

SUCCESSFUL EFFORT TO RECOVER CORPSE

Five Men Risk Their Lives to Secure It, and Succeed.

(Special to the Chronicle.)
Montreal, August 18.—Five men risked their lives in the Lachine Rapids this afternoon for nearly two hours in an effort to recover the body of a drowned man which had lain for the past ten days on an inlet at the foot of the rapids, in such a position that it was impossible to recover it. After great exertions and facing imminent danger of drowning for a long time the rescue party succeeded in getting to shallow broken water near an inlet on which the body lay face downwards. Here they could make no headway, and for a time looked as though their boat would be swamped in the rapids. Capt. Coleman, of the city police force, with Lieut. Hendy, were in charge of the boat with three more men and they at once decided that the only way to reach the island was by wading. The two police officers leaped into the current followed by the rest, and then waded waist deep in the rushing water, towing the boat after them, until they reached the still water in the lee of the rocks. They found the body reported, stretched out on the rocks, where the waves had thrown it nearly two weeks ago. It was more of a skeleton than a body, having evidently been in the water for many months, until little was left but the bones and a few shreds of clothing. There was not a sign of anything left on the remains which could serve for identification and the corpse will probably go to swell the long list of drowned which the St. Lawrence year by year yields up to the morgue authorities here.

NEGROES CLEARED OUT

Knoxville, Tenn., Aug. 18.—Another mining camp near Jellico was cleared of negroes to-day by an armed band. Notices have been served on all negroes within a thirty mile radius to get out in three days, and even Jellico and LaFollette are threatened. It is reported that a cabin has been burned and six negroes cremated.

CALIFORNIA EARTHQUAKES

Eureka, Cal., Aug. 18.—Three sharp earthquake shocks which knocked down more than a hundred chimneys, shattered about forty plate glass windows in the business portion of Eureka, broke many crockery in the houses and sent many people hurrying from their beds into the streets, occurred here early to-day. The damage reported so far, is estimated at between \$2,000 and \$3,000. The first and sharpest shock came at 2.55 a.m. It was almost as severe as the one felt here on April 15th, 1906. At 3.08 another slighter shock was experienced, followed by a third at 5.30 o'clock. The first shock caused practically all the damage. Reports from the Seazy Ranch, near Fresh Water, six miles north, state that the earthquake left a big fissure a half mile long.

GAS POISONING IN LONDON

London, August 18.—The Lancet, which is never happy unless discovering a new danger to humanity, suggests that Londoners are being poisoned by coal gas. At a meeting of one of the metropolitan gas companies recently it was stated that during six months 110,000,000 cubic feet of gas was not accounted for. This colossal leakage, The Lancet declares, is responsible for the fact that, when there is no movement in the air and when a stagnant mist or fog is present, Londoners are found to complain of headache, dizziness and oppression—all three of which symptoms are readily invoked by chronic doses of carbon monoxide present in the gas.

THE HAINS-ANNIS TRAGEDY

New York, August 18.—A predominating figure in the Hains-Annis tragedy to-day is Mrs. Claudia Hains, the attractive young wife of Capt. Peter C. Hains, the attractive young wife of Capt. Peter C. Hains, jr., who on Saturday last shot and killed Wm. E. Ennis. What the attitude of Mrs. C. Hains will be of paramount interest and importance to the lawyer for the Hains brothers and to the District Attorney. Rumors were rife to-day that Mrs. Hains will drop her hostile demeanor toward her husband and would take her place at his side when the trial came. However, these reports came from no authoritative source and Mrs. Hains and her lawyers are keeping silent as to her plans. Captain Hains and his brother will be represented by the most eminent counsel that can be procured. John F. McIntyre, a former assistant district attorney and one of the ablest lawyers at the criminal bar, was retained to-day, and it was said that an effort will be made to get Martin W. Littleton, who defended Harry K. Thaw, to join the defence. Mr. Littleton is now in Europe. An evening newspaper quotes Mr. McIntyre as saying that insanity will be the defence.

THE RACE WAR IN SPRINGFIELD

Is Now Said to be Over—Prompt Action of Governor Deneen.

Springfield, Ill., Aug. 18.—That those in authority believe that the danger of serious trouble in the race war is over was made evident to-night when Governor Deneen issued orders that the First Infantry of Chicago, shall return to that city to-morrow. Following Governor Deneen's proclamation of last night calling on all citizens to aid in restoring order and promoting justice, an enthusiastic meeting of business men was held at the Chamber of Commerce to-day. Resolutions were adopted for the protection of citizens regardless of color or nationality. E. L. Chaping, president of the Business Men's Association, made an address in which he urged the association to aid the authorities in upholding the law and maintaining order. He said the men responsible for the disorder were the sort of men no one would want to trust with as much as a dollar, and who had no real interest in the welfare of the community. To-day's session of the grand jury was devoted to hearing witnesses in the case of the assault of Mrs. Mabel Hallam. George Richardson, the negro whom Mrs. Hallam identified as her assailant, although not positively identified, was indicted. Richardson protests his innocence. The grand jury will meet again to-morrow morning to begin its general investigation into the riots. The only violence reported during the day occurred on North Eighth street. A small crowd of white men and boys set upon a negro and beat him severely. He managed to break away and ran north pursued by his assailants. The roughs had scattered by the time soldiers reached the scene. White miners at the Tuckermans mines, near here, refused to-day to work with the negroes. The two mines employ about 300 men, about 150 of whom are colored. The white miners came to President Clark, of the Springfield sub-district of the United Mine Workers, with the declaration that the negroes were armed, and they did not feel safe in the underground darkness with them. On the other hand it is said that the negroes have armed with no thought of taking initial action, but to protect themselves in event of a repetition of the riot. President Clark said that so far as he knew there had been no clashes between whites and blacks in the mines. "They are just nervous, I guess," commented the organization leader. "Both races belong to the union and the union will see that no serious trouble arises." The determination of Governor Deneen, announced to-day, not to surrender Private Klein who killed a young man at Kankakee in pursuit of his orders to guard the car, has a deeper significance than merely protecting the individual soldier. It is felt that the National Guardsman who has his orders, must not be made to feel that he is running a risk of trouble with the civil authorities if he kills in the discharge of his duty. It was authoritatively stated to-night that the appeal to Governor Deneen and the action of the business men this morning calling on good citizens for information which may lead to the conviction of these guilty of rioting bore quick fruit. A surprising number of persons called on State Attorney Hatch and gave him information which will be of value in guiding the actions of the grand jury.

SHAH SUSPICIOUS OF UNCLE

Teheran, Aug. 18.—Zill-es-Sultan arrived here two days ago from Ispahan, and was received in audience by the Shah. Zill-es-Sultan is an uncle of the Persian ruler. He was formerly Governor-General of Ispahan, from which post he was deposed in March, 1907, and he is a claimant to the throne of Persia.

After his audience Zill-es-Sultan said that he had expressed to the Shah his regret for the sympathies of the late Parliament. He denounced this body as a collection of anarchists, and expressed his full approval of the Shah's course in dispersing it. He also made a vow of perfect loyalty and obedience to the throne.

The Shah received these declarations skeptically and refused to allow Zill-es-Sultan to remain in Persia.

Up to the present time Zill-es-Sultan has been the most prominent leader of the Constitutional party, and its members of this faction are now thoroughly disgusted with his charge of front.

Large quantities of dynamite have been discovered in the Russian Custom House at Julla, and more of the same explosive has been found in the residence of a Russian subject at Resht. It is believed that this dynamite indicates the existence of a plot against the life of the Shah.

The Shah has issued a decree authorizing the appointment of a commission to elaborate the electoral law, so as to provide for a new Parliament which shall consist of a Senate and a Chamber of Deputies.

TRIED TO SWIM ENGLISH CHANNEL

Gave Up When Only a Mile from the Goal on Account of Adverse Tide.

London, Aug. 18.—Of the many attempts to swim the English channel none has come nearer resulting in success than that made yesterday by T. W. Burgess, the blacksmith swimmer. Burgess was compelled to give up his attempt within one mile of Cape Grisnez, on the coast of France, because of the adverse tide. Burgess entered the water at Dover yesterday morning and in spite of the rough sea and the current which carried him miles out of his course, he remained in the water for 20 hours and 11 minutes. He was still strong when he gave up and he climbed the side of the accompanying tug without assistance. It would have been necessary for Burgess to remain in the water another six or seven hours awaiting a turn of the tide to enable him to reach the French shore, so on the advice of friends he gave up the effort. This is the sixth unsuccessful attempt Burgess has made to swim the channel.

COLLIERY EXPLOSION IN ENGLAND

Seventy Miners Entombed—Small Hopes of Saving Them

Wigan, England, Aug. 18.—An explosion occurred to-day in the Maypole coal mine, belonging to Messrs. Pearson and Knowles. The head gear and ventilating apparatus of the mine was destroyed and about 70 of the miners are entombed. Only the smallest hope is entertained of saving the entombed miners. Temporary repairs to the machinery enabled rescue parties to descend into the adjacent workings, only to find their way blocked by wreckage and gas. Three dead miners were found and one terribly mutilated but still alive, and several dead ponies. Four of the miners escaped alive. A number of the rescuers were overcome by the fumes and brought to the surface in an unconscious condition. A frenzied crowd of relatives and friends of the entombed miners surround the pit mouth to-night, anxiously awaiting news.

MURDERED WHILE WITH FIANCEE

New Haven, Conn., Aug. 18.—As George D. Sheehan, 19 years ago, was walking along Barnes avenue last night with his fiancée, Miss Bessie Leads, he was attacked and murdered. Miss Leads escaped by running away, and gave the alarm. Miss Leads told the police she and Sheehan were walking along to catch a trolley car, when they heard a noise, and, thinking it was the car, started to hurry. Then two foreigners appeared in front of them. One threw a pitchfork at Sheehan, which struck him in the face, and the other shot him. Sheehan fell, dying almost instantly. The cause of the attack is not known, but it is said that the melon patches of farmers have been robbed considerably of late, and it is thought the assailants may have taken the couple for marauders. Later two Italians were captured not far from the scene of the tragedy, and are being held at police headquarters by the coroner's order.

MORE PENCE WANTED

London, Aug. 18.—One or two items in the annual report of the Deputy Master and Controller of the Mint are of particular interest. For example, in 1907 there was an unprecedented issue of bronze coins, showing £49,030 worth over the previous year, principally in pence. As an illustration of the effect which the use of automatic machines has had in stimulating this, one of the largest companies owning these machines took from them in twelve months 33,334,571 pennies, or about 316 tons, being an increase of \$5,376 over the takings of the previous twelve months.

According to the report, crimes against His Majesty's mint have fallen off, there being only twenty-two convictions for making counterfeit coin, eleven for possessing moulds and other implements for its manufacture, three for passing genuine coin so that it might pass for coin of a higher denomination, and one for selling counterfeit coin. The number of pieces of base coin found in connection with these prosecutions of the year was 1,053, or about 600 fewer than in the year 1906. Terms of penal servitude amounting in all to 164 years were imposed.

