GERMAN VIOLATION OF TREATY CAUSES SEIZURE OF 'PLANES

Allies to Take Over All Military 'Planes and 25 P.C. of Others

CRIPPLE SERVICES

Means Closing Down of Mail, Passenger and Parcel Post Facilities

PARIS, June 16. — (By Henry Wales; Montreal Star and Chicago Tribune Cable. Copyright.)—Although the Allied experts have not yet agreed on what is the difference between military and commercial airplanes, the Ambassadors' Council has decided that Germany has violated Treaty stipulations regarding aviation construction and as a penalty the Council will seize practically every aeroplane existing in Germany.

The ambassadors yesterday instructed the Inter-Allied Commission to seize all military machines, then 25 per cent. of the commercial machines, as punishment to Germany for violating construction restrictions. The remaining 75 per cent. of commercial aviation will be seized temporarily until Germany complies with execution of all aviation clauses of the Treaty.

Thus Germany's mail, passenger and parcel post aeroplane services between the various cities is expected to be closed down immediately through lack of machines. It is understood that Germany will speed up completion of fulfilment of aviation terms of the Treaty in order that the 75 per cent. of commercial planes will be released for service again.

SILESIAN SITUATION.

LONDON, June 16.—A despatch to the London Times from Oppeln says there is evidence that the French are using greater influence in clearing the disturbed area in Silesia. Latsand Junction is strongly occupied by French troops, who have cleared the district of armed insurgents.

General von Hoefer, head of the German defence forces, the despatch adds, has consented to reduce the Annaberg salient by retiring by Klondmits following the Polish retirement. The British have occupied Guttantag, from which the Poles withdrew. It is reported that the Poles have retired from the neighborhood of Gross-Strehlitz.

The correspondent says that if all goes well there Wednesday night, the armed Poles and Germans should be out of contact with each other.

FRANCE TO EXPLAIN.

PARIS, June 16.—(United News).—The French government has directed Ambassador Laurent in Berlin to call on the German Government and explain the French viewpoint on the recent developments in Upper Silesia.

ANOTHER NORTH FRANCE.

BERLIN, June 16.—General Von Hoefer, head of the German defence forces in Upper Silesia, is quoted in a newspaper interview as saying: "General Lerond (head of the Inter-Allied Commission) seeks to avoid useless blood-letting, but I am convinced that the blood spared now will later flow, until Silesia is bathed in red.

"When I asked General Gauthier to permit the German troops to be held until the entente could re-establish order, he said: 'Then the Poles would make another north France out of Upper Silesia.'

"My convictions, however, that any negotiations with the bandits would only encourage them and on part would be pure self-deception. The British are ready to strike, but their hands are tied by the Inter-Allied Commission. General Henniker, a practical, frank soldier, understood my position and the position of this land."

In conclusion von Hoefer declared that the German troops in Upper Silesia now outnumber the entente forces.

LEAGUE COULD LEAD TO YET BIGGER WAR

Lloyd George Says There is Danger Unless Public is Educated

LONDON, June 16.—(Special Star-Chicago Tribune Cable. Copyright.)—There is a real danger unless more is done to instruct public opinion in all the civilized nations, that the League of Nations might become a breeding ground of intrigues and feuds which might lead to the greatest conflict yet witnessed, the Prime Minister told the Welsh Presbyterian General Assembly at Port Madoc yesterday.

He is all for the League, the Prime Minister said, but he feels disappointed that despite the lessons of the great war the spirit of national hatred, national greed and, in its worst form, national pride is as dominant as ever before and some of the smaller nations which have been liberated seem to have been rendered fiercer by being chained so long. He does not see any signs of anxiety among those smaller nations that the League may interfere or that they have any respect for its decisions."

ARREST ASSOCIATE OF BIG TIM MURPHY

CHICAGO, June 16. Michael Carozzo, president of the local street cleaners' union and associate of "Big Tim" Murphy, was placed under arrest today for questioning in connection with the Dearborn street mail robbery, he being under indictment charged with having attempted to dispose of money stolen in this robbery.

With the arrest of Carrozzo postal authorities believe they have the ring leaders in a series of big mail thefts.

WASHINGTON, June 16. —(Star Special). — Insurance officials reported today that robberies of commodities, including silks, furs, cigars and cotton goods, within a radius of two hundred miles of New York City had totalled $50,000,000 in the last year. Of this, about $6,000,000 had been recovered.

NEW YORK SEIZURE OF IRISH WEAPONS CAUSED BY LONDON

Captured Sinn Fein Documents Gave British Clue to Plans

CABLE TO NEW YORK

Even Make of Weapons Was Known in England in Advance

LONDON, June 16.—(United Press)—Captured Sinn Fein documents here brought about the seizure of riot guns on the steamer East Side at Hoboken, N.J., according to reports in official circles today.

Great satisfaction was expressed that United States custom officers had made the haul. It was pointed out that after the capture of Sinn Fein documents here, representations were made in the United States, urging that shipments be prevented. The papers were said to have carried information regarding plans for contrabrand shipments.

It was indicated that even the make of the weapons was known in advance.

INVOKE ESPIONAGE ACT.

NEW YORK, June 16.—(Associated Press).—The Federal Espionage Act of 1917, authorizing seizure and confiscation of arms or munitions intended for illegal export will be applied to the machine guns seized by custom officials on the steamship East Side and believed to have been destined for Ireland. The shipment is now held by Hoboken police on a search warrant.

This was made known today when attorneys representing the Government appeared in Recorder's Court in Hoboken for a hearing. The proceedings were delayed, however, until later in the day to permit attorneys to determine whether the Act had been repealed in whole or in part.

The hearing, it was expected, would determine whether the 495 machine guns and hundreds of parts would revert to Frank Williams who claims they were stolen from him or go to the custody of customs officials.

Private investigations were in full swing to determine how the arms and ammunition got on the ship and to whom the shipment was consigned. Members of two crews who served on the ship were questioned to ascertain if possible the identity of the parties alleged to have smuggled them aboard in the night in the guise of supplies.

An investigator attached to the Department of Investigation of the Shipping Board said today that the investigators hoped to link up the owners of the firearms with an organization engaged in shipping guns to the Sinn Fein faction in Ireland. He declared that the department had been for some time watching this consignment of arms, but had lost sight of it last Sunday when it was loaded aboard a small launch.

STRIKING BLOW AT KEMAL'S ARMIES

Athens Hears Gen. Gouraud Has Resumed His Advance

ATHENS, June 16. — (Associated Press)—Reports that the French have resumed hostilities against the Turkish Nationalists in Syria and are making important progress have been received in Smyrna, says a despatch from that city published by the Politica.

General Gouraud, these reports assert, is marching on Aleppo, and crushing the opposition by artillery fire.

BRITAIN THREATENS WAR.

CONSTANTINOPLE, June 16. — The British have warned the Turkish Nationalists that any attempt to take Constantinople will mean war with Great Britain.

The purpose of sending a British brigade from Malta to relieve the Greeks at Ismid is to frustrate any such Nationalist attempt to occupy Constantinople.

GREEK MOVE IS DELAYED.

SMYRNA, June 16, (Associated Press). — It is improbable that the Greek offensive against the Turkish Nationalists will be started for several weeks, King Constantine declared to The Associate Press yesterday. He said he would not go to the front before July 3 and that he did not expect to return to Athens until August.

The Greek army now numbers 200,000 fighting men in Anatolia, and has 100,000 reserves. The National debt is estimated, have less than 100,000.

Constantine does not find life in Athens very to his liking. He complains that [illegible] and lamented the fact that he could not go bathing on account of the curiosity of the people here.

FOUR KILLED WHEN TRAIN PLUNGES OFF BRIDGE INTO CREEK

Thirty-five Injured in Nebraska Wreck—Due to Recent Floods

RECOVER BODIES

Engine and Several Coaches Had Passed Over Bridge Before Collapse

OMAHA, Neb., June 16 — (United Press)—Four persons are known to have been killed and thirty-five injured when three coaches of Chicago and Northwestern passenger train No. 606 plunged through a bridge over Cottonwood Creek, near Casper, Wyo., at 2 a.m. today

The death list may run higher as many of those injured may die. Some passengers have not yet been accounted for and these may be dead.

The Northwestern train was bound from Lander, Wyo., to Omaha, Neb., on a branch line.

BRIDGE COLLAPSES.

The engine and several coaches had safely passed over the bridge before the structure collapsed. Three coaches were hurled into the flood waters of Cottonwood Creek.

Rescue work was impossible for several hours after the disaster because of the swollen stream. Those imprisoned in the coaches cried in vain for help.

Relief trains with doctors and nurses on board and laden with first aid supplies, arrived at the scene shortly after daybreak from Chadron, Neb.

The dead were removed to Chadron, Neb. The injured were rushed to a hospital at Hot Springs, S. D.

Northwestern Railroad officials stated that the beat of flood waters of Cottonwood Creek following a cloudburst had weakened the bridge.

IDENTIFIED DEAD.

The known dead are:
Frank Bosnard, Lander, Wyo.
F M. Stewart, Gordon, Neb.r
R. C. Scott, Chadron, Nebr.
C. M. Scott, Grand Island, Nebr.

IS OPTIMISTIC OF EMBARGO REMOVAL

Hon. Duncan Marshall Confident of Success—Scotch Farmers Support

LONDON, June 16.—(Star Cable by D. Hemming. Copyright.)—"The time has come when Britain can no longer refuse to remove the embargo on Canadian cattle," declared Hon. Duncan Marshall, Minister of Agriculture for Alberta yesterday. He bases this confidence on the decision of Lord Finlay at the preliminary meeting, that the issue could not be considered a repeal of the statute but defence of a broken pledge, given by Lord Ernie.

Lord Finlay's ruling resulted in evidence favoring retention of the embargo being heard first, much to the disappointment of the National Farmers' Union.

The preponderance of witnesses hitherto favored retention of the embargo, but many Scotch farmers, supporting its removal, are coming to London at considerable expense. Mr. Marshall regrets there are not more Canadians here to give their version. His reception by both sides of the case has been most cordial.

"We should have representative agriculturists from every province attend this important hearing," he said. Mr. Marshall left for Scotland last night to study the situation.

INCREASE RATE OF 362 PEOPLE A DAY

Provincial Statistics Show Fewer Marriages Despite Bachelor Tax

QUEBEC, June 16.—(Star Special.)—According to an official report given out by the Provincial statistical bureau this morning, the population of the province of Quebec has now reached 2,550,000 inhabitants, compared with 2,002,232 at the last Federal census and 2,286,500 in 1919 when a municipal census was held.

In the course of 1920, 83,466 births have been registered, 21,211 marriages, a decrease of 379 compared with the year 1919. Deaths reach 46,264. These statistics are based on reports supplied to the provincial secretaries office by the Prothonotaries of the Province of Quebec.

THREATEN REVOLT OVER U.S. TARIFF

Bill Includes Rates That are Highest in History of Country

WASHINGTON, June 16. — (By Herbert W. Walker, United Press Staff Correspondent.) — Increasing opposition among House Republicans to the high tariff schedules now being framed by the Ways and Means Committee developed into an open revolt at a party caucus last night.

Republicans from the West and Middlewest are lining up almost as a unit against the higher duties which have been written into the bill, these rates being among the highest in the tariff history of the country.

CARRY IT TO PRESIDENT.

Although last night's caucus was called to consider some features of reapportionment legislation, some members of the Minnesota delegation which recently carried its fight against the proposed 25 per cent. ad valorem duty to the President, plan to bring up the tariff question.

Leaders from the western states have been so aroused at some of the proposed duties that they have already started negotiations with southern Democrats to defeat many sections of the bill. In addition the western Republicans are being augmented by many members from eastern cities, who have become incensed at the lumber duties, they believing that the high rates will impede building work.

BRITISH STEP FOR NEAR EAST PEACE

Would Have Ambassadors' Conference Decide Borders Tangle

ROME, June 16. — (Star-Ledger Cable. Copyright.)—The British Government has taken an important initiative means to facilitate a settlement in the Near East, by asking that the Ambassadors' Conference be empowered to discuss the long postponed solution of the Albanian problem.

Up to now the Albanian frontier have never been definitely drawn, although several powers favored recognition of the Albanian boundaries fixed by the powers in 1913.

Italy would welcome such an equitable solution, although it recognizes that the difficulty lies not in reaching an agreement among the powers, but in persuading Jugo-Slavia and Greece to accept any modification for the sake of peace. GOVERNMENT TO FIGHT INJUNCTION THROUGH COURTS

Claimed Disclosures Warrant Continuance Despite Possible Damages

COMPLEX CASE

Attack Welcomed, But Delay to Inquiry Opposed

OTTAWA, June 16.—(From Our Own Correspondent).—That the Grain Inquiry, arrested by an interim injunction in the courts at Winnipeg, is not a subject which properly, can be restrained by the injunction process will be the main contention of the Government in the argument next week on the question of making the injunction permanent.

O. M. Biggar, K.C., general counsel for the Government will be associated in the case with R. A. Bonner, K. C., and another counsel of Winnipeg yet to be engaged and the argument promises to be lengthy.

There are two aspects to the case in law:—

(1)—Whether in this instance an injunction should issue at all and

(2)—The constitutionality of the Grain Act.

GOVERNMENT'S CASE.

The contention of legal authorities here is that an injunction should issue only when something in the nature of an irreparable injury is likely to be done in default of such restraint. The issue will be whether any injury or inconvenience occasioned by the inquiry to the Grain Exchange or the United Grain Growers' Company is not wholly secondary to the damage done the public if the system under investigation is continued.

It will be maintained that the disclosures warrant and justify the continued inquiry and for that very reason and others should not be restrained by injunction, either interim or permanent.

The courts will have to decide on what, in law, is known as the "balance of convenience," as to the Grain Act, also involved.

The right of anyone to attack it is not disputed, but it is held to be constitutional and to be different from the Insurance case in which the Privy Council held against the Dominion's contention.

The Government has no particular objection to the constitutionality of this Act being threshed out so long as the Grain Inquiry which it holds to be of immediate and pressing consequence, is not restrained by injunction.

ROTARIANS FOR DISARMAMENT

Dublin and Belfast Members Entertain Admiral Sims at Luncheon

EDINBURGH, Scotland, June 16.— By Clyde Beals, Written for The United Press.) — International disarmament was made the mission of all Rotary clubs today.

Following the decision of the international convention here, every club in the world will be asked to memorialize its government, urging that a pan national disarmament conference be called. The proposal was submitted by the Portland, Oregon, club and seconded by Dallas, Texas.

The convention also voted to continue a study of the labor problem with the hope that agencies may be established to investigate disputes between labor and capital and settle them with justice, preventing the use of violence.

Today was to see the close of the business program of the convention.

IRISH TOAST SIMS.

Admiral Sims, whose adventures have been followed with great interest by Rotarians here, figured in a reception of Dublin and Belfast Rotarians here. Sims' name was cheered and there was prolonged applause.

The two delegations, representative of Ireland's opposing factions, listened to a series of speeches touching on the friendship of north and south Ireland and at the end joined hands to sing Auld Lang Syne. President Pedrecor was a guest at the luncheon.

DEMAND A.F.L. BE RE-AFFILIATED WITH INT'L FEDERATION

Section Seeks Realignment With Revolutionary European Body

ATTACK ON GOMPERS

Resolution Sent to Committee on Which Gompers Presides

DENVER, Colo., June 16.—(Associated Press).—Two international unions have demanded that the convention of the American Federation of Labor in session here instruct President Samuel Gompers to re-affiliate the Federation with the International Federation of Trade Unions.

This became known today when resolutions presented by the International Association of Machinists and the Firemen and Oilers Union were made public. Both practically call for a repudiation by the delegates of the action of President Gompers and the executive council in serving relations with the European labor movement because of its "revolutionary activities."

As both resolutions were referred to the committee on International relations which is headed by President Gompers, labor leaders predict that they would be reported unfavorably and the action of the Federation's officials upheld.

"We will probably make a fight for our resolution," said Fred Hewett, chairman of the Machinists Union delegation. "We have not completed our plans but will meet within the next few days to decide upon definite action."

The United Brotherhood of Maintenance of Way Employees and Railway Shop Laborers, comprising a membership of 250,000, will make a fight on the floor of the convention for reinstatement in the Federation, it was learned today. The Union was suspended in 1919 because of a jurisdictional dispute with the United Brotherhood of Carpenters and Joiners.

The San Francisco Labor Council in a resolution demanded that the protest be made to the Department of Labor against "the leniency that permits the smuggling into the United States of five hundred or more Chinamen every month."

The executive council is asked to oppose any attempt in Congress to change the exclusion laws so that they would permit the admission of Chinese into the country.

The resolution charges that a "national organization of the enemies of labor and the people of this country have been working secretly for several years to break down the Chinese Exclusion Act."

SHOOTS SIX WHEN RESCUING HIS SON

House of Frankfort Man Surrounded by Special Deputies

FRANKFORT, Ky., June 16.—(Associated Press.)—The home of John Fallis, who late last night shot four policemen and two bystanders, was surrounded today by a number of special deputies under Sheriff Moore, who took charge of the situation early today. Despite the close watch that is being maintained, the authorities are not sure Fallis did not escape in the darkness.

Fallis last night demanded the release from custody of his son, Elbert, who had been arrested on a minor charge. When Patrolman Wainscott, who with Patrolman Taylor had the youth, declined to free him, Fallis drew a pistol and shot Wainscott in the abdomen, probably fatally wounding him. In the general shooting that followed Patrolman Wilhelm and Jesse Colston were slightly injured.

Fallis, with his son whom he had liberated, ran to their home. Then Patrolman Noonan, despite a warning from Fallis, tried to enter the house and was shot with a shotgun and probably fatally wounded. Two bystanders were slightly wounded by buckshot from the charge that struck the officer.

Young Fallis, who tried to escape from the house, was shot in the leg and captured.

NEW POLICY

Troops Will Move South as Soon as Ulster Government Functions

BELFAST, June 16.—(Star Cable).—One of the most extensive military reconnaissances yet attempted in Ulster was under way in County Monaghan today.

All military units were employed in a dragnet which practically covered the county. Airplanes aided the movement and cavalry and motorcycle squads sped over the rough roads, cutting off the escape of Sinn Fein sympathizers.

More than 5,000 persons were captured in the first search, but most of them were released. A few were held to be taken to a prison camp where they could be examined at leisure.

CONCILIATION HAS FAILED.

LONDON, June 16.—(By A. E. Johnson, United News Staff Correspondent).—The British Government feels that its last attempt to conciliate Ireland has failed and is planning to go ahead with a campaign of vigorous discipline.

Great Britain is now convinced that the south of Ireland does not intend to accept the Home Rule machinery which was set up only recently under the Home Rule act and which Sinn Fein is leaving to rust. Therefore, the administration is drafting a program of subjugation by which it is expected that the rebellion, with its phantom courts, its system of inflicting its own justice and its constant menace of terrorism, will be brought to heel.

As partially drafted and approved, this program provides for an administration of martial law, under civilian authority and direction. Those districts which do not now have military courts will have them. It is stated that these military enthusiasts, such as General Townshend, M.P., who have been hoping for unrestricted privileges in Ireland, are doomed to disappointment. The civil authorities will be maintained over that of the military, it is said, but the area of martial law will be greatly expanded.

EXTEND MILITARY AREA.

The latest statistics available dated May 22, showed that there were in Ireland 1,200 police, 14,000 Royal Irish Constabulary and Black and Tans and 40,000 soldiers. As soon as the Ulster administration begins to function smoothly, and it appears that the northern parliament can police its own territory, the Crown forces now augmenting the local forces there will be moved to the south to reinforce the men now on the job in the worst centres of trouble. Loyalist organizations in the south will be organized into a citizens' guard, and it is anticipated that the military will receive further reinforcements of men, discharged from the home defence forces in England, who are now re-enlisting in the regular organizations.

In future, however, the army in Ireland, will have to "work for a living," according to the big plan, probably in the reparation of damage, the the extension and improvement of public works. It is believed that Lord Fitzalan will continue as Lord Lieutenant and Sir Hamar Greenwood as secretary, although there are strange rumors that General Jan Smuts will be offered Greenwood's post.

IMPRISONMENT FOR LIFE.

DUBLIN, June 16.—(Star Tribune Cable Copyright).—Dublin castle yesterday reported that two bodies of slain men had been found bearing the label "convicted spies. Let informers beware."

Gerald D. Roscommon was sentenced by a court-martial to life imprisonment for shooting and wounding two constables.

CORK GOVERNOR'S WARNING.

DUBLIN, June 16.—A train bound from Limerick to Ennis was fired on yesterday. Soldiers returned the fire, killing two members of the attacking party. One soldier was wounded.

G. S. Walls, a civil bill officer, aged 65, was murdered yesterday by an armed party near Cashel.

The military governor of Cork has issued a warning of the danger incurred by civilians who neglect to halt when they are ordered to do so by Crown forces. The warning says that disobedience of the command to halt is likely to result in fire being opened on people, who may lose their lives.

KING'S GUARD OF HONOR.

BELFAST, June 16.—When the King comes formally to open the norther Irish Parliament here on June 22, it is planned to have a fine body of men as a guard of honor for him. One hundred men have been drawn from the Royal Irish Constabulary for this purpose. None of them is less than six feet in height. All are from Ulster Counties. The men are now in training for the occasion.

GEDDES IN OHIO

Will Address Commencement of University

CLEVELAND, O., June 16.—Sir Auckland Geddes, British Ambassador to the United States, was scheduled to arrive here today to address the commencement of Western Reserve University. It had been arranged for a uniformed squad of British war veterans and a delegation of Daughters of the British Empire to meet Sir Auckland at the train and escort him to the University.

Sir Auckland will address a luncheon at the Chamber of Commerce tomorrow.

NEW YORK, June 16.—The Inter-borough Rapid Transit Company will ask its employes to accept a ten per cent wage-cut, although the present agreement runs until January 1, it was learned today.

WOULD TRANSFER WAR POWER FROM HOUSE TO PEOPLE

Labor Resolution Provides Declaration of War Must Have Majority Vote

REFERENDUM SCHEME

Placed Before A.F. of L. Convention for Action—Railroad Issue Up

DENVER, June 16. — Organized labor would demand the power to declare war be withdrawn from Congress and be placed in the hands of the people by constitutional amendment if a resolution presented yesterday is adopted by the convention of the American Federation of Labor.

The proposal provides that a declaration of war must have the approval of a majority of the voters of the United States and that "all those voting in favor of the declaration of war be compelled to take up the active prosecution of the same before those who voted against the declaration of war."

The resolution by S. H. Gardner, Central Labor Union, Cleburne, Texas, declared that the provision for a referendum vote on war was necessary to "better protect and safeguard the people and their interests."

"The natural result of our present system of business and industry" said the preamble to the resolution "especially the foreign commercial and financial, is such as to at frequent intervals—cause wars to be declared between nations at the behest of those interested in said activities, to secure or protect the so-called sacred rights of profits."

Should the resolution be adopted, the federation would be instructed to take all necessary and legal steps to secure a war referendum constitutional amendment.

Two important resolutions have been submitted. One signed by representatives of all railroad organizations, directs the executive council "to assist the recognized railroad labor organizations by every effort within their power to have proper legislation enacted providing for Government ownership and democratic operation of the transportation system of the United States."

RAILROAD RESOLUTION.

The other resolution presented by a group of ten delegates, demands "prompt restoration of the railroads to unified government operation."

Under this scheme of unified operation, it was stated "freight rates should be reduced to those in force when the railroads were returned to their owner, in order to stimulate traffic and relieve agricultural and other legitimate business."

Modification of the Volstead Act so as to permit the manufacture and sale of "a national beverage of wholesome beer," is demanded in a resolution, while another urged that Congress be asked to submit the question of prohibition to a popular vote of the people.

Other resolutions before the convention provided:

That the Federation establish banks in each city, union workers to be permitted to become shareholders and that any surplus of the banks shall be used to pay pensions to shareholders after they have reached an age to be designated.

That the campaign of the printing trades for the 44 hour week be indorsed.

That the incoming administration of the Federation call a conference of the officers of all affiliated organizations for the purpose of devising a strike insurance plan through which efforts to compel new working conditions for any organization can be adequately financed.

ACQUIRE CHAIN OF PAPERS.

That the executive council be called together to consider ways and means for acquiring a chain of daily newspapers to present labor's attitude fairly to the public and that heads of affiliated organizations may be called upon for financial aid to the plan.

That members be urged to invest money in the bonds of North Dakota, issued in support of the Non-Partisan League program.

That no advantages of organized labor be denied to any workers because of race or color.

That an active campaign be inaugurated to organize the more than two million office workers in the United States and Canada.

That steps be taken to defeat any measure before Congress introduced for the purpose of weakening or destroying the Department of Labor.

That aid be given the United Textile workers of America for organizing the workers in the southern mills to bring about the same working conditions that obtain in the north.

That the Federation urge upon both State and Federal boards for vocational education the necessity of maintaining effective standards that will be of practical value in giving intensive vocational training courses—"standards and courses which will insure an equal opportunity for the large number of men and women who have been incapacitated in industrial occupations or otherwise."

URGE LABOR FILMS.

That the executive council be instructed to investigate the feasibility of establishing a motion picture studio for production of films along educational lines for the benefit of organized labor, and if the plan is feasible, to make arrangements for production of such films and exhibitions of them, either through leases to exhibitors or establishment of a chain of labor picture houses.

That efforts be made to increase the retirement annuity and other compensations of Government employes.

That "The American Federation of Labor in convention assembled declares again the imposition of a retail or general sales tax or turnover tax or any other tax on consumption and opposes the repeal of the excess profits tax and demands that the highest rate of taxation levied during the war be retained until the full money cost of the war has been paid and further demands that the Government promptly levy a rapid progressive tax upon large estates and a moderate tax upon the value of land and other natural resources speculatively held in order that the national debt may be promptly retired."

That the Federation constitution be amended to provide that officers be elected by referendum vote, rather than by the convention itself.

That Congress be asked to enact immediate legislation for the control of the meat packing industry.

That Congress take steps to prevent private exploitation of coal, mineral and oil wealth and other natural resources.

OUT OF WORK; ATTEMPTS SUICIDE

TORONTO, June 16. — Robert Kemp, aged about 35, of this city, shot himself in the head yesterday, and was removed to the hospital in a critical condition. He was found in a lane near his boarding house, and beside him lay a 32-calibre revolver and a note reading: "Notify Mrs. J. J. Kemp, or Mrs. J. J. Schofer, of Listowel. I have $126, also a diamond ring and tie pin." He had been out of employment for some time, and is believed to have been despondent.

THE SOCIAL WORLD

Haldane—Olsen.

At Our Lady's Chapel, St. Patrick's Church, this morning at seven o'clock, the marriage was solemnized of Florence Catherine, daughter of the late R. B. Olsen and Mrs. Catherine Olsen, of Verdun, and Mr. Robert Haldane, son of the late Gilbert Haldane and Mrs. Margaret Haldane, of Glasgow, Scotland. The Rev. Father O'Brien officiated, and the chapel was decorated with pink and white peonies. The bride, who was given away by her brother, Mr. A. L. Olsen, wore ivory charmeuse satin and duchess lace, embroidered in pearls. Her long tulle veil was arranged in mob cap effect with wreath of orange blossoms, and she carried a shower bouquet of Ophelia roses, lilies of the valley and white heather. The bridesmaid was Miss Anne Gordon, who wore pink satin with picture hat to match and carried a bouquet of pink roses. Little Miss Margaret Murphy acted as flower girl and was dressed in white organdy, carrying a basket of sweet peas. The best man was R. B. Olsen, brother of the bride. The bride's mother was attired in plum colored satin and violet trimmed hat, with corsage bouquet of violets. During the ceremony Mr. E. Quinn sang "Hear Us, Oh Father," by Millard, and "Ave Maria," by Machaelere, accompanied by Prof. P. J. Shea on the organ. The bridal pair sailed this morning on the Metagama for Europe and the bride wore going away, a navy blue serge suit with small hat and flowing veil. They will reside in Montreal on their return. The out-of-town guests included Mr. and Mrs. A. L. Olsen, of Battle Creek, Mich., Miss E. McGreevy, of Boston, Mass., Miss Myrtle Clarke, of Stratford, Ont., and Mr. John McGreevy, of Ottawa, Ont.

Illievitz—Levi.

The marriage of Miss Blanche M. Levi, daughter of Mrs. David Levi and Dr. A. B. Illievitz, son of Mr. and Mrs. M. Illievitz, is taking place at eight o'clock this evening at the home of the bride's cousin, Mrs. H. Weinfield, Elm Ave., Westmount, with Rev. Dr. Abramowitz and Rev. De La Penha officiating. The bride, wearing a white beaded georgette dress with long tulle train lined in shell pink and caught with orange blossoms and silver bow-knots and a tulle veil in Russian cap effect and carrying a shower bouquet of Ophelia roses and lilies-of-the-valley, will be given away by her uncle, Mr. Samuel Saxe. Mrs. Jacob H. Wener, the matron of honor, will be gowned in a cream lace dress carrying a bouquet of pink roses and mauve sweet peas. The bridesmaids, Miss Gertrude Illievitz and Miss Eva Friedman, will wear dresses of georgette and carry pink roses and sweet peas. The three flower girls, the Misses Valerie Sherwin, Vera Weinfield and Rose Gotthell, will be dressed in pink and carry French baskets of pink sweet peas, and Anna Gotthell as flower girl, Mr. Jack Illievitz will be best man. Mrs. Levi, mother of the bride, will be gowned in grey crepe meteor and cream lace, will carry pink roses, and the groom's mother, Mrs. Illievitz, will wear a black lace dress and carry American Beauty roses. Dr. and Mrs. Illievitz are sailing Saturday, June 18th, on the Megantic and will spend their honeymoon in Europe.

Hodgson—Fraser.

The marriage took place very quietly on Wednesday, June 1st, at the Church of the Holy Trinity, London, England, of Muriel, youngest daughter of Mrs. John Fraser, The Sherbrooke Apartments, to Mr. Ralph Hodgson, English poet and writer. The bride, who was unattended, was given away by Mr. George Walker. Mr. John Drinkwater being best man. She wore a pale gray brocaded gown with picture hat to match and carried a bouquet of deep pink roses and "Love in the Mist" flowers. Among the guests present were Mrs. W. S. Arnold, of Winnipeg, sister of the bride, Mr. and Mrs. George A. Walker, Mr. and Mrs. Drinkwater, Mr. and Mrs. St. John Ervine, Mr. and Mrs. Reginald McKenna, Mr. Augustine Birrel, Mrs. and Miss Fraser, Miss Kingman, Miss Winnifred Grier and Miss Lochart.

