ANOTHER BIG BATTLE FLARES ON ANZIO FRONT

Huns Throw Full Force Into Attack

British and American troops reported grimly holding to their positions in face of tremendous pressure—Enemy aircraft appear in unusual force.

An announcement from Allied headquarters said the Germans struck early yesterday morning after intensive artillery preparation. Both sides threw tanks into the heavy fighting.

British and American troops were said to be grimly holding to their positions in the face of tremendous pressure.

Enemy aircraft swung into the battle in usual force, some 130 sorties attacking objectives in the battle zone. But the Allied air forces met the air attack blow for blow, shooting down nine of the attackers and blasting targets in the fighting area.

The beachhead fighting was heavier than in strategic Cassino where American forces still were bitterly contesting the Nazi stronghold house by house. R. A. F. and Australian Kittyhawks again bombed the ruins of the Monte Cassino monastery. American planes hit German positions elsewhere on Abbey Hill.

In a day of extensive and wide-ranging air activity, Allied bombers and fighters flew approximately 1,200 sorties. The enemy railway yards in Rome were hit for the second consecutive day and heavy and medium bombers attacked communications at many points North of the Italian capital. Four Allied planes were lost.

The sweeping air offensive covered fifteen main and secondary rail lines around Rome.

After an intense and concentrated German artillery barrage yesterday, enemy shock troops struck in the first phases of the new beachhead attack with tanks in support. The Allied armor immediately went into action against them.

NEW NATIONAL POLICY URGED FOR DOMINION

Saskatoon, Feb. 17.—(P)—A new national policy, so embracing "that everyone can get on the band wagon and feel they are working for themselves, for their children and for the boys and girls when they come back from overseas," was urged here last night by John Bracken, National Leader of the Progressive Conservative Party.

The new policy, which would provide for maximum production, full employment, fair prices for agriculture and fair wages for labor without the loss of freedom, was outlined by Mr. Bracken at the final convention session of the Saskatchewan Progressive Conservative Association.

Key points enunciated by the National leader as a basis for a national policy were:

1. Canada for the Canadian people, but not a policy of isolation.
2. Full development of the country's national resources.
3. Share the fruits of development equitably with agriculture, labor and industry sitting in with the Government to discuss their common problems.
4. Raise living standards by promoting trade and peace.

COMMITTEE TO LOOK INTO U.S. OIL DEALINGS

Proposed \$165,000,000 Pipe-Line to Bring Crude Oil from Persian Gulf Areas to Be Investigated.

By FRANK I. WELLS, Associated Press Staff Writer, Washington, Feb. 17.—(P)—American participation in foreign oil dealings has become so important to congress that a special committee of members of three regular senate committees is going to investigate.

Its first concern is the government's proposed \$165,000,000 pipeline to bring crude oil from Persian Gulf areas to Mediterranean ports for United States tankers.

The special committee will succeed the Senate Interstate Commerce subcommittee which called for a full-scale hearing this week on every angle of the American petroleum problem.

Estonian City Is Shelled By Russian Ships

Soviet Bridgehead South of Narva Still Intact but Difficult to Supply Because of Thin Ice Covering Narva River.

Stockholm, Feb. 17.—(P)—Russian paratroops have landed behind the German lines at Narva and Russian naval vessels in the Gulf of Finland are pounding the defenses of the Estonian City as Soviet forces press in from the East, Helsinki dispatches said today.

The dispatches said the parachute landings were made in the vicinity of Vaivara, about fifteen miles West of Narva on the road to Revel, Estonian capital.

German troops were reported still fighting from positions on the East bank of the Narva river, which flows through Narva into the Gulf of Finland, but the Russians were said to have encircled them.

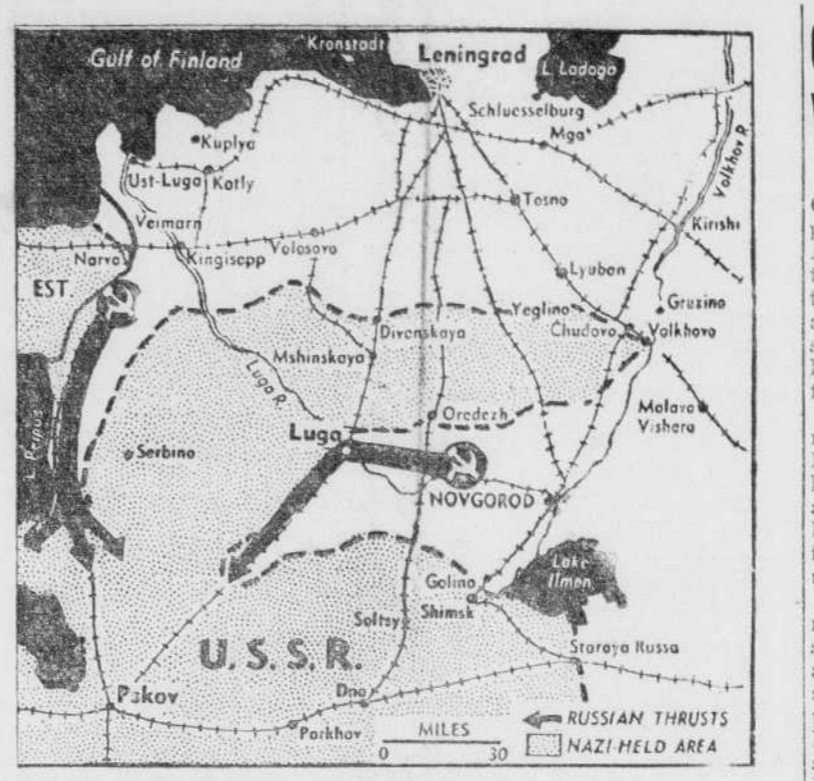

The Russian bridgehead South of Narva is still intact, the Helsinki dispatches said, but is difficult to supply because ice covering the Narva River is thin.

London, Feb. 17.—(P)—Two Russian forces today continued their drive on the German communications hub of Pskov from opposite ends of the Northern front while far to the South the Russians tightened the steel ring around the remnants of 10 Nazi divisions trapped in the Middle Dnieper.

One Soviet force driving on Pskov, reached to the Baltics, from the North, gateway to the narrow neck of water between lakes Peipus and Oskera, 43 miles Northwest of Pskov. The Germans claimed they repelled a Russian attempt to cross the ice on sledges.

