Robt Jack.

Grapes, 3 varieties black, 1, Robt Jack; 2, Wm Mead Pattison.

Grapes, 3 varieties red, 1, Wm Mead Pattison; 2, Robt Jack.

Grapes, heaviest single bunch white, 1, Robt Reid; 2, Robt Jack.

Grapes, heaviest single bunch black, 1, Wm Mead Pattison; 2, Robt Jack.

Grapes, heaviest single bunch red, 1, Wm Mead Pattison; 2, Robt Jack.

GRAPES GROWN UNDER GLASS.

Grape, 8 varieties—1, J Kirkwood, gardener to R. B. Angus; 2, J. Bland, gardener to James Burnett; 3, J. Macguire, gardener to John Molson.

Grapes, 5 varieties—1, J. Kirkwood; 2, J. Macguire; 3, J. Bland.

Grapes, 2 varieties white—1, J. Kirkwood; 2, J. Macguire: 3, Jules Betrix.

Grapes, 2 bunches black Hamburg—1, J. Bland; 2, Jules Betrix.

Grapes, best bunch any variety—1, J. Bland; 2, J. Macguire; 3, J. Kirkwood.

NECTARINES AND OTHER FRUITS.

Peaches, 6 varieties—1, Jules Betrix.

Peaches, best plate—1, John Eddy.

Melon, water—1, W B Davidson and Sons; 2, F Ignace.

Melon Musk—1, J Macguire; 2, F Ignace; 3, Geo Trussell.

Melon, best new variety, Musk—1, F Ignace.

VEGETABLES,

Artichokes, Jerusalem—1, George Trussell; 2, Wm Cagney, Quebec.

Beets, turnip blood—1, O Dagenais, Cote St. Michel; 2, Geo Trussell; 3, W B Davidson and Sons.

Beets, long blood—1, Thos Hall, Outremont; 2, Dr Elliott, Quebec; 3, C A Smith, gardener to T A Dawes, Lachine.

Beans, Lima—1, J J Gareau. St Roch l'Achegan, Que.

Beans, kidney yellow, podded—1, Jas Robson; 2, Geo Trussell.

Beans, kidney green, podded—1, Geo Trussell; 2, W M Ramsay, Merchants Bank.

Borecole (kale)—1, Thos Irving, Logan's Farm; 2, W B Davidson & Sons.

Brussels Sprouts—1, F Ignace; 2, Thos Hall.

Cabbage, winter—1, J Mollitt, gardener to Judge Cross; 2, Thos Hall.

Cabbage, red—1, W B Davidson & Sons; 2, Robt Holmes, Outremont.

Cabbage, Savoy—1, F Ignace; 2, F M A Charest, Deaf and Dumb Institute.

Carrots, half long—1, David Scott, Cote St. Michel; 2, B T Baud; 3, Geo Trussell.

Cauliflower, 3 heads, (special prize of $6 from William Evans, Esq., seedsman)—1, Dr Elliott; 2, W A Tozer, Quebec; 3, Robt Holmes.

Cauliflower, best head (special prize of $4.50 from William Evans, Esq., seedsman)—1, W B Davidson & Sons; 2, Geo Trussell; 3, Frank Roy.

Cucumber—1, Thos Hall; 2, F Ignace.

Celery, white—1, Thos Hall; 2, F Ignace; 3, O Dagenais.

Celery, red—1, F Ignace; 2, C A Smith; 3, Wm Cagney.

Celery, yellow—1, Thos Hall; 2, W B Davidson and Sons; 3, C A Smith.

Corn, sweet—1, B T Baud; 2 C A Smith; 3 F Ignace.

Egg plants, purple—1, F Ignace; 2, C A Smith.

Egg plants, white—1, Geo Trussell; 2, Jules Betrix.

Leeks—1, J Ignace; 2, Thomas Hall.

Onions, collection—1, Thos Hall; 2, C A Smith; 3, Geo Trussel.

Onions, white—1, O Dagenais; 2, C A Smith; F Ignace.

Parsnips, 1, B T Baud; 2, C A Smith; 3 John Nesbitt, Petite Cote.

Peas, green, special prize of $4.50 from W Evans, Esq., seedsman, 1, John Walsh, gardener to W W Ogilvie; 2, Wm Cagney; 3, John Eddy.

Peppers, 1, F Ignace; 2, C A Smith; 3, J S Garceau.

Potatoes, collection 10 varieties, 1, T R Hughes; 2, G. Trussell; 3, W Cagney.

Potatoes, 4 varieties, 1, Geo. Trussell; 2, Thos. Hall.

Pot herbs, 1, D Elliott; 2, C A Smith.

Radishes, 1, Robt. Jack; 2, O Dagenais; 3, W B Davidson and Sons.

Lettuce, 1, O Dagenais; 2, W B Davidson and Son, Cote St Antoine.

Continued on Page Five.

AT SHERBROOKE.

Yesterday's Events at the Great Fair.

List of Prize-Winning Cattle and Horses—Results of the Races—Descriptions of Some of the Principal Exhibits—Large Crowd Present.

SHERBROOKE, Sept. 2.—This was the day of the fair. Fully fifteen thousand people thronged this the most beautiful agricultural fair grounds in Canada. The valley of the rivers St. Francis and Magog runs between the city of Sherbrooke and the fair grounds, and the mass of humanity on the hillside showed to advantage from across the river. Sherbrooke people harbor no ill-feeling against Montreal in reference to the holding of the fair of the two places on the same date. The E. T. Fair has certainly not been the sufferer.

The day opened clear and fair, not a cloud in the sky. From early morning the people poured into the grounds, until by 2 o'clock over 15,000 persons had registered at the gates. In the main building walking was made difficult by the large crowds. Business was pretty generally suspended in the city and people gave themselves up to a holiday time.

The 8th Royal Rifles band came in by the Quebec Central Railway and was early on the grounds.

DURHAM CATTLE.

Bull, 3 years and upward—W P McClary, Compton, 1.

Bull, 2 years old and upwards—E H Gallup, North Melbourne, 2

Bull, 2 years and up—C. C and G T Cleveland, Danville, 1.

Bull calf—James Mairs, North Melbourne, 1; H W Burton, Lennoxville, 2; C C and G T Cleveland, North Melbourne, 3.

Bull, any age—W P McClary, 1.

Cow, 4 years and up—C C and G T Cleveland, Danville, 1; James Mairs, North Melbourne, 3; W. P. McClary, 2.

Heifer, 3 years and up—C C and G T Cleveland, Danville, 1; W P McClary, 2.

Heifer, 2 years and up—W P McClary, 1.

Any age—C H Hacket, Compton. 1.

Cow, 4 and up—C H Hacket, Compton 1: C Ramsdale, S. Hatley, 2; H D Smith, Compton, 3.

Heifer, 3 and up—D M Wilson, Moes River, 1.

Heifer, 2 and up—D M Wilson, Moes River, 1; C H Hacket, Compton, 2.

Heifer, 1 and up—H D Smith, Compton, 1; Guy Carr, Compton, 2; C H Hacket, Compton, 3.

Calf—C H Hacket, 1: D M Wilson, Moes River, 2; H D Smith, Compton, 3.

Best female, any age—C H Hacket, Compton, 1.

Best female, 1 and up—C H Hacket, ompton, 1.

Aberdeen Angus—All prizes won by R H Pope, Cookshire, except 1st for cow from 5 up, won by D M Wilson, Moes River.

AYRSHIRES.

Bull three years old and up—R Robertson, Howick, 1; A McCallum, Danville, 2.

Bulls two years old—Geo Davidson, Fairfax, 1.

Bulls one year old—Robert Ness, Howick; 1; A McCallum, Danville, 2.

Bull calf—A McCallum, Danville, 1; Robert Robertson, Howick, 2; E G Davidson, Fairfax, 3.

Bulls any age—A McCallum, 1, diploma.

Cows, 4 years and up in milk or calf—A McCallum, Danville, 1; Robert Robertson, Howick, 2; Robert Ness, Howick, 3.

Heifer 3 years old, in milk or calf—Robert Ness, Howick, 1; Robert Robertson, Howick, 2; George Davidson, Fairfax, 3.

Heifers, 2 years old—Robert Robertson, Howick, 1; A McCallum, Danville, 2; E G Davidson, Fairfax, 3.

Heifers, 1 year old—Robert Robertson, Howick, 1; W A Hale, Sherbrooke, 2; Geo. Davidson, Fairfax, 3.

Heifer calf—Robert Ness, Howick, 1; George Davldson, Fairfax, 2; A McCallum, Danville, 3,

Best female any age—Robert Robertson, 1; Diploma.

Best herd, bull and four females—Robert Robertson, 1, diploma; George Davidson, highly commended.

JERSEYS.

Bull, 2 years old—A P Ball, Rock Island, 2.

Bulls, 1 year old—R H Pope, Cookshire, 1. R W Frank, Kingsbury, 2; S E Humphrey, Dixville, 3.

Bull calf—R H Pope, Cookshire, 1; A P Ball, Rock Island, 2.

Bulls. any age—A P Ball, Rock Island, no award.

Cows, 4 years and up, in milk or calf—S E Humphry, Dixville, 1; A P Ball, Rock Islnd, 2; S. H. Hodge, Cookshire, 2.

Heifers, 3 years old in milk or calf—S E Humphrey, Dixville, 1; A P Ball, Rock Island, 3.

Heifers, 2 years old—A P Ball, Rock Island, 1.

Heifers, 1 year old—A P Ball, Rock Island, 1; R W Frank, Kingsbury, 2; S E Humphrey, Dixville, 3.

Heifer calf—A P Ball, Rock Island, 1; S E Humphrey, Dixville, 2.

Best female, any age—A P Ball, Rock Island, 1.

Best herd, 1 bull and 4 females—S E Humphrey, 1.

GUERNSEYS.

Bulls, 2 years old—J N Greenshields, Darnville, 1.

Bulls any age—J N Greenshields, Danville, 1.

Cows 4-years-old and upwards, in milk or calf—J N Greenshields, Danville, 1.

Heifers 3 years in milk or calf—J N Greenshields, Danville, 1.

Heifers 2-years old—J N Greenshields, Danville, 2.

Heifer calf—J N Greenshields, Danville, 1.

Best female any age—J N Greenshields, Danville, 1.

Best herd, consisting 1 bull, 4 females—J N Greenshields, 1st diploma.

HOLSTEIN.

Bull 3 years and upwards—McDuffy and Butters, Stanstead, 1.

Bull, 2 years old—Millette and Marcotte, St George de Windsor, 1.

Bull, 1 year old—McDuffy and Butters, Stanstead, 1; J Pickering, Freligsburg, 3.

Bull calf—J Pickering, Frelighsburg, 1; McDuffy and Butters, Stanstead, 2.

Bull, any age—J Pickering, 1.

Cow, 4 years and up, in milk or calf—McDuffy and Butters, 1; J Pickering, Frelighsburg, 2; McDuffy and Butters, Stanstead, 3.

Heifer, 3 years old—McDuffy and Butters, Stanstead. 2; J. Pickering, Frelighsburg, 1.

Heifer, 1 year old—Milette & Marcotte, St George de Windsor, 1; McDuffy & Butters, Stanstead, 2; J. Pickering, Frelighsburg, 3.

Heifer calf—J. Pickering, Frelighsburg, 1.

Best female, any age—J. Pickering, Freligsburg, 1.

Best herd, 1 bull, 4 females, any age—J. Pickering, Freligsburg, 1.

GRADE CATTLE.

Cows 4 years old and upward, in milk or calf—S Lake and Son, Cookshire, 1; S A Hodge, Cookshire, 2; E W Chadwick, Cookshire, 3; R W Frank, Kingsbury, 4; H H Fuller, Capelton, 5; C C and G F Cleveland, Danville, 6.

Cows 3 years old, in milk or calf—Robt. Ness, Howick, 1; E N Chaddock, Cookshire, 2; S Lake and Son, Cookshire, 3; H Ross, Sherbrooke, 4; R W Frank, Kingsbury, 5; F H Page, Sherbrooke, 6.

Heifer, 2 years old—W R McClary, Compton, 1; H D Smith, Compton, 2; E and F Gallup, Melbourne, 3; R Robertson, Howick, 4; E N Chaddock, Cookshire, 5; Isaac Parnell, Lennoxville, 6.

Heifer, 1 year old—S A Hodge, Cookshire, 1; S W Dean, Eaton, 2; E and F Gallup, Melbourne, 3; E N Chaddock, Cookshire, 4.

Heifer calf—S W Dean, Eaton, 1; S Lake and Son, Cookshire, 2; H D Smith, Compton, 3.

Herd of 4 females over 1 year—S Lake and Son, Cookshire, 1.

Pair steers, 3 years old—E N Chaddock, Cookshire, 1; H Ross, Sherbrooke, 2; S Lake and Son, Cookshire, 3.

Pair steers 1 year old—S Lake and Son, Cookshire, 1; W P McClary, Compton, 2.

Pair steer calves—E and F Gallup, Melbourne, 1.

Best steer calf—S A Hodge, Cookshire, 1; H W Burton, Lennoxville, 2; E N Chaddock, Lennoxville, 3.

GRADE CATTLE FOR DAIRY PURPOSES.

Cow 3 years old and up, in milk or in calf—R Robertson, Howick, 1; do., 2; Geo Davidson, Fairfax, 3.

Special prize from E T Bank for the best pair oxen from any one town or country—S Lake and Son, Cookshire, 1, prize $140.

PURE BRED CANADIAN.

Bull, 3 years and up—J A Archambault, Sherbrooke, 1; Guy Car, Compton Station, 2.

Bull, under 3 years old—Guy Carr, Compton, 1; Francis Carr, Compton, 2; J A Archambault, Sherbrooke, 3.

Bull, any age—J A Archambault, Sherbrooke, 1 and diploma.

Cow, 3 years and up—Guy Carr, Compton Station, 1; J A Archambault, Sherbrooke, 2; Francis Carr, Compton, 3; J A. Archambault, Sherbrooke, highly commended.

Heifer, 2 years—Guy Carr, Compton, 1; J. A. Archambault, Sherbrooke, 2.

Heifer, 1 year—Francis Carr, Compton, 1; Guy Carr, Compton, 2.

Heifer, calf—Guy Carr, Compton, 1.

CHEESE.

The exhibition of cheese is splendid. Mr. A. T. Newton, of Sutton, Que., captured the sweepstakes for the best six cheese. Mrs. A. T. Newton, of Sutton, Que., took the silver medal for the best exhibit of white cheese. These cheese are the same as were exhibited at the World's Fair at Chicago and took gold medals, and it is somewhat remarkable that an entirely different judge should make the same award for this class.

HORSES.

MR CLOUGH'S SPECIAL PRIZE.

The judging of single and double driving horses, saddle horses, cobs and ponies, hunters over hurdles, and lady drivers for Mr. Clough's special prize came off to-day in front of the grand stand at 10 a.m. This afternoon the grand parade of live stock, with bands playing and flags flying, came off amidst the applauds of 10,000 people. It was really a sight not to be seen always where so-called agricultural fairs flourish, such magnificent displays are reserved for the very few occasions.

To-day's racing was not finished at 7 p.m.

THE RACES.

This afternoon the races were:

No. 4, 2.45 class, purse $125; six entries—Bonnie Carlos, owned by G Willard; Amberlain, J W Brown; Daisy f, Max Clement; Coaticook Boy, P Lachepelle; Bismark, J A Weymouth; Stanbridge, M N Corey.

It took 4 heats to decide this race as follows: 1st heat: Daisy f 1; Bismark, 2; Amberlain, 3; Stanbridge, 4; Coaticook Boy, 5; Bonnie Carlos, 6. Second heat: Bismark, 1; Stanbridge, 2; Coaticook Boy, 3; Daisy f, 4; Bonnie Carlos, 5; Amberlain, 6. Third heat: Coaticook Boy, 1; Bismark, 2; Amberlain, 3; Stanbridge, 4; Daisy f, 5; Bonnie Carlos, 6. Fourth heat: Coaticook Boy, 1; Bismark, 2; Amberlain, 3; Stanbridge, 4; Daisy f, 5.

No. 5 race, 2.28 class, 7 entries. Purse. $175—Nicolet Bay, James Merril; Albani, G M McPherson; Salverton, G T Terril; Red Mac, H F Pierce; Sobel, P Terrian; Lyden Bay, H Mewes; Rockburn, S Knight. The heats were run and the race is still unfinished; will be run to-morrow at 10 a.m.

Gpen flat race, running purse $150—W J Hunt's Rival, G F Finnie's Dianthus, J Minogue's Harry Brown. Dianthus took the 1st heat, Harry Brown 2nd, Rival was distanced; 2nd heat, Harry Brown, 1st; Dianthus, 2nd; 3rd heat, Harry Brown, 1st; Dianthus, 2nd.

PRIZES.

The judging of Clydesdale and shire horses resulted as follows: Heavy draught stallions, 4 years and up—Robert Ness, 1; H D Smith, Compton, 2; Elmwood Stable, Lennoxville, 3.

Heavy draught stallions, 2 years old—H D Smith, Compton, 1st.

Stallions of any age—Robt Ness, Howick, 1st diploma.

Filly 2-years-old—Robt Ness, Howick, 1.

Brood mare with foal by side—Robt Ness, Howick, 1; H D Smith, Compton, 2.

Female any age—Robt Ness, Howick, 1.

Draught horses—Robt Cillas, Sherbrooke, 1; S W Dean, Eaton, 2; H K Page, Sherbrooke, 3.

Filly or gelding 2-years-old—Robt Ness, Howick, 1; Robt Cillas, Sherbrooke, 2; James Cillas, Sherbrooke, 3.

Filly or gelding—Robt Cillas, Sherbrooke, 1.

Brood mare 1300 lbs. and upwards with foal at side—H E Taylor, Sawyerville, 1; S Robertson, Howick, 2; Henry Dungate, Suffield, 3.

Female any age—H E Taylor, Sawyerville, 1.

Pair mares or gelding over 1400 lbs. each to farm wagon—Robt Ness, Howick, 1; A Carbee, Waterville, 2.

Mares or geldings over 1200 and under 1400 each—F E Osgood, Cookshire, 1; Jas Cillas, Sherbrook, 2.

CHEESE AND BUTTER.

