JOHN GIBSON'S

STEAM PLANING, SAWING & WOOD MOULDING MILL,

AND MANUFACTORY OF

WOODWORTH'S PATENT PLANING MACHINES,

AND

CROSBY'S PATENT RE-SAWING MACHINES,

Coner of Water and Spencer Streets, and on the Dock,

ALBANY, N. Y.

PLANING of every description and Re-Sawing with Circular and Vertical Saws done in the best manner, and all Orders attended to with promptness and despatch. A general assortment of all kinds of **DRESSED LUMBER, WOOD-MOULDINGS AND PICKETS** constantly on hand.

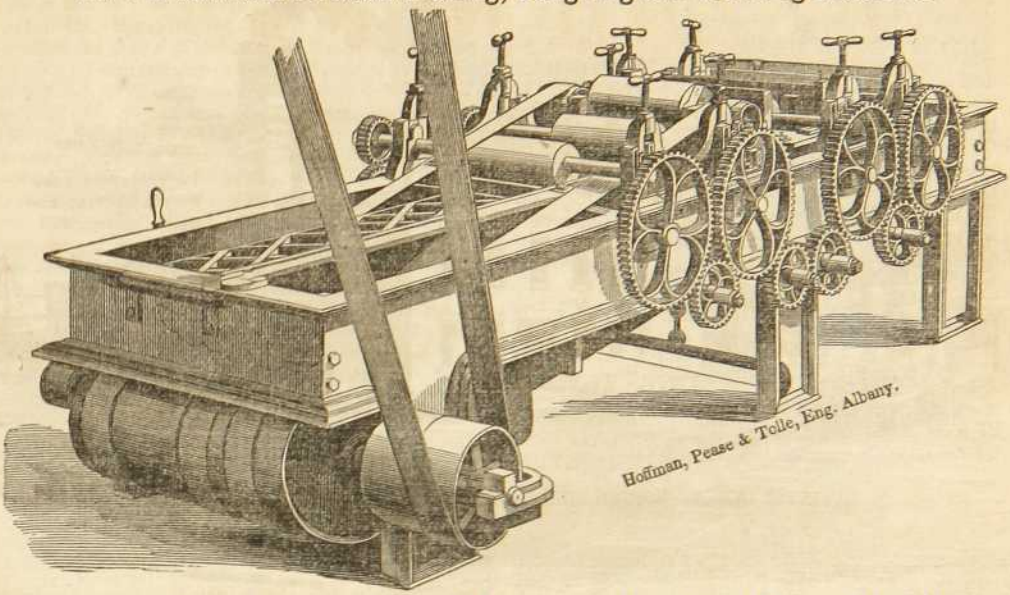
I also manufacture, and have constantly on hand for Sale, **PLANING, TONGUING and GROOVING MACHINES, and SURFACE PLANING MACHINES** of the justly celebrated **WOODWORTH PATENT,** from $150 to $1,500, and **CROSBY'S PATENT, VERTICAL and CIRCULAR RE-SAWING MACHINES,** from $300 to $550.

Having had twenty-five years' experience in the Use and Manufacture of the **Woodworth Planing Machines,** will furnish them of a quality unequalled by any other manufacturer.

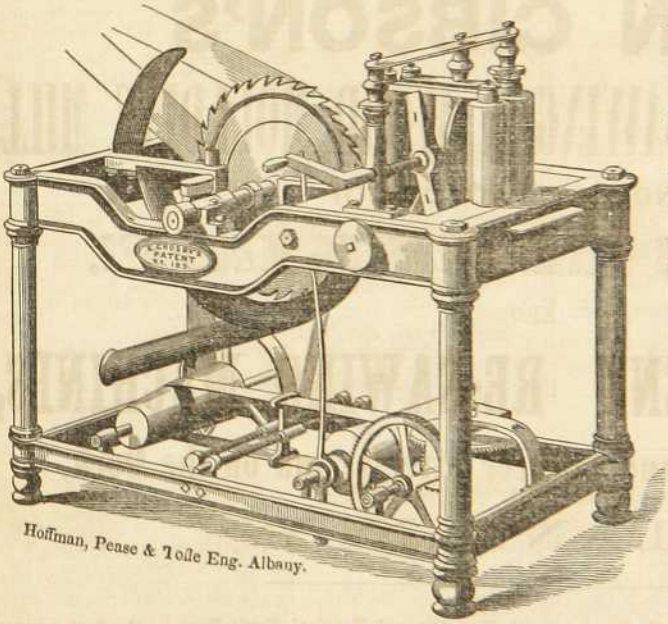
Some of my Machines may be seen in constant operation in the *Planing Mills at Ogdensburgh, Syracuse, Oswego, Niagara Falls, Dunkirk, Montreal, Kingston,* and in almost every City and Town in the United States.

The separate parts of the Planing Machine, namely:—PLANING KNIVES, SIDE-TOOLS, GUNMETAL SIDE CUTTER HEADS, CYLINDERS, &c., on hand and furnished at short notice.

No. 1 Woodworth's Patent Planing, Tonguing and Grooving Machines.



CROSBY'S PATENT CIRCULAR AND VERTICAL RE-SAWING MACHINES.



(Under the Two Letters Patent, of the United States, one granted 8th April, 1851, and which will expire 8th April, 1865, relating to Circular Saws only; and one re-issued 28th April, 1857, and which will expire 3rd November, 1862, relating to both Circular and Up-right Re-Sawing Machines.)

The Subscriber is prepared to **SELL RIGHTS** to use these Unrivalled Machines in all the unoccupied Territory in New York State, and Northern Pennsylvania, and to furnish the Public with these Machines.

Having had ten years' experience in the Use and Manufacture of these Machines, I feel confident that the public appreciate them as the only Machines worthy of the name of a **RE-SAWING MACHINE.**

They are simple in construction, very efficient in operation, and not liable to get out of repair.

One of the **Small Circular Re-Sawing Machines**, embracing the improvements secured by both Patents, (like the above Engraving) now in operation in my Mill at Albany, has

SAWED 3400 CLAPBOARDS, 13 FEET LONG, IN TEN HOURS.

Larger Machines will do more in proportion.

I have also a **Vertical Re-sawing Machine**, embracing the improvements secured by the said Re-issued Letters Patent, in use in my Mill at Albany, which will **saw 30 inches wide, and as thin as one-eighth of an inch, and saw 7000 feet in ten hours.**

CIRCULARS OF PRICES FURNISHED ON APPLICATION.

JOHN GIBSON,
Planing Mills, Albany, N. Y.

Albany, N. Y., October, 1857.

BOSTON, U. S.—The Capital of Massachusetts, and the second commercial City in the United States, is situated principally on a peninsula at the head or western extremity of Massachusetts Bay. It consists of three parts,—Old Boston, on the peninsula; South Boston, on the south side of the harbor; and East Boston, built within the last fifteen years, situated on an island, and communicating with Old Boston by a steam ferry. Boston is attached to the mainland by a wide, handsome natural avenue or isthmus, called the Neck, and by six bridges. The harbor, though having a narrow, difficult entrance, is one of the best in the United States: it has an area of seventy-five square miles, and can give safe accommodation to five hundred large vessels. The tonnage in the year 1840 amounted to 220,243 tons, and has since increased very considerably. The long-voyage trade is largely in the hands of the Boston merchants: out of 175 ships arrived in the United States in 1854 from beyond the Cape of Good Hope, 105 came to this port; of 54 arrived in New York, 14 from China were owned in Boston; while of 76 vessels which arrived in the States from Calcutta, 66 came to Boston. The City is well situated for trade, and is a place of great commerce and opulence. It is one of the principal seats of the American fisheries, and has an immense trade with the West and South. Its imports principally consist of woollen, cotton, linen, and silk manufactures, sugar, coffee, indigo, hemp, and iron; and its exports of fish, fish oils, salted meat, flour, soap, candles, and ice,—the latter having recently become an important branch of trade, amounting to about 200,000 tons annually; while such is its trade in boots and shoes for the United States, that it is estimated more are sold here than in any other city in the world; and the commerce in dry goods is twenty-fold greater than it was ten years ago. The newer parts of Boston are handsomely constructed. There are several fine public buildings, and the wharves are of great extent and very commodious. The Common and Western Avenue deserve attention. The former has an area of about fifty acres; the latter is seven thousand feet long, and is a solid granite structure, leading from the old peninsula, through the Back Bay, to Brookline, Roxbury, and Brighton. The City possesses extensive public libraries, including that of Harvard University. Boston has fortnightly communication with Liverpool in England by superior steam vessels, and has also steam communication with the principal Atlantic ports of the United States. Sailing vessels are constantly leaving for nearly all the ports of the world. Distant from Quebec 423 miles, from Montreal 334 miles, and from Toronto 540 miles. Population in 1854, 178,000.

☞ G. & L. would call attention to their extensive list of publications, embracing valuable works in THEOLOGY, SCIENCE LITTERATURE AND ART, TEXT BOOKS FOR SCHOOLS AND COLLEGES, and MISCELLANEOUS, etc., in large variety, the production of some of the ablest writers and most scientific men of the age, among which will be found those of Chambers, Hugh Miller, Agassiz, Gould, Guyot, Marcou, Dr. Harris, Dr. Wayland, Dr. Williams, Dr. Ripley, Dr. Kitto, Dr. Krummacher, Bayne, Dr. Tweedie, Dr. Choules, Dr. Sprague, Newcomb, Banvard, "Waltee Aimwell," Bungener, Miall, Archdeacon Hare, and others of like standing and popularity, and to this list they are constantly adding. Among their late publications, are the following, viz:—

Knowledge is Power. A View of the Productive Forces of Modern Society, and the Results of Labor, Capital and Skill. By KNIGHT. Numerous Illustrations. American Edition. Revised, with Additions. 12mo, cloth, $1.25.

☞ This is emphatically a book for the people. It contains an immense amount of important information, which everybody ought to possess.

Chambers' Cyclopædia of English Literature. The choicest productions of English Authors, from the earliest to the present time. Connected by a Critical and Biographical History. Two octavo vols. of 700 pages each, with upwards of 300 elegant Illustrations. Embossed cloth, $5.

Let the reader open where he will, he cannot fail to find matter for profit and delight. The selections are gems,—infinite riches in a little room; in the language of another, "*A whole English Library fused into one Cheap Book!*"

Chambers' Home Book; or, Pocket Miscellany. Containing a Choice Selection of Interesting and Instructive reading, for the Old and Young. Six volumes, 16mo, cloth, $3.

This is considered fully equal, and in some respects superior, to either of the Chambers' other works.

Cyclopædia of Anecdotes of Literature and the Fine Arts. A Choice Selection of Anecdotes of the various forms of Literature, of the Arts, of Architecture, Engravings, Music, Poetry, Painting and Sculpture, and of the most celebrated Literary Characters and Artists of different Countries and Ages, etc. By KAZLITT ARVINE, A.M. With numerous Illustrations. 725 pages, octavo, cloth, $3.

The choicest collection of anecdotes ever published. It contains 3040 anecdotes, 350 fine illustrations, and such is the wonderful variety, that it will be found an almost inexhaustible fund of interest for every class of readers.

Kitto's Popular Cyclopædia of Biblical Literature. Condensed from the larger work. By the Author, JOHN KITTO, D.D. With over 500 Illustrations. One volume octavo, 812 pages. Cloth, $3.

Intended for ministers and theological students, for parents, Sabbath-school teachers, and the great body of the religious public.

Thesaurus of English Words and Phrases. So classified and arranged as to facilitate the expression of ideas, and assist in literary composition. New and improved edition. By PETER MARK ROGET. Revised and Edited, with a list of Foreign Words defined in English, and other additions, by BARNAS SEARS, D.D., President of Brown University. 12mo, cloth, $1.50.

WAIT AND GET THE BEST!

WORCESTER'S ROYAL QUARTO DICTIONARY.

We have the pleasure to inform the public that we have commenced electrotyping **A ROYAL QUARTO DICTIONARY**, by J. E. WORCESTER, LL.D., and hope to complete the work during the present year. The book will contain about sixteen hundred pages, and will be beautifully illustrated.

WORCESTER'S SERIES OF DICTIONARIES, CONSISTING OF,—

I. Worcester's Universal and Critical Dictionary.
II. Worcester's Academic Dictionary.
III. Worcester's Comprehensive Dictionary.
IV. Worcester's Elementary Dictionary.
V. Worcester's Primary Dictionary.

To show in what estimation these books are held, it will be proper to state that they have recently been introduced into the Public Schools of Boston, Cambridge, New York, Baltimore, Washington, D. C., New Orleans, St. Louis, Chicago, Buffalo, Rochester, and many other places in which the Schools are in the highest state of excellence. In addition to this testimony, recent letters of commendation have been received from Messrs. Everett, Prescott, Irving, Bancroft, and other eminent writers whose practice is known to be in conformity with their expressed opinions. Horace Mann expressly says:—"In all my writing, speaking, and teaching, I have endeavored to conform to the rules of orthography and pronunciation as contained in Worcester's Dictionary." Hon. Charles Sumner says:—"The Universal Dictionary *I have used almost constantly, and almost daily*, since its publication. I have no hesitation in calling it *the best* practical Dictionary in the English language." Other gentlemen use words to the same effect; and in point of fact it may be seen by their writings that they design to conform to the *most approved usage*, which Dr. Worcester recognizes as the standard authority, and of which his Dictionary *purports to be the exponent*. The innovations, however plausible, invented by one man, however learned and ingenious, ought not, and cannot, prevail against the common usage of the English language; nor can there be any true American standard of authority other than the usage of the best American writers.

WORCESTER'S QUARTO DICTIONARY will contain, in its various vocabularies, upwards of ten thousand words more than can be found in any other Dictionary of the English language published in America. It is very important, therefore, to **WAIT AND GET THE BEST!**

THE BEST READING-BOOKS IN THE ENGLISH LANGUAGE!

Teachers and School Committees are respectfully requested to examine HILLARD'S SERIES OF READERS, consisting of,—

I. THE FIRST-CLASS READER.
II. THE SECOND-CLASS READER.
III. THE THIRD-CLASS READER.
IV. THE FOURTH-CLASS READER.

1. THE FIRST-CLASS READER.—This Book is designed, as its title indicates, for the use of the Highest Classes in Public and Private Schools. Each selection is preceded by a biographical and critical notice of the author, and every page of the book bears the impress of the fine literary taste of the compiler. Its success has been altogether unparallelled. It has been introduced into the Public Schools of Boston, New York, Cambridge, Roxbury, Worcester, Manchester, Portland, Brunswick, Cleveland, Chicago, St. Louis, and many other places.

2. THE SECOND-CLASS READER.—This Book contains an Introductory Treatise upon Elocution, prepared by Mr. JAMES JENNISON, of Harvard University. In the variety and interest of the selections, their excellence as reading lessons, their high moral tone and unexceptionale good taste, this Reader is unequalled.

3. THE THIRD-CLASS READER.—This Reading-Book is designed for the use of the Third Class in Grammar-Schools. The selections, like those of the First and Second Class Readers, bear the impress of the excellent judgment of the compiler, most of the articles in press having been re-written expressly for the work.

4. THE FOURTH-CLASS READER.—This work is in preparation, and will be ready for publication in a few weeks. School Committees and Teachers are invited to examine the Books already published. They will be furnished gratitously for examination, or, if the amount of postage is forwarded to us, they will be sent by mail. The postage rates are on the Third-Class Reader 15 cents, on the Second-Class Reader 21 cents, and on the First-Class Reader 24 cents.

LE GRAND PERE, ET SES QUATRE PETITS-FILS. Livre de Lecture, à l'Usage des Ecoles. Approuvé par le Conseil Royal de l'Instruction Publique. First American Edition, carefully prepared for American Schools, and furnished with copious Notes, by Francis S. Williams, late Sub-Master in the High School, Boston. 12mo., 420 pages. Price $1.00. This is, in every respect, one of the best French Reading Books for Children that has ever been published. The matter is instructive, the style is easy and colloquial, and, while it familiarizes the young student with the peculiarities of the language, conveys, at the same time, a fund of very valuable and interesting information.

