HALFBREED CLAIMS

QUESTIONS IN THE SENATE AND HOW THEY WERE ANSWERED

OTTAWA, June 3.—In the Senate, yesterday afternoon, Hon. Mr. Trudel enquired whether the Government had, between the 1st January, 1879, and the 1st March, 1885, received from various persons taking special interest in the affairs of the Northwest, and particularly from Monseigneur Grandin, Bishop of St. Albert, Monseigneur Taché, Archbishop of St. Boniface, and the Hon. Mr. Royal, member of parliament for Provencher verbal or written representations and frequent claims respecting the claims of the halfbreeds in the Northwest.

Sir Alexander Campbell said the Government has received between the 1st of January, 1879, and the 1st of March, 1885, from various persons taking special interest in the Northwest and among others from Mgr Grandin, Bishop of St. Albert, and Mgr Taché Archbishop of St. Boniface, written representations respecting the position of the halfbreeds of the Northwest, and the best way of ameliorating it. There is no record of any written representations from Hon. Mr. Royal M. P., member for the county of Provencher. No records of any verbal representations exist.

Hon. Mr. Alexander pointed out that on Thursday and Friday Sir David Macpherson and Sir Alexander Campbell had stated that no such correspondence existed. The admission just made was a most extraordinary one.

Hon. Mr. Trudel enquired whether the Government had not been informed that its surveyors in their surveying operations had entered upon farms possessed by the halfbreeds, had committed depredations thereon, had damaged the crops thereon, had cut or thrown open fences thereon, and had divided the properties of the halfbreeds, without their permission and against their orders to the contrary, in a manner quite different from that in which the said properties were formerly divided, often dividing the lands in such a manner as to leave a house on one lot and its outbuildings on another.

Sir Alexander Campbell replied: The Government has not been informed that surveyors in their surveying operations had committed depredations upon farms occupied by halfbreeds, nor that they had damaged the crops thereon, nor that they had cut or thrown down the fences thereon, nor has the Government any reason to believe that anything of the sort occurred.

IRISH ROYAL RESIDENCE.

ARDBRACCOAN PALACE CHosen FOR THE NEW COURT.

LONDON, June 4.—Among the measures to be introduced in the House of Commons is a bill to provide the necessary funds to establish a royal residence in Ireland. The scheme is one of the results of the visit to Ireland last April of the Prince and Princess of Wales and their eldest son. The estate which it is intended to buy is that of Ardbracon Palace, a celebrated showy place beautifully located at Cavan, County Meath, between the rivers Boyne and Blackwater and near their confluence. The plan is to make this the residence, during part of the year, of Prince Albert Victor, where he will establish a court for the personal representative of the Queen. It is whispered also that the plan includes the appointment of Prince Albert as Viceroy of Ireland as soon as his father shall succeed to the throne, although this is not publicly mentioned, it being premature to discuss the subject while the Queen is alive. The project to create a royal residence in Ireland is, however, destined to meet with opposition from an unexpected quarter. It was believed that it would be attractive to all Irish men, because it would tend to stimulate trade and to a formal recognition of Ireland's increased importance. The Parnellites, however, have determined to oppose it, saying that they have more than enough of Viceroyal pageantry already in Earl Spencer's Court at Dublin castle. They have been seeking for years to abolish that semi royal institution, and now they strongly object to the establishment of another court for the exclusive benefit of the Orange gentry of Ulster. The Parnellites have determined to discuss the measure as fully as parliamentary rules will allow, partly for the sake of ventilating the subject, and partly on the general principle of delaying all legislation to defeat the Crimes Act. But there is no doubt that the Government will win, when it comes to a division, as easily as it did on the subject of Princess Beatrice's dowry.

THE PANTHEON

The Pantheon, or strictly speaking the Church of Saint Genevieve, and secularization of which has just been decreed by the French Chambers, is an edifice noted quite as much for its repeated change of character as for architectural beauty or the noted events associated with it. Since its completion, in 1771, it has been occupied forty one years as a church and fifty three years as a Pantheon, or place of sepulture for illustrious Frenchmen. Designed as a church in honor of Saint Genevieve, the patron saint of Paris, it was solemnly completed when it was dedicated as a Pantheon. In 1822 it became a church; in 1831, under Louis Philippe, it resumed its original character, and in 1853 it was restored to religious purposes.

SPIRIT "MANIFESTATIONS."

