ERREUR (S) DE DATE

THE EQUITY

No 45, 56TH YEAR — SHAWVILLE, PONTIAC COUNTY, QUE., THURSDAY, MAY 6, 1939 — $1.50 per annum in Advance / 2.00 to the United States

Shawville Women's Institute will meet at the home of Mrs. J. R. McDowell on Monday afternoon, May 8th, at two o'clock. The program will include an address by Mr. N A. Drummond. Roll call—How to beautify your home and lawn. Mrs. B. C. Horner is the assisting hostess.

The Elmside Women's Institute will meet at the home of Mrs. John Dods, on Thursday afternoon, May 11th, at two o'clock. Program—An address by the local Agronomist; also report of County Convention. Roll call—My favourite farm paper or magazine.

Meeting of Pontiac Rifle Ass'n

A meeting of the Pontiac Rifle Association will be held in the Murrells Community Hall on Friday evening, May 5th, at eight o'clock. Everybody welcome.

Shawville United W. M. S.

The Shawville United W. M. S. met on Thursday night in the Sunday School room with an attendance of nearly one hundred. The president, Mrs C N Woodley was in the chair and the minutes were taken by Mrs. S. E. McDowell.

The program was in charge of Miss Amelia Smart, and she was assisted by Miss Edith Currie-Mills and the boys and girls of the Mission Band. The program included choruses and exercises by the Mission Band; songs by Claire Rennick and Marjorie Smart: recitations by Ruth Hodgins, Ann Campbell and Claire Draper.

Rev. A. F. Fokes gave a talk on one of the chapters of the study book, "The World in Canada."

At the close of the meeting dainty refreshments were served by the Mission Band.

Prizes Awarded at Closing of Badminton Club

Shawville Badminton Club closed after a successful season on Friday night last when prizes for the different tournaments held throughout the past Winter, were presented as follows:

Prizes for ladies doubles, donated by Mr. B. G. Foreman, were won by Mrs. J. Gordon and Miss Lucille Brough. Runners-up were, Misses Ola Bretzlaff and Edith Currie-Mills.

Mr. J. P. Wilson's prizes, for men's doubles, were won by Jack Tolhurst and John Brough. Runners-up, Claire Hyndman and Ben Midlege.

Prizes for mixed doubles, donated by Mr. and Mrs. J. Gordon, were won by Miss Sophia Hodgins and J. Gordon. Runners-up Miss E. Currie-Mills and B. G. Foreman.

Bishop of Montreal Consecrated

The service of consecration and enthronement of the Bishop of Montreal, the Right Rev. Arthur Carlisle, took place Tuesday at Christ Church Cathedral with all the dignity and solemnity of the ritual of the Church of England, and the large attendance at the public reception held in honor of the Bishop and Mrs. Carlisle testified eloquently to the high esteem in which the community generally hold the successor to the Right Rev. Bishop Farthing, under whom the Anglican Church made such marked progress during the period of thirty years that he was head of the diocese.

It needs no saying that Bishop Carlisle's ecclesiastical heritage is a very important one. The work which will confront him is likely to be more difficult, if not more exacting, owing to economic conditions prevailing at this time.

His long service as Dean of Montreal has proved that he possesses great administrative ability, and in addition to his talents as a Churchman. his unfailing tact, sound judgment, lovable disposition, human sympathies and broad-mindedness, his knowledge of men and his power to make friends indicate his fitness for the high office he has been called to fill. They are all sureties that, under Bishop Carlisle, the Anglican diocese of Montreal will be wisely and well governed and always in accordance with the fine traditions established by his distinguished predecessors.—The Montreal Gazette.

Rev. W. S. Lennon, Former Methodist Pastor, Dies

Rev. Walter S. Lennon, 66, for 40 years a member of the Methodist and United Church ministries in Quebec and Ontario, died Saturday last at the home of a son at Lennoxville, Que., from a heart seizure following a brief illness.

Mr. Lennon, a native of Montreal, was stricken suddenly three weeks ago at West Shefford, where he had been serving in a superannuation charge since 1937.

Educated at McGill University he came to Shawville in 1905. It was during his ministry here that the Church was burned and rebuilt.

PERSONAL MENTION

Mr. and Mrs. Emerson Paul and children, of Ottawa, were Sunday guests of their relatives in town and district.

Mrs. Geo. Moore, of Lower Litchfield, Que., was the week-end guest of her neice, Mrs. George Angus, of McKee.

Misses Nell and Dorothy Imison spent the week-end at the home of their sister, Mrs. Jim Johnson, in Montreal.

Mr. Clarence Dahms, one of this year's graduates in Animal Husbandry, at Macdonald College, returned last week to visit his parents, Mr. and Mrs. E. C. Dahms.

Mr. George Eades, who has completed his final year in Commerce at Queen's University, arrived Monday to spend the Summer vacation with his parents, Mr. and and Mrs. R. P. Eades.

Mr. Harold Fokes, returned Saturday from Queen's University, where he graduates in Science, to spend the Summer vacation with his parents, Rev. A. F. and Mrs. Fokes.

Mr. Douglas Campbell, who has completed his first year studies in Agriculture at Macdonald College, returned Saturday to spend the Summer vacation with his parents, Dr. D. J. and Mrs. Campbell.

Mr. and Mrs. W. C. Stark and daughter, Mrs. Harold Judd, accompanied their son and daughter-in-law, Mr. and Mrs. Kenneth Stark, of Cobden, to Oshawa where they spent the week-end with relatives.

Mr. L. A. Smart, we are pleased to report, was sufficiently recovered to return to his home at Stark's Corners, on Sunday. Mr. Smart was patient at the Community Hospital for six weeks following a serious operation and for some weeks later was at the home of his sister, Mrs. Maude Smart, in town.

Another Milestone

MAY 1st, 1842—MAY 1st, 1939

Mr. George Hynes, Shawville's Grand Old Man, has completed his 97th full year, and THE EQUITY and its readers all join in wishing him "bon voyage" as he embarks on his 98th year.

Our distinguished old friend is in wonderful physical health with mind and memory still keen and alert.

Pontiac County Convention Women's Institutes to be Held at Shawville

The Annual Convention of Women's Institutes of Pontiac County will be held in the Sunday School Rooms of the Shawville United Church on Wednesday, May 10th, 1939, commencing at 10.00 a.m., when reports will be received, officers elected and general business dealt with.

The Constabule of Hinkey Doodle Town

Shawville Y. P. U. are presenting their three act comedy operetta with the above name on Thursday and Friday, May 11th and 12th, in the Theatre at 8 p m.

This young people's group has presented an operetta of this type every year for the past seven years, with fine ability and marked success. It is believed that this year's play is one of the best yet. Features include a caste of over 50 with about 30 in speaking parts; the latest songs and a couple of old time favorites. You will enjoy "Steppin' Around," "Dreams," and "The Hole in the Old Oaken Bucket" etc.

Two colorful drills, "The Maypole" and a patriotic drill "Welcome to Canada" and several marches.

Funny lines run all through the play with comedy characters in Wendell Wilson as the "Constahule," Bert Swartz as the "village miser" and Nancy Poole as "Clingie Vine, an old maid." There are two fake deacons that are a scream and several other humorous characters.

Don't miss this enjoyable evening of music and fun. Prices 25 and 15 cents.

Boys' Work Meeting

An open meeting, sponsored by the Tuxis Eagles and Trail Ranger Wolverines of Shawville, is being held in the Shawville High School on Thursday evening of this week, May 4th, commencing at 8 o'clock.

The business of this meeting is very important for the whole future of boys' work in Shawville and it is earnestly hoped that all men, young and old, interested in the boys of the community will attend.

(Signed)
JACK TOLHURST
CLARENCE DEAN

BORN

YOUNGE—At Shawville Community Hospital, on April 28th, 1939, to Mr. and Mrs. Melvin Younge, of Shawville, a son.

HODGE—At Thetford Mines, Que., on April 29th, 1939, to Mr. and Mrs. S. L Hodge, a daughter.

DIED

GIBSON — At his late residence, Campbell's Bay, Que., on Thursday, April 27th, 1939, Edward Gibson, beloved husband of Eliza Jane Craig, in his 73rd year. Funeral on Monday afternoon, from the late home to the Holiness Movement Church. Interment was made the Union Cemetery, Campbell's Bay.

MARRIED

BRUCE—RICHARDSON

At the United Church Parsonage, Yarm, Que., on Wednesday morning, April 26th, at 7 o'clock, by Rev. R. G. Newman, M.A., B.D., the marriage was quietly solemnized of Mary Hazel, only daughter of Mr. and Mrs. Gordon Richardson, of Radford, and Mr. Richard Bruce, son of the late Mr. and Mrs. Richard Bruce, of Hermon, Ont.

The attendants were, Miss Edna Horner, cousin of the bride, and Mr. Albert McMunn, the groom's half-brother.

The bride wore a charming costume of navy lace over taffeta, small navy hat with matching shoes and gloves and a fox scarf.

The bridesmaid's dress was of rust sheer crepe with which she wore a wide rust felt hat.

Following the ceremony, Mr. and Mrs Bruce left by the morning train for a short trip. On their return they will reside in Radford district.

Samuel J. Crawford Passes After Lengthly Illness

The funeral of Samuel John Crawford was held on Monday afternoon from the residence of his brother, W. T. Crawford, to St. George's Anglican Church, Campbell's Bay, where service was conducted by the pastor, Rev. D. Andrews. Interment was made the Union cemetery.

Mr. Crawford died in a Toronto hospital on Thursday morning, April 20th, in his 51st year. He had been seriously ill since last August and was removed to a hospital in Toronto in September. He had been an employe of the Dome Mines, South Porcupine, for some years.

