

For Acidity or Bile

When
your
stomach
is
upset

Take

Beecham's Pills

Sold
everywhere
in boxes

Beecham's Pills act as a splendid tonic to the digestive organs. They remove acidity and fermentation and excess of bile from the stomach and bowels and promote the secretion of the gastric juices. In thus correcting morbid conditions and stimulating the digestive processes Beecham's Pills naturally have an excellent effect upon the general health. If you have lost your appetite or are suffering from nausea, sick headache, constipation, or giddiness

MINNESODA DUE THIS MORNING

Expected To Dock At 2 A.M.

Regina And Montrose About
Midnight

The Canadian Pacific Minnesoda
passed Father Point at three o'clock
yesterday afternoon and is expected
to reach port at 2 o'clock this
morning.

The Minnesoda has 221 cabin and
703 third-class passengers from
Antwerp, Southampton and Cher-
bourg.

Favored by fine weather, an entire
absence of fog and head winds
the White Star-Dominion liner
Regina and the Canadian Pacific liner
Montrose are steaming up the St.
Lawrence to this port and are ex-
pected about midnight tonight or
one o'clock tomorrow morning.

Regina's Passengers.

Among those returning by the
Regina are John Watson, of the
Canadian Bank of Commerce,
well-known in Canadian bank-
ing circles; George Burton, K.C.,
of Toronto; H. G. Caldwell, Liver-
pool manager of the Canadian Na-
tional Railways, who is coming to
Canada to make a complete tour
of the Canadian National System;
Charles Reid, well-known London
journalist who is coming to this
country to study agricultural condi-
tions, and Mr. and Mrs. Arthur E.
Waldron who are en route to Quebec
where they will visit their cousin,
His Lordship Bishop Williams.

In the third-class the Regina is bring-
ing a large number of emigrants in-
cluding a party of fifty children en
route to the National Children's
Home, Hamilton, Ont. The steamer
also has on board a number of do-
mestic servants and settlers with
their wives who are going through
to the Western Provinces to engage
for the most part in agricultural
work.

Montrose's returning by the
Regina include J. Watson, W. H.
Myhill, Mr. and Mrs. G. E. Sumner,
Mr. and Mrs. J. P. Cooper, Mr. and
Mrs. H. E. Carlton, Mr. and Mrs.
B. W. A. Poole, Miss H. Theaker,
Mr. and Mrs. G. W. Daehmae, Mrs.
A. A. Greene, E. H. Mercer, Mr.
and Mrs. T. A. Lewis, Mr. and
Mrs. W. G. Webb, C. Bender, Miss
K. Summerville, Mrs. D. McCord, Miss
K. McCord and J. Harkness. Others
returning on the Regina include Dr.
Primrose, C.B., and Mrs. Primrose,
of Toronto; Mrs. J. E. Beaudry,
Miss Larochelle, of Quebec.

Arriving on Montrose.

Coming in on the Montrose are
Dr. Endicott, Toronto; Mrs. McLean,
Montreal; Judge Barron, accompa-
nied by Mrs. Barron, Stratford, Ont.;
the Hon. C. P. St. John and Mrs.
St. John, Montreal; the Misses Jean-
net and Gabrielle Lacroix, Mont-
real; Mr. John R. W. Crawford, 53
years of age, an ex-police officer, a
projected tour across Canada. Mr.
Crawford will return through the
United States. While in Europe last
year he covered over 7,000 miles in
seven months.

Arriving on the Minnesoda from
Antwerp, Southampton and Cher-
bourg are Mr. and Mrs. A. L. Lo-
ley, Montreal; Colonel and Mrs.
Lennox Irving, of Tenfrew; and Mr.
and Mrs. J. W. Hobday, in charge
of 219 Barnardo boys. This party
will proceed direct from the ship's
side to the Mother House in Toronto
prior to being sent to their various
homes of adoption. While this is Mr.
and Mrs. Hobday's first contingent
this season, they have been closely
connected in the past years with
10,000 juveniles brought to the
Dominions from Doctor Barnardo's
Homes.

Shipping Notes.

Passed yesterday: SS. Paliki
at 3:25 p.m.; S.B. Ignifer at 4:25
p.m.

Passed down yesterday: SS. Alex-
ander at 4 a.m.; SS. Canadian
Squatter at 10:55 a.m.; SS. Sinaita
at 6:30 p.m.

The C.S.S.L. Saguenay arrived up
at 6:20 a.m. and left up at 5:30 p.m.

The steamer Labrador arrived up
at 10:40 a.m.

The steamer Port Hamilton arrived
up at 3:15 p.m.

The Chiefmont left up at 3 p.m.

The C.S.S.L. Montreal arrived
down at 8:40 a.m. and left up at 9
p.m.

The C.S.S.L. Richelieu left up at
6:15 p.m.

The Canadian Pacific steamer
Minnesoda passed Father Point yester-
day afternoon and due to reach port at
two o'clock this morning.

The White Star-Dominion steamer
Regina was ahead of Point Amour
at 6 a.m. yesterday and is expected
here at midnight on Friday.

The Canadian Pacific steamer
Montrose passed Belle Isle at 5:45
a.m. yesterday and is expected here
at one o'clock Saturday morning.

The Anchor-Donaldson liner
Athenia with 494 cabin and 879
third-class passengers from Glasgow
is expected here next Wednesday.

The Canadian Pacific Empress of
Scotland left Southampton at 1 p.m.
Wednesday for this port.

Rockefeller says it is a fifty-
fifty policy that keeps us all poor.

PRES. HARDING OFFERS COUNSEL TO CANADIANS

Shouldn't Try To Annex U.S.
Because It Is Hard Country
To Govern

GOOD NEIGHBORS NOW
And Should Continue So—
Given Object Lesson To
The World

Vancouver, B.C., July 26—An official
message of welcome for Pres-
ident Warren G. Harding from Hon.
J. H. King, Minister of Public
Works on behalf of the Prime Min-
ister of the Government and the
people of Canada was carried from
here to the United States President
on Board the U. S. S. Henderson, off
Campbell River, Vancouver Island,
late yesterday afternoon by airplane
in charge of Flight Lieutenant A. T.
Cowie, Royal Canadian Air Force.

The message which was signed by
Hon. Mr. King read:—

"On behalf of the Prime Minister
of the Government and the people
of Canada, I have the honor to ex-
tend a sincere and full souled wel-
come. I am looking forward with
lively anticipation of pleasure to
the honor of greeting you upon your
entry upon Canadian soil tomor-
row."

The message sent back by the
President expressed his appreciation
of the welcome extended by Hon.
Dr. King, which he wrote was en-
dorsed by all the members of his
party. The message expressed his
deep appreciation of meeting the
people of Vancouver.

"The ancient bugaboo of the
United States, scheming to annex
Canada disappeared from all our
minds years ago," declared Pres-
ident Warren G. Harding, speaking
before a crowd in Stanley Park here
today. "Heaven knows," he con-
tinued, "we have all we can manage
now, and room enough to spare for
another hundred millions, before ap-
proaching the intensive stage of
existence of many European states."

Word of Advice

"And, if I might be so bold as to
offer a word of advice to you, it
would be this: 'Do not encourage
any enterprise looking to Canada's
annexation of the United States. You
are one of the most capable
governing peoples in the world, but
I entreat you, for your own sake, to
think twice before undertaking
management of the territory which
lies between the Great Lakes and
the Rio Grande.'"

"No; let us go our own gallop along
parallel roads; you helping us, and
we helping you. So long as each
country maintains its independence
and both recognize their indepen-
dence those paths cannot fail to be
highways of progress and prosper-
ity. Nationality continues to be a
supreme factor in our advancement,
and our very prosperity enjoins that
most effective co-operation which
comes only from claspings of hands
in true faith and good fellowship."

"It is in that spirit that I have
stopped on my way home from a visit
to our pioneers in Alaska to make
a passing call upon my very good
neighbors of the fascinating
Iroquois name 'Kanada' to whom
glorious in her youth and strength
and beauty on behalf of my own be-
loved country. I stretch forth my
arms in fraternal greetings with
gratefulness for your splendid work-
fulness in my heart and from my lips
the whispered prayer of our famous
Rip Van Winkle: 'May you all live
long and prosper.'"

Referring to the fact that he was,
with the single exception of his im-
mediate predecessor the first presi-
dent in office to set foot on political
foreign soil, the President stated
that such inhibition which devel-
oped into a tradition may have been
desirable in the early days when
time was the chief requisite of
travel. Assuredly, too, at present,
the Chief Magistrate of a great re-
public ought not to cultivate the
habit of wandering over all the con-
tinent of the earth. But, Canada
was an exception a most notable
exception from every viewpoint of
the United States.

"You are not only a neighbor," he
said, "but a very good neighbor; and
we rejoice in your independence and
admire your independence no less
sincerely than we value your friend-
ship. We think the same thoughts,
live the same lives and cherish the
same aspirations of service to each
other in times of need. Thousands
of your brave lads perished in gal-
lant and generous action for pre-
servation of our union. Many of
our young men followed Canadian col-
ors to the battlefields of France be-
fore we entered the war and left
their proportion of killed to share
the graves of your intrepid sons."

Object Lesson of Peace

"What an object lesson of peace
is shown today by our two coun-
tries to all the world. No grim-
faced fortifications mark our fron-
tiers, no huge battleships patrol our
dividing waters, no stealthy spies
lurk in our border hamlets. Only a
scrap of paper, recording hardly
more than a simple understanding,
safeguards lives and property on
the Great Lakes and only humble
mills mark the inviolable
boundary line for thousands of miles
through farm and forest."

"Our protection is our fraternity,
our armor is our faith; the tie that
binds more firmly year by year is
ever increasing acquaintance and
comradeship through interchange of
citizenship and the compact is not
of perishable parchment, but of
fair and honorable dealing which,
God grant, shall continue for all
time."

As further evidence of increasing

MONOPOLY OF IMMIGRATION

From Russia, Granted White
Star, Hamburg American
And German Lloyd Co's.

Moscow, July 26—The Federal
Council of Commissioners has man-
aged a concessionary agreement be-
tween the Russian State and the
volunteer fleet on one side and the
White Star, Hamburg American and
North German Lloyd companies on
the other for a monopoly in the
transportation of emigrants to and
from Russia. This business has
heretofore been held by the Russian
fleet.

The agreement provides that other
foreign steamship companies may
join the concern. The capital is
fully paid up by the concessionaires,
the Russian fleet obtaining fifty per
cent of the shares without cost. Of
the eight directors, four, including
the chairman are appointed by the
Russians; who also control the dis-
patch of emigrants.

The agreement holds good until
the end of 1924, with automatic
prolongation annually until notice
of withdrawal is filed by any mem-
ber. The Soviet Federation re-
serves the right to exclude any
member in case its country's govern-
ment breaks relations with Russia.

Separate agreements were signed be-
tween the Russian Black Sea fleet
and the Byron Steamship Company
of Great Britain, under which ves-
sels will sail every two weeks from
Odessa for New York.

FRENCH SHIPPING
HAD BIG LOSS

As Result Of State Control,
According To Report Of M.
Leboucq, Paris

London, July 26—(By Canadian
Press Cable)—State control of mer-
chant shipping in France has result-
ed in a big loss, according to a re-
port in the Morning Post which was
drawn up by M. Lehoucq, of Paris,
and is authoritative. The report
discloses the fact that during the
war state control merchant shipping
resulted in a net loss to the tax-
payers of at least 1,806,000,000
francs.

The purchase and construction of
ships cost 1,523,000,000 francs, and
the running costs totalled a further
474,000,000 francs, making a total
expenditure of 1,997,000,000 francs.

The liquidation of the whole
undertaking has produced a total
yield of 190,000,000 francs, leaving
a deficit of 1,806,000,000 francs or a
total, including loss of interest on
the money invested of 2,546,000,000
francs.

STEAMSHIP SERVICE
BETWEEN CANADA AND
MEXICAN REPUBLIC

After a great deal of effort on the
part of the ship owners, Messrs.
Mapes & Perdon, 43 St. Sacramento
street, have been established the
Mexican Caribbean Line. The first
boat "Knut Hamsum" will be able
to take options to book cargo until
the 31st of this month to Tampico,
Veracruz, and main sea ports of the
Republics of Colombia and
Venezuela.

The results of the first sailing will
determine whether or not it will be
possible to operate a permanent
service from Canada to Mexico and
the mentioned South American
countries.

Here is an opportunity for Can-
adian interests to overcome the
heavy charge of shipping to the
above ports through the port of New
York.

SHIPPING MOVEMENTS.

Port of Montreal, July 26—
Vardulia, London; Canadian Run-
ner, British West Indies. Sailed—
Manchester Hero, Manchester; Sin-
aita, Antwerp; Canadian Squatter,
British West Indies; Treleven,
Australia; Canadian Coaster, Port
Colborne; Margaret Coughlan,
Sorel.

Independence, President Harding
said he had been informed that
since the Armistice approximately
\$2,000,000,000 had found its way
from the United States to Canada
for investment—half of it provin-
cial and municipal bonds, a tribute
to scrupulous maintenance of Can-
adian credit to a degree equalled
only by the mother country across
the sea and "your sister country
across the hardly visible border."

"If only Europeans would heed
the lesson conveyed by Canada and
the United States they would strike
at the roots of their own continuing
disagreements and in their own
prosperity forget to inveigh con-
stantly at ours."

Four natural advantages are man-
ifest and obvious," he said in con-
clusion. "We live in the power and
glory of youth. Others derive just-
ifiable satisfaction from contempla-
tion of the resplendent past. We
have relatively only our present to
regard and that, with eager eyes
fixed chiefly upon our future. There-
fore, lies our best estate. We profit
mentally and materially from the
fact that we have no 'departed
greatness' to recover; no 'lost ter-
ritory' to regain; no new territory
to covet; no ancient grudges to
gnaw eternally at the heart of our
national conscience."

ECZEMA

You are not
alone in your
trouble. It is
not a disease
that is new
to you. It is
an old enemy
that has been
with you for
years. It is a
disease that
is not curable
by medicine.
It is a disease
that is curable

LAKE MEGANTIC
HAPPENINGS**Mr. Ed. E. Moore Appointed
Chairman Of Agnes And
Megantic Model School**

Lake Megantic, July 26.—(Special Correspondence) — Mr. and Mrs. Charles Hopley and daughter of Montreal, arrived by motor last week and are spending the holidays at the home of Mr. and Mrs. S. G. Veary, fifth range of Ditchfield.