The Berlin Radio claimed the Russians reached the Western Shore of Lake Peipus but were thrown back. A successful Russian crossing in that area might disrupt German plans for the defence of Estonia.

The Russians reported capture of Cheiskoye-Zakholi in the area and large-scale maps show a Zakhodi on the right of land that is only two and one half miles from the other side. Farther South the neck is only one and one half miles wide.

In a triple-barrelled offensive that crumpled the Northeastern corner of the German front in Russia, Soviet columns are converging on Pskov, a six-line railroad junction and gateway to Latvia and Southern Estonia. Another Russian column which has captured the junction of Luga, is also slaying its way toward Pskov. If the two armies join, the Nazis will be trapped.

Godbout Denies Dictating Basis of Valuation Placed Upon M.L.H. And P.

Quebec, Feb. 17.—(P)—Premier Godbout, speaking on a question of privilege, said in the Legislative Assembly yesterday that at no time had he given instructions to the Quebec public services board as to the basis of the valuation it should place on assets of Montreal, light heat and power consolidated for expropriation purposes.

He said he was referring to a resume of a letter published in the Montreal Gazette yesterday. The letter, from Aime Geoffrion, K.C., attorney for the company to the Premier, suggested that a special tribunal be set up to determine valuation of assets of the company.

"These assertions are absolutely inaccurate. There is not a word in my statement of Oct. 8 to suggest that I might have dictated to the public service board the basis of the valuation it should use or the principles by which it should be guided in fixing rates."

QUEBEC HOUSE OPENS DEBATE ON IMMIGRATION

Chalout Motion Protesting Against Halifax Speech Unanimously Adopted by Legislative Assembly.

Quebec, Feb. 17.—(P)—The Legislative Assembly yesterday unanimously adopted a motion, proposed by Rene Chalout, Lothier member, protesting against what was termed Lord Halifax's "new imperialism and dangerous tendencies" and began debate on a motion proposed by Union Nationale Opposition Leader Maurice Duplessis, concerning immigration in the Province of Quebec.

The Assembly adopted the motion proposing "that this House consider it its duty to express its divergence regarding Lord Halifax's new imperialism and dangerous tendencies" after hearing Georges Potvin (Lib., Roberval) and Mr. Chalout.

Lord Halifax, British Ambassador to the United States, said in Toronto last month that all the Dominions of the British Empire should tighten imperial ties and commit themselves towards a common international policy.

The motion was adopted unanimously after Mr. Chalout repeated that he hoped "Canada will declare her independence after the war and will join the Pan-American Union."

Japs' Base At Kavieng Is Smashed

Sixty-Five Tons of Bombs Set Town Ablaze and Smashed Cargo Vessels in Harbor—Japs Cleaned Out of Borgen Bay and Cape Mensing Areas.

Allied Headquarters, Southwest Pacific, Feb. 17.—(P)—Allied planes flying low through heavy anti-aircraft fire plastered the Japanese base at Kavieng, New Ireland, with 65 tons of bombs, setting the town ablaze and smashing cargo vessels in the harbor, it was reported today.

Today's Allied communique said New Zealand and United States troops, who swarmed onto the green islands at the Northern edge of the Solomon archipelago Monday night and Tuesday, have consolidated their positions without incident. The invaders met only mild resistance.

Australians flying medium bombers and fighters dumped 23 tons of explosives on supply areas at Jacquot Bay, on the Southeast coast of New Britain.

American Marines in the Cape Gloucester sector on the Western end of New Britain have cleaned the Japanese out of the Borgen Bay and Cape Mensing areas more than 21 miles East of the cape, and are continuing their advance.

Ranging into the Carolines to within 400 miles of mighty Truk, land-based heavy bombers Monday delivered the first attack of the war on Ponape, Japan's "Gibraltar of the Pacific," it was announced at Pearl Harbor.

New Delhi, Feb. 17.—(P)—A division of Indian troops held grimly to their position commanding the Nyaung-U Pass to the Mayu Mountains of Southwest Burma today, fighting off new Japanese attempts to encircle the Allied forces on that front. A communique said 700 Japanese dead have been counted since Feb. 4 in that area alone.

"Considerable casualties" have been inflicted on the Japanese in local actions both West and Northwest of Buthebung, the announcement continued, adding that a small enemy pocket holding out in Kalandan village had been "finally mopped up."

In other engagements to the North, the Allied communique said Japanese attempting to force a crossing to the West bank of the Chindwin River were driven back after three boats were sunk.

Recognition Of Bloc Populaire As Official Opposition Party To Same Extent As C. C. F. And N. D. Refused

Ottawa, Feb. 17.—(P)—Prime Minister Mackenzie King has refused to recognize the Bloc Populaire as an opposition party in the House of Commons to the same extent as the Progressive Conservative, C.C.F. and New Democracy parties are recognized.

The issue came up yesterday when the Bloc's leader, Maxime Raymond, asked why he was not invited to the Tuesday conference of party leaders on granting of leave to Lt.-Gen. A. G. L. McNaughton and relieving him of the Overseas Army Command.

Col. Ralston objected to Mr. Graydon's comment that he (the Minister) had not "told the whole story." He wanted it understood, he said, that he had never stated he was telling the whole story; and, in fact, had made it clear he was not.

During the general Army discussion, Col. Ralston announced that a substantial number of Canadian junior officers, lieutenants and captains, will be loaned to the British Army for service in the Mediterranean and European theatres.

Canada's officer reinforcements are at a high level and the arrangements regarding Lord Halifax's new imperialism and dangerous tendencies, the Minister said. Only officers who volunteer will be loaned and they will be drawn from recent graduates of officer-training schools who are still in Canada.

Howard Green (P.C., Vancouver South) asked why some officers were not sent to the Pacific area to train with the Australians for further action against the Japanese.

WAR BULLETINS

London.—An improved type of Halifax bomber, with a higher ceiling, increased speed and greater rate of climb now is participating in R.A.F. night raids on Berlin, it was disclosed today.

London.—The House of Commons will hold a debate following upon Prime Minister Churchill's statement on the war and international situation at the next series of sittings, Foreign Secretary Eden announced today.

London.—Lt.-Gen. Walter B. Smith, Chief of Staff to Gen. Dwight D. Eisenhower, was invested with the Order of the Knight Commander of the Bath by the King today at a Buckingham Palace ceremony.

