JACK JOHNSON
IS IN MONTREALWILL SAIL TUESDAY FOR
RUSSIA, SAYS HE WON'T
FORFEIT HIS BAIL.

Montreal, June 26.—Jack Johnson, the negro pugilist, accompanied by his white wife, arrived in Montreal early this morning, having come through direct from Chicago. During the day he moved six times from houses where he had engaged rooms, in an effort to evade newspaper men, and the possibility of a clash with the immigration officials. Tonight, however, he called at the Montreal Gazette office and made the following statement:

"I will remain in Montreal until next Tuesday, when I am booked to sail for Europe. I intend going direct to St. Petersburg, where I have a contract to fight Sam Langford and Gunboat Smith. These fights will be pulled off some time in September." Johnson stated that the immigration authorities made no effort to stop him at the Canadian line. He claims there is \$23,000 due him in Toronto and he came this way to collect it before leaving for Europe. He also says he does not forfeit his bail bond, as it only requires his presence in court in Chicago next November. He declares he has no intention of forfeiting this bail bond, but will return to the Windy City on the date set for the appeal on the conviction in the white slave case.

TOOK FRENCH LEAVE.

Pugilist's Attorney Says He Is Foolish If He Has Fled Country—Bond Is \$15,000.

Chicago, June 26.—As soon as agents of the Department of Justice received a report that Jack Johnson, the negro heavyweight pugilist, had been seen in Montreal, they began a search. At Johnson's home here it was stated that the pugilist had gone on a fishing trip to Cedar Lake, Ind. Charles F. Dewdney, Department of Justice special agent, at once investigated at Cedar Lake and was told that Johnson was not there.

"From the circumstances I think it not improbable that Johnson has gone to Canada," said Mr. Dewdney. "However, he may be brought back, if there, although the crime is not ex- (Continued on Page Four)

RUSSIA WINS KING
EDWARD GOLD CUPCANADA LOSES A COVETED
TROPHY AT HORSE SHOW
AT LONDON.

London, June 26.—The King Edward VII gold cup for riding and jumping, the most valued trophy at the International Horse Show, was won today by Russia, whose representatives thus barred those of France, who had already won it twice, from taking permanent possession of the cup. France was second and England third. King George and President Raymond Poincaré of France were among the spectators of the spirited contest.

Seven nations competed: Great Britain, Canada, France, Belgium, Italy, Russia and Sweden. The teams were composed of officers in uniform riding government horses. They had to go twice around the course, jumping obstacles of various sorts, ranging in height from three feet six inches, to five feet six inches.

DEATH OF DUKE
OF SUTHERLANDENGLAND'S LARGEST LAND
OWNER BREATHES HIS
LAST AT LONDON.

London, June 26.—Cromartie Sutherland-Leveson-Gower, fourth Duke of Sutherland, died tonight.

The Duke of Sutherland, who was born July 20, 1851, was with the exception of the Emperor of Russia, the largest land owner in Europe. His Scottish estates embraced nearly a million and a half of acres. He owned 30,000 acres in Staffordshire and Shropshire and much landed property in other countries.

He was noted as a sportsman and a fine yachtsman. His yachts included "Catania" and "Lizette."

In 1884 he married Lady Millicent Fanny St. Clair-Erskine, daughter of the fourth Earl of Rosslyn, two sons one daughter being the result of the union. In recent years the Duke has been deeply interested in a colonization scheme for western Canada and to that end has purchased vast tracts of territory.

11 YEAR BOY DROWNED
TRYING TO SAVE COUSIN

Waterville, Maine, June 26.—Fred Butler, aged 11, was drowned today in an unsuccessful attempt to save the life of his eight-year-old cousin, Everett Hart. The younger boy was in the swimming hole in the Messalonskee stream, when he shouted for help. Butler plunged to the rescue but became exhausted and both boys went under.

BABY FARM TURNS OUT
TO BE BABY CEMETERY

Naples, June 26.—The authorities have unearthed the bodies of a large number of infants buried in the garden attached to a large villa occupied by a midwife named Bertoli.

The investigations of the police indicate that the disposal of infants in this way has extended over many years.

ELECTION OF OFFICERS
OF ALLIANCE FRANCAISE

Montreal, June 26.—Among the most tangible of the many expressions of sympathy that Mr. Gonzalve Desaulniers has received since he was prevented from taking part in last Tuesday's patriotic celebration at Laval was his re-election tonight to the presidency of the Alliance Francaise of Montreal.

The election of officers for the ensuing year resulted as follows: Honorary president, Mr. Charles Eudes Bonin, consul general for Canada; president, Mr. Gonzalve Desaulniers, K. C.; vice president, Messrs. E. Fabre, surveyor, K. C.; R. C. Smith, K. C.; A. F. Revol and Dr. William Gardner; secretary-treasurer, Mr. P. B. De Crevecoeur.

CANADIAN AND AMERICAN
STUDENTS AT NORTHFIELD

East Northfield, Mass., June 26.—"A fight between a suffragette and the British lion," presented by the McGill delegation from Montreal, was one of the features of the annual patriotic celebration at the Northfield student conference today.

With delegations competing from many American and Canadian colleges, the Harvard representatives won the track meet, scoring 15 points.

After supper the students marched in costumes to the Auditorium where John Barrett, director general of the Pan-American Union, delivered an address. Each delegation gave its college song and cheer, while five, including McGill University, performed a "stunt." Forty Chinese students rendered songs in their language.

WOMAN FORGER IS
GIVEN FOUR YEARS
BY JUDGE BAZINUSED NAMES OF HON. S. N.
PARENT AND RODOLPHE
LEMIEUX ON NOTES.

Montreal, June 26.—Five years in the penitentiary was the sentence imposed upon Rosanna Lajeunesse, found guilty of forgery and false pretenses by Judge Bazin, in the Court of Sessions this morning.

LECTURED BY JUDGE.

"It is a terrible thing to see a young woman like you in such a position, when you might have been admitted into good society and led a decent honest life," the judge said.

"Instead, you have spent your life forging notes and taking advantage of your good appearance to defraud even your friends. You have already served three months in jail for a similar offence and I must punish you very severely. You will spend the next five years in the penitentiary."

Rosanna Lajeunesse, a good looking woman about thirty years old, was employed at one time as stenographer in the Parliament buildings in Quebec, but fiery, jewels and an easy, pleasant existence had such strong attractions for her she attempted and succeeded in raising the necessary cash by a most daring scheme. She wrote several promissory notes to which she affixed the name of Honorable Rodolphe Lemieux. These notes were used to borrow \$400 from Mrs. Beauchemin, who was shown at the same time a letter signed by Hon. S. N. Parent in which mention was made of a fortune of no less than \$900,000 that had been left her and which she was to receive as soon as necessary legal proceedings were completed. Miss Lajeunesse also had called on Rev. Father Rosconi, who gave her \$25.

The judge ordered the money found on Miss Lajeunesse when arrested and the rich clothes which were in her rooms, to be given to Mrs. Beauchemin.

Rosanna took her sentence very placidly; she stepped out of the box quite unconcerned and unruffled. Before sentence was pronounced, when asked if she had anything to say, she replied with a shrug of her shoulders, "I would like the mercy of the court."

GIRL OF 16 YEARS
DISAPPEARS IN N.Y.HELEN MCCARTHY, DAUGHTER
OF WEALTHY NEWSPAPER
BROKER, MISSING.

New York, June 26.—Although a general search is being conducted by the police, not the slightest trace had been found today of Miss Helen McCarthy, the 16-year-old daughter of John A. McCarthy, a wealthy newspaper broker, who vanished last Tuesday morning after starting out on an errand for her mother from their hotel.

Private detectives were working on the case today, but as yet have been unable even to form a plausible theory for her disappearance. She had no money with her. Search of all the hospitals of the city has revealed no answer to her description.

Mr. McCarthy was formerly proprietor of the Press-Knickerbocker in Albany. Mrs. McCarthy is a sister of the late Bishop Frederick Rooker, of the Catholic Church, and for many years connected with the Papal Legation in Washington. Both families are prominent in Albany.

The McCarthy family have lived in this city for two years.

JAPANESE PREMIER SEES
NO TROUBLE WITH U. S.

Tokio, June 26.—The Premier Count Lambie Yamamoto, addressing a meeting of influential business men and financiers tonight, declared that he appreciated, with reference to the California question, that the earnest effort of the leaders of thought had resulted in sound and dignified opinion on the part of the public.

The existing difficulty, he said, was confined to one state and did not represent the sentiment in America. Justice and humanity which ever prevailed in the United States, combined with friendship for Japan, would, he hoped, bring about a satisfactory solution.

A few agitators continued their attempts to stir up anti-American feeling. They posted up additional violent and threatening pronouncements, which the police tore down.

DROWNED AT BARRIE.

Barrie, Ont., June 26.—Ernest Williams, a young farmer, 17 years of age, was drowned in a pond near here tonight. He was a good swimmer, but it is supposed he was taken with cramps. Some boys were present, but they were unable to render assistance.

SIX DROWNED
AT EDMONTONPROMINENT PEOPLE WERE
CAPSIZED ON LAKE IN A
MOTOR BOAT.

Edmonton, Alta., June 26.—Roden C. Hooper, manager of Marshall Wells Company, and wife; Earl Meredith, superintendent of Marshall Wells Co., and wife; and Mrs. Case, wife of Manager Case of West End branch of the Imperial Bank, and mechanic, were all drowned tonight when a motor launch upset in the river. Case himself was saved.

MANY WITNESSES.

Before hundreds of spectators who were enjoying themselves on the river banks this evening, six well-known Edmonton young people were drowned close to the low-level bridge by the overturning of their gasoline launch. Amid fruitless cries for aid, six of the seven occupants of the boat sank in the fast running river.

On the trip down the river, while the party was gay with laughter, there was a sudden jar to the boat due to it striking a snag. The engine stopped and from the jar the boat overturned, precipitating its occupants into the water. Mr. Case, who is a strong swimmer, after a vain attempt to rescue his wife, saw that the feat was impossible and himself already exhausted, struck for the shore, which he barely reached.

A large crowd just leaving the ball grounds saw the launch overturn and rushed for boats, but already the victims of the treacherous river had sunk from sight.

Mrs. Case, one of the drowned, had only returned with her husband from their honeymoon on June 16. They were married May 27 in Spokane.

Meredith and his wife were also a newly married couple.

Case, the only one saved, is prostrated as a result and is now under a physician's care.

The authorities are dragging for the bodies.

LORD BROOKE GIVES CUP
FOR CAVALRY AT PETEWAHA

Petewawa Camp, Ont., June 26.—The Sixth Montreal Artillery Brigade, and the Granby, Coaticook and Sherbrooke Batteries conclude a very successful annual training on Saturday next of this week.

The remainder of the week will be devoted to competitive shell practice, and a tactical field day, which will be held on Saturday.

The 6th Brigade passed a very satisfactory inspection yesterday, and the three other batteries lined up to be inspected by Lieut.-Col. Burstell today.

By the end of this week there will be very few troops in camp, as the main part of training is now over. The Montreal heavy artillery reached camp safely and have commenced training in earnest. Their live shell practice will commence next week.

