PRICE TWO CENTS

INCLINED TO BELIEVE THAT AN AMICABLE SOLUTION OF ITALIAN INCIDENT IS IN THE MAKING

Italy Has Shown Her Desire to Maintain Good Relations With Allies By Fact that the Italian Delegates Remaining in Paris Will Continue Work—Thought Likely that Premier Orlando Will Call Italian Parliament Together Before May 6th and May Be Back in Paris for the Opening of Peace Negotiations at Versailles.

PARIS, April 25.—(Havas).—Peace conference circles were inclined to believe today that an amicable solution of the Italian incident was in the making.

For one thing, Italy has shown her desire to maintain good relations with the Allies by the fact that the Italian delegates remaining in Paris will continue to collaborate in the works of the inter-Allied commission not pertaining to the actual works of the Peace Conference.

It is thought possible that Premier Orlando may call the Italian parliament together at an earlier date than May 6, as previously fixed, and that he may be back in Paris for the opening of the negotiations at Versailles, which will not begin before the first or second of May.

PREMIER ORLANDO GIVEN OVATION BY CROWD AS HE LEAVES ON WAY TO ITALY

PARIS, April 25.—(Havas).—Premier Orlando of Italy left Paris for General Diaz and two other members of the Italian mission. He Rome at 8.30 o'clock last night, accompanied by Salvatore Barzilai, was given an ovation at the station by a crowd.

DECISION OF PREMIER IS CHEERED BY CROWDS IN ROME—MUCH EXCITEMENT

ROME, April 25.—The decision of Premier Orlando to return from the Peace Conference was cheered by crowds in the streets here last night, the people applauding whenever the names of Italy, Fiume, or Orlando were mentioned by speakers. All shops were closed during the evening. Telegrams from all the large towns of Italy report much excitement. There is a universal protest against President Wilson's statement against Italy's claim to the Dalmatian coast.

German Counter Proposals To League Of Nations Outlined

COPENHAGEN, April 25.—The German counter proposals to the League of Nations are outlined in a long despatch from Berlin.

The German draft proposes that the League shall embrace all belligerent states and all neutral states which were signatories of The Hague treaty, other states to be admitted by the consent of a majority of the members of the League, but the Holy See to be admitted without this condition.

It is proposed that the League shall function through a congress of states and a world parliament, the former to be the chief administrative body, comprising representatives, with equal rights, of all the Governments. The world parliament is to be elected from the parliaments of each state, one representative for every million inhabitants, but no parliament to send more than ten representatives.

Further, it is proposed that two special bodies shall be created: an international tribunal and a mediation bureau to decide respectively questions of law and questions of interests. Every difference between states must be submitted to either body.

The draft regards war as an obsolete method of settling disputes. Therefore, plans that armaments shall be reduced to domestic requirements, with no armed ships except for the league's naval police force and adequate coastal protection for each country. All straits and canals are to be internationalized. There must be no economic war unless recommended by the League as a measure of compulsion.

The draft also contains a labor agreement resembling the labor charter published in Paris.

Regarding colonial questions, it recognizes the principle of international administration for tropical colonies.

FOG ONCE AGAIN FORCES BIRDMEN TO DELAY START

Not Likely that the Trans-Atlantic Flight Will Be Attempted Today.

ST. JOHN'S, Nfld., April 25.—Fog, which has either alternated or combined with rain and high winds to cause repeated postponements of the start of the trans-Atlantic flight, again appeared this morning, making it very unlikely that the "hop-off" of aviators could take place today. Harry Hawker, Australian pilot of the Sopwith biplane, has been waiting two weeks for favorable weather conditions, and his British rival, Captain Frederick Raynham, who is to use a Martinsyde plane, has been waiting more than half that long for the same opportunity.

GERMAN COURTIERS ARRIVE AT VERSAILLES

PARIS, April 25.—German official couriers, in advance of the German delegation to the Peace Conference, arrived at Versailles today.

THE SITUATION IN EGYPT QUIET BUT UNCERTAIN

There is Still an Undercurrent of Discontent and Ill-Feeling—Gen. Allenby Issues Proclamation.

LONDON, April 25.—Reuter's learns that the situation in Egypt is quiet, but there is still an undercurrent of discontent and ill-feeling. The new ministry is honestly working for order, but does not appear to have any great influence in the country. The Nationalists are apparently endeavoring to set up their own government, but their aim to establish a police force appears to have broken down completely.

General Allenby has issued a proclamation declaring that the striking Government workers must return to work or resign.

REGRET OUTBREAK OF VIOLENCE

LONDON, April 25.—A note recognizing the British protectorate in Egypt was communicated on Tuesday to General E. H. H. Allenby, special high commissioner for Egypt and the Sudan, by the United States consul-general at Cairo. The notes says that the President and the American people have every sympathy with the legitimate aspirations of the Egyptian people for further measure of self-government, but they view with regret any effort to obtain a realization of those aspirations by a resort to violence.

FAMOUS FRENCH BAND WILL BE HERE MONDAY

One Open Date Gives Sherbrooke People Chance to Hear Battle Scarred Musicians—Raised \$70,000,000 for Liberty Loan.

Sherbrooke is to have a wonderful musical treat on Monday evening next, when the famous French Army Band will visit this city and will give a concert at the Premier Theatre in the evening.

Sherbrooke owes its good fortune to a combination of circumstances. The band will be in Montreal on Sunday, Ypres Day. It has two engagements in New England, Tuesday and Wednesday, before sailing for France. Thus Sherbrooke is to be favored with a visit on Monday, the one open date. The French Army Band came to America to assist in the Liberty Loan campaign, on the invitation of Secretary of War Baker of the United States. They have given concerts in the great cities of the Republic, and the great sum of \$70,000,000 has been subscribed to the loan at these concerts.

In the West the Band crossed into Canada for a concert at Vancouver and at Winnipeg. It appears in Eastern Canada only in Toronto, Quebec, Montreal and Sherbrooke.

The Band is an organization of battle-scarred veterans of the great war. Many musicians wear soldiers' uniforms, but there is only one Band whose members not only are veterans of the war, with medals for bravery under fire, but also musicians of the highest rank, graduates and prize winners of the Paris Conservatory.

