Dock Workers In United Kingdom Out On Strike

Strike of Dock Workers Affecting 120,000 Men Became Effective at Noon Today in All Ports of United Kingdom—Tugboat Workers Struck in Sympathy with Dock Workers at Liverpool—Strike Cannot Become Fully Effective Before Monday, and Meanwhile Peacemakers Will Be Busy—Unless Settlement Is Reached, Not Only Will All Ports Be Closed, But Railroad Traffic from Them Will Cease, the National Union of Railwaymen Having Promised to Call Out Men Engaged in This Work.

(Associated Press Despatch.)

LONDON, February 16.—The strike of dock workers affecting one hundred and twenty thousand men, became effective at noon today in all ports of the United Kingdom. At Liverpool the dock workers walked out at noon today. The tugboat workers struck in sympathy with them. The dock workers at Middlesborough ceased work in accordance with their strike schedule. Twelve liners from the Far East are held up at their piers, and scores of smaller craft in the river.

UNLESS SETTLEMENT IS REACHED, THE COUNTRY NEXT WEEK WILL HAVE TO PREPARE TO TIGHTEN ITS BELT

(Associated Press Despatch.)

LONDON, Feb. 16.—The strike cannot become effective before Monday and meanwhile the peace makers will be busy, but should their efforts fail, the country next week will have to prepare to tighten its belt. Not only will all the ports be closed but railroad traffic from them will cease, the National Union of Railwaymen having promised to call out the men engaged in this work, while all the other transport employees handling business to and from the docks will also cease work. Such action will have a most serious effect on the country's food supply, unless the Government makes alternative arrangements. Those industries depending upon importations of raw materials will also be hampered and numbers of their employees thrown into idleness.

The dockers immediately involved in the strike order number about 120,000, but the transport and general workers union to which they belong is affiliated with a half dozen other unions which may make common cause and thus involve sailors, water men, warehouse men, ship stewards, ship firemen, stevedores, car men and others.

Rise in Food Prices.

Among the first results predicted is a rise in food prices which will hit the strikers themselves as hard as anybody. It is believed they are well supplied with food, however, and are able to hold out long enough to cause great damage. The trade press up to the present has not taken any strong line regarding the apportionment or responsibility for the dispute, the present tendency being to hold both sides to some extent blame-worthy.

The negotiations between employers and men collapsed upon the refusal of the former to make any advance over the terms offered last Monday, giving the dockers and increase of one shilling a day in wages and promising an inquiry into the question of casual labor. The dock men insist upon an advance of two shillings and the abolition of casual labor so as to guarantee all the dock workers a certain weekly wage.

Hope to Maintain Passenger Schedules. The steamship operators, upon whose business the effect of the strike was at first immediately apparent, said this morning they expected to be able to maintain their schedules with the ocean going passenger ships, but feared that the vast water borne freight traffic to and from ports in the United Kingdom would be greatly slackened if not altogether stopped, entailing incalculable losses to themselves and shippers in general.

Should the tugboat men in the various ports quit work out of sympathy with the dock men, it will be impossible to bring ocean going vessels to their docks, and all of them will have to anchor off shore or in such streams as the Thames, the Clyde and the Mersey. By the use of tenders the passengers, mail and baggage could be carried to and from these anchored liners, but this system could never be used to load and unload the tremendous cargoes of commodities of every kind brought to and carried from the British Isles. As soon as the dock workers walked out at noon, various lines put into operation such plans as they had already available for use in meeting the emergency. The United States lines, fearing the Plymouth tugboat men would follow the lead of those at Liverpool and bank the fires under their boilers, sent wireless messages to the captain of the steamship America, due in Plymouth at ten o'clock tonight, informing him that his own crew would have to

BRIG-GENERAL C. B. THOMSON, British Air Minister, and one of the three new Labor peers.

handle the mails. U. S. Board Will Be Hard Hit. The Line's office at Plymouth immediately asked the Government to supply sailors and marines to help bring the United States mail bags ashore. Workers from the London offices were rushed to Plymouth to handle the passengers baggage, which will be put on tenders when the liner arrives tonight.

The White Star Line announced that it expected to get the big Olympic away on schedule Wednesday. The United States Shipping Board, a half dozen of whose freight steamers are due in various British ports the next few days, fears it will suffer a harder blow to its exchequer than any of the British lines because of the contracts which enable the crews of United States ships to continue drawing full pay whether or not the ships are forced by outside influence to lie idle. There is no such clause, it is stated, in the contracts made by their vessels with their crews, and, therefore, the crews can be released should the strike make further operation of the steamers impossible.

Some of the operators expressed the opinion today that the strike would be of short duration, possibly only over the week-end. If it should last any length of time it will affect everyone in Great Britain for since Great Britain cannot feed herself the prices of food are bound to rise as soon as there is any interference with the steamers that bring eatables here from all over the world.

EUSTIS MINING COMPANY LOST POWER ACTION

His Lordship Mr. Justice White Rendered Judgment in Favor of Sherbrooke Railway and Power Co. for \$4,777.60.

