

PRIVATE BILLS WERE CONSIDERED.

There Are Large Number on Order Paper of House.

DISCUSSION OVER INCORPORATION OF GRAIN GROWERS' GRAIN COMPANY.

Ottawa, May 9.—The greater part of yesterday's sitting of the House was devoted to consideration of private bills, of which there are a large number on the order paper. Some of them proved to be contentious, particularly that respecting the incorporation of the Grain Growers' Grain Company. On this bill progress was reported. The bill to incorporate Revillon Freres Trading Company, Limited, struck a snag. Mr. Barker, a member of the committee which considered it, voicing the opinion nobody knew anything about it, so that involved were the circumstances. At the suggestion of Sir Wilfrid Laurier the bill stood over. The bill to amend and consolidate the acts relating to the harbor of Toronto was passed, as were several divorce bills, including acts for the relief of Walker Harvey Kirkland, Mary Kathleen Crittenden, Pauline Winslow Sanderson, Nellie Brogland Morrison, Francis Whittington Truedell.

Replying to a question of Mr. George Taylor, as to whether the Government has power to legalize or validate any or every marriage solemnized anywhere in Canada, Sir Allen Aylesworth said the Government did not consider it had any such power. Mr. Taylor also enquired whether the Government had taken any steps to ascertain the power of Parliament in this regard, and the Minister of Justice replied in the negative, the Government not having considered the advisability of taking such a course.

TRADE WITH GERMANY.

Mr. Foster called attention to a despatch from Berlin, which stated that an understanding had been arrived at between Canada and Germany, that negotiations for a reciprocal commercial treaty shall take place after the agreement with the United States has been ratified. Mr. Fielding said there was no understanding and no negotiations were pending. He had no doubt that Germany would be glad to open negotiations.

SERVED INJUNCTION ON HOTELKEEPER.

D'Israeli Petitioner Also Asks That License Be Revoked.

CLAIMS THAT IS WAS GRANTED AGAINST WISHES OF PEOPLE.

The question of granting a liquor license to Mr. Rousseau, D'Israeli, is creating considerable discussion, just at present, and the matter has been taken to the Superior Court in Sherbrooke. An action has been entered by one Bellefeuille and others to have the resolution of the municipal Council granting a liquor license to Mr. Rousseau for his hotel set aside. One of the grounds furnished by the petitioners is that the majority of the municipal electors were opposed to the granting of such, and that the granting of the license was in direct opposition to the wishes of the people.

In connection with this matter an injunction was served on Mr. Rousseau, to prohibit him from selling liquor.

The petition for injunction was argued in the Superior Court this forenoon. It was argued on behalf of Mr. Rousseau in this connection that he held a certificate from the municipal council, and also a document from the Provincial Revenue Department, authorizing giving him authority to sell until such time as the proper certificates were made out, the latter having to be changed owing to the death of Sir C. A. Pelletier, Lieutenant-Governor.

REFORM OF THE HOUSE OF LORDS.

Lord Lansdowne Introduced His Bill in the Upper House.

VISCOUNT MORLEY THREW COLD WATER ON THE PLAN.

London, May 9.—Lord Lansdowne, leader of the Opposition in the House of Lords, introduced his bill for the reform of the Upper House before a great audience, in which were many diplomats, yesterday.

They proposed a House to consist of three hundred and fifty Lords of Parliament. No peer should hold his seat for more than twelve years, but they would be eligible for re-election. The peers themselves would elect 100 members of the peerage, possessing the statutory qualifications, such as being present or former viceroys, governors, privy councillors, members of the House of Commons, diplomats, naval and military officials, heads of civil service departments, lord mayors, provosts, etc.

A second contingent would consist of 120 members, to be elected from outside the House of Lords by an electoral college composed of members of the Lower House, representing constituencies comprised in the electoral districts into which the country would be divided by specially appointed commissioners.

The third section of the House numbering 100, would be appointed by the Crown, on the recommendation of the Cabinet.

Princes of the royal blood would retain their seats, as also would two archbishops, while five bishops would be elected. Including the lord chancellor and the ex-lord chancellor, there would be sixteen lay lords. The bill provides that peers who are not Lords of Parliament shall be elected by the House of Commons. Lord Lansdowne concluded by expressing the belief that there could be no permanent party majority in a house re-constructed in this manner.

Under the measure introduced by Lord Lansdowne, the power of the Crown to appoint hereditary peers is limited to five appointments each year.