In cheese and butter the following were prize winners: A T Newton, Sutton, carried off a silver medal; A T Newton, Sutton, gold medal; E G Welch, West Farnham, silver medal and 1st prize; B Robert, Waterville, 1st prize; Frank Wilson, Montreal, 1st prize for best firkin of factory butter; Jas McLaughlin, of West Bolton, 1st prize for dairy butter; A McCallum, 1st prize for 10 pound packages of creamery butter.

The double balloon ascension took place this afternoon at 5 o'clock, and was a well arranged affair. The wind was blowing from the north and carried the aeronauts a distance from the starting point.

A PAIR OF ACCIDENTS.

As S. D. Gilderson, Esq., was driving to the fair grounds, about 3 o'clock this after-

Continued on Page Eight.

McCARTHY COMING.

He May Be a Political Grave-Digger.

Followers of the Former Conservative Lieutenant Preparing Their Plan of Campaign—Mr Robert S. White's Appointment Soon to be Announced.

[Special to The Herald.]

OTTAWA, Sept. 6.—It is reported that Mr. Dalton McCarthy will go to Toronto on his return from England on Sept. 14. The McCarthy League central committee, which has not met during his absence, will immediately convene to decide upon the plan of campaign. It is understood that should Dr. Montagu succeed in getting into the Cabinet, a McCarthyite candidate will take the field in Haldimand, also in Cardwell when Mr. R. S. White takes the office of Collector of Customs in Montreal. The McCarthyite organizer has made a thorough canvas of Eastern Ontario, and left last night to visit all the important centres in the west part of the province in the interest of the McCarthy league, so as to be able to make a complete report of the whole province on the return of Mr. McCarthy.

There will not likely be very much longer delay on the part of the Government in announcihg the appointment of Mr. Mackintosh to the Governorship of the Northwest Territories, and R. S. White to the Collectorship of Customs in Montreal, now that there is no likelihood of a new Governor being appointed for Manitoba for some time yet. It is understood that the Cabinet is divided between Mr. Ross and Mr. Scarth and that in consequence of this Mr. Schult will be allowed to remain in office until the matter is settled or another man selected for the position. A majority of the Cabinet, including the Premier, favors Mr. Ross for the appointment, but with Hugh John MacDonald, M.P., and Mr. Daly, Minister of the Interior, in favor of Mr. Scarth, the difficulty of giving him the office is apparent in Mr. Vanasse, ex-M. P., is making a hard run for the vacant Post Office inspectorship in Montreal district.

QUEBEC CITY NEWS.

The Horticultural Show—Two Narrow Escapes.

[Special to The Herald.]

QUEBEC, Sept. 6.—The Horticultural show this year is an exceptionally fine one. There are several very beautiful exhibits, especially in greenhouse, stove and foliage plants, fuchsias, geraniums, begonias, etc. The cut flowers and floral designs are also exceedingly good. Amongst those who have made specially good exhibits are Mr. Monaghan, gardener for Mrs. Rhodes, Alex. Sinclair, gardener for R. R. Dobell, Esq., J. Burns, gardener for F. Ross, Esq., T. Todd, gardener for the Hon. E. J. Price, R. Davis, gardener for Dr. Elliott and Miss Noel, of the Sacre Cœur.

Great quantities of blueberries are being brought into the city by the R. & O. navigation Company's steamers.

It is said that a number of counterfeit Canadian 25 cent pieces are in circulation. They are supposed to be made of aluminium and, although in appearance very like the genuine coin, yet may be detected by the fact that they are under weight.

Mr. L. Blanchet, brother of Judge Blanchet, has received, it is said, the deputy registrarship of the county of Beauce, in the room of Mr. P. A. Belanger, whose sudden death occurred recently.

A tourist visiting the Falls of Montmorency is reported to have approached too near the edge of the precipice in order to obtain a better view, and losing his balance, to have fallen over 100 feet, being fortunately stopped by a projecting rock. He was rescued by means of ropes and drawn up again without receiving any serious injury.

A young girl named Fortier, working in the shoe factory at Levis, got her hair entangled in a wheel of the machinery which was fortunately revolving at only a moderate pace, and had a portion of the scalp torn off before she could be extricated from peril.

Mr. Herman Young and Miss Helen Hastings, daughter of the late Andrew Hastings, Esq., of St. John, N.B., were privately married yesrerday at the residence of Mr. Wm. Hossack, by the Rev. Mr. Tait.

Mr. R. Audet, of Thibaudeau and Brother, was yesterday appointed director of La Banque Nationale, in the room of the late Hon. I. Thibaudeau.

The Hon. Mr. Flynn left yesterday afternoon for Perce by the Intercolonial on account of the serious illness of his mother.

A farmer of Lavaltrie lately brought his twenty-seventh child to be baptized.

PESSIMISTIC ARGYLL.

Home Rule, he Thinks, Would Bring Dire Disaster.

LONDON, Sept. 6.—The Duke of Argyll resumed the debate on the Home Rule bill in the House of Lords to-day. Home Rule, he said, would be a revolution made in defiance of existing law. It differed from all previous political changes in Great Britain, for they had been based on an expansion of constitutional law. It was an attempt to frame a new constitution, and to break up the one, and it must lead to irregularities which could have no other issue than a long series of national disasters. The duty of the House of Lords dictated plainly that they should throw out the bill and give the people time to pause.

Baron Playfair in supporting the bill declared that if Lord Clare's advice had been taken at the date of the Union a Home Rule bill would not be necessary now. Ulster's representatives need not be taken seriously.

Baron Ashbourne, the Marquis of Londonderry and others spoke in condemnation of the bill.

A Man Shot At St. Andrews.

[Special to The Herald.]

ST. ANDREWS, Que, Sept. 6.—The population of St. Andrew's are greatly excited over a shooting case which took place here on Monday night. Mr. Frank Bryerton, Sr., attempted to force an entrance into the house of Mrs. McGoldrick, whose husband was absent; but her father, Mr. Carkner, after repeatedly telling the would-be intruder to go away found it necessary to shoot him. Bryerton, who is expected to die, has forgiven Carkner, admitting that he himself was to blame.

Winnipeg Grain Men Happy.

[Special to The Herald.]

WINNIPEG, Sept. 6.—Word has been received from Ottawa that the Government will not reduce Winnipeg's representation on the board to fix grain standards, and local grain men are happy once more.

Dr. Montizambert Presided.

WASHINGTON, Sept. 6.—In the Pan-American Congress to-day Dr. Montizambert, of Quebec, presided over the section on Marine Hygiene and Quarantine.

MORE MIRACLES.

Two Ottawa Residents Cured by the Good St. Anne.

(Special to The Herald.)

OTTAWA, Sept. 6.—There have been rumors here since the pilgrimage to St. Anne de Beaupre that some miraculous cures had been effected. Investigation shows that at least in two cases the results were at least remarkable. One of these is that of Mrs. Charles Larose, of 122 Stewart street. She is a stout lady, of middle age, and when seen by a reporter, was apparently in good health. This is her history: During the past ten years she has been a constant sufferer from a variety of diseases. When she went out she scarcely ever was able to walk more than half a block before she became so suffocated that to proceed further became an impossibility. In addition to the smothering sensation, hot flushes chased each other through her system and a general feeling of faintness or "goneness" affected her. Around her heart there was a most painful sensation. Directly over it a lump as large as a goose egg had formed, without any apparent cause. This lump was painful, feeling often more like a bealing than anything else. An unusual degree of heat had a peculiar and serious affect. If she sat near a stove she would frequently fall off her chair in a faint, and sometimes not regain consciousness for a whole hour. Spells of suffocation were of frequent occurrence. They were much more severe and frequent if any tight-fitting clothing or corsets were worn over the heart. But this was not the full measure of Mrs. Larose's affliction. Her limbs were badly swollen and very painful, and to experience exceeding difficulty in walking even about the house was not at all unusual.

Untill three years ago, Mrs. Larose says she was treated by at least half a dozen reputable physicians. Some said her heart affection was due to an accumulation of fat around that organ, others that it was dropsical. Some attributed the swollen condition of her limbs to her weight, she being so stout, others said it was due to dropsy. No relief was given by the doctors' treatment and finally about three years ago, physicians were abandoned altogether. Mrs. Larose was in constant dread of suddenly dropping off on account of the state of her heart. Such was her condition, that though the church is but a few steps away, she during the ten years of her illness was in the church only three or four times.

Mrs. Larose says she is now perfectly cured and her appearance certainly does not belie the statement. She says during the entire trip down she suffered terribly. She attended the services, took part in the devotions at the shrine and had the relics of St. Anne placed against the lump over her heart twice. While still in the church she was seized by a violent cramp in her limbs which disappeared only after the return trip had been commenced. When the cramp took its leave all the rest of the afflictions seem to have gone with it. Mrs. Larose immediately began feeling better and when Montreal was reached she quite easily and without any fatigue climbed the high steps at Dalhousie station and walked all the way to Notre Dame Church. She also walked around town with a friend, shopping, and felt no bad results. All her troubles, she says, have been effectually wiped out. The large lump has completely disappeared, and not a single symptom of the old enemy has manifested itself since that fateful day. Mrs. Larose now is able to walk all around town without being in the least inconvenienced or fatigued, a thing she had not done previously for years.

Another case is that of the six-year old son of Pierre Latour, blacksmith, who has been suffering from hip joint disease for nine months. The child was under medical treatment, but was making no progress. He could not even bear the weight of the body on the injured member, and could move it forward or backward only with the greatest difficulty. Since the lad's return from Ste. Anne there have been many indications of recovery. He can now freely move the leg forward and backward; he can walk on it short distances when helped along by another person, and every day, the family say, the limb seems to becoming stronger. A retreat is now being held by the pilgrims that the good work commenced in this case may be continued and the parents of the child are confident that when it is completed, the child will have recovered.

MR. LAURIER'S TOUR.

Demonstration at Welland To-Day—Future Engagements.

ST. CATHERINES, Ont., Sept. 6.—Hon. Mr. Laurier will arrive here from Toronto this evening, when a reception will be tendered him, also an address of welcome by the Liberals. To-morrow morning he goes to Welland for the great demonstration there, which, it is expected, will eclipse any political demonstration ever held in this historical district.

The following are the places and dates of Mr. Laurier's addresses for the middle of September: Mitchell, on the 14th; Arthur, on the 16th; Dunham, on the 18th; Port Elgin, on the 20th; and Owen Sound, on the 22nd.

A DUEL TO THE DEATH.

Two Policemen Settle an Old Score With Pistols.

LOUISVILLE, Ky., Sept. 6.—A special from Hopkinsville, Ky., says: Robert West and Willard Davis, both members of the police force, settled an old score this morning with a pistol duel to the death. Davis fired first and West promptly returned it. They were within arm's reach of each other. At the same instant both fired a second time. Davis sank to the platform and West reeled and fell. He expired in four minutes. The bullet had passed through his heart. Davis was placed in a carriage and taken to his house, where he still lives, but cannot long survive. The bullet from West's pistol entered the right side.

SOLD IT FOR $60,000.

The Ottawa Lithographer Gets That Sum for his Patent.

OTTAWA, Sept. 6.—W. G. Rochester, a young engraver, of 34 Elgin street, says the report is true that he has sold a patent for $60,000 to a firm in Germany. The patent is for a printing and lithographing machine that will make as many as thirty printings of different colors at the same time if required, something unknown in the history of printing. Mr. Rochester declines to give

FINE EXHIBITS.

Choice Displays at the Montreal Fair.

Exhibits Which Every Visitor at the Fair Grounds Should Make It a Point to Inspect—Where They are to be Found—Some Very Interesting Descriptions.

All those who agree with the Apostle Paul, that a little wine now and then is quite agreeable to the human stomach, must have been considerably interested in the display of Messrs. J. O. Villeneuve & Co., to the left of the entrance of the main building. Their exhibit is a most comprehensive one, including choice imported liquors and fine domestic cigars of their own manufacture. In the centre are three immense casks holding 150 gallons of Dupont's best. These brandies have obtained the highest awards at the expositions of Paris, Amsterdam, Antwerp, Moscow and Tours, while at the great Paris exhibition of 1885, and again at Havre in 1887 they carried off the awards "hors concours." On either side of the casks are pyramids of case goods, clarets and sauternes from the firm of Jules Clavelle, Bordeaux, and choice burgundies from the house of Chas. Bernard. These wines received the gold medal at the Centennial Exhibition held in Philadelphia in 1876. For all these lines Messrs. Villeneuve and Co. are the sole agents for the Dominion. These are the only wines which this firm have on exhibit, but they carry besides at their warehouse, No. 1260 St. Lawrence Main street, a full and complete stock of goods of all the most famous vintages. At each end of the exhibit are ornamented glass cases filled with a choice assortment of cigars, among which the famous "Blackstone" occupies the place of honor. And fine cigars they are too. Hap that solemn looking old lawyer, after whom they are named, been permitted the luxury of smoking one or two of them after his dinners, it is probable that that ponderous collection of legal commentaries which has developed the seeds of future habits of profanity in scores of young law students, would have been written in a much more intelligible form. But, unfortunately for the old jurist, the cigar factory of Messrs. J. O. Villeneuve and Co. was only opened on the first of last July. It is a certain fact, however, that intricate and knotty legal points which he has inflicted upon youthful candidates for the bar, at no time appear clearer than when viewed through the puffs of fragrant smoke from a Blackstone cigar. The other brands made by this firm are the Aberdeen, Paul Jones, Melrose and Little Buck. They are all union hand-made and of the very finest Havana leaf, specially selected. These lines range in price all the way from $25 to $75 per thousand. The house itself is one of the oldest established of its kind in Montreal, dating back to 1862. Their store is at No. 1260 and their factory at 1200-1202 St. Lawrence Main street.

STRAIGHT FIVE CIGAR COMPANY.

Occupying stands on both sides of the passage leading from the front part to the rear of the main building, is the exhibit of the Straight Five Cigar Company. They are not content with displaying stocks of cigar boxes, but they make the article right there in plain view of all, and then sell the product, "a 10 cent cigar for 5 cents," a good deal faster than the hottest of hot cakes were sold. It has never yet been satisfactorily shown by the anti-tobaccoists that there is anything else that will quite take the place of a good cigar for toning down the rough edges of this world's cares, and when one can get such an article for five cents,—well, he generally gets it. These cigars, which are filled with choice Havana, are made in several grades from the very mild to the very strong, and are of very superior flavor. The members of the firm are Mr. Michael Hirsch and Mr. H. C. Heimerdinger, with headquarters at No. 114 St. Lawrence Main street.

CHOCOLATE MENIER.

"From morn till eve, from eve till dewy morn," with the exception of that part of the twenty-four hours when the fair is closed, the dispensers of chocolate Menier are busy at the stand dealing out the delightful beverage to the thousands of visitors who crowd the Industrial building. The yellow-wrapped packages of this preparation are known to the whole world and it is not necessary here to dwell upon its excellence. A short notice of its history, however, and the present amount of manufacture should not be uninteresting. The industry was first started at Noisiel, in France, in 1825, by M. A. B. Menier, grandfather of the present manufacturers. At this time the total chocolate production of all France averaged about 440 pounds per year, or the same quantity that the Noisiel works alone now produce in four days. At the death of the elder Menier in 1853, his son, Mr. E. J. Menier, formerly deputy for the Department of the Seine, gave an enormous impulse to the consumption of chocolate in France. He founded in Nicaragua immense plantations of cocoa, created a special fleet for his freights, established a large sugar refinery at Roye and perfected the machinery of production to such an extent that the works at Noisiel became the most extensive chocolate-making establishment of the world. Dying in 1881, he was succeeded by his three sons, under whose direction Noisiel has within a few years almost doubled in importance. They are certainly good tax-payers, the duties which they annually pay the State amounting to 13,000,000 francs, or $520,000. The works at Noisiel, London, Roye and Nicaragua employ over 3,000 workingmen and clerks. Mr. Chouilla is the Canadian manager, and his present exhibit at the present exposition is very tastefully arranged.

MR. A. R. WILLIAMS.

The exhibit made by Mr. A. R. Williams of machinery supplies and planing machines and tools, in the machinery building, is very complete. He has a double planer and matcher, also an engine lathe in full operation, both of which run very smoothly. The work done by the planer is particularly neat, and is said by experts to be the finest ever done by a planer. When a board leaves this machine it is as perfectly smooth as could be imagined, not the faintest sign of any scratch or other unevenness being descernable. Mr. Williams shows a large variety of Reeve wood-split pulley in different sizes. This pulley was put on the market only about a year ago, since which time it has in great measure supplanted all other makes. It embodies strength with symmetry, lightness with durability, and can be safely run at the highest speed. They are made as large as 15 feet diameter, one in use in the Montreal Wool mills being of this size. It has a 25-inch face, and conveys over 200 H.P. Most of the pulleys used throughout the Exposition buildings are the "Reeves." The lathe shown is of 18 H. P. and is of the style especially manufactured for his trade. The feeds are all geared, and both rod and screw are on the front of the lathe. Besides these, Mr. Williams shows several foot-power machines, and also wing disc ventilating fans. His Montreal office is 305 St. James street.

THE GURNEY MASSEY CO.

Everything that conduces to the facilitating of such household indispensables as cooking, and in winter, heating is one step forward towards a solution of the much mooted question: "Is life worth living?" As the measure of the value of everything is the amount of pleasure which it conveys, so life is hardly worth the living when in the boiling days of July one has to stand over a stove which sends about ten units of heat into the circumambient atmosphere for every one which goes into the article to be cooked, and when in the frigid temperature of December one hugs in vain the register which positively refuses to yield the heat we so desire. In their convertible stoves and hot water heaters, the Gurney-Massey Co., of 385 and 387 St. Paul street, claim to have provided just what is required. Their display of these in the eastern wing of the Industrial building is a very large and comprehensive one, including also boilers with twin connections. They also show some very fine Rugby hot water and steam radiators, all artistically painted in various shades. Their exhibit of oil stoves is especially complete, and includes some entirely new features in this line. The display of steel ranges adapted to the requirements both of the ordinary housekeeper and the large hotel, is also a most representative one.

TEES, AND CO.

The display of desks and general office furnishings made by Tees & Co. in the Main Industrial building, gives a fair idea of just what sort of work this firm turns out. In fact their name has become so connected with desks that it is almost impossible to think of the one without the other. Among their exhibits is a large counter in Canadian oak which is intended for their own office. It is a very fine piece of work. Several varieties of desks, the speciality of this company, are shown in walnut and oak. These desks are provided with patent memorandum slates, and with self closing drawers having adjustable divisions. The desks are secured with one lock, and on the Roll Top, or curtain desks, a two-keyed automatic tumblers lock fastens the curtain and with it all drawers and doors. Other varieties of desks shown are cylinder and flat top. Some very fine revolving book cases in different sizes and finish are displayed; also revolving music stands. Composition secretaries and book cases in antique oak complete the display in this line. In ornamental hardwood floors and parquet borders there are some very handsome samples to be seen.

