MURDOCK CHARGE WILL NOT BE INVESTIGATED Premier Says Naval Correspondence Will Be Tabled

GOVERNMENT SAYS THERE ARE NO GROUNDS FOR AN INQUIRY INTO MURDOCK ALLEGATIONS

Debate Lasted from Eleven Last Night to Two-thirty this Morning—Reason Alleged Is that Judge Robson Personally Protested Against Publication of His Letters—Hundredth Divorce Bill Was Put Through the Private Bills Committee—Senate Worked Hard All Day.

(Associated Press Despatch)
OTTAWA, June 30.—That there was nothing in the Murdock allegations against the Government of sufficiently tangible form for the basis of an investigation, was the Government's reply to demands of Liberal members for an investigation into the Murdock charges. The long-heralded debate on the Murdock charges lasted from 11 o'clock last night until 2.30 this morning. Hon. Arthur Meighen said he saw no reason for referring to the charges as "a scandal." The only reason the Government had for not publishing the Robson letters was Judge Robson's personal protest against publication. They did not reflect on the Government. The Government would welcome an investigation based on facts instead of "diminutive fictions."

HUNDRETH DIVORCE BILL THIS SESSION ENDS WORK OF PRIVATE BILLS COMMITTEE

The hundredth divorce bill of the present session of parliament was formally put through by the private bills committee yesterday. It was also the final plea for dissolution to come before the committee and formal adjournment for the session was made. Before the close Dr. Michael Steele, chairman remarked that next year the committee would be more strict in regard to the two hundred dollar fine which is imposed when petitions are not placed before the House within the prescribed six weeks from the opening of the session. The number of applications this year was 123 and the majority of these, it is stated, came from Toronto. Returned soldiers were affected in almost fifty per cent of the applications.

Commons Has Lond Session.

Answering a question asked by Hon. W. L. Mackenzie King, Sir Robert Borden said that the correspondence between the Government and the British Government on the matter of ships to be given to Canada would be tabled unless it was of a confidential nature.

The increased indemnities proposal was discussed and additional supplementary estimates were tabled. The Senate amendments to the bill amending the Criminal Code were concurred in without opposition.

The Government accepted the amendment to the Pensions Act which provides for the deduction of an amount from the pension equal to the salary earned by the pensioner if he accepts a position from the Crown.

A suggestion to proceed with estimates was objected to on account of the lateness of the hour and a suggestion that the House meet at eleven o'clock this morning met with objections also. This latter course had been suggested to permit of finishing of business of the session today.

The House adjourned at 2.30 a. m. until two this afternoon.

Interests Are Protected, Says Senator.

The Senate was in session both afternoon and evening yesterday wiping out the legislative slate in preparation for prorogation. Among the measures passed were the Aid to Shipbuilding Bill, the Income Tax Act, the special War Revenue Act, the Wheat Board Bill and the Franchise Act.

On the second reading of the shipbuilding bill, Senators Bostock and Dandurand protested against the lack of information supplied by the Government and also urged that contracts made under this legislation be confined to existing shipyards. The shipbuilding industry was an important one. It represented a great investment, Senator Turfitt said.

RIOTING AGAIN BREAKS OUT AT BELFAST

(Associated Press Despatch)

The police prevented serious damage to property, but in the fighting the head constable was struck by a stone and severely injured. Several other policemen were severely hurt.

SERIOUS FOOD RIOTS LATELY IN GERMANY

During Trouble at Wurzburg Yesterday the Troops Fired Into Crowd.

(Associated Press Despatch)
BERLIN, June 30.—Food disturbance occurred in the Central Markets here yesterday and several arrests were made. At noon a large body of women marched to the Chancellor and vainly sought an interview with Chancellor Fehrenbach to protest against the high cost of food. At Frankfurt there were additional disorders, and the windows of the cafes were broken. The police dispersed the rioters by firing in the air.

Five persons were killed in the recent riots at Hamburg, according to an official report. During disturbances at Wurzburg yesterday the troops fired, wounding several persons.

TWO LADS ARE SENT UP FOR FOUR YEARS

Jos. Levesque Is Committed to Appear Before King's Bench—Auto Prosecutions Heard.

Four years in the Reform School, Montreal, was the sentence imposed upon the two juvenile offenders by Judge Mulvena yesterday, for their Sunday night escapade, when two horses were taken from Mr. R. O'Donnell's stables and a quantity of goods was taken from J. A. Wiggett & Company's shoe store.

The two lads are Israel Vallieres, fifteen years of age, who has already served four years, and Donat Deslauriers, thirteen years old, both of this city.

Bissonnet & Scott preferred three charges for breaches of the Motor Vehicles Act which were also heard. A fine of ten dollars and costs was imposed on each of two charges against the McCaw-Bissell Company for having a wrong number on a car and for using a car that was not registered.

G. Choquette was also fined ten dollars for driving without a license, and W. Wright was fined ten dollars for speeding.

This morning, Joseph Levesque, Montreal, was committed to stand his trial at the next session of King's Bench on a charge preferred by H. St. Clair Clayton, of the Mutual Life Assurance Company, for appropriation of funds belonging to the company. He will be liberated if he can furnish two thousand dollars bail.

The case of Choquette against O'Hara for assault was postponed until Friday.

LITTLE HOPE FOR MAN
LOST IN THE WOODS

QUEBEC, June 30.—The relatives and friends of George Rood, a Quebec shoemaker, who was lost in the woods north of Valcartier last Saturday, when he left a fishing party to walk to a neighboring farm, have practically abandoned hopes of finding him alive. Search parties have hunted through the woods, but have failed to find any trace of him.

The Hydro Power Commission is to assume the bonds.

CZECHO-SLOVAK WELCOMED AT ANCIENT CITY

Brig.-Gen. Landry Reviewed the Troops and Extended Welcome to Them.

(Associated Press Despatch)
QUEBEC, June 30.—The City of Quebec yesterday extended a hearty welcome to 3,000 Czecho-Slovak troops who are now quartered at Valcartier. They were reviewed by Brigadier General Landry and were also welcomed on behalf of the city. A big programme had been mapped out for the afternoon and evening, but owing to a heavy downpour of rain the arrangements had to be altered. In spite of the adverse weather, the Czechos were the guests of the exhibition commission last evening and were given the freedom of the grounds. They entrained later to return to Valcartier.

SOVIET REPLY WAS NOT VERY SATISFACTORY

Russian Minister of Trade and Commerce Held Another Conference with Lloyd George.

LONDON, June 30.—Leonid Krassin, Russian Soviet Minister of Trade and Commerce, had a conference with Premier Lloyd George last night at the Premier's official residence in Downing Street. The meeting lasted an hour.

The object of Minister Krassin's visit to the Premier was to submit to him a Moscow reply concerning the Soviet Government's attitude toward the foreign debt and private property of foreigners expropriated by the Russian Government. It is stated that the reply was unsatisfactory, but that the negotiations will be continued.

Abandon Efforts to Prevent McAdoo's Name Being Placed In The Formal Nomination

Both the Cox and Palmer Forces Viewed With Evident Satisfaction the Scrimmage Within the McAdoo Forces Which Was Threatening to Bring McAdoo to the Front at Once and Make the Nomination a Three-Cornered Contest from the Beginning.

(Associated Press Despatch)
SAN FRANCISCO, CAL., June 30.—Stripped for action, the Democratic National Convention today swung into the business of selecting a presidential nominee. With all nominating addresses restricted to twenty minutes and seconding speeches to five and limited to not more than three in number to a candidate, each of the possibilities had not more than thirty-five minutes for full description of his merits and capacity for the highest office in the United States.

Speeches were on the programme nominating William G. McAdoo; Attorney-General Palmer; Governor Cox, of Ohio; Chairman Homer S. Cummings, of the Democratic National Committee; Governor Edwards of New Jersey; Senator Hitchcock, of Nebraska; James W. Gerard, former United States Ambassador to Germany; Senator Owen, of Oklahoma; John W. Davis, United States Ambassador to Great Britain.

At the eleventh hour friends of William G. McAdoo abandoned efforts to prevent his being placed in formal nomination. Dr. Burrus Jenkins, of Kansas City, will deliver the nominating speech. The total McAdoo strength of the first ballot, according to the latest estimates of McAdoo supporters, will approximate three hundred votes. Some say it will be more than two hundred and fifty, while others insist it will run over three hundred.

