SHERBROOKE GUN CLUB

Home Team Wins the Townships Trophy.

The grand annual tournament of the Sherbrooke Gun Club was one of the most successful of their events. The attendance was large and as usual representatives were present from most of the Eastern Townships clubs as well as other organizations.

The clubs entered were Montreal, Sutton Junction, Waterloo, Stanstead, Magog and Contrecoeur. The shooting on the whole was much above the average and in excess of that of last year. Sherbrooke was ahead on all points, winning the cup, individual championship and highest aggregate score. In the aggregate the following scores were made: Craig 85, Barrett (Montpelier, Vt.) and Fisk (Montreal), each 85; McFarlane, Waterloo, 79; Westover and Selby (Sutton Junction) and Calvin, of Burlington, Vt., each 78; Cameron, (Montreal), 75; White 73; Morkill 70; Eaton, (Montreal), 69; Geo. Walton, (Montpelier, Vt.) and Hall, (Waterloo), 68; Wotton, (Montreal), 66; C. Thompson 64; Hobbs, (Magog), 64; Goodhue, (Rock Island), 53.

In shooting for the Eastern Townships trophy, Sherbrooke was tied twice, but won by one point on the last shoot-off. The shooting of the individual members of the Sherbrooke club was extraordinary. Mr. T. M. Craig, who won the Duncan medal and also the individual trophy, made for his aggregate the high figure of 80. N. G. Bray, in the twenty target match made a hit every time, and is credited with breaking consecutively twenty-eight birds. In the doubles Mr. Fred Loomis hit nine in the doubles, hitting both of last four pairs. In the extra events, Barrett took the miss and out with ten, the ten target with seven, and the last miss and out with five. No. 2 ten target was divided between Barrett and Hobbs. No. 13 ten target was won by C. White. No. 5 miss and out by Mr. Fisk. No. 5 was divided between Messrs. Barrett Hibbard, Hobbs and Loomis. No. 9 ten target was won by Fred Loomis.

Among others those present from out-of-town were J. H. Cameron, of New York, representing the Winchester Arms Co., B. H. Norton, of New York, representing the Hazard Powder Co., E. C. Ellsworth, of Cambridge, Vt., representing the Gold Dust Powder, J. D. Clark and H. E. Hibbard, of Sutton Junction, D. Ashton, of Waterloo, F. Sevigny, of Cookshire.

During the shoot both sets of traps were used. The visitors appeared to be pleased with all the arrangements, and many of them remained over to enjoy the illumination and fireworks of the evening. Mr. John McNicol performed the difficult task of cashier to the entire satisfaction of all concerned.

Charland vs. Keene. Action of plaintiff to recover from defendant \$1,281.00 balance due for lumber, sold and delivered to defendant. Judgment for plaintiff for \$1,281.00, interest and costs.

Lariviere vs. Ross and Lariviere vs. Dubrule. Action of plaintiff, the lessee of the waterworks in the town of Richmond, for recovery from defendants of \$20.00 and \$32.00 respectively for water furnished defendant during the year ending 30th April, 1887. Defendants evoked these cases into the Superior Court, declaring that plaintiff had no right to recover said sums, that plaintiff is endeavoring to charge double the tariff rates for said water without asking or obtaining the consent of the ratepayers of said town to charge said tariff, and that the future rights of the defendants were affected. Judgments declaring the declarations in execution to be well founded and maintaining the same.

SKULL DRIVEN INTO THE BRAIN.

Mr. Harry Allen's boy, James, met with a painful accident on Saturday last. He fell from a fence striking his head with such force on a stone as to fracture his skull. On Wednesday he underwent a successful operation at the Sherbrooke Protestant Hospital, when the fractured bone which was found driven into the brain, removed. He is now looking well, and strong hopes are entertained of his recovery.

SIXTY TRAINS.

They Are Carrying the Thousands of Delegates Across the Continent.

San Francisco, July 1.—Advices received in the Southern Pacific offices to-day show that forty special trains bearing Christian Endeavor delegates are now on their way to this city. By to-morrow night twenty more will have started for the Pacific coast. It is expected that most of these trains will arrive at Ogden late on Sunday night or early on Monday morning. The Southern Pacific is making extraordinary arrangements for the reception and care of the visitors at that point. The officials are wondering how to get the trains out of that city on schedule without creating confusion. It was designed to have the trains follow each other at intervals of one hour, but even at this rate the first train will be near this city before the last train has left Ogden. The prospect is causing railway officials some worry, but General Passenger Agent Goodman says the matter will be adjusted expeditiously. Besides the miles of cars carrying Christian Endeavorers thousands of tourists are taking advantage of the cheap round-trip rates.