THE C.P.R. STRIKE

Montreal, Aug. 18.—There were a large number of applicants at the labor bureau to fill the vacancies of the striking C.P.R. employees. Among them were many ex-employees who were laid off during the slack times last winter and others were from other Canadian and English railways who were attracted by the higher wages paid by the C.P.R. While no official announcement was made, it was learned that all departments were now running with about two-thirds their usual number of hands which meets all the requirements and enables the company to run all its trains without any interruption whatever. It was learned that the company is expressing a preference for members of the amalgamated society of engineers over those of the international association of machinists in engaging new men.

PREVOST ON TRAIL OF PROV. PREMIER

If Bourassa Fights at Quebec as a Liberal Prevost Will Support Him.

Montreal, Aug. 18.—According to a report in La Presse last evening, Mr. Jean Prevost, Liberal member for Terrebonne County, has once more broken out in a public attack on Premier Gouin. In a speech at Ste. Agathe, after mass on Saturday, the ex-Minister of Colonization said that although he was a frank Liberal, upholding the Government, he was against the Premier because the latter did not represent true national aspirations. The ex-Minister declared that he had been made the victim of all kinds of ingratitude while in the Gouin Cabinet. The knife had been used against him at times when he had thought he was dealing with friends. "The ex-Member for Labelle (Mr. Bourassa)," continued Mr. Prevost, "has attacked Mr. Gouin, Mr. Turgeon and myself. His eloquence moved the province. It caused concern in our ranks. There were those who were in favor of meeting him face to face. Others wanted to ignore him entirely. It was then that Mr. Gouin defended Mr. Turgeon and forgot me. I came alone and defended myself in my county, and after I left the Cabinet I defied anyone to establish the least accusation against my honesty. I proved that my hands were clean. "Premier Gouin abandoned me, but since then I avenged myself by defending him. Last session, as usual, I was one of the champions of his Government. In return I asked the Premier, who had never deigned to visit Terrebonne County, to do it a favor by establishing concurrent jurisdiction at St. Jerome and Ste. Scholastique. Premier Gouin himself opposed the bill to establish this. That was his recompense for the loyal support I had given him. "At the elections, I invited Premier Gouin to come to this county and reply to certain accusations which I had made against him. He did not judge it wise to show himself, but I know how to meet him on the floor of the Legislature. "I will return to the Legislature a Liberal, as I have always been, determined to loyally continue the fight for my party. "I am asked if I will fight by the side of Mr. Bourassa. If Mr. Bourassa proves that his aspirations are frankly Liberal, that his policy is in the true interests of the province, I will be with him. "Mr. Prevost then testified to his pleasant relations with certain members of the Gouin Cabinet. "But as for Mr. Gouin," he continued, "I hope that before six months have passed he will be no longer Premier of the province, but that someone else, who understands our national aspirations better, will have taken his place. "The speaker terminated his speech with the following characteristic statement: "When one is premier he should remember that the province does not only belong to the Cabinet, but to the entire electorate."

FATAL FIRE AT LONDON, ONTARIO

Five Firemen Meet Their Death in a Hardware Store.

London, Ont., August 18.—As a result of the disastrous blaze in the building occupied by the Westman Hardware Company at 121 Dundas street, five brave fire fighters are supposed to have met their death. These are Fire Chief Clark, Firemen Cole, Ferguson, Wynn and Cooper and Sergeant Cockburn, of the R.C.R. regiment, who was assisting the gallant firemen. Fire broke out a few minutes to six and at 6.30 when Chief Clark, observing that the flames were confined chiefly to the basement of the building, ordered his men to invade the first floor with a hose line, and grabbing a portion of the hose near the nozzle he himself led the firemen. But a few seconds afterwards and an awful crash was heard, the second story had fallen. Hardly had this echo died away when there was another crash and the first floor had also caved in. On this floor were the chief and his men and from that moment until the time of writing no word or other information has been received from the supposedly ill-fated men.

FRAUD IN MANILA ELECTION

Manila, August 18.—The local police have discovered that copies of the ballots used in the recent municipal election in this city were stolen prior to the election and used in an illegal manner at the polls. The extent of the fraud is unknown as yet, but it is thought that the ballots were used chiefly to make certain of the manner in which the supporters of certain candidates voted. It is expected that the election will be protested which will permit the opening of the ballot boxes in order that an examination of the handwriting on the ballots may be made. Many protests against the seating of Simeon Valla, elected alderman at this election, have been received by the Governor, but no action has been taken in the matter as yet.

The Big Shirt Sale

Will Continue

Wednesday.

\$1.00 Value 78c

DID you see that Big Shirt Window? Wasn't it a daisy? Did you notice those new designs which have only been on the market for a short time? Well, these are the very shirts we are talking about now. Perhaps you thought they were worth \$1.75. They certainly look it. But, nevertheless, our regular price is only \$1.00. If you saw that window you will agree that the price does not do justice to the Shirts—that is compared to what you might expect to pay for such quality. However that may be, the fact remains that these Shirts are our regular \$1.00 line, in all the newest designs for the present season. And these \$1.00 Shirts, which are well worth much more, are now offered at a sharp reduction in price. Just see the window and you will have one sure. Your choice, 73c while they last.....73c

THE SASKATCHEWAN ELECTIONS

More definite and reliable returns from the recent elections in Saskatchewan having at length reached us it is now possible to discuss the results with some certainty of not being led far astray. The reports of last week seemed to show that the Scott Government had narrowly escaped defeat, and that its majority would be a small one, ranging from three to six at the highest estimate. This was due to the fact that the returns received were principally from the large towns and cities where the results were greatly in favor of the Opposition, while those from the rural and outlying constituencies where corruption and fraud were more difficult to guard against came later. These have now been received and have materially altered the face of the situation; they give the Government twenty-seven supporters and the Opposition thirteen; or, according to another statement, twenty-six to the Government, and fourteen to the Opposition; a majority of fourteen or of twelve according to which report is taken.

The fact that the Government has been sustained by a fair working majority is therefore indisputable; the question for the political observer, seeking in this election for some signs of the trend of public opinion, is whether the Liberal Government has achieved a victory; whether it has simply held its own; or whether it has lost some portion of its former hold on the electorate of Saskatchewan. Looking at the bare fact that it has obtained a working majority the first question may be answered in the affirmative; comparing the relative majorities in the present and preceding parliaments we may say that, on the more favorable report the Government has barely held its own; and when we examine into the details of the election we can have no doubt that, despite its success, the Government has seriously suffered in the estimation of the electorate.

The former parliament contained 25 members, of whom 17 were Government supporters, giving it a majority of nine; the members now returned number forty, and a simple arithmetical calculation will show that to have held its own proportionally it was necessary for the Government to obtain a majority of at least fourteen. It has done this if the first version of the returns to which we have referred is correct; it has failed to do it if we accept the second.

It is, however, when we come to look more closely into the particulars of the elections that we find unmistakable evidence that the Government has lost ground in the Province. In the first place, among the candidates were twenty-one members of the previous Legislature seeking re-election, fourteen Government, and seven Opposition, and here the Government sustained a loss of two seats and only secured one in return from the Opposition. That represents the verdict of the constituencies that had had some practical experience of the Government. In the second place, and this is even more significant, the whole Cabinet had a very narrow escape from defeat. It was composed of four members, Hon. Messrs. Walter Scott, A. Turgeon, J. A. Calder, and W. R. Motherwell. Hon. Mr. Scott secured his seat by abandoning the constituency he had previously represented and taking refuge in the secure shelter of Swift Current; Hon. Mr. Turgeon, with a similar doubt about the retention of his seat, sought to hedge by running in two constituencies, and got defeated in one of them; Hon. Messrs. Calder and Motherwell, less wise in their generation, neglected to observe the precautions of their colleagues with disastrous results to both; so that here we have the spectacle which we venture to say is without a parallel of three-fourths of a Cabinet soliciting the endorsement of the electorate and being refused. Under such circumstances it can scarcely be claimed that the Government has achieved more than a nominal victory.

THE VIEW OF THE TORONTO NEWS.

It is apparent that the Scott Government has been sustained in Saskatchewan by a fair working majority. The returns from remote polling places and from the more isolated communities are uniformly favorable to the Government candidates. This was to be expected. Two Ministers, however, have been defeated. For these seats will have to be secured or new Ministers appointed from constituencies in which bye-elections will be necessary. A Speaker will also have to be named by the Government. There are certain to be election protests, and fortunately machinery now exists for the trial of election petitions. It will be strange if some Ministerial seats are not voided, and their holders forced to face another contest.

It is impossible at this distance to say what amount of truth there is in the reports of wholesale corruption in the interest of the Scott Government. Such cries generally come from the defeated party, and only the election courts can establish whether or not corruption was practised extensively by either party. It is certain, however, that the Government was desperately eager to secure a second term of office. This was proved by the premature dissolution and by the activity of Federal office-holders in the contest. There

is no reason to doubt that the dissolution was sanctioned, if not suggested, by the Federal Administration, and that its election machinery was a powerful factor in the Provincial campaign. It was expected that Mr. Scott would annihilate the Provincial Rights party, and finally terminate Mr. Haultain's career as a political leader in Western Canada.

Scarcely any other result was expected by the Conservative politicians of the older Provinces. It was felt that Mr. Scott would not sanction an unconstitutional dissolution of the Legislature unless he was certain of an overwhelming triumph, and was assured of the active assistance of the Federal party organization. Moreover Mr. Haultain was wholly unprepared for an election, and had hardly more than three weeks in which to organize his forces, and make his appeal to the constituencies. Every possible advantage was taken of the Opposition leader. There was nothing of chivalry or generosity in the Government's proceedings. High-minded sportsmen would scorn to propose a contest under such conditions as Mr. Haultain was forced to accept. It is remarkable, therefore, that under these circumstances the Opposition was not completely destroyed.

WHY WASTE?

M. J. Butler, Deputy Minister of Railways and Canals, talks of a contemplated double-tracking of the Intercolonial Railway. "It may take some time," he says, "to complete the work, but surveys will be completed between Moncton and Halifax as soon as possible." However the case may be between Moncton and Halifax, what could be more absurd than to double-track the Intercolonial between Moncton and Quebec, just after lavishing millions upon another railway between the same points whose only effect must be to supersede the old railway, if any shorter? And if no shorter, why waste the millions.—Ex.

THE HA! HA! BAY RAILWAY.