HUGHES AND STEPHENSON.

The "Reliable" gas stove was a specialty of the exhibit of Hughes and Stephenson, in the eastern wing of the Main building. This stove has many interesting feature, not the least among which is that it can be lighted from the outside, a great convenience to the housekeeper. The Peebles' patent needle burner, for which this firm are agents, is shown in a varieties of sizes, regulating the strength of the flame. It is claimed for this burner that it will give a greater candle power from the same gas than any other burner. It is automatic in its action, and passes the same quantity of gas under varying pressure. Several samples of baths in indurated fibre ware and iron enamelled are shown; also a few soapstone tubs. Their exhibit further comprises a complete assortment of copper boilers, of 175 lbs. pressure test and made by the firm, self-cleaning range boilers, ventilators and fire clay sinks. Their self-cleaning range boiler removes the mud and sediment from the interior and cleanses the water back. Messrs. Hughes & Stephenson are the only makers in Canada of the McLennan anti-siphon tap vent, a decided step in advance in modern sanitation. The "Globe" ventilating and chimney cap, of which several samples are shown, is a very neat little contrivance combining simplicity and effectivness.

C. W. LINDSAY.

The space about the piano exhibit of Mr. C. H. Lindsay was contmuously filled with a crowd of people, attracted by the playing of Mr. Carkeek, of Toronto. Mr. Carkeek is a very fine musician and he played on a very fine instrument, a Heintzman concert grand in rosewood case. One would almost wonder, as he listened to the light, familiar strains of Little Annie Rooney or Ta-ra-ra-boom-de-ay, which Mr. Carkeek interspersed among more elaborate pieces, that he had ever considered them stale. But then it is one thing to hear the sounds of the hand organ manipulated by some scion of sunny Italy, and another thing to hear Mr. Carkeek on one of Mr. Lindsay's pianos.

The larger number of the instruments in this exhibit are of Heintzman make. They are in all styles of finish and are very handsome. Besides the concert grand Mr. Lindsay shows an upright in Circassian walnut, one in burl walnut and two in brown and white mahogany. There is a very fine instrument in California red wood, the handsome finish of which was greatly admired. Two more in oak and Hungarian ash complete the exhibit in Heintzmans. The Decker pianos are represented by as nice uprights as could well be imagined. They are in hazelwood and mahogany. Two pianos in Circassian walnut and mahogany, from the Morris manufactory, Listowel., complete Mr. Lindsay's exhibit. But these are not all the instruments; there is the Doherty organ which he proposes to give away to the successful solver of three puzzles. These puzzles consist in a little clever juggling with figures, checkers and beans, and if the possession of a handsome two hundred-dollar piano is any inducement there ought to be plenty of solutions.

RENAUD' KING & PATTERSON, FURNITURE.

Some very handsome furniture is being shown at the exhibition this year, the displays in this line being much superior to any of previous years. The exhibit of Renaud, King & Patterson is especially fine, and shows just how a home ought to be furnished. Besides a general assortment of all kinds of house and office furnishings, this firm has fitted up and furnished a model drawing room, dining room and bed room. In the former is a solid mahogany cabinet and table, with furniture to match; also a cabinet of real birds'-eye maple. The conversational chair which forms part of the suite was much admired. The dining room furniture is of solid oak and is very fine. One could almost forego the luxury of eating for the mere pleasure of sitting down to such a table amid such surroundings. The furniture of the bedroom is of Spanish mahogany and is especially fine. Separate from these three suites there is a large general variety of various kinds of goods. There is a splendid display of the very best reed work and embossed leather ware. Some of the furnishings, upholstered in embossed pig skin, are especially fine. Something new of its kind is shown in a dental cabinet, of Canadian oak. The cabinet has a bevelled plate glass front, and within an ingenious arrangement of drawers and receptacles for tools necessary to his art makes it an ideal cabinet for the practicing dentist. Messrs. Renaud, King & Pattterson also have a large display of fine coverings, French silks, English tapestries, and English brocatelles.

MONTREAL DRESS-CUTTING ACADEMY.

The tastefully decorated stand of the Montreal Dress-Cutting Academy, presided over by Madame E. L. Ethier, was a centre of attraction for a large number of the lady visitors to the Industrial Building. At the rear of the exhibit was a large, handsome mirror before which the gentle sex instinctively stopped to admire the reflection of their own sweet selves. But admiration of reflected beauty soon gave place to admiration of the beauty of Madame Ethier's exhibit. Madame Ethier does not challenge the saying of the poet that beauty unadorned is adorned the most. She holds that even regal beauty may be made yet more attractive by means of a neat fitting garment and may be considerably spoiled in appearance, by faulty dress making. The old time methods of pinning and refitting, letting out and taking in, find no place in the system with which she succeeds in preserving the natural curves which give grace and elegance to the form.

Madame Ethier's Academy has now been established in Montreal three years, and during that time over 800 pupils have been graduated. The system itself can be learned in a very short time and all that is then required to reach perfection in its application is average ability and, as in everything else, a reasonable amount of practice. This system was awarded the gold medal at the Exhibition of 1891. Mrs. Ethier shows several gracefully draped models, the work of her pupils which reflect the greatest credit upon their instructor. Her Academy at No. 88 St. Denis street is well worth a visit.

SIMPSON, HALL AND MILLER, SILVER AND PLATED WARE.

In the line of silver and plated ware it would be difficult to imagine anything more beautiful than the assortment to be found in the display of Simpson, Hall and Miller, on the ground floor of the main building. Their exhibit of centre pieces, tea sets, prize cups, toilet novelties, etc., etc., is most complete, while the well known stamp of the firm, Wm. Rogers and Co., is a sufficient guarantee of their merit. The greater number of the articles come in blank form from the Wallingford, Ct., manufactory, and are finished here, but many are entirely made at the Montreal works. A very handsome candalabrum was greatly admired by all who visited the building. It was really a beautiful piece of work and deserved all the admiration which it received. But it was not the only thing to be admired. There were several very handsome prize cups, artistically and appropriately ornamented with reference to the sports for which they were intended. On one the lacrossist carried the ball unhindered on his stick, having evidently distanced the other man who was not even in sight; on another the sturdy footballer might be seen cavorting upon the grassy field and hugging close the coveted rubber; on still another the cricketing gentleman stands with his bat poised after delivering a blow which has succeeded in driving the ball out of sight. Then there is a variety of the Wm. Rogers flat-ware, both separate and fitted into cabinets. There are embossed goods, picture frames, tea-sets in various stages of elaborateness, flower pots, water sets, card receivers, tilting kettles, all in several styles of finish, old silver, gilt and bright. There is also a very fine line of baking dishes and vegetable and fruit dishes, biscuit jars, cake baskets, butter dishes, salad bowls, jam pots, lamps, jewel caskets, picture frames, smoker's sets, and all kinds of mounted porcelain goods. There is Dalton ware mounted into tete-a-tete sets on silver waiters, collar and cuff boxes,—but it is needless to mention what else was there. There was almost everything in the exhibit and yet it is understood that there was still more that was not there.

H. R. IVES AND CO'S DISPLAY.

There is nothing particularly artistic in such common bits of the iron worker's craft, as door locks and hinges, grates, furnaces and boilers, but that they can be so arranged that the aggregate effect will be decidedly artistic and attractive was shown by H. R. Ives and Co's display in the Industrial building. On top of one of his famous "Buffalo" boilers Mr. Ives has fixed a real buffalo's head; a head of immense proportions it is, and its quondam possessor must have towered above his fellow dwellers of the prairies to the same extent that Mr. Ives claims that his Buffalo boilers tower above all their rivals. On the wall in rear all kinds of small iron ware are fastened up in many clever designs, the whole being surrounded by some very pretty iron cresting. In front is a section of the grand staircase of the Montreal Court House, which has attracted universal admiration. This is without doubt the finest piece of iron work in Montreal, which means that it is unsurpassed by any in Canada. At the sides are displays of very handsome elevator grating, Alaska goods, Mrs. Potts' irons, cresting and corrugated soil pipe fittings, The "Buffalo" boilers, a specialty of this firm, are shown in various sizes. They afforded no appreciable warmth as they stood in the building, but Mr. Ives explained that all that was wanting to this end was a little coal and some water. The distinguishing feature of the Buffalo boiler is that the fire pot is cast in one piece. The water has thus a direct flow from the fire pot to the leaders, making it a most rapid heater.

Another portion of this firm's exhibit is found in the Machinery building. Here a barbed iron wire machine is in full blast, turning out 2-point, plain twisted barb wire at the rate of 160 barbs, or 66 feet, per minute, which it does as easily as our good old grandmothers used in their younger days to spin yarn. Outside this building is a section of cast iron pipe for use in the culvert under the Soulanges canal. This section is 10 feet in diameter by 5 feet in length and weighs 6,800 pounds. It is a fine piece of work and is one of the largest castings ever made in this part of the country.

D. WALKER.

Mr. D. Walker has been so long engaged in sweetening soured humanity, that "Walker's Candies" have achieved a reputation which, if not yet world-wide, is certainly Canada-wide. His exhibit on the ground floor of the Main building is a genuine work of art the variety of shade and color being so exquisitely designed that one's mouth instinctively waters at the sight. And there is really no reason why one should not satisfy his craving in this direction for "Walker's Pure Candy" on the box is sufficient guarantee that no deleterious substance has entered into the sweet combination. As noticed in the Herald some time ago, the demands for this candy have become so great that Mr. Walker has determined to embark in the wholesale trade, and to this purpose will shortly close his dining room connection with his present St. James street store. All the necessary machinery for the increased business has already been purchased, and will be put in operation the coming month. Five tons of candy, by the way, is a very considerable quantity, yet that is what Mr. Walker's trade amounted to last year, and it will be considerably exceeded for the present year. It is needless to add that Mr. Walker is a great favorite with the children and the "best girls."

L. E. N. PRATTE.

Right at the head of the stairs leading to the second floor of the Main building is one of the most attractive exhibits to be seen, that of L. E. N. Pratte, piano and organ manufacturer. Among his display Mr. Pratte shows a piano made in London by Clementi in 1798. It is an antique looking instrument and if the savage breast of the eighteenth century was content to be soothed by its music, the savages of the present day ought to go into ecstatic convulsions when listening to the sounds of melody produced by such handsome instruments as Mr. Pratte's more modern exhibits. Parts of sections of pianos from 1797 to 1893 are also shown, illustrating the progress made in a century of piano manufacturing. The handsome vocalion at the rear of the exhibit is a fine specimen of the powerful church organ. It is one of Mr. Pratte's own make and possesses many points of excellence. In pianos there are some very beautiful ones in onyx, satin wood, Brazilian rose-wood, Brazilian mahogany, Prima Vera, Caucasian and Persian walnut. The fine touch and even tone of these instruments is testified to by such exponents of their art as Albani and Lloyd. They are also used by many of the best musicians of Montreal, and give general satisfaction, wherever introduced. Mr. Pratte uses on all pianos and organs of his make, a new patent action, which he claims to be much more durable than any heretofore made in America and to obviate the necessity of frequent tuning.

THE AUER LIGHT.

Not satisfied with the exhibit of thousands of lights all through the city the Auer Light Company makes, every evening after dusk, a beautiful display of its wonderful light that attracts large crowds to the eastern wing of the Industrial Building. There is no free music, no gratuitous refreshments, no prizes offered, but the people are there just the same. And no wonder, for even in this enlightened age and enlightened land it is seldom that such a flood of luminosity is anywhere seen as at the Auer Light exhibit. There are red shades and blue, yellow shades and white, plain and fancy, within which burns the peculiarly intense Auer light, the effect being very beautiful. On the first evening of the exhibition week there were two electric arc lamps in this wing of the building, but they have since been removed,—comparison was odious.

Two girls are at work here making the mantles or hoods which are suspended over the gas flame. The process is very simple and is watched with great interest. The hood is primarily a woven cotton tube, saturated in a solution of the salts of a refractory metal. This is then moulded into shape and dried. It is next submitted to the flame of a Bunsen burner, and the cotton is completely burned away leaving the oxide of the metal which gives the brilliant light when suspended over the non-luminous flame of the Bunsen burner.

The Auer light uses but 3 feet of gas, and will yield over 75 candle power of light, while that amount of gas in an ordinary burner would only give about 10 or 11 candle power. Hence the economy of the Auer system of illumination.

This light is now in extensive use in England and all over Europe.

THE REACTION CONTINUES.

FACTORIES STARTING ON FULL TIME AGAIN.

Clearing House Loan Certificates to be Retired When the Sherman Law Goes.

ALENNTOWN, Pa., Sept. 6.—The Rod mill of the Iowa Barbed Wire works, resumed operations to-day. The wire-drawing, galvanizing and barbing departments will be started soon.

The broad silk department of the Alcade Silk mill, which has been only running on half-time, started on full time yesterday.

The Tamaqua Knitting Mills at Tamaqua have resumed operations with a reduced force.

CLAYTON, N.J., Sept. 6.—Work at the Moores Bros.' glass works was resumed this morning in one factory. The remainder of the surface will be fired and the works running at full capacity by October 1.

J. M. Pierce and Co., of the North Clayton bottle works will resume operations about September 25.

LEWISBOURG, Pa., Sept. 6.—The C. Godcharles nail works and the City nail works resumed yesterday.

The New York and Pennsylvania paper company, of Lockhaven, also resumed yesterday.

LEAVENWORTH, Kan., Sept. 6.—The Abernethy factory resumed operations yesterday.

NEW YORK, Sept. 6.—In view of the easier feeling in the monetary situation, Frederick D. Tappen, chairman of the Clearing House Loan committee, was asked yesterday when the retirement of certificates could be looked for. He said: "There will be no loan certificates retired until the Sherman law is repealed. When this done they will soon be retired."

WILLIAM'S CROMWELLIAN ADVICE.

Trust In God, But Keep Your Powder Dry.

METZ, September 6. — The Emperor William was entertained last evening at a banquet by the municipal authorities of Metz, and the high officials of Lorraine. In his speech he thanked the people of Lorraine for the cordial welcome they had given him and for the repeated demonstrations of loyalty which they had made daily during his sojourn at Urville. Metz, he said, had shown herself to be especially devoted to the Emperor and the empire. By their enthusiasm in the last few days the people of Lorraine had given proof that they were happy in belonging to Germany. They had learned to appreciate German unity and the greatness of the empire. They now declared themselves to be thoroughly loyal and desirous of living in peace and enjoying unmolested what had been earned for them. The unity of Germany ensured the keeping of peace. Lorraine would forever remain German, protected by God and the German sword.

Steamer Missing.

NEW YORK, Sept. 6.—Some anxiety is manifested for the steamer Simon Dumois, which sailed from New York Aug. 17, for Kingston, Jamaica, and is now overdue at that port. The Simon Dumois put into South Port, N.C., Aug. 22, leaking, and with pumps out of order. She sailed for Kingston August 25, after having made repairs, since which time she has not been heard from.

TO STOP THE PROGRESS of Consumption, you will find but one *guaranteed* remedy—Doctor Pierce's Golden Medical Discovery. In advanced cases, it brings comfort and relief; if you haven't delayed too long, it will certainly cure. It doesn't claim too much. It won't make new lungs—nothing can; but it will make diseased ones sound and healthy, when everything else has failed.

The scrofulous affection of the lungs that's caused Consumption, like every other form of Scrofula, and every blood-taint and disorder, yields to the "Discovery." It is the most effective blood-cleanser, strength-restorer, and flesh-builder that's known to medical science. In all Bronchial, Throat, and Lung Affections, if it ever fails to benefit or cure, you have your money back.

A perfect and permanent cure for your Catarrh—or $500 in cash. This is promised by the proprietors of Dr. Sage's Catarrh Remedy.

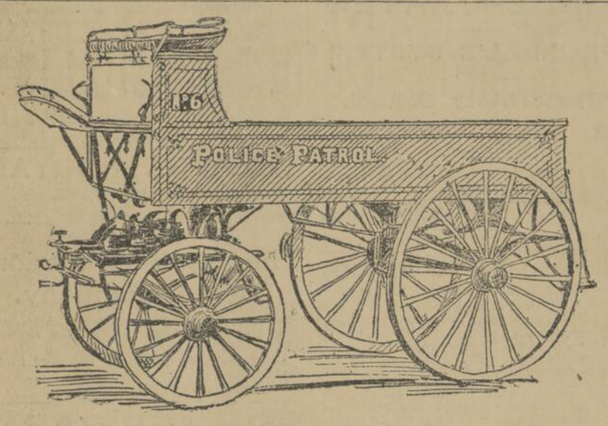
POLICE PATROL.

A Thorough Description of the New System.

The Location of Stables and Booths —Over 100 Miles of Copper Wire —Will Be Ready November 1st— The System Put in by the Bell Telephone Co.

The Herald is able this morning to give a complete list of the stables and call-booths of the new police patrol system. The waggons adapted by the city are simular to those tried and discarded by other cities, namely the open wagon. Very often an intoxicated man or woman when arrested takes the united efforts of several officers to control. Such sights in open patrol waggons are not just the thing to be rushed through the principal streets. For this cause many of the American cities have discarded the open waggon.

The location of stables are as follows:—At No. 14 Police Station, Rachel street, corner of Amherst street; No. 2 Police Station, Gain street, corner of Craig street; No. 5 Police Station, No. 121½ St. George street; No. 9 Police Station, Grand Trunk street, near Shearer; No. 7 Police Station, Young street, and at No. 4 Police Station, Ontario street, near corner of German street.



MONTREAL STYLE OF PATROL WAGON.

The booths, all of which will be numbered, will be located as follows:

Place D'Armes Square, east side of square, opposite No. 7.

Craig and St. Urbain, north-east side of Craig street.

Craig and St. Lawrence street, north-west side of Craig street.

Craig and St. Denis, south-east side of Craig street, 25 feet east of No. 368.

Craig and Jacques Cartier, south-east side of Craig street, opposite fence.

Dalhousie Square, on west side of road, west side of square.

Notre Dame and Montcalm, north-west side of Notre Dame St.