Thus far, the McAdoo men said they have suffered only one defection. The Maryland delegation, which had been counted in their column, will cast its first votes for John W. Davis, according to information given out early today. The McAdoo supporters said they expect Maryland's votes to return to them after a few ballots. Both the Cox and Palmer forces viewed with evident satisfaction the scrimmage within the McAdoo forces which was threatening to bring McAdoo to the front at once and make the nomination a three-cornered contest from the beginning.

Palmer headquarters, in a formal statement that the Attorney-General's position was stronger than it ever had been before, announced that his forces were intact and claimed votes in the convention which would

THE ANTI-BOLSHEVİK FORCES CONTROL RICH AGRICULTURAL LAND

(Associated Press Despatch)
Washington, June 30.—General Wrangel's anti-Bolshevik troops in Southern Russia now control approximately 22,000 square miles of rich agricultural land with heavy stores of grain. The fighting between General Wrangel's forces and the Bolsheviks is reported as heavy at times.

SUGAR CONTROL IS LIKELY TO BE CONTINUED

No Free Letter Post for Members of the British Parliament.

(Associated Press Despatch)
LONDON, June 30.—In answer to questions in the House of Commons last night, Mr. Bonar Law, government leader, indicated the continuance of the sugar control and no free letter post for members of parliament.

The bill for continuing the food controllership was introduced and the Overseas Trade Credits Bill was read a second time after some opposition in the House of Lords.

Lord Curzon said the provisions for establishing civil administration in Palestine would be submitted to the League of Nations. The mass of immigration would not be allowed mandatory power, and it would not be the Jewish minority that would exercise government control.

TOMORROW, DOMINION DAY, THERE WILL BE NO ISSUE OF THE DAILY RECORD.

not be shown on the first ballot because they would be cast for favorite sons and come to the Palmer column later.

Cox forces, professedly undisturbed by the wet and dry argument which has ranged around its candidate and the outside issues which have been injected into his campaign, were tightening up their lines and were ready to start the ball rolling.

Despite the promise that the convention would have a big three at the outset, dark horse talk was never more persistent than it is at the moment the candidates are about to be placed in nomination.

The names of Vice-President Marshall, John W. Davis and Homer S. Cummings, chairman of the Democratic National Committee, were always heard when dark horses were being discussed, and delegates were taking into consideration that each of the big three could prevent the others from getting a two-third vote.

CANADA'S FIRE WASTE REACHES ENORMOUS FIGURE ANNUALLY— IS A MENACE TO DEVELOPMENT

Mr. Grove Smith, of Commission of Conservation and Department of Insurance, Ottawa, Delivered Comprehensive Address on Fire Waste and Means of Reducing It—Canada's Annual Loss Reaches Four Dollars per Head—Speaker Appeals for United Action.

THE Associated Boards of Trade were fortunate in arranging for the presence of Mr. Grove Smith, of the Dominion Commission of Conservation and the Department of Insurance, Ottawa, who delivered a very interesting and instructive address on Fire Waste and its Prevention, at the Summer Session held at Lennoxville last week.

After expressing his pleasure at being able to address the meeting, Mr. Smith conveyed the best wishes of the Department for the success of the meetings. Mr. Smith said that he was also pleased to be able to speak on the subject of conservation, in view of the fact that Canada today is facing a better public spirit than ever and the people were ready to accept and act upon advice given in any matter affecting public good.

History of Commission.

Tracing the history of the commission, Mr. Smith said that in 1908, a delegation from Canada went to the United States and conferred with the Late Theodore Roosevelt on the problems of conservation. The result of this was the adoption of a policy of active prevention of waste, and the Commission of Conservation was formed.

"Our resources are boundless," said Mr. Smith, "and, perhaps for that reason, we are a wasteful people. Senator Edwards once said that inside of twenty years, all our timber east of the Rockies would be cut down. As a matter of fact, there is but little left. Repeated fires despoil vast areas annually. Studies have been made in this matter, and steps have been taken to reduce our fire loss. The Governments and private interests have undertaken to lessen this loss with appreciable results."

The importance of fire destruction has impressed itself forcibly upon the country. Nature may reclothe the forests, but she cannot rebuild homes. These must be recreated at great expense of money and labor.

Canada's Loss Is Appalling.

"In 1913, I visited every large city in the world and studied fire conditions in each. As for this country, the fire loss is appalling. For four years, from 1916 to 1919, the fire waste amounted to \$21,750,000 per year. Add to this the maintenance of fire fighting equipment and the cost of insurances and we have a total of \$49,000,000 per annum. In 1918, due perhaps to the large number of munitions disasters, the cost soared to ninety million dollars, an average of eleven dollars per head for the population. In Montreal alone, the cost of fires is two million, with five million additional for insurance. Statistics show that Great Britain has a fire loss of only fifty cents per head; Germany, 29; Switzerland, 15; Sweden, 11; and the Netherlands, 8. Canada's loss is four dollars per head per year. The question of congestion of values is not involved. Manchester, with the greatest cotton value in the world has a total loss of less than \$230,000, while Montreal, with less than one-third of the value, has a waste of \$1,900,000.

Reason Found in Carelessness.

"The conclusion is found to be a psychological one—our point of view is not correct. We are a wasteful people, and our buildings, for the most part, have been of wood, because timber used to be cheap. We have not built for permanence. In Europe, they build for generations, here we build for only a few years. We are not a tent-dwelling people."

ARTHUR LeBEAU, of Winoski, Vermont, who declares he is now in the 'pink of condition' and enjoying life for the first time in many years as the result of taking Tanlac.

"Thanks to Tanlac I am now enjoying life for the first time in years," recently declared Arthur LeBeau, foreman of the Porter Screen Co., Winoski, Vermont. "For five years I was a sick man. My principal trouble was indigestion. I had no appetite and generally went off to work without any breakfast because I knew if I ate anything it would only upset me."

"My condition was so bad in fact, I could neither sleep, eat nor work with any satisfaction, and was so nervous that the least thing would upset me. Nothing seemed to agree with me and I would have severe cramping pains in my stomach and at times my heart would palpitate badly. I also suffered from shortness of breath, and the least little exertion would make my heart thump like an engine."

"At last I almost decided I would give up my job as I got so weak and miserable I felt I could stand it no longer."

"One night as I sat reading a paper I saw a statement about Tanlac which convinced me it was just the medicine I needed. It helped me from the very first dose and at the time I had finished my third bottle, I hardly knew myself."

"I never have the slightest symptoms of indigestion now and I feel like a brand new man in every way. My appetite is splendid, my nerves are steady and I sleep soundly at night. The work I used to dread now seems easy for me and I am now in the very 'pink of condition.' Of course, I am only too glad to recommend this medicine."

Tanlac is sold in Sherbrooke by Griffith's Drug Store and A. E. Dunberger under the personal direction of a special Tanlac representative. (Adv.)

Finally, I tried 'Fruit-a-tives.' Before I had used half a box I saw improvement; the pain was easier and the swelling started to go down.

MANY SCHOOLS HELD PICNICS IN DUNHAM

Homemakers Had Concert—General News.

DUNHAM, June 30.—Wednesday last was a general picnic day, and three Sunday School picnics were held at Selby Lake.

The Anglican Sunday School of Cowansville picnicked at the grounds of Mr. Teel, while the two local Sunday Schools went to the grounds of Lakeside Inn.

The day was perfect, and, as is customary when everyone is a gracious mood and on such occasions, every feature of the day's pleasure was delightful. As is usual in all rural towns food was abundant, and the tables fairly groaned under the weight of good things.

The time during the afternoon was given entirely to sports and social intercourse, boating and bathing took up much of the time of the younger portion of the parties in the early afternoon, and later came races of various kinds which were heartily entered into by many.

Mr. Maxime Larose, of Freighsburg, visited the grounds during the early part of the racing contest and contributed generous prizes to the winners of several races.

Following are the results:

Boys' Race, 10 years old.—D. Beatty, E. Selby, 2, Roff.

Boys' Obstacle Race, 10 to 15 years.—H. Yeats, A. Beatty, H. McElroy.

Girls' Obstacle Race, 10 to 15 years.—Helen McElroy, Mavis Geer, Florence Rutter.

Ladies' Race.—Miss McKelvey, Miss Martin.