The population of the Saguenay and Lake St. John districts have been agitating for many years for a deep water outlet at the head of the Saguenay for the shipment of their products and of the output of the paper mills, saw mills and other industries which have been created in that section of the country during the last few years. The water at Chicoutimi is not deep enough for ocean steamers, but for years past the people have been led to believe that it could be made so, and dredging operations have been carried on at great expense apparently without any result after many years work. The people and the manufacturers seem to have lost confidence in this plan and are now urging the construction of a railway from Jonquiere to St. Alphonse on Ha! Ha! Bay, where there is sufficient water for the largest ocean steamers in existence. A charter was obtained for this purpose at the last session of the Legislature, surveys have been made, and a meeting of the provisional directors was held at St. Alphonse last week at which tenders for the construction of the line were submitted from Messrs. Umberhauer & Co., of Philadelphia, Mr. McKinnon, of New York, and Mr. Dubuc, representing a French and Belian syndicate. The meeting was adjourned for further consideration of these tenders until the second of September, when the contract will probably be given and ratified at the annual meeting of shareholders which takes place on that day. The project is a very important one, as some of the largest industries in the Province, such as the Chicoutimi Pulp Company, the Jonquiere Paper Company and the mills at Roberval are now crippled for want of access to deep water. The mines at Chibougamo will also need this outlet for their minerals. The principal promoters of the new railway are Messrs. J. G. Scott, J. E. A. Dubuc and B. A. Scott.

HAVE AN OBJECTIVE.

The Detroit Free Press observes that there is just as much chance for the rising generation as there has been for any generation, and adds that if given healthy bodies, well stocked minds and a determination to succeed, they will make their place in the world—a statement which is endorsed by the New York Herald, which adds that there is too much talk about lack of openings for young men these days, the bigger schemes of to-day fairly clamoring for strong youth and the supply ever being short.

All of which may be and doubtless is quite true; yet it is not equally true that if the demands of all the bigger schemes of the day were met, there would still be thousands of strong young men for whom only secondary places would offer? There is doubtless just as much chance for the rising generation as there has ever been—more chance, possibly, but the great trouble is to locate the chance that properly belongs to each young man. Too many young men miss their opportunity by failure to obtain that mental, physical and moral equipment which is so necessary to bring them in line with their chance. And the result is that they start and pass along through life as misfits.

Failure to make the best possible use of youth time in gaining those qualifications so essential in mastering the bigger schemes of the day is not always the fault of the boy. Too often the responsibility rests with the parents who fail to insist when the youth-

BY ROYAL WARRANTS
FURRIERS
TO HER MAJESTY THE QUEEN AND
H. R. H. THE PRINCE OF WALES

The August Showing of Furs is Noteworthy in that it Features the Coming Season's Approved Modes.

In stoles and muffs of Mink, Black Lynx, and all the Foxes—Furs which will be pre-eminently popular—the variety of styles and shapes affords the widest range for selection.

The most attractive novelties in coats show a strong revival of the Directoire period. Coats are longer, closer fitting, with cutaway fronts. Care has been taken however, that in following the lines of Parisian fashions, only those features that commend themselves as suited to the Northern winters should be adopted.

Visitors to our showrooms cannot fail to be impressed with the graceful and attractive designs shown in all Furs. But even more noteworthy than the style, is the decidedly moderate cost of these garments.

ful inclination weakens. Thanks to the ever-increasing indifference of parents, boys and girls in constantly increasing numbers are getting an education without any particular object in life. Objectless education is a mistake. It lacks incentive, for which reason it must necessarily fall far short of the goal that would be possible were a definite object in view. Let the young people have all the education it is possible to give them, but let it be edu-

cation with a definite purpose in view, and in this the parent cannot evade responsibility.—Hamilton Spectator.

Word's Phosphodine

The Great English Remedy. Tones and invigorates the whole nervous system. Makes new blood in old veins. SHIPPING NEWS

ALLAN LINE.
Steamer Sicilian, Captain Williams,
from London and Havre, with passengers
and general cargo, arrived in port
at 8.00 p.m., yesterday, and moored at
the Breakwater.

DONALDSON LINE.
Steamer Lakonia, Captain Gillies,
from Glasgow, with 10 passengers and
general cargo, arrived in port at 9.30
a.m. yesterday and moored at the
Breakwater. After landing passengers
and Quebec cargo she left for Montreal.

DOMINION LINE.
Steamer Southmark, Captain Williams,
from Montreal and Quebec, arrived
at Liverpool at 7.00 p.m. yesterday.

MANCHESTER LINE.
Steamer Manchester, Captain Simpson,
left Montreal for Quebec and Montreal,
with a general cargo.

NORTH SHORE T. & W. CO.
Steamer Natchuan, Captain Simpson,
left port yesterday afternoon for
Esquimaux Point and way places, with
passengers and general cargo.

QUEBEC STEAMSHIP CO.
Steamer Parima arrived at New
York from the West Indies at 7.30
p.m. last Monday.

THOMSON LINE.
Steamer Fremont, Captain Ritchie,
arrived from Montreal yesterday afternoon,
and proceeded for London.

THE NEERISH CHANNEL.
Sault Ste. Marie, Ont., Aug. 18.—
The Neerish channel, which cost \$4,
000,000, was opened to traffic yesterday,
when the steamer George F. Baker
went through with President
Livingstone, of the Lake Carrier's
Association on board. The Canadian
steamer Comestoga was the second
boat through, following the Baker
closely. Vessel men express great
satisfaction with the improvement
that will make navigation of the
river safer and much time will be
saved on account of not having to
meet boats in the narrow channels
on the other side of the island.

FRANCO-CANADIAN TRADE.
It is expected that the Pomeranian,
in her day one of the best known
Allan Line vessels, will be taken off
the London-Havre-Montreal service
after she has completed her present
voyage. This season, so far, the service
has been maintained by the Sicilian,
Corinthian, Pomeranian, Sardinian and
the Parisian. Two of these latter vessels
will be transferred to other services
of the Allan Line, and the passenger
business of the route, it is at
present expected, will be carried on
by the Sicilian and Corinthian. While
the travel between Canada and France
has been fair this season, it has not
developed as rapidly as was anticipated,
while the holding up of the
French treaty in the French Senate for
the time being has delayed any increase
in freights which might have
been expected.

FALLING OFF IN IMMIGRANTS.

The new regulation which is being
strictly enforced that every immigrant
coming to Canada shall have at least
twenty-five dollars in his possession
and work to go to immediately on arrival,
has had the effect of greatly
checking the flow of immigration. In
passenger steamship circles it was estimated
yesterday that since the order
was put into operation no less than
2,000 men have either been turned back
at the port of landing or have been
deported, after spending a short time
in the country, on the grounds that
they are likely to become public
charges. If an immigrant gets into
trouble within a year of his landing
in Canada the steamship company
which brought him out is compelled
to take him back to the port from
which he sailed. If he becomes a
public charge after the year has passed,
then the Government pays a small
sum to the steamship company for his
passage. It was stated yesterday that
not only is the regulation regarding
money stringently enforced, but there
was much keener attention paid to the
physical condition of the immigrants.
The necessity of the new-comer having
a situation to which he can go immediately
is also enforced. Even when the
new-comer has the necessary
amount of money but has not a job to
which he can go, he is frequently turned
away. In fact, Canada is to-day
guarding her gates more zealously
against all would-be settlers, except
those of the most desirable classes.
The rigorous inspection is having its
effect on the tide of immigration, and
westbound travel this year has been
very small compared with previous
years. While east-bound keeps up to
the standard, the big ships of the various
lines are not carrying half as many
people from Europe in either the
first, second and third classes.
Particularly is the falling off noticeable
in the second class westbound, while
sometimes to capacity each trip.

NOTES.

Steam yacht Vanadis, owned by
Mr. C. K. G. Billings, of New York,
arrived in port yesterday morning and
anchored in the stream. The Vanadis
sailed from New York and visited
nearly all the ports on the Atlantic
seaboard before coming to Quebec.
Mr. Billings, who is interested in the
pulp business, is to visit all around
the Island of Anticosti, taking in all
the important places. Mr. G. F. Gib-
son, advocate, representing Mr. Henri
Menier in this city, goes down on the
yacht. Captain J. Bellanger, who com-
mands Mr. Menier's steamer Savoy,
has received orders to take charge of
the yacht for the trip to Anticosti.
They will probably return here in a
fortnight. The Vanadis left for Anti-
costi this morning.

Steamer Dominion arrived from Mon-
treal yesterday and proceeded for Syd-
ney.

Steamer Crown of Arragon, Captain
Grindley, arrived from Montreal yester-
day and went into the Louise Basin
to complete cargo.

Steamer Wexagask, Captain Olsen,
from Sydney for Montreal, with coal,
arrived in port yesterday and pro-
ceeded.

calm left at 8 a.m. for Mayple.
Belle Isle (723).—Foggy, southwest.
Out 6 a.m., Lake Manitoba. Out yester-
day, 4 p.m., Grampian.

H. S. M'GEEVY,
Superintendent

SHIVERS IN SUMMER TIME.

A man, humming at his work, reach-
ed up and took a heavy short coat off
a nail, adjusted it over his sack coat,
turned up the collar and buttoned it
up tight.

Then he pulled his cap down on
his head, pulled a pair of fur-lined
leather mitts snug over his hands,
and took up a heavy box.

"Phew, but it's cold," he exclaimed.
"But I'll have a chillblain."

A few feet from him people on the
street were walking about, wilted un-
der a heat of 91 degrees.

The man in question is a foreman in
one of the cold rooms of a cold stor-
age company where 230,000 cubic
feet is devoted to storage of perish-
able products, the brine circulation
system being used instead of am-
monia. Chickens frozen stiff, have
nestled 3 below zero there for thir-
teen months. Butter, eggs and pro-
duce are mainly stored.

The degrees of cold vary from 10
above zero to 3 below.

While the mass of citizens of Tor-
onto have been going about with
parched tongues, clinging clothes and
fevered pulse, moving in a blistering
atmosphere leading to sundry quick
runs for the place where ice is sold
in drinks, the men in the cold stor-
age have had to wrap up to keep
warm, and even then they weren't
warm.

It might be a good idea to cut this
out and read it when the sun again
gets the range.

A SWORDFISH FIGHTS DOGFISH.

A four-hundred-pound swordfish en-
gaged in a battle with a school of
dogfish was captured by the crew of
the schooner Galatea, which arrived at
T wharf the other day. The Galatea
was at anchor off Chatham when the
crew noticed a commotion in the water.
Two men rowed over in a dory and
witnessed a remarkable battle.
The swordfish was standing off a
whole school of dogfish. The sword-
fish would charge right and left with
his weapon. One fish after another
was impaled upon his sharp sword,
while his side cuts sent many of the
small sharks out of the water. The
dogfish closed in on him and tore
huge pieces out of his sides. He shook
them off each time, however. In the
meantime the fishermen returned to
the schooner and got a harpoon. They
drove this into the big fish and he
gave up the fight.

"THE NIGGER IN THE WOOD PILE"

Thousands of people go through life
feeling more or less miserable without
ever knowing the reason. They suffer
from headaches, indigestion, pains in
the back, and at the slightest chill
get rheumatism or neuralgia.

