FORTY-SEVEN WERE LOST WHEN LINER MUNROE WAS SUNK

Was Rammed by Steamer Nantucket off Norfolk, Va., During Dense Fog. Eighty-Five Were Rescued. Those Who Were Lost Had no Time to Save Themselves as They Were Asleep in Cabins.

Norfolk, Va., Jan. 30.—(Special)—Forty-seven lives were lost when the Old Dominion liner Monroe was sunk off the winter quarter lightship just before two o'clock this morning by the Merchants' and Miners' liner Nantucket.

The Nantucket, with her bows crumpled and otherwise damaged, was slowly groping her way to Norfolk early to-day with eighty-five survivors.

As the Monroe carried a passenger list of fifty-four and a crew of seventy, the loss of life, from what meagre reports are coming in over the wireless, would seem to be about forty-seven.

DETAILS UNAVAILABLE.

No details of the accident were available up to noon. Wireless operators all along the coast, groping out through the fog for some definite news of the lost and the saved, could only learn that the Monroe, bound for New York on a regular trip from Norfolk, met the Nantucket in a fog at about two o'clock.

When the two ships separated the Monroe went down, and the Nantucket, with damaged bow, stood by and began the work of rescue.

The Nantucket's boats scoured the waters and are said to have picked up eighty-five survivors.

LOST HAD NO CHANCE OF ESCAPE.

Norfolk, Va., Jan. 30.—(Special)—The lost had scarcely a chance to realize that death was upon them before they were struggling in the sea. The doomed passengers on the Monroe, fast asleep in their cabins when the two vessels came together, went down to death with only time for a shriek of despair. Only those kept awake by the snoring sirens that wailed warnings through the fog, knew when the vessel struck.

The rest, thrown from their berths by the force of the collision, heavy with sleep, had barely time to struggle to be on deck of the sinking vessel before they were plunged into the water. Not ten minutes intervened between the time the blunt bow of the lumbering Nantucket crashed its way into the side of the Dominion liner and the time the latter slid under the waves.

LAST MINUTE TELEGRAPH DISPATCHES

NEW YORK ENVELOPED IN FOG. New York, Jan. 30.—(Special)—New York and its adjacent waters were again enveloped in a heavy fog to-day. Water traffic in the early hours was suspended, and the movement of trains and cars in and near the city was so slow and uncertain that the crowds of persons going to business were seriously delayed.

ONE KILLED AND TEN OVERCOME.

Pittsburg, Jan. 30.—(Special)—One man was killed and ten other persons were overcome by smoke when fire broke out in an apartment house in the Lawrenceville district here shortly after midnight. Three of the ten persons overcome were rescued with difficulty by policemen and firemen, and were burned so severely that they were taken to hospitals.

QUAKE SHOCK FELT AT WASHINGTON.

Washington, Jan. 30.—(Special)—A pronounced earthquake was recorded on the seismographic instruments of Georgetown University last night. The disturbance began at 10.56 and continued until 11.44 o'clock. The observers estimate that the tremors were about 2,000 miles distant, in a northwesterly direction.

TRYING TO WIN ALSATIANS.

Berlin, Jan. 30.—(Special)—An attempt is to be made by Emperor William to win back the sympathies of the Alsatians after their recent irritation in connection with the violent incidents between military and civilians at Zaborn by appointing a Royal Prince as Viceroy in place of Count Charles Von Wedel, who has resigned.

EDMONTON DEPUTY CHIEF OF POLICE SUSPENDED.

Edmonton, Alta., Jan. 30.—(Special)—Deputy Chief of Police Davis, who several days ago tendered his resignation to take effect at the end of the month, was summarily suspended last night by Mayor McNamara, following the escape of two more prisoners yesterday from the police cells. This makes four escapes in three days.

NEW JAPANESE ISLAND.

Tokio, Jan. 30.—A new volcanic island five miles in circumference and one thousand feet in height has appeared three miles east by south of Iwojima Island, one of the Bonin group.

BANQUET TO MR. A. A. CAMPBELL

Work of Macdonald College Demonstrator Appreciated by Lennoxville Farmers

VARIOUS SUBJECTS AFFECTING THE FARM DEALT WITH BY SPEAKERS

A banquet was tendered to Mr. A. A. Campbell at the Lennoxville House last night on the occasion of his departure from the district to take up an important position at the C. P. R. farm at Fredericton, N.B. The guest of honor has been the Macdonald College demonstrator at Lennoxville for nineteen months, and the keynote of all the speeches was the unanimous appreciation of his work, and regret at his removal.

Mr. J. H. M. Parker presided over a large and representative gathering which included Prof. Laird of Macdonald College, the Mayor of Sherbrooke, J. P. McClary, W. S. Armistage, J. A. Cochrane, Hugh McFadden, John Nichol, Robt. Mitchell, D. L. Herbert, Carmichael and others.

CO-OPERATION TO REDUCE COST OF LIVING

The chairman in his opening remarks said that the Dominion Government, Macdonald College and all the railway companies were interested in doing all that was possible in the way of better farming, and Mr. Campbell, a graduate from the college, was sent to Lennoxville nineteen months ago with the object of assisting them in that respect, and he had made good.

The speaker then all realized they were co-partners in the largest manufacturing institution in the world, the sooner would the high cost of living be reduced. Agriculture embraced 80 per cent. of all the manufactured produce of the world. Every body depended upon the farmers. The principal reason was that so many at the present time were living too high, too much money was being spent in railway travel, pleasure resorts, automobiles, etc. Another reason why farm produce was 25 per cent. higher than it should be, was because they were farming on the old plan of 100 years ago.

Mr. Campbell had been expounding the methods adopted by Macdonald College to improve the farming system, and they were very sorry to lose him.

YOUNG MEN LEAVING FARM.

Referring to the fact that so many young men were leaving the farms, the chairman said that was a great extent the fault of the farmers in treating their sons like hired men without paying them the hired man's salary; for too many years they had worked without remuneration. The son should be given an interest in the farm and he would remain.

Mr. Campbell had been worth his weight in gold to that community and while they deeply regretted his departure, they were glad he was going to better his position.

The guest of honor was then presented with a gold chain and fob, suitably engraved, as a token of appreciation of his services. "Our Guest" was then proposed.

REGRETTED LEAVING LENNOXVILLE

In response to the toast of the evening, Mr. Campbell said that banquet was a final evidence of the continued kindness received during his short stay in their midst. He sincerely thanked them for the gift, and for the encouragement and co-operation shown to him at all times. He regretted leaving Lennoxville, which he felt was one of the most prosperous agricultural communities in the province.

GOOD WORK OF MACDONALD COLLEGE

Mr. J. A. Cochrane submitted "Macdonald College." He believed it to be one of the best institutions in the Dominion and it was doing more for agriculture and the whole country than any other institution yet established.

DEMONSTRATORS DOING GOOD WORK.

Prof. Laird, in response, heartily thanked the gathering for the manner in which the toast had been received, and conveyed Dr. Harrison's regrets at his inability to attend. He was glad to see such an enthusiastic gathering of farmers who were giving such a welcome and hearty send-off to one of the college demonstrators. The knowledge of the work done at Macdonald College could best be disseminated among the farming community in different localities by sending demonstrators to show what could actually be done and better results were thereby attained.

The college was delighted at the reception given to the demonstrators throughout the province and joined with them in their testimony to Mr. Campbell's success in his work in their midst.

In Macdonald College there were three departments—a school of agriculture for men, a school of house hold science for women, and a school for teachers for the ultimate benefit of the schools; there was no institution with an equipment and a spirit so fine and it was known all over the world—even better in Europe than elsewhere.

The speaker expressed the wish that more men would adopt the teaching profession because they could do more for agricultural instruction than women teachers; the average period of a girl teacher was only a little over (Continued on page 7)

DELAY FOR NEW SCHOOL PROJECT

Board's Power to Make Loans Now Restricted to \$25,000

WHEN POWER IS OBTAINED NOT NECESSARY TO SUBMIT MATTER FOR APPROVAL OF RATEPAYERS.

"Is there anything in the Education Act or the laws of this Province that requires the proprietors' consent to borrow money for new buildings. Is it not merely that the Lieutenant-Governor in Council gives his consent on the recommendation of the Superintendent of Education?"

The question has been asked the Record in connection with the discussion regarding the proposed new Protestant school.

NOT REQUIRED TO BE SUBMITTED TO RATEPAYERS.

The Education Act, article 234, says: "Any school corporation may also, with the authorization of the Lieutenant-Governor upon the recommendation of the Supt. of Education borrow money, and to that end, issue debentures or obligations, etc."

The absolute consent of the ratepayers is not, therefore, required, though it is very desirable that it should be obtained.

The Board would have to convince the Lieutenant-Governor in Council, and the Superintendent of Education of the need of such school building, and the application would be strengthened if supported by the ratepayers' general approval.

In obtaining information on the above point another clause in the law has come to light which has a bearing upon the situation.

By an old provision the Sherbrooke Commissioners are restricted in their borrowing power to \$25,000. This has never been repealed and they could not, therefore, issue debentures for a larger sum until this provision is repealed or amended. This means delay for the Legislature is about to adjourn and the Board could not receive charter amendments before another year, although there was a special act passed in 1903 authorizing them to borrow \$35,000 and debentures were issued to the amount of \$30,000 and are still out.

THE CLAUSE IN QUESTION.

In the Act to amend the act 40, chap. 23, amending the law respecting public instruction as regards the city of Sherbrooke and which was assented to on the 9th of March, 1878, it is provided:

"And it shall be lawful to either of the said Boards (Protestant or Catholic) with the approval of the Lieutenant-Governor in Council, to raise loans for the said purposes (school houses), and to transfer, as security for such loans, a part of their annual claims on the corporation of the said city for the following years, subject to the above limitations, and either of the said boards with the approval aforesaid (the Lieutenant-Governor in Council) may raise money in advance for the said purpose, by issuing debentures of not less than \$100.00 each, redeemable in not more than 25 years, and for an amount not exceeding in the whole \$25,000, and in such case the portion of their revenue set aside annually as aforesaid, or so much thereof as they may determine, shall be applied to the forming of a sinking fund for the redemption of said debentures."

This clause has never been repealed by any subsequent amendment to the School Act, though the special statute was passed in 1903 authorizing the issue of \$35,000 debentures as stated above.

AMENDMENT ON FREE WHEAT DEFEATED

Vote in House of Commons Rejected Measure by 102 to 57

MR. W. F. MACLEAN, SOUTH YORK, WAS ONLY CONSERVATIVE TO SUPPORT AMENDMENT.

Ottawa, Jan. 30.—By rejecting by a majority of 45, the Opposition amendment on free wheat, introduced under the guise of a want of confidence motion in an attempt to embarrass the Government, Parliament yesterday afternoon cleared the ways and will to-day get down to business after resolving itself into supply.

The motion to place wheat on the free list, which was introduced on Wednesday by Dr. Neely, of Humboldt—characterized by Hon. Robt. Rogers as an unprecedented and unconstitutional attempt to deal with tariff matters in an amendment to the Speech from the Throne, and defended by a number of western Liberal members, came to a division at 6 o'clock yesterday afternoon, and was rejected by a vote of 102 to 57. W. F. Maclean, of South York, was the only member on the Government side to support the amendment, as was expected after his defence of the motion on its introduction and again yesterday afternoon. Right Hon. R. L. Borden, who was back in his seat, after a two days' absence, owing to illness, was the first to record, his vote of "nay."

LEADER OF BLACK HAND GANG GUILTY

New York Jury Reached a Verdict After Being Absent Five Minutes

GANG HAD TERRORIZED THE EAST SIDE OF CITY WITH BOMBS AND OUTRAGES.

New York, Jan. 30.—(Special)—A verdict of murder was reached in five minutes last night by the jury which heard the case of Angelo Sylvestro, a twenty-three-year-old Italian, charged with having been the leader of a Black Hand gang which terrorized the East Side with bombs and other outrages.

Judge Rosalsky imposed the maximum sentence of six years and six months in State's prison, and a fine of \$1,000, to be worked out at a dollar a day if not paid.

GREAT BRITAIN BECOMES RESTIVE

Financiers Complain of American Delay With Regard to Mexican Situation

PRESTIGE OF THE WASHINGTON GOVERNMENT BECOMING WORSE EACH DAY NOTHING HAPPENS.

London, Jan. 30.—The relations of the United States and Great Britain in regard to the Panama Canal tolls, the controversy between Washington and Tokio over the California alien land ownership legislation, and President Wilson's policy towards Mexico, are the subjects of lengthy despatches from British correspondents in Washington, but there is a singular lack of editorial comment on these questions.