Besides his wife, the former Rose Young, there are left to mourn his loss four sons, Stewart, Lloyd Earl and Willis, all at home; four daughters, Pearl, Grace and Elaine, at home, and Laura, at Robin Hood, Sask.; his father and step-mother, Mr. and Mrs. John Crawford, Campbell's Bay; five brothers, W. T. Crawford, George Crawford and Irvine Crawford, all of Campbell's Bay; Stewart Crawford, of Siscoe, Que.; Frederick Crawford of Thornby; four sisters, Mrs. Henry Woods, Greermount; Mrs. Thos. J. Woods, Greermount; Mrs. Harry Seaman, Robin Hood, Sask.; Mrs. James Acres, Haley's Station.

The Masonic service at the graveside was in charge of P.D.D.G.M., Harry Imison, P.W.M., Vertal Smiley, W.M., C. W. Schwartz.

The pall-bearers all Masons were, W. E. Cochrane, Leslie Poole, Jas Peever, R. A. Hodgins, N. A. Drummond and C. W. Schwartz.

LITTLE REST DAY OR NIGHT

Woman With Severe Neuritis

For the benefit of others who may be troubled with the complaint she suffered from, a grateful woman writes.—

"Last May I had a very severe attack of neuritis in the leg, which made it impossible for me to rest during the day, or to get regular sleep at nights—to say nothing of the intense pain.

"Various medicines gave me very little relief, and a friend advised me to give Kruschen a trial, as she had derived benefit from it whilst suffering similarly. I am so thankful that I took her advice. From the very first bottle I felt relieved, and now I am quite free from pain, and get a good night's sleep."—(Mrs.) H.C.

Neuritis, like rheumatism, lumbago, and sciatica, is often caused by needle-pointed uric acid crystals, which form as the result of sluggish eliminating organs. Kruschen helps to convert those crystals into a harmless solution, which is removed through the natural channels.

Gardening

NO HURRY

The average amateur starts operations days or sometimes weeks too soon and stops long before satisfactory operations can be continued. With the general run of vegetables and flowers, there is no advantage in getting things in while there is still danger of serious frost. One set-back from a cold day or two completely offsets the early start and may indeed mean replanting the whole garden. This caution of course does not apply to the hardiest vegetables or flowers or to grass seed. These should be sown just as soon as grass it fit to work.

A SHORT CUT

For a short cut the gardener is advised to purchase a certain quantities of started plants of both flowers and vegetables. These are usually purchased from the greenhouse, florist or seed house. It is important to get the varieties wanted and on this account it is an excellent idea to consult a good Canadian seed catalogue before placing the order. The gardener can look over the various varieties offered in the catalogue and should make sure that the particular varieties wanted are in the boxes of plants bought.

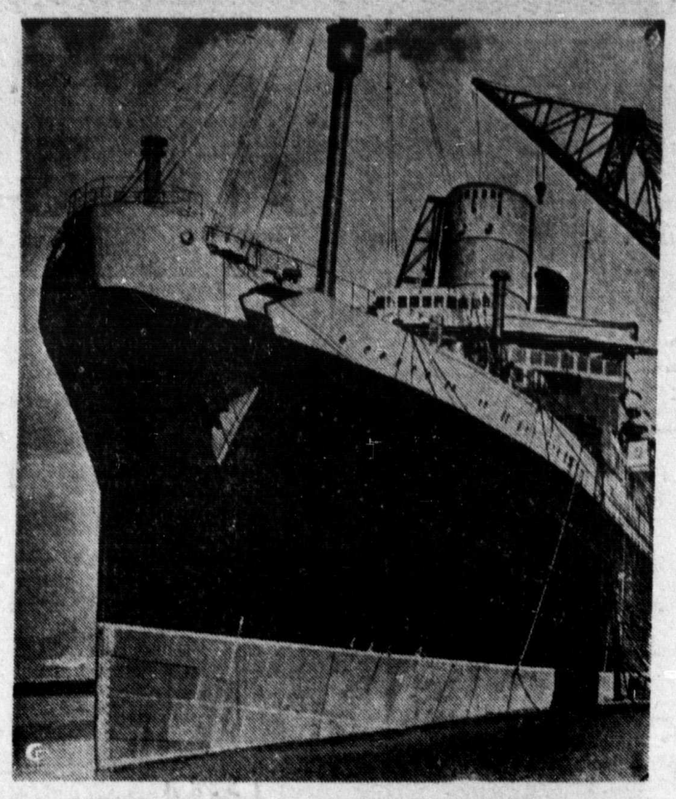

Among the flowers which can be purchased as started plants are cosmos, zinnias, petunias, marigolds, salpiglossis, nicotine and a host of others. Cabbages, celery, tomatoes, head lettuce, egg and pepper plants in the vegetable line are all cold as started plants.

MOST FOR MONEY

Those with only a little land to spare should concentrate on those vegetables which give the biggest returns for the smallest space occupied. Among such kinds are beans, carrots, onions, lettuce, swiss chard, spinach, cucumbers and beets. In the lesser-known vegetables are leeks, egg and pepper plants, broad beans and cos lettuce. These can all be grown in almost any part of Canada. Experts advise the inclusion of something new in the vegetable line each year so that variety can be gradually widened.

More low necks than you've met by daylight in a long time, not only for the bona fide afternoon frocks, but for the more dressed-up type of sports dress.

A New Streamlined Mauretania Nears Completion

A view of the new Cunard White Star Liner S.S. Mauretania, as it nears completion at the shipyard in Birkenhead, Eng. The vessel's streamlined beauty is a far cry from the appearance of its beloved namesake, the former British queen of the seas. The new Mauretania will sail from Liverpool on her maiden voyage on June 17.

Farm Forum

FERTILIZERS NOW AND THEN

Canada is a comparatively new country agriculturally, but her vaunted virgin soils are being fast depleted by cropping, by drifting and by erosion. Fortunately, the need for restoring lost fertility is now becoming recognized generally. History repeats itself, and the experience of British farmers of nearly 100 years ago has been that of Canada more recently, says B. Leslie Emslie, chemist-agronomist.

Original Superphosphate

Farmyard manure, the old stand-by, and still justly esteemed for its unique qualities, proved eventually inadequate to produce maximum crops. This was due to its deficiency in phosphoric acid, a discovery made when the stimulating action of ground bones on crop growth was observed.

The original superphosphate, produced by Lawes of England in 1842, was made by treating bone with sulphuric acid. Subsequently, the mineral phosphate rock was substituted for bone, with results no less satisfactory, and the process, identical in principle, continues to this day.

Need For Potash

It was not until 1860 that the need for potash in fertilizers was demonstrated by Liebig of Germany. Since then no addition has been made to the list of "essential" fertilizer constituents, and a "complete" fertilizer is one containing nitrogen, phosphoric acid and potash in available forms. Superphosphate constitutes usually more than half the weight of the fertilizer mixture.

Superior superphosphate of Canadian manufacture is prepared by improved mechanical process. As sources of nitrogen there are now at the disposal of the manufacturer the following materials containing the percentages of nitrogen shown in brackets: nitrate of soda (16), sulphate of ammonia (20), ..cyanamid (22), ..urea-ammonia liquor (45), urea (46), etc. The fixation of atmospheric nitrogen by electro-chemical means yield these materials.

Proper selection of materials, their blending, processing and curing demand the application of skill and science by manfacturers of modern fertilizers for Canadian farmers.

Has Raised Fish Consumption

The Hon. J. E. Michaud, Dominion Minister of Fisheries with V. P. Reid, Toronto industrialist, appear above. Speaking from Toronto over a nationwide network to participating service clubs, the Minister reported that consumption of Canadian fish had increased from 21 to 30 pounds per capita.

...teran Engineer Will Pilot Royal Train

Pictured in the cab of his locomotive at Quebec City, is Engineer Eugene Leolero, of the Canadian Pacific Railway, who will have the honor of piloting the royal train of King George and Queen Elizabeth when they visit Canada next month. Engineer Leolero was a fireman on the royal train of 1901.

What Science is Doing

MENTAL CURE IN FOOD

Chemists are to try food as a remedy for a numerous class of human half-wits—to see whether food can make better brains.

The imbecility to be treated with diet is a new type discovered in 1934 by Dr. A. Folling of Oslo, Norway. The report says it attacks one person out of every 25,000.

SUBSTITUTE FOR BLOOD TRANSFUSION

Successful use of an abdominal fluid as a substitute for blood in transfusions is reported by Dr. H. A. Davis, of the University of Tennessee.

Dr. Davis said the liquid is ascitic fluid and is chemically the same as blood except that it lacks the cellular or corpuscular structure.

CHEAP NEW EXPLOSIVES

Two new high explosives of cheap and limitless production, are announced by the head of Purdue University's department of Chemistry.

Air, steam, natural gas and a catalytic agent are all that is required for their manufacture it is said.

HALTS PROGRESS OF T.B.

Human tuberculosis has been completely arrested in about 100 guinea pigs by a new form of sulfanilamide.

The pigs were not cured, but the disease was entirely stopped from spreading and the animals lived in good health until killed to further verify these results.

No predictions are made as to whether the new drug will be useful to human beings.

Have You Heard ?

An attendant in a mental home was making his evening round when he came upon one of the patients industriously fishing in a wash-basin with rod and line.

Wishing to humour the man, the attendant asked him if he had caught anything.

"What!" said the patient, "in a wash-basin! Are you crazy?"

Mother (on train): "If you're not a good boy I'll slap you."

Junior: "You do and I'll tell the conductor how old I really am."

"It's lucky that Adam was the only man on earth, when he married Eve."

"How so?"

"Just think how he would have felt, if he had seen his rib walking around with another fellow."

"Didn't I shave you about a fortnight ago, sir?"

"No; I got that scar in France."

Rural Resident: "It's simply fine to wake up in the morning and hear the leaves whispering outside your window."

City Man: "It's all right to hear the leaves whisper, but I never could stand hearing the grass moan."

"I can think of nothing sadder than a man without a country."

"I can... A country without a man."

"Triangle" width is another name for skirts of dresses with a petticoat look.

Modern Etiquette

BY ROBERTA LEE

1.—Is it permissible to ask over the phone, "Who is calling please"?

2.—What day of the week should a girl choose for her wedding?