Kiddies' Race.—Robert McElroy, J. Day, Fred Watson.

Girls' Potato Race.—Helen McElroy, Annie Beatty, Susie Beatty.

Boys' Potato Race.—Eddie Robinson, Herbert McElroy, Arthur Beatty.

Sack Race.—Eldon Robinson, H. Yeats, Frank McGuire.

Girls' Race, 2nd Section.—A. Beatty, M. Coffin.

Mr. Will McElroy took some of the children on a hay wagon and Mr. H. Stevens another load on his motor truck, and various owners of automobiles and carriages helped greatly in getting those to the grounds who had no other way of getting there.

Together the day was a delightful outing.

Homemakers' Concert.

The Homemakers' Concert, on Wednesday evening, was a very pleasant affair and well attended.

The Dunham Brass Band rendered several selections which were greatly enjoyed.

Following is the programme:

Vocal Solo, "At the Gate of the Palace of Dreams," by Mrs. Arthur Brown, accompanied by Mrs. Arthur Selby; Mr. Coulter Dennison, of Montreal, gave several pianoforte solos, which were excellent and which called for an encore each time.

Vocal solo, "Castles in the Air," Mr. Harold Stevens; Mrs. Dudley sang a taking little Irish song, "I Remember Long Ago," and when recalled sang "You'd Better Ask Me"; Mrs. Murry sang, "Somewhere a Voice is Calling," and as an encore, "A Perfect Day"; Mrs. Dudley Carleton recited "Lisbon," very pleasingly.

The President, Miss Emma Baker, gave a short outline of the work of the Club in this Province, Dunham having the honor of organizing the first "Woman's Institute" in this Province.

The President then called on Mrs. George Beach, of Cowansville, County President, who had recently attended the Provincial Convention at Macdonald College, to give some of the points gleaned at the convention, one of which was to go back to the original name of "The Woman's Institute," instead of the "Homemakers' Club," now in use.

"O Canada" and the National Anthem brought the concert to a close, ice cream and cake were served in the Old Fellows' Hall.

The proceeds of the evening amounted to thirty dollars and fifty cents.

Confirmation Was Held.

Bishop Bernard, with four attending priests, paid an official visit to Holy Cross parish on Thursday, Friday and Saturday. A Confirmation service was held on Friday morning, when a class of fifty-nine candidates was confirmed.

Bishop Bernard left on Saturday afternoon for Sweetsburg, where a similar service was held.

Ladies' Aid to Meet.

The Ladies' Aid will hold its regular meeting on Wednesday afternoon, with Mrs. A. G. Cameron as hostess. Tea will be served at six o'clock as usual, following the business meeting at five o'clock.

A SERVICE ON MISSIONS AT AYER'S CLIFF

News and Notes of General Interest from Ayer's Cliff.

AYER'S CLIFF, June 30.—Last Sunday evening the C. E. Service was conducted by Mrs. F. A. Johnston. Several familiar hymns were sung at the opening of the service. The organist was accompanied by a strong orchestra. Miss Olive Brown gave the Bible reading, followed by a short talk by Mrs. Johnston, in which she told of the great enjoyment in attending the recent convention in Montreal, of meeting and listening to the noble women at the head of the Women's Missionary Auxiliary.

She pointed out that an important matter for the local branch was earnest prayer that more might be led to enter into the work so that the church and society here might do something real. Mrs. Rowell read a true story of a blind native girl in Africa written by Miss Melville.

Photographs of the missions and missionaries were shown, some of them personal friends of Mrs. Moore, and some of them have addressed this congregation and in whom a great interest is taken. Mrs. Moore gave some little stories from life told by Miss Melville, who gave a resume of her wonderful twenty-five years work in Africa.

Mr. Dall Moore then gave a report of his visit to the big convention he attended in Des Moines, Ohio.

The Students Volunteer Movement meets every five or six years to obtain volunteers for missionary service, not only evangelical, but business men, doctors, dentists and printers.

There were seven thousand present, forty-nine nations being represented. From Canada 490 attended and no one could describe the hubbub when all the university were giving their college yells in unison.

He quoted many remarks from the brilliant and talented men who addressed the sessions. He said it is estimated that there are seventeen hundred million people in the world, and not over seven hundred million have heard the name of Christ. A great menace is the Mohammedan religion with its two hundred million which is creeping over Africa. At a collection taken at the conference over fifty thousand dollars per annum was promised for the next three years for carrying on mission

MAGOG SCENE OF MEET OF BOY SCOUTS

Fine Entertainment Was Presented by Boys—Other News from Magog.

MAGOG, June 30.—Commissioner Rev. E. C. Russell, of Sherbrooke, accompanied by fifty Boy Scouts from Sherbrooke, North Hatley and Coaticook, came to Magog on Saturday last, and remained over until the Sunday night Halifax. A part of the group camped out on the High School grounds, while others were billeted at the homes of the local Boy Scouts. On Saturday evening, they gave an entertainment in the Magog Hall, which admirably depicted the scope of Boy Scout work. The house was crowded and as a result of having witnessed this exhibition of the Boy Scout work, those who attended will carry away with them a far better idea of what this movement is doing, than they would get in any other way. The proceeds of this concert will go to the credit of the local Scout fund.

On Sunday morning they attended divine service, accompanied by the local Scouts, the boys marched in a body to the Catholic Church, where the Catholic members of the troops fell out and, accompanied by D. S. M. Kingsland, attended service at St. Patrick's Church, while the main body went to the Methodist Church, where they were given an inspiring talk on what a Scout represents, by Com. Russell. In the evening, they were entertained at service in the Anglican Church, which was conducted by Com. Russell. In both addresses, Mr. Russell proved himself an especially convincing speaker and also gave his hearers considerable insight into the sphere of activity of the Boy Scout movement and what it was doing toward uplifting humanity by looking after the needs of the boy physically, mentally and morally.

Mr. Russell, in his address, also mentioned the medium of an active, red-blooded organization. He also took advantage of this opportunity to publicly compliment both the local Boy Scout troop, and the officers and also spoke on the hospitality extended to the visitors by the local boys, and on the excellent condition of the streets and the sidewalks of Magog.

It was an active week-end for the visiting and local boys and the spectacle of the various parades headed by their efficient bugle band and drummers was enough to make any spectator wish that they were eligible to link up with an organization of this nature. However, all can link themselves up with it by helping them out financially in the drive which is on at the present time.

The following is a partial list of the results of the recent June examinations at the Magog High School:

SERIOUS FIRE BROKE OUT AT COATICOOK

Considerable Damage Done by the Flames—Other News of Interest.

COATICOOK, June 30.—What proved to be a rather serious fire was discovered at about midnight, Sunday, in the Giroux building at the corner of Compton and Wellington streets. The building, which was owned by Alderman Isaac Giroux, was a two-story wooden frame building. The roof and part of the building, which had recently been rebuilt, was covered with iron, which was a great help in preventing the flames from spreading to adjoining buildings. The ground floor was partly occupied by Mr. Giroux as a music store, and the other part by Mr. A. L. Dupuis, dealer in automobiles and farming implements. A large crowd soon gathered on the scene and was successful in removing from the building all the automobiles, but that was practically all that was taken out, so quickly did the flames spread.

The upper floor divided into two tenements, one of which was occupied by Mr. Giroux, and the other by Mrs. Durand.

The fire, it is thought, started in the smoke box used for smoking meats, and soon made its way up through the partition, near the head of the stairs, spreading completely over the upper portion of the building.

The occupants on the upper floor had retired about an hour before the fire was discovered, and upon being aroused, were obliged to escape in their nightclothes. One of the young ladies boarding at Mrs. Durand's told some of the firemen that she had left a purse containing about one hundred dollars on top of the piano near one of the windows. A ladder was run up and the purse and contents saved. Another young lady had sewn fifty dollars in her shirt, which was recovered this morning from the ruins intact, although part of the garment had been burned. Another roll of bills which was in the clothing of Mr. Durand, Jr., was recovered, but the numbers were not distinguishable on some of the bills.

Much sympathy is felt for Mr. Giroux and the other tenants whose loss will be heavy.

