Shawville Girls are going places

Judy Coles of RR 3, Shawville has been selected at regional and provincial level, to represent Quebec at a National Conference held annually at Toronto, in November. This year, the Conference will take place from November 16 to 20.

Organized by the Canadian COUNCIL ON 4-H Clubs in collaboration with the Quebec Department of Agriculture, this conference permits young farmers to acquire a better knowledge and understanding of Canada and the part it plays on the international scene. To see that the young people understand the philosophy of the 4-H movement, become fully committed to it and exchange ideas with the other participants. For these purposes, small groups will be formed during the week to discuss the 4-H movement.

Judy was chosen because of her good judgment and sense of responsibility and also of her good leadership shown in the Shawville 4-H Club.

Also travelling on 4-H business this fall will be Patricia Hodgins who was last year's "Miss Shawville Fair".

Patricia will go on November 29th to an international 4-H Conference in Chicago, Illinois.

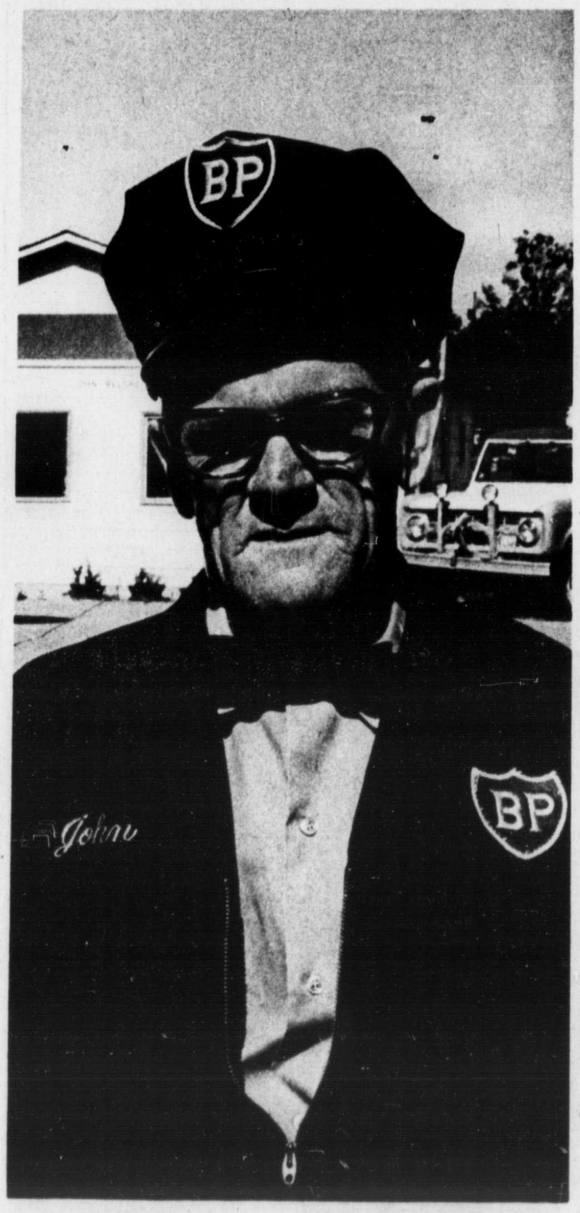
ODHA STUDY VIOLENCE IN AMATEUR HOCKEY

Following a meeting between Ontario Premier William Davis, some of his Cabinet Ministers and Norman Saunders, President ODHA and Don Swayne, Vice-President, Rules and Discipline Committee ODHA relative to the McMurty report on violence in amateur hockey, there were only two recomendations of the eleven submitted in the report where ***there was not total agreement. The ODHA plans to study these items and report back to the committee at an early date.*** The first item to "create a rule structure and environment consistent with the philosophy and objectives of true amateur hockey, e.g. fighting should result in an automatic game misconduct penalty" and secondly " the establishment of an Ontario Hockey Council".