They try to cure these separate out-
breaks, never suspecting that the root
of the whole trouble is the failure of
the bowels to move regularly, and in
many cases the sluggish action of kid-
neys and skin. The result, of course,
is that the whole system gets clogged
with impurities, which soon turn to
wisdom, and show their presence in
various ways.

"Fruit-a-tives"—or fruit juice tab-
lets—promptly stir up the sluggish
liver, regulate the bowels, and stimu-
late the kidneys and skin to do their
work properly. Thus they cure all
these troubles by removing the cause,
and make it possible to really enjoy
life. 50c. a box—6 boxes for \$2.50.
Trial size 25c. Fruit-a-tives Limited,
Ottawa.

Many a man has been cured of any
disease to join the heavenly choir by
bearing the earthly ones.

LOST

MONEY LOST.—ONE AMERICAN
billfold at the main entrance of the

OTTAWA TO RENEW A LARGE LOAN

With Parr's Bank, of London, England, Until the Taxes Come In.

Ottawa, Ont., Aug. 18.—The Board of Controllers to-day decided to renew its loan of \$750,000 with Parr's Bank of London, England, for another six months until the taxes come in. They will issue Ottawa city treasury notes in London with the purpose of reducing the interest to less than the 4-1/2 per cent. now paid for the loan. This is a new idea for Canadian cities.

An action has been entered in the high court by Murphy and Fisher, barristers, on behalf of Charlie and Fred. Byrne to recover \$25,000 damages from Ottawa Electric Railway Company. The action arises out of the collision that occurred on the Britannia line on Sunday, May 24th last. Both the unfortunate boys lost a leg in the smash.

At a meeting of the directors of the Right of Way Mining Company yesterday another dividend of 7 per cent., payable on the 15th September, was declared. This makes 14 per cent for this year so far.

The Post Office officials are on the track of American tourists who came to Canada and in sending letters to their homes think that a United States stamp is sufficient. This is a great mistake. All such mail is forward to the dead letter offices.

Chief Engineer Schreiber, of the Department of Railway, will leave Ottawa on the 25th to make an inspection of the Grand Trunk Pacific construction work from Prince Rupert, fifty miles or more inland. Work has been inaugurated in a most energetic fashion. There are full gangs at work on sixty-nine rock cuttings in the first fifty miles and a few cuttings have been opened seventy miles to the east of the coast. So far the Grand Trunk Pacific has been able to live up to its agreement to employ no Asiatic labor on this work.

IMPORTANT RAILWAY MOVE

Paul Smiths, N.Y., Aug. 18.—Of far reaching importance is a protective measure adopted here to-night by a conference of railroad officials, which makes it compulsory for all railroad employees engaged in the operation of trains on the New York Central lines to undergo a physical examination and to have their eyes tested. This ruling affects the men in the service to-day as well as those who may be candidates for positions. Railroad presidents, vice-presidents, general managers, superintendents and surgeons from many roads are in conference here to consider the various phases of the employers' liability law. The measure adopted is the first step of importance that has been taken. The examinations will be prepared by a committee composed of the assistant general managers, chief surgeons and the representatives of the legal departments of the New York Central lines east and west of Buffalo, including the Boston and Albany, the Rutland, the Michigan Central, the Chicago, Indiana and Southern, the Lake Erie and Western, the Eunkirk, Allegheny Valley and Pittsburgh, and the Lake Shore and Indiana Harbor Belt line. The chief counsel and chief surgeons of these railroads discussed the application of the new employers liability law to railroads and the results of examinations of injuries of men who met with accidents while working for railroads. The conference concluded to-night with an announcement by Mr. Brown that freight rates and wages will not be discussed until after election.

WOLSELEY MUST ECONOMIZE

London, Aug. 18.—Field Marshal Lord Wolseley has fallen on evil times and he is disposing of his house and furniture at Glynde in Sussex. The grants made to him by Parliament in recognition of his military services have been largely invested in unproductive speculations, and it is his intention to live most of his time on the Continent, where he can economize. It is undoubtedly a great grief for him to have to part with his old furniture, collecting which has been his hobby for many years. It had been Lord Wolseley's custom to present specimens of his old furniture to friends as wedding gifts, and it was once laughingly said in the Cavalry Club that the man who did not possess an old chair given him by the gallant Field Marshal ought not to be eligible for membership.

THE C.P.R. STRIKE

Montreal, Aug. 18.—Following the notice issued a few days ago, the C. P. R. to-day began engaging men to fill the place of the mechanic strikers and to-night it was announced that 250 men had been secured and would be put to work at the Angus Shops to-morrow. The strike leaders say that their ranks are unbroken and that none of the strikers have returned to work.

HUNTING BIG GAME

Vancouver, B.C., August 18.—Messrs. S. G. Millais, F. G. Bailey, S. Powell and F. C. Stern, of London, England, are busy to-day outfitting for their coming hunting expedition to the head waters of the Stikkeen river. They will accompany Mr. P. Oberlander, the noted Bohemian big game hunter. Mr. Oberlander is looking after all the arrangements. The members of the party are enthusiastic about the prospects of securing grizzlies, caribou, mountain goat and mountain sheep. They expect to return about the end of October.

CIRCUS TRAIN IN BAD LUCK

New Westminster, B.C., August 18.—The first section of Barnum & Bailey's circus train was partly wrecked on the Great Northern Railway nine miles from this city on Sunday afternoon. Four flat cars and seven wagons were derailed. Eight men were injured, two of them, W. H. Whellan, of Rochester, N.Y., and A. McLean, of Mount Vernon, seriously. Spread rails was the cause of the disaster. The train was travelling slowly at the time. The entire commissariat was wrecked. The wagons carrying the wild animals narrowly escaped ditching, the tigers and lions being on the last car left standing on the track. The draught animals and the performers arrived in the city this afternoon instead of yesterday morning, quite played out, but performances were put on as soon as it was possible.

CONSERVATIVE CANDIDATE

Knowlton, Que., Aug. 18.—At the Conservative Convention for the county of Brome, held to-day P. A. Olmstead, of Sutton, was chosen as candidate for the next election.

LEGATTEE IN A QUANDRY

London, August 18.—A curious provision is made in the will of Michael Hammore, an Irish solicitor, who left nearly \$40,000. He bequeathed \$5,000 to the mother superior of a convent his wife should enter after his death, it being his desire that the widow should devote the remainder of her life to prayer. If the lady declines to enter a convent she is to receive only some jewellery.

THOUSANDS OF MINERS IDLE

Pittsburg, August 18.—Eighty per cent. of the coal mines along the Monongahela river are idle, and thousands of miners are out of employment as a result of the low water in the Ohio river. Practically all the coal from this district is shipped by river, but for several weeks the water has been so low no shipment could be made. The consequence is that every barge is loaded with coal awaiting shipment, and no more coal can be mined until empty barges are received to start it in. The situation is said to be the

WRIGHT'S AEROPLANE

Le Mans, August 18.—Wilbur Wright completes the repairs to his aeroplane this evening, and will resume his flights on Wednesday. He will remove from the race course here to the military camp at Dauvours, where the military authorities granted him permission to build a shed and hold trials. The public will not be allowed on the grounds, which, however, are traversed by a public road. The grounds easily allow room for a light in a seven mile circle.

REDUCTION IN ARMAMENTS

Berlin, August 18.—The coming visit to Berlin of David Lloyd-George, the British Chancellor of the Exchequer, is causing much speculation, even in upper official circles, where the purpose of the British Minister heretofore was believed to be only to study the German administration's old age pension system. Hints, however, have fallen that Mr. Lloyd-George also will probably discuss an arrangement between the two countries in the future for a reduction in the outlay for armaments.

DEATH OF REDJIS PASHA

London, August 18.—The Constantinople correspondent of the Times describes the death of Redjis Pasha, the new minister of war, who died from a stroke of apoplexy, as "a heavy blow to the Government." His funeral showed how all classes felt his death was a real national loss.

There is no news regarding the reported demand by army officers for a post mortem examination, but the correspondent sends the significant sentence: "He always sought to make the life of the many exiles in his province as tolerable as possible and he discouraged espionage in a manner certain to intensify the suspicions of the Yildiz Kiosk."

DUELLING WITH WAX BULLETS.

The new sport of duelling with wax bullets, which the American millionaire, Mr. Walter Winans, has introduced into England, was illustrated at the Franco-British Exhibition. In order to keep the wax bullets as hard as possible, the pistol were kept on ice until the moment of using. The duellists—including Mr. Winans, Major Ferrus, of the French army, and competitors from the United States, Russia, and Sweden—wore a special pattern of helmet, or mask, to protect the face, and Dr. Devillers, the inventor of the wax-bullet system, took charge of the timing system. The rule is that when the word "Fire!" is given, the duellists to score a hit within three seconds wins. There was a keen competition among the national representatives, and the shooting was remarkably accurate. Had the bullets been of lead all the combatants would have been killed without exception. Mr. Winans took a high place in the results.

GRAND LODGE
OF ODDFELLOWS

Met Yesterday in Montreal in Annual
Session—Election of
Officers.

Montreal, Aug. 18.—The 29th annual session of the Grand Lodge of the Independent Order of Oddfellows of Quebec met to-day, there being a large number of representatives from all parts of the Province.

The annual reports presented showed that the order was in a flourishing condition, both financially and numerically, no less than six new lodges having been instituted during the past year.

There was a very large attendance of members from the City of Quebec, all the lodges there being represented.

The election of officers resulted as follows:

Grand Master—V. E. Morrill.

Deputy Grand Master—W. S. McCorkill.

Grand Warden—Wm. Kennedy.

Grand Secretary—T. J. Potter.

Grand Treasurer—D. J. Dickson.

Grand Marshal—C. Mills Teekle.

Grand Conductor—E. A. Akhurst.

Grand Guardian—L. J. Jemne.

Grand Herald—J. McKay.

Grand Chaplain—R. W. Williams.

Grand Representatives—E. H. Wal-
line John Shirlow.

Mrs. Doherty, Quebec, was elected president of Rebekeh Assembly.

To cure a headache in 10 minutes,
use Kumfort Headache Powders 10
cents.

SCHOOL SUPPLIES.

Messrs. I. P. Dery & Fils., Dal-
housie street, advertise in another
column a large stock of school supplies
which they offer at the lowest rates.

TOURIST PARTY.

A party of Cook's Tourists, from

yesterday and registered at the Chat-
eau.

ACCIDENTAL POISONING.

The two year old son of Mr. Auguste
Duchene, of the parish of Notre Dame
de Sacre Cœur, County of Rimouski,
was poisoned last week by drinking a
quantity of beer, contained in a bowl,
which he had taken for milk.
The young victim died almost immediately
after in intense agony.

DR. A. E. LEBEL.

Ex-Assistant Pean's Hospital, Paris,
France, 109 Crown street, Quebec.
General Practice. Specialties—Radio
Therapy, X. Rays and Electric Medical
Treatment. Urinary organ diseases.
Office Hours, 1 to 4 and 7 to 8 p.m.
Telephone 2385.