Viscount Morley, who immediately followed Lord Lansdowne, threw cold water on the plan. He admitted that the author of the bill had taken a bold and frank course, a possibly helpful course, but said that the Government could not accept the proposals as a solution of the difficulty. The bill passed its first reading.

TORONTO PAPER SAYS GOVERNMENT CONTEMPLATES GENERAL ELECTION.

Toronto, Ont., May 9.—(Special)—A World Ottawa special says, "that the Government contemplates a general election at an early date is evident from the supplementary estimates which were laid on the table of Parliament today by the Minister of Finance. The Conservatives say that wholesale debauchery of many constituencies have been thus arranged for. The supplementary is over \$17,000,000 which with the main estimates total \$136,000,000, or \$23,000,000 more than last year.

"Of this huge sum \$23,000,000 will be spent by Mr. Pugsley on public works and \$27,000,000 by Mr. Graham on railways.

"The most significant outlays are to take place in Halifax. The constituents of Mr. L. Borden, leader of the Opposition, Mr. Graham will spend one million there on a branch line, while Mr. Pugsley will spend \$600,000 on docks. These important works have been held over until the eve of the general elections and with them a tremendous effort will be made to fill the constituency with solid Liberals, with the purpose of defeating Mr. Borden."

"We all know you will cheerfully travel towards the sunset. A life in which the best has been made of all the materials granted to it, and through which the hand of the Great Designer can plainly be traced, is a completed life. Nor will He forget it when He counts up his jewels.

CONTRACT FOR NEW SCHOOL AWARDED.

Seven Thousand Dollar Building for Drummond Road.

PROTESTANT COMMISSIONERS ARE ENLARGING EAST SHERBROOKE SCHOOL.

The Protestant School Commissioners are facing the problem of further accommodation to meet the increasing attendance of pupils.

In spite of the fact that every available room in the different school buildings under their charge has been utilized for some time past, the Commissioners have found it necessary to build a new school in the South Ward, and enlarge the present school in East Sherbrooke.

The contract for the new school to be built at the corner of Champlain St. and Drummond Road, has just been awarded to Mr. William McSwigan. When completed and furnished this school will represent an outlay of about \$7,000. Work will be commenced at once, and an effort will be made to have it completed by September.

Rev. Mr. and Mrs. W. A. Adcock have returned from visiting friends in Sherbrooke.

Miss Jennie Pickin, \$15; Miss Mary Pickin, \$10. The Cemetery Fund at present consists of the following sums: \$500 ledged with the Church Society of Quebec, and a sum in excess of \$500 to their credit in the Eastern Townships Bank, Richmond, which they hope to raise to \$1,000, to be expended in the building of a permanent enclosure either of stone or cement.

Every country cemetery in the Townships could be kept up in the same manner if a little public spirited hustling was done in bringing its needs to the attention of everyone interested.

Mr. Cunningham's thoughtful act is greatly appreciated by the people of the vicinity. Mr. Cunningham, \$10; Mr. W. Akerman, \$5; Mr. H. Pickin, \$5; Mr. P. A. Lyster, Sherbrooke, \$5; Mr. A. J. Anyone desiring to help the work along can do so by sending a subscription to the Rector, Rev. W. A. Adcock, which will be acknowledged.

BURY. The Operetta held in the Town Hall entitled "Red Riding Hood's Revenge" proved itself an immense success. The moral of the play was the danger of disobedience. The lesson taught by it was excellent and uplifting. Amongst the thirty performers there was an air of self-confidence quite unusual amongst children of that age. The scenery and costumes all harmonized most beautifully. The articulation was excellent every word being distinctly heard at the end of the hall. Hazel Weyland was "Red Riding Hood"; Miss Georgie Costes as "Mama"; Miss Myrtle Simons as "Grandma"; Winnie Smith as "Buttercup"; and Myrtle Barter as "Rose" each and all did their part remarkably well. The Wolf (Willie Morrow) elicited much laughter and succeeded in frightening the younger members of the audience. Mr. Tom Barley as "Woodman" quite excelled himself. The "Blue Bells" looked very dainty and filled their parts well. The "Flowers" and chorus were equally good. The Pony Song by F. Hunt captivated the audience. This was immediately followed by the solo, "O Tale of Horror," sung very effectively by Bernice Weyland. The performance was closed by the chorus, "We're Happy To-night," charmingly rendered by all the performers. The curtain was again raised and the whole company and audience joined in singing the National Anthem. To Mrs. Tom Morrow as accompanist, and to Mrs. Lewis and Mrs. McIver

who trained the children the greatest amount of credit is due. The proceeds amounted to almost \$45. The very large audience that assembled in the Church Hall to hear the lecture on "Our Native Birds" thoroughly enjoyed the interesting and instructive information imparted by the Rev. Mr. Robertson. The lecture was illustrated by lantern slides. A new double wagon for sale at Thos. Morrow's.

