

MUST PAY 98 FOR BONDS

City Council Passes Resolution in Connection With Financial Deal

TORONTO FIRM MUST AMEND THEIR OFFER BEFORE COUNCIL AGREES TO SELL.

At the adjourned meeting of the City Council last night the amended offer of Brent, Noxon & Co., of Toronto to purchase \$200,000 or more of the city's bonds under the conditions published in yesterday's "Record" was considered.

The Finance Committee's report was to the effect that the Council be requested to further amend their offer by making it 98 for the entire amount purchased.

The Council upheld this recommendation and informed Mr. MacLeod that they could not entertain any proposition at less than 98. A resolution was passed authorizing the Finance Committee to deal with the matter in the event of an offer being submitted for not less than \$200,000 at 98.

The Council considered the valuation roll in regard to the business tax, and the Mayor nominated a special committee composed of Ald. Jencks, Brault and Darche to deal with this question in conjunction with the valuers.

TWO ITALIANS SHOT IN CHICAGO

Fierce Feud Breaks Out in the Italian Quarter of That City

WHILE POLICE WERE SEARCHING FOR ONE ASSAILANT ANOTHER WAS KILLED.

Chicago, Ill., Jan. 23.—(Special) A feud in the Italian quarter on the north side claimed two more lives last night. While the police were searching for the assassins of Joseph Portuguese, who was shot down at Milton avenue and Hobbie street, they were startled by two gunshots. Hurrying to the corner, they found R. Depenza, proprietor of a small bank, dying at almost the same spot where Portuguese was slain.

Later the police found two sawed off double-barrelled shotguns. The assailants left no clues.

The outbreak was caused by trouble between the union and non-union seamen.

BEST POULTRY SHOW IN QUEBEC PROVINCE

Judges so Declare at Banquet Given by Sherbrooke Poultry Association

QUESTION OF HOLDING A MID-WINTER LIVE STOCK SHOW WAS DISCUSSED.

A banquet was tendered at the Royal Hotel last night by the Directors and Committee of the Sherbrooke Poultry Association to the judges, exhibitors and invited guests at the Poultry Show, which is being held in the Armory.

It was a happy and enthusiastic gathering and several important matters were dealt with by the various speakers.

Mr. W. H. Griffith presided and after the toast of "The King" had been loyally honored, "The Judges" was given by the president.

Mr. Victor Fortier was the first to respond. He expressed his deep pleasure at being present again at the show which he had attended for many years, and hoped to continue to attend for a long time to come.

He could not but say that this was the best show in the Province of Quebec, and he hoped when it was over the officials would realize it was the most successful they had held. He had attended the Ottawa Show and many others in Ontario, and while the exhibits in those places were more numerous, the quality of the Sherbrooke birds would compare with any. The judges had endeavored to be impartial, and although conscious of the fact that their awards were sometimes criticized, they had acted fairly between the competitors as far as lay in their power.

MR. A. P. HILLHOUSE.

Mr. A. P. Hillhouse followed. His opening remarks were appreciative of the kind manner in which the guests were treated, and he wished every member long life to continue the good work of raising and improving poultry. The Sherbrooke Show was one of the best in Canada and the quality of the birds was seldom beaten anywhere in the Dominion.

SUGGESTS WINTER SHOW.

Mr. Hillhouse referred to the advisability of holding a Winter Live-stock Show in the Province; other smaller provinces had very creditable winter shows which were supported by the Provincial and Federal Governments. It was probably the fault of the agriculturists of that province in not urging their claims upon the Government. Sherbrooke was situated in the centre of the Eastern Townships which was the best poultry district in the Province, it had the best provincial agricultural show, and it appeared to him to be the proper place to hold the one suggested. He was proud of being an Eastern Townships boy, their forefathers had done a grand work in building up that section and nothing would develop agriculture so much as a winter show.

FIRST VISIT TO TOWNSHIPS.

Mr. Jenkins also responded. That was his first visit to Eastern Canada and he was much impressed with the country and the great show. The birds far exceeded his expectations and were fully equal to many classes in the Boston show. He was delighted with the reception he had met with, and hoped to visit the city in the summer and attend the fall show.

Mr. D. T. Taylor, Hon. Pres., congratulated the members upon their energy which had resulted in such an outstanding quality of excellence in the exhibit. The Association practically owed its existence to Mr. Griffith and he appealed to them not to allow him to retire.

Mr. Taylor endorsed the remarks of Mr. Hillhouse concerning a fat stock show and insisted that Sherbrooke was the logical place for it, because it was the hub round which the agricultural wheel revolved. He knew that the sympathies of the Cabinet Ministers and Legislators were entirely in favor of holding such a show, and it only required the concentrated effort of the people to send a delegation to Quebec to bring it about.

Mr. F. B. Wilson paid a tribute to the Provincial and Dominion Governments for their assistance in connection with the show and agriculture, and spoke in appreciative terms of the work of Macdonald College. The fat stock show would certainly come along.

Mr. J. A. Cook referred to the number of show exhibitors whose birds were above the average quality of what they usually received from outside. He supported the idea of a fat stock show, and proposed "The Exhibitors."

Messrs. M. Bonnevillie, Danville, H. G. Sample, Granby; C. C. Hunt, Rock Island, replied, and all congratulated the officials on the great improvement over previous years.

A vote of confidence was afterwards passed with the Ottawa Fat Stock Show Association in the calamity that had overtaken them by the blowing up of the pavilion.

SUMMONED TO BAR OF HOUSE

Legislature Takes First Step to Investigate Bribery Charges

PREMIER PROPOSES COMMITTEE—SERIOUS NATURE OF CHARGES RECOGNIZED

Quebec, Jan. 23.—The Legislative Assembly decided this morning after a long debate which continued until 1.15 a.m., to appoint a committee to investigate the corruption charges made by the Daily Mail of Montreal.

Mr. M. E. Nichols, president of the Daily Mail Company, and Mr. B. A. Macnab, the editor, were ordered to appear before the Bar of the House next Tuesday afternoon.

A motion by Mr. Galipeault that Messrs. Macnab and Nichols shall have the right of being represented by attorneys before the committee for the purposes of the investigation was carried early this morning by a vote of 48 to 16 and thus amended the main motion naming the committee was passed.

The committee of enquiry named by Premier Gouin was as follows: Hon. Mr. Taschereau, Minister of Public Works; Hon. P. S. G. MacKenzie, Provincial Treasurer; Mr. J. M. Tellier, leader of the Opposition; Mr. C. E. Gault, Mr. S. Letourneau and J. L. Perron, of Montreal, J. A. Tessier, Three Rivers, and A. Berrier, Lévis.

Thus composed the committee would consist of six Liberals and two Conservatives.

At once Messrs. Tellier and Gault refused to serve on the committee. Mr. D'Auteuil declined also to serve in the place of Mr. Tellier and Messrs. Tansy, Smart and Slater also declined to act.

The evening debate which was even longer than that of the afternoon, followed the motion of Premier Gouin naming a committee of the House to investigate the charges against Mr. Mousseau, chairman of the Private Bills Committee.

The members of the Opposition attacked the motion, claiming it was confined to the case of one member and would thus restrict the investigation in the event of more charges being made as was threatened.

Mr. Frevost objected to making a scapegoat of one member, and Mr. Laverne attacked the way the sins of Israel were being laid on the head of J. C. Mousseau. These arguments were used in view of the allegation of the Montreal newspapers that incredible corruption existed among the members of the Legislature.

The reply of Premier Gouin and members of the Government was that when more charges were formulated it would be time enough to widen the scope of the committee.

The Legislative Council will proceed in the same way to enquire into the charges against Hon. Mr. Berard and Hon. Mr. Bergevin.

The House continued to sit until 1.45 a.m., and then adjourned until Tuesday of next week.

When the Legislature met in the afternoon, Mr. Armand Laverne introduced the question by a motion that the Mail editors be summoned to the bar of the House.

MR. MOUSSEAU'S REQUEST. Mr. Mousseau, rising from his seat, made a brief announcement: "I ask the House," he said, "to proceed with the appointment of a committee of investigation before which I am ready to go and give an explanation, as duty and honor requires."

Mr. Mousseau then retired from the House, and in accordance with the custom, did not return during the discussion of the charges made against him.

PREMIER'S STATEMENT. Premier Gouin who spoke with unusual fervor, then addressed the House:

"The Daily Mail of yesterday," said Sir Lomer, "made specific charges against the member for Soulanges (Mr. Mousseau) and in the Quebec Chronicle of to-day it appears that the Mail admits a trap had been set for the members of this House. I am convinced that the House will protect the honor of its members. The member for Soulanges has asked for a commission to enquire into the accusations made against him, and I do not believe that any member of the House will deny him this. It is important to know for whom, and by whom, these machinations were carried out. No saints of Paradise employed the Burns Agency in this matter. This is an attack on all the members of the House. It is a conspiracy to attempt to make certain members fall. If any members should have succumbed to this temptation, though they will have our sympathy, they must bear the responsibility of their acts. I do not know what is the motive of the member for Montmagny in making this motion, but I suppose he did so with the best of intentions. I do not believe that in a motion of this kind there should be any question of procedure or technicality. If the Opposition insist on bringing the accusers before the House, I have no objection, but we all know what the delay will be. Questions will have to be put and answers taken down."

Mr. Laverne interrupted to say that his proposal was to summon the newspaper proprietors before the Legislature and afterwards appoint a committee to proceed with the investigation.