Mrs. Blackwell and daughter are here spending a couple of weeks with Mr. and Mrs. Charles Bramhall.

Mr. and Mrs. Lionel Vachon from Quebec are spending their holidays with Mr. Vachon's parents Mr. and Mrs. F. X. Vachon, Maple Ave. Mr. Vachon is with the Tele-Quebec Publishing Company in Quebec.

Mr. John Paxton has recently put up a neat fence around the grave of Mrs. Paxton in the graveyard of St. John the Evangelist Church.

Mr. Wm. Boyle has recently purchased a fine Chalmers touring car, and is using the fifth range road from Spider Lake. Mr. Boyle reports this road in good condition.

Mr. Geo. Rattelle's eldest son met with a serious accident recently by falling on the railroad track and breaking his arm.

Mr. Victor Simpson formerly of Megantic, has recently sustained a serious accident at Delta, Sask., by breaking his leg.

Mr. W. A. McLeod of Regina, formerly of Echo Vale is reported to be seriously ill, and has undergone several operations since the spring, following an attack of influenza. His friends are wishing for him a speedy recovery. Mr. McLeod is a son of the late Mr. Allan McLeod, formerly of Echo Vale, and whose father Mr. Wm. McLeod was one of the first settlers at Lake Megantic in 1853. Mr. W. A. McLeod is the editor of the Government publications in Regina. It is a co-incidence at the present time that both of the families are connected by marriage. Mrs. Victor Simpson is a sister of the above Mr. W. A. McLeod, and both from Lake Megantic. Mr. Simpson's father Mr. J. B. Simpson was formerly the manager of the pulp mill at Megantic.

Mr. Norman Murray of Echo Vale, accompanied by Mrs. Harold Armstrong, arrived here last week from Sherbrooke, where Mrs. Murray has been in the hospital for some time back.

At a meeting of the commissioners of the Agnes and Megantic Model School, held in the School House on Monday, Mr. Ed. C. Moore was appointed Chairman.

The Secretary-Treasurer also read the financial statement of the school to the commissioners, which was as follows:

Cash in bank July 1st	\$ 74.76
1922.....	150.76
Received from arrears of	19.00
taxes.....	1,582.91
Fees.....	482.00

Mr. Frank Patton of Sherbrooke, is spending a week with his parents here. Mr. and Mrs. James Patton, and is returning to his home on Thursday, accompanied by Mr. J. Patton, on Tuesday Messrs. James, Herbert and Frank Patton, motored to the Spider River for a day or two fishing.

Mr. A. E. Fish was in Sherbrooke on Monday on business.

Mr. M. S. Nicholson who is here on a visit to her father Mr. Alex McIver, has gone to Milan to visit other relatives, and will return here again before leaving for her home in Springfield, Mass.

RECEIVERS AND LAWYERS
WANT TIDY SUM
FROM STEEL CO.

Buffalo, N.Y., July 26 — Three receivers and fourteen lawyers involved in the litigation since the bankruptcy of the L. R. Steel enterprises, have asked the United States Court to pay them \$251,000 for their services out of the live assets of the bankrupt companies. Federal Judges John C. Knox and John R. Hazel, sitting jointly today, received the bills and announced they would take them under advisement.

You never know how much pride mere words can express until you hear a very young business man speak of "my stenographer."

AIR ROUTES
OVER WORLD**Will Be A Reality In Near
Future, Says British Postal
Director**

London, July 26.—A most interesting and instructive paper was read before the International Air Congress, recently in session in London, by Brigadier-General P. H. Williamson, director of postal services of the British government.

General Williamson predicted that the United States, Canada, the West Indies and other parts of the North American continent would soon be linked up by air with Great Britain. Connecting air lines would also run to Egypt, India, The Straits Settlement, Australia, New Zealand, and Africa. "It is not rash to predict," said he, "that the next generation will see its railways and its steamships supplanted by a complete system of communication by air."

General Williamson said the Cairo-Bagdad air mail service, now in operation, saved 20 days over the old land route which ran via Bombay, Karachi and the Persian Gulf. The mail planes covered the 550 miles in a single day.

Discussing the future of mail transport by air, the speaker said that the convenience of the whole of the mails by air was an unlikely development unless and until there is a very marked change in the cost of air transport, and in the financial limitations under which postal services are compelled to work. Limitations which require some sort of proportion between the postage charged and the cost of transport.

"Moreover," the General added, "an essential condition of mail service is regularity under all conditions, in all weather, and at all times of the year. It is commonly assumed that if a method of transporting mails can be devised which is considerably more rapid, even if more expensive, than any existing method, there is an immediate public demand that it be used for the carriage of mails. There is, of course, some truth in this; but the experience of the post office indicates that the importance attached to the mere speed of mail communication can easily be exaggerated.

"It is probable, therefore, that for a long time to come air mails must be limited to urgent correspondence on which a special fee is charged, and that such correspondence will only be a relatively small fraction of the total mail. The actual volume of air mail carried will depend on three factors, regularity, gain in time, and cost of conveyance; that is, exactly the same conditions as those on which the development of passenger and goods traffic will depend, and to which the technical development of commercial aviation must be directed."

PERSONAL NOTES
FROM FRAMPTON

Frampton, July 26.—(Special Correspondence) — Mr. and Mrs. Vossie spent the week-end in St. Malachie.

Mrs. Emile Pare, Mr. Gedeon Pare and Mrs. Emile Lafontaine of La Tuque, P.Q., are spending the summer in St. Malachie.

Mr. J. McCarthy of New York, is spending his vacation in St. Malachie, with his wife and Mr. and Mrs. J. O'Farrell.

Mr. Joe Kelly is home for the summer months.

Miss Claire Thomas from Manchester, N.H., is spending her vacation here with friends and relations.

Mr. Alex Tremblay is very ill at present, we hope for his speedy recovery.

GRANDMERE PERSONALS.

Grand'Mere, P.Q., July 26.—The following guests registered at The Inn over the week-end: Messrs. Walter W. Maguire, A. J. Higgins, H. S. Johansen, M. G. Brook, Floyd S. Chalmers, C. P. Thayer, Marcel Relecon, L. R. Wilson, R. A. McInnis, J. R. S. McLernan and Mr. and Mrs. J. G. Brook, all of Montreal. Hon. Honor Mercier, F. X. Lemieux and A. Bedard, of Quebec City; H. Munro, of Kenogami, P.Q.; A. B. Smith of Lac la Poudre, P.Q.; Mr. and Mrs. C. T. Hamill, of Albany, N.Y.; Mr. L. Bradley, of Montclair, N.J.; Mrs. C. F. Halligan and Mr. F. McKeefe, of Plattsburg, N.Y.; Messrs. W. J. Wilson, Jr., E. P. McKeefe, C. W. Bowring and J. A. Muller of New York; Mr. A. S. Shaw of Detroit, Mich., and Mr. J. R. Loomis, Jr., of Glens Falls, N.Y.

Others registering since are: S. R. Mackie, of Brooklyn, N.Y.; E. E. Beveridge, of New York; W. W. Greenwood, of Worcester, Mass.; W. F. Kirsham of Montreal; E. R. Goulet of La Tuque P.Q.; A. Kaulback of Shawinigan Falls.

Nurse M. L. Brunette of Three Rivers is the guest of Mrs. Fred Allard.

Mr. and Mrs. J. Webb, have left Grand'Mere, to take up residence in Shawinigan Falls.

Rev. Father J. Monrain and Messrs. J. Nicole and T. Gravel, have returned from a successful fishing trip to Lac Bouchard, P.Q.

DRUMMONDVILLE
CHRONICLES**Leopold Poirier Resigns Office
Of Secretary Of R.C. School
Commissioners**

Drummondville, July 19.—(Special Correspondence) — The local club on its grounds, Gosard Park, St. Jean St., had a hard fought match with the St. el Baseball Club last Sunday afternoon and to ensure a win by one or the other contestant, an extra inning was played which showed the Drummondville team to be the best.

Mr. H. C. Lalonde, advocate, who has been recuperating at the seaside on the Maine Coast returned home last week-end looking very much improved in health by a month's breathing of sea air and bathing in the Atlantic.

On account of increasing years and failure of his health, Mr. Leopold Poirier, has resigned his office as Secretary-Treasurer of the Roman Catholic School Commissioners of Drummondville and is replaced by Mr. Gaston Riquet, advocate, formerly of St. Hyacinthe, and junior partner in the legal firm here of Garneau and Rinfret.

Mr. Poirier served the School Commissioners for thirteen years most acceptably and this period was the growing time. He leaves three schools the Garneau on Lindsay St., with six teachers and three hundred pupils in charge of the Charly Brothers, and a girls school on Convent Street under the direction of the Sister of the Presentation with five teachers and two hundred scholars, with school on Hemings Road near the south-west boundary of the town in charge of Miss Niguet and Miss Georgina Mercure who have over sixty young children in their care.

The president of the Board of Commissioners is Napoleon Garneau, K.C., and with him Messrs. Walter Moisan, N.P., Jos. Marier, advocate, Alex. Mercure, manufacturer and J. Montplaisir, merchant. This Board was the first in the Province to vote for compulsory education, and keeps a useful growth of patriotism by flying the Dominion Flag over its walls every school day and public holiday through the year.

The new power line erected by the Southern Canada Power Company from Drummondville to Richmond by way of St. Nicholas, L'Avenir, Ulverton, Kirkdale and Melbourne is practically completed and well within the time allotted for the work which was up to August first. Over eighty miles of aluminum wire has been stretched along the poles which exceed six hundred and forty. This line is calculated to carry a load equal to seventy-five thousand horse power. No serious accident occurred in the busy ten weeks taken up by its erection. Most of the men are being assigned to other jobs of the company in the neighbourhood.

The Jencks Canadian Company last Saturday closed their works and gave a huge picnic in the fields near the Boys' College beside the river St. Francis. Everything was free and long before ten in the morning all manner of vehicles were travelling to the Jencks picnic grounds loaded with people of both sexes, and ages from toddling children to those of ancient days.

LA TUQUE, QUE.,
PERSONAL NEWS

La Tuque, July 24.—(Special Correspondence) — Mr. James Marshall of Eastman, Que., is in town, the guest of Mrs. H. Clifford.

Mrs. Geo. Brown of Ballington, Que., who has been the guest of Mrs. Clifford for the past month, leaves for her home on Tuesday the 24th.

Mr. James W. Marshall and family who have been the guests of his sister, Mrs. H. Clifford for a few days left for his home in Fort William this morning.

Miss Annie Perks leaves on Wednesday morning for her home in Fort William this morning.

Miss Annie Perks leaves on Wednesday morning for her home in Berlin, after having spent two weeks visiting friends and relatives in La Tuque.

Miss Irene Davis leaves Wednesday morning for Berlin, where she will be the guest of her aunt, Mrs. James Feeney for a few weeks.

B.D.G.M. Carson of Grand'Mere arrived on Monday night, and will spend a couple of days in town.

P. G. Alverson of Grand'Mere is in town for a day on business.

P. G. Cawthray of Shawinigan is in town for a couple of days on business.

whose hair and steps forecasted important changes in many homes at no distant date. Mineral waters, ice cream, coffee, a variety of sandwiches of good materials, cakes, fruit were served out to everybody without question or price. Games, races, tug o'war, jumping, baseball and dancing were heartily enjoyed all day. The excellent orchestra maintained by the Company played much classical music as well as for dancing at intervals. Nearly a thousand persons attended and the Jencks people spent as many dollars willingly to give their employees a happy day absolutely free from care, dust and oil. The Messrs. Fick, Hyland and "Sir John Jollyboy" were leaders of untiring energy all day. The event closed about five o'clock in the afternoon.

Mr. Adam Haddow, Outremont, and Messrs J. P. and W. T. Harrison, of Montreal, were visitors to the old Aetna Powder Plant during the week.

Mrs. Harry Budgen and children from Canterbury, England, arrived by the "Empress of Britain" to join Mr. Budgen who is the new manager of the Grantham Hall Estate of Mr. A. J. Nesbitt.

A fire in St. Cyrille a few days ago completely destroyed the saw mills of Mr. Henri Champagne and set on fire several freight cars, some being loaded with lumber for Mr. Laferte at Montreal. The total damages are said to exceed thirty thousand dollars. The fire is said to have started from waste material too near the boilers. The heat was so great that rails on the L. C. Ry track were bent by it.

WORTH SPENDING MONEY ON.

Western Canada should have the benefit of the best brains money can provide to work out a workable cooperative marketing plan for western wheat.—Vancouver Sun.

WATERTON LAKE
NATIONAL PARK**Is One Of Most Interesting
Beauty Spots In Canadian
Rockies, It Is Said**

Waterton Lakes, Alta., July 26.—(By Canadian Press)—A beauty spot where nature is found to rare advantage, where the real lover of the great out-of-doors can camp in the midst of the Rocky Mountains, is found in Waterton Lakes National Park. Nestling in the Rocky Mountains on the United States border line, adjacent to Glacier National Park, this resort of Southwestern Alberta, little known to the average railway tourist, is rapidly becoming, year after year as its fame spreads, one of the most popular objectives for motor tourists in Western Canada.

Although Waterton Lakes is one of the newest parks of which the Dominion Parks Department has charge, last year more than 20,000 motor parties visited and camped here. It is approximately 40 miles from the nearest railway point. Waterton Lakes, like many of the beauty spots in the Rocky Mountains, possesses a history unique in itself. Here, long before it became a national park men came, discovered its richness of beauty and surroundings, settled down, and lived their lives in peace and quiet. On the shores of Upper Waterton Lake dwelt Kootenai Brown. Coming from England, he married an Indian squaw and lived there for many years. He died several years ago, and his grave lies on the shore of the lake, near where he spent the greater part of his life, finding his joy of existence in the quiet beauty of silvery lake and in the majestic solitude of the mountain peaks that reared themselves far above his tiny log cabin.

Here, also, dwelt the man who was responsible, indirectly, for the establishment of the Oil City, about 12 miles northwest of Waterton Lakes. "Oil Bill" Aldrich was his name, and he camped there on the sight of Oil City for many years. He used to make his living by soaking gunny sacks with the coal oil that seeped out of the rocks, taking the oil into Cardston, the main Mormon settlement of Southern Alberta, and selling it.