FIRST BOOK IN FRENCH CONVERSATION.—The Subscribers invite the attention of Teachers, School Committees, and of all interested in instruction in the higher branches of education, to a new work just published, designed as a First Book in French Conversation. It is intended to be used as a companion volume for LE GRAND PERE, one of the best French Reading Books for beginners ever published, and is entitled,—"Conversations sur le Grand Père," designed for a First Book in French Conversation, by FRANCIS S. WILLIAMS, principal of a School for young Ladies. Copies will be sent to Teachers for examination, upon receipt of fifty cents for LE GRAND PERE, and fifty cents for the CONVERSATIONS.

A NEW WORK ON NATURAL AND EXPERIMENTAL PHILOSOPHY, by Thomas Tate, F.R.A.S. First American Edition, Revised and Improved by C. S. Cartee, A.M., Author of Elements of Physical Geography.

Notwithstanding the number and variety of text-books on Natural Philosophy now before the Public, the peculiar excellence of Professor TATE'S treatise, together with the express desire of some of our most eminent teachers that it might be made available to them in their instructions, seemed to call for its republication in this country. It was originally prepared as one of a series of text-books for the use of the masters and students of the Battersea College, near London; and how well it has fulfilled its purpose is evident from the high commendations bestowed upon it by Her Majesty's Inspectors of Schools, and the Committee of Council on Education. As a text-book for schools, it appears to embrace all the essential requisites. The principles of the science are clearly and concisely stated, with their practical application to the arts of life and the phenomena of nature. The experiments are instructive and interesting, requiring for the performance of most of them but a trifling expenditure for apparatus. Examples and problems to exercise the student, with upwards of six hundred diagrams for illustration, pervade the work. The book contains 528 pages, 12mo., and is beautifully bound in cloth. Copies will be furnished to teachers for examination, on the receipt of fifty cents in postage stamps.

FIRST LESSONS IN PHILOSOPHY.—We also publish "FIRST LESSONS IN PHILOSOPHY, DESIGNED FOR THE USE OF COMMON SCHOOLS," by the same authors. This book contains 252 pages, 12mo., and will be sent to teachers for examination, on the receipt of 30 cents in postage stamps.

WORCESTER'S NEW SPELLING-BOOK.—We have the pleasure to announce that we have in preparation and shall soon publish, a PRONOUNCING SPELLING-BOOK OF THE ENGLISH LANGUAGE, by J. E. WORCESTER, L.L.D. The orthography and pronunciation of Dr. Worcester's Dictionaries are very generally regarded as representing the best usage of the English language. The Spelling-Book now in preparation will represent the same system, and Teachers throughout the country will welcome its appearance. It will doubtless be the most accurate, comprehensive, and complete Spelling-Book of the English language ever published.

SPLENDID PICTORIAL WORK!

HUNTER'S PANORAMIC GUIDE

FROM NIAGARA FALLS TO QUEBEC,

BEING a perfect picture of those portions of the CANADAS through which the River St. Lawrence flows. Mr. Hunter, the author, is an English artist of rare acquirements. He started from Niagara Falls and rowed his own skiff all the way to Quebec, stopping long enough at all points of interest to transfer with his pencil a perfect view of the same to paper. He now gives us the result of his labors in this SPLENDID PANORAMA, TWELVE FEET IN LENGTH, comprising most beautiful and highly finished views of the FALLS OF NIAGARA, THE THOUSAND ISLANDS, THE RAPIDS, VICTORIA BRIDGE, the Cities of MONTREAL, KINGSTON, QUEBEC, &c., and numerous smaller places—in fact forming a complete daguerreotype of a beautiful and interesting section of the North American continent. This Panorama, although twelve feet long, is neatly folded into a convenient size for travellers, and is accompanied by seventy pages of ILLUSTRATED LETTER PRESS DESCRIPTIONS of the entire route, forming a most readable volume, being a COMPLETE GUIDE to the Canadas. In order to put this beautiful volume within the reach of all, we have concluded to sell it for $1 at retail, hoping the sooner to sell the 100,000 copies which we intend to.

We have already districted out the Canadas into agencies, and are now prepared to contract with 1000 TRAVELLING AGENTS to canvass in the United States. For although it is a book well nigh indispensible to the Northern Traveller, it is still as important to those not so highly favored, who are compelled to stay at home.

Published by JOHN P. JEWETT & Co., Boston; H. P. B. JEWETT, Cleveland, Ohio. To whom all orders for books, and all applications for agencies, must be addressed.

THE GREEN MOUNTAINS ONCE MORE!

JUDGE THOMPSON, the popular author of "The Green Mountain Boys," "Locke Amsden," &c., has just completed for the public eye the great work of his life, entitled

GAUT GURLEY, OR THE TRAPPERS OF LAKE UMBAGOG.

This exciting tale is founded on a murder of unusual atrocity that occurred about 40 years ago, among the Trappers and Hunters of Umbagog, and the other wild Lakes lying on the Northerly borders of Maine and New Hampshire. Gaut Gurley was supposed to be an actor in this and other flagitious crimes, and made his escape to the West Indies. Judge Thompson has built a story upon these historic facts which will probably be more read by New England people than any book which he has ever written It is a work of thrilling interest and rare power. In one vol. 12mo. Price $1.—Published by JOHN P. JEWETT & Co., Boston.

DR. ALLEN'S AMERICAN BIOGRAPHICAL DICTIONARY.

This splendid and very complete work contains the Biographies of *Six Thousand Seven Hundred and Fifty* Eminent deceased AMERICANS, STATESMEN, WARRIORS, PATRIOTS, POETS, CLERGYMEN, LAWYERS, PHYSICIANS, MERCHANTS, MECHANICS, and others distinguished in the various walks of life, making a superb royal octavo volume of 900 pages, double columns. Dr. Allen, the learned compiler of this valuable work, published the first edition forty-eight years ago, which contained seven hundred articles. He revised it and published a second edition in 1832, while President of Bowdoin College. This edition contained eighteen hundred and fifty Biographical articles. Now, after a lapse of twenty-five years, he offers this new and much improved edition, containing *Six Thousand Seven Hundred and Fifty* Biographical articles. making by far the most thorough and reliable DICTIONARY OF AMERICAN BIOGRAPHY ever published.

No LIBRARY, PUBLIC OR PRIVATE, is complete without this work. We have printed it on superior paper, and it is bound in full sheep, marble edges, price $5, and half Turkey Morocco for $6.

THE Congregational Hymn Book is now ready. It is a collection of Sacred Lyrics unequalled in the English Language. Published with various qualities of paper and styles of binding, by JOHN P. JEWETT & COMPANY, 117 WASHINGTON ST. BOSTON.

The attention of Clergymen and Churches is particularly called to an examination of the plan and execution of this admirable book.

BEST EDITION.

HUDSON'S SHAKESPEARE.

JAMES MUNROE & CO.,

BOSTON AND CAMBRIDGE, HAVE JUST PUBLISHED THE

WORKS OF SHAKESPEARE,

The Text carefully restored according to the first editions, with Introductions, Notes, original and selected, and a Life of the Poet.

BY REV. HENRY N. HUDSON, A.M.

Eleven volumes, 16mo., $1 each. The following are among the notices received:

"No edition of Shakespeare has yet appeared in this country at all equal to this for purposes of real utility. The volumes are exactly of the right size to handle with convenience; the print is emphatic, if we may be allowed the expression,—that is, not only legible and clear, but of that kind that tells to the eye; the paper is excellent; and the introductions and notes by Mr. Hudson are very significant, just, apposite, and desirable. We earnestly advise our readers to supply their centre-tables, travelling trunks, and library shelves, with a copy of Hudson's Shakespeare."—*The Home Journal, New York.*

"On reading Mr. Hudson's admirable preface, I was much struck with the high tone and spirit in which he has entered upon his task. The style in which the edition is brought out pleases me extremely; it is a remarkable, comfortable, cozy, readable form of volume—just such a one as we take up with delight and lay down with regret—one that can be held for hours without inconvenience, lounging in doors over the fire, or carried without incumbrance out into the fields; and this is a strong recommendation. A book, the contents of which make it our favorite and constant companion."—*Extract from a Letter by Mrs. Mary Cowden Clarke, author of the "Concordance to Shakespeare," &c.*

Mr. Prescott's Works are also bound in a great variety of elegant styles, half calf, full calf, and antique.

"The more closely we examine Mr. Prescott's Work the more do we find cause to commend his diligent research. His vivacity of manner and discursive observations, scattered through notes as well as text, furnish countless proofs of his matchless industry. In point of style, too, he ranks with the ablest English historians; and paragraphs may be found in his volumes in which the grace and eloquence of Addison are combined with Robertson's majestic cadence and Gibbon's brilliancy."—*Athenæum.*

EMERSON.

ESSAYS; First and Second Series. By RALPH WALDO EMERSON. 2 vols. 12mo. cloth. Price, $1 per vol.

MISCELLANIES; including "Nature," etc. By R. W. EMERSON. 1 vol. 12mo. cloth. Price, $1.

WILLMOTT'S PATENT BOOT-CRIMPING MACHINE.

THIS MACHINE

Has recently been much improved and is now confidently offered to the public as the best Boot-Crimper in the world.

It is well known that in the

Ordinary Machines,

THE BOOT

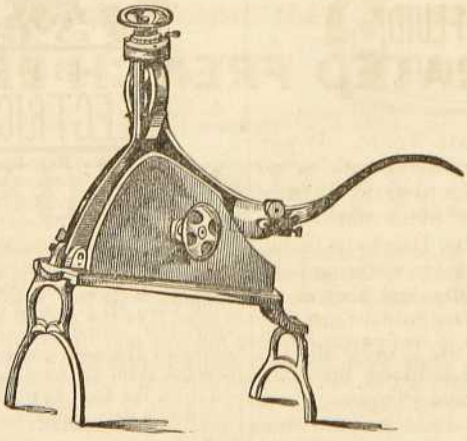
Is roughly broken into shape,

WHILE THE

CRIMPING AND STRETCHING

ARE AFTERWARDS

DONE BY HAND.



THIS MACHINE,

on the contrary, rubs out the wrinkles, pulls out the corners and thoroughly crimps

THE BOOT,

and much better than it can be done

BY HAND,

And with such ease and rapidity that upwards of twenty pairs have repeatedly been crimped by one man in an hour. This MACHINE has but lately been introduced with the new improvements. The following certificate from a few New England Manufacturers who have it in daily use, will show how it is appreciated.

TO THE BOOT MANUFACTURERS IN THE NEW ENGLAND STATES.

This is certify that we the undersigned have purchased **WILLMOTT'S BOOT-CRIMPING MACHINE**, known as the LITTLE GIANT, and do not hesitate to pronounce it the very best and most practical labor-saving machine ever offered to the public. We can cheerfully recommend it to manufacturers and the trade generally as being all it is recommended, and would not return to the former method of crimping for five times its original cost.

The Machine is sold at about the same price as the common "Break Downs," and at less than one fifth the price of the French Machines. *For further particulars, see Circulars which will be forwarded to any address on application.*

Is the GREAT AMERICAN HAIR TONIC. It permeates to the cellular tissue of the cuticle, and forces the Hair and Moustaches to grow. It cures Scurf and all Diseases of the Skin, and is the most beautiful embellisher of the Hair to be found. Where every thing else has failed in restoring hair, this has reinstated it in beauty and luxuriance. Price 25c., 50c., 75c., $1, and $1.50 per bottle.

BOGLE'S HEBEAIONA, OR BALM OF CYTHERIA, is unrivalled for beautifying the Complexion, and eradicating Tan and Pimples. *Price 50 cents per bottle.*

Best Hair-Dye in the World.

This is strong language, yet BOGLE'S ELECTRIC HAIR DYE (recently improved) was *proven* to be so by the judges at the late Mechanic's Fair, held in Boston, (among whon was Dr. Hayes, the eminent chemist and State Assayer,) who awarded it the PRIZE MEDAL AND DIPLOMA, over the choicest Hair Dyes on exhibition from all parts of the Union. Its unparallelled superiority consists in—1st, The ingredients are nourishing to the hair, not destructive, as others are. 2d, Does not stain nor hurt the skin. 3d, Is easily applied, and dyes the hair any color required, from a delicate brown to a deep black, so natural as to appear marvellous.

W. BOGLE has always on hand a Large and Varied Assortment of Ladies' and Gentlemen's **WIGS and HAIR WORK** of the very best description. He particularly calls attention to his newly-invented Transparent Parting for Gentlemen, and the Ladies' Self-Adjusting Wig, so natural as to defy detection even from members of the same family. W. B. visits Europe every season, in search of every thing new and unique in his department.

BOSTON LUNG INSTITUTE,

ESTALISHED A.D. 1855,

FOR THE TREATMENT AND SPEEDY CURE

OF

CONSUMPTION, CATARRH, BRONCHITIS, ASTHMA, AND ALL CHRONIC DISEASES OF THE THROAT AND LUNGS

BY MEDICATED INHALATION.

S. H. MELCHER, M.D., M.A.M.S.* }
C. MORSE, M.D., M.A.M.S. } Medical Examiners.

69½ SUMMER STREET, BOSTON, MASS.

"This is the *only* Institution of the kind in New England and is the *head quarters* of the system of Inhalation for the Eastern States, Canada and the Provinces.

Medicines are sent from the Institute only on personal application and examination, or a very minutely written description of the patient's condition. The "Vapors," are prepared for *each particular case* and being composed of healing gums and balsams, the weak lungs are stimulated and strengthened, the ulcerated matter is thrown off, the ulcers heal and the patient rapidly regains his former vigor.

Consumptives who apply personally, may confidently rely, that their disease will be detected with unerring certainty and TREATED WITH A SUCCESS HITHERTO UNKNOWN.

BOSTON LUNG INSTITUTE—CONSUMPTION CURED.—The great success attending the treatment by *Medicated Inhalation* at the *only* Institution of the kind in New England has already established it permanently. An experiment first, is *now a reality*, and it ranks among the institutions for which Boston is so widely known. The Massachusetts General Hospital, the Eye and Ear Infirmary, and other similar institutions, are well known as among the best managed of the kind in the country. Second to none is the Boston Lung Institute; its prosperity is wholly owing to the almost wonderful effect of the treatment adopted—being entirely different from any other—*curing* where other practice *merely relieves*. Such is the demand for the remedies, that two physicians are constantly required in attendance, in addition to the occasional assistance of several of our medical gentlemen, who volunteer their services to aid and encourage this great improvement in medicine. It has the approbation, well wishes and patronage of a host of our business men, and our citizens generally are availing themselves of the benefits derived there. The Institute is very pleasantly situated on Summer street.—*Traveller.*

☞ The Boston Long Institute is doing a great work in the way of *curing* Lung diseases, and from the testimony of our citizens who have already visited it, *Medicated Inhalation* is the only *reliable* treatment for Consumption, Bronchitis, Catarrh or Asthma.—*Olive Branch.*

BOSTON LUNG INSTITUTE.—Among the many improvements of the day that have attracted our attention, is the beautiful little globe, with the flexible tube and crystal mouth piece, through which the mysterious medicated and healing vapors are breathed, that are administered at the *Boston Lung Institute*—and we consider it *the very best medium* by which this wondrously subtle compound of flowers and herbs, and healing balsams can be conveyed to the vital part diseased, and one of the most powerful auxiliaries in the hands of those who use it, for the *curing* of pulmonary complaints.—*Daily Journal.*

The number of letters received by the Institute, from all parties, old and young, male and female, describing the remarkable cures by Inhalation, is truly surprising, and any one calling on Drs. Melcher and Morse, 69½ Summer street, may also be referred to many of our merchants whose wives and daughters have been cured by this unequalled treatment.—*Merchants & Manufacturers Magazine.*

CAUTION.—Attemps have been made to take advantage of the popularity of this system, by putting up "*Packages of Inhaling Remedies.*"—Hoping to gain sale for them on the strength of the well earned reputation of Medicated Inhalation as practiced at the Boston Lung Institute.

☞ THEY ARE LIKE ALL OTHER QUACK MEDICINES,

MADE TO SELL.