TERCENTENARY PICTURES.

Manager Alox, of Bennett's, wishes
to announce that the Tercentenary pic-
tures will positively be shown to-day
and to-morrow. The subjects and
scenes are very clear and distinct and
a number of our leading citizens as
well as the hundreds of spectators are
easily recognized. Be sure and see this
wonderful picture, you may be in it,
come and see.

HAVING THE WATER ANALYZED.

Owing to the rather large number of
cases of typhoid fever in St. John's
Suburbs, Dr. Paquin, Civic Health
Officer, after consulting with Mr.
Leonice Taschereau, secretary of Mont-
calville, has ordered the well at the
village of that municipality to be
closed down, awaiting the result of
the analysis by Dr. A. Vallee of the
water it contained. It appears that
when the city water pipe broke down
recently a number of the residents of
St. John's Suburbs got their water
supply from that well.

SCHOOL OPENING.

Do not wait till the last minute for
your purchase. We have everything
for school opening, copy books, pens,
pencils, knives, leather bags, for boys
and girls, green baize. Do not forget
that we are making a specialty of
boys and girls suits; also hats and
caps. We give double bonus this
week. Sole agent for Semi-Ready.

FAGUY, LEPINAY & FRERE.

254 to 264 St. John Street.

RAIN AND HAILSTORM.

A violent rain and hail storm passed
over the city at noon yesterday and
no doubt caused considerable dam-
ages. Earth, stones and pieces of
timber were carried down the streets
by the water and in St. John street
a load of cordwood, which had been
thrown at a barber's door floated
down the street, pieces of the wood
being found on Palace Hill. The street
railway service was interfered with
for a while, until a gang of men clear-
ed away the earth and stones. About
half past four there was another heavy
rain storm which, however, only lasted
a few minutes.

SAILOR'S CONCERT.

The band of the R.M.S. Empress of
Ireland, with other assistance, gave
a splendid concert at the Sailors' In-
stitute last evening. The band is
composed of firemen from the Em-
press as follows. Most of the instru-
ments are home-made:—

Conductor, Mr. Thos. Hesse; whist-
les, Messrs. Henry Morrison, Wm.
Reynolds, Edward Wilson; kettle drum,
Mr. Henry Davis; bass drum, Mr. John
Redmond; triangle, Mr. Daniel Smith;
cymbol, Mr. Wm. Kennedy.

Solos were played by many individ-
ual members of the band and also a
mouth organ selection. Mr. Daniel
Smith sang and danced the clog dance,
accompanied by the mouth organ and
whistle. Songs were sung by Messrs.
James Boyle, Harry Flanders, Henry
Wilson, Robert Macdonnell, Charles
McGinn, John Redmond, Harold Tun-
star, Daniel Kimball, Robert Perrett,
David O'Donnell, Wm. Reynolds, the
choruses being carried up to the
rafters by the crowd of merchant sail-
ors who thronged the hall.

FIREMEN INDULGE
IN FIRE WATER

And Are Dismissed from the Brigade
—Other Men Appointed to
Replace Them—

A meeting of the Civic Fire Commis-
tee took place at the City Hall last
evening under the presiding of Ald.
Foley, these present being Aldermen
Cummings, St. Pierre, Barbeau, Mer-
serey, Noreau and Matte, members of
the committee and Ald. Letourneau.

A report was read from Chief Fitz-
back informing the committee that
since last meeting he had suspended
Firemen Nadeau, of No. 9 Station, and
Fireman Rochette. The former during
the recent festivities started out one
morning with a horse and reel to ex-
ercise the horse but got rather under the
weather, and while under the influence
of liquor, started his horse on a run
down Grande Allee until taken in
charge by a picket from de Salaberry
street camp. Nadeau was still under
apprehension as a fireman, at the time,
and on motion of Ald. St. Pierre he
was dismissed from the force. He was
temporarily replaced on the brigade by
a man named Corneau, who last even-
ing, on motion of Ald. St. Pierre, was
appointed to the force.

Another fireman named Rochette
went wrong and was suspended by the
chief and was last evening dismissed
and his place filled by a young man
named Joseph Bernier from Lower
Town, who was last evening appoint-
ed a fireman, on motion of Ald.
Noreau.

Another fireman named Henri Blouin
sent in his resignation recently to
Chief Fitzback, who temporarily re-
placed him by a man named Alonzo
Bourassa. On motion of Ald. Barbeau
Bourassa was appointed to the brigade.

In his report Chief Fitzback request-
ed that the committee appoint a cap-
tain in the place of Capt. Reddy, of
No. 2 Station, who was retiring too
old for the position, having been 42
years a member of the Quebec Fire
Brigade, of which he was one of the
original members. Chief Fitzback re-
marked that during his long service in
the employ of the city, Mr. Reddy
had never had a complaint lodged
against him and suggested that he be
kept on as a member of the brigade.
The suggestion was agreed upon and
it is probable that Capt. Reddy will
always be attached to No. 2 Station.
As regards the appointment of a cap-
tain for No. 2 Station, Ald. Foley re-
marked that the position belonged to
an English-speaking fireman, and the
matter was left over until next meet-
ing.

The new station in St. John's Ward
will be soon ready for occupation, but
as there was some improvements to be
made in the drainage of this building,
it was decided to ask the Road Com-
mittee to attend to the same.

A number of applications were re-
ceived for positions on the brigade
and the committee adjourned at 9
o'clock.

ELECTION OF OFFICERS.

On August 7th, were held the elec-
tion of the officers for the Quebec
Branch of the Canadian Manufacturers'
Association, with the following re-
sult:—

Chairman—Dr. Ed. Morin, of the
firm of Dr. Ed. Morin & Cie.

Vice-Chairman—Jos. Picard, of the
firm of Rock City Tobacco Co.

Secretary—L. A. Moisan, of the firm
of Victor Manufacturing Co.

Members of the Local Executive
Council—Mr. J. Pouliot, of the firm
of J. & S. Pouliot & Frere; Mr. O. W.
Bedard, of the firm of J. B. Bedard &
Freres; Mr. A. A. Dechene, of the firm
Dechene & Poulin.

Members of the Toronto Executive
Council—Mr. Geo. E. Amyot, of the
firm Dominion Corset Mfg. Co.; Mr. G.
A. Vandy, of the firm of Paquet Co.,
Ltd.; Mr. T. Hethington, cake manu-
facturer.

Important resolutions were also
adopted at the same meeting regard-
ing some industrial matters. It has
been also decided to organize a special
excursion to Montreal under the aus-
pices of the Quebec Branch on account
of the General Convention of the As-
sociation being called this year dur-
ing September 15th, 16th and 17th in
the city of Montreal. It is expected
that mostly all Quebec manufacturers
will attend to the convention this
year.

SKIN CLEARED

By Simple Change in Food.

It has been said by a physician that
most diseases are the result of indig-
estion.

There's undoubtedly much truth in
the statement, even to the cause of
many unsightly eruptions, which many
suppose can be removed by applying
some remedy on the outside.

By changing her food a Kan. girl
was relieved of an eczema which was
a great annoyance to her. She writes:

"For five months I was suffering
with an eruption on my face and
hands which our doctor called eczema
and which caused me a great deal of
inconvenience. The suffering was al-
most unbearable.

"The medicine I took only gave me
temporary relief. One day I happened
to read somewhere that eczema was
caused by indigestion. Then I read
that many persons had been relieved
of indigestion by eating Grape-Nuts.

"I decided to try it. I liked the
taste of the food and was particularly
pleased to notice that my digestion
was improving and that the eruption
was disappearing as if by magic. I
had at last found, in this great food,
something that reached my trouble.

"When I find a victim of this afflic-
tion I remember my own former suf-
fering and advise a trial of Grape-Nuts
food instead of medicines." "There's a
Reason."

Name given by Postum Co., Battle
Creek, Mich. Read, "The Road to
Wellville," in place.

Ever read the above letter? A new
one appears from time to time. They
are genuine, true, and full of human
interest.

FINE PROGRAMME
AT RUSTIC THEATRE

Japanese Troupe Gives a Splendid
Performance—Large Audience
Greet the Actors.

The Kishikuna Japanese troupe are
again the headliners at the Rustic
Theatre this week, though their efforts
vary somewhat from those of last
week, but on the whole the act is of
the same high class order, finish and
grace, marking the every movement of
these five Orientals, while the seeming
ease with which they performed the
difficult feats which constitute their
turn evoked the wonder of all. The
feature which apparently appealed to
the popular fancy most was the manipu-
lation of a barrel from the feet of
one of the male members in rhythm
with a popular air, the time being
perfect.

Robert Chasone & Co., European il-
lusionists and magicians, provide a
mystifying turn, most of the tricks
being fresh, while the fire eating ex-
cited some little wonder.

Glady's Sears, the girl with many
dialects, found favor with the audi-
ence while Mr. Villarie with his
French songs appears to be gaining
weekly in popularity. Miss Adeline
Frances is also on the bill again this
week and her vocal offerings were well
received.

Though the sky was forbidding just
at train time, and a shower develop-
ed, there was nevertheless a remark-
ably large audience present, which
thoroughly enjoyed the diversified pro-
gramme.

Those who have not already witness-
ed the act of the Japanese troupe
should not fail to do so this week, as
the act is one of the best seen at the
Falls this season.

The Cause of Stiff Neck

Usually from sitting in a draught.
Nothing better than Nerviline—it re-
moves the stiffness, kills the pain,
makes you well in a few minutes. For
strains, swellings, lumbago—nothing
excels Polson's Nerviline. Try a large
25c. bottle.

DIED FROM HIS INJURIES.

Arthur Plante, who a few days ago
fell from the Great Northern wharf,
near the Quebec Gas Works, and was
seriously injured, died yesterday morn-
ing at the Hotel Dieu.

TO THE COLLEGIANS.

You will be well dressed if you buy
your suits or overcoats at Faguy,
Lepinay & Frere. We are keeping
everything you may want. Do not
forget that we are sole agents for
the Semi-Ready. We give double
bons this week.

FAGUY, LEPINAY & FRERE.

254 to 264 St. John Street.

LICENSED MILKMAN.

The two hundredth license to milk-
men was granted a few days ago by
the Civic Health Committee, but there
are still a few milkmen doing business
in this city who have so far neglected
taking out their licenses and the
authorities intend taking action against
them if they refuse to take out their
license.

RUSH TO THE FALLS.

The usual summer rush to Kent
House, Montmorency Falls, has set in,
and this favorite resort is again at-
tracting great crowds of visitors and
city folk by its delightful beauty. As
an instance of the popularity of Kent
House, it may be cited that on Sun-
day last the elevator carried no less
than 6,000 people, who to escape the
heat of the town had run down to en-
joy a breath of fresh air at this
cool and charming resort. T.F.

DEATH OF A FORMER QUEBECER.