3.—When serving a breakfast between 11 a.m. and 12.30, should it be in the form of a breakfast or a luncheon?

4.—Isn't it all right to wait for a week before answering a dinner invitation, when one is not sure whether it can be accepted?

5.—Isn't it better for a person to talk very little instead of too much?

6.—What is a good toast for a son to offer to his mother?

Answers

1. —Yes. The person calling should inform one who it is without the necessity of being asked. 2.—This is altogether a matter of choice; one may choose any day desired. 3.—A luncheon. 4.—No. A dinner invitation should be answered immediately. 5.—Yes, it is far better, and causes much less harm. The old proverb says. "Eating little and speaking little can never do a man hurt." 6.—"To my mother: If I were not her son, I would want to be her husband."

Laundry Tips.—Before you put new curtains into the washer, soak them in four tablespoons of salt to each four cups of water.

DRINK *these 10 herbs in your daily cup of* **HOT WATER**

Parliamentary Doings

With Ontario's Legislators, Spring, 1939

BY EEDY

PARLIAMENTARY DOINGS

This business of governing gets serious at times . . . . so serious in fact that last week Ontario's M. L. A.'s were asked to spend every evening as well as every afternoon (from 3 to 6) in the House passing bills and things . . . . Heavy was the agenda, with motions being introduced right and left to amend almost every Act on the statute books . . . . sometimes the amendment amounted solely to the correction of a typographical error, but it had to be dealt with just the same. . . .

Into the midst of this preoccupied (with official business) atmosphere, was precipitated the Strange Case of the University Professors Who Refused to Conform . . . . Busy members on both sides of the House dropped their papers, eyeglasses and don't-bother-me air to give full attention to this ripe, juicy scandal . . . . "Tut! tut! tchk! tchk!" on every hand, and "let me at 'em" . . . . You all know what it was that Professor Grube of Trinity College said that he shouldn't have (that Canada's expenditure for defence would only be a contribution in support of British imperialism), but Professor Underhill's alleged utterances (tchk! tchk!) are only vaguely reported . . . . something about hanging out woollen flags which would shrink like the British Empire is shrinking. . . .

And the question of free speech in a democratic country had to be gone into all over again . . . . there's nothing like a little free speech now and then to stir people up and get everybody good and mad at the other fellow but pleased with themselves. . . .

Stormy petrel of the Conservative Party, "Holly" Acres, provided the House with some squally scenes when he accused the Liberal member for Temiskaming of certain practices and attacked the administration for its lack of constructive policy toward the relief of unemployment . . . . Now you're getting something . . . . because the rampant unemployment, particularly among the youth of this country, is a heap sore spot with every parliamentarian in small halls and great . . . . There's a spectre at every feast, and a skeleton in most legislative closets today in Canada . . . . The situation improves not a whit while over the past nine years $900,000,000 has been spent in the Dominion for unemployment relief, direct and indirect. A constructive policy of works projects is indicated as the immediate solution.

Symbolically, the wolf was at the door of the Ontario Parliament Buildings last week, but it was only Joe LaFlamme's tame wolf from Sudbury, accompanied by his master . . . . but more than one M. L. A. was seen to start at the apparition.

The Opposition busied itself with inquiries into various "deals" the Government is reported to have made with such companies as the Lake Sulphite, Abitibi and Pulpwood Supply . . . . The Lake Sulphite Company were granted large areas of extremely valuable timber but before they reached production they went into liquidation. The Abitibi company has been in liquidation for upwards of seven years and the government has been in the "picture" in every attempt at reorganization.

The Big Question Mark: What stand will Premier Hepburn take in the next federal election? (It is recalled that while Mr. Hepburn has stated he will not aid Mr. King, he has not gone the length of definitely stating that Conservative Leader R. J. Manion can count on him for all he can give).

Next week we shall review the session in its perspective as soon as the clouds and the smoke have rolled away.

His German Toe Made A Rumpus

Rev. H. M. Hamnett of Calgary had one of his big toes which was grafted from the amputated foot of a German soldier during the Great War, removed last week because it had been "kicking up" during recent European crisis.

"It's the first time since the toe was grafted to my foot that it had acted up," Hamnett said.

"Perhaps I'd better ask Hitler what to do with it now that it's removed."

Nearly 3,000 waitresses and dancers accepted the invitation of the police of Tokio to gather in a hall and hear a friendly discussion of public morals and the part they play in Japan's present emergency.

The Age of Chivalry Is Not Yet Dead

Master John Kershaw ably demonstrated that the age of chivalry is not yet dead in England as he presented Queen Mary with a purse, when she officiated at the opening of the new holiday home for working mothers at Stansted, Eng. After making the presentation, Master Kershaw bowed like a closing jackknife, but his performance evidently aroused the royal mirth of the Queen Mother.

ONTARIO OUTDOORS

By VIC BAKER

ANTICIPATING MAY 1st

Many thousands of Ontario's anglers are eagerly anticipating the opening of the trout season on May 1st as the month of April slowly wends its way through the calendar. This important date in the angler's almanac introduces a long season of outdoor happiness and piscatorial thrills.

April 1st may be "all fools" day and lend itself to the perpetration of practical jokes of doubtful humour, but May 1st spells freedom from the social conventions of "soup and fish" leaving us free to eliminate the soup and just fish. As a rule, most anglers have put away their equipment by October, not because they are tired of fishing, but because the climate and closed seasons force them to desist. Therefore, it seems a long time between bites and so as the season once more approaches we are all on edge and "rarin' to go."

WE WONDER

As May 1st this year falls on a Monday, we wonder if the Ontario Fish and Game Department will be kind enough to advance the opening date for trout fishing to Saturday, April 29, to give us an extra week-end. Last year the opening date was advanced to April 30th and anglers were enabled to hie themselves away to their favourite stream on the preceding Saturday for a week-end of fishing.

—o—

NYLON FISHING LEADERS

A new fishing leader, which will not fray, split or become brittle, is invisible in water and possesses elastic qualities permitting a uniform "give" of about one inch per foot and resuming normal length with much the same action as a rubber band, is now available to the Canadian angling world.

Designed to fill the place place among the fishing fraternity now occupied by Spanish silk-worm gut, the new leader is on the market in standard weights and lengths, both level and tapered.

Doubts Value Of Bombings

U. S. Envoy Says Civilians Become Accustomed to Raids —Morale Can't Be Broken That Easily.

Bombing of civilian populations in an effort to break their morale proved a boomerang in the recent Spanish civil war, says Claude G. Bowers, U. S. ambassador to Spain for the last six years.

"Instead of breaking down the morale," he said, "the effect seemed to be very perceptibly a stiffening of the morale of the people—a rise in their resentment.

"The first effect on the civilian populations, of course, was to throw them into a state of terror. The amazing thing, however, is that in a very short time—a matter of weeks only—they become accustomed to it and hardened to it."

The BOOK SHELF

By ELIZABETH EEDY

THE CASE OF THE CRUMPLED KNAVE

By Anthony Boucher

The telegram so startled Colonel Rand that he took the next plane to Los Angeles.

He arrived just in time to be an invaluable witness at the inquest on Humphrey Garnett's body.

Dead by poison, and in his hand the clue that pointed to the murderer—a crumpled jack of diamonds.

Colonel Rand knew the significance of the crumpled knave. But he didn't know anything about the "Hector" mentioned in that amazing telegram.

Many detective story writers are masters of the double bluff. In "The Case of the Crumpled Knave" Anthony Boucher triples it, and proves conclusively that the hand of the writer is quicker than the eye of the reader.

It's an "Inner Sanctum" mystery.

"The Case of the Crumpled Knave," by Anthony Boucher . . . . Toronto: Musson Book Co. . . . $2.25.

VOICE of the PRESS

APPEASEMENT BUTTER

One thing they never thought of in appeasement was giving Germany some New Zealand butter. —Hamilton Spectator.

THE NEW CRUSADERS

Agnes MacPhail visualizes women as crusaders for world peace. Perhaps, but not in those new spring hats.—Kitchener Record.

TOURISTS MAKE UP FOR IT

Canada's unfavorable trade balances with the United States in 1938 was almost $68,000,000. That is where a tourist trade balance in favor of Canada helps out.—Sault Daily Star.

LEFT PRETTIEST AT HOME

A member of the Post staff, following a holiday in Florida, tells us that he saw only one pretty girl from the time he left Toronto on the way south until he returned to this snow-crusted land. —Lindsay Post.

FROM FARM TO UNIVERSITY

The statement of Premier Hepburn that Ontario Universities are cluttered up with the sons and daughters of wealthy people will not go down very well with the farmers who make sacrifices to put their sons in the professions. There have been thousands of them in the past who have made distinguished contribution to their country.—St. Catharins Standard.

LOAN SHARKS

Govrnment action at Ottawa, to bring down legislation designed to curtail the operations of loan sharks, wins widespread attention and approval. The topic aroused considerable interest when the Hon. Mr. Ilsley forecast its introduction. Reaction in the press of many parts of Canada has been favorable, and the introduction of such legislation in the Upper House by Senator Dandurand has stimulated the laudatory comment. —Halifax Chronicle.

Taming Wolves, Women Similar

Joe La Flamme, of Gogama, Ont., is 50 years of age, six feet tall, weighs 250 pounds, sports a full beard and long silver hair; he talks brokenly, as you would expect of a trapper from the hinterlands of Ontario; he wears moccasins; as he talks, his almost black eyes sparkle. Joe, you know, is believed to be the first man in history to have worked a full team of wild wolves as sled dogs, and he looks the part.

He has the distinction of having the first wolves that ever flew in an airplane. He brought them to Sudbury by air for his sportsmans' show, says a writer in the Windsor Daily Star.

Joe didn't begin training wild wolves because he wanted to be a showman. The reason was much more practical. At first a trapper, and now a prospector and assessment worker, he remembers that back in 1923 he was trapping. There were plenty of sled dogs, but a plague of distemper struck, and the dogs were dying off like flies. He trapped his first wolf then and got the idea of using her in his sled pack.

