Quebec Declares War On "Smugs" Enacts New Law

MONTREAL — (P) — A new law will be enforced in Quebec to halt the shipment into the province of cigarettes from Ontario and the United States which do not bear Quebec excise tax stamps.

The new provincial regulation, described as the "most stringent yet taken," was announced Tuesday in the Quebec official Gazette.

The regulation, recommended by the provincial finance minister, will allow revenue and police officers to stop and search all vehicles believed to be carrying cigarettes not bearing a Quebec identification mark on the excise stamp.

Offenders will be liable to confiscation of the seized cigarettes, seizure of the vehicle, prosecution before the courts and a heavy fine.

Previously the illegal importing of U.S. cigarettes was only a federal offence, punishable under the Canadian Customs Act.

The move followed protests to the provincial government by the Wholesale Tobacco Distributors Association and the Retail Tobacco Dealers Association of Quebec.

The tobacco officials said that

New Trouble Flares Along Jordan Border

Jerusalem — (P) — A Jordan military source said 19 Jordan policemen and national guard officers were killed today in an attack he said Israeli forces made on a police post in Jordan's Hebron area.

The military source charged that the Israelis penetrated Jordan territory and blew up the 18-room post in an action lasting two hours.

The informant said the attack occurred at Rahwa village, in the Hebron region southwest of Jerusalem. He termed the incident "most serious."

High ranking Jordan officers and United Nations truce observers were reported on the scene to investigate.

A UN spokesman said fighting was still going on early this morning when the latest reports reached headquarters here.

The Jordanian complaint said the Israeli forces operated in two prongs. One attacked the police fortress while another ambushed Jordanian reinforcements being rushed to the post.

An Israeli spokesman, asked about the incident, said: "We do not want to talk about it."

Tuesday night the Israeli foreign ministry announced that investigation of the killing of six Israeli soldiers in the Hebron

Train Rams Truck — A fireman rushes in to spray this burning gasoline truck which exploded after the CPR's crack transcontinental, the Canadian, collided with it at a level crossing near Portage La Prairie, Man. The truck driver, William Roncyk, 38, of St. Boniface, Man., was killed, a CPR engineer died the next day and another crew member was injured when burning gasoline showered the head-end diesel of the east-bound train. No passengers were injured.

Louisville Sets Fine Example For Peaceful Desegregation

LOUISVILLE, Ky. — (P) — Years of planning paid off for Louisville this week as racial segregation in its schools ended without incident.

It was in sharp contrast to other towns in the southern states where mobs rose up against Negroes enrolling in previously all-white schools.

Louisville's superintendent of schools, Dr. Omer Carmichael, said the smoothness with which Louisville's schools integrated was not left to chance.

"We anticipated the United States Supreme Court's ruling and started making our plans," he said.

An estimated 2,800 Negro students — approximately one-fourth of the Negro pupils in this city of 400,000 — enrolled in previously all-white schools, churches, the press, radio, television, fraternal groups and civic clubs supported Carmichael's program. On the opening day of school, white and Negro students walked the corridors together, sat side by side in class.

The task was "made easier," Carmichael said, by integration in other fields. The University of Kentucky began admitting Negro students at the graduate level in 1948. The University of Louisville has Negro students. The city's public parks, libraries and amphitheatre are open to all. There is no segregation on the city's buses.

Tax Cuts Unlikely

See Health Insurance As Big Election Plum

OTTAWA — (P) — A high federal authority says the government plans to go to the polls next year with national hospital insurance legislation on the statute books.

He says also that while some commodity taxes may be trimmed in 1957-58, there is no indication that personal or corporation income taxes will be reduced or that old age pensions, family allowances or similar social security outlays will be increased.

The outlook may change before the financial experts get down to firm budgetary planning, perhaps after Christmas. A lot will depend on economic trends. There is some feeling in federal quarters that the high-rising Canadian economy may slow its pace in the second half of 1957.

But the view that currently persists among those close to the cabinet is that the government will face the electorate, possibly in June 1957, with only modest tax cuts and the health insurance legislation as main political offerings.

The latest information is that the government will introduce the insurance legislation at the next session of Parliament expected to take place early in 1957. This move will have implications for the 1957-58 budget.

If the legislation goes through, the administration plans to put some \$200,000,000 of its 1957-58 budget aside to pay for federal costs should all provinces enter the insurance plan. If the plan does not go into force, then the money would be used to reduce the \$11,300,000,000 national debt.

This would trim the amount of money which Finance Minister Harris might otherwise employ to cut taxes. Debt-cutting is considered anti-inflationary.

Placing of the federal insurance offer, as it now stands, on the statute books would indicate to the provinces there is no room for further negotiations. They could take it or leave it.

The government followed a similar course in presenting the provinces with its proposed tax-sharing formula. After negotiations, the formula was passed into law through legislation. There was no further room for bargaining.

Mexico Ready For Hurricane Dora

NEW ORLEANS — (P) — The main force of tropical storm Dora, churning through the Gulf of Mexico with winds estimated up to 70 miles an hour, was expected to hit the Mexican mainland today.

The weather bureau here said that at 6 a.m. EDT the storm was centred about 45 miles off shore. A portion of the disturbance was already over land, and the centre was expected to break up quickly upon reaching the coast.

Will Employ Own Pilots, Protect Rights Of Users

London — (P) — Prime Minister Eden told a tense House of Commons today that the United States has agreed to join with Britain and France in setting up immediately an international association to protect rights of the users of the Suez Canal.

Eden said this users' association would be provisional in character and it was hoped that it would help prepare the way for a permanent system established with full agreement of all interested parties.

He said the association would include the United States, France and Britain and "other principal users of the canal will be invited to join." It would employ pilots and undertake the responsibility for the co-ordination of traffic through the canal.

"The Egyptian authorities will be requested to co-operate in maintaining the maximum flow of traffic through the canal," Eden said "it is contemplated that Egypt shall receive an appropriate payment from the association in respect of the facilities provided by her."

But, he explained, the "transit dues will be paid to users association and not to the Egyptian authorities."