For many years this went on, until finally it was decided to investigate more fully. This resulted in the establishment of the city, and the Imperial Oil Company today is carrying on extensive operations in an effort to produce large quantities of oil.

William O. Lee was another character, who probably had more to do than anyone else in Waterton Lakes becoming a link in the chain of national parks stretching through the mountains. Coming from Cardston about 30 years ago he recognized the attractions of the spot, started a general store and commenced to advertise the lakes attractions as a camping site to the people of the surrounding country.

Twelve years ago the government took the park under its charge, and surveyed a large percentage of it into villa lots. These lots are leased to campers for 45 years at a nominal charge.

It may be that men no longer believe in dreams, but they still turn to look when one walks by.

Your friends are those who understand you; your enemies are those who underestimate you.

MEIGHEN ISSUES
NO CHALLENGE**To E. M. MacDonald, Only
Asked Questions — Chal-
lenge Was From R. H. Butts**

Halifax, N.S., July 26.—Right Hon. Arthur Meighen denied today that he had challenged Hon. E. M. MacDonald to speak from a public platform in North Sydney. He said he had addressed certain questions to Mr. MacDonald, which he was perfectly sure the Acting Minister of Defense would decline to answer. Moreover, he was aware that R. H. Butts, the Conservative candidate in the forthcoming bye-election to fill the vacancy caused by Hon. D. D. MacKenzie's elevation to the Bench, had defied Hon. E. M. MacDonald to appear on a public platform in Sydney Mines.

CANADIAN BANK STATEMENT
FOR JUNE SHOWS
INCREASED BUSINESS

Ottawa, July 26.—(By Canadian Press)—The monthly bank statement issued by the Financial Department shows an increase in the business done by the banks throughout Canada in June as compared with May and also as compared with June of last year. The total assets of the banks in June were \$2,677,973,435 as compared with \$2,658,232,573 in May and \$2,653,500,379 in June, 1922. There was an increase in the bank circulation during the month but the saving deposits were slightly lower than in May though higher than in June a year ago. Current loans in Canada were lower in June than in May and also lower than in June of last year.

SUN'S INFLUENCE
CAUSES WARS**Say Scientists—Another Rea-
son Why Uncle Sam Should
Ignore The League**

M. Berthelot, of the French Academy of Sciences, has been elaborating the theory that there is a direct relation between the sun and the human nervous system. He says that human beings feel immediately the effect of every solar perturbation, and that not only is there an analogy between electric and nervous phenomena but nervous perturbation can be transmitted through space by waves akin to wireless, at a speed of a little less than 200,000 miles a second. This theory is supported by the French astronomer, Abbe Moreux, who says the periods of maximum solar activity have always coincided with the most warlike epochs of history. Thus French scientists have concluded that human psychology depends upon and is influenced by solar caprices, if caprices they can be called. This conclusion is substantiated by the investigations of Dr. Sardon, of Nice, and Dr. Faure, of Lamalou, who, working independently over a period of 267 days, discovered after comparing notes that the condition of a selected number of their patients suffering from chronic diseases varied according to the activity of the sun and the intensity of sun spots. If the sun has such an immense influence on the human nervous system that it may be responsible for inducing conditions which lead to war, the League of Nations must take its activities into calculation in the efforts to promote universal peace.

MEN IMMUNE TO
BLACK FLIES**Engaged By C.P.R. To Work
On Extension To Des
Quinzes This Season**

Montreal, July 26.—300 laborers who are immune to attacks by black flies have been recruited in New Brunswick and arrived here today. They have been specially engaged to work on the Kipawa extension of the Canadian Pacific Railway which is to reach Ville-Marie and Des-Quinzes this season. It has been found difficult so far to get men for work in this district owing to the ravages of the insect hordes there. The men left for their destination to-night.

INDIAN GIRL
SPENDING SUMMER

Toronto, July 26.—Frances Nickawa, the successor of Pauline Johnson as an exponent of her race on recital platforms, will spend the summer in the north. She is planning a canoe trip of more than 650 miles, living between times her free, untrammelled life of her people, learning a little of their language, gathering Indian legends and songs, and getting together her own life story.

Born at York Factory, the child of real bush Cree Indians, she was adopted when four years old by Mrs. Riley, a Methodist missionary in the north. The child was given a first-class education, with special attention to music and elocution. After her successful lecture tour in England Miss Nickawa hopes to repeat her triumphs in a two-year English-Australian tour.

ASTONISHING REDUCTIONS

For the Closing Days of the Holt,
Renfrew July Clearance.

Whether your requirements are for the
present or for fall wear, the following
values will prove equally interesting.

QUEBEC, JULY 27, 1923.

THE FELINE IS OUT.

The Montreal Star in a second "whisper of death" has let the feline out of the sack, has exposed the ethiopian in the wood-pile. Once disclosed, the mystery is no mystery at all. The shrewd of St. James street has been throwing the pots and pans about and sticking her tongue out at the rest of the family simply because she is not allowed to throw the national railways into the ash-can; an altogether ridiculous anti-climax.

Taking the Toronto Globe as a target, the Star works itself into a passion from a denunciation of the partisan press to a tirade on the railroad issue by way of a reiteration of the country's impending bankruptcy. En passant it is observed that this journal, whose independence is measured by a willingness to betray any party, is pre-eminently qualified to sit in judgment upon parliament and that its highly veracious scandal-mongering at the eleventh hour of the last Federal elections forever stamps it as a final authority on railroad matters.

Herewith for the amusement of those of our readers whose notice they may have escaped, we reproduce the significant passage from the Star's second spasm of delirium:

"We are willing to pay for the war. But we are not willing to imperil the very existence of the country we fought for by piling up deficits to feed a veritable devil-fish system of bankrupt railways. The Toronto Globe, in its soothing syrup article, professes to take a most encouraging view of the railway situation and looks forward cheerfully to the time when the National System will pay all operating expenses and all fixed charges due to private investors in the securities of the various lines."

"Passing for the moment the question whether this is a reasonable anticipation of 'insane optimism,' it is well to note that it is the maximum hope of this chief apologist for the Government; and it is presented as the maximum hope of Sir Henry Thornton. But it will be observed that it does not pretend to take care of the fixed charges due to the Government, i.e., to the unconsidered and already closely plucked people of Canada. It doesn't matter apparently whether they get their money or not. Yet last year these fixed charges due to the people of Canada reached the considerable figure of \$24,649,513—an increase of more than five millions over the year before."

"Thus the Globe's most reckless and certainly unjustifiable prophecy still leaves our national railways running behind nearly twenty-five millions a year. How long can the country stand that?"

"What chance, indeed, is there that even the Globe's short-change optimism will prove to be justified? In 1922, in spite of the assistance of the old Grand Trunk Railway and in spite of the close co-operation of which we heard so much, our national railways piled upon us a deficit of \$60,251,545. For the year just closed, the Government has taken a vote of \$92,220,000 to meet the deficits and other expenses. And even for next year, the vote to finance these roads, demanded by the Government from Parliament, runs over seventy-three millions. As Mr. J. L. Payne, the railway expert, has shown us, the interest charges on these deficits soon run them over a hundred millions."

"Nor are newspapers who feign to believe that Canada must be all right because her people have lots of money in the banks or in war bonds, in much better business. Do they intend to suggest that the Government can confiscate these private bank deposits and patriotic investments in war bonds to keep our bankrupt railways running?"

The Star's proposed remedy is equally delightful—that part, particularly, in which is made its profession of Conservative faith:

"No thinking man who can visualize the situation and form a fairly rational estimate of the future will for one moment believe that Canada can be saved from this impending disaster by any one of the three Federal parties as at present constituted."

"Yet neither experience nor observation has encouraged us to believe in the efficacy of a new party. Under our system, they are almost invariably failures. What must be done is to rejuvenate one or—still better—both of the two old parties."

There are three possible ways out.

"(1) A Coalition of National Safety. The getting together of the best elements in both the Conservative and the Liberal parties, and so forming a strong, determined Government."

"(2) The strengthening of the Conservative party by the admission of strong men and improvement of the leadership. We frankly confess to an especial faith in the Conservative party because of its great traditions and past achievements."

"(3) The strengthening of the Liberal party by the admission of strong men."

"The Star, however, is wedded to no particular plan. Our only purpose is to save Canada."

Well might Canada pray to be saved from such friends as the Star. The Chronicle, for its part, has never been convinced that public ownership will ever be practical or efficient in this country. At the same time we would unflinchingly rejoice over any solution of our railroad problems and have been willing that the system to which the country is definitely committed should receive an honest trial.

The Star or any other paper has every right to discuss the pros and cons of public ownership, but can surely do so without making both Canada and itself ridiculous. Panic will not help the situation and before the unloading of the C.N.R. is advocated it will be well to find out where or to whom it can be unloaded without loss of all the capital invested in it by the people of Canada thus far. Magnates with the means and the optimism to acquire a property that, on the Star's showing, is going behind at the rate of \$25,000,000 a year are not easily found; nor will its tactics commend its views to the parties who are to be either shaken together or reorganized until a combination is found that will do the bidding of a certain noble lord and his more or less noble friends.

CHINESE PROPAGANDA.

The extent to which the Oriental question is an issue in British Columbia can be gauged from the following letter received by the Chronicle from a Vancouver correspondent who signs himself M. Wham:

"As a friend of the Canadian people, firmly believing in promoting goodwill and mutual understanding between Canada and China, and urged by the

sense of duty of citizenship, I beg to call your attention to the grave consequence and future complications that will surely result from the Chinese Immigration Act, 1923.

"In my humble opinion, I would offend any one's intelligence, if I were to offer him an elaborate argument, the purpose of which would be an attempt to prove the injustice and the harmful effect consequential of the said Act.

"It suffices, therefore, for me to point out: "(1) That, historically, it is unwarrantable that the said Act (if not amended) will not imperil Canadian and British trade in the Far East. Have not the mighty Japan (Shantung restored) and the United States (Chinese Exclusion Act, 1882, modified in 1884 to appease the Chinese) paid dearly for their iniquity toward the helpless Chinese?"

"(2) That it is morally, socially, and legally wrong to exclude the wives and minor children of bona fide Chinese merchants. For establishing such a precedent, what will the decent-minded men and women of the civilized world think of Canada?"

"(3) That a Chinese immigrant 'may be arrested without a warrant,' tried, and deported, with little or no chance for redress, by an Immigration Officer—commissioner—in his exclusive 'Star-Chamber,' is unconstitutional; it is a violation of the Magna Charta and the Bill of Rights; the complement of the Great Charter of the British liberty and justice. In directly, are the Canadian people not undermining their own liberty by this Act?"

"(4) That the said Act tacitly excludes all Chinese tourists, teachers, ministers, and professional people. Without first-hand knowledge of this country by actual contact, how can one expect these intellectual classes to form a correct judgment of things Canadian?"

"Recognizing the noble tradition and sterling qualities of the Canadian people for justice and fair dealing, I am persuaded to the conclusion that their sagacity and foresight will never allow the Chinese Immigration Act to become law without due modification and reasonable amendments."

"Thanking you for your valuable space, I trust you will seriously consider this humble contribution in furtherance of Chino-British friendship."

There need be no surprise that the Chinese are endeavoring by every means in their power to defeat this measure, but we question whether they will be able to influence public opinion in Canada by such propaganda. Every country has the right to say what it will or will not be accepted as citizens and there is no doubt that the Chinese have abused the conceivable that it should ever become anything else. No doubt that British Columbia must be protected if it is to remain a white man's country—and it is inconceivable that I should ever become anything else."

PERSISTENT PREJUDICE.

In spite of the almost complete disappearance of the disease of smallpox wherever vaccine has been systematically and effectively employed as a preventive agency, an opposition to vaccination still persists that is nothing short of amazing. A generation is still living that can still recall the heavy mortality wrought by the smallpox scourge and the time when pock-marked faces, now conspicuous by their rarity, were a common sight. These are tangible, definite proofs that cannot be refuted yet are recklessly disregarded by an opposition that is born of prejudice and, like all prejudices, only because more stubborn the more it is proved to be in the wrong.

England is at present afflicted with a serious smallpox epidemic as a result of which there is an agitation to restore compulsory vaccination; such treatment having been merely permissive for some time. Support of this agitation by the London Times has brought down upon it a denunciatory letter from the woman secretary of the National Anti-Vaccination League to the Editor, who is told that "you and those who think as you do can be vaccinated every month if you choose and thus protect yourselves. Why should you wish to force us, who do not believe that matter from the sores of a diseased beast introduced direct into the blood-stream can do us any good, into submitting to a dangerous and disgusting operation?" So much for modern enlightenment.

The Times rejoins that vaccination is not pouring filth into the blood and might also have added that the operation is neither dangerous nor disgusting. The argument in favor of general vaccination, it reiterates, is manifold. "In the first place, vaccination prevents the spread of the disease. Secondly, it prevents the consequences of the disease; which are death and deformity, the throwing, very likely, of young children, whose parents die of the disease, upon public charity, and the expenditure of money on the measures of disinfection and isolation which have to be taken when an outbreak or even a single case occurs. It is an anti-social act to refuse to be vaccinated, and for the obstinacy of the recalcitrant not only the recalcitrant, but also the community has to pay. We see no reason, therefore, why vaccination should not be made, as it once was, a matter for rigorous compulsion. The community has a right to protect its pockets and its peace of mind as well as the bodies of those who compose it. The real way to suppress smallpox is not to diagnose and to treat it, but to stamp it out and prevent its recurrence by the creation of a healthy and conscientious public opinion in favor of vaccination. In the last resort, unless the health conscience of the nation is clean its continued immunity from a preventable scourge will remain, as it is at present, uncertain."

And still more remarkable! Both parties expect to win in Prince Edward Island.

Wonders will never cease! Here is a public man in Great Britain who objects to personal puffs.

Lloyd George hits Poincare and would do more to help the European situation by putting a silence on himself.

Manitoba wants cool weather. With a Farmer's Government in power we should not have expected that it would have been left to wait for anything.

Press Comment

NEED FOR CO-OPERATIVE TRADING.

(London Daily Express.)

Here is a subject that has been investigated and reported on for years, and yet we come back to the original point—namely, that the grower at one end and the consumer at the other are ineffectually squeezed by the hordes of middlemen who fatten on the people's food. It is not only freight rates that cause high prices, though they are an important factor. We are a small island, and the distances to markets are short enough for easy transport. So long as the farmers refrain from helping themselves by co-operation and direct trading, so long will they be squeezed and the public suffer.