NORTH HATLEY.

July 2.—Dr. Stevenson, of Contrecoeur, and his sister Miss Lilly, were at North Hatley, last week.

Among those at Glen Farm are Miss Maude Clarke and her sister of Montreal, Mr. and Mrs. J. Felix Allan, Miss Allen and Miss Reynolds, Mrs. F. Kennedy and family, Miss Dunlap and Miss Tulley.

Dominion day passed very quietly in Hatley. Many went to Sherbrooke to witness the sports and all report a good time.

Those answering advertisements in this paper will serve the interests of all concerned by mentioning that they saw the same in the SHERBROOKE DAILY RECORD

WATERVILLE.

July 1.—Quite a number of our citizens spent Dominion day in Sherbrooke. All report a good time, and say the celebration was a grand success.

Mr. Nordien one of the employees of Geo. Gale & Sons, met with a painful accident on Monday of this week. While at work his left hand accidentally slipped into the machine over which he worked, (a buzz-planer) resulting in the loss of parts of two fingers. Under the care of Dr. Colquhoun he is progressing favorably, but it will be some time before he can once more make use of his hand.

On Friday of next week, Mr. Fred Lewis, for the last eight years foreman for Geo. Gale & Sons, will set sail for England. Mr. Lewis goes to fill a similar position in the Birmingham branch of the above firm. He will be much missed in our village and will carry with him the good wishes of hosts of friends.

Miss Eva Webster, who has been visiting her parents, started on her return to her home at Northfield, Mass., yesterday. Miss Genevieve Pennoyer, of your city, is renewing acquaintance with old friends. All are pleased to meet her once more.

The Christian Endeavor Society of the Congl church, met on Wednesday evening for the election of officers and committees, for the ensuing six months. The officers appointed are: President, Mr. Harry Hinder; vice-president, Mr. E. A. Bishop; secretary, Miss Ouida Adams; treasurer, Dr. Philip Colquhoun. Under the presidency of Mr. Bishop this society has been greatly prospered and with new officers and committees will without doubt keep the good record of the past.

SIMPLE EXPERIMENTS.

Carbonic Acid Gas Easily Generated From Vinegar and Baking Powder.

That there is charcoal in baking powder, and that vinegar and baking powder will make carbonic acid gas were two bits of knowledge imparted to several hundred school girls and boys by Professor Peter T. Austen in the hall of the Brooklyn Polytechnic institute. This was the second of a series of lectures to young people on "How to Make Scientific Experiments at Home."

Using the simplest kind of apparatus, Professor Austen demonstrated how carbonic acid gas can be generated from a combination of vinegar and baking powder, and he showed also how the burning of a magnesium wire in a jar of carbonic acid gas brings out the charcoal in baking powder. The children were intensely interested in the statement that whenever they ate bread or cake made by the use of baking powder they ate a lot of charcoal, but they took the lecturer's assertion that there was charcoal in sugar as a joke.

"While hot carbonic acid gas is lighter than air, cold carbonic acid gas is much heavier than air and can be handled like water," said Professor Austen. To show the heavy and palpable quality he generated a lot of it in a large glass jar and proceeded to draw it out in capfuls. Lighted candles were extinguished by pouring the gas upon them as if it were fluid, and the professor showed his alert disciples how to make carbonic acid gas run through a cardboard trough. A dozen small candles, lighted, were placed a few inches apart in a long glass channel. From a pitcher Professor Austen slowly poured carbonic acid gas into one end by the glass channel, and as he continued to pour the invisible fluid the lights went out, one by one.

The children watched with evident delight the construction of a rude pair of scales. "I shall use only such things as can be readily picked up around the house," said the professor. He took a common strip of board and planted it upright on his table. Across the top he placed a piece of lath and balanced it exactly by hanging an empty handbox on one end and a basin of shot on the other. "Now, there is nothing but air in the handbox," he said. "Let me show you how much heavier carbonic acid gas is than air." And, snipping the action to the work, he poured a large pitcherful of carbonic acid gas into the handbox. Immediately the handbox descended as if filled with bricks.

