THE WEDDING OF MISS ROOSEVELT

Distinguished Company Assembled in the White House for the Ceremony; Rich Presents From Crowned Heads of Europe.

OFF FOR THEIR HONEYMOON IN AUTO.

Washington, D.C., Feb. 17.—In the beautiful white and gold east room of the White House, a few minutes after noon to-day, the Venerable Rt. Revd. Henry Y. Satterlee, Bishop of Washington, of the Protestant Episcopal Church, united in marriage Alice Lee Roosevelt, eldest daughter of the President of the United States, and Mr. Nicholas Longworth, the representative in Congress from the first district of Ohio. The ceremony was witnessed by one of the most brilliant and distinguished assemblages ever gathered in the White House. Approximately, one thousand persons were invited, but no list of the guests was furnished for publication.

The floral decorations were most elaborate. The large vases, each filled with Easter lilies and fern fronds, occupied each of the mantels, and two handsome tables bore jardinières of flowering rhododendrons.

At the great centre windows was a floral bower. A semi-circular platform was constructed before the windows. On this the ceremony took place, so that all in the room had practically an unobstructed view of it. The platform was carpeted in green, with an Oriental rug thrown over it. In colors, red predominated.

Banked back of the platform, and next to the windows, were palms, selected for the beauty and clearness of their leaves. This group of palms was fringed at the base with Astelia Japonica. Forming a background were Dracena Sanderil of green and white lilies. Above the platform there was a garland of greenhouse smilax and asparagus, with scores of bride roses nestling in the green.

The vases in the Green Room were filled with meibauts carnations of delicate pink, and fern fronds. The Blue Room vases bore Easter lilies, with fern and asparagus fronds; while two great vases at each end of the mantel were filled with Easter lilies and white roses.

The State dining-room was a vision of grandeur. The great high walls and ceiling, paneled in walnut, bearing just below the ceiling the hunting trophies of the President, formed a magnificent setting for the beautifully decorated table on which, amid a shimmer of silver and cut glass, the buffet wedding breakfast was laid. The great table, extending almost the entire length of the apartment, was decorated with vases of American Beauty and Bride roses, ferns and asparagus.

The decorations of the main corridor were beautifully artistic. Behind a screen of purple and pink flowers were stationed the Marine Band orchestra, under the leadership of Lieut. Wm. H. Santelman. A special programme had been selected, for the most part, by Miss Roosevelt. A few moments before noon, Mrs. Roosevelt, accompanied by the members of her family, ascended the main stairway, escorted by several military aides, entered the East Room and was escorted to a position on the left side of the platform, which was reserved for the bride's family.

Mrs. Roosevelt wore a superb gown, richly designed, of heavy, cream colored brocade, on which were figures of blue and brown, interlaced with threads of gold. The gown was made in Princess style, with a long train of the brocade material. The trimmings were of brown chiffon, embroidered in blue and gold. The yoke of the bodice was formed of embroidered chiffon, as were the trimmings on the elbow sleeves. Exquisitely designed panels in the skirt were made of blue and gold embroidery. She wore diamond ornaments.

Mr. Longworth, accompanied by his best man, Thomas Nelson Perkins, of Boston, then descended the main staircase, and took his place at the foot of the platform, to await the arrival of the bride. Promptly at noon, Miss Roosevelt, escorted by the President, descended by the elevator to the west end of the main corridor. There, awaiting them, were the ushers selected by Mr. Longworth. All of them are long-time personal friends and several were the bridegroom's class mates at Harvard. There were Quincy A. Shaw, Francis R. Bangs, and Guy Norman, all of Boston; B. A. Wallingford, jr., of Cincinnati; Lars Anderson, of Washington, D.C.; Vicome Chas. Chambrun, of the French Embassy; Frederic Winthrop, of New York; and Theodore Roosevelt, jr.

Proceeded by the ushers, the President and the bride proceeded to the East Room, the orchestra rendering the march from Tannhauser. Miss Roosevelt never looked better. Her bridal dress was a magnificent crea-

tion of heavy white satin, point lace, chiffon, filmy tulle and silver brocade. The material from which the gown was developed was manufactured especially for Miss Roosevelt, and the design was destroyed as soon as the necessary amount of the material for the dress was made. The gown had a long skirt train of superb silver brocade. The bodice was made high without a collar, was trimmed with rare old point lace, and the elbow sleeves were finished with the same filmy material. The sleeves just met the long white gloves. A voluminous tulle veil almost completely enveloped the bride.

The veil was held in place by clusters of orange blossoms. The slippers were fashioned from silver brocade, and, instead of buckles, tulle bows were worn, with clusters of orange flowers. The only jewel worn by the bride was the superb diamond necklace, which was the gift of the groom. Over her left arm Miss Roosevelt carried a superb shower bouquet of white orchids. The delicate blossoms were arranged in caste forms, the stems being tied with white chiffon satin ribbon, with long bows.

The ushers, who were in couples, separated as they reached the platform, and the President passed through the two lines, and presented his daughter to the waiting bridegroom, who stepped forward to receive her. Together they ascended the platform, where Bishop Satterlee, in the imposing robes of his office, already was standing.

In low tones, Bishop Satterlee pronounced the marriage service. At the conclusion of the responses from the bride and groom, the Bishop inquired: "Who giveth this woman to be married to this man?"

The President ascended the platform, and, taking his daughter's right hand, placed it in that of the bridegroom. By the ring, which an instant later was placed on the fourth finger of her left hand, she became Mrs. Nicholas Longworth. At the conclusion of the wedding ceremony, the assembled guests were received by Mr. and Mrs. Longworth on the platform and beneath the floral bower. They were showered with congratulations. The guests were then received in the Blue Room by the President and Mrs. Roosevelt. After the informal receptions, the bridal breakfast was served in buffet form, in the State and private dining room.

Few brides not of royal birth ever have been the recipients of so many and such valuable gifts as were received by Miss Roosevelt. For weeks these tributes have been pouring into the White House. They numbered nearly a thousand, and all have not yet arrived. The display consists principally of jewellery and rare bric-a-brac. There are necklaces, brooches, rings, bracelets, fans of unique design, clocks, watches, vases, loving cups, punch bowls, pictures, rare laces, exquisite silks and embroideries from the Orient, delicate carvings in ivory and the precious metals, handsome rugs and tapestries, rare silver and china table services, most of them manufactured from special designs. Among the gifts are some rare old laces and jewels from Mrs. Lee, the grandmother of the bride.

No list of presents was made public, but among them are the following: President Loubet, of France, magnificent gobelin tapestry, made expressly for Miss Roosevelt; Emperor William of Germany, bracelet; the Emperor of Japan, two beautifully chased vases of silver, and a piece of Japanese embroidery; Republic of Cuba, necklace of selected pearls; the Emperor of Austria, diamond and pearl pendant; the Empress Dowager of China, dower chest filled with rare articles; the King of Italy, mosaic table, depicting scenes of Italian life; Pope Pius X., mosaic representing a great painting in the Vatican; the King of Spain, pieces of antique jewelry; King Edward VII. of Great Britain, sent a gift, the character of which has not been disclosed.

The gift of Mr. Longworth to his bride was a necklace of selected diamonds.

As the wedding was a morning function, the women guests, for the most part, kept on their hats. The ladies of the President's household, however, wore no hats. Mr. and Mrs. Nicholas Longworth left the White House by the south entrance at 4.10 o'clock this evening, entered a large automobile and were driven rapidly away. It is understood that they went to "Friendship," the country residence of John R. McLean, on the Tenallytown road, which is located about six miles from Washington.

NEWFOUNDLAND FISHERIES AND PELAGIC SEALING

Negotiations Looking to Settlement of Both These Questions

JAPAN AND RUSSIA PARTIES

To the Latter—Proposition that Canada Should be Given a Share of the Seal Rookeries of Each of These Powers.

London, Feb. 17.—Upon the conclusion of diplomatic exchanges between America and Great Britain with respect to the Newfoundland fisheries case, which are proceeding slowly, it is believed that negotiations will be opened looking to a more satisfactory settlement of the pelagic sealing question. Some months ago the subject was brought up, but it was agreed that no immediate hurry was necessary and it was necessary to forego the decision until after the settlement of the question. When the seals again become the subject of formal negotiations Japan will be one of the parties and Russia also will probably participate. Japan it is understood would look with favor on an international law preventing pelagic sealing as she, like America, has islands on which she can take her pick from herds, killing the old bulls and leaving the females and young undisturbed, thus stopping the extermination which America contends must result from pelagic sealing. As on previous occasions the Canadian pelagic sealers will be the chief obstacle to a settlement, but the diplomats hope for a solution. It will again be suggested that America purchase the Canadian sealing schooners besides paying their owners compensation. But another proposal is that the Canadian Government be given a share of the rookeries owned by America and Japan. Possibly some months will elapse before the question is reopened, but certainly this is one of the matters which America and Great Britain hope to finally and satisfactorily settle.