Continuing, Sir Lomer said: "I ask the members of both sides

Dominion Government Issuing Two Booklets on Quebec

E. T. IMMIGRATION SOCIETY RECEIVES SUPPLY OF E. T. PAMPHLETS FOR ITS PURPOSES.

There are indications that the Ottawa Department of Immigration is at last turning its attention to Eastern Canada. Unsatisfactory conditions in the West have caused a halt in the Government's boom of the new provinces. The demand for good agricultural help in Eastern Canada, however, continues.

The Eastern Townships Immigration Society has just received from Ottawa 1500 Eastern Townships booklets for the purposes of the Society and the Superintendent of the Immigration states that the other booklets on Quebec Province will shortly be issued.

The letter of Mr. W. D. Scott, Superintendent of Immigration, reads as follows: "Sir,—In answer to yours of the 31st ultimo, I beg to inform you that the fifteen hundred copies of Eastern Townships pamphlets which you requested of us, were sent you by express on the 16th instant, and no doubt have reached you before this. We are not only about to publish a new edition of this pamphlet but also two new books on Eastern and Western Quebec, respectively, and I am sorry that they are not ready to ship to you for the use of the Hon. Dr. Pelletier. However, they will all three likely be on the presses in a couple of weeks.

Your obedient servant, W. D. SCOTT, Supt. of Immigration. Ottawa, Jan. 20th, 1914.

HANGMAN ELI IS

WAS ARRESTED

Scared People in Montreal Theatre With a Loaded Revolver

WAS TAKEN INTO CUSTODY BY THE POLICE AND PLACED IN JAIL ON CHARGE OF DRUNKENNESS.

Montreal, Jan. 23.—Arthur Ellis, the official executioner, arrived in the city yesterday from Prince Rupert, having been called here to hang William Campbell on Saturday morning. Ellis made his appearance yesterday in a box at the Orpheum Theatre shortly before the closing of the night's performance, when the hangman pulled a big thirty-eight calibre revolver from a holster in his belt, thereby causing great alarm among the theatre's patrons who happened to see what the solitary occupant of the orchestra box was doing. His next appearance was before Sergeant Dooner, of the Chenneville street police station, whither he was escorted by Lieut. Clermont, of the same station, and where the executioner is locked up without the option of bail on a charge of being drunk and carrying a revolver.

FINED \$5 FOR DRAWING REVOLVER.

Montreal, Jan. 23.—(Special)—Arthur Ellis, the Dominion hangman, was fined five dollars for drawing a revolver in a theatre.

C.H. PARMELEE DEAD TO-DAY

King's Printer and Former Member For Shefford County

HAD BEEN ILL FOR SOME MONTHS AT OTTAWA—12 YEARS IN PARLIAMENT.

Ottawa, January 23.—(Special)—Chas. H. Parmelee, King's Printer, formerly M. P. for Shefford County, Quebec, and publisher of the Waterloo Advertiser, of Waterloo, Que., died this morning after an illness extending over several months.

The many friends of Mr. Parmelee throughout the Eastern Townships

THE LATE C. H. PARMELEE, KING'S PRINTER.

will be shocked to hear of his demise. Mr. Parmelee was born at Waterloo, June 1st, 1855, the son of Mr. and Mrs. Rufus Parmelee. He was educated at Waterloo Academy and married in December, 1887, Christina McLean, daughter of the late Henry Rose of Montreal.

Mr. Parmelee early went into journalism. He was editor of the Waterloo Advertiser from 1875 to 1883 and again from 1883 to 1908. He was financial editor of the Montreal Herald from 1880 to 1883. He served in the Waterloo Town Council and as Secretary of the Board of School Commissioners. While in Eastern Townships journalism he was a prominent member of the E. T. Press Association and served one year as its president.

The late Mr. Parmelee represented Shefford County in the Federal House from 1896 to 1908, and while in Parliament was chairman of the standard committee on printing.

He was appointed King's Printer and controller of stationery, Feb. 1st, 1909, on which occasion he was entertained at a handsome banquet and presented with a testimonial by the E. T. Press Association. He was a director of the Brome Lake Electric Power Co., and one of the founders of the Civil Service Club at Ottawa.

Of genial disposition, Charles H. Parmelee was popular with all who knew him, a popularity which was demonstrated by the large majorities given him whenever he came before the electors of his native county.

UN-EMPLOYED SEEK RELIEF

Toronto Men Say \$35,000,000 Outed For Ships Should be Spent in Work

WOULD DEVOTE NAVAL GRANT TO RELIEF OF UNEMPLOYED.

Toronto, Ont., Jan. 23.—(Special)—A mass meeting of unemployed men at the Labor Temple last night passed resolutions demanding that the \$35,000,000 voted for battleships be expended in relieving distress among unemployed working people, and that the state banquet held at the opening of Parliament and similar functions be abolished for all time and the money thus saved be used for relieving the unemployed working men.

SIR J. WHITNEY MUCH IMPROVED

DOCTORS, HOWEVER, ARE NOT VERY OPTIMISTIC OVER HIS ULTIMATE RECOVERY.

Toronto, January 23.—For the first time since he was brought back to Toronto from his sick room at New York, Sir James Whitney was able to recognize members of his family yesterday, calling Lady Whitney and his son Garnet by name. The Premier's condition is much improved since Wednesday, but the physicians say that he is still in a critical condition and that the decided signs of improvement do not warrant too much optimism as to his ultimate recovery.

The following bulletin was issued at the General Hospital last night: "Sir James Whitney has had a much quieter day, with considerable sleep. His condition seems improved."

CUSTOMS OFFICER HELD UP WOMEN

Were Returning to Sarnia, Ont., After Making Purchases in Port Huron, Mich

WERE SEARCHED AND THOSE WHO HAD SMUGGLED GOODS HAD TO PAY.

Sarnia, Ont., Jan. 23.—(Special) Miss Ogilvie, special Customs Inspector, held up two boat loads of women who were returning from an afternoon's shopping at Port Huron, Mich.

The women were taken into an ante-room in the ferry Customs office, and thoroughly searched by the inspector.

Those who were found with smuggled goods in their possession were forced to pay the duty on them.

NAVY ESTIMATES WERE NOT DISCUSSED

Cabinet Defers Action on This Question For Another Week

CHANCELLOR OF EXCHEQUER FINDS IT DIFFICULT TO FIND MONEY FOR ESTIMATES.

London, Jan. 23.—Contrary to expectation, and to the intense disappointment of certain London dailies, which had been predicting a clash between the Chancellor of the Exchequer and the First Lord of the Admiralty, there was no discussion of the navy estimates at yesterday's meeting of the Cabinet, consideration being postponed until next week.

"In any case," the Times points out, "they couldn't dispose of all the estimates at a single sitting."

The difference between Lloyd George and Churchill, whilst possibly less acute than is represented in some quarters, exists to the extent that the Chancellor has difficulty in finding the money required by the supplementary estimates and for the increased programme of construction in the new financial year.

Mr. Churchill on his part is anxious to proceed as early as possible with the programme of four ships approved by the Cabinet in order to bring them into line with the progress made on armored cruisers and other vessels, otherwise the efforts of the past year will be wasted. The question is chiefly one of adjustment of finances and the spending of perhaps an awkward period, from the Chancellor's point of view.

CONTROL OVER THE WEATHER.

London, Jan. 23.—(Special)—Sir Oliver Lodge, the distinguished physicist and principal of Birmingham University, in an address before the Institute of Electrical Engineers last night, suggested the possibility of obtaining some measure of control over the weather. If clearing weather, he said, was due to electricity, it might be imagined that man could acquire some control over the electrification of the atmosphere.

FREIGHT TRAIN WRECKED.

Toronto, January 23.—Frost on the rails resulted in the wrecking of a freight train of the Canadian Pacific Railroad near Hala, station yesterday. Four cars were thrown down the embankment and two members of the train crew were standing upon the cars at the time and forced to jump. Both were slightly injured.

LITTLE CRIME IN SHERBROOKE

Chief Hebert Refers to the Peaceable Nature of City of Sherbrooke

INVESTIGATION INTO THE BILDEAU CASE OF LAST JUNE IS STILL BEING CARRIED ON

The annual report of the Sherbrooke Police Department for the year ending November 30, 1913, prepared by Chief Hebert, was submitted by Ald. Darche, Chairman of the Department, at the meeting of the City Council on Monday.

It will be seen from the report that the total number of persons arrested and summoned during the year was 650. Of this number more than half belonged to other places.

Chief Hebert calls attention to the peaceable nature of the city, stating that the amount of disturbances here is proportionately less than elsewhere, and that serious crime is rather rare in the city.

One very satisfactory feature in the record of arrests is the small number of offenders under 20 years of age, representing only 6 per cent of the whole number arrested.

The investigation in the Bildeau case, which shocked the entire community last June, is still being carried on.

Among the recommendations of Chief Hebert is one for a larger, more modern and more central No. 1 station. Another is that Wellington Street be patrolled during the day time owing to its commercial importance.

The total cost of the department for the year was \$7,700.73. The report is as follows:

Herewith please find the annual statement of the Police Department, for the year ending 30th November, 1913.

A resume of the matters in connection with the work of the officers during the period, may be of interest to some at least of our citizens. Number of arrests or summoned 650. Calls received and answered 563. Persons given protection at 157.

Lights not burning on streets 82. Doors of business places left open 47. Cor n r's inquiries attended 9. Goods found exposed on streets 8. Lost children restored to parents 1. Of the 650 persons arrested or summoned for cause 115 were taken before the District Magistrate; 516 were tried before Justices of the Peace; 12 were discharged after arrest; 7 otherwise disposed of; total, 650.