Commonwealth Unity Held Chief Need In Reconstruction Period

Winnipeg, Feb. 17.—(P)—The continued unity of the British Commonwealth of Nations "is an essential condition of the stability and success" of the world transition from war to peace after the victory, Gladstone Murray, Toronto policy counsel, said today.

The foreign policy of the Commonwealth "can and should be influenced decisively" by Canada and the other Dominions, Mr. Murray said in an address to the Empire Club of Winnipeg in which he discussed the place of the Commonwealth and the Empire in the world of the future.

There was nothing "surprising or improper" in the recent speech of Lord Halifax at Toronto suggesting a common foreign policy for the Commonwealth and the Empire, he said, "the deplorable mentality of those who resent anyone but Canadians discussing Imperial affairs publicly in Canada" was unworthy of the Dominion's place in the Commonwealth and the world.

TRAIN HITS HIGHWAY PLOW

Kingston, Ont., Feb. 17.—(P)—A West-bound passenger train demolished a ten-ton highway snowplow three miles West of Belleville yesterday and the engine-er of the train said was lucky the train was not derailed.

J. W. Hamilton of Belleville, the owner and driver of the snowplow, which had got stuck in the rails. He was nearby when the train hit it, strewn wreckage along the tracks for several hundred yards.

BRITISH AND AMERICAN OFFICIALS AGREE ON LEND-LEASE ELIMINATION

By JOHN M. HIGHTOWER, Associated Press Staff Writer, Washington, Feb. 17.—(P)—Virtual elimination of capital goods shipments to Britain under Lend-Lease is understood to have been agreed upon by British and American supply officials here. The decision is one of numerous adjustments being made to keep Lend-Lease exports closely geared to military needs.

For several months the quantity of machinery going to Britain has been decreased steadily, largely because British plants now have about all they need except for occasional replacements.

95 SUMMONED, ONLY 40 SHOW UP AT CLINIC

Ninety-five donors were scheduled to give blood at the Blood Clinic last evening, but actually only forty persons were on hand and many of these had not been called but dropped into the clinic to see if there was an opportunity to give blood.

Officials at the clinic are hopeful that the attendance is not going to drop off. The small number present last evening may be accounted for by the fact that there were numerous events taking place in the city.

Arrangements are completed for the holding of a clinic at Magoz tomorrow afternoon and evening. The Dominion Textile Company have kindly allowed the use of their

buildings and it is expected that about one hundred donors will be present.

So far out-of-town clinics have proved most satisfactory and every indication is given that the Magoz clinic will rank high in the list.

People who have sent their names to the local clinic but who do not intend to answer their calls are requested to get into communication with the clinic and ask to have their names removed. It is very discouraging to the clinic workers to repeatedly send out cards without result.

truly Bluebirds, so full of graceful rhythm was their finished performance, both as soloists and as partners in the duos.

The finale "Prince Igor," the premier ballet, depicting the Prince Serge Ismailoff, and his followers, including slaves Polovitsenne Warriors and girls, was a riotous and colorful number, the pleasant costumes of the girls, being most attractive, especially as compared with the war-like garb of the Warriors, each of whom carried a garish bow, but not arrows.

The tempestuous music was cleverly interpreted, but in all their actions the ballet dancers were graceful, even if at times forceful, and when the folk dances were in full swing the stage resembled the rain of multitudinous colors as seen through a kaleidoscope, the last curtain falling on the dancers, with the crashing accompaniment of the orchestra.

He said the first duty of the Provincial and Federal Governments was to assure work and comfort to demobilized soldiers and employees of war industries after the war.

He then recalled a meeting he held at Ste. Claire, Dorchester County, last fall and said he warned the population against a campaign to favor immigration in the post-war period.

He read a letter which, he said, was addressed to Rabbi J. Schwartz of Montreal, in which it was said that "the Zionist International Fraternity would support financially all Liberal candidates who agree openly

RALSTON STATES THE CASE

Defence Minister Ralston has made an effective reply to the carping criticism which has so often been heard in the Canadian House of Commons, and even outside Parliament, upon the matter of attaching Canadian troops to the British armies serving on the Italian front. The criticism has run the gamut from the belief that no Canadians should have been sent to the Mediterranean area to the claim that the entire force should have been despatched to the Italian fighting.

Col. Ralston's argument for the central course, that of using a limited number of Canadians in the campaign, would seem to have the general approval of Canadians. The Canadian army in Britain is a volunteer organization, comprising men who enlisted with the intent purpose of fighting to secure the defeat of the Axis powers. Thus they should have been given this opportunity for active service. Then the fighting in Italy will give them valuable military training under battle conditions. But it is obviously unwise to put too large a body of unseasoned troops into the battle line at the same time. Experience has proved that no training comes up in efficiency to actual fighting, but it is advisable that when troops enter battle for the first time, they form part of an organization of more tried fighters.

In this case, the Canadians had as their companions men who had fought in the Battle of North Africa. In turn they will doubtless be brought back to England where they will form the backbone for the Canadian army which is expected to form a vital group in the invasion of the Continent.

This would seem a more logical way of handling an army than retain the whole organization in the Old Country until the great day and then throw a mass of unseasoned troops against a formidable foe.

REGRETTABLE BUT A WAR NECESSITY

As might have been expected the Nazi propaganda agencies are making full use of the Allied attacks on the Benedictine Monastery at Mount Cassino and the railway yards at Rome to boost the stock of the Germans as champions of Christendom. In both cases they seek to make the Allies appear as wantons who are prepared to destroy all marks of historical value under the guise of war. But they fail to make any difference between the two cases, and fail to tell that both targets were legitimate military objectives through the attitude of the Nazis.

Admittedly the Mount Cassino Monastery is an irreplaceable historical treasure, but the Nazis had gained control of it and turned it into an offensive base from which they directed artillery fire against the Allied forces seeking to break their way into Cassino. Repeated warnings failed to budge them from their ill-gained positions and there was only one thing the United Nations leaders could do — destroy their nest. Otherwise the cost in human life would have been unnecessarily high in the drive to Rome.

Nobody in the United Nations can read of the destruction of this old building — perhaps the oldest shrine of Christendom without a sigh of regret, but virtually all realize that it was a grim move made necessary in a war the rules of which were first written by the German leaders who started the whole trouble.

The attack on Rome falls into a different category. No attempt was made to spread death and destruction in the ancient city, but rather the attack was confined to the railway yards at the outskirts of the city. And railway marshalling yards are direct military targets anywhere they may be located — whether in Rome, Berlin, Paris, London or Moscow. Their only hope of immunity is in the strength of their defensive forces and in the case of Rome these appear to have been rather weak.