The Pall Mall Gazette is the only newspaper to mention Mexico. It says President Wilson has laid himself open to a charge of having chafed at "no Huerta" and then ran away, and then it concludes: "It is a position that becomes worse for the prestige of the Washington Government every day on which nothing happens."

FINANCIERS BECOME RESTIVE.

Financiers here interested in Mexico are becoming impatient at the lack of action shown by President Wilson. A meeting of the Mexican section of the London Chamber of Commerce is to be called shortly to discuss the replies to a circular recently sent out to its members asking them for their views as to whether it would be advisable for Great Britain to join with France and Germany in asking President Wilson to take some steps to adjust the financial position of Mexico.

LICENSE BILL BEFORE LEGISLATIVE COUNCIL

Opposition Leader Will Make Three Amendments on the Third Reading

CHANGES ASKED FOR ARE TO STRENGTHEN CLAUSES THAT MIGHT BE USED TO DISADVANTAGE IN THE LEGISLATURE

Quebec, Jan. 30.—In the Legislative Council last night Hon. Mr. Perreault rose to present to the Council the Quebec license law, and to explain how the bill arose out of and was based on the recommendations made by the License Commission appointed by the Government to investigate conditions and make recommendations for changes in the present law that would favor the growth of temperance among the people without infringing their rights and liberties unduly.

On his resuming his seat, Hon. Mr. Chapais, leader of the Opposition in the Council, made a strong plea for doing all that was possible in the cause of temperance, not only for the sale of those who were now living, but in order to create a favorable environment for the generation that are coming. With the great lines of the bill and its objects in promoting temperance he was fully agreed, but there were a few modifications of the clauses and amendments to the bill which he thought would add to its efficiency if they were accepted. He thereupon gave notice of motion for amendments that he would ask to have made at the third reading of the bill.

CRAVEN'S SALARY RAISED TO \$20,000.

New York, Jan. 30.—The Public Service Commission has raised the salary of Alfred Craven, chief engineer, from \$15,000 to \$20,000, which makes him the highest paid official in the service of the city or the State.

GRAFT CHARGES TO BE PROBED

Premier Gouin Declares in Legislature That Investigation Cannot be Dropped

RESIGNATION OF THE THREE ACCUSED MEMBERS WILL NOT STOP THE INQUIRY

Quebec, Jan. 30.—Premier Gouin submitted the resignations of Hon. Achille Bergevin and Hon. L. P. Berard to the Lieutenant-Governor.

Mr. J. Octave Mousseau, M. L. A., for Soulanges, submitted his resignation as member of the Legislative Assembly to Speaker C. P. Delage, who presented it to the Assembly. Understood that all these resignations were brought about by Premier Gouin.

Stated by Speaker Turgeon, of the Legislative Council, that the resignation of the three members, specifically accused of accepting bribes, will have no effect upon the investigating committee, whose work will be pushed through with thoroughness.

Investigating committee decided to submit to the Legislative Assembly question as to power to grant immunity from arrest to Burns; agents, wanted as witnesses. This was taken on deliber while Premier studies precedents.

Mr. Armand Lavergne's motion to again bring Messrs. Macnab and Nichols before the Bar of the Legislative Assembly to make them disclose names of the other two members alleged to have accepted bribes, refused by Premier Gouin.

Motion by Mr. Lavergne that Mr. Mousseau's resignation be not accepted until the work of the investigating committee is concluded, referred to Speaker for decision as to legality.

A Premier Gouin declares in House that investigation must not be allowed to drop.

These were the outstanding features of the day in the special session extension, which was full of exciting incidents. Not since the charges were first made against Hon. Messrs. Bergevin and Berard and Mr. Mousseau, all now ex-members of the Legislature, have events moved so swiftly and it is now generally felt that the ducks have been cleared for the battle.

IMMUNITY QUESTION

A very important point, however remains to be settled, the possibility of getting the Burns' detective agents back to Quebec to give their evidence. There is much doubt as to whether the Legislature can grant immunity from criminal proceedings to these people, and they naturally will keep out of Canada until they know that they will not appear in the dock instead of before a legislative committee. The difficulty lies in the fact that the Legislature has civil but no criminal jurisdiction, so that there is doubt in the matter and it is understood the accused will take steps to have them arrested on criminal charges as soon as they appear on Canadian soil. This question has been taken under advisement by Premier Gouin, and it is probable a decision will be reached to-day.

Most of the time the Legislative Assembly yesterday were devoted to discussion of Mr. Mousseau's resignation. Mr. Lavergne considered that it should not be accepted until the investigation had been finished, but Premier Gouin and other members of the Government argued that any member could legally resign when he pleased and in the matter and the debate was adjourned pending the decision of the Speaker on the legal aspect of the matter.

WANTS EDITORS BACK.

A long discussion took place on Mr. Lavergne's demand that Messrs. Nichols and Macnab be again cited to the bar of the Legislative Assembly to secure the two names of the members of the Legislative Council accused of graft, but whose identity has not yet been disclosed. This led to some fencing between Mr. Lavergne and Sir Lomer Gouin. The Premier opposed the motion, declaring that he was satisfied with the statement of Messrs. Nichols and Macnab, that they had no further direct accusations against any other members of the Legislature than the five already named. After a long, and, at times, heated debate, Mr. Lavergne withdrew his motion on condition that Sir Lomer Gouin withdraw his amendments, and with this the matter dropped.

PREMIER DEMANDED RESIGNATIONS

Quebec, Jan. 30.—Much comment is heard on all sides to-day over the resignation of three members of the

HON ADAM BECK IS FAVOURITE

Appointment to Canadian High Commissionership Would be Popular

LORD MOUNT STEPHEN'S APPOINTMENT IS NOT TAKEN SERIOUSLY IN LONDON.

London, Jan. 30.—Although diverse opinions are expressed concerning certain names being mentioned for the vacant Canadian High Commissionership, those most seriously considered here are Hon. George H. Perley, Hon. Adam Beck and Hon. Robert Rogers. The first two have the advantage of being well known in this country. Mr. Perley in political and commercial circles, and Mr. Beck as a prominent sportsman. The latter trait would undoubtedly render the appointment of the Ontario legislator popular on many sides, for his reputation as a judge of horsemanship and also as one at home in the saddle touches the national characteristic. He is a director of the Olympia Horse Show, Canadian Section, and at Christmas time was a great follower of the hunt in Derbyshire, where Mrs. Beck is still visiting.

The appointment of Lord Mount Stephen, which is being rather noisily advocated from certain quarters in Canada, is not taken seriously here in view of the fact that he is already past eighty-five years of age. The feeling is that the new man should be in middle life, one who could proceed to organize for himself rather than follow in old grooves.

TWO BLOCKS BURN AT CARIBOU

LOSS IS PLACED AT \$24,000.—BUILDINGS IN THE BUSINESS SECTION WERE THREATENED.

Caribou, Me., Jan. 30.—Two wooden blocks, valued with their contents at \$24,000 and owned by M. E. O'Regan, were destroyed by fire yesterday. Other buildings in the business section were threatened. An overheated stove in the millinery store of Miss Evelyn A. Smith was supposed to have started the fire. Mr. O'Regan estimated the loss on his buildings, restaurant and billiard hall at \$20,000. The other losses were estimated as follows: \$1,000 on Miss Smith's stock; \$1,500 on the jewelry store of Byron O. Noyes, and \$1,600 on the book store of A. V. Goud. All had some insurance.

KEEL FOR DEFIANCE.

Bath, Me., Jan. 30.—The lead bulb for the keel of the cup defender Defiance was started yesterday. It will be several days before the bulb will be sufficiently cool to smooth it off.

Legislature behind which move it is generally admitted Premier Gouin has made known his own wishes which have been respected.

The fact that one member of the Legislative Council was Premier Gouin's partner and that the member for outcangies in the Assembly occupied the important position of Chairman of the Private Bills committee made no difference. Neither could the three members make any appeal, even for party reasons, if they desired, that could meet the situation, which might easily develop into a serious public distrust of the Gouin Government, so all three have resigned, and they will be left for to exonerate themselves of the charges as private citizens before the public.

Maritime Telegraph and Telephone Earnings

In 1912, after paying bond interest, the Maritime Telegraph & Telephone Company earned nearly 14 per cent. on the preferred stock issued. This is equal to considerably more than twice the amount required for dividends on this stock. In other words, if the net revenue of the Company fell one-half the dividend would still be assured. Such a state of affairs is not at all reasonable to expect in a public utility of so great importance to the public and private life of the people.

Thus, regularity of the payment of dividends is a strong point in favor of Maritime Telegraph & Telephone preferred stock, of which we offer a block in lots to suit purchasers. Price and particulars will be given upon request.

A play is being prepared by local talent for the entertainment and bazaar, which will be held by St. Paul's Guild on February 14. There will also be a musical programme.

At the first meeting of the W. A. the following address was presented to the President, Mrs. Webster, by the members present:

"Dear Mrs. Webster:—At this our first meeting in the New Year, we feel that we must tell you how pleased we are that you have undertaken the duties of President for another year. It shows your goodness of heart, that you are willing to take the office again, as your leisure hours we all know, are few and far between. Besides your own household cares you are always ready and willing to lend a helping hand to the sick and afflicted. What you have done for our branch, must have cost you many an hour's hard work and thought, for you have taken without asking the heavy end of every load. If our branch has accomplished any good work it is owing, under God, to your zeal and devoted efforts in its behalf. That you may be richly blessed in your work, at home, and for others, during this year, is our earnest wish and prayer."

SOUTH DURHAM.

On Monday evening Drummond Lodge, No. 57, I.O.O.F., held their anniversary oyster supper in their hall. As usual a large attendance assembled, coming from all the surrounding towns. All enjoyed the bountiful supper provided by the ladies in addition to the oyster treat, after which all repaired to the Town Hall for the entertainment. Rev. G. S. Schagel, Noble Grand, presided, and introduced the speakers and added appropriate remarks. Messrs. J. D. Smith, D.D.G.M., of Richmond; Fred Verrill, G.G., Rev. G. H. Crak of Melborne, and Rev. W. A. Adcock, of Kirkdale, each made brief speeches. Dr. Lane Charpentier and Mr. William Kershaw each gave two solos in their usual pleasing manner. Mr. T. H. Halliday, of Richmond, delighted the audience with his comic

songs, which were interspersed between speeches. The proceeds of the supper amounted to almost \$36.

Mr. George Richmond is improving nicely from his recent severe illness, and is able to sit up a portion of each day.

Mrs. David Hyde and Mr. H. Patrick are both confined to their rooms by illness.

PERILOUS WISDOM

It is an interesting fact that the ancients knew the secret of malleable crystal. In the time of Tiberius an artisan invented a malleable glass, and the shop in which he worked was wrecked for fear that his discovery would bring about a reduction in the price of bronze, gold and silverware.

Pliny refers to this legend and years after another author relates the same story with variations. According to him, the artisan, who was also an architect, restored from partial ruin one of the handsomest of Roman porches, and Tiberius, having a notorious jealousy of any man who surpassed himself even in matters entirely outside of his province, took a violent dislike to one who, he said, was trying to undermine the well-established order of things.

Tiberius pointed out that, if the ancient porch had not been restored, hundreds of workmen might have been given labor in the construction of a new one. The man was, accordingly banished. Naturally, the architect reasoned that if he could convince the head of the state of the good that might result from the numerous ideas he had evolved, the emperor would modify his opinion and even assist him in the maturing of certain of his plans. So he went back to Rome and obtained an interview with Tiberius.

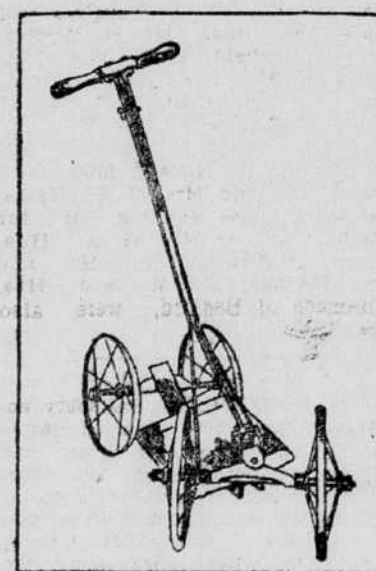

The emperor is described as listening patiently to what he had to say and finally demanding proof. For answer he flung to the floor a crystal goblet, which he bent and bent it back into shape with his own hands. He was thereupon condemned to death.