In accordance with a judgment handed down in the Superior Court this morning, the Eustis Mining Company has been condemned to pay to the Sherbrooke Railway and Power Company the sum of \$4,777.60 with interest from the date of judgment herein, and costs of an action of that amount. His Lordship reserved to defendant the right to secure an adjustment for the year ending July 1st, 1920, if necessary.

In rendering judgment, His Lordship Mr. Justice C. D. White made mention of the more outstanding features of the case, which have already been reviewed in these columns in detail, and, in summing up, observed:

"Considering that the contract must be interpreted in such a way as to calculate the minimum charge upon the rated capacity of all the engines consuming apparatus connected with Plaintiff's power, that is to say, one thousand horse power.

"Considering that for the year ending the first day of July 1921, the Defendant is indebted to the Plaintiff at the rate of four dollars per horse power on 1,000 horse power, amounting to four thousand dollars, and that from the first of July 1921, to the seventh day of September 1921 there has become due on the same basis the sum of seven hundred and seventy-seven dollars and sixty cents, forming a total of four thousand seven hundred and seventy seven dollars and sixty cents.

"Considering that there is no agreement under the contract for the payment of interest, and that therefore Plaintiff is only entitled to interest from the Demande Judiciaire.

"Considering that Defendant has failed to establish any of the payments mentioned in his exhibit No. 1 were payments made upon the contract in question, inasmuch as it is in evidence that there were other contracts for the furnishing of day power, in existence between Plaintiff and Defendant during the currency of the contract sued on, and that Defendant was being billed by the Plaintiff from time to time for various items under these other contracts, which were being paid by Defendant.

"Considering that Plaintiff has established the material allegations of its declarations, and that Defendant has not established the material allegations of its plea.

"Doth declare the confession of judgment made by the Defendant insufficient, and

Howard Carter Holds The Keys To Tomb Of Tutenkhamen But Is Not Allowed To Enter

Dispute Between Mr. Carter and Egyptian Officials Over Conditions Surrounding Work in Tomb Has Reached a Deadlock—Believed Carter Will Be Given Option of Continuing Work Subject to Certain Definite Conditions.

(Associated Press Despatch) LONDON, Feb. 16.—The dispute between Howard Carter and the Egyptian officials over the conditions surrounding the work in the tomb of Tutenkhamen has reached a deadlock, according to despatches received here and the peculiar position of the moment is that Carter holds the keys to the tomb but is not allowed to enter.

Both sides of the dispute adhere rigidly to their respective viewpoints. Mr. Carter, according to the Cairo correspondent of the Daily Mail, wrote to the Premier, Said Zagioul Pasha, threatening to take legal action against the government, to which the Premier replied that Carter was free to take action but the government was determined that the appointed days for visiting the tomb be observed. He added:

"I am sorry to have to remind you that the tomb is not your property. The scelerate which you rightly invoke cannot conceive that, owing to the incident over the visits of people whom you wished to favor, you and your colleagues will abandon your invitations, in which not only Egypt but the whole world is interested."

In a political speech yesterday Zagloul emphasized the government's determination to adhere to the visiting arrangements. The Cairo correspondent of the Morning Post reports that the Egyptian Cabinet has come to the conclusion that Mr. Carter's action in closing the tomb on his own initiative constituted infringement of the contract and that the government consequently is free to continue the work itself if it wishes, a course to which the Egyptian press is strongly urging it.

The correspondent says, however, it is believed Carter will be given the option of continuing the work subject to certain definite conditions.

WORK TO BE CONTINUED. (Associated Press Despatch) LUXOR, Feb. 16.—Regarding the difficulties between Howard Carter and the Egyptian government in connection with the tomb of Tutenkhamen, press correspondents were officially informed today that the Egyptian government had decided to take energetic steps to fulfil what it considers are its obligations towards science and the public.

TEMPERANCE WORK HAS "ALL GONE TO THE DOGS" (Associated Press Despatch) MONTREAL, Feb. 16.—"Ever since our forces have been divided, the temperance work in the province has, to use a slang expression, all gone to the dogs," declared S. J. Carter, president Quebec branch of the Dominion Alliance at its forty-fifth annual meeting here.

The tone of the meeting was pessimistic, the general opinion being that the launching of a prohibition offensive in the province will have to wait until the bodies at variance compose their difficulties and inaugurate a settled and unified policy. At present the Quebec Prohibition Federation contests the provincial field with the Alliance.

DETAILS OF PROPOSED 'BLUE SKY' LEGISLATION; EFFECT TO ONLY BE KNOWN AS RESULT OF JUDGMENTS

Like All Such Laws Designed for Protection of Public, and Especially That Large Section of It Known as the "Sucker Class," the Proposed Measure Is Somewhat Complicated—Bill Deals with Companies—There Is Provision for a Penalty of up to \$1,000 for Each Infringement of Law, or Three Months in Jail.

(Special to the Record.) QUEBEC, Feb. 16.—What is commonly known as "Blue Sky" legislation is embodied in two bills which Hon. L. A. Taschereau, Prime Minister of the province, has before the legislature this session, and the contents of which were known yesterday. The two measures coordinate.

Like all such laws designed for the protection of the public, and especially that large section of it known as the "sucker class" this measure is somewhat complicated, and its effect will only be known as a result of court judgments. The bill deals with companies, and defines companies to be all corporations and joint stock companies incorporated in this province, whether by letters patent or special act of the legislature, or incorporated in another province or in a foreign country.