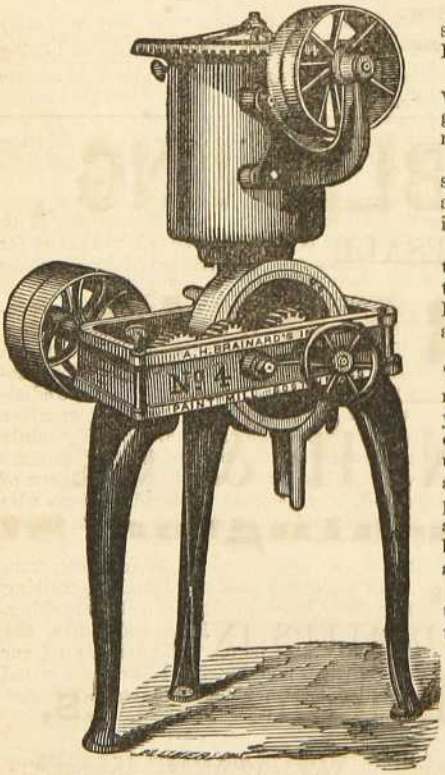
A. H. BRAINARD'S
IMPROVED PAINT MILLS,

MANUFACTORY AT 90 UTICA ST., BOSTON, MASS., U. S.

No. 2.

THE attention of all who have occasion to grind paints by hand or power, is invited to the above mentioned Mills—the invention of a practical painter of long experience, which combines many excellencies not found in any other mill now before the public. A few of these advantages may be named. 1st—No Color, however coarse, needs grinding through them more than once to render it fine enough for any purpose whatever. 2nd—They will grind from two to four times the amount of paint which can be ground in any other mills in the same time, thereby paying for themselves in a very short time. 3d—They do not "throw," when run rapidly, as in the case of all horizontal mills. 4th—The coarse and heavy colors *do not settle* in them, as they do in all other upright mills. 5th—The grinding surfaces wear perfectly even, and the mills therefore work well until entirely worn out. 6th—There is *no slop work* about them—the principal bearings are of hardened steel, and every part is finished with a care and accuracy which cannot be surpassed. 7th—Every mill passes through the hands of the inventor, who, from his experience as a painter, is enabled to detect any fault which may have escaped the notice of the machinist.

Four sizes are now made, each differing from the others in the details, and adapted for different kinds of work; the general principles, however, are the same in all.



No. 4,—scale about $\frac{7}{8}$ inch to a foot.

No. 1 is a hand mill of medium size, and is particularly designed for grinding thin colors, such as are used by Carriage Painters.

No. 2 is also a hand mill, about double the size of No. 1, and, while answering well for Carriage Painters, is better adapted for grinding thick colors than No. 1; it also makes a good "power" mill.

Nos. 3 and 4 are both "power" mills, and are nearly alike in size, but the latter has the peculiarity of combining within itself a MIXER, so that the dry paint and oil, (or water,) being thrown into the tunnel, are mixed and ground at one operation.

For a fuller description of all the sizes, and engravings of the two not shown in this advertisement, as also recommendations from a large number of Carriage Makers, Painters and Paint Dealers, see circulars, which will be sent to any address on application.

In the "New England Business Directory" for 1856, page 708, appears the following testimonial to the value of these mills:—"The grinding of paints by hand is a laborious process, yet but little, if any, improvement has been made upon the machines in common use for this purpose, for the past twenty years, until quite recently, when Mr. A. H. Brainard, of Boston, invented and perfected a mill, or rather a series of mills, which have proved to be so much superior to anything now in use, that they are rapidly superseding those of all other makers, wherever they become known. The invention is certainly an ingenious one, and well deserves the encouragement it has received."

As an instance of this "encouragement" it may be mentioned that one firm alone of Paint Dealers in Boston have sold 350 of those mills in two years.

WISTAR'S
BALSAM OF WILD CHERRY.

THIS REMEDY so long before the Public, and yearly increasing in popularity, by force of its singular merits is an especial favourite in CANADA AND BRITISH PROVINCES.

The reputation that it sustains from all, who, in a greater or less degree suffer from diseases like

INFLUENZA,
COUGHS & COLDS,
ASTHMA,
BRONCHITIS,
INFLAMMATION OF THE LUNGS,
HOARSENESS,
SORE THROAT,
EXPECTORATION OF THE TUBERCLES,

PAINS IN THE BREASTS,
DIARRHEA,
DYSENTERY,
SUMMER COMPLAINTS;

and finally that

"BANE OF OUR RACE & SCOURGE OF OUR CLIME,"
CONSUMPTION!

Is the only proof necessary of its remarkable remedial qualities, and is adapted only to the wants and woes of suffering humanity.

The BALSAM contains no mineral, no drug, no deliterious ingredient; is agreeable to the taste, soothing and pleasant in its effect.

ADVICE TO PURCHASERS!—Remember! None is Genuine, unless it has the WRITTEN Signature of "I. BUTTS" on the Wrapper: all else is spurious, worthless and deliterious.

For Sale generally throughout the Canadas & British Provinces.

OXYGENATED BITTERS!

If we except Consumption there is no Disease which affects our race to the extent as does

DYSPEPSIA OR INDIGESTION.

The Skill of the Physician has been taxed in vain to discover a remedy for this distressing disease; once fastened in the system, medical science exhausted itself in fruitless attempts to cure, or even to relieve it.

Until the discovery of the OXYGENATED BITTERS, by Dr. GREENE, and its introduction to the public, the afflicted in vain hoped for relief from any known remedy.

The reputation that this Medicine has acquired for the rapid cure of CHRONIC DYSPEPSIA, under whatever type developed, renders it a work of supererogation to say more than that for the complaints below named, it is without a rival, viz :

DYSPEPSIA,
PAIN IN THE STOMACH,
HEADACHE, PILES,
ASTHMA OR PHTHISIS,
WIND IN THE STOMACH,

The present senior partner, being the *oldest Pianoforte Manufacturer in Boston.* This firm has, within the last year, introduced some very important and material

Improvements.

An entire set of new scales have been made, including a new scale for a Grand Pianoforte. The first Piano made from it, received the award of a Silver Medal at the last exhibition of the Massachusetts Charitable Mechanic Association. By the peculiar construction of said new scales, they have greatly improved their Square Pianofortes, by increasing the vibration, clearness, and purity of tone. They have also adopted a

New Improved Action,

Which is simple in its construction, very sensitive to the most delicate touch, operates without a spring, (an advantage possessed by no other action,) and therefore requires little if any regulating, by the changes of weather or climate; Combines all the most desirable qualities sought for, during the last twenty years. For which a medal was awarded at the last Fair of the Massachussetts Charitable Mechanic Association. These instruments are all prepared *for* Coleman's patent

Æolian Attachment.

In which there is combined with the Pianoforte, a Wind Instrument, the same key-board controlling both in such a manner, that either can be used separate, or both together, thus furnishing an instrument for Organ, or Piano music, or that may be combined at the pleasure of the performer, in orchestral effects.

Iron Frames.

From a knowledge of the fact, that Pianofortes made without metallic frames, (as was the case in some of the first to which the Æolian was applied,) were constantly subject to variations in pitch by changes of temperature, many persons have honestly supposed it impracticable, and inexpedient, to combine a Wind, with a Stringed Instrument. But having the strings connected with the entire iron frame at both ends, (as all are now made by this firm,) entirely obviates this difficulty. The strings and frame expanding and contracting together, which preserves a uniform pitch in the Piano, so that no additional tuning is required over the ordinary Pianofortes, to keep the Piano in tune with the Reeds.

Medals and Diplomas

Have repeatedly been awarded to these manufactures, in Boston, New York, Philadelphia, and other places, but have never previous to 1856, in any advertisement, handbill or circular, been alluded to in a single instance, by them, having always relied upon the character of their instruments, which have now been before the public about thirty years.

The Fact

May be stated that at the last exhibition of the Massachusetts Charitable Mechanic Association, they were awarded **SILVER** and **BRONZE MEDALS** for **Grand** and **Square Pianofortes.**

REDDING'S RUSSIA SALVE.

THIRTY YEAR'S EXPERIENCE IN THE NEW ENGLAND STATES,

HAS FULLY ESTABLISHED THIS

Excellent Family Remedy

FOR THE CURE OF

Cuts, Burns, Scalds, Flesh Wounds, Chilblains, Boils, Felons, Erysipelas, Cancers, Piles, Salt Rheum, Sprains, Bruises, Injury by Splinters, Ringworm, Warts, Eruptions, Frost-Bitten Parts of the Body, Old Sores, &c., &c.

FOR HORSES AND CATTLE.

The Russia Salve has been tried in thousands of cases, and never known to fail.

PRICE 25 CENTS.

Brief History of the Russian Salve.—About the year 1818, a Russian, who had served as a soldier in the Imperial army, during the disastrous campaign of Napoleon, arrived in Boston from Cronstadt, and shortly after got work at his trade, (a currier,) in Charleston, near Boston. He was soon after taken sick; and during his illness he was attended by a kind-hearted clergyman of that town, who did all in his power for the relief of the poor Russian. But though he grew worse every day, the benevolent clergyman did not abate his kindness, but was more and more attentive; and at last, when the Russian felt that he was soon to die, he motioned his friend to his bedside, thanked him for his kindness, and as the only return he could make, presented him with the recipe of a remarkable Ointment, which had been used with great success, by the surgeons of the Russian army. The clergyman prepared a small quantity, and was convinced of its great value, but dying soon after, his family disposed of the recipe to Mr. Redding, who gave it the name of "REDDING'S RUSSIA SALVE."

CAUTION.—The accompanying engraving is printed on the outside wrapper and stamped on the Metal cover of every box of the RUSSIA SALVE, without which none are genuine. Be sure to call for "REDDING'S RUSSIA SALVE," the original and old established remedy, introduced in the year 1822.

From our long experience in the manufacture of Weighing Apparatus, (our establishment being the oldest of the kind in the United States,) we can warrant our articles to excel all others for accuracy, durability, and nicety of operation, and we solicit the attention of purchasers.

Our Railroad, Hay and Coal Scales are made on a different principle from any other kind, and wherever they have been tested with other Scales, have been pronounced the best as regards accuracy and durability.

The following article, with regard to one of our Hay Scales, exhibited at the last Mechanics Fair in Boston, is from the Boston Journal:

"One of the most finished and beautiful articles in the whole Exhibition is a large platform scale from the manufactory of L. Stephenson & Co., 72 Water Street. It is not more noticeable for the great beauty of its workmanship than for its strength and nicety of adjustment, one half ounce being amply sufficient to turn the beam with a weight of three thousand pounds on the platform. The peculiarity and superiority of this scale consists in the *suspension* of the platform on the bearing points in such a manner as to prevent their wear or displacement, with any usage. But an accurate idea of its advantages can be obtained only by a personal examination of the scale itself.

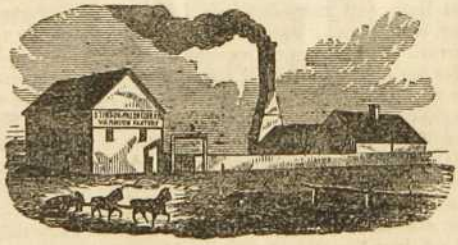
VARNISH. VARNISH.



We invite the attention of Dealers and Consumers to our superior facilities for the manufacture of a

UNIFORM AND RELIABLE QUALITY OF

VARNISH,

SUITABLE for any and all purposes for which the article is used, from a fine COACH or RAILROAD CAR, down to the most common article of FURNITURE.

The manufacturing is under the superintendence of MR. JOHN BABCOCK, formerly of Newark, N. J., and whose reputation for Skill in this department is second to none.

N. B.—At the recent Triennial Exhibition of the Massachusetts Charitable Mechanic Association, held in Boston, we were, by the Committee (of which Professor A. A. HAYES, State Assayer, was Chairman), awarded a Silver Medal, being the highest award ever made by this Society, on Varnishes. Also, a Diploma from the Maine State Fair, held at Portland in 1856.

Soliciting your orders, we remain, yours truly,

I WOULD respectfully request the attention of the TRADE to the large and complete Stock of VARNISHES AND JAPAN of my own and improved manufacture. After long experience in the sale and having superior facilities for manufacturing, also keeping constantly in store from 8,000 to 10,000 gallons. I am confident of my ability to supply a Varnish of uniform quality which can be relied upon, and the united Testimony of all who have used it fully justifies me in warranting it superior to most and equal to any either IMPORTED or AMERICAN. For the Superior quality of my VARNISHES, I would refer to the report of the Committee appointed by the Massachusetts Mechanic Association,(of which Dr. A.A. Hayes, State Assayer, was Chairman.)

"A. L. CUTLER, Boston, case of Varnishes with neatly Varnished specimens of wood showing the different kinds. They were of good quality, clear and well preserved, and are deserving of a Bronze Medal."

Also the Metropolitan Mechanics' Institute of Washington, state in their report: "Varnishes made by A. L. CUTLER, Boston, all of them are of high quality and some of them possess a clearness and brilliancy seldom equalled. The excellency of the articles and the neatness with which they are displayed are deserving of the HIGHEST recommendation, award a Silver Medal." Being the highest premium ever given for Varnishes.

Priced Lists furnished upon application and all orders received either in person or by mail will be executed with promptness and at the lowest prices.

PURE OLD BOURBON WHISKEY,

EXPRESSLY FOR MEDICINAL PURPOSES.

HAVING completed our arrangements for supplying Druggists, Physicians and the Trade generally, with an article of Whiskey, for Medicinal Purposes, we respectfully call your attention to the following brief statement respecting it :

The beneficial results which have attended the use of pure Whiskey, where it has been recommended as a remedial agent, has caused an unprecedented demand for it, so much so that it is not at all probable that there is one-half the quantity *manufactured* of the *Genuine Old Bourbon Whiskey* to supply the demand ; hence a large proportion sold for that article must necessarily be either an adulterated, or very inferior Whiskey, not only devoid of any medicinal properties, but, on the contrary, injurious to health.

Some time before the article of Whiskey was generally known and prescribed by the Medical Faculty, for the purposes for which it is now offered by us, we were apprised, through other sources, of the great benefits derived from its use, and since that time have given the subject especial attention, in order to procure a perfectly pure article.

Our object having been attained, as the contract we have made insures us a regular supply direct from the manufacturer, in Bourbon County, Ky., we unhesitatingly offer it to the public. It can confidently be relied upon as Genuine Old Bourbon Whiskey, in its purest form.

Owing to the numerous reports that have been circulated respecting the poisonous or injurious matters detected in Whiskey, (and we fear in many cases, well founded,) we have take the precaution of having a chamical test made of samples of the article put up by us, and we herewith annex the result of the analysis made by Dr. Charles T. Jackson, which is of itself sufficient to establish its reputation for purity.

STATE ASSAYER'S OFFICE, 32 Somerset Street, Boston, May 20, 1857.

☞Messrs. WILSON, FAIRBANK & Co.

GENTLEMEN,—I have made chemical analysis of the samples of Bourbon Whiskey you sent to me, searching them for *drugs* or *adulterating* matters, and have to inform you that the samples of whiskey are *free* from any *adulterations*, and do not contain any *poisonous* or *injurious* matters, and hence are suitable for *medicinal use*.

Respectfully, your obedient servant, CHARLES T. JACKSON, *State Assayer*.

To parties unacquainted with our house, we would refer them to the following communication from Dr. Charles T. Jackson, State Assayer, and Dr. J. V. C. Smith, editor of the Medical Journal :—

We take pleasure in recommending to the confidence of the public, the house of Messrs. WILSON, FAIRBANK & Co., of this city, Importers, Wholesale Druggists and Chemists, and Dealers in *Pure* Liquors, for Medicinal purposes. Being personally acquainted with the members of the firm, we have the utmost confidence in their integrity, to conform strictly to all orders intrusted to their charge.

CHARLES T. JACKSON, M. D.,
J. V. C. SMITH, M. D.

BUFFALO, N. Y.—A City and Port of Entry situated at the entrance of Buffalo Creek into Lake Erie, and near the commencement of its outlet, Niagara River. Being at the western terminus of the Erie Canal, possessing many railway connections and important maritime advantages, Buffalo commands a high commercial position. Indeed, its commerce is immense, employing a vast number of steamers, brigs and sloops, which convey from the several Lake ports a large amount of produce, that is transported hence to Eastern markets by canal and railroad. The harbor of Buffalo is sufficiently capacious for the accommodation of several hundred vessels, and is well protected from winds. The rapid growth and commercial importance characterising this port commenced at the completion of the Erie Canal in 1825, which has already become so utterly insufficient for the demands of trade that urgent calls have been made for its enlargement or the addition of other and more capacious channels of transport. The streets are broad and straight. Main Street, 100 feet in breath, extends for a distance of four miles, and is built very compactly with stores, hotels and expensive private dwellings. Distant from Chicago 533 miles from Cincinnati 438 miles, from Albany 298 miles, from Detroit 310 miles, from Goderich, C. W., 165 miles, and from Toronto, C. W., 60 miles. Population, including Black Rock, about 80,000.