In regard to Newfoundland the American and British Governments are exchanging notes respecting the right to which American fishermen are entitled under the act of 1818. Great Britain is believed to have satisfied America as to the charge that the Gloucester fishermen were the victims of illegal actions on the part of Newfoundland, who it was claimed cut American nets. Any new treaty or arrangement affecting American fishermen in Newfoundland waters will be arranged at Washington by Secretary Root and Ambassador Durand.

CHANGE POSITIONS

M. Falliere's Replaces M. Loubet as President of the French Republic.

Paris, Feb. 18.—Clement Armand Falliere to-day assumed the duties of President of France, while former President Loubet passed into private life. The ceremony of the transmission of office took place in the Elysee Palace at 4 o'clock this afternoon, while the crowd of thousands in the surrounding streets shouted "Long Live the President" and "Long Live Falliere," and every military garrison in France thundered a salute of 21 guns. President Loubet, surrounded by the members of the Cabinet, the Presidents in the Senate and Chamber of Deputies and the members of his military household, welcomed M. Falliere and in a few earnest words committed the executive functions to the new President. The reply of M. Falliere was without formality. It was a simple acceptance of the new responsibilities and an assurance of his best efforts in carrying them out. Messrs. Falliere and Loubet both wore evening dress with the broad scarlet sashes of the grand cross of the Legion of Honor across their breasts. The presence of their military staffs in full uniform gave a touch of brilliancy to the scene within the Palace, while the escorts of cuirassiers which accompanied Messrs. Falliere and Loubet to and from the Palace gave fitting dignity to the occasion. Following the ceremony the former President and his family withdrew to their private apartment in the Rue Dante. President Falliere and Mde. Falliere will take up their residence at the Elysee Palace to-morrow. The Minister of War gave the soldiers a half holiday with extra wine, and their barracks throughout the city were gay with flags; but otherwise the streets presented the usual Sunday aspect, there being no spectacular features. Thousands lined the street from the Luxembourg Palace to the Elysee and cheered the new President as he passed with Premier Rouvier. The President elect drove within the courtyard at the Elysee Palace. A regiment of infantry which encircled the entire court yard rendered military honors, bugles sounded fanfares, the colors were dipped and the band struck up "The Marseillaise." President Loubet awaited his successor in the salon des Ambassadeurs, where the formal transmission took place. As a delicate compliment, President Falliere drove with M. Loubet as the latter left the Elysee Palace to return to the life of a simple citizen. This evening Premier Rouvier formally handed the resignation of the Cabinet to President Falliere. The new President, however, requested the ministry to continue in office. The Cabinet will meet Tuesday morning for the first time in the administration of President Falliere.

Messrs. J. A. Thiberge, Salmon Lake; L. P. Decourval, Arthabaska; Jacquesmart La Tuque and M. Dupuis, of St. Roch, DesAulnaies, are guests at the Neptune Inn.

The Quebec Chronicle

QUEBEC, FEBRUARY 19, 1906.

SPECIAL ELECTION EDITION.

The Chronicle has arranged for a special service of the returns of the different polls to-night, and will publish a special edition at 6 o'clock, giving the winning candidates their majorities and other interesting details. For sale at all newsdealers. Order your copy from your newsdealer early to-day.

We might also add that the election returns will also be bulletined at the Chronicle office.

THE FINAL WORD.

To-day is the decisive day in the municipal campaign, and on its results depend momentous issues for the community. We trust that the electors will exercise their franchise wisely and well, and that there will be none who will shrink from any cause sover from performing what is more imperatively than usual the duty and privilege of a good citizen. For our own part, we have only to repeat, and, if possible, impress upon the public still more forcibly, what we have already said on the subject of the choice that is to be made to-day. Now, if ever, we need in the Civic Council men of integrity and business capacity, that is the one, and the only question which the electorate should consider; not personal likes or dislikes, not the political or personal alliances or inclinations of the candidates, but simply their honesty and capability. The two things go together, and must not be separated, for a man may be perfectly honest, and yet capable of muddling up business matters to a surprising extent with the very best intentions in the world, or an intelligent and successful man, and yet be scarcely fitted for being entrusted with the management of the Civic affairs, however well he may manage his own in private life. There is every indication that Quebec is now seeing the commencement of a new era, which will be prosperous, or disastrous according as the citizens are true or false to themselves. Ameliorations and improvements which will surpass those already effected, of which we are, not unreasonably, proud, will tax all the talent of our city legislators to participate in energetically and at the same time prudently, and will call for expenditures and possible sacrifices on the part of the citizens which will need great care and vigilance to keep within legitimate bounds. These operations will doubtless extend over a term of years, and it may be thought that the comparatively short life of a City Council will prevent serious consequences from any mistake that may have been made in the selection of its members, but it must not be forgotten that "ce n'est que le premier pas qui compte," the initial step taken, is the one that decides the direction of the whole future course, and if afterwards it is found that that direction is the wrong one, the endeavour to get into the right path is burdensome, and the retracing of the steps painful and expensive. The welfare not only of the present but of the coming generation also largely depends on the choice of the day, and it is important that that choice should be made only after serious consideration, and without passion or prejudice. Of these latter we have had too many signs during the preliminary campaign, and the only good thing that may be hoped from them is that they have acted as safety-valves in blowing off the superfluous steam; if so, they have not been without use after all, but now that the time has come for action, not talk, they should be consigned to oblivion. The advice of the farmer to his son who was going to Donnybrook Fair for the first time, "Wherever you see a head-hit it!" may be paraphrased to-day into "Wherever you find a candidate that is honest and capable elect him—never mind anything else."

We do not mean to insinuate by this that in the contested elections there is a direct issue between honesty and corruption, intelligence and the lack of it. It is seldom that Quebec has had a greater embarrassment than she has now in the personalities of the gentlemen aspiring to civic honors, and it may very easily be that the choice between any two is not easily made; that the opposing candidates may each be gentlemen of integrity and capacity. What then is to be done? Should personal feelings be allowed a voice? In reply, we can best quote the anecdote of a certain English statesman: (He was a Liberal, by the way.) He was telling a friend that in election times he always made it a rule to shout with the mob. "But what would you do if there were two mobs?" was the question. "Shout with the largest." So to the citizens to-day we say, "If you have two good men to choose between, choose the best."

CORN IS DEAR

The loss of time and comfort caused by a corn makes it dear to keep. Better invest in Putnam's Corn Extractor and cure that corn. Putnam's is painless and acts in twenty-four hours; use no other than Putnam's.

CANADA'S PUBLIC DEBT.

With an increase of \$3,431,938 in revenue for the seven months ended 31st January last, one would scarcely look for a large increase in the public debt of the Dominion, but such is regrettable the case. At the close of the seventh month of the current fiscal year the total gross debt was \$388,419,577, and the assets were shown at \$126,695,841, making the total net debt \$261,723,735. Compared with December last, there was a large increase of \$9,552,686 in the total gross debt, and one of \$7,019,812 in the assets, making for the month an increase of \$2,532,874 in the net debt. Compared with January, 1905, there is an increase of \$14,082,044 in the total gross debt, and one of \$6,626,262 in the assets, making for the twelve months an increase of \$7,255,780 in the total net debt, of which more than one-third was incurred during the month of January.

THE LAURIER GOVERNMENT'S GREAT ACHIEVEMENT.

The most notable achievement of the Laurier regime has been the inauguration and establishment in Canada of the Political Party Machine known as the Patronage Committee. Such a committee consists of a band of ward heelers in each constituency who, like a gang of brigands, hold up every applicant for Government favors—employment or contracts—and make the payment of a rake-off for party purposes a condition precedent to the Patronage Committee allowing the member for the county to recommend the applicant for any consideration at the hands of the Government. The members of Parliament are given a back-seat as to patronage; the Patronage Committee is made supreme, and the purpose of this piece of machinery is to collect toll out of the Public Treasury for the purpose of corrupting the electorate. How well the Patronage Committees carry out their vicious work is written broad and deep in the corrupt condition of the country to-day. This is the Laurier Government's most notable achievement.

NOISE AND NEURASTHENIA.

It seems to be the opinion in New York that the only persons who object to noise are those who suffer from shattered nerves. This is a strange notion. Ear-splitting sounds, it might be inferred, constitute a perfectly normal condition, whereas a reasonable degree of quietude is unnatural. For example, our esteemed contemporary, the Times, commenting on the fact that the attempt to make the anniversary of President Lincoln's birth a general holiday has proved "an almost complete failure" in New York, says: "The trouble is, we as a nation do not care for holidays of this sort. Fourth of July is the only one celebrated from the popular heart, and the 'barbarity' of that celebration has many and severe critics among that large and influential part of our population, the neurasthenics." If every person who objected to the "barbarity" of Fourth of July celebrations were a neurasthenic, this great and glorious nation would be in a distressing plight, indeed. The question is not so much one of nerves, however, as of common sense. A man may be perfectly poised physically and mentally, with his nerves in good working order, but he may object vehemently to being placed at the mercy of men who use pistols, cannon and dynamite to express their joy on July 4. This isn't neurasthenia. It is simply a prudent regard for one's safety. It is necessary and justifiable self-defense.