The upper floors were completely ruined and the ground floors greatly damaged. There was three thousand and five hundred dollars insurance on the building which will only partially cover the loss. Mr. Dupuis' stock was insured with the exception of his automobiles, all of which were saved. Mr. Giroux had no insurance on either his household furniture, meat shop equipment or stock and his household goods were completely destroyed and the meat shop equipment and stock badly damaged. Mrs. Durand also had no insurance and her piano and other furniture are a complete loss. Mrs. Durand's daughter, who was married only a few days ago, and is expected home from her honeymoon today, was also a heavy loser, as all her clothing, wedding presents, etc., were lost in the fire.

The firemen quickly responded to the alarm and soon had five streams of water playing on the flames and prevented damage to any of the neighboring buildings. Owing to the structure of the building, it was a hard fire to subdue, and required two and one-half hours hard work on the part of the firemen to completely extinguish the flames.

SCHOOL BOARD CONTEST WILL BE HELD HERE

Mr. Wm. Wright Is Nominated to Represent East Ward Interests.

For the first time in a number of years, a contest will be held here for a position on the Board of Protestant School Commissioners, the election to take place next Monday.

Rev. Dr. G. Ellery Read and Dr. Geo. Hume, whose two year terms have expired, have retired, and have been renominated. In addition, a third contestant has been nominated in the person of Mr. Wm. Wright, proprietor of the New Sherbrooke House, who will be put up as a representative of the East Ward.

The object of this nomination seems to have been to obtain representation for this division of the city, where a school has been conducted since 1885, but which has never, at least for the past twenty-five years, had a member on the Board.

It is felt that a commissioner who has personal interests in this part of the city would be a valuable addition to the Board, and the representation of the city would be more equal.

The voting will take place in the city offices.

Closed, (tomorrow) Dominion Day.—Woodard's Limited.

TOMORROW IS "DOMINION DAY."

Tomorrow, the first of July, the month which takes its name from Julius Caesar, the greatest of the Emperors of Imperial Rome, is the anniversary of Confederation Dominion Day. When in 1867, the scattered provinces of a great country were united, the Fathers of Confederation of whom one Sir Alexander Galt, cast about them for a suitable name and was happily inspired by the magnificent imagery of one of the Psalms of David, the 72nd, a verse which reads, "His Dominion shall be from sea to sea, and from the flood of the world's end" which seemed so especially appropriate, so dignified and expressive, that the name "The Dominion of Canada" was immediately adopted and met with universal favor. Since that day fifty-three years ago Canada has grown in population wealth and influence, and is fast becoming a great nation. Yet, though no longer a colony of England, the bond was never stronger between Britain and overseas Dominion, and the relation is perhaps best expressed by the words: "Daughter am I in my Mother's House, But Mistress in my own." The recent war instead of severing the ties that bound Canada to England strengthened them at the first of "War's Alarms" English blood stirred in Canada's veins, and the best was laid at the feet of the Mother Country. Thousands of lives were willingly laid down that the Empire might be saved, and there is no weak link in the chains which are welded to gether by a strong loyalty, and deep-reaching patriotism. So tomorrow the Dominion celebrates her natal day and the Empire rejoices with her. It is perhaps interesting to remember that the late Sir Alexander Galt, one of the great and broad minded men of his day, whose rugged features appear in the pictured group of statesmen who brought about Confederation was member of Parliament in Sherbrooke lived in the city at "Rochmont" which he built and is now occupied by Mr. Andrew Paton where he and his wife, a gracious and beautiful woman, exercised a generous hospitality, entertaining the Prince of Wales afterwards King Edward VII, when Duke of York, he visited the overseas Dominions, and other distinguished visitors.

His insight into the future of Canada, his public spirit and a certain largeness of heart, made Sir Alexander Galt a notable figure who stands out prominently in the annals of Canada.

ST. PATRICK MISSION CIRCLE. MEETING. Miss Eva Coogan and Miss Kate Flannery very pleasantly entertained the members of the St. Patrick Mission Circle on Monday evening at the home of the former, King Street, West. One new member was enrolled bringing the entire membership up to eighty-eight, of which sixty-one are active members and twenty-seven are contributing members. Miss Florine Mullins read an interesting paper entitled "The House of Mercy" in which the work of orphanages in China was explained and a plea made for charity, which is so necessary for their support.

A chapter was read from the "Last Will of Our Lord" dealing with the necessity and efficacy of prayer for the success of missionaries. Other business transacted was largely of a routine nature.

MARRIAGES

MACKENZIE-LOOMIS
One of the interesting June weddings took place in Montreal today when Miss Marjorie Loomis, daughter of Major-General Sir Frederick Loomis and Lady Loomis, was united in marriage to Mr. Donald Simpson Mackenzie, son of Mrs. J. S. Mackenzie. The ceremony took place this afternoon at the church of St. James the Apostle, the Rev. Canon Shuter, officiating, and the church was beautifully decorated for the occasion with white flowers and palms.

The bride was given away by her father and the attendants were four

cousins, Mrs. John Aird, of Montreal as matron of honor, Misses Virginia Loomis and Louise Foss, of Sherbrooke, and Miss Eleanor Munnell, of Kingston, as bridesmaids. Mr. John Mackenzie, brother of the groom was best man, and the ushers were Cadet Dan Loomis, Messrs. W. L. Davis and John Aird.

The bride wore a white brocade gown, with court train of gold georgette tissue lined with satin, and caught with sprays of orange blossoms at the end, and brocade shoes. The long veil of tulle was fastened with orange blossoms and the bride carried a shower bouquet of white sweet peas and gypsophila. The brides attendants were gowned alike except in color, with skirts of taffeta, and overdresses of georgette trimmed with taffeta ruchings. Mrs. Aird wearing pink, Miss Loomis yellow, Miss Munnell, pale green and Miss Foss, blue. They wore tall hats to match their dresses, trimmed with silver ribbon, silver shoes, and carried silver baskets filled with roses, forget-me-nots, and other flowers of pale blue, arranged in shower effect.

KERR-SPARLING.

WATERLOO, Que., June 30.—The home of Mr. and Mrs. B. H. Sparling, Waterloo, was the scene of a very happy event on June 23rd, when their eldest daughter, Hazel Louisa, became the bride of Mr. Franklin H. Kerr, son of Mr. and Mrs. Joseph Kerr, of Island Brook. Promptly at 4.30 p. m. to the strains of Lohengrin's Wedding March, played by Miss Winnifred Lang, of West Shefford, the bridal party took their position beneath an arch of ferns and forget-me-nots, when the Rev. P. Fergan, B. A., pastor of the Methodist Church, tied the nuptial knot in the presence of about seventy invited guests. The bride, who was given away by her father, wore a dress of white crepe de chine. She wore the bridal veil, which was caught with orange blossoms and a pearl necklace, the gift of the groom. She carried a bouquet of white sweet peas.

Miss Mabel Sparling, the bride's sister, was bridesmaid, and wore brown silk and georgette and carried a bouquet of pink sweet peas. Mr. Everett A. Kerr, the groom's brother, ably discharged the duties of best man. After congratulations had been extended to the happy couple, all sat down to the wedding supper which was served in the spacious dining room. The presents were exceptionally pretty and useful, and testified to the popularity of the young couple. The groom's gift to the bride was a pearl necklace, to the bridesmaid and pianist, gold brooches, and to the best man, cuff links. The bride's gift to the groom was a gold watch chain. The bridal party motored to Peffer, where the evening Halifax train was taken for Sherbrooke and from there they went to Quebec City, where the honeymoon was spent. The bride travelled in a navy blue serge suit with silver grey crepe de chine blouse and hat to match. Amongst the guests present were noticed Mr. and Mrs. Joseph Kerr, Mr. and Mrs. Gordon Kerr, Mr. E. A. Kerr and Mr. Enoch Kerr, of Island Brook; Mr. and Mrs. Utin, Miss Helen Jenne and Miss Myra

Mr. and Mrs. Kerr will reside in Island Brook.

The room was decorated with roses and evergreens, and the five-story cake graced the centre of the table. Beautiful and useful gifts were received from the many friends of the young couple, who left on the evening train from Foster for Sherbrooke Rock Island and St. Johnsbury and other points, the bride wearing a travelling suit of sand colored serge and white hat.

Another Royal Suggestion

PIES and PASTRIES

From the NEW ROYAL COOK BOOK

CHEER UP! There is no further reason for worrying about table variety. The new Royal Cook Book gives new suggestions for every meal every day. The book is so full of surprises there will never be another dull meal in the home. Here are a few suggestions from the new Royal Cook Book.