MODERN CHURCH TOO OVERSTOCKED

With Pulpit Repertoire Pastor Tells Baptist World Alliance At Stockholm

Stockholm, July 26.—"The modern church is too often overstocked with pulpit repertoire," Dr. J. F. Love, corresponding secretary of the Foreign Mission Board of the Southern Baptist Convention, of the United States, declared today in addressing the Baptist World Alliance on the topic "The Home Churches and the Mission Boards Facing the Future."

"We are tempted to talk about too many things which we may well leave to the paragraphs of the newspapers, to the writers of cheap novels, to the politicians and the goodbox orators," the speaker continued. "Christ crucified for sinners is our message, and this spoken with plainness and passion illustrated in life and ordinance will give us secure mortgage on the future."

"Foreign mission work is the greatest task of our denomination today. The true apostolic succession is not in facing toward the apostles with history as a guide, but in facing toward a lost world with the New Testament as a chart. We shall ground our witness in a divine authority and make it effectual by making our appeal not to the historic past but to the ever-living and ever-present word, and by applying it to the needs and problems which are before us."

"The Baptists of the world today must set themselves to the task of world missions, and in this attitude and endeavor rightly relate themselves to the future or be false to the best things in their history. If we want great churches at home we must set before them great and holy tasks."

"What is the future to be faced? The future before any people is never something which comes from nowhere. It is always the lengthened shadow or gleam of the past. Today is time's conjunction with which it connects into one sentence of history our yesterdays and our tomorrows."

The world faces a future which religion has colored by its failures and its successes, its faiths and its heresies, its deeds and its doctrines. The religious questions, tasks, problems, and issues of the future have their pedigree in the religious systems, cults, and creeds of the world. The future gives Christianity, therefore, an opportunity to correct its own mistakes and benefit by the failures of other religions, and to finish its unfulfilled tasks."

"We must, therefore, in the first place, to deal effectively with the world situation which confronts us face our future with a spiritual temper, the missionary abandon, the uncalculating faith and the absolute contempt for personal hazards which have characterized the people who in the past have borne our name and by which these have subdued kingdoms and wrought righteousness."

"Again, the home churches and boards must dispatch to the foreign fields men with the missionary message and who will wield the sword of the spirit with a gallant courage. We should know this message by heart. If we do not yet know after 2,000 years exactly what the Christian missionary message is, our state is full of pity. We have no mission if we have no message."

ard which have characterized the people who in the past have borne our name and by which these have subdued kingdoms and wrought righteousness."

"Again, the home churches and boards must dispatch to the foreign fields men with the missionary message and who will wield the sword of the spirit with a gallant courage. We should know this message by heart. If we do not yet know after 2,000 years exactly what the Christian missionary message is, our state is full of pity. We have no mission if we have no message."

Sordid Argument.

Scrid is the argument that since the churches in Europe and America give money they should determine the policies of churches on the foreign field. Dr. James H. Franklin, foreign secretary of the American Baptist Foreign Mission

Society, told the Baptist World Alliance today. "They may determine their own policies or recall their missionaries, but no board in the West is wise enough to dictate to the churches of the East," he said.

Men with a message are needed as missionaries, Dr. Franklin asserted. They must be the best products of our western life, he said, as this is "no hour for small souls in the mission field."

Dr. Franklin paid tribute to the pioneers in the mission field. Today we count them among our heroes, he said, but sometimes they were heretics in the eyes of many of their own generation."

Our greatest need today is not money nor more missionaries, the speaker stated, but "the sacrificial spirit is the need of the hour and we of the West cannot impart it to others except as we may have acquired it for ourselves. Facing the future our greatest need is for more

of the spirit of the Cross of Calvary." "At such an hour as this," Dr. Franklin continued, "the Baptists of the world enjoy an extraordinary opportunity for service," and in conclusion he stated: "The denomination which can prove most surely its purpose to serve disinterestedly is the one of which, in time, it will be inquired: 'In whose name and by what power have ye done these things?'"

LESS SURPLUS WHEAT

IN ARGENTINA.

Argentina's exportable surplus of wheat on July 3 was about \$5,000,000 bushels, according to a cable received by the United States Department of Agriculture from Buenos Aires on July 13, through the Argentine Embassy at Washington. Last month the estimated Argentine surplus was about 45,000,000 according to the same authority.

HUGE CROWDS OF PILGRIMS ASSISTED AT CEREMONIES

Ten Persons Claim They Were Cured At The Shrine Of Ste. Anne De Beaupre Yesterday During The Celebrations Of The Feast Of The Great Thaumaturgist

The rugged, gaunt, crumpled ruins of the old Shrine of St. Anne, the great thaumaturgist, who is honored and venerated by thousands of faithful in all parts of the Catholic world, and particularly in French Canada, where she was adopted in the very early years of the first settlement as the patron saint of New France, when in the glimmer of torches and the flickering light of lanterns, they stood last night outlined against a gradually darkening sky, lost some of their desolate and sad significance.

As the light clouds of smoke and misty vapors, were wafted by a light breeze over the former site of the splendid Basilica which was destroyed by fire last year to the pilgrims who had gathered yesterday all day at Ste. Anne de Beaupre to celebrate the feast of the Mother of the Holy Virgin, they evoked the vision of the magnificent new temple which is soon to be erected in honor of the "Bonne Sainte Anne".

Record Crowds Present
Ste. Anne de Beaupre has often been the scene of marvelous demonstrations of faith. On many an occasion pilgrims from all parts of the continent, and even from countries across the seas, have gathered in vast multitudes in the little village on the banks of the St. Lawrence, to pray to the heavenly wonder-worker, but yesterday, they were there in larger numbers than ever.

Faith in the powers of St. Anne was amply rewarded. Many appeals for mercy, health and relief from body suffering were answered, no less than seven miraculous cures being reported during the day, and three more last night.

Thomas J. Brady, of Springfield, Mass., for many years a sufferer from a disease which had been pronounced as incurable by the doctors who had attended him, was completely relieved from his acute pains. Miss Mary Sullivan, who resides at 200 Ferry street, New Haven, Connecticut, who was paralyzed on one side, and could move along only with the assistance of a walking stick, after offering up a prayer at the foot of the statue of the Saint, was able to walk away without any help. Miss Burns, of Holyoke, Mass., who for some time had been unable to walk without crutches, was cured of a very serious nervous complaint and was able to move about quite freely after she had completed her devotion. S. Stevens, a returned soldier, a sufferer from paralysis, who resides at Motherwell, Manitoba, was also completely restored to his former state of health. John E. Hearn, of Springfield, Mass., a victim of paralysis, was also reported cured. Mrs. H. Poltras, who resides on Pelican street, Nashua, New Hampshire, and who has been a sufferer from acute rheumatism for several years, also reported that she had been cured. Leona Pelletier, a young woman, who resides at 32 Richelieu court, at Springfield, Mass., and who was suffering from partial paralysis when she arrived at Ste. Anne de Beaupre, claims she has regained her former health. A blind man, whose name is not known, is also reported to have been completely cured. The names of those reported cured last night are: Miss Mary Burke, Miss Anna Keeney and Mrs. Charles Martin, all of the United States.

Special investigations by the Redemptorist Fathers, will be conducted in every one of the alleged miraculous cures before they are admitted by them to be due to supernatural intervention. In every case a number of witnesses have testified that those persons mentioned were quite evidently in great bodily misery when they visited the shrine and that they are now apparently in good health.

The celebrations of the feast of St. Anne started on Wednesday afternoon, but the principal ceremonies took place yesterday.

At 10 a. m. standard time, a solemn high mass was celebrated in the open air by His Grace Mgr. Gagnon, bishop of Sherbrooke, who was assisted at the altar by Rev. Father Louis Rouleau and Rev. Father August Arseneault. His Eminence Cardinal Beaudry occupied the pontifical throne. Father Pinal, Provincial of the Redemptorists in Canada, and Rev. Father William Kennedy, of the Redemptorist Monastery of Boston. In addition to His Eminence the Cardinal there were many archbishops, bishops and other members of the clergy. Sir Charles Fitzpatrick, Lieutenant Governor of Quebec, and Premier Taschereau, and several other representatives of the Provincial Government present at the high mass.

At 11 a. m. His Eminence the Cardinal accompanied by the members of the clergy and followed by a large crowd of pilgrims and visitors, marched in procession to the site of the new Basilica and blessed the corner stone of the new sacred building. The corner stone bore the following inscription in Latin: "In the year of Our Lord 1923, on the 28th of July, under the sovereign pontificate of Pope Pius XI and in the reign of George V, King and Emperor, the Most Illustrious and Most Eminent Cardinal Louis-Nazaire Beaudry, Archbishop of Quebec, blessed the corner stone of the minor Basilica of Ste. Anne de Beaupre".

Blessing of the Sick
In the afternoon, after solemn Vespers had been chanted, there was a procession with the Blessed Sacrament and the blessing of the long rows of sick on each side of the road, with the Sacred Host.

The celebrations were brought to a close with a grand torch light parade.

MONTREAL-QUEBEC HIGHWAY OFFERS

Ideal Motor Trip For Americans, Says Daily Reporter Of White Plains, N.Y.

"If you have not already planned your vacation trip by motor this year we would suggest as the ideal trip Montreal and Quebec, says the White Plains, N.Y., Daily Reporter. The trip to Montreal, a distance of 78 miles, can be made easily with the first night stop-over at Glen Falls, where good hotel accommodations may be had.

Late the following day you will arrive in Montreal, which has four good hotels. We can recommend the Queen's and Windsor as two excellent hotels to spend your time while in this most interesting city. McGarr's Sight Seeing car, leaving from in front of the Windsor, is a worth while trip, while a cab ride to Mount Royal should also be taken while there.

After visiting the many points of interest in Montreal one will find the trip to Quebec the most interesting. The trip to Quebec, a distance of 160 miles, can be made easily with the first night stop-over at Glen Falls, where good hotel accommodations may be had.

A wonderful view of the St. Lawrence River, with numerous old world French villages nestling on its banks, is obtained during the whole trip.

A convenient stop half-way may be made at Three Rivers, a military and fur trading post in the early days of Canada. It is now a thriving manufacturing town. The Chateau de Blois is a comfortable and modern hotel where the tourist is assured of first class accommodations. The distance from Montreal to Three Rivers is 94 miles, and from Montreal to Quebec, 160 miles.

Upon reaching the ancient capital, the world-famous Chateau Frontenac Hotel, with its magnificent Dufferin Terrace, welcomes the motorist. The rates are moderate and there is no better stopping place in Quebec.

ROCK ON CLIFF TO BE BLOWN UP

Residents Of Cap Blanc Are Served With Notice To Vacate Houses

A short time ago one of the families living at Cap Blanc had to vacate their residences owing to the fall of a large boulder from the cliff behind the house. It has now been found that there is every danger of more rock falling down the cliff, and in order to obviate any further danger from this, the Battelle Commission in agreement with the representatives of the Lamson estate has decided to clear from the cliff, the part situated between the Ordnance Department (formerly the Ross Rifle) building and the Quebec Jail, and in order to accomplish this notice has been served on the occupants of the houses just below this part of the cliff to vacate their premises and remove their furniture from them by Monday next.

It is the intention of the Battelle Commission, although it does not assume any responsibility in the matter, to remove as much rock from this part of the cliff by blowing it up. A section of about one hundred and fifty feet in length to a considerable width and depth will be cleared in this way, and it is easy to see that considerable danger to the houses below arises from the work of clearance, which it is expected will be carried out if not on Monday, then early next week.

LOCAL BUSINESS

IS ON FAIR BASIS
Dun's Review of business conditions in Quebec City says:

Industrial plants in this section are maintaining operations on a fairly satisfactory basis. Building construction is in good volume, with prospects for continued activity. Crop conditions, while not up to expectations at present, are reported to be improving rapidly. Collections are fair only.

GOSPEL ADDRESS.

Mr. A. H. Stewart, of Toronto, the well known Evangelist, will speak at the Y.M.C.A., Friday evening, at 8.00 p.m. Come and bring a friend. No collection.

rade organized by the Zouaves of Quebec.

While the religious ceremonies during the day were most stirring and must have left in the minds of the 35,000 or more people who witnessed them an impression which will last for many years to come, the final act, the parade was a most spectacular one and a fitting termination of a wondrous demonstration of religion and faith.

U.S. TROUBLES IN PHILIPPINES ARE DINED HERE BY KIWANIAN

Governor Woods' Administration A Failure Owing To Lack Of Definite Policy

New York, July 26.—The Journal of Commerce says:

Apparently the administration of General Wood in the Philippines is coming under much the same sort of criticism and complaint that was characteristic of the situation in Porto Rico under Governor Reily some time ago. The Philippine "Cabinet" has now resigned and there are plans for appeals to President Harding. Many dispatches report that a special delegation will start for Washington in the near future to lay before the Executive the views of the native party leaders.

As for the present episode it ought to be easily enough settled. Both sides assert their willingness to abide by the laws of Congress regarding the selection of officials. If then a fair and impartial interpretation can be given it should suffice to settle the issue. But that would be to neglect the underlying causes of the friction. These do not grow out of any temporary or immediate dispute over the personnel of given branches of the Government, but out of the general policy to be pursued toward the Philippines. During the last administration the plan of giving the native inhabitants their own way and of permitting them to do practically as they pleased was accepted. Under the present regime there has, of course, been assurance that the administration intends to abide by the constitution but it is not clear that the two laws of our insular government system, but it has been plain from the start that there was a disposition to exert a much closer control over affairs in Manila. This the inhabitants do not like. If the present ground of offense had not been found some other would have presented itself very shortly.

The real state of the uncertainty and indefinite policy we have always pursued toward the Philippine Islands. We ought to take up our minds what we intend actually to do there and then adhere to the decision whatever it may be. The administration of General Wood, according to all accounts, has been neither the exhibition of statesmanship that it is represented by political admirers nor is it the inept and inefficient sort of management that has prevailed for two years past in Porto Rico. Obviously it has not resulted in keeping matters on a stable basis.

In the course of a short speech Mr. Hall said in part that every year during the period of grain shipments from the west the C.P.R. lines became overloaded with traffic. It was a matter of hauling nearly 400,000,000 bushels of wheat in a very limited time, as all had to be transported to the exporting points before the close of navigation.

