Introduction

A non-resident of Canada who is employed as a professor by a Quebec university may benefit from a tax exemption from the Quebec government provided he or she satisfies the eligibility criteria established by the government. This exemption with respect to the taxable portion of the salary paid by the university may be granted for a maximum period of five years.

One of the conditions that non-resident professors must meet in order to benefit from the tax exemption is obtaining a certificate of eligibility from the Ministry of Education of Quebec. This guide contains information on the criteria and conditions for obtaining such a certificate.

Notice

The role of the Ministry of Education is limited to issuing a certificate of eligibility confirming that the applicant has been recruited as a professor, has the necessary qualifications and works in one of the fields of expertise targeted by the tax exemption measure. Obtaining this certificate is mandatory for the tax exemption request to be considered by the Ministry of Revenue of Quebec.

As with any fiscal measure, the Ministry of Revenue alone has the authority to determine the non-resident status of the applicant and to grant a tax exemption on behalf of the Quebec government. The status of non-resident or "foreigner" should therefore be understood in the fiscal sense as defined in the Quebec *Taxation Act*.

Applicants with Canadian citizenship may be eligible for the exemption measure provided they do not have resident status, as defined in the Quebec *Taxation Act*, at the time of signing their

employment contract or starting work.

Purpose of the measure

The purpose of the tax exemption measure, announced June 29, 2000, is to increase the capacity of Quebec universities to attract foreign professors in fields of expertise in which they are experiencing recruitment difficulties in Quebec. The fields of expertise targeted by this measure are science, engineering, finance, health and new information and communications technologies.

This measure complements the tax exemption measure for foreign researchers employed by companies with operations in Quebec (see [Tax Holiday for Foreign Researchers](#) granted by the Ministry of Research, Science and Technology) and the measure for non-resident postdoctoral researchers or trainees (see [Tax Exemption for Foreign Postdoctoral Researchers](#) granted by the Ministry of Education).

Tax exemption

The tax exemption is valid for a single period of a maximum of five consecutive years from the applicant's starting date of work, provided that he or she remains a professor at a Quebec university during this period.

The exemption is valid only with respect to Quebec provincial tax and applies to that part of the salary paid by a Quebec university to the applicant in his or her capacity as professor. The exemption takes the form of a deduction in the calculation of taxable income at the provincial level. This deduction will not be limited by the alternative minimum tax. The employer must inform the professor concerned of that portion of his or her salary that constitutes eligible income.

The employer may take into account the tax exemption when calculating income tax to be withheld at the source, or the applicant may claim it on his or her income tax return.

Eligibility criteria for the tax exemption

The tax exemption measure for foreign professors came into effect July 1, 2000. To be eligible, applicants must meet the following criteria:

1. Commence work after June 30, 2000, as a professor at a Quebec university under the terms of an employment contract entered into after this date (see the list of eligible categories of university professors in [Appendix 1](#)).

2. Have non-resident status in Canada, as defined in the Quebec *Taxation Act*, prior to entering into an employment contract or immediately before starting work (see the *Bulletins d'interprétation et des pratiques administratives* on the laws and regulations of the Ministry of Revenue of Quebec).
3. Work almost exclusively and continuously at a Quebec university (see the list of Quebec universities in [Appendix 2](#)).
4. Work as a professor in science, engineering, finance, health or new information and communication technologies (see the list of eligible fields of expertise in [Appendix 3](#)).
5. Hold a doctoral degree (Ph.D.) or an equivalent degree recognized by a Quebec university.

Applicants may receive the exemption as long as they maintain their professorship at a Quebec university, whether or not their resident status changes during the period of eligibility. Otherwise, the tax exemption ends on the date that employment as a professor at a Quebec university ceases.

Obtaining a certificate of eligibility from the Ministry of Education

To be eligible for a tax exemption, foreign professors must obtain a certificate of eligibility from the Ministry of Education of Quebec. Obtaining this certificate is a necessary but not sufficient condition to be granted a tax exemption.

The certificate of eligibility from the Ministry of Education attests that the applicant:

1. Commenced work after June 30, 2000, as a professor at a Quebec university under the terms of an employment contract entered into after this date.
2. Works almost exclusively and continuously at a Quebec university.
3. Works as a professor in science, engineering, finance, health or new information and communications technologies.
4. Holds a doctoral degree (Ph.D) or an equivalent degree recognized by a Quebec university.