The Ladies' Guild will meet on Wednesday, May 10th at the home of Mrs. W. J. Morrow.

ROCK ISLAND AND DERBY LINE. The second band concert given by the International Cornet Band in the Haekel Opera House last Friday evening, more than filled expectations and proved a great success. The public have become aware of the fact that since the January concert, that, at last, there was a good organization and as a result there was a rush for tickets, there being about 415 seats sold. The band was very generously assisted by Miss Ida L. Piers, vocalist of the college, who more than pleased her hearers, and by Miss Ethel Montle, who gave two readings with her usual good taste and ability. The mixed quartette, Messrs Pierce and Laythe, and Messrs Cowles and Smith added very much to the programme with their selection and encore, as did Messrs. Girard and Garceau, who gave "Credo from Mass in F" and "Sanctus" as an encore. The public are always delighted to hear these young men. The band selections and solos were splendid, and showed that Mr. W. H. Hovey as leader, has spent much time and hard work, but it is more than repaid in knowing that his efforts are appreciated by the general public. Owing to the unavoidable absence of Mr. A. E. Bishop, baritone player, Mr. Thomas Coley, of the Harmony Band of Sherbrooke, was engaged, and proved quite equal to the occasion. The proceeds for the evening amounted to \$173, which will net the band about \$120. At the close of the concert the band and a few invited friends had lunch at Thayer's and spent a social hour.

A young man from the Diocesan College, Montreal, Mr. Bradley, will arrive within a few days to assist Canon Carmichael during the summer months at least, with the work here and at Foster. Although many here will regret the resignation of Rev. The same is true of nearly all the boats at this season of the year, so the funeral will be indefinitely postponed. Mrs. W. A. The reasons for this are well known to those who are familiar with the structure of the instrument and with the strict methods of the Heintzman & Co., factory.

The MATERIALS The WORKMEN

Every piece of metal with the slightest flaw, every piece of wood imperfect in its grain or not thoroughly seasoned is rejected— it is not tried out to "see if it will do"— it is not even given the benefit of the doubt.

Each workman, too, brings to his task skill of the highest order— and that skill is still further developed and kept to the highest possible standard by the rigid discipline for which the Heintzman & Co., factory is well known.

Its durability and continued increase in the beauty of its tone as it ages have caused all world-great artists on their visit to Canada to use this piano exclusively.

Live In The Open

You can practically live outdoors the entire day by using Vudor Porch Shades. Do not confuse this shade with the ordinary bamboo shades or canvas curtains. Awnings shut out the sun, but they prevent the circulation of air, and the porch becomes an oven. Bamboo shades are flimsy and afford little or no protection.

After many years' experience the only satisfactory shades are the Vudors. They throw your porch or piazza into cool, mellow shade, excluding the sun's scorching beams, and at the same time permitting perfect circulation of the summer breezes. They will not fade or crack, and a Vudor shade will last for years.

Your choice of two colors—Lemon or Dark Green. Made in widths of 4, 6, 8, 10 feet, and all 7.8 feet drop. Prices from \$2.75.

PRESIDENT TAFT AND THE FARMERS.

Will Not Play Politics With Canadian Reciprocity Agreement.

FEAR OF REPUBLICAN DESERTION WOULD HAVE NO EFFECT ON HIM.

Washington, D.C., May 9.—President Taft indulged in some plain talk yesterday in explaining to 25 members of the National Grange that he does not intend to play politics with the Canadian reciprocity agreement, even if the enactment of that measure by Congress costs him the farmer vote.

N. P. Holt, spokesman for the farmers, intimated strongly that the farmer doesn't like reciprocity, and that the Republican votes are likely to be lost if it is passed.

CITY WAS IN EXISTENCE 2,000 YEARS BEFORE DAVID CAPTURED IT.