He said that under present conditions there were certain of the company's lines which were overcrowded at harvest time because the exporting companies shipped almost all the grain to two or three different places. If they would spread their shipments over several of the company's lines and give Quebec its just share, the company would be better off, as it would relieve congestion between Winnipeg and Fort William.

Turning to the question of automobile traffic, which takes considerable revenue from the railways, Mr. Hall said he was not opposed to automobile travel. In 1921, he said, 18,000 American tourists came to the Province of Quebec in automobiles. Last year there were 50,000 and this year it is expected that more than 125,000 American tourists will visit this Province. That was the only legitimate competition with the railways, he said, but where the competition became unjust was when autobus lines sprang up in almost every locality. These autobuses only operated during the summer season. The railways had to stand the losses of the winter season, while their competitors lost nothing as the autobuses were in garage for the whole winter.

J. J. Royer, President of the J. B. Renaud firm, while not complaining of the service of the C.P.R. in Quebec, asked if it would not be possible that the company make Quebec the terminal port for a certain number of its vessels. He held that the C.P.R. could make Quebec the most prosperous city in the Dominion if it only gave this city its just share.

Ald. D. McTier, in a short speech, paid a tribute to the three "service clubs," the Kiwanis, the Rotary and the Lions' Club, which accomplish so much good from every point of view. In his closing remarks he urged Quebecers to conserve for Quebec its historic aspect.

F. L. Wanklyn spoke in both languages. His dwell upon the marvelous possibilities of development which this country offered. Canadians should have faith in their country. They should convince themselves that it was the most fertile country in the world and the one which offered the best opportunities of fortune. Why desert and go over to the United States, he asked. Why purchase imported goods. Canadians had all they required at home. No country in the world afforded greater liberty than Canada. Canada was the most important country in the world as regarded water power and paper production.

Speeches were also delivered by Ald. J. A. Lesage, representing Mayor Samson, J. Leonard Appelle, Hector Collet, J. Clifford Huot, E. G. Tanguay and Septimus Barrow.

PROPOSED REGULATION OF NEW YORK STOCK EXCHANGE

Legislation proposing drastic regulation of New York Stock Exchange and similar organizations will be introduced at next session of the Legislature, says Chairman Downing of the Senate Finance Committee. Proposed legislation would place stock exchange and brokers under control of state bankers department, brokers to be licensed by the department and licenses revocable for cause. It is probable a clause will be introduced which will make it necessary for all stock issues to be investigated by the state before they can be offered.

FARMERS' GRAIN CO. TO TRADE ON EXCHANGE

Omaha, Neb., July 26.—The board of directors of the Omaha Grain Exchange today voted to admit to membership on the exchange the Farmers' Grain Company, organized by the Farmers' Union.

Gerard Power Announces That Quebec Will Have Cold Storage Plant

RAILWAYMEN SPEAK

Delegations Of Rotary And Lions Clubs Also Guests For Occasion

Grant Hall, Vice-President of the Canadian Pacific Railway, A. D. McTier, Vice President of the Eastern Lines and F. L. Wanklyn, Assistant to the Executive, of the same company, were the guests of honor of the Kiwanis Club at a dinner which was held at the Chateau Frontenac last night. There were also delegations of the Rotary and Lions Clubs present.

In the absence of Arthur Dery, President of the Club, the dinner was presided over by Septimus Barrow, the Vice-President.

There were in all eleven speeches delivered at the dinner and among the outstanding statements made was one by Mr. Hall, who said that if the grain shippers directed their exports to a number of ports instead of limiting them to two or three places, Quebec would get its just share and the C.P.R. would be better satisfied as it would help to relieve congestion during the period of grain shipments on its line between Winnipeg and Fort William.

Gerard Power, President of the Quebec Harbour Commission, announced that it was no longer certain that Quebec will have a modern cold storage plant, and this would enable Quebec to give any ocean vessel a complete cargo. As a result of this, he said, trans-Atlantic Navigation Companies could with advantage make the port of Quebec their terminal.

In the course of a short speech Mr. Hall said in part that every year during the period of grain shipments from the west the C.P.R. lines became overloaded with traffic. It was a matter of hauling nearly 400,000,000 bushels of wheat in a very limited time, as all had to be transported to the exporting points before the close of navigation.

He said that under present conditions there were certain of the company's lines which were overcrowded at harvest time because the exporting companies shipped almost all the grain to two or three different places. If they would spread their shipments over several of the company's lines and give Quebec its just share, the company would be better off, as it would relieve congestion between Winnipeg and Fort William.

Turning to the question of automobile traffic, which takes considerable revenue from the railways, Mr. Hall said he was not opposed to automobile travel. In 1921, he said, 18,000 American tourists came to the Province of Quebec in automobiles. Last year there were 50,000 and this year it is expected that more than 125,000 American tourists will visit this Province. That was the only legitimate competition with the railways, he said, but where the competition became unjust was when autobus lines sprang up in almost every locality. These autobuses only operated during the summer season. The railways had to stand the losses of the winter season, while their competitors lost nothing as the autobuses were in garage for the whole winter.

J. J. Royer, President of the J. B. Renaud firm, while not complaining of the service of the C.P.R. in Quebec, asked if it would not be possible that the company make Quebec the terminal port for a certain number of its vessels. He held that the C.P.R. could make Quebec the most prosperous city in the Dominion if it only gave this city its just share.

Ald. D. McTier, in a short speech, paid a tribute to the three "service clubs," the Kiwanis, the Rotary and the Lions' Club, which accomplish so much good from every point of view. In his closing remarks he urged Quebecers to conserve for Quebec its historic aspect.

F. L. Wanklyn spoke in both languages. His dwell upon the marvelous possibilities of development which this country offered. Canadians should have faith in their country. They should convince themselves that it was the most fertile country in the world and the one which offered the best opportunities of fortune. Why desert and go over to the United States, he asked. Why purchase imported goods. Canadians had all they required at home. No country in the world afforded greater liberty than Canada. Canada was the most important country in the world as regarded water power and paper production.

Speeches were also delivered by Ald. J. A. Lesage, representing Mayor Samson, J. Leonard Appelle, Hector Collet, J. Clifford Huot, E. G. Tanguay and Septimus Barrow.

REORGANIZE FINANCERS

Guatemala City, July 26.—The Guatemalan Government has contracted with Enrique Martinez Bonal, a Guatemalan financier residing in Mexico, to come to Guatemala and reorganize the finance of the country under the authority of the Government.

A Government decree has been issued which compels banks to submit to strict control in order to prevent speculation.

FARMERS' GRAIN CO. TO TRADE ON EXCHANGE

Omaha, Neb., July 26.—The board of directors of the Omaha Grain Exchange today voted to admit to membership on the exchange the Farmers' Grain Company, organized by the Farmers' Union.

DR. MULLINS ELECTED HEAD OF BAPTISTS WORLD ALLIANCE.

Stockholm, July 26.—Dr. E. Y. Mullins of Louisville, Ky., was unanimously elected today president of the Baptist World Alliance by the third congress of the alliance in session here.

8. Poisson—A Musical Switch.....Alford
O Canada.....God Save the King
Conductor: Capt. Chas. O'Neill, Director of Music, Royal 22nd Regt.

MAYOR OF THREE RIVERS MAY RESIGN OFFICE.

Three Rivers, July 26.—Hon. Dr. Normand is credited with the intention of resigning as Mayor, owing to the recent election when Mr. F. X. Michelin, who opposed his administration headed the poll.

Most of those who keep up a front bring up the rear when the cash on hand is counted.

QUEBEC, THE GIBRALTAR OF AMERICA SOUVENIR ALBUM

Our distinguished visitors are respectfully invited not to leave our old city without having a copy of the above mentioned Souvenir Album, which is considered the best and the most complete, regarding the size, number of pages, the neatness and the historical descriptions given of the views make it most valuable. Sold in the principal stores and at Ant. Langlois, 24 Mountain Hill.

Important Property Sale by Public Auction

Wednesday, August 1st, at 11.30 A.M., by

O. MARCEAU

The superb country residence of the late R. R. Marchant, situated on the north side of St. Louis road, one-quarter of a mile from the cross road to St. Foy and half a mile east of the Quebec Bridge, comprising a piece of land one acre by two acres, with an excellent house on good concrete foundations, hot water heating system and interior very well finished and decorated.

Fine modern hen-coop, with a capacity for 2,000 fowl, barn, stable and garage, waterworks system, spacious garden with many fruit and shade trees.

In a word this property is situated on a charming site with a splendid view. It is a unique opportunity to secure a country residence at a very low price and at very advantageous terms.

The sale will take place at the office of C. Delagrave, Notary Public, Lindsay Building, 201 St. John street, at 11.30 a.m., Wednesday, August 1st, 1923.

The property may be visited every day from 10 a.m. to 6 p.m. For further information apply to C. Delagrave, N.P., or to the undersigned auctioneer.

O. MARCEAU, Auctioneer.

MISS LILLY O'NEILL WAS LAID TO REST.

The funeral of Miss Lilly O'Neill, who passed away last Monday after a short illness, was held yesterday morning and was attended by a large number of mourners, testifying the esteem in which she was held as the sympathy which is extended to her sorrowing family. The chief mourners were her father, Mr. Patrick O'Neill; her brother, Mr. James G. O'Neill; her brothers-in-law, Mr. Patrick Redmond and J. P. Barclay, of Winchester, Ont.; her uncles, Mr. Richard Canty, of Quebec, and James Monahan, of Berlin, N.H.; her cousin, Mr. W. McGee, of Littleton, N.H., and Mr. W. E. Aubin, of this city. Her aunt, Mrs. Joseph Monahan, of Mount Carrigan, N.H., was at the cemetery for the interment. The pall-bearers were Messrs. Matthew Redmond, William Hawkins, J. H. Hamel, L. J. McDermott, J. O'Reilly and L. Chollet. At St. Patrick's Church, McMahon street, a solemn requiem service was chanted. The celebrant was Rev. Father O'Hara, assisted by Rev. Fathers Howard and Kennedy, as deacon and sub-deacon respectively. During the service soloes were feelingly rendered by Miss Mary McHugh and Mr. Wm. O'Reilly. A profusion of beautiful floral tributes and spiritual bouquets further testified the sympathy of condoling friends. Mr. Alex. Bastien, proprietor of the firm of Alex. Bastien, furrier, where Miss O'Neill had been employed, and Mr. Patrick, the manager of the firm, were amongst the mourners at the funeral. The interment took place in St. Patrick's Cemetery.

ZAM-BUK

CRUIQUI LOST FEATHERWEIGHT CROWN TO DUNDEE

DUNDEE WON FEATHERWEIGHT BOXING CROWN FROM CRUIQUI IN SLASHING 15 ROUND BOUT

Challenger Took Every Round And Scored Three Knockdowns In The First Two Sessions—Champion Fought Back When He Had Scarce Strength To Stand

Radio Grounds, New York, July 26.—The featherweight championship of the world, in French hands for more than two months, came back to the United States tonight when Johnny Dundee, grizzled Italian-American veteran, battered his way to victory over Eugene Criqui, gallant ex-politico, in a grueling fifteen-round struggle that was never in doubt from start to finish.

Dundee, rising to the greatest heights of his long and embattled career, won decisively all the way but only in the face of a game and courageous stand that will go down among the most thrilling prize fights in history. The judges' decision, naming Dundee as the new titleholder, was drowned in a wild roar of cheering, but in defeat the little Frenchman was accorded an ovation that rang out above even that of the victor.

Criqui's was a hopeless battle from the first round. Dundee hit Criqui with every blow in his repertoire and from every angle. He dealt terrific punishment to the Frenchman's ribs and close quarters. He swung at the little head with rights and lefts in rapid-fire succession but they failed to bring him down except in the first two rounds. The Italian countered to all his famous tactics by bouncing off the ropes and jumping at his opponent's jaw from various angles. But Criqui refused to be led into danger by these tricks and covered up when Dundee started his acrobatic tactics.

The paid attendance was announced as \$2,420 and the total receipts as \$13,415.

FIGHT BY ROUNDS:
Round One—They met in the center of the ring and started inching. Criqui landed right to body. Dundee landed a first real blow, a long left to the head. They kept exchanging body blows in clinches but neither was doing much damage. Dundee landed two hard lefts to the head. Dundee sent a solid left sock to the jaw and Criqui countered with the same hand to the body and punishing the champion severely. Dundee was cracking away when the bell stopped him.

Round Two—Criqui came out a little bit unsteady and fell into a clinch. He hooked a left to Dundee and the challenger leaned back and swung hard lefts to the head making the Frenchman waver on his feet. Dundee had the crowd in the wildest uproar hooking hard lefts to the head but the Frenchman stood his ground and sent back two lefts. Dundee sent Criqui to the floor for a count of seven.

The Frenchman came up and went at his man but Dundee applied him with another and Criqui took the count of nine. Dundee laid back for a knockout punching Criqui severely. Although he was wavering Criqui fought back taking left after left and clinching when his blows failed to land. They were sparring lightly in the center when the round ended.

Round Three—Criqui looked good enough as he sat in his corner listening to counsel of his handlers. Dundee punched his body in the first attack and then landed left. Dundee repeated with his left and forced his right solidly. Criqui came in for more punishment, punching wildly with the left while Dundee was always advancing. Dundee was much too fast for the Frenchman, easily evading his futile attempts and punching accurately with both hands. Dundee fell back to his old trick of bouncing off the ropes but it netted him nothing except for laughs from the crowd. Dundee repeated his trick twice, both times sending a repeating left into the Frenchman's ribs. He was starting the trick again when the bell ended the round.

Round Four—Criqui started the attack, but he was either short or over and a series of clinches resulted. Dundee was a little slower and they sparred more but when he chose to whip his left it came out savagely. The challenger dodged a half dozen leads and aside from an occasional left jab he kept on the defensive. Then Dundee started bouncing off the ropes, advancing across the ring. Criqui struck at the flying target but it was no use. They were in a slight clinch when the bell rang.

Round Five—Criqui spat up blood while his handlers worked feverishly. Dundee was not even fanned. Johnny landed half a dozen lefts and they fell into a wrestling clinch. Criqui landed a wide right but was too wide with his next left. Dundee punched the champion's kidneys and they clinched and slashed over three stiff lefts. Criqui poked his left to Johnny's head. The pace had slowed down but still Criqui could not solve his opponent. He was warned for hitting on the break-away. Dundee began chopping uppercuts when the gong sounded.