Craig and Panet, southwest side of Craig St., 45 feet west of No. 164.

Dorchester and Panet, southeast side of Dorchester.

St. Catherine and Papineau road, Southwest side of Papineau road.

Mignonne and De Lorimier Avenue. Northeast corner.

Notre Dame and Parthenias, northeast corner, on Notre Dame St., between trolley and telephone pole.

St. Catherine and Dufresne, N.E. side of St. Catherine St, 20 feet east of No. 741.

Notre Dame and Poupart, N.E. side of Poupart St.

St. Catherine and Harbor, N.E. corner.

St. Catherine and Moreau, northeast side of Moreau.

Hochelaga Convent, Notre Dame Street. Northeast side of Notre Dame St.—Corner Joliette, next fence, side of new gate of convent. (Here the Company must have permit to place five poles on Joliette Street which is not yet opened.

Dezery and Ontario Sts, Southwest side of Ontario St. (Seven new pales will be required on Dezery St.

Logan and Poupart, north-west side of Poupart street, (eight new poles will be placed on Logan street).

Stock Yards, Ontario street, south end of hotel alongside electric light pole, about fifty feet south-east of hotel.

Frontenac and Ontario north-west side of Frontenac street.

East End Abbatoir, opposite office, west side of Frontenac street.

Rachel and Papineau Road, north-west side of Papineau Road.

Ontario aud Papineau Road, north-west corner of Papineau Road.

Fulford and Notre Dame, north-east side of Fulford street.

Richmond and Notre Dame, south-east side of Notre Dame on new line.

Versailles and Notre Dame, south-east side of Versailles, near electric light pole.

William and Guy, north-east side of William, near fire alarm box.

McCord and Murray, on south side of Wellington street, at end of side walk where G. T. R., track crosses Wellington street.

St. Patrick Sqr., south side of St. Patrick St., fronting west end of blacksmith shop.

St. Patrick and Montmorency Sts. South-east side of St. Patrick St. (One new pale wanted.)

Ropery and St. Charles. N.W. side of Ropery St.

St. Patrick and Charlevoix. Southwest side of St. Patrick St., beyond telephone pole.

Centre and Atwater, near telephone pole at N.E. Junction of the streets.

Charlevoix and Grand Trunk. N.W. side of Charlevoix St.

Charlevoix and Knox, N.W. side of Charlevoix St. (One pole wanted.)

Charlevoix and Wellington, N.E. corner Charlevoix St.

Wellington and Liverpool, N.E. side of Wellington St.

Wellington and Congregation, S.E. side of Wellington.

St. Etienne and Mill, N.E. side of St. Etienne St.

Common and King, N.E. side of Common St.

Nazareth and Wellington, S.E. corner of Nazareth St.

Mill and Riverside, S.E. side of Mill.

Duke and William, N.W. side of Duke.

Grey Nun and Wellington, south-east side of Grey Nun street.

St. Ann's Market, south-west corner of Fish Market.

Wolf and Lagauchetiere, south-east side of Lagauchetiere street.

Dufferin and Marie Anne, south-east side of Dufferin street.

Plesis and Logan, south-west side of Plesis street, (four new poles are wanted for this booth).

St. Catherine and Amherst, south-west side of Amherst street.

St. Hubert and Lagauchetiere street, south-east side of Lagauchetiere street.

Mignonne and Christophe, north-east side of Mignonne street.

Amherst and Sherbrooke, south-west side of Sherbrooke street.

Maple and Cherrier, south-west side of Maple.

Sherbrooke and St. Denis, north-east side of St. Denis street.

St. Louis Square, west side of Laval avenue, north of Prince Arthur street.

St. Denis and Roy, south-east side of St. Denis street.

St. Denis and Marie avenue, northwest side of St. Denis. (Ten new poles will be put up for this call station.)

Rachel and Laval avenue, northeast side of Laval avenue.

St. Lawrence and Mount Royal, southeast side of Mount Royal.

Mount Royal and St. Urbain, southeast side of St. Urbain.

Park avenue and Duluth, northwest side of Park avenue. (Six poles are required.)

St. Lawrence and Rachel, northwest side of market, next to lamppost.

Roy and St. Lawrence, northeast side of St. Lawrence.

Park and Pine avenue, southeast side of Park avenue.

Pine avenue and University, northeast side of Pine. (About 25 more poles are needed from Park avenue West on Pine avenue.)

Lower Reservoir, west corner of McLavish and Carleton road.

Cote des Neiges and Pine avenue, near pole on west side of Cote des Neiges.

Bishop and Dorchester, northeast side of Bishop street.

St Catherine and Drummond, southwest side of Drummond street.

Windsor Depot, Dominion Square, alongside cab shanty on Osborne street.

Peel and Cypress, on northwest side of Peel street (three poles wanted).

Cathcart and Mansfield, northeast side of Mansfield street, between tree and lamp post.

Beaver Hall and Dorchester, southeast side of Dorchester street.

Phillip Square, northeast corner of the square.

Sherbrooke and University, southwest side of University street.

Sherbrooke and Mance, southeast side of Mance.

Sherbrooke and St Lawrence, southwest side of Sherbrooke.

St Catherine and St Lawrence, southwest side of St Catherine, beyond telephone pole.

St Lawrence and Dorchester, northwest side of Dorchester. Two poles additional will be required here.

Germain and St Catherine, northwest side of Germain. One extra pole will be placed here.

St Denis and St Catherine, southeast side of St Denis.

Plateau school, east of iron school fence on north side of St Catherine.

Craig and St George, northwest side of St George.

Victoria Square, opposite Fortification Lane.

St Monique and Lagauchetiere, northwest side of Lagauchetiere.

Bonaventure station, southeast side of St James.

Notre Dame and Murray, southeast side of Murray, 25 feet from hydrant.

St Antoine and Versailles, southeast side of Versailles.

St Antoine market, southeast corner of Weigh house.

St James and Richmond, northwest side of St James, west of telephone pole.

Richmond square, opposite No 46.

St Antoine and Dominion, northwest side of Dominion.

Canning and St James, northwest corner of Canning.

Sherbrooke and Drummond, southeast corner of Drummond.

Sherbrooke and Cote des Neiges, west side of Cote des Neiges.

Sherbrooke and Atwater avenue, west side of Sherbrooke. Ten more poles will be placed here.

Dorchester street, opposite side from 1272. 1st pole west of Women's Hospital.

Fort and St Catherine, southwest side of Fort.

Dorchester and Fort, northwest side of Fort.

THE SYSTEM.

The system is the same as in use in Chicago, Boston and other leading cities. It will be put in by the Bell Telephone Company of Canada who are also operating the Toronto system. The booths of which there will be 100, are made of galvanized iron in octagonal shape with a bar iron frame work with a heavy door. The booths will be 3 feet in diameter and 8 ft. high, in which a prisoner can be locked, if necessary until the arrival of the waggon. Each booth is placed on and bolted through a strong concrete foundation on the outer edge of the sidewalk. Inside will be a complete set of telephonic instruments and a "call box" with an electric automatic dial, on which are engraved different calls. For instance, should an officer at Box 32 desire to call an ambulance he draws a lever over the dial to the word Ambulance and the call is registered in the Central Station (City Hall) 32—Ambulance. This call is first announced by an annunciator, which informs the main office the line on which the call is coming. The registering machine also prints the call on a tape. On receiving the call the main office sets the transfer machine in operation and transmits the call to the stable nearest the call box. Absolutely no time is lost in this system. An officer can call by the registering instrument for fire, police, riot and ambulance, besides having a telephone by which he can communicate at once to his station through the central office. When an officer makes an arrest he has to take his prisoner as far as the nearest booth; when the wagon arrives he makes his charge to the officer in command and the prisoner is taken post haste to the station, by this system an officer never leaves his beat while on duty. On every round he reports to his station, these reports are to be made at regular hours and if not made officers are sent out to see why. When the Toronto system was put into operation one of the first cases was of this kind, an officer failed to report and men were sent out from the station, they found the officer had been assaulted and was lying unsconcious in an alley way.

There are a great many advantages to this system. Should a prisoner escape from jail the impression can be conveyed to every officer in the city in a very few minutes. Should a child be reported lost to an officer he can report same to the Central office and in turn it is immededialely sent out to every officer while on his beat. In many of the cities reputable citizens are furnished with keys and they can make a call for help or report any trouble to the police.

When the Central station makes a call upon one of the stables the electric current opens the doors of the stalls and at the same time registers the hour of the call. There are six separate circuits into the Central station from the booths and the same number to the stables from the main office.

A little over 100 miles of copper wire will be in full operation. About 30 booths are now under way in the east end. They have been located under the direction of Chief Hughes. He consulted the police reports of past years and has placed the booths where experience has shown the need for them.

The entire system is to be in operation on November 1st. They will furnish two men for six months to instruct the city operators in the workings of the system. Ald. James reports the stables under way and is satisfied they will be ready for Nov. 1st. Each waggon will have as a regular force a driver and two officers.

LOST YEARS.

CHAPTER III.

[CONTINUED.]

"What in the world does this mean? That young man is no more Charlie Reynolds than I am. I can only account for the case in one way, and that is a very unusual one. The operation I performed last week restored his scull to its normal shape. There was quite a deep indenture and a consequent pressure upon the brain, which undoubtedly affected, probably suspended, his memory. Now this young man—minister, did you say?——"

"Yes," I interrupted. "But this is the awful part of it. He is dead—buried—five years ago. I saw him buried, have gone to his grave many times, and now he lies there and talks to me. And Charlie Reynolds, drunkard and robber. Oh, no! no!"

"You say your friend was killed in a railroad accident on his vacation trip? How was his body identified? Who saw it after it was sent home?"

"None of the family saw the remains, he was so badly burned. I see. It must have been the wrong body."

"And the railroad, of course, had him cared for until he was well. And then he couldn't tell who he was, and drifted about until he fell into bad company. He has been a cat's paw for this gang, no doubt. Well, you've got a pretty little sensation upon your hands. I'd like to see you get back and tell your story."

I wondered how he could talk and smile so carelessly, but in that country nobody is surprised at anything. I went back to my patient, after despatching a messenger for Howard, who was working in the "San Jacinto," twenty miles away.

Chester, as I could safely call him now, was extremely anxious about his fellow passengers, and thought they must be in the hotel by this time. I was familiar with the shocking details of the disaster at the time, but could not recall them with sufficient accuracy to satisfy him. The five years intervening were apparently entirely lost. He could scarcely believe us when we told him that he had lain unconscious for more than a week.

Howard came in the evening, and was amazed beyond his power of expression. He thought over the complex situation a long time before he made any effort to communicate with the family of the patient. Chester could not understand why we had not telegraphed before, and we could not explain. We called a council of three and debated. Chester Mansfield, the gifted, irreproachable minister of our large church, was held to be tried for robbery and assault as soon as he was able to appear. We could not take him away. What word could we send to the young wife, about whom he continually asked, and the old mother? We finally left it to Howard, who telegraphed to the wife that her husband had been found alive, though recovering from a serious illness; that he was in our care, but wished her to join him as soon as possible; and that the body sent home as his must have been that of another man.

When we told Chester that she had been sent for he explained, "How can she leave her baby? She would have been with me but for that three months old baby." The baby was now a tall boy of five in kilts. Although the complications arising from this strange case were countless, we managed to keep the real story from Chester until he was sufficiently recovered to bear it, and indeed we did not then tell him of the serious misdeeds of his other self.

But when the young wife came after her long journey, and we led her, for the first time without her mourning dress, up to his room, he knew that to her he was in truth one risen from the dead. I opened the door for her, and when I heard her cry of joy as she sprang forward, satisfied at last of his identity, and his low, "My love, my love!" I closed the door and went away to weep a few tears to myself, but not of sorrow.

My story is told. We secured bail for Charles Reynolds and took him home, to wait the fall term of court, where he expects to have no difficulty in proving his innocence in his present person. To himself his case presents some metaphysical and moral studies quite at variance with his own belief. He cannot yet comprehend the silence of his conscience at this time of need. The sensation created by our return, and all subsequent events, are well known to those who will read this statement, so that I need tell no more.

My only object in writing so minute an account, and detailing such conversations as I could remember, is to protect him forever, as far as my word will avail, from any insinuation of intentional or conscious wrong doing in those five lost years, knowing as I do the conditions of life exacted of a clergyman and fearing some future recrimination.

[THE END.]

Summer Weakness

And that tired feeling, loss of appetite and nervous prostration are driven away by Hood's Sarsaparilla, like mist before the morning sun. To realize the benefit of this great medicine, give it a trial and you will join the army of enthusiastic admirers of Hood's Sarsaparilla.

Sure, efficient, easy—Hoods Pills. They should be in every travellers grip and every family medicine chest. 25c. a box.

The Laurentian Tepid, Swimming and Turkish Baths, Craig Street, are the best fitted and cleanest on the Continent. The first institution in Montreal that should be visited.

THE MONTREAL HERALD.

(FOUNDED 1808.)

MONTREAL, THURSDAY, SEPT. 7, 1893.

THE CITY ASSESSMENT.

The large increase which the assessors have made in the value of the real property of the city is suspicious principally by reason of the part which the value of exempted property plays in the grand total. As was shown by Mr. G. W. Stephens, before the Private Bills Committee of the Provincial Legislature in 1892, the total value of the city realty was $123,000,000, of the exempted property $21,000,000, and of the taxable property $102,000,000. Fifteen per cent. on the total, to which extent the city is empowered by statute to become indebted, is $18,450,000; on the value of the taxable property, which must pay the interest on the loans, it is $15,300,000. The possibility of such a discrepancy must remain fatal to the reliability of the existing system. The recent increases in the values of taxable property may, or may not, be successfully defended, but it is clear enough that no amount of inflation in the value of exempted property will tend to the satisfaction of the creditors as to the responsibility of the city. That measure of right of appeal which is held by every owner of realty is a considerable factor in every assessment, and, since in the case of exempted properties, there is no one to exercise that right, the assessors, under influence of a sort which will suggest itself to every mind, might place fictitious and enormous values on all assessed properties. The result would be such a swelling of the total value of the city realty as would legalize loans to a most extravagant extent. The ratepayers would have a grievance in any case. They must suffer, on the one hand, from great increases in their several assessments, or, on the other, from a great discrepancy between that value upon which the amount of the city debt is based and that upon which the interest on the debt is collected. Ald. Beausoleil, on the statement of a contemporary, fixes the amount of the total increase this year at $40,000,000 divided equally between the taxable and the exempted property. Upon the increased value, he says, a loan of from $4,000,000 to $5,000,000 might be based and the whole burden of the increase in the city debt would fall upon the owners of the taxable property, which under any just system, should be responsible for loans of only half the amount named. The law should be changed. The borrowing power should be limited to a percentage, not of the total value of the real property of the city, but to the value of the taxable property. The aldermen of the present regime have been accused of a desire to make hay while the sun shines, but the sun will not shine long enough for them to make much hay unless they pay heed to such public grievances.

For the rest, the property owners are hard hit by the increases. It is not enough to maintain that the recent assessment has gone a long way towards a much desired equalization. In the first place, this might be hard to establish and in any case, the small owner will take little comfort out of the knowledge that the large owner is to be forced to bear a fairer share of the burden than he has hitherto borne. Both know that their tax bills were too large last year and they will not be blamed for indignant protest against increases of which the circumstances are so entirely suspicious.

The curtailment of their right to appeal, to which attention has been already called, is an aggravation of their grievance. They believe, and in a host of cases would probably prove, that their property has been valued too high and they have the right to demand that they be given ample time and ample freedom for the stating of their cases before the assessors. This time and this freedom they will not be given, if the assessors persist in limiting their hearing to the four days specified in the advertisement.

THE LABOR CONGRESS.

The representatives of organized labor, assembled in the Dominion Trades and Labor Congress, have been welcomed to Montreal by its mayor, who, except in one notable case, has been in the habit of performing that gracious function of his office with peculiar ability and tact. And in that welcome the citizens heartily join. Organized labor has made many grave mistakes, but it may be hoped, it is reasonably certain that those mistakes are the mistakes of youth. In an eternal clashing of interests, where a happy solution of a mighty economic and sociological problem must be forever dependent upon the forbearance of both parties, but where one party has always enjoyed the power to dictate terms of settlement, it is inevitable that the other party, from the very infrequency of its chances of advancement, should fail to exercise its privileges with such judgment as must have marked its actions had it been able from the beginning of things to take its own part in the decision of its destiny. The blindness of the individual working man, the tyranny of the walking delegate and those unions which have acquired a measure of power, and the horrors of strikes, constitute, in a sense, as necessary and logical an outcome of the cruel indignities to which workingmen have been submitted in the dark past, as agrarian outrages present of the bloody persecution of distressful Ireland. These masses, long plunged in darkness of their masters' making, are struggling to the light, and, whatever be their present errors, however hopeless their efforts may seem, if they are to be made upon existing lines, and if the rampant selfishness of mankind is to persist, they will most surely arrive at that eminence in the councils of humanity to which the dignity of labor entitles the laborer.

Their best men are keenly alive to the identity of the interests of labor with the interests of capital. The vulgar notion that organized labor exists only for the discomfiture of capita appeals to the sympathy of no man that has taken pains to observe the achievements of united workingmen in the betterment of their own condition. And since what benefits the workingmen and improves their general usefulness must work in the end to the advantage of the employers, they are not entirely selfish in the pursuit of their own happiness. The mass is leavened with men who will consent to assume a hostile attitude towards capital only when the inalienable rights of labor are threatened. The leaven has not always worked. These men have not always been able to restrain the masses of their fellows from criminal follies, but their influence is from year to year more abundantly felt, and will become predominant in the end.

The congress which is at present in session in the City Hall is a body in which a wise moderation has generally ruled. It has been careful to precipitate no grave conflicts between labor and capital in the Dominion. It has been the direct means to the passage of much admirable law, working to the general interest as strongly as to the interest of the workingman. The mover of fool resolutions has occasionally found his way into its halls, but the better counsel of moderation has almost invariably ruled and the minute book of the congress has been generally one of which any deliberative assembly might be proud. The congress has in the consideration of means to the elevation of the workingman and the enforcement of his rights a high and honorable duty and the workingmen and the country at large look to it with confidence for the fulfilment of its obligation.

SPORTING WORLD.

The Montreal Football Clubs First Practice.