The children applauded and shouted in glee, and a few minutes afterward they were on their way to their homes, imbued with a determination to raid the domestic larder for vinegar and baking powder with which to make carbonic acid gas.—New York Times.

Tidal Waves.

Though the greatest and most remarkable phenomenon pertaining to the surface of the sea is the tidal wave, scientific authorities acknowledge that it still presents some unexplainable anomalies. It is demonstrated, however, that the movement is made up of many waves dependent upon different functions of the moon and sun, some being semi-diurnal, some diurnal. The time of transit over the meridian and the declination of both bodies create great variations. The changing distance and position of the moon and the position of her node also have immense effect, while the ever varying direction and force of the winds and the different pressure of the atmosphere play their part. An interesting fact in this relation is that observations all over the world show no place where the tidal movement is so regular and simple as around the British islands—a fact more remarkable when it is known that the tides on the other side of the Atlantic, as, for instance, at Nova Scotia, are very complicated, the unexplainable case here being that the minor tides, which in most parts of the world, when combined in one direction, amount to a very considerable fraction of the principal lunar and solar tides, and consequently greatly increase or diminish their effects, are in Great Britain so insignificant that their influence is trifling.—New York Sun.

MR. GRIFFITH RE-INSTATED.

RECEIVES HIS OLD POSITION AS CARETAKER OF COURT HOUSE.

The new Liberal government has revoked the appointment of Mr. Dupuy as caretaker at the Court House, and re-appointed Mr. Griffith to his old place.

This is an act that was generally expected, as Conservatives, as well as Liberals, condemned this action of the late government.

The following letter was received from Mr. Griffith this morning from the Provincial Secretary's department.

Quebec, July 2, 1897.

Mr. John J. Griffith, Sherbrooke, P. Q.

Sir—I have the honor, by command of the Honorable the Provincial Secretary, to inform you that by order in Council of the 29th of June last, the order in Council of the 13th of March last dismissing you from your office of keeper of the Courthouse at Sherbrooke, has been revoked, and you have been restored to your former position and at the same salary.

I have the honor to be, sir, Your obedient servant, Jos. Boivin, Asst. Prov. Secy.

BARN BURNED.

MR. J. A. CAMIRAND MEETS WITH A HEAVY LOSS BY FIRE.

About eleven o'clock this morning smoke was seen issuing from the large barn on the side hill belonging to Mr. J. A. Camirand, Mayor of Orford, located on the Magog road, about two miles from Sherbrooke. Men were at work a short distance away and on reaching the barn found the whole a mass of flames.

The building, which was a large fine modern barn, was totally destroyed, including all the farm machinery, which was stored therein.

The cause of the fire is not known, and no reason for the same can be given.

SIXTY-SECOND WEDDING ANNIVERSARY.

Mr. and Mrs. James Brown, of this city, recently celebrated the sixty-second anniversary of their wedding. Both are hale and hearty. Mrs. Brown was born at Riddlehead, Rayne County, England, and will be eighty-two years old next September. Mr. Brown is a native of Aberdeen, Scotland, and is also eighty-one years of age.

Of the five children born to the couple two are living. Mr. John Brown, tinsmith, of this city, and the eldest, Mr. James Brown, in the employ of the Toronto Street Railway. There are also grand children and six great grand children.

BRIEFLETS.

The city was illuminated again last night and the displays were again viewed by a good number of people.

The electric light fixtures are being taken down to-day and Sherbrooke's Jubilee is over.

The East Sherbrooke baseball club was out in full force in the jubilee procession, and with the exception of the Voltigeur Bicycle Club, was the only athletic club which was represented in the procession.

Mr. Rob't Lakeman, the little grocer on the Beckett road, had his store very nicely decorated during the celebration with flags and bunting.

The attendance at the Beebe Plain camp meeting this year was not as large as usual.

Mr. Fred Hovey has about completed a cottage at North Hatley on the west side of the lake and his family expect to remain there during the summer.

The visitors at the popular summer resort, North Hatley, now number fully 150 people, and from ten to fifteen new ones are arriving every day.

The Methodists and Presbyterians will unite in their services through the summer holidays. Tomorrow morning the services will be conducted by the Rev. Mr. Shearer, in the morning in the Presbyterian church and in the evening in the Methodist church.

The Harmonie band has arranged an excursion to Quebec for July 16th and 17th by the Quebec Central Railway, at the low rate of \$1.75. Tickets good to return up to and including July 19th.