Suez Pilots Quit Friday

CAIRO — (P) — A spokesman for foreign pilots and employees in the Suez Canal told Egypt today that British, French, Dutch, Norwegian and Italian pilots and employees wish to quit their jobs Friday night.

The move could reduce the vital waterway to a useless derelict strip in the Egyptian desert.

The Western employees of the canal took the cue for their resignation from the old Suez Canal Company, controlled by Britain and France.

The Egyptian information department announced that the French chief of the Suez canal navigation section, Paul Reymond, had informed managing director Mahmoud Yunes of the employees' decision.

An official Egyptian source immediately labelled this action "a conspiracy worked out before-hand to obstruct navigation in the Suez Canal."

There was no immediate indication what action the Egyptian authorities would take toward the pilots quitting on such short notice.

Egypt bitterly accused Britain and France of plotting an incident to give them an excuse to seize the canal. But the angry words did not help Egypt solve this dilemma.

If the pilots and other foreign technicians leave, operation of the canal will be crippled.

If any attempt is made to keep employees on the job by force, British and French troops poised in the eastern Mediterranean may move in to protect their nationals. Most of the pilots are British and French citizens.

The problem was posed by an official notice the Suez Canal Co. in Paris dispatched Tuesday to its 1,475 non-Egyptian employees. It authorized them to quit work Friday or Saturday.

Most critical is the threatened exodus of most of the 146 pilots now on hand who perform the delicate task of steering ships through the 103-mile desert waterway linking the Red Sea with the Mediterranean.

More than 100 American, French, British and Scandinavian pilots in Port Said reported that they have packed their belongings and settled their financial affairs, ready to leave as soon as the notice arrives. Press reports of the company's action arrived before the official notice.

When Carmichael and the Louisville board of education decided that the city should be prepared for desegregation, they first went to the teachers. The teachers were asked to prepare questions on the various problems connected with integration. They were told not to concern themselves with the solutions.

These replies were evaluated. Armed with this information, speakers then began talking before groups throughout the city.

Negro and white parents met in joint sessions and studied the problems ahead. Ministers based sermons on brotherhood and lay groups held informal discussions on integration.

Carmichael was high in his praise in the way the city's press supported the program.

"No community could have been more fortunate," he said.

"We are now reaping the value of the long hard work done in this community preparing for integration," he said.

National Guard militiamen now have left Clinton, Tenn., after week-long demonstrations against school integration.

The last contingent of 50 Tennessee guardsmen slipped quietly out of Clinton Tuesday night after 590 white pupils and 11 Negroes attended classes together peacefully, but several hundred troops remained at hand today in the Sturgis area in Kentucky.

Bishop Funeral Friday

Air Officials, Prime Minister Pay Tribute To Ace Fighter

MONTREAL — (CP) — William A. (Billy) Bishop, Canada's brilliant aviator who became the Commonwealth's ace fighter in the First World War and an inspirational recruiting leader in the second great conflict, died early Tuesday at his West Palm Beach, Fla., home.

Death came to the 62-year-old military hero and holder of the Victoria Cross at 2:30 a.m. At his bedside were Percy Lethbridge, his aide since the war days of 1914-18, and Dr. James R. West of West Palm Beach.

Air Marshall Bishop had been in ill health for some time and had spent long periods in Florida in recent years. He retired in 1949 from his post as vice-president of McCol-Fontenac Oil Co., Ltd., in Montreal.

His wife, the former Margaret Eaton Burden of Toronto, was visiting their son Arthur in Edmonton and immediately prepared to fly to Toronto where the funeral service, with full RCAF military honors, will be held Friday.

The body of the man who shot down 72 enemy planes during the First World War will reach Toronto today in an RCAF plane.

In addition to his widow and son, Arthur Christian, the air marshal is survived also by a daughter Mrs. Raymond Willis, O'Connor of Rockcliffe Park, Ont.; a sister, Mrs. F. J. MacKay of Owen Sound, Ont.; and a brother, Col. Worth Bishop of Toronto, and three grandchildren.

Billy Bishop's daring and expertness as a fighter became widely heralded during the First World War and as his score mounted his decorations increased—the Military Cross, Distinguished Service Order and the Victoria Cross.

The feat which brought the award of the Victoria Cross was a single-handed effort in which he destroyed three of seven German planes and damaged others in an attack on a German air-drome.

News of the death of Billy Bishop, whose geniality was as well known among his associates as his daring, brought tributes from Prime Minister St. Laurent and high-ranking officials in Canada's armed services.

In the words of the citation that brought Bishop the Victoria Cross, the prime minister said the air marshal had served Canada "with most conspicuous bravery, determination and skill." As director of recruiting for the RCAF in the Second World War he was responsible for the enlistment of men and women "who made such a splendid contribution to our war effort."

Gen. A. G. L. McNaughton, Canada's military commander overseas during the Second World War while Bishop was helping to set up the Commonwealth air training plan in Canada, paid tribute to Bishop's outstanding work.

Gen. McNaughton said Bishop's name and that of the ace fighter's associate William Barker, VC, will always be remembered by the people of Canada for "the courage, outstanding skill, the initiative and devotion to duty which marked their contribution to the Allied cause . . . and which continues to inspire the many thousands of young Canadians who follow their leadership in our flying services in war and in peace."

Canada's three aces of the First World War now have died since that conflict. Billy Barker died at the age of 36 in Ottawa; Capt. A. Roy Brown, who was credited with shooting down the German ace Baron Manfred von Richthofen, died at 50 at Lusnaclin, near Toronto, and now Bishop.

Only two fliers exceeded Bishop's officially credited 72 "kills" in the war of two score years ago. Von Richthofen claimed 80, although some of them were suspected to be balloons. Rene Fomek of France shot down 75 enemy planes. Bishop's 72 were shot down during 1917 and 1918, over two comparatively short stretches.

World News In Brief

MONTREAL — (P) — Maj.-Gen. James George Ross, who joined the army as a private in 1879 and was paymaster-general of the Canadian overseas forces in the First World War, died here Tuesday. He was 94.

A native of Montreal, Gen. Ross was also prominent in business circles and for many years was senior member of P. S. Ross and Sons, chartered accountants.