The ODHA has also adopted a report of the Rules and Discipline Committee which they hope will curb some of the stick work which generally precedes a fight, by now permitting the linesman to inform the referee at the first stoppage of play of an infraction having occurred while following up the play. Previously he could only advise on major penalty infractions. The referee at his discretion may then assess the penalty. The ODHA also adopted a resolution which will see the instigator of a fight assessed an automatic game misconduct penalty plus a major penalty which must be served by a player on the ice at the time of the infraction. This could result in one player receiving a game misconduct and ***major penalties and the opposing player possibly receiving either a major or minor penalty or no penalty at all.*** Any player reciving three major penalties for fighting must also appear before the same committee. The ODHA also advised the ODMHA to continue to enforce its regulations regarding major penalties which calls for an automatic game misconduct and the player is subjected to additional punishment at the discretion of the league Executive.

The Potsdam Pioneers have been accepted into the Outouais Senior Hockey League which up to now comprised the following teams Embrum Panthers, Wendover Rockets, Ottawa Falcons, Gatineau Nordiques and Shawville Pontiacs.



John Belsher is well known in the Pontiac Area. His service outlet and the accompanying Sportsman Cafe have been a regular meeting place for hunters, fishermen and snowmobilers.

Belsher's is still a favorite meeting spot

As the new Highway 8 in western Quebec cuts its way through farmland and bush, some of the towns and villages and other signs of habitation of the old road are lost to view.

John Belsher of Wyman realized he must continue to keep his service station in the public eye. Fortunately, the highway cuts through the bottom acre of his farm, only four hundred feet from his former location, and last year he lost no time relocating his outlet near the new road.

John is well known in this part of the country. For nearly twenty years, the first BP station in the Pontiac area, and the accompanying Sportsman Cafe, have been a favorite meeting place for hunters and fishermen. Other regular customers asre the cottagers from nearby Norway Bay who find the delicious meals prepared by John's wife Mary, a welcome holiday outing.

Though there are service bays ready for use at the new station, John keeps his equipment at the old place and in the evenings he and his mechanic son Robert do repairs by appointment. During the daytime, John is busy at the gas pumps. There is no other hired help, but a finely-coordinated arrangement allows John to take meals at home while his son, or his wife, tends the station.

There is still another chore to be fitted in twice daily when during the school term John is the driver of one of the two school busses. He makes a total round trip of fifty-two miles daily, starting early in the morning, while his wife opens the station if he is not back in time. The station is open from eight in the morning till nine at night weekdays, Saturday eight till five, and Sunday one in the afternoon till nine at night. During the time John is driving the bus after school, Mary again takes over the outlet from four till five, and then Robert moves in.

The Belshers know everybody in the district. Before going into the service station business, John was a licenced cattle drover and became familiar with all the farms for many miles around when he contacted the farmers concerning sale cattle. His father was a cattle drover before him, in the same area. This livelihood began dropping off when community sales barns began replacing independent drovers in the late fifties.

Wanting to work with the public and needing a new occupation, John took over the Sportsman Cafe when it came on the market and turned from drover and cattle raiser to service man and restaurant owner.

Another group of John and Mary's regular customers are snowmobilers. A well-organized club has marked trails throughout the district leading in all directions from the Belsher operation.

Throughout the winter, there is always trade with the individualmobiler or with groups on club outings. They arrange to meet at John's place to reassemble during their outing or to plan a trip.

FOR FREE FRENCH

It is surprising how willing so many people are to go along with the wishes of the Quebec Government in the matter of learning and using French. Surprising because of how hard that same Government is making it for your everyday garden type anglophone to comply with those wishes.

Meaning of course, the cost of learning that language which everyone is supposed to learn.

At present one would think that since the French language is the only official language on this side of the Ottawa River, there would be ample free opportunity to learn it, but (would you believe?) it costs twenty dollars to take the course. And this, we are informed by the adult education authorities, is a special reduced and subsidized rate!

Once upon a time a person could take evening courses in French, or a number of other things, for a couple of dollars. And, if our memory serves us right you would even get your two bucks back if you attended all the classes.

And then there are a number of courses for which a person can be paid to take. These courses are considered important because they prepare a person for employment. Well, doesn't French fit into that category?