Still another version is that Tiberius in a rage at the imprudence of one who claimed to do what Caesar could not, smashed the crystal and sat spellbound when the artisan took a hammer and twisting it as if it were copper, made a vase of it. The emperor then calmly asked him what else he could do in the way of wonders, and being told that this was all, had the man executed.

NEW PLAY APPARATUS

Wheeled Platform Propelled by Pushing One Foot

After watching small boys coasting about on home-made vehicles propelled by one foot, a man with youngsters of his own designed a more elaborate affair on the same principle. A low platform is mounted on four wheels, the two axes of the device being connected by a strong steel band, on which the footboard rests. The con-

TURNED BY TILTING PLATFORM.

struction is such that by tilting the footboard to right or left of the wheels will turn in the same direction but the boy will not upset. The long handle is adjustable to any height and is used more for support than for guidance. To operate the vehicle a boy stands with one foot on the platform and with the other foot pushes it ahead until sufficient momentum is attained to carry it on. He then gets aboard with both feet and guides it by throwing the weight of his body on one side or the other.

FARMING IN MANITOBA

The industry in the Province is Yet in Its Infancy

Although the Province of Manitoba is the oldest settled of the prairie provinces, it is well within the truth to state that farming is as yet in its infancy. The area now under cultivation is an amazingly small percentage of the total area available for the production of crops.

The following summary of yields per acre of principal grain crops in Manitoba, shows the situation in a nutshell and will convince the most skeptical that this province is one of the richest districts on the American continent.

Wheat, average for 27 years, 13.39 bushels per acre.
Oats, average for 27 years, 35.60 bushels per acre.
Barley, average for 27 years, 29.87 bushels per acre.
Flax, average for 20 years, 12.16 bushels per acre.

Expected a Deluge

An extraordinary case of religious mania was found in Panama. An individual who had proclaimed himself the Messiah predicted the destruction of the world by a deluge in a short time, and some of his eighty adherents engaged in building an ark, while others collected in pairs animals of all species found in their region.

Money Multiplies

A deposit of \$25 per annum made persistently for 20 years, and compounded at 3 per cent, amounts to \$691.

Many Centenarians

According to official statistics compiled in Germany, the number of centenarians in Europe is far greater than is generally imagined. Spain possesses 410; France, 13; Italy, 197; Great Britain, 92; Russia, 89; Germany, 76; Norway, 23; Sweden, 10; Belgium, 5 and Denmark 2. Switzerland has none. The Balkan States hold the record. In Bulgaria alone there are no fewer than 3,583 centenarians, and there are another 1,974 in Roumania and 573 in Servia.

MEGANTIC CO. HAPPENINGS

Budget of News From Various Sections of Country

INVERNESS.

Mr. Norman Lambly returned on Tuesday from Ormstown, where he has been engaged in evangelical work for a few weeks. He was accompanied by his niece, Miss Eileen Lees, of Montreal.

Mr. John W. Mooney, Toronto, and Mrs. D. McCullough were visiting friends in Kinrossville Friday previous to Mr. Mooney's departure for Toronto.

Miss Margaret McCammon returned from a week's stay with friends in Quebec.

A masquerade carnival will be held at the Skating Rink on Thursday, Feb. 12th. Skaters not in costume, will not be allowed to skate until masks are removed. Mr. Frank Ross has the ice in good condition, and a good time is being looked forward to. Refreshments will be served at the rink during the evening by Mr. C. Thompson.

Mrs. J. D. Hutchison and son, Roland, guests of Mr. and Mrs. D. McCullough.

Mrs. Thos. Dempsey died early on Wednesday morning at the home of her son, Mr. Jas. Dempsey, after a brief illness. The deceased was a lifelong resident of this place and leaves a large circle of friends to mourn her loss. The funeral will take place today (Friday) from her late residence.

KENNEBEC ROAD

Mr. Robt. Jno. Cathcart made a business trip to the Breakey camp, on Camp Stream, on Friday, and returned on Saturday. Mr. Albert Cathcart made a similar trip to the camps on the Chaudiere last week.

Mr. Henry Ray is taking oats and other supplies from St. George to Camp Stream.

Four loads of beef went through here Tuesday and one Wednesday on their way to the lumber camps beyond the boundary. The butchers are very anxious to buy up every animal worth killing.

Mrs. Mary Cathcart, who has been on the sick list for over a year and a half, was, last week, comparatively free from pain.

Mr. D. M. Cathcart is not quite so well as last week. He was then up every day, and two or three times went out for a walk, and must have overtaxed his strength.

REEDSDALE.

Mr. J. W. Mooney, Toronto, Friday with relations at Kinross Mills.

Mrs. J. L. Kinnear and Mrs. Wm. Kinnear are able to be up and around again.

Arrivals and departures include: Mr. E. F. Gill, of Montreal, arrived here Saturday and is the guest of Mr. and Mrs. Ed. Robinson; Mr. P. Mooney for Worcester, Mass.; Miss Mary Minnaugh with Mrs. Mehan, this week, who is recovering from her recent illness; Mr. J. J. Maxwell on business to Quebec Monday; Mr. and Mrs. P. Beliveau, of St. Sophia, Sunday with their son and daughter, at Mr. Morency's, Inverness.

BEAURIVAGE.

Arrivals and departures include: Mr. Ross to Montreal for a few days; Mr. and Mrs. G. Machell and family, guests of Mr. and Mrs. J. Mulleavy on Saturday; Miss Marjory Nutbrown Sunday with her parents at St. Sylvester West; Rev. J. Rothery of Leeds, visiting his parishioners here recently; Mrs. B. Mulleavy called to Montreal by the sudden death of her sister, Mrs. E. McGuire; Miss

NATURAL BASIN NEAR CALGARY

Immense Water Supply is Only Thirty-five Miles Away

That the citizens of Calgary have a natural basin with an estimated storage capacity of 500,000,000 gallons of water, enough to supply the city for an entire winter, only 35 miles up the Elbow river, was an interesting report made by Mr. A. W. Ellison Fawkes.

For some months Mr. Fawkes had a crew of surveyors and assistant engineers working out the data on a pipe line scheme and also a proposed filtration and pumping scheme as an alternative.

On a trip up the Elbow Mr. Fawkes inspected three feasible sites for the location of an impounding dam. The nearest of these for a pipe line is about 35 miles distant, and here the Elbow widens into a big basin mentioned at this point 400 feet long. Five miles further up the river and again three miles above this point there are other suitable sites. But, of course, the closer site, 35 miles up, has the advantage, when the cost of constructing a pipe line is considered. The upper sites would on the other hand be narrower and would not require as long a dam.

With the Movies

A soldier of the legion lay plucked by foemen's steel.
As thine befall.
The lad got well.
It made a lovely reel.

Maud Muller in the meadow lot was busy raking hay.
Young people go
To such a show.
Such nearly always pays.

The boy stood on the burning deck; defied a hostile realm.
He knew his trade
And really made
A most exciting film.

The village blacksmith piled his sledges; a scene of peaceful bliss.
And now and then
The worst of men
Like pictures such as this.

Travels of a Cormorant

While shooting on Loch Fyne a Tarbert fisherman shot a cormorant which was found to have a ring attached to one of its legs, with the inscription: "Inform Witherby, High Holborn, London." Mr. Witherby was communicated with and said he "ringed" the bird on the Saltee Islands, County Wexford.

Gwen Machell Sunday with her aunt, Mrs. G. Nutbrown; Mr. John Machell and Mr. J. Machell, of St. Sylvester West, guests of Mr. and Mrs. G. Machell on Tuesday.

MILLANVILLE.

Mr. Sam Duff, from British Columbia, visiting his parents, Mr. and Mrs. John Duff, after an absence of nearly three years; Mrs. Jas. Moore and son Charlie, from King's Corners, Leeds, with her parents, Mr. and Mrs. John Henderson.

Invitations are out for the wedding of Miss Mabel Henderson to Mr. R. J. Briggs on Feb. 4th at St. Luke's Church, Ardrey.

Mr. John Henderson, who has been indisposed for the past few weeks, is somewhat better now.

A number from this part attended the funeral of the late Mr. S. Jamieson, an old and much respected friend and neighbor, who passed away at the age of 86 years.

IF YOU ARE NERVOUS

or worried or vexed at trifles, your vital forces are slowly but surely deteriorating.

Scott's Emulsion overcomes nervousness better than anything else because its nourishing force enriches the blood and stimulates its flow to all the tissues and bathes the tiny nerve cells in the rich plasma by which they are nourished.

Shun alcoholic substitutes that stimulate and stupefy. Take Scott's Emulsion for your nerves. Its nutritive power is the greatest help that nature affords.

SUTTON

Vera, the 13 year old daughter
of Mr. Thomas Jordan returned from
the Royal Victoria Hospital, Mont-
real on Tuesday, her operation for
appendicitis having been performed
the previous Friday. Mrs. Jordan,
who has been in Montreal for some
days, to be near her daughter, ac-
companied her home.

There is much regret expressed here
at the tragic death of Mr. W. R.
Ball, Immigration Inspector at North
Troy, Vt., on Monday. Mr. Ball was
a gentleman in the true sense, and
all who knew him mourn his sad and
untimely end. He was married in
October last and his wife is almost
crushed by his awful and early
death. The sympathy of hosts,
of their friends goes out to her in
her deep sorrow.

Mr. Frank Black of Salmon Arm,
B. C., who has been in Montreal to
visit his sick mother, came out to
Sutton Tuesday night, and is a guest

visit to Sutton Academy on Wednes-
day.

Don't forget Optician Shaw at his
office in Smith Flannery Jenne Store,
Monday, February 2nd.

BROME

Owing to the inclemency of the
weather, the annual meeting of the
Woman's Auxiliary, which was to
have been held on Jan. 21st at the
residence of Mrs. M. P. Eldridge,
took place at the parsonage on the
afternoon of the 28th inst., when the
officers for the ensuing year were
elected. No changes were made. Mrs.
E. P. Judge was re-elected as presi-
dent; Mrs. Geo. Wallace, vice-presi-
dent, and Mrs. R. E. Miller, secre-
tary-treasurer. Upon motion of Mrs.
C. C. Jenne, seconded by Mrs. M. A.
Clark, it was decided to hold a meet-
ing of each W.A. on the 4th Thursday
of each month. The meeting was
enthusiastic, and much interest was
manifested. Mrs. E. S. Chapman
was appointed as a delegate to the
W.A. annual meeting, which will take
place in Montreal.

GRANBY

The Rev. Geo. W. McCall, B.A.,
pastor of Fairmount Methodist
Church, Montreal, occupied the pul-
pit of the Methodist Church here on
Sunday, Jan. 25th. His eloquent
and forceful missionary sermon in the
morning and his soul-stirring gospel
message in the evening were much
enjoyed by those present. Mr. Mc-
Call was the guest of Mr. and Mrs.
A. E. Solomon while in town.

Rev. W. S. Lennon, B.A., B.D., oc-
cupied the pulpit of Fairmount Meth-
odist Church, Montreal, on Sunday.
He was accompanied by Mrs. Lennon
who will remain in the city during
the week.

Mr. J. H. Baker and the installing
team from Frelighsburg for installa-
tion of the officers of Knowlton lodge
I.O.O.F.

Mrs. H. E. Cotton, Cowansville,
was in town on Wednesday, calling
on friends. Mrs. Cotton has closed
her house and leaves Cowansville for
Boston, where her daughter, Miss
Katherine Cotton will join her and
together they take passage for Eng-
land.

TO THE FARMERS AND DAIRYMEN
OF BEDFORD DISTRICT AND
THOSE INTERESTED IN OUR
AGRICULTURAL AND DAIRY IN-
TERESTS:

I beg to announce that the annual
meeting of our District Dairymen's As-
sociation will be held in Cowansville at
1 o'clock Wednesday, the 11th, and 10
a.m. Thursday, the 12th February.

The leading staff of the Ottawa Ex-
perimental Farm will be in attendance.
I trust our people will respond and de-
monstrate to the gentlemen that we are
interested upon broad lines and have ardent
interest in their work for our benefit.

joying a tramp, but a jolly crowd of about forty assembled at the club house. An excellent supper was served. Ice cream and cake were kindly furnished by Mr. Hutchings and made a fitting finish to the menu. Mr. Southwood donated the music, which was exceptionally well rendered by Mr. and Mrs. Mulvagh, and a delightful evening was spent by all. The club are making arrangements for a fancy dress and masquerade ball, to be held early in February.