It is said that a man can express truly only what he has himself experienced. Consider then the wild exultation of "La Marseillaise" blaring from the trumpets of heroes of France or the splendid fire and rhythm of the "Sambre et Meuse," which battle march is the war cry of the Poilu.

The French Army Band veterans have heard the tearing crash of shells; they know the deadly vapors of poison gas; they have felt the weight of Germany's grey-green lines, and have thrown them back; they have given themselves to France, heart and soul and body. What they have seen and felt and done is expressed in their incomparable music.

Captain Fernand Pollain, the director, won the highest musical honors of the European continent in antebellum days. In war time he was decorated for bravery, for valor while leading his men to battle. And now he brings to us this organization of battle-scarred men of France. It is an event of a lifetime to hear these heroes and Sherbrooke is fortunate indeed in having them come here.

Mr. Irwin Sawdon is co-operating with the Band's management in bringing this musical organization to Sherbrooke. The time for the announcement is very brief, but a crowded theatre should greet the French Band here. The announcement on another page should be read carefully.

DIRECTOR HOOVER SENDS A WARNING TO GERMANS

BERLIN, April 25.—A message to Germany by Herbert Hoover, director general of the Inter-Allied Relief Organization, was published in Berlin yesterday. In it Mr. Hoover warned against a continuation of the strike and disorder, saying they were endangering a continuation of the food supply.

The message has brought about serious discussion in the German newspapers. The Boersen Zeitung says that the note is an ultimatum to Germany. The newspaper criticizes the instigators of the unrest and articles printed in the radical press.

ACTION EXPECTED BY BOLSHEVIK GUN BOATS

ARCHANGEL, April 25.—The ice in the Dvina River began breaking up yesterday near the junction of the River Vaga, and according to information at Archangel, action may be expected by Bolshevik gun-boats within a short time.

The Bolsheviks are also reported to be massing considerable forces in the sector south of Kadish. The fronts yesterday were generally quiet.

ASTONISHING RECORD MADE BY AIR FORCE

From July, 1916, the Birdmen Brought Down 7,054 Enemy Aircraft on the Western Front.

LONDON, April 25.—The Air Ministry has published an astonishing record of the work of the air force during the war. It states that before the war the air forces consisted of 272 machines, 197 officers and 1647 men, while in October 1918 there were 22,171 machines, 27,906 officers and 263,842 men.

From July 1916 to the armistice the air force on the Western front brought down 7,054 enemy aircraft, dropped 6042 tons of bombs and fired over ten and a half million rounds at ground targets.

BAN ON CIVIL AVIATOR LIFTED

LONDON, April 25.—The ban on civil aviation will be raised May 1st, in Great Britain. The air ministry in preparation has mapped out various aerial routes along which the civilian aviators will find airdromes and machines for their machines. These thoroughfares will not only enable direct communication between London and Ireland, and London and the north, but also will cater to some of the more important towns in the industrial districts.

The Support Given To Italy And Pres. Wilson's Views Is Evenly Divided In The London Press

Four Newspapers Champion President's Views, Although With One Exception, With Cautious Moderation—The Express Accuses President of "Plunging Conference Into Stupid Tragedy By Rushing Into Arena Waiving a Red Flag" and Describes His Action as "Open Diplomacy Gone Mad."

(Associated Press Despatch)

LONDON, April 25.—The Peace Conference crisis continues to be the paramount topic of comment in London's morning newspapers. The support they give to Italy and President Wilson's views are, respectively, about evenly divided, but with two or three exceptions, opinions are expressed cautiously and with a manifest desire to show friendliness for both Italy and Mr. Wilson and to avoid saying anything likely to hinder the speedy restoration of harmony.

Four newspapers emphatically champion President Wilson's viewpoint, although with one exception with cautious moderation. Two others, with equal moderation, sympathize with Italy's claims, but chiefly plead the necessity for composing the divergent views, lest the consequences be disastrous for the conference. Two others vehemently attack Mr. Wilson. One of these, the Post, refers to the President's "Wild West diplomacy," and says:

"Mr. Wilson's name among the Allies is like that of the rich uncle, and they have accepted his manners out of respect for his means."

The Express accuses the President of "plunging the Conference into a profoundly stupid tragedy by rushing into the arena waving the red flag," and describes his action as "open diplomacy gone mad." It adds: "Premier Orlando has gone home, and we commend his example to Mr. Wilson."

Among Mr. Wilson's warm advocates, the Daily News regrets that "Premier Orlando's reply contains much which cannot be substantiated and ought not to have been said," but pleads that in view of events in Italy "his action, which may have some grave results, should not be condemned as altogether wanton."

PARIS, April 25.—(Havas).—The newspapers here are unanimous in the opinion that the departure of Premier Orlando from Paris does not constitute a rupture in relations. "It is not adieu," says the Petit Journal, "but au revoir."

The Petit Parisien is particularly optimistic, saying that even if "critical tension exists no longer, there are several forms of compromise possible."

A part of the French press manifests some impatience that new complications should arise at the moment when the German plenipotentiaries are about to arrive. The Echo de Paris fears that "as a sequel of the methods employed, all alliances may totter."

BELIEVE DANZIG PROBLEM HAS BEEN SOLVED

Decision Goes Considerably Further Towards Satisfying Polish Demands Than Was Contemplated Some Time Ago.

(Associated Press Despatch)

PARIS, April 25.—Reconsideration of Polish aspirations and claims relative to Danzig has resulted in a decision concerning the future status of that city which goes considerably further towards satisfying Polish demands than was contemplated some time ago.

The "Free City of Danzig" will be created, not as a neutralized state, but virtually as an autonomous republic within the Polish State, contained within the Polish customs union and represented in international relations by Polish diplomats. Its citizens will be guaranteed free use of the Danzig wharves and docks and other transportation facilities. Poland will be given control and administration of the Vistula water route and freedom to cross not only through the Polish corridor, but also through German territory if necessary.

Polish control, however, will not extend to the internal affairs of the city, over which the residents will enjoy complete local autonomy. The independence of Danzig under these conditions will be guaranteed by the League of Nations, which will appoint a higher commissioner to arrange the necessary treaties with Germany and Poland and assist the municipal representatives in drafting a constitution. Germany will be guaranteed freedom of passage across the Polish corridor to East Prussia.