CHICAGO, ILL.—A City and Port of Entry very advantageously situated on the west side of Lake Michigan, at the mouth of Chicago River. The manufactures of Chicago are various and extensive; and its favorable maritime position, in connection with an extensive grain-growing district, has given it an increase in wealth and population within the last ten years that is scarcely to be equalled by any place in any country. Besides the lake navigation, in which it largely participates, the city is the terminus of no less than thirteen railways, as also of the Illinois and Michigan Canal; and our wonder must be excited when it is borne in mind that the population of Chicago twenty years ago was insufficient to constitute her an incorporated city, and twenty-five years since the Indians possessed a large portion of the surrounding country; nor scarcely could it be perceived at any time that the rapidity of its growth received the least check from the scourges of sickness that have occasionally visited its population. Distant from Buffalo 533 miles, from Sault St. Marie 445 miles, from Cincinnati 273 miles, and from Windsor, C. W., 286 miles. Population about 100,000.

KERSHAW, C. J.

CLEVELAND, OHIO.—A City and Port of Entry, situated in a commanding situation on Lake Erie, at the mouth of the Cuyahoga River. The greater part of the City occupies an elevation about 80 feet above the lake, affording a fine and extensive prospect. The streets cross each other at right angles, and are 80 feet wide, Main street being 120 feet wide. It is the emporium of Northern Ohio, and next to Cincinnati, the most important town in the State, as it is also one of the most beautiful Cities in the Union. The harbor of Cleveland has been by art made one of the best on the Lake. It is naturally formed of the mouth of the Cuyahoga River, which has been improved by a pier on each side extending 425 yards into the lake, 200 feet apart, and faced with substantial stone masonry. Cleveland is the great mart of the greatest grain-growing State in the Union; and its connections by rivers, railways, and canals are numerous. Among its excellent institutions may be noticed the Western College of Homeopathy, which was founded in 1850, and has 8 professors and 62 students. Ohio City, on the opposite side of the Cuyahoga River, although having a separate incorporation, constitutes virtually one place with Cleveland. Distant from Chicago 340 miles, from Cincinnati 255 miles, from Buffalo 183 miles, and from Port Stanley, C. W., 80 miles. Population (including Ohio City, 8000) about 35,000.

COMPLETION AND OPENING OF GORDON, McMILLAN & Co.'s NEW WAREHOUSE.

AS citizens of the Forest City, it is with no ordinary degree of satisfaction and pride that we avail ourselves of this opportunity to exhibit to our readers the above cut of the extensive Jobbing Grocery House of GORDON, MCMILLAN & Co., of this city, just completed for their exclusive use, on the site of the old "New England Hotel," which, we think, renders the important commercial position of our city a fixed fact. It will be remembered that this firm has also a House at 14 and 16 Beaver Street, New York, under the style of GORDON, FELLOWS & MCMILLAN.

The large trade Mr. G. has secured in this city, and his long experience before forming his present co-partnerships, peculiarly fit him to judge accurately of the many advantages our city has for importing from the various cities East and South, and the cheap and prompt distribution of merchandise, and who can suppose that Mr. G. and his associates would devote their large resources and valuble experience to this large enterprise, without clearly foreseeing the many advantages of our position.

Their building is a plain, substantial four story structure, with cellar under the whole, has 178 feet front on Merwin and Superior Streets, and 140 feet depth on Merwin Street, with five floors, of an area of 17,000 square feet on each, (is 85,000 square feet) or about two acres in all. Is thoroughly fire proof, with eleven doors for receiving and delivering from the first story on Merwin street and four from the same, rear; also a drive-way from Superior street, in the second story, of 15 feet in width, and room inside for several drays to turn, load and unload at one time. An arrangement is also made with the C. C. & C. R. R. Co., to locate a track and switch from their main track in the rear of the second story of the premises, for the special accommodation of this Ware House.

The sales rooms and offices occupy a space of 36 by 80 feet, and are heated by "Gold's Patent Stream Apparatus," producing an agreeable and healthful atmosphere;—also are tastefully and conveniently arranged and furnished with chandeliers, wash-stands, closets, and every modern convenience for the supply of water and gas. Sample cases, counters, railings and desks of the book-keepers, cashiers, entry, receiving and shipping clerks, salesmen and partners, are very handsomely made from the native ash and oak of our own forest, and are very creditable to the skill and taste of the mechanics, Messrs. Pratt, Brown & Co., and Wm. Hart. There is 1,500 feet of Gas pipe, and 150 gas burners in the premises; five hoist-ways; also two capacious vaults for books and other valuables, and a large vault in the rear and *outside* of the main walls, for storage of extra hazardous property.

In short, these premises seem perfect for the use designed, and are five times the size of the building on the corner of St. Clair and River Streets, recently occupied by this firm, (and for many years by W. J. Gordon,) and is fully *four times* the size of any one Jobbing Grocery building now in use in New York city; thus affording convenient storage in all departments for Teas, Coffees, Sugars, Spices, Fruits, Molasses, Syrups, Paints, Oils, Fish, Tobacco, Segars, Indigo, Brandies, Whiskies, Wines and Liquors of all kinds. Staple Drugs, Ship Chandlery, Wooden Ware, (assorted) Produce, and all of their large and varied stock, and all can and will be so arranged and systematized, and the labor of the twenty employees so divided, that there can scarcely be any limit to the amount of business that may not be done on the premises with accuracy and despatch.

We are credibly informed that the business of the old firm of this house (here and in New York,) reached nearly a million and a half dollars the past year; add to this the large trade their new associate, Mr. McMillan, (of the late firm of Fenner, McMillan & Arthur) must bring, with the constant natural increase that such *reliable* and *straightforward* men (as this firm is composed of) always command, with all their other facilities and advantages, and we confidently predict an annual trade of millions for them in future, affording them at once the very great advantage of being the largest buyers of goods in their line in this country; enabling them at any time to take entire lots or lines of goods, and thus almost invariably save a commission at least from the price.

Their large shipments ought and will give them same advantage in price of freights. In short, the conclusion cannot be avoided that this concern must be able to furnish goods in this market, to almost any extent, at prices lower than thy can possibly be obtained from any other source.

A market so cheap and convenient, saving time, expense, delays, and hazards unavoidable in a foreign market, must attract the attention and prove of incalculable advantage to the buyers of groceries in this and adjoining States, and its influence must be sensibly and forcibly felt upon every branch of business, and constitute *a new era* in the trade and commerce of our city.—*Commercial Gazette.*

MANUFACTURERS AND WHOLESALE DEALERS IN ROOFING SLATE.

SLATERS in any part of the country supplied upon the MOST favorable terms. We are also prepared, if desired, to contract for LAYING ROOFS in any of the States or Canada.

ADVANTAGES OF SLATE OVER OTHER ROOFS.

1st. Slate roofs are fire-proof—far more so than Tin or Composition. 2nd. OUR Slates are WARRANTED not to CRACK or BREAK by exposure to the weather, hence they will never wear out. 3rd. A slate roof when properly put on will never leak. 4th. A Slate roof can be made tight in any spot or place where one of shingles can. 5th. Slate is used on stone, brick or wood structures; of the several hundred roofs which we have covered, four-fifths have been upon wooden buildings. 6th. They can be and are often laid over old shingles. Our Slates have been used for some of the best work in the country, many government and other public buildings having been covered with them. Full information concerning Slate Roofs may be obtained by addressing the Subscribers.

We are thankful for the liberal and steadily increasing patronage which we have received, and in further soliciting favors we pledge ourselves to promptness in our transactions.

LAWRENCE, MASS.—A City situated on the Merrimack River, which is spanned here by a fine granite dam, 35 feet thick at the base by 12½ feet at the top, from which the fall of water is from 25 to 27 feet, affording 5,000 (and sometimes in freshets 60,000) cubic feet per second. The construction of this dam cost $250,000, which has been amply repaid in the establishment of several extensive manufactories, and in the consequent very rapid growth of the place. Distant from Boston 26 miles, from Lowell 13 miles, and from Montreal 300 miles. Population about 20,000.

ATLANTIC COTTON MILLS—manufacture heavy sheetings and shirtings of various widths, employing 1200 operatives; capital $1,800,000; Henry A. Oliver, manufacturing agent; William Gray, treasurer and selling agent, Court st. Boston.

BAY STATE MILLS, Andrew T. Hall, president; Samuel Lawrence, treasurer; G. V. Fox, agent.

LAWRENCE MACHINE SHOP—manufactory of locomotives, stationary steam engines, and machinists' tools; J. H. W. Page, treasurer, 16 Kilby st. Boston, J. C. Hoadley, agent.

LAWRENCE DUCK MILLS, incorporated in 1853, capital $300,000; I. Thacker, treasurer, 25 Commercial st. Boston, I. Hoyden, agent.

PEMBERTON MILLS — manufacture fancy cotton goods; J. Pickering Putnam, treasurer, 71 Milk st. Boston, John E. Chase, agent.

ROLLINS, JOHN R., mayor of city.

RUSSELL, WILLIAM, & SON, manufacturers of book, news, manilla, and wrapping paper; factory bailing, straw and manilla, furnished to order; at Mills over mouth of Spicket River.

LOWELL, MASS.—A City noted for its cotton manufactures, which have been so extensively prosecuted as to obtain for it the designation of the "Manchester of America." These alone furnish employment for 48 mills, 310,000 spindles, 7644 looms, the same number of females, and 3620 males. In 1815 the site of this City was almost a wilderness. Distant from Boston 25 miles, and from Montreal 296 miles. Population about 36,000.

BOOTT COTTON MILLS, for the manufacture of drillings, sheetings, shirtings, jeans and printing cloth, Linus Child, agent.

HAMILTON MANUFACTURING COMPANY, manufacturers of prints, flannels, ticks and sheetings, Thomas G. Cary, treasurer, Boston; J. W. Paige & Co., selling agents, Boston; John Avery, agent at the Mills.

CHERRY PECTORAL BLOCK, J. C. Ayer & Co., manufacturers of Cherry Pectoral.

LADD, JONATHAN, counsellor at law.

MIDDLESEX MILLS, manufactory of broad and narrow cloths, doeskins, cassimeres and shawls, John Humphreys, agent.

NEW YORK, U. S.—The Metropolis of the United States, and the second commercial City in the world, is situated on the southern extremity of Manhattan Island, at the confluence of the Hudson with the East River or Strait of Long Island Sound. This great city, from its admirable position and magnificent harbor, possesses facilities for trade unsurpassed by any other on the American Continent. The bay or inner harbor is one of the most capacious and finest in the world; it is completely land-locked, and affords the best anchorage. The rise of the tide is about six feet, and even at ebb-tide there are twenty-one feet of water on the bar. The water in the outer and inner bays, and in the river, is so deep, that ships of the largest burden lie close to the quays, and may proceed to a great distance up the river. The navigation of the bay is but rarely impeded by ice; the entrance to it, through the Narrows, is extremely beautiful. Either side of the shore, though wooded down to the water's edge, is thickly studded with farms, villages, and country seats. At the upper end are seen the spires of the City, and in the distance the bold precipitous banks of the Hudson. The commerce of New York is most extensive, and its tonnage is greater than that of Liverpool, or of any other city with the exception of London. It is scarcely possible to give, in the necessarily restricted compass of this description, any adequate idea of the existing results of the enterprise of the inhabitants; but it is deemed that a few striking statistics on this point will be found interesting. In the year ending June 30, 1852, the exports were, of domestic produce, $38,853,757; foreign, dutiable, $5,333,572; specie, $37,273,703: making a total of $81,461,032. The imports were, of dry goods, $48,900,935; other dutiable goods, $35,444,896; free goods, $11,926,912; specie, 2,528,391: giving a total of $98,801,134. The duties collected at the port, during the same year, amounted to $28,678,910; being considerably more than one half (exactly 60.6 per cent) of all the duties levied at all the ports of the Union. The domestic trade of New York, especially that furnished by means of the Erie Canal, is equally immense; and to this the numerous and extensive railway communications contribute very largely. Steamers, sailing packets, and merchant vessels are constantly leaving for nearly all the ports of the habitable globe. When, with the above particulars, it is stated that the population, ascertained to be 60,489 in 1800, was estimated to have increased in 1854 (embracing a period of little more than half a century) to 700,000,—more than eleven-fold increase,—no comment is required to establish the fact of the amazing rapidity with which this great city has advanced in population and wealth,—a character which, despite the occasional recurrence of monetary crises necessarily affecting every commercial emporium, it still continues to exhibit to the admiration of the world. New York is ornamented with many commodious and beautiful buildings; its principal street (Broadway) will compare most favorably with the finest street in any city of Europe,—it is now the great mart and the fashionable promenade. The City is supplied with water from the Croton River, by an aqueduct 41 miles in length. It has upwards of four thousand manufacturing establishments, many of them very extensive. From all parts of the railway and steamboat routes of Canada there are convenient lines of communication with this EMPIRE CITY: at Quebec, by the Grand Trunk; at Montreal, by the Champlain and St. Lawrence and Montreal and New York; at Ottawa, by railway to Prescott, and thence by ferry to Ogdensburgh; and at numerous points westward to Buffalo. Distant from Liverpool 2980 miles, from Quebec 556 miles, from Montreal 400 miles, and from Toronto 500 miles. Population, including Brooklyn, nearly 1,000,000.

MARKS'

PATENT

AND

IMPROVED

ARTIFICIAL LIMBS.

THESE LEGS, as now improved, are without doubt the nearest approach to nature of anything of the kind ever yet produced, both in external appearance and mechanical operation, all external deformities are avoided in their construction, and the machinery is perfectly adjustible and easy of access without any obstructions. They are WATER PROOF and LIGHT, yet STRONG and DURABLE, are worn with the greatest ease, and applicable to all kinds of amputations.

ARTIFICIAL HANDS, containing many valuable improvements both as to appearance, ornament and usefulness, are applied with the very best of success.

These Limbs are all furnished at moderate prices, and can be made from measurements and sent to any part of the World. Full descriptions and certificates, references, &c., sent free to all applicants, by mail or otherwise.

ARTIFICIAL LEGS AND HANDS.

IMPORTANT TO THOSE REQUIRING ARTIFICIAL LIMBS.

SELPHO'S ANGLESEY,

WITH his newly invented PATENT ELASTIC LATERAL JOINTS (Patented May 6, 1856,) combining all the advantages of his celebrated ANGLESEY LEG with the addition of the elastic and lateral or side motion of the ancle joint, by means of which the foot accommodates itself to uneven surfaces (similar to the natural ancle, giving great firmness to the steps and real comfort to the wearer. W. S. having had nearly 30 years practice in his profession offers the above with confidence as a really great improvement; and all who have had the misfortune to lose a *Leg* may rely upon obtaining the best substitute the world affords. It is now 18 years since W. S. introduced the ANGLESEY LEG into this country, its superiority was quickly seen, and as a natural consequence numerous imitations have sprung up, but the ANGLESEY LEG has never been surpassed because it is nearer the principle of the Natural Leg. The Marquis of Anglesey, (from which it derives its name) found none equal to it, and wore it from the time he lost his *Leg* at the Battle of Waterloo till his death, in preference to all others. It has been tested in every possible way by all classes, male and female, and improvement added as experience shewed necessary, until it has attained its present perfection, and certificates can be shewn to those who wish it, from numbers who are wearing pairs, and others, and the subscriber is prepared to apply it in all cases of amputation and guarantee success.

ALSO,

SELPHO'S ARTIFICIAL HAND,

A really useful substitute for a lost *Hand*, so arranged that the wearer can open and shut the fingers, pick up and hold articles, &c., &c.

BILLIARD TABLE

MANUFACTORY,

No. 106, FULTON STREET,

(Late of 61 Ann St., and formerly of the firm of Penn & Moore,)

NEW YORK,

ESTABLISHED IN 1833,

WHERE he keeps on hand, and makes to order, BILLIARD TABLES of the best quality and workmanship. Also, for sale, Billiard Cloths, Silk and Worsted Pockets and Fringe, Cues, Maces and Counters, Printed Rules for the Game, &c.

N.B.---Billiard Tables repaired in the best manner.

New York, October, 1857.