Of the 650 prisoners being searched at the office sums totaling from one cent upwards were taken from their persons for safe keeping, aggregating the sum of \$2,576.47, with 163 watches of more or less value, (Continued on page 7)

DRIVES STAPLES STRAIGHT

Tool of New Design for Wire Fence Erectors and Other Workmen

In the erection of wire fence it is generally necessary to drive a large number of staples and for the security of the fence it is desirable that the staples should be driven straight and accurately. Owing to the irregularities of the wooden posts and the strain of

the fence wire, which is under a heavy tension when being erected, it is no always an easy matter to put the staples just where they are wanted to be of the most service.

The tool shown in the accompanying illustration is designed to accomplish this. With its aid a great many more staples may be driven in a given time and they are driven in a much superior manner. Besides being a convenience to fence erectors there are other mechanics who will find use for this tool such as electricians, box makers, coopers and the like.

THE LATE MRS. C. GENEST.

The funeral of the late Mrs. Charles Genest, who died on Saturday, took place on Tuesday morning at eight o'clock. The service was held at the St. Alphonse Parish Church, the Rev. Father Labrecque officiating, assisted by Rev. Fathers Proulx and Gosselin.

The funeral was very largely attended by the most prominent persons in the city and by members of the societies of the Ladies of St. Anne and the Union St. Joseph, to which the deceased belonged. The bearers were Messrs. Joseph Landry, Alphonse Sevigny, Joseph Rodrigue and J. A. Dubuc, all of Thetford Mines. Among the mourners who attended the funeral were the deceased's husband, Charles Genest; her brother, H. Lessard; her father-in-law, Antoine Genest, of Thetford Mines; her brothers-in-law, Thomas Laflamme, of St. Agathe; Joseph Genest, Ludger Genest, Eugene Genest, Omer Genest and Henri Genest, of Thetford Mines; her nephew, G. H. Laflamme, of St. Agathe; uncles, Joseph Richard, A. Genest, G. Genest, Jos. Landry, Theo. Genest, of St. Honoré; Joseph Poisson, of Black Lake, and her cousins, P. Boileau, of the directors of Johnson's Company, which was held Wednesday evening. Mr. Mooney was formerly a resident of Inverness and left for

there yesterday to visit his old friends.

Mrs. Elmer Bean and Miss Luida Admark, of North Hatley, are in town for a few weeks, guests of Mr. and Mrs. W. C. Bean, St. Maurice street.

Notes of Plessisville: Joseph Paquet, Honoré Paquet, Eugene Paquet, of St. Maurice; Alphonse Paquet, of St. Antoine; J. B. Poisson, of Black Lake, and Alcide Metivier, of Thetford Mines. The deceased had been married only four years, and leaves a husband and one child 22 months old.

NOTES.

Misses Bee and Eva Porter left Wednesday for Coaticook to attend the wedding of their brother, Mr. Bailey Porter, of Saskatoon, Sask., to Miss Muriel Buckland, of Coaticook, which took place on Thursday.

HAPPENINGS AT THETFORD MINES

Work on New Steel Bridge Across The River Has Been Completed

YOUNG PEOPLE'S SOCIETY HAS BEEN ORGANIZED. LOCAL MAN IN WRESTLING BOUT.

Thetford Mines, Jan. 23.—(Special)—A meeting was held on Wednesday evening last at the Methodist parsonage to endeavor to organize a young people's society. The object of this society would be to furnish amusement for the young people during the winter months, a meeting being held once a week at the homes of the different members. The meeting was very well attended, and after discussing the matter of forming this society, a couple of hours were spent in playing games, etc., after which light refreshments were served, those present leaving well satisfied with the way they had spent the evening. Another meeting will be held at the Methodist Church next Wednesday, Jan. 28th, and the organizers would like to see all the young people present.

EXHIBITION OF WRESTLING.

A good exhibition of wrestling was given Wednesday evening last by the St. Maurice Athletic Club in their rooms, Lafrance street, when Roy, of Thetford Mines, met Duchesne, of Montreal. Duchesne got the first fall, but only after one hour and forty minutes of hard work. As soon as they came on the mat again Roy got right after his opponent and got a fall in two minutes. They wrestled for twenty minutes after this without either being able to get a fall, and the match was declared a draw. There was a fairly good attendance, but the sports of the town do not turn out as well as they should for these events.

SOLD OUT GARAGE.

Mr. A. V. Hebert has sold his automobile garage to Mr. E. Couture, who has taken possession. Mr. Hebert has kept the agencies for Ford and Reo automobiles.

NEW BRIDGE ERECTED.

Work has been completed on the new steel bridge across the river at the Thetford Foundry, and traffic can now pass that way again.

OPENS UP LAUNDRY.

Mr. Wm. McKee has opened a steam laundry on Notre Dame street. He has a staff of employees who have had wide experience in the laundry business, and with the up-to-date machinery which he has installed, he can turn out first-class work.

THE LATE MRS. C. GENEST.

SCRIPTURAL NAMES

Puritans Were Fond of Old Testament Nomenclature

A certain set of Christian names taken from the Scriptures has been in use so long that we do not think of them as Adam, Moses, Samuel, David, Daniel, Solomon, Abraham, Isaac and Jacob. Others taken from the Saints, like Peter, Paul, John, Stephen and Matthew, originally given to children because they were born on the saint's day, are still so common that we think of them as English names.

These names antedate the use of surnames, as may be inferred from the fact that nearly all of them have given rise to patronymics, like Jacobson, Peterson and Stephenson. In the twelfth century missionaries used to baptize whole villages at once, and to save time invested all the men with the name of John or some other saint, and the women usually Mary or Martha.

To distinguish the Johns some additional name like Short or Strong or White or Black was given him by the neighbors, and so Christian names and surnames were united.

After the Reformation it became the fashion among the Puritans to give children the names of characters in the Old Testament and odd ones like Melchizedek or Barzillai were preferred. Among these were Abel, Levi, Jesse, Amos, Asa, Isaiah, Ephraim, Gideon, Malachi, Job, Abner, Hosea, Ezekiel, Jeremiah, Zechariah, Asher, Eli and hundreds of others.

When cross, feverish, restless, see if tongue is coated, then give this delicious "fruit laxative." Children love it, and it cannot cause injury. No difference what all your little one—full of cold, or a sore throat, diarrhoea, stomach-ache, bad breath, remember a gentle "inside cleansing" should always be the first treatment given. Full directions for babies, children of all ages and grown-ups are printed on each bottle.

Beware of counterfeit fig syrups. Ask your druggist for a 50-cent bottle of "California Syrup of Figs," then look carefully and see that it is made by the "California Fig Syrup Company." We make no smaller size. Hand back with contempt any other fig syrup.

LESSONS FROM FIRES

The National Fire Prevention Association in a report on fire losses, drew attention to the following points:

Shingled roofs are a constant menace and should be abolished.

Unprotected steel construction has proved itself many times to be far inferior to average timber construction. Unless well protected in suitable manner to withstand the attack of fire, this type of construction invites disaster.

In every building two or more stairways, remotely located with respect to each other and enclosed in fireproof shafts, are essential for the escape of the occupants, as well as for the work of the fire department.

Elevators should be enclosed in brick or reinforced concrete shaft, walls to pierce all floors and extend at least three feet above roof. Approved automatic fire doors to be installed on one side of wall at all doorways to building.

Properly installed hand-hose connections on sprinkler equipments in specially hazardous locations have proved very desirable, and frequently prevent an undue water loss by extinguishing the fire before the automatic sprinklers operate.

Ventilating fans should be stopped at once upon an alarm of fire.

Where Clocks Are Curiosities

Clocks are regarded as curiosities by many of the Hindus, and for this reason half-a-dozen or more timepieces are often found in the apartments of the wealthy Hindustanese. They are not used as timepieces, but simply for ornament, since the old-fashioned way of telling the hour in India, by calculating the number of bamboo lengths the sun has travelled above the horizon, is entirely satisfactory to the natives.

It is said that in the country police stations in India, where the European division of the hours is observed, time is measured by placing in a tub of water a copper pot in which a small hole has been bored. It is supposed that it will take one hour for the water to leak into the pot so as to fill it and sink it. When the policeman sees that the pot has disappeared he strikes the hour on a bell-like gong. If he is smoking or dozing the copper pot may have disappeared several minutes before he discovers the fact, but the hour is when he strikes the gong.

MR. OR MRS. DYSPEPTIC! REGULATE YOUR POOR, WEAK STOMACH---PAPE'S DIAPEPSIN

IN FIVE MINUTES! TIME IT! NO INDIGESTION, GAS, SOURNESS, BELCHING.

"Really does" put bad stomachs in order—"really does" overcome indigestion, dyspepsia, gas, heartburn and sourness in five minutes—that just that—makes Pape's Diapepsin the largest selling stomach regulator in the world. If what you eat ferments into stubborn lumps, you belch gas and eructate sour, undigested food and acid; head is dizzy and aches; breath foul; tongue coated; your insides filled with bile and indigestible waste, remember the moment Pape's Diapepsin comes in con-

tact with the stomach all distress vanishes. It's truly astonishing—almost marvelous, and the joy is its harmlessness.

A large fifty-cent case of Pape's Diapepsin will give you a hundred dollars' worth of satisfaction, or your druggist hands you your money back.

It's worth its weight in gold to men and women who can't get their stomachs regulated. It belongs in your home—should always be kept handy in case of a sick, sour, upset stomach during the day or at night.

It's the quickest, surest, and most harmless stomach doctor in the world.

