BERRY'S FIRST PRIZE SEWING MACHINE DEPOT,

CORNER OF A'DERSON and LAGAUCHETIERE STS., (West End.)

(Four Doors East of Bleury Street,)

MONTREAL.

These Machines have taken the First Prize for three successive years, and are now admitted, by parties who have been testing them for the last four or five years, to be the best and cheapest ever offered to the public, whether for Light or Heavy Sewing, such as Shirt Work, Dress Making, Tailoring, Shoe Binding and Foxing, Hemming and Felling, Harness Work; alike useful to private families, or Manufacturers.

The Machines sold by the Subscriber are all of his own manufacture, having machinery especially adapted for that purpose.

His sole reliance being placed in their superiority, he most respectfully disclaims any connection with any other manufactory, house or agency, foreign or domestic.

The particular points in which the Machines of the subscriber excel, are their simplicity, durability, speed, and economy of needles and thread. Numbers have been working one and two seasons without breaking a single needle. These Machines work without noise.

They are not for sale at any other place than at his Office and Machine Shop, as above.

Numerous and highly respectable references kindly permitted, to private families as well as to manufacturers in the different branches above mentioned, in this City and Province, can be given.

Purchasers thoroughly instructed gratis. Every Machine warranted.

SCALE MANUFACTURER,

Warehouse, Corner St Paul St. and Custom House square,

MONTREAL,

Has constantly on hand an Assortment of

***Platform, Counter, Beam & Stand Scales**

Which are all Warranted. Also,

Brass and Iron Weights.

COAL and HAY SCALES made to order on the shortest notice, and on the most reasonable terms.

He is the Inventor and Patentee of **PLATFORM SCALES** in Canada, and from past experience can confidently state that his Scales are superior to any manufactured or sold in Canada—Fairbanks not excepted. To give an idea of their ease in turning, it requires only $\frac{1}{4}$ lb. to turn them with 1000 on the Platform. The **COUNTER SCALES** will turn with a piece of paper, 2 inches square.

Merchants, test your Scales. Put on about 1000, and see how much it requires to turn them. It ought to be no more than a $\frac{1}{4}$ lb. Many are using Scales that require 3 or 4 lbs., thereby losing more in a short time than the cost of Sharpening and Repairing their Scales.

All Scales to be Repaired must be sent to the Factory, Corner of **ST. PATRICK** and **ST. COLUMBAN STREETS**, Point St Charles, Montreal.