Harris—Zelicovitz.

The wedding of Miss Frances Zelicovitz and Mr. David B. Harris took place on Tuesday evening, June 14, in the Blue Room of the Ritz-Carlton. The bride was gowned in canton crepe and opalescent beads and carried a bouquet of orchids and roses. The ceremony was performed by Rabbi Abramovitz in the presence of about two hundred guests. The rooms were profusely decorated florally. The bridesmaids were pastel shaded georgette gowns. Dr. J. Rosenfeld was best man. Miss Ruth Harris was maid of honor and the bridesmaids were Misses F. Redlick, S. Waldman, E. Waldman and B. Neumann. Mr. and Mrs. Harris have gone to Atlantic City, Washington and Philadelphia for their wedding trip.

Jenkins—Carson.

The marriage took place quietly yesterday morning at the Church of the Ascension of Miss Edith Carson, daughter of Mr. and Mrs. Wm. Carson, Mance street, to Mr. Stanley Jenkins, D.F.C., son of the late Mr. R. S. Jenkins and of Mrs. Jenkins. The bride, who was given away by her father, wore her travelling suit of navy blue tricotine and mohair hat to match. She wore a corsage bouquet of roses and sweet peas and the groom's gift, a pearl necklace with diamond and platinum clasp. The ceremony was performed by the Rev. Canon J. L. Flannagan. Mr. Laner played the wedding music. Immediately following the ceremony Mr. and Mrs. Jenkins left for New York, Atlantic City and Boston.

Fowler—Gibb.

The marriage took place quietly this morning at the American Presbyterian Church of Miss Dorothy Agnes Gibb, second daughter of Mr. and Mrs. John Gibb, of Westmount, to Mr. Gordon Lemay Fowler, son of Mr. and Mrs. George A. Fowler, Mountain street, at ten o'clock. The bride who was unattended, was given away by her father. She wore a gown of navy blue taffeta, with hat to match, and a corsage bouquet of forget-me-nots. Mr. Robert Ogilvie was the best man. Immediately after the ceremony, Mr. and Mrs. Fowler left for the Georgian Bay, where they will spend a few weeks. On their return they will reside on Mountain street.

Capt. Dickinson Weds in Quebec.

QUEBEC, June 16.—(By Canadian Press.)—The consummation of a war romance will be witnessed here today when Captain Dickinson, of Salsgarth, Man., will be joined in wedlock to Miss C. M. Murchie, of Summerfield, New Beckenham, Kent, England. Captain Dickinson, who fought with the 44th Winnipeg Battalion, in the 4th Division, commanded by Maj. General Sir David Watson, met Miss Murchie while on leave in England. The wedding will take place in St. Matthew's Church and the Rev. Canon Scott will officiate, while Gen. Watson will act as sponsor for the groom.

SPRING RACE MEETING, QUEBEC HUNT CLUB

The Quebec Hunt Club have been allotted the dates June 24th to July 1st for their Spring meeting. The liberal purses offered, and the class of horses who intend shipping, should provide very interesting sport.

EARLY CLOSING IN HOT WEATHER

Some Stores Will Remain Closed All Saturday—Short Hours for Others

With the coming of the heat of the summer months, the salesgirl and office worker will welcome the happy release that will come to them through the decision of the managements of a number of department and other large local stores. Several of the stores have decided to close all day Saturday during the months of July and August, while others will close at one o'clock on Saturday during those months.

In a good many cases, this is only the second year that the stores are giving this holiday to their employees, but some have been in the habit for several years past of closing on Saturday afternoons during the torrid heat of July and August.

Among the stores who will close all day Saturday are Henry Birks and Sons, Henry Morgan and Company's store, and the store of Goodwin's Limited. The store of the Henry Morgan company will also close at 5.30 o'clock every afternoon, half an hour earlier than at present, during July and August. The Holt Renfrew store, Ogilvy's and Almy's department stores will close at one o'clock on Saturday afternoons.

The city ticket offices of the Canadian National Railway will close at 2 o'clock on Saturday afternoons, but all other offices of the Canadian National will close at one o'clock during July and August.

Not much change has been made in the hours of the C.P.R. offices, which will close at noon on Saturday during the summer months, instead of at half-past twelve.

In explaining the fact that he did not close his store at all on Saturdays in the very hot weather, the manager of a large men's clothing store told The Star this morning that it was impossible for any of the stores except department-stores to close up. If all the stores selling the same line of goods in the same district could come to an understanding they could all close all day Saturday and not lose by it, but such an agreement, he said would be next to an impossibility.

"It is a pity," he said, "because we, as well as everyone else, want to get away on Saturdays, and particularly on Saturday afternoons, and it is too bad that our employees must stay such long hours in the hot weather, but it can not be helped. If I do not stay open, the other fellow will take all my business away from me."

MANY TOURISTS COME TO MONTREAL

Local hotel keepers report that the tourist traffic is increasing rapidly. This morning a party of 90 tourists came to the city and put up at the Place Viger Hotel. A continuous flood of tourists is expected in the city from now on through the summer months by hotel managers.

The fact that the City of Quebec is "dry" is believed by some hotel men to be the reason for an unprecedented increase in the flow of visitors from that city. Others say that many Americans this year have more money than they know what to do with and that consequently the stream of tourist traffic is at the flood.

SACRED HEART EUCHRE.

A euchre party for which many prizes have been donated, will be given by the promoters of the Sacred Heart League on Friday evening, in the basement of St. Michael's Church on Friday evening at 8.30.

SUCCESSFUL ADVERTISERS

HENRY GATEHOUSE JR.

Established in 1891 the firm of Henry Gatehouse and Son is an example of the success of steady application to one line of business, in conjunction with the use of modern methods. When the late Mr. Henry Gatehouse first started a small fish store at the corner of Beaver Hall Hill and Dorchester, nearby the present quarters of the firm, with two assistants, a cashier, and one delivery rig, he could not have foreseen the growth which has since come, nor the remarkable mechanical changes and inventions which have become an essential of the business.

Thirty years ago the equipment of a fish store was of a simple order. Now the plant has two refrigerating engines, each of high duty, a re-inforced concrete five-storey cold storage warehouse, one of the largest retail fish stores in Montreal, and instead of the one old-time horse rig, which in later days became a delivery system of 17 horses, there is now a fleet of over 12 delivery autos. The size of the staff, now totalling 50, and the accommodation for further extensions, might not be suspected from the unpretentious, though substantial, premises.

"This neighborhood has undergone many changes since my father started business," said Mr. Gatehouse, the present proprietor, "and many houses, then the homes of leading citizens, have been changed into apartments or business premises. Our own home used to be where the Tunnel Railway is now located, and the site of our old stables can still be seen there.

"In a measure the success of the firm has been due to the growth of Montreal, which has carried so many of its sons up with it, but we too have worked hard to attain it. Much of it has come from the high standard of quality we have always maintained, and from our advertising, whose unique appeal has often been noted by our customers and friends.

"The Montreal Star, in which for many years we have been consistent and practically daily advertisers. We make our appeal to the epicure, and the fact that The Montreal Star advertising columns have been of immense benefit to us is evidenced by the wide-spread nature of this business."

NO BASS ON SALE YET AT MARKET

Local Strawberries in Crates Find Quick Buyers

The season for bass fishing opened today, after a closed period of six weeks, and the fisherman may now take any fish he can hook, provided they are of the required length. June 16 is also the day when maskilonge may be caught, but neither this fish nor bass were on sale at the fish stalls this morning. It would be impossible to procure any before tomorrow, and in all probability Montrealers would not get these fish for a week yet, said a dealer.

Most of these fish are immediately shipped to the United States, he continued, where buyers are willing to pay 40 cents a pound in American funds. On the Bonsecour Market, Gaspe salmon is now to be had in abundant quantities at 35 cents a pound, a drop of five cents a pound being reported during the past week.

STRAWBERRIES SELL QUICKLY.

The farmers who arrived this morning with local strawberries found an eager demand for their fruit, and most of the crates, containing 54 short boxes, were quickly snapped up at six and seven dollars each. Most of the fruit still on view had already been sold, and the berries were without exception unusually large. Retail quotations for Western berries are 18 cents for a large box, while home-grown are 15c a small box. Wild strawberries were also offered, but the farmer who had them for sale asked a dollar for a tin holding about three pints.

Radishes, lettuce, onions, rhubarb and parsley were to be had at varying prices, differences of five and ten cents a dozen being noted in the quotations made by farmers, who evidently expected that the purchaser would bargain with them.

HOGS UP.

An advance of three cents a pound is reported in the price of dressed hogs, and the retail prices are already affected by the advance. Pork loin is today quoted at 37 cents as compared with 35 cents a week ago, and pork chops which were then 37 cents are now 40 cents a pound. Eggs are also higher than last week, and are now 40 cents a dozen.

Prices are as follows.

FRUITS:

Apples, 60c doz.; bananas, 20c doz.; cherries, (California) 60c lb.; grapefruit, 10c each; oranges, 60c doz.; pineapples, 35c and 40c each; strawberries, 18c large box; watermelons, 60c to $1.20.

VEGETABLES.

Asparagus, 15c bunch; beets, 10c; beans, 30c lb.; cabbage, 10c lb.; cucumbers, 15c; lettuce, (curly) 5c head; onions, (white) 10c lb.; (red) 6c lb.; parsley, 8c; parsnips, 4c lb.; green peas, 25c; potatoes, 4 lbs. 25c; radishes 3 for 5c; tomatoes, 25c lb.; turnips, 10c bunch.

MEATS.

Sirloin steak, 45c; round steak, 35c; sirloin roast, 50c; beef brisket, 14c; tongue, beef, 40c; leg of veal, 30c; veal cutlets, 50c; winter lamb, front, 10c; winter lamb, loin, 40c; winter lamb, hind quarter, 35c; spring lamb, hind quarter, 45c; spring lamb, forequarter, 32c; pork, loin, 37c; pork chops, 40c; pork kidneys, 25c; pig's head, 8c; smoked ham, 40c; bacon, 45c; lard, 20c.

FISH.

Brook trout, 60c; bullhead,, dressed, 20c; steak cod, 12c; sore, 25c; frogs' legs, 30c; haddock, 10c; halibut, 30c; lobster, 30c; mackerel, 20c; perch, 20c; pike, 18c; salmon, B.C., 35c; salmon, Gaspe, 35c.

FARM PRODUCE.

Butter, creamery, 35c; butter, dairy, 30c; eggs, special, 40c; eggs, new laid, 38c; maple syrup, $2.15 gal.

POULTRY.

Chicken, 44c lb.; chicken, milk-fed, 46c lb.; capons, 48c lb.; boiling fowl, 36-38c lb.; ducks, 43c; Brome Lake ducklings, 46c lb.; geese, 36c; guinea chicken, $4.00 pair; guinea hen, $3.00 pair; squab, 90c pair; turkeys, 60c lb.

NEW SCHEME TO ROB MERCHANTS

Only Top Coin Genuine in Cylinders of Change

"Beware of the gentleman who comes to you for change," is the warning circulated today by a number of prominent merchants who have recently fallen prey to the machinations of a gang of clever counterfeiters working in the city.

The plan carried out by the "change man" is simple in the extreme but meets with almost unfailing success. A telephone call is received by the head of some prominent business concern. A voice remarks. "This is the ——— theatre. We have a large amount of small change, if I send someone over with it can you give him bills in exchange?"

The obliging and unsuspecting business man is ready to oblige. In a few minutes a boy or man arrives with a large number of cylinders filled to the top with coins. Bills are handed to him in exchange for this welcome small change.

But when the messenger has gone and the coins are tipped out of the cylinders it is found that only the top coin of each cylinder is genuine. The rest are counterfeit. Several merchants have in this way been victimised. The ——— theatre, of course, had no occasion to send for bills in place of small change. It knows nothing of the affair. Attempts to locate the person who telephoned proved fruitless.

PERSONALS

Wilfrid Shackell has returned from a holiday trip to New York and Philadelphia.

H. Beattie, secretary of the Wholesale Grocers' Section of the Montreal Board of Trade, returned yesterday from Quebec where the Canadian Wholesale Grocers' Association has been holding its annual convention.

Marcus Auerbach, head of the firm of Z. Auerbach and Co., wholesale jewellers, is leaving for Europe on Saturday next, accompanied by the two Misses Auerbach. The firms offices at 120 St. James street will be closed until their return about September 6.

Vernon G. Cardy, formerly clerk at the Ritz-Carlton hotel in this city, and later assistant manager at the King Edward, Toronto, has been made manager of the Clifton Hotel at Niagara Falls, Ont. The King Edward and the Clifton belong to the United Hotels Company which is to erect the new hotel here on the site of the Peel street high school.

NO CHANGES IN CORONER'S COURT

Coroner McMahon Thinks Ontario's Action Will Not Be Followed

SOME SUGGESTIONS

Strong Feeling Expressed Against Doctor as Official

The Province of Quebec is not likely to follow the proposed action of the Province of Ontario in abolishing the jury in a Coroner's Court, in the opinion of Coroner Ed. McMahon. Discussing the news of a change in the Coroner's Court system in the neighboring Province with The Star this morning Coroner McMahon spoke strongly in favor of the system at present in force in this province. He had, however, several suggestions for its improvement to make.

He did not think that it would avail Quebec anything to abandon the jury altogether as far as expenses were concerned. He pointed out that this province differs from Ontario in that jurors here are not paid. In Ontario the Coroner's jurors receive $1.00 per day, or generally 50c for each sitting of half a day.

CORONER'S PROPOSAL.

With the experience of thirty years as coroner for this, the province's largest district, behind him, and as a result of investigations he had made recently in obtaining details for a book which he published on inquests and the proceedings in cases of death and crime, Coroner McMahon suggested a plan under which he believes all cases of doubtful death could be handled with satisfaction to everyone. He believed that instead of a coroner with a jury it would be well to appoint some person with a thorough knowledge of law to conduct the preliminary investigations in such cases. Should this official find that there were strange features in a case he could have authority to then call in two other magistrates or judges to sit with him on a thorough investigation of the affair and to pass judgment on it.

AGAINST MEDICAL MAN.

The coroner spoke strongly against the present system in Quebec and Ontario and other provinces of appointing a medical man as coroner. He believed that he alone held the position without knowledge of medicine in this province. Among the disadvantages from a medical man's point of view in this position were that it would interfere to a great extent with any private practice which the doctor might have. The coroner also believed that a medical man would be swayed by his own findings and beliefs in regard to the death of a person he had examined and therefore be deaf to the vital evidence submitted in the inquest.

TOO MANY CORONERS.

Coroner McMahon believed that there are too many coroners in the Province of Quebec. He gave instances of cases in which small territories have as many as four, five or six coroners. Quebec, Montreal and St. John, all important centres, he said, had only one coroner. He knew that some Quebec coroners did not handle more than one case per year, and many never had the opportunity to study the procedure in a large district coroner's court.

OTHER SYSTEMS.

In abandoning the coroner's jury, Ontario would be following, to some extent, the action taken many years ago by the State of Massachusetts and later by other states in America. In some of these states, Coroner McMahon said, there are no coroners. A specially appointed official, generally a judge, conducted investigations in doubtful cases of death alone and sometimes made official sittings in obvious cases. This system the coroner strongly denounced on the grounds that it gave too much power and responsibility to one man and did not give the added weight of public opinion, such as is conveyed by a jury, to the findings in the case. The coroner had received no intimation from the Attorney-General at Quebec that any change was to be made in the existing system of coroner's court proceedings.

THE WEATHER

PROBABILITIES.

Light to moderate winds, fair and moderately warm today and most of Friday.

Toronto, June 16. The moderate disturbance which has remained over the Gulf of St. Lawrence region is diminishing in intensity while the area of low pressure over the western provinces is drifting slowly eastward. This pressure change has been attended by showers and local rains in Saskatchewan and Manitoba and some districts of the Maritime Provinces. In Alberta, Ontario, and Quebec weather has continued generally fair.

CITY TREASURY SHOWS BALANCE

P. Collins Sends Annual Financial Report to Administrative Commission

NO LOANS LAST YEAR

License Department Contributes Largely to the Revenue

Interesting details of the work of the city treasurer's department are given in the annual report of P. Collins, the assistant city treasurer, which was presented to the Administrative Commission this morning. It shows that the total revenue of the city for the past year was $34,721,190.61, and the disbursements $33,991,245.89, leaving a balance on hand of $729,953. During the year various reforms have been instituted, resulting in increased efficiency, to the benefit of the taxpayers.

Mr. Collins, who has been in charge of the department for two years, expressed regret that the recommendations made last year and included in the draft of the charter prepared by the Charter Commission, had not been adopted, owing to the defeat of Schedule A, and expresses a hope that some of the reforms suggested will become law in the near future. Comment is made of the fact that except for temporary borrowings in anticipation of revenue, no loans have been issued during the year, which is regarded as exceptional at a time when most municipalities are compelled to finance their capital expenditures at high rates of interest.

Touching on the question of revenue-producing public services, the report remarks that the waterworks are the only things municipally owned, but no separate account had been kept in the past regarding the capital expenditure for this service. It would have been better if this expenditure had been segregated, if only to ascertain whether it was self-sustaining, and if the present annual revenue therefore is sufficient to cover the cost of capital as well as ordinary expenditure.

Dealing with the creation of the Metropolitan Commission, Mr. Collins remarks that it is viewed with approval by the city taxpayers, for there is no doubt that the prospect of future annexations of suburban municipalities, which have made improvements beyond their means, has had a disturbing effect, and the Commission will in future prevent unwise expenditures by any municipality to the detriment of Montreal and its neighbors. As contested assessments cannot be collected until the courts have decided the issues, and this often takes years, the city treasurer suggests that there should be some remedy in the charter, as the total now exceeds a million dollars, and the number of contestations, especially of large assessments, is increasing.

Appreciation of the new system of fixing the annual payment for sewers, sidewalks, and other special taxes, on October 1, instead of at different dates is expressed, while the improvements made in the water and business tax department have resulted in 99 1-2 per cent of these taxes being collected, as against from 90 to 95 per cent of former years. The arrangement by which the banks received these taxes, tried last summer, is stated to have proved satisfactory.

ASSESSMENT ROLS.

Dealing with the question of assessments the report states that the draft charter prepared last year contained clauses permitting the preparation of the assessment rolls a year in advance, an improvement which had been advocated for years past. It was regrettable that this provision had not become law, as it was intolerable that the citizens should not receive their tax bills in time to examine their assessments before the closing of the rolls, so that errors therein may be corrected.

As to exemptions, it is contended that the criticisms which have been directed against the city's exemption list in the past have not been altogether justified.

The properties of the city, of the Dominion and Provincial governments and of the Harbor Commissioners, appear on the list as valued at $117,433,950 or 51 per cent of the total exemptions. Parks and playgrounds, including Mount Royal Park, St. Helen's Island, Maisonneuve Park and Lafontain Park, the latter being partly leased from the Dominion Government, have a valuation of over $50,000,000. Commissioners' school properties are valued at $45,202,500. Except the recently imposed tax on amusements, there has been no taxation in Montreal for the maintenance of charities, as in other cities; consequently, most of the other exemptions simply represent the private generosity of the citizens of Montreal in regard to social service of the very best kind, including hospitals and other benevolent institutions, churches, etc.

The commercial exemptions which were, for the most part, granted by recently annexed municipalities will disappear in a few years, and will not likely be renewed. However, commercial property which is exempt from ordinary taxation, as well as land taxed as farm land, is as much security for the city's indebtedness as is taxable property.

LICENSE RETURNS.

The collections of the License Department have become of major importance and form an appreciable part of the city's revenue, the total amount received during 1920 being $1,055,792.92 which is a large increase over the previous year. In this amount included the amusement tax, the arrangements for the collection of which are satisfactory, as well as the bachelors' tax. The collection for this latter tax has entailed much extra work on this department, over 4,000 actions having been taken to recover the tax years due because of the collector having been held up pending the contestation of the tax, which was finally decided in favor of the city.

The past year having been one of falling prices, close buying was required in order to take full advantage of conditions and not over-stock with high priced goods. The purchasing agent reports that the system of buying direct from manufacturers is working satisfactorily.

Changes are now being made in the administration of the municipal stores, particularly in regard to supervision and bookkeeping methods, as the system was found cumbersome, therefore, improvement is expected in the direction of economy in operation and better control of requisitions.

EMPIRE THEATRE FOR MASS MEETING

A mass meeting of returned disabled veterans of the Great War is to be held in the Empire theatre, Stanley street, at 8 o'clock tomorrow night. Among the subjects to be discussed will be the present unemployment situation here and possible remedies. Dr. McKenzie Forbes is among those who has promised to address tomorrow night's meeting.

ECREMENT AGAIN UNDER ARREST

Extradition Asked on Charge of Theft from Michael Connolly

Arthur Ecrement, former M. P. for Berthier, was arrested at nine o'clock this morning by Detectives Gorman, O'Donnel and Savard, charged with the theft of $125,000, the property of Michael Connolly of Montreal, through a wire tapping scheme. The arrest was made at the request of the police of Buffalo, New York, on the ground that Ecrement had been indicted before the Grand Jury in Buffalo, on January 31, 1921, and was a fugitive from justice. Ecrement said to the Star that this was the third episode in the comedy, he having been acquitted of this charge on two previous occasions, once before the grand jury in Buffalo, who brought in a "no bill," and the second time by Chief Justice Decarie, in the Court of Sessions.

THE CHARGE.

Ecrement was arraigned before Judge F. X. Choquet this morning and the following charge was read to him by J. J. Lomax, secretary of the Extradition Court: "I am credibly informed and do verily believe that at the City of Buffalo, in the State of New York, one of the United States of America, on or about the 3rd day of December, 1918, Arthur Ecrement did steal the sum of $75,000.00, the property of Michael Connolly. Wherefore I pray that a warrant may be issued for his arrest pending extradition."

A second warrant similarly worded charging Ecrement with the theft of $50,000.00 from Connolly on November 30, 1918, was also read to the prisoner.

REFUSED WARRANT.

Previous to the issuance of this warrant a telegram had been received by Chief of Police Belanger asking for the arrest of Ecrement. Judge Choquet had been consulted on the matter and had refused to issue a warrant. The indictments of the grand jury in Buffalo were then forwarded to Montreal and the two warrants were then issued.

FOUND NO BILL.

Gonzalve Desaulniers, K.C., counsel for Ecrement addressed Judge Choquet. He said: "In this affair Connolly had Ecrement arrested for conspiracy. He appeared before the court in Montreal and while the case was in appeal before the Superior Court Ecrement went to the United States. He was always willing to appear in court. While in the United States Connolly had Ecrement arrested and deported as an undesirable. When Ecrement returned to Canada he was again arrested and tried on the same charge that he is now accused of. He was acquitted by Chief Justice Decarie in the Court of Sessions. During this trial a commission went to Buffalo to take evidence. The grand jury in Buffalo found no bill against Ecrement. From Connolly's action it would appear that he contends that he did not get justice in the Canadian courts. He would like to have Ecrement sent back to the United States. I make application that Ecrement be given bail or allowed his freedom on parole until the judgment in the extradition proceedings is rendered. He will appear at any moment."

Judge Choquet said he would decide the question of bail after he had looked over the papers from Buffalo. "The case is very complicated," said the judge. In the meantime Ecrement was returned to the custody of the detectives.

Ecrement, speaking to The Star after the hearing said "This is the third act of the comedy. I laugh at this charge. I have been acquitted of the charge in Buffalo, deported, and now they want to get me back."

PAVING REPORTS RETURN TO COUNCIL

For the third time the Administrative Commission has sent back to the City Council a number of paving and sidewalk reports that were rejected by the aldermen on two previous occasions. These include a number of lanes in the centre of the city, as well as several streets and avenues in Notre Dame de Grace ward, and some in other parts of the city.

The chief paving work proposed are Vendome avenue, $13,185; Belgrave avenue, $15,344; Cote St. Antoine road, $31,803; Beacon field avenue, $17,539; Harvard avenue, $21,950; Wilson avenue, $15,941; Leber street, $17,330, and Ash avenue, $32,100. The principal sidewalk work proposed is Girouard avenue, costing $23,340, while among the sewer work proposed is a section on Gouin boulevard costing $77,000.

These reports will come before the Council at their next meeting but as they are on vacation now it is likely a special meeting called the reports will be automatically adopted at the end of a month.

SENTENCE DEFERRED.

Jenne Jutras, charged with the theft of a number of women's garments pleaded guilty to the charge today in the Court of Sessions before Judge Decarie. As it was her first offence and as she had made full restitution the Judge deferred sentence until September 1, the accused meanwhile being allowed her liberty on promise of good behavior.

CHARGED WITH FALSE PRETENCES

Wilfred Neron, said to be a merchant from Robertville, was arrested yesterday afternoon by Detectives Crowthers and Charrette. He appeared before Judge Leet this morning charged with securing by false pretences the sum of $100 from Greenshields, Limited, $100 from Alphonse Racine & Co. and with attempting to obtain money and merchandise from Mark Fisher & Co. and Galt Bros. Company by false pretences. He was prosecuted by the Merchants' Association of Montreal.

According to witnesses Neron went to the wholesale department of Greenshields, Limited, several days ago and bought goods. When he left the store it is alleged that he suddenly discovered that he was short of money, and as it was after banking hours, asked to have a cheque for $100 cashed. He was obliged. In a few days the cheque was returned as worthless. The matter was reported to the Merchants' Association, who in turn warned their clients to watch for the man. It is alleged that he worked a similar scheme with Alphonse Racine Limited, and was attempting the same scheme on Galt Bros. when he was arrested. Enquete was fixed by Judge Leet to take place June 24.

EXPLAINS SOCIAL SERVICE COUNCIL

Rev. Gordon Dickie Addresses Women's Institutes' Convention

Reports from the various institutes and from the Girls' Clubs followed by discussion occupied this morning's session of the Quebec Women's Institutes now holding the eighth annual convention at Macdonald College, Ste. Anne de Bellevue. The afternoon's program includes an address on "School Fairs" by J. H. McOuat and on "Efficient Kitchens," by Miss J. Rabb of the School of Household Science. A social hour this evening will bring the convention to a close.

Rev. Gordon Dickie, provincial secretary of the Social Service Council, in addressing yesterday afternoon's meeting, emphasized the fact that a new spirit often called "community consciousness" was making itself felt today. Governments, he said, were recognizing this fact in requiring that recommendations regarding social legislation should come to them endorsed by a representative body of citizens rather than by a section of the community. The new spirit required a new organization to give it expression, the speaker believed, and it was generally felt that a representative body of citizens, irrespective of class and trade, was best fitted to deal with problems of social welfare.

The Social Service Council, he said, aimed to do this and without interfering with any individual organization or trying to go over the boundary of any parish, it helped wherever it was needed. With this end in view conventions were held throughout the Province in which various forms of social work and methods of dealing with their problems were set forth by means of exhibits and illustrated lectures. The Council recognized that there were certain things the church could do only when combined with community organizations. Social evils were not confined to any one denomination and to fight abuses it must organize on the broadest possible lines.

In conclusion he congratulated the Women's Institutes on the excellent work they accomplished and thanked them for the assistance they had rendered as a unit to the Council. After the reception and discussion of conveners' reports, tea was served on the lawn.

RURAL WOMAN.

"Rural Woman — Her Privileges, Problems and Powers," was the theme of the address by Canon Shatford at last evening's session. The privileges of simplicity; of being nearer to the reality of things because separated from the materialism, vices and temptations of large cities; of having lots of room and of living where spiritual emphasis was more constant and more real, were numbered by the speaker among those possessed by the rural woman. Her problems he described as those of equipment, being deprived of the labor saving devices of the city and consequently forced to work longer hours in her own home; of isolation, being cut off to a great extent from contact with other people and so missing the social life.

One of her greatest problems in his opinion was that of keeping the older boys and girls on the farms, to counteract the lure of the city by making country life more attractive, by providing more recreation and entertainment and by encouraging the use of circulating libraries. Another problem was that of keeping her outlook broad. To help her in her efforts would be the inspiration of the past, the heritage which has come to her, the traditions of this province which should be maintained. The power of heritage, the speaker believed, would make her strong for her work. The inspiration of the future would also assist her, for to her was given the opportunity of making some contribution to the development of Canada of reaching out a helping hand to generations yet to come.

A musical program was provided by Miss Brown and her pupils.

THRILLING SCENE AS OWNER RECAPTURES CAR FROM DESPERATE THIEF

The theft of an automobile, its recapture by the owner after a fierce struggle in the car as it swerved forward, and the escape of the well-dressed thief under the eyes of a policeman and of hundreds of passers-by, was the thrilling scene provided for home-going throngs in the heart of the city yesterday afternoon.

SAW CAR DEPARTING.

S. J. Matthews of 123 Arlington avenue, Westmount, left his automobile, a Cadillac, outside a barber shop at the corner of Peel and St. Catherine streets, while he went inside to have his hair cut. When he came out he saw his car being driven up Peel street by a stranger. He gave chase and was able to overtake his car and jump in when the thief was compelled to slow down at Burnside Place to let other traffic pass. He seized the man round the neck with his right arm and with his other tried to switch off the magneto to stop the car.

DESPERATE STRUGGLE.

The thief was strong and game, and a desperate struggle ensued. Mr. Matthews trying to stop the car and hold his man, while the thief endeavoured to increase the speed of the car and throw off his opponent. During the struggle the automobile swerved from side to side of the road and after passing the M.A.A.A. building crashed into the curb and stopped.

CONSTABLE SEES THIEF.

Shouts of "police" by Mr. Matthews attracted the attention of a number of people, including Constable Lebeau, who was on duty at the corner of Sherbrooks and Peel streets, about fifty yards from where the automobile stopped; but the thief jumped out, bolted down a lane, opposite the M.A.A.A. building, leading into McCalfe street and made his escape.

AWAITED AUTOMOBILE.

Constable Lebeau did not rush toward the scene as soon as he heard the cries of "police" as he judged the automobile would come to Sherbrooks street and that he would then be able to stop it. The description of the thief as he saw him running away was a tall well-dressed man wearing a grey suit and a straw hat.

LEFT TOOLS BEHIND.

Three of the thief's tools were left in the car. They consist of a large, heavy new crowbar, a pair of horn rimmed spectacles with slightly brown shaded glass and a file. The crowbar looked as if it had been newly purchased as it had not been used and was wrapped in brown paper.