BAD BUSINESS.

Miss Anna Gould bought a bad lot when she purchased Count Boni Castellane. The lady is so perfectly convinced of the fact that she has applied for a divorce. More than that, and as the count probably thinks, worse than that, she has cut off financial supplies. The descendant of Castellanes of various shades of character has been compelled to hock his watch. He, a member of the Chamber of Deputies, has been forced to do business at the national pawnshop, the Mont de Piete.

It must have been a pretty severe come down for this young French person, whose clamorous shrieks were the admired of all New York, to hand over his time piece to his official uncle. His journey to the pawnshop was a slightly different trip to the one he made to the great palace which he bought after his marriage to a section of the late Jay Gould's millions. If report speaks truly, he has developed into a thoroughly undesirable person, from whom Anna Gould will make no mistake in separating.

English-American marriages seem to be almost always successes. There is a long list of them, and few have terminated in the divorce-court. The notorious cases of Clara Ward and Anna Gould seem to prove that a foreign title is a risky business investment. Failing an Englishman, the cis-Atlantic heiress might better seek her spouse among the uncrowned kings of the American democracy.

THE MIRACLE OF EGYPT.

The redemption of Egypt, material, political and moral, under British rule, is one of the miracles of civilization. From slavery to practical freedom; from bankruptcy to solvency; from ever-recurring war and bloodshed to assured peace; from lawlessness and injustice to absolute security of individual right and property; from crushing taxation to but slight and unfelt Government imposts, Egypt has moved in the twenty-three years since Tel-el-Kehir, in the face of such political and international complications, jealousies and obstructions as would have seemed absurd in comic opera, but were in grim fact a degree more difficult and dangerous than even absurd. Vast irrigation works have added millions of fertile acres to the productive power of the community, a considerable railway system developed, and a large commerce; educational facilities created, a degree of local self-government established, all under the principles of a broad and complete religious toleration, and absolute freedom of trade.

This British work keeps on. Another mark was made when a couple of weeks ago the new railway was declared open from Athara, on the Nile, to Port Soudan on the Red Sea.

Hitherto the traffic of the Soudan, taking Khartoum as a centre, has had to find an outlet either by caravan to the Red Sea, or north twelve hundred miles to Cairo by rail or the Nile. The new railway, taking off from Athara, cuts off 900 miles of the rail journey from Khartoum to salt water. The new road is 331 miles long, and has been completed in a year and a half at a cost of \$7,000,000.

Yet this is but an episode.

BRITISH POLITICAL DEVELOPMENTS.

Indications are forthcoming that a modus vivendi will be established which will permit of the fiscal reformers and retailors acting together as His Majesty's Opposition in the British House of Commons. It is not easy to see what other solution is possible after Mr. Balfour's definitive refusal to abandon his own particular policy, which, sooth to say, he has more emphatically than ever dignified by the name of fiscal reform. But victory, if it be a victory, is but Pyrrhic at the best. If fiscal reform in the Chamberlain sense is accepted as permissible, it will prove the Aaron's rod and swallow up the lesser varieties of the species.

British politics along this line are fraught with many possibilities, not the least interesting whereof is the ultimate attitude of the Irish Nationalists, many of whom are admittedly anti-free traders. Nor is it at all improbable that an influential section of the Trade Unionists may ultimately develop protectionist inclinations. These are meantime kept in check by the present industrial boom which, despite the unemployed agitation, is too marked to be ignored. A period of industrial depression, with the consequent aggravation of social troubles, cannot but lead to a more general recognition of the evil of restricted markets. This in turn would demonstrate the necessity for some effective lever for breaching the high tariff walls erected by Britain's trade competitors—a lever only to be found in a tariff policy.

CAMBLING WITH DEATH.

What Many of Us Are Doing Three Times A Day.

For everything we get something is taken away. Every act pulls two ways. Some men in power dole out their souls for it. They can't have soul and power at the same time. And so, in this quick-living age, most of us can't have energy and health at the same time. One or the other must be lost, and it is usually health.

We know we are doing wrong and would like to reform, but we have a morbid fear of being laughed at if we aim to live and act according to conscience and good sense.

Some of us break away for awhile and enslave ourselves to a diet. We read about the hardy Scotsman being fed on porridge and oatmeal, making soldiers of muscle and dash, and how Caesar's army was fed on corn. But the diet doesn't last long. We quickly swing back into the great line, eating and drinking to fullness like the rest, eating anything and everything, at any time, and any way we find it. We say "what is a stomach for if it isn't to obey the palate."

But there is really no one rule applicable to everybody's stomach. What one man may eat another may not.

But the dyspeptic should remember that the death list has a dark shadow hovering over it with a long bony finger pointing to "died of heart disease." Physicians will tell us that there are few cases of heart disease that do not come from a stomach derangement.

At every meal we may be brewing for ourselves a terrible case of dyspepsia. It may come upon us after breakfast to-morrow morning, or after that oyster supper to-morrow night.

Acute indigestion means that you have even chances for death or life. That's the gamble you are taking. That precious gastric juices decides, as a rule, whether you continue to live or not.

Therefore, if you feel your food lies like a "lump of lead" on your stomach, beware! Your gastric juice is weak. It can't dispose of the food in time to prevent fermentation. Take something that will do it effectively, and at once. Take Stuart's Dyspepsia Tablets, the most powerful tablets in the world for the relief of all kinds of stomach trouble, nausea, indigestion, the worst cases of dyspepsia, fermentation, bloaty feeling, sourness, heartburn and brash.

STABBED TO DEATH.

New York, Feb. 16—Antonio Comfort, 25 years old, was stabbed to death to-night in Rosebank, S.I., by Chas. J. Hicks, 48 years old, a painter. Following the fatal attack several friends of Comfort set on Hicks and were kicking and beating him when policemen arrived on the scene. His nose was broken and he is believed to have been internally injured.

AN ADMIRER OF MISS ROOSEVELT.

Washington, Oct. 16 — Peter Carlsson, a Swede, who said his age was 44 years, and his home was in New York city, was arrested at the White House to-night on a charge of insanity and locked up. Carlsson had been walking up and down the pavement and had tried the gate at the east entrance of the grounds when a policeman asked him what he wanted. He replied that he wanted to see Miss Alice Roosevelt to whom he said, he was engaged to be married. Carlsson was well dressed, carried a satchel and appeared to have considerable money.

PRESIDENT DOLAN REMOVED.

Pittsburg, Pa., Feb. 16 — After two weeks of uprooting and disorder that on several occasions almost resulted in riots and finally an appeal to the courts, the delegates to the convention of district No. 5 United Mine Workers' of America to-day succeeded in passing a resolution declaring vacant the offices of President Dolan and Vice-President Bellingham. The resolution passed over the head of Dolan. President Mitchell, of the United Miners, who is in New York, was notified by telegraph of the action of the convention and, following out his declaration in a telegram previous to the presenting of the resolution. He is expected to telegraph the names of the temporary officers of his selection so that they may be announced in the convention to-morrow. There was some anxiety as to the possibility of the delegates being in contempt of court inousting the officers, but attorneys present explained the injunction that was granted Dolan earlier in the week protects Dolan from violence, but does not interfere with the transaction of business. Dolan, upon the passage of the resolution, again declared that he would not vacate the office unless by a vote of the miners of the district by whom he was elected. Tomorrow's session of the convention is expected to be a turbulent one.

FIVE GOALS TO ONE

Was the Score by Which
Grand Mere Downed
Quebec II.

The Grande Mere hockey team put a crimp in the Quebec II's championship aspirations on Saturday night, when they took the locals into camp by a score of 5 goals to 1. The visitors were undoubtedly the heaviest and huskiest team seen on local ice this season, and they put up a good article of hockey, being fairly fast and making a good attempt at combination. The Quebec team looked like midgets in comparison with their opponents. They had their work cut out for them from first to last, and combination play was almost impossible. They had about a dozen shots on goals to every one by their opponents, but poor shooting and the phenomenal stopping of Paquet, the Grande Mere goal-keeper, rendered their efforts futile. The locals missed Staveley off the wing very much. Both Macdonald in centre ice and Harold Blair at cover-point played star games, and Leblanc at point also put up a hard struggle. The star of the visitors was undoubtedly Paquet, the goal tender, who, though kept pretty busy all the time, managed by good work, and, it must not be denied, assisted by much good luck, attended to everything that came his way. The visitors' defence was strong and effective and the line worked well together. Grande Mere scored twice in the first half, and after scoring once more in the second began to play a defence game, with an occasional run or two. The Quebec team forced the whole Quebec team to rush, and even Goal-keeper Power started playing on the forward line. While he was up the ice on one occasion, Grande Mere scored again, shortly after which Macdonald scored Quebec's first and only tally. Quebec continued to rush, and while Power was up the ice again he got into collision with a Grande Mere man and was sent off. Grande Mere scored once more before time was up. The game was a clean one, only a couple of men on each side going off, though one of the visitors had a finger hurt through coming into contact with a hockey stick. Desse Brown made an impartial referee, though he was rather lax on off-side, playing a couple of off-side passes. The being scored on led to overcome in the return match at Grande Mere next Saturday night, and will have to improve in their work around the poles if they wish to score games. The teams were as follows:—
Grande Mere—Goal, Paquet; point, A. Bellefeuille; cover-point, Mooney; centre, Gill; rover, Mooney; wings, Bowen, M. Bellefeuille.
Quebec II—Goal, D. Power; point, Leblanc; cover-point, H. Blair; centre, Macdonald; rover, Leona; wings, LaRue and Mooney.
Referee—Desse Brown, Montreal.