MONSIGNOR RUCH NAMED BISHOP OF STRASSBOURG

Mgr. Pelletier is Also Nominated Bishop of Metz By President Poincare.

(Associated Press Despatch)

PARIS, April 25.—Official announcement was made yesterday of the nomination by President Poincare of Monsignor Ruch, Bishop of Nancy, to be Bishop of Strassbourg, and Mgr. Pelletier, Vicar-General of Nancy, to be Bishop of Metz, succeeding two German bishops. The nominations were made on recommendation from Premier Clemenceau.

This is the first time since the separation of the church and state in France that church nominations have appeared in the official records.

PRES. WILSON IS CONGRATULATED ON HIS STAND

Prominent British Labor Leaders Sent Message, Also Congratulating Premier Lloyd George.

LONDON, April 25.—Prominent British labor member leaders have sent a telegram to President Wilson, congratulating him "on your magnificent declaration for peace based on the fourteen points," and adding: "We are certain that the Italian workers will associate themselves with the international workers in supporting you."

Among those signing the telegram are Arthur Henderson, former members of the War Cabinet; Charles W. Bowerman, Secretary of the Trades Union Congress; John Hodge, former Minister of Pensions and James Henry Thomas, General Secretary of the National Union of Railwaymen.

A message was also sent to Premier Lloyd George, commending him for the support he was giving to President Wilson, and another telegram to Deputy Turati, leader of the Intransigent Socialists, appealing to the Italian workers to support the President of the United States.

HUNGARY CLOSES HER BORDERS IN EFFORT TO CONTROL INVASION; A PANIC REIGNS IN BUDAPEST

Thousands are Fleeing from Budapest—Police Started a Counter-Revolution Movement, But All Involved Have Been Arrested—Government Troops are Leaving for the Front Unwillingly.

(Associated Press Despatch)

BERLIN, April 25.—Hungary has hermetically closed all her borders in an effort to control the Rumanian invasion and prevent unfavorable news from escaping from the country. Reports from Budapest, therefore, are contradictory, but all indicate the situation is grave. The days of the Soviet Government are perhaps numbered.

A panic is said to reign in Budapest, where the Communist authorities are said to be ruthlessly arresting scores of the Bourgeoisie. Thousands of the citizens are fleeing, according to reports.

The Budapest police have begun a counter revolutionary movement, but it is said that all involved have been arrested. Government troops are leaving for the front unwillingly, having in mind the experiences of their comrades, capitulated to the Rumanians.

WAITZEN IS ATTACKED BY CZECHO-SLOVAKS

(Associated Press Despatch)

GENEVA, April 25.—Czechoslovak forces have attacked the city of Waitzen, twenty miles northeast of Budapest, which is expected to fall soon. French troops are said to be aiding the Rumanians in their advance in eastern Hungary, according to advices received here from Vienna.

RUMANIAN ARMY HAD LITTLE DIFFICULTY IN TAKING GROSSWARDEIN

(Associated Press Despatch)

GENEVA, April 25.—The Rumanian Bureau at Berne has issued a statement saying that after the visit of General Franchet D'Esperey to Bucharest recently, Rumanian troops were ordered to again take the offensive against Hungary, which has been suspended during the stay of General Jan Smuts at Budapest. It is said the order provoked great enthusiasm and that a number of Saxon officers and troops from Transylvania joined the Rumanian army, which in a rapid march beyond the old line of demarcation occupied Grosswardein, capital of the Province of Bihar. Hungarian Red Guards fled from the city in (Continued on page Twelve)

Was Troubled With BOILS

for six months.

From the days of Job to the present time, boils have been one of the greatest afflictions of the human race. Very few people escape from having them at some time.

All the poulticing and lancing you may do won't cure them and stop more coming.

Boils are caused by bad blood bursting out, and the bad blood must be made pure before the boils will disappear.

Burdock Blood Bitters is the greatest blood purifier known. It cleanses the system, and purifies the blood by removing every particle of foul material from the system, and when this is done, never another boil comes and health and strength are permanently restored.

Mr. C. H. Bridges, 470 Barton St. E., Hamilton, Ont., writes: "I was troubled with boils for about six months and tried several remedies without any relief until I tried Burdock Blood Bitters, and the effect has been wonderful. After using two bottles, I was rid of them all. I feel like a new man; my appetite is better, and I sleep better than I have for years. I can highly recommend B. B. B. to all who are troubled as I was."

Burdock Blood Bitters has been on the market for the past 40 years, and manufactured only by The T. Millburn Co., Limited, Toronto, Ont.

FARMER DIED FROM A BOIL

The death of a young farmer was recently reported from blood-poisoning, which developed from a boil. Such a small beginning to end so disastrously! Yet this is liable to happen to anyone who allows a sore or wound to become infected.

The surest and easiest way to safeguard yourself is by using Zam-Buk. As soon as it is applied to a sore or wound it destroys all germs and acts as a protection, thus preventing infection and possible blood-poisoning. At the same time, Zam-Buk ends pain and draws out inflammation. Then its action on the tissues results in the quick growth of new skin, so that sores and wounds are healed in the shortest possible time. Get a box to-day and be prepared. 50c. box.

GIRLS! LOTS OF BEAUTIFUL HAIR

A small bottle of "Danderine" makes hair thick, glossy and wavy.

Removes all dandruff, stops itching scalp and falling hair.

To be possessed of a head of heavy, beautiful hair is, no doubt, a very desirable thing. But it is not merely a matter of using a little Danderine.

It is easy and inexpensive to have nice, soft hair and lots of it. Just get a small bottle of Knowlton's Danderine now—all drug stores recommend it—apply a little as directed and within ten minutes there will be an appearance of abundance, freshness, fluffiness and an incomparable gloss and lustre and try as you will you cannot find a trace of dandruff or falling hair, but your real surprise will be after about two weeks' use, when you will see new hair—fine and downy at first—yes—but really new hair—sprouting out all over your scalp—Danderine is, we believe, the only sure hair growth; destroyer of dandruff and cure for itchy scalp and it never fails to stop falling hair at once.