The following delegates were at the
District Lodge: Mesdames. E. A.
Hardy, Mrs. E. S. Marsh and Mr.
Harlow, F. Hardy, Mansonville; Mr.
A. McFarlane and Mr. Guy Magoon,

Vale Perkins; Mr. Cecil E. Stowe and
Mr. M. Gaylor, South Bolton.

There were 22 members and offi-
cers in the newly organized lodge.
The District Lodge was entertained
by the Sub. I. O. G. T., Mansonville,
in a most hospitable manner. At one
o'clock p. m. a very nice lunch was
served in the Lecture Room of the
Methodist Church, at the close of
which the Lodge was called to order
by Grand C. T. Lamby and the new-
ly elected officers installed. After the
installation, business of a very im-
portant nature as regards the work
of the Order was discussed and a
very interesting session closed at five
o'clock, after which a very elaborate
dinner was furnished the members of
the Mansonville Lodge.

During the dinner hour speeches
were delivered by Grand C. T. Lam-
bly, Grand Sec. Davis, Rev. F. J.
Hayden, Rev. G. R. Rummels and oth-
ers and a right merry and fraternal
feeling prevailed the assembly though
the inspiration given to the different
toasts proposed, was furnished from
"pure and sparkling water." The
next meeting of the District Lodge of
I. O. G. T. will be held at Sutton on
February 10th., 1914.

A WONDERFUL CASE

THREE MONTHS IN HOSPITAL
AND CAME OUT UNCURED.

ZAM-BUK CURED HIM IN FEW
WEEKS.

Mr. Fred Mason, the well-known up-
holster and mattress manufacturer of
St. Andrews, N.B., says:

"I had eczema on my knee, which
caused me terrible pain and inconve-
nience. The sore parts would itch and
burn and tingle, and then, when rubbed
or scratched, would become very painful.
When the knee got warm it burned
worse, and the itching, and burning, and
smarting were almost unbearable. I
tried various remedies, but got no bet-
ter, so I decided to go to Montreal and
take special treatment at the Montreal
General Hospital for thirteen weeks, but
at the end of that time I was not cured
and almost gave in. A friend advised me
to give Zam-Buk a trial.

"Almost as soon as applied Zam-Buk
stopped the itching and the irritation.
I persevered with the balm, and it was
soon evident that it would do me good.
Each day the pain was reduced, the sore
spots began to heal, and by the time
I had used a few boxes of Zam-Buk I
was quite cured.

"Since then Zam-Buk has cured blood-
poison in my finger, and at a time when
my finger was in such a terrible condi-
tion that I feared it would have to be
amputated."

For eczema, blood-poisoning, piles, ul-
cers, sores, abscesses, varicose ulcers,
bad leg, cold sores, chapped hands, cuts,
burns, bruises and all skin injuries and
diseases, Zam-Buk is without equal.

carpets according to European de-
sign. Violation of the enactment is a
criminal offence, and the imperative
attitude taken will have a greater
tendency than ever to raise the Per-
sian carpet or rug in esteem. Often a
Persian carpet will remain in the
family for generations, such careful
treatment does it receive. When the
owner of a valuable carpet dies he
very often gives instructions that it
shall be cut up in pieces as heir-
looms to his successors, and should
a member of the family not receive
a portion he would feel very greatly
sighted. The designs of Persian car-
pets have been handed down from re-
mote ages. Each family keeps its own
design, no two carpets being alike for
fear of the Evil Eye. (From the San
Francisco Argonaut.)

HIS ONE VOTE.

An ambitious man rather unwisely
stood as candidate at one of the lo-
cal elections, and at the close of the
poll was found to have received only
one vote. The candidate was excessi-
vely mortified, and, to increase his
chagrin, his neighbors talked as if it
were a matter of course that he had
given that one vote himself. This an-
noyed him so much that he offered a
fifty-shilling suit of clothes to his
only supporter if the individual would
come forward and show himself.

An Irishman responded to this ap-
peal, proved his claim, and called for
the reward.

"How did it happen?" inquired the
candidate, taken quite by surprise.

"How did it happen that you voted
for me?"

Pat hesitated; but, on being pressed,
he answered:

"If I tell you, you won't go back
on the suit of clothes?"

"Oh, no; I promise you shall have
the suit anyhow."

"Well, then, your honor," replied
Pat, "sure I must have made a mis-
take in the ballot-paper." (Tit-Bits.)

CITY NEWS

Band at Stadium, Saturday Aft. and Evening.

Mrs. V. Lambert of Plessisville is visiting Mrs. M. Lachance, East Sherbrooke for a few days.

Saturday is the last day that Miss Ormandy will give free demonstrations of the La Diva Corsets at Poutre's.

Mrs. E. C. Bowen, who has been engaged with a surveying party in Ontario, has returned to town, and is at his home on Court street.

Don't forget! Band Stadium. Saturday Aft. and Ev'g.

Ladies' afternoon at Sherbrooke Snowshoe Club to-morrow, leaving Portland Square at 4 o'clock sharp. Club members and ladies will meet prepared to tramp.

Mr. C. S. Everett, of St. Andrews, N.B., Superintendent of Agencies of the North American Life Assurance Company, is in the city a guest at the Magog House.

Band Sat. Eve. Minto Rink.

Mr. E. W. Gilman, Montreal, general manager of the Canadian-Ingersoll Rand Company, Mrs. Gilman, and the Misses Gilman have arrived in town and are at their home in Victoria street, for a ten days' visit.

The hostesses at the Guild tea of St. George's Church, Lennoxville, on Wednesday, were the young members of the Guild. The guests who braved the rather stormy weather to attend, enjoyed the social meeting as well as the appetizing refreshments and fragrant tea.

Mrs. E. A. Powers, the Misses Bennetts and Mr. A. E. Bennetts have returned from a delightful trip to New York, where they visited Mr. H. Bennetts, Philadelphia, Toronto and Ottawa, at which latter place they were the guests of Mr. and Mrs. F. Bennetts.

The fourth assembly of the "X's" Club took place most successfully on Tuesday evening, about seventy members and guests being present. Mrs. J. S. Gage and Mrs. Cascarden were the patronesses, and dancing was kept up till midnight to the music of Turcotte's orchestra. The function was unusually enjoyable.

Mrs. William Wright entertained yesterday at a largely attended and very enjoyable tea, for the Church of the Advent, East Sherbrooke. The pretty rooms at the New Sherbrooke were gay with flowering plants and ferns, and charming music was furnished by an orchestra which played during the afternoon. Mrs. Wright was assisted in receiving by Miss K. Ingram, and delicious refreshments were served at small tables in the tea-room.

MARRIAGES

GROLEAU—DOYON.
Compton, Jan. 23.—(Special)—The Roman Catholic Church was the scene of a very pretty wedding, when Miss Alma Doyon, daughter of Councillor Doyon of this place was married to Mr. Arthur Groleau, also of Compton. A large number of interested relatives and friends gathered at the Church to witness the ceremony, which was performed by the Rev. Father Lavallee. The bride looked very pretty in a brown cloth suit wearing hat to match with handsome white ostrich plume. A wedding dinner was given at the bride's home at which there were a large number of invited guests. The happy couple and their friends were entertained for supper and the evening at the home of the groom's parents, Mr. and Mrs. A. Groleau which proved to be very enjoyable.

The bride, who has been a very successful teacher under the Roman Catholic School Board, received many beautiful gifts. Mr. and Mrs. Groleau will reside in Compton.

McMORINE—THORLEY.
Melbourne, Jan. 23.—(Special)—A pretty wedding took place in St. John's Church, Melbourne, on Wednesday afternoon, January 22nd, when Miss Annie Helena Thorley, daughter of Mr. and Mrs. Robert Thorley, of New Rockland, was united in marriage to Mr. Walter S. McMorine, youngest son of Mr. and Mrs. Walter McMorine, of Kingsbury. The Rev. P. R. Roy officiated. The bride, who was given away by her brother, Mr. William Thorley, looked charming in a gown of Alice blue satin, trimmed with Irish lace, and wore a velvet hat with plume to match; she also carried a white prayer book.

Miss Annie Fraser, the bridesmaid, was gown in Alice blue silk, trimmed with lace and wore a black velvet hat with plume.

Mr. James Kerr acted as groomsmen and the wedding march was played by Miss Viola Burrill. After the ceremony the happy couple, amidst the congratulations of their many friends left for their honeymoon trip to Montreal and other points. The bride's travelling suit was of navy blue serge with blue hat and plume to match. On their return, Mr. and Mrs. McMorine will reside in Kingsbury.

The bride is the organist for the Anglican Congregation of New Rockland, by whom her services are much appreciated, and the groom is one of Kingsbury's industrious young men, both of whom are justly popular. We wish them every success and much happiness in their new sphere of life.

STANBRIDGE EAST BOARD OF TRADE

President Judd Reviews Work Accomplished During the Past Year

BUSINESS WAS GOOD AND FINANCIAL DEPRESSION DID NOT AFFECT THE COMMUNITY.

Stanbridge East, Jan. 23.—(Special)—The annual meeting of the Stanbridge East Board of Trade was held in the board room. There was a good attendance. The president, Mr. T. W. Judd, occupied the chair. Several matters of importance were discussed and disposed of. The interest of the Board was strongly manifested by those present in their approval of the work accomplished during the past year, and there exists strong evidence that it will continue to prove a live factor for the future welfare of the community.

It was decided to ask the Bell Telephone Co. to reopen a pay station in the village as much inconvenience has been caused their many patrons since the company closed it a few months ago.