PRISONER ASKS TO GO TO JAIL

Ben Harrington charged with being drunk, pleaded "not guilty" at the Recorder's court this morning. When asked whether he would like his liberty or would prefer to stop a little longer in custody he said that as he was rather weak he thought he had better stop a little longer in prison. He was therefore sentenced to fifteen days imprisonment.

Recorder Semple asked Harrington where he was living.

"Canada," was the reply.

"But what part of Canada."

"Sherbrooke street."

"Oh! I thought you must have come from Toronto but now I know you come from the Province of Quebec I feel I can meet you on a level footing."

Harrington pleaded that he was not drunk when he was arrested but that he had been drinking for some days before. The sentence of fifteen days imprisonment was in the nature of an agreement between Recorder Semple and Harrington as to what was good for him.

HERVEY DAY SUCCESSFUL.

Between seven and eight hundred dollars will be realized for the funds of the Hervey Institute as proceeds from "Hervey Day" held yesterday at Dominion Park. The total receipts have not as yet been sent in, but it is expected that the amount realized this year will be considerably in excess of that of last summer, when $600 was collected. Mrs. George Fisk, covener of the Hervey Day Committee, said that yesterday's receipts were considered quite satisfactory considering the bad weather which discouraged many from attending.

BAYLEY'S COUNSEL ENDS ADDRESS

Crown Prosecutor Will Address Kings Bench This Afternoon

With the completion by both the Crown and defense of their case in the trial of Moses Bayley, accused of receiving cloth valued at $10,000 from the Manufacturers' Sponging Company, the morning session opened with the address to the jury by Bernard Rose, K.C., counsel for the defense.

Mr. Rose reviewed the evidence in the case, and read the section of the Criminal Code dealing with the punishment of this offense, which provides fourteen years' imprisonment on conviction. The status of the accused, who is a farmer living at New Glasgow, was represented to the jury, and it was shown that there was little probability that he would be implicated in a theft of several bolts of cloth which is alleged to have occurred at Montreal, 30 miles away. The willingness with which both accused and his wife agreed to a search of the house and the assistance rendered in this by both the farmer and his wife were pointed to as circumstances which made his guilt very doubtful.

The Crown will address the jury at the afternoon session and after the charge by the judge, Mr. Justice Monet, the jury will retire to deliberate on the evidence and to reach a verdict.

CANADIANIZATION OF FOREIGN-BORN

Dr. Stowe Gullen Tells N.C.W. of Problems of the Immigrant

MUST BE ABSORBED

For Welfare of Country—Formation of Civic Clubs Urged

CALGARY, June 16. — (By Canadian Press.)—One of the chief questions dealt with in the report of Doctor Stowe Gullen, national convenor of citizenship, at yesterday afternoon's session of the National Council of Women, dealt with Canadianization of the foreign born who emigrates to this country.

Dr. Gullen stated that the question of whether these people will be an asset or a deadweight would depend entirely upon the justice and wisdom with which Canadians meet them. She declared that they must not be left to themselves to form units apart and alone, as the welfare of all depends upon them becoming absorbed in Canadian national life, and she added that it was chiefly through the women of Canada that this result would be attained.

The committee of Canadianization also recommended the formation of civic clubs to study the science of government and all problems of reconstruction; courses of citizenship in the schools, and a determination to make English the basic language of instruction in public schools; the principle of equal labor—equal pay; an eight-hour day for women and boys in factories; mental examination of the sub-normal, with the registration of all abnormal cases and the supervision of mentally deficient women of child bearing ages; and the need of a home for mentally defectives.

WOMEN PAROLE OFFICERS.

The report also favored strongly the appointment of women probation and parole officers, juvenile court judges and women physicians attached to all institutions for women.

Some discussion arose from the reading of the report of the committee on education, presented by the national convenor, Mrs. Horace Parsons.

The first recommendation contained in this report was for general uniformity of curricula. Mrs. Murray, of Halifax, expressed the opinion that there was too great uniformity in the curricula now and not enough elasticity, and this view was supported by Mrs. Rose, of London, who stated that the best educators were not in favor of too great uniformity. "The teacher is really the educator of the child," stated Mrs. Rose, who is principal of one of the public schools in her city.

It was finally decided to withdraw this recommendation.

The second and third recommendations which dealt with the revision of text books and the revision of supplementary reading will be referred to the national vice-president, who will lay the matter before the Governments in respective provinces. The general feeling of the meeting was that this work was very essential.

Recommendation suggested the establishing of a system of credits for home work, such as sweeping, dusting, wood chopping, etc. with a view to encouraging children whose talents were not academic. This recommendation was approved, as were those recommending the erection of training schools for teachers of rural schools, especially in districts composed of non-English-speaking people, and the formation of an international bureau of education.

The recommendation for the interchange of public school teachers was referred back to the educational committee to be reported upon at the next annual meeting. It was opposed by Miss Charlotte Wilson and Dr. Stowe Gullen, Miss Whitton pointing out that it would make it impossible to develop a truly Canadian system of education. Mrs. Murray, of Halifax, said the interchange would help Canadians to see and understand other people's views and ideals and would minimize the possibility of another war.

POLITICAL TOUR

Hon. Mackenzie King Plans Many Speeches

OTTAWA, June 16. (Star Special.) Hon. Mackenzie King, Liberal leader, is working out the itinerary of a political tour which during the recess will cover East and West. No details are ready, but the start is to be in the eastern townships of Quebec within the next fortnight.

RURAL HYDRO LINES.

TORONTO, June 15. — Work upon the construction of rural primary power lines will commence right away, Premier Drury astted yesterday. The Government had informed the Ontario Hydro-Electric Power Commission, the Premier said, that it was ready to pay 50 per cent toward such construction, as provided for in the legislation of last session.

CRERAR SPEAKS FOR FARMER CANDIDATE

Scores Special Session of Royal Grain Commission in Irvine Address

IRVINE, Alta., June 16.—(By Canadian Press.) — "In every nook and corner of Canada the people have their eyes on Medicine Hat, and they are wondering whether and hoping that you will strike a blow for pure government, for a sane, safe policy which will increase our international trade and bring relief to the great masses of our people," Hon. T. A. Crerar, Progressive leader, declared yesterday in addressing a large audience of farmers and local business men in the interests of the Farmers' candidate, Robert Gardiner, in the Medicine Hat bye-election.

Mr. Crerar said that Col. Nelson Spencer, the Government candidate, stands for a system which "aims to perpeturate $13 shoes and $1 cowhides."

"What is the price of hides?" Mr. Crerar asked.

"One dollar a hide or one cent a pound," was the reply.

"How many pairs of shoes can be made from one cowhide?"

"Ten," came the reply.

SCORES GRAIN SITTING.

Mr. Crerar scathingly denounced the special session of the Royal Grain Inquiry Commission held at Fort William on June 4 in practically the same terms of his statement issued recently in Winnipeg. "It was the most outrageous proceeding which has ever taken place in a body claiming the dignity of a court in Canada," Mr. Crerar said.

The Progressive leader said that the special session was "deliberately planned for one reason only, in order that if possible the Government might weaken the unity of the farmers in the Medicine Hat by-election.

"Those who arranged this session, of which no notice was given to our officers, know that if they had held sittings in any orderly way, in the proper course of their itinerary they could not have reached Fort William before the Medicine Hat election," Mr. Crerar said.

Mr. Crerar said he did not accuse Mr. Justice J. D. Hyndman, chairman of the board, of being a party to "the scandalous proceedings associated with the creation of this commission by order-in-council, or with its recent conduct."

BACK TO RECIPROCITY.

In discussing the new national policy with special reference to the tariff issue at Irvine last night Hon. T. A. Crerar said: "I believe we could get reciprocity today but for the attitude of the Government at Ottawa.

"We would accept that offer, but from the Government which Col. Spencer will support we have nothing to hope for. Tell the United States Government that we are willing to sign the reciprocity treaty now and I am satisfied they will accept. This question to the farmers and ranchers of the west was almost a matter of life and death so far as their industry was concerned.

"Canada sold $13,000,000 worth of livestock to the United States in 1920, and the value of all farm products sold in the United States was $50,000,000."

"Where is the money coming from?" Norman Lambert, secretary of the Canadian Council of Agriculture said, is a question which should be asked at every one of Col. Spencer's meetings.

TRAGIC DEATH OF ONTARIO OFFICER

Major E. O. Reid Commits Suicide Near Lewiston, New York

TORONTO, June 16.—"The sun has set on this dreadful day," wrote Major E. O. Reid, of this city, chief accountant of the office of Public Trustee for Ontario, in a pathetic letter to his wife just before killing himself near Lewiston, N.Y., yesterday afternoon by drinking poison. His body was found by a motoring party from Rochester, N.Y., on the point at the brow of Lewiston Mountain, just opposite the Niagara Falls Country Club, where the party had gone for a picnic lunch.

Beside the body was a bottle that had contained poison. In a notebook in his pocket was found the pitiful note to his wife, beginning with the words quoted. In the note reference was made to his four children, and the farewell message was brimming with affection for his wife and family. "I know I am much better out of your life," the note said, and expressed a hope that "the good Lord" would send someone who would be worthy of his wife's affection and kindness.

The tragedy of today had its origin a little over a week ago, when "irregularities" were discovered in Major Reid's accounts, according to Attorney-General W. E. Raney. It is said that the amounts which he was supposed to be short were not more than one or two thousand dollars. Major Reid was suspended from office pending an investigation, but no action was taken by the Attorney-General or the board administering the office of Public Trustee, looking to his arrest.

While the inquiry was in progress Reid, without notifying anyone, and evidently brooding over the trouble, left the city. It is said he wrote from Niagara Falls last Friday or Saturday that he intended to end it all, and that the provincial authorities were notified of this letter. Up to that time no warrant for his arrest had been issued. At the beginning of this week Reid was seen on the American side of the Falls and it was decided to take him into custody. The American police were informed to this effect, but they failed to locate him until informed of the suicide by the Rochester picnic party.

Major Reid had been in the service of the province of Ontario for some time. At first he was on the staff of the Soldiers' Aid Commission, and did such good work that he was given the more responsible position which he occupied up to the day of his suspension. He was about forty years of age. He lost a foot during the war.

Major Reid was a member of the Ontario Civil Service Association.

CATHOLIC FORESTERS' CONVENTION CLOSES

Notable Banquet Winds Up Two-Day Session at Ottawa

OTTAWA, June 16.—Culminating with a most successful banquet attended by representatives of the City Council, prominent members of the Roman Catholic clergy and fraternal men, and over 200 delegates and members of the local courts, the fourteenth triennial provincial convention of the Catholic Order of Foresters came to a close here last night after a fruitful two-day session.

The convention proper was concluded with the election of provincial officers and delegates to the International Convention of Catholic Foresters to be held in Milwaukee on August 1, 2, 3 and 4. Provincial Chief Ranger J. V. Dussault, of Toronto, who has filled the office with distinction during the past eight years, although pressed to run again, was firm in his decision to retire. He was succeeded by J. C. Allen, of Toronto, one of the youngest members of the Order ever called upon to fill the honored post.

The full list of officers follows: Provincial Chief Ranger, J. C. Allen, Toronto; Vice-Chief Ranger, J. J. Guittard, Windsor; Secretary and Organizer, J. J. Nightingale, Toronto; re-elected; Treasurer, R. L. Archambault, Toronto, re-elected by acclamation; Trustees, W. Labelle, Ottawa; V. McCullough, Ottawa; W. A. McGuire, Toronto; Alex Macdonald, Windsor; Nap. Servais, Haileybury. Delegates to the International convention are: L. V. Dussault, Toronto; J. J. Nightingale, Toronto; Rev. Father Phelan, Peterboro; R. L. Archambault, Toronto; P. A. Haley, Toronto; C. S. O. Boudreault, Ottawa; V. McCullough, Ottawa; W. A. MacGuire, Toronto; J. A. Pelton, Ottawa; Dr. M. Powers, Rockland; J. C. Allen, Toronto and W. A. Palmer.

A resolution calling on the convention to voice their sympathy with the people of Ireland in their tragic hour and expressing the hope that a peaceful settlement will soon be reached, was moved by Rev. Father W. P. Meagher, of Lakefield, Ont., and unanimously adopted.

TO FEDERATE WITH SOCIAL SERVICE BODY

CALGARY, Alta., June 16—The question of federating with the Social Service Council of Canada came before the National Council of Women at the opening of yesterday's session. Dr. Stowe Gullen, of Toronto, presented the following resolution:

"That the Canadian Council of Women again federate with the Social Service Council of Canada."

This was seconded by Mrs. Allen, of Moose Jaw, and carried.

The balance of the session was taken up with the appointment of various committees.

LITIGATION OVER CUSTODY OF CHILD

Mother Refuses to Surrender Child to Legal Tutor

Before Mr. Justice Coderre in the Practice Court yesterday an application was made by W. D. Lighthall, K.C., acting on behalf of George Edward Lomas, judicially appointed tutor to Eileen Patricia, a minor natural child, for a writ of Habeas Corpus directed against Thomas Platt, janitor, for the possession of the child, who is four years of age.

Mr. Justice Coderre reserved judgment on an inscription-in-law entered by J. A. E. Dion, K.C., on behalf of Platt. Should this procedure be dismissed, the Court said it would fix a day for hearing on the merits of the case.

The alleged facts, according to the documents filed in the case, are that Eileen Patricia was born February 3, 1917. After her birth, it is alleged, her mother confided her to Platt and his wife, Elizabeth Williamson Platt, who adopted her as their own child. In order that the child should have a birth certificate as the child of Thomas Platt and his wife, it is alleged, the little girl was baptized by Rev. Austin Ireland, at St. Stephens' Church, Lachine, on April 8, 1917, as the child of the Platts, her own mother Joan Ross signing the baptismal certificate, with Mrs. Platt, her brother George Williamson, and the officiating clergyman.

The mother, it is alleged, sought to recover her child and requested the Woman's Directory to help her. On February 8 last, Lomas was appointed tutor to the child, and secured possession of her, but in April last, it is alleged, the Platts abducted her and now refuse to surrender her to Lomas. Hence the proceedings for habeas corpus to force the Platts to deliver the child to her tutor.

A feature of the case is that the alleged mother, Joan Ross, has disappeared from the city and cannot be found. Correspondence, however, in possession of the parties, shows that she was ill in a Bangor, Me., hospital last spring.

In the inscription-in-law pleaded this morning, J. A. Dion, counsel for respondents, claimed that the child being in possession of a certificate of birth, the act of tutorship on which petitioner bases his petition and possession of the child is null and illegal; that his tutorship was obtained under false representations and allegations and without the knowledge of the respondent; that the fact that Joan Ross, alleged mother of the child, having signed the birth certificate of child proves that she gave it for adoption to respondent and his wife; that the deed of tutorship of petitioner should be revoked and that the writ of habeas corpus be quashed with costs.

Mr. Lighthall, in reply, claimed that the birth certificate as produced was a forgery.

URGE REGULATION ON JAPANESE IMMIGRATION

VICTORIA, B.C., June 16. — The Provincial Government, through Premier Oliver, has forwarded to the right Hon. Arthur Meighen in London, a cablegram strongly urging that any renewal of the Anglo-Japanese Treaty should preserve to Canada the right to restrict Japanese immigration, something which the existing treaty does not stipulate.

In connection with this subject, Hon. E. G. Darrow, Minister of Agriculture has collected data showing to what extent Japanese and Chinese are engaged in the business of agriculture and horticulture in this province. This information has been forwarded to Hon. Dr. Tolmie, who is accompanying Premier Meighen on his mission to England.

THANKS STUDENTS FOR GIFT OF BERET

A letter from Miss Carman, thanking the students of the course leading to Licentiate in Letters for the gift of a beret, a student's black velvet cap with the green band of the Faculty, was read at the last lecture, in the post-graduate course in English literature in the Faculty of Letters, in the Universite de Montreal. The first certificate in the new English course was awarded on the same occasion to Miss Silver Brown of New York, a graduate of the Ladies' College of the Congregation of Notre Dame, Sherbrooke street. Canon Emile Chartier, dean of the Faculty, presenting the certificate referred to the nationality of the winner and to the fact that the award was made for English by a French-Canadian bilingual university.

RELIEF MEETING ADJOURNED.

Through reason of the small attendance at the annual meeting of the North End Protestant Relief Association called for yesterday afternoon in the school room of the Church of the Ascension, Park avenue, the meeting was adjourned until early in October. Rev. J. G. Potter, pastor of Mac-Vicar Memorial Church occupied the chair and after reading the reports from the treasurer and secretary the meeting closed.

Life and Character Reading
JUNE 16.

The sign of Gemini under which this birthdate falls, governs the arms and hands of the Grand Man. It is a changeable, masculine commanding sign, the positive pole of the air triplicity.

In the higher attributes its chief characteristics are reason and sensation. This person is affectionate, kind and too generous, often giving away to those people who are only taking advantage of their warm heart.

Poor judgment is often illustrated in choosing friends. One trait of character often seems to contradict another and it is difficult to know exactly what this person will do. Young men and women of this birthdate will find it much better to marry and settle down early in life than to be flitting about here and there leading a butterfly existence.

Automobiles may be hired, rented, sold and exchanged to advantage through the Star Want Ads.

HOPES TEAM WILL BRING TROPHIES

Major-General E. W. Wilson, C.M.G., Inspects Bisley Riflemen

"On behalf of the Dominion Rifle Association, I wish you men every success when you get over there" said Major.-Gen. E. W. Wilson, C.M.G., to the members of the Bisley team, drawn up for inspection by him in the Armories on Craig Street yesterday afternoon. Gen. Wilson, continuing, said that he was there with the members of the council of the Dominion Rifle Association, who wished to show the interest taken in the team. He saw there men who had been on it when he was, and these he congratulated on their long service. He also expressed good wishes to those who were chosen for the first time. The General also commended the team on the fact that they had as Commandant Lt.-Col. C. W. Peck, V.C. and as adjutant Major C. W. Butler. Referring to the meet the General said that there were two trophies which he hoped they would bring back to Canada—the King's Cup and the Kolapore Cup.

Several other members of the Dominion Rifle Association council were present including Major-Gen. Sir Alexander Bertram, Brig.-Gen. C. J. Armstrong, (Militia District No. 4.) Brig.-Gen. A. E. Labelle, Col. G. Starke, Lieut.-Col. A. P. Anderson, Col. Birdwhistle and Lieut.-Col. C. E. A. Patterson who took part in the official send-off to his nephew, Lieut. H. S. Patterson, who is on the team for the second time.

Sert. T. Angear, winner of the prize of $50 presented by Major C. R. Crowe, a member of the team, to the man obtaining his place for the first time, received his prize from Lieut.-Col. Anderson.

The team sailed today by the Metagama.

CATHOLIC SAILORS' CLUB.

Employees of the Belding-Corticelli, Ltd. provided the entertainment last evening at the Catholic Sailors' Club, and among the audience was a large number of seamen from the Scandinavian and the Montreal. The chair was taken by C. A. Reynolds and the program which was under the direction of D. R. Kennedy and J. O'Dowd, was contributed to by L. K. Strader, piano; Miss E. Ramsden, Miss W. Byrne, Miss E. Cook, J. F. Smart, L. N. Hebert, J. O'Dowd, vocal selections; L. C. MacGlashan, saxophone solos; Miss R. Ford, Scotch dance, and orchestral selections; C. Alkin, lightning sketches in crayons and impersonations with bagpipe accompaniments. Artists from the ships were: Alex. Wilson, reciter, and Abbie Edwards, Yiddish comedian of the Saturnia; Messrs. Callaghan (song), and Rolph, monologues, of the Metagama. Strader, F. Sims, and Miss Fredericks accompanied.

REAL ESTATE SALE.

The total proceed from the sale of lots on the Mount Royal Heights subdivision, conducted last Saturday and Tuesday by Barry and Austin was announced today by the auctioneers as $89,000. The average price per lot was about $350. This is considered by the auctioneers, when the condition of the real estate market is taken into account, as quite satisfactory.

French Planning to Educate Germans in Artistic Progress

PARIS, June 16. — (Special Star-Ledger Cable)—Leon Bernard, Minister of Public Instruction and Fine Arts, and M. Loucheur, Minister of Liberated Regions, assisted yesterday in the official opening of the French Fine Arts Exposition at Wiesbaden for the purpose of acquainting the inhabitants of the occupied Rhineland with the best standards of French artistic and intellectual progress.

As it is considered probable the Rhineland provinces will be under French military control for a number of years, it is the policy of the French High Commissioner, Paul Tirard, to develop a friendly alliance with the Germans who must live and educate their children under conditions of French occupation.

Two palaces are now filled with all varieties of French works of art, including the works of such masters as Claude Monet, Degas, Henner, Puvis de Chavannes, Bodin and Bourdelle.

The Grand Duchess of Luxembourg has loaned a palace for exhibiting the rare works, and another house's furniture, tapestry and historic objects, including relics of Napoleon.

BOYS' CAMP TO OPEN.

The Alverna Catholic Association will conduct its eighth annual summer camp for boys from July until the last week in August. The camp committee expects a large number of boys will take the opportunity of spending their holidays in the Laurentian Mountains, the camp being about forty-two miles north of Montreal, one half mile from the village of St. Sauveur.

The members of the committee are: D. G. Shanahan, I. P. Bradley, H. J. Thistlewaite, M. E. May, T. J. Ryan and Rev. J. L. O'Rourke chaplain.

ARTILLERY MEN LEAVE FOR CAMP

En route for the artillery camp at Petawawa, almost one hundred men of the 2nd Heavy Brigade, and the 7th Siege Battery left Windsor Station last night. A great number of those leaving were members of Cape's Battery, and included many well known Montrealers.

Lieut.-Col. E. G. M. Cape, D.S.O., was in command and Capt. E. Hart, M.C., was adjutant. The two units arrived in Petawawa today and went into camp. They will take part in the shoots on Saturday for the Governor-General's prize. They will leave camp on Sunday night and expect to reach Montreal on Monday morning for dismissal.

BRITISH TAILORS MAY YET IMPROVE

Public More Exacting as to Style, Says Theodore Morgan

TEXTILES SLACK

Coal Strike Caused Great Advance in Use of Oil Fuel

"The British tailor has not yet learned to cut clothes, but there are signs which show that an improvement is taking place," Theodore Morgan, of Henry Morgan and Co. Ltd., stated yesterday afternoon. Mr. Morgan has just returned from England, where he went in company with a party of Canadian and American dry-goods men, returning a visit paid to this continent last year by the Drapers' Chamber of Commerce of Great Britain.

Supplementing his remark, Mr. Morgan explained that clothing was only one of many lines in which the British manufacturer had been equally famous for the splendid quality of his materials, and the poor style and finish of the manufactured article. The war, however, had brought into the British market many products of foreign countries, which the British public had never seen before, and in many lines the stylish designs and smart finish of the foreign article proved an eye-opener to the British consumer.

The result is now being felt, in that although the public welcome the return of the substantial British materials they knew of yore, they are calling more and more for an all round improvement in style and finish, to live up to the finer taste to which the imported article has educated them. The feeling is, in fact, that it is a pity to combine such excellent materials with such poor finish and style.

TEXTILE INDUSTRY SLACK.

The textile industry in Great Britain, Mr. Morgan stated, was not working more than fifty per cent. capacity. Any further attempt at reducing the cost of production of the finished article had been killed by the coal strike, at least for this year. There could now be no hope of any further fall in the price of English textiles till next spring.

Another influence which militated patch against reduced prices in textiles was the lack of export trade. Cheap prices depended on quantity production, and only when orders were pouring into the English mills from all over the world as they used to do in the past, would there be any hope of coming down to bedrock prices.

Referring to the coal strike, Mr. Morgan felt that a battle was being fought there for all the industries of the world. All over the world, the same distrust and friction between labor and capital existed. The manufacturer, realising that production must cost less if business is to get back to normal, had cut down everything, including profits, which contributed to the cost of production, but labor was shy at accepting any reduction in wages, fearing that if they did so the workers would be sacrificing some of the privileges they had acquired by organization.

It was necessary that the matter should be fought out somewhere, and that the struggle should be allowed to go to the limit in order that both workers and employers might be forced to realize that a certain point may be reached in every labor dispute, beyond which the interests of labor and capital alike fade into insignificance and the need of the community at large becomes the predominant factor. This was happening in England, where the strikers had entirely lost the sympathy and support of the public.

One of the most important results of the strike was the remarkable development of the use of oil as fuel for industrial purposes, Mr. Morgan concluded. The advance that has been made in that direction would not have been made in twenty-five years under normal circumstances. Never again will Britain be as dependent on coal as was the case in the past.

JEWS TAX THEMSELVES.

Some thirty of the Jewish organizations of Montreal have agreed to tax their members in order to contribute toward the Palestine Foundation Fund. The object is to raise from Jews all aver the world a sum of £25,000,000 for the building up of the Jewish homeland in Palestine under British protection. The Bessarabian Sick Benefit Society has undertaken to furnish $25,000 towards this total. On Sunday, June 19, committees will make a house to house collection amongst the Jewish families for this fund.

White is not a Color

IT is the combination of the colors of the rainbow, and it is what remains when color has been eliminated.

But there is a maximum degree of whiteness.

In the washing of clothes, this was achieved a century ago by

KEEN'S OXFORD BLUE

In the years that have followed, everything has been done to maintain the quality. KEEN'S OXFORD BLUE produced the maximum whiteness then—it does the same to-day. Wherever clothes are washed it is still the standard of excellence.

BOSTON PRINTERS GIVE UP STRIKE

Returned to Work on the Same Basis as Before

AT UNION DEMAND

Officials Insisted That Men Live Up to Their Contract

BOSTON, June 16. — Newspaper compositors who walked out of offices here Monday night and Tuesday morning, voted last night to return to work under the same wage scale and working conditions that prevailed when they quit their employment.

The vote, which was taken by chapels, stood 214 to 168 in favor of returning.

Compositors on morning newspapers, the publishers said, were returning at once. They asserted that all the men would be at work by this afternoon.

Twelve page papers will be published in the morning, the publishers said, in place of the eight page editions which have appeared morning and afternoon since the walk out occurred.

The decision of the men, which was reached through a secret ballot, came after Sylvester J. McBride, president of Boston Typographical Union 13, and John F. Murphy, international organizer for New England, had made several speeches at a mass meeting of the men urging them to return. The walkout did not have the sanction of the union, and when the men quit work on Monday night they asserted that they were acting as individuals.

The Publishers' Association issued no formal statement after the vote.

In a statement President McBride said last night:

"The men have obeyed the mandate of the officers of the International Typographical Union and will return to work immediately. Those who are physically able will go back to work tonight. Others will return tomorrow."

The publishers announced that the men would return under the wage scale and working conditions that prevailed when they left work.

At the offices of the morning papers preparations were immediately made for an issue of twelve pages. Eight pages were published on Tuesday and Wednesday.

Union officials asserted that the vote was only on the question of returning to work.

PRINTED JOINT PAPER.

PORTSMOUTH, N.H., June 16.—There were no "scoops" for either the Times or the Herald yesterday. Instead office forces of the two evening papers, which have not published this week because of a compositors' strike, co-operated in printing a single page paper under the name of Times-Herald.

OIL MEN PROTEST

Enter Formal Objection to Mexican Taxation

MEXICO CITY, June 16.—Formal protest against President Obregon's recent decree increasing the taxes on export petroleum was filed with the Treasury Department yesterday by representatives of the Associated Oil Producers of Mexico. It was declared the tax, as a whole, was excessive, and did not take into account the statistics said to have been furnished by the Government relative to oil production and exportation.

FOREST FIRES UNDER CONTROL.

QUEBEC, June 16. — The forest fires which have for the past few days been raging in the neighborhood of Chandler are now under control, according to a telegram received by the Lands and Forests Department. Only excellent work by the employes of the Chicoutimi Pulp Company, it is said, saved the whole district from being devastated.

AUSTRIAN POLITICAL DEADLOCK CONTINUES

All Parties Seem Unwilling to Risk Defeat at the Polls

VIENNA, June 16. — (Associated Press.)—Solution of the Government deadlock in the Austrian republic is apparently no nearer than it was fifteen days ago when the situation became critical. The Christian Socialists have issued a statement which virtually confesses the inability of that party to form a Government as long as plebiscites relative to fusion with Germany continue to be held in different provinces of Austria.

Dr. Michael Hainisch, president of the republic, is reported to have offered to attempt the formation of a temporary non-partisan Government.

The situation is aggravated by a growing disbelief in the financial plans of the League of Nations.

THROUGH THE CANADIAN PACIFIC ROCKIES.

It is generally the rule of the wise vacationist to plan his, or her, summer holidays a little while ahead. Business-houses are arranging their holiday-lists, school teachers are closing their books for the summer; now is the time to think about that Pacific Coast tour you have wanted to take, for so long.

A Canadian Pacific agent will be only too glad to help arrange your reservations, and give you expert advice about the different beauty spots to stop at, either via Chicago or both ways through our incomparable Canadian Rockies. The Canadian Pacific gives you your first introduction from the roof garden of the Palliser hotel at Calgary, one can see the glistening peaks sixty miles away. Their call is irresistible—like a magnet they pull the trains of eager travellers. For 500 miles the Canadian Pacific Railway follows the wild canyons that the rivers have dug, brawling, glacier-fed, about the feet of the giant peaks. The beautiful folder "Pacific Coast Tours," is now obtainable, giving you in pictures the route of your trip, Banff, Lake Louise, Field, Emerald Lake, Glacier on to Vancouver, and Victoria, that "Little bit of old England on the shores of the Pacific." Mr. F. C. Lydon, City Passenger Agent, 141-145 St. James St., will give you one for the asking.

SIR DONALD MACMASTER.

REGRET for Sir Donald Macmaster's resignation of his seat in the British House of Commons will be felt not only by many Canadian friends but by others who only know him by his creditable record. Sir Donald has been a good and useful friend to Canadian interests while he sat in the British Parliament. Very general sympathy will be felt for him in his illness, which is happily now less serious than it at one time appeared to be. It may not be too much to hope that Sir Donald will return to Canada where a field of usefulness is open for him.

MEIGHEN AND THE JAPANESE ALLIANCE.

MR. MEIGHEN waited until he reached Great Britain before allowing his attitude on the Japanese Alliance to be stated with any definiteness. It is to be presumed that this was not mere idle procrastination, but a wise and patriotic prudence—a wholly proper desire to hear something of the English case before speaking. The Canadian Press picture of his views—it cannot be given the authority of an interview—intimates that his decision has been affected by two new discoveries—(1) that "it has become clearer that no vital Empire interest is involved", and (2) that "there is a strong sentiment here (in Great Britain), both in Government circles and the press, against the treaty." Both of these discoveries seem to have been made by the Canadian Premier since landing.