If you want to prove how pretty and soft your hair really is, moisten a cloth with a little Danderine and carefully draw it through your hair—taking one small strand at a time. Your hair will be soft, glossy and beautiful in just a few moments—a delightful surprise awaits everyone who tries this.

Forty dollars and costs when he pleaded guilty to seven out of eight cases, was the fine assigned by Judge Mulvena in the Magistrate's Court today, to Adelard Bayeur, proprietor of the "Premier" Theatre, when he appeared on the charges laid against him for infringement of the Lord's Day Act, by keeping his moving picture house open on Sunday.

In the twenty-three cases against Rodolphe Vallee, proprietor of the Casino, discussion was heard, and the cases finally adjourned for hearing and proof on May second, and to enable the parties concerned to arrive at some settlement.

TWO PLEADED GUILTY
Charged with selling liquor without a license, John Bruyard pleaded guilty today, on an accusation laid by Bissonette and Oughtred, collectors of revenue, and was fined \$100 and costs or three months in jail.

In the case of J. B. Arseneault against Romeo Paradis, for assault causing bodily harm, the defendant consented to plead guilty to simple assault, and was fined \$5 and costs.

FOUR INCHES OF SNOW FALLS AT VERY LATE DATE

With four inches of snow covering the ground, Sherbrooke and its vicinity is today in the throes of what is the latest snowstorm of any size for many years. Snow, of course, has been known to fall as late as the first or even the second week of May, but these falls may be characterized only as flurries, while the storm which started last evening, and is still going on today, is of much greater pretensions.

According to the Lennoxville Experimental Station, more than four inches of snow has fallen since last evening, with no signs of a slack for several hours, while the thermometer has dropped from a height necessitating the removal of spring overcoats to a figure considerably below freezing.

Dunsmore, who is the son of Mr. and Mrs. A. S. Dunsmore, Portland avenue, was in the thick of the gigantic struggle.

RICHFORD'S MEMBER OF VERMONT LEGISLATURE MAKES GOOD.

RICHFORD, Vt., April 25.—S. Carl Carpenter, Richford's representative at the session just closed at Montpelier, the able editor, Howard L. Hindley, of the Rutland Herald, comments as follows:

"Silas Carl Carpenter, of Richford, developed into an influential member of the house as the session progressed. He is a rapid, graphic speaker, never tiresome and always informed in regard to his subject. His opinions regarding banking and insurance and education were not only expressed in honest committee work, but were occasionally transmitted to the house in a more personal and public manner. As speaker at the mock session, Mr. Carpenter won laurels."

SOCIAL SERVICE MEETING.

A meeting of the Social Service Council was held Tuesday evening in Plymouth Church hall, the attendance, owing to various causes, being rather small. Mr. N. B. Pritchard acted as chairman and the minutes of the last meeting were read by the secretary, Mr. A. W. Swan.

Mr. Pritchard spoke of the object of the meeting and of the great problems connected with social service. He believed that the housing question, which was to be taken up by the Sherbrooke Council, but at the present time there were peculiar difficulties in the way of providing comfortable, comparatively low-priced sanitary homes for working people. The cost of labor was excessive, land and all building materials abnormally high, and under these circumstances it seemed impossible to do more than to improve present conditions.

It was pointed out by the V. O. nurse and others that the city should be looked after by a sanitary inspector and a medical health officer, and that, until this was done, nothing along the lines of improvement was at all possible. There was no one to whom complaint could be made when it was necessary except the police, and the chief of police, with the best will in the world, was able to accomplish little.

The subject was discussed at length and many suggestions made, culminating in a resolution moved by Mr. Swan, seconded by Mr. Jackson, that the representatives of the Red Cross Society, Y.W.C.A., W.C.T.U., Young Women's Christian Association and Salvation Army present, bring the question of the necessity of securing the services of the two public officers mentioned above before the various bodies, and report the result at the next meeting, two weeks later. The chairman gave some interesting details in regard to the streets of the city, the by-laws, etc., before the meeting adjourned.

FARMERS SHOULD BEWARE OF FAKE GRAIN VARIETIES

Agents are at Work Who Sell Seed
Under False Pretences.

Each year many farmers are the victims of plausible agents who are selling so-called new varieties. Making extravagant claims, they charge a corresponding price, and only too often the farmer, who naturally desires more productive varieties if obtainable, pays an exorbitant price for a supposedly new and prolific sort, which is either an old variety camouflaged with a new name, or else a selection whose qualities are entirely unknown. Being divisible into classes, these agents and their claims can be grouped conveniently as follows:

First, those who take a high yielding, prolific variety such as Banner or O.A.C. No. 72 oats, and give it another name and introduce it as a new variety.

Second, those who are selling a variety that has been multiplied from a peculiar plant or from extraordinary heads found in the general crop. The producer, thinking it a valuable variety, offers it for sale before its qualities are known.

Third, those who are offering for sale to a few limited customers only a wonderful variety that was produced by a secret process of selection, or else

has been grown from a few seeds found in the toms of the ancient Pharaohs.

A fourth class might be made of those who sell a variety for what it is, but make extravagant claims for its yielding ability. This is well illustrated by the Alaska or seven-headed wheat.

The agent in the first case is a financial shark who is obtaining money by false pretences. He perhaps does the least harm of any, beyond the confusion created in the nomenclature of varieties and the money which he takes from the farmer.

In the second case the agent may be acting in the best of faith, and with the conviction that his claims will be justified by the resulting crop. Perhaps they will be, but the varieties are legion that have been introduced in this way and have been found worthless in comparative tests with standard varieties.

The third agent, though, is the real out-and-out grain fakir and should be liable to prosecution. The farmer who is deceived by his pretences almost deserves to pay the price of his credulity.

It is the right of any person who has multiplied out a selection of grain to sell it for what it is and charge any price he sees fit. Against these well-intentioned, legitimate transactions we have nothing to say beyond warning the farmer that at the best he is likely only buying an old variety, and that exceedingly few of these amateur selections are ever of value.

What is advisable is that in every case before buying a variety that he intends to grow as a general crop, the farmer should consult the reports of his nearest Experimental Station. The remedy for the actual frauds that are

(By C. J. Lynde, Macdonald College, Que.)