The sidewalks in the village and beyond are to be much extended next spring and summer, as the available funds are now sufficient to justify considerable work being undertaken in this direction, for which much credit is due the local dramatic clubs. This work will be done under the direction of a committee of the Board of Trade.

The president's annual address was the feature of the meeting and would have done credit to the head of a similar organization of much greater magnitude.

It was decided unanimously to continue a member of the E. T. Associated Boards of Trade and give it the loyal support and assistance of this Board in the good work for the Eastern Townships being done by the larger body.

A resolution was unanimously adopted expressing sincere regret at the death recently of Charles G. Blinn, Mayor of Stanbridge East, and a highly esteemed member of the Board of Trade.

OFFICERS ELECTED.

The following officers were re-elected for the ensuing year: Hon. Presi-

dent, G. W. Corrigan; President, T. W. Judd; Sec.-Treas., C. H. Hibbard.

PRESIDENT'S REPORT.

Mr. T. W. Judd, president, submitted the following report: "Gentlemen, it gives me very great pleasure to report that business conditions in Stanbridge East and vicinity have been very satisfactory during the past year, and that the first year's work of the Stanbridge East Board of Trade has fully justified its organization.

"Our merchants report a good year's business, with sales slightly in excess of last year, and there has also been increases in all other lines of business, and although there has been a curtailment of business enterprises in some parts of the country, the slowing up of trade has not affected this immediate vicinity to any appreciable extent.

"This being essentially an agricultural community, we are perhaps not so readily affected by industrial disturbances as are some other parts of the country. The crops in this section were above the average, and farmers realized high prices for their products.

"Labor has been fully employed during the year and wages have been high, the principal drawback being the scarcity of farm labor.

"The banking business is reported as showing a satisfactory increase, and the generally healthy condition of affairs is shown by satisfactory collections and payments.

"The business of the Post Office is steadily increasing year by year, as is shown by an increase in amount of money orders sold of 18 per cent. during the year 1913, and an increase of 23 per cent. on sale of stamps and postal notes.

"Messrs. G. W. Sadler & Co. are doubling the capacity of their tanning plant and report steady employment for all of their men during the whole of the year.

"The business of our local creamery shows a satisfactory increase during the year, with most satisfactory prices realized for their output. The business of this factory shows a steady increase from year to year, the sales for 1911 being \$38,000; for 1912, \$48,000, and for the year 1913, \$53,461. The average price obtained for butter during 1913 was 28 1/2 cents.

"The business of the Central Vermont Railroad at this point shows a satisfactory increase for the year. They report an increase over last year of 25 tons of live stock shipped; an increase of 3 tons of leather; an increase of 141 tons of wood and lumber, and a miscellaneous increase of 114 tons. The receipts for freight show an increase over 1912 of \$1,923; an increase in amount of tickets sold

of \$288, and express receipts an increase of \$295.

"I regret very much having to report that a very serious outbreak of hog cholera occurred in this vicinity during the year, but owing to the thorough methods employed by our government officials in stamping out the disease, it was of but short duration and no further trouble is expected from this source. Nevertheless, the hog raising industry in this section is likely to suffer for some time to come.

ELECTRIC LIGHT.

"Your Board has taken up several matters of public interest during the year, and one of the things accomplished has been the electric lighting of our street. In order to bring this about it was necessary to obtain the consent of the outside payers, who very cheerfully came to our aid, and we now have our streets lighted in a manner satisfactory to all.

SIDEWALKS.

"Through the efforts of your Board several entertainments have been given in aid of our sidewalk fund, and sufficient money has been raised in this way, which, taken together with other amounts subscribed by our citizens, will allow of a very material addition being made to our already existing walks. Great credit is due to the members of our dramatic clubs, who by their efforts have made possible the substantial concrete walks that now adorn our village.

CLEANING UP WEEK.

"Flies were circulated early in the spring, calling on all progressive citizens to aid in cleaning up the town by giving attention to their own front yards and premises. A ready response was made to our call, with the result that our town presented a much improved appearance during the summer season.

EGG CIRCLE.

"An effort was made during the year to form an egg circle for the benefit of the farmers in this vicinity, but not enough encouragement was given the movement to warrant going on with the proposition.

GOOD ROADS.

"A resolution was passed by this Board recommending the purchase by the town of road machinery in order that proper work might be done on our roads and thereby greatly improve conditions as they now exist. This was forwarded to our Town Council, but no action was taken.

TRAIN SERVICE.

"Through recommendations made by this Board to the Railway Commission, the passenger and mail service on our local railway has been

greatly improved, and we now have a service that is quite satisfactory. Electric lights have also been installed by the railway people in their yards at our request.

REAL ESTATE.

"An effort was made during the year to find purchasers for some of the village property, but without success, the effort being made too late in the season. It is our intention to get at this matter a little earlier this year, and we look for better results.

AGRICULTURAL LECTURES.

"Your Board was able during the year to arrange for several lectures on agricultural matters for the benefit of the farming community, the different subjects touched on being drainage, stock raising and feeding, alfalfa, roots and corn, poultry breeding, housing and feeding. These and kindred subjects were handled in an able manner by representatives of Macdonald College.

"We also had the benefit of an interesting lecture on cow testing, by Mr. C. F. Whitley, of the Department of Agriculture, Ottawa. Although these lectures were not attended by as many of the farmers as we could wish, no doubt good results will follow.

"Your Board also arranged for good road lectures from the Good Roads Department at Quebec, and the science of good road building was ably expounded by Messrs. Chrouchet and Gareau.

FARMERS' EXCURSION.

"An effort was made during the year to run a farmers' excursion to Macdonald College, but arrangements with the railroad could not be made at a convenient time. This no doubt will be accomplished during the coming season.

EMIGRATION.

"I would remind the members of our farming community that through the efforts made by our Associated Boards of Trade, a Colonization Society has been formed, which is receiving assistance from our Government at Quebec, whose object is to direct settlers and farm help to the Eastern Townships. This association has an office in Sherbrooke, and any farmer who is desirous of securing farm help will do well to send in an application to this association. Agents of this association are in the Old Country now, looking up desirable immigrants with a view especially to the farming interests of the Eastern Townships.

CONSERVATION.

"The attention of the Government has been called by our Associated Boards to the necessity of conserving

the water powers of the Eastern Townships, and assurances have been received from the Conservation Commission that their services are at the disposal of any community that may need their assistance. I would urge that this Board make representations to this Commission with reference to the waters of our local river, which if properly conserved would furnish water power in greatly increased quantities for industrial purposes.

EXPERIMENTAL FARM.

"Through representations made to our Government at Ottawa by our Associated Boards, an Experimental Farm will soon be established in the Eastern Townships. The land has been bought and buildings will soon be erected. This will be of great benefit to all the progressive farmers of the Eastern Townships.

"Your Board has been represented at all the meetings of the Associated Boards held during the year, and your delegates have been much impressed by the splendid work being done by the Associated Boards for the general welfare of the Eastern Townships, and I would urge you all to take a deep interest in your own local Board, and by so doing, not only benefit your own locality, but by your support and assistance render aid to the Associated Boards, which is doing such splendid work for the Eastern Townships as a whole.

"The thanks of this Board are due to our Town Councillors, who have so generously allowed us the use of their council chamber for our meetings.

"I desire to express my thanks to the Board generally and to the officers and council of the Board for the very loyal support given me during my term of office, and more especially do I wish to thank our esteemed secretary, Mr. C. H. Hibbard, who has so worthily filled his office and to whom I am deeply indebted for his able assistance on many occasions."

FROM MONCTON TO PRINCE RUPERT.

Ottawa, January 25.—The Grand Trunk Pacific line in British Columbia is rapidly nearing completion, according to word received by the Department of Railways and Canals yesterday. Less than 150 miles of steel remains to be laid and it is understood that this work will be completed by June. This will allow through communication on the Transcontinental from Moncton to Prince Rupert, with the exception of the gap caused by the collapse of the Quebec Bridge.

SHERBROOKE BLACK FOX COMPANY LTD.

SHAREHOLDERS HELD ORGANIZATION MEETING—MAKE PURCHASE.

The shareholders of the Sherbrooke Black Fox Co., Ltd., at their organization meeting, elected the following officers: Wm. Farwell, D.C.L., President; Lt. Col. H. R. Fraser, K.C., Vice President; G. D. Mac-

innon, B. A. Sc., D. J. Steele and J. E. Smith, Directors.

The directors reported that the stock was being well received by the public and also that they had closed with Mr. H. J. Child, late of Pitblado & Co., members of Montreal Stock Exchange, to handle the stock. Mr. Child was in the city yesterday and made arrangements for office room in the Sun Life Building.

The purchase of a tenth interest in the Brighton Black Fox Co., was reported, and the directors feel they have been very fortunate in securing such an interest in this successful Company.

DUSTING BY COMPRESSED AIR.

Compressed air has superseded steam as the motive power for driving rock drills on many of the large excavating jobs in New York city. The men who direct the operation of the air drillers and the men who work in the trenches have discovered a new use for the compressed air after the day's work is done. The powerful drills pulverize a

large amount of rock and the dust is wafted all over the vicinity in which the drilling is being done. The men's clothes become covered with a layer of the pulverized rock, which is extremely difficult to remove by ordinary methods.

The problem of removing this fine rock dust perplexed the men until one of them found the solution by removing the end of the hose which carries the compressed air to a drill and directing the powerful air current on his dust covered clothes. With a hissing sound the air rushed out and swept away the rock dust instantly. In five minutes the men had cleaned his clothes to perfection.