It was a sagacious and loyal caution which imposed silence upon Canada's representative until he had come closely in contact with those forces within the Empire which might be presumed to regard a renewal of the Japanese Treaty as imperative. If he has really discovered now that "no vital Empire interest is involved", he naturally feels freer to speak and we will all feel very much relieved. There is no manner of doubt that Canada would never dream of renewing the Japanese Alliance, with its unescapable reaction on super-sensitive American feeling, merely as a diplomatic compliment or a purely decorative addition to our outfit of international instruments. It must be shown to serve some "vital Empire interest" in a very essential fashion before we would consider it at all.

* * * *

Premier Hughes of Australia seems to think it "essential." The Premier of New Zealand takes the same view. General Smuts has been regarded as supporting it, though not so actively as his Australasian colleagues. Much of the better informed writing we have seen in the responsible publications of the Mother Country favor it, with the insertion of a crystal-clear clause entirely freeing the British Empire from the smallest obligation to join Japan in any war under any circumstances against the United States.

Now if Australia feels that she should not be asked to live alone in the Pacific with Japan, after we have affronted that notoriously thin-skinned nation by denouncing our treaty with her, have we not something here very akin to "a vital Empire interest"? That such an affront will be felt cannot be ignored. It is not at all, as the cable correspondents appear to think, merely a question of failing to renew the treaty. It renews itself automatically from year to year unless Great Britain pointedly denounces it.

To denounce it is to isolate Japan. We say to Japan: "We have got all we want out of you. Get off the door-step." That may be international politics; but there is no use expecting Japan to relish the experience. She will infallibly resent our action and seek feverishly for other friends.

* * * *

There is not much in the alleged fear that she might in that case single out Australia for attack. In the face of such an attack, the United States would be practically certain to go to the defence of Australia; and, of course, the whole power of the British Empire would be put forth to punish such a wanton outrage. Japan cannot fight the United States and the British Empire combined; and she is far too wise to try.

That is not the danger. The danger is that Japan, which is a first-class Power that came through the war unscathed, will look about for new alliances—and will find them. Suppose, feeling that the refusal by Great Britain to renew her alliance, plainly in deference to American opinion, means in essence that the two English-speaking Powers have combined against her to balk her expansion in Asia and confine her activities in the Pacific, she says to Russia and Germany: "Put your houses in order; and I will combine with you—will prevent any further 'exploitation' of you by your late enemies—and we will together command the world from the North Sea to the Yellow." Is there no danger in that?

Could not such a combination, with Turkey and the Caliphate to help it, stir up infinite trouble for us in India, Egypt and every Mohammedan "mandate"? In our present condition of war exhaustion, could we take them all on? And are we dead certain that the Americans would come promptly to our help if, for instance, the immediate issue were the holding of Egypt, the suppression of a native revolt on the boundaries of India, or the safety of our new Arab State—which the French dislike—in Mesopotamia?

Here is where Australian uneasiness comes in. In such a war, she would greatly tempt a Japanese invasion, unless adequately protected at sea.

* * * *

But it is entirely right for Premier Meighen to make it clear that Canada, as Canada, has no interest in the continuation of the Japanese Alliance, at all comparable with her paramount interest in maintaining a frank and friendly understanding with the United States. If there is to be a symposium of Empire opinion, Canada should put her's quite candidly into the pool. We have a different interest in the matter to either Great Britain or Australia; and there is no reason why we should not say so inside the family.

In any event, it will enable the British negotiators to tell the Japanese that there are cross-currents in this little affair, and that Canadian sentiment must be met by making it unmistakably clear that the new Japanese Alliance is in no respect anti-American. If that is not made clear, it will be perfectly proper for the Canadian Parliament to decline to adhere to the treaty.

Before "a vital Empire interest", we will always bow. But unruffled, unquestioning and whole-hearted co-operation between the Empire and the American Republic, we regard as such an "interest". If the Japanese Alliance is also—and The Star has been quite frankly of the opinion that it may be—then these two "vital Empire interests" must be reconciled. That is the duty of our statesmen, Empire and Overseas.

OUR YARDS AND STREETS.

THIS city might very profitably follow a scheme that is outlined in various American cities of establishing what is known as "community" yards.

The principal idea involved is the abolishing of sheds, devoted to individual family uses, and have "community" outbuildings substituted. A general square is to be secured, and upon this central community square would open gates from the back yards of the various residences.

It is proposed, moreover, to establish in this plot the following: A building containing an electric power washing and wringing machine—for the use of all, facilities for heating water and for starching and ironing; a community garden to furnish families in the square with fresh vegetables and flowers. This would be looked after by the man employed by the various families; community kitchen to supply families with staple meals, which could be supplemented by special dishes cooked by the families themselves on their own gas ranges; a community heating plant with steam pipes radiating to the dwellings on the square.

An alternative proposal suggests that back yards in congested districts should be remodelled and turned into small playgrounds. Details are given, explaining how this is feasible under amicable arrangements. This latter plan would undoubtedly aid in keeping children from playing in the streets, and reaching the juvenile courts in consequence. Hygienic conditions would also be improved, as would the well-being of tenants generally. Back yards in Montreal are far from being satisfactory, and anything that will result in their betterment is worthy of serious thought.

Lanes and streets today are so dust-covered as to be not only an exasperation, but an actual menace to health as well. Surely the finances are not at such a desperately low ebb that water cannot be supplied to sprinkle them.

OUTWITTING JUSTICE.

THE city is infested with pickpockets; complaints of their operations are daily pouring in. Montreal has long been a Mecca for these vermin. They operate usually at crowded street car corners, and on the tram cars themselves.

The ease with which these thieves have secured bail in the past has frequently aroused indignation. Some time ago arrests were made here of notorious pickpockets hailing from the United States. They were released on bail. The expected happened; when the names of the culprits were called it was found they had fled the city. There was evidence that the men were widely known as crooks in the United States. It is little to be wondered at that pickpockets and other criminals have so marked a liking for Montreal.

The foundations of society rest upon the impartial dispensing of justice; when it can be flagrantly outraged or cunningly outwitted there will inevitably be a marked lessening of respect for the law, with resultant incentive to crime.

THE WORLD'S PRESS

The Rock of Understanding.

Boston Transcript: Occasional differences are bound to occur between France and Great Britain. Silesia and the Near East are only two of many potential causes of a diplomatic disagreement. However, irritating as these differences may be, they do not indicate a break-up in the spirit or the aims of the Entente Cordiale, or a permanent falling out between France and Great Britain.

A First-Class Fighting Man.

Indianapolis News: The good relations between the two nations — which, as Secretary Weeks has said, it is so important to maintain —can not be strengthened by such speeches as this. Rather they will be jeoparded. Admiral Sims is a brave and skilful officer, but as an orator he is not a success. He would be well advised never to essay that role. Discretion is not cowardice—on the contrary, it is not wholly unrelated to valor.

The Inefficiency of State Control.

London Daily Mail: The work of the Post Office has far outgrown in volume and complication the capacity of its mid-Victorian headquarters administration to deal with it and to control the expenditure. The Post Office needs at its head administrators who will organize, economists who will economize, managers who will manage. The present officials seem as helpless as the victims of a flood; they cling to their office chairs and tables, tossed hither and thither by the spate they have let loose, swept along by an ever-swelling torrent of expenditure which they do not control.

Mark Out the Boundaries.

London Daily News: In spite of the Bavarian trouble, and in spite of the profound dissatisfaction caused by the inadequacy of the sentences on war criminals, relations between Germany and the Allies are at last in process of becoming finally stabilized. That process cannot be completed till the future of Upper Silesia is known. A frontier must be drawn. Germany must be given immediate occupation of the territory allotted her, and both she and Poland must be placed in a position to adjust their national economy to the conditions created by the permanent delimitation of their boundaries. That is of concern primarily to the two States themselves—to Poland as much as to Germany—but it is of concern equally to the whole of Europe. Every day the uncertainty is prolonged a blow is struck at European prosperity.

Safety Valves.

London Daily Express: It is a good thing for England that there are Derbies and Test matches. In the midst of industrial struggles, these great days over which King Sport takes control come like a breath of country air to tired city dwellers. Where was the man whose thoughts turned to coal or Silesia yesterday? He did not exist. The Derby claimed us all. It makes no difference whether we actually trod Epsom Downs, or ate our lunches with one eye on the tape machines, or just went on with our everyday work, waiting for the newsboys' shout of "The winner!" It is all the same—in London, in Birmingham, in Liverpool docks or in the villages of Cornwall and Devon — we were thinking of the Derby. There is no class distinction in sport. England need not worry so long as the democracy of sport exists, and continues to exist, as we know it on Derby Day.

A Watchful Guardianship.

La Presse: There is plenty of work before the new Metropolitan Commission which is charged by the Legislature with the task of supervising the financial operations of the different municipalities in the Island of Montreal. This Commission has already begun to prove its usefulness, and if, as we confidently believe it will, it remains faithful to the principles which it has followed since its inauguration it cannot fail to render even greater service to our community. Its object is to check useless and exaggerated expenditures. It will take steps to find out if the municipalities which desire to borrow money are in a position to pay capital and interest. It will see to it that the monies so raised are properly expended and it will give advice to the different Councils about these matters. In this way the different municipalities of the Island of Montreal will develop along normal lines and they will be a source of strength to the Metropolis when the time of their annexation arrives. More than ever prudence and economy should be the dominant virtues of our municipal administrators.

Education for Every One.

Times of India: English people have been accustomed to regard education as a thing which primarily benefits the person who receives it. It has therefore been considered that it was the duty of the parents of a child to see that it received a suitable education. If they wished, and could afford it, they gave it a good one, thereby procuring for it a "good chance in life." If they were too poor, or too stupid, to do this, then so much the worse for the child. But we have come to see that there is a larger aspect of the question. It is also so much the worse for the nation that a child should be left uneducated. It is to the advantage of the community as a whole that education should be as widely dispersed and as complete as possible. In the days when education was a matter for the choice of individual parents, the provision of education was quite rightly left to the charity of individual members of society. Luxuries in education or education for social prestige still are so left and quite rightly. But, as soon as the country began to realize that the matter in the main was one of national importance, education at the cost of the State began to be provided and to be enforced on every child up to a certain age.

Just What Has Sims Done?

New York Evening Post: When the naval regulations prohibit an admiral from talking politics the purpose is obviously to prevent injury to discipline in the service. When naval regulations prohibit an admiral from talking foreign policy the purpose is obviously to prevent unpleasant international incidents. Admiral Sims' Titan-haired oration in London falls under neither count. He has not assailed his civilian superiors and he has done nothing to make trouble between this country and Great Britain. What Sims has created is not an international incident like that which followed upon the famous "Meinself und Gott" poem, but a domestic incident. He has possibly created strained relations between certain members of Congress and certain of their constituents. That hardly calls for nerves and court-martial. Abroad, the chief effect of the Sims excursion into red rhetoric will probably be a certain sense of bewilderment in the British mind. Col. Harvey, in attacking the League of Nations, invited the British people to look upon last November's vote in this country and take it to heart. Admiral Sims has invited the British people to take one look at our voting record and forget it. Neither man should have dragged in the question of the American voter, and in neither case is it of much consequence.

Dangerous Business.

A bard received a can of cake; a gift, 'twas, from a friend.
It made that poet's stomach ache, and well-nigh caused his end,
It gave him nightmare awfully, and helped his sleep to cheat,
It also set him crazy with chronic yearns to eat.
Oh, when you do a kindly deed try to be wise and show it.
Give food to common mortals, and only praise a poet.

Tennyson J. Daft in The Kansas City Star.

BUYING A RAILWAY

BUYING a railway ticket is a common experience; buying a railway system is quite another matter. Canada is engaged in buying the Grand Trunk Railway System, and an important part of the operation can be observed in Montreal at the sessions of the Grand Trunk Arbitration Board, now meeting here.

The sessions of the Arbitration Board are held on the top floor of the Grand Trunk office building on McGill street. As one enters the room, there are several rows of chairs on the left—usually empty—while two long tables each surrounded by experts and lawyers stand immediately on the right, leading up to the platform on which sit the members of the Board. Sir Walter Cassels, Canadian justice and chairman, has the central chair; on his left is Sir Thomas White, formerly Canada's finance minister, representing the Government, and on his right is Hon. W. H. Taft, the celebrated ex-President of the United States, representing the railway company.

The witnesses, who are duly sworn as in a court, occupy a seat and desk directly on the left of the three Board members. Every word spoken at the sessions is taken down by stenographers, one of whom is always busily at work at a table in front of the Board. As always, one has reason to marvel at the ability of these men to "register" the masses of intricate testimony. The three or more of them are all bald-headed, and no wonder.

Railway questions are not easy to understand when considered in terms of thousands of miles and millions of dollars, but lawyers are always ready to tackle anything, and these two tables of legal talent form no exception to the rule. The leading counsel are mostly men who have specialized in railway business, such as Mr. Pierce Butler for the Government and Hon. F. H. Phippen for the Grand Trunk. As often as not, one gets the impression that the huge Grand Trunk is actually present, personified by a prisoner leaning over the bar, whose character is under examination. He has pleaded "Not guilty," which has drawn a loyal response from his counsel but has left the Government battery unmoved. Whether he is a respectable gentleman unused to rough handling or a tramp, bum and deadbeat with an unsavory past seems always a point at issue as between the opposing lawyers. In turn, he is accused of having no visible means of support, of being a loiterer, of getting money under false pretences, but these charges find a strange echo on the other side of the room, where the conviction is held that he is a person of uncommon virtue, industry and good report.

Sir Walter Cassels, who presides, is an elderly gentleman with a patient judicial manner acquired by long experience on the Bench. He is always serious, earnest, and concentrated on the matter in hand. So also is Sir Thomas White, who appears ever conscious of his deep responsibility. But perhaps the most interesting feature of the proceedings is the attitude of Mr. Taft. The former President, a huge man whose keen gaze never misses anything, seems always to find the going easy for his sturdy stroke.

Mr. Taft's cheerful acceptance of this arbitration grind is almost irritating in its sheer defiance of tangled problems over which even the casual observer must perforce wrinkle his brow, but the tunnel is never too dark for the famous Taft smile to lift the gloom. Perhaps it is because Mr. Taft has tackled the proposition of running a whole Republic that he can gobble up a single railway at a sitting, with or without salt. Since the arbitration began, several of those in attendance have suffered from ill-health due, possibly, to the continued strain, but Mr. Taft seems actually to have put on weight. It is something to hear Mr. Taft, at rare intervals, inject a brilliant facetious remark in that soft, semi-drawl acquired in his native State of Ohio; the humor is pungent and the laughter which greets it is sincere, no more courteous recognition of a distinguished visitor's whim. At such times, the whole company seems to shake itself and relax before everybody bends down again to the ceaseless stretches of railway track.

These times of relaxation, as may be imagined, are few and far between. The Arbitration Board is strictly a business body, with the dignity and appurtenances of a court. There is no smoking; quiet and order are kept, or rather follow from the very nature of the work in hand. It is a monotonous, monumental labor, this setting a value to a railway system. The rows of vacant chairs where spectators might sit and look on bear eloquent testimony to the fact. The motion-picture shows are crowded, but not even the great D. W. Griffith himself could find any romance here.

LEGAL QUERIES

NEW YORK STATE DIVORCE.

Q.—Two Canadians were married in Canada; wife went to New York State and got divorce, and remarried in that State. If she and her husband should come to Canada to live could first husband make any trouble?—A Reader, Montreal.

A.—If the wife went to New York simply in order to avoid our laws to get a divorce, then as far as we in Canada are concerned the divorce decree is worthless, and she is still the wife of her first husband. Her second marriage is then, of course, void, and the first husband would then have recourse against the wife for desertion. If the wife did not go to New York simply to avoid our law, but had right to do so, then the second marriage is valid and the first husband can do nothing.

UNDER PARENTS' CONTROL.

Q.—1. A says that a girl eighteen years of age who is earning her own living, and unhappy at home, can leave home. B says she cannot leave home until she is twenty-one, even if she is independent. Which is right by law? Also B says that a girl of twenty-one years of age is under her parents' control, whether she is married or single, which is right in this case?—Constant Reader, City.

A.—1. B is right. Article No. 244, of the Civil Code of Lower Canada, specifically says "an unemancipated minor cannot leave the house of the parents without the permission of the father." The age of majority is twenty-one, consequently, a girl of eighteen is governed by this rule. 2. A girl of twenty-one is not under her parents' control. Upon reaching her majority she of right becomes her own mistress.

DEPENDS ON LEASE.

Q.—My sister married three months after my father's death and brought her husband to live in mother's house; her husband got lease of house from mother for one year with verbal understanding that she was to reside there with her four children; now they object to my mother staying there with her children. Can they be given three months' notice to vacate? All the furniture belongs to mother.—Downing St., Que.

A.—1. If the man holds a lease for house, unless there is a clause in that lease giving your mother the right to reside in it, he can compel her to vacate same. 2. In a case like this, a lease is absolute and you cannot give notice to vacate except for special causes which do not seem to exist here.

GRANTS FOR RESEARCH WORK.

The Editor, Montreal Daily Star.

Sir,—My attention has been called to the report, under the heading, "Criticize Senate Research Action," dealing with the recent convention of the Canadian Manufacturers' Association, which appeared in your issue of the 8th instant and in which the treasurer of the association is credited with the statement that the Senate "had appropriated only $50,000 for all kinds of research work."

I am in some doubt as to the meaning of this statement, but the man in the street will assume that the sum mentioned is the total amount which is appropriated for research by the Dominion Government for the current year. If this is the treasurer's meaning the statement is ridiculously untrue. The annual appropriation for the Forest Products Laboratories of Canada, in Montreal (a relatively small Government institution devoted to research) alone considerably exceeds the figure quoted while that for research in agriculture and mining is of course very much greater.

COMPARISONS ARE—

The Editor, Montreal Daily Star.

Sir,—In a recent issue there appeared a letter from an Englishman, J. A. W., who had been only a few days in Montreal. Let an emigrant of older standing from the Old Country give a little much needed advice: First, let him learn to subdue himself a little whenever he feels that only-too-evident rising inclination of his to live up to the initials at the foot of his letter. Second, he must try to remember that the great majority of Canadians are proud of the motherland and her age old institutions. They are not narrow-minded, neither have they any desire for those carefully prepared morsels with which J. A. W. is so eager to win their friendship. No one in Montreal, who has visited England will, nor will he wish to, believe that any cathedral over here, fine and imposing as it may be, can excell Westminster Abbey, which for centuries has been the marvel and pilgrimage of the world. Thirdly, he must kindly refrain from judging all Englishmen from that objectionable standard of his. The majority are plain, honest people, not "stuck-up" snobs. We do not want nor do we expect "worship" (perish the thought), all we desire, is true, sterling friendship.

And last, but not least, why should the Canadian ladies be more beautiful than their European sisters? Does the cold shape their noses and features? Whence the monopoly? In a word, do not try to pander with hypercritical assertions. That is not the path to true esteem.

INDIGNANT ANGLO-CANADIAN.

AS OTHERS SEE US.

The Editor, Montreal Daily Star.

Sir,—It was with great interest that we read J. A. W.'s account of his first impressions of Montreal, appearing in The Star, but we are very much surprised at the views expressed in same. As we have now been here several months we feel that we are in a position to state a typical Englishman's ideas of Montreal, and especially the comparison which your correspondent makes with the commercial cities, especially Manchester, of the old country. Without wishing to throw any slurs at the commercial metropolis of this great country, which has developed to an enormous extent of recent years, we should like to make just a few friendly observations. Like J. A. W., we most certainly agree that the ladies struck us most forcibly, especially the younger generation. But how he came to the conclusion that they are the most beautiful he has ever seen, well that is rather too large a pill. Why, oh, why, do they insist on spoiling their pretty faces by camouflaging with such an excess of French chalk and tinted paraffin wax? We are certain they would look much more attractive without such and also more civilized. But all the pretty faces in the world will not make a good dinner or a woman fit to become a wife, and for cooking give me the English stuff, especially from the northern counties.

We should like some information as to where we may find the imposing buildings and squares which equal anything in London or Edinburgh. In all our rambles around the city we have not come across many such places, Notre Dame Church being probably the most notable exception. As for parks, has J. A. W. ever visited Hyde Park, London, not to mention the numerous natural, as well as artificial parks in the northern cities of England, such as Manchester, Lancaster, Leeds, Bradford, Huddersfield?. Mount Royal is admittedly very fine, but we could mention several beauty spots easily within reach of any of the above-mentioned cities, to compare with this one isolated feature of Montreal's beauty.

Your street cars, we admit, give a very efficient service, and compare favorably with many of our provincial cities in England, but not with London or Manchester. We think it would be much better if the crowding on the conductor's platform was not allowed. There is a notice to this effect, but it never seems to be carried out, and your cars are turned into unhealthy incubators. As for cafes you are a long way behind the Old Country. All you have here are either hotels, where the average person cannot afford to enter, or mere eating houses. In England we have cafes and hotels suitable for every man's pocket, where one can either have a good meal, or merely a snack, and at the same time enjoy the strains of an orchestra. For example, I need only mention Lyons in London or Manchester (and also in most other large towns), as well as hundreds more.

Your correspondent does not seem to have bumped up against many Canadians, according to his opinion of your politeness on this side. Politeness here seems of a very mixed variety. The majority of men one meets, especially in business, would impress newcomers much more favorably if they had a little more feeling for their fellowmen; in fact, politeness to their own sex seems absolutely lacking.

But why all this fuss and bowing to the ladies! One can be agreeable and polite without all this outward show and sweeping of hats, it compares very badly with their behavior to other men, apart from being absolutely unnecessary. Why not treat the opposite sex, not as spoilt children, but as women? We certainly believe the ladies would appreciate this much more.

We would also like to know why the men here take such little pride in themselves in the matter of dress, while the ladies are so terribly overdressed (or should we say under-dressed), the shabbiness of the average male in this city is very noticeable. No wonder they look so worried as your correspondent states, but this is hardly due to business difficulties one would imagine by the progress of your city generally.

What we note most here, however, is your lack of good first class theatres, especially when the size of Montreal is considered, and your superfluity of cinemas, or moving picture houses. Trusting that you will appreciate the above remarks in the manner they are given, as we bear no animosity at all to this most excellent city of yours—in fact, we intend to make our stay here for some considerable time.

Montreal — The auction sale of the Skelton properties yesterday afternoon was well attended. Some of the properties brought more than the city's valuation of them. The bargain of the day was a lot at the corner of Notre Dame and St. John street, purchased by Mr. James Baxter at $10 a foot. Ald. G. W. Stephens bought two stores, at 1776 and 1778 Notre Dame street, for $11.25 a foot. Two lots on Union avenue, Nos. 111 and 113, went to Mr. Peter Harkins for $6,000 and $6,700, and Mrs. Wilkes bought 3,720 square feet at 249 Mountain street for $6,000.

FRENCH WOMEN ASK SUFFRAGE EXTENSION

Ask Premier Briand to Have Bill Grant Legislative Votes

PARIS, June 16.—Delegations from the French Union for Women Suffrage and from the Women's Fraternal Union, accompanied by Senator Louis Martin and Deputy Justin Godart, called on Premier Briand yesterday and asked the Government's support in bringing the bill relative to women's suffrage already voted by the Chamber of Deputies, before the Senate immediately for discussion. The bill passed the Chamber before the war. It was amended several times but was shelved during the hostilities.

As the suffrage law now stands it does not confer the legislative but merely the municipal department vote on women. The delegation yesterday requested the Premier to have the bill amended to make the votes of women unrestricted and extended to legislative elections.

M. Briand replied that he would submit the matter to the Cabinet Council at its next meeting. He said that he himself was at the disposition of the Senatorial Commission for discussing the bill in the Senate whenever the commission was ready. When the bill passed the Chamber of Deputies several years ago M. Briand voted in favor of it.

ICE PALACE.

What year was the last Ice Palace built on Fletcher's Field?

TRAVELLER.

Ans.—It was built in 1909.

TO KILL ROOTS.

Could you tell me of anything that will kill the roots of lilac bushes and rose bushes to prevent them spreading? HAYSEED.

Ans.—Make a strong brine solution—1 lb. salt to 1 gallon water, dig down to roots, and pour over.

HE NEEDS ENLIGHTENMENT.

When viewing myself in the mirror this morning as most humans do, I noticed, as no doubt others have done before me—that my "left" appeared to be my "right" and my "right" appeared to be my "left." Why was it then that my head didn't appear where my feet were and vice versa?

PUZZLED.

Ans.—The best thing you can do is to get a good scientific text book and study up this matter for yourself. It will take too long to explain it in these columns.

MAYONNAISE AND PANCAKES.

1—Would you kindly give me a simple recipe for making mayonnaise dressing for salads? 2—Also a recipe for pancakes, as mine are always a failure, no taste to them, and I am very fond of them.

LIZZIE TISH.

Ans.—1. Mayonnaise dressing—Put an earthen bowl into a larger one containing cracked ice. Break into it the yolks of two fresh eggs, add a pinch each of salt and paprika, and half a teaspoon dry mustard. Mix thoroughly and add olive oil, drop by drop at first. Use a silver teaspoon for mixing and beat constantly. When a cupful or more of oil has been used and the dressing is stiff enough to cut with a knife, add the juice of half a lemon or more, according to taste. 2. Plain pancakes:—2 cups sour milk, 2 eggs (beaten separately), 1 teaspoon soda, 1 teaspoon salt, flour to thicken. Mix as usual. Beat the whites of the 2 eggs and stir in slowly last thing before baking.

"SHOULD SHE GIVE HIM UP?"

Will you please advise me on the following:

1—When two girls are introduced at night, what should they say?

2—What colors would suit a girl with brown hair, blue eyes and a fair complexion?

3—Do you know if low shoes will be the style next fall?

4—What kind of a ring is suitable for a girl of sixteen?

5—I am sixteen and some people say that I am too young to be using powder. I don't think so, do you?

6—Would you give a fellow up because he bets at the races?

7—What could I do to make my nose flatter? SIXTEEN.

Ans.—1. The same as they say in the day—"How do you do?" 2. Any shade of blue. She may wear blonde or brunette colors as fancy takes her. 3. They are always in style. 4. A very simple one, as a signet. 5. Not if you use it sparingly, so that no one can detect it. 6. If I didn't agree with it I would. 7. Exercise them.

SALARIES OF STENOGRAPHERS.

For sometime past I have been going to ask you to publish a letter on the present state of employment of stenographers.

It seems rather odd that stenographers should be amongst the first to have their salaries cut and hours extended. The price of room rents have not been reduced because our landladies have not had their rents reduced. The price of carfare has been steadily increasing instead of declining, as also laundry bills. Those of us who have to depend on restaurants have found very little difference in the price of food stuffs, yet we are not blind to the fact that the price of several staple things, such as bread, butter, eggs, tea, coffee, etc., are now selling cheaper in the stores than for several years. Yet the first thing when applying for a position is we are told that salaries are being cut, whereas we were getting $25 to $30 a week now employers think we ought to jump at the chance of taking a position at $65 to $75 a month. In former years the office hours were generally speaking 9 to 5, now in many places you are being asked to get in at 8.45 and leave off work any time after 5.30.

It was not until during the war that stenographers were given a show at all, then when they were found to be a necessity they were given a little bit back of their own, but to quote one employer with whom I brought up this question, "I intend to bring back all my staff to a working basis such as existed in 1914 before the war."

I hope I have not taken up too much of your time and I would like very much to have the views of other stenographers and also of any employers who would like to take up this discussion.

TEN YEARS' EXPERIENCE.

"GIRLS KNOW IT ALL."

Young girls are sometimes brought to harm through lack of knowledge. But these cases are few and far between. The girls of today certainly do not have to be told very much. Most of them "know it all," and in fact they tell their mothers a few things.

Girls don't be flattered by the attentions of any young man who is not open and above board with you. Shun the man who wants to meet you on the corner, and who does not wish to come to your home and meet your parents. Also, beware of the man who attempts to become "fresh" in any way. Keep him in his place. Show him that you are not one of those ultra modern young women, and he will, I am sure, show you the utmost respect.

Parents, encourage your girls to confide in you and to bring their friends, both girls and boys, to your home, where you may meet them, and thus ascertain the sort of friends your girls are making. It is important.

HEALTH TALKS

By JOHN B. HUBER, A.M., M.D.

HICCOUGHS.

Every once in a while some person hiccoughs to death. Doctors are called in and fail to stop the trouble or find the cause. If you hiccough habitually, it would be worth your while to consult a good physician about it. It may never give you serious trouble; then again it may.

Hiccoughing in most cases is merely annoying; but if it attacks you frequently there is some underlying cause that ought to be removed. It is one of the most puzzling things doctors have to do with — it may be caused by so many different things, and all of them hard to locate. Medical magazines frequently carry calls for help to the medical profession from some doctor who has been "stumped" by a case of hiccoughs.

QUESTIONS AND ANSWERS.
MALE NEURASTHENIA

I feel my nerves are giving away on me. I am 33 years old, weigh 165 lbs., very strong and healthy, very seldom sick and counted for a good athlete, such as wrestling, jumping, canoing, etc. Often I have carried three bags of flour for a quarter of a mile on a portage without resting; but every time I get vexed I tremble, especially my fingers and can not wrestle half as well as formerly.

Answer—This case furnishes an example of a curious phenomenon. We usually attribute nervous exhaustion to women, but in 10 cases about which I recently wrote, taken at random from a physician's files, nine were of men an but one of women. I asked a police surgeon of my acquaintance what disease he came upon most among his policemen patients and he answered, to my surprise, "nervous exhaustion," the disease which afflicts my husky correspondent. I cannot fully explain the cause of all this, but make no doubt it is due, in a large part at least, to the victim who, having superabundant strength, overtaxes himself and so feels the loss of "pep" here mentioned. I recently wrote an article on neurasthenia in this column which will be mailed to any one on application.

More Truth Than Poetry

By JAMES J. MONTAGUE

THE REFORMER.

I'm rather fond of cherry pie,
I love, with all my heart,
When days are warm, in mid July
To munch a cherry tart.
But if this cheery, cherry song
Some glum reformer sees,
Tomorrow he will come along
And kill my cherry trees.

I like to paddle my canoe
Beneath the summer moon,
And whistle, as I often do,
An ancient rag-time tune.
But if the said reformer knows
That of this sport I'm fond,
He'll come around here, I suppose,
And drain my paddling pond.