Mr. Maskelyne, the well known English inventor of mechanical toys, automata, etc., who is also an investigator of spiritualism, says: "After my twenty years' experience in investigating spiritualism, I have never seen anything take place which I could not reproduce and account for except the gyrations of a table on two occasions. On one of these, without the presence of a medium, by myself and a few friends, we produced movements of the table—a heavy one—which we could not accomplish afterward by exerting all the muscular force at our command."

THE bewildering announcement is made in French newspapers that "...at the church of St. Martin, in the environs of London, took place the marriage of Mme Gladys, Duchess Dowager of Londesdale, to Milor Robinson, Comte de Grey. The bride belongs to the highest and most ancient nobility of England, and is the sister of the Comte of Pembroke Wilton. The bridegroom, on the contrary, is the eldest son of that Marquis de Ripoy who was the first of the Nabobs to be ennobled by her Britannic Majesty. There never has been but one French man able to "get the hang" of the British poorage; and he is dead.

ANALYSIS OF JOHN LABATT'S

CELEBRATED ALE AND PORTER OF LONDON, ONTARIO,

—BY—

Rev. P. J. E. Page, Professor of Chemistry, Laval University

QUEBEC, 4th May, 1885

I have analysed the India Pale Ale manufactured by JOHN LABATT, London, Ontario, bottled by N. Y. MONTREUIL, Quebec. I have found it a light Ale, containing but little alcohol, of a delicious flavor, and of a very agreeable taste and Superior Quality, and compares with the best Imported English or American Ales.

I have also analysed the Porter, XXX Stout, of the same Brewery, which is of Excellent Quality; its flavor is very agreeable; it is a tonic more energetic than the above Ale, for it is a little richer in alcohol and can be compared advantageously with any imported article.

These Ales and Porter of John Labatt, of London, Ontario, are manufactured with the best quality Malt and Hops and they do not contain any unhealthy ingredients.

ADVERTISERS IN ENGLAND or those of the Dominion will find a complete list of the Mercury from 1845 in the Reading Room of the British Museum, Great Russell Street, W.C., London, England.

QUEBEC DAILY MERCURY FRIDAY EVENING, JUNE 5.

THE Marquis of Lorne has accepted the offer of the Presidency of the Royal Geographical Society on the retirement of Lord Aberdeen this month.

A COMPLETE RECONCILIATION was effected among the Ministers regarding the Irish Crimes Act. Mr Childers is suffering from diabetes and his retirement is inevitable.

GENERAL LORD ALEXANDER RUSSELL is displeased at the Home Government leaving him so long with such a small command, and one reason of his recent visit to England was to get Halifax garrison augmented by another regiment. He has hopes of getting the Black Watch. Why not let this fine regiment come to Quebec?

BIG BEAR has, it is reported, five hundred warriors with him, a great many of whom are accustomed to fighting, having been engaged in the campaigns in the United States. The United forces of Generals Middleton and Strange number about 1400, every man of whom has fought in the late battles, and some of whom, such as the 90th, Boulton's Horse, French's scouts Battery A of Quebec, and the Winnipeg Field Battery have fought in every battle with the Metis and have won confidence in their own powers.

ADMINISTRATOR APPOINTED.

During Lieut Governor Masson's absence in Europe, Sir Narcisse Belleau, K.C.M.G., will be the Administrator and will be sworn in on Saturday the 13th instant.

THE CITADEL GARRISON.

The Quebec Field Battery was relieved from duty at the Citadel this afternoon and replaced by No 1 Battery Lewis Artillery under Major Hamel.

THE BROKEN CABLE

It has been found that the new Grosvenor cable was badly damaged by ice this spring and that over a mile of it at St Francois was carried away. The break having been now definitely located, repairs are in active progress and it is hoped to have the line better secured and in working order in a few days.

NEW LUMBER MARKET

One of our largest timber shipping firms is this season forwarding a good deal of lumber to Lisbon, Valencia, and other Spanish ports. The firm are reported to have made pretty fair sales in that direction last winter. This is a new market opening up to the Quebec trade.

DESTRUCTIVE FIRE.

News has reached town of the total destruction by fire of the extensive print and carding mills at St Anselme, Lechevalier County, the property of Mr N Larochelle, ex M P P. The total loss is reported at \$20,000, uninsured.

SAVE THOSE FLOWERS!

The City might save those few flowers in the Ring and the lilacs in the lower Castle Garden by the judicious placing of a few yards of spiked wire fencing on the fence of the former and around the tree stems of the latter as a warning to the rich and poor appropriators of our very few flowers. We see no other remedy.