It is then enacted that no company may issue, sell, offer for sale or otherwise dispose of, in any manner, directly or indirectly, through an officer, or agent or any person, any bond or share in this province, until it has sent certain information to the Provincial Secretary. The information required calls for all possible information in regard to the affairs of such companies, whether Canadian or foreign, under penalty of a fine of \$1,000 or three months in jail.

It is provided that any company which infringes the provisions of the law as thus laid down, shall lose their civil resources against the purchasers of such shares or bonds for the purchase price or balance of purchase price thereof, and the directors of such companies who have participated by their vote in the commission of such infringement, are to be held jointly and severally liable for the repayment of the shares or bonds sold contrary to this provision, to the extent of the price paid by the purchasers for such shares or bonds. In brief, this means that when a man buys a bond from a company, no matter where located, and the company has not complied with this new law, there is no responsibility as to payment upon the purchaser, which also means that the agent who sells a bond with the idea of defrauding some farmer or other, whether in the city or in the rural sections, will have to get it in cash.

There is also provision for a penalty of up to \$1,000 for each infringement of this law, or three months in jail. This act comes into effect only when the Lieutenant-Governor in Council so decides by proclamation.

TO PLACE CHECK ON DISHONEST AUTO DEALER (Special to the Record.) QUEBEC, Feb. 16.—Legislation looking towards the betterment of the automobile dealers in this province against the dishonest dealer was promised yesterday by Premier Taschereau and his colleagues of the Quebec cabinet when a delegation, representative of the automobile trade, met the cabinet.

The crux of the situation lies in article 1489 of the Quebec Civil Code, which article makes an exception to the law which states that the sale of a stolen article voids a sale. The article reads: "If a thing lost or stolen be bought in good faith in a fair market, or at a public sale, or from a trade dealing in similar articles, the owner cannot reclaim it without reimbursing to the purchaser the price he has paid for it."

The words "in good faith" are the basis of the creation of a great market in this Province for stolen automobiles, according to Phillip Brails, advocate, who did the speaking for the delegation, and represented the Montreal Automobile Trade Association. Mr. Brails had a hard time of it, due to the fact that he wanted to change an important article in the Civil Code, and as Premier Taschereau expressed it, the Civil Code is something very close to sacred, and in this view the Premier was endorsed by such colleagues and other able lawyers like himself, as Hon. J. L. Perron, Hon. Mr. Galipeault and Hon. Jacob Nicol. Other ministers present were Hon. J. E. Caron and Hon. J. E. Perrault.

Compromise Was Reached. Mr. Brails argued the matter at length with the Ministers, and the ultimate result was a compromise, subject to the approval by the dealers. This compromise was suggested by Premier Taschereau, and means this:

The Province in its revision of the motor vehicle law this session will enact that all dealers in automobiles must have a license from the Provincial Treasurer, and that to get such a license they must be of good character and furnish the Treasurer with a bond whereby each person who buys a car from such licensed dealer will be guaranteed by means of this bond from loss by reason of the car being stolen, this during the period of six months.

People who buy cars from non-licensed dealers, or from individuals, will do so at their own risk, and will not enjoy the benefits of Article 1489. In effect, the presumption of guilt, as far as their civil status is concerned, will be upon them. Mr. Taschereau asked Mr. Brails to consult the dealers in the matter, and give the Government an answer some time next week. Following the interview the dealers did gather, and agreed to accept the idea, with the further suggestion that the time of security bonded be one year instead of six months. The whole idea of the dealers is to kill the stolen automobile ring market.

Organized Ring of Auto Thieves. J. H. Fortier, vice-president and general manager of P. T. Legare, Limited, as well as a vice-president of the Canadian Manufacturers Association, opened the case for the delegation, pointing out, as had been done by the first delegation two weeks ago, the situation which had arisen by reason of the fact that there was an organized automobile theft organization, which stole cars in the United States and sold them here. Again Mr. Taschereau raised the issue as to why these men were not arrested, and again was told that it was due to lack of proof from a legal point of view. It was brought out clearly that not many cars were stolen in this Province, but that cars stolen in the United States were sold here. Premier Taschereau commented on this fact, saying that the good name of the Province was at stake, and he read an editorial article from a New York newspaper to the effect that Quebec was the Province for receiving stolen cars, due to the provisions of the law above quoted.

PRESIDENT OREGON HAS LEFT FOR MEXICO CITY Guadalajara Resuming Its Normal Affairs—Trade Almost at a Standstill. (Associated Press Despatch.) GUADALAJARA, Mexico, Feb. 16.—President Obregon left Guadalajara yesterday in the direction of Mexico City, after a conference with Secretary of War Serrano, General Amaro, Federal commander on the Jalisco front, and various other leading generals who participated in the victorious attack on this city. According to official representatives the main body of the defeated Jalisco insurrectionists has concentrated in the vicinity of Ciudad Guzman, but there is no announcement of a general plan of campaign against them. Except for scattered troop movements through the streets, Guadalajara is apparently resuming its normal affairs, although business men declare trade is almost at a standstill, on account of the rebel occupation of more than two months and the consequent isolation of the city. There Isn't Any "Substitoot" for QUALITY