Round Six—They came together fighting. Criqui taking the lead Dundee baited too to toe and his left had the better of it. Dundee was puzzled by Criqui's maneuvering but occasionally he slipped over that pop-gun left. They exchanged punches but there was not much to choose from. Criqui was getting the better of inching. They were sparring at the round.

Round Seven—Dundee came out furiously, landing his left so rapidly it was impossible to count the blows. The crowd boomed the Frenchman for hitting low in a clinch. Dundee kept whipping over his left like a piston-thrower. Dundee made several slashing attacks with his left but Criqui only kept crowding him. They were in a clinch at the bell.

A CANADIAN QUOTATION
High hills with hemlock temples crowned
And meadows wide between;
A crystal stream that seeks the lake
And marks its course with green.

A power of earth with elements
Where of I sit flowers—the marguerite
To see fair flowers—the marguerite

And black-eyed Susan's smile.
While overhead majestic clouds
Float slowly on their way;
These make the Summer fairland,
Where happy lovers stray.
—James L. Hughes in "Summer's Fairland."

ANOTHER WIN FOR C.N.R. ELEVEN

Defeated Empress Of Britain By Score Of 2-1 In League Match

The C.N.R. football eleven scored its fifth victory of the season last night by defeating the Empress of Britain outfit by a score of 2-1 in a Quebec City and District Association Football League game at the Quebec Baseball Park.

The match though not as fast as the majority of contests played this season was nevertheless closely contested and the result was in doubt until McQueen tallied the winning counter with three minutes to play in the second half.

The Sallores were the first to score, Whitehead kicking the ball behind Jordan after twenty-five minutes of strenuous play in the first half. This lead was not held for long, however, as the Railways men commenced to force matters and their efforts were finally rewarded when Bolton booted the ball into the Empress net for the tying counter.

Both elevens exerted their best efforts in the second half in an effort to take the lead and the ball was kept travelling from one end of the field to the other, through some pretty combination work on the part of both teams.

Finally McQueen broke away and dribbled the ball past the Empress right full-back and rushing right in on Povey, landed the ball in the corner of the net, for the winning goal of the match, with three minutes to play. The game almost repeated the first about a minute later but the ball took a bad bound just as he was about to kick, with only the goalkeeper to beat.

The game was refereed in fine style by Bob Morton.

The teams lined up as follows:
C.N.R.—Goal, Jordan; halves, Arnold and Rose (Capt.); halves, Pont, Warner and Taylor; forwards, Theobald, Bolton, McQueen, Rob- ert and Jones. Reserves, Frizze, Reid and Vernon.

Empress of Britain—Goal, Povey; backs, Tydesley and Davis; halves, Whitehead, S. Wills and R. Wills; forwards, McLellan, Sinclair, Smith Feast and Moseedale.

MORALITY SQUAD

BUYING RACING SHEETS

IN GOOD TORONTO
Toronto, July 26.—Acting under the instructions of the Crown Attorney and Inspector McKinley of the Morality Department a simultaneous purchase of different racing sheets was made by plain clothesmen all over the city today. The boys selling them were closely questioned as to the names and addresses of their respective employers, these names together with the sheets being handed in to the Morality Department. The summonses will be served at once. Asked what form these summonses would take Inspector McKinley replied that they would come as a considerable shock to the various vendors.

JAPANESE TOOK FIRST HONORS

Crocker And Rennie Were Defeated In Davis Cup Matches Yesterday

Montreal, July 26.—Japan took first honors in the Japo-Canadian Davis Cup tennis matches here yesterday afternoon when her representatives Zeno Shimizu and Masamune Kikukawa defeated Willard Crocker and Leroy Rennie in two singles matches. Shimizu defeated Crocker 3-6, 9-7, 6-1, 8-1, while Fukuda played brilliantly, easily took three sets straight from Rennie 6-2, 6-1, 6-0.

The feature of the afternoon's play which keenly excited the twelve hundred spectators was the remarkable fight put up by the youthful McGill University star, Crocker, against the tennis intelligence and craft of the veteran Shimizu. During the opening set of the match Crocker's ability to cover the court with his dashing net play served him in good stead. He smashed for points and was able to make some remarkable recoveries of Shimizu's placements. But his youthful vigor was not equal to the grueling ten sets and in the second set he tired rapidly losing a good many points on out and in.

He forced his opponent to sixteen games, however, his fatigue was even more obvious in the third set which he lost 6-1. Shimizu appeared to have solved the Canadian's net play with tricky lobs many of which were returned from the half-court into the net.

A brief rest did marvels for Crocker. He came back in the fourth set full of fight and for a time was able to worry his opponent with a fiery attack. Shimizu, however, played with greater vigor and accuracy at this time than during any part of the match and pulled it out 8-6.

Masamune Kikukawa found little difficulty in defeating Leroy Rennie, of Toronto, Canadian singles champion. Both young players gave evidence of nervousness during their match. Fukuda played with dash and vigor and was continually on the offensive. He kept Rennie in the back of the court with savage forehand drives and frequently went to the net to smash.

Crocker In Doubts.

Willard Crocker and Jack Wright Canadian doubles tennis champions will represent Canada against Zeno Shimizu and Seichiro Kashi of Japan in the Davis cup doubles matches here tomorrow.

Captain C. H. Meldrum of the Canada team substituted Crocker for A. S. Milne of Vancouver after a conference here tonight.

WITH THE GOLFERS
AT THE NINETEENTH
(By C. Meredith)
Play for the "Welsh" Junior Trophy will take place on the Montmorency links on Saturday afternoon by the Quebec Golf Club. The competition is open to all players with a handicap of 22 and under. The draw will be made from the entry list. Play for the Hamilton Cup will be continued also on Saturday afternoon.

The Orleans Golf Club will this week-end hold the monthly competition for the Dunn Cup, which is played for under medal handicap rules.

The first of the annual inter-club matches to be played this season between the Orleans and Loretteville golf clubs will be held on the links of the former on Saturday August 4th. This date was arranged yesterday by the representatives of both clubs. On Wednesday next the Orleans Club will have a visit from the Quebec Golf Club.

The Loretteville Golf Club will this week-end continue its series of competitions for the Alain Cup.

Frank Lock, Quebec Golf Club professional, leaves today for Toronto, to compete in the Canadian Golf Professional Championship to be held over the Summit Golf Club course on July 28. Following this he will be a competitor in the Canadian Open Championship, which will be played on the Lakeview Golf and Country Club links, August 3rd and 4th. Notwithstanding that through a recent accident Frank was confined to his house for nearly two weeks, he has during the past few days been making some excellent scores on the Montmorency links which will be pleasing news to his many friends whose good wishes he will carry with him for his success in these two championship events.

The great American tragedian, James K. Hackett, a few days ago was starting a tour of golf on the links at Fontainebleau, France. Having tied up he took a mighty swing nuzzled the ball altogether and fell over from the force of the blow. Friends thought it was comedy. But when Hackett didn't get up, they found it was a tragedy. He had broken his arm.

The Hampstead Golf Club, Montreal, was officially opened yesterday afternoon, when James Ballie, president, drove the first ball and a fine shot it was too, though Mr. Ballie had never had a club in his hands before. The four ball exhibition match between the four professionals, Albert Murray, of the Country Club, Alex Ayton, of Benneville, Frank Grant of Whitlock, and R. Cunningham of Hampstead had to be stopped at the end of the ninth hole because of the heavy rain, but the large gallery of 150 who followed the match, were amply rewarded. Albert Murray had the best score for the nine holes. The four players were presented with gifts at the end of the match.

DUBE EXPECTS TO TURN THE TABLES

Lewiston Battler Confident He Can Defeat Newton In Return Bout Monday

If Kid Dube, the Lewiston, Me. pugilist, fails to make matters all square with Chris Newton of Toronto in their return bout over the fifteen-round route at the Falls Monday night, it will not be on account of lack of condition or determination. Dube went into earnest training two days after he lost a sensational decision to Newton on the 15th of this month, and has kept at it daily so that now he is going better than at any previous time in his career. The "Kid" is determined to turn the tables on the Torontonians this time and the many fans who have seen him working out during his past week are of the opinion that the Franco-American will score a decisive victory this time, which will more than make up for the defeat he suffered at the hands of Newton in the first meeting.

Dube and Newton put up a great battle for ten rounds at the Falls on the 15th, though Newton had the better of the argument, the Torontonians using a left jab continually which played havoc with the American. However, Dube now claims that he has solved a way to break the jabbing antics of Newton and that the Queen City battler will have to fight a different style, to stay the limit.

The first meeting between these boys was a hummer throughout the ten rounds and if their scrap Monday night, which is over the fifteen-round route, is anything like the initial one, there will be no kick coming from anybody.

The semi-final of the evening which will bring together Joe Williams of this city and Sammy Pierce of Montreal, in a ten-round encounter should also be worth going to see. The ability of the local lad is well-known while Pierce is also a well-known here as he has appeared in a local ring on a couple of occasions and always gave a good account of himself.

Two preliminaries over the six-round route will also be on the program.

Art should never try to be popular.—Oscar Wilde.

Sporting Notes.

Babe Dye, star forward of the Toronto pro. hockey team and hard-hitting outfielder of the Buffalo International Baseball Club, may give up the winter pastime. Dye is slated for a trial with the New York Yankees next spring and if he makes good will abandon hockey because of the chance of injury in the winter and possible elimination from a remunerative baseball career. The Babe is one of the leading goal scorers in hockey.

An open challenge to pit Morvich, champion two-year-old of 1921 and Kentucky Derby winner of 1922, against any horse in the world in a sprint of three-quarters of a mile, was issued by Benjamin Block, owner of the horse, after Morvich had been timed in 1:12 4-5 in a trial workout at Empire City recently. Block plans to race Morvich at Saratoga in the \$25,000 Washington Handicap at Laurel in October in several other autumn stakes.

Art. Nehf, star southpaw pitcher of the world-champion Giants, is one of the best piano players on the big league circuit. Nehf, his team-mates declare, nearly became a church organist, according to his mother's wish.

The Quebec Kennel Club has acquired the services of Mr. Robert A. Ross of Ville St. Pierre, P.Q., as judge for the annual Dog Show which will be held here on October 3 and 4. Mr. Ross is well-known in Canada and the U.S. as an expert judge of dogs of all breeds.

Cy. Williams of the Philadelphia Nationals, closed his 24th, and 25th, home runs of the season in yesterday's contest with St. Louis. This puts him two ahead of Babe Ruth of the Yankees.

Babe Ruth swung so hard at the first ball pitched him by Harris in the first inning of the Philadelphia-New York American League game yesterday that he sprained his neck and was forced to leave the game.

Johnny Dundee, at last, realized his ambition of winning the world's featherweight boxing crown. Dundee tried mightily hard to get a crack at Kilbane while the latter held the title but he was always left in the background and had to wait until Criqui captured the crown before he was given his chance.

Defender Of George Cup Finished 460 Yards Ahead Of Chirya

Watertown, N.Y. July 26—The Huskie, flying the colors of the Crescent Yacht Club of this city, defender of the George Cup, today showed her heels to the other four yachts contesting for the cup on Chaumont Bay, crossing the finish line 460 yards ahead of the Chirya, of the Kingston Yacht Club. The Riwana, of the Toronto Canoe Club which won the first event yesterday was 200 yards astern of the Chirya. The Nayada, of the Royal Canadian Yacht Club which finished second yesterday was fourth, one mile astern and the Latonka, of the Oswego Yacht Club, was a quarter mile further in the rear.

A BRITISH VIEW.
Writing in the National Review John Pollock says:

"Not to pay reparations and to smash France: these are the two dominant ideas inspiring the governing classes of Germany." The London Daily Mail entirely agrees with this view and makes the sailing of the first of the new German liners built since the war, the Albert Ballin, from Hamburg for New York, the text for a slashing attack on Germany and her competition with the British shipping trade. The Albert Ballin, "represents the latest ideas in engineering and comfort," and will soon be followed by "equally large and equally magnificent liner, constructed for the North German Lloyd." The Mail makes this biting comment: "Germany, who has no money for reparations, who will not pay for our steamers which she sank so traitorously with her U-boats during the war, has ample funds for attacking our shipping trade on the Northern Atlantic and building the most oceanic and luxurious ships for herself."

Let no one underestimate the character of the competition to which henceforth our British liners will increasingly be subjected. While our industries have to bear the full and fearful burden of the war, Germany, by trickery and fraud, has shifted that burden of the most Atlantic and building the most oceanic and luxurious ships for herself."

It will be a renewal of the recent battle at Brooklyn between Evans and Sweetzer, the Yale student having won his title in that tilt from Evans 3 to 2. Sweetzer outplayed Evans during the medals rounds of the present meet, but in the match play thus far the Chicagoan has been playing better golf than his youthful opponent.

Sweetzer won his way to the semi-finals today by defeating his school-mate, Dexter Cummings, of Chicago, inter-collegiate champion, four and three, after Cummings had tried with a brilliant 34 of the third nine to overcome a lead of five up obtained by the National champion in the first round.

Evans met a surprise in his rounds today, having to extend himself to better than par this forenoon to three up to Fred Lamprecht of Cleveland, but the young player broke toward the setting of the sun and Evans sauntered home with a six and four victory.

Never mind the critics. The engine's knock is always loudest when the car is climbing a hill.

RAWLAND'S RINK
WAS DEFEATED

Crew Skipped By Bradbury Won Lawn Bowling Match By 15-11 Score

An exciting lawn bowling match was played at the Quebec Lawn Bowling Club last evening between a rink skipped by J. A. Rawland and a quartette led by J. F. Bradbury, which resulted in a win for the latter rink by a majority of four shots the final score being 15-11.

The match which was over the sixteen end route, was closely contested and exciting throughout and was only won in the last three ends. Rawland's quartette went into the lead at the outset and maintained it until the thirteenth when Bradbury's crew came from behind and evaded the score at thirteen. His rink then went into the lead and at the end of the sixteenth round was leading by four points.

The rinks:—
P. P. Conway F. Glass
G. Moir T. D. Beattie
J. A. Shields R. S. Murphy
J. T. Bradbury A. Rawland
Skip—15 Skip—11.