CALF AND COLT WEANER

The shield of this weaner is made of sheet metal and is suspended from knobs on the ends two hanger rods.

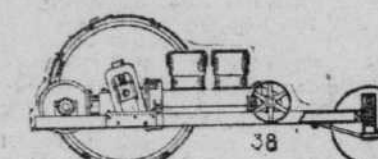

It prevents the calf or colt from sucking, but permits it to eat or drink in the ordinary way.

(J. N. Skaggs, Lewellen Nebraska. U.S. Patent 1,287,480.)

TRACTOR

The special features of this tractor are: First, that the frame carries its load below the level of the rear axle and thus makes the tractor very

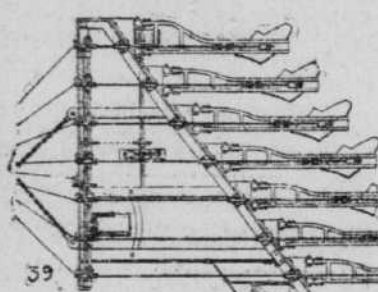

stable; and second, that the power is applied directly to the rim of the tractor wheels, near the point of work, with little loss.

(Mayer Bros. Co., Mankato, Minn. U.S. Patent 1,288,952.)

GANG PLOW

The power lift on this gang plow is so arranged that the plows can be raised separately or all together; also it can be set to lift the plows au-

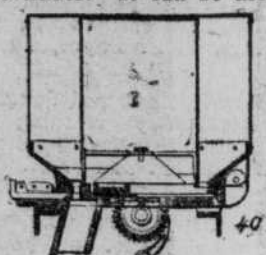

tomatically one after the other in order to leave a straight furrow end.

(Advance-Rumely Co., Laporte, Ind. U.S. Patent 1,289,462.)

SEED PLANTER

This planter can be set to sow two different kinds of seed at the same time, or to sow one kind of seed and a fertilizer. It can be arranged to

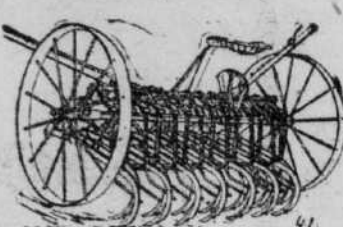

drop the seeds together or in alternate hills or in every fourth hill.

(Hampton Planter Co., Burlington, Iowa. U.S. Patent 2,391,120.)

ALFALFA CULTIVATOR

The shovels here are made with dull and rounded point and edges to avoid cutting the roots; also they are sup-

ported on long flexible drag bars which permit them to glance laterally from a root.

(Deers and Mansur Co., Moline, Ill. U.S. Patent 2,904,446.)

POULTRY KEEPING

If you are interested in poultry keeping, write to Department of Agriculture, Ottawa, Canada, for Bulletin 89, "Poultry Keeping in Town

CHICORY IS NOW BEING RAISED IN CANADA

Great Success Attained With Interesting New Crop.

Considerable quantities of the root of the chicory plant are used in the form of an admixture with coffee, the object being to give the coffee a particular flavor which it does not possess when used alone. The roots, after being washed and dried, are roasted and ground, but these latter stages can only be carried out satisfactorily by the manufacturer. Unless a farmer is located within a reasonable distance from a chicory factory, the freight on the fresh roots would be too great to admit of much profit on his labor. But it should be possible for some farmers to dry the roots before selling them to the merchant, thus reducing the weight to a very large extent.

Trials of this plant were made at Guelph, Ont., years ago, with the following results: The yield of fresh roots per acre in 1896 was 11 1/3 tons, in 1897 the crop was a comparative failure, and in 1898 the yield was 7 1/2 tons. In Berthier County (Que.), the average yield is 7 tons, although as much as 14 tons have been obtained. In England the yield varies between 6 and 17 tons, the average being 8 tons per acre.

LADIES! DARKEN YOUR GRAY HAIR

Look years younger! Use Grandmother's recipe of Sage Tea and Sulphur and nobody will know.

The use of Sage and Sulphur for restoring faded, gray hair to its natural color dates back to grandmother's time. She used it to keep her hair as beautifully dark, glossy and attractive. Whenever her hair took on that dull, faded or streaked appearance, this simple mixture was applied with wonderful effect. But brewing at home is messy and out-of-date. Nowadays, by asking at any drug store for a bottle of "Wyeth's Sage and Sulphur Compound," you will get this famous old preparation, improved by the addition of other ingredients, which can be depended upon to restore natural color and beauty to the hair. A well-known downtown druggist says it darkens the hair so naturally and evenly that nobody can tell it has been applied. You simply dampen a sponge or soft brush with it and draw this through your hair, taking one strand at a time. By morning the gray hair disappears, and after another application or two it becomes beautifully dark and glossy.

used was Large Magdeburg. The seed was sown in eight rows with a distance of eight inches between the rows. A considerable number of plants came into flower instead of forming a thick root and flowering the second season, as is the general rule with this species. The roots were raised on October 18, having suffered no injury from a temperature of 23½ degrees F. the previous night. After washing and draining off the superfluous water the fresh roots weighed 67½ pounds, some of the largest roots weighing over two pounds. The yield works out at 7 2-3 tons per acre.

A sample of the roots was sent to the Dominion Chicory Co., of Montreal, for examination. The report received was as follows: "We received the samples of chicory root and after examining and testing them thoroughly, we find that they are excellent in every way."

The Man Who Buys a DE LAVAL Is Taking No Chances

MOST any kind of cream separator will do fairly good work the first few months, when it is new.

But if it is a cheaply made or inferior machine, after the first few months your trouble will begin.

And the worst of your experience with such a machine will not be the fact that it wears out quickly or that it runs hard, or that you are piling up repair expense, but that you are losing a lot of butter-fat that is worth 50 to 60 cents a pound.

And that is what you really buy a separator for—to save this valuable butter-fat.

Any time you buy a cream separator—no matter who makes it or what claims are made for it—that has not behind it a long record of satisfactory service, a record known to all, a record that is in itself a guarantee of satisfactory service, you are taking a gamble with all the odds against you.

Why take chances at all when you come to select a machine that will mean so much in increasing the profit from your cows?