Then the Rome yards have an unusual strategic position in the Italian set-up, as virtually every ton of traffic between the Northern and Southern section of the country must pass through these yards. As a result, their destruction will materially hamper the flow of reinforcements, men and materiel, to the German troops on the Southern front.

To hear the Germans proclaim themselves as the defenders of ancient monuments after their

treatment of British cities and centres of Occupied Europe is enough to make the average man either laugh with irony or cry with indignation.

THE ALLIED SECRET WEAPON

Field Marshal Kar. von Rundstedt, commander of the German forces in Western Europe and one of the outstanding soldiers of our time, manages to convey the impression of great faith in Germany's destiny in his quiet statement that he is prepared for the coming Allied invasion and awaits it calmly. There was no guttural Hitlerian shouting as the Marshal told simply how the Nazi anti-invasion defences include large-scale ground mining, arrangements for flooding large areas, and "anti-tank obstacles and walls far more diversified than in the Maginot Line." The German reserves, he said, are so grouped that they can launch quick counter-attacks.

Maybe von Rundstedt is bluffing when he says there will be "no withdrawal in my field of operations," but if there is no reason to doubt his sincerity, he has not named any defensive measures which are at all unlikely, for even the widespread flooding was used extensively in Western Europe in the last war.

However, he seems to have stretched a vital point when he said that Hitler's Atlantic wall cannot be outflanked by invasion. It is outflanked by the vast underground army of Frenchmen and men of other nationalities of the occupied zone who are all set and waiting for the invasion day.

That is an Allied "secret weapon" and may prove to be the most destructive in our armory. The units of this army will be everywhere — behind the Germans, in their midst, on their flanks. In France alone the underground army runs into many millions, who are organized and are kept in touch with the Fighting French leaders in Algiers by liaison men.

There is another force in France, better organized and more formidable than anything of the sort the Nazis have encountered. This is separate from the civilian underground army and is composed of former officers and men of the disbanded French army — once one of the world's most powerful fighting machines. These trained soldiers do not engage in ordinary sabotage, but are being kept under cover for the invasion day. One of their big jobs will be to seize and hold strategic points for the invasion forces — an invaluable service which may turn the scales.

TURKEY TRADES WITH GERMANY

For some time it has been apparent that relations between Germany and Turkey have been none too good and predictions have been made freely that the veil of neutrality would be cast aside and that the two countries would engage in full dress hostilities. But a study of the trade relations between the nations is a clear indication that the break must come from Turkey, for Germany is too dependent upon imports from the old Ottoman Empire to risk losing this source of supply of many of her essential war materials.

So important are these imports to Germany that three months ago it diverted twenty locomotives and four hundred freight cars from its own badly-crippled railway system and "loaned" them to the Turks, the only stipulation being that they were to be used only in European Turkey. Within the past month it has loaned another twenty locomotives and four hundred cars on the same terms, all with the idea of ensuring a speedy and constant flow of the Turkish products to Germany.

Figures for the period from December 16, 1943, to January 13, 1944, show that Turkish exports to Europe amounted to 1,167 carloads, the capacity of each car being ten tons.

Chrome, vital to munitions making, led the list with exports of 342 carloads. Other items on the list were hazel nuts, 139 cars; cotton, 142; oil seeds, 133; valonia, 92; tobacco, 88; vegetable oils, 20. Other commodities exported in smaller quantities during the same period included: Iron, ten carloads; copper, nine; fish, 54; salt pork, seven; olives, four; raisins, seven; prune jam, seven; skins, ten; hemp, fourteen; mohair, one; opium, one; bones, one; and gum tragant, one.

SELL BEER IN GROCERY STORES?

St. Thomas Times-Journal
The rush for beer and other beverages in these days of rationing and the fact that more liquor is being consumed today than at any time in the country's history raises doubt in the minds of many about the wisdom of the present method of placing all sorts of restrictions around its sale. We were discussing this point with a law officer the other day and this man, knowing all the difficulties encountered in enforcing the liquor laws, likewise being conversant with the frailties and eccentricities of the human race, expressed the opinion that much of all this clamor for beer would disappear if it was placed on sale at licensed grocery stores. The same idea was put forth in a letter in the Toronto Globe and Mail on Monday by Sam Robinson, of Rockwood, Ont., but Mr. Robinson favored making the grocery store sale apply to wine and spirits.

Both of these men may be wrong but there may be something in their contention that the sale of liquor is hedged around altogether too much by restrictions and a form of governmental red tape and officialdom. There is a great deal in what one man wrote the other day about the government liquor stores, where before a man could complete the purchase of a bottle of whisky he had to fill out a certain form and pass through the hands of several clerks. The same transaction in an ordinary store could be completed in a minute's time and without requiring the services of more than one clerk.

Some of our older residents recall the days when liquor was sold over the counter at grocery stores and later at licensed liquor stores where in some cases groceries were also handled. And in those days there was no rush to get a supply, no queues were formed, no ration cards were needed. Everything was orderly. What worked then may not work now, but it does show that in government control of liquor, as in government control and sale of other things, we must hire a lot of people and carry out a lot of rigmarole.

ANGLO-CANADIAN BACON TRADE

Toronto Telegram
Lord De La Warr, Chairman of the Agricultural Research Council of Great Britain, who addressed Ontario Swine Breeders' Association and the Society of Technical Agriculturists here, reports that serving notice that bacon exports to Britain after the war will have to be paid for in British goods. "None of us in the future will think of exporting unless we import; that is only common sense," he said. "There is no hope for agriculture in any of our countries if we return to the pre-war system of cut-throat trading."

That prompts a glance at pre-war trade statistics. Denmark, which supplied most of Britain's bacon, exported in 1939 to Great Britain \$36,371,000 worth of goods and bought \$12,120,000 worth. That is, the exports were twice the value of imports. In the same year were valued at \$389,754,000, and imports from Britain at \$114,007,000, imports being less than one-third of exports. Principal imports from Britain by Denmark and Canada were identical: woolen and cotton goods, iron and steel, coal and coke.