SEMI-FINALS OF
GOLF TOURNEY

Evans, Sweetzer, Gardner And Wells Remain To Decide Western Title

Cleveland, July 26—Chick Evans, of Chicago, defending champion, will meet Jess Sweetzer of New York, National Champion and Hamilton Gardner, of Buffalo, will play Joe Wells of East Liverpool, Ohio, formerly West Virginia, and Ohio champion in the semi-finals of the western golf championship tomorrow at Mayfield Country Club as a result of today's rounds.

It will be a renewal of the recent battle at Brooklyn between Evans and Sweetzer, the Yale student having won his title in that tilt from Evans 3 to 2. Sweetzer outplayed Evans during the medals rounds of the present meet, but in the match play thus far the Chicagoan has been playing better golf than his youthful opponent.

Sweetzer won his way to the semi-finals today by defeating his school-mate, Dexter Cummings, of Chicago, inter-collegiate champion, four and three, after Cummings had tried with a brilliant 34 of the third nine to overcome a lead of five up obtained by the National champion in the first round.

Evans met a surprise in his rounds today, having to extend himself to better than par this forenoon to three up to Fred Lamprecht of Cleveland, but the young player broke toward the setting of the sun and Evans sauntered home with a six and four victory.

Never mind the critics. The engine's knock is always loudest when the car is climbing a hill.

TEST CASE FOR
THE RACING FORM

Effort To Be Made To Secure Admission To Canada Of Racing Paper

Ottawa, July 26—In an effort to secure the admission to Canada of the daily racing form, published in New York and Buffalo, the managing editor of the form, Paul G. Jeans, of New York has made arrangements for a test case. The daily racing form has been revised to suit the requirements of the new Ontario statute forbidding the publication of racing information. Mr. Jeans has a copy revised "form" and Inspector McLaughlin is to be told that the copy will be on sale at the certain local news stand. When the Inspector arrives the copy will be sold to him and Mr. Jeans will make a test case of the sale.

INTERNATIONAL YEAR

IS DESIGNATION
Toronto, July 26—"International Year" is the 1923 designation of the Canadian National Exhibition. Definite word has been received by John G. Kent, managing director, that the famous Leander Boat Club, Henley-on-Thames, will send a crew to compete at the two day Exhibition regatta on Aug. 29 and 30, the first occasion on which a British crew has ever visited Canada.

Another cable received by Mr. Kent conveyed the information that the official French exhibit has been arranged. Mr. Balbaud, an official of the French department of exterior trade will sail in charge of the exhibit this month.

Mr. Cesar Barranco, Consul-General for Cuba in Canada has left for Cuba to complete details in connection with the exhibit from his country. It is expected that at least four members of the Municipal Council of Havana will make the trip on the warship which the Government will send along. They will be accompanied by the Havana civic band and a marine band, at the invitation of the mayor of Toronto.

The representative of the Mexican Government railways has left for Mexico to arrange the big exhibit from that country, and the transportation of the President's band. A representative of the British Federation of Industries is already on the ground superintending the preparations for the Made-in-Britain display, and exhibits will be sent from Czech-Slovakia.

UNMARRIED WOMEN
SHOULD EARN

THEIR OWN LIVING.
New York, July 26—Miss Margaret Wilson, daughter of the former President of the United States, believes that every unmarried woman should earn her own living, as a duty to herself. Miss Wilson has entered the business world, joining an advertising agency.

"I believe," she says in an interview in Editor & Publisher, "that of all the professions open to women the greatest field is offered by advertising." She says that her father is thoroughly in sympathy with her new venture.

It is easier to prevent bad habits than to break them.

Canada Faces the Future
With Confidence

CANADIANS have always been noted for courage, optimism and faith in their country.

Canada was not built up by pessimism, nor will Canada continue to develop if her people allow themselves to become croakers and groaners. Canada is fundamentally an agricultural country. We have a soil and climate which can grow the world's finest agricultural products.

Canadian farmers who have earned the capital invested in their farms out of profits in farming are numbered in thousands. These successful farmers have paid off their mortgages, stocked their barns and stables, bought their machinery, made a good living, and brought up their families. It meant hard work, but today they are independent.

Money
is Mixed
Farming

In recent years, at different points on the prairies, oats fed to steers have brought from 70c to \$1.07 as against the Fort William price of 42c per bushel, while barley used for the same purpose has brought as high as 97c against Fort William price of 57c per bushel. Farmers marketing their coarse grains in this way lower marketing cost, have a sure market and make money on their grain, while at the same time they market their roughage, otherwise often wasted.

The cattle embargo is now off. Steers are worth more money and certain to make good money for the Canadian farmer from now on.

Money in Pigs
The Dominion Experimental Farms have proved by actual test that there is a profit in feeding pigs. Last year at the Central Farm, Ottawa, after paying

for feed, labor, interest and depreciation, the net profit per pig was still \$4.63.

Profits from Sheep

As money-makers, sheep are hard to beat. In every Province from Prince Edward Island to British Columbia are found many flocks returning generous profits to their owners.

We Must Cut
Production Costs

Canada is meeting with the keenest competition in the marketing of her products. To hold her own and retain her place on the world's market, she must reduce cost of production.

The only way to do this is to increase production per acre, per cow or per other unit.

But improved quality, also, is essential to meet market demands.

The quantity and the quality of the products and the cost of production in competitive countries is beyond our control. Prices of agricultural products are regulated by world supply and demand.

Hence, decreasing production will not help the Canadian farmer.

Poultry Pays

Poultry makes money for those who adopt modern methods, whether East or West. Little Prince Edward Island markets co-operatively in carlots, shipping annually upwards of one million dozen eggs. The British Columbia Co-operative Poultry Men's Exchange markets in the same way, thus saving ruinous glut in their local market.

Grow Seed

Canada's Northern grown seed possesses extra vitality. There is a large market for it to the south. Canada exports seed potatoes, but imports other seeds. She has the opportunity to grow seed for herself and for export.

The Future

Ten years from now the pessimists of today will have been forgotten. Britain has removed the embargo against our cattle. She wants our beef and bacon, our cheese, butter, eggs and apples, our wheat and flour. As the population of the United States increases, she will compete less and less against us on the British market. Eventually, she will herself be an importer of many other food stuffs besides wheat from this country.

Canada has the men, the climate, the land, the stock and the potential markets necessary for agricultural success. Let us farm with all the industry and science we can muster. Let's get to work and pay off our debts. Canada is moving forward with confidence in the future. Let us keep going ahead.

Have Faith in Canada

Fighting Marquis; She Spends Money, He Spends Time; Ladies' Bank

Cheering crowds carried Bobby Jones, the new open golf champion, after he defeated Robert Cruickshank in a close match at Inwood.

Mike Boyle, famous Labor leader of Chicago, is reported to be sojourning in Canada. Warrants are out for his arrest in connection with bribery charges.

Marie Mindzenty, bride-to-be, is another fair lady who claims the distinction of being the most beautiful woman on the continent.

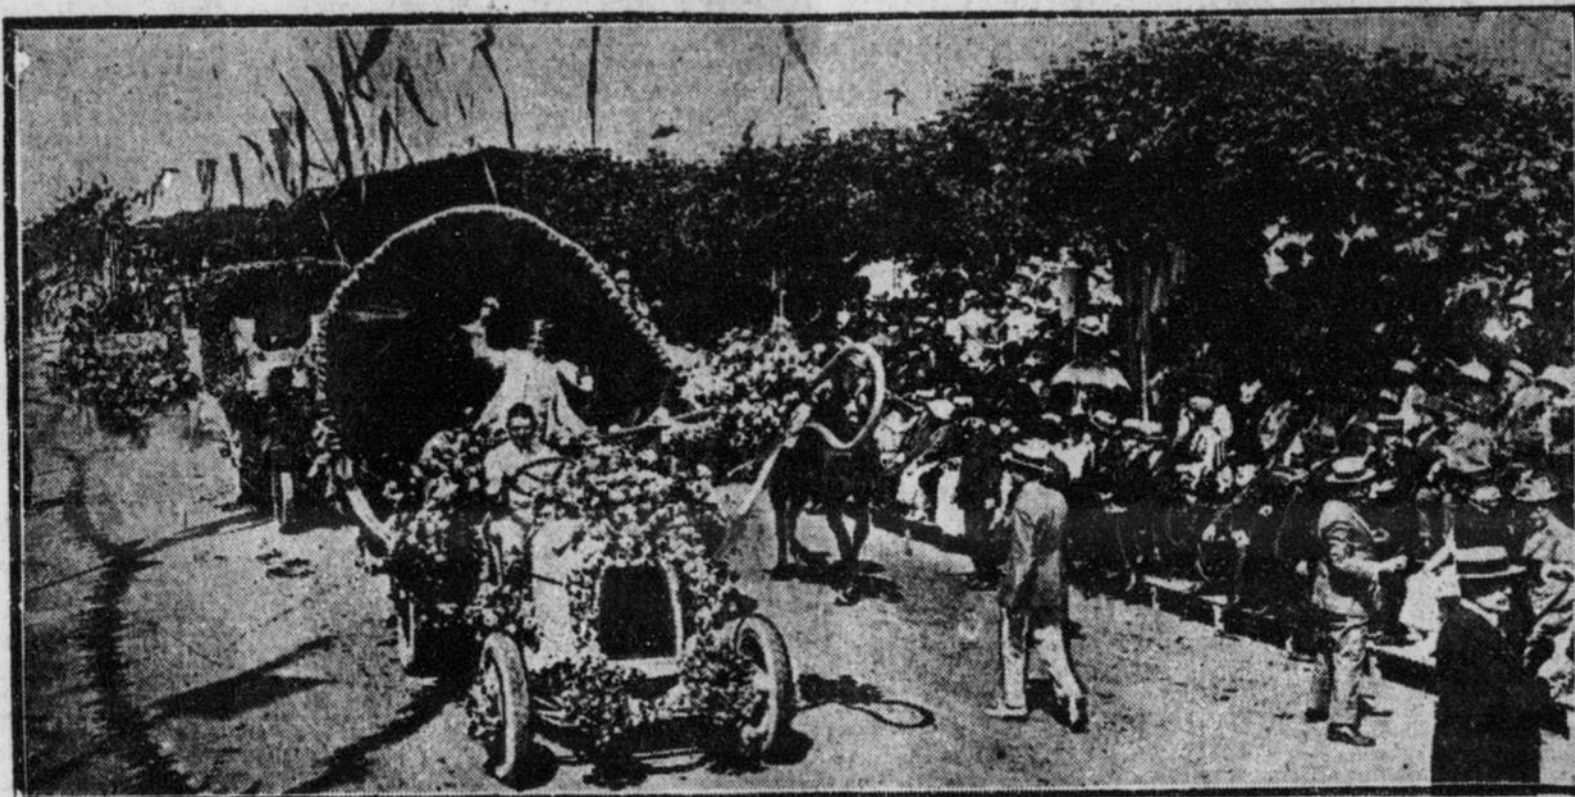

Mrs. E. P. Brainerd, who was responsible for, and now heads a woman's department in the American Bank of Los Angeles. This bank has separate tellers exclusively for the fair sex.

This wonderful steel bottle of tremendous energy is small enough to put into one's pocket, but when attached to a jack will lift 3,000 pounds. It can also be used for putting out fires, inflating tires, refrigerating water or lifting derailed cars.

The engagement of Lady Evelyn Herbert, only daughter of the late Lord Carnarvon, discoverer of King Tutankhamen's tomb, to B. C. Beauchamp, son of Sir Edward, has been announced.

Millions of flowers are used to decorate the floats and streets for the great flower festival, which is held yearly at Geneva, Switzerland.

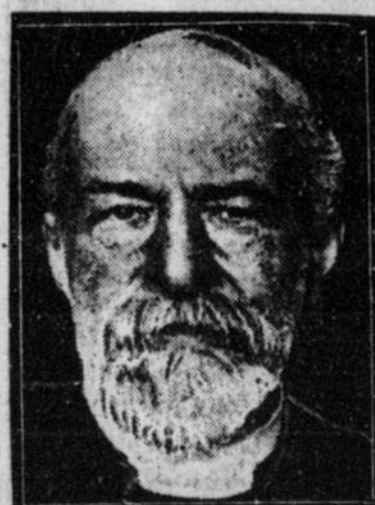

Louise Groody is said to be spending some of husband McGee's easy money in Paris, while McGee, convicted stock bucketer, is spending time in Ludnow street jail, facing a term in Sing Sing.

Not a quartet of jailbirds, but merely a scene on the beach at Ostend, the popular Belgium summer resort. Striped beach costumes are all the rage here.

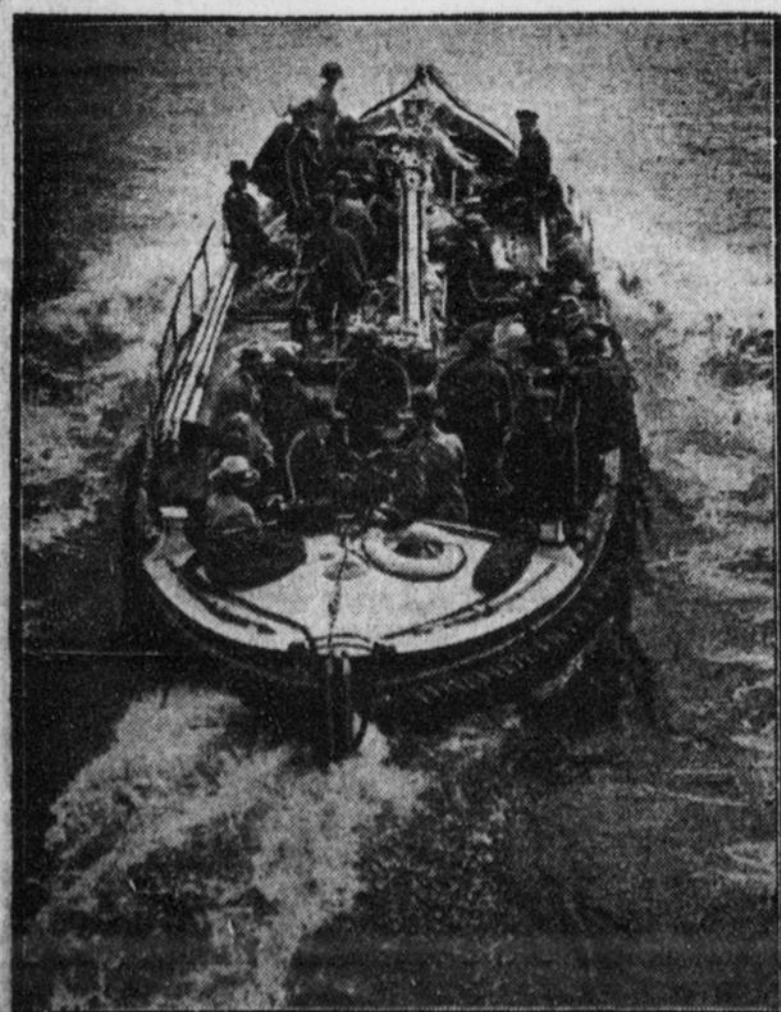

The Marquis of Douglas and Clydesdale, elder son and heir to the Duke of Hamilton, is now on this continent on a boxing tour. He was recently defeated by a riveter, after winning a fight with a young miner.