Recent English Cricket Matches—Ottawa Football Club's Annual Meeting—Brockville's Annual Regatta—M. A. A. A. Handicaps—A Bonnet Hop at Lachine.

The first annual practice of the Montreal Football club took place on Wednesday morning, and it was well attended. Most of the old timers were up, and quite a number of new men. Montreal intends putting in more hard work this season than ever before, and a very successful season's outcome can be expected from the material at hand. The old time bus wherein members shivered at the "Gym" has been done away with, and now-a-days one takes the comfortable electric cars out to the grounds. Practices are are 6.10 a.m. sharp, Mondays, Wednesdays, and Fridays.

Besides the usual league games the Montreal team has arranged a match with with a team from the Maritime Provinces. It is also expected that matches will be played in the city between the Ottawa and the Ottawa College clubs.

OTTAWA'S ANNUAL MEETING.

OTTAWA, Sept. 6.—At the annual meeting of the Ottawa Club to-night these officers were chosen - Hon. pres., J. W. McRae; pres., C. W. Badgeley; 1st vice-pres., Charles Panet; 2nd vice-pres., R. Shillington; captain, C. C. Clarke; manager, Harry Morrison; executive committee, Young, Cameron, Cambie, Little and Lambert. Messrs. Skinner, McLean and Dumoulin were appointed to look after the interests of the second fifteen.

ATHLETICS.

M.A.A.A. Games.

The handicap games, which take place on the M.A.A.A grounds on Saturday, have already received a large entry list. Never before has there been such a large number of runners enter from outside places. Everything points to a large big success.

The O.A.A.A. Sports.

OTTAWA, Sept. 6.—The annual athletic handicap sports of the Ottawa Amateur Athletic Association are fixed for Saturday week, Sept. 16. A large entry is promised from Montreal.

AQUATICS.

Brockville's Annual Regatta.

[Special to The Herald.]

BROCKVILLE, Sept. 6.—Brockville's annual regatta yesterday afternoon was most successful. Fully 5000 people witnessed the sports from the C.P.R. wharf. To-day's sports called excursions from Gananoque, Clayton, N.Y., Kingston and other points. Gananoque came with a new sailing skiff, a band and sailing enthusiasts to sweep the river, but unfortunately the Gilbert-built sailing skiff St. Lawrence proved herself the champion of three seasons, winning by 4 minutes in a fair breeze. All the skiff sailors have been discussing the first-class skiff race for some time as the St. Lawrence had been beaten by the new skiff Leprechaun in the race at the A. C. A camp. The St. Lawrence's crew claimed that their boat had not been properly rigged for that race, and they were given yesterday's race to redeem their defeat, which they did with their usual grace.

The Leprechaun is a beautiful craft, of magnificent lines and workmanship. She is a "knife-blade" in marine parlance, and carries the longest spread of—680 feet—canvas of any 88-foot area skiff known. She carries a crew of six to hold her up in a fair wind. She sails in fits and starts, and your correspondent would give as the reason of this that her masts are not properly located, and excellent authority will bear it out. The race proved very interesting, and was contested by the Leprechaun and Shamrock of Gananoque, and St. Lawrence and Pastime of Brookville. The course was four miles and required to be sailed four times and the boats had to turn the home buoy twice on each round. The start was made at 2.10 o'clock. The following is a schedule of the order in which they got away and positions in each round and time of finish:—

	Start.	Round 1st	2nd	3rd	4th	Finis'd at
St. Lawrence.	3	1	1	1	1	3.58
Leprechaun..	2	3	3	2	2	4.02
Shamrock....	4	2	2	3	3	4.03
Pastime.....	1	4	4	4	4	4.04½

This brought the boats in pretty closely together as regards time.

The second class race was also very interesting, the boats being bunched quite closely during the whole race. They were only required to sail the course twice round and the winners out of six entries were: 1st, Coquette; 2nd, Peggy; 3rd, Jessica.

There were minor sports to no end. The greasy pole had an unlimited number of prizes. The other principal events were won by:—

Single scull, 2 miles—P. Fraser, 1st; Dier, 2nd; Worsley, 3rd.

Upset canoe race, McLean, 1; Gilmour, 2.

Double scull race, Fraser Brothers.

Double canoe race, Gilmour and Wilkinson.

Swimming race, Cumming, of Montreal.

Duck race—Darling.

Dog race, McGlade's Sport, 1; Booth's Dandy Mixture.

Altogether the day was the most satisfactory yet held on the river and to Mayor Booth's energetic efforts is due the credit of the sport, and it is the wish of all who have witnessed one that no year may be allowed to pass without Dave Booth's acquatic tournament.

Navahoe Once More Beaten.

RYDE, Sept. 6.—The first of the races for the international gold cup given by the Royal Victoria Yacht Club was sailed today. The course was off the Isle of Wight, fifty miles. The contestants were the Prince of Wales' Britannia and Royal Phelps Carroll's Navahoe. The start was made in a very light breeze. The Navahoe led at the start, but was soon over-hauled by the Britannia. The latter won easily.

Lachine Boating Club.

The Lachine Boating and Canoeing club will hold its last hop of the season in the Club House on Saturday evening. The handsome cup given by The Metropolitan for the war canoe race will be presented to the winners. The last train for the city leaves Lachine at 10.47 p.m.

CRICKET.

Recent English Matches.

The latest English papers give the results of the different matches played throughout the country. They are as follows :

The score of the Kent-Yorkshire match, two innings, was Kent 228, Yorkshire 241, with eight wickets to fall.

Gloucestershire defeated Surrey by 33 runs in a two innings' match, the score being 321 to 228.

The score in the Middlesex-Lancashire match was 333 runs for the former and with seven wickets to fall, and 332 for the latter.

An eleven of the second class counties met the Australians at Birmingham. The Australians won by four wickets. The score being Counties 301, Australians 302.

THE COUNTY CHAMPIONSHIP.

By their victory over Kent, coupled with the defeat of Lancashire by Middlesex, the Yorkshiremen have now made themselves absolutely certain of the championship. Surrey have finished their season, and after having been at the top of the list for half a dozen years in succession—tieing with Notts and Lancashire in 1889—they have now to be content with a very modest place.

	Played.	Won.	Lost.	Pts
Yorkshire	15	11	3	8
Lancashire	15	9	4	5
Middlesex	15	9	5	4
Kent	14	5	4	1
Surrey	16	7	8	—1
Sussex	14	4	6	—2
Notts	14	4	6	—2
Somerset	14	2	8	—6
Gloucester	15	3	10	—7

Losses are deducted from wins, and drawn games ignored.

The Australians.

The Australians are expected to arrive in America about Sept. 27. They are booked for their first game at Philadelphia on Sept. 29th and 30th, and Oct. 2nd.

A Special Ottawa Team.

[Special to the Herald.]

OTTAWA, Sept. 6.—At a meeting held today Mr. B. T. A. Bell decided upon the following picked team for Montreal : A. F. Austin and Bruce Austin, of Chambly ; M. G. Bristowe, B. Acklord, Dr. Parnell, A. Bell, B. T. A. Bell, H. A. Bliss and C. D. Fripp, of Ottawa; T. D. Bell, of Montreal, and Mr. E. Stevenson, of the Longwood eleven of Boston, Mass. The eleven will leave Ottawa to-morrow afternoon and play their first match against McGill on Friday, on Saturday they will measure bats with Mottreal's crack eleven.

Farnhams vs. St. Albans.

FARNHAM, Sept. 6.—A game has been arranged between the Farnham and St. Albans clubs for next Saturday, at Farnham. It is expected that the Burlington battery will accompany the Vermonters. Bowen will be in the box for Farnham.

BILLIARDS.

Schaeffer and Ives Matched.

CHICAGO, Sept. 6.—Jacob Schaeffer and Frank C. Ives have been matched to play at 14-inch balk line for $2,500 a side. The match is the outgrowth of the claiming of the championship cup and title of champion by Schaeffer. The men are to play five nights, a game of 800 points each night, in November at Central Music Hall in this city. Jacob Schaeffer will to-day become champion balk line billiard player of the world and will receive the cup emblematic of the title, Frank Ives having defaulted under the rules, and forfeited the title to the wizard.

TURF.

The St. Leger Race.

LONDON, Sept. 6.—The race for the St. Leger stakes, the second great event of the Doncaster September meeting, was run today. McCalmont's Isinglass, the winner of the Derby, came in first. Rose's Ravensbury was second, and Baron de Rothschild's Le Nichim was third.

BICYCLING.

Johnson Lowers Zimmerman's Record.

COLUMBUS, Ohio., Sept. 6.—Zimmerman's time for a mile with flying start was yesterday lowered 1 3-5 seconds by John S. Johnson, at the bicycle races of the Columbus 'Cycling club's meet. Johnson's time was 2.07 1-5.

Continued on Page Eight.

Murder and Robbery.

SEATTLE, Wash., Sept. 6.—Early yesterday morning Ernest Felting, on returning to his home, discovered that his mother, 81 years of age, had been murdered. Her head had been crushed in with a stove leg, and a trunk was opened and robbed of $800. Charles Olt, his son, George G. Olt, and S. A. Waldron, neighbors of the deceased, were arrested charged with committing the crime.

Mrs. Anna Sutherland

Kalamazoo, Mich., had swellings in the neck, or Goitre from her 10th year, causing 40 Years great suffering. When she caught cold could not walk two blocks without fainting. She took

Hood's Sarsaparilla

And is now free from it all. She has urged many others to take Hood's Sarsaparilla and they have also been cured. It will do you good.

HOOD'S PILLS Cure all Liver Ills, jaundice, sick headache [illegible] stomach, nausea.

J. E. HAZELTON, Granulated Pharmacist 308 Yonge Street, Toronto, Ont.

How the Entire

SEXUAL SYSTEM

of the male may be brought to that condition essential to health of body and peace of mind. How to DEVELOP stunted, feeble organs EXPLAINED in our new Treatise, "PERFECT MANHOOD." A simple, infallible, mechanical method, indorsed by physicians. Book is FREE, sealed. Address (in confidence),

ERIE MEDICAL CO., Buffalo, N.Y.

What is

CASTORIA

Castoria is Dr. Samuel Pitcher's prescription for Infants and Children. It contains neither Opium, Morphine nor other Narcotic substance. It is a harmless substitute for Paregoric, Drops, Soothing Syrups, and Castor Oil. It is Pleasant. Its guarantee is thirty years' use by Millions of Mothers. Castoria destroys Worms and allays feverishness. Castoria prevents vomiting Sour Curd, cures Diarrhœa and Wind Colic. Castoria relieves teething troubles, cures constipation and flatulency. Castoria assimilates the food, regulates the stomach and bowels, giving healthy and natural sleep. Castoria is the Children's Panacea—the Mother's Friend.

Castoria.

"Castoria is an excellent medicine for children. Mothers have repeatedly told me of its good effect upon their children."
DR. G. C. OSGOOD, Lowell, Mass.

"Castoria is the best remedy for children of which I am acquainted. I hope the day is not far distant when mothers will consider the real interest of their children, and use Castoria instead of the various quack nostrums which are destroying their loved ones, by forcing opium, morphine, soothing syrup and other hurtful agents down their throats, thereby sending them to premature graves."
DR. J. F. KINCHELOE, Conway, Ark.

Castoria.

"Castoria is so well adapted to children that I recommend it as superior to any prescription known to me."
H. A. ARCHER, M. D., 111 So. Oxford St., Brooklyn, N. Y.

"Our physicians in the children's department have spoken highly of their experience in their outside practice with Castoria, and although we only have among our medical supplies what is known as regular products, yet we are free to confess that the merits of Castoria has won us to look with favor upon it."
UNITED HOSPITAL AND DISPENSARY, Boston, Mass.
ALLEN C. SMITH, Pres.,

The Centaur Company, 77 Murray Street, New York City.

WHERE

Ignorance is bliss, 'tis folly to be wise. The general public are now thinking of how to keep warm this winter, and the question of making the most out of their dollars.

IS

uppermost. Allow us to suggest that among those who contemplate purchasing a Hall Stove, the wisest is

HE

who examines our GRAND UNIVERSAL. It is without exception the most artistic design in the market and as a Heater it cannot be equalled. They are

GOING

fast. Call at any of our stores and examine them.

FONTAINE'S FACE CREAM.

THE SKIN.

Nearly every person is more or less neglectful of the skin. The skin is provided with many pores and glands. The sebaceous glands supply the skin with an oily substance to keep it soft and smooth; without this the skin becomes chapped, dry and scaly. In this country the face and hands are exposed to the winds which disturb the proper action of the sebaceous glands and rough chapped face and hands follow. What nature is unprepared to do FONTAINE'S FACE CREAM artificially supplies. This preparation will cure the very worst case of roughness or chapping of the skin on any part of the face or body. It only requires a few applications to give the greatest proof of its value. We have many testimonials from the best-known ladies of Montreal, and we recommend it to all wishing an effective and inexpensive luxury for the toilet table. For sale by all druggists.

B. E. McGALE, Gen. Agent.

CATTLE KILLED.

A Locomotive of the G. T. R. Makes Smithereens of Burly Bullocks.

The Buenos Ayrean Arrives—Several Departures—The Earl of Aberdeen and Suite Leave for Canada To-day on an Allan Steamer—Cattle Attendant Buried.

Two or three departures from the harbor of such steamers as the Mariposa and the Sarmatian makes things dull, but it is a come and go story all the time. The Buenos Ayrean of the Allan line arrived precisely at 1 p.m., just as predicted in The Herald. She left Glasgow under Captain Vipond on August 26th, carrying 150 passengers, including five saloon. Many of the intermediate passengers were pretty Scotch lassies, who were making their way out to our Canadian Northwest to meet friends, who preceded them and had done well. Officers and passengers unanimously praised the voyage because of constant fine weather. A heavy general cargo was carried, which is being speedily discharged.

BETTER THAN A TEXAS NORTHER.

Yesterday morning at the peep-o'-day, sometime after 3 o'clock, a herd of cattle being driven down the entrance to the harbor, just in front of the Harbor Commissioners offices, were struck by a G. T. R. shunting locomotive. Railway engines colliding with cattle herds beat Texas northers hollow, according to this result for two burly bullocks were suddenly killed, and various parts of their anatomy strewn in an unattractive manner about the railroad track. There was considerable excitement among the cattlemen and cattle too, while the track was disturbed for a few rods. The cattle were being driven to the Sarmatian steamer, and mum seems to be the word about the harbor as to who is to blame for the loss. It is not the first time, by any means, that cattle have been killed in this same manner.

Notes.

Steamship Warwick, Captain Davies in command, sailed this morning with a heavy general cargo for Glasgow, consigned by R. Reford and Co.

Steamship Hestia arrived yesterday afternoon from Glasgow, and is at the lower wharf. She carries a large general cargo.

Steamship Mariposa could not leave port yesterday, until nearly 12 o'clock, because of delay in cargo, and at the end a heavy consignment of flour was left.

Heavy cargoes are being rapidly stowed away in the Dominion Liner Vancouver and the Allan SS. Laurentian. They both sail on Saturday morning.

The Allan Mail SS. Assyrian, from Glasgow and Liverpool, for St. John's, Nfld., Halifax and Philadelphia, arrived at St. John's at 5.15 Tuesday p.m.

The popular Allan steamer Numidian will be the next passenger boat in port. She is expected about about next Sunday morning.

The Allan steamer Sardinian will have the honor of carrying the Earl of Aberdeen, our Governor-General elect, and suite. She leaves to-day for Canada with a large party on board.

Yesterday afternoon the Rosarian cattle attendant Robt. Walker, was taken by Undertaker Armstrong to the seamen's lot in the Protestant cemetery.

YOKOHAMA, Sept. 6.—The sailing vessel Brodick Castle left here for Vancouver Tuesday afternoon, Sept. 5.

The Allan's steamship Manitoban, from Montreal for Glasgow, arrived out on Wednesday morning with loss of 3 cattle out of 179 cattle and 25 horses.

PORT OF MONTREAL.

South Point — Cloudy; northeast wind; Anna Magee arrived.

Low Point—Raining; southeast wind. Inward Storra, Lee, Activ, Maud, Hartman. Outward Wandsworth, bark Amaranthe.

COTE ST. ANTOINE NEWS.

R. D. Anglin's Confidential Clerk Arrested For Embezzlement.

Arthur Kember, twenty years of age, was arrested by Chief Harrison last evening on a charge of embezzlement, preferred by his employer, R. D. Anglin, No. 183 Greene avenue. Kemler has been in Mr. Anglin's employ for the past ten weeks and was trusted as one of his own family. He has confessed his guilt.

Cote St. Antoine is not behind hand in modern equipment. The new police patrol waggon is now at headquarters and goes into commission to-day.

The Academy and its two branches opened Tuesday for the enrollment of scholars for the session. It may be interesting to those who opposed the building of a new school to know that in Miss Smith's class of the intermediate grade, there were three scholars seated at each desk—made for two. The Academy, even with the addition of Elm Hall for the overflow, will be crowded beyond its capacity. The opening rolls show an increase of over sixty scholars.

Mr. Leonard Mount, one of the Cote's popular young men, will leave for Toronto on Saturday. Before returning he will link his fate with that of a young lady of the Queen City. Mr. and Mrs. Leonard Mount will, after the wedding tour, take up their residence here.

Mrs. John Archibald, of Dorchester street, has returned with her children from Leggatt's Point, Little Metis.

Mrs. L. W. McFarlane, who has been visiting Mrs. Hugh Brodie in the Laurentians, has returned.

Mrs. W. H. Mathews has returned from the mountains.

C. J. Brown, Cote St. Antoine's popular real estate agent, and Mrs. Brown, are home after an outing which lasted several weeks.

Mr. and Mrs. W. M. Knowles and family have returned from a three months visit to England.

N. W. Trenholme, dean of the faculty of law of McGill college, with Mrs. Trenholme and the Misses Trenholme have arrived home after a most pleasant summer, spent down on the Maine coast.

Mr. E. Nightingale and family have removed to Ottawa. Cote St. Antoine loses a much respected citizen.

A Federal telephone wire became crossed with a Royal wire, the current was transmitted to a guy wire from the telephone pole to an adjacent field. During the night a cow belong to Mr; Malson, manager of the Dominion Cordage Company, must have stepped on the broken wire, for it was found dead and frightfully burned in the morning.

Mrs. George Kittson's many friends will be pleased to learn that she has returned home almost completely recovered from her recent serious illness.