At this point, he drew a parallel between wolves and women, a philosophy of which he is a strong disciple. "Wolves are like women," he said. "When you meet dem for de firs' time, you mus' be ver' gentle. Aften ten year you have to watch for frying pan and de sticks. If you know how to handle women, you can handle wolf. De more women, de more danger. De more wolf de more danger."

Dropped shoulders to go with dropped fullness in sleeves for a new style gesture, "dropping" lines.

8 Pallbearers Aren't Enough

At Funeral In London, Ont., Of 500-Pound Woman

Mrs. Dominic Pallaria, believed to be the largest woman in Ontario if not all Canada, weighing 500 pounds, was laid at rest in St. Peter's cemetery, London, Ont., early in April.

An 18-piece band preceded the funeral cortege in parade formation to St. Peter's Cathedral, where requiem high mass was sung.

The band, which consisted entirely of brass instruments, was comprised of members of the London Veterans' Band and members of the old London Marconi Club Orchestra.

Largest Coffin Ever

Eight husky pall-bearers and two funeral home attendants had difficulty bearing the weighty coffin, the largest ever constructed in London, measuring 36 inches by six feet, six inches. The total weight of coffin was more than 600 pounds.

The Richest Man Lives In India

World's Most Wealthy Individual, The Nizam Of Hyderabad, Is Thought To Be Worth $600,000,000.

Picturesque, a character who might have stepped out of the Old Testament, the Nizam of Hyderabad conducts one of the strangest reigns of modern time; rule of the richest man in the world.

From the sultry, showy place in the city of Hyderabad, capital of this south central Indian province, the nizam wields his power over some 14,000,000 subjects. In a huge red and gold room he directs the routine business of his native state, reaching decisions quickly. He attends his official duties with utter lack of ceremony. He wears the simplest attire. On state occasions, however, he stages vast Oriental splendor.

Rules 14,000,000 Subjects

Fabulously wealthy, the nizam is said to be worth $600,000,000. Yet he is virtually a prisoner in his own land. Ancient customs decree that he shall never leave Indian shores. Actually he never leaves the capital city, even during the torrid summers.

Tanneries Use Cattle Hides

Cattle hides comprise the principal material used in the Canadian tanning industry, which is now one of the chief manufacturing industries in the Dominion. Approximately 70 per cent. of the cattle hides come originally from Canadian farms, the remainder being imported. A similar percentage applies to the next important material "calf and kip skins", while sheep skins usually attain a fifty-fifty basis, fifty per cent. Canadian and fifty per cent. imported. According to the latest statistics the total number of hides and skins used in the industry in 1937 was 3,475,801, of which 2,313,977 were Canadian and 1,159,824 of foreign origin.

LIFE'S LIKE THAT — By Fred Neher

"I think I'll go over and sit on the sofa for a while . . . I can't make any money playing here with you."

WONDERLAND OF OZ — By L. Frank Baum

For a while the King was thoughtful. "I am almost sorry we did not undertake the conquest alone," said he. "All of these allies are dangerous people and they may demand more than you have promised them. It might have been better to conquer Oz without any outside assistance." "We could not do it," said the General, positively. "Why not, Guph?" "You know very well. You had one experience with the Oz people and they defeated you."

"That was because they rolled eggs at us," replied the King, with a shudder. "My gnomes can't stand eggs any more than I can. They are poison to all who live underground." "That is true enough," agreed Guph. "But we might have taken the Oz people by surprise and conquered them before they had a chance to get any eggs," said the King. "Our former defeat was due to the fact that Dorothy had a yellow hen with her."

"I don't know what became of that hen, but I believe there are no more hens in Oz now, so there could be no eggs there." "On the contrary," said Guph, "there are hundreds of chickens in Oz. I met a hawk on my way home who told me he had been there and had seen them." "That is a bad report," said the King, nervously. "Very bad, indeed. My gnomes are willing to fight, but they simply can't face eggs, and I don't blame them."

"They won't need to face them," replied Guph. "We'll send our allies first and by the time we get there, the eggs will be gone." "Perhaps," returned the King, "but I want it understood that Ozma and Dorothy belong to me. They are nice girls and I won't let them be hurt. I will bring them here and transform them into ornaments." "Very well," said Guph, "let us get the tunnel finished as soon as possible." "It will be ready in three days," promised the King.

THE EQUITY

New Silver Dollars Available Early in This Month

The new silver dollar, struck to commemorate the forthcoming visit of the King and Queen to Canada, will be available to the public early this month. Through the co-operation of the Post Office Department the coin will be available at post offices in places where there are no local branch banks.

Quebec Approves Cut In Legislature

Measure for redistribution of Quebec electoral divisions, with reduction of their number by four, was approved on Wednesday of last week by the Legislative Assembly. The Assembly sat more than half an hour after midnight before the bill carried on a 42--18 vote.

The reduction in the number of divisions from 90 to 86, with the same reduction in the number of representatives in the Assembly, will be effected by re-shuffling the counties of Riviere du loup, Kamouraska, Chateauguay, Laprairie-Napierville, Richelieu, Vercheres, Vaudreuil and Soulanges.

In Montreal district, a general redistribution will be carried out, with delimitation of several entirely new divis ions. Montreal's representation will be left at 15, however.

Plan to Train Royal Air Force Pilots in Canada

Defence Minister Mackenzie last week announced pilots for the Royal Air Force will receive training in Canada with the Royal Canadian Air Force under an agreement between the governments of Canada and Great Britain.

They will receive their training at the Trenton and Camp Borden establishments and will share in a greatly expanded training scheme for the Canadian forces. This involves the creation of a new class of short service officers for Canada's air defence.

In a two-hour review of the accomplishments and plans of the National Defence Department, Mr. Mackenzie formerly introduced in the Commons the Government's $63,000,000 defence program for the present year.

Training of British pilots in Canada was the subject of debate in parliament last session and negotiations looking to it have been proceeding quietly for nearly a year.

While the final detailed technical arrangements have still to be completed it is possible to say now that agreement has been reached on a scheme whereby pilots from the United Kingdom will come to Canada to be given the intermediate and advanced stages of training under the auspices of the department". Mr. Mackenzie stated.

"The duration of the scheme will be three years. It is contemplated that the number of pilots coming will not exceed 50 in any one year."

Budget Highlights

Highlights of the budget speech delivered by Finance Minister, Charles Dunning, on Tuesday of last week were :

A deficit of $60,000,000 estimated for the fiscal year ending March 21, 1940, without providing for further wheat marketing losses.

Income tax deductions for all firms proceeding with construction plant extension within the next equal to 10 per cent. of the amount of capital expended.

A further extension of three years of income tax exemption for new metallic mine developments coming into production.

Removal of the three percent excise tax on all imports other than those entering Canada under the general tariff

Excise duty on spirits used in manufacturing vinegar increased from 27 to 60 cents a gallon to encourage use of Canadian-made cider for this purpose.

Customs duty of five percent, advalorem imposed on crude rubber and primary forms of tin in intermediate and general tariffs.

Duties on parts used in manufacture of radio tubes removed on recommendation of the tariff board.

Mr. Dunning says no reason for any fear "as to our national solvency," but urges business and financial leaders to expand production, employment and incomes to avoid necessity of Government spending.

Changes in 78 tariff items largely confirming concessions in Canada-U.S. trade agreement already approved

No changes in sales tax or in schedule of exemptions or no changes in miscellaneous excise taxes.

Senate Passes Bill Aid Cheese Industry

The Senate Thursday gave third reading to the Govesnment's bill aimed at improving conditions in the cheese making industry.

Senator Duncan Marshall (Lib., Ontario) told the house the bill contemplated a Government contribution up 50 per cent. of the cost of merging cheese factories and the same proportion towards assisting in modernizing those concerns.

It also provided a premium of two cents a pound for cheese which graded 94 score and one cent for 93 score.

United Kingdom Pass Conscription By 376 to 145 Vote

British Parliament gave the world in general, and Chancellor Hitler in particular, notice on Thursday night of last week, that the nation was prepared to sacrifice even its long cherished traditions in order to halt Fascist aggression in Europe

By a vote of 376 to 145, the House of Commons endorsed the Chamberlain lGovernment's sudden decision to conscript immediately 200,000 men of 20 years of age, thus adding conscription to Britain's recruting system for the first time in modern history durit.g peace. The House of Lords early approved the decision without a record vote.

Clarendon Council

May 1st, 1939

Clarendon Council met on the above date, present, Mayor Barr, and Councillors Hanna, Grant and Whelen.

Minutes of last meeting read and adopted, save and only the motion appointing the Auditor, which should read if the price is satisfactory.—Carried.

Councillor Judd entered and took his seat at the board.

The following bills were presented for approval.

Geo. S. Lucas	$ 2 49
W. A. Hodgins	13 11
Ed Hodgins, gravel	24 00
F. A. Horner	7 50
Arthur Horner, two sheep killed by dogs	13 32
Road Foreman Brownlee, opening road	11 00
Jas Judd, 10 bags potatoes for charity	8 00
Wellington Smart	2 00

Motion by Crs. Judd-Hanna, that these bills be paid.—Carried.

A delegation from Charteris waited on the Council asking assistance to repair the road on the 14th Concession, west of the Pickanock Road.

Motion by Crs. Hanna-Whelen, that Councillors Grant and Judd, visit this portion of road and report at the next meeting of this Council—Carried.

Motion by Crs Judd-Whelen, to adjourn.—Carried.

JOHN A. DEAN,
Sec.-Treas

World's Smallest Republic

San Marino, high in the Italian Appenines, area 22 square miles, population 13,000, is the world's smallest republic and one of the most ancient. The republic, which consists of a craggy mountain about 2,200 feet high, on which is the town, and some circumjacent territory, with four or five villages, is entirely surrounded by Italian provinces, but has maintained its independence since the Fourth century, and coins its own money, as well as maintaining diplomatic representatives in various foreign countries. The legislature of the republic consists of a senate of 60 members elected for life. Administrative functions are in the hands of two regents, or presidents, who are chosen every six months.