Talking quality in plumbing to you fellers is about like trying to tell Eskimos about ice. On the other hand (as the minister remarked to the nervous bridegroom)—on the other hand, a lot of fellers are either careless or have inclined foreheads. Something's wrong if these fellers persist in ignorin' the value of quality. The plumbing or heating contractor who makes up his mind to sell quality goods an' do quality work for correspondin' prices, is bound to win out. He's established a set policy and a set policy is the best in th' long run. The firms that win are the ones that had a definite plan 'bout what they wanted to do. Them that didn't operated on the scatteration plan instead of the concentration plan. Th' difference between a firm that flies a Quality flag, and a firm that don't is that the first firm is more firm than the second firm. You can't operate 'bout service until you've tied up with Quality. Quality is what makes service something to blow about.

Service and Quality are th' kids of Good Papa Profit. You know, sometimes th' black sheep of th' business sneaks into the shop and on to a job. This here wreckful ram is named, Just-as-Good. Boy, but he butts holes in a business. If you let him go along on a job he'll fill the same bill a second time. It's the ability to repeat—to do more work for a customer—that makes Papa Profit grin and get fat. We have no "Just-as-good" stuff. Quality and Service our motto.

FOR THE PUBLIC HEALTH. Infantile mortality and the ravages of tuberculosis are engaging the attention of the Quebec Legislature and a bill has been introduced to provide five hundred thousand dollars to combat the losses to the population in this connection.

POLITICS IN THE STATES. This is presidential election year in the United States. First of the year prophets were forecasting the certain nomination and election of Coolidge and the nomination of W. G. McAdoo as the Democratic candidate.

PARAGRAPHS. A hick town is a place where the man with the manicured nails is a drummer. After all, perhaps the proper study of mankind is a boarding-house bath tub.

Another eternal triangle which demands attention consists of an amateur hunter, a shotgun and a wire fence.

Correct this sentence: "He is our only child," said she, "but it seems impossible to spoil him."

That superiority complex doesn't mean that you are a wonder, but only that you associate with "two by fours."

THE objection to saying it in flowers in love affairs is that the flowers get the caressing.

When the world is sane, there will be medals for the man who keeps seven children in shoes.

The Mexican method is deplorable. It is so much cheaper to stuff the ballot boxes.

Don't ridicule a popular song. The music was stolen from numerous old masters.

MONTREAL, Que., Feb. 16 — The Grand Lodge of Quebec, A.F. and A.M., held its fifty-fourth annual election of officers in the Masonic Temple, thus establishing a precedent in the history of the lodge, which has never before witnessed the holding of elections in the forenoon.

Following are the other officers elected: Deputy-Grand Master, W. J. Ewing, Richmond, re-elected; Grand Senior Warden, H. M. Gall, Lachute; Grand Junior Warden, C. H. Knowles; Quebec City; Grand Treasurer, A. F. C. Ross, Montreal, re-elected; Grand Secretary, W. W. Williamson, Montreal, re-elected; Grand Registrar, W. H. A. Eckhardt, Montreal.

More than four hundred ballots were cast in the election. Although some opposition was voiced to the plan of holding the annual elections in the morning, owing to the pressure of business, it was determined by the majority to continue morning elections in the future.

SELLING REVENUE STAMPS. (Orillia Packet.) This page again ventures to call attention to the inadequate provision for the sale of excise revenue stamps. If the people in the country are to be expected to place revenue stamps on their cheques and receipts these should be made readily available.

JUVENILE COURTS. (Victoria Times.) The work of juvenile courts with auxiliary activities has been proven to be the cheapest form of social devices because they pay for themselves many times. They prevent the development of criminal records at the only place where such prevention is possible.

BLUE SKY LEGISLATION. (Montreal Herald.) In connection with the proposed Blue Sky Law legislation, it is to be hoped that the passing of this legislation will serve as a warning to investors against securities which are peddled about the country by agents.

WHAT IS THE MATTER WITH HERRIN? (Chicago Post.) The real trouble in Herrin is not the bootlegger; it is not the Klan; it is not the activity of Federal deputies. The real trouble in Herrin is the breakdown of the constituted law-enforcing authorities of Williamson county.

LANCIS'S SEARCH FOR SECURITY. (Christian Science Monitor.) The so-called "security" policy of France, which consists in making alliances with the new and the new-old states of Europe, constructing a chain from the Baltic to the Black Sea, is undoubtedly shortsighted.

BRITISH ARMY OFFICERS. (Toronto Globe.) A London despatch says that the Government has difficulty in keeping up the supply of British army officers. This difficulty has always been more or less acute, and was investigated last summer by a committee headed by Lord Haldane.

Home Made Cough Mixture Best of All

The cough that hangs on and lags on—the cough you've taken everything for with no results, is just the cough that your own home-made cough mixture will end speedily.

Make a supply yourself in a few minutes and keep it on hand this winter—a half pint doesn't cost much; it's better than any you could buy, and the kiddies love it.

It's a fine remedy for chest colds and acute nasal catarrh.