London, May 9.—Capt. Montagu Parker, a brother of the Earl of Morley, who headed a party of British explorers in Jerusalem, who have been charged with despoiling the mosque of Omar and carrying away relics hidden from the Romans, has returned to England and gives to the Times an account of the excavations. He says: "Unfortunately, although the work was of extraordinary interest, we were unable to discover any Hebrew writing."

Captain Parker adds: "I cannot say anything about the rumors in connection with the mosque of Omar until the Turkish commission of inquiry has presented its report."

FOOD IN SERMONS

Feed the Dominie Right and the Sermons are Brilliant.

A conscientious, hard-working and successful clergyman writes: "I am glad to bear testimony to the pleasure and increased measure of efficiency and health that have come to me from adopting Grape-Nuts food as one of my articles of diet."

"For several years I was much distressed during the early part of each day by indigestion. My breakfast seemed to turn sour and failed to digest. After dinner the headache and other symptoms following the breakfast would wear away, only to return, however, next morning."

"Having heard of Grape-Nuts food, I finally concluded to give it a trial. I made my breakfasts of Grape-Nuts with cream, toast and Postum. The result was surprising in improved health and total absence of the distress that had, for so long a time, followed the morning meal."

"My digestion became once more satisfactory, the headaches ceased, and the old feeling of energy returned. Since that time I have always had Grape-Nuts food on my breakfast table."

"I was delighted to find also, that whereas before I began to use Grape-Nuts food I was quite nervous and became easily worried in the work of preparing sermons and in study, a marked improvement in this respect resulted from the change in my diet."

"I am convinced that Grape-Nuts food produced this result and helped me to a sturdy condition of mental and physical strength."

"I have known of several persons who were formerly troubled as I was, and who have been helped as I have, by the use of Grape-Nuts food, on my recommendation." Name given by Postum Company, Battle Creek, Mich.

WESTMINSTER ABBEY CLOSED AT PRESENT

THIS HAS BEEN CAUSED BY PREPARATIONS BEING MADE FOR CORONATION.

London, May 9.—Westminster Abbey is at present closed to the public owing to preparations for the coronation. The interior is an immense carpenter's shop and the ceremony of inducting the new dean, who has until recently been bishop of Winchester will be done in strict private in the midst of surroundings more workmanlike than esthetic.

There is, however, one part of the building which is still open to the public. This is known as the "Norman Undercroft," which for many years was a dark, dismal place used as a store room, until a passage was made through it for the Westminster boys.

Now it is lighted by electricity and is used as a museum for many things that are now happily defunct. Wooden images of kings, queens and princes may be seen, like those which stand upright in the Idip chantry and are generally known as wax effigies. Dryden speaks of these dolls as "in open dresses all a-row" but even in those days the effigies were known as "the ragged regiment."

Recent antiquarian experts have found names for the effigies, though only four of them are Elizabethan. These are Henry VII. and Elizabeth of York and James I., with Anne of Denmark by his side.

These poor things have been robbed of their former glories in the shape of crowns, robes, scepters and even wigs. Anne of Denmark has merely her stockings left to her, whereas James I., though he has lost his head, which was never of particular use to him, has at least retained his doublet and hose.

EDUCATION IN SOUTH AFRICA.

REPORT OF COMMITTEE ON LANGUAGE IS A COMPROMISE.

Capetown, May 9.—According to the report of the select committee appointed to inquire into the educational system of the four South African provinces, General Hertzog, the Union minister of education, signed the majority report because he was unwilling to support a proposal which was opposed to the minority report. It is further said that General Hertzog only accepted the majority report as a solution to the present difficulties.

The Unionists also declare that they had been perfectly willing to vote for the majority report without any reservations, but that because of the reservations made by General Hertzog they also declared that they accepted the majority report on the understanding that it was faithfully carried out in all the provinces. They still maintain, however, that the real solution of the question is the granting of freedom to the parents of choosing the language in which their children should be instructed.

CANADIAN CHEESE TRADE IN GLASGOW

IMPORTERS COMPLAIN OF CARELESS WEIGHING OF PRODUCT SENT TO THEM.