NEW EXPRESS RATES OF AMERICAN EXPRESS COMPANY.

The American Express Company will have new rates in effect, February 1st, on shipments going from Canada into the United States, in accordance with an order from the Interstate Commerce Commission. While the rates from Canada to the States have been reduced the reduction is not as great as the reduction on shipments wholly within the States. On shipments wholly within Canada the rates have been unchanged and will remain so until further notice.

THE CHARITY BALL.

The annual Charity Ball, in aid of the Sherbrooke Hospital, took place last evening at the Knights of Columbus Hall, and was an unequalled success.

The handsomely furnished club house, with its many spacious rooms, which had been kindly placed at the disposal of the committee for the occasion, was brilliantly lighted, and furnished an admirable background for the many beautiful costumes of the women present, which were more than usually noticeable.

In the ball room proper the shining polished floor and the gay strains of Bourgeois's orchestra were irresistibly attractive, and shortly after 9 o'clock the scene was a most animated one.

The guests were received by Mrs. William Farwell, who was gowned in black velvet and lace, with diamonds; Mrs. F. N. McCrea, in white satin gown with embroidered lace tunic; Mrs. Tuck, wearing a black and white gown with white lace and diamante trimming; Mrs. W. S. Dresser in old rose chamoise, with black jetted tunic and pearl ornaments; Mrs. T. Malcolm Craig, whose gown was of American Beauty chamoise with black shadow lace and green velvet, pearl, and olive ornaments; Mrs. E. C. Fraser gown in lemon-colored brocade draped with lavender nixon; Miss Norma Lamb, who wore peach colored chamoise with lace overdress trimmed with fur, and corsage bouquet of violets.

Two rooms on the right and left of the corridor were set apart for bridge—a large number enjoying the game.

Mrs. E. Winn Farwell was in charge and the prize-winners were the following:

Bridge—Mrs. C. J. Wilson, Mrs. Gadois, Mrs. Hargrave, Dr. Brown, Mr. C. J. Wilson.

Auction—Mrs. Jack Morkill, Mrs. Hume, Miss T. Edwards, Mr. Holmes, Dr. Allen.

Supper was served towards midnight from a buffet in an upper room, small tables being arranged for the guests and dancing was kept up till an early hour in the morning.

Those present included:

Mr. and Mrs. Adair, Eustia; Dr. and Mrs. Allen, Mrs. Ansell.

LADIES' NIGHT AT THE E.S.S.C.

A goodly number of the club members and their lady friends enjoyed ladies' night at the East Sherbrooke Club Wednesday evening. The mild weather kept quite a few from en-

Kate Ross of Sherbrooke, and by one brother, Mr. John Ross of Orford. He also leaves a widow, who was before her marriage, Miss Margaret Bonnalie daughter of Mr. and Mrs. Archibald Bonnalie of Orford, one daughter, Irene, and two sons, Charles F. and Alexander, to mourn his loss, besides two little grandchildren, and a daughter-in-law, Mrs. C. F. Foss.

Services were conducted at the house by the Rev. G. Ellery Read of Plymouth Congregational Church and the Rev. J. C. Nicholson, of St. Andrew's Presbyterian Church, the former in a short address speaking of the uncertainties of this life and the hopes of the life to come. Mr. Nicholson reading from the Scriptures. A quartette from Plymouth Church, Mrs. Nelson Whitman, Miss Ranshouan, Mr. Jack Cook and Mr. Fred S. Rugg, sang "The Sands of Time are Sinking" and "Forever with the Lord," without accompaniment, most feelingly. The coffin itself, and the room where it lay and where the services were held was a mass of flowers, sent by the many relatives and friends not only from Sherbrooke, but from other parts of Canada, where those who were absent wished to show some token of their sympathy. The coffin was borne by near personal friends of Mr. Ross, Messrs. A. C. Bissell, Alexander Ames, W. P. Berwick, R. A. Ewing, Frederick Moe and W. H. Fuller, and the mourners were his two sons, Charles F. and Alexander, the little grandson, Malcolm, his brother, Mr. John Ross, Messrs. Malcolm Ross of New York; Hilton and Douglas Ross, of Sherbrooke; Rupert Bishop, of Bishop's Crossing, nephews, and the following cousins: Messrs. William Ross and Charles Campbell of Richmond; Findley Ross and Alex. McKay of Melbourne and William Beattie of Brompton.

All the relatives mentioned attended the funeral service, with the exception of his sister, Mrs. Schwartz of Kansas, who was unable to arrive in time. Mr. Hector Ross had lived his life in the Township of Orford and was closely identified with its welfare, but was quite as well known in Sherbrooke, and perhaps few men in the Eastern Townships could claim so many friends, or will be more deeply regretted. Besides managing his beautiful farm, he engaged in the lumbering business for many years on his own account, and also associated with Mr. Andrew C. Bissell as partner. Though he had been very ill, as times seriously so, for several months, on Sunday last he was about the house for a while, and seemed in good spirits and very hopeful of recovery, so the news of his death on Tuesday morning gave a great shock to all his wide circle of acquaintances. They could hardly believe that so vivid a personality, such a true friend could be lost to them as far as this world is concerned. His widow and children have the deepest sympathy of all in the vicinity.

SWEETSBURG.

The box social and dance in Sweetburg Hall last Tuesday night was very much enjoyed by all who had the good fortune to be present. Miss Mabel Dupras to Knowlton on Wednesday, visiting friends.

JUDGMENT IN
HEBERT CASE

Court of Review Reverses Decision Reached by Mr. Justice Lauradeau

PETITION OF HUSBAND THAT IT WAS ILLEGAL TO BE MARRIED BY PROTESTANT WAS MAINTAINED.

Montreal, Jan. 30.—(Special).—The Court of Review to-day set aside Judge Charbonneau's judgment on the Hebert case and decided that as Eugene Hebert, the husband, who petitioned for an annulment of his marriage to Emma Cloutre on the ground that both parties being Roman Catholics it was illegal for them to be married by a Protestant minister, a view upheld by the Roman Catholic Church and Judge Lauradeau, decided before the appeal reached by Judge Charbonneau.

Judge Lauradeau's judgment was thereby set aside and there was nothing upon which the wife could appeal.

The parties are re-married civilly, though the Church annulment still stands.

KEPT MARRIAGE A SECRET.
Ottawa, January 30.—It became known here last night that Hon. Angus McDonnell, second son of the eleventh Earl of Antrim, who is a guest at the Government House, was married at All Souls' Church, Evansville, Ill., on December 13th last, to Miss Ethelwyn Sylvia Arthur-Jones, second daughter of Mr. Henry Arthur-Jones, the well-known English dramatist author.

The marriage was to have been kept secret until Mrs. McDonnell completes her engagement with a theatrical company which is touring the western states, but the news was confided to several friends here by the groom, and eventually leaked out.

Hon. Angus McDonnell is well known in Ottawa, having visited the Earl of Minto and later his uncle, Earl Grey, former governor-general. He is a fruit rancher, owning a large farm near Vancouver, B.C., where he resides.

PATIENTS ARE IMPROVING.
Toronto, January 30.—Sir George Ross, who arrived in Toronto yesterday morning and was taken to the General Hospital private patients' pavilion suffering from kidney trouble, was reported last night as having improved. His condition is not regarded as warranting immediate alarm.

Sir James Whitney, who occupies a suite across the corridor, was last night reported by Dr. McPhedran, his physician, as having had a better and more restful day. He has little fever and has taken nourishment well. His condition is practically unchanged. The trouble in his knee has disturbed his rest, but Dr. McPhedran says he expects it to disappear shortly.

SMOKERS IN FACTORIES

Their Carelessness Causes Many Needless Fires

It is an open question whether the careless fool or the deliberate criminal does more damage by fire. Advantage seems to lie with the fool, because he is everywhere gladly bringing down destruction, while the fire bug must go about his deadly work stealthily at weird hours and in awkward places.
Chief among the fools who carelessly cause fires is the smoker. His blazing match is cast down with alight His cigarette ends fall into piles of paper or shavings. The burning ash of his trusty pipe descend gently into oil vats and barrels of gunpowder. If the fool destroyed only himself, the world could bear his actions philosophically, but he usually escapes while better men perish.

In England great wealth was accumulated by a man who was shrewd enough to locate small tobacco store opposite factory entrances, but his fortune represented the loss of many fortunes by his brother manufacturers. Smoking should be absolutely prohibited in or about every Canadian factory, and employees breaking this rule should be dismissed. If the rule became national, manufacturers could inform each other of these dismissals and could refuse employment to persistent offenders. If it were enforced there would be fewer fires, better work would be done, and the smokers would enjoy his weed more keenly in the evening, after a day's self-denial.—Industrial Canada.

NO SALT HORSE

It Costs Huge Sum Nowadays to Provision Ocean Liners

In these days, when the high cost of living is so much in the public mind, it is interesting to know what it costs a steamship to provide the necessities of life to the hordes of passengers who cross and recross the Atlantic. The annual statement of the North German Lloyd Company throws some interesting light on the subject.

For one year the company's bill for provisions alone was \$4,920,000, while during the same period the coal man was paid \$7,376,735 for 1,758,740 tons of coal which were shoveled into the ships' furnaces during the twelve-month period. For these two items alone—provisions and coal—the company paid the enormous sum of \$12,296,735.

The itemized provision bill showed that the butcher got \$1,655,000 for meats. This does not include fish and game; for the former the company paid an additional \$239,660, while the bill for the game amounted to \$412,360, a total of \$652,020.

Preserves cost \$255,760 for the twelve months and fresh vegetables ran into the respectable figure of \$128,110, while for "sundries" including bread, flour, spices, fruits and the thousand and one articles that are used in the kitchen, the company paid \$1,688,890.

More potatoes were consumed during the year than any other single article, the total amount having been 17,875,873 pounds. Flour ranked next with 6,313,152 pounds, fresh beef third with 5,769,134 pounds, while the bread was fourth with 2,353,983 pounds. The passengers consumed 7,098,560 eggs, 4,271,000 oranges and lemons, 707,625 pounds of onions and 983,302 pounds of salt. They used 465,340 pounds of coffee and 11,729 pounds of tea and 529,619 cans of sterilized milk, to say nothing of 14,918 bottles of fresh cream.

SWEAT SHOP FACTS
A Woman Gets Eighteen Cents For Making Twelve Shirts

The Duchess of Marlborough gave a most remarkable object lesson regarding the English sweat shop system, at her home, Sunderland House, when a dozen representative sweated workers told their stories to a large audience.

The first woman said she had been a chain maker for fifty-two years. Holding up a heavy chain, she simply said, "This used to be 8 cents a hundred; now it is \$1.25." Next she showed thirty-one links attached to a ring which were made for two cents—"a good lot," as she described it. She gave place to the match-box maker, who said she was now paid six cents a gross instead of the four cents, which was previously given. "It takes one and a half hours to make a gross, not losing a minute." Shirt-making was represented by a woman from the West End of London. Unfolding a coarse shirt, she remarked, "A dozen of these right out before earning 18 cents! Last week me and my husband sat from 5.30 in the morning until 11 at night and made fourteen dozen shirts, which came to \$2.62, out of which we had to pay 37 cents for the machine, and 45 cents for cotton."

Another woman had quite a cheerful countenance. Holding high above her head the uppers of two shoes, she remarked, with a laugh, "These are what are commonly called 'pumps,' but what we call in our factories 'patent dress shoes.' I get 20 cents for twelve pairs, and it takes me an hour to make two pairs." The most I can earn is \$1.50 or \$1.75 a week, working very hard from morning till night, and finding my own machine and cotton.

FUNERAL OF THE LATE RICHARD NESBIT.

The funeral of the late Richard Nesbit, assistant scout master of the 3rd Sherbrooke Troop, was held from the home of Mr. T. M. Cowan, 98 Queen street, at noon yesterday. The funeral was very largely attended by relatives, including the members of the Dunsmore and Cowan families and two of deceased's half-brothers from Bury, and also a large circle of friends and acquaintances.

Although young Nesbit had been only a short time in the city, he was universally respected, and his untimely death is deeply regretted.

The service at the house was conducted by Rev. J. C. Nicholson, of the Presbyterian Church, and Rev. G. Ellery Read, of the Congregational Church, and the hymns "Nearer My God to Thee" and "Rock of Ages" were sung.