PHELAN'S MODEL BILLIARD TABLES & COMBINATION CUSHIONS.

PATENTED 19TH FEBRUARY, 1856.

FROM an elaborate and discriminating review of those improvements in the billiard table for which Mr. Phelan has received a patent,—which review appeared in the *Scientific American* of Dec. 23rd, 1855,—we condense the following summary of those improvements, and respectfully commend them to the consideration of parties interested in the progress of the game.

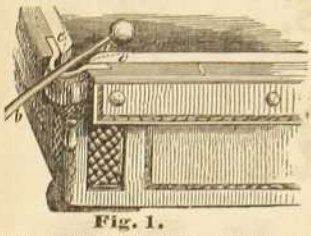

Fig. 1.

The dotted lines *c c* in Figure 1, show the old style of curving "jaws," in use before Phelan's improvement. Their gradual slope deceived the eye, and they could not "take" a ball as neatly and easily as those in use on the models. By extending the cushions to their natural length in a straight line, as seen in cut, some thirty inches of correct rectilinear surface is added to the space to be played on, and many strokes can be made on these tables which were impossible on the old. The pocket irons, it will be seen, are both lower and stronger than those previously in use—their thickness being uniform throughout, and not weakened, as in the old style, at the very part where strength was most required. From their downward curve they admit of the cue being held in a horizontal position when playing on a ball which hangs over the pocket.

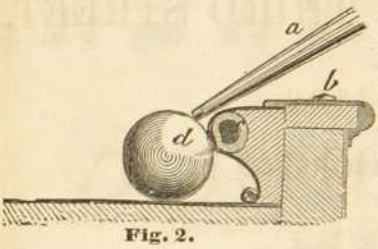

Fig. 2.

In Figure 2, *b* represents the old style of "sight," raised above the level of the side, and therefore inconveniencing the player. By contrasting the height of the cushion and the consequent elevation of the cue, with the horizontal position in which the cue may be held, while playing at ball *e* under one of the Combination Cushions, (Fig. 4) the immense advantage of Mr. Phelan's alteration must be at once perceived. The cushion represented in Figure 2, is made of India rubber, sometimes "solid," at others "hollow," and when the ball comes in contact with this kind of cushion, it sinks in and imbeds itself as shown by the dotted line upon the ball *d* in Figure 3.

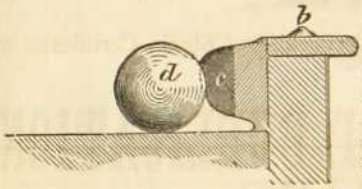

Fig.3.

In Figure 3, the part marked *c* represents a section of the "English pattern" india rubber cushion; and the dotted line on *d* shows the depth to which, on account of its excessive elascity, the ball may imbed itself. Striking any of these india rubber cushions at an angle, and imbedding itself as represented, the india rubber displaced by the shock is forced to swell out in front of the impinging ball, thus making in fact a second cushion *before it*, and consequently causing it to rebound at an improperly acute and irregular angle of reflection.

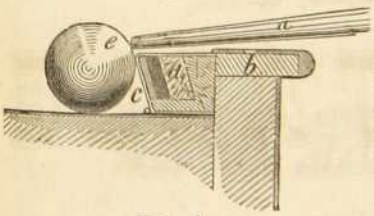

Fig. 4.

Figure 4 represents a section of the patent combination cushion, in which, after a long series of experiments, the patentee succeeded in fulfilling the various requirements of science. The "sights" are inlaid so as not to impede the player's action. The cushions are so low as to admit of the cue's being held in a horizontal position while striking over them; and yet from their peculiar form and the substance of which they are composed, the ball after striking them is not liable to "jump," or "hop." Neither so absurdly elastic as the india rubber, nor so dull as "cloth," they are made of materials which no change of climate can affect, and which throw back the impinging ball at an angle of reflection mathematically correct and certain. To all who love the stirling science of the game—to all, in fact, except those who play for "frantic scratches"—the beautiful precision of rebound in the Combination Cushions will give unlimited satisfaction.

Upwards of a year has now elapsed since their first introductiion to the public, and the proprietor has yet to hear the first complaint against their durability, and the excellence which they originally exhibited. Numerous improvements have been made in the tables since the first were manufactured, and the patentee now flatters himself that he has succeeded in bringing them to as great a state of perfection as our present knowledge of the arts will admit.

They have received the warm approval of the first amateurs and professional players in the country; they have been adopted, even in the first year of their existence, by many of the best clubs and hotels of New York, Philadelphia, Boston, Baltimore and elsewhere; and scarcely a day passes that we are not called upon to replace the false and exploded cushions formerly in use, with new sets of Mr. Phelan's improvement.

JOHN C. RIKER,

PUBLISHER AND WHOLESALE BOOKSELLER,

315 BROADWAY, NEW YORK,

Invites the attention of Booksellers to the following valuable Works:—

The Marsh Series of Works on the Practice of BOOK-KEEPING.

The Course of Book-Keeping by Double Entry. Printed in Colors. 220 pp. octavo, bound in cloth. Price, $1.25.

This work contains a complete set of Account Books and Mercantile Forms, with an ORIGINAL DIAGRAM, and ninety pages of familiar explanations, dated to apply directly to the entries and transactions in the account books; also, thirteen pages of Mercantile Calculations, Discount and Interest, Insurance, Equation of Payments, Exchanges, &c. It is admirably adapted for Schools and Counting Houses, and for Private Instruction.

The Course of Book-Keeping by Single Entry. Improved by the introduction of a Proof or Balance. (New Edition.) Printed in Colors. 142 pp. octavo. Price, 75c.

This work embraces a thorough course of instruction in keeping books by Single Entry. A complete set of books filled with a good variety of business transactions, through which the instruction conducts the student by progressive steps. Most particularly adapted to schools.

Blank Books in Sets, for Practice of Book-keeping. A very neat and appropriate set of Blanks, with instructions, got up expressly for the use of Pupils in Book-keeping, on superior paper. By C. C. Marsh. Price, per set, 75c.

Mr. Marsh is also author of the above works in the **SPANISH LANGUAGE**, and of an elaborate work on "The Theory and Practice of Bank Book-keeping, and Joint Stock Accounts."

"Most of the works heretofore issued make 'confusion worse confounded;' but THE ADMIRABLE SYSTEM OF JOURNALIZING ORIGINATED BY MR. MARSH, is so plain and comprehensive that the student cannot possibly misunderstand.

"The work is dedicated to the clerks of this country—to them we cordially recommend it."

THE COMPLETE WORKS OF THOMAS JEFFERSON.

Printed from the Original Manuscripts, by authority of Congress, comprising his Autobiography, Correspondence, and other writings, Official and Private; also, his celebrated Manual of Parliamentary Practice. 9 vols. 8vo. Price, Cloth, per vol., $2. Do. half-calf antique, $2.75.

"The work is admirably gotten up, well arranged for reference, and illustrated by satisfactory and intelligent notes. The first volume contains an elegantly engraved likeness of Jefferson, and a specimen of his autograph, being a FACSIMILIE OF THE ORIGINAL DRAFT OF THE DECLARATION OF INDEPENDENCE.

This work is an individual donation to the people of America, and to the whole world also, as it contains the germs of Republicanism that developed themselves so gloriously in this land, and are sinking in the hearts of the oppressed in every nation under the heavens. It is the duty of every American citizen to familiarize himself with the teachings of this inspired Apostle of Freedom. All of us profess to belong to the Jeffersonian school; yet how few are acquainted with his lessons of wisdom! We have now an opportunity of acquiring them."

For other works, THEOLOGICAL, SCHOOL and MISCELLANEOUS, also, AUTOGRAPH BOOKS, ALBUMS, SCRAP-BOOKS, &c., see J. C. RICKER'S TRADE LIST.

Country Merchants, Booksellers, Librarians, School Committees, &c., furnished at the lowest Prices. Orders promptly attended to.

MEN, WOMEN AND BABIES,

Or the Laws of God applied to the Obtaining, Rearing, and Developing the Natural, Healthful, and Beautiful in the Human Being.

BY DOCTOR PORTER, OF NEW YORK. (PRICE ONE DOLLAR.—POSTAGE FREE.) OFFICE 216 FULTON STREET.

TO THE PUBLIC.

READ THIS.

Do you wish to obtain, retain, and enjoy a pleasing countenance, a well formed body, glorious health, and mental happiness? Do you wish to know all that is known of the human body, Male and Female, and of Health and Disease, with the means for preserving the former and healing the latter? Then read this book—it will teach you.

PARENTS.

The United States Journal thus addresses you—

"Here is a book that all mamma-and-papa-dom ought to read—aye, and study and adopt as part of their practice. It is full of valuable hints, and dispenses instruction which, if known and acted upon, would give our babies a fair start in life, *at the start* and enable them to grow up well developed men and women.

"Racy, interesting, and instructive, however, on the whole, is this book about Men, Women and Babies—*almost the dearest trinity of human interest.*"

MOTHERS.

Says the *Daily Times*, "will find in this book many practical hints, and such instructions as will supersede the necessity of calling in a physician upon all occasions, and otherwise tend to the promotion of health and contentment in their household."

WIVES.

Who desire a correct knowledge of the whole science of the Human Body may read this book with great profit.

YOUNG MEN AND WOMEN.

This book shows you *why* Health in a human being, is the perfection of bodily organization, and the full expression of all the faculties and passions acting in harmony together with reason. It will show you that Health is Beauty, Energy, Purity and Happiness. As the *N. Y. Sunday Atlas* says—

"Such is the title of a book of real, practical utility, and which contains more sound philosophy and good sense than we have ever seen in a book of the kind before. The Doctor's observation in choosing mates for life, and upon marriage and the rearing of children, meet with our cordial approbation."

☞ TO CLERGYMEN AND TEACHERS—This is a treatise on the whole science of MAN; it contains the highest and deepest truths in each department of human Physiology, with their individual application: discusses the effects of Food, Drinks, Clothing, Air, Exercise, Sleep, on both body and mind; and points out the means of removing the terrible evils which are destroying Health, shortening Lives, and sacrificing the Happiness, here and hereafter, of millions.

"This admirable little work is written in an easy, intelligible style, and arranged in short chapters. It is worthy to be in the possession of all who desire their own or the world's welfare."—*N. Y. Sunday Times.*

"This is a valuable pocket volume for man, woman and child; there is more wholesome information compressed into it, on the conduct of life, than ever before was in print."—*N. Y. Sunday Courier.*

PROFITABLE EMPLOYMENT FOR THE YEAR.

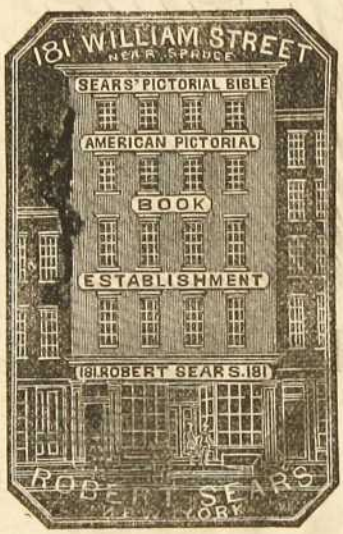
PLEASE TO READ THIS! AGENTS WANTED! EXTRA INDUCEMENTS FOR 1858.

☞ ALL PERSONS IN WANT OF EMPLOYMENT will at once receive our CATALOGUE OF BOOKS for the New Year, prepaid, by forwarding us their address. Particular attention is requested to the liberal offers we make to all persons engaging in the sale of our Large Type Quarto **PICTORIAL FAMILY BIBLE**, with about ONE THOUSAND ENGRAVINGS. Our books are sold only by canvassers, and are well known to be the most saleable. To men of enterprise and tact, this business offers an opportunity for profitable employment seldom to be met with. Address (postpaid)

ROBERT SEARS, Publisher, 181 William st. New York.

☞ We feel anxious to introduce our "LARGE TYPE QUARTO PICTORIAL FAMILY BIBLE," with about 1000 Engravings, into Canada, and trust you will order at least one Copy for your own family. It will be forwarded at the New York retail price, SIX DOLLARS, prepaid, to any central point, on an Express Route; or two Copies for TEN DOLLARS, remitted in Canada Money. SUCH A WORK IN ENGLAND WOULD COST ABOUT THREE TIMES THIS SUM.

The $25 Box of Specimen Books, assorted, as per Catalogue, at the Wholesale Prices, will be forwarded, FREE OF EXPENSE, to any well known place in Canada.



☞ An Elegant GIFT for a father to present to his family. Price only SIX DOLLARS, well and substantially bound.

CHRISTIAN READER! HAVE YOU A FAMILY BIBLE?

☞ *Secure without delay this precious gift for your Wife and Children.*

☞ The following Work is destined, if we can form an opinion from the Notices of the Press, to have an unprecedented circulation in every section of our wide-spread continent, and to form a distinct era in the sale of our Works. It will, no doubt, in a few years become the FAMILY BIBLE OF THE CANADIAN PEOPLE:

SEARS' LARGE TYPE QUARTO BIBLE,

FOR FAMILY USE, ENTITLED

The People's Pictorial Domestic Bible;

Being the OLD and NEW TESTAMENTS, *according to the Authorized Version.* Illustrated with about One Thousand Engravings, representing the Historical Events, Landscape Scenes, Antiquities, Costumes, Beasts, Birds, Insects, Plants, and Trees, Minerals, Coins, Medals, Inscriptions, from the most Authentic Sources.

WITH FIFTY THOUSAND MARGINAL REFERENCES.

To which are added, Ancient Chronology, by Abraham Colovius; a Summary of the whole Scripture; an accurate Copperplate Map of Palestine; a beautiful engraved Family Record, etc., etc.

☞ *Each Chapter commences with an Illuminated Letter.*

The whole printed upon superior paper, and substantially and elegantly bound in one quarto volume of FIFTEEN HUNDRED PAGES.

☞ The Text, together with the marginal references, is printed from the standard edition of the American Bible Society.

☞ On the receipt of SIX DOLLARS we will forward, free of all expense, to the agent or purchaser, a copy of the BIBLE, with a bound SUBSCRIPTION BOOK, carefully boxed; and guarantee its safe delivery and perfect condition to any central town or village throughout the United States, or any part of Canada, Nova Scotia and New Brunswick.

*** Register your letters at the Post Office, and your money will come safe. It will cost you five cents on each letter. Use a whole sheet when you inclose bills, and have the letter well and securely sealed.

*** Any further information you may desire relative to this enterprise will be cheerfully given by addressing as above.

CHILD'S CARRIAGE,

OR PERAMBULATOR.

GOULD'S PATENT.

This Carriage is superior to every thing of the kind now in use, both for safety, ease, comfort and elegance. There is no doubt but that they will supersede all other kinds, as they have done in Europe, where none who have children would be without them. The great advantages are that you have always the children before you. They are so easily managed that they can safely be trusted to the care of a child. In crossing streets where there are high curbstones, or wide or deep gutters, they pass over with equal ease and safety. They are so built that they cannot possibly turn over—can be used in the nursery as well as in the streets or parks. They are recommended by all physicians as being conducive to children's health and comfort. Ladies giving their children an airing in this Carriage will find it a pleasing and elegant recreation, as they do in London or Paris.

THROUGH IN SIX MINUTES.

AUSTIN'S PATENT

CREAM FREEZER,

An extraordinary and astonishing improvement in
CREAM FREEZING.
Will freeze in
SIX MINUTES,
by a simple and elegant application of well-known principles, producing this desirable and surprising result. A child of ten years can manage it without difficulty.

Three SILVER MEDALS, awarded by the Maryland Institute, and FIRST CLASS DIPLOMA of the Metropolitan Mechanics' Institute, attest the superiority of this apparatus over all others.

As a further and convincing proof of the excellence of this Freezer, the undersigned would state that THOUSANDS have been sold since the patent was issued.

The largely increasing demand for this popular article induces the Agents to remind dealers to forward their orders early, and thereby prevent delay.

Orders by mail will meet with prompt attention.

Annexed is a list of the retail prices of the Freezer, for the convenience of those wanting a single one:

PRICES OF FREEZER.—Two quarts, $2: Three quarts, $3; Four quarts, $4; Six quarts, $5; Nine quarts, $6; Fourteen quarts, $8; Twenty quarts, $11.

Address, J. & C. BERRIAN,
No. 601 Broadway, New York, Agents for Patentee.

AUSTIN'S ICE-WATER PERCOLATER.