A despatch was received in town
yesterday from Toledo, Ohio, announc-
ing the death on Monday last in that
city of Mr. Christie Gunner, formerly
a master carpenter of this city. De-
ceased, who was 63 years of age, was
a brother-in-law of Mr. T. J. Le-
vallee, proprietor of the Neptune Inn.

RECORDER'S COURT.

Four prisoners charged with drunk-
ness appeared in this court yester-
day and were disposed of as follows:
One was fined \$5 and costs or one
month's jail; one \$2 and costs or
eight days, and two \$1 and costs or
two days each.

CONTRACTS AWARDED.

It is stated that Messrs. Dussault
& Son have been awarded the contract
for the extension of the breakwater
from the Louise Basin in the direction
of the St. Charles River, the contract
price being \$150,000. Mr. Nap. Trudel
of St. Irene, has secured the con-
tract for the extension of the wharf
at St. Francois, Island of Orleans,
where between \$15,000 and \$20,000 will
be spent.

IMPORTANT MEETING AT

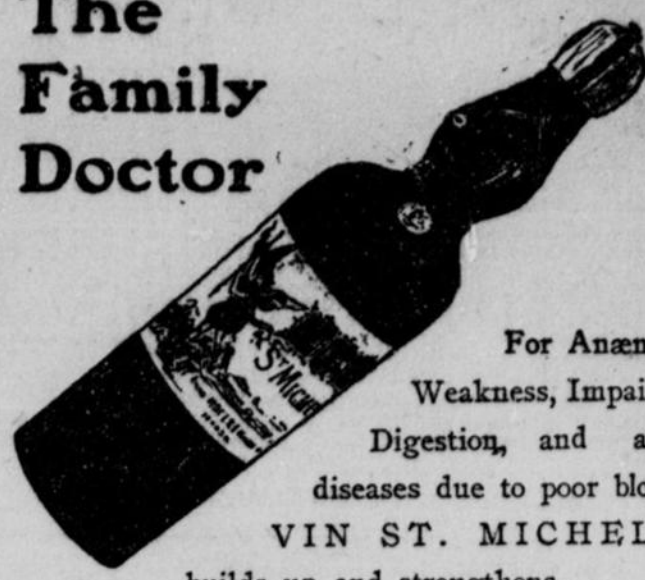

LIMOILLOU.

Notwithstanding the inclemency of
the weather on Monday last, about 300
taxpayers met in the municipal hall
at Limoilou to discuss the question
of borrowing \$50,000 for improvement
in the municipality. Mr. Ed. Trudel
presided, and Mayor Eugene Leclerc
multipled strongly in favor of the mu-
nicipality borrowing the amount. The
proposition was objected to by Mr.
Ph. Boucher. A vote of the electors
will be taken to-day as to whether or
not the loan should be contracted.

WILL THERE BE A STRIKE?

Sometime ago Conductor McNeil,
of the Q. R. L. & P. Co. and Pres-
ident of the Union, connected with
that railway, was dismissed from the
company's service. Since then the
members of the Union have made
every effort to have him reinstated
and a final interview will be held
with Mr. Evans, general manager of
the company, this morning. It is
stated that the result of the interview
will decide whether or not the men
will go out on strike. There are a
good number of the conductors and
motormen who do not belong to the
union.

LATEST SPORTING NEWS

WORLD'S RECORD FOR 220 YARDS

Lowered by Kerr at Hamilton Meet—
Longboat Shows Old Form.

Hamilton, Ont., Aug. 18.—Five thousand necks craned.
Across the field a fair-haired lad in red trimmed jersey and knicker crouched upon a white mark—Bobby Kerr, the world's 200-metre champion.

Ahead of him twelve-year, fifteen-year, another tense figure in green trimmed white running costume, bowed on all fours—Lambert, a Hamilton sprinter of no mean ability.
Bang! The starting signal.

Lambert sprang upright in the first pace and dashed madly ahead. Kerr, his kick-off pitching him almost on his face, strode out like lightning to prevent a spill. He ran crouched for 10 yards, squared his stride away, and with arms whipping back and forth in the air in rhythm with his legs sailed after the flying leader. Not inch by inch, but foot by foot, the wonderful sprinter moved Lambert down. He walked right up on him like an American's copper would on a fishing schooner in a wind-jam.

At the stretch head when Kerr squared away for home, and showed the blood-red maple leaf of the Olympic team, Lambert was beaten, and quit, "and his day's work was done."

He had pulled Ruddy Robert to the limit in the first hundred, and he left him to plough home alone. On came Kerr, never flagging an instant. He struck the final curve with unabated speed, carried around it with a misstep, and sidled up to another timer, that gained him a half a yard.

That's how Bobby Kerr broke the world's record for 220 yards.

When Kerr breasted the tape, Dr. Thompson stared at his watch wide-eyed, then covered it with his hand, and sidled up to another timer.

"What do you make it?" he enquired. He showed his watch.

"Let's ask Bill Sherring," said the Tiger President.

The Marathon winner thoughtfully chewed the end of his cigar, and surveyed Kerr. You never can tell what Bill Sherring holds against his chest.

"There she is, boys," said Bill Sherring, holding up his watch.

"Same here," chorused the other two timers.

"Same here," meant 21 1-5 seconds. Kerr had walked 2-5 of a second off the world's record!

Beaten by four yards! "I always said two twenty was Bob's distance," soliloquised Sherring.

Of course, the record does not go. Kerr's run was only an exhibition, while record time must be established in open competition.

Still, it shows Kerr to be a world beater.

Half an hour previous Kerr ran a hundred in even time.

These times were made at Britannia Park, Hamilton, Saturday, at "Bobby Kerr's athletic meet."

WRIGHT THROWERS BROKE EVEN
Dungarven, August 18.—The weight contest, held here, between Martin J. Sheridan, of the Irish-American Athletic Club, and Thomas F. Kieley, the Irish jumper and weight-throws, for the championship of Ireland, resulted in a draw. Kieley won the hammer throw and the 56-pound weight event, while Sheridan won the 16-pound shot put and the 25-pound weight event.

ATHLETICS SUNDAY AFTERNOON.
The Ship Laborers' Society has secured the use of the Q.A.C. grounds for Sunday afternoon next, when the postponed programme of sports from the recent picnic will be completed, together with a number of additional athletic events which should ensure a splendid afternoon's amusement. The programme in detail will be published within the next day or two.

M.A.A.A. UPHELD PRESIDENT BOYD

His Action in Longboat Affair Endorsed by Board of Directors.

Montreal, Aug. 18.—The action of Mr. Leslie H. Boyd, President of the M.A.A.A., in protesting the Indian runner Longboat on the eve of the Olympic Marathon was unanimously endorsed at a meeting of the board of directors of the Association he represents.

The resolution passed by the M.A.A.A. board embodies in a broad way the reason which led to Mr. Boyd's protest. It is quite evident, however, that the reasons given permit of amplification, and when Mr. Boyd explains to the Canadian Olympic Committee it is probable that there will be some interesting details to fill out the story of the protest.

Meanwhile the resolution states emphatically that the protest was not made at the suggestion of James E. Sullivan, of the A.A.U. It was the apparent connection between the Yankee's kicking about Longboat and the Federation's protest that led to much unfavorable comment, in which the M.A.A.A. President was taunted with being a "traitor" to Canada, and many other things.

The resolution, which was carried unanimously at a large meeting of the board, sitting until 11.30 o'clock, reads:

"That in view of the fact that Longboat did not compete in the Canadian Olympic trials and was not sent to the Olympic games by the Canadian Olympic Committee as one of the Canadian team, and also that he was at no time under the supervision of the manager of the team, Mr. J. H. Croker, that this board approve of Mr. Boyd's action in protesting, which was only done as a matter of protection, and considers that no part of the agreement made between the two athletic bodies interested had been broken; and, further, that the said action was not taken at the instigation or suggestion of Mr. James E. Sullivan, President of the Amateur Athletic Union of the United States, as reported in the press."

It will be noticed that, apart from the fact that Longboat did not qualify for and was not a member of the Canadian team, attention is drawn markedly to the fact that Longboat was at no time under the supervision of the Canadian manager, Mr. Croker. It is also evident that there must be good reasons lying behind a protest based, as it is stated in the resolution, on a desire to protect the standing of Federation athletes.

Mr. Boyd stated after the meeting that until the Federation met, and later, the Canadian Olympic Committee, he did not wish to make any personal statement on the protest.

The Federation will meet same day this week, but the date has not been named as yet.

FOOTBALL MATCH.
Empress of Ireland vs. R. C. R.
A grand football match will be played at the Q.A.C. grounds on Thursday at 4 p.m., between teams of the Empress of Ireland and R.C.R. A hard fought game is looked forward to as both teams are in the pink of condition.

LONGBOAT IN FORM.
The first mile in 5.20, loafing, and talking to his opponent.
The second in 5 minutes flat.
The third in 5.04.
Victory by half of a quarter-mile track.

That is, in brief, the story of Tom Longboat's first step back toward the top of the ladder of fame.

It was Saturday at Bobby Kerr's meet in Hamilton, and the man he beat was Fred Simpson, the Mississauga Indian, whom Will Sherring picked to win the Olympic Marathon. He finished sixth.

Fred Simpson came to Hamilton to add himself to Bobby Kerr's list of athletic celebrities. He came expecting to do an exhibition two-mile run, just to let Hamilton people see him run.

Tom Longboat was asked to meet Simpson in a two-mile race. He came expecting a race, and after an hour's communion with himself rejected a proposal that the pair just do a friendly gallop, and demanded a real race.

Simpson wasn't ready for a two-mile race, and does not profess to be a short-distance man, but he was game and said he would run Longboat five miles. Longboat refused five, and they compromised on three.

At the pistol Tom took the lead, and after loafing the first mile to give Simpson a chance to loosen up, let out in real earnest. For a period, Simpson clung on, and then slowly went back. Longboat, loosening right up, ran the next two miles in 10.04, a remarkably good performance, when it is considered that most two-mile races around here are won in 10.20, while in England the top-notch two-milers win in 9.40.

The Onondaga did his three miles in 15.24, or 31 seconds faster than Fred Meadows' three miles in the five-mile race, and Meadows was chased all the way, while Longboat ran alone. Simpson was never dangerous.

While the two Indians were to study the critics got a chance to together their respective strides. "There is no use talking, Longboat has the better stride," said Dr. Thompson. "He has improved greatly in style."

A five-mile race between Simpson and Longboat is mooted.

The fickleness of a crowd was well illustrated in Saturday's race. When Longboat, once the idol of Canada, appeared, there was a faint cheer, and some hisses. Simpson got a good cheer.

"No faking, now," some one shouted.

When he won the crowd received him with hearty cheers, and swarmed about him in the same old way.

OPENING DAY GRAND CIRCUIT

The Eel Beats Track Record—2.02½
His Time—Splendid Contest Throughout.