Coroner Woodward was called to Richmond this morning to hold an inquest on the bodies of the two young people who were drowned there yesterday.

It was owing to the able management of the gentleman in charge of the fireworks on Thursday evening, that everything in that line passed off without a hitch. The set piece of a portrait of Queen Victoria was very good, and elicited much applause.

BUSINESS NOTES.

A declaration has been registered at the Prothonotary's office by Hugh Wallace Elder and Hugh Turner Elder, doing business at Beebe Plain, Que., and Beebe Plain, Vt., U. S. A., as nursery men, under the firm name of H. W. Elder & Co.

STREET RAILWAY COMPANY

LET CONTRACT FOR STRINGING WIRES.

Sealed bids on setting poles, stringing wire and furnishing all labor and materials for the overhead work and rail bonding for the street railway were opened by the company yesterday afternoon. The contract was awarded to Macartney, McElroy & Co., 26 Cortlandt st., New York. These contractors did the overhead work at Hamilton, Ont., last year, and have done a large amount of this kind of work in the States. The whole is expected to be completed by August 20, and work will be commenced within 20 days. Mr. Macartney, who has been in the city, left for New York last night, to complete arrangements for necessary material.

ILLUMINATION FOR EXHIBITION WEEK.

It is suggested that it would be a fine thing, if some arrangement could be made by which some, if not all of the illuminations could be retained now or secured later for use during exhibition week. Our merchants generally make efforts in the way of illuminations during that time, and it would be another attraction to visitors, if we could reproduce the display of Thursday night. We understand that the Eastern Townships Bank are making efforts to use their amount during exhibition week.

DIED OF CROUP.

A young child of Mr. Smith, of the Sun Life, died last night at the Magog House, of croup. Mr. Smith and family are boarding at the Magog.

SHORT \$200.

Owing to a misunderstanding, there was no change made for entrance to the grand stand on the exhibition grounds on Thursday. The result is that there is a shortage of about \$200 in the Jubilee fund. The committee had expected to take in fully this amount on the grand stand.

CAMP COMPTON.

Soldiers Return Home To-day.

The 5th Regiment, Canadian Dragoons, broke camp this morning, after a two week's drill. The Sherbrooke troop arrived home at about 11 o'clock. The soldiers report a pleasant time and a good drill.

The drill for a few days was broken by rain, but the usual amount of work was got in.

COOKSHIRE.

July 3.—Miss F. Cook returned yesterday from visiting in Lennoxville.

Mrs. E. Garvin, returned from Lancaster, N. H., yesterday.

Miss Georgie Mackie who has been teaching French in Cambridge, Mass., for the last nine months, arrived home Thursday morning for the holidays.

Mrs. Blodgett and Miss Katie Metcalf, Western States, arrived in town last night.

Miss Georgie Bailey is visiting friends in Sherbrooke.

Mr. and Mrs. LaPalme and daughter of Waltham, Mass., are visiting at the home of Mr. Jos. I. Mackie.

Mrs. J. H. Burton and two children left for Halifax yesterday.

A good many of the citizens attended the celebration at Sherbrooke July 1st and were delighted with their outing.

MOE'S RIVER.

July 2.—Mr. Sylvestre and wife of Portland, Me., have been visiting friends here the past week.

Mr. J. Cowan and wife have been visiting at St. Johnsbury, Vt.

NEW MINISTERS.

Sir Henri Joly and Mr. Wm. Patterson.

Ottawa, July 2.—Under authority of the act passed Tuesday Sir Henri Joly de Lotbiniere and Hon. William Patterson have been sworn of the Privy Council and are Ministers of Inland Revenue and Customs respectively. The two new Ministers attended council for the first time this afternoon. The change in the rank of the Ministers, which, of course, applies to the departments, and renders them independent of Trade and Commerce, gives great satisfaction to officers of the customs and inland revenue. The officers concede that the arrangement which has been in operation for the past four years has not worked well.

AN ACCIDENT

An engine ran away, with full steam, but it did not do any damage to the public, as it ran across the Eastern Townships Clothing House and cut prices in two. And it is feared that these cut prices will have to continue till the heavy weight of the engine will be unloaded. Therefore we ask the public to help and unload the heavy weight of Men's and Boys' Clothing, Gents' Furnishings, Ladies' and Gents' Boots and Shoes, Trunks and Valises, at the above cut prices. This is the best chance for people to get a lot of goods for little money, while the "engine" is loaded at J. L. Vineberg & Co., 75 Wellington St., Sherbrooke.