SHAMS TRIMMED BY OTTAWA.

Ottawa, February 17.—The Shamrock hockey team, of Montreal, were completely overwhelmed here to-night by the Ottawas, before a crowd numbering only about 1,000. The champions had the game well in hand all the time, and the last half was a burlesque on hockey. The Ottawas simply toyed with the green shirts, and the crowd were apparently pleased with the affair. Many amusing incidents occurred, and the match was signally free from goals, only Alf. Smith, Pete Brennan and Muri getting in the fence for minor offences. The first half ended 5 to 1 for the champions, and they added more in the second, the visitors only netting another in the final period. At no time did the match arouse any enthusiasm, and the article of hockey put up was an exceedingly ragged brand. The only redeeming feature of the Shamrocks' game was the exhibition put up by Kenny in goal. He stopped half a hundred difficult ones, and that thirteen got by him is no reflection on his ability, as he was practically unprotected, and the Ottawas peppered him at will. The locals were short of Westwick, whose place was taken by Elsie, of the Emmetts, a city league team.

BOILS ALL OVER HIS
FACE AND NECK

BURDOCK BLOOD BITTERS
DID FOR HIM
WHAT FOUR DOCTORS
FAILED TO DO

KEEWATIN, ONT., July 28th, 1905.

MICHES, THE T. MILBURN CO., LTD.

TORONTO, ONT.

DEAR SIR:—I am writing to let you know what Burdock Blood Bitters has done for me. I am a young man, twenty years old, and a year ago last March I began to feel dull and sick, and was greatly troubled with boils coming out on my face and neck, mostly on the left side. I would no sooner get rid of one than I would have, perhaps, two or three more appear.

I had four doctors trying to cure me but they had very little success. They would stop them for a month or six weeks and then they would be as bad as ever again.

Almost every patent medicine, advertised to cure boils, I could get hold of, I tried, but still without success. At last one day, I saw, in a newspaper, an advertisement for "why not try taking Burdock Blood Bitters?"

I immediately sent for a bottle, but at the time was doubtful if it would be of any use. However, I used that bottle and while I was taking it I began to feel better, although I still kept having a few boils but not nearly such bad ones. I did not miss any work, while otherwise, I used to miss, sometimes, a week out of every month. I kept on taking the medicine until I had taken six bottles, and needless to say, I was now cured. I did not get rid of one but I had not a boil appear for the past three months. Every body was surprised when they saw me, and they all said, "I never saw you so well before."

I had four doctors failed to do. If any suffer from boils, I would strongly advise them to use B.B.B. I make you feel like a new man. I always keep a bottle in the house, now, as I think it is a medicine that should be in every household.

Yours truly,

HENRY A. SMITH.

MCGILL ATHLETICS

No Partial Courses in Future
to Make Things
Easy.

Montreal, Feb. 17.—At the meeting of the grounds and athletics committee of McGill on Monday, the matter of the approval of the proposed constitution of the new Intercollegiate Athletic Association will come up. As Prof. McLeod, of McGill, is one of the organizers of the scheme, the consent of the committee will certainly be received. Toronto and Queen's have approved of the scheme, and it is now only a matter of time—and not a very long time—until the association is in running order. The rules of the C. A. A. U. have been unsatisfactory to the college authorities for some time past. The prime object of the new union is to make intercollegiate sport absolutely amateur. The ruling committee will consist of two members from each of the three universities. McGill, Toronto and Queen's. The other colleges may each send a representative. The important part, though, is that one of each pair from these three colleges must be a member of the faculty, and that on the shoulders of these three members of the different faculties will fall the burden of determining the standing of any player. At first this seems rather unfair to Ottawa College, but these three colleges each have three intercollegiate leagues in common at present—track, football and hockey—whereas Ottawa College has only a football team in competition with the others. At any rate, these universities have taken this stand, and it amounts to saying to the other colleges, "If you want to do as we do, you may come, if not, stay away." In regard to playing rules, these will be the same as at present, only under a common constitution. An important move is being made in the Science Faculty at McGill to absolutely prevent any man from coming to college with a view to putting all his energies into athletics, and "faking" his course. What this move is has not yet been given out, but it is practically certain that it means either the abolition of all partial courses or the prevention of a athletic student from taking part in athletics.

SHERBROOKE CURLERS DEFEAT-
ED.

Montreal, Feb. 17.—Two Thistle rinks skipped respectively by Reid, W. W. Mowatt and Reid, Dr. Barclay, defeated two rinks from Sherbrooke, skipped by C. W. Cote and J. Craig, by four shots this morning.

The Heather rinks away from the Sherbrooke curlers in the afternoon, winning by 30 points. The Heather skips were C. W. Tofield and D. W. Ross, while Col. R. J. Spensing and Clark Gordon acted for Sherbrooke.

MATCH THIS EVENING.

St. Patrick's hockey team will meet the Jeune Mascotte seven at the Quebec rink to-night. The match promises to be a hummer, as both teams will be strong, and contain fast men in their ranks.

QUEENS TO PLAY OTTAWA.

Ottawa, Feb. 17.—It is understood that Queen's of Kingston, and Ottawas will play two matches for the Stanley Cup, the majority of goals to count. A member of the Stanley Cup-holders' executive stated last night that the dates of the series had been agreed upon, as Tuesday, February 27, and Thursday, March 1.

EASTERN BASEBALL SEASON

Buffalo, Feb. 17.—The schedule committee of the Eastern League met here to-day. The schedule prepared by President Harry L. Taylor was revised and will be submitted at a league meeting to be called in about three weeks. The season will open in the latter part of April and 119 games will be played.

SPEED SKATING CHAMPIONSHIPS

New York, Feb. 17.—The National amateur speed skating championships of the United States and Canada at distances of 3 miles, 1 mile and 1/2 mile, were decided on the Bronx to-day and Morris Wood, of New York, won all three. His time in each event follows:—Half-mile in 1:32, one mile in 3:08 2/5, and three miles in 10:12 4/5.

A CANADIAN WINNER.

Pinehurst, N.C., Feb. 17.—A perfect day and an 18 hole medal play handicap with a field of sixty starters brought the second annual St. Valentine's tourney to a close to-day. There were two classes, A and B, with cups for the best gross and the two best net scores in each. L. D. Pierre, of the Woodland Golf Club, Auburndale, won the class A gross score trophy with a card of 83, C. H. Rosenfield, of New York, (12), and J. A. H. Dunn, of Pittsburgh (6), tying for the net score prizes at 80. A. Redpath, of the Montreal Golf Club, took the gross score trophy in class B with 94, and E. W. Bigelow, of Dyker Meadows (18), the net score cup at 76. R. L. Schofield, of Westburn (24) and F. L. Dunne, of Westburn (18), tied for the second net prize at 82, Schofield winning by default.

STUDENTS FENCING BOUT.

Philadelphia, Feb. 17.—Two students at the University of Pennsylvania, whose homes are in Paris, to-day fought a duel on Franklin field with foils to settle a dispute which occurred in the class room. The principals were Georges Emile T. Beltrami and Claire Marie Boudy. The two men are members of the senior class of the dental school. The meeting was witnessed by 35 students. Pierre Jean Roussel, another French student, acted as referee. The bout lasted for 16 minutes. Toward the end of the affair Boudy, who did most damage and who was the only one to bring blood, slashed Beltrami's sword forearm, inflicting a gash about 4 inches long. The referee, however, awarded the bout to Beltrami, inasmuch as he had bout the first three touches upon his opponent's body.

A New Magazine for You

I am bringing out another new magazine that you will come pretty close to liking. I wouldn't be surprised if it hit you harder than anything in the shape of a magazine you have ever seen. There isn't much style to it, but it has the stuff in it that you and everybody else will want to read. It is called

THE
SCRAP
BOOK

Something New in Magazine Making

THE SCRAP BOOK is the most elastic thing that ever happened in the way of a magazine—elastic enough to carry anything from a tin whistle to a battleship. Everything that appeals to the human brain and human heart comes within its compass—fiction, which is the backbone of periodical circulation; biography, review, philosophy, science, art, poetry, wit, humor, pathos, satire, the weird, the mystical—everything that can be classified and everything that cannot be classified. A paragraph, a little bit, a saying, an editorial, a joke, a maxim, an epigram.