With speed almost beyond belief this home-made cough mixture stops the toughest hang-on cough, and all because in it there is a substance (too costly for ordinary cough syrups) that immediately covers the membrane like a soothing, healing poultice and blessed relief comes at once.

Get from any druggist one ounce of Parmit (double strength)—to this add a little granulated sugar and enough water to make one-half pint—that's all there is to it.

Any remedy that overcomes catarrh, partially or wholly, is bound to be of benefit to those who are troubled with head noises and ear-aching deafness.

Get Parmit and get better.

The breaking away of the ice bridge which spanned the St. Lawrence River between Quebec and Levis was happily attended by no loss of life. Six men and two women had a miraculous escape from death. Four of the men were pulled ashore near a point opposite St. Romuald, where it was earlier reported that they had been seen signalling to the shore. The other four persons got ashore near Cap Rouge when the ice jammed against the shore. They had been afloat on the ice four hours, and had travelled nearly nine miles up the river. The above map illustrates the course of the floes after the collapse of the bridge.

Young People's Corner

UNCLE JIM'S LETTER

Dear Corner Children:—
This is our Saturday night corner meeting, and I hope all the boys and girls have had a jolly day. It is nice to gather round the fireplace, or a big stove in which is a nice fire, and read. I think many of the corner folk read the letters and stories during that time.

I am sure it is difficult for little boys and girls to get to school on some of our stormy days, for big folk find it hard to brave the frosty

air and chilly winds. The corner uncle's fingers get very cold while going to the office on sharp winter mornings, but we must think of our winter weather as truly Canadian, and without which our country would not be nearly so nice, nor so wealthy. We congratulate Ailene upon her good work in school, and we hope she will win more prizes. The cousins should take note that Ailene asks for correspondents. It is very nice for the corner folk to correspond if they try to write nice, newsy letters.

The story beginning today is different from the other fairy tales, for there is no princess, nor beautiful clothes, nor palaces, but I think you will like it just the same.

Until Monday best wishes from
UNCLE JIM.

Why It Pays To Buy Good Lamps

All Lamps look alike; but they are not alike by any means. It is impossible to note any difference when tested in the store. This difference, however, is quickly demonstrated in your home.

Inferior Lamps have less efficiency and give less light, but they do not use less current. Any saving you may have made on the purchase price, is therefore quickly wiped out.

Good lamps naturally cost a trifle more. They, however, are a real economy, because they not only last longer, but give more light. They give a dollar's worth of lighting value for every dollar's worth of current consumed.

We sell only genuine Mazda Lamps—every one of them backed by our guarantee. If one should go wrong we replace it. You are, therefore, fully protected in purchasing from us.

DANVILLE

On Tuesday evening, February 12th, the Danville High School hockey team players were entertained at dinner at the home of Mr. and Mrs. A. A. Burbank, covers being laid for ten. After dinner games were indulged in until a late hour, when the party broke up, all having enjoyed a very pleasant evening.

Miss G. Vilandre, who has been spending the past several months in Alberta, has returned to her home here.

Mr. Jos. Grey spent several days in Montreal recently with relatives and friends.

Mr. Fred Nottingham, of Toronto, spent a few days recently in town the guest of Mr. and Mrs. A. A. Burbank.

"Vicks Is Best For Croup"

So Declares Mother of Twin Babies.

Mrs. Frank Cox, R. R. No. 2, Mountain Grove, Ontario, says: "My twin babies aged twenty-one months were seized with convulsions and croup. They were so choked up that I did not know what to do. Finally I rubbed their chests and throats with Vicks VapoRub and applied hot flannels. This immediately relieved the spasms. I also had the babies inhale the vapors from a tin cup and they grew quiet and slept. Vicks is the best croup remedy ever in this house."

If the child seems croupy, apply Vicks over throat and chest at bedtime. It usually averts a night attack. In severe cases heat a tin cup, drop in a teaspoonful of Vicks and as it melts hold the cup so vapors can be inhaled.

Vicks is a salve that acts like a plaster and a vapor lamp at the same time. It is absorbed and inhaled. This makes Vicks the ideal treatment for children's cold troubles; it avoids so much internal dosing. Just as good, too, for grown-ups' colds, and for cuts, burns, bruises, sores, stings and skin itchings.

At all drug stores 50c. a jar. For free test size package write Vicks Chemical Co., 344 St. Paul St. W., Montreal, Que.

Though Vicks is new in Canada, it has a remarkable sale in the States. Over 17 million jars used yearly.

LONG DISTANCE COMMUTER HAS WORLD'S RECORD

Can't Remember the Number of Times He Has Made Trip Between New York and Brazil.

(Associated Press Despatch.)
PERNAMBUCO, Brazil, Feb. 16.—Frederick J. West, a member of the New York Coffee Exchange, claims he is the champion long-distance commuter of the world.

Mr. West's business makes necessary frequent trips to Brazil, each round trip being a 10,000-mile "commute," as he puts it. He has made so many of these trips that he has forgotten the number, and the mileage is a matter of higher mathematics.

Making a flying visit to this city on a coasting steamer and being in a hurry to get back to New York, with no American ship touching this port, Mr. West recently showed a commutier's resourcefulness when he went out to sea in a small sailboat to catch the Lamport and Holt liner "Van Dick," as she passed on her regular trip north, at a distance of eight miles from the coast.