Now all the men working on jobs where compressed air is used are using the up-to-date method of cleaning their apparel.

It is amusing to watch a gang of half a dozen men using as many lines of air hose to blow the dust from their clothes after donning them. (New York Sun.)

15 PER CENT. OF EGGS ROTTEN.

Lethbridge, Alta., Jan. 23.—Addressing the sixth annual meeting of the United Farmers of Alberta here, Prof. Foley, provincial government poultry expert, stated that 15 per cent. of all eggs marketed in Canada were rotten. The reason was carelessness of poultry raisers in marketing fertile eggs. In his annual address President Trillius dwelt at length on the need of a third political party in Canada.

BOY SAVED FROM BEING A CRIPPLE

By Douglas' Egyptian Liniment.

Mr. W. B. Perry, Tamworth, Ont., has a son who owes a good deal to Douglas' Egyptian Liniment, for without it he would certainly have been partially crippled for life. His father writes: "My son Marshall had his foot so badly frozen that the doctor said he would have to amputate the toes. The boy cried so much that we decided to allow the doctor to amputate. "A friend hearing of the case sent us a bottle of Egyptian Liniment and strongly advised us to try it before consenting to amputation. We wished, if possible, to save our son from being a cripple, and used the liniment. "Three days after the first application the frozen flesh dropped off and the boy's foot began to improve and was saved." The way Egyptian Liniment removes unhealthy matter from frost bites, scalds, burns and festering wounds and restores sound, healthy flesh is simply wonderful. 25c. at all drugists. PUBLIC NOTICE IS HEREBY GIVEN

That under the First & Part of chapter 79 of the Revised Statutes of Canada, 1906, known as "The Companies Act," letters patent have been issued under the Seal of the Secretary of State of Canada, bearing date the 21st day of January, 1914, incorporating Charles Walter Cate and Charles Dickinson White, both of His Majesty's counsel learned in the law; John Percival Wells, advocate; Jeanne May Stewart, accountant; and Jessie Baker Ruster, stenographer, of the City of Sherbrooke, in the Province of Quebec, for the following purposes, viz:—(a) To carry on the business of mining in all its branches; to carry on the business of milling, concentrating, converting, smelting, treating, preparing for market, manufacturing, buying, selling, exchanging and otherwise producing and dealing in all kinds of ores, metals and minerals and in the products and by-products thereof of every kind and description, and by whatsoever process the same can be or may hereafter be produced; and generally to buy, sell, exchange, lease, acquire and deal in lands, mines and minerals, rights and claims and in all the above specified products, and to conduct all business appurtenant thereto; (b) To construct, purchase or otherwise acquire or lease buildings, bridges, machinery, engines, cars and other equipment, docks, ships, slips, boats, elevators, water works, gas works, electric works, canals and other waterways and any other means of transportation, but insofar only as may be necessary for the carrying on of the business of the company; (c) To apply for, obtain, register, purchase, lease, hold, own, use, operate and to sell, assign, license or otherwise acquire or dispose of, to grant licenses in respect of or otherwise turn to account any and all inventions, improvements and processes in connection with or connected with letters patent of the Dominion of Canada or elsewhere, or otherwise, or of any trade marks, trade names, formulae or secret processes; (d) To purchase, take on lease or in exchange, hire or otherwise acquire any real or personal property, rights or privileges necessary for the purposes of the company's business; (e) To buy, own, hold, supply, furnish, lease, sell or otherwise acquire or dispose of water and water rights for domestic, industrial, agricultural and irrigation purposes; (f) To generate, buy, use, sell or otherwise acquire or dispose of electric power for electric lighting, heating and the furnishing of power to mines, mills and machinery of every kind and character and description, provided that when such business is carried on outside of the property of the company, it shall be subject to all provincial and municipal laws and regulations in that behalf; (g) To acquire and undertake the good-will, property, rights and assets, and the liabilities as necessary or incidental thereto, of any person, firm, association or corporation doing a similar business to that which this corporation is authorized to carry on, and to pay for the same in cash, shares, bonds of the corporation or otherwise; (h) To enter into any agreement for sharing profits, joint interests, co-operation, joint venture, reciprocal concession or otherwise, with any person or corporation, directly or indirectly, or to carry on or engage in, or about to carry on or engage in any business or transaction or transaction of being conducted so as to directly or indirectly benefit this company, and to lend money to, guarantee the contracts of or otherwise assist in promoting and becoming a shareholder in any subsidiary, allied or other company carrying on a business similar or in part similar to that of this company; (i) To hold, purchase or otherwise acquire, to sell, assign, transfer or otherwise dispose of shares in the capital stock, bonds, debentures or other evidences of indebtedness created by any other companies having objects similar in whole or in part to those of this company, and while the holder thereof, to exercise all the rights and privileges of ownership, including the right to vote thereon, notwithstanding the provisions of section 44 of the said Act. The operations of the company to be carried on throughout the Dominion of Canada and elsewhere in the name of "The Weedon Mining Company, Limited," with a capital stock of fifty thousand dollars, divided into 500 shares of one hundred dollars each, and the chief place of business of the said company to be at the City of Sherbrooke, in the Province of Quebec.

ABOLISH APPEAL TO PRIVY COUNCIL

ABOLISH APPEAL TO PRIVY COUNCIL

Motion to This Effect Was Made By Member in the Quebec Legislature

MAJORITY OF MEMBERS SEEMED TO FAVOR RESOLUTION BUT NO CONCLUSION REACHED

Quebec, January 22.—All the afternoon yesterday the members of the Legislative Assembly listened to a debate on the advisability of abolishing the appeal to the Privy Council and while the majority seemed to favor some sort of revision no definite conclusion was reached. Mr. Armand Lavergne suggested going a step further by cutting off the appeal of cases to the Supreme Court. Mr. Bernier, member for Levis, and Mr. Cousineau, member for Jacques Cartier, took the contrary view that, in reality, the Privy Council was a safeguard of the rights and privileges of French-Canadians. The debate was begun by Mr. Tessier, member for Rimouski, who proposed the following motion: "That in view of certain judgments rendered by His Majesty's Privy Council, which tended to nullify the authority of the courts of this province, and of the Supreme Court of Canada, this House expresses the hope that the right of appeal to the Privy Council may be abolished or restricted so as to put an end to a state of things in regard to which public opinion is aroused."

AN EARLY SUFFRAGIST

(London Chronicle)

In England in 1787 Chief Justice Lee delivered a judgment of considerable interest to women. There were two candidates that year for the post of sexton of St. Euloph's Bishopsgate—John Olive and Sarah Bly. Although the latter obtained the majority of the parishioners' votes, her rival was appointed, and she sought redress in the courts. The Chief Justice ruled that a woman might serve as parish sexton, and added: "Women have held much higher offices, and indeed, almost all the offices of the kingdom, as Queen, Marshal, Great Chamberlain, Grand Constable, Champion of England, Commissioner of Sewers, keeper of a prison, and returning officers for members of Parliament."

CITY NEWS

Mr. Geo. W. S. Shipman of the Financial Post, Montreal, is in town.

The Methodist Church Choir will meet at Mr. Stone's studio to-night for rehearsal.

Mr. J. P. Watson, who for the past ten years has been secretary of the Paton Maning, Co., has tendered his resignation owing to continued ill health, and Mr. Arthur D. Brodie, assistant secretary, has been appointed to the position.

A gentleman of Quebec, well known here, and about to publish a Review of the Newspapers of the Eastern Townships, wishes to obtain information about the following: The Skylark, The Farmers' Advocate, The Farmers' and Mechanics' Journal, The Land We Live In, etc. Will some of our "old residents" kindly contribute by either publishing their answers, or sending them to L. C. Belanger, K.C.?

EARLY MORNING FIRE

The brigade was called this morning at 5.05 for a fire at No. 85 King street, property owned by Louis Blais, and occupied by himself and tenants. The fire started from a defective chimney and slight damage was done. Nos. 1, 2 and 3 stations answered.

"NOT MARY'S LAMB"

The lamb which a police officer found outside a butcher's stall door, this morning at two o'clock, although dressed, was not waiting to follow Mary to school. It had been forgotten by the proprietor and the officer took it to No. 3 Fire Station for safety.

SAW WRECKED OTTAWA PAVILION

Mr. D. G. Harrison, of Lennoxville, who was an exhibitor at the Ottawa Show, arrived on the scene fifteen minutes after the explosion on Wednesday morning, in Ottawa. In conversation with the Record, he stated that the explosion was terrific and was heard a few miles away. In addition to the horses and cattle lost, about one-fourth of the fowls were also killed.

Mr. Harrison described how two heavy horses were blown one hundred feet from the seat of the explosion. He considered the brigade handled the fire in a praiseworthy manner, and remarked that it was fortunate that the explosion, which occurred at 8 a.m., happened after the attendants had fed the stock and before the exhibitors began to arrive.

ANIMAL NAMESAKES

Rachel Was a Hebrew Word For Ewe

Lamb

Did you ever think about the women's names that owe their origin to animals? It is a strange gathering of animals that such names honor. If we do stop to think of them.

For one, there is the name Rachel, which the Hebrews gave in honor of the lamb—surely a good enough symbol for any woman. For Rachel mean, a ewe lamb to the Hebrews. Agnes, too, is a name that owes much to the lamb, for though Agnes is not really a lamb—it means purity—both the name Agnes and the Greek word for lamb came from the source. All through the ages, too, Agnes has been considered as the equivalent for lamb, and if so many persons had not always thought that Agnes actually was first given in honor of this gentlest of beasts, it is quite likely there would never have been so many Agneses.