Poughkeepsie, N.Y., Aug. 18.—The feature of the opening day of the grand circuit meeting at the Hudson River Driving Park to-day was the 2.16 pace, in the first of which the Eel went in 2.02½, beating the track record, the horse's own record, and being the fastest mile paced in the grand circuit this year. The Eel's chief competitor was George Gano. The first heat was a great race between these two horses to the three-quarter pole, the quarter being made in 29½ seconds, the half in 59½ seconds, and the three-quarters in 1.31½. It was then that the Gano horse began to slacken speed and the Eel won easily in 2.02½. The Eel won the second and third heats in 2.05 and 2.06, the last quarter of the second heat being paced in 29½ seconds.

Jack Leyburn won the 2.09 trot with comparative ease, after losing the first heat by a break soon after the word was given. This heat went to Locust Sack, being the first heat he has won this year and reducing his record from 2.11 to 2.08½.

Geers won the 2.16 trot with Loyall, after losing the first heat to Raffles. In spite of the fact that no pools were sold the attendance was equal to the average for the first day.

OUTSIDER WON DUNWOODIE STAKES

Nimbus Makes New World's Record for Circular Track at Empire City.

New York, Aug. 18.—A new world's record for six furlongs for a circular track was made at Empire City to-day when Nimbus, carrying 109 pounds won the first race in 1.11 1-5. The time clips 2-5 of a second off the old mark made by Roseben, carrying 147 pounds at Belmont Park a couple of years ago. Nimbus' performance to-day was not as good as Roseben's as he had considerable weight off. The track and weather conditions were ideal for record breaking. At the start of the six furlongs race, the field ran down a slight hill and as they swung into the stretch another gradual grade is encountered which is easy for good horses to make. Fast time over. Tom McGrath broke in front and ran the first furlong in 11 seconds. He led at the quarter by 14 lengths in 21 4-5 seconds. The third furlong was covered in 33 2-5 seconds. Here he began to stop and Nimbus then took up the running, coming to the half mile in 45 3-5 seconds. He swung into the stretch with a lead of 14 lengths and passed the five furlongs in 57 3-5 and finished out the full distance in 1.11 1-5. He was nicely in hand at the end. Tom McGrath tired badly from the early pace and finished outside the money. Spooner, at 6 to 1, won the Dunwoodie stakes.

HARRIERS AT WORK.

Some fifteen runners of the St. Patrick's Harrier Club, had a run out last evening, the number including Jeff Malone, Joe Malone, Loiselle and Kelly. The boys will meet again at the Hall this evening at eight-thirty and will have another spin.

BILLY ALLEN TO TRAVEL.

Ottawa, Aug. 18.—It is learned a syndicate of prominent men from Western Canada have approached Billy Allen of this city, featherweight champion of Canada, with a view to taking him West and pitting him against the best boys from the United States. Allen is stated to have accepted the offer.

The boxing game has had a great revival in the West recently. Allen's many followers in Ottawa and Montreal will watch his progress with interest. Billy has worked his way to the top and is now eligible to meet the best in the land.

A BIG DISAPPOINTMENT.

The London Sporting and Dramatic News deplures England's poor showing in the sprints and short distance races at the Olympic games, and adds that the greatest disappointment of all, so far as that country was concerned, was the much-talked-of Marathon race. Distance running has always been the strong point of Britons, yet they did not have a man in the first 12, their best representative taking three hours 17 minutes to cover a little less than 26½ miles. This seems to be inexplicable until the time of each mile accomplished by the leaders is carefully examined. 11 seconds were run in 10 minutes 11 seconds, and ten in 56 minutes 53 seconds. If men who have more than 26 miles to go will try to cover 11 miles in the first hour there can be only one result. Walter George, the greatest runner from one mile to ten that the world has ever seen, never took part in a race over a distance of ground without sketching out a schedule of times of each mile and running as nearly as possible to it. Any old and experienced long distance runner will easily understand that there were at the Marathon race who were kept strictly to schedule time for each mile, would easily beat the time made by Dorando, and yet finish the distance without any undue distress. It is emphatically the pace which kills, and even in a quarter of a mile race a man with no judgment can run himself so completely to a standstill that he cannot even stagger past the tape.

Good Medicine for Children

Gentle laxatives should be administered occasionally and for this purpose physicians recommend Dr. Hamilton's Pills. They cure headaches, biliousness, weak stomach—never gripe because mild and easy.

EDUCATIONAL

Havergal Ladies' College

PERSONAL

Mr. Tetu left yesterday for St.
 Anne's College, to return Saturday.
 Sir Elzear and Lady Taschereau, of
 Ottawa, are at River du Loup Point.
 Mr. Rodolphe Forget, M.P., of Mon-
 treal, was in the city yesterday.
 Mr. and Mrs. J. Drouin, of Montreal,
 are guests at the Chateau.

Mr. H. R. Swenerton, of Montreal, is
 at the Chateau.
 Mr. W. A. C. Hamilton, of Montreal
 is registered at the Chateau.
 Mr. and Mrs. J. Fraser, of Ottawa,
 are guests at the Chateau.

Mr. G. A. Mann, of Montreal, is re-
 gistered at the Chateau.
 Mr. M. Michaelson, of Montreal, is
 registered at the Chateau.

Mr. D. P. White, of Toronto, is re-
 gistered at the Chateau.
 Mr. H. B. Lovell, of Coaticook, is
 registered at the St. Louis.

Mr. James Ledy, of Montreal, is
 at the St. Louis.
 Mr. P. B. Burton, of Montreal, is at
 the St. Louis.

Mr. Geo. M. Stewart, of Montreal, is
 registered at the St. Louis.
 Misses V. Boucher and M. L. Dumas,
 of this city, sailed for Europe by the
 Sardinian.

Mr. Pierce Kelly and U. Fullerton are
 leaving on a fishing excursion to
 Lake Beauport.

Hon. L. P. Pelletier has returned
 from Trois Pistoles, where he spent a
 portion of the summer season.

Rev. Cure Bouffard, of St. Malo, re-
 turns this week from a vacation ex-
 tending over several weeks in the West.

Rev. Fathers Guertin, Allard and
 Forget, O.M.I., have left for Ottawa
 to assist at the annual retreat.

Major F. and Mrs. O'Farrell, of Ot-
 tawa, are the guests of Mr. and
 P. Catellier at Pointe au Pic.

Miss Etchel Fanning, of this city,
 has left for Montreal, where she will
 visit friends.

Mr. and Mrs. A. Mitchell, of Mon-
 treal, Mr. A. E. Barrett, of Vancou-
 ver, are guests at the Chateau.

Mrs. H. M. Lambert, Miss Davidson,
 of Montreal, are guests at the Cha-
 teau Frontenac.

Mrs. E. H. Lemay, Miss V. Somer-
 ville, of Montreal, are guests at the
 Chateau.

Mr. A. B. Creelman, of Montreal, is
 in the city and registered at the Cha-
 teau Frontenac.

Mr. and Mrs. L. L. Paquet have re-
 turned from Fraserville, where they
 were the guests of Mr. and Mrs. E. A.
 Doucet for some days.

Mr. Alfred Piddington, after a short
 visit to Lake Champlain, has returned
 to Tadoussac, and will occupy Ivanhoe
 for the remainder of the season.

Mr. and Mrs. Henry Taylor, "The
 Elms," Perth, Ont., announce the en-
 gagement of their youngest daughter,
 Helen Isabel, to Dr. Arthur B. Chan-
 dler, of Langman, Sask., one of the late
 Prof. Chandler, of McGill University.
 The marriage takes place in Septem-
 ber.

The marriage of Miss Minnie Mc-
 Murrich, daughter of Mr. and Mrs. G.
 McMurrish, of Winnipeg, to Mr. Philip
 Toller, Ottawa, son of Colonel and
 Mrs. Toller, and grandson of the late
 Sir Leonard Tilley, is announced to
 take place in September.

Rev. R. P. Dozeis, Provincial of the
 Oblats, will sail for Europe on Friday
 by the Empress of Britain, accom-
 panied by a number of other delegates
 from Manitoba. The party will assist
 at the chapter of their order which
 takes place in Rome, Sept. 17th.

Miss Florence M. Wilson, daughter
 of Mr. Justice Wilson, of Fredericton,
 N.B., and Prof. Harrison, organist of
 the Methodist Church there, were united
 in marriage last week at the resi-
 dence of the bride's father, in the pres-
 ence of relatives and close friends only.

Miss Jean Wilson acted as bridesmaid
 for her sister, and Mr. Ernest Bar-
 bour, of St. John, was the best man.

Miss Mae Walsh and Miss Jennie Bir-
 mingham left yesterday afternoon en
 route for Rochester, Minnesota, where
 they will enter St. Mary's Hospital as
 nurses-in-training. A number of their
 friends gave a farewell hop and supper
 in their honor at the Kent House,
 Montmorency Falls, Monday evening,
 the party returning to the city about
 2.30 a.m. Both young ladies are popu-
 lar, and were accompanied to the sta-
 tion by a large number of friends who
 said good-bye and wished them suc-
 cess in their new field.

POLICE COURT.

In this court yesterday a man who
 failed to pay a fine to which he was
 condemned some time ago, was sent
 to jail for two weeks. Two cases
 taken some time ago by the Municipality
 of St. Anne de Beaupre against a
 boarding house keeper of that place
 were dealt with. One charge was
 that of soliciting boarders for his
 hotel, and the other impeding pas-
 sengers on the public highway con-
 sidering the regulations passed by the
 municipality. In the first in-
 stance the case was dismissed with
 costs against the municipality, it be-
 ing shown by the defendant's counsel
 that the regulations were improperly
 drawn up. In the second case, that
 of impeding passengers, the action
 was dismissed, each party paying their
 own costs. An action was entered by
 the South Shore Turnpike Trust
 against one Robitaille, of this city.
 The charge is of refusing to pay toll
 for an automobile. It seems that
 there is no toll charge for automo-
 biles on the north shore, but this
 condition does not prevail on the
 south shore. The defendant pleaded
 not guilty to the charge and his case
 was fixed for hearing on the 26th in-
 stance. A man convicted of stealing
 clothing from his brother-in-law was
 sentenced to six months' jail. This
 is his second conviction within a
 short time.

VAST BRITISH LOAN TO INCREASE NAVY

Said That Government Will Raise
 £110,000,000 for the
 Purpose.