The Second Brigade of Cavalry, consisting of the Fifth Ottawa, Third Peterboro and the Fourth, Kingston, broke camp today. The men had a very successful period of training under Col. Lord Brooke, the Imperial officer who came out under the arrangement made by the Minister of Militia for an exchange of officers.

His direction of work of the brigade was of a very practical nature, and most of the time was devoted to work such as would have to be done on active service.

Lord Brooke donated a cup for competition between the regiments of his brigade and was very popular with all ranks.

JUDGE SCORES SOO
JURY FOR VERDICTCHARGED WITH MURDER
THEY FIND MAN GUILTY
OF MANSLAUGHTER ONLY

Sault Ste. Marie, Ont., June 26.—Fred McGonor, charged with the murder of a man named Morin at Blind River, on March 7, was found guilty of manslaughter last night. He will be sentenced by Judge Britton on Monday.

McGonor, who declined to give the whereabouts of his mother, wife and family, killed Morin with a revolver during a drunken brawl in a Blind River hotel.

The verdict was apparently a surprise to Judge Britton, who remarked that the jury had been practically guilty of a miscarriage of justice, inasmuch as they should have adjudged the man guilty of the crime charged or brought in a verdict acquitting him. The judge said the man had been found guilty on his own evidence.

BLAME FOR
C.P.R. WRECKRAILWAY COMPANY PLANS TO
MAKE FULL INVESTIGATION
OF DISASTER.

Ottawa, June 26.—The eight passengers killed in the wreck of the C. P. R. Winnipeg train yesterday afternoon have now been identified without doubt. The corrected list of dead is as follows:

LIST OF DEAD.

Patrick Mulvanna, of County Antrim, Ireland, age 25, single; passenger to Winnipeg.

John Moodie, of Sanday, Orkney, Scotland, age 17, single; passenger to Calgary.

John Hogg, of County Derry, Ireland, age 30, single; passenger to Calgary.

Mrs. Jane McNealy, of Glasgow, Scotland, age 40; passenger to Edmonton.

John Peace, of Glasgow, Scotland, age 21, single; passenger to Edmonton.

Mrs. H. McClure, of County Antrim, Ireland, age 55; passenger to Edmonton.

John McClure, of County Antrim, Ireland, age 5; passenger to Edmonton.

Matilda McClure, of County Antrim, Ireland, age 10 months; passenger to Edmonton.

The two latter are grandchildren of Mrs. H. McClure.

The injured are all progressing at the hospitals, with the exception of James McNealey, son of Mrs. McNealey, one of the dead, who is said to be gravely injured and may not recover.

Inquest Is Begun.

An inquest was opened at noon today by Coroner Craig, and after identification of the remains of John Peace, adjournment was taken until tomorrow night at the court house.

Superintendent Gillen, of Smith's Falls, the official in charge of the division of the C. P. R. on which the wreck occurred, was in Ottawa today in his private car in company with a number of C. P. R. officials from Montreal, including Transportation Superintendent Murphy.

"An investigation will commence immediately into the cause of the accident," he said. "Until that time I prefer to make no official statement beyond saying that everything will be done to ascertain what was at fault."

"We had the track clear at 5 o'clock this morning and our regular service was then resumed. Trains are now running on schedule time."

"The cars will probably be taken to the Angus shops for repair. I have made no estimate of the total loss as yet and cannot say whether the estimate of \$30,000 is too small."

It had been the intention to take the two tourist cars lying on the south of the track away last night, but work was delayed by the accident to the crane. These two cars, as well as the two colonist cars which toppled over into the river were today still in the places they were right after the accident, but were taken away late tonight. There are many who think that one or more bodies may be found under the colonist cars, but the railwaymen are quite sure that all have been recovered and that no more will be found when the cars are lifted.

BALKAN ALLIES IN

Paris, June 26.—Although the States in the Balkan League are reported to be on the brink of war over the division of the territory from Turkey, their delegates to the International Commission settling the financial issues arising from the Balkan war are fraternizing in absolute accord. It is understood that the Allies are weakening on their demand for an indemnity.

Belgrade, Serbia, June 26.—The Bulgarians have been defeated at Zletovo. An official report says that the Servians went into action only when heavy forces of Bulgarians began to cross the river.

After desperate fighting the Bulgarians broke and fled, leaving behind many dead and wounded and abandoning all the positions they had seized in Servian territory.

According to advices 12,000 Bulgarian troops, with 500 bomb-throwers, attacked the Servian positions at Zletovo yesterday.

Eventually the Servians charged with fixed bayonets all along the line, and the Bulgarians hurriedly retreated. The combined losses exceeded 500 men.

Kingston, Ont., June 26.—A terrible explosion occurred early this morning on the Canadian Pacific Railway construction, about eleven miles east of Parham, in which ten Italians lost their lives.

Michael Guirrey, an Italian foreman for Johnson Bros., contractors, assisted by ten of his men, was engaged in preparing a heavy blast to be set off, in order to have material to clear out today.

In some unknown manner a spark was generated, causing an explosion. Three bodies have been recovered and five men are missing, and it is thought that their bodies are buried under the debris.

An inquest is being held this afternoon by Dr. Sanders, coroner.

This brings the total of men killed in this section of the Canadian Pacific Railway construction up to 12. Within two years there have been about twenty killed in this neighborhood in railway construction by premature explosions of dynamite. About a year ago eight were killed and others subsequently died as results of injuries received in the explosion.

QUEBEC, FRIDAY, JUNE 27, 1913.

WHERE WE STAND.

Mr. Pelletier's announcement made this week shows up exactly what the government is doing and intends to do for Quebec. It is definitely decided that we are to have a tunnel near Wolfe's Cove; that the Transcontinental shops are to be situated at St. Malo; that there will be a new grain elevator near Cap Blanc; that there will be a Union Passenger Station at the Palais, a station for local freight on the Champlain Market site, etc. The other important works of the government in this city and district have been frequently mentioned. They include the extensive improvements being carried on or to be carried on shortly around the harbor, the St. Charles, the Post Office, the dry dock, the north channel, the Battlefields Park and many other places. In a few months the Conservatives have done more than the Liberals would have done in a hundred years if they had been allowed to maintain their former snail's pace in this regard.

Quebec, hitherto the despised and ignored, is receiving justice at last and the outlook for her future was never so bright. In a few years this should be one of the greatest ports on the continent. It is a good thing for it that it is represented at Ottawa by so capable and energetic a minister as Hon. L. P. Pelletier.

WONDERFUL DISCOVERY OF ANTHRACITE COAL IN BRITISH COLUMBIA.

Canada is a country which is surprising the world every day by the discovery of new sources of wealth. The latest is a marvellous deposit of anthracite coal in Northern British Columbia. It is situated near the headwaters of the Skeena River about 160 miles from the Grand Trunk Pacific Railway, or about 140 miles from the mouth of the Naas River, where that river falls into the Pacific Ocean. Mr. Campbell-Johnston, of Vancouver, who is a well-known Scotch mining engineer, made the discovery in 1910, and was sent back by the owners in 1911, accompanied by two other eminent mining engineers, to further examine and uncover the seams. The results of these two seasons' work are now made public, and establish the existence of one of the most marvellous deposits of coal in the world. The quality is anthracite similar to the renowned hard coal of Pennsylvania, to which state Canada now pays an annual tribute of many millions of dollars for domestic fuel. Even the surface samples so far analyzed give from 60 to 86 per cent. of fixed carbon, or twenty to thirty per cent. superior in this respect to the best bituminous, the only heretofore mined in Canada. The quantity is fabulous, the property in question, which is only one of several in the field, being estimated to contain over eleven hundred million tons. The engineers state that the heat given by this coal is so intense that steel bars left too long in the fire will be melted, and that it is clean and smokeless and will therefore be of great value to the Imperial as well as to the Dominion Government for naval purposes. A very favorable route for a railway has been discovered which will bring this coal to the ocean steamers at the mouth of the Naas River, a distance of 140 miles, practically without any adverse grade. British Columbia was already known to be the richest province in the Confederation, in natural resources. Mining engineers say that this discovery will make of it another Pennsylvania. So satisfied is the Federal Government of the vast importance of the field, from a national point of view, that as soon as the reports of the engineers became known, the large subsidy of \$640,000 was, through the influence of the Hon. L. P. Pelletier, promptly voted at Ottawa to the owners of the property to assist them in building a railway from the Pacific Coast to carry the coal. This valuable property is owned by a Quebec syndicate, of which Mr. J. G. Scott is the chairman and Mr. Alex. Hardy the Secretary.

KNOCKING CANADIAN CITIES.

A good deal of irritation has been caused all over Canada by the outrageous attacks of Mr. Horn Payne, the London representative of the Canadian Northern Railway, upon the credit of Canadian municipalities. It is now charged that his object is to create a bad impression against Canadian municipal securities in the hope that thereby it will be made easier for the interests which he represents to get money for their securities. These knocks against Dominion municipalities have been going on for several months now, and even some time ago it was stated that they were inspired by C. N. R. representatives. Naturally nobody believed that any railway would carry on a campaign of this kind, but Mr. Payne's recent outburst certainly strengthens the charge.

Mr. Payne says: "The British investor never favored municipal securities. The last experience is not likely to increase his liking, nor will any rate of interest, however high, tempt more than a small section of the community to invest in city bonds. The reasons alleged for this dislike are that cities raise a constantly increasing and practically unlimited sum on the same assets; that the city assessment valuation is not an independent nor reliable valuation. This callous destruction of municipal credit has thoroughly unsettled countries, larger than the British, with vast wealth in resources. The prices of provincial government securities have fallen under the influence of the fall in the price of city bonds, while the prices of railway and industrial securities have fallen in sympathy."

In conclusion the writer gives the whole case away by the following words:—"My advice is to leave municipal securities severely alone and take this opportunity to invest all the money you can in those sound Canadian Railway and Industrial Investments which have recently fallen most heavily in price. There never will be a more favorable opportunity for investing money at a high rate of interest, with the certainty of a great increase in capital, than in the course of the next few years."

Which, summed up, means, "Don't buy municipal bonds. They are no good. Instead, you put your money into my railway." This is rich when we consider the aid which the government was forced to give to the C. N. R. in the interest of the country. Can-

adian cities do not need to go to any government and ask for millions to help them out. They issue their security on the backing of their own property. When they lose their credit, the credit of the C. N. R. is not likely to be worth very much.

Mr. Payne's remarks are of peculiar interest just now in view of the street railway situation in Toronto. Sir William Mackenzie has been trying to sell the railway there to the city for \$29,000,000, and he is willing to take municipal bonds in payment for it. Two years ago he was willing to take Winnipeg municipal bonds for his share of the Winnipeg Street Railway. That shows just about how much credence can be attached to the utterances of Mr. Horn Payne and his employers.

FRANCE AND ENGLAND.

Although making new friends it is not the policy of Britain to lose the old ones. Numerous as have been the signs of a better feeling between England and Germany, it is the triple entente and especially the entente cordiale with France that count. Indeed, it was the existence of this entente that gave Sir Edward Grey the basis of his highly successful diplomacy in preserving the peace of Europe. Germany treated the English King and Queen right royally on their recent visit to Berlin, the welcome extended to them being not merely official but obviously popular and entirely spontaneous. Any drawing together of the two great Teutonic peoples of Europe is to be regarded with gratification in these days of costly armaments and may lead to something more in the distant future. But in the immediate future, and one hopes it will be so always, France is Britain's actual friend. The time has not come yet for a shifting of the balance of power.