Nothing Like It in the World

There isn't anything in the world just like THE SCRAP BOOK. It is an idea on which we have been working for several years, and for which we have been gathering materials. We have bought hundreds and hundreds of scrap books from all over the country, some of them a century old, and are still buying them. From these books we are gathering and classifying an enormous number of gems, and facts and figures, and historical and personal bits that are of rare value. Furthermore, we have a corps of people ransacking libraries, reading all the current publications, the leading daily papers, and digging out curious and quaint facts and useful facts and figures from reference book, cyclopedia, etc., etc.

Don't fail to get a copy of this first issue of THE SCRAP BOOK. It sells at the price at which all our other magazines sell—Ten Cents a Copy and One Dollar by the Year.

A TRIBUTE PAID ST. PATRICK'S DAY

By Dean Williams to Memory of the Late Judge Andrews.

A very sympathetic tribute was paid to the memory of the late Judge Andrews by the Very Rev. Dean Williams during the course of his sermon at the Anglican Cathedral yesterday morning. The loss sustained by the death of Judge Andrews, said the Dean, was a very heavy one and one that would arouse feeling of universal regret. The late Judge had been an able, painstaking and conscientious member of the Bench, who had won the high esteem and had commanded the confidence of all, irrespective of distinctions of race and creed. He had ever been a sincere and consistent Christian, and had always taken deep interest in church work, having been a member of the Select Vestry of the Cathedral. In conclusion Dean Williams expressed his condolence with the family, in which he was sure every member of the church would heartily join.

MAJOR W. H. DAVIDSON

On Monday evening in Chalmers Church, the pastor will tell a story of Lorna Doone. Music by Mr. Reid and Mrs. Jenkins. Collection for the Sunday School library.

FANCY DRESS CARNIVAL.
The secretary will be at the rink this afternoon to register the names of the members taking part in the fancy dress carnival to-morrow night at the Quebec Skating Rink. The plan of reserved seats will also open this afternoon. The children's fancy dress carnival will take place on Thursday afternoon from 4 to 6 o'clock.

SUDDEN DEATHS.
A man named Abraham Royer, 48 years of age, dropped dead at his residence in St. Roches on Saturday morning. Dr. Jolicoeur has been notified of the case and will hold an inquest this morning.

Dr. Jolicoeur was also notified yesterday of the sudden death of a young child of Ludger Gingras, of Montmorency Falls. The child, which was two years of age, was found dead in its cradle. An inquest will be held to-morrow morning.

OBITUARY.
The community and many friends of Dr. Catellier were very much grieved to hear on Saturday of the sudden death, at 37 years of age, of his son, Dr. Al. Catellier, at Berlin, N.H., U.S. Deceased studied at the Seminary and Laval in this city, and the young men of his time will remember the eminent qualities of the bright and popular student. In Berlin he was highly appreciated for his knowledge and ability as a physician, as well as for his kindly disposition and goodness of heart. Dr. Catellier left for Berlin on Saturday and will arrive here with the remains of his son on Tuesday morning. The service will take place at 9 a.m. the same day, at the Basilica, after the arrival of the G.T.R. train from Richmond. The burial will take place at St. Charles Cemetery. The Chronicle joins in the general sympathy extended to the afflicted and much respected family in their sad bereavement.

CAPTAIN'S STORY
How He Got Cut and 'tays Out of Trouble.

Capt. Abram Jones, of 174 E. 26th St., Los Angeles, Cal., tells an interesting coffee story, and says he can be publicly quoted:—
"I drank coffee all my life," he says, "and took no harm, I thought, till about ten years ago when a variety of ailments attacked me one after the other."
"First came a disordered stomach, followed by palpitation of the heart which was very severe, some attacks lasting 4 or 5 hours at a time. Then my bowels got out of order, and I suffered from chronic constipation. This ran on for some years."
"Finally I quit the drugs and struggled along the best way I could, taking the advice of friends but never getting any better. At last I was taken so seriously sick that I had to go to bed and the doctor told my family I could not recover."
"While I lay in this condition a friend suggested that I quit drinking the old kind of coffee and try Postum Food Coffee—to see what it would do for me. He said Postum had pulled him through when he was similarly afflicted."
"I took his advice, quit coffee and drank Postum, and in two months' time was in good health. I was so elated at the result that I told my doctor about it. He wasn't very well posted on the facts at that time and said that he did not believe that leaving off coffee and using Postum had anything to do with my improved health, but that it was due to good medicine and good advice from the family doctor; that my sickness had worked out of my system the diseased conditions that had been developing for several years; that I could now look forward to good health for some time to come, and that I had better resume coffee drinking, in moderation, and thus save my family the trouble of preparing an extra table beverage every day."
"I took the doctor's advice, stopped the Postum and began drinking coffee again. The result was that all my old troubles came trooping back, and I was soon once more seriously ill. Then I became alarmed, and swore off coffee for good and all, and resumed the use of Postum, and got well again."
"My health is now as good as it ever was. My dyspepsia is gone, I never have heart palpitation any more, my bowels are in good working order, and all the little ills that go with the big ones have disappeared."
"It is now 5 years since I quit coffee and began to use Postum, and in all that time I have not paid one cent for medicine."

There's a reason.

STILL CROWDED.
The Q.A.A. Rink was again crowded yesterday afternoon, and all those present enjoyed two hours of good sport in the open air. The ice was in splendid condition, and the band rendered a fine selection of music, adding greatly to the pleasure of the many skaters and spectators. There was also a large crowd placing their votes for the most popular young lady attending this favorite rink, which competition opened yesterday afternoon, and will remain open until the 27th inst., when the manager will present a handsome manure set to the young lady having the most votes. A carnival has been arranged for the (27th) Mardi-Gras, and several valuable prizes will be given on this occasion for the best costumes. In the meantime the band will play every fine night.

A SUCCESSFUL BALL.
One of the most successful balls of the season was given on Friday night last at the Chateau Frontenac when over 200 guests of the elite of Quebec and Levi were present on the invitation of Mrs. (Dr.) Ladriere, of Levi. Owing to the illness of Mrs. Ladriere, the guests were received by Mesdames A. Turgeon, Alf. Turcot, Alex. Hardy, L. Hamel, and J. Obaleki. Dancing was kept up until an early hour Saturday morning and at midnight a sumptuous supper was served.

Precession This Year Promises to be on a Large Scale.

A mass meeting was held at Tara Hall yesterday afternoon in connection with the coming celebration of St. Patrick's Day. There was a very large attendance, and much enthusiasm displayed. Mr. J. Gallagher presided, while Mr. D. J. Kane acted as Secretary.

Reports in connection with the coming celebration were presented by the officers of the various Irish national and benevolent societies and the delegates appointed at the last public meeting. These reports were discussed and a unanimous decision was arrived at to have an outdoor parade on March 17th next. From present appearances, the proposed procession will be one of the largest and most imposing held in the Ancient Capital for many years.

Eloquent addresses were delivered by Messrs. J. Hall Kelly, M. J. Ahern, Dr. J. C. Howe, J. J. O'Flaherty, M. Coleman and J. Macnamany in connection with the celebration, and evoked great enthusiasm.

Another meeting will be held on Sunday next, when the report on the route of the proposed procession will be considered and decided upon. It is proposed to hold a large public meeting in about two weeks time, at which a number of prominent speakers will be present.

IMPORTANT PROPERTY DEAL.

The firm of J. B. Renaud & Co. have just purchased from the Renaud estate the large building adjoining that of the firm's present one and occupied by J. B. Letellier & Co. The price paid is stated to be in the vicinity of \$50,000.

HEAVY FINE.
The man arrested for creating a disturbance in the kitchen of the Chateau Frontenac and striking a waiter, was fined \$20 and costs or one month's imprisonment by the Recorder on Saturday. On a second charge of drunkenness he was fined \$5 and costs or fifteen days.

AUDITORIUM DIRECTOR.
Mr. Jules Bone, Jr., the energetic and popular steamship, ticket and freight agent of the C.P.R. Company in this city, has been appointed a member of the Board of Directors of the Quebec Auditorium in succession to Mr. H. Kennedy, whose business obligations prevent him from devoting the necessary time to the theatre's affairs. The selection of Mr. Bone, whose business enterprise and courteous tact are so universally known, will prove a good one.

A LONG SESSION.

The members of the Levis Municipal Council gave a notable proof of their devotion to their public duties last week when they sat one evening from 7.45 o'clock until 3.30 o'clock the following morning. The question under consideration was the proposed arrangements between the Levis County Railway Co. and the corporation. All the councillors were present, as were Mr. H. H. Morse, manager of the company, and Mr. C. Blouin, acting for the company. The members sat in committee until 3 a.m., after which at 3.15 a.m. the session of the Council was opened, and the proposed arrangement was adopted, the only dissident being Councillor Belleau, who objected to that part of it relating to the removal of snow on streets through which the cars runs. The Council adjourned at 2.30 a.m.