FILTER AND COOLER COMBINED.

This apparatus will be found, on trial, admirably adapted to the speedy and effectual purification of turbid hydrant, rain or river water, for drinking, cooking and washing purposes, where perfectly clear water is requisite. Southern and Western merchants visiting New York are specially invited to call and examine this article, as it is believed that one of the prominent causes of fevers arise from the use of impure water.

For all localities where the water is impure—for the use of Ocean and River Steamers, Hotels, Public Institutions and families, we offer this FOUNTAIN OF HEALTH. For sale by J. & C. BERRIAN.
Sole Agents for the Patentee, No. 601 Broadway, N. Y.

Prices.—No 1, four gallons, $7.50; No. 2, six gallons, $9; No. 3, ten gallons, $12.

B. T. BABBITT'S APPARATUS

FOR

ENEMA-GIVING, OR INJECTION,

PATENTED, MARCH 17, 1857,

Is one of the most simple constructions that has ever appeared before the Public, and is called the

FOUNTAIN PORTABLE INJECTOR.

It operates by gravity or weight of water, or whatever fluid employed. It has *no valves*, no cocks, no pump, no pistons to dry up and become unfit for use; and it operates without *labor*,—it is easily kept clean, and is cheaper than any other offered in market, and will not get out of order in twenty years, nor *dry up* like some.

What led the Proprietor to *invent* this INJECTOR, was, that to his great astonishment, he cured the Dysentery with an Injector in a very short time, which he had been subject to for months, and nothing would cure until the application of the Injector, and he has not been troubled with it since—it acting like a charm.

No *child, woman or man*, need suffer with the Cholera, Dysentery, Piles, Vomiting, Fevers, Inflammation in the Bowels, etc.

Evacuate the bowels independently of any cathartic or purgative effect.

Shield the intestines from irritating matter or secretions.

Relieve painful and spasmodic affections of the intestines and stomach.

Dislodge worms from the rectum.—Produce a cathartic, tonic, or other Medicinal effect where the stomach is too irritable to tolerate medicine.

Relieve the sufferings from Piles, and other disorders of the rectum.

Afford nourishment to the system when there is an inability to swallow. Injections make a prompt impression upon the general system, and are useful in a variety of diseases, as Croup, Hysteria and Convulsions, Determination of blood to the head, Inflammation also of the Liver; Kidneys, Tetanus or Lock-jaw, Hydrophobia, etc.

The rectum and adjacent organs are powerfully impressed by injections, and consequently they exercise a beneficial influence in inflammation of the bladder, and womb, as also in retention of urine, painful stricture of the urethra, flooding after childbirth, &c.

Persons of a costive habit who are troubled with tedious or painful stools, or who suffer with a disagreeable or uneasy sensation in the rectum for many hours after a stool, will find injections of great value in relieving the bowels, as they will procure an immediate evacuation, and greatly diminish the sufferings which would otherwise ensue; in suspended animation, warm stimulant injections are sometimes of great importance in arousing the dormant energies of life, and deserve to be remembered, when other means are likely to fail. *Life* has been sustained for *sixty* days by injections, where the individual has been unable to swallow.

There are very few ailments in which injections are not more or less beneficial, and in the slighter disorders to which the people are exposed, they will be found to constitute a safe and efficient class of domestic remedies.

SOMETHING NEW.

B. T. BABBITT'S BEST MEDICINAL SALERATUS

IS MANUFACTURED FROM COMMON SALT. B. T. BABBITT'S BEST SALERATUS

68 AND 70

Is prepared entirely different from other Saleratus. All the deleterious matter extracted in such a manner as to produce Bread, Biscuit, and all kinds of Cake, without containing a particle of Saleratus when the Bread or Cake is baked: thereby producing wholesome results. Every particle of Saleratus is turned to gas and passes through the Bread or Biscuit while baking, consequently nothing remains but common Salt, Water and Flour. You will readily perceive by the taste of this Saleratus that it is entirely different from other Saleratus. When you purchase one paper you should take the old paper with you, and be very particular and get the next exactly like the first (name and picture, twisted Loaf Bread, with a glass effervescing water on the top, as you see in the bill.)

Full directions for making Bread with Sour Milk and Cream Tartar, and all kinds of Pastry: also, for making Soda Water: also, directions for making Seidlitz Powders, will accompany each package.

68 AND 70

WASHINGTON STREET, N.Y., AND AT 38 INDIA STREET, BOSTON.

PURE POTASH IN TIN CANS.

B. T. BABBITT, 68 Washington Street, N. Y.; and 38 India Street, Boston.

The proprietor of this POTASH has for many years seen the necessity of having some reliable standard for the strength of Potash. The adulteration has become so general, that it has, notwithstanding its valuable properties, gone nearly out of use.—The proprietor has taken the responsibility of subscribing his name to every package, and warrants the strength to be uniform, and when used always producing the same results. Potash many times is adulterated with salt, which is destructive in making soap. It makes the Ladies say they did not have good luck, &c. One other reason why Potash has gone out of use is, because it is so unpleasant to handle, being put up in wooden casks, and becoming a liquid in many cases, and very troublesome to the retailers.

Now the proprietor first obtains pure Potashes, always being of the same strength, and producing the same results; and will warrant it in all cases, if the directions are followed, to produce double the effect in making soaps, and all other purposes for which Potash is used, with full directions for making the best of Soft, Hard, or Fancy Soaps. It is made with little trouble; the lye is all prepared in five or ten minutes.

1 lb. Potash warranted to cut 5 lbs. of grease into good Soap.
12 lbs. will make one barrel of beautiful Soft Soap.
Directions for making Soft Soap.
Directions for making Hard Soap.
Directions for Laundries and Hotels.
Directions for cleaning cotton waste that has been used for cleaning machinery of all kinds.
Directions for using this Potash in place of Sal Soda.
Directions for sticking india-rubber soles on Shoes.

☞ All the above directions accompany the can.

A BEAUTIFUL HEAD OF

RICH GLOSSY HAIR;

Completely Preserved to the Greatest Age.

And who that is gray would not have it restored to former color; or bald, but would have the growth restored; or troubled with dandruff and itching, but would have it removed; or troubled with scrofula, scald head, or other eruptions, but would be cured; or with sick head ache, (neuralgia) but would be cured. It will also remove all pimples from the face and skin. PROF. WOOD'S HAIR RESTORATIVE will do all this, see Circular and the following:—

ANN ARBOR, November 5, 1856.

PROF. O. J. WOOD.—Dear Sir: I have heard much said of the wonderful effects of your Hair Restorative, but having been so often cheated by quackery and quack nostrums, hair dyes, &c., I was disposed to place your Restorative in the same category with the thousand and one loudly trumpeted quack remedies, until I met you in Lawrence county some months since, when you gave me such assurance as induced the trial of your Restorative in my family—first by my good wife, whose hair had become very thin and entirely white, and before exhausting one of your large bottles, her hair was restored nearly to its original beautiful brown color, and had thickened and become beautiful and glossy upon and entirely over the head; she continues to use it, not simply because of its beautifying effects upon the hair, but because of its healthful influence upon the head and mind. Others of my family and friends are using your Restorative with the happiest effects; therefore, my scepticism and doubts in reference to its character and value are entirely removed; and I can and do most cordially and confidently recommend its use by all who would have their hair restored from white or gray (by reason of sickness or age) to original color and beauty, and by all young persons who would have their hair beautiful and glossy.

Very truly and gratefully yours,

SOLOMON MANN.

WAYLAND, MASS., Feb. 5, 1857.

PROF. O. J. WOOD & Co.—Gents:—Having realized the good effects of your Hair Restorative, I wish to state, that finding my hair growing thin, as well as gray, I was induced from what I read and heard, to try the article prepared by you, to promote its growth and change its color as it was in youth; both of which it has effected completely. In the operation I have used nearly three bottles.

Yours &c.,

JAMES FRANCIS.

CARLYLE, ILL., June 28, 1852.

I have used Prof. O. J. Wood's Hair Restorative, and have admired its wonderful effects. My hair was becoming, as I thought, prematurely gray; but by the use of his Restorative it has resumed its original color, and have no doubt permanently so.

S. BRESSE, ex-Senator, U. S.

DOVER, N. H., Feb. 2, 1857.

PROF. O. J. WOOD & Co.—Gents: Within a few days we have received so many orders and calls for Prof. O. J. Wood's Hair Restorative, that to day we were compelled to send to Boston for a quantity, (the 6 dozen you forwarded all being sold,) while we might order a quantity from you. *Every bottle we have sold seems to have produced three or four new customers*, and the approbation and patronage it receives from the most substantial and worthy citizens of our vicinity fully convince us that it is a MOST VALUABLE PREPARATION.

Send us as soon as may be one gross of $1 size; and one dozen $2 size; and believe us yours very respectfully,

(Signed) DANIEL LATHORP & CO.

HICKORY GROVE, St. CHARLES Co., MO., Nov. 19, 1856.

PROF. O. J. WOOD.—Dear Sir:—Some time last summer we were induced to use some of your Hair Restorative, and its effects were so wonderful, we feel it our duty to you and the afflicted to report it.

Our little son's head for some time had been perfectly covered with sores, and some called it scald head. The hair almost entirely came off in consequence, when a friend, seeing his sufferings, advised us to use your Restorative, we did so with little hope of success; but, to our surprise, and that of all our friends, a very few applications removed the disease entirely, and a new and luxuriant crop of hair soon started out, and we can now say that our boy has as healthy a scalp, and as luxuriant a crop of hair, as any other child. We can therefore, and do hereby recommend your Restorative, as a perfect remedy for all diseases of the scalp and hair. We are, yours respectfully,

GEORGE W. HIGGINBOTHAM,
SARAH A. HIGGINBOTHAM.

GARDINER, MAINE, June 27, 1855.

PROF. O. J. WOOD.—Dear Sir:—I have used two bottles of Professor Wood's Hair Restorative, and can truly say it is the greatest discovery of the age for restoring and changing the hair. Before using it I was a man of seventy. My hair has now attained its original color. You can recommend it to the world without the least fear, as my case was one of the worst kind.

Yours respectfully,

DANIEL N. MURPHY.

PRESERVATION OF THE HAIR.—In all ages and among almost all tribes of men, a beautiful head of hair has been, and still is, regarded as the fairest ornament of the fairest works of the Creator. The patrician dames and damsels of ancient and modern Rome bestowed that attention upon the hair which has added the crowning beauty to the *chef d'œuvre* of the sculptor and the painter; and no lady, and indeed no gentlemen, of modern times, is unmindful of this exquisite shield and lovely ornament of the race. To maiden beauty it is the finishing touch; to manhood it is the symbol and warrant of strength and nobility, to-day as in the days of the patriarchs; indeed, such it always has been and always will be.

But unable as we are to withstand the ills of time and life, it often happens that through disease and misfortune we become gray in early life, and bald before we reach the full grace of womanhood or the full stature of manhood. Then it is that, however much we may venerate the gray locks and reverence the wisdom of bald heads among the honored remnants of the generation of three score and ten, we know that our gray hairs are no more venerable than beautiful; while our bald heads are neither the one nor the other; but, on the contrary, are quite the reverse of both, and impose upon us many social and sanitary disadvantages and discomforts.

Then it is that the man who can relieve us of the misfortune, and restore the fleecy locks to their original color and growth, becomes a real friend and benefactor, by the force of this single exhibition of his genius and skill. And much as we are opposed to empiricism, and empiric as we instinctively regard the pretensions of every one proposing to accomplish such a miraculous work, until we have seen the triumph of his undertaking, we nevertheless esteem it a pleasure, resting upon our absolute knowledge of its merits, to recommend Professor Wood's Hair Restorative as the best article of the kind with which we are acquainted, and one which has done, under our own observation, all that it claims—and it claims everything implied in its name.

This article, in short, will restore gray hair to its original color, and add to its growth and beauty wherever any blight or disease has checked that growth or marred that beauty. This has been proven in our own family within a few weeks, and in numerous other cases related to us, without the knowledge of the proprietor. We have only to add, that this most valuable article is for sale by the proprietor, at No. 312 Broadway.—*New York News.* Sold by all respectable Druggists.

O. J. WOOD & Co., Proprietors, 312 Broadway, New York, (in the great N. Y. Wire Railing Establishment,) and 114 Market st. St. Louis, Mo.

And sold by all good Druggists in the United States and Canada.

New York, October, 1857.

BATCHELOR'S HAIR DYE.

THIS CELEBRATED HAIR DYE is the Best in the World; its celebrity has reached the whole circumference of the globe; every country where civilization exists have patronized this surpassingly excellent HAIR DYE; 20 Years' attention to its Manufacture, its practical application at Batchelor's Establishment in New York, upon over 200 Thousand persons, the Diplomas, &c., attest the fact that the superiority of this Dye can never be lessened; observe the Hundreds of Dyes, so called, put forth to rival this grand original—note the ridiculous dilemmas they lead those into who unfortunately use them; the Rainbow Tints, the Blisters, the Fits, the destruction of the Hair, &c., &c. Avoid the risk of these evils, use your judgment, and avail yourselves of the Lustrous Black or Beautiful Brown, produced by WM. A. BATCHELOR'S HAIR DYE, made, sold, and applied at the

FACTORY, 233 BROADWAY, NEW YORK.

And to be obtained of every respectable Druggist in Canada and the States.

INDIAN DOCTOR.

DOCTOR RUFUS WRIGHT,

OF

No. 74 East Broadway, New York,

Is well known as the INDIAN DOCTOR having been in practice for near Thirty Years, most of the time in New York City. He is at liberty to refer to some of the first families in this city, some of them professional gentlemen, well known to the public, where he has performed wonderful cures. Dr. Wright's practice is *unique*. He follows no man, copies no man, has a theory of his own, differing from all other practitioners in this city. Dr. Wright's theory is that of *restoration* in opposition to that of *prostration*. He does not believe in knocking a person down to show his skill in picking him up, in other words, to reduce a person to the lowest extremity, and then show your wisdom in raising him. He considers it wrong to give a patient an article of medicine which would destroy life if given to a certain extent. He believes that in all cases the *food and medicine should agree*, the food to nourish and strengthen the body, and the medicine to act as a friend, who carefully supports his patient with one hand while he (as far as possible) with the other removes his diseases; that animal heat is the life of the blood and the blood is the life of the body, the heat is derived from the food, this being decomposed by the organs of digestion; the caloric which is contained in the food is liberated and taken up by the lacteals with the chyle, and carried into the circulation of the blood. Furthermore, that all articles of medicine, whether they be mineral or vegetable, that do not agree with the above principles, should be rejected as unsound in theory and injurious in practice. For over a quarter of a century, Dr. Wright has tested his theory in a *successful practice*, and in all cases where there was life enough left for medicine to act upon he has met with universal success.

Dr. Wright has treated with success all the cases which are described by medical authors. He has cured *Consumption, Dropsy, Hydrophobia, Lock Jaw, Hip Disease, Amaurosis*, and Fevers of every kind. He can prepare medicine which will break any fever in from one to three hours without injury to the patient. The Doctor keeps constantly on hand a general assortment of Roots and Herbs of American growth.

Let none despair who are afflicted with any of the diseases to which flesh is heir; but be sure to give the Doctor a call. Dr. Wright has been very successful in the cure of patients who were given up by other physicians.

LYON'S MANIFESTO.

WHEREAS, Counterfeiters and Imitators, moved by a desire to share the profits accruing from the sale of LYON'S MAGNETIC POWDER and PILLS with the Inventor of those articles, have got up a variety of POISONOUS COMPOUNDS to represent the same; Therefore, be it known, that the only POISONLESS, INFALLIBLE and IMMEDIATE MEANS of DESTROYING BEDBUGS, ROACHES, PLANT LICE, ANTS, MOTHS, FLIES, and other insects, is LYON'S MAGNETIC POWDER; and that the only preparation which can be depended upon for cleaning houses, &c., of RATS and MICE, is LYON'S MAGNETIC PILLS. The Certificates to this effect are of a higher character than were ever before given to an inventor or discoverer of any article used for domestic purposes. LYON has received four national medals, together with letters from Prince Albert, the King of Prussia, the President of the United States, and the first Scientific Men in Europe and America. He invites attention to the same, at his Central Depot.

HALSEY'S

FOREST WINE & GUM-COATED FOREST PILLS.