In this light the visit of President Poincare to London and the acclaim with which he is being received are full of significance. And the President himself, it is gratifying to know, is worthy of all the honor that may be lavished upon him. Sturdy, honest and inflexible, he has risen to the great post which he now holds though sheer personal merit and force of character. In his present role he represents out of the greatest of the nations of the earth. Vive l'entente.

Comment of The Press

The appointment of Dr. Van Dyke to the Netherlands shows that once again the Dutch have taken Holland.—Baltimore Sun.

A funny motor-car story is being told just now. A motorist had a small breakdown while driving in a rather lonely country district. When he got the car all right again he thought it would be all the better for a little oil. Unfortunately he had left his oil-can behind, but, making sure that he would be able to borrow the small quantity of oil he wanted from a neighboring cottage, he walked along the road and knocked at the door. After some time a small boy opened the door. "Ask your mother," the motorist directed him, "if she can let me have a little oil. Any kind will do; even castor-oil. I want very little." The small boy nodded and went off to find his mother. After a few minutes he came back again. "Mother sez," he announced, "she ain't got no castor-oil; but if ye'll come in an' wait a minute, she'll give ye some Gregory's powder!"—Pearson's Weekly.

Incidentally, but most usefully, the Marconi investigation throws a searching light on secret party funds. These secret funds place enormous and baleful power in the hands of a single man, and how complete his power is has now been made apparent. Picture a party shedding tears over housing conditions with perhaps thousands of pounds secretly invested—unknown even to the members themselves—in slum property. Picture a party granting facilities to railway companies to increase their charges with perhaps thousands of pounds secretly invested in railway shares. Picture a party fighting tooth and nail to ratify a contract with a company with perhaps thousands of pounds invested in the concern or in a sister concern. The secret war-chest is one of the worst evils of the party system. Rich men pay and are made peers; poor men are bought and kept under the thumb of the Chief Whip. No member of Liberal or Tory party ever saw a party balance-sheet. He does not know from whom the party money comes nor for what purpose it comes; he does not know to whom it goes nor for what purpose it goes. If the full facts were known both parties would have fewer supporters than they now have. Hundreds of thousands of pounds are at the unfettered disposal of one man, and we can think of no circumstances more likely to react hurtfully against independence and freedom of judgment and high personal service in the public interest. A party fund is necessary, but it should be, like the Labor Party fund, open and above board. Secret money can readily become a source of corruption, and, apart from the character of the men who may handle it, the system is vicious and wrong.—London, Eng., Citizen.

A monster airship, with a mirror surface of polished metal that will make it a dazzling sight in the sky, was proposed recently to the British Institute of Naval Architects by Baron A. Roene, who assured the engineers that he intends to build it at his own expense. The mirror surface is intended to prevent the heating of the gas by the sun's rays; for the sunlight, reflected from the metal, would be shot back into the air instead of being absorbed as heat. He plans a ship eight hundred and fifty-three feet long and seventy-two feet wide, shaped like a Zeppelin, though considerably larger than any German dirigible so far planned. The gas envelope he intends to make of thin chrome-aluminum plate welded together, braced by rings of chrome-aluminum going completely round the envelope, a few feet apart. Further bracing could be supplied by aluminum wires inside the envelope from a central hub to the rings; so that on the inside each ring would look like a great bicycle wheel. The gas would not be free inside the big metal envelope, but confined in twenty-eight balloons, after the standard system of all big airships. Ten gasoline engines, developing a total of two thousand horse-power, would drive the propellers and give a speed in still air of from forty-five to forty-six miles an hour. The inventor's calculations show that such a metal airship, completely outfitted, would weigh one hundred and four tons, but would have a lifting capacity of one hundred and thirty-five tons, giving a margin of thirty-one tons for passengers, fuel and supplies.—Philadelphia Post.

ARM PRESIDENT WITH BIG STICK

U. S. SENATE WANTS TO GIVE HIM GREATER POWER BY RETALIATORY TARIFF.

Washington, June 26.—Urgent desire to arm the President with a tariff "big stick," one of stronger and greater proportions than provided in the amendment suggested by the Finance Committee majority, developed today in the Democratic caucus of the Senate on the tariff bill.

Discussion of the proposed countervailing duty on wheat and flour, which the committee recommended, led to a general debate on retaliatory and countervailing tariff rates, and Senator Hoke Smith of Georgia urgently proposed the adoption of an amendment that would give the President power to enforce countervailing tariff rates on all commodities of commerce against any nation refusing to deal with the United States on a reciprocal tariff basis.

The amendment proposed would in many respects take the place of the maximum and minimum clause in the Payne-Aldrich tariff law, but Senator Smith advocated a provision that would be broader than that, one that would give the President the authority at any time to interpose against any nation which might discriminate against the products of the United States the same tariff rates exacted on American goods. Such a clause in the tariff bill, it was argued, would place the United States in a position to defend the country against any unreciprocal action or attempt to shut off its foreign trade.

Discussion of the proposal was spirited, strong opposition developing at once. Among the Senators who attacked the idea were O'Gorman, Reed and Martine. Debate was waxing warm when the caucus was forced to recess for the afternoon session of the Senate, and it was resumed tonight.

After the battle over free sugar and free wool had been won yesterday by the administration forces, Senators opposed to the schedules proposed amendments which would extend the time when the sugar and wool schedules are to become effective after the passage of the act. Senator Ransdell has an amendment to extend the date of the sugar schedule until Feb. 1, 1914, permitting sugar planters and refiners to get rid of this year's crop without the burden of the decreased tariff. This has been referred to the majority of the Finance Committee for consideration. And the Finance Committee will recommend some form of amendment later to the caucus. Other suggestions propose to suspend the operation of the sugar duties for three months after the passage of the bill, and that the rates on manufactures of wool be made effective ninety days after, and the free raw wool provision sixty days after enactment of the law.

AMBASSADOR GUILD IS ROBBED BY PARIS THIEF

Paris, June 26.—Curtis Guild, who recently resigned his post as United States ambassador at St. Petersburg, was robbed of \$50,000. He is staying at a hotel in Paris. Xavier Guichard, the head of the criminal investigation department, and a large force of detectives were at once sent out to search for the thief.

DANDRUFF WOULD LIFT OFF IN SHEETS

(Hair Dry and Lifeless. Almost All Hair Out on One Side of Head. Used Cuticura Soap and Cuticura Ointment. Hair Coming in Nicely and Scales All Gone.)

176 Adelaide St., St. John, N. B.—"I cured my little boy of a bad case of dandruff with Cuticura Soap and Ointment. The dandruff formed on his head soon after birth. The hair was dry and lifeless and almost all out on one side of his head. I washed the little head twice a day with warm water and Cuticura Soap, dried it, and very carefully applied the Cuticura Ointment and in about an hour took a very fine little comb and the dandruff would lift off in sheets and some of the hair would come too. Then I would put some Cuticura Ointment on and let it remain till time to wash the head again. I used a large box of Cuticura Ointment with the Cuticura Soap and his hair was coming in nicely and the scales all gone. Today he has as nice a head of hair and as free from dandruff as you would wish to see." (Signed) Mrs. C. F. Keast, May 20, 1912.

A single cake of Cuticura Soap and box of Cuticura Ointment are often sufficient when all else has failed. Sold by druggists and dealers everywhere. Liberal sample of each mailed free, with 32-p. Skin Book. Address post card Potter Drug & Chem. Corp., Dept. 82D, Boston, U. S. A.

GLIMPSES OF OLD QUEBEC

From the Files of the CHRONICLE, June, 1813 and 1843.

A HUNDRED YEARS AGO TODAY

News From Montreal.

On Thursday last eight American officers, that were taken prisoners at the head of Lake Ontario, arrived here. Among them are Generals Winder and Chandler. Several detachments of De Wattville's and the 88th Regiment have left this week for Upper Canada. Seeing the necessity of having a naval as well as a military force stationed on the lines of Lake Champlain: after the capture of the American sloop Eagle and Growler, the government wisely judged it necessary to have them immediately equipped for active service. On this suggestion, Mr. David Munn, master shipbuilder, and Captain McDonald (late from Scotland, to take command of Mr. Munn's large ship now on the stocks), most handsomely volunteered their services in furtherance of this laudable object. These gentlemen took with them six carpenters and six seamen, and with some other assistance, they completed the repairs of the sloop in less than six days. It detracts nothing from Mr. Munn's loyalty, when we state that after giving all advice necessary to his people, he left them on the third day to attend to his own weighty concerns in this city. General de Rotenburg, left this city for Upper Canada, to take the reins of government in that province; deep regret would have been felt at his departure, had not the cause been of such great importance to British America.

YANKEE TOBACCO FAVORITE IN FRANCE.

Paris, June 26—The taste of French smokers for tobacco grown in the United States has increased remarkably during the last 12 months. Seven times as much tobacco entered France from the United States in January and February, 1913, as was brought in during the corresponding months of the previous year. The importations of January and February, 1913, amounted to \$800,000 in value. French buyers of tobacco are now kept in America the whole year round.

Last year the French government received a net revenue of more than \$105,000,000 from the monopoly it exercises over the sale of tobacco in the Republic.

THIRTY YEARS AGO TODAY

New Water Works.

At this time, 30 years ago, there was quite an enjoyable fete at Mount Pleasant Village, the occasion being the opening of the new water works, in the shape of a village pump, generously presented to the locality by Mr. Eugene Chénier, of this city, who assisted at the inauguration with a few of his friends.

The Indian Sougraine.

This dusky Savage, concerning whom, and the mysterious disappearance of his wife, created so many strange rumors, thirty years ago, in this vicinity is reported to have been seen near the Church of St. Ubalde, and travelling in the direction of Notre Dame des Anges.

Lord Roseberry.

When the Earl of Roseberry resigned the Under Secretaryship, it was stated that Mr. Gladstone had a higher position waiting for him. So it turned out. The Premier who is the clever young peer's warm personal friend, offered him the Viceroyalty of India, really the highest gift in the hands of the government. Lord Roseberry, however, refused to take it except upon certain conditions, which, Mr. Gladstone however favorable to a Rothschild's? Money, brains and position can accomplish much in the British Isles. The Earl of Roseberry's day will come, and that we imagine will be very soon.

BAVARIAN COUNT IS A CIGARETTE MAKER.

Munich, June, 26—Members of the high aristocracy are in receipt of a circular and "other literature" announcing that one of their own peers has become a cigarette maker in America. Most of these aristocrats don't know whether they can afford to buy their peer's commercial product, but they do hope that he will not put his crest and crown on his wares. The count-cigarette maker is Albert Count Montgelas, out of the family of the Lords of Garnierin de la Thuille. His father was prime minister of Bavaria and is chamberlain to the Pope.

FINANCIAL

(From Barry & McManamy.)

The Montreal Stock Exchange will be closed June 30th and July 1st. Directors of the Virginia-Carolina Chemical Co. at their meeting today decided to postpone action of the semi-annual dividend 1 1/2 per cent on the common stock. The regular quarterly 2 per cent dividend on the preferred stock was declared.

Norfolk declared regular quarterly dividend of 1 per cent on preferred, payable August 19th to stock of record July 31st. Common dividend is payable Sept. 19th to stock of record Aug. 30th.