WILL VOTE TO-DAY

Municipal Contest, Which has Been a Warm One, at an End.

To-day the taxpayers of the city will cast their votes for their respective choices for the office of Alderman for the ensuing two years, and the warm municipal campaign, which has been in progress for over a month past, will come to an end. The polls will open at nine o'clock in the morning and close at five p.m. There are 46 candidates in the field for 22 seats, eight candidates only having been elected by acclamation. On Saturday evening and last evening the last finishing touches to the campaign in the way of public meetings were given, and there were large gatherings in every case. Mr. L. A. Taschereau held another enthusiastic meeting at his committee room at the corner of St. Paul and St. Nicholas streets. Mr. Max Clement had a large assembly of his friends at his rooms in St. Joseph street. In St. Roch and St. Sauveur wards there were also large meetings at all of which eloquent addresses were delivered in favor of the respective candidates.

Last evening Ald. Clement held large meetings in his central committee room, St. Valier street, and also in his quarters on St. Joseph street, the speakers being Messrs. E. Caron, L. Robitaille, and J. B. Bernier. Great enthusiasm was displayed and all the speakers well received. Mr. Huard, who is running in opposition to Ald. Clement, held a meeting in the Jacques Cartier Market place, the speakers on this occasion being the candidate and Messrs. A. Lavergne, Jos. Hudon and F. Schryburt.

A NARROW ESCAPE.

Four young men driving in Bridge street last evening had a narrow escape from a very serious accident. The carter was driving his horse at a fast speed when on crossing the corner of Deslozes and Bridge streets the sleigh was struck by car No. 53. Fortunately the car was going slowly at the time which permitted the motorman to put on his brakes and bring his car to a standstill just as it collided with the sleigh. Nobody fortunately was hurt but the horse ran away and was subsequently caught in Lower Town. No blame whatever can be imputed to the motorman.

GERARDY'S STRADIVARIUS.

The tremendous emotional power that the great virtuoso, Jean Gerardy possesses over his enthusiastic audiences is easily explained when one knows the trouble of thinking. The artist is so wonderfully gifted that no man can be compared to him; he is such a hardworking and tenacious student that he never loses an hour and he has at his disposal a superb stradivarius violin which he procured from the celebrated London dealer, George Hart, for the insignificant sum of ten thousand dollars (\$10,000). We believe the reasons above explain sufficiently the extraordinary results achieved by the marvelous virtuoso, who will be heard at the Auditorium on March 5th.

DEATH OF MRS. P. DOYLE.

Her many friends will learn with regret of the death of Mrs. Doyle, wife of Mr. P. Doyle, stevedore, Champlain street, and news of whose demise is contained in the Chronicle obituary column this morning. The deceased was well and widely known and greatly esteemed. She was a member of St. Patrick's congregation and a leading worker in its charitable organizations. She always took a prominent part in the St. Bridget's bazaar, and the news of her death will be received with deep sorrow by all who knew her, and general sympathy will be felt for her family in their sad bereavement. At Diamond Harbor Chapel yesterday morning a very touching reference to Mrs. Doyle's death was made by Rev. Father Hickey. Besides her husband, Mrs. Doyle leaves one son, her sister, Mrs. Christopher Flanagan, with her daughter, Miss Kate Flanagan, arrived from Port Arthur, Texas, in time to see her before she died.

A WORD TO LADIES WHO OWN VOTES.

We have been requested by Mrs. Jas. Gaggie to publish the following appeal to the lady voters:—
The City of Quebec needs reform in its administration; ladies it rests with yourselves whether you have a right to demand it or not. Perhaps you say, "You are not about to vote, that a woman's place is her home." To it is, no doubt, about that, but for that very reason she should be anxious to surround her home with proper conditions. The atmosphere of that home in a city is not pure if there is no proper system of garbage collection. The danger of disease surrounds the home where the bread, meat and other food delivery is uncleanly. The home is not safe which has a saloon at the corner, a candy store in which liquor is sold on the sly a few doors away, perhaps a cigarette slot-machine outside the door of a liquor-grocery in the next street. Even a family in which neither liquor nor tobacco is used objects to the kind of customers these places attract, and to the influence on young children brought up in such surroundings, as well as to the depreciation in property value.

These are only a few of the evils which might be remedied, there are many others, and representatives who owe their election partly to the votes of ladies, must expect to be asked to improve some of the conditions under which it is being made difficult for homes to be properly kept or children well reared. There is nothing unwomanly in asking such reforms.

THE FIRE FIEND'S WORK IN RUTLAND, VT.

Six Large Brick Blocks in Business Portion of City

COMPLETELY DESTROYED

A Score of Firms Turned into the Street
—Fire Cut Beyond the Control of the City Firemen.

Rutland, Vt., Feb. 18.—Six large blocks in the business section of the city, occupied by nearly a score of firms and many smaller tenants, were destroyed by fire to-day. The loss is estimated at three quarters of a million of dollars. The fire was caused by the control of the local department and help was summoned from Whitehall, N.Y., and Burlington. The Whitehall company reached the city in time to be of great assistance but the Burlington company did not appear. The fire broke out shortly before 4 o'clock this morning and raged with great violence razing block after block, finally being stopped at two heavy party walls. The fire was discovered in the Ripley Block, on Merchant's Row, and soon extended to the Meade Block, directly south and then to the Baker Block on the corner of Centre street. Then swinging around the corner, it took in the Tuttle Block in Centre street, this a five story brick building having at the farther side a heavy party wall which stopped further progress in that direction. North of the Ripley block the flames destroyed the Cranston Block, occupied by the Combination Cash Store Co. and in the rear on a block on Willow street, owned and also occupied by the Combination Cash Company. The party wall on the farther side of the Cranston Block stopped the fire spreading north on Merchants Row. Following is a list of losses above \$25,000: Ripley Block, Wm. Y. Ripley estate, loss \$30,000, insurance \$25,000; Meade Block, Dr. A. J. Meade owner, loss \$50,000, insurance \$40,000; A. H. Abram, drugs and tobacco, loss \$25,000, insurance \$20,000; Wilson and Root, clothing, loss \$35,000, insurance \$20,000; twenty-five small tenants, \$50,000 loss, insurance \$25,000; Baker Block, J. L. Baker, owner, loss \$40,000, insurance \$30,000; Tuttle Block, The Tuttle Co., owners, loss \$40,000, insurance \$30,000; the Tuttle Company, printers, loss \$130,000, insurance \$130,000; Cranston and Combination Cash store block, loss \$60,000, insurance \$50,000; stock loss \$125,000, insurance \$80,000. Adjoining property owners loss \$50,000. It was shortly before four o'clock this morning that a tenant in one of the upper floors of the Ripley Block was awakened by the smell of smoke, and investigation showed a volume of smoke pouring out of the basement. His cry of fire was heard by a phone operator on the opposite side of the street and the firemen were summoned. The flames were bursting from the basement and had gone up into the stores above when the first apparatus reached the scene. One or two of the hydrants were frozen but within a short time water was obtained at others. The flames, however, had made great progress during the short interval and by the time the first stream was turned on, the Ripley Block was practically doomed.

By 4:30 the fire had extended to the Meade Block which like the Ripley Block, was a four story brick structure. This block burned so fiercely that the flames swept through the adjoining Baker Block and soon attacked the book binding and printing establishment of the Tuttle Company in the Tuttle Block. The firm owned and occupied the entire building which was five stories high. The progress of the flames on this street was checked here. In the meantime the fire had gone north of the Ripley Block to the Cranston Block, occupied by the Combination Cash Store Company in one of the largest department stores in the city. In the building the fire raged fiercely, but found its progress also checked by another party wall. The department could not, however, prevent the flames from extending to another building owned and occupied by the Cash Store Company on Willow street. At about 8 o'clock, almost without warning, one of the walls of the Willow street block fell over onto an adjoining stable carrying down with three firemen. The men were not injured to any extent nor did the stable take fire. It was at this point that the firemen succeeded in preventing further progress of the flames. The fire was not finally extinguished until to-night. Many of the tenants of the law firm in the Ripley and Meade blocks were unable to estimate their losses as they included libraries which were of great value to them, but of no definite monetary value.

DEATH OF MRS. FLORENCE.

New York, Feb. 18.—Mrs. Wm. J. Florence, widow of "Billy" Florence, the noted comedian, died at her home in this city to-day after an illness of several months. She suffered from chronic liver trouble. Mrs. Florence was born in this city in 1830. Her maiden name was Anna Theresa Pray, but she had been twice married when she met Florence at the height of his career. Mrs. Florence, herself an actress, became a member of her husband's company. Wm. J. Florence played leading parts with Edwin Booth and Lawrence Barrett, and for a long time was associated with Jos. Jefferson in "The Rivals."