BETHLEHEM, Que. — (P) — Fire Tuesday destroyed part of St. Joseph's College in this town 40 miles northeast of Montreal, forcing the institution to close its doors for the remainder of the 1956-57 school term.

No one was injured during the fire, discovered while the 321 pupils, most of them boarders, were at lunch. Destroyed were three of five dormitories, the chapel, a study hall, a recreation hall and a floor occupied by teachers.

PORTAGE LA PRAIRIE, Man. — (CP) — A CPR engineer who was severely burned in a flaming collision between a transcontinental passenger train and a gasoline truck died Tuesday in hospital. The driver of the truck was killed in the crash Monday and the diesel helper on the locomotive was injured.

Joseph Langevin, 61, of Winnipeg fought flames sheathing the locomotive to halt the train before he jumped into a water-filled ditch. He was brought to hospital here in serious condition.

OTTAWA — (CP) — A transport department official said Monday he has heard of no licensed Canadian river pilots looking for jobs on the Suez Canal.

The transport department official said all licensed Canadian river pilots are under departmental supervision. Any taking jobs abroad would have to resign their Canadian licenses first. He saw little likelihood of this.

WASHINGTON — (AP) — The United States has demanded full damage from Red China for an "unjustified" attack in which a U. S. Navy patrol plane was shot down off the China coast Aug. 23. A formal note to the Peiping government, made public Tuesday, said the United States "strongly protests" the incident and "places the responsibility" with the Chinese Communist regime.

TOKYO. — (Reuters) — Typhoon Emma, biggest Far Eastern storm this year, caused an estimated \$4,500,000 worth of damage to U. S. army and marine installations on Okinawa. United States Army headquarters announced here Tuesday.

QUEBEC. — (CP) — A natural gas deposit, capable of daily output of 5,000,000-cubic feet, was reported struck recently at Pointe-du-Lac, Que., a north shore St. Lawrence River town 75 miles southwest of here.

A Quebec mines department spokesman has described the gas find as the most important of several made in the province in recent months.

A Great Canadian

Canadians have never glamorized nor made as much fuss over their heroes as have many other countries.

One exception, of which this country has always been justifiably proud, was Billy Bishop, air hero of the First World War, who died in Florida yesterday at the age of 62.

Billy Bishop proved himself worth every ounce of pride that his fellow-countrymen felt for him. His death closes a great chapter in Canada's war annals, for he was the last surviving member of the "Big Three" of Canadian aces of the First War. The two other members of the trio, Col. William Barker and Capt. A. Roy Brown, died in 1930 and 1944, respectively.

His air exploits over France are legend. His first air fight occurred

early in 1917 and his score of enemy planes mounted daily, as he was awarded the Military Cross, the Distinguished Service Order and the Victoria Cross.

In his last 12 days he shot down 25 enemy aircraft, but perhaps his most daring exploit was a single-handed attack on a German airdrome when he destroyed three planes and damaged others as they took off to give battle.

He was the first man ever presented by the King with three medals simultaneously — the MC, DSO and VC.

Pride there could be and pride there was. In war and peace, Billy Bishop was a great Canadian.

Hiding Inefficiency

By their nature, democracies muddle through. At times, their warmest advocates grow exasperated with the delays, the confusion, the inefficiencies and the backing and filling which mark the process of popular decision.

In these moments, some people cast longing glances toward the authoritarian governments, where common report has it that dictation from the top produces a high degree of efficiency, of centralized action, without inordinate delay.

The phrase, "he made the trains run on time," heard so much in Mussolini's day, expressed quite well this somewhat envious thought.

But, in truth, this whole notion is an illusion which does not stand up under close inspection. A few examples from Nazi Germany, billed as the great colossus which did everything right, will reveal the fallacy in this outlook.

After the war, when we could interrogate thousands of men who were involved in the German war effort, we learned just how "efficient" Nazi rule really was. The fact was that it was a horribly bungling regime which kicked away an amazing number of opportunities to advance its cause of conquest.

Two years after the great war began, Hitler still did not have arms production organized on a sensible basis. In 1942, with German legions expending 400 million rounds of bullets a month in Russia, the Nazis were producing just 115 million a month.

As Theodore White reports, Hitler "flicked his war production about as

the whim took him, ordering, cancelling guessing, exhorting, without reference to fact, figure or statistic." The armed services ordered irrelevantly; priorities were a jumble.

Another instance: Germany lost a great battleship, the Scharnhorst, largely because German naval air reconnaissance was so indifferent the ship's commander began duelling British ships without knowing a British battleship of superior fire power was among them.

One man, Herman Goering, was responsible for this loss. As boss of the air force, he was contemptuous of the navy and its need for air guidance. The German navy never got the air protection most navies have.

These errors grew out of government by dictate, by individual whim. The democracies made mistakes in the war, too. And big ones. But the democracies had one saving grace. Their errors were subject to the corrective of criticism.

In lands where freedom rules, most decisions are put under public scrutiny, questioned, debated, hammered at, even reversed if need be. Thus, all the inefficiencies are exposed, and performance often seems worse than it is.

In totalitarian countries, errors are suppressed and thus are compounded and magnified. To the world they offer a facade of perfection. But it is jerry-built, and conceals a host of weaknesses.

No, we need not envy the authoritarian way. And though we dare not grow complacent about our defense, we need not fear the authoritarians, either.

AT A SAFE DISTANCE

(Hamilton Spectator)

With all the phoney profundity of a lecturer pointing out that crime doesn't pay, some people—and some publications—nod in their wisdom and declare that color discrimination and racial persecution in the United States are horrible.

If there were a large body of opinion in Canada which maintained that discrimination and persecution were not horrible, then there would be some point to their smugly righteous fulminations. But the implication that Canadians must be told these self-evident truths is rather insulting.

We refer to the long-distance invective hurled several thousands of miles away toward some sections of the United States, particularly Texas and Tennessee, where violence is threatened as Negroes seek to enrol in schools in accordance with the Supreme Court's desegregation decision. Of course violence is deplorable, whether it occurs in Mansfield, Texas, or here in Hamilton, Ontario.