The certificate of eligibility is issued in the professor's name and is sent to the university as soon as possible after a request has been received. The Ministry of Education reserves the right to revoke a certificate of eligibility on the basis of information received subsequent to examination of the application.

Upon receiving a certificate of eligibility, the employer can take into account the amount of the tax exemption with respect to the professor's eligible income when calculating deductions at the source.

Submitting a request for a certificate of eligibility

Requests for a certificate of eligibility may be sent at any time to the Ministry of Education, using the form [Request for a Certificate of Eligibility from the Ministry of Education](#) for foreign professors. The request must be submitted by the university's representative and duly signed by the applicant and the representative (vice-rector for academic affairs or the equivalent).

The request for a certificate must be submitted no later than the last day of February in the year after the later of the following two dates: the date on which the contract was signed or the date on which the applicant began work. The applicant may then be eligible for five years from the date he or she began work.

However, if the request is submitted after this deadline, the applicant may be eligible from the beginning of the taxation year in which his or her request was submitted until the expiry of the five-year-period from the date he or she began work.

The request for a certificate of eligibility must include the following documents:

- an official confirmation of the applicant's appointment as a professor at a Quebec university;
- a certified copy of his or her doctoral degree (Ph.D.) or an equivalent degree recognized by the university;
- a copy of his or her curriculum vitae;
- if applicable, a copy of his or her work permit issued by Citizenship and Immigration Canada.

Requests for a certificate of eligibility and the required documents should be sent to:

Mr. Claude Rompré
Direction des programmes d'études et de la recherche
Enseignement supérieur
Ministère de l'Éducation
1035, rue De La Chevrotière, 18^e étage Québec (Québec) G1R 5A5

And by e-mail to: claudio.rompre@meq.gouv.qc.ca

Further information

For further information on obtaining a certificate of eligibility from the Ministry of Education, please contact Mrs. Carole Leclerc, at (418) 643-7244, or Mr. Claude Rompré, at (418) 643-9879.

For further information on the tax exemption measure, you may consult the information bulletins produced by the Ministry of Finance: 2000-4 – *New fiscal measures to support social*

and economic activity in Quebec (June 29, 2000); 2000-5 – *Adjustments to fiscal policy applicable to individuals and corporations* (October 6, 2000). These bulletins are posted on the following Web site:

<http://www.finances.gouv.qc.ca/anglais/documents/bulletin/bulletin.htm>

For information on non-resident status or obtaining a tax exemption from the Ministry of Revenue of Quebec, contact the Specialized Tax Information : (418) 659-2961 or (514) 873-8921. You may also consult the [Interpretation bulletins and letters of interpretation](#) of the laws and regulations of the Ministry of Revenue of Quebec.

Application form for a certificate of eligibility

The application form for a certificate of eligibility for a foreign professor is available in the following formats:

- **Word 7.0** ([English](#) or [French](#) version) for downloading
- **.PDF**  ([English](#) or [French](#) version) for printing

If you have difficulty downloading the files, please contact Mr. [Michel Gingras](#), at (418) 646-4560.

Appendix 3

Eligible fields of expertise

The eligible fields of expertise include:

Science: disciplines or fields of specialisation in the natural or applied sciences that usually come under departments or faculties of sciences or applied sciences.

Engineering: disciplines or fields of specialisation in engineering that usually come under departments, faculties or schools of engineering.

Finance: disciplines or fields of specialisation related to finance (corporate finance, international finance, financial vehicles, portfolio management, etc.). Disciplines or fields of specialisation related to accounting are excluded.

Health: disciplines or fields of specialisation in the medical and biomedical sciences that usually come under faculties of medicine or related sectors (pharmaceutics, etc.).

New information and communications technologies: disciplines or fields of expertise related to these technologies, including disciplines in the arts or other fields that are related to multimedia or the Internet.

The list of eligible fields of expertise will be better specified as Quebec universities identify their recruitment difficulties in Quebec.