Mr. West made the arrangements with Captain Burn by radio "at a point more or less eight sea miles due east of Pernambuco." The "Van Dyck" slowed down, the sailboat made sail, and Mr. West did the rest on a rope ladder.

a deadly combat between two male deer with their horns interlocked. Gutzman, who is deaf, came on the duellists in a wilderness near here and was within 25 feet of them before he saw them or they sensed his presence. When the bucks noted the intrusion, they ceased fighting and scrambled away, their horns still locked, to a point hardly 100 yards distant, where the battle was resumed. Gutzman did not again approach the animals. Instead he notified the game warden, and the next day an investigation was made. The bucks could not be found, but the trail they had left for miles told eloquently of the terrific battle. In places the ground was torn up as if by a plow and saplings were broken down. At one point the fettered foes had fallen over a cliff 12 feet high.

The game warden predicted that the final chapter of the episode would be written when some hunter found two pairs of whitened horns linked together. Such finds are not uncommon, an indication that fights between male deer often last until both die of exhaustion or starvation.

In January, 1922, the collections were \$29,251.82; in January, 1923, \$56,467.63; in January, 1924, according to figures furnished by Collector Whitehill, the amount was \$159,629.80.

PRICES AND DETAILS OF SHERBROOKE MARKET

Yesterday's session of Lansdowne market was featured by a strengthening in the prices for dairy produce, both eggs and butter being slightly firmer.

Marked fluctuations made the egg market more conspicuous than usual and strictly new laid eggs sold from forty-five to sixty cents a dozen, registering a very wide margin.

The butter market was also slightly firmer and the best prints sold at fifty cents a pound, while large quantities of slightly inferior butter were disposed of at forty-five cents a pound.

Poultry was not as plentiful as usual, although a few very choice birds fetched thirty-five cents a pound. Hens sold at twenty-eight to thirty cents a pound.

There was little outstanding in the vegetable market. Potatoes sold at ninety cents to a dollar a bushel, celery fifteen and twenty cents a head, lettuce was fifteen and twenty cents a head for imported and ten cents or three for a quarter for local. There were quite a few cauliflower available at thirty-five cents

while cabbages fetched five, ten and fifteen cents each. Turnips were five cents each, with beets twenty cents a measure, and carrots ten cents a measure. Parsnips were unchanged. Tomatoes were fairly plentiful and fetched thirty cents a pound. The fruit market showed little unusual activity. Grapefruit were two for fifteen and three for a quarter, according to size. Lemons were thirty cents a dozen, and apples ran anywhere from forty cents to eighty cents a peck. Bananas were available in small quantities, at fifty and fifty-five cents a dozen. Table grapes were thirty cents a pound.

In the provision market, pork and beef were plentiful. A small quantity of lamb was still offered for sale while the first of the season's veal is to hand. Prices were unchanged.

DAIRY PRODUCE

Montreal, Feb. 16th. BUTTER.—A fairly steady feeling continues to prevail in the market owing to the fact that there is no pressure on the part of holders for force sales, as the general impression is that all the butter here will be wanted before the season for the new make opens up. A moderate amount of business is passing daily for local account, but the market on the whole is quiet with No. 1 pasteurized creamery selling at 42c to 42 1/2c per lb., No. 1 creamery at 41 1/2c to 41 3/4c per lb., and No. 2 creamery at 40 1/2c to 41c per lb.

CHEESE.—According to some cable advices received here from Liverpool yesterday, the tendency of the market was downward to the large arrivals of New Zealand cheese, which were quoted at 94s to 95s per cwt. It was reported here that a sale of 500 boxes of June white washed cheese was made at 17 3/4c per lb. The market on the whole was dull with current receipts of fodder made goods quoted at 15 1/2c to 16c per lb.

COUNTRY PRODUCE

Montreal, Feb. 16th. EGGS.—A fair amount of business was done in eggs yesterday in a wholesale jobbing way, and supplies of all grades were ample to meet requirements the market was moderately active with a steady undertone and prices show change with sales of fresh extras at 55c, and firsts at 52c per dozen, while storage extras sold at 44c per dozen.

POULTRY.—Owing to the favorable weather prevailing and the reasonable prices ruling for most lines of dressed poultry this season as compared with previous years the consumption is much larger and in consequence a steady trade continues to be done in a wholesale jobbing way, and the market was moderately active with no change in prices to note. Sales of fresh-killed turkeys were made at 34c to 35c per lb., while fresh-killed chickens weighing 5 to 7 lbs. each sold at 27c to 32c per lb., and 1-2c to 1 1/2c birds at 25c to 28c per lb., with frozen lots at 22c to 25c per lb. Heavy fresh killed fowl sold at 24c to 25c per lb., and frozen stock at 22c to 24c per lb. The trade in geese and ducks was slow with former quoted at 15c to 18c per lb., and the latter at 18c to 20c per lb.

HONEY.—The condition of the market for honey was unchanged, prices being steady owing to the fact that offerings on spot were not large. The demand was still somewhat limited and the volume of business was small with sales of odd lots of No. 1 white clover honey in comb at 25c per section and No. 2 grade at 20c per section, No. 1 amber at 22c per section and No. 2 amber at 19c per section. White extract honey in 30 lb. tins sold at 12c per lb., 10 lb. tins at 12 1/2c and 5 lb. tins at 13c.