The highest court in the United States ruled that integration should be accomplished with all deliberate speed. This is being done gradually and quietly in many sections; unfortunately with violence in others. But even to the most distant observer with even a scant knowledge of the Southern background, it should be apparent that the wise judgment of the court will take time to implement fully.

There can be racial animosities in Canada, even right here in Hamilton. Let us dispel these before we are presumptuous enough to lecture the United States on a problem which the vast majority is taking sincere and painstaking steps to solve without violence. Meanwhile, it's their problem; let's just be thankful it isn't ours.

UNCLE SUGAR

(Brandon Sun)

The American nation is undoubtedly the most generous ever known in human history. But there are times when it is generous at the expense of other nations, not so wealthy, and the latest wheat gift to India is a case in point.

Ostensibly the deal is a financial one, but its terms are so generous that they deceive nobody. The U.S. is letting India have \$400,000,000 worth of surplus agricultural produce (most of it wheat); payment will be made in rupees instead of dollars, and most of the sum will be re-lent to India to pay for capital construction. That is hardly a business deal, says the Peterborough Examiner. Of course, the element of good business in it may be American in effect; if the U.S. government pays its farmers supported prices which encourage over-production, it is good business in an election year to get rid of some of the piled-up produce. But the deal looks like a generous one to the Indians, and we are sure that the U.S. has undertaken it with at least 75 per cent benevolent intention.

But this kind of thing plays hob with the world wheat market, in which Canada has a keen interest. We cannot match the U.S. in giving away produce, and we do not like to see two wheat markets in operation—the usual one based on payment in coin, and a second one based on payment in gratitude, or goodwill, or some kind of intangible benefit. In the case of this Indian deal, it is Australia's throat which is being cut, but Canada has had her experiences as the third party in these give-away procedures.

It seems hard, perhaps, to protest against a very rich country giving its surplus to a poor one. But if the U.S.A. wrecks our wheat market, will it send us free wheat? We do not think so; there are a dozen excellent reasons against it. And as wheat is a principal product of ours, we do not like to see the market for it debauched.

LEAD TO ARGUMENT

(Ottawa Journal)

A London correspondent in Ottawa has suggested the United Kingdom should send a senior Cabinet minister to Canada to impress on the public the gravity of the Suez Canal situation. But then Nasser might want to do the same and it would only be an argument.

FRIEND OR FOE?

(St. Thomas Times-Journal)

At a recent International Congress of Entomologists in Montreal at which the losses by insect pests were the subject of much discussion, it was stated that every dollar spent on insecticides meant a saving of \$52 to the farmer. But insecticides destroy the insects which are the natural food of birds which starve to death in great numbers. One ally of the farmer kills another ally, and it is a problem for farmers to know what to do.

FIRST TRICK BAGS CONTRACT

What should South play at the first trick? Should he win the first club trick, or should he hold up his ace?

The correct play is to hold up, allowing West to win the first trick. Let's see how this works out.

West continues with another club, and South wins. Declarer draws trumps with the ace and king, and then leads a low diamond from dummy. East plays low, and South finesses the ten of diamonds, losing to West's jack.

West is now helpless. If West leads hearts, South will win a trick with the king of hearts. If West leads anything else, South will take the top diamonds and discard a heart on dummy's last diamond. Either way, South loses only one heart trick and thus makes his contract.

Now see what happens if South wins the first club trick. He draws trumps and finesses the ten of diamonds to West's jack. Now, however, West leads a low club to East's ten. And East returns a heart through the king, setting the contract with two heart tricks.

The hold-up is necessary to make sure that East cannot gain the lead. A simple play, but very effective.

BYGONE DAYS

TWENTY YEARS AGO

From the Record of Sat., Sept. 12th, 1936.

Chancellor Adolf Hitler, in an address to the German people, painted a glowing picture of the benefits that would accrue to the Reich if it conquered Russia. The highly aggressive tone of his remarks is causing grave concern in other European capitals who fear it may prelude actual warfare.

INFANT PROBLEM

(Peterborough Examiner)

The Dominion Bureau of Statistics, reporting for the year 1955, shows that the rate of infant mortality in this country is uncommonly high. This has long been a Canadian problem, and we should like more information as to why it is so.

Canada and Russia have settled their trade differences which resulted in one country banning numerous products of the other. Commerce is expected to return to normal within a few weeks following the five-year disruption.

TEN YEARS AGO

Developments in the steel strike settlement efforts seemed at a standstill today as the work stoppage reached its 60th day. However, comment by Prime Minister Mackenzie King yesterday that he believed the strike was nearing an end, lent support to a belief that an early settlement was within reach. The main difficulty now appears to be the acceptance of the principle of arbitration on remaining issues.

A Rome dispatch said today that Albania has been concentrating troops on the Greek border during the last few weeks, among which are two Russian infantry regiments. Greek spokesmen have charged Albania with strengthening

military preparations in a move against Greece but the Times dispatch is the first detailed picture of the nature of these preparations.

If the City Fathers decided upon the installation of a new gas plant of the nature of that viewed by a Sherbrooke delegation to Three Rivers yesterday, people living in outlying areas will be able to use gas without being connected in the mains, using it in the bottled form. This will also apply to new houses as a temporary measure.

HUMANE SLAUGHTER

(Halifax Chronicle-Herald)

Many Canadians, including most of those who have witnessed animal killings on the farm and in abattoirs, will hope that consideration now being given by Federal authorities to more humane methods of slaughter will lead to a favorable decision.

There definitely is a considerable element of cruelty in the methods still used in North American countries for the slaughtering of cattle, hogs and other livestock for meat.

The Guilty Stork

(Ottawa Journal)

A biting U.S. cartoon shows a stork flying with a baby for delivery and remarking, "I always feel guilty when I fly over a school." Across the border, as in Canada, crowded

ways feel guilty when I fly over a school." Across the border, as in Canada, crowded

schools are the order of the day with 700,000 classrooms required in the next four years and educational authorities critical of the failure of Congress to take effective action to assist education.