There is one cream separator that has been the acknowledged world's standard for over 40 years. It's the one cream separator that is used by the creamerymen almost exclusively. Dairy farmers the country over know the De Laval and its sterling quality. Experience has shown them that

It is the best cream separator that money can buy.

Order your De Laval now and let it begin saving cream right away. See the local De Laval agent, or, if you don't know him, write to nearest office.

MEAT CAUSE OF KIDNEY TROUBLE

TAKE SALTS TO FLUSH KIDNEYS
IF BACK HURTS OR BLADDER
BOTHERS.

If you must have your meat every day, eat it, but—flush your kidneys with salts occasionally, says a noted authority who tells us that meat forms uric acid which almost paralyzes the kidneys in their efforts to expel it from the blood. They become sluggish and weaken, then you suffer with a dull misery in the kidney region, sharp pains in the back or sick headache, dizziness, your stomach sours, tongue is coated and when the weather is bad you have rheumatic twinges. The urine gets cloudy, full of sediment, the channels often get sore and irritated, obliging you to seek relief two or three times during the night.

To neutralize these irritating acids, to cleanse the kidneys and flush out the body's urinous waste get four ounces of Jad Salts from any pharmacy here; take a tablespoonful in a glass of water before breakfast for a few days and your kidneys will then act fine. This famous salt is made from the acid of grapes and lemon juice, combined with lithia, and has been used for generations to flush and stimulate sluggish kidneys, also to neutralize the acids in urine, so it no longer irritates, thus ending bladder weakness.

Jad Salts is inexpensive; cannot injure, and makes a delightful effervescent lithia-water drink.

INDUSTRY.

It has been pointed out that over
500 branches of United States indus-
tries have been established in Canada,
and that these branches give employ-
ment to 80,000 people and pay out in
wages annually \$80,000,000. Industrial
Canada in discussing this, remarks:

"If each employee has three depend-
ents, on the average, nearly a quarter
of a million people are thus supported
by these factories. It is estimated that
their annual expenditure, chiefly in
Canada, for raw material, is near
\$200,000,000. If our tariff wall is
broken down or abolished, will any
more branches of American factories
be located in Canada, and will all those
who are here now remain?"

This pertinent inquiry suggests the
value of the tariff to the industrial
towns which have profited by the in-
troduction of American industries, or
whose prosperity is dependent upon the
prosperity of their industries, whe-
ther American or Canadian.

On the other hand, the consumer,
particularly in rural parts, argues that
without the tariff he would save this
extra charge and buy manufactured
articles just so much cheaper. He
sometimes forgets that his best mar-
kets are the prosperous industrial
towns.

The fact is that the interests of the
towns and country parts, of the con-
sumer and the industry, are very close-
ly associated, and neither can be
injured without corresponding injury
to the other. Equitable and profitable
tariff adjustment is extremely difficult.
This question is becoming again a
very live one in the realm of Canadian
politics.

In the interests of the people gen-
erally, it would appear wise to avoid
extremes. The indirect method of
taxation by way of tariff, stamp
charges, etc., has proven about the
best that has yet been devised, and
revenue must be had. Agriculture and
the country's manufacturing indus-
tries are the basis of prosperity. Under
reconstruction care must be taken to
avoid injury to either. Moderation in
tariff revision would seem to commend
itself as the course of wisdom.

AN APPROPRIATE SETTING.

One of the questions which the
Peace Conference seems not to have
solved is that relating to the fate of
the ex-Kaiser. The Record's cartoonist
today offers a suggestion which will
appeal to all as at least appropriate.
He would condemn the fallen Emperor
to live in some ruined town in Nor-
thern France or Belgium, amid the
destruction he has wrought. The blight
of war for years will mark the track
of the Kaiser's armies. The debris of
Ypres would afford a suitable setting
for his future home.