DIED OF STARVATION.

Schenectady, N.Y., Feb. 18.—A man who was passing the home of John Smith, near South Schenectady, Saturday, stopped to investigate. He found Smith helpless from hunger and almost unable to speak. He hastily pointed to the bedroom where his aged wife lay dead on the floor. An investigation by the coroner revealed the fact that she had died from hunger and exposure. She fell and injured herself the previous day and her husband was unable to assist her. His efforts to secure help were in vain. Smith has been helpless for some time and efforts have been made to induce him to go to a soldier's home but he refused. He has been taken to the County House.

DEATH OF MR. MC'CALL.

New York, Feb. 18.—John A. McCall, until recently President of the New York Life Insurance Co. died at 5:35 o'clock this afternoon at the Laurel House in Lakewood, where he was taken three weeks ago in the hope that the change might benefit his health which had suffered a breakdown two months before. The news of his death was briefly announced by Mr. McCall's son. "The end has come. My father has passed away," Mr. McCall had been unconscious since about one o'clock this morning except possibly for a brief period this afternoon when he recognized his wife who was bending over him. One of the last persons Mr. McCall talked to was his old friend and pastor, Rev. Father Blessed Sacrament, of the Church of the Lake, at Lakewood, offering prayers for the recovery of the stricken man. The family was notified early this afternoon that death was at hand. Mrs. McCall and all of the seven children were about the bedside. It was announced that McCall's death was due to enlargement of the liver. The end was without pain. Mrs. McCall is now under medical care. She had become worn out by the long vigil at the bedside of her husband when he died she practically collapsed, although it is thought her condition is not serious. The body will be brought to New York to-morrow. The funeral, the date of which has not been announced, will be at the Church of the Blessed Sacrament.

A NEW YORK SUNDAY

Nine Violent Deaths, and a Long Chapter of Shooting Affrays, etc.

New York, Feb. 18.—Nine violent deaths, with a long chapter of minor accidents and shooting affrays, some of which may result fatally, constituted the unusual Sunday report submitted to-day by the police of New York and Brooklyn. A street murder in the Italian quarter heads the list. There were three cases of suicide all in Manhattan, one man was ground to death beneath the wheels of an express train in the subway; a woman was burned to death in her Greenwich street home; another woman was accidentally killed by inhaling illuminating gas in a West Street hotel, while the man who had accompanied her to the place was found in a critical condition; a man was killed by escaping gas in Brooklyn, and the body of a young man was found in a canal in South Brooklyn. Three women overcame by gas in a tenement in West 43rd street were taken to a hospital and will recover. Two soldiers, one a sergeant and the other a corporal of artillery, from Fort Lotten, were overcome in a Second Avenue hotel, where they spent last night and are in a critical condition at a hospital. Brooklyn added two more cases of gas poisoning, neither of which, however, is expected to result fatally. The murdered man was Michael Chiarcello, the police declare by Vincenzo Vintimiglio who had long been his friend. The assailant escaped. The men had been drinking and quarreled. The man killed in the subway was Antonio Rossi, 24 years old, a track walker. Parts of his body were found along the express train tracks. His body had been dismembered by a score of trains. When men carrying parts of the body arrived at the fourteenth street station there was something of a panic on the crowded platform. Several women fainted. One of the suicides was Jeanette Kaplan, a pretty Jewish girl 22 years of age, who had been taking a course as a trained nurse at Beth Israel Hospital. She had been despondent for some time and had confided to a girl friend that she was tired of life but lacked the courage to commit suicide. To-day she was found dead in her room, a note left behind telling the story of her tragic end.

HELD FOR TRIAL

Kelly Must Answer for the Death of the Immigrant Boy.

The preliminary enquete in the case of James Kelly, charged with the manslaughter of the immigrant boy, Arnold Walsh, at Buckingham, was concluded on Saturday. Magistrates Dugal and Pearson came to the conclusion that there was evidence sufficient to send Kelly for trial, and he was therefore formally committed. Chief McCaskill, of the Provincial force, returned from Buckingham Saturday night, and though he declined to discuss the case, he gave the impression that there is quite sufficient evidence upon which to expect a conviction. Mrs. Kelly's evidence, which was the closing effort of the prosecution, was all in favor of her husband, but cross-examination brought out some interesting facts as to the usage of the boy. The addresses to the Magistrates delivered by counsel for the Crown and the defence lasted many hours, and were of an unusual character. The case has excited much interest from the first, as it was taken up by the Catholic Immigration Society, which is determined to see that boys and girls placed in charge of people are properly treated. The trial will take place in April.

RUSSIAN ELECTION ROM.

Warsaw, Feb. 18.—In pursuance of the campaign of interference with the elections to the National Assembly a band of 30 Social revolutionaries today invaded a political meeting in the city hall and broke it up by shooting, firing revolvers and smashing the furniture. The thousand electors present fled in panic.

TO OVERTHROW CASTRO.

Paris, Feb. 19.—M. Taigny, the former French charge d'affaires at Caracas, in an interview with the Matin's correspondent at Liverpool, said he is convinced that a revolution movement for the overthrow of President Castro is in preparation. He had been approached by several of the revolutionary leaders during his sojourn in Venezuela but he was obliged to hold aloof from politics. In M. Taigny's opinion, the correspondent adds, a revolution would clear up the present awkward situation in Venezuela.

BOODY WEAKNESS

Permanently Cured—A Pleasant Remedy in Tablet Form to be Taken After Each Meal.

All fagged out, ideas come as slow as molasses in January. You think of things just a minute or so too late. Snap is gone, and the buoyancy and strength that makes life a pleasure, that's gone too.

The doctor would say that you are run down, and you don't eat or digest enough. Your stomach requires some aid, and probably your digestion needs a bracer. The blood should have phosphorus and iron to strengthen and purify it.

Now Ferrozone is a wonderful blood maker and nerve stimulant. It is really a food for the blood, nerves and vital energies, and will improve your run down condition in a very short time. Ferrozone will make you strong and capable of doing a heavy day's work without fatigue. It is a marvellous remedy and does marvellous things as the following testimonial proves.

"After my baby was born I was left in a weak, sickly condition, totally unfit for a mother's household duties. I was excitable and nervous, and trifling things bothered me very much. I somehow would not gain strength, although I took malt extracts and tonics all the time. A lady friend recommended Ferrozone, which I used with splendid results. The first box helped quite a little and when I had taken six boxes my former health, ruddy cheeks and good spirits, were fully restored."

The sooner you get Ferrozone, the sooner you will get well. Don't accept a substitute, but insist on your druggist supplying the genuine Ferrozone which sells for 50c. a box or six boxes for \$2.50. By mail from N. C. Polson & Co., Kingston, Ont., or Hartford, Conn., U.S.A.

BURNED TO DEATH.

Rochester, N.Y., Feb. 18.—In a fire at the Stromberg-Carlson Telephone Plant to-day Gustave Nowack, a metal polisher, aged 19, lost his life. Nowack was standing inside of a ventilator box with asphaltum, which it is believed caught fire from a lantern he carried. The fire was discovered by the day watchman but it was not until after the flames had been extinguished that Nowack's body, burned to a crisp, was found. Nowack was preparing to enter Wagner Memorial Lutheran College and was working to obtain means for his education. The loss by fire to the building was small.

If sick headache is misery, what are Carter's Little Liver Pills if they will positively cure it? People who have used them speak frankly of their worth. They are small and easy to take.

Messrs. A. E. Renfrew, Toronto, and Ernest LaRue, Beauce, are guests at the Chateau.

TO THE ELECTORS OF ST. PETER'S WARD

At the urgent solicitation of a large number of the proprietors and business men of St. Peter's Ward I have accepted the candidature for Alderman for No. 1 seat in that Ward. I take it as a very high compliment indeed to be considered worthy and competent to represent this important commercial district of my native city, and I can assure you that if elected, I shall endeavor to the best of my ability to merit the great confidence which has been placed in me, by devoting my whole energy towards securing a thoroughly progressive and efficient administration of the affairs of the city.

I am and, if elected, intend to remain absolutely independent of any person, party or clique in the City Council, and shall at all times support those measures only which I conceive to be in the interest of the moral and material welfare of the city. In conclusion permit me to thank you most sincerely for the honor which you have conferred upon me, and to request you to make my election certain by recording your votes for me on Monday next, the 19th instant.

Your obedient servant,

W. H. DAVIDSON.

Mr. H. E. Lavigne, candidate for Seat No. 1 St. John's Ward, respectfully solicits the support and votes of the residents of the ward on Monday next. In doing so, he does it with confidence, feeling assured that his attitude on the municipal questions now to the fore are such as will meet with the strong approval. He need hardly remind the electors that the interests of the city in general and of St. John's Ward in particular, will at all times meet with his best and most careful attention.

FAMILY WASHING.