British Motor Fees $187 For Light Car

The British budget of Tuesday of last week added materially to the load of British motorists increasing the license cost from 15 shillings ($3.75) per horsepower to 25 shillings ($6 25) per horsepower.

A low-price Canadian car with a 30-horsepower rating would cost its British owner $187 50 for a license, compared with the $7 to $10 license charge for a similar car in Ontario. A medium-price car with an Ontario tax fee of $15 would be assessed $225 in Britain.

Most Britishers use automobiles with eight to ten horsepower, paying license fees of $55 to $62.50.

British drivers pay about 47 cents a gallon for gasoline, which includes an 18-cent tax.

Minutes of South Onslow School Board

April 25th, 1939

A meeting of South Onslow School Board held on above date at the usual place of meeting. Members present, J. H. Henderson, chairman, and a full Board of Commissioners.

On motion of Comr Amm the minutes of last meeting were confirmed as read.

On motion of Comr Young, the application of Florence Young as teacher for No. 1 School was accepted.

On motion of Comr. Burden, the following bills were ordered paid viz :—

S. W MacKechnie, work at No 1	$16.50
Hodgins' Lumber Co,	2.07
Quyon Hardware	3 98

On motion of Comr Young the meeting then adjourned

Grass Skirts in Hawaii

Grass skirts, ukuleles, pineapples—ask any American what they suggest, and he will certainly tell you "Hawaii." Ask him whether a native of Honolulu is an American citizen by birth and he may not be so sure of his answer. Yet grass skirts and ukuleles are acquisitions of Hawaii not much older than Hawaii itself as an acquisition of the United States of America; and even the pineapple seems to have been unknown on the islands until white men brought it there in the Eighteenth century.

"Salutation to the Dawn"

The "Salutation to the Dawn," anonymously written and ascribed to the Sanskrit, is as follows: "Look to this day, for it is life, the very life of life. In its brief course lie all the verities and realities of your existence: the bliss of growth, the glory of action, the splendor of beauty. For yesterday is but a dream, and tomorrow only a vision; but today, well-lived, makes every yesterday a dream of happiness, and every tomorrow a vision of hope. Look well, therefore, to this day."

Jade Precious to Chinese

Jade to the Chinese is what diamonds are to many Westerners. It is to them the most precious of precious stones. Centuries ago this stone, carved in the form of bats and storks, was worn to insure long life. It varies in color from deepest kingfisher blue to white. In China they gauge the value of jade not by its color but by its texture—the experts "feel" it.

● SERIAL STORY

HIT-RUN LOVE

BY MARGUERITE GAHAGAN

COPYRIGHT. 1939 NEA SERVICE, INC.

"That remains to be seen," Tom said quietly. "She told your attorney and me enough to make Church ask for a recess in which to get this mess straightened out. It's obvious that Miss McGraw wouldn't have gone this far if she didn't consider her evidence pretty important. I don't believe you understand what putting her on the stand is going to do to you," he added significantly.

Church nodded. "You're in a spot, Kent. I don't think you told me as much as you should have. It's best to be frank with your own attorney. Now you've placed me in an embarrassing position."

"That's how it is," Tom continued, "The sensible thing to do is stop bluffing. You aren't the first defendant we've had in here who thought he could bluff his way free. If you're at all smart you'll change your plea."

Deliberate Misrepresentation

Larry looked at Pat. "Well, you've every reason to be satisfied," he said. "I might have known, though. And to remember how you used to pretend you weren't interested in society, or important people. You used to try and make me think you would be satisfied with a little apartment and parties with your 'old gang.' You used to be amused when I'd even talk about the Hill crowd, er Dottie Barnes, or getting acquainted with big shots. I saw how things were shaping up, though, when Sweeney came over here to court. You knew he was going to run for prosecutor; you saw a chance to get in with someone who rates in this town. You thought that by pulling this today you'd get yourself a nice berth. Well, go ahead. I'm through—"

Pat's gaze never left his face. His words hit, made her ache with the cruelty of the deliberate misinterpretation.

"You know that's not true, Larry," she broke in desperately. "I begged you to tell the truth. You know I would have stood by you. It wasn't until I saw you meant to use Bill, and me, too, that my love for you died. If only you'd given me a chance to prove that I cared. But you didn't. As for any ambitions that I might have had here—well, that's over now, isn't it? What I did was because I couldn't live a lie any longer. I wasn't trying to put myself in a heroine's role. I wasn't trying to make anyone care—" her voice trailed off as Church interrupted.

"We aren't running a court for the lovelorn, Kent. You can settle the romance some place else. I'm not going to waste any more time on this case." Pat saw he was irritated. He took up his briefcase filled with papers and shuffled them angrily. "The girl has enough to put you in a bad spot. I advise you to come clean."

"Yes," Tom said, "I've sent the men from the A.I.B. out to check some facts. If Pat's right about where you were that afternoon you'll get tangled up worse and worse in your story. Better came clean."

After that Larry seemed to collapse. "Well, what should I do?" she heard him say.

Life Will Go On

Tom said something to Burke and the big officer came over to Pat. "Let's go in your office and let them finish up here," he told her, taking her out by the side door.

Alone in the privacy of her room she aimlessly fingered the papers on the desk, stared at the notes on her pad, tried to get her thoughts in order.

They would finish up. Larry would pay his price to society. Life would go on, but it would be empty, shorn of the glamor and romance that it had once worn. She touched the fading peonies that Tom had given her and that she had so carefully tended.

The petals fell, covering the desk with their color.

The door opened and she looked up. It was Tom. She turned her head, afraid for him to see her face. The silence was too long.

"The —the flowers are gone, too," she said tonelessly. They were words, spoken simply to fill the silence.

"There'll be others," he said. "And they'll be as sweet. Flowers fade, but there are some things in life that don't. Love doesn't fade; not real love, Pat. Not the kind I feel for you."

"How can you now, Tom? After I was so blind and weak."

"It wasn't blind or weak to do what you did. Don't think I'm not aware of what it took to make you call Kent's bluff. It wasn't easy to tell what you knew, particularly when it involved the man you cared for. But you had the strength of your convictions."

"The things Larry said weren't true, Tom. I mean about telling simply to further my own ambitions."

No Longer Empty

"I know, darling. You gave him his chance. He just didn't know know to play your honest game. Maybe this will set him straight for the rest of his life. I'll do what I can to get him off easy. If he makes restitution to the family, well—I think perhaps a light sentence and probation will be punishment enough. You see he's already lost you."

"He couldn't see things the way we do," she said.

"We do see life the same way, don't we?" Tom said gently. "That's why I need you. All our problems won't be solved so easily, but if we're together—"

The pressure of his hands on hers was strong and kind. The days ahead no longer seemed empty and meaningless. Even the petals on the old oak desk caught the sunlight from the window and recaptured the beauty of spring in their faded glory.

(THE END)

Bank Robber Backed Him

Joe Sandham never hoped to take a more extraordinary trip than that rear-seat gun-muzzle-directed drive he made for bank robber Ed, the Weasel. Nor was that the half of it with pretty Kelly Archer at his side. It all seemed like a dizzy dream—until Joe woke up. But then his story would wake anybody. Read

HOLDUP HONEYMOON

COMMENCING NEXT WEEK

Young Spring Print Dress

By LOUISE LENNOX

A delightfully simple little spring print ensemble, you'll cherish it all summer long. You can wear the youthful dress alone . . . the smart jacket with other frocks. Nothing will stretch your budget more than this jacket costume. The low price and the short space of time it will take you to make it, will amaze you. The pattern can be used for cotton frocks of chambray, dotted percale, pastel hopsacking, sheer prints, etc., with a matching or contrasting jacket . . or without a jacket.

Style No. 2626 is designed for sizes 12, 14, 16, 18, 20 years, 30, 32, 34, 36, 38 and 40-inches bust. Size 16 required 2⅞ yards of 39-inch material for dress; and 1⅛ yards of 39-inch material for jacket.

Send Fifteen Cents (15c). (coin is preferred), for pattern to Louise Lennox, Room 421, 73 West Adelaide St., Toronto. Write plainly your name, address and style number. Be sure to state size you wish.

Chintz Is Still Popular Choice

Small Checks And Medium-Sized Plaids Being Widely Used For Home Decoration.

NEW YORK.—In fabric fashions, chintz continues to be about the most effective material you can get. But for practicality, there are several other fabrics that are getting a rush—dust-tight twill, lustrous sateen and novelty weave cretonnes. All of these are offered in the same lovely patterns available in chintzes. Small checks and medium-sized plaids are widely used. Stripes are of great fashion importance, small ones, big ones, flowered ones. The scale of the floral fabrics is large this spring, sometimes over-scaled. In plain colors, you'll find a wide choice of chintzes and sateens along with many textural weaves . . . it is these unusual rough or stringy textures that the decorators like best.

Removing Stains

To remove candle grease scrape carefully with a blunt knife, then cover with blotting paper and iron over lightly with a warm iron. Repeat the process till the grease is all absorbed.

Oil—Remove with a dry cleaner. Another method is to cover with a paste of Fuller's earth, allow to dry, then brush off, repeating if necessary.

Ink—Soak up immediately with blotting paper, then treat with a cut lemon if it is a carpet. For a table cloth or something of a similar nature, soak in warm skim or sour milk, then wash in clean tepid water and dry. Obstinate stains on white material can be removed with a solution of salts of lemon.

Pretty Tagger Holds up "Bob" Manion

This combination of pretty girl and handsome dog proved irresistible to Conservative leader Manion during Toronto's recent Humane Society campaign.

A Daily Walk Keeps You Fit

Helps Reduce Weight And Adds Sparkle To Eyes

With the first chirp of the robin and the appearance of tiny buds on the branches, we all feel the urge to get outdoors and walk. Besides offering pleasant diversion, early morning walks prove a fine beauty aid.

Many girls have cultivated the daily morning walk as a means of keeping fit. There is something about early morning exercise that regulates the momentum for the whole day.