The Department of Education is entirely to blame for the fact that there are so many adults around who still have to go to school to learn French. They should now shoulder that responsibility, admit the blame for having completely failed in the teaching of French to children at a time when learning is far easier, and take on the task of righting this wrong with open and free classes for any and all people. More than that, they should arrange for these good-hearted people to have the very best instruction which is available so they can become fluent in French with as little wasted time as possible.

If it is going to cost a lot of money to put over this "French only" plan, that's their problem. Next time they think up some such hare brained idea, let them count the cost first. And when it comes to finding the money to pay for French lessons for the masses, let them not increase our taxes nor decrease our services; let them please just cut down on the overlapping costs of duplication within the governmental and para-governmental bodies in Quebec City and other places.

D'ONT JUST STAND THERE - FIX THE ROAD

How long should a road be closed for repairs? That could depend on the nature of the repairs, but the people of Ladysmith are not satisfied that the nature of the repairs being planned for their road warrant the closing of same forever!

The detour is particularly horrible for school children who must ride the bus for as much as two hours each day going around by Otter Lake and Campbell's Bay to get from Ladysmith to Shawville to school. (This ridiculous situation is jointly blamable on the closed road and on the Department of Education which considers it right for a beautiful school at Ladysmith to remain empty while all the children in that community go to school in Shawville. But that's another matter which gets us into the whys of varous other school closings throughout Pontiac.)

Back to the roads - there may come a time when the parents will put their foot (foots?) down and refuse to have their children take this joy ride around Pontiac just to get to school, especially when the winter sets in. The reason the school bus doesn't take the unpaved detour is the School Board won't be responsible. So it must constitute a danger in some responsible people's minds. Why, then, is the general public and particularly the unwary tourist expected to use that detour ?

So many questions without answers. Well, perhaps one answer. Get on with the job and fix the road. Is that too much to ask?

Lorene McLean uses many art Media

by: Jacqueline Murchison

An exciting exhibition of Mrs Doug McLean's art opened in Ottawa at Crossroads, Wellington at Holland on Monday, September 16th and will be continuing until September 30th..

Lorene was formerly from Ottawa but now lives at Green Lake and works in her husband's insurance office in Shawville.

She has taken art training in Toronto and Ottawa and has exhibited in the Markham Art Show as well as art shows run by the Ottawa I.O.D.E. and the Engineers Wives Association, and at Municipal Art Shows at City Hall. Her work was also on display in "The Loft" in Shawville.

Her one-woman show at Crossroads has 53 works on display - batik, woodcuts, pen and ink drawings, watercolors, acrylics and oils. All are representational, and depending on the mood to be rendered, some are intensely realistic, while others are lyrical and poetric.

The 14 batiks, inspired by Canadian nature and wildlife, are sensitively created. Her outstanding control of wax and dyes on silk allows her to draw with flowing freedom and excellent draughtsmanship. Some of the batiks are framed and some are made as hangings.

The 5 emphatic woodcuts of winter forest scenes demonstrate her skillful use of pure white and black to give a dramatic effect of light and shadow.

Eleven pen and ink drawings, many of old Ottawa Valley farm homesteads,show her to be an accomplished graphic artist and a master of detail.

Some of the 17 watercolors are landscapes from Clarendon, some are city street scenes, and some are still life paintings. In each she capitalizes on the medium's transparency, fluidity and texture.

Her versatility is demonstrated by the way in which she is also completely at home using oils and acrylics, of which there are six colorful and much admired examples in the show.

The "AUTOMATIC PERM"
now featured at
Marjorie's Beauty Salon
374 Clarendon St., Shawville, Tel. 647-2711

Marjorie Grant, has announced the arrival of a precision perming system, a new method that features pre-programmed permanent wave results.

Called UniPerm, it replaces guesswork perming with an automatic curling process. During pre-introductory testing, hairdressers noted that they could "concentrate more on creative cutting and styling, now that the technical aspects are completely automatic".

At the same time, the system provides an automatic conditioning treatment. In addition to incorporating formulas that are far milder than the currently-used cold waves, it actually puts extra conditioners into the hair.

These automated processes eliminate virtually all of he potential post-perm problems, including an over-curled or over-permed look, uneven curl, curl relaxation, dryness, dullness, and poor condition. Instead, the results are said to be extremely natural, in terms of curl, appearance, and texture.