St. Paul, eight months ended Feb. 28th, 1913, gross \$52,851,710; net after taxes \$14,933,037; operating income \$3,795,090; total income, increase \$18,728,053; surplus after charges \$10,635,561.

Canadian Northern, third week of June, \$489,300, increase \$77,600; from July 1, \$22,278,900, increase \$3,320,000.

St. Louis & Southwestern, third week of June, \$212,100, decrease \$21,000; from July 1, \$12,977,000, increase \$1,212,057.

Chesapeake & Ohio, third week of June, \$702,683, increase \$153; from July 1, \$44,015,533, increase \$352,924.

NEW YORK MARKET LETTER.

Received over the private wire of McDonald & Cowans, stock brokers, Phone 4076.

New York, June 26—Trading has been on a narrow scale since noon. Business has been desultory of professional character. Fluctuations were extremely narrow although a dragging tendency continued and somewhat lower levels were reached in the bigger issues. Selling of New York Central was an unsettling feature. The stock has not been in speculative hands to any considerable extent and the selling was based on the

talk of reduction in the dividend to 4 per cent, in the event that Interstate Commerce Commission refused to grant an increase in rates.

Senator Owens decided to introduce the administration's currency bill in the Senate this afternoon immediately following its presentation in the House by Mr. Glass. Attorney General McReynolds has notified the news agencies that there are no more details to be given out in regard to the Union-Southern dissolution matter until they are submitted to the court. The view is general that the large banking interests will wait on political developments. In its present form bankers are opposed to the currency bill and undoubtedly under debate it would be amended to no small extent before it is passed.

The news from London is favorable. That market at the close had lost some of the keenness which was characterized at 1 o'clock and it has taken a good deal the tone of ours which is very desultory.

COTTON MARKETS.

New York—Cotton futures closed easy. Closing bids:

CLOSING LETTER.

By private wire to Neuville Bellevue & Co., 93 St. Peter st., Quebec. Phones 946-4076.

New York, June 26—The opening was strong under the lead of London, where Union Pacific was 1 1/2 points higher, the market immediately sold off, losing all the initial gains and, in many cases, dropping well below the closing quotations of last night and even below the lowest of yesterday by one-half point.

This was followed by dullness and a slight recovery of not more than one-quarter point.

There was good demand reported for stocks in the loan crowd and the bears showed every evidence of being aggressively alive.

The satisfaction expressed by Attorney General McReynolds over the Union Pacific dissolution is received by the public in much the same manner as it would regard the satisfaction of the cat who had eaten the mouse.

As the day progressed business fell away until it became almost a farce. Over 100,000 shares were traded in during the first hour, but only 22,000 shares between 1 and 2 o'clock. Virginia Chemical statement is not

yet complete, but enough is known to warrant the prediction that no dividend will be forthcoming on the common shares.

Rumors were in circulation that an attack would be made on Union Pacific tomorrow in the papers, which accounts, in part, for the nervousness of the stock, although the merger dissolution is sufficient to keep stock holders on edge.

Southern Pacific statement for May showed gain in operating expenses and the operating increase net \$285,000.

Copper metal was quoted in London 5s down, and the market here was heavy.

London bought about twenty thousand shares of stocks on balance.

When one considers that the battle between Serbia and Bulgaria was practically without effect, both on the foreign markets as well as our own, it must be admitted that the tone is greatly improved over a few months ago.

Ultimately, values will tell and the investor will reap a rich reward, but the speculator must take his chances of a dull and uncertain market for the next few weeks or months and we would recommend buying only on breaks and sales on rallies for the time being.

LONDON MARKETS.

THE GREAT LONDON

SHOWS ENLARGED

Bigger and better than ever, Howe's Great London Circus will soon be with us. Every department has been enlarged. Five hundred arenic performers; over a hundred cages contain the Million Dollar Zoo, and the show is completely filled with new and absolutely different novelties. The Great London Shows Consolidated is truly a mammoth institution. When one has seen it from end to end, outside and inside, and has formed an inventory of what he has seen and learned for a very nominal fee, how much real pleasure and benefit it has been, he can easily understand why a big three-ring circus, of the high standard of the Great London Shows occupies the enviable position in the amusement world that it does.

The far-famed Dublin Dapple Grays \$25,000 Prize Winners are also presented in conjunction with the Big Show.

The Great London Circus will exhibit in Quebec Monday, July 7th.

EMPRESS SAILS, HAS RECORD LIST

HAS NEARLY 1200 PASSENGERS
OF ALL CLASSES BOUND
FOR EUROPE.

The C. P. R. Co.'s R. M. S. Empress of Ireland, Lieut. Forster, R. N. R., left port at 4.30 yesterday afternoon with the largest list of all classes of passengers ever taken from a Canadian port for Europe. Her list comprises 330 saloon, 350 cabin and 502 third class passengers.

In the saloon is a special party from Chicago under the direction of Dr. W. A. Pratt, of this city, and composed principally of physicians who are going to attend the world's medical convention in Germany. Dr. Pratt was accompanied by Mr. H. M. McCallum, C. P. R. general agent at Chicago.

There was also a party from Cincinnati, brought on by General Agents M. E. Malone and D. Lyster, of that city, who are going to tour Europe.

Not only were the cabin decks of the stately steamer thronged with people of Canada and the United States, but every civilized nation under the sun was represented. The following was Quebec's contribution to the saloon's contingent:

Lieut. Col. A. G. Irvine, Messrs. A. J. Carpenter, P. L. Cote and C. J. Slade.

RESIGNS AS CLERK OF REVIEW AND CIRCUIT COURT

Mr. P. B. Casgrain, for many years clerk of the Review and Circuit Courts of this city, has resigned his position, owing to his advanced age. He has been replaced as clerk of the Circuit Court by Mr. Archibald LaRue, ex-M. P., who has been deputy clerk of that court for several years past.

CHEAP FARES FOR DOMINION DAY

Excursion fares for Dominion Day will prevail over the Intercolonial Railway, the dates of issue being from June 28th to July 1st, with a return limit good to July 3rd. These fares will enable a traveller to enjoy a pleasant week end or holiday excursion at very low fares.

SAGUENAY EXCURSION.

R. and O. steamer "Tadousac," will leave Quebec at 2 p.m. Monday, 30th June. Fare: \$10.00—meals and berth included. Apply F. S. Stocking, 32 St. Louis street, Quebec. Tel. 82.

SAILS NEXT MONDAY FOR NORTH SHORE PORTS

The C. G. S. Montmagny leaves port next Monday for Harrington Harbor and other North Shore ports. This will afford parties who wish to do so, the opportunity to send magazines, papers or cast-off clothing to people on that dreary coast.

Few people appreciate the fact that Boswell's Ales are something more than mere drinks,—that they contain nutritive properties of a high order. It's really worth your while to see that you really do get Boswell's.

MR. MARCOTTE RESIGNS AS LE SOLEIL MANAGER

Mr. Edmond Marcotte, who has for a number of years past been manager of Le Soleil, of this city, has resigned his position and has been replaced by Mr. Henri Gagnon, who has been manager of La Tribune, of Sherbrooke, for the past two years. The latter will enter upon his new functions July 1.

YOUTHS AND BOYS SHIRTS.

Lloyd, Attree & Smith, of London, Eng., have excelled themselves this season in the Youths' and Boys' Shirt trade, for style and material, nothing can be more pleasing than the range shown by J. H. Mullin, their Quebec agent. White Cricket form Shirts in Oxford or Aertex, and in the double cuff and collar, in white or color, for 75c, 90c, \$1.00 to \$1.25. Also Boys' and Men's Bathing Suits and Trunks, 15c to \$4.50.

NEW MAIL CONTRACT.

The Post Office Department, as may be seen in another column, is inviting tenders for a proposed new street letter box collection contract, which will be a considerable enlargement both as regards the territory covered and the frequency of the service throughout the old city, its recently acquired extensions and in the adjacent municipality of Montcalmville.

In all the business district and central residential quarters, the frequency of the street letter box collections has been augmented to eight, and the public in those districts will doubtless appreciate the benefits accruing by being able to mail letters in the street receptacles up to 9:15 p. m.

Moreover, the people of Montcalmville as far out as Levis Avenue and the Belvedere, Stadacona, along the Charlesbourg road to the toll-gate, and the Beauport road to the confines of the city in that direction, will then see the street letter box collection vehicles pursuing their circuits, superseding the semi-daily collection by the letter-carriers on their rounds which has heretofore obtained.

The specifications of the proposed new contract can be seen at the Quebec and sub-post offices throughout the city.

Hon. E. Devarrennes, M. L. C., was in town yesterday.

BEGIN WORK ON ST. CHARLES RIVER

MATERIAL ON WAY, CONTRACTORS WILL PUSH WORK TO
EARLY COMPLETION.

Messrs. Butler and Robertson, members of the firm of Quinlan & Robertson, who have been awarded the contract for the damming of the River St. Charles and building the locks, were in the city a few days ago to discuss the work and decided to proceed immediately.

The necessary plant and material required is now on the way to Quebec and is expected to arrive this week, when operations will be commenced and pushed with vigor. In the meantime ground has been broken and besides the taking of levels and borings, excavation work is being carried on under the superintendency of the company's engineer, Mr. R. T. Powell.

ARREST CHAUFFEUR FOR USING EMPLOYER'S CAR

A chauffeur in the employ of Hon. Geo. E. Amyot was arrested by Detective Patry of the Provincial police Wednesday and yesterday brought before the Police Court to answer the charge of using his employer's car without permission for his personal pleasure and causing damage to the machine amounting to \$100. The accused pleaded not guilty, and gave bail to appear for trial on Thursday next.

SAW BODY OF MAN FLOATING IN THE RIVER.

On the arrival of the R and O. Nav. Company steamer Quebec yesterday morning, Captain Demers reported that while coming down the river, he observed the body of a man floating with the current opposite S. Michael. Dr. Jolicœur, district coroner, on learning the fact, immediately issued instructions to have a boat sent from the shore in the vicinity to pick up the body, and when this was done and reported to him, he would hold an inquest.

POSTPONE BEGINNING OF CHATEAU EXTENSION

It is learned from an official source that the work on the extension of the Chateau Frontenac will not be begun this summer. One of the reasons given is the dearth of C. P. R. architects and construction men, who are busily engaged elsewhere. Last Spring the C. P. R. Board of Directors appropriated \$2,000,000 for the company's hotel system improvements and buildings, which included a new wing to be added to the Chateau. It is said that the company may find it convenient to begin work on the foundations this coming fall.

MEMORIAL DAY.

Sunday next, the Oddfellows of Quebec will hold their annual Memorial Day ceremony and Service at Mount Hermon Cemetery, when the graves of the departed brethren will be visited in the morning, and at 3.00 p.m. a memorial service will be held at the Plot and Monument, which will be conducted by His Lordship Bishop Grisled, Past Grand Chaplain of the Grand Lodge of Manitoba, and Rev. Bro. I. M. Thompson, chaplain of Britannia Lodge, No. 4, Quebec. All Oddfellows, friends and relatives of departed brethren are cordially invited to be present.