Within the last few days Ottawa has announced plans for three new public schools and every educational system in the city has plans for expansion. Millions of dollars are being spent in this district to provide more accommodation but no slide-rule calculations are required to prove that the need for additional expenditures will continue if the community is to meet its responsibility to the new generation.

This difficulty is not confined to Ottawa, Canada or the United States. The necessity for higher education is accepted universally, especially in the Communist countries where national governments go to great lengths to encourage and assist the promising student. In the House of Commons here, in Parliament in Westminster and in the legislative halls of Washington, there is talk of the urgency—more than that, the imperative necessity—of the West keeping pace.

Talk doesn't help at all. The time has arrived for the Canadian federal government to stop using provincial rights as an excuse and find means of co-operation with the provinces and municipalities in seeing that educational facilities are improved. And if every province will not enter into co-operation, it should be possible for Ottawa to go along with those who will.

Churchill Attends Suez Debate

LONDON (P) — Sir Winston and Lady Churchill celebrated their 48th wedding anniversary today, but called off their traditional family dinner party because of the Suez crisis.

The 81-year-old statesman journeyed to London for the emergency parliamentary debate on the Suez issue. Lady Churchill remained in their country home at Westminster.

Prime Minister Eden lined up support for his Suez policy by quietly passing the word before the Commons met that the government had Churchill's firm backing.

Churchill's emergence in a backstage role marked the first time the former prime minister had come out of his shell on a big political issue since his retirement 16 months ago.

There appeared a possibility that Churchill might speak as a Conservative member during the debate.

Morocco Expels 20 Frenchmen

RABAT, Morocco. — (Reuters) — Moroccan authorities Tuesday night arrested about 20 Frenchmen with a view to expelling them from the country, the French embassy here announced early today.

The embassy said Ambassador Andre Dubois had made a vigorous protest against the arrests. A French source said it is believed the arrests were among members of the French settlers organization, "Presence Francaise."

The Moroccan government last week ordered the organization to be disbanded and its assets confiscated after several of its members had been taken into custody and accused of distributing tracts inciting the Berber tribes to revolt.

Cypriots Surrender One Donkey

NICOSIA, Cyprus. — (Reuters)

— A three-week British offer of amnesty to Cypriot terrorists expired today with the total known surrenders listed as one donkey.

The donkey, wooden rifles tied to his tail, appeared on Nicosia's main street Sunday with signs pasted to him declaring "I surrender." He was detained by security forces and later released.

The EOKA terrorist organization which leads the drive for unity of this British Mediterranean island with Greece, issued leaflets Tuesday night declaring that none of its members had accepted the surrender terms issued by the governor, Field Marshal Sir John Harding.

As the amnesty offer ran out, terrorist gunmen ambushed two military trucks Tuesday night, wounding seven soldiers, two of them seriously.

Two Cypriot Greeks were killed in shooting incidents Tuesday. One was a youth who was shot by guards while trying to escape from a police car bringing him to Nicosia after he was arrested at a roadblock, where two pistols were found in his car.

Prime Minister Eden and French Premier Mollet who Tuesday declared their countries determined to protect their interests in the canal "by all appropriate means."

Wing Cmdr. Ali Sabry, one of President Nasser's chief aides, called the authorization an "order" to the foreign employees to "quit their jobs." He said it "proves that the governments of Britain and France have a deliberate plan aimed at obstructing navigation in the canal."

Manpower Study Starts

ST. ANDREWS, N.B. — The National Engineering Manpower Conference, a three-day study of future educational and technological requirements, ended here Tuesday with major Canadian industrialists and educators setting up two continuing committees to give Canadian business a greater share in education.

Trade Minister C. D. Howe wound up discussions with a warning that industry should not over-exaggerate the lack of technical and engineering manpower in Canada.

The minister urged delegates to consider broader problems of keeping the Canadian economic growth steady and avoid the threat of a slowdown.

Mr. Howe said he was "not too impressed with alarmist reports" of a heavy Russian turnout of engineers and scientists and urged the major industrialists gathered here to concentrate on the Canadian problem.

At times, his closing banquet address at the Algonquin Hotel was at variance with chief aims of the delegates who attacked the problem of a shortage of technical manpower from the angle that the Western world was threatened with losing its technological supremacy to the Soviet Union.

Final sessions of the conference Tuesday brought forth a pair of committees to continue a long-range study of Canadian educational requirements to ensure an adequate supply of scientists and engineers.

Sal "The Barber" Maglie Hurls And Bats Dodgers Into Tie For NL Lead

Posts His 10th Victory Since Joining Them In May; Yogi Berra Hits His 236th Home Run; Redlegs Stop Giants

Sal Maglie, the old man with the beard who used to give Brooklyn fits, turned out to be the guy who pitched the Dodgers into a tie for the National League lead.

Tuesday night, Maglie was The Old Pro among Brooklyn's old pros, striking out six, walking none and driving in two runs while beating Milwaukee 4-2. It was Sal's 10th victory since being picked up from Cleveland in May and it lifted the world champs into a share of first place for the first time since April 28.

The 39-year-old right-hander held a 23-11 lifetime hex on the Dodgers while he was with New York Giants.

Third place Cincinnati—with Frank Robinson tying the major league record for home runs—whipped the Giants 11-5 to leave the Redlegs two games off the pace. Each club has 16 games remaining.

St. Louis defeated Philadelphia 5-3 and Pittsburgh beat Chicago 4-3 in the other NL games.

In the American, Yogi Berra hit his 236th career home run, tying a major league record for catchers, as New York's pennant-bound Yankees defeated Kansas City 9-5. Cleveland, with Bob Lemon winning his 200th in the majors, trimmed Baltimore 3-1. Boston dropped Chicago out of a second place tie with the Indians, beating the White Sox 5-3. Detroit punted Washington 12-0 behind Frank Lary's two-hitter.

The Braves, who had the lead all to themselves since July 13, refuse to admit they're troubled by the pennant pressure. But it sure looks that way. While Brooklyn has won four of its last five, the Braves have won only two of five—and Bob Buhl, who had beaten the Dodgers seven times without defeat, blew up to walk seven in his 3-2-3 innings Tuesday night.

The Brooks, with just five hits all night, got the clinching pair.