Prof. Herman Gollanez has the honor of being the first Jewish Rabbi to be knighted by King George of England.

California's fair bathers enjoy the water so much that they don't even leave the swimming pool for meals, but have it served to them in this manner.

The first of the Royal National Lifeboat Institution's motor lifeboats to be built were inspected recently on the Thames. The photograph was taken as the boat passed under Westminster Bridge.

"Bullet" Joe Bush, leading pitcher of the New York Yankees, has been lost to the team for an indefinite period. He lost the third finger of his left hand in stopping a line drive.

Under the combination of blue and grey pleating on shoulders and skirts come a charming skirt and blouse of white satin. The head ornament in front is also a combination of blue and grey.

Something new and original is this novel style of coiffure worn by the women of India. Her earlobes are distended to an enormous degree to make room for the great discs they support.

This giant protector of one of India's villages sits on a pedestal forty-five feet high and receives homage from all the natives. Once a year he receives a coat of whitewash at festival time.

NORTHWESTERN RAIL GROUP WAS SUBJECT TO HEAVY SELLING PRESSURE IN N.Y.

Due To Unfavorable Developments in Wheat Market and Application for Receivership By Minneapolis And St. Louis Railroad—Steel Shares Were Quiet—Oils Declined

New York, July 26.—Stock prices generally moved within narrow and irregular limits during the greater part of today's session. Quiet strength characterized the early dealings with a number of good gains being recorded in the steel, equipment and automotive groups and by the hard coal carriers.

A final decline was precipitated by heavy short selling of the Northwestern rails, based on the recent unfavorable developments in the wheat market and the application for a receivership for the Minneapolis and St. Louis Railroad. Northern Pacific and Great Northern preferred each closed more than 2 points below yesterday's final prices.

Trading in the steel shares was rather quiet pending an official announcement on the U.S. Steel Corporation's plan for putting the 3-hour day into effect in its mills.

Oils yielded moderately on announcement of another cut in the price of Gulf Crude, coincident with continued record breaking production.

Call money held steady at 5 per cent. Business in the time money market was quiet with a few 60 and 90 day loans arranged at 5 1/4 per cent.

The feature of the foreign exchange market was the further collapse of the German mark to the American dollar, on the announcement that German printing presses were now adding more than two trillion marks daily to the note circulation. The other European rates advanced slightly on the announcement of the reopening of the Ruhr frontier. Demand sterling was quoted around \$4.59 1/2 and French francs around 5.36 cents.

Total sales \$27,200 shares.

20 Industrials averaged 91.06; net gain .38.

High 1923, 105.38; low 87.64.

30 Bonds averaged 80.90; net gain .36.

High 1923, 90.55; low 78.85.

Except for a bad break in the issues of the Minneapolis and St. Louis railroads following reports that the road had consented to a receivership, there was little interest in today's quiet and irregular trading in the bond market.

Minneapolis and St. Louis refunding 4s. dropped 7 1/2 points to 22 1/2 and the refunding 5s yielded 1 5/8.

Changes in the foreign group were small and unimportant.

U.S. Government bonds held steady.

The Chicago Produce Market

Chicago, July 26.—Assertions that 400,000 bushels of wheat bought for shipment from Gulf ports to Great Britain had been sold back and had been replaced with wheat from Argentina, did a good deal to make wheat prices here average lower. Despite the sudden upturn at one time, the market closed heavy at 1 to 1 1/2 decline, with September 97 3/8 to 97 1/4 and December \$1.00 1/2 to \$1.00 5/8. Corn finished at a range varying from 3-4 to 7-8 off to 1-4 cents gain, oats 1-2 to 1-4 cents down and provisions at 2 to 2 1/2 lower to 10 cents advance.

Closing—

Wheat July 98c; Sept. 97 1/8c; Dec. \$1.00 1/2.

Corn July 97 1/2c; Sept. 97 1/4c; Dec. 97 3/8c.

Oats July 41 1/4c; Sept. 25 3/8c; Dec. 37 1/8c.

Lard, Sept. \$10.87; Oct. \$10.97.

Ribs, Sept. \$8.62; Oct. \$8.45.

IMPORTANT POWER DEAL AT OTTAWA

Successful Hydro-Electric Co. Of Ottawa Bought By Nesbitt Thornton & Co.

Ottawa, July 26.—(Special)—The recent purchase by the investment banking house of Nesbitt, Thorne & Co., Montreal, of the old established business of the Ottawa and Hull Power Company, Limited, attracted special interest in financial and public utility circles on account of the old established nature of the undertaking and the exceptional facilities which it affords for expansion and increased earning power.

The location of the plants is one of the unique features of this enterprise. Both are situated at Chaudiere Falls on the Ottawa River, between the cities of Ottawa and Hull. The company's customers are principally found in those cities which are widely known as exceptionally good industrial centres. It serves such companies as the City of Ottawa Hydro-Electric Commission, Ottawa Electric Company, City of Hull, Hull Electric Company, Canada Cement and British American Nickel.

One of the plants has an installed capacity of approximately 13,500 horse power developed under a head of 27 feet. The second is equipped with two units of 9,000 horse power each, while a third unit of the same size being installed. This makes 27,000 horse power from this plant or 40,000 horse power from the two plants.

Through stock ownership the company controls the Ottawa River Power Company, Limited, which owns and is now developing a water power on the Ottawa River at Bryson, a distance of about 50 miles above the city of Ottawa, which is capable of developing 60,000 horse power. This places the company in a position of owning and controlling plants with a present capacity of 40,000 horse power and an ultimate capacity of 100,000 horse power, all of which are owned in fee simple and are located in the Province of Quebec.

London Market

London, July 26.—Gift-edged securities were steadier on the stock exchange today. Trading in all shares and British Industrials was dull.

Bar gold 89s. 8d.

Money 2 per cent.

Discount rates, short bills 3 to 3 1/8 per cent. Three months bills 3 1/2 to 3 3/4 per cent.

BANK OF FRANCE

Paris, July 26.—The weekly statement of the Bank of France shows the following changes:—

Gold in hand increase \$1,000 francs.

Silver in hand increase \$5,000 francs.

Notes in circulation decrease 304,874,000 francs.

Treasury deposits increase 19,845,000 francs.

General deposits, decreased 34,684,000 francs.

Bills discounted increased 19,820,000 francs.

Advances decrease 24,537,000 francs.

The state repaid the bank 300,000,000 francs.

PARIS BOURSE

Paris, July 26.—Prices moved irregularly on the Bourse today.

Three per cent rentes 57 francs, 15 centimes.

Exchange on London 77 francs, 85 centimes.

Five per cent loan 75 francs, 10 centimes.

The U. S. dollar was quoted at 16 francs, 54 1/2 centimes.

50,000 HARVESTERS WANTED

In order to help harvesting the crop which will be exceptionally good this year, Western Canada is calling for 50,000 Eastern men. To call for the Canadian National Railways will operate special Harvesters trains and sell tickets at reduced rates.

Excursion dates from Stations South of the St. Lawrence River, East of Charny and Levis, will be Friday August 3rd and Friday August 17th.

From Stations in the Province of Quebec, Levis, Quebec City and West to St. Andrews East, Levis and La Tuque, excursion dates will be Wednesday August 8th and Monday August 20th.

From Palais Station, special trains will leave Quebec at 4.15 p. m. on above dates, operating via Cochrane and through to Winnipeg.

From Parent Square Station, special train will leave at 6.00 a. m. Wednesday August 8th; this train runs via Grand'Mere and Joliette, stopping at all North Shore points.

Going fares are as follows: \$15.00 to Winnipeg from Quebec, Levis and West, with proportionate fares from Stations East of Levis and Charny. Plus one half cent per mile from Winnipeg to any station in Manitoba, Saskatchewan, Alberta, Edmonton, Tanna, Calgary, MacLeod and East. There are special low fares for the return journey. Through trains with lunch counter car. Food and refreshments at reasonable prices. Special cars for women and colonists of the latest design with convertible berths. Travel the National Way to any point in Western Canada.

There is but one step from the sublime to the ridiculous.

Who has tasted a sour apple will have more relish for a sweet one.

LAURENTIDE AND PENMAN'S PFD. WERE STRONG SPOTS ON THE MONTREAL MARKET YESTERDAY

Where Prices Showed A Rising Tendency, Though Trading Was Dull—43 Issues Came Out, 12 Gaining And 7 Losing—Montreal Loan And Mortgage Was Heavy Loser

Montreal, July 26.—Today's trading on the local stock exchange was marked by a return of ascending price tendency and extreme dullness, forty-three issues came out of which twelve scored gains, seven lost ground, five were unchanged and nineteen came out in broken lots only.

Brompton led in market activity and closed 1 1/4 points up at 40. Brazilian came second and was up 1 1/4 at 48. Spanish preferred was third and gained 3-5 at 98.

The greatest gain was in MacKay which was up 2 1/2 points to 112. Laurentide and Penmans preferred were the other outstanding strong spots, the former gaining a point at 95 and the latter 1 3/4 points at 99, ex-dividend which is a new high level for the issue.

Montreal Loan and Mortgage was the heaviest loser, selling off 3 1/4 points to a new low of 42 3/4. Provincial Paper was off two points to 56.

All other recessions were fractional.

Total sales, listed 2,398; Crown Reserve 500.

Trading in listed bonds on the local stock exchange today was slightly more active but the tendency was downward especially in the Government issues which lost from ten to 35 cents in many cases. Quebec Railway 5s. were strong being up to 81 and closing at 80 1/2 unchanged.

Total sales \$100,450.

Daily Gossip On Leading Stocks

It is expected that mining operations will start on a fairly good scale by Aug. 1, as it will be necessary for the dealers to have some stock coal on hand before harvest starts. The operators are all looking for another good season in the coal trade, according to a despatch from Drumheller, Alta.

While an embargo on pulpwood exports in different from the placing of a high import duty on imports, still the effect may be quite the same. For example, while the proposed embargo on pulpwood exports would bear directly on the U. S., that country being the only purchaser, still its effect would be very little different than that resulting from the high duty placed against the imports of wheat into the United States. The latter duty affecting Canada alone, it being practically the only exporter of wheat to the republic. Moreover, the avowed object was to shut out Canadian wheat, regardless of what the effect might be on the producers of it on this side of the line.

It is quite expected in Ottawa that a protest may be made by the Department of State, for which a presidential election due in the United States next year, both parties will be eager to do everything in their power to enlist the support of the American publishing interests.

Closing Letters By Local Brokers

(By L. G. Beauchamp & Co.)

New York, July 26.—There was an unconfirmed report this afternoon that the Ruhr Valley had been evacuated by the French. The report caused strength in the foreign exchanges but had no effect on stocks which continued quietly irregular. Trading was on an extremely narrow scale and the day was one of the dullest of the year. In such trading of course the movements are almost entirely meaningless representing merely the experiments of professionals on one side or the other. The market needs a strong forceful development either here or abroad to job it out of the present rut of inaction.

Montreal, July 26.—There was again very little done on the exchange today. Trading as a whole remains dull and uninteresting. Brompton Paper attracted some attention this afternoon. After closing at 39 1/2 at noon, up 1 1/2 point, it continued in demand during the afternoon session and finished the day at 40 up 1 point for the day. Howard Smith was another favorite, it closed at 70 1/2, compared with 69 yesterday. Quebec Railway was steady at 80 1/2. Brazilian Traction sold a point to 48 and closed 47 3/4. Montreal Tramways made its appearance at 145. Lake of the Woods, odd lots at 170. Price Brothers one sale at 43. MacKay strong, but quiet at 112.

BANK OF ENGLAND

London, July 26.—The weekly statement of the Bank of England shows the following changes:—

Total reserve increase £72,000.

Circulation decreased £69,000.

Bullion increase £3,231.

Other deposits decrease £2,356,000.

Public deposits decrease £632,000.

Notes reserve increase £69,000.

Government securities decrease £1,885,000.

The proportion of the bank's reserve to liability this week is 18.08 per cent; last week it was 17.60 per cent. Rate of discount four per cent.

The number of immigrants from all countries who entered the Dominion during the quarter mentioned this year was 40,952, as compared with 35,092 for the corresponding period last year. The influx from Britain rose from 11,695 for the quarter 1922 to 22,558 for this year, while the figures for "other countries" went up from 4,122 for the corresponding quarter in 1922 to 12,026 this year for the similar period. Immigration from the United States this year for the three months was 5,373, as compared with 5,426 for similar quarter last year.

The trend of employment at the beginning of July, as shown in reports furnished the Dominion Bureau of Statistics by employers of labor, continued upward, chiefly on account of further seasonal activity in construction and transportation. This movement repeats that indicated during the same period of last year and of 1921, although the improvement this year is more decided. According to reports from 5,765 firms, with an aggregate payroll of \$15,128 persons, there was an increase of practically 2 per cent in the employment afforded, the index number rising from 97.3 on June 1st to 99.5 at the beginning of July while at the same time in 1922, it had stood at 91.1 and 87.5 respectively.

Gold held on June 30th by the Minister of Finance amounted to 124,121,034.22, as announced in the Department's monthly statement of acquisition and specie.

Dominion notes outstanding amounted on June 30th to 234,146,433 against which gold was held, value \$121,025,725.47, or 51.7 per cent.

Gold reserve held on savings banks deposits amounted to \$3,095,308.75, or 10 per cent on \$30,953,087.49.

There was an increase of sixty-three per cent in the number of immigrants entering Canada during the last three months as compared with the corresponding quarter last year, and for the month of June alone the increase over the same month last year was 88 per cent.