The UniPerm Precision Perming System was created and developed by Helene Curtis, the world's leader in professional hair care products.

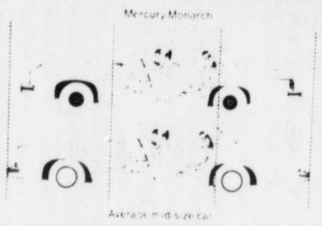
Put together in a new precision size automobile.
1975 Mercury Monarch. Precisely right.

Monarch Ghia 4-door sedan



Monarch Ghia 2-door coupe

It's not just a new car...it's a whole new idea.
The idea behind Mercury Monarch is this: design a car trim enough to give you excellent operating economy, together with the room and comfort you usually associate with a bigger car.
Precision size Monarch is over one foot smaller than last year's average mid-size car, yet it has more front headroom and comes within 1.3 inches in legroom. Monarch seats 5 adults in comfort and its 14 cubic foot trunk offers plenty of luggage space.

IMPORTANT NEWS FOR NEW CAR BUYERS.
Some 1975 cars require the use of more expensive unleaded gasoline which is not readily available.*
We want you to know all Ford of Canada 1975 carlines can be refueled with any gasoline, at any pump, at any station, anywhere. This also means you can select the gasoline price that suits you best.

Shawvile Fair Tractor drawing competition

A tractor drawing competition was held on Saturday evening September 14 in connection with Shawville Fair. This was the second annual competition held at the fair and it proved very successful, attracting one of the largest crowds ever at the fair. The competition was keen which kept everyone interested.

There were 54 entries which included 4 modified tractors. These are tractors which have been redesigned especially for drawing competition. The rear end and transmission from a tractor are used and then whatever kind of motor which will give excessive power is used. These tractors were using rebuilt motors from cars, trucks, etc. One machine had two car motors connected , one ahead of the other. This proved to be quite exciting to the crowd. Some competitiors have even used airplane motors but there were none of these at Shawville.

There were eight classes for the various weights of tractors.

Labbat Brewery Ltd gave a trophy for each class and the following business men also gave lovely trophies, J C Meileur and Fils Calumet Island, Russell's Service Centre, Shawville,Gordon's Farm Supplies Ltd, Shawville, Harold Wilson, IHC Campbell's Bay, Jamieson Farm Equipment, Renfrew, Imperial Oil, Shawville, Diesel Injection Service, Ottawa.

Also Loren B Hodgins donated a very lovely trophy in memory of his father and mother who were always active around Shawville Fair. This trophy is for annual competition and will be keenly competed for in the coming years.

There were many others who contributed to the success of this event such as H I Hobbs and Sons in the use of their scales. Clarendon Council in the use of their grader, Grant Murray in the use of his truck. To these and others who helped in various ways to make this event such a success and without their help we could not have held this event. The chairman and director in charge of this committee are very grateful to everyone for their co-operation.

Results of the draw were published last week.

Cross-Country Running

by John Petty

With the fall season upon us, Pontiac High School Cross Country teams are off and running with one meet already under their belts.

Team members face a busy upcoming schedule. On successive Fridays, they travel to Pembroke, Petawawa and Deep River. The top two teams in age category from these meets then race against the best from the Ottawa area in late October. The top teams from this meet qualify for the all-Ontario championships to be held in Toronto.

Pontiac also hosts arch-rival Philemon Wright in an exhibition meet scheduled for October 11th. A combined regional team from these two schools will then compete in Thurso, Quebec, on October 20th.

The measure of success gained in Renfrew last Friday offers encouragement for the coming season. Quantity breeds quality and with close to 40 runners forming this years team, several newcomers have already made their presence felt. Impressive new additions among the girls include Phyllis Smart, Sylvie Soucy, Terry Lyn Hodgins, Valerie Thompson, Mary Ann Horner, Connie O'Donnell, and Nancy Young. Wayne Lang, Tim Smart, Gerry Nugent, Leslie Orr, Stuart Fulford, add new strength to the boys team.

Returnees from last year's team expected to have a big year include Lester Bronson, Debbie Bronson, Julie Fraser, Maia Christie, George Horner, Steve Jodoin, Dan Collins, Royal Soucy, Ron Beattie, Kirby Smart, Brent Manwell and Mark Clarke.