With Danish supplies cut off, and swine production in Britain reduced by half, the United Kingdom would have been in a difficult position, as Lord De La Warr says, had Canada not increased hog production and exports. In order to achieve increased volume and at the same time maintain pre-war standards as nearly as feasible, the Dominion (and Ontario) have been paying bonuses on Grade "A" and "B" hogs. These subsidies, according to Wilfred Bishop, Secretary of the Ontario Hog Producers' Association, now amount to \$3 on every Grade

"A" hog sold for the British market.

It is reasonable to suppose that if subsidies end with the war there will be a sharp drop in production and exports. But Britain will still need bacon and hams, and it will be a long time before Denmark gets back in the picture. Meanwhile, Canadian imports from Britain are restricted chiefly by lack of supplies due to wartime conditions overseas. With normal conditions restored, in respect of production and shipping, it may be assumed that Canada will buy at least as much from Britain as before, but it may be that the Dominion will retain a position of increased importance, brought about by the war, as a supplier of foodstuffs to the United Kingdom.

It is an economic fundamental that a nation must sell in order to buy, but it may sell to some countries and buy from others, so long as the overall position is sound. That is what exchange is for. Producers as such are not directly concerned with trade balances. Quantity and quality is demanded of Canadian swine breeders, with the incentive of bonuses paid ostensibly for the purpose of ensuring that the British market shall be held after the war. If, as seems to be implied by Lord De La Warr, that market is to depend upon increased purchasing by Canada, then taxpayers are providing the funds for hog premiums solely to meet emergency needs of consumers in the British Isles — which is a very laudable purpose but an entirely different matter.

SQUEEZE PLAY USED IN NO TRUMP HAND

The Eastern States Championships tournament will be held at the Park Central Hotel, New York City, February 26 to March 5 inclusive. The competition in this tournament is always equal to that in a national event.

I recall a hand played in the Eastern finals last year, on which the majority of the players bid seven no trump and made it, even though it involved a nice squeeze play. One pair, however, arrived at six no trump and made only six by careless play.

To make seven, the opening lead must be won by the declarer with the club king, and now the five spade tricks are cashed. South must discard three diamonds from dummy on the three long spades. East can discard a club and two hearts. Cashing the king of hearts gives the declarer the bad news on that suit. But now he cashes the ace of clubs, and East is fixed. If he throws away a heart, all of dummy's hearts

Begin with the Batter . . . Go on from there

A bowlful of batter, a griddle or frying pan—and you are off to a wonderful start in making the most of a little meat. If it is left-over cooked meat, you might like to dice it and add it right to the pancake batter . . . or heat it in good brown gravy or tomato sauce and spoon over the golden pancakes.

Make a wet hash, using raw or cooked meat—be clever with your seasonings—and serve the savoury result on pancakes. Stack pancakes with thin slices of hot pan-fried bologna or very thin fried ham loaf—and pass brown sauce.

Most pancake- and -meat combinations want plenty of gravy or sauce. Use your saved vegetable-waters to make them . . . most extracts to enrich them . . . and flavour superbly with your choice of tomatoes—onion—green pepper—herbs and spices—condiments—and such peppers as cayenne, chili or paprika.

FOR THE PANCAKE BATTER

Sift together 2 cups sifted pastry flour, (or if you use bread flour, use 1 1/4 cupfuls), 1/2 teaspoon salt, 4 teaspoons baking powder; beat 2 eggs and combine with 1 1/4 to 2 cups milk or tomato juice and 4 tablespoons melted shortening or suitable dripping. Make a well in dry ingredients, slowly stir in liquids, combine well and beat to make batter smooth (use rotary beater if necessary). These proportions make a substantial pancake—for thinner cakes, add more liquid.

Pour rounds of batter on griddle or greased frying pan. When bubbles appear and break on surfaces, turn (greasing pan again if necessary) and brown second side.

Good Attendance At Annual Granby Sunshine Club Valentine Meeting

Granby, Feb. 17.—The Sunshine Club held its annual Valentine meeting and programme at the home of Mr. Raymond Wiggins, Elgin Street, in spite of the zero weather there was a large attendance of members and visitors.

Mrs. J. G. Fuller, the President, presided. The devotions were held first by Rev. Mr. Anest, of Roxton Pond, a native of Switzerland, who offered prayer in French, followed by Rev. Thomas Scott, in English.

Mrs. Butterworth, Secretary of the club, read the annual reports of the year's work, and the Treasurer, Mrs. J. Kelly, gave her report, showing a substantial balance in the bank for 1944 benevolent work.

The usual donations were the Children's Memorial Hospital Fund, of Montreal, \$10; the purchase of needed footwear for several children in the school.

Two beautiful samplers, the work of the Grenfell Labrador Mission, were exhibited and much admired. The Sunshine Club has for years contributed discarded silk hose and underwear to this institution, and these samples showed the excellent work done in this industrial school.

The slate of officers were all re-elected, with the addition of a Calling Committee, Mrs. J. Gray and Mrs. G. Blake were elected to this committee.

Several interesting letters were read from Granby boys Overseas reporting good turkey dinners. Mrs. Fuller read a letter from Kenneth Riddle telling of the death of his brother, Campbell, and how they buried him in the mountains of Italy. As a tribute to his memory Mrs. Fuller read Scott's beautiful poem from "The Lady of the Lake," "Soldier Rest Thy Warfare O'er."

Mrs. H. Chartier told of her son, Clifford, spending six weeks in a hospital near Oxford, and showed an invitation had received to a Christmas party at Buckingham Palace, with other boys. This was on December 16. They were received by H.R.H. the Duke of Kent. Mrs. Chartier showed a belt he had made while in the hospital.

The programme opened with two songs sung by Mrs. V. McHutchin, "My Little Baby, Good" and "A Gypsy Love Song", readings "A Old Sweetheart of Mine" and "Little Orphan Annie," by Mrs. A. Brack; and "Making Ruben Propose" and "Uncle Josh's Ideas of Women," by Mrs. C. Scott.

Valentines were passed around, each one reading aloud the messages they contained. The one received by the host of the evening brought much laughter.

The members expressed their appreciation of the host's kind hospitality and to the ladies who had decorated the rooms for the occasion.

Delicious refreshments were served by the hostesses, Mrs. Smith, Mrs. H. Chartier, Mrs. Ellis Averill and Mrs. W. W. Brack.

The March meeting will be held at the home of the President.