Plain Pastry

This recipe is for one large pie with top and bottom crust
2 cups flour
1/2 teaspoon salt
2 teaspoons Royal Baking Powder
1/2 cup shortening
cold water
Sift together flour, salt and baking powder; add shortening and rub in very lightly with tips of fingers (the less it is handled the better the paste will be). Add cold water very slowly, enough to hold dough together (do not work or knead dough). Divide in halves; roll out one part thin on floured board and use for bottom crust. After pie is filled roll out other part for top.

Rich Pastry

2 cups pastry flour
1/2 teaspoon Royal Baking Powder
1/2 cup shortening
cold water
Sift flour, baking powder and salt; add one-half shortening

and rub in lightly with fingers; add water slowly until of right consistency to roll out. Divide in halves; roll out one half thin; put on in small pieces half remaining shortening; fold upper and lower edges in to center; fold sides in to center, fold sides to center again; roll out thin and put on pie plate. Repeat with other half for top crust.

Apple Pie

1 1/2 cups flour
1/2 teaspoon Royal Baking Powder
1/2 teaspoon salt
2 tablespoons shortening
4 apples, or 1 quart sliced apples
2 tablespoons sugar
1 teaspoon milk
Sift flour, baking powder and salt; add shortening and rub in very lightly; add just enough cold water to hold dough together. Roll half out on floured board, line bottom of pie plate; fill in apples, which have been washed, pared and cut into thin slices; sprinkle with sugar; flavor with cinnamon or nutmeg; wet edges of crust with cold water; roll out remainder of pastry; cover pie, pressing edges tightly together and bake, in moderate oven 30 minutes.

DOMINION DAY.

Tomorrow, July First, Canadians
throughout the length and breadth
of the country will celebrate Domi-
nion Day, the fifty-third anniver-
sary of the enforcing of the British
North American Act, by which the
provinces which formed the basis of
Confederation, Ontario, Quebec, New
Brunswick and Nova Scotia, were
joined in a constitutional union, and
made the nucleus of the fairest of
the Empire's domains, today, a nation
taking her place with the oldest and
greatest powers in the world, Cana-
da.

With what forethought and expert
statesmanship the Fathers of Con-
federation planned the constitution
that has weathered the storms of
over half a century, and with what
dreams of prophetic vision these
legislators looked forward to the ac-
complishment of purposes which
many indeed lived to see, but which
have exceeded the brightest expec-
tations of even the most courageous.

With her boundaries reaching from
coast to coast and embracing untold
wealth and unexcelled beauties, Cana-
dians can well be proud of their
heritage, purchased with the tears
of the laborers, even with the blood,
of those who have passed before.

But Canada's crowning glory, that
which has given her a voice in the
most momentous gatherings of the
world has ever witnessed, is her re-
cord during the five racking years
of conflict, through which having
passed, as through a crucible, she
emerges triumphant, bearing the
laurels of victory, a victory that has
cost her best blood, but for which she
would gladly have given her last
drop. The test has not found her
wanting, and purged of every trace
of self-interest, dissension, and greed
for gain, her citizens are found ap-
plying themselves to the task of re-
construction with the same spirit of
generosity, unity and self-sacrifice
that marked their efforts during the
war.

Tomorrow, Canada will celebrate
another birthday, and her ten million
inhabitants will keep the day by
various social and patriotic gath-
erings. In the holiday spirit that per-
meates the occasion let us not forget
that what we have attained, what
we hold as our dearest possession,
our beloved country, has not reached
her destiny, and, as in the past, her
achievements have called for the
best and the hardest of work and
self-abnegation, so it devolves upon
each and everyone of us to "carry
on" and do our share to assure that
Canada, a nation within the greatest
nation the world has ever known,
shall keep faith with her noble
founders, with her brave defenders
and with herself.

"O Canada, our prayer shall be,
God bless and guard thee, keep us
true to thee."

CONTEST FOR SCHOOL COM- MISSIONER.

It is quite refreshing to note that
there is to be a contest for the office
of School Commissioner. Dr. G. L.
Hume and Dr. G. E. Read are the
members of the Board whose terms
have expired. Both are standing for
re-election. In addition, Mr. William
Wright, proprietor of the Sherbrooke
House, has been nominated. Thus,
with three candidates for two offices,
voting will take place on Monday
next. If this indicates an awakening
of public interest in school affairs
the contest deserves to be welcomed
and if the public shows the interest
that it should and turns out to vote,
it will be remarkable and beneficial.

In years past it has often been
necessary for members of the board
to go out and solicit the attendance
of sufficient to meet the legal re-
quirements of nomination and elec-
tion.

A joint public meeting of the can-
didates to explain their platforms
and policies would be timely and
would help to instruct those who
will have a vote next Monday.

VICTORY HIGHWAY DELAY.

It now appears that the construc-
tion of the Victory Highway is to be
delayed owing to the high cost of
construction. This may be a very
good reason, but it causes one to re-
flect upon delays that have occurred
previously in this connection and
for causes far less reasonable than
that now advanced.

The Sherbrooke-Montreal highway
was one of the first trunk line high-
ways projected in this province be-
cause when completed it would prove
one of the most useful. Year after
year something has arisen to delay
action until now, in spite of the fact
that a large amount of road work is

being done elsewhere, the high cost
of construction comes forward as the
delaying cause.

So important is this undertaking,
that public opinion would support
the government in providing from
public funds available the extra cost
and going ahead vigorously with the
work.

School Commissioner, on the Pro-
testant School Board, was returned
by acclamation on Thursday after-
noon last. The retiring commis-
sioners for the Catholic School
Board were Messrs. Ulric Racine,
and Agna Pinnsoncault. Judging
from present indications, an elec-
tion will be held to fill the vacancy
on July 5th at the County Building.
The main issue before the Catholic
Board is whether they should build
a new building or enlarge their pre-
sent convent which is entirely in-
adequate for the large number of pu-
pils. It is the wish of the residents
of Dutch street to have a school of
their own in a central place and not
have to send their children to the

WAS TEACHER IN COOKSHIRE AT ONE TIME

Principal of King Edward VII. School, Montreal, Honored by Memorial—General News.

COOKSHIRE, June 30.—At the closing exercises of Edward the Seventh School, Montreal, on Thursday morning last, when the Rev. Dr. Dickie presided, a handsome bronze tablet erected by the pupils and teachers of the school to the memory of the late Irving O. Vincent, the first principal, was unveiled. The flag covering the tablet was removed by Miss McLean, one of the teachers. The tablet reads thus: "Irving O. Vincent, M.A., first principal, Edward VII School, 1912, 1920, scholar, gentleman and friend. The good that he wrought lives after him."

The unveiling was done in the presence of Mr. H. J. Silver, secretary of the Protestant Board of School Commissioners, the principal of the school, Mr. H. E. England, the teaching staff and pupils. The late Mr. Vincent whose early demise has been greatly lamented, was born at St. Armand, near Frelighsburg. He was educated first at the Frelighsburg Model School, later at Stanstead Wesleyan College, graduating in Arts, in 1907, from McGill University, Montreal. From 1907 to 1909 he taught in the Sherbrooke High School and became principal of Cookshire Academy in 1909 and spent three years here. He was appointed Principal of Edward the Seventh School in 1912, a position he held until the time of his death in March last from influenza.

On September first, 1909, Mr. Vincent married Miss Theodora W. Brown, only daughter of Mr. and Mrs. W. Goble Brown, of Montreal, who survives him with an infant daughter.