OBITUARY.

Mr Peter Sinclair died yesterday in Montreal, aged 68 years. Mr Sinclair, who was many years clerk in the Mercury office, was long and favorably known in this city, where afterward for twenty three years he conducted a large business as bookseller and stationer. He was respected and lamented by a large circle of acquaintances and leaves a widow and a family to mourn his loss. The remains will be brought to Quebec for interment from the Richelieu wharf on arrival of the boat tomorrow morning.

Big Bear Flees North

News From the Expedition Sent Against Him.

[With our Correspondence]

HERCHMER'S CAMP, June 1.—This column, consisting of 220 cavalry, made up of 60 Boulton's Scouts, 60 Dennis's Surveyor's Corp., 50 Birle Bank (late French's) scouts, and 50 Mounted Police, all under command of Captain Herchmer, left Battleford, on Sunday morning, to operate with the infantry going by steamer against Big Bear. The trail taken is called the south one, and leads along the south side of the North Saskatchewan River, a couple of miles from the bank. Although encumbered with fourteen waggons conveying supplies, and going over a difficult country, with great coulees at intervals, the column made 42 miles by sundown, when we encamped. As the column had to get over about ninety miles in two days very little baggage was brought, and we had to camp in the open air amid pouring rain with scarcely any tents. A wretched night was spent, few getting any sleep, and we were glad to resume our march at the first sign of dawn at 3 o'clock on Monday morning. We rode forty five miles yesterday, having early in the afternoon left the trail which leads away from the river as it goes west, and struck off to the right, reaching a point within a few miles of

THE SPOT ON THE RIVER.

appointed as the rendezvous with the column going by the steamer. Early this morning we broke camp and arrived at the bank of the river, which at this place is very high. We found the steamer lying out in the river below, awaiting us with General Middleton's column. The steamer will ferry the cavalry across the river to a point about three miles southwest of the camp of Big Bear's Indians. Scouts who left Fort Pitt yesterday report that General Strange has 400 men a couple of miles west of

BIG BEAR'S CAMP

Fifty men were left to hold Fort Pitt. The scouts confirm the report that a shell from one of our guns during the engagement on Thursday last killed an Indian who was bearing a flag of truce from the camp of the enemy. An engagement is possible today or tomorrow, but negotiations will probably be opened with Big Bear on account of the prisoners whom he holds.

Later—a scout has just come in with the news that Big Bear has broken camp and gone north.

RIEL'S PRICE FOR KEEPING QUIET.

WINNIPEG, June 4.—Mr McDonnell, a member of the Northwest Council for the Prince Albert district in this city, confirms the statement telegraphed yesterday, that Riel offered to accept a sum of money from the Dominion Government to leave the country and says he himself telegraphed to Sir John Macdonald and Lieut. Governor Dewdney. It might be added that Riel told Father Andree that Sir John promised him thirty five thousand dollars in 1870 and only gave him four thousand.

THEIR OCCUPATION GONE.

As nearly the whole spring fleet is composed of Norwegian vessels, or English vessels under the Norway flag, and manned by seamen of that nationality, boarding housekeepers and marine grog sellers generally are having a bad deal this season, and their occupation is literally almost gone. The Norwegian jack does not as a rule, run away from his ship, neither does he recklessly squander his money on shore. The dance and jig rooms, boarding houses and taverns along the Cul-de-Sac and cove, which at this time in past seasons were teeming with seamen, are this year almost deserted.

INSPECTION OF THE FIRE BRIGADE

The men of the Fire Brigade turned out yesterday afternoon on the Esplanade in their new uniform, and with all the summer vehicles old and new, neatly painted and cleaned up. Men, horses and vehicles all presented a very creditable appearance. Mayor Langelier addressed a few complimentary remarks to the men.

CUSTOMS COLLECTIONS

Duties collected at the Custom House today amounted to \$1320.58.

A PRACTICAL FARMER.

A farmer in Central Illinois has just taken into his employ a hand at \$15 a month, who had in his possession a Bank of England draft for £500. The man is a young Scotch gentleman who wants to learn practical farming. His father, a wealthy Scotchman, has recently invested \$1,500,000 in American land, and is one of a syndicate of foreign capitalists who own 346,000 acres of valuable land on this side of the Atlantic. The young man's name is Thomas Tate. His parents reside near Edinburgh, Scotland, and they expect him to qualify himself in about two years, and take charge of one of his father's farms, consisting of 100,000 acres of land in southwest Missouri.