Success in Cross-Country is a combination of hard work and desire, two ingredients this year's team seem to have in abundance.

Les Fermieres a leur Meilleur

C'est sous ce thème que s'ouvrira le Congres Provincial des Cercles de Fermieres, au Motel Universel, à Quebec, les 30 septembre, 1er, 2 et october 1974.

Si les Fermieres sont à leur meilleur, c'est parce qu'après soixante (60) ans d'existance nous avons su maintenir vivante une Association Necessaire, Valabe et Importante.

Les raisons qui ont motivé les membres à persévérer sont:La diversité des sujets d'étude, La qualité de notre artisanat, La modération dans nos idées, La jeunesse d'esprit, Le dynamisme intérieur, La gratuité du don de Soi.

Notre Mouvement se veut à la fine pointe de l'actualité et, constamment à l'avant-garde d'orientation nouvelle. C'est pour ces motifs que le nombre de nos membres s'accroit sans cesse et que nous comptons, cette année, plus de Huit cents (800) Cercles à la grandeur de la Province.

Announcing...
a new car designed to give you an efficient use of space, fuel and money.

Granada Ghia 4-Door Sedan. Shown with optional deluxe bumper group.

Ford Granada.
The design of the times.

The Design: With an overall length of 197.7", Granada is over one and a half feet shorter (and about a quarter-ton lighter) than most 1974 mid-size cars, so you can expect good gas mileage. It's about the size of a Mercedes 280 and features plenty of family-size room inside.

The Construction: Granada's body parts are welded into a solid unit. And then, to help protect against rust, Granada's body is covered with 13 lbs. of primers and chip-resistant baked enamel.

The Comforts: A close look at Granada reveals contoured reclining front bucket seats that adjust to more than 100 positions, and tuned suspension and a sophisticated use of insulation result in an extremely quiet ride.

The Economics: Every Granada comes with gas saving steel-belted radial ply tires that deliver excellent tread life. And all Granadas feature solid state ignition for less scheduled maintenance than former systems.

The Models and Features: Granada is available in 2-Door and 4-Door Sedans and is offered in two series, Granada and Granada Ghia. Standard features include: a 250 CID Six engine with solid state ignition; 3-speed manual transmission; front disc brakes; BSW steel-belted radial ply tires; bright moldings and opera windows (2-Door); contoured individual reclining front bucket seats; deep cut-pile nylon carpeting; burled walnut woodtone applique on instrument panel; sound insulation and ride package; and all Ford Safety Design Features. And Granada Ghia models offer even more standard features and appointments.

Reminder. All Ford of Canada 1975 car lines can be refueled with any gasoline, at any pump, at any station, anywhere. This means you can select the gasoline price that suits you best.

MICHELIN is NUMBER ONE in the radial tire field

WHY...

Michelin pioneered and invented the steel-belted radial in 1948. Since then, thousands of satisfied customers have proven Michelin's exceptional value, often getting over twice the mileage of conventional tires, while saving on their gas bills.

A reputation like that, speaks for itself. That is why, for over 25 years, Michelin has enjoyed the reputation of being the world's largest manufacturer of steel-belted radial tires.

In Memory

BEAN- In loving memory of a loving and dear husband & father, Thomas Erwin Bean, who passed away on Sept. 23, 1973.
Till memory fades away and life departs,
You live forever in our hearts.
Lovingly, Wife Jean & Family
4838xS25

DOUGHERTY- In loving memory of a dear husband, father and grandfather James H. Dougherty, who passed away Sept. 25, 1954.
God knew that he was suffering
That the hills were hard to climb.
So He closed his weary eyelids
And whispered "Peace be thine".
Away in the beautiful hills of god,
By the valley of rest so fair,
Some day, we know not when,
We will meet our loved one there.
Sadly missed by wife Pearl Dougherty, daughter Geraldine McSweeney, granddaughter Ann McSweeney.
4861xS25