Mr. Millin is making an interesting experiment with a winter cellar garden, and has been enjoying fresh vegetables such as celery, parsnips, cabbage and carrots in good quantities. Last fall Mr. Millin made a garden in his cellar, transplanting cabbage before any had matured and planting some seeds. DRIVERS URGED TO BE CAREFUL NEAR SCHOOLS

Director of Police Percy Donahue today urged motorists to be particularly careful when driving in the vicinity of schools, owing to the fact that accidents have been increasing since the first of the year.

"The extra duties which the war has laid on the police has necessitated complete revision of constables' assignments," he explained. "We are unable to furnish the usual protection at school crossings and the drivers of motor vehicles of all sorts must be more careful than ever if accidents are to be avoided."

"I hope that drivers will take this warning in good part and co-operate with school brigadiers of the Safety Patrol and their assistants," he continued. "Little children cannot be expected to develop the intelligence and resourcefulness needed for their own safety. I believe that men and women of Sherbrooke, remembering the little children who are dear to them, will gladly assume this responsibility."

VOTERS' LISTS ARE NOW OPEN FOR INSPECTION

City Clerk Antonin Deslauriers said today that the municipal electoral lists have been completed and deposited in his office for examination.

Those desiring to ascertain whether their names are listed will be allowed to inspect the books. (Should the name of any voter be omitted, he can ask to have it inscribed on the lists within the next fifteen days. At the end of this period, the list will be homologated by the City Council and no additions can be made.)

It was explained that the names of voters who have not paid their tenement or poll taxes prior to January 1, this year, have been stricken from the books and are unlisted. There are approximately 8,000 who are qualified to vote this year, according to Mr. Deslauriers.

You may think there's a bad fuel situation here. But we see by the Calgary Herald that a farmer out there "had to get up one cold morning and make a fire in his nightshirt."—Ottawa Citizen.

Painful, Pus Filled Boils the Cause of Much Misery

If you suffer from boils you know how sick and miserable they made you feel.

Boils are an outward indication of impurities in the system, and just when you think you are rid of one another crops up to take its place and prolong your misery. All the lancing and poulticing you can do may not stop more coming.

To help overcome boils you should purify the blood, so why not give that old, reliable blood medicine, Burdock Blood Bitters, a chance to show what it will do in helping you get rid of them? Thousands have used it for this purpose for the past 60 years. Why not you?

Record Number Attends Meeting Of Richmond-Melbourne United Church

Richmond, Feb. 17. — A record crowd, which necessitated a second sitting, thronged the new Church Hall and set down to a delicious supper, which preceded the congregational meeting of the United Church of Richmond and Melbourne. A congregational meeting is always an event in the life of a church, but especially so when it is made the occasion for marking some significant achievement in the church's programme.

The special feature which characterized this meeting was the official opening of the new Church Hall, which was remodelled from the old Methodist Church, and dedicated to the men and women from the congregation in the armed forces, and to the memory of all those who once worshipped in the old church. The hall is equipped upstairs with folding chairs, a spacious platform and an up-to-date sliding curtain, and downstairs with a well-furnished kitchen, ample serving counters, warming plates, a large new sink and a hot water system.

Immediately following the supper all present went upstairs to the auditorium, where they enjoyed a brief programme of entertainment, which preceded the more serious

Church Treasurer, Mrs. E. McManis. The report showed that all financial obligations had been met, all objectives over-subscribed and a balance of \$1,100 left in the bank. In giving the Session's report, Rev. Mr. Woolfrey stated that instead of making any lengthy remarks he would refer them to his report in the financial statement. In this report he expressed the gratitude of the congregation to God for the blessings of the past year and asked the members to reconsecrate themselves to the task of making the Church of Christ a vital power in the moulding of a new age. He said he was delighted to see so many young people in regular attendance at the Sunday services, especially considering that seventy-three of their number from this church were serving in the armed forces. Fifteen members joined the church during the year.

Rev. Mr. Woolfrey called upon Miss Catherine Ewing, who in a very fitting speech announced to the meeting that her great-aunt and namesake, the late Miss Catherine Ewing, who for many years was a great friend and member of the church in her will and bequeathed the sum of \$140 to the Home and Foreign Missionary work of the United Church.

Mr. George Ewing, Chairman of the Nominating Committee, presented a slate of officers for the various Boards, which was adopted by the congregation. The slate of officers for 1944 was as follows:

Miss Lucy Healy gave the report of the Sunday School. Four members had joined the church from the Sunday School in the past year. The written report showed a noted increase in the Missionary and Maintenance givings, which amounted to a total of \$81. It is to be regretted that parents are not sending their children to Sunday School and there was a slight decrease in attendance.

The minister then read a series of dedicatory responses as, "In loving remembrance of those who have gone out from this congregation to serve with the armed forces of our country; to all those who have given their lives for the cause of freedom; and to the larger company of men and women who in earlier days were associated with the history of this church..." to which the people replied, "We dedicate this hall."

The Strength of Alcoholic Beverages

During the past several months, a number of misleading statements have been circulated regarding the strength of alcoholic beverages sold under the new Federal regulations. The following facts will no doubt help to clear up a greatly exaggerated situation.

Before the new regulations concerning strength were imposed, the alcoholic strength of beverages sold in this province such as Scotch whisky, rye whisky, gin, cognac and brandy, was approximately 42.8 percent alcohol by volume, corresponding to 75 degrees proof (British Proof Spirit) or its equivalent — 25 degrees underproof (25 U.P.)

That was the situation before the new regulations of November, 1942 were applied. This new wartime law specified that all alcoholic beverages which were to be bottled and placed on the market were not to be stronger than 30 degrees underproof (30 U.P.)—that is, 70 degrees proof or its equivalent, 40 percent alcohol by volume. **Thus it can be seen that most of our alcoholic beverages had their alcoholic strength reduced from 42.8 percent alcohol to 40 percent alcohol.**

From these facts it is easily realized that alcoholic beverages in general have not been greatly altered. And it is interesting to note in passing that in Great Britain, most of the alcoholic beverages offered for sale are no stronger than 30 degrees underproof. (30 U.P.) Scottish distillers and all others who engage themselves in this business would be surprised indeed, if told that this particular alcoholic strength indicated an adulteration of their products. A number of these same overseas products are also offered for sale at a strength of 40 degrees underproof (40 U.P.) which corresponds to 60 degrees proof or its equivalent, 34.3 percent alcohol by volume.

The Quebec Liquor Commission publishes this information in the hope that the public will reply to those who see fit to pretend that all alcoholic beverages sold in Quebec today are adulterated heavily. It also takes this occasion to point out to the public that it is in no way responsible for the present situation which was brought about by regulations imposed by Federal authorities. The situation in Quebec is exactly the same as that existing in every other province of the Dominion where alcoholic beverages are sold.