The Rev. R. W. Dickie, chairman of the Protestant Board of School Commissioners of Montreal, expressed the sentiments of many in the following words, which he uttered at the funeral service:—"Irving Vincent, whose death we mourn today, was much more than a young man of promise. He was already at the age of thirty-five, a man of attainment and accomplishment. As Principal of one of our largest schools, he did a splendid work. He labored with great faithfulness and success in forming the thoughts and purposes and life habits of the rising generation in his school. His discipline, earnestness and fine Christian spirit will live after him in these young lives to whose service he devoted himself. During the last few years, he has done work in studying and setting forth the facts relative to primary education in this province which has already borne fruit, and will continue to do so, like a good tree well planted. When we shall

have, as no doubt we shall, in the not far distant future, a much larger percentage of our children in school and continuing there for a much longer period, those who know will remember that the foundations upon which such great reforms stand were laid by the late Mr. Vincent in his patient and careful study of the facts and in the clear and compelling way he set them before his fellow-citizens. He was of that class of unselfish idealists to whom the community and nation owe more than they know, and whom they have not yet learned to appreciate. He gave himself to the most important of public services, the teaching and training of the young—with the greatest ardor and devotion. He saw in the children the hope of the nation, and the opportunity of moulding these young lives for good appeared to him as a sphere of activity worthy of the investment of life. This work itself, well done, had its own rewards for such a singularly pure and unselfish spirit. More important than the information imparted was the spirit he brought to his pupils. Children could not associate with a man of such earnest, unselfish, Christian spirit without being the better for it. He created in his school an atmosphere of devotion to duty, and Christian ideals. In this he discharged the highest office of a teacher. The children of his school breathed in this spirit and it went to the fashioning of their lives. Standing as we do today at the end of his life here, we realize that in choosing the way of service, he chose the better part. In his love and devotion to children, in his unselfish service to his fellow-men, in his faith in God the Father, he showed himself a good follower of Jesus Christ. So now that he has gone from us, he has left to us a good day's work, though done all too soon, a memory without a trace of bitterness, and a hope that is full of immortality."

Much of Mr. Vincent's energy was devoted to securing compulsory school attendance for his native province. The report of the School Attendance Committee published in 1918, which attracted so much attention, was issued while Mr. Vincent was Convener of that Committee, and a great part of it was written by Mr. Vincent.

Presentation to Principal. On Monday evening last, the scholars of the Academy grades and a few graduates of the local Academy entertained in the school gymnasium in honor of their retiring Principal, Mr. Erwin W. Gilander, B.A., who has been here during the past year. The evening was spent in games and music, the Cookshire Junior Orchestra rendering several very fine selections. Mr. Angus Graham, one of the students, presented Mr. Gilander with a Premo camera, on behalf of the three grades of the Academy Department and expressed universal regret for Mr. Gilander's departure from town.

Mr. Gilander replied fittingly and thanked the donors for their kind gift. Dainty refreshments were served during the evening.

Half a Pineapple For One Dessert

In Jiffy-Jell desserts the fruit flavors are abundant. For instance, half a pineapple is crushed to make the flavor for one pint dessert. This is done in Hawaii from fruit too ripe to ship.
All Jiffy-Jell fruit flavors are made from condensed fruit juice. They come in liquid form—in vials—a bottle in each package. That is true of no other quick gelatine dessert. A few cents will serve a real-fruit dessert for six people. No artificial flavor, no saccharine. It is the most delicious fruit dessert available, and it comes in ten choice flavors.

FINANCIAL AND MARKET NEWS

STRONGER TONE ON THE
CORN EXCHANGE

(Associated Press Despatch)
CHICAGO, June 30.—Uneasiness in regard to possible development of Black Rust in the spring wheat belt tended today to lift prices for other grain, including corn. After opening unchanged to 1/2 cents lower, with July \$1.75 1/2 to \$1.76 and September \$1.70 1/2 to \$1.71, the corn market scored material gains all around.

Oats were firmer with corn. Opening prices which ranged from 1/2 cent decline to 1/2 cents advance, including September at 87 to 87 1/2 cents, were followed by a general upturn. Strength in grain and hogs gave steadiness to provisions.

BREWERY FEATURE OF
THE MONTREAL MARKET

(Associated Press Despatch)
MONTREAL, June 30.—There was a great deal of trading in breweries on the local exchange this morning when many excited bidders were anxious to secure it at sixty, and during the first hour the rush of trade was unprecedented. Atlantic Sugar, which also had a sensational rise yesterday afternoon, started at 135 and advanced to 136, when the buying slackened and attention was given once more to Breweries. Paper stocks were quiet but held firm around recent levels.

THE MONTREAL CATTLE
MARKET QUOTATIONS

MONTREAL, June 30.—Dominion Livestock Branch. Cattle receipts, 129. There is no demand for cattle today. A few bulls have been sold \$5 to \$7.50, and a few odd heifers and cows in fair condition have been sold to retail butchers. Canners and common cows are standing without an offer. Packers' buyers claim that at present they do not want the thin common cattle. Canners are down to \$3.50 and \$4.00. Quotations: Butcher heifers, common, \$6 to \$9; butcher cows, medium, \$6 to \$9; canners, at \$3.50 to \$4; cutters, \$4.75 to \$5.50; butcher bulls, common, \$5 to \$8.50.

Calf receipts, 597. One load of calves has been sold for \$13. Sales very difficult to make owing to lack of orders from New York. Quotations—Good veal, \$11 to \$13; medium, \$8 to \$10; grass, \$7 to \$8.

Sheep receipts, 273. Lambs lower. Quotations: Ewes, \$7 to \$10; lambs, good, \$15 to \$17.

Hog receipts, 447. Selects, \$21 off cars, sows \$4 less than selects. Mixed lots sows heavies and roughs, \$17 to \$19.

ADVANCES RECORDED
ON NEW YORK 'CHANGE

NEW YORK, June 30.—(Wall Street Noon)—For the first time in almost a fortnight, the market developed a strong tone on relatively broad buying during the morning. Commission houses were among the purchasers of leading issues, especially steel and equipments in lots of 1,000 to 5,000 shares at gains of one to two points. Oils, motors, chemicals, shippings, coppers and tobaccos were one to four points higher and rails, including secondary issues, gained one to two points. The most substantial advances were made by express shares, American Express rising eight points and Wells Fargo.

Plenty of call money was available at nine p. cent.

NEW YORK PRESS
MARKET COMMENTFurnished by
McManamy & Walsh

World—The short interest has not found the off-side of the market profitable since the double bottom was established several weeks ago. The floating supply seems to be very short.

Journal of Commerce—There were several stocks which stood out from the rest of the list because of the general dullness of the market. They all reacted more attention than usual. One of these was D. & H., which broke to a new low of 83 1/2 for the year. It is generally believed that the rate will be reduced from nine to seven per cent. level.

KNOWLTON

Profit Prospects
Based on the Lesson
of History

This chart shows the advance of British and French Government credit after the Napoleonic Wars.

Observe that its advance amounted to over 20% within two years after Peace was declared and 25% within eight years.

It was the same story after the Franco-Prussian War and the American Civil War.

It is a fundamental of finance that marked fluctuations in Government securities only occur in times of great international disturbances of a military nature. The disappearance of such disturbances is invariably followed by a rapid advance in price.

Further, all great wars are succeeded by a period of economic adjustment during which capital accumulates and seeks investment of the safest character—i.e., Government Bonds—thus bringing an advance in the price of such securities.

The conditions of to-day being similar to those existing after the Napoleonic Wars, it is a fair assumption that Dominion Government Bonds will advance in price and return a substantial profit to the investor.

The prices at which Government Bonds may be bought to-day are approximately the lowest they have ever been. Eventually they will be much higher.

LAND POLICY IN EGYPT ENSURES STRICT MEASURE

Government Decides to Sell Lands and to Stop Plowing Up Winter Crops.

CAIRO, Egypt.—In order to control those cultivators who think that it would be more profitable to plow up their winter cereal crops, which should mature in May, for the purpose of planting cotton instead the government has just issued a very strict order under martial law inflicting a fine of £100 for every acre of food crop thus destroyed and the confiscation of the cotton involved. While this measure is wholly commendable in view of the great shortage of foodstuffs, it is somewhat unfortunate that it was not taken earlier as plowing for cotton begins in January and according to reports from the districts, a certain amount of growing crops have already been uprooted, though probably the area is not very considerable.

It is satisfactory to note that the government has at length decided on a definite policy of selling its lands, the greater part of which consists of large estates of many thousands of acres. Originally these estates came into being largely through confiscations under the iniquitous regime of Ismail Pasha, who in this way robbed the fellahs of vast areas in upper and lower Egypt. On Egypt becoming bankrupt, the bond holders foreclosed on the security of these lands, those of upper Egypt with the exception of the Fayum, being purchased by a company which eventually sold the estate to private owners.

FORFEITING LAND TAX

The Egyptian government managed to maintain its title on other properties which until a few years

ago were managed by a special administration representing the bond holders. On the mortgages being fully liquidated, the government entered into full possession and management under the States Land Administration. A great part of these lands was of excellent quality and readily salable. By not disposing of them the government was forfeiting its unique privilege, the land tax, besides which the productivity was naturally less than if held by small owners.