FUNERAL OF VICTIM OF DROWNING AT LEVIS

The funeral of Mr. T. G. Boyd, who was drowned at Levis on the 23rd while working on the Bavarian wreck, was held from St. Anthony's Roman Catholic Church. The Rev. E. V. O'Neill, of Savannah, Ga., offered up the Holy Sacrifice of the mass for the repose of the soul of his young namesake, while Rev. Pelletier, of St. Anthony's, Belleville, Levis, paid the last tribute of prayer. There were many friends of this good young man who died in exile present at the obsequies.

The deceased leaves a widow in Wells, England.

MR. WILLIAM WALKER, M. P. P.

The many Quebec friends of Mr. William Walker, M. P. P. for the County of Huntingdon, will regret to learn of his death, which occurred Wednesday night at his home in Huntingdon after a short illness.

Mr. Walker was born in Scotland in July, 1847, and at an early age came out to Canada, and settled in Huntingdon. He was a practical farmer, and by dint of industry and energy became one of the important agriculturalists of the county, and was greatly respected by the whole community for his clean upright character, and good will toward his fellow men.

He was a Liberal of the old school, whose one political aim in life was the conservation of his country's interests with respect to every man's honest opinion, and in keeping with his broad minded views, and honesty of purpose, enhanced by a genial disposition, he was a great favorite in his county.

Besides being a director of the Agricultural Society of Huntingdon, he was a member of the Council of Agriculture for the Province.

Mr. Walker was elected to represent Huntingdon county in the Legislative Assembly in 1900, and re-elected in the general elections of 1904, 1908, and 1912.

In religion Mr. Walker was a Presbyterian, and by his death his church loses a most valued member.

WOLFE MONUMENT NOW DEMOLISHED

WILL BE REPLACED IN FAC-
SIMILE BY BATTLEFIELDS
COMMISSION SOON.

With the exception of a part of the base, which will be removed in the next few days, the Wolfe Monument has been taken down. It has stood intact for sixty-four years, but the stone was badly cracked in many places and it was feared that it would not last much longer. It will be replaced in fac-simile by the Battlefields Commission within the next month or two on an ample and imposing base which will give it a far more commanding position.

Only the helmet and sword which crowned the old pillar will do duty on the new, unless perhaps the same plate, with the simple but eloquent and forceful inscription: "Here Died Wolfe Victorious," may be used again. The other plate sets forth the fact that the monument was erected by the British Army in Canada in 1849, while Sir Benjamin D'Urban was commander of the Imperial Forces in Canada. It replaced a former monument which had been put up by the Governor-General, Lord Aylmer, in 1832, and which had been broken and defaced and the remains buried on the same site. The money to pay for the shaft just taken down was obtained from the troops, each man giving a day's pay.

It is not yet known what will be done with the pieces of the monument just removed, but there is a possibility that if a memorial church is erected to Wolfe they may be placed in it.

BOILER MAKERS WANT MORE PAY

MEN AT QUEBEC AGENCY OF
MARINE AND FISHERIES
ARE OUT ON STRIKE.

The boiler makers in the employ of the Quebec Agency of the Marine and Fisheries Department workshops, are on strike for higher wages.

There are eleven boiler makers and eight helpers employed in the Government workshops on the King's wharf, who have been receiving 28c an hour for their labor. This rate of wages, they claim, is insufficient and does not compare with other shops in Quebec and elsewhere, where the boiler makers are paid 30c, and even as high as 35c per hour for their labor.

The men waited on the Quebec Agent of the Department Wednesday of last week to make their demands. The agent asked a week's time to place the matter before the Department in Ottawa. The delay was granted, and the men went back and worked until last Wednesday evening, and not hearing from the agent, refused to go to work yesterday morning.

ARRESTED ON CHARGE OF ATTEMPTED BLACKMAIL.

A young man charged with an attempt to blackmail his former employer, was arrested yesterday morning and brought to the Police Court to plead. He insisted that he was not guilty, and his trial was fixed for next week. The accused, who is a stranger without funds in Quebec and not being able to furnish bail, was sent to jail.

CANADIANS ARE SMOKING
MILLIONS OF CIGARETTES

Ottawa, June 26—Canadian people
are consuming more tobacco and
drinking more beer and spirits year
by year, but the increase is not re-
markable, save as regards cigarettes.
Almost two hundred million more
cigarettes were smoked last year than
in the previous year.

The Inland Revenue Department
has completed its annual statement,
giving figures for the fiscal year in re-
spect to these matters. The consump-
tion of spirits per head of the popula-
tion was 1.112 gallons, as against 1.030
gallons in 1912. Beer was 7.005 gal-
lons, compared with 6.598 gallons,
wine 1.311 gallons, compared with 1.14
and tobacco, 3.818 pounds, compared
with 3.679 in 1912.

The tobacco consumption includes
cigarettes, but the latter are also
dealt with specifically. Last year the
consumption totalled 975,325,501 cigar-
ettes, as against 782,638,841 in the fis-
cal year of 1912.

ROYALS IN FOURTH.

Newark, N. J., June 26.—The In-
dians overcame a five-run lead the
Montrealers piled up in the first inning
of the game at Newark today and won
out, 6 to 5. The Royals took a liking
to the offerings of Lee and straighten-
ed five of them out for safe walkoffs.
These, with a base on balls and a sac-
rifice game them their runs and caused
the retirement of Lee. The Newark
made as many runs in the fourth on
four singles, a base on balls and an
error. Two singles, a sacrifice and an
out produced the winning tally.

TORONTO DEFEATS PROVIDENCE, 7-6

McCONNELL'S HARD HITTING
WAS RESPONSIBLE FOR THE
LEAF'S VICTORY.

Providence, R. I., June 26.—Toronto
captured the last game of the series
today 7 to 6 by a terrific streak in bat-
ting in the fourth and fifth innings.
Reisigl was wild and when he did put
the ball over the visitors laced it out
for long drives. McConnell hit like
a fiend and was mainly responsible
for the Toronto victory. The Leafs
hit Maxwell hard all the way but
failed several times in the pinches.

FLAMMA WINS LADIES'

HANDICAP AT BELMONT

Belmont Park, N. Y., June 26.—E.
F. Condran's four-year-old chestnut
filly Flamma, by Hastings out of Flit-
termouse, won the Ladies Handicap,
today's feature of the card at this
track. She made a good start but was
outrun early in the contest. She held
up gamely and gradually closed up,
taking the lead in the last furlong.
Hedge came up strongly and hung
gamely to the task but Radtke was
able to land his mount in front with-
out great difficulty in the closing
stages. Ral Parr's Surprising, which
was decidedly the best entry in the
handicap for two-year-olds, led all the
way but was disqualified for interfer-
ence. Executor, ridden by Butwell,
was away the best of the remaining
field and gets the race.

SCHORR STABLE WINS 3 RACES

ENNISKILLEN COMES CLOSE
TO RECORD FOR COURSE
AT HAMILTON.

Hamilton, Ont., June 26.—Another
red-hot day, a great crowd and great
racing were features of the second day
at the Hamilton Jockey Club track
this afternoon. The stable of J. W.
Schoor was conspicuous, the black
and yellow getting home in front
three times, with Hamilton, David
Craig and John Reardon. Hearts of
Oak spread-eagled his field in the
Canadian bred event and Enniskillen
won a slashing race through the field,
the time coming within two-fifths of
a second of the record for the course.
Tony Aste, Ten Point's owner, won
a race and got himself suspended in
a fuss over the bidding up of his
horse. Starter Dade also broke a sec-
ond by fining Jockey Montour \$10 for
creating trouble at the post in the
third race, this being the first rider
that he has fined this season.

The summary:
First race: purse of \$600, 2-year-olds
and up, selling, five furlongs—Dolly
Waters, 98, Deronde, 12 to 1, 5 to 1
and 5 to 2, won; Centarin, 103, Am-
brose, 12 to 1, 5 to 1 and 5 to 2,
second; Pat Rutledge, 99; Snyder, 9
to 2, 2 to 1 and 4 to 5, third. Time:
1:02. Arawanna, Miss Waters, The
Urchin, Green Brae, Skyrocket, Osap-
le, Louise Traverse and Single also
ran.

Second race: purse \$500, 3-year-olds
and up, selling, six furlongs—Marjorie
A., 110, Gross, 9 to 5, 9 to 10 and 1
to 2, won; Yorkville, 101, Snyder, 7
to 1, 3 to 1 and 7 to 5, second; Tank-
ard, 103, Buxton, 7 to 1, 5 to 2 and
7 to 5, third. Time: 1:13.45. Arde-
lon, Pop Gun, Fox Craft, Black Chief,
Joe Stein, Mileage, Montcalm, Dr.
Neet and Napier also ran.

Fourth race: Hotel Royal Handi-
cap, 3-year-olds and up, 11-8 miles—
Hamilton, 111, Buxton, even, 1 to 3,
and out, won; Just Red, 104, Montour,
6 to 1, 3 to 2 and out, second; John
Furlong, 110, Burns, 13 to 5, 4 to 5,
and out, third. Time: 1:54.15. Spring
Main also ran.

Fourth race: Dundas Handicap,
steepchase, \$500 added, 4-year-olds
and up, about two miles—Enniskillen,
157, Keating, 5 to 2, even and 1 to 2,
won; xWickson, 104, Beamish, 3
to 1, 6 to 5, and 3 to 5, second; King
Cash, 137, Kermath, 7 to 1, 5 to 2
and 6 to 5, third. Time: 4:04.26.
Luckloia, Gun Cotton, Dr. Heard,
xValian and Jack Dennerlen also ran.

Fifth race: Dominion Plate, \$1,500
added, 3-year-olds and up, foaled and
owned in Canada; 11-8 miles—Hearts
of Oak, 117, Gross, 1 to 6, and out,
won; White Caps, 122, G. Burns, 5
to 2, 2 to 5 and out, second; Maide
of Fromme, 95, Ambrose, 20 to 1, 3 to 1
and 3 to 5, third. Time 1:56. Widow
Wise, Maggie and Havrock also ran.

Sixth race: purse of \$500, for maiden
2-year-olds, five furlongs—David
Craig, 108, Benton, even, 11 to 20
and 1 to 4, won; Yankee Tree, 105,
Killingsworth, 10 to 1, 4 to 1 and 2
to 1, second; Jezail, 113, Clements,
10 to 1, 4 to 1, 2 to 1, third. Time:
1:01.25. Supreme, Thelma J. Pea-
cock, Perpetual and Good Will also
ran.

Seventh race: Mountain Selling
Handicap, 3-year-olds and up, purse
of \$600, 11-16 miles—John Reardon,
104, Buxton, 6 to 1, 5 to 2, 6 to 5,
won; Pardon, 108, Deronde, 3 to 1, 2
to 1, 4 to 5, second; The Rump, 101, 1
to 2, 4 to 5, third. Time: 1:46.45. Taxton Field,
Blackford, Inspector Lestrade, Super-
stition and Elwah also ran.

SYNOPSIS OF REGULATIONS. GOVERNING TIMBER ON DOMINION LANDS in Manitoba, Saskatchewan, Alberta, the Northwest Territories, the Railway Belt in the Province of British Columbia, and the tract situated west of Yale in the Province of British Columbia, on which the rental is at the rate of 5 cents per acre. In addition to rental, duty is charged on the timber cut at the rates set out in section 20 of the regulations.