In the eighth off, Ernie Johnson, fourth Milwaukee pitcher, Gil Hodges slammed his 27th home run in the game.

Milwaukee's runs came on Ed Mathews' 35th home run and Joe Adcock's 38th.

Cincinnati battered four Giant pitchers for 14 hits—including a grand-slam homer by Ed Bailey and Ted Kluszewski's 35th home run. Robinson's shot was his 38th—matching the record set by Wally Berger as a Boston Braves rookie in 1930 and tying Brooklyn's Duke Snider for the NL lead.

Berra, needing one more to break Gabby Hartnett's home run record, smacked his 28th and Hank Bauer hit his 24th and 25th for the Yanks, who now need any combination of victories and Cleveland defeats totalling seven to clinch the flag. Hee Lopez, Harry Simpson and Loser Art Ditmar homered for the A's.

Lemon gave six hits and poled a two-run homer in becoming the 36th pitcher to win 200 since 1900. It was his 19th victory of the season and put him with teammates Bobby Feller (266) and Early Wynn (217) as the only 200-game winners now active.

Waterloo Honors Dominion Junior Tennis Champion

Francois Godbout Is Guest Of Honor At Special Reception Staged Last Night For Winning Dominion Crown

WATERLOO — (Staff) — Though only 18 years of age, a young man with ten years tennis experience behind him, Francois Godbout, received a hero's welcome in Waterloo last night.

Godbout traced himself a path to fame this year by winning the Canadian Junior Tennis championship in Toronto recently and even more in evidence was his championship win at Lake Placid, where he upset top-seeded American juniors to win the Adirondacks' crown.

Last night in Waterloo, where he was born 18 years ago, Francois Godbout was heaped with praise and gifts during a celebration held in his honor.

First of all a parade through the city streets was held with a reception at City Hall next. There he was received on the balcony of the two storey building, along with his mother, and representatives of Government, municipal affairs and tennis officials congratulating him for his fine showing in Toronto.

The celebration was organized by the Junior Chamber of Commerce of Waterloo and not only words were in evidence because young Godbout received an engraved pen and pencil set from the citizens of the town and his mother, Mrs. L. C. Godbout, was given two cheques, one from the City Council of Waterloo and the other a purse from the citizens of the town. The reason for Mrs. Godbout being the recipient of the money was traced to the fact that the junior champion might have his amateur status affected by accepting monetary offerings.

Godbout was received at City Hall by Mayor Raoul Daragon and members of City Council and later the Mayor told the crowd gathered in front of City Hall that everyone in the city should rejoice that such a young man had brought one of the greatest honors in tennis to Waterloo.

Both Mayor Daragon and Armond Roussel, MLA for Sherbrooke, paid tribute to Mrs. Godbout for the many sacrifices she made in order to allow her son to continue his tennis career.

The chairman of the Protestant School Board of Waterloo and vice-president of Slack Bros., Robert Flood, spoke of Godbout as both a sportsman and a gentleman and he told the crowd that the young star had the makings of a model citizen. He wished Godbout the best of luck and said he hoped that he would continue his studies in Montreal.

Also present was Gilles Ledoux, in charge of youth tennis development in the Province, who turned over to Godbout the cup symbolic of the Dominion Junior Tennis Championship.

Displaying the speech of a veteran politician, Godbout thanked the people of Waterloo for the support they had given him during his career and he signalled out the PQLTA and the Sherbrooke Tennis Association for the help they had given him. Representing the Sherbrooke Club last night was Majella Charest, president and Yvan Boivert, director.

"Despite the fact that what I have done does not deserve all this," declared Godbout, "I wish to thank all those, and especially the Junior Chamber of Commerce, for this wonderful celebration in my honor."

Carmen Basilio Slight Favorite In Tonight's Welterweight Clash With Champion Johnny Saxton In Syracuse

SYRACUSE, N.Y. — (AP) — Welterweight champion Johnny Saxton, determined to prove his right to wear the crown, boldly predicted that Carmen Basilio was heading "for a world of trouble" tonight when they clash in a return title bout at War Memorial Auditorium.

The 26-year-old New Yorker flew in from his Summit, N.J., camp breathing fire.

"Man, I'm like a hungry dog guarding his bone," said the cocky champion. "If anyone tries to take it from him, he'll bite his hand. That's the way I feel about the title now that I've gotten it back. Man, he's in for a world of trouble."

Basilio, who finished up his training on his home grounds here, was grimmer and more anxious than ever to whip Saxton, the man who snatched the title away from him on a controversial decision in Chicago, March 14.

"I'm going to win," he said confidently. "I don't know if it will be by points or a knockout but I'm going to win. I'm out to give it to him good. I still say I deserved the decision in Chicago and I'm going to prove it."

As the fighters went into seclusion until the noon weigh-in, the odds, once as high as 9-5 in favor of Basilio, dropped to even money. It was 11-10 and "pick 'em."

When they climb into the ring for the 10 p.m. EDT 15-rounder, the odds may have swung in favor of Saxton. This would be surprising since a majority of

the boxing critics and most of the fans who saw the telecast of the Chicago scrap, thought Basilio, from nearby Chittenango, won handily. And surprising, too, since most of the fans will be cheering for the local product.

Some 8,400 of them will pay from \$5 to \$30 to make for a gross gate of around \$140,000. Syracuse, and nearby areas, will be blacked out of the coast to coast telecast and radio broadcast.

The radio-TV receipts add another \$75,000 to the pot. Saxton, collecting 40 per cent, could earn around \$70,000 and Basilio half as much on his 20 per cent. If Basilio regains the 147-pound crown, becoming the ninth man to complete the championship double, he will give Saxton a return bout, with each getting 30 per cent.

Lew Hoad Favored To Sweep Singles In Toronto International Net Event; Bedard-Fontana Lose To Hoad-Stewart

TORONTO — Four players from four countries were scheduled to meet today in semi-final competition for the men's singles title at Toronto international tennis tournament.

In one match Australia's Lew Hoad, world's top-ranked player, goes against Luis Ayala of Chile. In the other, Sven Davidson, European top-seed from Sweden, matches shots with Ham Richardson, seventh-ranked in the United States.