The Boy Scouts turned out in strong force, about 75 being present. In addition to Rev. Mr. Read, scout master of the troop of which Nesbit was assistant scout master, there were present Scout Master E. Johnson, Asst. Scout Master Bryant, of the 1st Sherbrooke Troop; Copeland and Denis, of the 2nd Sherbrooke Troop, and Wilson, of the 3rd Sherbrooke Troop. The scouts stood at salute in double column at the entrance to the house as the casket was borne to the hearse, and they preceded the cortege on the way to the cemetery and again formed double column at the cemetery gate and also at the grave.

Wreaths were sent from the scout masters of the city, also a beautiful spray of roses from the 3rd Sherbrooke Troop, and a handsome wreath from the officers, non-coms, and men of the proposed troop of Canadian Engineers, to which body deceased had personally introduced over twenty men and was to have been appointed quartermaster-sergeant.

The service at the grave was conducted by Rev. J. C. Nicholson. Lieut. Daw had charge of the arrangements.

CORPORAL PUNISHMENT

Teacher Must be a Psychologist to Know When to Apply it

Corporal punishment in schools is a subject which is brought into the public eye every so often. It is a topic with painful memories for most people and one which is heatedly discussed among the parents of school children, but the average grown-up still believes that corporal punishment is a good thing. Discretion should be used in the application of the rod, however, and it is in the lack of discretion among some school teachers where the system of corporal punishment is weak. There are children who can understand nothing quite so well as a "licking," but there are also children to whom a blow is a serious nervous shock. It is more or less a matter of temperament, which, despite the protests of the press agent, is not the exclusive possession of theatrical stars. The best school teacher must be more or less of a student of psychology and must be able to distinguish between "bad boys" and thoughtful ones.

It must be admitted that there are "bad boys." True, they generally turn out to be the best of men, but they are boys who need an occasional and sometimes frequent applications of the cane or strap, whichever happens to be the favorite weapon of the teacher. To them it is an honor to be "licked," they display their bruised hands with considerable pride. But to the nervous, sensitive child corporal punishment does more harm than either the teacher or parent may imagine. It bruises the spirit more severely than the flesh. Such a child grows up timid and fearful, shrinking from expected blows before they are threatened.

It is rather a pity that school teachers are not better paid. If they are worth anything at all, they are worth at least double what they receive at the present time. They hold almost supreme power over the children in their classes; it is to them that the rising generation looks for guidance and knowledge, yet they receive what is hardly better than a pittance.—Vancouver Sun.

Ancient Incubators
At the British Association Prof. W. H. Cadman, an archaeologist, announced that he had discovered the old Egyptian secret in poultry-breeding. Egypt, it is known, turned out 130,000,000 poultry annually from native incubators which were used in the same form for 5,000 years. Prof. Cadman stated that each incubating oven contained 7,000 eggs heated by small fuel supplies of chopped straw. For the last ten days, however, the heat was wholly supplied by the chickens in the eggs.

COST OF UNIFORMS

The Sable Busby is the Most Expensive Military Head-dress

The cost to which a military officer is put on account of his uniform varies with the branch of the Service to which he belongs and the rank he holds in it. Thus, a cavalry outfit is more expensive than is an infantry one, and a general always has a bigger bill to meet than a subaltern. This is because he wears more gold lace.

The most costly item in an officer's wardrobe is his tunic. The pattern worn by a general on the staff is not to be had for much less than \$100. An infantry officer's tunic is obtainable for the moderate sum of \$85, but a Highlander's doublet runs away with \$50.

The complete uniform of an officer in a Scotch regiment costs the best part of \$500. Average charges for the principal articles that make it up are as follows: Sporrans \$40; drill jacket, \$26.50; kilt, \$3.75; sash, \$20, and plaid, \$15.

As a general draws more pay than any other officer, his uniform bill is proportionately heavier. If he is appointed an aide-de-camp to the King his tailor's bill is considerably swollen, since he has to have a special full-dress tunic and aigilette, costing \$135, and a sword and scabbard at \$32.50.

The most expensive head-dress is the sable busby of the Royal Horse Artillery, which is priced in the outfitters' lists at \$120. A Highlander's feather bonnet costs \$52.50, a general's cocked hat \$21.00, and an infantry officer's helmet \$12.50.

In addition to all the foregoing items, every officer has to lay out a considerable sum of money on the purchase of multifarious odds and ends, such as boots, badges of ranks, belts, puttees, field service kit, and special uniforms for drill, etc.

Moie in Bottom of Sea

It is said that a hole nearly a mile deep was formed in the bottom of the sea off the coast of Panama by a central America earthquake. As a result of these earthquakes, a submarine cable was broken, and a cable ship was sent out to make repairs. The ends of the cable were found to be buried under enormous masses of material, and where the Government charts published in 1904 showed a depth of 1,000 feet, soundings made from the cable ship found a depth of 5,000 feet. This remarkable depression is located off Los Santos Province about 15 miles from the mainland, and is about half a mile wide.

SHAWINIGAN TEAM ARRIVES TO-NIGHT

The Members of the Local Club Are in First Class Condition

Visiting Team Objects to REFEREE TEAM WHO HANDLED LAST SATURDAY'S GAME.

The Sherbrooke hockey team held a light work-out last night at the Stadium, in preparation for their game with Shawinigan Falls, Saturday night. The team to represent Sherbrooke will be picked from the following players: Arguin, Wiggett, Maguire, Baker, brothers, Molyneux, Atto, Ames, Cotton, Conley and McKay. The men are all in good condition.

Shawinigan will arrive here to-night by C.P.R., and the game will start sharp on time.

Some trouble is being experienced in agreeing upon officials, and although Messrs. Baxter and Malone, of Three Rivers, were agreed upon to handle the two games, Shawinigan were not satisfied with their work in last Saturday's game, and have refused to accept them for to-morrow. President Brent hopes to reach an agreement to-day. If not, the appointment will be left to Mr. M. Hubbard, of Grand Mere, chairman of the section.

SOCIETY OF PREVENTION OF CRUELTY TO ANIMALS

Good Work Was Accomplished Last Year by Officers of Society

LARGE TERRITORY COVERED, BUT WORK IS HANDICAPPED BY LACK OF FUNDS.

The annual meeting of the Sherbrooke Society for the Prevention of Cruelty to Animals took place yesterday at the Y.M.C.A. building with a fairly representative attendance. Those present included Mr. E. Hargrave, Mr. W. S. Dresser, Mr. C. H. Fletcher, Rev. W. H. Moorhead, Mr. Geo. E. Borlase, Mr. E. S. Foss, Mrs. Powers, Miss Elkins, Mrs. White, etc. The president, Mr. Hargrave, was in the chair.

The following report was read by Mr. G. E. Borlase, the secretary: "In presenting to you the twelfth annual report of the operations of the Society, your executive committee beg to assure you that the work is carried on as energetically and thoroughly as the funds at our disposal permit."

"During the past year our inspector investigated and reported on twenty cases of cruelty that had been brought to our attention, and secured the conviction of seven of those complained against. This is a decrease of twelve in the number of cases investigated and of two in the number of convictions secured."

"Our inspector, besides looking after the various cases arising in Sherbrooke, visited Bishop's Crossing, Georgeville, Hatley, Lennoxville, Magog, Maple Leaf, North Hatley, St. Elie d'Orford, and Waterville, to look into cases reported to the Society."

"Our finances are not in as good shape as they should be, although we close the year with a small balance to the good. Owing to lack of funds we were obliged to make use of the fifty dollars bequeathed to the Society by the late Mrs. John O. Duncan, which we had put aside to be invested, with any other funds that might come to us, for the benefit of the Society. It is, of course, the intention to replace the amount as soon as possible."

"The expenses of covering so much of the surrounding country, and the small collections made during the last two or three years account for the present situation."

The report was adopted. The financial statement and detailed reports of Mr. E. S. Foss, inspector, of cases investigated, were also submitted.

The inspector tendered his resignation, in view of the fact of the frequent fatiguing trips to the country, but consented to retain the position for another year with an assistant for the out of town work.

The choice of the assistant was left to the inspector. One of the collectors of last year having resigned, a discussion took place as to filling the place. It was carried unanimously that the matter, which is important to the well-being of the Society, be left in the hands of the secretary to report at the next meeting.

The election of officers resulted as follows:

Hon. Presidents—Mr. F. N. McCrear, M.P.; Mr. C. E. Therrien, M.P.P. President—Mr. E. Hargrave. Vice-Presidents—Messrs. W. S. Dresser and C. H. Fletcher. Secy.—Mr. G. E. Borlase.

Committee—Messrs. F. N. McCrear, M.P.; Hon. Henry Aymer, James Mackinnon, Wm. Farwell, W.A.Hale, C. E. Therrien, M.P.P.; Chief A.G. Hebert, W. S. Dresser, E. Hargrave, C. H. Fletcher, J. A. C. Kemp, J. P. Royer, E. S. Foss, A. W. Tracy, V.S.; Mrs. Wm. Farwell, Mrs. Hargrave, Mrs. Lucke, Mrs. G. W. Powers, Mrs. E. C. Fraser, Mrs. E. Winn Farwell, Mrs. J. H. Walsh, Mrs. J. Aime Darche, Mrs. J. P. Royer, Mrs. S. L. Clough, Miss Elkins.

Before the meeting adjourned a hearty vote of thanks was moved by Mr. Dresser, seconded by Mr. C. H. Fletcher and carried unanimously, to Mr. G. E. Borlase, the efficient secretary-treasurer, for his untiring and energetic work on behalf of the Society for the past twelve years.

Russell-Knight Finishes World Famous Test

THIS RECORD BREAKING MOTOR CONCLUDES RUN WITH A SERIES OF EXTRA TESTS AT ALL SPEEDS.

Tuesday, at midnight, a Canadian-built motor, which has attracted the attention of the whole motoring world throughout the past two weeks, finished with flying colors its strenuous test. This famous 800-horse power, at varying speeds, from 500 up to 1,700 revolutions per minute, was concluded early on Tuesday. The motor was then put through a test of one hour at each of the various engine speeds, to discover what power would be developed by the motor in this second run.

Instead of this wonderful motor showing depreciation, it actually showed more power than when first tested. A higher horsepower was established when the motor was run after its long grind. As a fitting climax to this two weeks' grind, at midnight on Tuesday the speed of the motor was increased steadily until it reached 2,000 revolutions per minute. In the midst of a tense silence Mr. T. A. Russell announced that the motor had reached the marvellous speed of 68.5 h.p. at 2,000 revolutions, which is a world's record for a motor of its size. This has concluded the final step in a test which has been made by Prof. H. W. Price, of the University of Toronto, to develop the maximum power of the 28 h.p. engine and it is a matter of pride that this engine which has created several new world's records for motors should be made in Canada. Surely it is somewhat of a satisfaction to Canadians to know that this engine is being built by the Russell Company at West Toronto.

The final report of Prof. H. W. Price, in charge of the test, will be ready shortly. This report will show many records which are little short of marvellous. To-day the motor is being dismantled for inspection, to find the extent, if any, of the wear and tear during this 300-hour test, which has been the most severe in the history of motoring.

CREAMERY MEN MEET AT RICHMOND

Richmond and Drummond Co's. Syndicate Had Very Successful Year

VALUE OF BUTTER AND CHEESE MADE WAS \$10,000 OVER THAT OF LAST YEAR—OFFICERS ELECTED

Richmond, Jan. 30. (Special)—The annual meeting of the Richmond and Drummond Counties Cheese and Butter syndicate was held in the Court House, Richmond.

The financial statement and the Secretary's report were considered satisfactory and its adoption moved. The Inspector, Mr. H. W. Armstrong, presented his report, which was as follows:

"To the officers and members of the Richmond and Drummond Cheese and Butter Syndicate: Gentlemen—I am presenting my annual report to you. I have much pleasure in stating we have had a very successful season. The net proceeds realized by the farmers who patronized this syndicate being about \$10,000 ahead of any previous year."

"In my regular routine of inspection I tested 7,872 samples of milk and cream; examined all butter and cheese made; instructed makers with their work; inspected all factories and reported each visit to the President of each factory. I also sent full reports of my work to the dairy school at St. Hyacinthe and the Hon. Minister of Agriculture at Quebec."

"I found quite an improvement in the quality of both cheese and butter over last year."

"I think it my duty to mention, that the most difficult problem our manufacturers have to meet is, that a large proportion of the milk and cream do not receive proper care before leaving the farm. It is hoped that there will be marked improvement in that direction next year as the Dairy Association intend to have each dairy inspector give considerable more time and instructions to the care of milk and cream at the farm. The 13 cheese and butter factories comprising this syndicate with 582 patrons, and 4,994 cows have produced 466,777 lbs. of butter, which sold for \$123,815.28, and 377,784 lbs. of cheese, which sold for \$47,223.18, making a grand total of \$171,038.46."