RAND MEETS FLYERS AT RICHMOND TONIGHT

Lerouxmen Seek Revenge For 4-0 Whitewashing On Sunday

The last game of the regular schedule between the Rand and the Richmond Flyers will be run off tonight when the league-leaders travel to Richmond to tackle the second-place Flyers.

The match was scheduled to be played last night, but due to the bad condition of the roads, the game was postponed until tonight.

All eyes will be on Jimmy Planche tonight the high scoring centre has his last chance tonight to add to his scoring total and break the fifty mark. His total now stands at forty-seven, and three points will bring him up to the half-century mark. Jimmy is the only man in the league who has a ghost of a chance to break the fifty mark, and he will be going all out in an effort to do so.

Still smarting from their 4-0

whitewashing at the hands of the Flyers in a game at the Arena last Sunday, the Rand will be out to take revenge on the smooth-riding Flyers. The blanking was quite a surprise to hockey fans throughout the district, for the Rand was considered almost unbeatable.

However, the Flyers did what no other team had been able to do since Jan. 16, namely beating the Rand, and did what no other team had been able to do all season—that is hand the Rand a whitewashing.

Although nothing depends on the outcome of tonight's game, fans ought to be able to see a really good game, for the two teams are evenly matched and there have always been fireworks between them, so a fiery game can be expected. The Rand has consolidated its first place position, as have also the Flyers taken a tight grip on second place.

Coach Al Kouri is pinning his hopes tonight on his starry goalie, Henry Bernier, and his first-string trio, Jimmy Planche, Ernie Spiers and Eddy Emberg. Kouri's second line has been working like mad for the last few games, and is expected to come through with some nice hockey in this last game and in the playoffs. The Flyers' defence is also quite an obstacle to surmount, and ought to provide the Rand boys with a few jolts tonight.

Eddie Harrington, coach and manager of the Rand squad, will be relying on his "Kid Line" again tonight to provide the scoring punch in the game. The kids are very fast and work hard all through the game and have turned out to be serious threats around the goalmouth.

The Allen-Letarte-Roy line will be missing one of its members—Roger Roy, as he is available to the team only on week-ends. However, his place will be taken by Theroux, and the line is expected to be near its peak of efficiency.

RAND IN 21-16 VICTORY OVER LENNOXVILLE

The Canadian Ingersoll Rand captured won out over the Lennoxville High girls, 21-16 in a scheduled match of the Sherbrooke Girls' Basketball League.

The game was closely contested all the way and the Lennoxville girls made a valiant effort in the last half to stave off defeat, but they were unable to compile enough points to overcome the lead established by the Rand in the initial half.

The Rand chalked up eleven points in the first half, while the L. H. S. girls were able to sink only three baskets. In the last half, both teams made ten points, the Rand getting four field goals and making good two foul shots, while the Lennoxville squad sank five field goals.

For the Rand, Peggy Wilcox led the scoring parade as she piled up ten points. Shirley Ward came next with six. Jean Beattie made three, and Muriel Melnis got two points.

Lowly Pittsburgh Hornets In 1-1 Deadlock With Cleveland

By The Canadian Press.

The American Hockey League's leading Cleveland Barons were held to a 1-1 tie last night by the lowly Pittsburgh Hornets who have collected less than half as many points as their opponents this season.

Barons now have 62 points—eight more than second-place Hershey Bears—as a result of 28 victories and six draws in 42 starts. Pittsburgh has won only ten games and tied seven others in 43 starts.

Last night's draw was at least a moral triumph for Hornets, since the Barons have scored an average of more than four goals a game since the start of the season. They have won 17 games in their last 20 contests.

The deadlocked game was fast and rough, but clean. Not a penalty was called and there was no scoring in the third period.

Ross Knipfel rifled in the wisp goal late in the first period, and Les Cunningham tied the count late in the second.

Y.W.C.A. TAKES 31-9 WIN OVER SHERBROOKE H.S.

In a regular game of the Sherbrooke Girls' Basketball League, the Y.W.C.A. team won over the Sherbrooke High School squad by the decisive score of 31-9.

The older and more experienced Y.W.C.A. girls showed definite superiority over their rivals all through the game as they piled up nineteen points in the first half to Sherbrooke's three, and twelve in the final half to their opponents' six.

In a starring role for the Y.W.C.A. was Mavis Johnson, who led her teammates by compiling an individual score of ten points.

Right behind her in the point parade were Florence Martin and Rose Fountain, who chalked up nine and eight points respectively. The other four points for the Y.W.C.A. were made by Alice Hutchinson.

For the High School, the highest scorer was Sheila Mathias with three points. Margaret Dean, Amy Sjolander and Edith Crawford were the other point-getters with two apiece.

The next game for the Sherbrooke High School girls will be on Saturday, February 19, when they meet the Rand in a game to be played on the Sherbrooke High School floor.

The Y.W.C.A. girls take the floor for their next game when they meet the Bishop's squad in a game at Bishop's University on Saturday, February 19.

The teams:

Y. W. C. A.—Mavis Johnson 10, Florence Martin 9, Rose Fountain 8, Alice Hutchinson 4, Doris Harrison, Ethelene Martin, Ida Roske, Pauline Larigue, Rita Belanger.

Flyers' Jimmy Planche Leads Scoring Race With 47 Points

The Intermediate League scoring honors are still being held by Jimmy Planche, Richmond Flyers' star centerman. To date, Jimmy has amassed a total of 47 points, made up of 23 goals and 24 assists.

Jimmy's nearest rival is his linemate, Eddy Emberg, who has piled up 38 points, nine less than Planche. Eddy has scored 19 goals and set the stage for another 10.

Third on the list is Norman Dussault, the Rand's speedy young pivot. Dussault has a total of 28 points, made up of 12 goals and 16 assists.

Harry Allen, of the Rand, who led the race for a while, has dropped to fourth place with 26 points. Harry has rapped in 11 goals and helped out on 15 others.

Ernie Letarte, of the Rand, and Flyers' Ernie Spiers are in a deadlock for fifth place. Letarte has 15 goals and 10 assists, while Spiers has nine marks and 15 assists.

Windsor's highest scorer is in sixth place. He is "Big" McLenahan and has a total of 24 points, made up of nine marks and 15 assists.