TIMBER PERMITS AND DUES.
Permits may be granted in the Provinces of Manitoba, Saskatchewan and Alberta, to owners of portable saw mills, to cut over a definitely described tract of land not exceeding one square mile in extent, on payment of dues at the rate of 50c. per thousand feet, B.M., and of a fee at the rate of \$100.00 per square mile for each permit.

TIMBER FOR HOMESTEADERS.
Any occupant of a homestead quarter-section, having no timber of his own suitable for the purpose, may, if he has not previously been granted free allowance of timber, obtain a free permit to cut the quantity of building and fencing timber set out in section 50 of the Regulations.

W. W. CORY,
Deputy Minister of the Interior.

SYNOPSIS OF CANADIAN NORTHWEST LAND REGULATIONS

Any person who is the sole head of a family, or any male over 18 years of age, may homestead a quarter-section of available Dominion land in Manitoba, Saskatchewan or Alberta. The applicant must appear in person at the Dominion Lands Agency or Sub-agency for the district. Entry by proxy may be made to any agency, on certain conditions by father, mother, son, daughter, brother or sister of intending homesteader.

Duties.—Six months' residence upon and cultivation of the land in each of three years. A homesteader may live within nine miles of his homestead on a farm of at least 80 acres, or on a homestead occupied by him or his father, mother, son, daughter, brother or sister.

In certain districts a homesteader in good standing may pre-empt a quarter-section alongside his homestead. Price \$3.00 per acre.

Duties.—Must reside upon the homestead or pre-emption six months in each of six years from date of homestead entry, including the time required to earn homestead patent and cultivate fifty acres extra.

A homesteader who has exhausted his homestead right and cannot obtain a pre-emption may enter for a purchase homestead in certain districts. Price \$3.00 per acre.

Duties.—Must reside six months in each of three years, cultivate fifty acres and erect a house worth \$100.00.

W. W. CORY,
Deputy of the Minister of the Interior.
N.B.—Unauthorized publication of this advertisement will not be paid for.

KING'S LIFE SAVER GETS HIS PARDON

WAS FORGOTTEN BY ALFONSO.
IS REMEMBERED AND SET
FREE AT LAST.

Madrid, June 26—Looking over the army lists the other day the King said to the Minister of War: "Mendez Mendez, why is he always overlooked? He has been a colonel and commander of that little fortress for 20 years of more. What's the trouble with him? He should be a General by this time."

The Minister of War sent for the papers in the case, and looking them over, hastily said: "Here it is: Mendez has been a Colonel since 1892."

"Impossible," cried the impulsive Alfonso; "see if you can find the solution of the conundrum in the papers dealing with his personality."

It turned out that Mendez was, or is, King Alfonso's life saver, originally footman in the royal palace of Madrid.

Boy King Fell.

In the fall of 1892, Alfonso, then a boy of 6, fell down the marble staircase of the palace, and would have dashed out his brains against a pillar had it not been for Mendez, who caught the boy and carried him up the stairs, screaming with fright and bleeding from the nose. This was Alfonso's only hurt, and the mother the Queen Regent, and the royal ministers with her in council assembled at the palace, thanked Mendez effusively.

As the footman was retiring, the commander of the royal body guard touched him on the shoulder, and said in a mild, but commanding tone: "You are my prisoner. These men will take charge of you."

Mendez was surrounded by soldiers and conducted to the guard house. From there he was led to a chamber in the palace. The chamber was furnished with every luxury, but in one corner stood a bench, such as is used in Spanish prisons. After he had been in the room for some time, a jailer appeared bringing him an earthenware jar of water, bread and a few cloves of garlic. After the jailer was gone a servant came in bringing a tray full of "goodies," a beautiful dinner in silver dishes and a carafe filled with the finest wine.

Prisoner Lived High.

After the prisoner had been served, the waiter asked him to name his hours for breakfast, lunch, dinner and supper. Also his favorite brands of tobacco and the names of the newspapers and magazines he desired regularly. In short Mendez, while treated ostensibly as a prisoner, was given the means to live like a fighting cock, or fighting bull rather.

Why this semblance of severity and punishment after Mendez had saved the King's life? In saving his life, he had touched the Majesty and in Spain the law threatening with death anyone laying hands on the King even in the kindest manner has never been repealed.

After living in his gilded prison for a month, Mendez received a parchment creating him colonel and commander for life of a small out-of-the-way Spanish fortress.

After a while he was forgotten in his solitude and if the King had not stumbled over the "eternal Colonel Mendez" he might have died there without his service to the dynasty ever being recalled. Now, the King has written him a letter of thanks, and invited him to come to Madrid for a holiday. He sent him a splendid team of mules and his gold-framed miniature set with diamonds.

HEIR TO PEERAGE ABOUT TO LEAVE FEDERAL PRISON

FREDERICO GREY BECAME A
PEER WHILE INCARCERATED
AT LEAVENWORTH.

Leavenworth, Kan., June 26—"No. 7437," who will be released from the federal prison here on Monday, is really Sir Frederico Grey, heir to a British peerage. He succeeded to it through the death of his elder brother since he has been in prison. He will have the larger title and the estate that goes with it at the death of his father, who is now 68.

Grey was sent to prison from Washington on March 18, 1911, to serve three years for using the mails to defraud in connection with the exploitation of a large tract of land in Mexico which he claimed to own. He had previously served a term in an English prison. But instead of being deported to England he will be sent to Mexico, in consequence of an arrangement between his attorneys at the trial and the federal law officers.

The family from which Grey comes dates back to the early part of the sixteenth century. His succession to the title follows the death of two older brothers within the past seven months. One of the brothers was a canon of Manchester Cathedral and rector of Ruthyn. Prior to 1694 the family was known as Grey de Denton, and subsequently as Grey de Denton and Ruthyn, but following 1768 the name was changed to Edgerton de Grey, which, in late years has been changed to Edgerton Grey. Edgerton is a village in Lancashire. The names of Ruthyn and Denton are also taken from adjoining villages.

The estate is very extensive. Grey has in his own right an estate at Denton of some 480 acres.

He says, however: "I shall still be a poor man when I return home, for I do not yet know whether my brother has left me a shilling."

He says he will first go to Washington to attend to some affairs with the Attorney General, after which he will go to New York and take the first boat for Vera Cruz. Then, having put his Mexican affairs in order, he will sail for England about the end of September.

Pardoned in England.

Grey says of his fellow convicts: "Many of them will soon recover their place in life when once they are free. They are still men of principle, and in spite of the fact that they misappropriated funds or committed some other violation of the law (and in many cases these violations have only been technical), there are many there whom I will be glad to know when they are free."

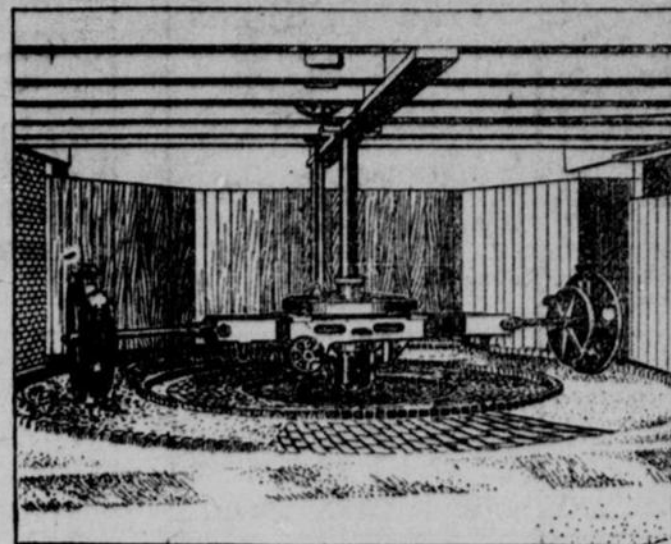

Asked whether he had ever been in prison before coming here, he said: "I was indicted in England in 1902 for issuing a false balance sheet, and also for forgery. I was reindicted in 1903, and again in 1905; but during all of this time I was in Mexico. For nine years I was director of one of the largest cotton mills on this hemisphere and had control of 7000 work people. The mills are in Mexico. The company owning them is an English concern and therefore I was amenable to the laws of England for the offenses with which I was charged. I went to England in 1905 and stood my trial, going voluntarily, as I could not have been taken there had I not wanted to go. I was found guilty and sentenced to five years. I had served 71 days when I received a pardon, it having been shown that I had acted under the instructions of my superiors in England. I returned to Mexico, and eight months from the time I left for England I was again holding my position as resident director, and this post I held until May 28, 1910.

Bears No Ill Will.

"I feel strongly the somewhat unfair attack which was made on me by the press, which characterized me as the 'black sheep' of my family. I have my papers which show that I am duly registered in the embassy at Mexico City in the year 1900, and also that for a period of ten years I was absent from the Republic only seven months and eight days. I trust that this explanation will end the matter. I have many good friends in this great country, and I do not wish them to have a wrong opinion. Hence my very careful and lengthy statement in regard to this matter."

"I am leaving Leavenworth, but I shall often think of the city, and I assure you that I shall ever remember that, although a foreigner, I received the best of treatment from all the officials with whom I came in contact, and the United States and all appertaining to the United States will ever have in me a warm admirer."

Sir Frederico Grey is thirty-three years old, highly educated and well informed. He is a pleasant talker and has been quite popular with the clerks in the deputy warden's office, where he has served for nearly two years.

The "Paving Determinator's" Verdict.

THE "Paving Determinator" is an ingenious machine that was built by the department of Public Works of Detroit—to subject sample stretches of various street pavements to severe, actual-service tests. It imitates heavy trucks and steel-shod draught horses, reproducing, in faithful detail, every effect of this kind of traffic.

This remarkable machine was recently used to test five varieties of street pavement—covering practically the entire range of present-day road coverings.

A report of the test says:

"When the test had been made under the direction of Mr. McCabe and officials of the department, on eight sections of pavement laid in a circular track, the concrete section, laid under the specifications of the Board of County Road Commissioners of Wayne County, Michigan, showed by far the best resistance to the severe test to which the pavements were put."

Are you going to overlook these facts in deciding about your paving?

MORGAN'S ESTATE IS 100 MILLIONS

UNOFFICIAL ESTIMATE SHOW
THAT STATE TAX WILL BE
ABOUT \$4,000,000.

New York, June 26.—The whole of the J. P. Morgan estate has a value of about \$100,000,000 according to an unofficial estimate here credited to Thomas E. Rush, counsel to State Comptroller Sohmer, who has been in Europe the past month examining the books of the Morgan houses in London and Paris to determine the value of the late financier's holdings. The European assets he found to approximate \$15,000,000.

If the \$100,000,000 estimate for the whole estate is correct it is said this will be the biggest estate to pay an inheritance tax in America. New York state will be enriched nearly \$4,000,000 it is estimated by a tax of four per cent. on a greater part of the estate.

LIVE FOXES FROM WEST SENT TO CHARLOTTETOWN

Prince Albert, Sask., June 26.—Eighty-five live foxes, valued at \$500,000 were shipped yesterday for Charlottetown. A second car is to follow. Many valuable specimens are arriving from the north.

BIPLANE AVIATOR IS KILLED IN MONOPLANE

Chalon-sur-Marne, France, June 26.—The French aviator Maurice L. Foulquier, while testing a monoplane for the first time fell from a height of 250 feet this evening and was killed. Foulquier had been accustomed to a biplane and the accident is attributed to the fact that he failed to realize that monoplane requires different methods in handling.