London, August 18.—The Telegraph
 gives prominence to a statement by a
 well-informed correspondent to the
 effect that the Government is consider-
 ing a proposal to raise a large loan
 in view of the renewed competition
 in naval armament abroad. Proposals
 to this end have been put forward by
 financiers of the highest standing, who
 have undertaken to find £110,000,000
 on nominal terms in order to meet
 the necessities of the fleet during the
 next few years without disorganizing
 the annual budgets or casting a heavy
 burden on the present generation. The
 correspondent proceeds: "The propo-
 sal is a simple one. It would be a
 declaration translated into terms of
 cash of the country's intention to
 maintain the two-power standard at
 all costs. There is no leeway to
 make up, but there is a future to be
 safeguarded. By setting aside £100,-
 000,000 for the fleet the Government
 would advertise its policy in every
 paper in the world and in all deliber-
 ative assemblies until it was world
 notorious. Such a loan would not
 be hypothecated in advance. It would
 form a fund which could be drawn
 upon as required. There is no idea of
 fixing the expenditure year by year for
 a long period in advance. The navy
 estimates would be introduced each
 spring as usual, but an outlay be-
 yond the normal would be taken from
 the loan. The scheme is put forward
 in no spirit of financial despair, but in
 the hope to check by sheer financial
 hardness the renewed competition in
 naval power. The proposal has al-
 ready received the support of an in-
 fluential section of the Cabinet, who
 are determined to omit no steps to
 check the increasing expenditure for
 the fleet forced on this country by
 foreign rivalry."

In connection with the foregoing,
 an editorial appearing Saturday in
 the Westminster Gazette, which is in
 close touch with the Government, is
 quoted as pleading in guarded terms
 for the adoption of the loan scheme.
 The Gazette said: "Constant com-
 parison of forces, and the constant
 appearance of rivalry necessarily in-
 volved thereby, cannot make for
 friendship, but may easily sharpen an-
 tagonism. It seems to us it is time
 to consider whether next year we
 should not wind up the whole affair
 by one programme, financed, if need
 be, by a loan, which would save us,
 at least from the annual recurrence of
 this controversy for the subsequent
 three years."

Dr. Claycove, chiropractor, has re-
 moved his office to No. 22 St. John
 street. Boys suffering from corns or
 other foot trouble, should pay the
 doctor a visit without delay.

COSMOPOLITAN LONDON
 London, August 18.—London is more
 cosmopolitan than ever this month.
 Foreigners have chosen this time for
 visiting the Franco-British exhibition.
 To-day 45,000 French people are ex-
 pected, as it is a holiday in Paris.
 Many crossed the channel last night
 and more came to-day for a week-end
 trip to the exhibition. A greater
 number of American tourists are vis-
 ible than could be seen earlier in the
 season. Perhaps the most interesting
 visitors are Russian nihilists, who, in
 a secluded hall in a quiet part of the
 town, are holding meetings daily.
 The number about eighty men and
 women. At first it was given out that
 they were merely an excursion party
 to see the exhibition. When Russian
 residents of London tried to gain ad-
 mission to the meetings they were re-
 fused admittance. Newspaper men also
 tried vainly to discover the purpose of
 the meetings, but without the counter-
 sign entrance was impossible. A pro-
 minent Russian said: "There is no
 doubt this congress is a revolutionary
 parliament of an advanced type for
 the discussion of Russian politics, but
 it is certain that the Russian Govern-
 ment knows all about them, despite
 their precautions, and among the 80
 there are sure to be at least ten Rus-
 sian police spies, gaining admission as
 members."

**UNDERGOING CONSIDERABLE RE-
 PAIRS.**
 Our establishment is just now under-
 going considerable repairs and we are
 taking advantage of this occasion to
 clear out all the balance of our sum-
 mer goods at such low prices that will
 cause surprise to all. A visit is solicited.

MARCEAU & CIE.,
 135 St. Joseph Street.

PRESIDENT CASTRO'S LATEST
 Caracas, Aug. 11, via Willemstad.
 Aug. 11.—A sensation has been caused
 in diplomatic circles by the refusal of
 President Castro to permit the Bra-
 zilian Minister to take charge of French
 interests in Venezuela, although Dr.
 Jose Paul, the Venezuelan Minister of
 Foreign Affairs, had originally agreed
 to this arrangement. As a consequence
 of the attitude of President Castro,
 the Foreign Minister has indicated a
 second note in which he states that he
 now refuses to accede to the arrange-
 ment because the dispute between Ven-
 ezuela and France bears a close rela-
 tion to Venezuela's dispute with the
 United States and the proposed ar-
 rangement therefore endangers the con-
 tinuance of friendly relations with
 Brazil. The French interests neces-
 sarily are being neglected and many
 monthly instalments due to French
 claimants are still uncollected. It is
 very unlikely, in view of the present
 state of affairs, that President Castro
 will give his permission to the rep-
 resentative of any foreign countries to
 take French interests in hand. Presi-
 dent Castro left for a trip to Barqui-
 simeto, embarking on the gunboat
 Restaurador for Tucuman, which is
 about 25 miles from Puerto Cabello.
 The President invited the British Min-
 ister to accompany him, which is be-
 lieved to be significant in view of the
 present crisis.

When a man gets beyond the pangs
 of conscience there is not much left
 in him to punish.

Nursing Mothers and Over-burdened Women

In all stations of life, whose vigor and
 vitality may have been undermined and
 broken down by over-work, exacting
 social duties, the too frequent bearing
 of children, or other causes, will find in Dr.
 Pierce's Favorite Prescription the most
 potent, invigorating restorative strength-
 giver ever devised for their special bene-
 fit. Nursing mothers will find it espe-
 cially valuable in sustaining their strength
 and promoting an abundant nourishment
 for the child. Exhausted mothers too
 will find it a priceless tonic to prepare the
 system for baby's coming and reducing
 the ordeal comparatively painless. It
 can be had in any state, or condition
 of the female system.

Delicate, nervous, weak women, who
 suffer from frequent headaches, back
 ache, dragging-down distress low down
 in the abdomen, or from painful or ir-
 regular monthly periods, gnawing or dis-
 tressing sensation in stomach, dizzy or
 faint spells, see imaginary spots or
 floating before eyes, have disagreeable,
 pelvic catarrhal drain, prolapsus, ante-
 version or retro-version or other displace-
 ments of womanly organs from weakness
 of parts will, whether they experience
 many or only a few of the above sym-
 ptoms, find relief and a permanent cure by
 using faithfully and fairly persistently
 Dr. Pierce's Favorite Prescription.

This world-famous specific for woman's
 weaknesses and peculiar ailments is a
 pure glyceric extract of the choicest na-
 tive, medicinal roots without a drop of
 alcohol in its make-up. All its ingredi-
 ents printed in plain English on its bottle
 wrapper and attested under oath. Dr.
 Pierce thus invites the fullest investiga-
 tion of his formula knowing that it will
 be found to contain only the best agents
 known to the most advanced medical
 science of all the different schools of prac-
 tice for the cure of woman's peculiar
 weaknesses and ailments.

If you want to know more about the
 composition and professional endorse-
 ment of the "Favorite Prescription," send
 postal card request to Dr. R. V. Pierce,
 Buffalo, N. Y., for his free booklet treat-
 ing of same.

You can't afford to accept as a substi-
 tute for this remedy of known composition
 a secret nostrum of unknown composi-
 tion. Don't do it.

VITAL PROBLEM IN HUMAN DESTINY

Discussed by Kaiser, King and
 Emperor at Their Recent
 Meeting.

London, August 18.—The meeting of
 King Edward and the Emperors of
 Germany and Austria, last week, have
 been of far greater importance than
 usually attaches to consultations be-
 tween monarchs. It is known that the
 principal topics at both interviews was
 the Turkish revolution.

It will be readily agreed that from
 the point of view of Turkey herself,
 and in its broader aspect of human
 progress, the greatest of modern
 political surprises is to be heartily
 welcomed. Germany, on the other
 hand, finds it a serious blow to her
 policy and ambitions, while for the
 British Empire it makes an imminent
 peril of the first magnitude.

Something of its first effects upon
 British interest in Egypt was indicat-
 ed in these despatches a week ago. It
 is India, however, which gives occasion
 for the gravest anxiety. Readers
 of this correspondence are familiar
 with the situation of great unrest
 which has prevailed in that vast
 dependency for the past two years.

Hopes have been entertained for the
 past few months that a crisis would
 be passed without a violent outbreak
 of sedition. The constitutional move-
 ment in Persia has not been particu-
 larly encouraging to Indian malcon-
 tents.

The political miracle in Turkey is far
 different in its portent for the vast
 Mussulman population under British
 rule in India. Far-seeing statesmen in
 this and other countries understood
 full well that the Western world is face
 to face with a great and momentous
 political resurrection of the oldest and
 most numerous races of the earth.
 Great changes are inevitable in the not
 distant future, and the three monarchs
 who met last week had before them
 the most vital problem in human desti-
 ny that this generation will have to
 solve.

The news from Constantinople and
 all the Turkish dominions last week
 continues to record that some strange
 fraternity of races and faiths which,
 from the first, has amazed diplomat-
 ists and students alike. The same
 moderation and restraint have char-
 acterized every move of the wise com-
 mittee of revolutionists. The terrified
 official thieves are surrendering their
 plunder, and Turkey and the Turks are
 coming into their own without a
 struggle. It is too early to consider
 that the danger of a reaction has
 passed. Abdul has still to be recon-
 ciled with, and it is not to be imagined
 that he is idle. Private reports from
 Constantinople continue to affirm that
 abdication is not far off, whether
 voluntary or compulsory, cannot be
 stated. The Young Turkey party has
 unanimously provided for every con-
 tingency, and its plans have been
 made in full detail. But it would be
 useless to speculate upon any action
 they may contemplate.

I T'S A FEAT TO FIT FEET.
 We are adepts in this art. Give us

 fitter.

QUEBEC SYNDICATE.
 Corner of Crown and St. Joseph St.

ADMIRAL RETIRES
 Lake Mohonk, N.Y., August 18.—Far
 from grim warships and the sea, where
 he spent 48 years in the service of his
 country, Rear Admiral Robley D.
 Evans, of the United States navy, to-
 day, in this quiet hotel in the moun-
 tains, reached the age limit, sixty-two,
 and passed from the ranks of the
 country's active fighters. His was the
 longest service of any man who reached
 the rank of Rear Admiral in the
 United States navy. Telegrams by the
 score reached him from all parts of
 the country. Sailors, soldiers,
 statesmen and civilians, in fact, every
 walk in life, was represented in the
 great outpouring of messages of con-
 gratulations that came to-day.

In reply to a query as to how he felt on
 his sixty-second birthday, "Fighting Bob"
 replied: "Fit as a fiddle. I am 62
 years young to-day and I expect to
 reach a hundred. I am taking on flesh
 at the rate of half a pound a day and
 I haven't got a thing to do but loaf.
 Who wouldn't get well under such cir-
 cumstances?" The Admiral said he
 expected to stay here until October,
 when he will go to Washington to be
 associated with the General Board in
 an advisory capacity.

OUR AUGUST CLEARING SALE CONTINUES WITH GREAT ACTIVITY.

To-day, in every department throughout the store a splendid array
 of new bargains will be offered.

Something everybody needs, or must have, at prices out of the
 harmony with value.

A personal visit will well repay you as it is impossible to even men-
 tion hundreds of the splendid values this occasion will afford.