DOUGHERTY- In loving memory of a dear grandfather and great-grandfather, James H. Dougherty, who passed away Sept. 25, 1954.
Someone remembers,
Someone cares,
Your name is whispered
In my prayers.
A smile, a tear
A thought sincere
How often we wish
That you were here.
Ever remembered by granddaughter Linda Cliff and great grandson Duane. 4861xS25

DOWD- In loving memory of a dear husband and father, William Dowd, who passed away Sept.26, 1970.
We will always remember the way he looked
The way he spoke and smiled.
The little things he said and did
Are with us all the while.
For down the lane of memories
The light is never dim
Until the stars forget to shine
We will all remember him.
Mabel & Family. 1195bS25

FLEURY- In loving memory of a dear husband Lucien, who passed away Sept. 28, 1973.
Days of sadness still come o'er us
Tears in silence often flow.
For memory keeps you ever near us
Though you died one year ago.
Wife Lily.
1184bS25

FLEURY- In loving memory of a dear father and grandfather Lucien Fleury, who passed away Sept. 28, 1973.
One year has passed
since that sad day,
When one we loved
was called away;
Good took him home -
it was his will,
Within our hearts
he liveth still.

Gone is the face
we loved so dear
Silent is the voice
we loved to hear;
Too far away
for sight or speech,
But not too far
for thought to reach,
Sweet to remember him
who once was here,
And who, though absent,
is just as dear.

O happy hours,
we once enjoyed,
How sweet their memory still,
But death has left a loneliness
The world can never fill.
Sadly missed by Daughter Lucille, Gil and Grandchildren Gillie, Joey & Julie. 1143bS25

FLEURY- In loving memory of a dear father and grandfather Lucien Fleury, who passed away Sept. 28. 1973.
In our hearts your memory lingers.
Always under, fond and true,
There's not a day, dear Father,
We do not think of you.

Our family circle has been broken,
A link gone from our chain;
But though we're parted for a while,
We know we'll meet again.
Some day we hope to meet you,
Some day we know not when,
We shall meet in a better land
Never to part again.
Sadly missed by Daughter Pauline, Doug, and Granddaughter Francine. 1143bS25

TRUDEAU- In loving memory of a dear grandson Nelson, who died accidentally Sept. 29, 1973.
We do not need a special day,
To bring you to our mind,
For the days we do not think of you,
Are very hard to find.
If all the world were mine to give
I'd give it yes and more
To see the face of Dear Nelson
Come smiling through the door.
Always in our heart, Nan & Grandpa. 1290bS25

TRUDEAU- In loving memory of a dear son and brother, Nelson Irvin, who was accidentally killed Sept. 29, 1973.
He little thought when leaving home
That he would not return.
That he in death so soon would come
And leave us here to mourn.
We do not know what pain he bore.
We did not see him die.
We only know he passed away
And never said goodbye.
Our hearts still ache with sadness
And secret tears still flow.
What it meant to lose him
No one will ever know.
When days are long and lonely
and everything goes wrong.
We seem to hear him whisper
Cheer up and carry on.
And when we see his portrait,
He seems to smile and say,
Don't cry, I'm only sleeping
We'll meet again some day.
Sadly missed and lovingly remembered, Mom, Dad, and all the family. 4885xS25

Stark's Corners Institute

by: Mrs Bert Stark

Stark's Corners Institute met at the Robt Smart home with Mrs Allen Smart assisting hostess.

Fourteen members and four visitors were present.

The highlights of the meeting were a demonstration on cosmetics and how to apply them given by Mrs Mac Hayes.

Our August meeting was held at Mrs Art Smart's home on August 14th . The roll call was guessing the weight of your right hand neighbour and paying the difference in your guess and the correct weight answered by 13 members and one visitor.

Strawberry supper was reported a big success. Some articles came in for Quyon Fair display.

We didn't meet in July and June. We went out for supper and packed ditty bags later.

Winston McBane wins Silage Competition

The annual corn silage competition held by the Quebec Dept of Agriculture has been won this year on the Regional Level by Winston McBane of Quyon.

Major factors resulting in Winston being picked as the winner were maturity of corn, plant population per acre, uniformity of crop, and being free of weeds.

Winston wins a prize of $200.00 and is awaiting word on how he placed in the Provincial Corn Silage Competition.