When we awake in the morning, it usually means we have had enough sleep. There is a clean, healthy feeling of buoyancy in getting out of bed when we wake up. The muscles and brain are ready for activity. They will be at their best in the first hours of morning, especially if we can get outdoors and stimulate the circulation with some brisk physical exercise which will refresh us.

Now that spring is here and we are not so likely to be greeted with a whirling blizzard or penetrating blasts of wind, it is a good time to cultivate this habit, if you haven't already. This early morning activity has a moralizing effect on everyone. It will do wonders in helping to reduce those who are fat and it will add weight to those who are underweight. Besides, there will be added sparkle to the eyes and a healthful glow radiated in the complexion.

Corinth Canal in Greece, which was closed in December because of cracks in the rocks through which it was cut, is to be made much wider, so that large merchant vessels may pass through from the Gulf of Corinth and the Gulf of Aegina.

MEN LOVE GIRLS WITH PEP

If you are peppy and full of fun, men will invite you to dances and parties.

BUT if you are cross, listless and tired, men won't be interested. Men don't like "quiet" girls. When they go to parties they want girls along who are full of pep.

So in case you need a good general system tonic, remember for 3 generations one woman has told another how to go "smiling thru" with Lydia E. Pinkham's Vegetable Compound. It helps build up more physical resistance and thus aids in giving you more pep and lessens distress from female functional disorders.

You'll find Pinkham's Compound WELL WORTH TRYING!

Beauty for YOU

The Secrets of Good Looks

by

Barbara Lynn

FACE UP TO SPRING!

After our long winter, with over-heated houses and stuffy atmosphere, our faces need rejuvenating. Here are a few timely hints to help you freshen up your skin and give it a petal-like smoothness.

The first essential is to keep the skin immaculately clean. Wash with gentle Palmolive soap to cleanse and smooth the skin, then rinse with cold water.

The face and neck should be creamed daily. Never stretch the skin, because stretching paves the way for wrinkles. Pat the cream gently over the skin with the finger-tips.

Incidentally, there is a delightful new three-purpose cream that is very good. It cleanses thoroughly; then it acts as a foundation cream, and finally it is a tissue cream.

Use this cream, and leave it on over-night, unless you have an oily skin.

The third vital step in our Spring-time beautifying treatment is to have a face mask once a week. Here is another excellent face mask to add to those I've given in recent articles: take two tablespoonfuls of cooked oatmeal, four tablespoonfuls of glycerine and two tablespoonfuls of rose water. Mix these to a thin paste, then apply to the face and neck evenly with an up-and-out stroke. Allow the mask to harden, and when thoroughly dry, rinse it off with tepid water.

Write to me about your personal beauty problems. And detailed leaflets on the following subjects are available for a 3c stamp each: Face, eyes, hair, hands, bust, feet. reducing in spots, slimming, superfluous hair, underweight.

Please write direct to: Miss Barbara Lynn, 73 West Adelaide St., Room 421, Toronto, Ont.

Quality Gives Flavour

"SALADA" TEA

Household Science

KATHERINE BAKER

Even the vegetables we like best become tiresome if served the same way all the time. Children find this especially so and most homes are familiar with the rebellion against vegetables. It may not be entirely the fault of the child—he may just be sick and tired of eating the same thing over and over again. Though our vegetables are limited, the ways in which they can be served are not. Here is a new get-up for cauliflower and a recipe for a medley of vegetables.

—o—

CAULIFLOWER AU GRATIN

1 small cauliflower (in flowerets)
2 tablespoons quick-cooking tapioca
¾ teaspoon salt
⅛ teaspoon paprika
2 cups milk
1 cup grated Canadian cheese
1 cup bread crumbs, buttered

Cook cauliflower in boiling, salted water 12 minutes, or until tender; drain and place in 6 small or 1 large greased baking dish. Combine quick-cooking tapioca, salt, paprika, and milk in top of double boiler. Place over rapidly boiling water and cook 8 to 10 minutes after water boils again, stirring frequently. Remove from boiling water; add cheese and stir until melted. Pour over hot cauliflower; cover with crumbs and bake in moderate oven (350°F.) 20 minutes. Serves 6.

—o—

MEDLEY OF VEGETABLES

1½ cups sliced onions
2 cups celery, cut in strips
1½ cups carrots, cut in strips
2 cups string beans, cut in strips
¾ cup green peppers, cut in strips
1½ cups mushrooms, sliced lengthwise
4 tablespoons butter
2 cups canned tomatoes
3 tablespoons quick-cooking tapioca
2½ teaspoons salt
¼ teaspoon pepper

Cut vegetables in strips, ¼x1¼ inches. Melt butter in saucepan; add onions, celery, carrots, string beans, and green peppers, and cook 10 minutes, stirring frequently. Add tomatoes and mushrooms and cook slowly 20 to 30 minutes, or until vegetables are tender; then add quick-cooking tapioca, salt, and pepper. Cook 5 minutes, stirring occasionally. Serves 6.

Right In Style

Sam Simonson, who has been an umbrella repairman for 42 years, applied for his annual peddler's license and was reminded by Detective Edward FitzGerald that last year he said he was going to retire.

"I can't retire now," the 74-year-old umbrella man said. "It's that fellow in England—Chamberlain. He's made everybody umbrella-conscious. Business is booming."

Stomach Distress?

IF you are troubled with stomach distress, gas or indigestion, you may require Dr. Pierce's Golden Medical Discovery. This tonic tends to improve the digestion, increases the appetite, and as a result you soon feel more vigorous. Mrs. Marjorie Beatty, 463 E. Main St., Welland, Ont., says: "I suffered considerably from indigestion and gas and my food lay so heavy in my stomach. I would become bloated too and felt very uncomfortable after eating. I used Dr. Pierce's Golden Medical Discovery and it gave me fine relief from the stomach distress. I felt ever so much better." Buy it in liquid or tablets at your drug store today.

Quints Expect No Toothaches

Four Dentists Report They All Have Perfect Teeth

Four doctors from the Ontario Dental College examined the teeth of the Dionne Quintuplets last month and reported to Dr. A. R. Defoe, their personal physician, that the molars of Yvonne, Annette, Marie, Emilie and Cecile remain perfect.

"The Toronto dental experts come up to give the teeth of the girls a complete check-up and to see that they at the hospital are doing a good job," Dr. Dafoe said after the examination.

He said the examination showed the girls' teeth were without cavities and were stainless, and remarked it was "most unusual" for children nearing their fifth birthday to have such faultless teeth.

Making the examination were Dr. Arnold Mason, dean of the college; Dr. C. A. Corrigan, chief of staff; Dr. Allan R. McCay, of Melbourne, Australia, and Dr. J. Benson, Sydney, Australia.

Please Pass The Spinach

Green Luncheons Are The Thing For Streamline Figures

Please pass the spinach-parsley juice cocktails, a deep green of hue, very healthful, and the uncooked vegetable plate after a cup of "potassium broth"—a combination of fruit juices being served in New York.

Away with your planked steaks ringed with sizzling potatoes, and your creamed chicken patty followed by a nice big butterscotch sundae.

The girls are going back to the garden for luncheon.

What do they eat? Fresh beet greens, grated carrots. Big salads. Celery. Plates of assorted fruit and maybe peppermint tea.

A number of the girls say they aren't interested in losing weight, and eat celery stalks, raw greens and carrots because they like them. Several said, "good for the skin, and one murmured "vitality".

Look for the double EE symbol on each package

Sunday School Lesson . .

LESSON V
PAUL CROSSES INTO EUROPE
Acts 15:36—17:15
Printed Text, Acts 15:36; 16:4-15

Golden Text.—When he had seen the vision, straightway we sought to go forth into Macedonia. Acts 16:10.

THE LESSON IN ITS SETTING.

Time.—A.D. 50 and 51.

Place.—Paul sets out for his second missionary journey from Antioch in Syria. Cilicia is the province located directly north and west of Syria. Derbe and Lystra were cities of Lycaonia, located on the great highway leading to Antioch in Picidia. Phrygia was a province in the central part of western Asia Minor. Troas was a city of Mysia on the eastern side of the Aegean Sea, opposite Macedonia. Macedonia was the ancient name for the northern part of the Greek peninsula in the northeastern part of which, about ten miles from the coast, was the city of Philippi. Thessalonica was also in northern Greece on the Gulf of Salonika; Beroea was forty miles inland from Tessalonica; Athens was in the southern part of Greece.

36. And after some days Paul said unto Barnabas, Let us return now and visit the brethren in every city wherein we proclaimed the word of the Lord, and see how they fare. Paul's heart was burning with the desire to visit again the churches which the Lord enabled him to plant in that vast Gentile territory beginning at Syria and extending north and west into the thickly populated area of Asia Minor.

It was the parental longing to see his spiritual children which was drawing him; but God had far more extensive designs, which opened up before him as he went forward.

A Companion and Helper

A new person enters upon the staff of apostolic missionary activities, namely, Timothy, who was the son of a Jewish-Christian mother. The mother's name was Eunice (2 Tim. 1:5), and the grandmother's Lois. Timothy, we find, was St. Paul's messenger to that church, and he is joined with that apostle in the greeting of Second Corinthians.

As soon as Paul saw into what kind of young Christian Timothy had grown, his heart went out to him, and he knew he had found a companion and helper for life.

4. And as they went on their way through the cities, they delivered them the decrees to keep which had been ordained of the apostles and elders that were at Jerusalem. 5. So the churches were strengthened in the faith, and increased in number daily.

Christianity in Europe

6. And they went through the region of Phrygia and Galatia, having been forbidden of the Holy Spirit to speak the word in Asia; 7. and when they were come over against Mysia, they assayed to go into Bithynia; and the Spirit of Jesus suffered them not; 8. and passing by Mysia, they came down to Troas.

9. And a vision appeared to Paul in the night: There was a man of Macedonia standing, beseeching him, and saying, Come over into Macedonia and help us. The man stood for more than his own nation. It was the cry of the Elropean worldfi the expression of of the deep unrest felt at this time by all hearts that had risen above gross pleasures and the babel of an immortal heathenism. This is in many respects the most important paragraph in the book of Acts.