POTATOES.—A firm feeling prevailed in the market for potatoes owing to the continued steady demand for supplies and the fact that the offerings were none too large to meet the requirements. A fairly active trade was done with sales of car lots of Green Mountains at \$1.50 to \$1.55, and Quebec stock at \$1.35 to \$1.40 per bag of 90 lbs. in bulk, ex-track.

HAY MARKET Montreal, Feb. 16th. HAY.—According to latest cable advices from Glasgow the condition of that market has improved to some extent for Canadian hay, and some fair sized shipments have gone forward from New Brunswick sections, but dealers here state that prices for Quebec hay are too high to permit of shipments being made. The local trade was quiet, and the tone of the market was steady, with car lots of No. 2 timothy quoted at \$16 per ton, and No. 3 timothy at \$14 to \$14.50 per ton, f.o.b., cars here.

FLOUR AND FEED

Montreal, Feb. 16th. FLOUR.—The trade in spring wheat flour showed no marked improvement, the demand from foreign buyers being still somewhat limited for supplies owing to the dock labor strike and the cheap wheat offering from other exporting countries to English millers. The domestic business was only fair, as the demand was chiefly for small lots, but the tone of the market remains about steady, and prices were unchanged, with car lots of first patents quoted at \$6.30, second patents at \$5.80 and strong bakers at \$5.60 per barrel in jute bags, ex-track, less 10c per barrel for spot cash.

There was no actual change in prices for winter wheat flour, but the undertone to the market was stronger, owing to the fact that Ontario millers were asking an advance of 15c per barrel, which in some cases had been paid for odd cars. The trade here was quiet, as buyers in most cases seem to be fairly well supplied for the present. Car lots of choice grades were quoted at \$4.95 to \$5.05 per barrel in second hand jute bags, ex-track, and smaller quantities sold at \$5.40 to \$5.50 per barrel ex-store, with winter wheat patents at \$5.65 to \$5.75 per barrel in new cotton bags, ex-store, and white corn flour at \$5.50 to \$5.60 per barrel in jute bags, de-

Financial and Market News

NEW YORK PRESS MARKET COMMENT

Furnished by McManamy & Walsh

Journal of Commerce.—The closing was of a nature which left the general run of traders in grave doubt as to what was next to be expected.

New York Tribune.—The swift collapse of values occurred largely on the ground that until present complications had been cleared away no progress could be made on the constructive side of the market.

Wall Street Journal.—Toward end of fourth hour, a steadier tone crept into the market as a whole, reflecting the complete breakdown of Mr. Vanderlip's testimony. Important accumulation took advantage of the reaction in standard stocks, the buying of steel common being particularly impressive.

Wall Street Journal will say today:— Maxwell Motor makes progress. Sales close to record. U.S. Rubber on the rebound. American Can's strong position. Earnings have been kept liquid or used to reduce funded debt. Outlook for 1924 favorable.

IRREGULAR TONE TODAY ON WALL STREET CHANGE

(Associated Press Despatch) NEW YORK, Feb. 16.—Stock prices moved irregularly higher at the opening of today's stock market. Brisk recovery from yesterday's weakness was made by Crucible Steel, which advanced 2 1/2 points, and Baldwin, which moved up a point. Stewart-Warner dropped a point. United States Steel, American Can and Studebaker opened fractionally higher.

MILLEED AND ROLLED OATS.—A steady feeling continues to prevail in the market for all lines of millfeed, but there was no improvement in the demand for supplies from any source, and business was rather quiet for the season of the year. Supplies on spot are not large, but they were ample to meet all requirements, and sales of car lots of Manitoba bran were made at \$28.25, shorts at \$30.25, and middlings at \$26.25 per ton, including bags, ex-track, less 25c per ton for spot cash.

The export trade in rolled oats has been checked by an advance of 10c per 100 lbs. in ocean freight rates, but the domestic demand for supplies continues steady, and the tone of the market was firm at \$2.90 per bag of 90 lbs. for standard grades, delivered to the trade.

GRAIN MARKET

Montreal, Feb. 16th. GRAIN.—There was very little change in the condition of the Winnipeg cash wheat market yesterday, which would indicate that the trading was light on account of the indifferent demand from foreign buyers. No. 1 northern closed unchanged at 99 3/8c, and No. 2 northern at 96 3/8c, while No. 3 northern was 1-8c lower at 92 1/2c per bushel, ex-store, Fort William. The premiums were easier at a decline of 1-8c to 1-4c per bushel. No. 1 northern being 3-4c per bushel under the May option, No. 2 northern 5-8c under, and No. 3 northern 10-5c under.

There was practically no improvement in the foreign demand for grain here yesterday, and business in consequence was again exceedingly quiet, there being only sales of a few odd loads of Manitoba wheat for February and April-May shipment. The Liverpool future wheat market closed 1-4c lower to 1-4d higher, with the March option quoted at 95 1/4-5/8d, May at 88 1/4-1/8d, and July at 88 1/4-7/8d. According to Boomhall's cables the weather in the Argentine is hot and light general rains were predicted, but a heavy downpour would be very welcome throughout the corn belt. The shipment of grain from the Argentine this week were estimated at 4,440,000 bushels wheat, 400,000 corn and 1,468,000 oats.