The valuation roll of Cote St. Antoine, is deposited at the corporation office and according to orders from the council will remain open for the inspection of all interested parties until September 30th.

Mr. Arthur Samuels, of Argyle avenue, has returned from an outing at Hudson. A large number of persons will soon be in from this favorite resort.

Miss Tillie Cowan is back in town after two months spent in Ottawa the guest of Mrs. Edward Morgan.

FINANCIAL.

The Local Stock Exchange was Fairly Active and Steady.

Cable and Street Railway Were the Features—The London Market Dull—New York Strong—Heavy Railway Earning Decreases—Money Unchanged.

WEDNESDAY, Sept. 6.

The local Stock Exchange was not over active this morning, but prices were steady. Cable was the stock most dealt in, 420 shares selling at from 131 the highest to 129¾ at the close. Street Railway was rather brisk, 225 shares changing hands at 178 to 177 the lowest, closing half a point better, at 177½. Gas was a point weak on a sale of 25 shares. Bank Stocks were quiet, and little was done in the rest of the list, prices, however, being steady. Money is unchanged, call loans being quoted at 6½ to 7 per cent.

The London market was rather dull. Americans rose at first, but afterwards sagged under the influence of decreased earnings, and the delay in the Senate's action on the silver bill. The close was slightly steadier. The other markets were dull. Discount rates are down to 3 in the market. The bank will perhaps reduce the official rate to-morrow. Ninety thousand pounds in gold came to-day, making three hundred and thirty thousand in for the week.

In New York the market was strong, although St. Paul declined on its heavily decreased earnings. The earnings of Missouri Pacific are also reported to have decreased $316,000 for the fourth week of August and $837,000 for the month.

According to special advices to Meredith and O'Brien from J. S. Bache and Co., railroad earnings are even more disappointing than was expected, and the situation does not show any chance for improvement. Half a million clearing house certificates were cancelled to-day, and over a quarter of million were issued. Promise is made that a big batch of these certificates will be cancelled in the near future.

The talk about the strike situation on the St. Paul was to the effect that the employees would resist any reduction in wages, and the great question now is whether the directors at their meeting on the 14th of September will find it desirable to declare the regular dividend. Rumor has it that this company has made a big loan abroad at 8 per cent. with bonds as collateral, but this, of course, cannot be verified.

The sugar dividend has been declared as follows : 3 per cent. on the common, and 1¾ per cent on the preferred stock.

To-day's highest, lowest and closing prices, the number of sharer and the net changes from yesterday's closing prices for actual sales wers as follows :

Sales.	High	Low	Close	Chan.
25 Pacific	76¼	76¼	76¼	
420 Cable	131	129¾	129¾	—¼
135 Telegraph	140	139½	140

New York Stocks.

Messrs. Monroe, Miller and Co., 16 Broad street, New York, dispatched the following by direct private wire to Christin and Co., 61 St. Francis Xavier street :

The stock market opened moderately active, and generally lower in sympathy with London quotations. "W. U." was the exception, and it advanced ¼ per cent. There was a pressure of stock. London houses had some selling orders in the arbitrage specialties. Evansville and Terre Haute declined 7 points on light transactions with differences of 3 points between transactions on the appointment of a receiver. D. L. was bid up by the room traders, and a new and unwieldly short interest has been established in the stock. Sugar and W. U. were lower on the marketing of a small line of long stock. The sugar directors met to-day and formally declared the regular quarterly dividends on the pfd. and Common. Realizing sales by traders and sales by foreign houses were the features on the first dealings and prices yielded under the pressure, but the tone became firmer. A sharp break in St. Paul, caused by the report that the dividend would be passed, caused the entire list to sympathize. A buying order in St. Paul of 5000 advanced the price to 61. It is credited to large bull interests, on both reactions to-day. The bull party seemed to encourage it. There is thought to be a strong bull clique at work in sugar. However a lot of it was dumped on the market in the last dealings causing a decline of from 1½ to 3 points in all the more active stocks. L. and N. was weak on threatened trouble with their trainmen. The list closed weak and unsettled. The New York clearing house loan committee has issued $235,000 clearing house certificates and has cancelled 500,000, leaving a total outstanding $35,015,000. The average loaning rates on stocks, are: L. and N., 1-32; U. P., 1-64; B. O., 1-128; N. Y. C, W. U. and G. E., flat; Sugar, St. Paul, N. W., L. S. and R. I., 1 to 2 per cent for carrying. Money opened; offered at 4, highest 6, lowest 3, last loan 4.

Messrs. Meredith & O'Brien, 16 St. Sacrament street, have received the following quotations by direct private wire from New York·

New York Gossip.

Special despatches to Meredith and O'Brien from J. S. Bache and Co. give the following information :

We understand that there is a movement on the part of the holders of Reading securities to appeal to the Court for the appointment of Mr. Isaac L. Rice as an additional receiver, or in place of one of the present receivers.

Philadelphia (Special).—There are rumors here that a bigger deal is going on in Reading than the Rice manifesto. Its nature is not known, but if carried out, it means the speedy discharge of the receivers.

Chicago (Special).—The application for a receiver for Evans & Terre Haute was made at Terre Haute on the complaint of the Sullivan County Bank which is a creditor of the company for $36,000. The complaint alleges that Evans & Terre Haute earnings have been used by the Mackay people to sustain a number of roads like Peoria, Decatur and Evansville, and the Louisville, Evans and St. Louis. It further alleges that the Mackay management endorsed considerable paper for Mackay roads.

The sugar dividend has been declared as follows: 3 per cent, on the common and 1¾ on the pfd.

Exchange.

Messrs. W. L. S. Jackson & Co., foreign exchange brokers, report the market as follows :

The Grain, Produce and Provision Markets.

Wheat Shows More Strength—The Green Fruit Trade—Dry Goods—Naval Stores—Liverpool Produce Market—Fruit Sale—American Dairy Markets.

WEDNESDAY, September 6.

The wheat market showed a fair amount of strength to-day, and although at the opening the feeling was weak, the situation improved later. December wheat touched as high as 70⅝c, which was just 1c higher than yesterday's highest point. Cables, while fairly firm, did not offer much encouragement, Bradstreet's statement gives the available supply of wheat a decrease of 540,000 bush., and corn a decrease of 296,000 bush. Wheat in interior elevators increases 20,000 bush., while the wheat in Europe and afloat increases 72,000 bush. Australian wheat decreased 200,000 bush.

Wheat in Canada remains extremely quiet, and very little buying is being done. Exporters views are much below what holders are asking. A slightly better demand was noted for Manitoba wheat, but very little business is being put through. No. 2 hard lake and rail Ontario is held at 77c, Montreal freights. About 82c was bid for No. 2 hard North Bay, and 85c for No. 1 hard. New white wheat sold west of Toronto at 58c.

The amount of wheat in store at principal points in Canada this week is considerably below that of last week. The amount of wheat in store and the shipments and receipts at Fort William and Port Arthur is given as follows :

	Sept. 4, 1893.	Aug. 26, 1893.	Sept. 3, 1892.
Wheat in store this date	1,030,850	1,238,194	530,353
Shipments	305,564	189,756	.....
Receipts	98,320	91,920	.....

To-day's receipts in Chicago were : Wheat, 275, contract 39; corn, 922, contract 672; Oats, 453, contract 248; hogs, 23,000, steady; cattle, 15,000, steady.

The Illinois weekly crops bulletin says : "Entire absence of rains is intensifying the long drought."

Primary market receipts wheat, 853,000 bushels; last year, 1,520,000 bushels.

The foreign grain markets according to Beerbohm's report, were rather quiet and about steady. Cargoes off coast, wheat firmer, held higher; cargoes on passage and for shipment, wheat held higher. Mark Lane wheat English, firmly held; foreign do,, Mark Lane maize, American steady. Mark Lane flour, English steady. American, steady. Australian wheat off coast, 27s 9d; present and following month, 29s 3d. California wheat, off coast, 28s to 28s 3d; promptly to be shipped, 29s 3d; nearly due, 28s 6d. Spot wheat, less disposition to buy; spot maize, steady. Liverpool mixed maize, 4s 0½d; Canadian peas, 5s 3½d.

The Liverpool public cable to-day said, wheat, firm, demand moderate, holders offer moderately. Corn firm, demand moderate.

Closing Board cables, Liverpool spot wheat firm, unchanged. Futures firm, ¼d lower to unchanged. Paris wheat 15c lower. Flour, 10c to 20c up. Berlin, ¼m up to ½m lower.

The following table gives the movements of grain and flour at given points.

	Rec'pts.	Shipm'ts.
Chicago—Wheat	112,000	4,000
Corn	785,000	91,000
Oats	657,000	342,000
Flour	20,648	3,558
New York—Wheat	37,350	195,884
Corn	63,000	9,581
Oats	139,650	195,424
Flour	.....	.....
Milwaukee—Wheat	104,000	902,000
Corn	10,000	.....
Toledo—Wheat	156,000	54,000
St Louis—Wheat	107,000	24,000
Duluth—Wheat	168,000	189,000
Detroit—Wheat	59,000	827,000
Minneapolis—Wheat	146,000	61,000

The receipts of grain and flour in Montreal to-day were as follows :

	G.T.R.	C.P.R.	Canal.	Total
Wheat, bush	....	4690	....	4690
Corn, bush	600	....	....	600
Peas, bush	643	....	....	643
Oats, bush	1843	1176	....	3019
Flour bbls	750	1393	....	2143

GRAIN—The movement is still very light and the demand small. A few lots of new oats are coming in for local requirements, but as yet very few sales of consequence have been put through. Quite a little business is doing in new at Western Ontario points, also in peas and barley. Locally peas are quiet and values are unchanged. We quote:

No. 2 hard Manitoba wheat	76c	to 78c
No. 3 hard Manitoba	00c	to 00c
Corn, duty paid	60c	to 61c
Peas, per 66 lbs	73c	to 74c
do do afloat	00c	to 75c
Oats, per 34 lbs, store	38c	to 39c
Rye, No. 2	57c	to 58c
Barley, feed	43c	to 44c
Barley, malting	52c	to 55c
Buckwheat, No. 2	57c	to 59c

FLOUR—The market presents nothing new, and there is still a moderate demand passing, while there are signs of an increasing trade, with holders asking firmer figures. Straight rollers has sold fairly well of late, and jobbing lots of fresh have brought $4.20 to $4.25. Cables do not offer any material encouragement, in fact, prices are so low, that dealers do not seem over anxious to transact much business. We quote:

Spring patents	$4.00 to $4.10
Winter patents	3.35 to 3.50
Straight rollers	3.10 to 3.25
Extra	3.00 to 3.55
Superfine	2.60 to 2.75
Fine	0.00 to 2.20
Strong bakers, Man	3.40 to 3.50
Strong bakers, Man best brands	3.65 to 3.70

MEAL.—The situation is not changed to any extent, and trade for the most part is very quiet. Millers report trade in the West extremely slow. Stocks of fresh here are limited, but there is considerable old. Values rule steady and unchanged:

Granulated and rolled, per brl	$4.45 to $4.55
Granulated and rolled, per bag	2.00 to 2.10
Standard, per brl	3.90 to 4.00
Standard, per bag	1.85 to 1.90

FEED.—A fairly good demand is noticed, and values hold quite firm. Bran is worth $13 to $13.50 on track in car lots. Although supplies in the West are light, they are sufficient for requirements, and values keep about steady, in fact yesterday bran sold 50c lower in Toronto. Pastures in Ontario are fairly good, and the demand is only moderate. We quote:

Bran	$13.00 to $13.50
Shorts	16.50 to 17.50
Mouille	20.00 to 22.00

The Chicago Markets.

Messrs. Meredith and O'Brien have received the following by direct private wire from Lamson Brothers and Company, Chicago :

Again, from force of habit, and because early cables did not show the strength anticipated, wheat sold down ⅝c at the opening, but soon rallied on the stronger stock market, and a growing belief with many that wheat ought to have a healthy demand soon, as a reflection of the improved financial situation. Provisions have had a great advance from low prices. Cotton has had a boom; railroad stocks and local securities have had their turn, and now it would seem that wheat should feel the healthier commercial conditions. Dec. advanced from 68⅜ to 69⅝, but at the advance many holders of long wheat took their profits, while holders of calls were also free, sellers breaking December back to 69. Traders continue to work with caution; there has been so many false starts for an advance that longs run quickly when the price starts to ease off. This was another big day for exports, over 700,000 bushels of wheat and wheat flour. Bradstreet's decrease for the week is 600,000 bushels, which is unusual for this time of the year. There are more bids and more doing in low grades, for export. It took but little to turn the market up from 69c as the crowd had oversold themselves. Some good buying by a few bulls on higher closing cables run December up to 70⅜. The close was nervous at 69⅝. Corn ruled strong and higher on the severe drought which seems to be unbroken as yet. May sold up to 42⅜, and back to 42, the slight decline being wholly due to the break in wheat, closed strong, May 42⅜. Oats followed wheat and corn, closing strong, May 30½ to ⅝. Armour and Co. gave support to provisions again, especially to ribs. The close was strong for lard and ribs, but trade was very light.

Chicago Closing Prices.

The closing prices of grain and provisions to-day are given, by Messrs. Meredith and O'Brien, as follows

Month.	Op'g	High	Low	Close
Wheat—Sept.	64¼	65⅛	64¼	65⅛
Dec.	68⅜	70⅜	68⅛	69⅝
May	75⅜	77¼	75⅜	76⅝
Corn — Sept.	38	38¼	38	38¼
Dec.	38⅜	39¼	38⅜	39⅛
May	41⅞	42⅛	41¼	42⅛
Oats — Sept.	24¼	24½	24¼	24½
Dec.	25⅛	25⅞	25⅛	25⅞
May	29⅛	30½	29⅛	30½
Pork — Sept.	15 42	15 75	15 42	14 75
Oct.	14 25	14 50	14 25	14 30
Jan	12 95	13 12	12 95	13 00
Lard — Sept.	8 15	8 20	8 15	8 20
Oct.	7 90	7 95	7 90	7 95
Short Ribs—Sept.	9 00	9 10	9 00	9 10
Oct	7 87	7 87	7 90	7 80
Jan	.....	.....	.....	.....

Milwaukee—Closing—Wheat quiet, 61½c Sept.; 66⅛c Dec.

New York—Closing—Wheat, 71⅛c Sept.; 72¾c Oct.; 75⅝c Dec.; 82⅛c May. Corn, 46⅛c Sept.; 46⅞c Oct.; 48c Dec.; 49½c May. Oats, 31½c Sept.; 30½c Oct.; 31½c Nov.; 32⅜ Dec.; 35⅝c May.

St. Louis—Closing—Wheat, 60½c cash; 61½c Sept.; 62⅜c Oct.; 67⅝c Dec. Corn, 35½c cash, 35½c Sept.; 34½c Oct.; 35c Dec. Oats, 23½c cash; 23⅝c Sept.; 24c Oct.; 29c May.

Duluth—Closing—Wheat, No. 1 hard, 64½c Sept.; 69½c Dec.; No. 1, Northern, 62½c Sept.; 67½c Dec.

Toledo—Closing — Wheat, quiet; 64½c cash and Sept.; 65⅝c Oct.; 69½c Dec. Corn and oats, unchanged.

Produce.

The receipts of produce in Montreal today were as follows :

	G.T.R	C.P.R.	Canal	Total
Butter	609	840	....	1449
Cheese	2883	2631	....	5317
Eggs, cases	182	136	....	318

BUTTER—The market is about as sick as it possibly can be, and there is little or nothing doing. Shippers are not offering so much money, at least holders say that 21c is very seldom talked, and about 20½c is the more likely figure for finest creamery. Jobbers, however, are paying 21c, and if very fancy 21¼c. Many factorymen continue to ask for bids, but in most cases they do not accept anything moderate, and the majority are holding out for about 21c on August, and 21½c for July, and when freights are added to these it amounts up considerably above what shippers are warranted to pay, with the English market at a very unsatisfactory state. Jobbers continue moderate buyers of Western and Townships at steady figures. We quote values as follows:

Creamery, finest July	20c to 20½c
Townships	18c to 00
Western, selected	16½c to 17c
Western, medium	16c to 16½c

Butter in Liverpool has ruled dull, the sales being of a retail character. Finest American creamery is offered at 95s to 102s per cwt., and grades under this description at 80s to 85s. We quote Irish butter—Cork firsts, 101s per cwt.; seconds, 94s thirds, 84s; and fourths, 70s.

The Utica Herald says : The butter market needs no extra bracing beyond what natural conditions contribute. Arrivals in the city are moderate in size, causing 26c to be paid for best creamery without a murmur. State dairy sells at 23½c, and occasionally at a fraction more. In fact the market seems to be on a sound, healthy basis, with no probability that a set-back can occur.

CHEESE.—The market is practically at a standstill, there being no material change in the situation. However, although buyers show little disposition to trade, sellers hold on with a certain amount of confidence, and on the whole they are not making any great effort to sell. There is little or no Ontario goods on the active market, and values therefore are purely nominal. Dealers pronounce the present arrivals of French goods to be of a fairly satisfactory quality. In one or two instances finest Quebec goods have sold at 9½c, and while the majority of buyers say this is too much, it is claimed that the same figure is being paid quite freely in the country; 9½c is about all local dealers are bidding, and there would likely be a good demand at that figure if the cheese could be obtained. Townships might be quoted about the same as top grades of French.

Cables keep in the same groove, and quote about the same figures. We quote :

Finest Ontario white	9c to 9⅜c
Finest Ontario colored	9⅜c to 9½
Finest Quebec white	8⅞c to 9¼
Finest Quebec colored	9⅜c to 9
Townships	9⅛c to 9¼

The situation in Liverpool is given as follows by Hodgson Bros. circular : Cheese has been without any material alteration this week. There has been a steady consumptive demand for finest at fully last week's values, and the market closes firm for this grade at our quotations. We quote to-day, Finest colored 47s to 48s per cwt., and Finest white 46s to 47s; Medium grades from 27s to 40s continue in moderate request, while low qualities, from 5s to 20s, are neglected.

Following is our usual table of cheese quotations:

	Receipts.	Exports.
Sept. 5, 1891	58,747	32,932
Sept. 3, 1892	57,544	22,706
Sept. 2, 1893	35,167	30,338
Cable.	Freight.	Price.
46s 6d	30s	9⅜c
46s 0d	25s	9⅛c
47s 8d	30s	9⅜c

EGGS.—The market shows a fair amount of activity, and the feeling, if anything, is somewhat firmer. Orders from the other side have not been so plentiful, however, the local enquiry is good and quite equal to the recent liberal arrivals. Really fresh stock is fetching from 12c to 12½c, while from 10½c upwards is asked for culls and held.