"In conclusion I wish to thank the officers and makers and all concerned in my work, for the kindness shown and the assistance given in the discharge of my duties as inspector for the past year."

It was moved and seconded that the inspector's report be received and adopted. The present officers were proposed for re-election.

An announcement was made that Mr. W. X. Cassin be elected in place of Mr. Alfred Miller.

This was carried. The officers elected for 1914 were as follows:

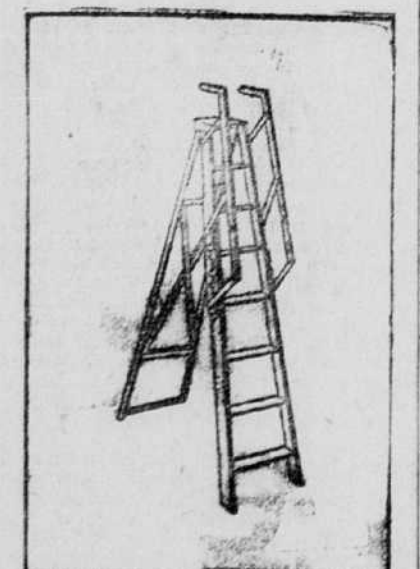

President (re-elected), E. J. Dunbar. Vice-President, W. X. Cassin. Sec.-Treasurer, (re-elected), J. J. Brighton.

Moved by A. Cassin, seconded by J. Mastins that Mr. H.W. Armstrong be re-elected inspector. Carried unanimously. A hearty vote of thanks was tendered the officers for past services, which was duly acknowledged.

HAND RAILS ON LADDER

Give Person Sure Footing in Ascending to Top Steps

People who have had occasion to use tall stepladders know how difficult it sometimes is to keep their footing in ascending to the top steps, particularly if they have a bucket or some other burden in one hand. A pair of hand rails effectively overcomes this. Along the upper part of the sides of the ladder are attachments, on each of which swinging arms are pivoted. To these arms, in turn, railings are pivoted so that when needed the rail

FOLD UP ALONG LADDER'S SIDE

can be pulled out to form a guide and support to a person ascending the steps, and when not needed they can be folded in along the sides of the ladder. Painters or paperhangers will find this attachment a great help and need not worry about a tumble. House maids, too, will be able to climb to the top of the ladder and wipe the ceiling without any further excuse.

Wholesale Smuggling

Wholesale smuggling of horses, cattle and grain across the Canadian border, amounting to thousands of dollars, was unearthed by Collector of Customs Judson La Moure, Jr., of the district of North and South Dakota and Northwestern Minnesota. According to information from Hallock, Minn., near the centre of the smuggling district the operations were carried on along the border between St. Vincent and Warroad, Minn. There is no customs port between these two points, which are about 100 miles apart.

ARRESTED ON FORGERY CHARGE

Harry Shepherd Was Wanted by the Authorities in St. Johnsbury, Vt.

WAS TAKEN IN CHARGE NEAR COATICOOK BY OFFICER MCGAFFEY OF STANSTEAD

Stanstead, Jan. 30. (Special)—A man by the name of Harry Shepherd, who is wanted in St. Johnsbury, Vt., for forgery, was arrested near Coaticook on Wednesday by Sheriff Gilman of St. Johnsbury, and Constable McGaffey, of Stanstead. The officers arrived just in time as the accused had received warning of their approach and was about to make his escape. He was taken to St. Johnsbury to stand trial on Thursday.

CONDUCTOR HAD NASTY FALL

Conductor D. G. Huntley of the Branch, sustained a severe fall on the station platform on Wednesday evening, spraining his wrists and shaking him up so that he will be unable to work for a few days.

MEMORIAL SERVICE ON SUNDAY

On Sunday morning in the Methodist Church, a special memorial service for the late Dr. Bugbee will be held. At the close of the service the quarterly communion service will take place.

WILL CARRY THE MAILS

Mr. Ed. L. Aldrich has secured the contract for the mail and stage route from Stanstead to Coaticook in place of Mr. E. M. Beck, who retires on February 1st.

PRESENTATION BEFORE DETACHMENT

A number of friends of Mr. Henry Taylor, who leaves for Montreal in a few days, gave him a surprise party on Tuesday evening. A pleasant evening was spent at cards at the close of which Mr. Taylor was presented with a fountain pen in token of the esteem in which he is held by his friends.

WILL HARVEST GRAPE FRUIT

Mr. E. A. Baldwin and Mr. W. M. Pike left on Wednesday for a month's trip to Cuba, where they will look after the harvesting of their grape fruit.

PASSED 90TH BIRTHDAY

Mrs. F. B. McGaffey gave a birthday party on Thursday afternoon in honor of her mother, Mrs. M. J. Bowles of St. Johnsbury, who is spending the winter here. A large number of friends were present to congratulate Mrs. Bowles on her 90th birthday. She was the recipient of a post card shower from her many friends.

WHAT IS PROGRESS

Every Scientific Invention Has its Human Side

Now and then some prophet looking only at the mechanical side of progress cries out that there is no real benefit in it. But the mechanical cannot be separated from the human side.

Compare the case of the immigrant of to-day with that of his predecessor of fifty or a hundred years ago. In the former the parting with friends in the old country was like death. The Atlantic voyage was a tremendous undertaking. It was followed by a long and toilsome land journey. Few of the exiles could expect to become wealthy enough to return to their native land. Communication by letter was slow. The telegraph and the cable when first introduced were expensive luxuries. To-day the immigrant crosses the Atlantic in less than a week and is whisked off to his destination by fast train in a few days more. He has speedy communication by mail with his friends at home. He can cable if necessary at a moderate expense. He sends money orders home. He receives parcels of plum pudding at Christmas. A visit to the old land is regarded as no great undertaking.

So every scientific invention has its human side. It lessens farm labor and increases the supply of food. It makes the work of the housewife easier. It makes the house warmer. It enormously increases the output of clothing and other necessities. If you think these things have no human side, try wearing shabby clothes. Talk to some householder who finds it hard to pay house rent and pay the butcher and buy new shoes to take the place of those that the kids wear out so fast.

THE FIRST MOVIE

Don Roderick Saw Moving Pictures in a Vision

The first suggestion of the cinematograph, or moving pictures of to-day, may be found in the ancient legend of Don Roderick, the last of the Gothic kings of Spain. The king and a gay cavalier had, against all warnings, entered through magic doors into a vast subterranean chamber. On a table lay a golden casket which the king had been admonished not to open. But curiosity urged him on despite all warnings. He opened the casket. It contained nothing but a piece of linen cloth interposed between two plates of copper. Upon this cloth were painted diminutive figures of men and horses. As Don Roderick gazed these figures became enlarged and animated. A panoramic vision of a battle displayed itself in which Christians and Moslems were struggling in deadly conflict, while the cries of the combatants, the clash of arms and the roar of battle were distinctly heard. The Christians were seen to retreat, broken and beaten, before the Moslems, and among the figures Don Roderick saw his war steed galloping riderless over the unlucky field, following which the panic-stricken king and his companions fled from the enchanted chamber. And such was the vision of Don Roderick.

Another change will be in regard to prize money. It has been decided to retain 10 per cent, in addition to the customary \$1.00 from all winners up to \$20, and 20 per cent from winners of \$20 or more in all classes.

The meeting adjourned until the 6th of June next.

NOTES

Miss Jennie L. Croshaw has returned home after a six week's visit with her aunt, Mrs. Martin Moran, Waterville, Vt.

Services will be held in the Methodist Church on Sunday next as usual. During the past two Sundays, services have not been held owing to the pastor being quarantined with his family. Mr. Hamilton hopes to be released from the quarantine for next Sunday, when he will resume the services. His many friends will be glad to learn that the scarlet fever case is now in a convalescent stage and in a few days the whole family hope to be set free.

Messrs. J. Turnbull, C. and W. Vesey, formerly employed at Hill Croft Farm, left on Monday last for Kingston, Jamaica, where they have secured positions as inspectors of the West India Electric Light Company.

Mr. C. J. Burbank, who has been on the sick list for the past two months is not gaining as rapidly as his many friends could wish.

Mr. Geo. H. Thurber, who met with quite a serious accident the end of last week, is still confined to the house. He was thrown from a sleigh while driving and sustained a very severe sprained knee.

Frederick, the little son of Mr. and Mrs. Geo. F. Lodge, who has been dangerously ill with croup is somewhat improved.

Mr. Gilbert Croshaw, Jr., spent the week-end at East Angus, Que.

DURABILITY OF TIES

The Supply of Cedar is Becoming Exhausted

The average life of untreated ties as reported by the steam roads is as follows: Cedar, 9 years; tamarack, 8 years; hemlock, 7 years; Douglas fir, 7 years; jack pine, 6 years; spruce, 6 years. As statistics bear evidence, cedar is the species principally used, because of its durability, but the supply of cedar is rapidly becoming exhausted. Unless preservative treatment of ties is introduced, the short-lived species will have to be used untreated, which, on account of the necessary frequent renewal, will increase the cost of mileage maintenance. If treated ties were used, which would cost 20 cents extra per tie for creosoting and equipping with the plates, the inferior species, which are very plentiful and cheap in Canada, could be used with economy. With such a treatment, these woods would last at least fifteen years, and if protected from wear would probably last much longer, and would affect a considerable saving.

Do You Remember

how mother would cuddle you up close to herself in the rocking chair or tuck you in one of those dear old cradles of the time when it wasn't a crime to have rockers on the cradle? And as she rocked and sang, "In the Sweet Bye and Bye," "Swing Low, Sweet Chariot," or "Twinkle, Twinkle," you just felt yourself slipping away into dreamland until you never could remember the last words she sang. And these old lullabies are better today than they ever were.

RURAL DEANERY OF RICHMOND

STUDY OF GREEK TESTAMENT WAS TAKEN UP, AND SUBJECTS OF LOCAL INTEREST DISCUSSED

Richmond, Jan. 30. (Special)—A meeting of the Rural Deanery of Richmond was held at St. Anne's Rectory, yesterday, when the following members were present: Rural Dean Murray, Danville; Rev. J. J. Roy, Melbourne; Rev. W. A. Adcock, Kirkdale; Rev. Geo. Pye, Sydenham; Rev. W. S. G. Bunbury, Richmond; Rev. F. A. Sisco, Lorne; Rev. P. R. Roy, Melbourne.

The Rev. F. J. B. Belford of Windsor Mills, was present as a visitor. The Rev. P. R. Roy was elected secretary, after which the study of the Greek Testament was taken up. In the afternoon subjects of local interest were discussed. A very hearty

vote of thanks was tendered to the Rev. and Mrs. W. S. G. Bunbury for their kind hospitality.

On Wednesday evening a special service was held in St. Anne's church when the Rural Dean preached an eloquent and appropriate sermon, which was listened to with rapt attention by the large congregation present.

The choir rendered the special hymns in a most effective manner.

THE LATE MRS. WARNER, SAND HILL.

(Contributed.) Edith Agnes Elliott Warner, well known in Lennoxville, where her childhood was passed, and in Sherbrooke, where she lived during the years of her first marriage (to Mr. Fred Davis) passed away on January 14th, as previously reported. The funeral service on January 18th, at 2 p.m., in Sand Hill schoolhouse, was very largely attended, two hundred or

more being present. Rev. M. L. Hadley, pastor of the Huntingville Universalist Church, officiated at the prayers at the house and at the funeral service. The quartette from Cookshire, friends of Mr. Edson Warner, rendered three selections very beautifully, and the solo, "Face to Face."

Edith, as the large circle of relatives and friends loved to call her, was indeed, as the name means, "pleasant." Through experiences of sorrow, or trial, or in physical suffering she was still the sweet sunny soul. Seldom does one meet a more winning, gracious personality, and the fragrance of her beautiful life will linger long.

Her husband, children, mother, sisters and relatives have the sincere sympathy of the whole community in the different places where she has lived.

There were lovely flowers, the gifts of friends and relatives.

LETTERS TO THE EDITOR

FARMERS SHOULD CONTRIBUTE TO SPECIAL PRIZE LISTS AT ANNUAL FAIR.