PUBLIC CAUTION.—In 1845, after years of study and labor in the discovery of my Recipes, I began the preparation of my FOREST WINE AND PILLS on an extensive scale to meet the wants of suffering humanity, having had ample proof of their great efficacy. Their merits soon became known to liberal minded Physicians and the Invalid public, and the good effects experienced by all who used them, rapidly spread the demand for them throughout the United States and Foreign countries.

The high reputation and great popularity of the Forest Wine and Pills soon began to excite the avarice of unprincipled men, who issued bogus spurious articles under the name of "Forest Wine Bitters," and other similar names, presuming by this proximity of name to that of the genuine, to deceive the public, at the same time evade the law. These vile attempts to impose upon the public seldom met with success. Respectable Druggists and Dealers readily discovered the fraud and shunned the imposition, which such as innocently became the victim of Bogus imitations no sooner attempted to sell it than, to their disgrace, it was at once returned to them. Nevertheless, it is our duty to place the Public on their guard against such fraudulent articles. It should be understood that the *Original* and *True Forest Remedies* bear the names *Halsey's Forest Wine* on each bottle, and *Halsey's Gum-coated Forest Pills* on each box. The public should examine the label and purchase of men of integrity.

The following are the names of some of my Wholesale Agents in Upper and Lower Canada, where Country Dealers may rely on getting the Genuine Forest Wine and Pills, and on as favorable terms as they can be procured at my General Depot in New York.

Joseph Bowles, John Musson	Quebec.	Hamilton, Muir & Co	Hamilton.
Lyman, Savage & Co., Carter Kerry & Co	Montreal.	Fred. Pafford	St. Catharines.
John Roberts, Jennings & McCarthy	Ottawa City.	John Leslie, Joseph P. Thornton	Dundas.

Ormond & Gilmore	Peterboro'.	David Parish, L. M. Sprague	St. Thomas.
Chas. Brant	Port Hope.	N. H. Smith	Watertown, N. Y.
Lyman, Brothers & Co., S. F. Urquhart	Toronto.	Isaac Post	Rochester, N. Y.
J. Birkle & Son, Winer, Moore & Co	Hamilton.	Demorst & Holman	Buffalo, N. Y.

And for sale by the appointed Agents in almost every Town and Village in the United States, Canada and British Isles, and by the Proprietor at the General Depot, 64 Walker st. New York. Should there be any Village where Halsey's Forest Wine and Pills are not kept for sale, some one of the Druggists or Storekeepers will send for it for their Customers if requested to do so.

333 Broadway, New York,

AGENT FOR THE SALE OF THE BEST BOSTON & NEW YORK

PIANOS & MELODEONS.

THE LARGEST ASSORTMENT OF MUSIC MERCHANDISE IN THE UNITED STATES. PIANOS from five different Manufactures, *of every variety of style*—from those in plain rosewood cases, for $200, to those of the most elegant finish, for $1000. No House in the Union can come in competition for the *number*, *variety* and *celebrity* of its instruments, *nor the extremely low prices at which they are sold.* The Boston Pianos referred to above are Chickering's and Gilbert's.

HORACE WATERS' MODERN IMPROVED PIANOS,

with or without iron frames, have, in their NEW SCALE and IMPROVED ACTION, a *power* and *compass* of tone equalling the grand, with the *beauty* and *durability* of the square piano. The Press and first Music Masters have justly pronounced them equal if not *superior* to any other make. *They are guaranteed to stand the action of every climate.*

HORACE WATERS' MELODEONS (tuned, the equal temperament), *superior in each desirable quality*—sole agent for the sale of S. D. & H. W. Smith's celebrated Melodeons—can also furnish Melodeons of all other makers. Prices from $45 to $125; for two sets of reeds, $150; two banks of keys, $200; Organ pedal bass melodeons, $275 and $300.

MUSIC.—One of the *largest* and *best* Catalogues of Music now published; *sold at greatly reduced prices.* Music sent to wherever ordered, post-paid. Personal attention paid to all orders received by mail. Second-hand Pianos taken in exchange for new. Catalogues sent by mail. Great inducements offered to Agents to sell the above. A liberal discount to Dealers, Teachers, Seminaries and Clergymen.

Each Instrument guaranteed to give satisfaction, or purchase-money refunded. SECOND-HAND PIANOS AT GREAT BARGAINS constantly in store; prices from $30 to $140.

TESTIMONIALS FROM PROFESSORS AND OPINIONS OF THE PRESS.

"The Horace Waters' Pianos are known as among the very best. We are enabled to speak of these instruments with some degree of confidence, from personal knowledge of their excellent tone and durable quality."—*N. Y. Evangelist.*

Says "The Christian Intelligencer:" "Having inspected a large number of the Horace Waters' Pianos, we can speak of their merits, from personal knowledge, as being of the very best quality."

"Nothing at the State Fair displayed greater excellence in any department than the Piano-Forte manufactured by Horace Waters, of this City."—*Churchman.*

The following is taken from the "Christian Inquirer:" "The finest among the many pianos at the Crystal Palace are those placed there by Horace Waters, whose instruments are always popular."

"The treble is clear, pure, powerful, and very melodious, the bass is deep, rolling, and sonorous; the middle part is rich, and sympathetic, and possessing the power of singing, *i. e.* of uniting the sound of each tone, in a degree but rarely achieved."—*Henry C. Watson.*

"For power of tone, depth of bass, and brilliancy of treble, together with accuracy of touch, they are equal to any make I am acquainted with, and I cordially recommend them to those wishing to purchase."—*V. C. Taylor.*

"Our friends will find at Mr. Waters' Store the very best assortment of Music and of Pianos to be found in the United States, and we urge our southern and western friends to give him a call whenever they go to New York."—*Graham's Magazine.*

"We consider them worthy of special attention, from the resonant and exceedingly musical tone which Mr. Waters has succeeded in attaining."—*N. Y. Musical World and Times.*

"Waters' Pianos and Melodeons challenge comparison with the finest made anywhere in the country."—*Home Journal.*

Speaking of the Horace Waters' Pianos and Melodeons at the Crystal Palace the "New York Dispatch" says: "A number of these Pianos and pedal bass organ Melodeons, from their great power, and fullness and richness of tone, attract the very general attention and commendation of visitors. Waters' "New Scale" is recognized by artists as not only a *sensible* but *important* improvement in pianos."

The "New York Express" says: "The Horace Waters' Pianos are pronounced by musical amateurs as a decidedly superior article in *all* the requisites of this instrument, and it is fast superseding those of other manufacturers."

Says the "Evening Mirror:" They (the Horace Waters' Pianos) are very superior instruments, and the Maker may confidently challenge comparison with any other manufacturer in the country, as regards their outward elegance and quality of tone and power.

The "New York-Evening Post" says: "The Horace Waters' Pianos are *excellent* as well as *cheap*; but he has those of other makers, as well as second-hand ones, capitally adapted to limited means."

Says the "Knoxville (Tenn.) Standard:" "Mr. Waters has *long experience* in the business, and has gained a *reputation unsurpassed* for selling the best instruments in the country."

"The Sunny South" reaches us with the following: "This gentleman is one of the most extensive music-dealers in the Union. His Pianos and Melodeons have obtained great celebrity for their *excellent tone and durable quality.*"

Says "The Valley City Advocate:" "We have taken a look at a Piano which has just arrived from the celebrated Establishment of Horace Waters, and must say that for tone and beauty of finish, it surpasses any we ever saw for the price."

"Horace Waters' Piano-Fortes are of full, rich, and even tone, and powerful."—*New York Musical Review.*

KEROSENE LUBRICATING OILS,

Prepared to suit the finest and all other kinds of Machinery; burns brilliantly in Locomotive Head Lights, Car Lamps, and all the ordinary Solar and Hand Lamps, and stands as great a degree of cold as the best Sperm Oil.

This Oil does not gum, and possesses the property of dissolving the gum occasioned by the use of impure Oils.

KEROSENE BINNACLE OIL,

Prepared expressly for Ships' use, and will be found admirably adapted for use on Steamships, Men-of-War, Merchant Vessels, Lake and River Craft, and burns in all the Cabin, State Room, Binnacle, Forecastle Lamps, Signal Lanterns, &c.

Binnacle Oil will remain fluid as long as best Sperm, and will burn all night without requiring to be trimmed—an advantage that will be obvious to every Shipmaster.

KEROSENE ILLUMINATING OIL,

NOT EXPLOSIVE.

This Oil, being a pure distillation from Coal, without the admixture of alcohol or spirits of turpentine, is entirely inexplosive. By the statement of E. N. Kent, chemist, it will be seen that Kerosene is not explosive, even when heated to 212 deg. F., and, being less volatile than camphene, is not liable to smoke, and is well adapted for lighting Mills, Factories, and for general Family use.

INSURANCE COMPANIES allow it to be used without additional charge.

THE attention of the Trade is invited to our varied and extensive Stock of new and desirable Goods; our facilities being such, that in BEAUTY OF STYLE, EXCELLENCE OF QUALITY and CHEAPNESS, we are enabled to offer inducements unequalled by any other Manufacturers.

Our goods being all manufactured under the immediate supervision of the Firm, and our facilities being such that we are enabled to obtain all our materials direct from the original Manufacturers in different parts of the world, we can guarantee their QUALITY to be UNEXCELLED, and the STYLE in which they are put up we are confident in pronouncing UNEQUALLED.

In addition to the unprecedented popularity of our Goods with the Trade, we have received the most flattering encomiums from the Press throughout the country. We have space, however, for the following specimens only.

The *Boston Chronicle* says:—

"We take pleasure in calling the attention of dealers in Perfumery and Toilet Articles to the advertisement of HEATH, WYNCOOP & Co., of New York, extensive manufacturers, whose reputation for producing the very best articles of every kind stands unrivalled in the country. No dealer should neglect to give them a call."

The New York *Evangelist*, in concluding an editorial on our Perfumery, says:—"In addition to the excellence of their Perfumery, the beautiful manner in which it is put up, we are convinced, cannot be excelled."

The *Merchants' and Manufacturers' Journal* says:—

"Messrs. HEATH, WYNKOOP & Co., of No. 63 Liberty st., New York, famous as proprietors of the celebrated "Lyon's Kathairon," have gone very largely, also, into the manufacture of Perfumery of all kinds. For beauty, excellence and cheapness, we are confident their goods cannot be excelled, if we are to believe the reputation they have amongst the Trade."

We shall be happy to mail our Catalogue to the Trade upon request.

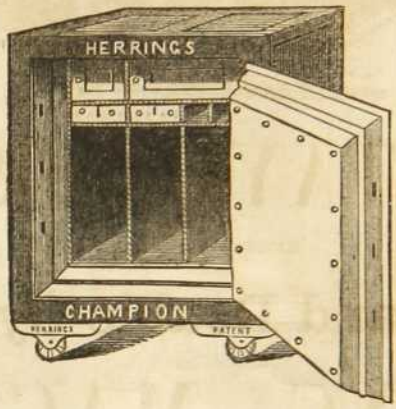
HERRING'S

Patent Champion

FIRE AND BURGLAR PROOF SAFES.



THE great interest manifested by the Public to procure more perfect security from Fire for valuable papers, such as Bonds, Mortgages, Deeds, Notes, and Books of Account, than the ordinary SAFES heretofore in use had afforded, induced the Subscribers to devote a large portion of their time and attention, during the past FOURTEEN YEARS, in MAKING IMPROVEMENTS and DISCOVERIES for this OBJECT; and they now beg leave to assure their numerous Friends and the Public generally, that their efforts have been crowned with complete success, and now offer their

WILDER'S PATENT

SALAMANDER SAFES.

THIS thoroughly fire-proof article of OUR MANUFACTURE, has been in use throughout the country for fifteen years, and has been severely tested in TWO HUNDRED AND TWENTY-EIGHT ACCIDENTAL FIRES, and has invariably maintained its fire-proof qualities. Numerous Certificates from all parts of the United States can be seen at the Depot; also, TESTED SAFES, with the books and papers, which have passed through the hottest fires. They are now secured by the

CELEBRATED PATENT "LA BELLE LOCK,"

Which is both thief and powder-proof, with a small key, which can be carried in the vest pocket.

They are finished in a superior manner, with or without inside iron vaults, and are fitted with the interior arrangements, as may be desired by the Purchaser.

Our Plate Chests are specially adapted for Private Families, Public Houses, Churches, Lodges and Societies, to preserve Plate, Jewellery and other valuables from Burglars.

We invite the attention of all Merchants, Bankers, Professional Men, Hotel Proprietors, Public Officers, Manufacturers, and others in need of the above, to our extensive stock of Safes.

ROBINSON & ROPER'S

PATENT

"Hand Stitch" Sewing Machine,

For Tailors' & Family Use,

The only Machine that sets a "REAL LIFE-LIKE" hand-stitch, perfectly simple and every way reliable.

This Machine ACTUALLY SEWS; uses but a SINGLE thread, THEADS its own needles, and takes every variety of THROUGH stich WITHOUT LOOP OR CHAIN. It will HEM OVER-HAND, FULL, HALF & QUARTER BACK-STITCH, SIDE-STITCH, RUN AND GATHER, and is the only Machine that can be practically used for the various kinks of FAMILY SEWING. The stitches are formed the SAME as in HAND sewing, and except in the Perfection of their accuracy and regularity cannot be distinguished from Hand work. The work is performed with at least SIX times the RAPIDITY, while being of vastly superior QUALITY to the best hand sewing.

IMPROVED

SEWING MACHINES;

FOR

STITCHING AND CLOSING,

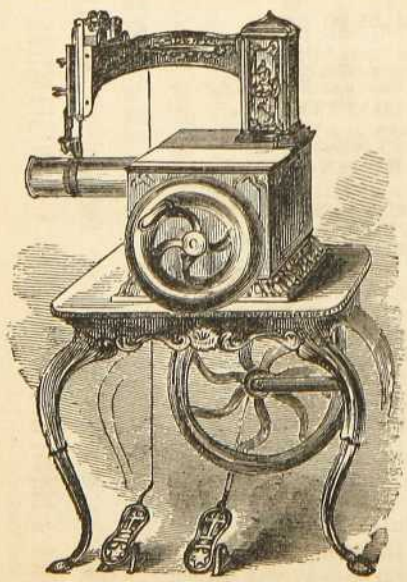
FROM

FINEST CLOTH TO HEAVIEST HARNESS WORK,

Either with or without

WAXED THREAD,

RUNNING AT ONE THOUSAND STITCHES A MINUTE!



No other Machines have ever been offered to the Public that combine so many advantages, or can equal them for beauty and strength of stitch, certainty of operation, durability, convenience and power of execution. Their construction is simple and execution rapid.

Being adapted for sewing all kinds of **CLOTH** or **LEATHER**, they are invaluable aids to **Boot, Shoe,** and **Ladies' Gaiter Boot Manufacturers; Tailors, Saddle, Harness,** and **Carriage Makers; Cloak, Bonnet, and Mattress Manufacturers,** and all others whose work is done with the needle.

They make a strong seam with a fair stitch on both sides, impossible to rip, as it cannot be unravelled. They use less than one-half the amount of thread which is used by Ravel Stitch Machines, thus making a saving of one to three dollars a week when silk is used. **Also, they save much by using Cotton and Linen Thread as well as Silk.** For Custom Made Clothing our Machines combine advantages which cannot be found in any other.

On enamelled leather they sew regularly, without applying any oily substance to the enamelled surface.

These are the only Machines ever manufactured which make a fair stitch on both sides with a waxed thread. The thread is waxed by the Machine while in operation.

As many Sewing Machines heretofore sold have been so liable to get out of order, and important parts become useless from want of sufficient strength, we have been particularly careful to give great strength and efficiency to all parts of our Machines. **Every Machine is carefully Inspected and Warranted before it is sold.**

Corn Starch	**Starch, Ground**	**Corn Flour**	**Maizena**
For Laundry Purposes.	For Manufacturers.	For Confectionery.	For Culinary Purposes.

THE Subscribers are furnishing the Trade with the above named articles, manufactured from the best selected Indian Corn; warranted equal, if not superior, to any similar articles made in the world—an opinion fully sustained by all who have examined or used them.

Their Factory is located at Glen Cove, L. I., at easy distance from the Metropolis, and is possessed of advantages which do not attach to any other establishment of the kind. The water employed is drawn from boiling springs, and is remarkably pure and wholesome. No water could be better fitted for the production of an extraordinary quality of Starch, and substances destined to be used largely for food.