I like to hear a robin sing,
It rests and comforts me,
To watch the little fellow wing
His way from tree to tree.
But if of this delight of mine
The man I've mentioned heard,
'Twould cheer his soul like rare old wine,
To shoot the helpless bird.

The pleasures that my soul divert
I have to take by stealth,
Although I know they do not hurt
My morals or my health.
For my reforming friend declares
They simply shan't be done,
And censors all of my affairs
That bring me any fun.

LITTLE STORIES FOR BEDTIME

BY THORNTON W. BURGESS.

PETER RABBIT LISTENS TO MRS. PETER.

(Copyright by J. G. Lloyd.)

Peter Rabbit was glad enough to get back to the dear old briar patch after his narrow escape from Old Man Coyote by dodging into Jimmy Skunk's old house half way up the hill. And little Mrs. Peter was glad enough to have him, you may be sure. She had been watching Peter when he so heedlessly almost ran into Old Man Coyote, and it had seemed to her as if her heart stopped beating until Peter reached the safety of that old house of Jimmy Skunk's just one jump ahead. Then she saw Old Man Coyote hide in the grass near by and she was terribly, terribly afraid that Peter would be heedless again, and come out, thinking that Mr. Coyote had gone.

Poor little Mrs. Peter! She was so anxious that she couldn't sit still. No, sir, she just couldn't sit still. She felt that she just had to do something to warn Peter. She stole out from the dear old briar patch and half way to where Old Man Coyote was hiding. He was so busy watching the doorway of the old house where Peter was hiding that he didn't notice her at all. Little Mrs. Peter found a bunch of tall grass behind which she could sit up and still not be seen. So there she sat without moving for a long, long time, never once taking her eyes from Old Man Coyote and the doorway of the old house. By and by she saw Peter poke his nose out to see if the way was clear. Old Man Coyote saw him, too, and began to grin. It was a hungary, wicked looking grin, and it made little Mrs. Peter very, very anxious indeed.

She waited put a minute longer to make sure that Peter was where he could see her, and then she thumped the ground very hard, which, you know, is the way Rabbits signal to each other. Peter heard it right away and thumped back that he would stay right where he was, though right down in his heart Peter thought that little Mrs. Peter was just nervous and foolish, fore he was sure that Old Man Coyote had given up and gone away long ago.

Now of course Old Man Coyote heard these thumps, and he knew just what they meant. He knew that he never, never could catch Peter so long as Mrs. Peter was watching him and ready to warn Peter. So he came out of his hiding place with an ugly snarl and sprang toward little Mrs. Peter just to frighten her. He laughed as he watched her run and, all breathless, dive into the dear, safe old briar patch, and then he trotted away to his favorite napping place.

As soon as Peter was sure that he was safe he started for home, and there little Mrs. Peter scolded him soundly for being so heedless and thoughtless. Peter didn't have a word to say. For a long time he sat thinking and thinking, every once in a while scratching his head as if puzzled. Little Mrs. Peter noticed it.

"What's the matter with you, Peter?" she asked, finally.

"I'm just studying what Old Man Coyote means by telling me one day that he is my friend, and proving it by doing me a good turn, and then trying to catch me the very next time he sees me. I don't understand it," said Peter, shaking his head.

"Oh, you dear old stupid!" replied little Mrs. Peter. "Now you listen to me. You did Old Man Coyote a good turn and he paid you back by doing you a good turn. That made you even, didn't it?"

Peter nodded.

"Well, then you are right back where you started from and Old Man Coyote doesn't see any reason why he should treat you any differently than at first, and I don't see why he should either, when I come to think it over. I tell you what, Peter, the thing for you to do is to keep doing good turns to Old Man Coyote so that he will always be in debt to you. Then he will always be your friend."

As little Mrs. Peter stopped speaking Peter sprang to his feet. "The very thing!" he cried. "It's a sort of golden rule, and I do believe it will work."

"Of course it will," replied little Mrs. Peter.

Mrs. Peter Scolded Him Soundly.

A HUSBAND TO MARCIA

By CAROLYN BEECHER

CHAPTER V.

John Aldrich often felt a heart-sinking when the bills came in, but as far as possible he avoided mentioning this or saying anything about them to Marcia. They must be paid. But he wouldn't worry her about them. Yet occasionally he could not overlook some extravagance. If he did he shuddered to think to what it might lead.

For instance, her anticab bill.

"You will have to use the stage more, Marcia, if you dislike the street cars and subways so much. I can't afford such cab bills."

"I have only had a taxi when it was necessary." Marcia's voice was cold as ice.

"What you consider necessary is not the question. I can't pay such cab bills." Perhaps John spoke more severely than he intended. Marcia burst into a flood of tears, unusual in her. Up to this time she had really cried but little. The suffusion of her eyes, the appeal of unshed tears had been sufficient to bring her husband to her feet. But she realized something in his voice she had not heard before. So the tears were not restrained, neither were the recriminations.

"I always said you should have married some common woman who cared only to ride in dirty street cars or the crowded subways!" she declared, sobbing pitifully. As she never had said any such thing, never given this version of her oft-repeated remark about the sort of wife he should have married, it would have tickled John's sense of humor had the occasion not been so serious.

"I suppose I shall have to pay this, but remember, Marcia, I cannot afford to pay cab bills to any amount." While he spoke John had been critically examining the bill. "It seems that most of the charges are on the days when you play bridge."

"You can't expect me to be the only one who goes to the club in a street car!" Marcia sobbed.

"Then you will have to pay for your cabs out of your winnings," John said, and folding up the bill thrust it into his pocket. An hour later, when he was about to leave, Marcia for the first time since their marriage refused to kiss him good-by, for the first time failed to stand at the window and wave him a farewell before he turned the corner.

The thought of the omission was with John Aldrich all day. It hindered him in his work.

"I might have better said nothing. I could make the amount of the bill while I am fretting over Marcia," he declared as he threw aside his papers. Then: "Poor girl! I hate to deny her anything. But taxicabs are beyond me. If she only used them occasionally, but it's almost every day." He had taken the obnoxious bit of paper from his pocket and once more had glanced over its contents. "Highway robbery! It would be cheaper to get her a car, if I had to pay bills like this often."

When he reached home Marcia's eyes were still red from weeping. She still had the air of a much abused person. She turned her cheek to his kiss and made no offer to return it. But before dinner was finished she was chatting about her plans for entertaining. John hesitated to cast another shadow over her content, but he could not allow her to believe that because he had taken on more work and was making a little extra money that it could imply extra expenditures. He would need it all and more for the current bills.

"Don't plan on too much entertaining, dear, until we get a bit further out of the woods. Our expenses have been much heavier than I expected. I will pay all we owe as fast as I can, then we can breathe more freely."

"Owe! Why, we owe nothing but our regular monthly bills."

"I know, but they have somehow lapped over. Now this taxi bill for forty dollars will make it hard to square things this month—even with the extra I have earned."

"That's right! Lay it on me! It's always the woman who does everything wrong."

"I expect Eve tried to make things easy for you by eating the apple. She established a precedent for wrong-doing."

"Don't try to be facetious! It is in bad taste."

"I was only trying not to have you feel too serious, dear. We will do all we can. I can promise no more."

"If you really loved me you would assert yourself, as I have told you a hundred times. Men not half as clever as you are making enough money so their wives can have some pleasures. I'd rather be dead than live half way."

"We are a long time dead, remember, Marcia," jocularly replied John, but with no feeling of gayety in his heart or in his sombre eyes. For Marcia had burst into tears and run from the room. The slamming of her bedroom door caused John to follow her. His dread of making her unhappy was too great to allow him to ignore her outburst.

Before she ceased weeping she had his promise that he would not interfere in her entertaining. While she had promised to be economical.

(To be continued.)

FASHIONS FOR TODAY

Gay Accessories Shown in Sports Apparel Line-Up.

No Patterns Are Sold With This.

"She had on the smartest little waistcoat," said a woman the other day in discussing the appearance of a friend she met during a morning's shopping, and she couldn't recall a thing about the suit with which the waistcoat was worn, except that it was "just a little plain dark suit of some sort." All of which helps to prove that accessories deserve all the prominence they have ever been accorded in the scheme of things sartorial and a great deal more.

A smart, exquisitely clean and dainty collar and cuff set may transform a suit or frock several seasons old into something quite up to the minute in style. And there is just about no limit to what may be done with a simple suit or frock of nondescript color and design in the way of transforming it into a swagger sports costume, if the right sort of accessories are chosen.

The sketch illustrates two very smart accessories of the sports type. The upper one is of black and white striped fabric, and the little revers are finished with white, braided or embroidered in black in a small stripe running crosswise, and finished with a scalloped edge in all white. The high roll collar is a feature of this waistcoat.

This waistcoat might be worn with a dark colored wool jersey suit, or with a smart plainly tailored suit of white tussah silk jersey or even linen.

The lower sketch illustrates a knitted sleeveless sweater in a small striped pattern. A separate collar with long revers is worn with this sweater, which is hand knitted and so simple that any woman who is at all deft with knitting needles might easily make it.

"Knitting sweaters for self" has taken the place of "socks for soldiers" these days, and the little sleeveless model, either of the slipover or coat style, is a popular favorite.

MEAT JELLY.

Veal or chicken may be served cold in its own jelly without the use of gelatine. The meat should be boiled gently a long time until very tender, and until the stock is very strong. Then the bones should be removed, the meat seasoned with salt, pepper, and onion or celery salt, and packed in one large piece or diced, or shredded, so that it can be sliced neatly when turned out. The mold may be lined with slices of hard boiled egg or thinly sliced cucumbers or tomatoes which cover the meat when it is turned out.

Care must be taken in turning it out not to break it. Dip the mold in and out of hot water quickly, and turn it on a a perfectly level surface. Other meats, or fish, especially salmon, may be molded in veal stock, which is much firmer than chicken stock. In fact, in summer, it is wise to use a little gelatine in chicken jelly. A very little chicken will flavor a mold made chiefly of veal and veal stock, which is therefore a cheap and convenient base. Roast pork, if tender, may also be used in a meat jelly, and is almost as delicate in flavor as chicken. The liquor from pork also makes an excellent jelly. Roast lamb combines very well with pork, but lamb stock does not jelly very firmly.

Veal loaf may be taken as an example of any good meat loaf. Take a knuckle of veal that has been broken in two or three pieces, that the gelatine of the bone may be dissolved in boiling; take a pound of lean veal, and an onion; cover with boiling water, and cook slowly until the veal is tender. Drain, reserving liquor, chop meat finely, season with salt and pepper. Garnish the bottom of a mold with slices of hard boiled egg and parsley. Put in a layer of meat, sprinkle with finely chopped parsley, put a layer of thinly sliced hard boiled eggs, and cover with remaining meat. Pour over this the meat stock which should be reduced to one cupful.

THE PASSING HOUR

In Texas they still tell the story of the Englishman who imported a famous wolfhound from Europe in order to gain wealth by catching wolves, for which the state paid a bounty of $10 a head. When the dog came he invited some dyed-in-the-wool Texans to see the first chase. Before long a wolf was sighted, the dog was freed from his leash and the chase was on. But though the party wandered mile after mile they found no trace of either the dog or the wolf. Finally they reached a clearing where a native was chopping wood, and the owner of the dog cried:

"I say, old chap, did you see a wolf and a hound pass here?"

"Sure did. They just passed."

"And how was the race?"

"Pretty hot, stranger; but the dog was a bit ahead."

FIDO, GO BACK TO YOUR CORNER.

He—Well, wasn't the agreement that I should be allowed to go over to Simpkins tonight?

She (sternly) —Yes, but I have changed our mind.

In the departed days a somewhat bedaubed guest appeared unsteadily before the desk of a smart hotel and demanded in thick tones that a room be changed. "I'm sorry," the clerk humored him, "but all the rooms are taken. "Mush have another room," insisted the guest. "What's the matter with the room you have now?" "Well, if you mush know," explained the dissatisfied tenant, "ish on fire."

DIVIDE REWARD FOR GARFIELD'S CAPTURE

Five Persons Each to Receive Two Hundred Dollars

TORONTO, June 16. — Attorney-General W. E. Raney yesterday authorized the division of the $1,000 reward offered by the Ontario Government for the recapture of Norman Garfield, who escaped from the jail at Woodstock, Ont., while awaiting execution for murder, among the five persons who were instrumental in his rearrest. Each of the following will receive $200: Miss Elizabeth Appelby, Mr. and Mrs. J. A. Tracy, Robert A. Appelby and Walter Lawson, jr.

Miss Appelby and Mrs. Tracy recognized Garfield as he was at a railway flag station at Stewarttown, Halton county, and informed J. A. Tracy, clerk of Esquesing Township, and Mr. Appelby. These two men, with Walter Lawson's assistance effected the arrest of the escaped prisoner.

J. HARRY FLYNN ASKED TO RESIGN

TORONTO, June 16.—J. Harry Flynn, Dominion organizer of the Grand Army of United Veterans, has resigned his position at the request of the executive board. Announcement was made last night by the board that Flynn was granted thirty days' leave of absence on account of ill-health, but was asked to tender his resignation first.

Flynn returned to his home in Massachusetts a few days ago and was last night struck off the roll of the G.A.U.V. as an executive officer. Herbert Capewell, who accompanied Flynn on his organizing tours, was also struck off the rolls.

TRIPLE DROWNING

PORTLAND, Maine, June 16. — Two women and a five-year-old girl were drowned yesterday when an automobile plunged through the railing of a bridge near this city and landed in the Spurwink river. The dead are Mrs. Fred. H. Pickering and daughter Dorothy, and Mrs. Luke Manette, all of South Portland. Their bodies were recovered.

Mrs. Pickering's twenty months old son was rescued by passing motorists and taken to a hospital, where his recovery was expected.

GALES FIRE!

Temporary repairs will soon be completed, and in the course of a few days we shall be able to make a definite re-opening announcement.

We ask your kind indulgence for a few more days, trusting you will bear with us the inconvenience caused.

ALLEGE MACHINE GUNS ON STEAMER WERE FOR IRELAND

Arms Concealed Aboard the East Side at Hoboken

PROBE UNDER WAY

Report of Plot to Ship Guns to Irish Port Being Investigated

NEW YORK, June 16.—(Associated Press.) — Custom officials have seized nearly five hundred modern machine guns alleged to have been found concealed aboard the steamer East Side tied up in Hoboken, loading for an Irish port.

This became known late yesterday when the Hoboken police clashed with the customs men over possession of the arms. The guns finally were taken to Hoboken police headquarters.

According to Chief of Police Hayes of Hoboken, the arms were seized yesterday by the Federal agents. Yesterday morning, he said, a man giving the name of Frank Williams appeared in Recorder's Court and swore out a search warrant, claiming the weapons.

The Hoboken police said that when they went to the pier where the East Side is tied up, they were told there were no machine guns there. Later, they said, they found them being loaded on to a truck and took possession of them, after some argument with the customs men.

The Federal agents declined to discuss the seizure, but officials of the Department of Justice admitted they were investigating a report that plans were afoot for shipping arms to Ireland.

According to the Hoboken police, the guns were siezed by Federal agents on the charge that their shipment was illegal because no permit had been obtained from the State Department to send guns out of the country. Chief Hayes asserted the customs men had obtained their first information concerning the presence of the weapons aboard the East Side from a member of the crew.

According to reports reaching Government agencies, two changes of crews, brought about by the nation-wide marine strike, resulted in the discovery of the arms. It is reported that a member of one of the crews "tipped off" the Government investigators.

WIDE PROBE ON.

Presence of the arms on board the East Side was not known to the owner of the ship, the United States Shipping Board, or its managing operators, until they were informed of their discovery by Federal investigators. The East Side cleared today for Norfolk, where, according to Chief of Police Hayes of Hoboken, she was to take a cargo of coal for a port in Ireland.

Investigations as to how the arms came to be aboard, who caused them to be placed there, and for whom they were intended are under way by officials of the customs service, the Department of Justice and the United States Shipping Board.

One report is that they were smuggled aboard from launches which came up to the ship's side at night and the arms, swathed in burlap bags, were hoisted aboard as "engine room supplies." A curious member of the crew cut into one of these bags with his knife, disclosing to view a machine gun.

When a search was made the arms were found concealed in various parts of the vessel. They were removed to the dock and placed under customs guard and yesterday, while being removed from the dock to a customs warehouse, fell into the hands of the police by virtue of the search and seizure warrant sworn out by Williams.

NO STATEMENT YET.

Government representatives would make no official statement on the matter pending conclusion of the investigations. Seizure by customs men is said to have been made on the ground that a shipment of arms was being attempted without compliance with maritime regulations which call for manifesting all exports.

The Government investigators also were informed that after the second crew had assumed charge of the ship, some unknown parties in a launch hailed the watchman and asked permission to remove from the vessel some "supplies" which had been delivered aboard the ship by mistake. The watchman refused to let the strangers aboard the ship without authority from the owners.

A description of the seized arms and parts as made by Williams in his application for the warrant includes 600 Thompson sub-machine guns; 30 extra thirty-capacity magazines, five fifty-capacity drum magazines; five one-hundred-capacity drum magazines; 80 extra thirty-capacity box magazines; 20 fifty-capacity drum magazines; 20 one hundred-capacity magazines and hundreds of parts of machine guns. Williams gave his residence as Hoboken.

SEARCH PRODUCED ARMS.

When the police officers went to the pier to serve the warrant, they were informed by the pier superintendent, Chief of Police Hayes said, that the goods had already been removed by the customs authorities. A search of the pier was made, however, and the officers reported to the chief that they found the arms loaded on a truck. A verbal clash between police and customs officers followed, which was settled by the customs men in charge agreeing that the arms should be taken to the police station and held there, pending judicial determination of their ownership.

Williams' application made no mention of the circumstances under which the arms were alleged to have been stolen, nor how he obtained possession of them.

When seen by reporters in Recorder Carston's court, Mr. Williams declined to discuss the matter and refused to give his Hoboken address. Thos. J. O'Neill, his attorney, professed to know little about Mr. Williams' affairs, other than that he represented himself to be in the munitions business.

From other sources it was learned that Williams is a New York contractor, but his name does not appear in either the New York telephone or city directory.

ORDER OFFICIAL PROBE.

WASHINGTON, June 16.—The Department of Justice last night ordered its agents in New York to make an investigation of the arms seized on the steamer East Side, at Hoboken, to determine whether they constituted a shipment for abroad. The report probably will be transmitted to the State Department, officials said in case it is found that a shipment was intended, for a decision as to whether it can move.

BRITAIN SENDING TRADE DELEGATION TO RUSSIA

LONDON, June 16.—(Associated Press).— An official British delegation will shortly be sent to Russia to ascertain the prospects for trade between Great Britain and Russia. Major Sir Philip Lloyd Graeme, director of overseas trade made this announcement in the House of Commons yesterday.

CROP REPORTS IN WEST EXCELLENT

Bumper Produce and Grain Crops with Ideal Conditions

REGINA, Sask, June 16. — Crop reports received by the Saskatchewan Co-operative Elevator Company from various parts of the province continue to be the most optimistic in years. Few districts report grasshoppers and the reports from infested areas claim the situation is well in hand as a result of Government precautions.

Cut worms are reported to have caused five per cent. damage to crops in Maple Creek territory.

In the Saskatoon district ideal weather conditions obtain, the growing crops presenting a splendid appearance. The general opinion is that given normal conditions from now on to harvest, this district will be recouped for the past lean years. Moisture is abundant and, in the opinion of the Government statisticians, there is enough to last the season.

IDEAL IN MANITOBA.

WINNIPEG, June 16.—During the past week the weather has been ideal over the three Western provinces for rapid growth of the crops and soil moisture and other conditions continue excellent, it is stated in the weekly weather and crop report published by the Grain Trade News today. The banks, railways and Government reports all state that prospects of this date are better than they have been any year since 1915.

With the warm, humid atmosphere which prevails, garden produce as well as field crops have made abnormal progress.

Alberta has perhaps had scarcely sufficient moisture during the week to sustain the heavy growth, but late rains in both Saskatchewan and Manitoba have furnished sufficient moisture for these provinces.

STATED MEIGHEN AGAINST RENEWAL OF ANGLO-JAP PACT

Almost Certain to Throw Influence Towards Having Treaty Denounced

MUCH OPPOSITION

No Vital Empire Interest Involved—First Subject of Conference

LONDON, June 16.—(By Grattan O'Leary, Staff Correspondent, Canadian Press).— The advisability of renewing the Anglo-Japanese Alliance, a question in which Canada is vitally interested, will be the first subject before the Conference of Prime Ministers when it opens its sessions Monday. Premier Hughes, of Australia, interpreting the public sentiment of his country, will urge renewal, but Premier Meighen is almost certain to throw the whole weight of his influence towards having the treaty denounced.

The Canadian Premier was willing to support a renewal of the Alliance providing it could be shown that such renewal was necessary to British interests, but as it has become clearer that no vital Empire interest is involved, and as there is a strong sentiment here, both in Government circles, and in the press, against, the treaty, he has practically determined to fight against renewal to the utmost of his power.

HAS THREE REASONS.

The Premier of Canada will base his opposition to the treaty on three grounds: First, that the reasons which made it necessary in 1911 have since disappeared; Second, that renewal of the treaty would be regarded as a challenge to the United States, where the Harding administration and the new Congress have just taken a step in the direction of disarmament, and third, that the formation of special alliances is antagonistic to the spirit of the times and to the endeavor that the world is making toward disarmament and peace.

In this attitude Mr. Meighen is certain to encounter strong opposition. Premier Hughes has been talking and giving interviews to the British press and with characteristic vigor is demanding that the treaty be renewed. He urges, of course, that it be framed in such a way as to be satisfactory to the United States, but few here believe such a thing to be possible. The Australian Premier's strong card will be the attitude which Premier Meighen is almost certain to adopt on the question of naval defence.

HUGHES' OPPOSITION.

The Canadian Premier contemplates urging that this question be postponed until the next constitutional conference, or at least until the International situation becomes more clear. To this Premier Hughes will undoubtedly reply, and with some force, that Mr. Meighen seeks to deprive Australia of all protection, first removing whatever safeguard the commonwealth derives from the treaty, and then refusing to help provide greater naval protection on the Pacific.

"You refuse to give us the treaty," he will probably argue, "and then you want to delay in providing means of assistance in our defence." It is, as already said, a contention not without force, and will not be weakened by the fact that Mr. Meighen is also likely to urge that the constitutional conference which he wants to determine the naval question, be not held until 1923.

The Canadian Premier, however, is unlikely to be daunted by these arguments. He will reply, and in this he is likely to have the support of Premier Smuts of South Africa, if not of Lloyd George, that there is only one nation of which Australia can be afraid, that that nation is Japan, and that the best protection which Australia can have against Japan or any other country is the knowledge on the part of the world that good relations and an understanding exist between the British Empire and the United States.

MR. MEIGHEN'S CREED.

In a word, the creed which Mr. Meighen will preach to the conference is that the best hope of the world for world peace is a better understanding among English-speaking people. Should he fail in his purpose of having the treaty denounced he will probably play one more card. He will ask that a clause be inserted in the new treaty exempting Canada from its provisions, unless and until accepted by the Parliament of the Dominion. Such a clause, it will be remembered, was inserted in the Anglo-French treaty.

Because of the indisposition of Mr. Lloyd George the conference does not open until Monday. In the meanwhile the agenda has been debated in the House of Commons and official denial has been given to the report that the Premiers will attend the opening of the North Ulster Parliament.

As for the British people, it cannot be said that they appear to be impressed. The newspapers devote little space to the conference. Most of them refer to it as the Imperial Press Cabinet, a term wholly wrong, if not misleading. But problems of Empire for the moment are wholly subordinated to the races at Ascot and the defeat of England by Australia in the test match at Lords.

TO AMEND GERMAN ARMY LAWS AS ALLIES ASKED

BERLIN, June 16.— The Reichstag yesterday passed a bill amending the army law in accordance with the demands of an ultimatum of the Allies. The chief change is that the law now expressly states that the army shall consist of 100,000 men, including a maximum of 4,000 officers or officials with the rank of officers.

SAYS U.S. CANNOT REMAIN ALOOF

Must Join with Europe in Solving World's Problems

SAN FRANCISCO, Cal., June 16.—(United Press).— A business partnership with Europe as a solution of American economic ills was suggested yesterday by Henry M. Robinson, addressing the National Association of Credit-men.

"We must make permanent investments abroad, either in actual physical property, in the securities of the nations with which we trade, or in the securities of their people, until such time as imports and exports are more evenly balanced," said Robinson, who is president of the First National Bank of Los Angeles and represented the United States on the Supreme Economic Council at Paris.

"If we invest our money abroad and with this investment aid in building up the productivity of the debtor nations, there will be no need for foreign debt cancellations.

INVEST ABROAD.

"If we are the partners of other nations in their enterprises, through investment of our surplus gold abroad, the suspicions of international bitterness will disappear. And in carrying out this duty of unenlightened selfishness, we will create organizations and establish a personnel that will act in accord with the attitude, practices, traditions and prejudices of the nations with which we deal."

Robinson said that "this extraordinary readjustment" has made the United States the chief creditor nation, and "whether we like it or not, forces into an international relationship which never before existed."

Political movements follow economic movements, he said, and "our cherished aloofness from 'foreign entanglements' is gone."

TO PROBE CHARGES OF HON. RODOLPHE LEMIEUX

In Connection with Vote of $60,000 to Park St. Charles Company

OTTAWA, June 16.—Charges made by Hon. Rodolphe Lemieux on the last day of the Parliamentary session in connection with a vote of $60,000 to pay the Park St. Charles Company for land occupied by the Quebec Harbor Commission, will probably be investigated by a Royal Commission.

At the time the item was under discussion, Premier Meighen requested its withdrawal and told Mr. Lemieux that he would be given an opportunity to prove his charges. Yesterday Hon. C. J. Doherty, Minister of Justice, stated that the matter was under consideration, and that a commission would probably be appointed.

Mr. Lemieux charged that the item was to make good election promises, and that "the men interested in this land grab were most prominent in the election held in the county of Yamaska."

PACIFIC ENTENTE IS SUGGESTED RATHER THAN JAP ALLIANCE

Regarded as True Solution of Problem—U.S., British Empire, Japan

CONFERENCE AGENDA

Anglo-Jap Treaty Will Be First Subjects Before Premiers

LONDON, June 16. — (By John Steele, Special Cable to Montreal Star and Chicago Tribune). — America will be consulted before the Anglo-Japanese treaty is renewed, and there will be no renewal unless the former is agreeable to the United States.

This statement was made to me by one of the men who will have the most to do with running the Imperial Conference which holds its first meeting in the cabinet room at 10 Downing Street next Monday.

Nothing has been decided as yet as the form of consultation with the American authorities, but it is most likely that Ambassador Harvey will be kept informed of every move in the progress of the negotiations. The necessity for American agreement to the Treaty is recognized not only by Prime Minister Lloyd George, but by all the colonial Premiers.

PACIFIC ENTENTE.

The opinion is gaining ground here that the true solution of the problem will be for a Pacific entente, composed of the United States, the British Empire, and Japan, and it is hoped if the Yap and California land problems are settled that America will come in to help keep peace for the world in the Pacific, perhaps allowing Japan to expand on the Asiatic continent.

The first day's meeting of the Imperial Conference will be devoted to the organization of the agenda, etc., and then the Anglo-Japanese Treaty will be taken up immediately. Other questions to be brought up are: Co-ordination of the foreign policy of the Empire, defence of the Empire, and an Empire constitutional conference will be proposed for next year.

It is not believed now that the Premiers will attend the formal opening of the Ulster Parliament on account of the delay to the meeting and because Mr. Meighen is anxious to return to Canada as soon as possible.

Donald Macmaster To Resign Seat in British Commons

LONDON, June 16. — Donald Macmaster, formerly of Montreal, and who since 1910 has represented the Chertsey Division of Surrey as a Unionist, has announced his resignation of the seat through ill-health. Some months ago Mr. Macmaster was seriously ill and at one time his condition was extremely critical.

BIG STORM DAMAGE AT SEMANS, SASK.

SASKATOON, Sask., June 16.—Damage already estimated at $30,000 was caused by a terrific wind and electric storm which swept Semans, Sask., and surrounding district last night. Barns and farm buildings were wrecked, but there was no loss of life. Telephone service is disrupted and it is expected the damage will be considerably in excess of the early estimate.

UNION JACK IS GIVEN TO SCHOOL

Closing Exercises of Trafalgar Institute—Pleasing Function

A large silk union jack was presented to Trafalgar Institute by W., F. Carsley, at the closing exercises of the school which took place yesterday, in memory of the happy days which his daughters had spent there. Over a hundred and fifty pupils, clad in white, and a large number of parents and friends of the school attended the ceremony, while on the platform were Rev. Dr. Duncan, president of the school, Miss Cummings, the principal, Miss Hurlbatt, W. F. Carsley, Dr. Ramsay, Rev. J. L. McInnis and Rev. A. S. Ross.

A report of the progress made during the year was given by Miss Cummings, who pleaded for the cooperation of parents in order that the school might do its utmost to make the life of their daughters pleasant and wholesome. She also spoke to the girls of what school life means, and asked for their loyalty and devotion in order that the old traditions might be carried out.

Rev. Dr. Duncan, as spokesman for the board of trustees thanked the donors for several generous gifts made to the school during the past year. The prizes which had been distributed in the forms for the first time had been given by a friend of the Institute, and a silver cup for jumping had been presented by Mrs. Ward Beard.

Miss Hurlbatt, warden of the Royal Victoria College, spoke briefly of what the institution she represented owed to Trafalgar for its quota of undergraduates, and congratulated the girls on last year's record, when a Trafalgar girl headed the list of matriculation candidates, and four representatives of the school were among the first seven candidates.

Prizes were distributed for good work, and three special prizes were awarded for contributions to the school magazine, "Trafalgar Echoes."

The cups for gymnastics were also presented, the upper school trophy being awarded to the Sixth Form, while a tie between First and Second Forms was declared in the Lower School. Nine certificates of merit were awarded to those who had achieved special distinction. A number of two part songs, rendered by the Junior and Seniors of the Institute under the direction of F. H. Blair were much enjoyed by those present, the selections being happily chosen for the season.