The volume of business transacted in cash grain in the local market yesterday was again small, there being little demand from any source for supplies. Sales of a few cars of Canadian western No. 3 barley were made at 65c per bushel, and No. 4 barley was offered at 59c per bushel, ex-track, Fort William. The market for oats of No. 2 Canadian western quoted at 55c to 55 1/2c, No. 3 C.W. at 53 1/2c to 54c, and No. 1 feed at 50 1/2c to 55c, and No. 2 feed at 50 1/2c to 51c per bushel ex-store.

DEATH TOLL IN MONTPELIER, VT. FIRE IS ELEVEN

Many Taken to Hospitals—Wm. Gisburne Sacrificed Life in an Attempt to Spread Warning of Fire.

(Associated Press Despatch.) MONTPELIER, Vt., Feb. 16.—The death toll in yesterday's disastrous fire has been officially placed at eleven.

Firemen yesterday afternoon turned their attention to tearing down two walls left standing after the fire. Both police and fire department officials said they were unable to throw any light on the cause of the fire.

At first it was thought there had been a boiler explosion but the deputy marshal expressed the opinion the fire could not have started from that cause.

With the exception of Claude M. Martin, who is in a critical condition, hospital physicians expressed the opinion that all would recover.

The dead are: Mr. and Mrs. Walter Washburn and infant; Mr. and Mrs. Joseph S. Waterman and son, Ernest; Mr. and Mrs. William Gisburne, Dr. G. H. Ryder, Mrs. Lupine and Mrs. Miller.

William Gisburne is believed to have sacrificed his life in an attempt to spread the warning of danger to other sleeping tenants of the building.

Those less seriously hurt, and for whom recovery is expected are: Mrs. George, Mrs. Amie Minard, David E. Spicer, burned painfully but not dangerously, about the head and face.

Killed by Jumping. Mrs. Joseph Waterman and Walter Washburn, who is the owner of the Washburn Insurance Agency on the second floor of the burned building, and prominently identified with the Masonic fraternity, were both killed by jumping from upper floor windows.

The tenants on the ground floor were the Peck Brothers Hardware Company, E. W. Bailey and Co., wholesale feed dealers, and the Grand Union Tea Co.

Flee in Night Clothes. Among those who occupied either offices or apartments on the three upper floors were the Walter Washburn Insurance Agency; the office of Atty. Burton E. Bailey, formerly postmaster here, and at present the representative in the state Legislature from Montpelier; the office of Dr. J. A. Boucher, Dr. L. W. Hanson, Dr. C. H. Burr and C. S. Whittier, wholesale credit agent.

The upper floor was occupied solely by families, the members of which were forced to flee over the fire escapes or jump into the life nets spread below by the firemen, dressed only in their light night clothes.

They barely had time to save their lives, so quickly did the flames shoot up through the building, cutting off all exit from the building, by way of the stairs. On account of the extreme cold, these persons suffered from exposure, but they were quickly taken care of by the Red Cross.

FATHER AND SON ACCUSE EACH OTHER

Son Refused to Shake Hands With His Father — Murder Case Attracts Attention.

(Associated Press Despatch.) BRIDGETON, N. J., Feb. 16.—Father and son, each accusing the other of slaying the latter's fifteen year old daughter, faced each other in the county jail here yesterday.

Thompson Dickson, fifty-five years old, father of Emma Dickson, whose battered body was found near her home in Bricksboro on September 22nd last, for the first time faced his aged father, Benjamin Dickson, on whose testimony he was arrested and formally charged with the girl's murder. He himself has made a counter charge against the eighty-three year old man.

As the old man, who is still vigorous, entered the jail accompanied by detectives, he walked to his son, extending his hand in greeting. The younger man drew back.

"No, pop, can't do it," he said. In the presence of detective Frank Lore and prosecutor Ward the two men again reiterated their charges that the other had killed the girl.

Says Wife Driven to Fire Fatal Shot in Defence of Her Honor.

(Associated Press Despatch.) HULL, Que., Feb. 16.—That his wife, Mrs. Malvina Robillard, was driven to defense of her honor to fire the fatal shot through the door of her home on Saturday night last, which resulted in the death of Albert Turcotte, farmer of Lochaber Gore, for whose murder she now awaits trial in the Hull jail, was the statement made by Jean Baptiste Robillard, the husband, on his arrival here last night.

Mr. Robillard declared that Turcotte had during the months of October and November on numerous occasions paid friendly visits to the Robillard home, sometimes when the husband was at home and often when he was away. As a result of statements made to him by his wife, Mr. Robillard had on more than one occasion warned Turcotte to keep away from the house, and since November he had not paid any visits while Mr. Robillard was there.

In the Hull police court yesterday before Judge Bergeron, Mrs. Robillard was remanded without bail for preliminary trial until February 22nd.

Mrs. Robillard is at present only held upon a coroner's warrant signed by Coroner McMahon, and neither a stated charge of manslaughter nor murder has been preferred against her.
