PICTURESQUE EUROPE, Illustrated on Steel and Wood

A COMPANION VOLUME TO PICTURESQUE AMERICA

The undersigned has had for some time in active preparation a work designed to correspond in style and character to PICTURESQUE AMERICA (a publication, that has attracted a popularity unexampled by any picture book in the history of the art)...

It is designed to give the most comprehensive and at the same time artistically perfect series of views of picturesque places in the Old World ever published. The success which has attended PICTURESQUE AMERICA, in the United States and Canada, and the numerous orders for copies in the latter parts, and to attend the cost many thousands of dollars beyond the sum first intended, has warranted the undersigned to issue no extra copies in making it in every way a splendid art gallery of the picturesque and the beautiful in the most liberal character, and has determined the undersigned to issue no extra copies in making it in every way a splendid art gallery of the picturesque and the beautiful in the most liberal character, and has determined the undersigned to issue no extra copies...

The above work will be commenced about January 1878.