We have been asked by a great many of our customers to do family washing and have installed a large mangle 120 inches long with another of a smaller capacity to press flannels, etc. The large machine will iron all classes of table linen, sheets, towels, pillow slips, counterpanes, etc. It is the latest and best machine on the market and turns out beautiful work. Our prices on Table Linen, Bed Linen and Towels are so reasonable that you can not afford to put up with the dingy work of a wash woman.

Try us once and you will never go back to the old way.

MUNICIPAL CAMPAIGN CLOSES THIS EVENING

Electors in Casting Their Ballots Should Care-
fully Consider Who They are Voting for
and Thus Safeguard the City's Interests.

SUPPORT INTELLIGENT ENERGETIC MEN.

To-day our citizens will exercise the franchise which is theirs, and will determine the character and personnel of our next civic Government. We have already expressed ourselves in a clear open manner, that the interests of our city for the next few years will require at the head of our civic affairs men of the greatest ability, men of education, energy and talent, and men absolutely above reproach in every respect. While it is true there are none of us entirely without our particular faults, and none of us are perfect, we can none the less easily single out as particularly desirable representatives, such men as Garneau, Taschereau, Davidson, Bedard and many others who are presenting themselves to the electors to-day. Our reason for particularizing the above gentlemen is because there has been such violent opposition given to their election. Never before has such a determined effort been made on behalf of a number of incompetent candidates as in the present contest. Mr. Samson as a man personally is well enough, but that he should persist in retaining a position as the representative of the most important division in the city after the two years of passive and acquiescent incompetency, can hardly be credited. It is known that he is a strong canvasser, but surely our citizens require more than this. They look to their representative to acquire for the city all the advantages that may be derived, to encourage by their ability and talents the development of these industries and projects which nature and our own endeavors have placed at our command, and in these respects it is not wirepullers or canvassers that are required, but honorable upright business men of the calibre of

POPULAR MINISTER ASHES TO ASHES

Hon. J. Prevost Entertains Seve-
ral Newspaper Men
at Dinner.

Funeral of Late King Christian
IX in the Chapel of Ros-
keld Cathedral.

On Saturday evening last, on the invitation of Hon. J. Prevost, Minister of Mines, Colonization and Fisheries, about twenty local newspaper men attended a dinner given at the Quebec Hunt Club rooms, St. Foy Road. The popular Minister presided, having on his right, Mr. A. Girard, President of the Press Gallery, and on his left Mr. E. T. D. Chambers, Vice-President. Among others present were Major Leveseur, Dr. Geo. Stewart, Messrs. Belanger, D. Watson, G. Gale, E. E. Cinq-Mars, Dr. R. LaRue, T. W. S. Dunn, J. C. Magnan, J. W. Sirois, C. Fortier, Geo. Carrier, Al. Cinq-Mars, Alf. Pelland, J. Papineau, C. Cabana, Jos. Barnard, and J. Donovan.

After doing full justice to a splendid menu provided by the steward of the club, the chairman proposed the health of "The King" which was duly acknowledged, the guests singing the National Anthem. The only other toast was that of "The Press," which gave Hon. Mr. Prevost an opportunity of delivering an excellent speech on the duties of newspapermen and also regretting the want of encouragement given to parties who had a taste for literary work.

Messrs. Girard, Chambers, Leveseur, Stewart and Magnan made very appropriate replies, thanking Hon. Mr. Prevost, who by the way is an old newspaper man, for bringing the members of the fourth estate together in such a pleasant reunion. During the evening several songs were rendered in capital style by Dr. Robert LaRue, and Messrs. A. Cinq-Mars and J. Barnard. Major Leveseur acting as accompanist. The party broke up shortly before midnight after the guests had thanked the host of the evening for his very hospitable reception.

The features that some people have to carry about with them is none other than the sins they have been guilty of in the past.

READ AND YOU WILL LEARN

That the leading medical writers and teachers of all the several schools of practice endorse and recommend, in the strongest terms possible, each and every ingredient entering into the composition of Dr. Pierce's Golden Medical Discovery for the cure of weak stomach, dyspepsia, catarrh of stomach, "liver complaint," torpid liver, or biliousness, chronic bowel affections, and all catarrhal diseases of whatever region, name or nature. It is also a specific remedy for all such chronic or long standing cases of catarrhal affections and their results, as bronchitis, throat and lung diseases (except consumption) accompanied with severe coughs. It is not so good for acute colds and coughs, but for lingering, or chronic cases it is especially efficacious in producing perfect cures. It contains Black Cherry bark, Golden Seal root, Bloodroot, Stone root, Mandrake root and Queen's root—all of which are highly praised as remedies for all the above mentioned affections by such eminent medical writers and teachers as Prof. Bartholow, of Jefferson Med. College; Prof. Hare, of the Univ. of Pa.; Prof. Finley Ellingwood, M. D., of Bennett Med. College, Chicago; Prof. John King, M. D., late of Cincinnati; Prof. John B. Sevier, M. D., late of Cincinnati; Prof. Edwin M. Hale, M. D., of Hahnemann Med. College, Chicago, and scores of others equally eminent in their several schools of practice.

The "Golden Medical Discovery" is the only medicine put up for sale through druggists for like purposes, that has any such professional endorsement—worth more than any number of ordinary testimonials. Open publicity of its formula on the bottle wrapper is the best possible guaranty of its merits. A glance at this published formula will show that "Golden Medical Discovery" contains no poisonous or harmful agents and no alcohol—chemically pure, triple-refined glycerine being used instead. Glycerine is entirely unobjectionable and besides is a most useful ingredient in the cure of all stomach as well as bronchial, throat and lung affections. There is the highest medical authority for its use in all such cases. The "Discovery" is a concentrated glyceric extract of native medicinal roots and is safe and reliable.

A booklet, extracts from eminent medical authorities, endorsing its ingredients mailed free on request. Address Dr. R. V. Pierce, Buffalo, N. Y.

THE QUEBEC PILOTS

What the Shipping Federation
Will Urge Upon the
Government.

In connection with our article on the pilotage question now under most serious consideration by the Government by the shipping interests and by the Corporation of Pilots itself, it now transpires that the statement in the article appertaining to the settlement of the matter is rather premature. The case as it stands at present is that it is admitted on all sides that a thorough and exhaustive reorganization of the system must be accomplished. During the past week important conferences have been held between the representatives of the interested bodies above referred to and at present all these are conferring with their principals and within the next week another important meeting will possibly be held in Montreal at which a definite understanding will be arrived at. It is plain that the Shipping Federation, who are most vitally interested in this great movement, are most desirous of acting in a thoroughly generous and fair manner with the pilots. It is, we believe, far from their intention to act in an arbitrary manner, and they wish, while protecting their own interests, to assist in providing ample support for those pilots who have long and faithfully served in their vocation. At present the amount at the disposition of the Corporation of Pilots for the purpose of providing for their aged and infirm members, allows only an amount of about \$200 per annum to each, and it is admitted that this amount is absolutely insufficient for a man who has probably given 20 or 35 years of his life to this occupation. Possibly therefore the Shipping Federation at their further conference may urge on the Government to take over the capital now in the hands of the Corporation of Pilots, augment this sum by other amounts which have been raised in the past by the shipping interests of the ports of Montreal and Quebec and by this means provide a capital amount sufficient to allow a competent amount to be given to those pilots who are unfit for service. Then by the Government taking a right control of the system, the very best men may be selected, and means taken to encourage young and active men to avail themselves of this profession and cultivate and foster this idea among these young men, who would make excellent pilots and competent, intelligent navigators of our great waterway.

ASPHYXIATED BY GAS.

Buffalo, Feb. 18.—Geo. Bernard and wife were accidentally asphyxiated by natural gas to-day. When found they had been dead two hours. The woman was lying on a bed and the man was near. The chimney was stuffed up and the gas backed up.

KILLED BY A TRAIN.

Rochester, N.Y., Feb. 18.—Jas. V. Brothers, of Fairport, was struck by the fast mail train at the New York Central station, at Lyons, this afternoon and instantly killed. Just before his death he had told a friend that his dead brother had appeared to him in a dream the night before and said: "I have come for you." He told several persons of the dream saying that it worried him.

THE COAL MINER'S P. O. DIALS.

New York, Feb. 18.—John Mitchell and his associates on the anthracite miners' sub-committee to-day finished their work of preparing proposals for an agreement and will probably meet the coal operators sub-committee Tuesday or Wednesday. It was stated that no formal document would be submitted but that the miners would expect the operators to grant them. It is expected that several meetings will take place before a decision is reached. It is practically certain that the miners will make a firm demand for the eight hour day for all men employed about the mines. One of the miners representatives said to-day that the eight hour question was more important to the men than any other demand that had been mentioned. If at the meeting with the operators this week no agreement should be reached the miners would have to go back to Pennsylvania and the whole matter would be submitted to a convention of the three big anthracite districts which control the entire coal field. The present agreement with the operators does not expire until March 31st.