Please address questions and comments to *Mr. Claude Rompré*,

Tax Exemption for Foreign Postdoctoral Researchers

Guide to Obtaining a Certificate of Eligibility From the Ministry of Education of Quebec

| | | | | | |
|--------------------------------------|-------------------------------------|--|---|--|--|
| Introduction | Notice | Purpose of the measure | Tax exemption | Eligibility criteria | Obtaining a certificate |
| Submitting a request | Further information | Application form | Appendix 1 Taxable income | Appendix 2 Institutions and research organizations | Appendix 3 Fields of expertise |

Introduction

A non-resident of Canada who is employed as a postdoctoral researcher or trainee by a Quebec university or an eligible public research centre may benefit from a tax exemption from the Quebec government provided he or she satisfies the eligibility criteria established by the government. This exemption with respect to eligible taxable income may be granted for a maximum period of five years.

One of the conditions that postdoctoral researchers must meet in order to benefit from the tax exemption is obtaining a certificate of eligibility from the Ministry of Education of Quebec. This guide contains information on the criteria and conditions for obtaining a certificate of eligibility.

Notice

The role of the Ministry of Education is limited to issuing a certificate of eligibility confirming that the applicant has been recruited as a postdoctoral researcher, has the necessary qualifications and is engaged in research in one of the fields of expertise targeted by the tax exemption measure. Obtaining this certificate is mandatory for the tax exemption request to be considered by the Ministry of Revenue of Quebec.

As with any fiscal measure, the Ministry of Revenue alone has the authority to determine the non-resident status of the applicant and to grant a tax exemption on behalf of the Quebec government. The status of non-resident or "foreigner" should therefore be understood in the fiscal sense as defined in the Quebec *Taxation Act*.

Applicants with Canadian citizenship may be eligible for the exemption measure provided they do not have resident status, as defined in the Quebec *Taxation Act*, at the time of signing their employment contract or starting work.

Purpose of the measure

The purpose of the tax exemption measure is to increase the capacity of universities and public research centres to attract foreign researchers in fields of expertise in which they are experiencing recruitment difficulties in Quebec. The fields of expertise targeted by this measure are pure and applied sciences and related fields.

This measure complements the tax exemption measure for foreign researchers employed by companies with operations in Quebec (see [Tax Holiday for Foreign Researchers](#) granted by the Ministry of Research, Science and Technology) and the measure for foreign university professors (see [Tax Exemption for Foreign University Professors](#) granted by the Ministry of Education).

Tax exemption

The tax exemption is valid for a single period of a maximum of five consecutive years from the applicant's starting date of work, provided that he or she remains a postdoctoral researcher at a Quebec university or an eligible public research centre during this period.

The exemption is valid only with respect to Quebec provincial tax and applies to the applicant's eligible taxable income (see details in [Appendix 1](#)). The exemption takes the form of a deduction in the calculation of taxable income at the provincial level. This deduction will not be limited by the alternative minimum tax. The employer must inform the postdoctoral researcher concerned of that portion of his or her income that constitutes eligible income.

The employer may take the tax exemption into account when calculating income tax to be withheld at the source, or the applicant may claim it on his or her income tax return.

Eligibility criteria for a tax exemption

The tax exemption measure for foreign postdoctoral researchers came into effect April 1, 1998, and was amended in the 1999 Budget Speech. To be eligible, applicants must meet the following criteria:

1. Commence work after March 31, 1998, as a postdoctoral researcher at a Quebec university or an eligible research organization under the terms of an employment contract entered into after this date.

2. Have non-resident status in Canada, as defined in the Quebec *Taxation Act*, prior to entering into an employment contract or immediately before starting work (see the *Bulletins d'interprétation et des pratiques administratives* on the laws and regulations of the Ministry of Revenue of Quebec).
3. Work almost exclusively and continuously at a university or an eligible public research centre (see the list of eligible institutions and organizations in [Appendix 2](#)).
4. Work almost exclusively in a scientific research or experimental development capacity in the pure and applied sciences or a related field (see the list of eligible fields of expertise in [Appendix 3](#)).
5. Hold a doctoral degree (Ph.D.) or an equivalent degree recognized by a Quebec university.

Applicants may receive the exemption as long as they remain postdoctoral researchers at an eligible institution, whether or not their resident status changes during the period of eligibility. Otherwise, the tax exemption ends on the date that employment as a postdoctoral researcher ceases.

Obtaining a certificate of eligibility from the Ministry of Education

To be eligible for a tax exemption, foreign postdoctoral researchers must obtain a certificate of eligibility from the Ministry of Education of Quebec. Obtaining this certificate is a necessary but not sufficient condition to be granted a tax exemption.