Continuous Advertising

pays an advertiser best. Experience proves that the kind of continuous advertising fraught with most results, is that done in the daily newspaper.

All people may not want the kind of goods you sell every day. Some will want such to-day, others will want such to-morrow. Eventually all people will want such at some time or other, though. And if your advertisement appears in a daily newspaper its going to greet the eye and impress people the moment they're experiencing the need for the goods you have to sell. The results received from advertising will be satisfactory if the newspaper used circulates in the territory from whence you naturally expect your trade to come.

Say that territory is the Eastern Townships—undoubtedly the paper to use will be the

BY TELEGRAPH 2 P. M. COLONIAL BANQUET.

Matters Concerning the Colonies Discussed.

Special to the Record.

MONTREAL, July 3.—A London cable to the Toronto Globe says: Sir Michael Hicks-Beach and Mr. Goschen, last evening, at the Colonial banquet, strongly urged the colonies to contribute to the support of the Imperial navy: Premier Reid, of New South Wales, however, took the position that the greatest gift the colonies could give to the Empire was the development of their own resources.

The general view, no doubt, is that by the policy of local development, Great Britain will be strengthened in her auxiliary kingdom, and new markets for imperial trade will be created.

It is believed that the Premier of New South Wales voiced the general view of the representatives of the colonies now in London, notwithstanding that they have been subjected to a good deal of pressure to contribute to imperial defence.

MONTREAL NEWS.

Discharge of Provincial Employees.

Montreal, July 2.—The committee of the striking pilots wrote the Harbor Board to-day declaring the strike off and offered to return to work. They moreover asked to meet the board to discuss grievances.

Wm. Tardiff, farmer of Bowmanville, Ont., asked chief detective Carpenter to-day to institute search for his brother, John Tardiff, who, when last seen, was a passenger on a steamboat 3 weeks ago on a trip here from Quebec. Tardiff was returning from England after disposing of a shipment of cattle.

Atty-Gen. Archambault has wired prothonotary Sicotte to dismiss the clerks, about 40 in number, appointed by late Quebec Government before the recent provincial elections. He added that the salaries due them will not be paid. He also intimated that those permanent court house employees, Conservatives, whose salaries were increased before the elections, will be paid their former salaries only in the future.

BANQUET TO PREMIERS.

Sir Wilfred Laurier Speaks.

London, July 3.—A grand banquet was given last night to the Colonial Premier by the imperial institute, which the Duke of Connaught, the chairman, toasted the "United Empire", coupling Sir Wilfred Laurier's name with the toast. Sir Wilfred Laurier, in responding, said that if the colonial premiers remained much longer in England they would all be killed by kindness. He admitted that the goal of his aspirations was to see Canadians of French descent sitting at Westminster. If he was a young man he would hope to realize that ambition; but to-day his ambition was to get a denunciation of certain foreign treaties which were a blot on colonial development.

EDHEM PASHA RESIGNS.

CONSTANTINOPLE, July 1.—Edhem Pasha, commander of the Turkish army in Thessaly, has resigned. He gives as the reason for his action that he cannot guarantee the discipline of the army under the proposed arrangements for the conclusion of peace with Greece.

His resignation is believed to be merely formal. It is thought that it is tendered in accordance with instructions he has received from the war party here.

ANOTHER CHRISTIAN ENDEAVOR ACCIDENT.

Denver, July 1.—The second section of the Christian Endeavor Chicago special, which left that city on Tuesday night over the Burlington road, ran into the rear of a freight train at Akron, Col., a few minutes before 9 o'clock this morning. Engineer C. M. Cole of McCook, Neb., was badly hurt. Fireman David Magnor of McCook and Fred Glassburn, a passenger from Tampico, Ill., were slightly injured. Traffic was delayed two hours.

MONTREAL MARKET.

Wholesale Prices.

Friday Evening.

The cheese market was heavy, the appearance indicates still lower prices for next week. Finest Townships cheese can be quoted at 8c to 8 1/2c.

Butter market rules firm, and if stocks continue as light as they are prices may go higher. Finest creamery 17c, seconds 15 1/2c to 15c, dairy butter 12c.

DROWNING ACCIDENT. TWO YOUNG PEOPLE AT RICHMOND.