Army's top marksmen, Noel Billaud, is in a seven-way place tie with 23 points. He has eight goals and 15 assists as compared to Bob M-roy's 15 markers and eight assists.

Jimmy Planche is leading the league snipers and also the playmakers. His goal total of 23 is four ahead of his nearest rival, Eddy Emberg, who has 19. His 24 assists also give him an edge in that department. Emberg is again his closest rival with 19 assists.

Pat Murphy is being challenged for the honor of being the highest scoring defenceman in the league. He has 10 goals and five assists enabled him to remain on the same footing with Jean Guy Tarte, who has made amazing progress since he came to the Army camp. Tarte now has five goals and 10 assists, and is in a tie with Pat Murphy for the defencemen's honors. Incidentally, since his arrival, Tarte has not yet received a penalty, which is rather unusual for a defenceman.

Badman "honors" are being held jointly by Bob Bergeron, and "Top" Leroux, both of the Rand. Each has a total of 38 minutes spent in the cooler.

I ALWAYS GET CLEAN, QUICK SHAVES WITH BLUE GILLETTE BLADES

GLEN McCARTHY
—Ace Reporter on Gillette's "Cavalcade of Sports"—says:

"A TRIP through the Gillette factory showed me why I always get clean, quick shaves with Blue Gillette Blades. I saw steel hardened in automatically-controlled electric furnaces... saw the blades sharpened in grinding machines weighing several tons—yet so precise that they are adjustable to 1/10,000 of an inch. So my advice to any man who wants to enjoy shaving is to use Blue Gillette Blades."

CANADIENS AND DETROIT WINGS CLASH TONIGHT

By The Canadian Press

The National Hockey League resumes hostilities tonight after a three-day lull with Montreal Canadiens and Detroit Red Wings slated to clash at Detroit in a possible preview of Stanley Cup play-off competition.

Canadiens bounced into the lead of the parade from the drop of the first puck and Red Wings, while their early pace was tardier, still have gained enough momentum to move into second place—still a long way behind the Habits but with four points ahead of Toronto Maple Leafs, the next contender. The 1942-43 Stanley Cup champions currently are favored in most quarters to offer Dick Irvin's club the stouest competition when post-season eliminations begin late in March.

Wings may ever be close to an even-money proposition tonight despite their miserable record against the Frenchmen. In seven games this season, Detroit has salvaged only one point—a 2-2 tie in Montreal January 13th. Canadiens won the other six games by lopsided enough margins to compile a season total of 34 goals against 11 for Detroit.

On the credit ledger, Red Wings have won nine and tied one of 12 games since January 13th, when they defeated the Canadiens. Dion played his first game for Detroit after receiving a medical discharge from the Canadian Army. Another player discharged from the Army, Murray Armstrong, joined Wings a few days earlier and has been a vital cog in the rejuvenation.

COWANSVILLE CO-OPERATIVE HOLDS SESSION

George Shufelt Re-elected President and Wilfrid Noiseux and Selwyn Mason Directors.

Cowansville, Feb. 17.—The second general meeting of the shareholders of The Societe Co-operative Agricole de Cowansville, was held here.

Incorporated in August 1942, the society started its operations in December 1942. At the closing of the books on December 15th, 1943, the net profits were \$680.81, after having improved the machinery for \$2,300 and making a payment of \$2,400 to the bank.

During this period 242,768 lbs. of butter were made.

Among the special guests the soci-

ety had the pleasure of entertaining were Messrs. Eugene Boisvert, Mayor of Cowansville; Allan Watt, General Manager of the Bruck Silk Mills; J. F. Desmarais, President of the Executive of the Co-operative Federée de Québec; Paul Gingras, an agronomer farmer, one of the first pioneers in the creation of this co-operative; Mr. McClintock, Agronomer, of Knowlton; Charles M. Bonin, Dairy Inspector; J. M. Bonin, Agronomer, General Manager of Granby Co-operative; and E. B. Standish, one of the Directors of Rougemont's Co-operative.

George Shufelt was re-elected President; and Messrs. Wilfrid Noiseux and Selwyn Mason were re-elected directors. The two other Directors elected were Messrs. Wilfrid Moffatt and Stanislas Trambalay.

In this Co-operative Society there are as many French Canadians as English and the meetings are held in both languages.

Among the Auditor's remarks, was noticed the creation of new services for grains, and fertilizers.

"To start the feed business," said Mr. McClintock, "let the farms group together in their ranges and decide about the feed needed. Then you order the grain and get it delivered right away on the farms."

E. B. Standish said that the greatest difficulty met by a new co-operative organization comes from the members themselves. He said: Study your problems and after a short period of time, you will discover that there are new services that may easily be added to your organization."

MR. H. K. TARBELL, OF PITTSFIELD, MASS., FORMERLY OF KNOWLTON.

Knowlton, Feb. 17.—The many friends and relatives of Mr. Herbert K. Tarbell in this locality heard with the deepest regret his death, which took place on the evening of January 1, at his home, 49 Clinton Street, Pittsfield, Mass., from a heart attack. He had not enjoyed good health for a number of years but had been

able to spend the summer months in Knowlton, latterly at his cottage on Brome Lake, until last year, when his condition prevented.

Herbert Kimball Tarbell was born in Knowlton on April 13, 1874, the son of Mr. and Mrs. Edward Tarbell and the early years of his life were spent here. In 1896 he married Nellie, the elder daughter of the late Mr. and Mrs. Alvin Farmer, and twelve months later they removed to Massachusetts, taking up residence in Pittsfield.

For a number of years Mr. Tarbell was employed by the Boston and Albany Railroad, on their Springfield to Albany route, as foreman electrician, until his state of health compelled his retirement a few years ago.

Mr. Tarbell was an enthusiastic Free Mason, becoming a member of Brome Lake Lodge in 1895, transferring to Mystic Lodge, Pittsfield, Mass., in 1925. He was also a member of Berkshire Commandery, Knights Templar and the Shrine.

He is survived by his wife and a sister, Miss Sarah Catherine Tarbell, of Somerville, Mass.

The remains were brought to Knowlton for interment. The funeral services were held at St. Paul's Church on Tuesday, January 4, the Rev. Canon Mason officiating.

A Masonic service was conducted by Worthy Brother Rev. E. D. Mitchell and the large number of Free Masons present bore testimony of the

high esteem in which the deceased was held.

Interment was made in the Knowlton Cemetery.