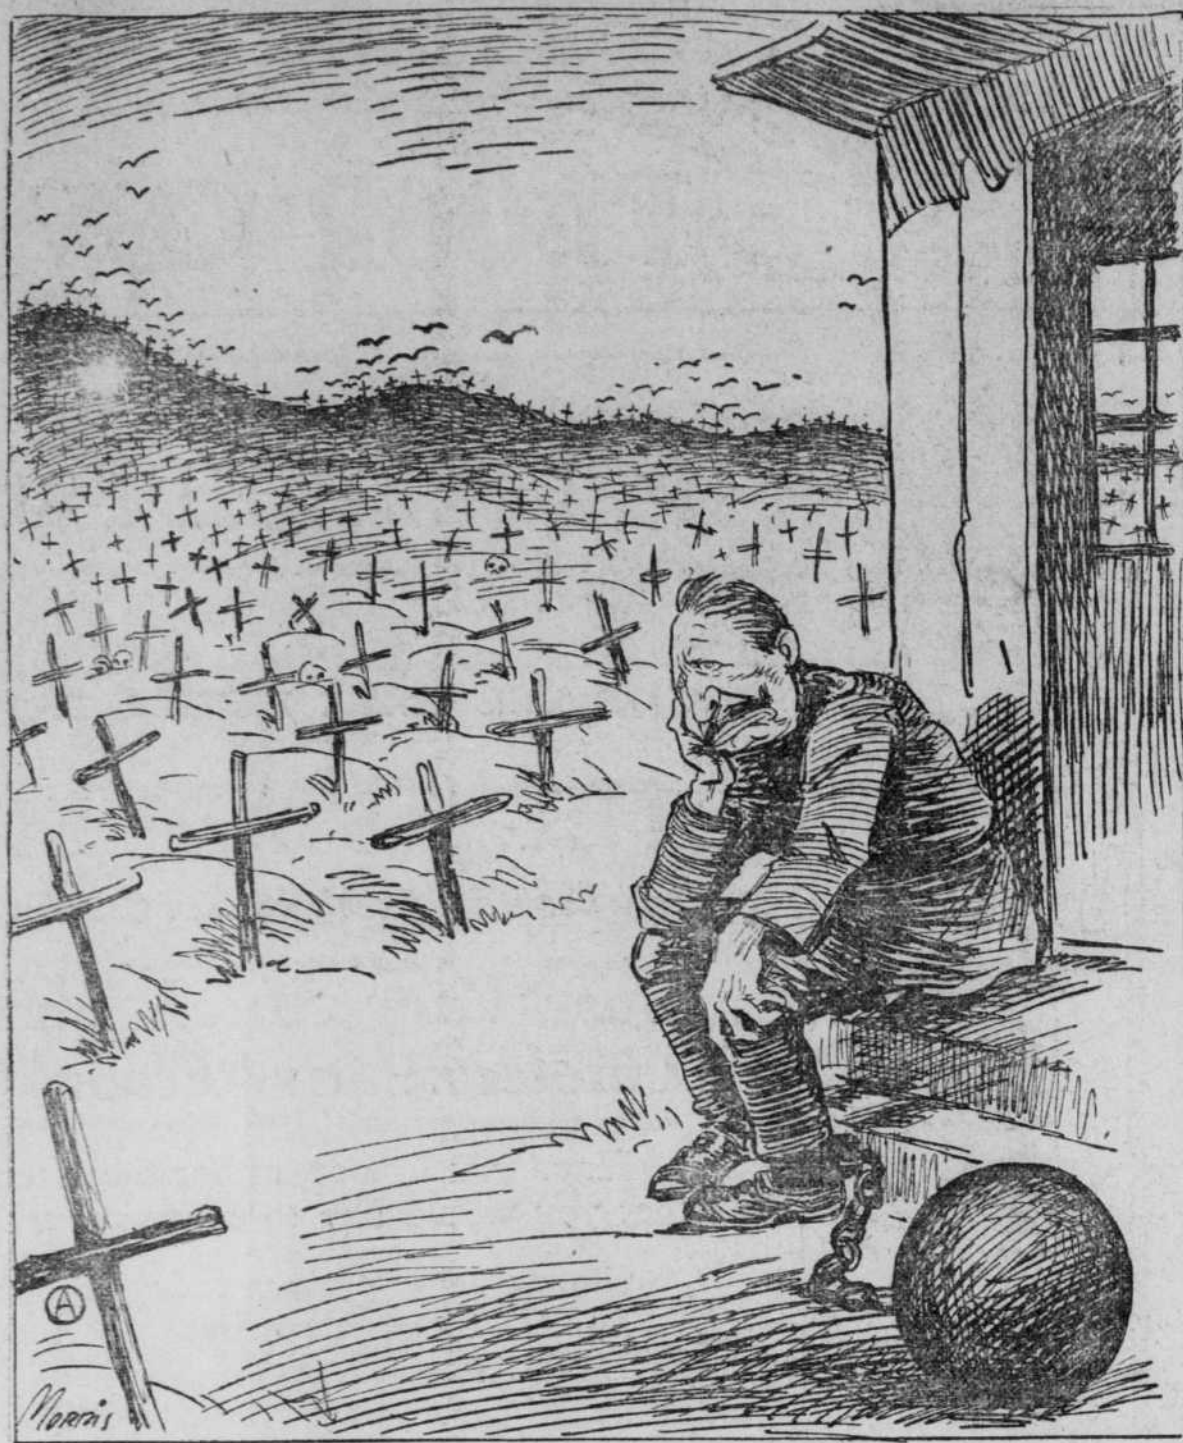

MUNICIPALITIES FAVORABLE.

Reports from municipalities along
the route of the proposed Sherbrooke-
Montreal road continue favorable.
East Bolton Council, at a meeting on
Saturday last, unanimously adopted
the resolution asked for by the Pro-
vincial Road Department. Other mu-
nicipalities are reported to be taking
similar action. In Orford Township
the council has not yet met, but will
take the matter up soon.

The terms upon which the highway
will be built are distinctly favorable
to the municipalities. The Government
will assume the construction, thus re-
lieving the councils of the disquieting
of arranging for and supervising the
work. The loan to each municipality
will represent the actual cost of its
portion of the road.

Now is the time to strike for this
important highway.

Why not exile him to the graveyard of his victims?

BEER AND WINE.

(Journal of Commerce)
The Province of Quebec, by the
direct vote of an overwhelming major-
ity of its electors, is entering upon an
experiment which will be watched with
deep interest by the people, not only
of the other Provinces, but also of the
whole continent. At a time when in
almost every other section of North
America there is a successful move-
ment for the total prohibition of the
traffic in intoxicating liquors, Quebec
has decided to draw a line between
strong liquors and wine and beer, pro-
hibiting the sale of the former while
legalizing the trade in the latter. The
proposal to establish this distinction
is not new. In many quarters it has
been made, but hitherto the opponents
of the liquor traffic have refused to
entertain it. There was a notable de-
bate in the Senate at Ottawa a few
years ago, when an eminent medical
member, the late Hon. W. J. Almon,
of Halifax, endeavored to obtain such
an amendment of the Canada Tem-
perance Act, commonly called the
Scott Act, as would permit the sale of
beer and wine. The supporters of the
Act were successful in resisting the
proposed amendment. Indeed, some of
them argued that the sale of the lighter
beverages would be more dangerous
because more alluring, than the sale
of the harder liquors, and that beer,
when taken in considerable quantities,
as it was likely to be, was damaging
to both body and soul.

Wherever the proposal has hitherto
been made to permit the sale of wine
and beer it has been advocated by the
chief advocates of prohibition as a
device of the enemy, calling for stren-
uous resistance, and has received but
little support in legislative bodies.
Over a year ago the Government and
Legislature of Quebec fell into line
with the prohibition movement so far
as to enact a war-time prohibition law.
The probably unexpected termination
of the war necessitated further con-
sideration of the subject. The Legis-
lature, while willing to accept prohibi-
tion as a war measure, was not so
ready to accept it for peace time. As
a compromise between the views of
those who desired total prohibition,
and those who desired a return to the
old system of local option as respects
licenses for the traffic, the Legislature
decided to adhere to prohibition of
strong spirits, but to leave to the
direct vote of the people the question
whether beer and light wines might be
sold. On the question the people have
voted directly and have, by a very
large majority, favored the sale of the
lighter beverages. Accordingly, so far
as the Provincial authorities control
the matter, on and after the first day
of May, there will be no obstacle to
the sale of wine and beer in the Pro-
vince of Quebec. There are many sec-
tions of the Province which are "dry"
under local option laws, and these will
remain "dry." In the cities and dis-
tricts where the liquor traffic has
hitherto been licensed, the sale of the
stronger liquors must cease, but beer
and wine may be sold.