A SKILFUL SURGICAL OPERATION

The American Ambassador at Vienna, Mr. Kasson, has lately forwarded to his Government an interesting account of a remarkable surgical operation lately performed by Professor Billroth, of Vienna, which, wonderful to tell, consisted in the removal of a portion of the human stomach, involving nearly one-third of the organ—and, strange to say, the patient recovered—the only successful operation of the kind ever performed. The disease for which this operation was performed was cancer of the stomach, attended with the following symptoms:—The appetite is quite poor. There is a peculiar indescribable distress in the stomach, a feeling that has been described as a faint "all gone" sensation; a sticky slime collects about the teeth, especially in the morning, accompanied by an unpleasant taste. Food fails to satisfy this peculiar faint sensation; but, on the contrary, it appears to aggravate the feeling. The eyes are sunken, tinged with yellow; the hands and feet become cold and sticky—a cold perspiration. The sufferers feel tired all the time, and sleep does not seem to give rest. After a time the patient becomes nervous and irritable, gloomy, his mind filled with evil forebodings. When rising suddenly from a recumbent position there is a dizziness, a whistling sensation, and he is obliged to grasp something firm to keep him from falling. The bowels become thick and dry at times; the blood becoming thick and stagnant, and does not circulate properly. After a time the patient spits up food soon after eating, sometimes in a sour and fermented condition, sometimes sweetish to the taste. Oftentimes there is a palpitation of the heart, and the patient fears he may have heart disease. Towards the last the patient is unable to retain any food whatever, as the opening in the intestines becomes close, or nearly so. Although this disease is indeed alarming, sufferers with the above-named symptoms should not feel nervous, for nine hundred and ninety-nine cases out of a thousand have no cancer, but simply dyspepsia, a disease easily removed if treated in a proper manner. The safest and best remedy for the disease is Seigel's Curative Syrup, a vegetable preparation sold by all chemists and medicine vendors throughout the world, and by the proprietors, A. J. White (Limited), 17, Farringdon Road, London, E.C. This Syrup strikes at the very foundation of the disease, and drives it, root and branch, out of the system.

St. Mary street, Peterborough, November 29th, 1881.

Sir,—It gives me great pleasure to inform you of the benefit I have received from Seigel's Syrup. I have been troubled for years with dyspepsia; but after a few doses of the Syrup, I found relief, and after taking two bottles of it I feel quite cured. I am, Sir, yours truly, Mr. A. J. White. William Brent.

September 8th, 1883.

Dear Sir,—I find the sale of Seigel's Syrup steadily increasing. All who have tried it speak very highly of its medicinal virtues; one customer describes it as a "Godsend to dyspeptic people." I always recommend it with confidence.

Faithfully yours, (Signed) Vincent A. Wells, Chemist-Dentist, Merthyr Tydvil. To Mr A J White.

Seigel's Operating Pills are the best family physic that has ever been discovered. They cleanse the bowels from all irritating substances, and leave them in a healthy condition. They cure constipation.

Preston, Sept 21st, 1883.

My Dear Sir,—Your Syrup and Pills are still very popular with my customers, many saying they are the best family medicine possible. The other day a customer came for two bottles of Syrup and said "Mother Seigel" had saved the life of his wife, and he added, "One of these bottles I am sending fifteen miles away to a friend who is very ill. I have much faith in it."

The sale keeps up wonderfully, in fact, one would almost fancy that the people were beginning to breakfast, dine and sup on Mother Seigel's Syrup, the demand is so constant and the satisfaction so great.

I am, dear Sir, yours faithfully, (Signed) W Bowker. To A J White, Esq.

Spanish Town, Jamaica, West Indies, Oct 24, 1882.

Dear Sir—I write to inform you that I have derived great benefit from "Seigel's Syrup." For some years I have suffered from liver complaint, with its many and varied concomitant evils, so that my life was a perpetual misery. Twelve months ago I was induced to try Seigel's Syrup and although rather sceptical, having tried so many reputed infallible remedies, I determined to give it at least a fair trial. In two or three days I felt considerably better, and now at the end of twelve months (having continued taking it) I am glad to say that I am a different being altogether. It is said of certain

pens that they "come as a boon and a blessing to men" and I have no reason to doubt the truthfulness of the statement I can truly say, however, that Seigel's Syrup has come as a "boon and a blessing" to me. I have recommended it to several fellow-sufferers from this distressing complaint, and their testimony is quite in accordance with my own. Gratitude for the benefit I have derived from the excellent preparation, prompts me to furnish you with this unsolicited testimonial. I am, dear Sir, Yours ever gratefully, (Signed) Carey B Berry, A J White, Esq. Baptist Missionary.