On the other hand it is very probable that uncertainty as to their real value influenced its former decision of holding an estate, especially as important public works which would benefit them considerably were contemplated, the present financial owner has wisely decided to profit by the high prices of land at present ruling and a very large program of sales has been drawn up. As an experiment a commencement was made in 1919, when 10,414 isolated plots of state property of less than 100 acres in area, representing 13,680 acres were sold, largely to former tenants, but with the exception of a sale of 1640 acres none of the large estates of Lower Egypt have yet been touched.

SELLING SMALL PLOTS.

It is proposed to continue selling small isolated plots this year while a certain area of fully developed land will be put on the market. In view of the wealth of the country, good prices should be obtained, and the sums realized should prove useful in meeting in part the cost of some of the new works which will enhance the value of other undeveloped land belonging to the government. Financially, such a policy would be extremely sound.

The recent fall in the price of cotton from £38 to £26 per cantar (about 100 lbs.) should prove a very useful lesson to those misguided fellahs who left their fields for the Alexandria Cotton Bourse during the recent boom and indulged in the wildest speculations. Further, it should be found particularly illuminating to those who believed the leaflets recently disseminated by the Nationalist extremists, which set out that the real price of cotton was £100 per cantar and that the English were thereby depriving them of immense sums. Perhaps the fellah will get out of the habit of believing everything he reads in the near future.

BRITISH NAVAL HERO WAS GIVEN SWORD OF HONOR

Commander of the Famous Mystery Ship Was Presented with Gift from Scholars.

LONDON, England.—Camberwell has many historical associations with the British Navy, and recently another interesting epoch in the borough's connection with the sea was marked by the presentation of a sword of honor to Lieut.-Commander Harold Auten, the "Mystery Ship" V. C., by the scholars of the Wilson Grammar School, at which the gallant sailor was once a pupil. Dr. Macnamara in making the presentation related the story of the exploits of the mystery ship, and said it was deeds like those which had brought British freedom out of the welter of war undiminished, untarnished and unstained.

Lieutenant-Commander Auten, who had a very hearty reception, tendered his appreciation of the gift which he said bore testimony of the donors' gratitude not only to his efforts but through him to the brave men under his command. He could not do better than give some instances of the heroism and temperament of those men. On one occasion, he said, while they were cruising about they saw a submarine ahead. Everybody was at "action station," and he was on the bridge with the captain. They waited for a considerable time but nothing happened and they all began to get bored. It was not long afterwards that the thrill came, and they saw a torpedo coming straight toward them.

"One doesn't say much in moments like that," he continued, "but fortunately the torpedo went underneath the ship. On the bridge with me was a cheeky little cockney boy who was looking over the side of the vessel after the torpedo had disappeared, and in a squeaky voice exclaimed 'Well, if I haven't been under fire I've been over it.'"

OUTS ABOUT HEAVEN. There is a well-known story about a child being told that animals don't go to Heaven, whereupon she inquired Heaven could flow with milk and honey if there were no cows there to supply the milk. A new variant of this has appeared. A modern youngster on being told the same thing remarked "Then what's the use of going there if we have to go to the bad place every morning for our milk."

PROGRESS "So you are having your house redecorated?" "Yes." "How are you getting along?" "Fine. The painters and paper hangers worked a full day last week."

SALONIKA JEWS IN GREECE ARE ALL CITIZENS

Stated that Greek Parliament Contains Some Jewish Members.

Regarding the question of the status of the Jews of Salonika of Spanish descent which has been alluded to in these columns a Greek authority is desirous of correcting what he terms the erroneous impression that these people live outside the common law of Greece.

"Under the provisions of the treaty of Athens signed after the Balkan wars, declares the authority, 'all the inhabitants of the territories annexed to Greece, subjects of the Ottoman Empire, were authorized to choose between Greek or Ottoman citizenship. If they chose to remain Ottoman subjects they would have to leave the country after a lapse of three years (this clause is not peculiar to the treaty of Athens, but is a clause that can be found in all treaties dealing with annexation of territory).

"Under the provision, thousands of Jews in Salonika became Greek citizens, enjoying the same rights as the Greeks. Furthermore the Grecian Government has granted to them a temporary exemption from military service to which all the Greeks are subject. The Jews of Salonika, as Greek citizens, took part in the parliamentary elections and among the returned deputies are two or three Jews. Consequently, if some Jews living in Salonika have not acquired Greek citizenship, it is due to their free will, and if they desire now to acquire this nationality they can always do it, provided they conform with the stipulations of the Greek laws. Under these circumstances, the appeal of Ibanez de Ibero, published in the 'Figaro' was totally unnecessary. The Jews of Salonika who have remained Ottoman subjects, and who possess the necessary means, can if they wish, acquire Greek citizenship, as the Greek Constitution makes no distinction between Christians and followers of other creeds.

"The same treatment was granted to the Moslems of Macedonia, Epirus, Crete, and the Islands. The Greek Parliament contains some Moslem members. The appeal of Mr. Ibanez de Ibero seems, under these instances, to be due rather to an excess of zeal."

A JOLLY FOR THE JOLLY SKIPPER.

Do you ever catch any whales, captain?" asked young Miss Green on the ocean line. "Often ma'am," answered the captain. "How very wonderful!" she gushed. "Do tell me how you catch them." "We drop a few old salts on their tails, ma'am."

FULL DRESS AND GOOD MANNERS THE MANDATE

Dutch People Cherish Their Heritage of Hospitality, Though It Is Sometimes Embarrassing.

"Tis said that royalty is" bred in the bone, and in the case of the ex-Kaiser this hereditary trait declares itself, at times, with the result that obedience is one of the many duties of those around this imperial minded person, even though it be grudgingly given. The Dutch people would be only too glad to see the ex-Kaiser depart voluntarily from their midst, but they will resist to the last the demand of the Supreme Council that he be given up for trial.

This is the view expressed by the Rev. Dr. J. Irwin Brown, for thirty years minister of the Scots Church at Rotterdam, who describes Holland as the Sanctuary of Europe, a designation of which the people are proud. The right of asylum, they regard as a precious heritage not to be renounced at any price. On the other hand, Dr. Brown says, the former Kaiser's presence is an embarrassment not only to the Dutch Government and people, but especially so to his host, Count Bentinck. In spite of his defeat and abdication, the former Kaiser insists on living in the imperial style and manner. He must have large numbers of attendants; and when he dines with all the observances from others present that he was accustomed to while he was still the Kaiser at Potsdam or Berlin. In addition a large corps of guards is required around the estate to prevent any undesirable from gaining entrance into it.

NATIONALISTS CONFUSED BY GREEK ATTACK

Nationalists Planning to Make Big Stand Against Greeks at Guieve.

(Associated Press Despatch) CONSTANTINOPLE, June 30.—Mustapha Kemal Pasha personally is in general command of the military movements against the Greeks. He is conferring at Balikesir, which is midway between Panderma, on the southern coast of the sea of Marmara and Soma with the leaders who are opposing the Greek movement toward Panderma.

Ismet Bey, the Nationalist chief

FACES SERIOUS CHARGE
(Associated Press Despatch) HARTFORD, Conn., June 30.—A warrant has been issued by Prosecuting Attorney Solomon Eisner, for the arrest of W. J. Manibo, proprietor of a gasoline station, where it is alleged, Joseph Keller purchased denatured alcohol which caused the death of at least one of four men who died from the effects of a poison beverage here last Sunday.

of staff and a bosom friend of Enver Pasha is commanding the entire Smyrna front. The Nationalists apparently have been much confused by the rapidity of the Greek attack. There are many indications that the Nationalists are concentrating at Guieve, a short distance south-east of Ismid, preparatory to making a big stand there after getting the Greeks scattered over long lines of communication.

NORRIS PARTY THE LARGEST SINGLE GROUP

The Electors of Manitoba Have Adopted Group System of Government.

WINNIPEG, June 30.—Electors of Manitoba seemingly have adopted the group system of government. Yesterday they defeated the Norris Government in the sense that Norris candidates could not today command a majority over all other groups in the legislature but the followers of the Premier will number twenty or a little more and will constitute the largest single group in the House.