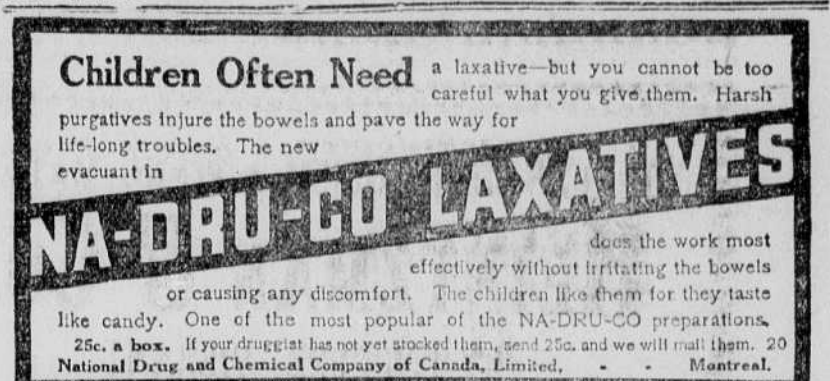

Ottawa, Ont., May 9.—Dealing with the question of cheese imported into Scotland, James A. Findland, inspector at Glasgow, reports: "This is still a depressing feature of the Canadian cheese trade, in respect that the accuracy of marked weights cannot be relied on, and importers find it essential to test thoroughly the weights of each shipment for storage, particularly during the summer months. It is a serious matter to importers who have contracted to take a factor's weekly output to find the cheese arrive showing from one half to two and three pounds short weight per box, not to speak of odd boxes turning up five and ten pounds lighter than the marked weight, which viewed in the most favorable light can only be considered gross carelessness."

Imports into Glasgow of Canadian cheese last year fell off 35,000 boxes. It is attributed to a heavier output of Scotch cheese and also the strike making many idle. "Butter importations from Canada to Glasgow are also decreasing on account of the high price of the Canadian article."

MADAME LOUISA COTÉ AN EXAMPLE TO FOLLOW Mrs. Louisa Coté, of l'Isle Verte, has taken St. Michel's Wine for several years and is completely cured. If everybody could understand how essential is the use of a good and well tried tonic for the maintenance as well as for the conquest of health, anemia and consumption would not every year claim thousands of victims. We are living in a period of extreme activity. We are using our strength without counting the cost: the most elementary prudence counsels us to rebuild our strength and to repair the constant losses sustained by our organism, to enrich our blood, impoverished through the extravagant system of living that we are following, from the beginning to the end of the year, whether we are at work or amusing ourselves. There are also illnesses to which we pay a more or less tribute; all persons recuperating strength after an illness should use ST. MICHEL'S WINE, the marvellous tonic which is also a powerful restorer. It stimulates the organic action of the body, it renews the energy, it tonifies the nerves and rebuilds the muscular system by rendering the food easily assimilable. The appetite is restored, as if by magic, and strength returns. From one end of the country to the other the marvellous effects of ST. MICHEL'S WINE are vouched for by persons who have been restored to health and have had their lives saved by its use. The testimonial of Mrs. Louisa Coté, of l'Isle Verte, is taken from many thousands which we have already published.

MESSRS. BOIVIN, WILSON & CO., Montreal.

Gentlemen:—I certify by this letter that I have taken ST. MICHEL'S WINE at various times during several years and that I have found myself very much improved by its use and that I am now in perfect health since I take this wine.

Yours respectfully, LOUISA COTE.

All testimonials are unanimous in praising the wonderful qualities of St. Michel's Wine, which works wonders in cases of anemia, weakness, exhaustion, nervous fatigue, as well as in recovery from fevers. It is a tonic that has never disappointed the medical profession or the numerous people whom it has restored to health. If you feel weak, ill or tired, take St. Michel's Wine, and you will find strength, health and vigour.

GUNS WILL SALUTE KING AT SAME TIME.

EXACT MINUTE THAT CROWN IS PLACED ON KING GEORGE'S HEAD EMPIRE WILL CELEBRATE.

London, May 9.—Arrangements are at present in progress to enable a royal salute to be fired simultaneously throughout the whole of the British empire at the moment of placing the crown on the head of King George V. in Westminster Abbey on June 22.

In order that arrangements may be made well in advance, the consular office has requested the earl marshal to state the exact minute when the ceremony of crowning the King will be performed.

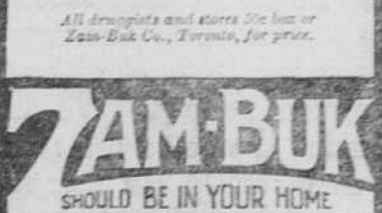

As soon as the exact time has been settled an invitation will be sent to every part of the empire, and it is understood that in those parts of the empire where there is still daylight when it is 2 o'clock at Westminster—for it is expected that 2 p. m. will be the moment when the crown is placed upon the King's head—guns will be fired, rockets or bombs being exploded in those places where it is night.