10. And when he had seen the vision straightway we sought to go forth into Macedonia, concluding that God had called us to preach the gospel unto them. 11. Setting sail therefore from Troas, we made a straight course to Samothrace, and the day following to Neapolis. When these four men went down to the quay of Troas to look for a vessel, how little the world thought, how little they themselves knew, what history they were making! Probably in Paul's mind the passage to Europe was but one of many journeys. Yet it was one of the turning-points of history, the challenge of Christianity to Western civilization to accept the rule of Christ.

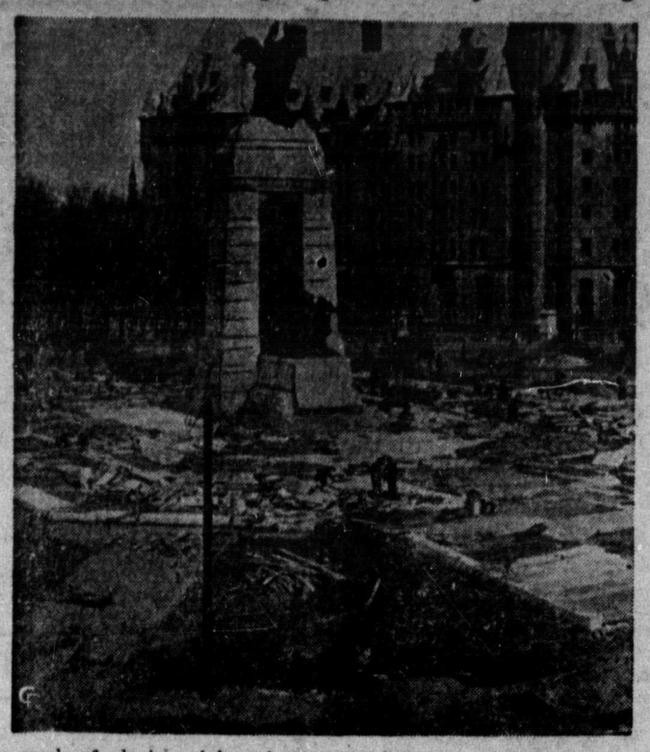

12. And from thence to Philippi, which is a city of Macedonia, the first of the district, a Roman colony: and we were in this city tarrying certain days. 13. And on the sabbath day we went forth without the gate by a river side, where we supposed there was a place of prayer; and we sat down, and spake unto the women that were come together. 14. And a certain woman named Lydia, a seller of purple, of the city of Thyatira, one that worshipped God, heard us: whose heart the Lord opened to give heed unto the things which were spoken by Paul.

15. And when she was baptized, and her household, she besought us, saying, If ye have judged me to be faithful to the Lord, come into my house, and abide there And she constrained us.

The First Convert

Thus the first convert in Europe was a woman, and the first Christian service held on European soil brought forth definite results in immediate conversions. The change which passed upon Lydia prefigured what woman in Europe was to become under the influence of Christianity.

War Memorial Being Prepared for Royal Unveiling

The work of placing pink and grey granite blocks for the promenade around Canada's National War Memorial in Ottawa is being rushed and will be completed in time for the unveiling of the memorial by King George next month.

Urges Return To Simplicity

Primitive Style Of Living Would Benefit Victims Of Today's Rush And Worry—Cut Down On Insanity.

We are living in a "civilized madhouse" which is sending as many people to mental institutions as it is graduating from college, says Dr. Jay B. Nash, of New York University.

Men and women are "going to pieces" in increasing numbers, he asserted, because their bodies have been catapulted 1,000,000 years ahead of their nervous systems and because of the social and economic uncertainties of the modern age.

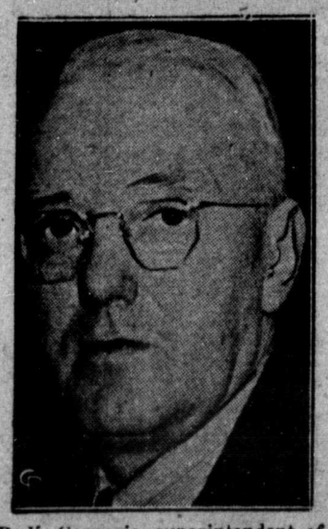

"One can imagine the average person saying, 'My job is insecure, I'm back in my rent. Susie has infected adenoids, Johnny needs glasses. I'm not saving anything for old age or sickness. The boss is constantly after me to speed up .... but I must not worry; I must be calm, relax, recreate'."

"Few men kill themselves from overwork .... Over-worry, over-rush, over-drink, over-eat, under-sleep are the killers. ...

"The antidote can be supplied only by resorting, at least to a degree, the simplicity of primitive living. This ... will mean building new cities where men may live more quietly and happily. ....

"It will mean some plan of social security so as to remove the nightmare of sickness, unemployment and old-age insecurity".

To Cover Royal Crossing

R. K. Carnegie, superintendent of the Canadian Press' Ottawa bureau, will be the only newspaperman from Canada aboard H.M.S. Repulse, which will bring the King and Queen to Canada in May. Mr. Carnegie has just sailed for London to join the royal party.

How Can I?

BY ANNE ASHLEY

Q.—How can I treat the sewing machine which has seen years of hard service and seems ready to be discarded?

A.—Take off the head and boil it for about an hour in strong suds. This will clean it of all the old hardened oil and grease. Dry it, replace it, oil it thoroughly, and see if it does not show a hundred per cent. improvement.

Q.—How can I clean mica in the door of the kitchen range?

A.—The mica can be easily cleaned by rubbing it with a soft flannel cloth, dipped in equal parts of vinegar and cold water.

Q.—How can I prepare a good watercress salad?

A.—Serve the watercress with French dressing, made tart with lemon, and sprinkled with Roquefort cheese.

Q.—How can I dry my hair more quickly after washing?

A.—Try this method: Light the oven, turn the gas low, lower the oven door, and then place the electric fan on the lowered door. The warmed air will quickly dry the hair.

Q.—How can I keep water warm when there is no hot water heater in the house?

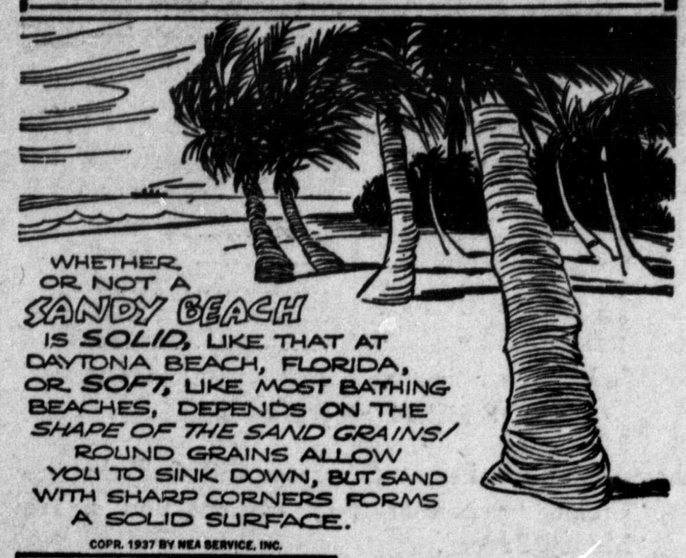

A.—Try keeping the tea kettle on the pilot light of the gas range at all times when not in active use. It will keep the water warm, and the job of boiling it will not be a lengthy one.

Fred Waller, 18, a London school boy, has found how to be honored in his own country. He and a schoolmate pretended to be French tourists in London and were "never before treated with so much respect."

Making Chickens Grow

Growing chickens need some form of vitamin A to make satisfavtory growth. Birds allowed to range about the farm during the growing season usually pick up sufficient quantities of green feed, but birds confined should have some feed that is rich in vitamin A. Alfalfa-leaf meal is one of the most economical sources of vitamin A, when all feeds must be purchased ,and may serve as the sole source of this vitamin.

THIS CURIOUS WORLD By William Ferguson

CURIOUSLY, Christ actually was born several years B. C., "before the birth of Christ." This paradox is the result of an error made in connecting the birth of Christ with the disputed date of a victory of Emperor Augustus.

RADIO NOTES AND NEWS

MADGE ARCHER

It is also announced that H. V. Kaltenborn, the famous commentator, will be heard regularly over the Columbia Network every Sunday and Tuesday evenings at 10.30 p.m., E.S.T., beginning Apr. 30.

NEW FARM PROGRAMS

The Canadian Broadcasting Corporation has revised its daily Ontario farm programme. A full half-hour broadcast is now heard from 12.15 until 12.45 p.m., E.S.T., from CBL, Toronto. This program is specially designed for the farming community in the Ontario region and concentrates on markets and market trends. It has an added feature a daily dramatic sketch of interest to rural listeners. Local agricultural news is supplemented by news supplied by the Canadian Press dealing with Ontario and the other provinces. Weather reports are stressed to aid fruit farmers in view of the approach of the fruit season.

THE ROYAL VISIT

Two events of the utmost significance will play a big role on the radio networks of the North American continent during the coming month. Of first importance, of course, is the visit of Their Majesties, the King and Queen.

CBC will begin a broadcast account of the Royal visit while Their Majesties are actually entering Canadian waters aboard H. M.S. "Repulse." Microphones will follow the Royal party step by step during the tour so that a continuous sound picture of one of the greatest events in modern times shall reach every Canadian home from coast to coast.

The climax of the trip will be reached on May 24, in Winnipeg, where radio homage will be rendered the King from British subjects all over the earth to be followed immediately by the King's reply. During the four days the Royal party is on United States soil, the American networks will take over the task of the CBC with whom they are working in closest co-operation.

The World's Fair

President Roosevelt and other members of the United States Government will broadcast over all networks on Sunday, April 30, beginning at 2.30 p.m. in ceremonies connected with the opening of the New York World's Fair. The broadcast will last the better part of an hour.