Hensingham, Whitehaven, Oct 16, 1882.

Mr A J White—Dear Sir,—I was for some time afflicted with piles, and was advised to give Mother Seigel's Syrup a trial, which I did. I am now happy to state that it has restored me to complete health—I remain yours, respectfully, (Signed) John H Lightfoot.

LATEST CABLE NEWS.

Gladstone Announces a Complete Understanding with Russia.

Death of Sir Julius Benedict the Composer.

Germany's Commercial Relations with America.

The Recent Fearful Earthquake in the Vale of Cashmere.

London, June 5—Gladstone, in the House of Commons this afternoon, stated that Russia and England had come to an agreement concerning the points of difference between them which were to be referred to arbitration.

English Politics. London, June 5—The Pall Mall Gazette says it cannot believe that Dilke and Chamberlain will face the odium of causing a disruption of the Cabinet on the eve of a general election.

The Great Indian Earthquake. Serinagour, June 5—Eighty-seven persons were killed and one hundred wounded here in the earthquake of Sunday and Monday. Official reports have not been received from other points and the full extent of the calamity is not yet known.

London, June 5—The unofficial reports of the earthquake in Cashmere are of such an alarming character as to make it more than likely the earthquake was more disastrous than the first despatches indicated. Whole cities and towns are reported to have been destroyed.

Death of an Eminent Musician. London, June 5—Sir Julius Benedict, musician and composer, is dead. Sir Julius Benedict had so far recovered from his recent illness as to be able to resume the duties of his profession and to make preparations for the annual concert. His death came entirely unexpectedly and followed quickly upon a sudden relapse.

The Egyptian Question. Paris, June 5—The Republique Francaise, in what seems to be an inspired editorial, says France demands that the equal rights of all European powers in Egypt be recognized and secured, so that no powers shall be able to interfere alone.

Germany and America. Berlin, June 5—The new U.S. Consul has undertaken the task of revivifying the commercial relations of Germany and America. He believes there will be no difficulty in removing the points of difference between the two countries.

The Turf. London, June 5—The Oak Stakes at Epsom today was won by Lord Cadogan's Lonely; St Helena second and Cipilona third. Archer rode the winner.

Gran's Condition. By telegraph to The Mercury. New York, June 5—General Grant passed a comfortable night.

The first carload of cherries ever shipped from California to an Eastern market was despatched last week. Eight tons of cherries were put up in small baskets of five pounds each, and these put into crates of four baskets and eight baskets. The crates are open so that the air passes on all sides.

OTTAWA HAPPENINGS.

Lady Lansdowne to go to England. Ottawa, June 5—Lady Lansdowne will likely leave for England next week.

Mr Howell has returned from the annual meeting of the Grand Orange Lodge in Cornwall.

Lieut Governor Wilnot of New Brunswick, is in the city.

The Lieut Governor of Quebec has obtained six months leave of absence, and will be succeeded by Sir N F Bollenau.

Ten cases of medical stores, donated by Her Royal Highness the Princess Louise to the Northwest volunteers, have arrived here and been transferred to the Surgeon General for distribution.

It seems that some of Sir John A. Macdonald's pets in the State Department have entered into a little conspiracy to get Mr Grant Powell, the present Under Secretary of State, superannuated, in order that a certain Tory wire puller and sycophant may be raised to the rank of Deputy Minister. Several members of Parliament were induced to sign a paper asking for Mr Powell's superannuation—it having been represented to them that Mr Powell desired to retire. The deception has been exposed.

Lord Elphinstone, who was one of the promoters of the Northwest Land Company, is now on his way to England from a visit to Australia and New Zealand. He compares Canada as a field for settlement with these semi tropical countries very much to the advantage of the former. He thinks the climate of Australia has a most enervating effect upon Europeans while that of Canada is adapted to produce men of every fine type, both physically and mentally. Nowhere in Australia and New Zealand did he find such a region of cultivable wheat growing land as there is between Winnipeg and the Rocky Mountains.

The Late Victor Hugo. Victor Hugo wished at one time to purchase the house in which he lived, but the owner, the Princess de Lusignan, asked too big a price. "Seven hundred and fifty thousand francs!" exclaimed the poet. "It's cheap at that," replied the princess, "just think—that little hotel has had the incomparable honour of housing Victor Hugo." The tenant answered with a smile, "My dear madam, I am not rich enough to live where Victor Hugo has resided," and he immediately bought a lot near by, where he was about to erect a new house when he died.