To Editor Record:—
Sir:—In connection with the Agricultural Society of Drummond County, which held its annual meeting last week, it is a curious fact that the special prizes are given by people outside of the farming community. Alphonse Cote, Blacksmith, and Geo. O. Cummings, Merchant, of Ulverton, have been giving special prizes for years; so also have Joseph and Fred Blanchette, cloth manufacturers, besides Ed. Dubois, Merchant, de Garon, Father Gravel and Joseph Beaulac, capitalists of L'Ange-nir; Mr. Dionne, Merchant; Mr. James Church, lumberman and Mr. LaBoutte, baker of South Durham; Mr. Robt. Morrow of Lisgar; Mr. Geo. and Fred Roberts; livestock exporters, and Messrs. A. Ames and Mitchell of Sherbrooke. All these and many others continue giving special prizes every year, but no farmer contributes at all.

If a farmer were asked to give prizes to doctors, merchants, black-

THE HIGH COST OF LIVING.

To Editor Record:—
Sir:—As there is so much discussion in regard to the high cost of living, if you will permit me space I would like to give my opinion. I may not be right, but if I am wrong, there are others also.

Now I believe that the middlemen are the cause of most of the trouble because every hand food passes through raises the price. Food, in a manner, is like all other manufactured goods, which, if they could be bought at first cost, would save millions to the farmers. But there are so many middlemen who have to get high salaries and the farmers not only have to pay them, but are blamed for the high cost of living. While some farmers are doing well, the great mass of them have a hard struggle to keep their heads out of water; what with hard seasons and hard luck betimes, their path is not strewn with roses by any means.

We hear of governments appointing commissions to investigate the high cost of living—another class of middlemen! Who will pay them? We shall see. In investigations, why doesn't the government erect co-operative stores in the cities where the farmers can sell their produce at a living price and the consumer can get it at a slight advance to cover cost of maintaining such co-operative stores. These would, if ran on honorable lines wonderfully reduce the high cost of living.

At one time the golden rule was, "Do as you would be done by," but that has been changed to, "Do the other fellow or he will do you." Poor rule, that, but unfortunately very popular now-a-days!

It seems to me some means might be found along the lines mentioned whereby the producer and the consumer could be brought closer together—the sooner, the better for both parties. Never mind the middlemen, let them do the overalls and go to work as we do, and a big difference will be found in the consumer's cash account at the end of the year.

Yours Respectfully,

J. M. LARGY.

FIVE YEARS FOR BYRNES

HELD UP HERALD CASHIER IN MONTREAL AND SECURED \$500.

Montreal, Jan. 30.—Five years in the penitentiary was the sentence handed to Raymond Byrnes in the Court of Sessions yesterday for holding up the cashier of the Herald Publishing Company on December 16.

Judge Bazin after the prisoner had stated that he had nothing to say before sentence was passed, told Byrnes that for the offence to which he had pleaded guilty, he could be sent to prison for life.

"You are a bad man," said the judge, "and a danger to the community. I will send you to prison for five years."

HEALTH OF THE POPE CAUSES ANXIETY.

London, Jan. 30.—A news agency despatch from Rome yesterday afternoon says that the health of Pope Pius X. is again giving anxiety in Vatican circles. The despatch adds that efforts to disguise the true state of the Pope's health have failed to hide its seriousness.

departure for Europe; Mr. John Brown, Farndon, the guest of Mr. and Mrs. W. H. Smith Wednesday; Rev. M. Brundage to Sutton Monday attending the funeral of Mrs. Hazel-tine; Rev. Mr. and Mrs. Powles, of West Brome, attending the Institute entertainment Wednesday night; Mr. J. R. McCluskey, of Montreal, in town Wednesday; Mr. A. L. Fisher, of Brookville, in town Thursday.

On Wednesday morning Mr. J. E. Loisele was at the C.P.R. station with one of the farm horses. When the train came in the horse took fright, broke the shafts and harness. Mr. Loisele was dragged some distance, but succeeded in holding the horse, and came out without injury.

The entertainment under the auspices of the Women's Institute, Wednesday night, was enjoyed by some, while others were not satisfied. It had been advertised as "Indian" night and then was put on as "Japanese." The next meeting of the Institute will be held in February. One pleasing feature of the entertainment was a request made by the new president of the Institute, Mrs. L. C. Parsons, that members remain for a few minutes at the close. This was for the purpose of a farewell to the retiring president, Mrs. C. L. Cotton, who was leaving on Thursday for an extended tour through Europe. Mrs. Parsons, on behalf of the members, in a neat little speech presented Mrs. Cotton with an elegant travelling bag to help keep her old friends in remembrance.

The remains of the late Rev. A. W. Main were brought here on the express from Montreal Thursday morning. A large number of Mr. Main's friends accompanied the remains. They were met at the station by many of his old parishioners and after a short service in Emmanuel Church, conducted by the Rev. Dr. Warriner, assisted by the Rev. A. H. Trill, the remains were laid to rest in the Union Cemetery. The pall bearers were Messrs. Sergeant, Boyd, Davis and Roberts, of Point St. Charles. Among others who were in the party were Mrs. Main, Miss G. Main, Mr. Campbell, Mr. McDonald, Miss Wilson, Miss Surgeon, Miss A. Sargent, Hugh McFadden, J. Nichol, Robt. Mitchell, D. L. Herbert and Principal Carmichael. "God Save the King" brought a happy gathering to a close.

During the evening several humorous songs were joyfully rendered by Mr. H. G. James, accompanied by Mr. W. Montgomery. A word of praise is due to Host Taylor for the manner in which the supper was prepared and served.

BANQUET TO MR. A. A. CAMPBELL
(Continued from page 1)

three years, and if men would take up teaching and settle down in a residence alongside the school the advantage would be enormous.

There was a great difference between the country boy and the city boy and as one man remarked, "many a city boy didn't know the difference between a steer and a heifer." They were doing something in the college school for teachers, because if the rising generation were to be affected, it must be done in the schools when they were young and receptive to new ideas. Some changes had recently been made in some schools, as at Lennoxville Academy, where they had poultry clubs and engaged in competitions at school fairs. The idea could be extended to corn and potato clubs, and the work could gradually be spread through the schools. The school fair missed half its value when the judging was not done in the presence of the competitors so they could understand why the prizes were awarded. In the same way agricultural, horticultural and livestock shows should not be merely exhibitions, but judging demonstrations should be held.

The school trustees associations were interested in problems largely concerning the teachers, such as taxation, salaries, the course of study, sanitation, truancy, and the difference between trained and untrained teachers. If the farmers in the communities would become trustees and attend the teachers' conventions, they would secure valuable advice and also information regarding agricultural instruction and physical training in other schools, and a great improvement would follow.

AGRICULTURE IN SCHOOLS.

The article in the education code stating that "Agriculture shall be taught in all rural schools" was a dead letter. In the school for teachers this subject was now taught one hour per week and he hoped in another year agriculture would be taught in the schools. The sun had set on the day when people thought that every child should have an education fitting him to become a clergyman or a school teacher. In all other countries the curriculum was adapted to suit the needs of the community and the length of school life. In a farming community agriculture should be on the curriculum, and the instruction should be as practical as possible if the school life was short. In Scotland cooking and navigation was taught to some of the boys because they intended becoming sailors and these subjects would be more useful than abstract mathematics.

A class had been instituted at the college for demonstrators who knew their subjects well but did not know how to present their knowledge.

It was always a good thing when people from the country could acquire an education and go back and give the benefits to the country people. In Scotland the clergymen came from the country, but the reason the Church of England was not such a success was because the clergymen came from the aristocracy and ministered to people of a different type.

The speaker concluded by saying that instruction in drawing, home decoration and furnishings, music and physical culture formed part of the college course.

WILL GO BACK TO FARM

"The Dominion Parliament" was proposed by Mr. McClary, who referred to the money it had voted for agriculture and for experimental farms.

Mayor MacInnion responded and after referring to Mr. Campbell's good work and the debt they owed to Macdonald College, said he had taken a great interest in agricultural matters for many years and hoped soon to devote his whole time to it. The life of the farmer was the most independent in the world, and he was the true nobleman of the country. Wars and party politics did not affect him very much, but one of his greatest mistakes was his lack of co-operation. Denmark was an instance of what the Eastern Townships could do by this means.

EXPERIMENTAL FARM FOR DISTRICT

The Dominion Government realized the importance of agriculture, as was seen in the experimental farms being established, and which would supplement the work of Macdonald College. The experimental farm for that district was not, as had been stated, the direct result of the Associated Boards of Trade, who were doing a splendid work in advertising the Eastern Townships and inducing immigration. Mr. Burrill, the Minister of Agriculture, who was a practical farmer, had the idea in his mind long ago, and was doing his best to assist agriculturists of the whole Dominion.

OTHER SPEAKERS

Interesting and appropriate speeches were also delivered by Messrs. W. S. Arncliffe, Hugh McFadden, J. Nichol, Robt. Mitchell, D. L. Herbert and Principal Carmichael. "God Save the King" brought a happy gathering to a close.

During the evening several humorous songs were joyfully rendered by Mr. H. G. James, accompanied by Mr. W. Montgomery. A word of praise is due to Host Taylor for the manner in which the supper was prepared and served.

SEVEN YEARS FOR CONSTABLE.

Winnipeg, Man., Jan. 30.—Ex-Constable Robert J. Reid, one of the Krafchenko's guards, and self-confessed participant in the plot which effected the prisoner's escape, appeared before Sir Hugh John Macdonald, police magistrate, yesterday morning, and was sentenced to seven years in the penitentiary.

STATISTICS FROM SHERBROOKE JAIL

Number of Persons Arrested
Last Year Was in Excess
of Previous Period

VAGRANCY HEADS THE LIST OF
CHARGES, AND LABOURERS
WHAT OF OCCUPATIONS
GIVEN.

Mr. J. H. Lafore, Governor of the
Sherbrooke Jail, in his annual re-
port gives statistics relative to the
number of prisoners in his charge
during the past twelve months.

It will be noted that there were no
very serious charges, notwithstanding
the fact there was an increase in
those arrested.

During the year there were 835
prisoners admitted, being 95 more
than in the previous year. The figures
show that the number of prisoners
under sentence on the 31st. December,
1913, was 14, and the number
not under sentence 2; number of prisoners
under sentence on the 31st. December,
1912, was 14, and discharged during
1913, 2.

The prisoners admitted to jail
during the year 1913 were 808 men
and 27 women. They were disposed
of as follows: One escaped; 1 went
to asylum; 10 to reform school; 6 boys
and 1 girl; expiration of sentence, 161
men and 4 women; acquitted, 6
men and 2 women; discharged with-
out bail, 45 men and 10 women; dis-
charged on habeas corpus, 6 men and
4 women; out on bail 9 men and
2 women; on other causes, 48 men
and 4 women; prisoners still in jail
on 31st. December 31, 1913, 16 men.

The charges preferred against the
arrested persons were: Simple as-
sault 16; aggravated assault, 5; in-
sult, 1; assault 1; house breaking 1;
bodily harm 3; burglary 4; cruelty
to animals 4; peddling without li-
cense 1 disorderly 42; deserting ser-
vice 2; fraud 1; loitering 8; false
pretence 2; murder 1; attempt to
murder 3; house of ill fame 10; house
of ill fame frequenter 2; carrying fire-
arms, 3; neglect to support family 3;
trespassing 2; selling liquor without
license 2; attempted rape 3; theft
33; stealing ride on railway 6; horse
theft 6; vagrancy 171.

The occupations given by those ar-
rested were given as follows: Sur-
veyor 1; gentleman 1; barbers 4;
butchers 1; bricklayers 8; boiler mak-
ers 2; clerks 2; carpenters 5; car-
ters 3; cigarmakers 2; bartender 2;
shoemaker 1; farmers 7; peddlers 3;
cooks 2; firemen 4; scalars 3; fore-
man 1; constructors 3; curriers 1;
servants 10; students 8; railwaymen,
2; blacksmiths 4; weavers 1; en-
gineers 1; printers 2; labourers 206;
merchant 1; moulders 2; mechanics 1;
machinists 2; tailors 2; miners 3;
polishers 3; painters 4; prostitutes
17; book binders 2; tailors 2; stone
cutters 3; telegraph operators 1;
sailmakers 1; travelling agent 1.

MR. ALEX. BURNET APPOINTED PRESIDENT

Directors of Brome County Agri-
cultural Society Decide on
Officers for 1914

PRIZE LIST WAS REVISED, AND
VERY FEW CHANGES WERE
MADE. NEW HORSE SHEDS
TO BE ERECTED.

Brome, Jan. 30.—(Special) — A
good representation of the directors
of the Brome County Agricultural
Society assembled on Wednesday.
Director Alex Burnet, of East Farn-
ham, was chosen as president; J. M.
Bryant, of East Bolton, vice-presi-
dent; G. F. Hall re-elected secretary-
treasurer.