Provisions.

Still the market continues the same, and trade for the most part is exceedingly quiet. Holders are asking top prices on pork and consequently the movement is light. Lard is steadily held, also bacon and hams, but there is more enquiry for the two latter grades. Values are as follows:

Canada sh't cut mess, per brl	20.50 to 21.0
West, mess pork, new, per brl	00.00 to 00.00
West, mess pork, old, per brl	00.00 to 00.00
Beef, extra mess, per brl	00.00 to 12.50½
Beef, plate, per brl	16.00 to 16.50
Hams, city cured, per lb	0·12 to 0.13½
Bacon, per lb	0.12½ to 0.13
Lard, pure Canadian, per lb	0.11½ to 0.12
Lard, com. refined, per lb	0.09½ to 0.10
Canned meats, 2 lb., per doz	0.00 to 2.55
Lunch tongue, 1 lb., per doz	0.00 to 3.35
Ox tongue, 2 lb., per doz	0.00 to 3.35

Liverpool Markets.

The following are to-day's quotations:

	s.	d.		s.	d.
Spring Wheat	5	5½	@	5	6½
Red winter	5	4½	@	5	6
No. 1 California	5	7½	@	5	8½
No. 2 California	0	0	@	0	0
Corn, new	3	11½	@	0	0
Peas	5	5	@	0	0
Pork	85	0	@	00	0
Lard	40	6	@	00	3
Bacon	51	0	@	53	6
Tallow	26	0	@	00	0
Cheese, white	48	6	@	00	0
Cheese, colored	47	6	@	00	0

The Coming Council Meeting.

The monthly meeting of the City Council which is to be held next Monday, will from present indications, be one of the liveliest sessions seen in the chamber for many a day. Trouble is brewing for certain aldermen who are said to be directly responsible for the increase in assessments. Several of the aldermen intend bringing forward the subject as a question of privilege, and while it is possible that the Mayor may refuse the request, it is more than likely that he will allow it as it is unquestionably one of the most important and serious questions of the day. The Council has no authority to give the assessors instructions, so the suggestion of one of the city fathers to have the assessors return to last year's valuations and levy taxes the same as last year, is lost, but it is understood that the Legislature will be appealed to at its next session to limit the borrowing power of the city to 15 per cent. of its taxable property. Ald. Beausoliel when spoken to yesterday, said that the motion which would be proposed next Monday would have the effect of settling the question of the limitation of the city's borrowing powers to the above percentage. He thought that the increase in this year's assessments would amount to about $40,000,000, about half of which is exempted.

The Reception to Sir John.

Hon. J. A. Ouimet is making arrangements for the demonstration to Sir John Thompson, which is to take place here next Tuesday. Permission has been asked for use of the Drill hall, and a reply is awaited. If Sir John arrives in the morning an address will be read, followed by a meeting in the Drill hall if the weather is unfavorable ; if not, on the Champ de Mars. All Sir John's colleagues are expected, as well as the local ministers, and speeches will be delivered. A committee composed of representatives of the Junior Conservatives, the Macdonald club and the Club Conservateur will hold a meeting this afternoon in the St. Lawrence hall to make final arrangements and complete the program. After this celebration all go to Ste. Rose.

Provincial Health Matters.

At the quarterly meeting of the Provincial Board of Health yesterday, a lot of routine business was disposed of, after which the cholera question and the inspection of the provincial water supplies were discussed with other minor details. The statistical bureau has been greatly improved during the past year, and the bureau put in correspondence with over 800 municipal boards. It was decided that the president, Dr. Lachapelle; the health inspector, Dr. Beaudry, together with any member of the Board, who could find it convenient to go, should represent the board at the approaching World's Congress of Hygienists to be held in Chicago in connection with the annual convention of the American Public Health Association to be held there on Oct. 9th next.

Say They Won't Submit.

A committee has been selected from each of the Montreal Conservative clubs to meet with other Tory clubs in Toronto ostensibly for the purpose of forming an alliance of all the societies. Several prominent young local Conservatives say they will have their own Sir John A., Junior Conservative and Club Cartier, and will not submit to amalgamation.

The City Clerk is Busy.

Mr. L. O. David, the City Clerk, is kept busy these times preparing amendments to the city charter, which, he says, are necessary and should be passed at the fall session if the new election laws are to be put into operation. Another reason is to avoid a repetition of last year's annoyance and trouble caused by the conflict between the Quebec electoral law and the city charter.

Mexicans Murder an American.

TRINIDAD, Col., Sept. 6.—W. T. Walsh, of Washington, D. C., was murdered Monday night between Aguilar, Col., and the Key ranch. He left Aguilar at 7 p.m. for the ranch, where he had been stopping for his health. He was overtaken five miles from town by a party of Mexicans, two of whom fired on Walsh without the least provocation and he was killed instantly. A posse is in pursuit of the Mexicans and they will be lynched if captured. Walsh belonged to a wealthy family.

Do you read the testimonials published in behalf of Hood's Sarsaparilla? They are thoroughly reliable and worthy your confidence.

Derangement of the liver, with constipation, injures the complexion, induce pimples, sallow skin. Remove the cause by using Carter's Little Liver Pills. One a dose. Try them.

No Active Temperance Work.

At a meeting of the Quebec branch of the Dominion Alliance on Tuesday night the secretary reported that since the last meeting little active temperance work had been done. Premier Taillon wrote that he hoped amendments would be passed in the

MANY REFORMS.

Labor Congress Wants Legislation on Important Matters.

To Benefit the People and Laborers is Their Project—Abolish the Quebec Legislative Council—An Eight-hour Day Prepared—Remove Taxes—Other Matters.

The morning session of the second day's sitting of the ninth annual Trades and Labor Congress, opened at 10 o'clock yesterday morning. The following resolutions were carried:

Moved by Delegate Schybert, seconded by Delegate Jobin:

"Whereas free and public libraries existed in Quebec under the control of the Provincial Government.'

"Whereas these libraries were very useful for the advancement of workingmen.

"Be it resolved, that the Government of Quebec be requested by this Congress to re-establish these libraries, especially in the cities of the Province of Quebec."

Moved by T. W. Banton, seconded by R. Glockling:

"That this Congress is of the opinion that the first Monday of September in each year should be made a statutory public holiday, to be known as Labor Day, and that it be an instruction to the Executive Committee to take the necessary steps to bring the matter before the Dominion and Provincial Governments.

Moved by J. A. Rodier, seconded by J. Lamarche:

"That the Legislature of Quebec be requested to amend the "David Act" by striking out the word "workingman" and substituting "wage-earner" therefor."

Moved by S. Fitzpatrick, seconded by L. Callahan:

"That this Congress petition the Dominion Parliament for the establishment of a two cent passenger rate per mile on all railroads in the Dominion."

Moved by R. Glocking, seconded by Wm. Strachan:

"That the Executive committee of this Congress be instructed to urge upon the Government the justice of making the following changes in the municipal law of the provinces:

1. The adoption of manhood suffrage in municipal elections.

2. The first day of January in each year, when not a Sunday, be declared the legal day on which the annual municipal elections will be held.

3. That in all elections, whether federal, provincial or municipal, the hours of polling extend to 8 o'clock p.m., and that polling day be declared a legal holiday."

Moved by J. A. Rodier, seconded by Jos. Lepage:

"That the text books used in the schools of the province be uniform and subject to the approval of the council of Public Instruction."

Discussion of considerable length took place on this last motion, but it was finally carried.

The afternoon session opened with few members present, but the number gradually increased until the motions were discussed at length.

The first was moved by T. W. Benton, seconded by R. Glockling, "That this congress hereby records its opinion that an eight hour work day is desirable, and that such day can best be secured by act of Parliament."

Mr. Benton spoke on his motion, remarking that it called for legislative interference. It was carried unanimously.

Mr. P. J. Jobin then moved, seconded by D. A. Carey, "That this congress do petition the Dominion Government to adopt a system of State insurance, to be connected directly with the Post Office Savings Department." This was also carried unanimously.

A. Campeau moved, seconded by A. C. Narest, "That whereas on certain works dynamite is frequently used, and accidents often occur through ignorance of those employing it; be it resolved that this congress apply to the competent authorities to have all persons prohibited from using dynamite without being provided with a certificate of competency given by an inspector to be appointed by the Government."

P. J. Jobin moved, seconded by F. Schybert, "that the Provincial government be petitioned to pass an act granting working men a first lien on the product of their labor, 'a working man's lien is law.'" Carried.

J. Lamarche, seconded by J. A. Jobin, moved "that the Government of Quebec be petitioned to adopt a law abolishing the Legislative Council." Mr. Lamarche said the working men wanted to rid themselves of the pest which cost $50,000 a year out of the pockets of the workingmen." The resolution was carried unanimously.

Moved by J. B. St. Laurent, seconded by George Phillips "that the legislature of Quebec be requested to amend the municipal code so as to secure secret ballot as for parliamentary elections." Passed unanimously.

D. Thereault seconded by D. Gales, moved "that whereas the practice of manufacturing tinware in the prisons of Ontario is injurious to those who work at the trade, this congress urges the Ontario government by petition and through the executive to have this practice abolished." Referred to Committee on Resolutions.

Proposed by J. Lamarche, seconded by G. Warren, "that the Government be requested to amend the factory law so as to prevent children unable to read and write from working." An amendment was passed by adding the words, "except in the case of deaf and dumb children."

Mr. Page, seconded by Mr. Boucher, moved "that on account of the industrial crisis in the United States, on account of the possibility of affecting, either in a good or bad way, the condition of laborers by legislation, this congress would submit that our statesmen should see that nothing should be done which would in any way create a perturbation in our industry, and that they should also see that national labor should be protected against foreign labor, as for example in the case of the lumber trade with the United States, which by the fact of the logs being exported from Canada and manufactured by our neighbors deprive our labor of all this labor resolved that this congress is of opinion that as to what especially relates to the lumber trade, the exportation of sawn logs, on which should be levied a tax which would prevent or diminish as much as possible this exportation."

This being a question involving the great principles of protection, vs free trade, a long discussion ensued, and it was finally resolved to give the motion to the incoming executive committee.

It was moved by Mr. Banton, seconded by Delegate Glockling, "that this congress is strongly in favor of the principle of compulsion in the events of strikes and lockouts, and that the Dominion Government be petitioned to pass an act appointing boards of arbitration, and that in the event of one of the parties to a dispute appealing to the arbitration board the other parties shall be compelled to submit their case for settlement of the dispute.

Mr. Kerrigan moved an amendment that they declare in favor of arbitration if they were sure to obtain justice, but no one seconded this. The original was then carried.

Mr. Strachan moved, seconded by R. Glockling, "that it be an instruction to the executive of this congress to urge by letter or deputation upon the Minister of Public Works and Prime Minister, the advisability, from an organized labor standpoint, of having a clause inserted in all specifications for public works compelling the contractor to pay the local union rate of wages and the union hours of labor in the locality. Carried.

The committee appointed to examine the president's address reported in favor of the suggestion to abolish the three days' delay required for the withdrawal of Post Office Savings Bank deposits.

Moved by J. Brennan, seconded by F. Desjardins, that it is the opinion of this congress that compulsory voting should be substituted in place of the system that now exists. Carried.

A resolution was moved by Mr. Geo. Kilt, seconded by Mr. Patterson, in favor of having the Ontario act with reference to closing of shops amended, and that a similar law be passed in Quebec.

Moved by Mr. A. Pepin, seconded by Jas. Larocque, "that this congress approves the action of the cigar makers in their demand to the Government, not to change the excise duties on cigars."

Mr. Ernest Houle moved, seconded by A. E. Renaud, that the congress request the Government to appoint an inspector of the "sweating" shops with a view to remedy them according to regulations. An amendment was carried, which approved of the total abolition of all sweating shops.

The following resolution, which is an old one with the congress, was than read and passed:

"With respect to the rights of labor we affirm the following:

The earth, with its lands, forests, mines and other natural opportunities, is the gift of Nature, not to a part but to the whole of humanity.

Whilst men have an unquestionable right to charge for the crops they raise, the houses they build, the services they render, we denounce as utterly unjust that any man should be allowed to charge for the land and other natural gift that he never made.

The value that accrues to land from the presence and concentration of population should not go to the enrichment of speculators and collectors of ground rent, but should be applied to public purposes.

To impose taxes on improvements is to discourage the beneficent use of capital in the employment of labor and enrichment of the country, whilst encouraging its use injuriously in speculation and monopoly.

Therefore, be it resolved that we urge the Provincial Governments to grant municipalities the power to remove all taxes from the products of industry.

That the following words be added after "industry."

And be it resolved further that we urge upon the Dominion Government the removal of all duties and imposts levied on the products of industry, either imported or manufactured in the country, except such as are levied with a view to restricting the use and and consumption of any article or product held to be injurious, and the substitution therefor, as a means of raising the revenue required for the government of the country, of a single tax on land and natural opportunities."

A resolution on the age of children to be employed in factories was still under discussion when the adjournment was called at 5 p.m.

The congress again assembles in the Oddfellows hall, St. James street, at 10 o'clock this morning.

A PLACE OF RECREATION.

The Reception Committee of Trades and Labor Council have thrown open the rooms No. 223 McGill street, for the benefit of the visiting and local delegates of the Labor Congress. Writing materials and everything necessary for correspondence and comfort have been furnished. Mr. C. W. Lindsay has kindly placed a piano at their disposal, and the delegates are thus enabled to spend a pleasant evening, when not otherwise engaged.

DISTRIBUTION OF LABOR DAY PRIZES.

The prizes won on Labor Day at the Exhibition grounds, will be distributed on Saturday afternoon, at the office of Mr. L. Z. Boudreau, room 8, 210 St. James street.

The Weber Piano Sings In

Tones as sweet as a siren's song
Or deep as the billow's roar,
As soft and low as the lullaby
That is crooned when the day is o'er;
Whatever the tone in your heart may be,
The "Weber Piano" will echo for thee.

A song of joy, or a whispered prayer,
Or the tones of a pean grand,
The tinkling laugh of a running brook,
Or the tempest's roar through the land;
In truth the music of either sphere
The "Weber Piano" will give you here.
While all their beauties of finish and tone
Last equally well in every zone.

NEWS FROM THE SUBURBS.

Meetings of St. Henri and St. Cunegonde Town Council.

The Grand Trunk Railway company have written to the council of St. Cunegonde asking what they will contribute towards a new station at St. Cunegonde. At last night's meeting of the council the letter was discussed and the secretary instructed to reply that the council would give half of the cost of a new covered station reaching on both sides of the track from Vinet street to Atwater avenue, at which all local trains shall stop.

The Council also decided upon a new statue for the park opposite the church. Other matters were routine.

William McGregor, aged 21, who was arrested for stealing a team belonging to Mr. S. Germain, of St. Henry, from the exhibition grounds, was sentenced to two years in the penitentiary yesterday by Judge Desnoyers.

Chief Masse reports 13 arrests made in St. Cunegonde this month, ten of these are for drunkenness.

The 5.15 train of the Grand Trunk yesterday afternoon jumped the track at St. Henri, and was not started again for nearly three hours.

Only a little routine business came up at the meeting of the St. Henri Council last night.

EXHIBITION WEEK.

September 4th to 9th.

For the greater convenience of visitors to our Montreal fair, and to enable our customers to make comparisons, and that our high class pianos may be seen and heard and tried, we have decided to exhibit our pianos and organs this year only at our own warerooms, 1824 Notre Dame street, near McGill street, Montreal. Only the highest class of American and Canadian pianos represented. All visitors are welcome. Willis and Co., 1824 Notre Dame street.

A Car on Fire.

One of the fine new sleeping cars of the C. P. R. caught fire from oily waste last evening in the Windsor station, when attached to the out-going Boston train. Some little damage was done before it could be extinguished, and considerable excitement was created among the by-standers.

A Rare Bargain.

A pipe organ by a good English maker, in good order, two manuals and pedal board, 10 sets of pipes, fine tone. Price $600. Easy terms. This instrument is offered at the above price on account of want of space. Apply immediately to L. E. N. Pratte, No. 1676 Notre Dame street, Montreal.

Blew Out the Gas.

A young man named William Graham, of South Mountain, Ont., registered at the Waverly House on Tuesday evening. Shortly before twelve o'clock he retired to his room and nothing more was heard of him until the proprietor happened to pass his room at noon yesterday, and smelt gas escaping. He at once recognized the fact that the gas had been blown out, and on forcing the door open found the young man lying unconscious on the bed. He was at once removed to the General Hospital, but at midnight he was still unconscious, and but little hope is entertained of his recovery.

AT SHERBROOKE.

Continued from Page One.

noon, accompanied by his wife, child and mother, a reckless driver ran into his vehicile and threw his mother out, breaking her arm. Yesterday a young girl was thrown out of a carriage and so badly injured that her life is despaired of.

STOVES AND HARDWARE.

A. H. Foss' Exhibit.

The coolness existing in the air for the last few days, makes the exhibit of Mr. A. H. Foss, especially timely. It consists of stoves, prominently, and hardware, incidentally. Mr. Foss shows a full line of heating and cooking stoves. Hall stoves of every description can be seen to suit in price, size and equipment. In his line of cooking ranges, everyone of the reliable makes may be seen, but his leader is "Happy thought." What a happy thought. Every want seems to be met and overcome in the "Happy thought" at his stand in the main building opposite the entrance from the dining hall. Mr. Foss was busily handing out a neat little pamphlet in the form of a recipe book, containing more than 100 cooking recipes, and showing cuts of all the different styles of the "Happy thought" range. All kinds of paints, oils and varnishes and hardware, including lamps, crockeryware, glassware and silverware, wall-paper, sporting goods, different makes of bicycles and fishing tackle may be found in Mr. Foss' stock. Sherbrooke has a very creditable advertisement in this display, and the proprietor appears to be much appreciated by his townsmen.

THE SYMMES HAY CAP COMPANY.