The dove, too, is another likely member of the animal kingdom to have human namesakes. There is the Hebrew dove, Jemima, and there is the Latin dove, Columba, neither very usual names to-day. It is somewhat strange that there have not been many Columbas in Canada and the United States. Surely the dove is worthy enough, and any American Columba would be honoring good old Christopher Columbus as well as the gentle bird.

The bee is about the only insect that ever gained feminine namesakes. Deborah was a name given by the Hebrews for the bee, and owing to its popularity among the Puritans there is still to be found an occasional Deborah in Canada. Melissa, the Greek name for bee, is seldom found nowadays, although sometimes we come across it in romances. Tabitha and Dorcas are both names that owe their origin to the gentle gazelle—although Dorcas, in its meaning, suggests nothing of the animal's gentleness, for the name signifies dark and beautiful eyes.

VALUE OF NEW CANADIANS

What Immigration Gives Us Besides New Citizens

Occasionally we in Canada groan over foreign immigration and the heavy task we have assumed in trying to assimilate the newcomers and make them good citizens. We give an imitation of the weary Titan. But after all, is not all this change of population good for us asks the Toronto world.

In an old town, where the same families have lived for many years and where everybody knows everybody else, there is danger of narrowness. People are apt to discuss each other's affairs instead of public affairs. On the other hand, in a new growing town there is an exhilaration not only in the rapid progress, but in the contact of new personalities, the hurrying of mind against mind and character against character. Then there is a good deal to be learned from foreigners. What is the use of foreign travel except to meet new people, observe new customs, and acquire new points of view? The inexperienced traveler is apt to go along certain beaten paths and see the things that his predecessors have seen. He does not see the people in their homes; and especially he does not see the poor. He sees the evidences of European culture and power; but he does not see the results of European neglect and oppression. A careful and sympathetic study of the foreign immigrant is as stimulating and instructive as a trip to Europe.

A DECK OF CARDS

The Four Suits Originally Represented Classes of People

Quite apart from their use in various games, playing cards are an interesting study from historical and pictorial points of view. Take first their numerical arrangement. Fifty-two cards, 365 pips or dots, and 13 tricks, representing the weeks and days in the year and the lunar months. There are four suits, representing four classes of people as they were divided at the time the pack of cards was now used by the French. The "spades" stood for plemen or soldiers, the "clubs" for clover, typifying farmers, the "diamonds" for building tiles, representing artisans, and the "hearts" for choirmen or ecclesiastics. The "kings" and "queens" at that time were more or less correct likenesses of certain royal and noble personages. Even in our modern packs it is said that one of the "queens" is a conventionalized portrait of Elizabeth of York, was engaged to the Dauphin of France. The "knave" was then the King's jester, and even these cards may be portraits. All the court cards, in fact, retain their 15th-century character. Cards are amongst the few things that have not changed with the centuries.

Big Trees on Coast

In the forests of British Columbia, trees have been cut so huge that the smooth flat tops of the trunk furnish a platform large enough to dance a set of lancers upon. Indeed the lumberjacks put them to this use. There are a number of trees in Stanley Park, Vancouver, which are between fifty and sixty feet in circumference.

FINANCIAL AND MARKET NEWS

DAIRY PRODUCE

GOOD DEMAND FOR BUTTER.

Montreal, Jan. 23.—The local demand for butter was again good and prices held firm. Business was made up of small lots but was considered very reasonable. So far this month about thirteen cars have been shipped and a few more are booked for shipment before the 31st. There is very little supply at country points, and little or no changes in price are expected in the immediate future. We quote prices as follows: Finest creamery, 23c. to 23c.; first creamery, 22c. to 22c.; seconds, 21c. to 21c.; Manitoba dairy, 22c. to 22c.; Western dairy, 23c. to 24c.

CHEESE PRICES FIRM.

Montreal, Jan. 23.—Local demand for cheese continued fair and prices held firm. There was no cheese received and little business was doing. The exporting is about cleaned up, and nothing stirring is expected for awhile.

We quote prices as follows: Finest western colored, 13c. to 14c.; finest western white, 13c. to 13c.; Townships colored, 13c. to 13c.; Townships white, 13c. to 13c.; seconds, 13c. to 13c.

COUNTRY PRODUCE

EGG PRICES FIRM.

Montreal, Jan. 23.—The prices for eggs were firm, the chief cause being the stormy weather, which had a tendency of holding up receipts. New arrivals were in good demand and sold at from 42c. to 45c., or unchanged from yesterday. Cold storage eggs did not ease off at all, as the supply was not too big. One shipment of two cars was held over until yesterday on account of adverse weather conditions.

We quote prices as follows: Strictly fresh eggs, 42c. to 43c.; Selected C.S. eggs, 35c. to 36c.; No. 1 candied eggs, 30c. to 31c.; No. 2 candied eggs, 28c. to 27c.

LITTLE DEMAND FOR POULTRY.

Montreal, Jan. 23.—Nothing new can be said about the poultry market except that little or no demand was made for any. Holiday prices continue firm with no stock coming in and the supply gradually being taken up. There is little now left and the choicest quality is being procured by cold storage firms.

We quote prices as follows: Turkeys per lb., 18c. to 20c.; ducks, per lb., 14c. to 15c.; chickens, per lb., 13c. to 13c.; fowls, per lb., 10c. to 14c.; geese, per lb., 14c. to 15c.

HONEY MARKET SLOW.

Montreal, Jan. 23.—Trade on the honey market showed no improvement and very little business was doing yesterday. The supply continues moderate with a light demand. We quote prices as follows: Clover, white honey, 15c. to 15c.; dark grades, 13c. to 14c.; white extracted at 10c. to 11c.; buckwheat honey, at 7c. to 8c.

GOOD POTATO TRADE.

Montreal, Quebec, January 23.—Local trade in Green Mountain potatoes were good and prices were maintained firmly. Transactions in car lots or truck, were made at from 75 cents to 80c. per bag. The retail price was unchanged at \$1 per bag.

PROVISION MARKET

HOGS BRING GOOD PRICES. Montreal, Jan. 23.—Abattoir dressed hogs continue to be well asked for and are bringing good prices. Sales were made at 14c. and country dressed hogs sold around 13c.

Security

Secured by taxation, Canadian Municipal Debentures form one of the highest classes of investment obtainable.

Due to the stringency of money investors are being offered to-day Municipal Debentures at lower prices than have prevailed for years. Consequently many people who have heretofore confined their investments to other securities, are availing themselves of the investment opportunities afforded by Municipal Debentures, both from a standpoint of safety and interest return. This is an opportunity which is not only being availed of by Canadian investors, but investors in the United States and Great Britain.

Concerning Kamloops

Kamloops is one of the first cities of importance in the interior of British Columbia, and is the trade centre of a large section of the Province. It is situated 250 miles east of Vancouver and 390 miles west of Calgary. The advantage of its position must therefore be apparent even to the most casual observer, as it should mean a great manufacturing and distributing centre. It is well served with Railway connections, being on the main line of the Canadian Pacific Railway, at the junction of the North and South Branches of the Thompson River. The Canadian Northern Railway is extending through Kamloops its main line to the Coast. The City's good location is evidenced in that it is one of the three oldest settlements in the Province, being established as a Hudson Bay Post before the advent of the railway. The growth has been very solid, the district has capabilities of extended development and is attracting much attention.

NOON LETTER.

The market opened irregular, and there was heavy selling from the start.

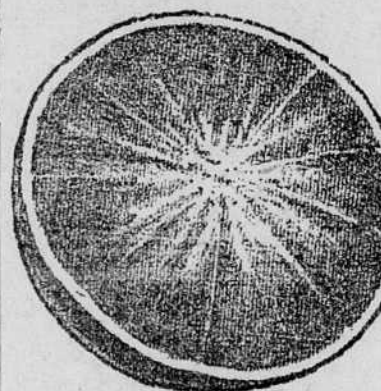

Commission houses, as a rule, advised the taking of profits, and traders were disposed to play to a reaction.

The reaction at the opening, however, was small, and the market remained strong throughout during the trading setbacks.

Steel sold up to a new high level on very large transactions, but stock was fairly supplied at the advance. Since that time it has ruled slightly above last night's close. The same may be said for the whole market, which is now active and at about last night's close. The dealings are on a very large scale and commission business is excellent, with a great number of issues traded in.

The market, as heretofore, when it has ceased to advance, has merely marked time and does not react to any extent.

Cost of Dept to City..... 7700.78

In presenting my first annual report I must draw your attention that during the year just closed, an event has troubled the ordinary quietness of your town; I want to speak of the Blodgett affair. All the efforts of local and provincial police have been successful, but the search is still being continued.

A second event has been the death of Chief Robert Davidson, who certainly was the right man in the right place. All are in accord in saying that it is a great loss to our city. Permit me also to draw your attention to the fact that the importance that your city takes every day, demands some improvement.

Wellington street being the commercial street should have a police officer patrolling the street in the day time. At present we have two at night and one who does duty at the corner of King and Wellington Streets, but the rest of the street is without police protection during the day time.

The central fire and police station is old and begins to deteriorate, especially that part which concerns the police department is much too small. We have no place to lock up women who are arrested during the night, and also the place we have for men is not large enough.

It would be time to study the question of building more modern station which should also be more centrally located.

Besides these few remarks I think it would be convenient to change the police constables uniforms. The present cloth is too tight, specially during the winter season. It is almost impossible for these men to stay out from two to three hours with the present ones.