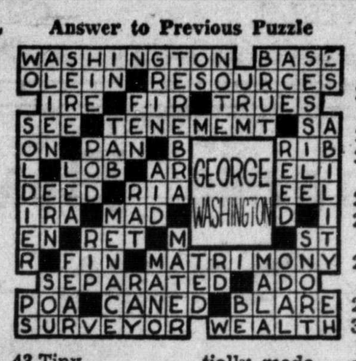

TO BE HEARD . . . April 28, 8.30 p.m. CBC, CBL—Miss Trent's Children . . . 9 p.m. CBS, CFRB—Orsen Welles. . . 10 p.m., CBC CBL . . . Brian Meredith commenting from England . . . Annual Meeting Clarendon Dairy Company Friday Evening, May 5th

A special general meeting of the Shareholders and Patrons of Clarendon Dairy Company will be held at Stark's Corners on Friday evening, May 5th, at 8.00 p.m. All those interested in cheese making are requested to attend.

L. A. SMART,
President.

Shawville Pentecostal Church

We are eagerly looking forward to the visit with us on Sunday and Monday, May 7 and 8 of Miss Ruth Le Pers, Missionary jtst arrived home on furlough from Liberia, West Africa.

Miss Le Pers will have a lantern with her and will show stereopticon news of the Liberian Missionfield where she has been labouring.

As the Bristol Ridge Assembly have not the facilities in their church for showing slides, we are planing on having them join with us here at Shawville. Remember the dates Sunday and Monday, May 7 and 8.

GEO. E. DRANS, Pastor.

Early Reference to Compass

The magnetic compass, friend of navigators when Columbus discovered America, was known at least as long ago as the Twelfth or Thirteenth century, says Nikola Tesla, noted physicist. He has a definite allusion to it in a poem by Guyot de Provins, a medieval French writer. Tesla disagrees with the conclusion of the Berlin geographer, Heinrich Winter, that the compass was first used by Norse sea-wanderers. He considers it more probable that the instrument was invented by either Chinese or Arabs.

Great Herbal Emetic

The great herbal emetic comes from ipecac, a tropical plant. The great herbal pain-killer is morphine, a derivative of the opium poppy; this is not grown in the United States. The herbal fever-fighter is quinine, from the cinchona tree which grows in Brazil and Asia. Of medically valuable plants, the United States has extremely few. Perhaps the two best known are cascara sagrada bark from the Pacific coast and the leaves and bark of the common mayapple plant, which are used in the preparation of laxatives.

PERMANENT WAVING

Will be done in Shawville 5 cts to $1.00 Store, every second Thursday commencing next week, May 11th. Make appointments at store.

Prices, $1.50, $2 50 and $5.50
Machineless, $3.50 up.

Betta, Siamese Sea Fish, Builds Nest of Bubbles

Betta, fighting denizen of the Siamese sea, is a strange fish and the strangest thing about him is his love life, writes Brian Curtis in "The Life Story of the Fish," published by Appleton-Century.

When Betta is in a romantic mood, he builds a gorgeous bubble castle. This he accomplishes by going to the surface, breathing in air, retiring to a chosen spot, and there releasing little bubbles, one after the other, each covered with a sticky substance from his mouth which prevents it from bursting and makes it adhere to the others. This process he repeats until he has a dome of bubbles from one to two inches in diameter and protruding as much as a half an inch above the surface of the water.

Betta then takes his post under the nest and attacks all intruders until a mate of his choice appears. Eventually he drives her out and she is at liberty to continue on her carefree way. But not so the male Betta; his task has just begun. He remains in his nest making such repairs as necessary and returning to their place such eggs as fall out, until the young are hatched. For several days thereafter he remains the perfact papa, until suddenly he wearies of the whole idea, turns cannibal and tosses off those of his offspring who are not fortunate enough to escape his menacing jaws.

Word "Thrums" Technical Term, Authority Asserts

Sir James Barrie carved Thrums ("A Window in Thrums") out of Kirriemuir—the old weaving town in Scotland where he was born. But why "Thrums?" The answer is given by James A. Roy, a native Kirriemarian, in "J. M. Barrie: An Appreciation."

"The word is simply the local technical term for threads, a bunch of which hung on every loom in the old weaving days," said Professor Roy. "These thrums were the ends of warp, saved from previous webs, or furnished with the new, to mend the broken threads of the growing fabric."

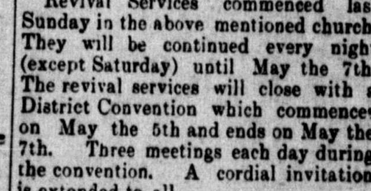

And just as Thrums was only a portion of Kirriemuir, so were the Auld Lichts ("Auld Licht Idylls"), about whom Barrie writes, only a section of the community, Professor Roy explains. "All Auld Lichts were not weavers and all weavers were not Auld Lichts," he says. "In Barrie's Thrums there were just as many religious denominations as there are in the town today—if not more. Barrie himself was brought up in the Free church, and very possibly was never inside the door of the Auld Licht kirk, which he has immortalized. Religious differences in those days were too acute to permit of wandering from one church to another.

"Barrie left Kirriemuir when he was ten years old, and being the son of David Barrie, it is unlikely that he ever saw the inside of any church in Kirriemuir except his own—the South Free. It was through his mother that he knew the Auld Lichts and their religious views. Margaret Ogilvy was brought up in the Auld Licht kirk, which she continued to attend until her marriage to David Barrie. She took her memories with her and handed them on to her son."

Holiness Movement Revival Services

Revival Services commenced last Sunday in the above mentioned church. They will be continued every night (except Saturday) until May the 7th. The revival services will close with a District Convention which commences on May the 5th and ends on May the 7th. Three meetings each day during the convention. A cordial invitation is extended to all.

The McDonald sisters will sing at the evening services.

R. BOSTON, PASTOR

1ST IN ACCELERATION IN HILL CLIMBING IN SALES!

Illustrated—Chevrolet Master De Luxe Sedan with trunk.

YOU'LL get the thrill of your life out of this traveller! You'll know you're riding the winner the instant you feel the surging power of its Valve-in-Head Engine! And you'll have conclusive *proof* of this fact when you watch Chevrolet take the lead in moving traffic!

It's the *fastest-accelerating* car in its price range—much nimbler than other low-priced cars! • It's the most *powerful hill-climber*, too—much better on the grades than any other car of its price! • It's the *liveliest* of all low-priced cars—first in acceleration, first in hill-climbing, first in all-round performance with economy—and it is also *first in sales!*

Be a "leader" this summer. Know the thrill of being out in front in getaway and on the hills. Own the car combining "all that's best at lowest cost"—the safe car, the spirited car, the sales-leading car—the new 1939 *Chevrolet!*

Low monthly payments on the General Motors Instalment Plan.

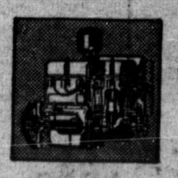

ADVANCED KNEE-ACTION RIDING SYSTEM
Frictionless Coil Springs; Double-Acting Shock Absorbers; Ride Stabilizer; Shockproof Dual Cross Steering.

STEERING COLUMN GEAR-SHIFT
"Vacuum assist" supplies 80% of shifting effort. Simple, positive design. Only $13 extra.

NEW AERO-STREAM STYLING BODIES BY FISHER
Long, low and roomy . . . improved No-Draft Ventilation . . . all-steel Body by Fisher with "Observation Car" visibility.

CHEVROLET'S FAMOUS VALVE-IN-HEAD SIX
Valve-in-head engines have made all world records—on land—on water—and in the air.

PERFECTED (Quadro-Action) HYDRAULIC BRAKES
Maximum effect with minimum pedal pressure . . . Emergency Brake Lever under the cowl at driver's left.

The only low-priced car combining "ALL THAT'S BEST AT LOWEST COST!"

Shakespeare's Birthplace Was Simple Gabled House

The quaint little village of Stratford-on-Avon in England is closely linked with events which took place there many years ago—the birth, life and death of William Shakespeare.

The most revered building in the village, writes Leslie Hartley in the Washington Star, is the simple gabled wooden house on Henley street in which the "Bard of Avon" was born in 1564—on April 23, many historians say. This house, which belongs to the British government, is restored to its original state and the ground floor is used as a museum and library. Narrow, dark stairs lead to the little room on the second floor where the poet was born.

Shakespeare was a lover of nature and flowers, and in a garden beneath the windows of his room are grown many of the flowers mentioned in his plays, such as "rosemary for remembrance, pansies for thoughts."

Many other buildings in the village are restored so that they look as Shakespeare knew them. And his remains rest under the altar of Trinity church, where he worshiped, with the following epitaph to mark the spot:

"Good frend for Jesus sake forbeare,
To digg the dust encloased heare,
Blese be ye man yt spares thes stones,
And cursed be he yt moves my bones."

A bronze statue of Shakespeare in the gallery of the reading room of the library of congress was cast in Paris in 1895 and shipped to the United States. It is by Frederick MacMonnies, sculptor.

Synthetic Jewels Can Be Worn Without Detection

"Fissure lines" are present in all rubies and always run straight. The lines are curved in synthetic rubies. That is the only difference between a real and an imitation stone, according to a writer in London Answers Magazine.

Faked emeralds are perhaps the most brilliant example of the synthetic jeweler's art. A piece of colored crystal is carefully overlaid with a layer of genuine emerald, by means of fusing.

If a jeweler lays this dud stone under the "refractometer," which measures the angles of light reflected from its facets, the "emerald" will pass his test. The stone must be removed from its setting before it is possible to discover the fake.

The cultured pearl would easily deceive but not so the expert; he would look for the small blister that always appears in them. When strung, a hole is bored through the blister. Even then, however, its presence can be discerned by the trained eye.

Generally speaking, it is the cutting and setting of synthetic gems that give them away. A lady who is prepared to pay for expert workmanship in this respect can wear synthetic jewelry without much fear of its being detected.