DRAWA A REVOLVER IN PORTUGUESE SENATE

Lisbon, June 26.—A violent scene occurred yesterday in the Senate. Senator Arthur Costa, brother of the Premier, Dr. Alfonso Costa, strenuously objected to the remarks of Joao Jose de Freitas, and advanced upon him.

Senator De Freitas drew a revolver and levelled it at the other's breast. For a dramatic moment the two men stood facing each other. Then several of the Senators sprang upon De Freitas, and disarmed him.

SCHNECTADY ELEVEN MADE BEST SHOWING.

Schnectady, N. Y., June 26.—The Australian cricket team won the second and final day's play of the match with the Schnectady Cricket Club here yesterday by a score of 187 to 131. This is the best showing made on this continent against the team from the Antipodes.

The Australians batted first, using eleven batsmen, but could not reach their customary three century. Campbell was high with 51 runs, but Sunderland of the locals made a record score for the game with 54.

KILLS BABY BY MISTAKE HUSBAND ARRESTS HER

Paris, June 26.—The wife of a gendarme at Chateau Saline gave her baby a fatal dose of acid, mistaking it for castor oil. When she told her husband of the child's death, he forthwith placed her under arrest, "for manslaughter by imprudence."

Taking his wife to the police station, the husband also surrendered himself, on the ground that he had contributed to the mishap by his own negligence in leaving the acid, which he used to clean his equipment.

Both were released on bonds.

MONTREAL HERALD UNDER NEW OWNERSHIP

Montreal, June 26.—The Montreal Herald has passed under new ownership. Mr. James S. Brerley, president, and Mr. Frederick Abraham, president of the Herald Company, Limited, have disposed of their interests in the paper and withdrawn from active participation in the management. The business will be carried on, as heretofore, by The Herald Company, in the Herald Building, 275 Craig Street West. Mr. Edward Beck, formerly managing editor of the Montreal Daily Star, has been appointed Editor-in-Chief, and will have the active direction of the newspaper.

JOHN H. ROBERTS WILL TAKE MONTH'S VACATION

Montreal, June 26.—Through the generosity of an unknown friend of the cause, Mr. John H. Roberts, secretary of the Dominion Alliance, and champion of the temperance cause, will enjoy a month's holiday to his home in England without expense to himself. He has been granted a month's leave by the Alliance.

The recent strenuous work done by Mr. Roberts in connection with his duties as an official of the Dominion Alliance, together with his efforts on behalf of Good Templarism, has undermined his health somewhat, and when the suggestion of a holiday home to England to recuperate was mentioned, the Alliance leaders readily agreed. It is understood that Mr. Roberts will be absent during the closing fortnight of July and the first half of August.

DOMINION OFFICERS NOT LIABLE FOR INCOME TAX

Brantford, Ont., June 26.—Dominion officers are not liable for income tax. That is the judgment handed down by His Honor Judge Hardy in the appeal of W. G. Raymond, postmaster; J. C. Montgomery, assistant postmaster; A. E. Harley, customs house officer; M. J. Donohue, inland revenue officer, and Gordon Smith, Indian superintendent against their assessment for income tax on the salaries paid them by the Dominion Government.

REPORT SUCCESSFUL WIRELESS TELEPHONE

London, June 26.—W. P. Durnall, an English engineer, asserts that he has invented an electrical generator which will make wireless telephone conversation an immediate commercial possibility.

The generator is designated to produce a heavy current with an alternating frequency of 30,000 to 100,000 oscillations a second.

It has hitherto been found impossible to construct such a dynamo for the purposes of wireless telephony.

DISCONTINUES ICE PARTOL.

Bergs Are Now Well to the North and There Is Practically No Danger to Steamships.

Washington, June 26.—The Atlantic revenue cutter ice patrol has been discontinued by Capt. E. P. Berthoff, commandant of the service, because icebergs are now well in the north and all danger to the steamships practically disappeared. The patrol of several months has resulted in the discovery of numerous huge bergs, against which warnings were sent by wireless to steamships and shore stations.

NORWEGIAN TO TRY TO FIND TRACE OF ANDREE.

Ottawa, June 26.—Christian Leden, a Norwegian explorer, is in Ottawa today, preparing for a two-year journey in the northern Hudson Bay region, where he will conduct an ethnographic study of the Eskimos and endeavor to secure traces of Andree. The Swedish explorer whose balloon journey for the North Pole is supposed to have ended somewhere in Northern Canada.

Leden is securing all available information on the northern country for the Canadian government.

FACE TRIAL FOR TRUDEL SHOOTING

FOISY, DEMERS AND THEIR
GIRL COMPANIONS APPEAR
IN POLICE COURT

Jean Foisy and Raoul Demers, and their girl companion, Jeanne Lecours, who are alleged to have figured in the Vaucartier robbery of Mr. Sullivan's camp and the subsequent Lake St. Joseph shooting, which came near ending the life of Detective Trudel of the Provincial police, were conveyed from the jail to the Police Court yesterday, where the preliminary investigation into the charge of shooting with attempt to murder was begun.

A number of Crown witnesses were heard, including the Provincial police constables who accompanied Detective Trudel to Lake St. Joseph to arrest the prisoners. They told the story of the robbery and shooting. Detective Trudel, also gave evidence. With the exception of suffering from a sore back, caused by the bullet wounds, he is now almost as well as ever.

The evidence for the Crown was concluded yesterday afternoon and the investigation was adjourned to allow the prisoners to make a defence.

Mr. Charles Smith, advocate, and Mr. J. A. Lane, K. C., are retained to look after the interests of the youthful prisoners, and the case for the Crown is being looked after by Mr. A. Lachance, M. P. Crown Prosecutor.

HORSE RACE WAGER DECIDED IN COURT

STAKEHOLDER ORDERED TO
PAY MONEY TO GIROUX
LORTIE PAYS COSTS.

In the Superior Court yesterday morning, Chief Justice Lemieux rendered judgment in the case of Giroux vs. Allaire & Lortie, mis en cause, condemning Allaire to pay over to Giroux the sum of \$400 amount deposited in his hands as a wager on a trotting race held last winter on the Exhibition Grounds and condemning Lortie to pay all costs.

Giroux and Lortie had each deposited \$200 with Allaire for a race on the 14th January. The race was run on that date and each horse won two heats when, owing to darkness, the judges decided to postpone the deciding heat until the following day. Lortie wanted to run the race off immediately, but Giroux wanted to abide by the judge's decision. He turned up on the following day and after waiting for a time, ran the last heat alone, and was awarded the race. Lortie protested against Mr. Allaire paying over the money and an action followed, with the above result. About \$2000 had been wagered on the race and all bets were held until a decision was rendered.

MILITANT SUFFRAGETTE ARRESTED AT CARDIFF

Cardiff, Wales, June 26.—Mrs. Mackworth, wife of Captain Humphrey Mackworth, of the Royal Monmouths, and only daughter of David Alfred Thomas, the "British coal king" and head of the Cambrian combine, who is now in Canada, was arrested tonight at her residence and conveyed in her own motor car to the police station at Newport charged with setting fire to a pillar box.

Mrs. Mackworth, after spending four hours in a cell, was allowed out on bail furnished by her husband. She will be arraigned for examination tomorrow.

NEARLY A CASE OF ENOCH ARDEN RETURN

Rochester, N. Y., June 26.—Lyons, a small town east of here, came near having an Enoch Arden case.

Seven years ago Charles Anderson mysteriously disappeared from his home on Catherine street, leaving his wife and two children. Supposing him dead, Mrs. Anderson, on November 24, 1911, married John C. Conway, of Canada. The latter on July 16, 1912, while erecting a temporary pipe across the Ganargue River, lost his balance, fell into the water and was drowned. He left one son.

Yesterday Anderson appeared in town as suddenly as he disappeared seven years ago.

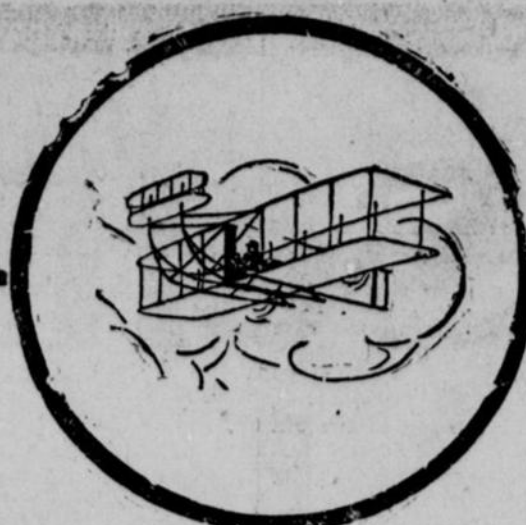

INCREASED ARMAMENTS RICH MAN'S BURDEN

Berlin, June 26.—The Imperial Parliament read a second time today the German Military Contribution Bill whose purpose is to meet the non-recurrent cost of \$250,000,000 in connection with the increase of the German army.

The measure has been greatly changed from the original Bill proposed by the Government which contemplated a levy on owners of property valued at over \$2,500, with an incidental tax on big incomes.

It now hits also persons earning salaries as it does incomes of \$1,250 and upwards on a graduated scale of from one to eight per cent.

The increased armaments of Germany, according to the Government's financial estimates, will be largely a rich man's burden, at \$40,750,000 of the \$250,000,000 is to be derived from persons worth \$250,000 and over, and \$23,250,000 from those with incomes of over \$25,000 per annum.

Schlitz Brown Bottle Is Making History

Two years ago, Schlitz adopted the Brown Bottle.

Scientists, world famous, had rendered opinions that beer exposed to light cannot remain pure.

One year ago, Schlitz corroborated its claims by reprinting such parts of these opinions as were pertinent.

Today, the last link in this long chain of incontrovertible evidence is complete.

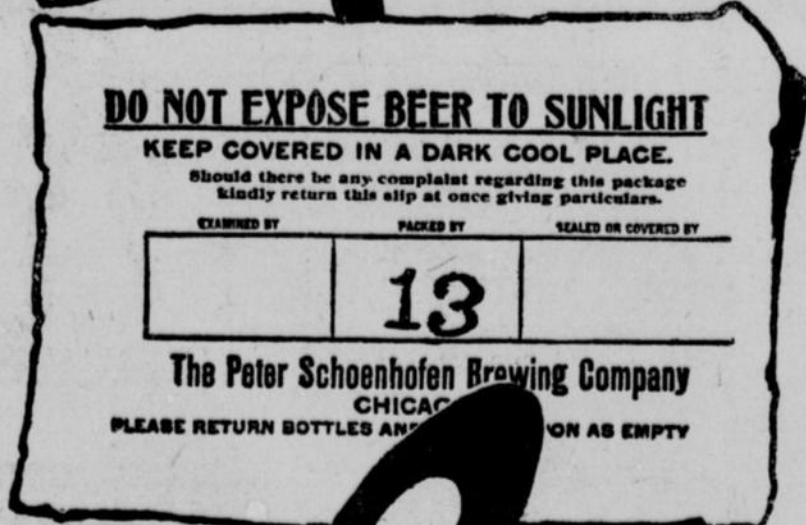

We reproduce herewith in miniature the printed matter on covers or caution cards taken from cases of beer sold by brewers using the light bottle.