NO DECISION IN DE MARTIGNY CASE

Court of Review Reserves Judgment on Husband's Appeal

The case of A. L. de Martigny and his wife, Dame M. R. A. Dupuis, which caused much discussion at the last session at Ottawa, came up for argument yesterday afternoon before the Court of Review, on the husband's appeal from a judgment of Mr. Justice Ducios on April 23, 1919, increasing Mrs. de Martigny's alimentary allowance from $100 to $125 a month, and dismissing de Martigny's petition asking that he be given the custody of the child of the marriage and relieved of the payment of an alimentary pension to his wife.

J. A. Prud'homme, K.C., on behalf of the appellant, stated that the parties were married on January 7, 1908, and of the marriage a girl was born on October 27, 1908. In September, 1912, Mrs. de Martigny left the common domicile and went to New York, returning in the course of a few days, and shortly afterwards proceedings commenced which resulted in a judicial separation, the husband not contesting the action.

The alimentary allowance to the wife was fixed at $75 per month up to July 1, 1913, and was $100 per month after that date. In 1919 Mrs. de Martigny presented a petition asking the court to order her husband to pay her $200 a month. The husband contested the demand, and, on his side, asked that he be relieved of all payments to his wife and that the custody of their daughter be transferred to him. It was upon that issue that the judgment herein appealed from was delivered by Justice Ducios. Acting Chief Justice Archibald and Justices Demers and Panneton reserved judgment.

THANKS TO WORKERS.

Mrs. Arthur Drummond, who is still away from the city, wishes to thank the many ladies who assisted during the Victorian Order of Nurses' campaign.

BAYLEY'S WIFE GIVES EVIDENCE

Alleges Barsky Picked Tickets from the Floor

The hearing of several more witnesses in the trial of Moses Bayley, a farmer from New Glasgow, accused of receiving cloth alleged to have been stolen from the Manufacturers' Sponging Company, 373 Aqueduct street took up much of the day in Court of King's Bench yesterday, and as the case was not yet completed at 4.30, court was adjourned.

Detective Geo. Sloan, who accompanied Barsky to the home of accused, repeated the story told by the latter, going into details of his search of the house and outbuildings, and the finding of the two tickets and a piece of cloth which Barsky claims came from his concern.

Brought to the stand, accused told the court that he knew nothing of the theft of the goods or of the tickets which other witnesses claimed had been found in his house, and said that he thought that Barsky had prosecuted him as the result of a family grudge. Bayley's wife also took the stand in her husband's behalf and contradicted statements made by previous witnesses, Barsky and Sloan, concerning the finding of the tickets and pieces of cloth, denying that the former were discovered by Barsky in a drawer but that he had picked them off the floor.

Arthur Bates, employed by the Yorkshire Importing Company and Jack Schecter, of the Sponging company, identified the tickets exhibited and recognized writing on them which they claimed was their own. Jacob Zimmerman, of the latter firm, also identified figures on one of the slips.

That he had allowed a friend the use of a room to store some cloth which the latter was to receive from a man who owed him $3,000 was told by John Leckey. Three trips were made to the room by a man, resembling accused, who drove a light wagon, and who put a number of barrels and boxes in the room. Leckey could not positively identify the accused as the driver in question, however. Witness said that while he was in Europe he learned that his friend had been arrested.

An Unclean Mattress is a Menace to Health

PERHAPS you have sometimes wondered what becomes of all the old mattresses—

Mattresses you and your neighbors have thrown away—

Mattresses discarded by hospitals, and by homes visited with infectious disease—

But the chances are *you have never dreamed* how many such mattresses are taken apart, the stuffing "renovated," put into fresh ticking and slipped back into the stores by irresponsible manufacturers.

Canada has no Dominion-wide pure bedding laws—nothing but the *conscience of the maker* to assure you of mattresses well-built—sanitary all the way through.

Simmons Limited are the *originators* of Beds, Springs and Mattresses *built for sleep!*

As the *largest single factor* in the bedding business, we are concerned for the integrity of the industry, and the consequent *well-being of the people of Canada.*

We are concerned to protect *you* against *old* materials, *dirty* materials, *infected* materials in your mattresses.

We guarantee that every mattress bearing the Label of Simmons Limited is built for sleep, of *pure, clean, new* cotton. Sealed in a *carton roll* in our great, sun-flooded work-rooms. Delivered to your dealer *sweet and clean.*

A mattress *built* — not stuffed.

Pure, clean, *new* cotton.

Ticking of the best.

Stitching and tufting close, firm, uniform.

A mattress resilient, luxurious. *Built for sleep.*

These fine, sanitary Simmons Mattresses are made in *four styles*, distinguished by Labels of *different color*

Blue Label—$35 Green Label—$19.50
Red Label—$25 White Label—$12.75

Canada has no Pure Bedding Laws—but Simmons Limited has!

HUGE SUM NEEDED FOR IMPROVEMENTS

A. S. Going Tells Arbitration Board of Estimated Cost

A new station at Bonaventure, new freight houses, express buildings, etc., new terminal arrangements, and the elevation of the Grand Trunk track as far as Turcot, were discussed by A. S. Going, G.T.R. engineer of construction at the arbitration proceedings yesterday afternoon. He was called by the Government, and showed, that at 1921 costs of work, these improvements, approved by the Railway Commission in 1915, would require a sum of $24,000,000, of which $15,000,000 would be the share of the G.T.R. and the balance be paid by the City of Montreal and other municipalities. At Toronto the Grand Trunk's share of similar terminal improvements would be about $11,000,000; at London, Ont., about $3,500,000, and at Detroit, South Bend, and Chicago, other large expenditures would be necessary for grade separation, totalling about $46,000,000, to be spread over 20 years, and only a small part to be started now.

The growth of business necessitates providing four tracks from Bonaventure Station, said Mr. Going. The first plan, for two tracks, would have cost $8,500,000. As labor and costs are coming down, he estimated that the cost eventually would be 25 per cent. less than at present prices.

The G.T.R. tracks had been laid down in 1859, and antedated most of the thirty streets which would have to be bridged over. These local improvements would do away with level crossings, and be partly paid for by local authorities.

J. J. Robey, consulting engineer, was cross-examined by Eugene Lafleur, K.C., for the G.T.R., as to the value of the River and Rail Coal Co.'s mines in Ohio, owned by the G.T.R. He said coal consumption in the States is far below production capacity of mines, which meant it was a hard struggle for mines to carry on, and many did not. He valued this mine at much less than did Prof. Wray, and did not consider it had as much coal as he said.

COLLIDES WITH AUTOMOBILE.

Colliding with an automobile at the corner of Roslyn avenue and Cote. St. Antoine road whiles riding a bicycle at 7.40 last night, Moses Rabinovitch, 9 years of age fell and fractured his leg. He was taken to his home at 629 Belmont avenue Westmount by the driver of the automobile. His condition is not critical.

The planoforte pupils of Miss Hilda M. Brown, assisted by Miss Dorothy Rex, soprano, will give their annual recital on Monday evening, June 20, at 8 o'clock in Victoria Hall, Westmount. A large gathering of the parents and friends of the pupils is anticipated as this annual event has always proved popular.

IRISH RELIEF FUND REACHES BIG SUM

The sum of $26,619.44 is the amount collected by the committee of the Irish Relief Fund in Montreal to date. This total is arrived at as follows:—From subscriptions $26,612.79; bank interest $1.50, and stamps resold $5.15. The disbursements amounting to $1,332.06 were made up as follows:—Stationery and printing $720.02, advertising $170.02 office expenses including typewriters, telephones and telegrams $41.84.

The statement of receipts and expenditures as submitted by the committee, Henry J. Kavanagh, K. C., being the chairman, was audited and found correct by P. C. Shannon & Co., The joint treasurers are A. Knatchbull Hugessen and T. Taggart Smyth.

The subscription lists are still being kept open by the committee.

SETTLEMENT PICNIC.

Two hundred members of the Iverley Settlement were taken by special cars to Tetraultville yesterday for the annual picnic of the Homemakers' Club. Miss Scott, chief resident of the Settlement was in charge of the party.

CLOSER UNITY IS GEDDES' APPEAL

Ambassador Declares No Nation Can Prosper Entirely in Own House

ELMIRA, N.Y., June 16. — (Associated Press.)—Declaring that "any nation that believes it can live and prosper entirely in its own house is wrong," Sir Auckland Geddes, British ambassador to the United States was cheered to the echo yesterday as he made a plea for still stronger unity for the purpose of peace between the two nations. His address was given at the commencement exercises of Elmira College for women. He spoke from the pulpit of the late Rev. Thomas K. Beecher.

Miss Alice Robertson, representative in Congress from Oklahoma and an alumna of the local women's college, spoke later in the day, explaining why she had opposed the cash soldier bonus measures in the House.

The ambassador left last night to continue a brief speaking trip in the Middle West.

"Peace will never be made where the nations' councillors meet," said Sir Auckland Geddes, "unless it is first made by the mothers, teachers and educators, who have implanted in the children an understanding of their duties to them and to the world.

WARNS OF NEXT WAR.

"The next war will see destruction such as cannot even now be imagined —the wiping out of populace, wealth and the work of thousands of years. Yet the knowledge of this will not prevent war, if a nation thinks it can win. I believe there is but one way out of the present world bickering and that is that this nation and Great Britain should work together to help the World out of its predicament.

"In every nation I find the idea that peace is something negative—not war. We will not get peace on a firm basis unless we have the realization that peace is a positive approach to the international situation. In the hearts of the people who understand what peace really is, is the base of world peace. That is why to you has been given the opportunity to broaden the understanding of the coming generation.

WHERE FUTURE IS DETERMINED.

"The future is being determined in our educational institutions. The college course is the stepping stone to a world now seething with problems which are not to stop at any national boundary.

"The condition of world affairs at present is not due entirely to the war. The war was a mistake, a criminal effort to solve problems which existed. And it only made them worse. Profound changes had been taking place in Europe. Certain countries were unable to support themselves from their own soil.

"Fear arose from the economic situation which resulted. The war added to problems. It neither created or removed them and all the world must now face the same situation.

"Any nation that thinks it can live and prosper in its own house is wrong. It can live, but it cannot prosper. Great Britain was dependent for food on imported supplies, and therefore on exporters. We had there the growth of international interdependence. That was something new."

The speaker reviewed the business situation in both England and the United States, stating that it is somewhat the same in each country.

BANKER'S SISTER GIVES EVIDENCE

Declares Her Brother Had Not Seen Wife Between January and April, 1918

POUGHKEEPSIE, N.Y., June 16.—(United Press.)—Two witnesses testified at renewal of the Stillman divorce hearings yesterday that Jas. A. Stillman had not even seen Mrs. Stillman at any time during a period which permits the assumption he was the father of two-year-old Guy Stillman.

The witnesses were Mrs. Percy Rockefeller, sister of the former president of the National City Bank and Mrs. Helen B. Hunt, former housekeepers for the Stillmans.

In Stillman's suit he charged that Fred Beauvais, French-Canadian Indian guide, is the father of Guy, who was born in November, 1918.

Both Mrs. Rockefeller and Mrs. Hunt testified that they were positive he had not seen Mrs. Stillman at any time between January and April, 1918.

During that period, the witnesses said, the banker was constantly at 270 Park Avenue, New York City, because of the critical illness of his father.

CROSS-EXAMINE BANKER.

Counsel for Mr. Stillman agreed yesterday to a demand made by Guy Stillman's guardian, ad litem, John E. Mack, to produce the banker for cross-examination. The attorneys decided to have Mr. Stillman take the stand at hearings here on June 28. It was considered probable that he will face Mrs. Stillman during his testimony, as she has attended all of the recent hearings. The direct examination of Mr. Stillman was conducted in New York last December, before knowledge of his divorce suit became public.

Attorneys for the defence presented to Stillman's lawyers an amended answer accusing the banker of misconduct with three women. The document was accepted by Mr. Stillman's counsel. In it, Mrs. Stillman names a person identified only as "Helen," in addition to Florence H. Leeds, Broadway show girl, and the woman "Clara," mentioned in her previous answers to the banker's complaint.

HAD ROOMS TOGETHER.

Bernard Kelly, formerly superintendent of the Stillman estate in the Pocantico Hills, testified, it was learned, that between January 28 and February 6, 1919, Mrs. Stillman and Fred Beauvais had rooms in the same section of the "Blue Cottage" on the estate. The witness had never seen Beauvais in Mrs. Stillman's room, however.

During cross-examination, Mrs. Rockefeller was understood to have recollected that Mr. Stillman was absent over a week-end in February and to have admitted that she, too, had left the city on two or three occasions early in 1918. Also, it was said, she admitted Mr. Stillman went to live at his own home after the death of his father in March.

Testimony not unlike Mrs. Rockefeller's was given by Frank Lacey, former butler at the home of Mr. Stillman's father, and three other servants there, Mary Murray, waitress; Mrs. Helen D. Hunt, housekeeper and Delia Rock, cook.

FIRST BATCH OF ENTRIES FOR PROVINCIAL GOLF TOURNEY

MANY ENTERING FOR PROVINCIAL GOLF TITLE PLAY

Several Clubs Announce Names of Entries to Date —Strong Players Will Compete—New Iselemere Club Players to Enter for First Time

Entries are now pouring into the different golf club's secretaries for the Provincial golf championship, which will be held at the Beaconsfield links Friday week. The list of the different clubs is as yet incomplete, as the entries are held open until Tuesday next.

However, there are several names in at the present time which show that the men who will compete for honors in this championship meet will be strong golfers.

R.M.G.C.'S STRONG LINE-UP.

The Royal Montreal Golf Club has a formidable array of golf talent already entered, amongst whom is the Canadian champion, C. R. Grier. Mr. Grier, who is looked upon as one of the finest golfers Canada has yet produced, was among the first to fyle his application.

Other well-known golfers entered from this club thus far are J. H. Turpin, Alex. Wilson, Norman Scott, A. E. McNutt and Maurice Hodgson. Mr. McNutt, the secretary of the club, says that there are sure to be several others send in their names before Tuesday afternoon.

COUNTRY CLUB ON DECK.

Mr. Harlow, the secretary of the Country Club of Montreal, the links of which are situated at St. Lambert, has not had much of a chance to peruse the names of the entrants, he reports, but a good number is assured from this club. Up to the present time, however, there are several names on the list. Among them are the following: H. W. Maxson, who has been club champion for the past three years; A. H. ("Art") Ross, well-known all-round sportsman, and D. J. Dewer. Other entries will be coming in up to the last minute, the club expects.

LAVAL'S GOOD NUMBER.

There is a fine number of the French-Canadian players who are going to try their hand at grabbing titles in golf. The Laval-sur-le-Lac golf club held a meeting to discuss this championship meet last night and several members signified their desire to enter the play. One or two English-speaking members will also enter from this club. The following have entered to date: Capt. L. Patenaude, A. Patenaude, A. Martineau, T. Menier, E. Ethier and John Anderson. This representation is a good one and it shows how much interest in the game is being taken by the French-speaking people of this city.

NEW CLUB ENTERS.

Another interesting point in the entries for these title events is that there will be three or four members of the new Iselemere Golf Club, which has its course at Back River. G. L. McCullough, one of the organizers of the club, will be among those entered, and with him will be some other strong players. As this club is just starting out, the fact that they are entering into the championship play shows that they are determined to waste no time in making a name for themselves.

Whitlock report a good prospect of a large entry list, but as yet the secretary has not received any of the entry blanks and could not say just how many he expected to provide for.

MENTIONS FOR KANAWAKI.

No application forms have yet been received by H. H. Hughes, secretary of the Kanawaki Golf Club, but he expects several of them in from now on till Tuesday. However, there are many who likely will enter this year, and who were among the club's representatives in the championships last season.

Wm. McLuckie is looked upon as a sure competitor in the play, and others who ought to enter with him are Messrs. Williams, Fraser, Vesey, Novinger and Kingsley.

Kanawaki will not be found lacking when it comes to the final day for the entries, Mr. Hughes states, and much faith is pinned upon the men who will look after the club's interests in the coming tournament.

It is not certain yet whether anyone will be found amongst the entrants from the Outremont Golf Club, but there is a likely player who may send in his name. This is Mr. Wilkes, whom many look upon as one who ought to be playing in the tournament.

"UNO'S" GOLF GOSSIP

There was only one drawn game in the Royal Montreal vs. All Montreal Ladies' match yesterday, Miss McBride and Miss S. Kennedy fought out their match silently and sternly to the last putt on the green.

The victory of the Royal Montreal Ladies was the second they have chronicled over the chosen from among the other clubs in the city. They take some beating.

Miss Strachan thinks it well that special note should be made of the fact that the game contemplated over the Kanawaki course on Monday next, between the ladies of Royal Montreal and "The Rest" has been called off. There will be a "friendly," however.

There is keen speculation as to who will win the Quebec Ladies' Championship at Beaconsfield, on June 24. Quite a number of "surprises" were prophesied yesterday at St. Lambert.

It should be a battle royal on Wednesday next at Dixie, between the ladies of the Royal Ottawa Golf Club and those of the Royal Montreal Club. The visitors will have to produce some marvellous golf if they are to get the better of the Dixie ladies, who are justifiably proud of their prowess.

Chatting with local golfers it is amazing the amount of support which Abe Mitchell is receiving for the open championship. A great player no doubt, the mightiest hitter in the world, but he will not get the backing at St. Andrew's, I am pretty certain of that.

Amongst the golf fixtures for the Island of Montreal for next Saturday afternoon is the annual match of the Beaconsfield Golf Club between the vice-president and the president teams.

Entries for the provincial golf championships close on Tuesday afternoon next. The play is to be begun on Friday of next week.

CHARLES MILNE.

SOCCER GOSSIP

BY CRAIG CAMPBELL

The Grenadier Guards, the nerve-breaking team of Montreal, defeated Sons of Scotland last evening in the Connaught Cup tie, 3rd round, after what amounts to fours hours' play, taking in last Wednesday's game at Roxboro. Over 3,000 spectators witnessed the elimination of the Scots, which came about in overtime. Except that the sun bothered both goalkeepers, the evening was absolutely perfect. Sons of Scotland turned out short of McKellar and Cree, bringing in Rowlands and Dornan. The Guards had out the same eleven that drew at Roxboro, and looked in best of condition. Everything was excitement and expectancy as the referee lined the teams up as follows:

Sons of Scotland — Smith, Ure, A. Clarke, Foy, Thompson, Burnett, Scott, Rowlands, Ritchie, Dornan and D. Clarke.

Grenadier Guards: — Shaughnessy, Jones, Brennan, Bailey, Beattie, McLagan, Boulton, Macfarlane, McBride, Smith and Baxter.

Referee—Davie Grundie.

Sons won the toss, but the advantage was of little or no value, the sun catching both goals. McBride started the game, and it was early seen that the Guards were favorites with the crowd. In the first half minute, Billy Smith handled from Baxter, it being a regular Guards' rush. The ground being "hairless" and hard, gave the ball ample opportunities to perform the "ping pong" stunt, bouncing without regard to well intentioned passes. Play was therefore extremely fast and many unexpected things happened. Sons of Scotland drew the first corner, Scott sending behind Dornan gave Davie Clarke a chance to make ground, but his shot passed the far post and out. In a trice, play went to Scottish quarters, and Baxter had Andy Clarke in trouble, thinking the ball was going out. Hereabouts, Andy Clarke was showing great form, Beattie took the ball from Dornan's toes. Beattie came again, causing Smith to bring off a fine save. Corner for Guards. This was got rid of, but Alec Smith sent in a hair-raising shot, Andy Clarke heading away an almost certain goal. Excitement was at fever heat as Guards pressed, causing Ure and Clarke all kinds of trouble. Then the Sons advanced, Davie Clarke being robbed by Jones. Jim Beattie appeared in his element, returning a ball with great accuracy. Smith made off, with Thompson in attendance, and a corner for Guards followed. The Scots were seen back, and with the chance of his life, Jock Dornan shot yards over. Macfarlane gave Smith a slow one to save, and Ure cleverly returned Smith and Baxter. Half time:

Sons of Scotland, 0; Grenadier Guards, 0.

In the second half, Sons of Scotland had by far the best of matters, but their shooting was faulty in the extreme, and the Guards' defensive work excelled, Shaughnessy in particular being in unbeatable form. Both sides missed chances and not being able to score at the end of 90 minutes' play, crossed over for the extra period.

Sons of Scotland, 0; Grenadier Guards, 0.

With only a very brief interval, the teams went it for another half hour of extra time. The Scots re-arranged their men. Foy, Dornan, D. Clarke and Thompson all changing positions. Alec Smith had the crowd ready to shout "goal," but Andy Clarke rushed over in the nick of time and blocked the shot. Guards came again, Macfarlane passed to McBride, who ran round Clarke and with a beautiful shot, beat Billy Smith all the way. Uproarious cheering greeted this clever shot, and with one goal in hand, the Guards smiled at each other. On several occasions the Scots looked like equalizing, but Shaughnessy could not be beaten. This practically ran end the story, for at the end of two hours' play, Grenadier Guards ran out winners by one goal to nil.

Guards meet Calvin next Saturday in the semi-final.

An unpleasant feature of the match which seemed to escape the officials was the behavior of one of the players who when criticised by the crowd, made disgusting gestures at them.

"UNO'S" SOCCER TALK

And so Sons of Scotland have gone under to the Guards. I saw quite a number of very nice people after the match, mostly lady supporters of S.O.S., who were anxious to get from me an opinion about the contest. Bless their wee hearts. The Sons of Scotland lost the game because they did not play the ball. That is my solemn verdict. They played the man only to find that the other fellow could do "something similar" if required. Not very nice of me, a Scotsman, to say this about the "Sons," but when you have slept over the game, people, you will admit that what I say is true. I could quote quite a host of folk, whose opinions matter, in support of my contention. You have got my simple version of it, any way.

The Sons were to be "sympathized with in their difficulties." They, like the Guards, had a few lame ducks; but I was led to understand justly that if Foy wasnt fit, he would not be played. He hadn't kicked the ball half a dozen times when he was obviously "crocked." It was a bad mistake to play him. And then they put Bill Ritchie at centre forward! Considering their team difficulties it was political on the "Scots" part to play Davy Clark at outside left. If he had sworn by the old golf rule and "kept his eye on the ball," he would have done well. Davy missed two awful pinches. He was almost under the crossbar once, and yet he lifted over marvellously. Davy didn't try to miss these "certs," take it from me.

"The Guards backs on a small ground would be this, that, and the other thing. But they booted and headed the ball like a Nick Smith and a Jock Drummond. They "covered up" one another beautifully, and then there was behind them, Shaughnessy.

Do you know, I was really beginning to think that Shaughnessy would almost have to be counted amongst the "also rans" in my affections, but really, last night he was brilliant.

You will note that the Guards won while extra time was being played. They have a happy knack of doing that, and take it from me, they will want some beating for this Connaught Cup. Jock Bob McFarlane was due the Guards' goal. He did not score it. Beattie, who played brilliantly throughout, slipped on an inviting ball, and Boulton, who played the centre forward position in place of McBride, who went home and went outside right, put the ball out to "the man on crutches," metaphorically speaking. "Mac" raced ahead. He hauled the dummy leg behind him, and yet, with that same dummy leg he won the match. It was a good goal. His confreres hugged him much more endearingly than was my fate from the supposedly "gentler" sex. Really, I must go into training. My muscles are getting flabby. Still, I thank the ladies.

The most effective player on the field was McLagan. None surpassed him. I was beginning to wonder what this Perth boy was really worth. I have seen what he can do now. If he falls below that standard, then I shall have to make the people keep on wondering why he did it. Beattie "beat the band." I want to meet Mr. Paterson, S.O.S., before he quits Montreal. He has got to leave his orders. Well, too, that he did.

GOLF TOURNEY IN FRANCE IS NOW DRAWING TO END

FONTAINEBLEAU, France, June 16.—Miss Cecil Leitch, British woman champion, this morning defeated Miss Christine Clark, another British player, in the fourth round of the women's French open golf tournament here, the score being 6 up and 4 to play.

Miss Alexa Stirling, of Atlanta, Ga., defeated Mrs. Thurston Wright, of Pitsburgh, by 8 up and 6 to play.

Miss Molly Griffiths was victor over Miss Phyllis Lobbett, 4 up and 3 to play. Both are British players.

Miss Joyce Wethered, of Great Britain, defeated Miss Lucy Hanchett, United States, 8 up and 7 to play.

After defeating Miss Sherwood, of Long Island, in the morning round yesterday, 3 up and 2 to go, Miss Stirling disposed of Miss F. E. Dubois, of Baltusrol, N.J., by a score of 3 up and 2 in the afternoon.

The playing of the American champion was up to the same high standard she has maintained since the opening of the tournament. She was especially strong with her approach shots, and on the green. The Atlanta girl pitched straight and true, and with excellent judgment of distance on every approach to the green. Her putting was also excellent, the longest being a 25 footer which she sunk on the seventh hole in the morning round for a birdie two.

Miss Stirling's driving improved yesterday afternoon's round over what it had been in the morning. In the early part of the day she was in the rough repeatedly with her wooden club shots, but she overcame this weakness on the second round, and was driving straight down the course.

Interest in the tournament was very keen today, and a large gallery of British and United States visitors arrived from Paris early this morning. The golfers breathed a sigh of relief when they were informed by the commander of the French artillery school, near the golf course, that practice with the French "75's would not begin today nor tomorrow until after 4 o'clock in the afternoon. The sound of the cannon and the shriek of shells unnerved the players at critical times during the first two days of the tournament.

GOLD CUP WAS RUN AT ASCOT TODAY

LONDON, June 16.—The Ascot race meeting as a society function, reached its zenith day when the famous Gold Cup stakes, having a value of £800 with 2,500 sovereigns added, was run. King George and Queen Mary were present on the course for the third successive day, the display during the parade about the field being more brilliant than in days before the war.

Yesterday's scorching heat was replaced by somewhat cooler weather, which was welcomed by the enormous attendance of all classes.

The Ascot Gold Cup, run over the two miles and a half of the famous Ascot Heath course, before a great galaxy of royalty and fashion, was won today by B. Irish's four-year-old bay colt Perseum, by Radium out of Persicaria, starting at 4-to 1 against. Fred Hardy's Happy Man, 3 to 1, was second, and the French entry, Henri Balsan's Juveigneur, both the latter being five-year-olds, was third. Eight ran and the field was admittedly second rate for this great race, which usually attracts the best horses in training.

Perioseum is bred to stay, his sire Radium being in his day a famous cup horse. As a three-year-old last season he won five out of his ten races, running for the most part at country meetings and demonstrating his ability to beat a second rate field over a distance of ground. His owner, Mr. Irish, is equally unknown, as Perseum became being his sole winner last year. Now he is the proud owner of what on the face of it is the best horse in training. It may be that Perioseum is a wonder who has come late to hand and suffered last year by not being forced in the big races for his age, but it is more than likely that his win suggests that there is a dearth of cup horses in training of the top class.

After the race had been run, however, the judges disqualified Juveigneur and awarded third place to Major Giles Loder's Spion Kop.

Torelore, Spion Kop, Silvern, Comrade and Bracket also ran.

MOTION TO HAVE SPECIALIST HANDLE AND GUARANTEE FINANCIAL PART OF FUTURE BIG SOCCER MATCHES

At the next meeting of the P. Q. F. A. it is said a motion may be made to place the financial management of future big soccer matches in the hands of the Pinkertons or some such people as make a specialty of handling the finances of race-meetings, dog shows, six-day races, horse shows, and similar affairs.

These specialists check up and police affairs of this sort without any trouble whatever to the officials and their employment will prevent in future gossip and insinuations such as have been the aftermath of the Old Country Scottish-All Montreal match. It is intended that the first trial of the new system is to be made July 9th at the Old Country Scottish-All Canada match here.

JACK DEMPSEY IS PERMITTED TO WORK OUT AGAIN AS USUAL

Carpentier is a Victim to the "Movie" Men Today —Insists That He Can Train Better in Private Than in Public

ATLANTIC CITY, N.J., June 16.—(By Henry L. Farrell, United Press Staff Correspondent.)—Airport, training camp of Jack Dempsey, discarded the stage settings for "The Deserted Village" and came back to life today.

The heavyweight champion prepared for a full day when his manager told him he might resume his work. A movie camera grinding out a chapter on Jack's training camp for the fight film, was only an incident of the day.

"One of the champion's fist-catchers left camp today. Martin Burke, New Orleans heavyweight, announced he will not be back. It was expected that the negro heavyweight Kid Norfolk, will replace Burke.

Dempsey was missing from the boardwalk yesterday. He had a long automobile ride. It was said he stopped in Philadelphia for a chat with Jim Dougherty, referee of the Dempsey-Miske fight and a candidate for the same job in the Carpentier fight.

Manager Kearns was reluctant to state whether he would go to Jersey City at the last minute to attend the meeting of the Jersey Boxing Commission, which plans to select a referee. Kearns was hopeful that the meeting would be postponed another week.

His answer yesterday was that "The commission can name a referee, but that won't make him referee."

PORTABLE STEEL RING.

NEW YORK, June 16.—A portable ring of steel construction will be used for the Dempsey-Carpentier battle at Jersey City on July 2. A working model has received official acceptance, and the work of installing a full-sized ring in the centre of the arena will be started within the next few days.

The ring will measure 18 feet square inside the ropes and will have a two-foot extension on all four sides. It will have three ropes, heavily wrapped in soft material at intervals of one and a half feet from the floor. The flooring will be of the best oak boards, strongly reinforced, and will be covered with a felt padding an inch or more in thickness. This padding will in turn be covered with a tightly stretched canvas.

Attached to the post in each boxer's corner by long swinging arms will be a backless and legless stool. These seats will be swung into the ring at the end of a round and at the bell for the beginning of the succeeding round swung out of the ring again. A hinge in the arm will permit the seat being dropped below the floor level during the periods of boxing. Portable folding steps will be used to permit the boxers' seconds to enter and leave the ring.

MANHASSET, N.Y., June 16—(United Press.)—Today was "movie day" at the Carpentier training farm.

Cameramen, filming the French champion for the official fight pictures, went to Sherry Park with Georges at seven o'clock.

Every detail of the challenger's training was filmed. Georges was in his element and walked gracefully, sprinted, shadow-boxed, and performed acrobatics while the cameras whirred. Later the gates were opened to sporting writers and others, and the Frenchman took on his sparring partners beneath the camera's eyes.

A canvas scene was rigged up today on the south side of the ring to cut off the view of the curious, who hang over a fence about two hundred yards from the barn. The barn itself hides Georges from the main road, and thick trees on the west side help lend him the privacy he seeks. Once this public gaze is diverted, Carpentier takes on a new lease of life. He shows more speed and brings into play all the tricky footwork and fast hitting which he will rely on against Dempsey. The private workouts on closed days this week have shown him at his best.