DOINGS IN MONTREAL.

Church of England Diocese—C P & Traffic Receipts—Other News. Montreal, June 5—The cost of moving the ice this season to the harbor commissioners has amounted to between ten and eleven thousand dollars. The usual cost of spring clearing generally approaches \$2,000.

At the meeting of the Executive Committee of the Church of England of the diocese of Montreal the report showed that the subscriptions to the mission fund had somewhat fallen off this year, and in consequence it was recommended that the grants in most cases be reduced to ten per cent. Archdeacon Lonsdell, of St Andrew's, owing to infirmity, has been allowed to retire retaining his position as rector.

The stock market is about the same as yesterday, steady with very little doing.

Returns of traffic on the Canadian Pacific Railway from May 24th to 31st, have just been posted as follows:—1885, \$214,000, and corresponding week of 1884, \$187,000, showing an increase of \$27,000.

HALL'S Vegetable Sicilian HAIR RENEWER was the first preparation perfectly adapted to cure diseases of the scalp, and the first successful restorer of faded or gray hair to its natural color, growth, and youthful beauty. It has had many imitators, but none have so fully met all the requirements needful for the proper treatment of the hair and scalp. HALL'S HAIR RENEWER has steadily grown in favor, and spread its fame and usefulness to every quarter of the globe. Its unparalleled success can be attributed to but one cause: the entire fulfillment of its promises. The proprietors have often been surprised at the receipt of orders from remote countries, where they had never made an effort for its introduction. The use for a short time of HALL'S HAIR RENEWER wonderfully improves the personal appearance. It cleanses the scalp from all impurities, cures all humors, fever, and dryness, and thus prevents baldness. It stimulates the weakened glands, and enables them to push forward a new and vigorous growth. The effects of this article are not transient, like those of alcoholic preparations, but remain a long time, which makes its use a matter of economy.

AYER'S Hair Vigor restores, with the gloss and freshness of youth, faded or gray hair to a natural, rich brown color, or deep black, as may be desired. By its use light or red hair may be darkened, thin hair thickened, and baldness often, though not always, cured. It checks falling of the hair, and stimulates a weak and sickly growth to vigor. It prevents and cures scurf and dandruff, and heals nearly every disease peculiar to the scalp. As a Ladies' Hair Dressing, the Vigor is unequalled; it contains neither oil nor dye, renders the hair soft, glossy, and silken in appearance, and imparts a delicate, agreeable, and lasting perfume. Mrs. C. P. BRIGHER writes from Kirby, O., July 3, 1885: "Last fall my hair commenced falling out, and in a short time I became nearly bald. I used part of a bottle of AYER'S HAIR VIGOR, which stopped the falling of the hair, and started a new growth. I have now a full head of hair growing vigorously, and am convinced that but for the use of your preparation I should have been entirely bald."

J. W. BOWEN, proprietor of the McArthur (Ohio) Enquirer, says: "AYER'S HAIR VIGOR is a most excellent preparation for the hair. I speak of it from my own experience. Its use promotes the growth of new hair, and makes it glossy and soft. The Vigor is also a sure cure for dandruff. Not within my knowledge has the preparation ever failed to give entire satisfaction." MR. ANGUS FAIRBAIN, leader of the celebrated "Fairbairn Family" of Scottish Vocalists, writes from Boston, Mass., Feb. 5, 1885: "Ever since my hair began to give every evidence of the change which foreshadowed time, I have used AYER'S HAIR VIGOR, and so have been able to maintain an appearance of youthfulness - a matter of considerable consequence to ministers, orators, actors, and in fact every one who lives in the eyes of the public." Mrs. O. A. FRESCOTT, writing from 18 Elm St., Charleston, Mass., April 14, 1882, says: "Two years ago about two-thirds of my hair came off. It thinned very rapidly, and I was fast growing bald. On using AYER'S HAIR VIGOR the falling stopped and a new growth commenced, and in about a month my head was completely covered with short hair. It has continued to grow, and is now as good as before it fell. I regularly used but one bottle of the Vigor, but now use it occasionally as a dressing." We have hundreds of similar testimonials to the efficacy of AYER'S HAIR VIGOR. It needs but a trial to convince the most skeptical of its value. PREPARED BY Dr. J. C. Ayer & Co., Lowell, Mass. Sold by all Druggists.