Labor will have a group of ten or twelve members, and predictions are heard today that F. J. Dixon, who received a tremendous vote in Winnipeg, will be the leader of the Provincial Labor Party, this being based on the fact that he has had experience in the legislature and on his outstanding achievements at the polls yesterday.

Winnipeg's ten members for the most part still are unknown. It is conceded that Dixon and Hon. T. S. Johnson, Attorney-General, are elected, since they lead the other thirty-nine candidates by a big margin. Even then though Dixon leads Johnson by probably six thousand, it is claimed that the remaining eight seats will go about three to labor, perhaps three to the government and two to conservatives.

Mrs. Arthur Rogers, Government candidate, is another of the leaders and final count under proportional representation might send her to the legislature. At least half of the Winnipeg candidates are believed to have lost their deposits.

Allowing one seat to the Government and one to labor in Winnipeg, the standing at eight o'clock this morning is approximately as follows: Government 18, Conservative 6, Farmers 8, Labor 8, Independents 5, Deferred 2, Total—47.

With eight other seats this makes up the legislature of fifty-five members.

ROME, Italy.—Americans who visit Italy this summer for the first time since the war will be pleasantly surprised by one change which is taking place in that country as a result of the working-class movement. They will find that one annoyance to tourists, the practice of giving tips on every hand, is on the wane in many hotels, restaurants and cafes in various parts of the kingdom, from Turin to Naples.

In the excellent restaurant run by the Co-operative Society in Turin, the visitor will see on all the walls, placards which read "Sono abolite le mance." A little knowledge of Italian will permit him to translate that into the welcome words, "Tips are abolished." But the placards do not stop with that. To some of them these words are added: "The tip benefits the restaurant keeper, annoys the public, and humiliates the waiter. Don't give tips." To others this simple question is appended: "Why humiliate the waiter by tipping?"

The best part of it is, that with tipping abolished, the service is even better than in those establishments where the waiter expects a gratuity. In the other restaurants and cafes taken, the placards vary in wording; in some, tipping is "prohibited," in others, it is "forbidden." In most of them, in place of the tip, 10 per cent. is added to the bill "for service." In nearly all of them it is explained that the change has been made "by agreement with the waiters."

Not The Same Thing.

CANADA'S FIRE WASTE REACHES

(Continued from Page One.)

now, we are a nation, and we must stabilize our character and our ideals.

"Ruskin said that 'all architecture was the expression of the mind of the people.' For our own sakes, I hope that this is not true of Canada."

"The chief reason for the great fire waste in this country is carelessness. Every man has tried to be a law unto himself. He built, maintained and rebuilt as he wanted, without reference to the community at large."

"We hear it said that people can depend upon insurance, as the companies pay the cost, but do they? In every product that we trade in, we see the cost affected by our necessarily high rate of insurance. We pay the cost in the insurance on our goods, and this premium is the yard measure of our fire waste."

Fire Loss Affects Trade.
"Consequently our point of view must change. When we see that the great fire waste here affects the cost of our products and places a handicap upon our trade in other markets, we will see that we must cut down our fire loss."

"Canada has a great future, but its attainment depends on conservation. The Government has not been entirely inactive. It has formed an insurance department the work of which consists in studying the fire loss and determining means of reducing it."

There are three principal means by which the situation is being cut down: annual waste, by education, financial inducement and legislation. The first two are discounted appreciably at the very outset because they lack the necessary quality of compulsion. We may teach precaution, we may also induce people to take certain protective measures by offering a reduction in insurance, but the only effective way to cope with the situation is by legislation. In this connection, the Criminal Code has been amended, making it a criminal offense to cause a fire by neglect or through the maintenance of hazardous conditions. Europe is more amenable to discipline than we are, and fire waste there is much reduced through the obeying of laws aimed at conservation.

General Legislation Needed.

"Another reason for our failure in this matter is that our fire legislation so far has been municipal in scope, and too much latitude has been given the smaller bodies in the question of fire prevention. Even when there are laws, they are not kept. We are not a law abiding people, and we must learn that the law is the guarantee of liberty."

"Propaganda can do a lot of good. I might cite the example of 'Fire Prevention Day' and the work of the Boy Scouts, as valuable means by which we may attain success in this line."

"The blame cannot be placed to a great degree upon the business men of the country. A large proportion of our loss is in large manufacturing establishments. Our business character has as yet not the quality of carelessness."

"Another cause can be found in the lack of plans for development of villages and towns, which eventually turn out to be a haphazard conglomeration of miscellaneous structures. We must start to plan for permanence."

"The question of conservation must impress itself upon all, if we are to go ahead as we should."

"Our workmen must develop more firmness, which is essential. In our school life, we may get by with seventy per cent., but we cannot pass with seventy after we leave school, we must be hundred per cent. value. If we are to be successful, we must show that we are hundred per cent. efficient as those brave men who fought the last great war were hundred per cent. men. We must carry on their dream, and we can do this by united action if we are unable to do so as individuals."

At the close of Mr. Smith's address, a vote of thanks was unanimously passed by the Associated Boards to the speaker for his illuminating and convincing discourse.

SAYS HE PAID \$1,000 FOR A TIMBER BERTH

Mr. Greer Claims that He Paid Col. Machin Money to Secure Berth in Northern Ontario.

(Associated Press Despatch) TORONTO, June 30.—Charles H. Greer, timber contractor, of Port Arthur, Ont., in giving evidence at Osprey Hall here, before Justices Riddell and Latchford, in an investigation into timber permits, admitted that he had paid Lieut.-Col. Machin, former M. P. for Kenora, and former president of the Citizens' Liberty League, one thousand dollars to make sure of obtaining a timber berth in Northern Ontario. Witness, (Greer) stated, that on September 14, 1912, he met Col. Machin and Sir William Hearst, former premier of Ontario, but at that time Minister of Lands, Forests and Mines, in Col. Machin's office. He said he told Hon. Mr. Hearst that he wanted two timber berths, and he thought he should be given a preference over any one else tendering at nearly an equal price, as he had a mill. Mr. Hearst replied that he would consider the matter, the witness said.

Subsequently Machin intimated to Mr. Greer, according to the witness' testimony, that if he, Machin, had \$1,000 he could make sure of the berth going to Mr. Greer. The money was paid to Machin, the witness stated, and G. E. Farlinger, who was supposed to be tendering in opposition to Mr. Greer, but was not, paid half of the \$1,000.

MANY TRAINS ARE HELD UP IN IRELAND

Trainmen Refused to Operate Trains When Soldiers Climbed Aboard.

(Associated Press Despatch)

DUBLIN, June 30.—Newbridge, County Kildare, is the great military centre serving Curragh, the Aldershot of Ireland. Yesterday for the first time it was sought to despatch soldiers thence by a train passing from Kilkenny to Dublin. The driver refused to carry them, and the soldiers remained on the train, blocking up the line.

Subsequently trains from Athlone and Thurles for Dublin were similarly boarded by soldiers and blocked. The stranded passengers drove to Kildare to catch through trains, not stopping at Newbridge. The soldiers have orders to board any train available, so the situation cannot be relieved by the despatch of trains from Dublin.

The Government has had offers of assistance of men from Belfast to operate the trains, but has not accepted them. The situation is declared to be not bad enough yet to justify the Government taking over the trains and entering upon a general conflict.

NO MOVE MADE BY FARMERS OF THIS PROVINCE

Quebec United Farmers' Second Annual Convention Closed Last Night.

(Associated Press Despatch)

MONTREAL, June 30.—At the closing of the second annual convention of the United Farmers of Quebec here last night no action looking towards the formation of a political party was taken, the reason being given that the organization was in doubt as to what steps to take until the question of amalgamation with the Cultivators Union of Quebec, is settled. A committee appointed from the executives of both organizations, was formed to study the matter and report.

During the afternoon the members of the convention were assured of the hearty good will of the United Farmers of Ontario by delegate J. A. Caron, of Prescott. Mr. Caron affirmed that the Bonne Entente between the two races was the keynote of the Ontario organization and the U. F. C. had printed their constitution in both languages.

One Minute Cooking

As an actual fact, the Electric "Hot Plate" is ready to cook in much less than one minute from the time you turn the switch.

You can prepare practically everything on it that is required for Summer Cooking.

An Electric Range is the good fairy of the "Light Housekeeping Age" and it banishes all the evils of smoke, soot, disagreeable odors, and all at a considerably smaller operating cost.