Read them.

They are self-explanatory. They are eloquent.

These competitors admit the weakness of their own product when exposed to light, by warning the public to "Keep the cover on."

SHIPPING NEWS

DEVONA THROUGH BELLE ISLE WAY

THOMPSON LINER FIRST OF SEASON TO COME BY WAY OF THE STRAITS.

To the Thompson Line steamer Devona, Captain Murray, belong the honor of being the first ocean steamer to pass through the Straits of Belle Isle this season. The opening of the Straits has been anxiously awaited this spring, but there has been so much ice reported in the vicinity that no shipmaster was anxious to attempt to go through. Now that the Devona has accomplished the task other steamers will soon follow suit.

ALLAN LINE.

R. M. S. Victorian from Liverpool passed Fame Point at 7.15 p.m. yesterday, and is due here at 6 o'clock this evening. She has 99 first, 435 second and 915 third class passengers, the mails and a general cargo.

Steamer Granpian, from Glasgow, with passengers and general cargo, was reported 205 miles east of Cape Race at 8 a.m. yesterday.

ANTICOSTI LINE.

Steamer Renvoye, Captain Redfern, passed here this morning from Anticosti, loaded with pulpwood for the upper lakes.

C. P. R. LINE.

Steamer Lake Michigan, Captain Parry, from London and Antwerp, arrived here at 12.30 p.m. yesterday, and moored at the Breakwater. She brought out nineteen hundred passengers and a general cargo. After disembarking passengers and their baggage she left for Montreal at 2.45 p.m. Captain Parry reports some heavy weather on the passage.

MANCHESTER LINE.

Steamer Manchester Engineer, Captain Cabot, from Manchester, with a general cargo, arrived in port at 3.15 p.m. yesterday and went into the Louise Basin to discharge.

CUTTING RATES.

Montreal, June 26.—It was reported from New York yesterday that the Austro-American line from Trieste has cut its rates once more, not for all third class passengers, but only for such of them as are emigrating from Russia to Canada. The cut that has been made in their favor is stated to be down to \$22, the rate prevailing while the recent keen competition between the German "pool" lines and the C. P. R. was at its height. It will be remembered that the C. P. R. put up the rates of their own accord in 1909 in consequence of the heavy business booked, and the Austro-American line shortly afterwards followed suit. Later, apparently inspired attacks appeared in certain New York newspapers stating that the C. P. R. had agreed not to take Russian emigrants from German control stations. Vice-president Bosworth, interviewed with regard to the rumor, replied that he knew nothing of any such agreement. It may be added that all C. P. R. steamers from ports on the European continent are booked to their capacity from now till the end of July.

FREIGHTS AND CHARTERS.

New York, June 26.—Chartering was light in all departments of the tonnage market and rates were unsettled and weak. Very little inquiry was encountered for either steamer or sailing vessels. Quotations to Liverpool, 2d; London, 2d; Glasgow, 2d; Rotterdam, 5c; Hamburg and Bremen, 40 pfennigs; Hull and Bristol, 3d; Antwerp, 2d; Cork for orders, 2s 9d; picked ports, large tonnage, 2s 3d; cotton to Liverpool, per 100 lbs., 25c.

Charters.—British steamer, 2785 tons, nitrate, west coast South America to United States, 25s 3d; July: British steamer, 2826 tons, timber, Gulf to Havre, Dunkirk and Sharnfess, 102s 6d; July: British steamer, 1857 tons, timber, Gulf to Algiers, Savona and Taranto, private terms; July: British steamer, 2659 tons, West India trade, about three months, 3s 3d; prompt; schooner, 599 tons, coal, New York to Charlottetown, \$1.40; thence Bonaventure to New York, spruce, \$5.50.

GENERAL NOTES.

Steamer Wacousta, Captain Olsen, from Sydney, with a cargo of coal, arrived here yesterday morning and moored in the Louise dock.

Steamer Felix, Captain Larsen, having landed her cargo, left for Louisbourg yesterday morning.

Steamers Stigstad, Chittren Range and Castleton, from Sydney, passed here yesterday.

bride. Among the peasants, especially those of the Slavonic and Magyar race, the "payment" is by no means nominal.

Among the Slovaks all the friends meet at the bride's home the night before the wedding for a supper and the "cake dance." The fun is uproarious, but just before the time set for the departure of the guests the hilarity suddenly ceases, and custom demands that they should wait and weep to show the family grief at losing a daughter.

On the wedding morning, just before leaving for the church, the bride, dressed in her gala costume, is seated by her mother on the kneading trough, which is covered by a piece of newly woven fine linen. Her mother then cuts off three locks of her hair, which she solemnly burns, and scatters the ashes to the winds.

The bridegroom generally goes to the house of the bride, and they then go together to the church. When the service is over they must return very slowly to the bride's home in order to allow her mother to arrive there first. This is because the daughter is now a visitor at her old home and her mother must receive her and all the others as "guests," with the old time, hospitable offering of bread and salt.

When the wedding party enters the house they remain standing, while the bridegroom walks three times around the table on which the wedding feast is spread.

Among the Austrian peasants when the oldest son marries the father and mother resign the home and farm to him, while they move to a smaller house, called a dowerhouse. The son, in assuming the care of the property, provides a fixed annuity for his parents; also a certain provision for his brothers and sisters. So that very often all he really gets is the empty dignity of his new position as head of the family.

When the papers have been signed the family and notary accompany the father on his last visit, as master, to the estate. The boundaries are carefully followed, and at each post they stop while the old farmer solemnly repeats the evils that will fall upon him who shall change his neighbor's landmarks. In order to make his words more impressive he bestows a ringing box on the ear of his successor, the vigor of the blow varying according to the generous or mean spirit the son has shown toward him. This constitutes the last act of authority, as from that time on he becomes a pensioner on his own land.

WHAT THE MINISTER SAW.

A minister in a small country village, who was noted for his absent-mindedness, was once observed to stop suddenly in the middle of his sermon and heard to mutter: "I knew she would—I knew she would."

After the sermon was over someone asked him the reason.

"Dear me," said he, "did I? Well, you know, from the pulpit I can just see old Mrs. Rogers' garden, and this morning she was out pulling up a cabbage, and I thought to myself, 'Now if that cabbage comes up suddenly she'll go over; and just then it came up and over she went.'"

CARBON FROM TAR.

Carbons of high grade are now to be obtained from tar, according to a process invented by a Swedish firm. The powdered carbon will be pressed to form electric light carbons or larger ones for electro-chemical work. The method is based on the fact that finely divided carbon makes up a large percentage of the composition of tar and is what gives the black tar color, this being due to the carbon particles suspended in an otherwise dense and transparent yellowish-brown liquid. A process is used for separating the carbon from the liquid, and it can then be molded into any desired shape.

MARRIAGE CUSTOMS OF AUSTRO-HUNGARY

The majority of the Austro-Hungarian people are of Slavonic origin. But they, too, are divided into many races, differing more or less, in their language, religion and domestic customs.

A CHALLENGE

We defy all the real estate firms of Lauzon to prove the contrary of what is affirmed here.

The lots of the Parc Levis are the nearest to the dry dock, the church, the convent, college, the Intercolonial station, and the Ruel factories than the lots of all the other firms.

The Parc Levis HAS FOR ITSELF ALONE the advantage to adjoin the government land and to be crossed from one end to the other by the aqueduct of the town of Lauzon.

PLAN NEW BRIDGE OVER ST. CHARLES

GOVERNMENT ENGINEERS IN
CONSULTATION WITH THE
RAILWAYS AND CITY.

Messrs. Lefleur, chief engineer of the Public Works Department, Ottawa, and Mr. S. B. Decarry, departmental engineer at Montreal, were in Quebec last Wednesday to take observations and consult with the railway companies and Mayor of Quebec concerned in the building of the new railway bridge across the River St. Charles.

The proposed bridge is to take the place of the one extending across the river from the gas house property, which is used by the Quebec & Lake St. John Canadian Northern Quebec and Q. R. L. H. & P. Co. railways, and will form part of the damming and other improvements projected in the St. Charles River.

It is arranged between the railways and the city that the new structure will be built to accommodate general traffic, each railway and the City of Quebec paying its share of the cost in addition to the Government subsidies.

The plans for the new bridge are quite interesting, as it provides for a carriage drive, way for foot passengers, street cars, as well as railway crossing and consequently will be a great benefit to Limoulin.

The bridge will be built over the foundations of the dam projected to cross the river and the works will accordingly go together.

NAMED CHIEF ENGINEER OF GOVERNMENT RYS.

Montreal, June 26—The appointment is announced of Mr. Collingwood B. Brown, to the position of chief engineer of the government railways in Canada. Since graduating in civil engineering at Cornell 13 years ago, Mr. Brown has been in the employ of the Canadian Pacific Railway, filling various engineering positions from rodman to principal assistant engineer, a post to which he was appointed two years ago and which he now resigns to become head of the Government Railways Engineering Department.

Mr. Brown is very well known both in Eastern and Western Canada, having been in turn resident engineer at London, Ont., assistant division engineer at Calgary, division engineer at St. John, N.B., and Montreal before becoming chief assistant of the Canadian Pacific Railway. Although a graduate of an American college, Mr. Brown is a Canadian. He was born at Kingston, Ont., 36 years of age, is thus a comparatively young man. Later he resided with his parents at Oshawa and Ithaca, where he took his college course.

The management of the Intercolonial and Prince Edward Island Railways have secured a particularly able and experienced man in the new chief engineer, who will take up his residence at Moncton on the first of July.

QUEEN FROWNS ON RIDING ASTRIDE

INTERNATIONAL HORSE SHOW
OBLIGES WOMEN TO USE
SIDE SADDLES.

London, June 26—Queen Mary's adhesion to the Victorian proprieties is doubtless responsible for an edict issued by the management of the International Horse Show at Olympia to the effect that all women competitors appearing in the equestrian procession before the King and Queen and President Poincare, must use side saddles. Miss Ruth Boyd has been the most conspicuous among the women who ride astride. She has bowed to the decree and for the last four days has practised with a side saddle. She will also abandon her usual easy costume and wear a tall hat and the customary riding habit.

Miss Boyd maintains, however, the superiority of riding astride, not because she thinks it is easier which it is not with some horses, but because she holds that the only perfect horsemanship is sympathetic horsemanship and that cannot be attained with the side saddle. Moreover, she added: "Side riding is cruel to the horse, especially in jumping or riding long distances." The announcement of the decree has awakened much criticism of those who favor side riding.

HEALTHY INCOMES OF COMPOSERS

Milan, June 26—Leoncavalla and Mascagni could be very wealthy men today if they had stopped after composing their successes, "Bajazzo" and "Rusticana." These made big money for them, but as their other operas are always losers, their publishers deduct a large percentage of the funds earned by the successes. Puccini earns more than a hundred thousand dollars per year with his operas, and Richard Strauss the same. Lehár has made a fortune out of his operettas. Slezak makes \$50,000 a year, and Fraulein Kurtz, who has never been in America, does as well. Jadowiker, the first tenor of the Kaiser's opera and "a tenor" in New York, receives 75,000 marks for 50 performances in Berlin. Therefore, he earns as many marks per performance as Caruso earns dollars. Four marks are equal to one dollar.