Mr. R. J. Mackenzie and Miss Alice Cleveland the Victims of the Sad Drowning.

RICHMOND, Que., July 3.—Mr. R. J. Mackenzie and Miss Alice Cleveland were both drowned last night, while boating, by the upsetting of their canoe. The accident occurred at Jeffrey's Chute about two miles above the town, a rather dangerous place on the St. Francis river. The swift current struck the canoe sideways, overturning it, and throwing both occupants into the water. Miss Cleveland clung to the overturned boat for a few moments, and, as she was a good swimmer, and could have easily saved herself, attempted to save her, when both were lost. Both bodies were recovered about two hours after Miss Cleveland was the youngest daughter of the late C. P. Cleveland, registrar of the county of Richmond. Mr. Mackenzie was the brother of Mr. P. S. G. Mackenzie, advocate. Both young people were great favorites in the town. The accident occurred in the same spot where Mr. Simpson, of Montreal, was drowned four years ago when at the same time Miss Penfold, daughter of the manager of the Bank of British North America, Montreal, had such a narrow escape and was saved by clinging to the overturned boat.

BIG STRIKE ORDERED.

250,000 Miners Will Stop Work.

Columbus, Ohio, July 3.—A general strike of miners of the United Mine Workers of America has been ordered for July 4, by the National Executive Board.

Circulars have been placed in the hands of bituminous miners in the United States calling them out on strike. It is estimated that 250,000 men will be involved. The object of the strike is to enforce the Columbus scale of 60 cents per ton for Pennsylvania 60 cents for Ohio and Indiana and 55 cents for Illinois.

WEATHER PROBABILITIES.

July 3, 11 a. m.—Forecast for next 24 hours, issued by the Meteorological Bureau. South west winds fine and very warm; with thunder storms at some places.

BOLTON SPRINGS.

Among the arrivals at the Bolton Springs House during the week were the following: H. B. Pettingill and wife, Miss Bessie Pettingill, Mr. H. F. Pettingill, H. E. Pettingill, C. H. Savage and wife, Bernard Savage of Troy, N. Y.; Mrs. James Patten, Louise McWhorl, Mr. W. W. Lynch, Montreal; A. H. Channell, Mrs. A. F. Channell, Magog; Lewis Perkins, H. V. Barnes, Mr. Holmes, Mansonville; Mr. J. L. Barre, Sherbrooke, and Mr. and Mrs. A. Stevens, Lowell, Mass.

BIRDS AND DISEASE.

An Authority Who Thinks Birds Incapable of Carrying Contagion.

Persons interested in birds have recently been debating the question whether these creatures are capable of contracting diseases from human beings or of transmitting disease to human beings. Expert opinion seems to be divided. On the one hand Dr. K. Rulf, director of Geferderte Welt, in a recent letter to the president of the Acclimation society, asserts that the transmission of any disease from a bird to a man and vice versa is absolutely impossible. Says Dr. Rulf: "For more than 80 years I have been occupied in keeping, observing and raising exotic birds of plumage; consequently I have had occasion to deal with them when ill. Every bird that has died has been examined, and I have thus dissected during about 30 years several hundred parakeets. I have always kept these birds during their illness, sometimes for a considerable period, in my apartment, which is somewhat restricted in size, being composed of only six rooms for four grown persons and four children. During all this period I have not had a single case of sickness in my family, although the birds have had all possible kinds of maladies. I am also confirmed in my belief by the fact that I have allowed no opportunity to pass of asking for information on the subject from the principal dealers in birds at Hamburg, Cologne, London, Liverpool, Antwerp, Amsterdam, Rotterdam, Marseilles and Bordeaux whenever they had sick birds in considerable numbers. In no case was I informed that any one, either a member of the family or an employee, had been attacked in the house of one of these merchants, and I obtained the same information from the directors of the great zoological gardens at Paris and London. No contagion—and I cannot insist too strongly on this point—could ever be established. These, however, are all negative facts and would fail to stand against even one authenticated case of the transmission of disease to or from pet birds. Such cases, it is believed, have been proved to exist by Dr. Laboulbène, who communicates an account of his investigations to the bulletin of the Acclimation society.

FATAL ACCIDENT IN MONTREAL.