Supposing 2 o'clock to be the actual time when the coronation ceremony will take place, salutes will be fired at the following hours in the more important cities in the British empire: Sydney 12.05 a.m., June 23. Melbourne 11.40 p.m., June 22. Adelaide 11.14 p.m., June 22. Perth (Western Australia) 9.43 p. m., June 22. Auckland (N. Zealand) 1.39 a.m., June 22. Calcutta 7.53 p.m., June 22. Bombay 6.51 p.m., June 22. Capetown 3.14 p.m., June 22. St. John's (Newfoundland) 10.29 a. m., June 22. Toronto 8.42 a.m., June 22. Vancouver 5.38 a.m. June 22. Jamaica 7.07 a.m., June 22.

MOTHERS! DO YOU KNOW

That when you put a salve onto your child's skin, it passes through the pores and enters the blood, just as surely as if you put it into the child's stomach? You would not put a coarse mass of animal fat, colored by various mineral poisons (such as many crude salves are) into your child's blood by way of the stomach? Then why do so by way of the pores? Take no risk. Use always the pure herbal essence provided in Zam-Buk. Zam-Buk contains no trace of any animal oil or fat, and no poisonous mineral coloring matter. From start to finish it is purely herbal. It will heal sores, ulcers, abscesses, eruptions, varicose ulcers, cuts, burns and bruises more quickly than any other known preparation. It is antiseptic, quickly stops the smarting of a sore or cut, cures piles, inflamed sores and blood-poisoning. It is a combination of healing powers and scientific purity. Ask those who have proved it.

LETTER TO SCHOOL COMMISSIONERS.

Superintendent of Public Instruction Favors School Consolidation.

SOME OF SMALLER SCHOOLS HAVE SHORT TERMS AND RECEIVE NO GOVERNMENT BONUS.

Quebec, May 9.—(Special) The Superintendent of Public Instruction has just addressed the following letter to the School Commissioners and Trustees of the Province of Quebec:— Gentlemen.—On the 4th January, 1909, I addressed to you a circular on the subject of certain bonuses to the school boards, and now desire to supplement it with the following facts and considerations.

In the year 1908, in addition to all other grants, the sum of \$50,000 was distributed, according to the principles of articles 436 and 437 of the School Law, to all of the school municipalities of the Province, not in towns and cities, save and except to those which paid less than \$100 a year as salary to all of their teachers.

For 1909 the sum of \$75,000 was distributed in the same manner, and this year (1910) the amount to be distributed is \$100,000. The primary object of the grant is, plainly, the encouragement of better salaries for the teachers. More and more it is realized, as the people of the province come to a fuller appreciation of the blessings and advantages of a sound system of public instruction, that a constant and certain supply of qualified teachers cannot be maintained unless the remuneration paid to the teachers is sufficient to attract the capable young men and women of the Province to the teaching profession. The minimum salary demanded by the Government of the Province as necessary for participation in these special grants is certainly very moderate.

Very few school municipalities of the Province are to-day unable to pay at least \$100 to every teacher. But it is to be noted with regret that in spite of the substantial sums offered in these special bonuses there are still a large number of school boards which have failed to earn them. This is all the more regrettable in view of the fact that frequently they have been missed for the sake of a few extra dollars of expenditure. The bonuses, if they had been earned, would have made up the little amount supposed to be saved; they would also have enabled the school boards to increase the salaries of the teachers above the \$100 mark.

Under the circumstances I desire to draw the earnest attention of every friend of education to this important matter, and to urge every School Board to carefully consider the substantial character of the aid afforded by these bonuses. It is to be observed, also, that some School Boards which pay fairly good salaries, on the average, have failed to obtain the bonuses. This has been due to the fact that in their municipalities they have one or more schools which are kept open only some four months in the year. In such cases the salaries may be \$24 a month, but as they are only paid during four months, the total amount received by these particular teachers is four dollars less than the required one hundred. These short-term schools are frequently very small, sometimes not more than four or five pupils are in attendance.