The apparatus has been got up and arranged with a perfect knowledge of the most successful contemporaneous concerns; and embrace many new inventions, the use of which we have secured to ourselves exclusively, which greatly facilitates the production of articles of a superior and invariably uniform quality—a desideratum of the utmost importance both to the Trade and Consumer.

The Starch and other preparations from Indian Corn offered by the Subscribers are all manufactured under their immediate supervision, and are warranted of the best possible quality. The purchase money will be refunded and all expenses made good in any case of discrepancy between the real and alleged merits of their articles.

The Trade in general are respectfully invited to call at the Depot and examine for themselves, before purchasing elsewhere.

All orders addressed to WILLIAM DURYEA, Agent, 201 Fulton Street, New York City, or to the Glen Cove Starch Manufacturing Co., Glen Cove, L. I., will receive prompt attention.

OSWEGO, N. Y.—A City and Port of Entry situated on both sides of the river of the same name, at its entrance into Lake Ontario. The harbor (one of the best on the Lake) is formed by a pier built by the U. S. government, 1219 feet long, with an entrance 250 feet wide. There are owned at this place several steamboats and schooners, with an aggregate tonnage of more than 20,000; besides canal boats with nearly the same amount of tonnage. A considerable portion of the trade between New York and the West passes through Oswego and the Welland canal around the Falls of Niagara. The canal here, called after the name of the City, besides affording the means of transportation that has so greatly contributed to the prosperity of the place, furnishes a very large amount of manufacturing power that has been made available to a considerable extent. The City is regularly and handsomely laid out with streets 100 feet wide, which intersect each other at right angles. Daily lines of steamboats ply between this and other ports on both sides of Lake Ontario. Distant from Albany 183 miles, from Rochester 80 miles, and from Kingston 80 miles. Population about 18,000.

Cartee's Physical Geography.
Wright's Analytical Orthography.

The above list, except some slight variations, has been recommended by the Principals of all the Academies, nearly all the Superintendents of Schools in St. Lawrence, Franklin, Clinton, Essex, Jefferson and Lewis Counties, and officially recommended by four Boards of Supervisors.

This list of Text Books was first adopted by regular organization in St. Lawrence county, and since adopted by the five counties above mentioned, and are now in general use.

The same uniformity has been recommended by the President of the University, Secretary of the Board of Education, and many of the Superintendents of Schools in the State of Vermont.

The popularity of rapid sale of the leading books in this list is unprecedented in the history of School Books, and is still on the increase.

The progressive Series of Readers, though published but a short time, have been adopted by the Boards of Education in several of the large cities in the State of New York, and are rapidly going into use in New England.

The National Series of Geographies, recently published, are in use in the New York State Normal School, New York City Normal School, New Jersey State Normal School, Kentucky State Normal School, Ohio State Normal School, Michigan State Normal School, Brooklyn Polytechnic and Collegiate Institute, Washington Co. College Institute, Leroy Seminary, Cooperstown Seminary, Binghampton Academy, Claverack Academy, Cortland Academy, Bloomfield Academy, Clarence Academy, Ellington Academy, Fort Plain Seminary, Fredonia Academy, Friendship Academy, Genesee Academy, Genesee and Wyoming Seminary, Genesee Wesleyan Seminary, Hartwich Academy, Jamestown Academy, Jordon Academy, Macedon Academy, Medina Academy, Middleburgh Academy, Minda Academy, Ogdensburgh Academy, Oxford Academy, Plattsburg Academy, Rogersville Union Seminary, St. Lawrence Academy, Gouverneur Academy, Utica Female Academy, Wilson Collegiate Institute, Windsor Academy, Susquehanna Seminary, Franklin Academy, Canton Academy, &c., in the Union Schools of Newark, Lockport, Fredonia, Genesee, Mount Morris, Little Falls, Corning, Bath, Painted Post, &c., &c. Also in the Public Schools of New York, Brooklyn, Lockport, Binghampton, Palmyra, and in very many of the other public and private Schools throughout the State.

The Public Schools of the following large cities have adopted MONTEITH and McNALLY'S NATIONAL SERIES OF GEOGRAPHY, in whole or part, viz.: New York, Philadelphia, Brooklyn, Marblehead, Newark, Cleveland, Columbus, Hartford, New Haven, Springfield, Pittsburg, Lancaster, Chicago, and smaller towns too numerous to mention.

DAVIES' ARITHMETIC AND MATHEMATICS, have been officially adopted, and are used in a very large proportion of the Academies and Colleges in the State of New York, New England, the Western and Southern States.

The following States, (through their Superintendents of Public Instruction,) have given their official Sanction to the Mathematics, Geographies, and some other Books in the list: Michigan, Wisconsin, Illinois, Indiana, Ohio, Missouri, North Carolina and Alabama. Also, Minnesota Territory.

*** School Committees and Teachers will be supplied with single copies of these Books for examination, with a view to their introduction. Also, a first supply to Classes for introduction, on the most liberal terms, on application to the Subscriber.

PHILADELPHIA.—The Capital of the State of Pennsylvania, founded by William Penn in 1682, and next to New York is the largest City in the Union. Many of its principal edifices are raised on basements and entered by flights of steps of white marble, and the city generally has a very handsome appearance. Among the educational and literary establishments are the University, occupying two handsome edifices, comprising three departments,—the academical, collegiate, and medical,—the last the oldest and largest in the Union, Jefferson Medical College, Pennsylvania Medical College, and Gerard College for Orphans, named after its founder, who left funds so ample that he directed half a million sterling, or more if necessary, to be expended on the buildings alone, but coupled the bequest with the very singular restriction, that no ecclesiastic, missionary, or minister, should hold any appointment in the college, or be admitted for any purpose within its premises. One of the most fortunate events in the history of Philadelphia was the selection of it for a residence by the celebrated Dr. Franklin, to whom it is indebted for many of its most important improvements. In 1787 the Convention which arranged the Constitution of the United States met in it; in 1790 the first Congress, by selecting it for their place of meeting, eventually made it the capital of the Union, which it continued to be considered till 1800, when it was supplanted by Washington; from which city it is distant 125 miles, from New York 87 miles, from Montreal 473 miles, and from Toronto 485 miles. Population in 1852, 409,354.

PORTLAND, MAINE.—A very thriving City and the Metropolis of the State, situated on a peninsula at the western extremity of Casco Bay. It has one of the finest harbors on the whole sea-coast of the Union, seldom or never closed by ice, and certain of becoming the seaport of a very extensive commerce. It has a large foreign and coasting trade, and many vessels engaged in the cod and mackerel fisheries. The superiority of the harbor has induced a decision on the part of the proprietors of the Great Eastern steamer to despatch her to this port on her first voyage, there being indeed but very few other ports in America that can receive a vessel of her dimensions and draught. The enterprise of the citizens induced the commencement, in 1844, of the Atlantic and St. Lawrence Railway, with a view of promoting commercial reciprocity with this Province, and which is now incorporated with the Grand Trunk Railway of Canada. The steamers of the Canadian Ocean Steamship Company arrive and depart here fortnightly during winter. Rapid as has hitherto been the growth of Portland, this important undertaking will yet further accelerate its destiny as an important commercial city. It is handsomely built, and its views, landward and seaward, are really beautiful. It has access by regular steamers with Nova Scotia, several ports in New Brunswick, and with Boston and New York; as also it has many railway connections. Distant from Boston 105 miles, from New York 336 miles, from Montreal 292 miles, from Quebec 317, and from Stratford, C. W. (by Grand Trunk Railway throughout) 714 miles Population about 26,000.

PROVIDENCE, R. I.—A City and Port of Entry situated on both sides of Providence River, and is, in wealth and population, the second city in New England. Its literary and scientific institutions are very creditable; and the public spirit of the citizens is still further evidenced by the erection of an arcade, which, although not strictly a public building, is deserving of mention as one of the finest of its kind in the United States. It extends from Westminster to Weybosset street, 225 feet, is three stories high, has 82 shops or warehouses, in which is chiefly displayed a great variety of dry goods and similar articles. It is built of massive dressed granite, with two imposing Doric porticoes, one fronting on either street. The manufactures are of various kinds, and very extensive, averaging annually about $6,000,000 in value, and more than $100,000 is paid annually as wages in manufacturing jewellery alone. This interesting and substantial city was first settled in 1636 by Roger Williams, who was banished from Massachusetts on account of his religious opinions, and who adopted in his new establishment the principle of universal toleration. Distant from Boston 42 miles, from New York 173 miles, and from Montreal 376 miles.

THREE GREAT AND SURE CURES.

RHODES' FEVER AND AGUE CURE,

OR, ANTIDOTE TO MALARIA,

THE ANTI-BILIOUS PURGATIVE PILLS,

AN AUXILIARY TO RHODES' FEVER AND AGUE CURE.

Dewitt's Pain Reliever,

FOR EXTERNAL AND INTERNAL USE.

RHODES' FEVER AND AGUE CURE,

FOR the Prevention and Cure of INTERMITTENT and REMITTENT FEVERS, FEVER and AGUE, CHILLS and FEVER, DUMB AGUE, GENERAL DEBILITY, NIGHT SWEATS, and all other forms of disease which have a common origin in *Malaria* or *Miasma*. This subtle atmospheric poison, which at certain seasons is unavoidably inhaled at every breath, is the same in character wherever it exists,—North, South, East or West,—and will everywhere yield to this newly discovered antidote, which is claimed to be the *greatest discovery in medicine ever made*.

This specific is so harmless that it may be taken by persons of every age, sex or condition, and it will not substitute for one disease others still worse, as is too often the result in the treatment by Quinine, Mercury, Arsenic, and other poisonous or deleterious drugs, not a particle of any of which is admitted into this preparation.

The proprietor distinctly claims these extraordinary results from the use of this NATURAL ANTIDOTE TO MALARIA.

It will entirely protect any resident or traveller, even in the most sickly or swampy localities, from any Ague or Bilious disease whatever, or any injury from constantly inhaling Malaria or Miasma.

It will instantly check the Ague in persons who have suffered for any length of time, from one day to twenty years, so that they need never have *another chill*, by continuing its use according to directions.

It will immediately relieve all the distressing results of Bilious or Ague diseases, such as general debility, night sweats, &c. The patient at once begins to recover appetite and strength, and continues until a permanent and radical cure is effected.

Finally, its use will banish Fever and Ague from families and all classes. Farmers and all laboring men, by adopting it as a preventive, will be free from Ague or Bilious attacks in that season of the year which, while it is the most sickly, is the most valuable one to them.

One or two bottles will answer for ordinary cases; some may require more. Directions printed in German, French and Spanish, accompany each bottle. Price One Dollar. Liberal discounts made to the Trade. Trade Circulars forwarded on application, and the article will be consigned on liberal terms to responsible parties in every section of the country.

Prepared and sold by the Agent,

W. B. CHAPIN.

THE ANTI-BILIOUS PURGATIVE PILLS,

AN AUXILIARY TO RHODES' FEVER AND AGUE CURE.

Although these Pills are expressly made for use with "RHODES' CURE," still experience has proved that in all cases where the biliary organs are diseased, or a physic required, they are unequalled as a remedy, and as they have been in constant use by a physician and chemist in his practice, during the last twenty years, which practice has extended over the *States, Central America* and California, the proprietor feels perfect confidence in offering them to the public as an unequalled and unrivalled *family medicine*.

DEWITT'S PAIN RELIEVER,

FOR EXTERNAL AND INTERNAL USE.

The best and most reliable remedy ever offered to the public for the cure of Coughs, Colds, Cuts, Burns, Bruises, Sprains, Swellings, Chillblains, Toothache, Cholera, Cholera Morbus, Pains in the Chest, Back and Sides, Indigestion, Rheumatism, Colics, and all external and internal Pains.

This Medicine is prepared from articles purely Vegetable, and one trial will establish its valuable qualities for the cure of any of the above ailments. It justly has the supremacy over all others because,

1st. It is stronger, quicker in its action, and more certain in its *cure* than any known remedy.

2d. Its composition affords a pleasant perfume, and is therefore perfectly agreeable to use on the person.

3d. It is purely vegetable, and therefore cannot harm the most delicate constitution.

4th. It will not stain or injure the most delicate fabric, and the clothes of the patient and the bandages used are therefore free from the unsightly and generally unremovable stains that accompany the use of any other known remedy.

In short it is what it pretends to be, a "Cure for all pain." Numerous certificates might be attached in proof of this assertion, but space will not here allow.—The trial of a single bottle will convince the most skeptical.

It is put up at a small price, so as to be within the reach of all.

Price 25 cents per Bottle.

For sale by all Agents for Rhodes' Fever and Ague Cure, and by respectable dealers generally.

PERRY DAVIS & SON,

MANUFACTURERS AND PROPRIETORS OF PERRY DAVIS'

VEGETABLE PAIN KILLER.

Manufactory, 74 High Street, Providence, R. I.

PERRY DAVIS.

EDMUND DAVIS.

DAVIS' PAIN KILLER.

From the reports of dealers in this city, we think no proprietary medicine has had a larger sale. Its valuable properties, as a speedy cure for pain, cannot fail to be generally appreciated, and no family should be without it, in case of accident, or sudden attack of dysentery, diarrhœa, cholera morbus; and even Asiatic cholera yields to its magic power, as we see by reports from those sections in the south-west where the disease has been particularly virulent the past summer.—*Montreal Transcript.*

Messrs. Perry Davis & Son,

Permit me to acknowledge the benefit of your valuable medicine, the Pain Killer. I have been afflicted for two years and a half with a severe pain in the stomach and breast, and never found any relief until I tried Davis' Pain Killer, to which I cheerfully attribute my restoration to good general health. I consider it the best family medicine in use, for restoring and building up a debilitated system to its natural vivacity and vigor of life.

L. DSE. TOUCHET, Montreal, L. C.

PERRY DAVIS'S VEGETABLE PAIN KILLER.

So justly celebrated for the cure of so many of the afflictions incident to the human family, has now been before the public about TWELVE YEARS, and has found its way into almost every corner of the world; and wherever it has been used the same opinion is expressed of its real medicinal properties.

Its almost instantaneous effect in RELIEVING PAIN is truly wonderful.

It is used as an internal and external remedy, and when used according to directions is true to its name, a

PAIN KILLER.

It is almost infallible in the cure of **Sudden Colds, Coughs, Fever and Ague, Asthma, Pain in the Head and Back, Rheumatic Complaints, Bruises, Sores, Severe Burns, Canker in the Mouth, &c., &c.**

It is in truth a FAMILY MEDICINE, and should be kept in every family for immediate use. Oftentimes long periods of suffering are saved by the timely application of this *Friend to the Afflicted*, the **Pain Killer.**

It has been used in severe cases of the **CHOLERA,** and never has failed in a single case where it was *thoroughly applied on the first appearance of the symptoms.* In any attack where prompt action upon the system is required, the **PAIN KILLER** is invaluable. Get a copy of the **People's Pamphlet,** which can be obtained from any of our Agents, and read the facts stated, every one of which can be certified to by addressing the parties.

The **PAIN KILLER** is sold by all respectable Druggists throughout the United States and British Provinces in America, also by Agents in Foreign Countries, whose names are to be found on the People's Pamphlet.

☞The **Pain Killer** is put up in 1 oz., 2 oz., 6 oz., and 15 oz. Bottles.

ROCHESTER, N. Y.—A City and Port of Entry, situated on Genesee River, 8 miles from its entrance into Lake Ontario. It is noted for its important literary and other institutions, and for its extensive manufactures, mainly promoted by the great water power here afforded by the Genesee River. Within the City limits there are three successive perpendicular falls of 96, 20, and 105 feet; and through the entire distance from the upper to the lower fal the river flows through a ravine more than 100 feet deep. Rochester, from its contiguity to the Erie Canal and Lake Ontario, and from its extensive railway connections, enjoys great facilities for transportation of its imports and exports. In 1812 there were only two wooden frame buildings on the spot, each consisting of a single room and when, a few years before, a proposal was made in the State Legislature to build here a bridge across the Genesee, it was strongly opposed, and a member declared that it was "a God-forsaken place, inhabited by muskrats, and visited only by straggling trappers." Distant from Albany 229 miles, from Buffalo 68 miles, from Toronto 110 miles, and from Montreal (via Kingston) 280 miles. Population about 43,000.