A sad accident took place Thursday evening, in Montreal, when a 13 year old son of Mr. H. A. Ste. Marie, named Robin Garfield, was almost instantly killed. The boy was playing near his home on St. Urban street, while near by some heavy blasting was being done. At the time of leaving the men put in a heavy blast and on its going off, a rock of considerable size was hurled some distance, striking the boy on the head. He was rendered unconscious, and died on his way to the hospital in the ambulance.

Mr. Ste. Marie is one of the popular travellers for Thos. May & Co., Montreal, and a brother-in-law of Mr. Thomas Fuller, of this city.

DEATH OF PHILIP K. GLEED.

There died at Morrisville, Vt., on Wednesday, June 30th, a prominent lawyer and politician in the person of Hon. Philip K. Gleed. He was born in Granby, Que., in 1831, going to Vermont, when a young man. There he soon worked his way to the front in the State. He was a son of Rev. John Gleed, at one time a leading clergyman in the Congregational Church in the Township, who died at his son's residence in Morrisville, in 1870. Hon. Mr. Gleed was a brother-in-law of Mr. W. A. Richardson, of the Sherbrooke House.

LEADING LAWYER DEAD.

Toronto, July 3.—W. C. Murdoch, one of the foremost criminal lawyers in Canada, met death suddenly this morning. Until an inquest is held the exact particulars of his death will not be made known. Murdoch was teasing one of his friends and in play the latter struck him with an umbrella. The point lodged just beneath his eye, and this is said to have induced blood poisoning.

SIXES AND SEVENS.

"My last day at Oxford!" sighed Mrs. Romer as she lay back in the punt and put up her parasol. "Isn't it a shame, Mr. Elsworth, that I have to go away on the first day of the 'eights'?"

Mrs. Romer shifted her parasol again in order to watch an eight paddling down to the starting point at fifty. "They look such nice, clean, wholesome boys," she said. "That's what I like about Oxford. All the boys look as though well—as though they had a bath every morning. What boat is that?"

"He looks nice," said Mrs. Romer, following the boat with her eyes. "But, I say," said Elsworth, "can't you cut the dinner party and stay on? We could have such an awfully good time."

Mrs. Romer turned her eyes to Elsworth and shook her head. "I'm to be carried off by main force tonight," she said. "You see, my husband is coming on from Birmingham this afternoon to pick me up, and we positively must go to town by the last train."

"What rot!" said Elsworth. "Why, I don't believe you're more than—than a year or two older than I am."

"Ah, but I am," Mrs. Romer sighed, shifted her parasol again and turned to Elsworth. "Wasn't that the gun?" she asked. "Does that mean that the race is starting?"

"No. That's only the first gun," said Elsworth. "But never mind the race. Let's talk about—I mean—I want to tell you."

"I believe you are offended with me," said Elsworth gloomily. "I suppose I deserve it. I'd have begged your pardon last night only I thought you didn't seem to mind, you know."

sort of thing without my knowing it. Why did you do it? "There didn't seem to be—any other way," replied Elsworth. Then, meeting Mrs. Romer's eyes, he said: "But you needn't laugh at a man. It's rough."

"Certainly not," said Mrs. Romer. "Why, I'm old enough to be your mother—very nearly."

"I wasn't thinking of the races," said Elsworth. "A man doesn't think of things like that when he's—"

"You mean it?" said Elsworth. "Because, of course, I should be—only the thought perhaps—after what has happened."

"I mean—after last night—and what I've said today—but I couldn't help it, you know, but I thought you might find it a little awkward my meeting—"

"Oh, there's Dick on the barge," said Mrs. Romer. She waved a welcoming parasol, and a lifted straw hat on the Exeter barge identified Mr. Romer. Elsworth punted alongside and was forthwith introduced to Mr. Romer.

"You mean it?" she said, "take it too seriously—what I said."

"You mean—about minding?" "No," laughed Mrs. Romer, "about my hair, and so on. Goodbye. We shall see you in town."

"Good looking boy," said Mr. Romer as he walked up through Christchurch meadows with his wife.

"Ever hear of the trolley buzz?" said a Brooklyn resident whose business is in New York. "They say that some people do travel regularly on the trolley cars get the trolley buzz. You know the sound of the trolley, the buzz that begins low and rises gradually as the car increases in speed, keeping a uniform tone when the car is running at uniform speed, and then declining again as the car runs slower and stopping when the car stops? They say there are people who travel regularly on the trolleys who hear this sound all the time wherever they are, except when they are asleep. They call this having the trolley buzz."