I notice with pleasure that the city is of a very peaceable nature. The proportion of disorder is lower here than elsewhere and the arrests that are made are almost always for minor offences and the larger part of the prisoners do not belong to the city.

Noting that you will take my few remarks into serious consideration I have the honor of being, Messrs. of the Police Committee,

J. E. HEBERT,
Chief of Police Dept.

CATTLE WERE NOT FROZEN.

Our Brome correspondent writes:

Re the article in the Record of Jan. 16th, under the heading "Cattle are badly frozen," I would say that Mr. Chas. Beals, of Brome, an officer of the S.P.C.A., made an investigation of said stock and barns, at the instance of the Society. He differs with the writer of the article as to the cause of the death of the animal. True, the barn was cold, as also were many others with the mercury at 30 or more below zero. He found one bull dead, but there were other cattle near him in the stable, none of which even had an ear frozen. One cow had a leg which might have been touched either by frost or an injury. Near the dead animal was a calf a few months old. Also on the opposite side of the partition and near said bull, was a five days old calf which showed no signs of being frosted. The officer arrived at the conclusion that cold alone did not cause the death of the animal.

SIMPLIFIED SPELLING

Immigration Commissioner Thinks it May Aid in Naturalization

In an interview with Mr. J. Bruce Walker, Commissioner of Immigration at Winnipeg, the conversation turned on the assimilation of the large foreign immigration.

"For the assimilation of varied nationalities nothing can equal," said Mr. Walker, "the use of a common language. But the English language has to them a strange pronunciation and a freakish method of spelling, so they seek to retain their respective mother tongues. My experience among foreigners has brought this conviction that in the Canadian west, into which natives of Europe are pouring in annually increasing numbers, the need of some rational simplified form of spelling is a necessity."

"What objections do you find to the reform of spelling?"
"Well, the matter is not generally considered. The teacher struggles through the labyrinth of difficulty in teaching the foreign youngster because he is allowed or knows no easier method. I am in hopes that the propaganda of the Simplified Spelling Society will permeate the educationists of our west and awaken them to the need of some reasonable principle of spelling."

Thought It Was a Wild Cat

A real live porcupine visited the town of Truro, N.S., and promenaded along Victoria Square. He met one of the natives of the town who was being on familiar terms with the porcupine species mistook the animal for a wild cat and when the "fretful" Percy began to cause his bristles to stand up, took it as a challenge to battle and began to rain stones on his antagonist with the result that he knocked it out for a time and during that time slipped a cord about its hind leg and waited developments. When the porcupine revived its captor let it out onto the square and proudly exhibited it declaring that he had captured a wild cat.

Speedy Start for Canada

Thirty seconds was the time occupied by the Birmingham magistrates in hearing a case. A man was charged with being drunk, but it was explained that he had taken his passage to Canada, and had only ten minutes in which to catch his train for Liverpool. In a shade less than half a minute the prisoner had been fined, had paid the money, and had left the court room at a run.

CANADIAN EXPORTS

Goods From Canada Are Sold in South America

Chile imports a considerable quantity of farm implements from Canada. Canadian windmills, one or two industrial machines, a few tools, are also found there, and an occasional shipment of lumber and paper is also imported. To Bolivia, nothing beyond some chairs, brooms and wooden goods seem to be exported.

Peru takes an occasional shipment of lumber. In Ecuador, Canadian flour is finding a market, and bids fair to rival the United States product, if indeed it does not eventually drive it out, or at least form that portion of the trade which buys quality and not the cheap low-grade article which is obtained in California and the Pacific coast of the United States. In Guayaquil, some Canadian tools are also seen. Panama is now purchasing Canadian flour, and also small quantities of silver-plated ware and a patent automobile tire cement.

Japanese Thrift

In Japan examples of thriftiness are amazing. On account of the rapidly growing population the people cannot afford to waste the value of a straw. Even the seaweed and octopus serve for food. Hillside that would be given up in Canada as absolutely unprofitable have been converted into rice fields in forty irrigated terraces rising above each other on a single slope and made permanent by walls of masonry. If there is no water, it can be carried to the topmost terrace of the farmers, and if the hillside is rocky, even soil itself may be taken from some distant deposit to the terrace.

Significance of Little Things

We love little things, we hate little things, we fear little things; our lives are knit up with little things from the time we are born to the day we die. But things draw us up to heaven or crush us down to hell. Little things live beside us on earth, eat and sleep with us, laugh and grumble with us, catch the early train with us, or make us miss it, irritate and appease us—never leave us alone for a minute. That is why they are so much more important than the big things—things that only come once in a while at long intervals, and even then are nearly always the result of a hundred and one little things combined.

HOCKEY

SHERBROOKE OFF FOR GRAND MERE AND SHAWINIGAN

The local hockey team left on the three o'clock C. P. train this afternoon for Grand Mere and Shawinigan to play league fixtures. They will book up with the Grand Mere team on Saturday night, and on Monday will play at Shawinigan. The team has gone full strength and chances for a couple of wins are very good.

CITY LEAGUE GAMES MONDAY NIGHT

The two postponed city league games, Baracas vs. Canadiens and Rand vs. Arrows, will be played at the Minto Rink, Monday night. The delegates reached a decision at last night's meeting. The games were scheduled to take place at the Stadium on Wednesday last but were called off on account of the Laval fixture.

The St. Regis Hockey Team will practice at the Stadium tonight from 7 to 8.

LETTERS TO THE EDITOR

SHERBROOKE TO BOUNDARY QUESTION.

Editor of Record:
Dear Sir,—Last the article re "Sherbrooke to Boundary Highway" which appeared in your issue of date Jan. 16th, should mislead your numerous readers as to the extent of influence being brought to bear on the Government by which some are endeavoring to block the road unless it takes the course of their minds. Be it known that the matter lies only in the hands of a "few," edged on by a "few," and that the Direct Route is in no danger of being changed, and those "few" might just as well "save their breath" to cool their porridge.

MACDONALD COLLEGE STAND

ATTRACTS MUCH ATTENTION—SOME OF THE AWARDS.

Several hundred people attended the Poultry Show at the Armory yesterday. A large portion of the visitors came from different parts of the Province, the concessions of the Passenger Association in the matter of cheap fares contributing in a large measure to the increased number present. Among the Sherbrooke people who attended were many of the parents whose children had been entertained by the Association the previous day.

Without exception, the opinion expressed on every hand was that the exhibition was excellent in every respect.

Mr. P. E. Aird, Secretary of the Montreal Show, informed the "Record" that it surpassed the last Montreal Show. He specially complimented the committee upon the lighting and ventilation and said the arrangements of the coops, etc., were superior to those at the New York Show. Messrs. A. Bates and Wiley, Montreal experts, said, "This is a fine show, it is much ahead of what we anticipated and is a credit to the city."

The Macdonald College stand attracted considerable attention. Among their exhibits are graded eggs, dressed poultry, and different styles of poultry houses, trap nests and hoppers.

The show will close tonight and a large crowd is expected this afternoon and evening.

SHERBROOKE BLACK FOX CO.

LIMITED

Buys Interest in Brighton Black Fox Company

Dividends

We are often asked why it is that we do not guarantee dividends, as do some companies. With all due respect to the companies which do guarantee dividends of forty per cent., the directors of this company feel that it is not good business. If investors feel that the men behind a company cannot be trusted to pay them every cent in dividends that the business of that company will permit, the dividend guarantee will not work to their interests.

It is also a striking fact that the Black Fox companies guaranteeing forty per cent. on their stock are only paying forty per cent., whereas other companies giving no guarantee are paying as high as three hundred per cent.

While the directors of the Sherbrooke Black Fox Company, Limited, are confident that the prospects of their enterprise would justify them in guaranteeing forty, or even seventy-five per cent., and would also facilitate the sale of stock, they feel, as business men, that such a course would not be wise.

To the Investing Public

The president and directors of the SHERBROOKE BLACK FOX CO., Limited, take great pleasure in informing the public that they have succeeded in purchasing a tenth interest in the BRIGHTON BLACK FOX COMPANY.

A little explanation will show what an advantage this will prove to the shareholders in the Sherbrooke Black Fox Co. Limited.

The Brighton Ranch owns six pairs of Silver Black Fox, which will breed in April. Options on the offspring have already been sold.

Next Fall these pups will be delivered, and fully paid for, and when this is done the Sherbrooke Black Fox Co., Limited, will receive their first dividend from their interest in this company.

The Brighton Ranch is one of the most promising on Prince Edward Island, and the directors of the Sherbrooke Black Fox Co., Limited, are fortunate in having been able to purchase a tenth interest in this Company.

Growing in Favor

Careful study of the Black Fox Industry invariably removes prejudices which had hitherto existed in the minds of investors. Since the organization of the Sherbrooke Black Fox Co., Ltd., Eastern Townships investors have made it their business to study the industry. Hard-headed business men who laughed at the industry when first approached are now among the most enthusiastic for its future success.

The directors of the Sherbrooke Black Fox Co., Ltd., only ask that investors take it upon themselves to study the industry in the light of independent information they themselves may secure. Government reports, reports of commissions, and American Consular reports are all on record, and set forth the plain facts.

Secure this information and compare it with our prospectus.

That the Sherbrooke Black Fox Co., Ltd., has the confidence of the public is shown by the large number of prominent men throughout the Eastern Townships who are investing.

The same careful business methods that have enabled the directors to make a success of their various undertakings will be exercised in the management of the Black Fox Company's affairs, and every investment made in the company will bring excellent results to the investor.