The prize list was thoroughly re-
vised and but few slight changes
made. Permission was granted to the
Clydesdale Association to erect
fourteen new horse stalls on the
grounds. The exhibit of Clydesdales
will be large, as there are a consid-
erable number of young mares being
purchased in the county.

TO COMBAT RAILWAY STRIKE

CARTAGE OWNERS WOULD GIVE
VEHICLES TO TRANSPORT
MATERIALS AND FOOD.

London, January 30.—A scheme for
the co-operative organization of the
road transport service designed to
combat railway strikes was consid-
ered by the Birmingham Chamber of
Commerce and approved at a meet-
ing yesterday.

The council will establish a register
for commercial vehicles the owners of
which would be willing to place them
at the disposal of the public on rea-
sonable payment for the conveyance
of manufacturing materials and food-
stuffs in the event of a railway strike.
It is suggested that the plan might
be adopted by the other chambers
and so effect a national service.

MAD METHODS OF MILITANTS

INTERRUPTED LABOR MEETING,
AND MANY WERE EJECTED
FROM HALL IN GLAS-
GOW.

Glasgow, January 30.—Although the
Labor party is the only one which
has espoused the enfranchisement
of women, the militants are always more
obstreperous at a labor meeting than
at any other. This was strikingly il-
lustrated at the meeting held at St.
Andrews Hall last night, at which
James Ramsay MacDonald, Socialist
and Labor member for Leicester, pre-
sided. From start to finish his
speech was interrupted by interrup-
tions from the women. More than a
score of militants were ejected, most
of them screaming wildly and strik-
ing out in all directions.

Mr. MacDonald's declaration that
the labor party was out to fight for
women's franchise failed to modify
the militant hostility.

BRITISH LIBERAL SPLIT ON LAND POLICY

Mr. Lloyd George's Visit to Glas-
gow Has Been Postponed
as a Result

SCOTTISH BRAND OF PARTY
SAID TO FAVOR LESS DRAS-
TIC PLAN THAN CHAN-
CELLORS.

London, Jan. 30.—The secret of the
repeated postponement of Mr. Lloyd
George's Glasgow meeting is ex-
tremely simple, though galleons of
party ink have been expended in ex-
plaining it in innumerable and quite
contradictory ways. The chancellor,
when he speaks, will be compelled to
make a statement on the question of
taxation of land.

Now there are two parties in the
Liberal camp, the one in favor of the
taxation of land values, which means
gradual freezing out of the ground
landlord; the other devoted to the
rating of land values, which means
the transfer of rates levied on build-
ings to the land.

A considerable number of English
Radicals, of whom Mr. Outwaite is
perhaps the most thorough-going, are
determined to carry out the former
policy, but the mass of the Liberal
members is in favor of the latter.
Now Mr. Lloyd George is to speak
north of Tweed and the great body
of Scottish Liberals is in favor of a
less drastic policy. But the chancellor
is to speak in Glasgow, and Glas-
gow is in favor of a form of exprop-
riation known as taxation of land
values.

To more thorough-going land re-
formers the chancellor's land policy
savors of rank conservatism. To the
more moderate the policy of Mr.
Outwaite spells spoliation. Land
taxers declare for land taxation they
will vote against the government. The
land raters insist that if he goes
beyond land rating they will oppose
him.

HONOR FOR MOTHERHOOD.
Paris, January 20.—Mme. Theodore
Amet, the mother of twenty-two chil-
dren, all of whom are living, has
been proposed to President Poincare
by Captain Maire, of the League of
Large Families, for the Cross of the
Legion of Honor. Mr. Maire was in-
formed by President Poincare's sec-
retary that the matter had been en-
trusted to the Ministry of the Inter-
ior for consideration. Mr. Maire points
out at present 113 Frenchwomen have
the right to wear the coveted red
ribbon for various reasons, and it
would be fitting to award one to
the noblest of women's duties—
motherhood.

ANOTHER SCALP FOR WOLGAST.
Fond du Lac, Wis., January 30.—
Rodolph Unholz, former Boer, was
knocked out last night by Ad. Wol-
gast, former lightweight champion, in
the second round of a scheduled ten-
round fight. Unholz took the count of
nine four times in the first round and
once in the second and was reeling
helplessly around the ring when, af-
ter 1 minute and 35 seconds of fight-
ing in the second round, his seconds
tossed a towel into the ring.

INDICTMENT AGAINST HARRY K. THAW

When Analyzed it is "Nothing
But Words Without Any
Meaning"

NEW YORK BRIEF WILL SHORT-
LY BE ARGUED BEFORE
JUDGE ALDRICH AT
CONCORD, N. H.

Concord, N. H., Jan. 30.—The New
York indictment against Harry K.
Thaw is cumbersome, inflated and
made up of "high-sounding words
which when analyzed are nothing
but words," according to the brief
filed by Thaw's lawyers as their final
stroke for Thaw's freedom.

The brief will shortly be argued
when Judge Aldrich holds a hearing
on Thaw's habeas corpus petition and
on the question of his admission to
bail, and Thaw and his counsel are
today confident that this latest legal
document makes a fatal blow at
William Travers Jerome's plan to
drag Thaw back to Matteawan.

The new brief discusses at length
Thaw's sanity and its bearing on the
question of extradition. Thaw's at-
torneys urge that if the Court doubts
whether or not Thaw is sane, "a trial
by some appropriate method should
be had."

DOMINION ESTIMATES SHOW BIG DECREASE

An Increase, However, Is Shown
in the Vote For Agricultural
Purposes

LARGER PORTION OF THIS
YEAR'S ESTIMATES ARE RE-
VOTES OF SUMS APPRO-
PRIATED LAST YEAR

Ottawa, January 30.—The main
estimates, which were tabled in the
house last night, totalled \$146,786,
126 for ordinary expenditure as com-
pared with \$143,212,814 last year,
or an increase of \$3,573,311. Capital
expenditure for the coming year is
estimated at \$43,949,050 as com-
pared with \$59,443,351 last year, or
a decrease of \$15,494,301. The net
decrease on the total estimates of
this year as compared with last year
is \$11,920,990. The larger portion of
this year's estimates are simply re-
votes of sums which were appropriat-
ed last year and were then unexpended.

A striking feature of the estimates
is the big increase in the vote for
agriculture.

Last year the vote was increased to
\$3,381,728 and this year there is an-
other increase of nearly four million
dollars.

The other chief increases in ex-
penditure are for Civil Government,
subsidies to the provinces, Dominion
lands and parks, post office and im-
migration. There are decreases in
public works, railways and canals,
militia and for the naval service.

ACTION FOR DAMAGES AGAINST THE CITY

Mr L. A. Bayley's Claim Will
Come Before the Superior
Court

BASEMENT OF BUILDING WAS
FLOODED OWING TO THE
SEWERS HAVING BEEN
BLOCKED.

The case of L. A. Bayley vs. the
City of Sherbrooke is expected to
come up in the Superior Court this
afternoon before Mr. Justice Hutch-
inson.

This is an action in which the
plaintiff claims a sum of about \$800
for damages caused to his stock by
water entering his basement during
the severe rainstorm on July 7 last.

It will be remembered that on the
morning of this day, which was a
Sunday, a heavy storm was experi-
enced and the streets were flooded.
The water entered plaintiff's ware-
house, rising to a height of several
feet, and he contends that the City
is responsible.

Messrs. Lawrence & Morris are at-
torneys for the plaintiff, and Mr. J.
A. Leblanc, K.C., represents the de-
fendants.

POSITION OF KING'S PRINTER

MAY BE OFFERED TO EX-MAYOR
FRED COOK OF OTTAWA.

Ottawa, January 30.—While a num-
ber of names have been mentioned for
the office of King's Printer, made
vacant by the death of Mr. Parmelee,
strong favor is being shown for Mr.
Fred Cook, for several years mayor
of Ottawa, well and favorably known
throughout Canada, and a man of
wide knowledge and experience in
public business. Mr. Cook also has
many friends in both parties, and
all agree that his appointment would
be a good one and popular.

MRS. ASQUITH RAPS ANGLICAN
CLERGY.

London, January 30.—Mrs. Asquith
adds her contribution to the Kikuyu
controversy in the form of a letter to
the London Times wherein she says,
in reference to the service at Kikuyu,
which originated the controversy:
"Protestant Anglican clerics may be
able to teach the Kikuyu some things,
but it is obvious that the Kikuyus
who attended that service can teach
the spirit of Christ to some of the
Protestant Anglican clerics."

EDITOR CHALLENGED TO A
DUEL.

St. Petersburg, Jan. 30.—General
Kurapatkin, Commander-in-chief of
the Russian troops in the war with
Japan yesterday challenged M. Men-
chikov, editor of the newspaper, de-
claring he had been slandered by an
article in that paper. Menchikov re-
fused to fight.

DIED AS A RESULT OF INJUR-
IES.

Sweetburg, Jan. 30.—(Special) —
The Larose Bros.' father, who was
so badly injured in his mill at St.
Alphonse by having his foot and leg
so badly crushed, died at his home
on Wednesday from the result of the
accident, coupled with erysipelas.

ICE NOT SAFE ON LAKE MEGAN-
TIC.

Lake Megantic, Jan. 30.—(Special) —
The ice on Lake Megantic is still
unsafe and does not improve on ac-
count of water and snow on it. Teams
are crossing from Victoria Bay and
Piopopolis, but it is risky to venture
with heavy loads. There is no road
yet from Sandy Bay.

COUNTRY ROADS ARE DEMORAL-
IZED.

Lake Megantic, Jan. 30.—(Special) —
With a strong southerly wind and
rain, and the thermometer at 45, all
Thursday night the snow has been
cut down wonderfully and the ice on
the lake is all covered with water
and it is still raining on Friday
morning. The country roads are de-
moralized.

GOOD TEMPLARS ELECT OFFI-
CERS.

tis Taber; Sentinel, Harold Tilson.

CALL TO GAELIC CHURCH.

Lake Megantic, Jan. 30.—(Special) —
At a recent meeting of the congrega-
tion of the Marshboro Gaelic Church
it was decided to extend a call to the
Rev. Mr. Campbell, of Cape Breton,
N.S., who conducted the services a
couple of Sabbaths a short time ago.
But Mr. Campbell, if he accepts the
call, will not be able to leave his
home until after the opening of navi-
gation in the spring on account of
its being on an island off the coast.

TO COMBAT INSECT PESTS.

Abbotsford, Jan. 30.—(Special) —
Recently a meeting of the directors
of the Abbotsford Fruit Growers'
Association was held at the home of
the secretary. The prize list for the
current year was raised, and it was
decided to hold an exhibition on
Sept. 9th.

On Tuesday evening a meeting of
the members of the Co-operative So-
ciety was held in the schoolhouse, at
which a lecture was given by Mr.
Greene, of Montreal, on the life history
and the most effective means of com-
bating the insects that infest our
fruit trees. At the conclusion of
Mr. Greene's lecture a practical dem-
onstration in making lead arsenate
was given by Mr. Newton, of Mont-
real.

CELEBRATE SILVER WEDDING.

North Coaticook, Jan. 30.—(Spec-
ial) —On Tuesday afternoon Mrs.
Joseph Jamieson, lady overseer of
the finishing department at Penmans,
Limited, was the recipient of a beau-
tiful gold-lined silver spoon tray
from the employees of the finishing
room, and of a silver sugar shell and
silver butter-knife from the members
of the other departments. The occa-
sion was Mrs. Jamieson's birthday,
and as Mr. and Mrs. Jamieson cele-
brated their silver wedding on Jan.
3rd, her friends were prompt to seize
the opportunity of expressing their
appreciation of Mrs. Jamieson's kind-
ness to her fellow-workers and readi-
ness to help on all occasions.

On Tuesday evening Mrs. John His-
lop gave a reception in honor of Mr.
and Mrs. Jamieson. A bountiful
supper was served at 8 o'clock, at
which some ten couples sat down.
Mrs. Hislop was assisted in serving
by Mrs. Jas. Wallace. After supper
cards were played by the guests, the
prizes being won by Mr. M. Dougherty
and Mrs. Alex. Adams, with con-
solation prizes to Mr. J. Dougherty
and Mrs. F. J. Meade. Mr. and Mrs.
Jamieson were presented with a
handsome cut glass sugar bowl and
cream pitcher, a pair of silver sugar
tongs and silver tray by the assem-
bled friends. The party broke up
near midnight after spending a very
enjoyable evening.