Carpentier displays a peculiar temperament in this matter of private workouts. Although on most occasions he likes the limelight, he likes to do his serious training undisturbed by strange gazes. This is the reason for the secrecy of his training camp.

An hour's fast work, bag-punching, rope-skipping, strenuous shadow-boxing and physical exercises failed to wind the challenger. He moved freely and with cat-like quickness; the tired look was gone and he went at his work as though he enjoyed it, with nothing of the languid air reserved for his public workouts.

WILL STAY IN CAMP.

MANHASSET, N.Y., June 16—Georges Carpentier probably will remain in his training camp until a few hours before the fight with Dempsey on July 2 and go by motor to the Arena.

Definite plans for the order of procedure on the day of the bout have not been completed, but it is certain that the challenger will stay behind his high board fences as long as possible.

One plan under consideration was to take Carpentier to Jersey City on the morning of July 2, rent rooms in a quiet hotel and remain until time for the bout. In event this idea is carried out the camp chef will accompany the party and prepare lunch in Georges' rooms at 11:30 in the morning. On this day Carpentier will be barred to all visitors.

Another plan was to remain in the camp here until noon on the day of the bout, then motor to the Arena. Manager Deschamps said today that he and trainer Wilson will go to Jersey City next week to get an idea of the layout there, and that definite plans would be announced afterward.

LEADING CITY FIELDERS AND HITTERS MEET

Atwater Park Ball League will play its second scheduled game this evening at Atwater Park, when St. Arsene and Indians clash at 6:30 p.m. sharp. The game should be a thriller for the Indians are the leading team in the city in fielding, while St. Arsene are the leading hitters to date. It will be a case of defensive vs. offensive.

Malcolm Fraser will twirl for the Red Skins, with Bailey or Duplessis catching. Art Mullen is out of town and cannot reach here before Saturday. St. Arsene will use their ace in Reynolds, the cannon ball artist, with Mingo catching. The latter is considered one of the best catchers ever developed in Montreal. Although small of size he makes up with his accurate throwing and is the life of the team. He recently returned from the Philadelpsit Athletics and Kitchener of the Michigan Central Ball League in turn.

That twilight baseball will be well patronized is assure, as a fair crowd attended the opening game between Athletics and Crescents. Many old timers were on hand. All the new league needs is a little encouragement and it will do the rest as to furnishing the local fans an article of ball that will be hard to beat.

Probable line-up:—Indians, Brown or Harvey, 3rd b.; Maxwell, l.f.; Jacobs, c.f.; M. Watson, r.f.; C. Watson, 2n.d b.; Miller, 1st b.; Bailey or Duplessis, C. Silver or Ryan, s.s.; Male, Fraser, p.

St Arsene—Sheely, 1st b.; Cutter, 2nd b.; Major, s.s.; Crevier, 3rd b.; Murphy, l.f.; Larivier or Creviere, c.f.; Singher, r.f.; Mingo, c.; Reynolds, p. Umpire, Palette and Patenaude.

Dr. Patterson's rink won the competition held in the mixed rink bonspiel at the Montreal West lawn last night.

PITCHING WAS FEATURE OF THE BIG BALL GAMES

NEW YORK, June 16.—Good pitching took the centre of the major league stage yesterday, and only two batsmen broke through with home runs. They were Flack, of the Chicago Nationals, and Hoffman, of the New York Americans.

Three New York National pitchers were needed to offset the splendid twirling of Vaughn of Chicago and his sterling defense. The Cub pitcher weakened in the twelfth inning and lost. Four double plays, one less than the major league record, were made by Chicago.

Cincinnati was held to five hits by Smith, of Philadelphia, but the Reds bunched three with an error for four runs. The Quakers hit Luque eleven times, and scored only once.

Oeschger, of the Boston Nationals, shut out St. Louis with five hits.

Kerr, of the Chicago Americans checked Babe Ruth's long distance batting rampage, confining him to a single and a double.

CLOSE EVENING RACE AT DORVAL IN B CLASS

The Royal St. Lawrence Yacht Club held the first race of the evening series "B" last night at Dorval. The start was made off the club pier shortly after the arrival of the 5:15 train from Montreal.

F. P. Shearwood, who acted as officer of the day, sent the boats over a windward and return course to a buoy off Whitehead's Point for the first race. Only four of the likely cup defenders turned out, as the repairs to the Red Patch's mast, which was broken last Saturday, were not completed in time to allow her to start. However, the Beaver, sailed by C. H. Routh; the Vega, sailed by A. S. Poe, and the Wolvin yacht, sailed by G. S. Parke, and Oneto, sailed by A. T. Paterson crossed the line almost as the starting gun fired. After a good race the Oneto won, followed by Wolvin yacht, Beaver and Vega.

The second race was over a triangular course, first around the gas buoy, marking the Ottawa river channel, then to Whitehead's Point and back to the finishing line off the club pier. At the start of this race the Beaver crossed the line before the starting gun was fired. The Beaver, Oneto and Vega all making this mistake, but the Vega returned and recrossed the line, while the other two kept on their course and thus disqualified themselves. This race resulted in a win for the Vega, the Wolvin boat coming second.

These evening races are proving very useful in developing the crew work on the boats, which is showing improvement on several of them, as in addition to the Wednesday and Friday races, the crews are putting in considerable work on other evenings. Another race will be held at Dorval Friday evening.

TWO WINS FOR ROSS AT OPENING OF THE CONNAUGHT TRACK

Jockey Claver Had Three Wins—Duke and Duchess of Devonshire Were Present and Large Crowd of Society People Attended

OTTAWA, June 16. (Star Special) — In the presence of a record-breaking crowd, the Spring meet of the Connaught Park Jockey Club opened yesterday afternoon at the beautiful track on the Aylmer road. Ideal weather favored the Jockey Club, and all Ottawa, it seemed, turned out for the occasion. Their Excellencies the Duke and Duchess of Devonshire, making their farewell public appearance in the Capital, attended, together with a party of guests from Government House, being welcomed on their arrival by President Belcourt and other officials of the Connaught Park Jockey Club. Music was furnished by the band of the 38th Battalion, and the Vice-Regal party received an enthusiastic reception. Commander J. K. L. Ross came up from Montreal for the occasion, and had the pleasure of seeing two of his horses win, as his two-year-old filly, Diadema, ridden by Claver, captured the first race, which was over five furlongs for a purse of $800. Diadema led from the wire and had the purse in her own hands. The second race also went to a Canadian owner, as John Lumsden's Stucco beat a smart field of fencers, including Phil T. and Si Superba, who also finished in the money. The feature of the afternoon card was the Queen City Purse race over one mile for a purse of $1,200. This also resulted in a win for Commander Ross, whose great six-year-old, Bonface, also with Claver up, caught the eyes of the judges under the wire first. The Manoeuvre finished second and Johnny Graver's Uncle John third. Claver put over his third win of the afternoon when he guided Mr. Brummel successfully in the sixth race, over a mile and seventy yards. A new track record was created by Mr. Ross' Diadema, winning the first race, she lowering the five furlong mark from 1:01 to 1:01 4-5. The track was fast and all the races were keenly contested, great sport being provided with brisk betting. The infield lawn presented an artistic picture, and the day, taken all round, was one of the most successful in the history of the Connaught Park Jockey Club.

Quebec Cup, qualifying round:

Tetreaultville vs. Thistles. Referee H. S. Lyons.

Windsor Hotel vs. 5th C.M.R. Referee D. Grundie.

Great War Veterans letter to the board charging certain irregularities in neglect, etc., was ordered filed.

The Lachine Club is not satisfied regarding the division of the gate against Highlanders, and the latter will be written to.

The First Division meet this evening at 9:15. The Second at 8:15, the Third at 8:30.

Watching the Scoreboard

Yesterday's hero—Burleigh Grimes, Brooklyn. He pitched excellent ball against Pittsburgh and his hits drove in three runs to swell a 7 to 3 win.

Giants and Cubs displayed a twelve reel thriller in which the slickers from New York overcame the Chicagoans six to two. Vaughn pitched all the way for the Cubs.

Tiny Dick Kerr, stung the Yanks 7 to 2.

Ruth didn't.

Oeschger's air-tight pitching gave Boston a 3 to 0 shut-out over the Cards.

Cincinnati revived the art of bunching hits. A cluster of three wallops helped the Reds beat the Phillies, 4 to 1.

The Indians weren't bragging today. They barely escaped from the Athletics with a six to five victory in eleven innings.

It was a close one at Washington too, where the Senators copped from the Browns, 7 to 5.

Home runs—Hoffman, Yanks; Finck, Cubs.

PRINCE OF WALES WAS THE HERO OF LAST DERBY DAY

LONDON, the Day after Derby Day—(Special Star Correspondence by Doris Hemming.) — The greatest race of the day, of course, was getting there, and the next most exciting was getting back. Not that there was any lack of thrill as the horses swept past the winning post as if shot from an elastic catapult, with all England from the King to the ragged Cockney cheering themselves hoarse and blue. But the thrill of the footsore traveller, on the road since five a.m., when a perfectly good waggon offered a lift, was a personal thrill that came very close to the heart!

This was no ordinary Derby, for on account of the coal strike there were no trains. Instead of eighty specials and a dozen regular trains pulling into Tattenham Corner during the day, jammed to the windows with an enthusiastic crowd, the tidy gates were locked and padlocked, and nothing but a telegraph ticker in the rear broke the silence that descended on the little station.

Tips on the Derby have been rife for weeks, but the one tip that anyone was ready to back at a hundred to one, was that the greatest race day of the year would be but a travesty of itself, for without trains the London mob could never get all the way to Epsom. Human nature is sure to win, however, even with all the odds against, and your Cockney usually gets what he wants when he wants it. If the miners were depriving London of trains to take it to the Derby, London would have to walk or drive, and London did.

The great trek started overnight when serious visitors with lemonade and bookie paraphernalia lined the road from the Elephant and Castle to Epsom, and a hundred camp fires flickered through the darkness on the Downs. The public began to arrive with dawn, and the strange procession continued without a break until five minutes before the racers for the sweepstakes were off.

On the right of the road came motor cars, buses and taxis, while carts, waggons and carriages pulled along on the left, the horses rubbing noses with the back of the vehicle in front. Not a grocer's waggon or spare omnibus but was pressed into service, and even children's donkey carts were brought out to help London cover the twenty miles to Epsom. On the footpath on each side of the road came the pedestrians, a motley crowd that quickened its pace perceptibly when the stone sidewalks of South London were left behind.

ENDLESS STREAM OF PEOPLE.

The endless stream of people was reminiscent of the war refugees of Northern France and Belgium, except that the luggage was mostly babies and lunch, and every one wore the happy smile of the prospective winner. But it was no day for smart dresses. Let society keep its fashions for Goodwood and Ascot, this was the people's picnic, and not a ragged hobo but was there to put his last sixpence on Craig an Eran in hopes of making the cost of the day. There were more men and women out of jobs, planking down their shillings in a pious hope, than the casual observer would ever believe.

When the long hill that leads from Epsom to the course was won at last by horse, motors and men, the tired travellers forgot their grouches in the contemplation of the marvellous scene. There were people everywhere, the country was black with people. The stands were crowded to the roof, and the line of omnibuses stretched along the course like the tail of a swarm of bees. The Downs were peppered with human encampments until they looked like the backyard of an American circus. If the 1921 Derby wasn't a success, I ask you, what can a normal Derby be! And how many more thousands could possibly have pressed themselves to the rail as the two false starts were rumored!

It was a very good-hearted, vulgar, humorous crowd that came from London and dropped h's all over the Epsom Downs. Not even Paris on Bastille Day ever abandoned itself more utterly to sheer enjoyment. Every one was ready with a boot and a cheer for the gipsy folk with their caravans, dirty shawls and packs of cards. The earnest young women that did the twenty miles on foot carrying helpful sandwich boards on their backs and fronts, asking humanity "Who would win if the Great Salvation were neglected," could not complain of being ignored. There was the "Pearly King" and his family in black velvet suits plastered with pearl buttons to the crowns of their hats. There were vendors of everything under the sun, from strawberries at three for tuppence in a bag, and sloppy pineapple chunks swimming in syrup, to lucky keepsies with a marvellous influence over the horses. There were men, women and children in tens of thousands, but mostly men—young men, boys, urchins, tramps, smart men in silk Derby hats, jolly fellows in paper Derby hats, grandfathers and octogenarians. In fact, it seemed impossible that the war had left us so many men in the world.

PRINCE OF WALES THE HERO.

But of all the men at the Derby the hero was the Prince of Wales. Not even the horses, as they galloped down the course before the great race, received a greater cheer from the crowd than did the Royal Boy as he left the King's box to go to the paddock. When the big moment was over, and he escorted J. R. Joel across the course, it was the golden-haired prince that the crowd acclaimed, and not the winner of the Derby.

At six o'clock the crowd that had massed solidly all day began to crumble away. The station was still locked, so the rush was for the motors and carts, people flying in all directions, hunting hopelessly for their conveyances. The airship R-33, that had been hovering since daybreak like a silver cigar glinting sunbeams against the clouds, dived its beautiful nose and got back to work. Every block on the roads below was signalled by wireless to the traffic controllers, and the result was that the procession moved steadily home like a ribbon without a kink or a curl.

The Press did a roaring business, and Lord Northcliffe predicted by means of a tremendous stentorphone set by the way, that the best story of the race would be found in the Daily Mail. The miles of posters that had seemed so big with tips on the way out, flapped miserably on the hoardings as the sun went down. As the procession reached London the streets were lined with a crowd that would have done justice to the Royalty that had long since passed that way. The grown folks were fascinated by the endless stream of traffic, and the children shouted till they were hoarse the well worn refrain, "Thrah a'nt ya mouldy coppahs," and scrambled like animals for the result.

It was a wonderful day, and a wonderful Derby, although the favorite came second, and Alan Breck had to be led down the course on account of his ankles. There was never a Derby just like it, and there probably never will be again. It was a challenge to the world that the Britisher is an adaptable soul, and is not to be beaten by all the miners' strikes in creation!

MONTREALERS DID VERY WELL IN QUEBEC DOG SHOW

QUEBEC, June 16. (Star Special) — The second annual Quebec Dog Show opened yesterday afternoon at the Drill Hall here, with over one hundred and fifty dogs assembled in the building. There was keen competition in practically all the classes, and Montreal and district competitors fared very well, capturing sixteen prizes in the Pomeranian class, three in the Japanese spaniel class, where Mrs. F. M. Gilman swept the boards; one in the toy variety class, two in the pointer class, seven in the Irish setter class and ten in the Cocker spaniel class, making a total of thirty-nine prizes in all.

The prize winners were as follows:

Pomeranians — Puppies, bitches, Mrs. Alfred Cobb, Montreal, Goldset. Canadian bred bitches, Mrs. D. Beland, Montreal; novice bitches, Mrs. Alfred Cobb, Montreal; winners bitches, Mrs. D. GENERAL SPORTSMEN'S DANCE AT CUSHING

A general sportsmen's dance will be held on Friday evening at Cushing, Que., in the Stone Hall, under the personal direction of Fred Cushing, well-known veteran snow-shoer, horseman and all-round sportsman.

This is one of the many dances that Mr. Cushing arranges every summer and which by this time are looked for by the many people who always attend. As is the usual custom, returned soldiers wearing badges, which are sent to them, will be admitted free of charge. This has been Mr. Cushing's policy for some time now.

The music will be rendered by the Century Dance Orchestra of Hawkesbury, Ontario, and Mr. Cushing assures everyone that they will be satisfied with this selection.

Dancing will begin at 8 P.M. standard time and one and all are invited to be present.

TOO LATE TO STOP INQUISITION IN MATCH FINANCES

WINNIPEG, June 16. — An Edmonton despatch to the Winnipeg Free Press from its staff correspondent with the Scottish football team, yesterday said: "The statement published in a Montreal paper indicating that an investigation was being instituted to ascertain the exact gate receipts of the Scottish game at Montreal has incensed both players and officials. Col. Wilson emphatically stated today that the report was uncalled for, and an investigation unnecessary, while president McNeill maintained that he, as the Dominion Football Association representative, was perfectly satisfied that the receipts were perfectly accurate. He argues that if any investigation was necessary that would be the business of the D.F.A., and that, as the Dominion body has not authorized an investigation, the newspaper report is mere gossip or rumor alone. Consequently, the report is contradicted from the quarter most intimately concerned in the business, which would seem to confirm the already expressed opinion that the financial end of the Montreal game, while not what could be desired in amount, was perfectly all right in the handling."

Col. Wilson and President McNeill were a little too late.

True to his statement made to "Uno," President Hepburn, of the P.Q.F.A., caused witnesses to be summoned for a secret investigation last Tuesday, which was adjourned to a nearby date.

Jock Hutchison Won at Kinghorn Fife

LONDON, June 16.—Jock Hutchison, the Chicago professional golf star, won the professional tournament over the Kinghorn Fife links, begun Tuesday and completed yesterday afternoon. Hutchison's aggregate score for the two days' play, 36 holes, was 138, while his nearest competitor turned in 141.

INGENUITY OF FRENCH ALLOWS AMATEURS CASH

PARIS, June 16.—Montreal Star and Philadelphia Ledger Cable. Copyright.) —Minister of War Barthou presided at the athletic carnival held in the Tuileries today, in which money prizes for the various contests were made dependent on the marriage and parenthood of the athletes.

French efforts to stimulate the physical education of young men are making remarkable progress. There were more than five thousand men taking part in the exercises instead of being spectators. Each winner was given the title of "defender of the race," and the charge of professionalism in the award was avoided by offering to each winner a five hundred francs prize, which could only be cashed in on the day of his marriage, one thousand francs at the time of the birth of each of his first two children, and twenty-five hundred francs for the third child. Thus the defenders of the race must get busy before they touch one sou of the prize money.

MERCANTILE LEAGUE.

The American Express Co. continued their winning streak by defeating the Guarantee Pure Milk Co. in a scheduled game of the Mercantile League, Wednesday evening. The Expressmen are now tied with Swift Canadian for first place. A great game is expected next Wednesday, when both these teams meet. Manager Schick is confident of the Expressmen taking the leadership of the league after this game.

FURTHER SLASH IN WALL ST. PRICES--LOCAL HOLDING QUIET

WAITING TONE AGAIN NOTABLE IN LOCAL LIST

The list was again a dull one on the local stock market. Throughout the morning session trading in most issues was quiet and fluctuations were narrow. Price changes in the market were within the limits of a point, while in the majority of stocks fluctuations were for small fractions only. Taking the morning's market as a whole the tone was steady. Out of the morning three net losses resulted, three net gains, and eleven issues closed unchanged as compared with last night's final levels.

The paper stocks did not move a great deal, and only a few of the issues received much attention. Riordon was dull, but held at the low price of 7½ established late yesterday afternoon. Wayagamack, on the other hand, showed some strength and the price advanced from 66¾ to a high for the session at 67¼, with the close at 67, a net advance of ½ point. Spanish River pref. also did better. This issue opened at 71½, and after easing back to 71, closed at the opening level, with a net gain of ½ point. Abitibi sold at 31¾ to 32, unchanged, while Brompton at 30, was steady.

There was a fair amount of trading in Dominion Steel at the comparatively steady price range of 26¼ to 25½ to 26, a net loss of ¾ point. British Empire Steel common was steady at 9, with the 2nd pref. unchanged at 25. Steel of Can. at 51½ was down ⅛.

In the utilities group, Toronto Rails which yesterday had a fairly brisk upward move, today sold at 76, a net loss of a point. Brazilian was 28, up ¼. For the first time in some days Winnipeg Electric appeared on the tape, the stock selling unchanged at 40.

National Breweries showed no change, selling at 51, while Smelters held at 15, and Steamships pref. at 48 xd. 1¾ per cent.

"TRADE WITH CANADA" PROPOSITION IN U.S.

CHICAGO, June 16. — Peabody, Houghteling & Company, in making application the other day to the Canada Life Assurance Company for a $750,000 policy on the life of Alexander Smith, president of that firm, and a director of Abitibi, were prompted, it is said, by the desire to start a general movement among American business men having large interests in Canada to right the exchange situation.

In the interests both of the United States and Canada, the more promptly Canadian money is brought back to a parity, the better for all business, and in the opinion of Peabody, Houghteling & Company, no better way can be found than "Trading with Canada." It is in a great measure due to Alexander Smith's initiative that this movement is starting, and the thanks of American firms doing a business of many millions with Canada, as well as the Canadian people generally are due him. This policy, which takes the entire capacity of all available Canadian and British companies, was applied for and issued through the Chicago office of the Canada Life Assurance Company, Charles F. Bullen and John H. Bullen, agents.

PRICE CLEAN-UP IN WALL STREET ON WITH VIGOR

NEW YORK, June 16.—Stocks rallied briskly at the active opening of today's trading, shorts covering hurriedly on favorable developments announced after the close of yesterday's session. These included the lower commercial discount rate fixed by the local Federal Reserve Bank and declaration of the regular Northern Pacific dividend. Northern Pacific soon gained 2 points, while Great Northern, Louisville and Nashville, Atlantic Coast Line, New York Central, Reading, Baltimore and Ohio, and Texas & Pacific advanced 1 to 2½ points. Mexican Petroleum, yesterday's weakest feature, made an initial rally of 3 points, Pan-American Petroleum rose 2¼, the "B" stock rising 3 1-2. Baldwin Locomotive, Studebaker and American Sugar were among the other strong issues.

American Sugar went to a new low at 66 1-2 when the Sugar group was subjected to another attack. Another soft spot was American Sumatra, which made a new low for the year below 52. International Paper reacted a point and Crucible Steel fell away two points. The directors of the latter met today for action on common stock dividends.

The greater part of the early advance was cancelled within the first hour, extreme heaviness being shown by various specialties, particularly sugars and tobaccos. Steels' equipments, shippings and chemicals also gave way. American Sugar, American Tobacco, Sumatra Tobacco, Bethlehem, Crucible and Replogle Steels, Pullman, Chicago Pneumatic Tool, Atlantic Gulf, Mercantile Marine pfd., and Industrial Alcohol fell 1½ points.

Just before noon Mexican Petroleum became the centre of another severe drive, selling down to 113 or a further reaction of 4 points. Studebaker, and American Woollen also were weak. Call money opened at 5½ per cent.

The general weakness which developed in the second hour gave indications of proving as sweeping in character as the previous day's decline, but a steadier tone developed between noon and 1:30 p.m., which suggested a cessation of bearish activities.

While the general run of leaders were holding their own a few gave indications of working lower. Mex. Pete., which scored a new low at 110¾, after opening at 117¼, rallied to 112½, but later worked lower to 111. Pan American from 50½ worked down to 47, recovered a point, and then lost part of it again. Royal Dutch ranged from 53½ to 51⅝ to 52.

Asphalt was one of the weakest leaders in the early afternoon, falling to 52, compared with the morning low of 54⅝, after opening at 56 to 57. Am. Car, which has been an outstanding feature of strength for months past felt the influence of pressure today, and sold off from 121 to 117½.

While waiting the action of the Crucible board with reference to the dividend the stock worked down from 55½ to 52¾ and only recovered a fraction. The declaration of the regular dividend on Northern Pacific gave this stock a stronger opening at 68⅝ but it later lost a point.

Gt. Northern acted similarly easing a point from 65½ to 64½.

Chandler Motors was one of the features of that class breaking below 60 in the early afternoon with it touched 59 compared with an early high of 61. Studebaker also broke sharply to 77½ to 73⅝ recovering only a fraction.

Other features of the list were: C.P.R., 111 to 110¾ to ⅞; Locomotive, 80 to 78; Beet Sugar, 28½ to 27; A.I.C., 37½ to 35⅝ to 36¼; Sumatra, 53½ to 54 to 50½ to 51½; A.G.W., 23½ to 19¾ to 20¾; Baldwin, 73⅝ to 74 to 72½; Beth Steel B., 50⅝ to 49. Corn Prods., 64¾ to 63½ to 64; Goodrich, 34½ to 32; Alcohol, 55⅝ to 53 to ¼; Int. Paper, 53½ to 51 to 52½; Pierce Arrow, 20¾ to 20; Reading, 68½ to 67⅛; Retail Stores, 55 to 50 to 51⅞; Am. Sugar, 68⅛ to 69⅛ to 67; Southern Pac., 73½ to 74 to 72½; Steel, 75⅛ to 74⅝ to 75⅛ to 75; Union Pac., 116¾ to 115⅝. Money was unchanged at 5½ per cent.

RE-ELECT BANK DIRECTORS

QUEBEC, June 16.—At the annual meeting of the shareholders of La Banque Nationale at 4 o'clock yesterday afternoon the following board of directors was re-elected: Rodolphe Audette, Napoleon Drouin, Nazaire Fortier, J. B. Laliberte, A. B. Dupuis, Napoleon Lavoie and Charles Pettigrew. Messrs. Audette and Laliberte were respectively elected president and vice-president. Reports received showed very good business and a general increase in transactions.

NATIONAL BRICK PLAN

When the shareholders and bondholders of National Brick Company of Laprairie met yesterday, shareholders ratified a by-law to increase the number of preferred shares outstanding, and bondholders passed a resolution to exchange their bonds plus accrued interest into the new issue of preferred stock.

The bonds, which amount to $3,000,000, will be retired and a new limited issue will be made which will facilitate the banking arrangements of the company.

Notes on 'change

The awful straits of the British steel industry is emphasized by the May production data. The pigiron output was 13,634 tons and that of steel 5,575 tons, against 60,300 tons of pigiron, and 68,400 tons of steel in April and a monthly average in 1920, 67,425 tons and 74,745 tons respectively.

Under a resolution introduced today by Chairman Norris of the United States Senate Agriculture Committee, on recommendation of Secretary Wallace, $200,000 of the fund already appropriated to fight the pink boll worm in the Southwestern cotton States would be used together with State funds to compensate farmers who are required to keep land idle in the zones established around infected areas.

At New York—Copper quiet, electrolytic, spot and nearby, 13c to 13¼c; June and July, 13¼c to 13½c. Tin steadier; spot and nearby, $30; futures, $30. Iron nominally unchanged. Lead quiet; spot $4.50. Zinc, quiet; East St. Louis delivery, spot, $4.40 to $4.50. Antimony, $5.25.

At London — Standard copper, spot, £73 2s 6d; futures, £73 5s; electrolytic, spot, £77; futures, £79. Tin, spot, £168 17s 6d; futures, £171 12s 6d. Lead, spot, £22 5s; futures, £22. Zinc, spot, £26 15s; future, £27 12s 6d.

Topics of the Street

While the stock market in Montreal was again dull this morning trading was slightly increased as compared with yesterday, 2,892 shares or an increase of 798 shares from yesterday morning changing hands.

Dominion Steel was the most active stock in the dull list, the number of shares changing hands in the issue being 560. Other active issues included: Abitibi 270 shares; Wayagamack 250; Cement, 220; Brazilian, 185; Brompton, 167; Spanish River pref., 160; British Empire Steel 2nd pref., 159; the common, 125 and National Breweries, 100.

It was evident from the action of Wall Street today that it is not yet prepared to respond to constructive developments and furthermore that the market is dominated for the time being by speculators who have an interest in bringing forward and emphasizing, if not even conjuring up, imaginary drawbacks. This will continue until every weak link in the speculative chain has been shattered and the speculative fabric is devoid of points of attack.

Under this circumstance the local market remained without promise of any change for the better. It is said that less emphasis is now laid by the local bear element on the so-called unfavorable circumstances which surround a limited number of issues and that the list is viewed for the greater part as having reached a stage where it is no longer desirable or expedient to continue further depressing tactics.

The reduction of the Federal Reserve Bank rediscount rate from 6½ to 6 per cent late yesterday, coupled with the payment of the regular dividend on Northern Pacific shares, were developments which would have, under ordinary circumstances, given the market occasion for some rally, but it failed to materialize, and instead there was a decided tendency towards irregularity. This was so much so that the impression began to revive that there is something yet hanging over the market which must be disposed of before a favorable turn may be expected.

It is, however, worthy of note that there has not as yet appeared any improvement in general business which would have a tendency to encourage constructive efforts. There are sporadic instances of industry here and there developing a little more activity but it is not general enough in its character to suggest the real turn.

The Canadian Trade Commissioner in New Zealand reports that the newspaper proprietors of that country are considering the purchase of some 16,000 tons of newsprint paper, about half of which they expect to secure from Canadian manufacturers. They are asking for tenders on the business. The total amount would represent about a year's supply. Auckland newspapers have paid up to £70 per ton for paper, which is now offered at about £28 per ton from Scotland. The trade commissioner points out that if Canada is to continue as a source of newsprint supply for New Zealand, prices for the Canadian article must come down.

At the current sterling exchange rate in Montreal of around 4.25 to the pound sterling, the peak level of £70 would represent a price of $297.50 per pound and the Scottish quotation of £28 a price of $119 per ton.

Discount rate 6½ per cent.

TO PROMOTE EXPORT TRADE

LONDON, Ont., June 16.—Export managers of Western Ontario firms discussed at a Chamber of Commerce meeting yesterday, plans for the promotion of trade with Dominions of the Empire and other countries, especially Mexico and South America republics. E. H. Stewart, of the Bank of Montreal, in a paper on the financing of export business, said the Australian exchange collapse was precipitated by the conclusion of the British Government's contract to take all of the country's exportable wool and wheat supply.

PLANTS STILL BUSY

TORONTO, June 16.—It is interesting to note in connection with the special meeting of shareholders of the Canadian General Electric Company, Limited, that the outlook for the company seems to be quite good. A. E. Dyment, the president, stated to the meeting that while there had been some lessening of activity during recent weeks, the plants of the company were still working at almost full capacity. This was in reply to a shareholders' inquiry.

MINING MEN TO MEET

COBALT, Ont., June 16. — Tomorrow will mark the opening of the most representative meeting of mining men ever held in this district, and one of the most representative ever held in Ontario. The capital represented by the members of the Ontario Mining Association, who are here for a three-day annual meeting on behalf of the mining companies, which belong to this new association amounts to approximately $175,000,000 and, including the specially invited guests, will represent more than $200,000,000.

GOLD PROSPERS GREATEST WHEN OTHERS SUFFER

TORONTO, June 16.—(Star Special.)—As evidence of the growing importance and the wide interest being attracted by the gold mining industry of Northern Ontario are the large number of visitors to the mines.

Visitors from the United States make up a substantial part of the total while Europe is also quite well represented. A feature, though, is the increase in the number of Canadians who are becoming vitally interested in the industry.