The certificate of eligibility from the Ministry of Education attests that the applicant:

1. Commenced work after March 31, 1998, as a researcher at a Quebec university or an eligible public research centre under the terms of an employment contract entered into after this date.
2. Works almost exclusively and continuously at a Quebec university or an eligible public research centre.
3. Works almost exclusively in a scientific research or experimental development capacity in the pure and applied sciences or in a related field.
4. Holds a doctoral degree (Ph.D) or an equivalent degree recognized by a Quebec university.

The certificate of eligibility is issued in the applicant's name and is sent to the employer's representative as soon as possible after a request has been received. The Ministry of Education reserves the right to revoke a certificate of eligibility on the basis of information received subsequent to examination of the application.

Upon receiving a certificate of eligibility, the applicant's employer can take into account the amount of the tax exemption with respect to the researcher's eligible income when calculating deductions at the source.

Submitting a request for a certificate of eligibility

Requests for a certificate of eligibility may be sent at any time to the Ministry of Education, using the form [Request for a Certificate of Eligibility From the Ministry of Education](#) for foreign postdoctoral researchers. The request must be submitted by the eligible organization's representative and duly signed by the representative and the applicant.

The request for a certificate must be submitted no later than the last day of February in the year after the later of the following two dates: the date on which the contract was signed or the date on which the applicant began work. The applicant may then be eligible for five years from the date he or she began work.

However, if the request is submitted after this deadline, the applicant may be eligible from the beginning of the taxation year in which his or her request was submitted until the expiry of the five-year-period from the date he or she began work.

The request for a certificate of eligibility must include the following documents:

- an official confirmation of the applicant's appointment as a postdoctoral researcher;
- a certified copy of his or her doctoral degree (Ph.D.) or an equivalent recognized by the university;
- a copy of his or her curriculum vitae;
- if applicable, a copy of his or her work permit issued by Citizenship and Immigration Canada.

Requests for a certificate of eligibility and the required documents should be sent to :

Mr. Claude Rompré
Direction des programmes d'études et de la recherche
Enseignement supérieur
Ministère de l'Éducation
1035, rue De La Chevrotière, 18^e étage Québec (Québec) G1R 5A5

or by e-mail to: clauderompres@meq.gouv.qc.ca

Further information

For further information on obtaining a certificate of eligibility from the Ministry of Education, please contact Mrs. Carole Leclerc, at (418) 643-7244, or Mr. Claude Rompré, at (418) 643-9879.

For further information on the tax exemption measure, you may consult the information bulletins produced by the Ministry of Finance: 1999-1 – *Improvement of the simplified tax system and other tax measures* (June 30, 1999); 2000-5 – *Adjustments to fiscal policy applicable to individuals and corporations* (October 6, 2000). These bulletins are posted on the following Web site:

<http://www.finances.gouv.qc.ca/anglais/documents/bulletin/bulletin.htm>

For information on non-resident status or obtaining a tax exemption from the Ministry of Revenue of Quebec, contact the Specialized Tax Information : (418) 659-2961 or (514) 873-8921. You may also consult the [Interpretation bulletins and letters of interpretation](#) of the laws and regulations of the Ministry of Revenue of Quebec.

Application form for a certificate of eligibility

The application form to obtain a certificate of eligibility for a foreign postdoctoral researcher is available in the following formats:

- **Word 7.0** ([English](#) or [French](#) version) for downloading
- **.PDF**  ([English](#) or [French](#) version) for printing

If you have difficulty downloading the files, please contact Mr. [Michel Gingras](#), at (418) 646-4560.

Appendix 1

Eligible taxable income

The taxable income targeted by the tax exemption measure is the salary paid by the employer or income obtained from a postdoctoral fellowship awarded by the Ministry of Education's *Quebec Merit Fellowships Program* for foreign students. Income derived from grants, research chairs or research contracts obtained by the employer or supervisor (director, professor, researcher) of the postdoctoral researcher can be considered as salary, unless the employer decides otherwise.

Are not eligible for the tax exemption postdoctoral fellowships awarded by Quebec or Canadian institutions or agencies: universities or university foundations, private associations (for cancer, etc.), private foundations, companies, Quebec research funds, federal research councils, etc.

It is to be noted that fellowships awarded by foreign governments, institutions or granting agencies are not taxable at the provincial or federal level.