The women's singles final also had an international flavor as Althea Gibson of New York, runner-up for the American title, met Shirley Bloomer of England. The heavily-favored Hoad won through to semi-final play only after a tough match against Bob Perry of Los Angeles. The big Aussie appeared off form as he edged the unranked American 7-5, 10-8.

Immediately after his match Hoad teamed up with Hugh Stewart of Pasadena, Calif., and subdued Bob Bedard of Sherbrooke, Que., and Don Fontana of Toronto 6-8, 6-2, 6-3 in men's quarter-final doubles.

The Canadians grabbed the first set after sharp close-quarters play, but Hoad and Stewart overpowered them in the second sets in which netted balls cost the Canadian important points.

Hoad and Stewart met Ulf Schmidt of Sweden and Torben Ulrich in semi-final play Thursday.

NEW YORK — (P) — Milwaukee Braves Tuesday signed Manager Fred Haney to a new one-year contract for 1957.

The signing took place after Haney and General Manager John Quinn conferred prior to the league-leading Braves' pivotal two-game series Tuesday night with Brooklyn Dodgers.

Both Quinn and owner Lou Perini said they are "delighted" that the 58-year-old Haney will be at the helm next year.

He did a fine job," Quinn said of Haney, who led the Braves from fifth place into first place in a matter of weeks after relieving Charlie Grimm as pilot June 16 in New York.

Salary terms were not disclosed. Haney is gunning for his first pennant as a major league manager after six years of finishing sixth, seventh or eighth with the old St. Louis Browns and Pittsburgh Pirates.

When Perini named him the Braves' manager June 16, he said the future would be up to the little peppercorn who now in his 32nd year as player, coach or manager.

On Haney's first day as field boss — after a brief tenure as one of Grimm's coaches — the Braves broke a losing streak and went on to win 11 games in a row — a streak that propelled them into the league lead. Under Haney, the Braves own a 59-32 won-lost record compared with a 24-22 record under Grimm.

NHL All-Star Game To Be Played Oct. 9; 12 Saturday Afternoon Tilts To Be Televised From American Cities

TORONTO — (P) — The National Hockey League announced Tuesday arrangements have been completed for 12 Saturday afternoon games to be televised over the Columbia Broadcasting System network from Detroit, Boston, New York and Chicago this season.

A meeting of league governors and managers also named the team which will face the Stanley Cup champion Montreal Canadiens in the annual NHL all-star game in Montreal Oct. 9.

President Clarence Campbell said the Saturday afternoon games are an experiment in an effort to exploit the potential of television.

On the All-Star team, Glen Hall of Detroit Red Wings and Terry Sawchuk of Boston Bruins will share goaltending duties. Defencemen are "Bill Gadsby, New York Rangers; Red Kelly,

Detroit: Fern Flaman, Boston; Gus Morton, Chicago Black Hawks, and Jim Morrison and Hugh Bolton, Toronto Maple Leafs.

Gordie Howe, right wing, Alex Delvecchio, centre, and Ted Lindsay, left wing, all of Detroit, comprise one forward line.

Other lines are: Dick Duff, left wing, Tom Sloan, centre and George Armstrong, right wing all of Toronto; Johnny Wilson, Chicago, left wing; Dave Creighton, New York, centre, and Leo Labine, Boston, right wing, and Nick Mickoski, Chicago, left wing; Red Sullivan, formerly of Chicago and now with New York, centre, and Wally Hergeheimer, former Ranger now with the Black Hawks, right wing.

Jimmy Skinner, Detroit coach, will direct the team. Red Storey will referee with Doug Davies and Bill Roberts as linesmen.

Coach Bill Swiacki Complains About Als' Big Tex Coulter Using Fists, Elbows And Hands To Seymour Wilson

TORONTO — Coach Bill Swiacki of Toronto Argonauts Tuesday looked at films of a Toronto-Montreal Big Four football game and complained about Tex Coulter's fists, elbows and hands.

Swiacki was angry over alleged rough tactics of Coulter, Montreal Alouette tackle, when Argonauts whipped the Als 51-28 here last Saturday.

Swiacki said he telephoned Seymour Wilson, Big Four referee-in-chief, to lodge a beef.

"On the first two plays of Saturday's game, he brought his fist up from the ground and whacked (Hardiman) Cureton. Both times he followed through with an elbow. Cureton was Al Coulter blocking, he shoves with his arms out full length, instead of holding them close to his body.

"If he wants to use his fists why doesn't he go to Stillman's gym?" asked Swiacki.

After Swiacki got Coulter off his chest he went back to his immediate business, that of keeping Argonauts in as good a mental condition for tonight's game against the Tiger-Cats in Hamilton as they were for the Montreal engagement.

Conrad Parent To Coach Aces

QUEBEC — Conrad Ike Parent, former goalie and junior B hockey executive, Tuesday was appointed coach of Quebec Aces of the Quebec Hockey League for the 1956-57 season.

Ottawa Rough Riders In Bad Shape For Today's Battle With Alouettes; Stone Out, Tom Tracy Won't Play

OTTAWA — Ottawa's roughed-up Rough Riders set off for Montreal Tuesday night with 13 important players in tow. Coach Frank Clair will decide who plays before this afternoon's Big Four game with the Alouettes.

The Riders, beaten in their last three games after winning their first, have been hit by injuries and a general lack of sparkle, especially in the quarterback and pass-catching departments.

It is an injury to halfback Ayatus Stone's left knee that has caused Clair to wait until today to decide which 12 imports he'll field against the Alouettes.

If Stone, Ottawa's chief kicker, can't make it, tackle Tom Jones, late of Los Angeles Rams, likely will take his place.

Half Tom (The Bomb) Tracy, taken off suspension Monday, won't make the trip. He's not in good enough shape yet.

Meanwhile, Rider President Sam Berger has informed an Ottawa service club that the team is casting out lines for a good passing quarterback. However, there was understood to be no excess of optimism in other Rider circles over the prospect of getting what the Ottawa squad needs in this department.