Among the groups visiting Porcupine and Kirkland Lake recently may be mentioned the directors of the Dome Mines, chiefly from the United States; the directors of the Hollinger Consolidated, these being Canadians; a party of stockholders of the March Gold, a mining prospect in the Porcupine district, these shareholders coming largely from Buffalo, N.Y.; a large party of directors and stockholders of the Kirkland Lake proprietary to Kirkland Lake from England; a visit from directors and interested parties of the King Kirkland Gold Mines, entirely Canadian; the directors of the OntarioKirkland from the United States, and various other visitors, among whom are representatives, and engineers in search of new mines, particularly gold mines.

Gold mining is the one industry that prospers greatest when other lines of industry suffer depression. Reflecting this is the fact that capital is flowing in greater volume than has been evident for many years into the business of mining gold.

SHARP REDUCTIONS IN OCEAN FREIGHT RATES

NEW YORK, June 16.—(Special to The Star)—To stimulate the movement of cargoes from Pacific Coast ports to Australia and New Zealand the General Steamship Corporation, the Oceanic Steamship Company, with carriers plying out of San Francisco, and the Canadian Government Merchant Marine and Canadian-Australasian line operating from Victoria and Vancouver, B.C. have agreed upon sweeping reductions in freight rates which will be placed in effect immediately. The tariff on canned salmon is reduced to $20, box shooks from $15 to $10 a ton, portable houses from $18 to $15 a ton, and wall board from $18 to 15 a ton. The lumber rate, which was reduced recently, will remain at $20 a thousand feet. The new tariffs are effective from all Pacific Coast ports to Auckland and Wellington, N. Z., and to Sydney and Melbourne, Australia.

It is understood there is a movement on foot to force down the grain rates from Gulf of Mexico ports to the United Kingdom to a level with those recently put into effect from the north Atlantic range to Europe, namely five shillings per quarter. As the gulf shippers have already taken action to that end, the recent move of the North Atlantic Conference seems inadvisable or unnecessary.

The situation in the steamer market yesterday showed slight improvement over Monday. A number of grain orders were offered and some chartering was done on coal for Europe.

PRICE OF LEAD DECLINES

NEW YORK, June 16.—The American Smelting & Refining Co. yesterday reduced its price of lead 1-4c to 4.50c.

LONDON WOOL SALES

LONDON, June 16. — (Special Star Cable).—Some 12,000 bales of privately owned wools were offered yesterday. Demand was active in all continental sections with good buying by the home trade noted. Very few withdrawals occurred and prices were firmly maintained for all descriptions except the lower grades of crossbred, which continued irregular. The detail: Sydney—303 bales; secured merino 15 1-2d to 29½d. Queensland—2,000 bales greasy merino, 11 1-2 d to 18 1-2d; scoured 22 1-2d to 23 1-2d. New Zealand — 5,230 bales greasy crossbred 5d to 13¼d; scoured 13½d to 24d; slipe 6¼d to 14 1-2d.

LONDON, June 16. — (Special Star Cable).—At the wool sales yesterday at Timaru, New Zealand, 4600 bales were catalogued and 3600 sold. Competition was strong and prices were fully equal to those realized at Christchurch on June 10.

EGG MARKET FIRM

The Department of Agriculture, Ottawa, reports the egg situation as follows: Toronto and Montreal firm and unchanged. Winnipeg prices to producers and country shippers unchanged. Spot sales of current receipts reported at twenty-nine. Reports generally point to a falling off in receipts and the undertone of the market is very firm. Several cars of western eggs are reported rolling Montreal and Toronto and a car of States eggs has arrived Montreal from Chicago.

Crow's Nest Profits for 1920 Increased

TORONTO, June 16. — Crow's Nest Pass Coal Company reported the highest profits earned since 1913 at the annual meeting at Fernie, B.C., these standing at $441,478, an increase of $331,938, compared with the previous years. Production of coal and coke, 779,942 tons and 75,928 tons respectively, was considerably increased.

The company's liquid position has materially improved during the year. Current assets are now $1,303,673, compared with $936,595, while current liabilities are $412,987, against $328,473. That means an increase of about $300,000 in working capital.

At the annual meeting several changes were made in the directorate. E. C. Whitney, Ottawa, vice-president, and Ralph Budd, St. Paul, Minn., disappear from the list, and James T. Maher, James F. Edgar and Col. T. J. Crabb are added. H. B. McGiverin, Ottawa, becomes first vice-president, and W. H. Robinson, Granby, Que., second vice-president. W. R. Wilson was re-elected president and general manager, and the other directors are: Ellis P. Earle, New York; Dr. G. W. Howland, Toronto; and A. H. MacNeil, Vancouver.

WHEAT PRICES OPENED LOWER, HAD ADVANCE

The following noon grain letter was received from Chicago by E. C. Morris manager for Logan & Bryan, at their Board of Trade branch office:

Wheat—Started lower, but a big buying movement started shortly after the opening and prices advanced rapidly on buying encouraged by unfavorable crop reports from local experts travelling through producing sections and by seaboard reports telling of big export sales. First spot sales showed firm premiums. Weather conditions generally favorable.

Corn—Houses that did the export business here yesterday led the early buying of July. This was followed by locals and was encouraged by the strength in wheat. Crop advices continued generally favorable.

REPORTED FORD PLANS

NASHVILLE, Tenn., June 16.—Henry Ford is considering the purchase of three of the plants of the Government nitrate works at Sheffield, Alabama, for use in manufacturing, according to statements of railway officials who accompanied the Detroit financier on an inspection tour of the plant yesterday. Mr. Ford refused to make any statement.

GASOLINE AND CRUDE OIL PRICES CUT AGAIN

NEW YORK, June 16.—Reductions in the prices of gasoline, kerosene and crude oil were announced yesterday. The Standard Oil Company of New York lowered the wholesale quotation on gasoline 1½c from 26c to 24½c a gallon. Kerosene was reduced from 14c to 13c.

In New England territory the Standard Oil Company of New York reduced the price of gasoline 1½c, to 25½c, and of kerosene 1c, to 14c.

The Texas Company cut its price on gasoline in New England to 25c.

Pennsylvania crude oil was reduced 25c a barrel to $2.75. This is the lowest price for Pennsylvania crude since 1916.

In the June number of "The Lamp," a Standard Oil Company publication, the situation is summed up thus:

"The underlying difficulty with the oil industry today is due to the lack of a normal demand for oil and its products. The industry is passing through the readjustment period which virtually every other industry had previously or is now passing through. As refiners have accumulated large stocks the burden of over-supply is spread over the entire industry."

PITTSBURGH, Pa., June 16. — The second reduction in the price of crude oil within a week was announced here today by the principal purchasing agencies with another cut of 25 cents a barrel on all grades was posted. The new price of Pennsylvania crude is $2.50. Steadily increasing stocks was given as the cause of the reduction.

FIRMER TONE IN N.Y. RAW SUGAR MARKETS TODAY

NEW YORK, June 16.—(Special to The Star).—The sale of 32,000 bags of Porto Rico raw sugars consummated late Tuesday took practically all of the raw sugars of this kind which were pressing for sale in the market, and at the outset of business yesterday the dealings had a firmer tone, the pressure to sell having been removed to no small extent. Despite this there was considerable doubt as to whether refiners would be found inclined to take on any large line of sugars if immediately forced on the market and it was pointed out that holders would have to exercise great patience and show some resistance if they wished to avoid a further recession in values.

In the absence of any definite statement from the sugar committee with reference to the position of Cuban raw sugars interest attached to private advices received by a local refiner that sales of Cuban raw sugars had been made in Cuba on a f.o.b. basis of 1½ cents a pound, which would indicate that the demoralization was greater than was at first generally believed. Of course, in connection with any such sales which might have been privately arranged, it must be remembered that the exportation of such sugars from Cuba would not be possible without permission from the Sugar Finance Committee, which exercises supervision over all exports from the island. However, Cuban raws at 1½ cents are regarded in the nature of a good gamble, but only in the event of the disintegration of the Cuban Sugar Commission. A great deal of capital would be required for successfully conducting purchases of Cuban raws on this basis and the practice may not be extended materially.

The reduction by all of the principal refineries to a basis of 5.75 cents a pound for granular was no indication of further weakness in the market for raw sugars. In fact, it was pointed out that the present level of four cents for raws would warrant a still further reduction in the market for the refined product, which expectation might be realized, particularly in view of the cautious attitude which consumers are adopting in the matter of additional commitments.

LATE FINANCIAL NEWS

OILS EXTREMELY WEAK; GENERAL TONE IS HEAVY

WALL STREET, 1.30 P.M.—Specialties as well as leaders of the steel, equipment and motor groups became increasingly heavy during the mid-session with oils. Losses then ranged from 2 to 8 points, tobaccos and sugars developing acute weakness. Mexican Petroleum reacted to 111, three points under yesterday's low record.

Sales of C.P.R. up to 2.30 were about 600 shares.

Extremen weaknes in Mexican oil stocks characterized the last hour. This was accompanied by sinister rumors of impending banking difficulties.

Mex. Pet. fell to 103 by 2.30 and Pan American was at the low of 45¼.

Other leaders at that hour stood: C.P.R. 110½, Union Bag 67¼, Sumatra 50¾, Baldwin 72⅛, Beth. Steel B. 48, Crucible 54, United Fruit 104⅝, Nor. Pac. 68¼, Gt. Nor. 64, Steel 74⅝, Studebaker 73¼.

LIST DULL AND TONE DIVIDED; CHANGES SMALL

This afternoon the local stock market continued dull. With the declaration of the regular quarterly dividend on Canada Cement the stock which sold at 50¼ this morning steadied at 51 to 50½ to ⅝ to ⅜. Brompton lost a further point to 29 after opening at 30; it firmed to 29½. The price of 29 is a new low level for the stock, the previous low being 29¾ recorded some time ago. After opening lower at 66¾ Wayagamack rallied and again touched the high of the day at 67¼, only to ease back again to the opening level.

There was compartively little change in the balance of the list, issues ranging as follows: Mont. Power, 82; Quebec Ry., 25 1-4 to 25 to 1-4; Spanish Rivers, 62 1-2, the pref., 71 1-2 to 71; Steel of Canada, 51 1-2; Laurentide, 84; Textile, 129 1-2; and Maple Leaf pref. 96; Dominion Bridge 68. Abitibi was 31.

WHAT TO DO WHEN FUNDS LACKING?

Grand Trunk Arbitration Board Hears More Figures

The question of deferring track elevation when funds for it are absent rose in a few minutes' discussion at the end of this morning's session of the Grand Trunk arbitrators. Sir Thomas White, Government arbitrator, asked what would be done, if there were no funds, and credit was so poor, or conditions bad, that they could not be raised. He held the view that in such circumstances a railway would be justified in deferring the work, and indeed could not see by what process a railway could be ordered to do work for which it had no money.

"At practically every large city the Grand Trunk is competing with itself by the duplication of its lines," said J. P. Newell, consulting engineer, explaining a drawing he filed in evidence this morning before the G.T.R. arbitrators. More than half the session was taken up in filing rank after rank of figures, designed to elucidate what sections of business operated at a loss or profit, and were taken by witness largely from the company's accounts. Witness was examined by Pierce Butler, and then cross-examined by F. H. Phippen, K.C., for the G.T.R.

Witness explained lucidly that his statements were drawn up for specified reasons to bring out particular phases and information, which it was suggested by Mr. Phippen had not been taken into account, had, said Mr. Newell, purposely been disregarded as irrelevant for his purpose.

CO-OPERATION OF PUBLIC IS ASKED

Crown Prosecutor Says Citizens Should Help Police When Possible

In the Court of Sessions today, Dan Gillmor, Crown Prosecutor, made a plea for the co-operation of the public with the police. The case which gave rise to his plea was one in which identification of articlesalleged to be stolen was necessary and in which the complainant had not, though asked, appeared.

Much was being said and much written about the police force of Montreal, declared Mr. Gillmor, and the greater part of it was unfavorable criticism. But the people who were most destructive in their criticism were the very ones who when occasion demanded it, would not come forward and give the police a helping hand, as was their duty.

"We cannot expect to have a force which will always be at the top notch of efficiency if the public do not give it their earnest support on all occasions. Today, all that was needed in this case was for some member of the firm complaining to come down and identify the goods alleged to have been stolen from the accused, the work of a few moments. Yet no one comes, and the case will now have to be postponed to allow the issue of a subpoena to the complainant firm."

In the case of Allen Harris, charged with theft, Judge Decarie ordered the issuance of a bench warrant against a Madame Raney, a witness in the case. She had been served with notice for her appearance several times, said Dan Gillmor in making the application, and her continued absence was holding up the case.

ROBBERY MUST BE SEVERELY PUNISHED

"Boston Kid" and Comrade Guilty of Robbery—Judge's Warning

Before Judge Decarie this morning Gaston Duval of 347 Clark street and Sam' Kredentser, of Boston, Mass., known as the Boston Kid were found guilty of robbery. Kredentser pleaded guilty to a charge of assault.

The story of the case according to witnesses is as follows: Entering the Drug Store of E. Thieret at the corner of St. Viateur Avenue, W. and St. Urbain Street on the night of May 27, at 11.00 p.m. Kredentser, pointing a revolver at Thieret, told him to hand over his money. Thieret made an attempt to cry out but was forced into a room at the back of the store where Kredentser using the butt of the revolver hit him on the forehead rendering him unconscious Kredentser and Duval thereupon searched Thieret and stole his gold watch and $50.00 in cash. Before leaving the store the two men bound the complainant and left him in the back room. Some time later a customer came to the store and hearing Thieret—who had regained consciousness—shouting went to the room and set him free.

The detective office was at once notified and detectives Walsh, Thebaut, McManus, and Therian were sent out to investigated.

The description given by Thieret enabled Detective Walsh to get on the track. Two or three days later he ran Duval to earth in a restaurant on St. Dominique St. When arrested Duval made the statement that he was not the guilty party, but that the affair had been arranged by the "Boston Kid." Later in the day, while on St. Lawrence Boulevard the "Boston Kid" was pointed out to Walsh who arrested him.

Judge Decarie allowed both prisoners to remain seated. Duval has been ill and came into the box looking deathly pale and haggard.

Detective Walsh in giving evidence stated that when he searched the rooms at 347 Clark street he found a suit of clothes covered in blood and another coat with blood stains on the sleeve lining. Thieret identified the suit as belonging to Kredentser and the coat to Duval. The clothing was produced in court.

The men were not defended and when asked if they had anything to say, Duval, who was evidently suffering, turned to Kredentser and said: "Will you do the talking for us?" Kredentser—a callous and surly looking young man—said: "You say what you like kid, I have my time cut out talking for myself."

Judge Decarie found both guilty and will render the sentence on the 23rd inst. As the prisoners were leaving the court, the judge asked Duval if he felt ill. Duval shook his head and walked jauntily out of the box.

Judge Decarie said that had the indictment included violence he would probably add the lash to the sentence on Kredentser but not on Duval as he was ill.

The offense is an extremely serious one said the judge and if Montreal is to remain a peaceful city all wrong doing of this kind must be severely punished. Krendentser is alleged to have already served three months for a similar outrage in Lethbridge, Alberta.

Plans, specifications and forms of tender may be had on application to th Department of Public Works and Labour at Quebec.

The lowest or any tender not necessarily accepted.

C. C. BROWN,
Secretary-Treasurer,
Danville, Que.

TENDERS WANTED.

Sealed Tenders, marked "Tender" will be received until noon, the twenty-eighth (28) of June, 1921, at the office of the undersigned, 191 Stadacona Street, for the construction of a school named "St. Aloysius" located on Adams Street, between Pie IX Boul. and Desjardins Street, Maisonneuve.

This construction is for the Catholic Board School Commissioners of Montreal, East District, 191 Stadacona Street, Montreal.

Each tender must be accompanied by an accepted check equal to 10% (ten per cent) of the amount of the tender.

All tenders that will not be accompanied by such a cheque or that will not be made on the forms supplied by the architect, Mr. Irenee Vautrin, will not be considered.

Plans and specifications for that school can be seen or furnished at the architect's office, Mr. Irenee Vautrin, La Sauvegarde Building, 92 Notre Dame Street East, Room 94, from Monday, the 20th of June, 1921.

The School Board Commissioners of Montreal, East District, reserves the right to accept or not the lowest or any of the tenders.

J. M. MANNING,
Director Secretary, Catholic Board School Commissioners, East District, Montreal.

Why Wealthy Investors Should Purchase

Province of Quebec Succession-Duty Free Bonds

1—Because these Bonds are entirely exempt from any taxes imposed by the Province of Quebec Succession Duties Act.

2—Because, besides protecting your fortune in this way from Succession Duties, when your estate is transmitted owing to death, the Bonds furnish you with an attractive interest yield of from 5.70% to nearly 6%.

It is no exaggeration to say that no other investment can compare with these Bonds for the well-to-do investor possessed of considerable property. They are particularly attractive to the wealthy individual of advanced age who wishes to protect his estate now in the interest of his heirs.

The present opportunity to do so through the medium of these Bonds is one which is not available every day. When you consider that the Succession Duties Tax is in some cases as high as 20% you will readily see the advantage of the present issues Tax-exempt feature.

CAN YOU AFFORD NOT TO BUY THESE BONDS?

Full particulars regarding these bonds, and if desired, information regarding Succession Duties, on request.

Judge Advises Prisoner to Abandon Anti-Cigarette Campaign

Arrested on May 4 last for the theft of an overcoat from the C. P. R. station on Windsor street, John Daly, 60 years old, was placed on trial before Judge Decarie in the Sessions Court this morning and found guilty. Sentence will be given on September 1. Meanwhile Daly is on parole.

In a stirring appeal on the prisoner's behalf, Ald. Jacobs said that Daly was a man interested in missionary work in Montreal, and well known to several prominent members of the Bar. He was positive that Daly was a sufferer from absent-mindedness and had so committed the theft. The Court accepted Ald. Jacob's plea and permitted Daly to go on parole.

Judge Decarie recognized Daly as being interested in an anti-cigarette campaign now in progress. He gave advice to Daly, telling him to forget all about such campaigns and find steady work, otherwise his present mode of life would either lead him to the asylum or the penitentiary.

FINED FOR BET TAKING.

Harry Barnas, of the Blue Bird Barber Shop, 321 Bleury street, was fined $50 and costs by Judge Lanctot yesterday afternoon for conducting a betting house. Captain Kavanagh of number five station was the complainant and alleged that Barnas took bets on horse races. George Gray, clerk, of 181 Bleury street was arrested yesterday afternoon by Captain Kavanagh on a similar charge.

DR. J. J. O'NEILL COMES TO McGILL

Dr. J. J. O'Neill has been appointed part-time Acting Assistant-Professor of Geology at McGill University for next session, during the absence of Dr. J. A. Bancroft, who at the close of this session was granted a year's leave from the university. Dr. O'Neill graduated with distinction from McGill with the degree of Bachelor of Science in 1909. In 1910 he received the M.Sc. degree of Alma Mater and in 1912 that of Doctor of Philosophy from Yale University.

He has since held an important post in the Geological Survey and carried on successful work in connection with ore deposits in British Columbia. Two years ago he accepted a post to investigate oil deposits in the Himalaya Mountains in India and was successful in making three locations which have since been worked. He is at present carrying on investigations in the Mackenzie oilfields, but will return in time to enter upon his new duties at McGill in October.

MARKED DECLINE IN IMMIGRATION IN MAY AND JUNE

Gov't Restrictions are Keeping Out Many Prospective Settlers

MUST HAVE MONEY

Local Steamship Companies Report Very Light Bookings

Although figures supplied yesterday by the Immigration Department at Ottawa indicate an increase in immigration to Canada during the fiscal year ended March 31, and also in April, local shipping companies report a marked falling off in immigrant traffic to Canada from both the British Isles and the Continent during the last two months. All classes of passenger traffic, both east and west bound, are said to be considerably lighter than was the case last year.

The Government immigration restrictions, especially the clause requiring all immigrants to show the sum of $250 in their possession, are undoubtedly having the effect of discouraging much potential imigration and another factor making for lighter third class westbound bookings is the quota system introduced by the United States Government which restricts the number of immigrants from each country to a certain number per month. As many immigrants to the United States normally travel by Canadian steamship lines this restriction is having a marked effect upon the local services connecting with European ports.

It was at first thought by the shipping companies that the American quota restriction would have the effect of diverting the surplus settlers to Canada, but owing to the more stringent individual tests imposed by the Canadian immigration authorities this has not been the case.

A remarkable feature of the existing situation is that more passengers are being carried on east bound sailings from Montreal than on west bound trips to this port, thus reversing the usual condition at this time of the year, when immigration is normally at its heaviest. The comparatively heavy east bound traffic, however, is not unusual as this is the favorite period chosen by those paying a summer visit to the Old Country.

While proceeding down the river to load fuel oil at the Imperial Oil Company's wharf at 7 o'clock this morning, the American steamship Wathena, loaded with a cargo of grain for Danish ports, ran aground on a mud bank off Longue Pointe, and is held so firmly in the mud that it will be necessary to lighten a considerable portion of her cargo in order to refloat her.

The Wathena for whom the Robert Reford Company are the local agents, is the second freighter to run aground in the river within the past few weeks, the first having been the Canadian Seigneur, of the Canadian Government Merchant Marine, which was successfully refloated some days ago. The Wathena is a freighter of 3,744 tons nett, registered in Boston U.S.A., and commanded by Captain J. C. Anderson. It is not yet known whether she has suffered any damage in stranding, but an inspection by Captain Isles of the Reford Company this morning revealed the fact that she is hard aground. Captain Isles, accompanied by Mechanical Superintendent Gendron, of the Harbor Commission, is making a further inspection of the stranded vessel this afternoon, with a view to deciding what steps are needed to refloat her.

IMMIGRANT HOTEL.

CHERBOURG, June 15.—The Cunard and White Star steamship lines are erecting a huge hotel here. The building will accommodate 2,500 persons. The construction of the hotel is due to the fact that owing to the new immigration regulations enforced by the United States many third class passengers are left behind here at each sailing.

Two hundred of these passengers were left at Cherbourg today, when the Captain of the Olympic refused to accept them for transportation to the United States, declaring that they had not complied with the new regulations. These passengers now must await the sailing of the steamer Adriatic June 22.

TROUBLE ON NORWEGIAN SHIP.

A dispute necessitating the intervention of the Harbor Police has occurred between the captain of the Norweigan steamer Henrik Lund, now loading grain at shed 13 for Cork, Ireland, and Spanish members of his crew. The men claim they have a grievance, though just what the grievance is, is not yet clear, and the captain refuses to allow the Spaniards ashore. The latter have communicated with the Spanish consul here, and meanwhile constables of the Harbor Police are guarding the vessel to prevent the crew from going ashore against the captain's orders, although the sailors declare that if they do not speedily obtain redress they will get ashore by swimming.

The Henrik Lund is being loaded here by the Canada Steamship Lines.

METAGAMA SAILS.

Carrying 550 cabin passengers, a capacity list, but a comparatively light steerage third class list, the C.P.R. liner Metagama sailed for Liverpool at 11 o'clock this morning. Among the Metagama's cabin passengers were the members of the Canadian Bisley team, who departed without any official send-off, the customary military band being absent when the ship pulled out of her berth. Major-General E. W. Wilson, C.M.G., president of the Dominion Rifle Association, was on hand, however, to bid farewell to the team.

The Metagama carried some distinguished passengers, including Lady Constance Stewart Richardson, the well-known society dancer and Sir Robert Falconer, president of the University of Toronto, together with a large number of American tourists who are making personally conducted tours of Europe. At least one June bride and groom were among the big liner's passengers, the happy couple arriving fresh from the ceremony and mounting the gangway accompanied by showers of confetti and well wishes from a large wedding party which gathered to see them off.

BRAMSONS

"Yellow" Taxicab Service

Succeeds on Organized Responsibility

One of the vital features of the success of Bramsons Yellow Taxicab Service is its organized responsibility. And it costs Bramsons many thousands of dollars a year.

Organized responsibility means the ability to maintain a perfect organization—the ability to meet all moral and actual obligations—it means financial responsibility for those who have claims against us.

It means a system whereby Bramsons Yellow Taxicabs are operated to suit public convenience and public whims, whereby they are systematically kept in good condition to conserve public comfort and safety.

It means a trained corps of men who do nothing but keep Bramsons Yellow Taxicabs healthy and clean; it means to see that every detail of equipment is preserved as it should be; it means that the instant the streets become slippy, safety chains are attached to the wheels.

It means the employment of men of known standing and capacity, men who are sober and reliable and who have been since boyhood; it means careful personal investigation of their records and physical history in order to obviate possibility of bad effect on their driving or control.

It means taking such excellent care of these men and making their life so cheerful that their minds will be free from worry and they will, therefore, give you, and us, the very best there is in them. It means a system of garages and stations in all parts of Montreal; a corps of inspectors and dispatchers to preserve order, equipment and morale, to observe and see to it that the public is given the kind of service it wants.

Only by organized responsibility can any taxicab company hope to give the public the ease of mind, contentment and satisfaction it has a right to expect and demand.

The organized responsibility of Bramsons Yellow Taxicab Service has put it so far in advance of all other taxicab companies in Canada, that comparison is out of the question.

JAPAN AND U.S. SEEK SETTLEMENT OF ALL PROBLEMS

In Direct Negotiation on Yap, Alien Land, and Other Questions

SHANTUNG ISSUE

Baron Shidehara and Secretary Hughes Conducting Conferences

WASHINGTON, June 16.—(Associated Press). — Direct negotiations have begun between the United States and Japan for the settlement of the questions pending between them.

These include the Island of Yap, the immigration questions, the alien land question and the return of Shantung to China by Japan.

The negotiations are being conducted by Baron Shidehara, the Japanese ambassador and Secretary of State Hughes. The settlement of the Yap question would make unnecessary the consideration of this question by the League of Nations.

It had been expected that the Yap issue would be left to the adjustment of the League Council. Then French Government, in answer to the United States protest against the award of the mandate for the island to Japan, said it would bring the subject before the council. It is understood that the basis for settlement in the negotiation between Ambassador Shidehara and Secretary Hughes will be the internationalization of the cable privileges on the island.

The proposal is to settle the immigration issue on the basis of the complete stoppage of all Japanese coolie immigration with proper protection for Japanese property rights already acquired in the United States.

SHANTUNG ISSUE.

Japan's promise to return Shantung to China it is said is to be executed as soon as practicable and without reference of the question to any European tribunal. The initial steps have been taken for the evacuation of the portion of the province held by the Japanese, the military force having been reduced to between three thousand and thirty-five hundred soldiers. Advices from Tokio have said that this force would be withdrawn as soon as China provided guards for the railroad and property in the towns.

Japan, it is stated, will retain only such privilege in the province as are common to the other nations, such as a portion of the International compound, which China is to be required to establish at the port of Tsingtau on the Bay of Kiao-Chou. Japan, it is explained, never has taken over all of the railroad properties formerly operated by the Germans in Shantung, confining her claims to that portion of the railroad from Tsingtau to Tsinan-Fu, and leaving the important line crossing the province at the latter junction in the hands of the former operatives, under the nominal control of the Chinese Government. It is proposed that Japan operate the Tsinan-Fu-Tsingtau branch jointly with the Chinese.

IN MEMORIAM.

McGONNIGAL — In loving memory of my dear brother, Gordon, of the 24th Batt., killed in action, June 16, 1916. Ever remembered by his sister Alexandra.

NOSEWORTHY—In loving memory of our dear daughter, Gertie Sheppard, died June 16, 1913. How we miss her smiling face. Inserted by her mother and father.

NOSEWORTHY—In loving memory of my dear sister Gertie, who died June 16, 1918. As years roll on still memory never fades. Inserted by her brother Allan.

UDEN—In loving memory of Ethel Gertrude Parr, wife of Reginald Uden, who died on June 16th, 1919. Inserted by Mother, Dad, Alice and Flo.

WATSON—In fond and loving memory of my dear father, Robinson Watson, who passed peacefully away at Knowlton, Que., June 5, 1920. Ever remembered by his son James.

ANNIVERSARY MASS.

CLANCY—Anniversary High Mass will be said at Oka, Friday, June 17th, at 7:30 a.m., by the Rev. Fathers of the Trappist Monastry, for the repose of the soul of Mrs. Patrick Clancy, who departed this life June 17, 1911.—R.I.P.

GLENGARRY HONORS ITS MILITARY DEAD

People Hear Sir George Foster on Community's War Record

ALEXANDRIA, Ont., June 16. — The County of Glengarry honored 173 of its soldier dead by holding a great memorial day here yesterday, when citizens of that township and surrounding parishes gathered together to hear speeches from Sir George Foster and Premier E. C. Drury of the Ontario Government.

Both of the speakers dwelt upon the fine historical record of Glengarry County from its earliest days, and directed attention to the necessity at this time of securing an enduring peace by the establishment of good relations, more especially betwixt Anglo-Saxon peoples.

There was a splendid demonstration given by the cadets of the Royal Military College, Kingston, in physical drill and in horsemanship, which proved ample compensation, added to which was the musical repertoire furnished by the band of the Royal Canadian Horse Artillery and by the pipers of the 154th Battalion. In command of the cadets was Major-General Sir Archibald Cameron Macdonell, K.C.B., D.S.O., and in charge of the men was Capt. H. F. Bray, with Drill Instructor Lieut. S. C. Cutbush.

LADY FOSTER THERE.

Lady Foster was present, and there were also on the platform in the driving park J. A. Macdonell Greenfield), acting as chairman; J. Wilfred Kennedy, federal member of Parliament for the county; D. A. Ross, M.L.A.; E. I. Tarlton, John A. McCrae, Mayor I. Simon and several ladies.

Replying to this address, Sir George Foster paid tribute to the heroes of Glengarry and elsewhere who had taken part in that chapter of the history of the world "than which none had been more important, more freighted with great issues and more productive of great results." Men and women of Glengarry in those troublesome years, 1914-1918, had shown, as descendants of their forefathers, that they had lost none of the spirit of self-sacrifice, the fibre and the courage which marked their forerunners in the settlement of this country. To those who were present yesterday, said Sir George, the memory of the 173 men who had left their homes to fight the battle of freedom, justice and right would be sacred."

COLLIER MAY GO TO JAPAN.

WASHINGTON, June 16. — The appointment of William Miller Collier, president of George Washington University, as ambassador to Japan, is under consideration at the White House and State Department, it was learned authoritatively yesterday.