Would it not be advisable to close such schools altogether and convey the pupils to the nearest school in an adjoining district? Would it not be better for the pupils themselves, who would then have the advantage of attending larger classes and also of having a longer school year? It would certainly be to the advantage of the School Board and the rate-payers they represent, as the bonuses earned by this policy would more than repay any expenditure incurred for the conveyance of pupils. This question is one to which many rural boards, particularly in the English-speaking portion of the Province, should give earnest and careful attention.

I have the honor, etc., BOUCHER DE LA BRUERE, Superintendent of Public Instruction, Quebec, May 1911.

Letters to the Editor

WINDSOR CONSERVATIVE LIKES SIR CHARLES' LETTER. Editor Sherbrooke Record. Sir.—It is to be trusted that every elector in Canada will have the opportunity to read and fully digest Sir Charles Tupper's open letter to the Hon. Mr. Fielding, re the latter's reciprocity speech in Montreal. Just at the present critical period in the history of the Dominion Sir Charles' statements should have some influence with fair-minded men. That the leaders of the Liberal party, who have so successfully carried out the general and protective policy of the Conservatives after swearing for 18 years by all the saints in the calendar that if they were only given the power they would destroy the National Policy root and branch, and when the opportunity came had the sublime courage to reduce the tariff almost one per cent, should now try to sing "Little Jack Horner," is only quite natural. As to annexation, one might quote the old proverb, "Straws show which way the wind blows." If Sir Charles Tupper's statements are true (which they undoubtedly are) it will be quite interesting to see how small a knothole Mr. Fielding will try to draw himself through. C. H. STEVENS, Windsor Mills, May 6, 1911.

MR. BEACHEY MAKES GREAT FLIGHT

IS SAME MAN WHO MADE FIRST FLIGHT IN DIRIGIBLE AT SHERBROOKE.

Washington, May 9.—Washington's three day aviation meet began with ideal weather conditions, and though no attempts were made to make new records, the spectators were afforded an opportunity to watch some fancy "air skating" by J. A. D. McCurdy, Lincoln Beachey and Hugh A. Robinson in Curtiss biplanes. Mr. Beachey made a spectacular flight from the Benning race track, where the meet is being held, to the Capitol. He circled the dome several times and on the way back reached an altitude of three thousand feet. This was the first time that the Capitol dome has ever been circled by an aeroplane. Mr. Beachey, five years ago, made the first and only flight around the dome in a dirigible balloon.

RIVER OF BEER IN LOCAL OPTION TOWN

TWENTY CASKS OF LAGER EMPLOYED IN STREETS OF ACTON, ONT.

Acton, May 9.—Almost the whole town of Acton turned out to witness the unusual sight of a river of beer flowing down a street of a "dry" town.

For some time the Dominion Hotel has been under suspicion, and Provincial License Inspector Ayearst has had men watching the premises. A week ago three officers, headed by the Inspector, raided the hotel and seized twenty cases of lager, one of which was on tap in the bar.

The proprietor of the hotel, Albert J. Lehman, was fined \$400 on two counts for selling, the fine in each case being \$200. His son, Norman, was also fined \$100 for selling, and a similar charge was laid against another son, Austin, also fined \$100. The fines all total amounted to \$1,120. After the convictions had been registered the confiscated liquor was rolled out before the Town Hall, the officers knocked the heads from the casks, and beer flowed freely through the streets. Quite a number of people were present with cameras.

"Ping" Bodie has caught the step with the White Sox and is marching along like a regular.

The Albany team, infants of the South Atlantic League, are holding their own in the "Sally" battle.

The way the American League race is going they must have a regular kind of a ball team in Detroit.

It seems that Vin Campbell would have signed with another major league club had he obtained his release from Pittsburgh.

"Doc" Casey, tooth snatcher and former Tiger, is playing third base and managing the Port Wayne Central League team.

In a recent game with Boston the Yankees scored 4 runs on 4 hits, winning the game 4 to 3, 4-11-44.

Tyler, Fred Tenney's new catcher, looks good to the Boston fans. A little more experience should make the youngster a regular winner.

Providence holds the honor of stopping the Toronto team. It began to look as if Joe Kelley's bunch would rush through the Eastern League without a halt.

Connie Mack is strong for the college player. It is said the leader of the champs, has a string on Martin, of Tufts, and on Woodie, the Princeton pitcher.

A new catcher's mask has been invented which prevents the catcher from getting his eyes crossed watching men on first and third at the same time. The openings for the eyes are made into one by removing the upright bar.