A unique and novel display on the north side of the Main building is that of the Symmes Hay Cap company, of Sawyerville, Que. It consists of a cap made of ground wood pulp, for wheat and hay cocks. The cap is put over the grain or hay cock, and thoroughly protects it from storm and wind, which is powerless to dislodge it. It is claimed for the patent that it renders it possible to cock up hay almost immediately and let it cure in that shape, thus preserving its full strength and sweetness, instead of letting the old fashioned sun cure gather in its nutrition and impair its strength. Mr. J. A. Symmes, the inventor and general manager of the manufacturing company, is in charge of the exhibit. He shows two kinds of caps, one for grain and hay cocks and another for vegetables and flowers, the larger over 4 ft. 8 in. in diameter, and the smaller 18 in.; the larger one $37 per hundred, and the smaller 10c each. This is an invention of great interest to the practical farmer. Address the Symmes Hay Cap company, Sawyerville, Que.

Z. P. CORMIER'S FURS.

The display of Z. P. Cormier occupies a central position, and is crowded from morning till night with people examining and admiring the splendid furs which are shown in the skin and manufactured state. Garments of real seal and the genuine skin are shown together so that no doubt may be entertained of the goods. Five thousand dollars worth of furs are shown. The uninitiated would not think it for one moment, but Mr. Cormier assured The Herald that his space of 20 feet by 12, contained no less value in furs alone than $5,000. Seal, Persian lamb, muskox, coon and bear skins are made into garments of every description, hats, caps, muffs, etc., snowshoes and moccasins are handled by Mr. Cormier also, and a regular complement of winter outfit may be obtained at the store of this dealer on as favorable terms as at any establishment of a similar nature in Montreal. This display is the feature of the main building.

H. C. WILSON AND SONS.

The musical world of Sherbrooke can depend upon constant effort on the part of Messrs. H. C. Wilson and Sons to put before it the very best instruments on the market at a price to meet the times. This enterprising firm has risen to the occasion, and their display in the main building exceeds not only all other piano and organ dealers, but it occupies more space than any two other exhibits in the hall. Mr. Walter Wilson showed The Herald through his stock. Cabinet Grands of the following makes occupies the central pavilion. Heintzman and Co., Toronto; Ives and Bond, Boston; Mason and Risch, Toronto; and Berlin Piano Co., Berlin. Miss Doherty, Sherbrooke, performed here, and the crowds about the display exhibited the enthusiasm with which it was expected this charming musician would be greeted.

Some special lines of furniture was shown, particularly one from the factory of the Heintzman Co., of Toronto, a magnificent Baby Grand, finished in English oak, and another from the Berlin people with a birch finish. Messrs. Wilson have received always the very highest awards, getting last year a gold medal for display, and to-day another gold medal was added to their collection. H. C. Wilson and Sons carry musicial instruments of every description, aside from pianos, they carry makes of the Dominion, Berlin and Estey organs, both cabinet and church. The finest authors are catered from in sheet music.

ZION'S ANNIVERSARY.

To Place One of Our Oldest Churches on a Sound Basis.

Zion Congregational Church, one of the oldest congregations in the city, and the parent of two, if not more, other churches, will, in the course of a few months, celebrate its anniversary. The congregation has for the past three years been worshipping at the corner of Mance and Milton streets, where in 1889 a lot was purchased, and in the following year the basement of a new and handsome church was erected. Under the ministry of the Rev. W. H. Warriner, B.A., B.D., the church prospered, and in the fall of 1891, the basement of the church was completed by the addition of an extension at the rear, some 18 feet deep. Following this the church continued to grow, until at the present time there are only about half a dozen pews that are not allotted.

Mr. Warriner, who in addition to his work as pastor of the church, fills the chair of professor of Biblical Literature at the Congregational College, has endeared himself to the members of his congregation, and they all feel that this work is in danger of being hindered through lack of accommodation. Last night a well attended meeting of church members and adherents was held in order to further consider the matter. Rev. Mr. Warriner occupied the chair, and the whole position of the church financially and otherwise, was talked over. The several schemes that had been suggested were then discussed, and the following plan of action was formulated.

The anniversary services will last three days. On the Sunday, special music will be rendered, and appropriate sermons will be preached by the pastor. On the Monday a Congregational social will be held, during which members of the church and adherents will be prepared to say what they can do individually to help on the building. On the Tuesday, a rally will be held, to which old members and friends of Zion church, and outsiders will be invited, and a statement laid before them of what the church itself is prepared to do. They will then be asked to aid in the work as far as they can.

Wedding Bells.

Miss Maggie Dixon, daughter of Rev. J. H. Dixon, was married to Mr. Herbert Dyson, of Wm. Shaw and Co., yesterday at St. Jude's Church. Rev. L. N. Tucker, of St. George's officiating. Mr. James Dixon, brother of the bride, acted as groomsman, and Rev. J. Dixon gave his daughter away. The church was crowded with friends of the bride, who is very popular in the parish. The presents were numerous and handsome. After a reception at the home of the bride's father, Mr. and Mrs. Dixon left for New York on their wedding trip.

CHATEAU DE RAMEZAY.

It Will Probably Become a Museum For Antiquities.

The Chateau de Ramezay Committee met yesterday afternoon with Mr. Rouer Ray in the chair and the following members present: Hon. Senator Murphy, Messrs. K. R. W. McLachlan, W. D. Lighthall, H. T. Tiffin, De Lery Macdonald and L. Huot. The purpose of the meeting was to receive the report of the recently appointed delegation which waited on the Government. The report said that the Government had expressed its willingness to do its share in preserving the building from destruction. The sub-committee also reported on the presentation of the petition which has been signed by many prominent citizens to the City Council asking the corporation to take steps towards securing the chateau. The question of ways and means, feasibility of schemes, difficulties, etc., took up some time. Mr. De Lery Macdonald went into interesting details regarding the plans for perpetuation of Canadian relics in this museum of the Chateau. To a Herald reporter he said: "If the Government cannot donate the chateau to the Antiquarian Society, I would ask: Would it be possible to sell it to some society, say the Antiquarian Society, who would pay either a nominal interest or the capital in 10 years. We only want the chateau, and I believe the whole question is whether the Government, though even so willing, are able to sell us the chateau because of that act passed so many years ago, stipulating that it must be sold for the stated sum of $97,000. If we can get the public interested popular subscriptions with aid from the corporation would support the museum."

Mr. Macdonald was very sanguine over the possibility of getting together a fine museum if the building was set apart for this purpose. He said that many valuable portraits and relics now in the possession of private familes would be given to such a museum.

A sub-committee, comprising Rouer Roy, Hon. Judge Baby and Hon. Senator Murphy, has been appointed to wait on Sir John Thompson, and interest him in the matter.

The committee are very hopeful of their efforts being crowned with success.

PERSONAL.

J. Greef, Barmen, Germany, is at the Hall.

Judge Foster, of Knowlton, is at the Hall.

W. G. O'Neill, St. Louis Hotel, Quebec, is at the Hall.

D. McEwan, Cornwall Manufacturing Co., is at the Hall.

A. C. Charlebois, contractor, Quebec, is a guest at the Hall.

Mr. H. Brodie left last night per R. & O. steamer for Quebec.

Mr. Fremont, mayor of Quebec, with Mrs. Fremont, are at the Hall.

R. C. Desrochers, secretary to Minister Public Works, is at the Hall.

F. F. Farmer, formerly American consul at Three Rivers, is at the Hall.

E. A. Tait, manager of the Dun, Wiman's Agency, Quebec, is at the Hall.

Jas. Isbester, the well known contractor, and Miss Isbester are at the Hall.

M. F. Walsh, Ottawa, private secretary to the Hon. Jno. Costigan, is at the Hall.

J. Emile Vanier, a prominent lawyer in the Curran bridge investigation, is at the Hall.

Hon. Mr. and Mrs. Sharples, of Quebec, are amongst the recent arrivals at the Hall.

Mr. James Paterson, of Peterboro, Ont., leather merchant, is in town, and stopping at the St. Lawrence Hall.

Messrs. T. N. Boucher and E. A. Connell, of Ottawa, and W. S. Plumb, of Prescott, are on a visit to the city.

Mr. Jas. Coristine, of St. Paul street, went to River du Loup last night to bring his family to the city again.

H. D. Badgley, general eastern agent for the Chicago, Burlington & De Quincey R. R., Boston, is at the Hall.

Mr. Roswell Fisher and Mrs. Fisher have returned to town from their summer outing at Gerrish Island, New Hampshire.

Prof. J. G. Leonard, acknowledge as one of the greatest clairvoyants of the age, is in town. He is registered at the Windsor.

Rev. Wm. O'Meara, pastor St. Gabriel's, and the Rev. J. E. Donnelly, pastor St. Anthony's, have left for Chicago and the World's Fair.

Mr. Thos. Tait, assistant-general manager of the C. P. R., arrived in Montreal yesterday morning, after a three weeks's trip to the Pacific coast.

Mr. H. Alexander, the genial manager of the Inch Arran house, is at the Hall. He has closed the popular summer hotel and reports a splendid business throughout.

BREVITIES.

The ball in honor of the visiting man of-wars man, the Mohawk, will take place at the Windsor to-night.

If you wish to be dressed well and in the latest style, order your clothes at M. J. Adler's, tailoring establishment, 47 Beaver Hall Hill. A large assortment to select from.

The Cote de Neiges Council, after a good deal of talk and discussion, granted the electric railway franchise to the Corriveau syndicate in the interests of the Montreal Park and Island Railway Co.

Visitors at the Exhibition can purchase the finest American pianos this week at wholesale prices on applying to the N. Y. Piano Co., 228 St. James St.

A young man named William McGregor was sentenced by Judge Desnoyers yesterday afternoon to two years imprisonment for stealing a horse and buggy, the property of Mr. Francis St. Germain.

Hundreds of people write "It is impossible to describe the good Hood's Sarsaparilla has done me." It will be of equal value to you.

Cordelia Piche, charged with enticing a young girl named Amelia Pigeon to commit larceny, was on trial all day yesterday in the Court of Queen's Bench. At 4 o'clock the jury returned a verdict of not guilty.

The Laurentian Tepid Swimming Bath and Building are kept at a temperature suitable to the changeable weather.

A. W. Stevenson, curator to the estate of John F. Wulff and Co., carrying on business under the name and style of Wulff and Co., has declared a first and final dividend of 10½ per cent., subject to objection till the 11th instant.

As the result of an interview by Mr. Arthur Globensky, Q. C.; batonnier of the Quebec bar with Chief Justice Sir Francis Johnson, it has been decided to have two divisions of the Circuit Court during the September term, from the 11th to the 19th. The Chief Justice also signified his intention of at once communicating with the Federal authorities with a view of securing the appointment of the two judges ad hoc for the Circuit Court, as provided by the recent act of the Legislature.

Thousands.

There are thousands of smokers who have never seen a cigar made, which accounts for the keen interest taken in the STRAIGHT FIVE miniature cigar factory in full operation in the Main building of the Exhibition this week.

Sir Oliver Home.

TORONTO, Ont., Sept. 6.—Sir Oliver Mowat has returned from his trip to Northwest Ontario and Chicago. He is looking well, but suffering from a slight cold taken at Duluth. He expresses himself delighted with everything he has seen.

IT WAS NAVAL DAY.

Continued from Page Five.

At Night.

When night drew on, and the electric lights began to sparkle all over the grounds, the crowd commenced to pour over the bridge into the park side and fill the huge grand stand up to its fullest capacity. By nine o'clock nearly every seat was taken up and still a steady stream of expectant sightseers was pressing in. From the field the grand stand looked one sea of upturned faces, over which the light of the big arc lamps played fitfully, and every moment added to their numbers.

The first event was a tug-of-war on the grass in the old fashioned style before cleats and levers were invented. Eleven of the Mohawk's sailors met a mixed team of the Garrison Artillery and the Royal Scots. In the first tug the militia had the advantage, but the sailors possessed more endurance and in the second and third tries pulled their opponents over the line after a hard struggle.

Then came a number of variety turns, similar to those performed in the afternoon, and the evening's enjoyment closed with the Burning of Moscow and a magnificent pyrotechnic display.

NOTES.

To-day the sailors of the Mohawk will repeat their cutlass and gun drill for the benefit of those of our citizens who were unable to see them yesterday. They will be played up to the grounds by the Ogdensburg band.

The display of fruits and flowers in the Horticultural building is simply magnificent and the admiration of every one who visits it. The Hungarian Gipsy band daily delights the audience with its selections of characteristic music.

To-day's great attraction will be the Imperial Japanese troupe from New York. This comprises a number of jugglers, acrobats and contortionists who perform some really extraordinary feats.

This morning at eleven o'clock there will be a grand parade of the live stock and horses under the direction of Mr. Thomas Trenholme and Mr. S. J. Doran, who have charge of these sections.

To give some idea of the number of people on the ground, it may be said that at one stall alone one hundred and fifty dozen of mutton pies were sold.

Yesterday afternoon at 1.30 p. m. the directors of the Exhibition entertained Commander Bailey, R. N., and the mayor and corporation of the city to a recherche luncheon in their rooms. There were present Aldermen Prefontaine, Clendinneng, Villeneuve, Beausoleil, Marsolais, Stearns, Dubuc, Renault, Wilson, Stevenson, Costigan and others. Lieut.-Col. Provost, second vice-president of the company, was in the chair and welcomed the guests in a neat speech. Messrs. G. W. Sadler and S. C. Stevenson spoke on behalf of the hosts, and Commander Bailey, R.N., and Ald. Prefontaine, Villeneuve and Stearns responded on behalf of the guests.

The tie in the 600 lb. amateur tug of war competition will be pulled off to-day. The 5th Royal Scots defeated the second team of the M.G.A., but the first team of the M.G.A. tied with the Bell Telephone Co. These two teams will pull again to-day and the Royal Scots will pull the winners.

OUR BOARD OF HEALTH.

No Fear of Cholera on This Side of the Atlantic.

The quarterly annual meeting of the Provincial Board of Health was held yesterday morning in the offices of the board, in the Government building.

Those present were Dr. E. P. Lachapelle, the president; Drs. Fiset, Sampson, Methot and Mr. H. R. Gray. Dr. Craig was in Chicago and unable to be present.

After the reading and confirmation of the minutes of the last meeting and the special report of the trip of the board to Grosse Isle Quarantine station, the president gave in detail the improvements made by the Government at that place. He said that eight hundred and twenty-eight local boards are in existence. Only 18 municipalities, principally in outlying and scattered districts, are without organization. The Provincial board are in constant communication with them and Dr. Beaudry, the inspector, has been busily employed in making special trips through the country and watching their work. Statistics of contagious diseases and of deaths were greatly aided by the new provincial law. Under that head and in the future these will be almost perfect. In this they would be greatly aided by the registers, who were all falling in line.

The question of the establishment of a bacteriological laboratory was introduced by the president and the necessity of the department being in a position to make bacteriological researches for the various local boards. The scientific examination of the water supply in various municipalities is pressing seriously on the board. Without doubt many towns and villages are at present using water absolutely dangerous to the public health. After a lengthy discussion of the subject, it was unanimously decided that the board would do the best to have an establishment of the nature indicated attached to the department.

Statistics of the increase of cholera in various countries of Europe since May 1st were laid before the meeting, and as yet there did not appear to be much cause for alarm on this side of the Atlantic.

BLEW OUT HIS BRAINS.

Mr. W. H. Kirby Commits Suicide on St. Helen's Island.

Pleasure seekers on St. Helen's Island yesterday afternoon were startled to hear a revolver shot echo from the shrubbery near the old military burying ground. Those near ran at once to the spot, and found there the body of a middle-aged man whose right hand still grasped a smoking revolver. It was evident at once that the unhappy suicide had placed the muzzle of the pistol in his mouth and then pulled the trigger, for the bullet had torn through the upper jaw and brain and had crashed out through the top of his skull. The body was at once removed to the Notre Dame hospital morgue, where it was soon identified as that of Mr. W. A. Kirby, a much respected manufacturer's agent of 162 St. James street. Mr. Kirby was 46 years of age, and resided at Dongueuil. He leaves behind him a widow and two children, a son of 16 years and a daughter of 13 years of age. No cause has, as yet been assigned for his rash act, but it is surmised that financial difficulties may be at the bottom of it. An inquest will be held this morning.

A Chance for the Chinamen.

NEW YORK, Sept. 6.—The Herald's Panama correspondent cables that the Legislature of British Guiana offers a bounty of $25 a head for 5,000 Chinamen from the United States. They are wanted to work under contract on a sugar plantation and in the gold mines.

Bismarck Better.

BERLIN, Sept. 6.—Dr. Schweninger, Prince Bismarck's physician, telegraphs from Kissingen that the Prince is much better. For a week or more Bismarck's condition caused great anxiety to his family, but he is now regarded as out of danger.

Against Free Wool.

GREAT FALLS, Mont., Sept. 6.—At a meeting of the Montana State Wool Growers' Association resolutions were adopted protesting against the placing of wool on the free list.

Well-Known Freightman Dead.

CLEVELAND, O., Sept. 6.—John T. R. McKay, general freight agent of the Lake Shore R.R., and one of the best known freight men in the United States, died last night.

Persons wishing Coupon Pictures sent by Mail, must enclose Six Cents for Tubing and Mailing.

THE HERALD ART DEPARTMENT.

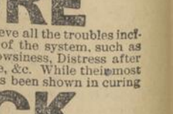
CARTER'S LITTLE LIVER PILLS.



CURE

Sick Headache and relieve all the troubles incident to a bilious state of the system, such as Dizziness, Nausea, Drowsiness, Distress after eating, Pain in the Side, &c. While their most remarkable success has been shown in curing

SICK

Headache, yet CARTER'S LITTLE LIVER PILLS are equally valuable in Constipation, curing and preventing this annoying complaint, while they also correct all disorders of the stomach, stimulate the liver and regulate the bowels. Even if they only cured

HEAD

Ache they would be almost priceless to those who suffer from this distressing complaint; but fortunately their goodness does not end here, and those who once try them will find these little pills valuable in so many ways that they will not be willing to do without them. But after all sick head

ACHE

is the bane of so many lives that here is where we make our great boast. Our pills cure it while others do not.

CARTER'S LITTLE LIVER PILLS are very small and very easy to take. One or two pills make a dose. They are strictly vegetable and do not gripe or purge, but by their gentle action please all who use them. In vials at 25 cents; five for $1. Sold everywhere, or sent by mail.

CARTER MEDICINE CO., New York.

Small Pill. Small Dose. Small Price.

The Montreal Herald is published daily at 603 Craig Street, by the Montreal Herald Company; Edward Holton, President: E. G. O'Connor, Secretary-Treasurer.