Two-Run Homer By Catcher Sawatski Breaks Up Hurlers' Duel In 13th To Give Leafs 4-2 Win In Opening Tilt

TORONTO — The Toronto Maple Leafs, with the International League's top winner and most valuable righthanded pitcher ready for work, today looked for their second victory against Montreal Royals in the Governor's Cup semi-finals.

Leafs took the opener of the best-of-seven set Tuesday night when catcher Carl Sawatski hit a two-run homer in the 13th inning to snap a duel between southpaw Freddie Kipp of the Royals and lefthander Ross Grimsley of the Leafs. The blow, which most of

the 5,478 fans waited for until almost midnight, gave Toronto a 4-2 victory.

Lynn Lovenguth, who posted a 24-12 season's record, will attempt to make it two in a row for Leafs tonight before the teams head for Montreal for the next three games. The winner of the series meet either Rochester Red Wings or Miami Marlins in the final with the champion advancing against the American Association winner in the Little World Series.

Red Wings Blank Miami Marlins 3-0

ROCHESTER, N.Y. — Time-hitting by first-baseman Joe Cunningham backed up Gary Blaylock's six-hit shutout pitching as Rochester Red Wings defeated Miami Marlins 3-0 Tuesday night in the opening game of their best-of-seven semi-final for the International League's Governor's Cup.

Cunningham was a key man in both Rochester's scoring rallies as he singled home second-baseman Ron Plaza in the first inning, advanced on a throwing error by Marlin catcher Ray Holton and scored on another single by Gene Green. Cunningham's double drove in the third tally in the seventh inning.

Blaylock struck out five Miami batters, walking only two. He pitched his way out of his only jam in the ninth inning when he got pinch-hitter Larry Novak to foul out with runners on second and third to end the game.

Veteran Ellis (Cot) Deal will start for the Wings in the second game tonight against Miami's Dick Farrell.

Rangers Open Training Today At Providence

PROVIDENCE, R. I. — The New York Rangers, with a compact squad of 30 players, start training here today for the National Hockey League season which opens for them on the road Oct. 12 and at home in New York five nights later.

Legion Wins Way Into Finals Of Richmond Softball League Down Molson's; Meet Dow Sunday Afternoon

RICHMOND — The finals of the Richmond Softball League will get underway Sunday afternoon at 1:30. The best-of-five series has Dow and Legion meeting for two trophies, the Chamber of Commerce Cup, won by Legion last year, and the Dow Trophy won by Prospect.

Legion won their best-of-three semi-finals last Sunday downing Molson's in two straight games. The double-header drew a fair crowd that watched the Legionnaires sweep their series by scores of 14-11 and 9-8.

Hurler Rollie Letourneau of Legion chalked up his third straight victory. A week ago, he hurled a nine-hitter to enable his team to end their quarter-final

series with Brown Shoe. In the first game of the Molson series, Letourneau gave up ten hits, fanned six and walked two. He allowed only eight hits in the second tilt, fanning three and issued five passes. He had a two-for-three average in the second game.

Roger Beaudin, after a long lay-off, relinquished eleven hits in the first game, fanned one and walked four. He gave up nine hits in the second tilt, whiffed two and issued five passes. His day wasn't at a complete loss. He slammed a homer in the fifth inning of the second game and scored three times for a two-for-four.

The winning run came when Frank Bergeron scored on a passed ball. The score was tied at 8-8 after seven innings when Molson's came to bat in the top of the eighth. The first three men filed out to left field, second base and to the pitcher to retire the side.

Bergeron first up and Beaudin walked him. Claude Gregoire, who homered in the first game, followed and laid down a bunt, which catcher Sylvio Gagne grabbed and threw to Maguire at first. The throw was wild and this proved the downfall of the brewery boys. Bergeron taking advantage of the play and raced around the bases with Gregoire following. Ted Beland, in right field, threw too late to catch the runners and Bergeron sailed in with the winning run.

Ken Dubois, center-fielder for Molson, gave a good account of himself. He homered in the first game for a three-for-five, scored three times and once in the second game.

Gregoire proved most effective for the Gregorymen as he picked up seven hits in ten times at bat. He scored five runs. Third-sacker Norm Noel had two-for-four in the first game, scored twice and added another hit and run in the second game. Tall Billy Murchie, at first base, had two-for-three in the first tilt and scored three runs. He tallied twice in the second game with an o-for-three.

Umpire-in-chief Jules Fortin handled the first game behind the plate aided by Jean-Paul Elément on first. They switched places for the second tilt.

Gerry Magee Wins In U.S. Amateur

LAKE FOREST, Ill. — (AP) — Toronto's Gerry Magee joined crooner Don Cherry and tourney favorite Ken Venturi among the victors in the second round of the national amateur golf championship Tuesday.

Magee, finalist in the 1956 Canadian amateur, upset former college champion Hillman Robbins, Memphis, Tenn., by a score of 3 and 2. Robbins, considered a top-flight contender, missed putts on the second, fourth and 10th holes while Magee played steady golf, highlighted by his 15-foot putt on the 13th for a birdie.

The hottest player on the premises of the Knollwood Club as the field was reduced to 64 was a 20-year-old collegian, Rex Baxter, who smothered Harvey E. Woodard of St. Clair Shores, Mich., 7 and 6.

Venturi remained the solid favorite with defending champion Harvie Ward, Jr., by beating Bruce Cudd, Walker Cup star from Portland, Ore., 4 and 2. Cherry, another Walker Cup member, had to rally from two holes down with two to play to eliminate Frank Malara, Jr., 20, White Plains, N.Y., on the 19th.

Larry Boardman Floors Carter To Win Via TKO

BOSTON — (AP) — Larry Boardman turned loose a brutal right hand to floor battle-wise Jimmy Carter three times in the eighth round Tuesday night for a technical knockout at 1:35. Boardman weighed 137, Carter 139.

The 20-year-old Marlborough, Conn., youth gunning with confidence for a lightweight title shot at Joe Brown, made history at the Boston Garden ring with the three knockdowns. When Boardman got him on the ropes following the third knockdown and pummeled him with a left hook and two steaming rights, referee Jimmy McCarron stepped in to signal the finish.