An interesting question now arises
as to the part in the case that is to be
played by Dominion legislation. By
an Order in Council passed at Ottawa,
under the authority of the War Meas-
ures Act of 1914—an Order which has
the force of law—prohibition has been
declared for the whole Dominion for
war time and a year after. This Order
was passed at a time when it seemed
that all the Provinces wished to have
prohibition as a war measure, and that
the Dominion enactment was necessary
to effectively supplement the
provincial laws, inasmuch as only the
Dominion authority could prohibit the
manufacture and importation of in-
toxicants. The change that has taken
place in the attitude of the Province of
Quebec raises the question in a new
form and adds to the numerous prob-
lems that face the Dominion Parlia-
ment.

The leaders of the prohibition move-

ment will naturally feel much disap-
pointed at the result of the Quebec
referendum. Where nothing short of
total prohibition was thought of, a
law allowing the sale of beer and wine
is not viewed with approval. But the
prohibition of the trade in stronger
liquors is really a long step in the di-
rection of temperance. And the opera-
tion of the new law—if not interfered
with at Ottawa—will serve to test in a
practical way a scheme of what is
called "moderation" in which the
whole world will be interested.

KNOW your bicycle before you buy.
A cheap assembled wheel with its
parts purchased from far and wide
"at a price" may look like a good
bicycle, but is it? The firms making
some of the parts may put good honest

value into their products; others may
not, or cannot. One bad part will ruin
your wheel. You take the risk—and it
is a costly one. Exactly the opposite
policy is pursued in the making of

C.C.M. Bicycles

We make in our own splendid factory
at Weston practically all the parts re-
quired in the finished bicycle—a larger
proportion than does any other bicycle
manufacturer in America. This serves
a double purpose:

- 1st.—It gives us the opportunity of
scrutinizing every detail of
workmanship and material.
- 2nd.—It gives employment in Canada
to the largest possible number
of Canadian workmen.

This policy has been maintained since
the inception of the Canada Cycle &

wheels a character and dependability
unrivalled in the
Dominion. In other
words, it means 100

A young woman who was not fami-

happened to be walking near a depot
where a freight train was being made
up. As the train was being backed up,
one of the brakemen shouted: "Jump

Screaming "murder!" the young
woman turned and fled from the spot

Sat Up in Bed

To Get Her Breath

Palpitation of the heart, shortness of breath, inability to lie on the left side, feeling as if smothering, oppressed feeling in the chest, dizzy and faint spells, tired, weak, worn out feeling, involuntary twitching of the muscles, sleeplessness, restlessness, etc., all point to the fact that either the heart or nerves, or both, are not what they should be. Any of these conditions should be remedied immediately so as to avoid a complete breakdown of the whole system.

Milburn's Heart and Nerve Pills will bring energy to the weakened constitution, strengthen and regulate the heart, and tone up the tired, overstrained nerves.

Mrs. William Steeves, Chemical Road, N. B., writes:—"I have been a great sufferer from nerve troubles and palpitation of the heart, which was so bad I had to sit straight up in bed to get my breath. I could not lie on my left side at all. I tried doctor after doctor, also several different remedies, but got no help from them. My mother insisted on me trying Milburn's Heart and Nerve Pills. By the time I had used one box, I was feeling very much better. I took in all three boxes, and now I am in perfect health and can enjoy a good sound sleep, and can lie on my left side without any trouble."

Milburn's Heart and Nerve Pills are 50c a box at all dealers, or mailed direct on receipt of price by The T. Milburn Co., Limited, Toronto, Ont.

48 after all obligations had been met.

Several much needed improvements
to the church and parsonage were
then discussed and the two wardens,
assisted by Mr. Scott Parsons, were
appointed as a committee to look
into the matter and report to a
special meeting of the vestry.

The election of officers for the
ensuing year resulted as follows:
Clergyman's warden, Mr. Geo. F.
Cowan; people's warden, Mr. Jos.
Start; sidesmen, Mayor Gifford,
Lieut. R. D. Farley, Messrs. Scott
Parsons, Tom Riglar and E. A.
Sherman; auditor, Mr. John Macfar-
lane; delegates to St. Francis Dean-
ery, Mr. Chas. Nodding.

Heartly votes of thanks were
tendered the wardens, sidesmen, auditor,
Ladies' Guild, choir, organist and
Sunday school teachers for their
very valuable services rendered so
freely and willingly.

The Rev. P. R. Roy in his closing
remarks stated that the children's
Lenten offerings and the Easter of-
ferings to himself were the largest
on record. He thanked his parish-
ioners for their many deeds of kind-
ness and for their loyal co-operation
in every department of the church
work.

The meeting then closed with the
singing of a hymn, Miss Bea Cowans
presiding at the organ.

General Notes.
Miss Ethel Roy, of Coaticook, has
been spending the Easter holidays
with her father and brother at the
Parsonage.

Sgt. Phillip Roy arrived here last
Tuesday morning on the mail train.
He surprised everyone as he came
by way of Megantic, having come
up from Quebec the night before.
Sgt. Roy looks well and fit and it
may be said that he made good as
well as others Scotstown boys. He
went overseas with the 17th Regi-
ment and went to France as a private,
being drafted into the 5th C. M. R.
and remaining with this unit all
through the war. Sgt. Roy has been
in all the hard scraps with his regi-
ment and has won the D. C. M.

PART DALMATIA
TO BE OCCUPIED
BY ITALIAN ARMY

PARIS, April 25.—Italian military
forces will occupy that part of Dal-
matia and other Adriatic territory
named in the Treaty of London with
about one hundred thousand men, it
was said today by Captain Pozzi, of
Premier Orlando's staff. A similar
force, the captain added, would be
sent to the northern region and
around Fiume.

Premier Orlando's course in the
meantime, Captain Pozzi says, would
be to convolve Parliament in special
session and secure from that body
the passage of a measure providing
for the annexation of the Dalmatian
and other eastern Adriatic territory
given to Italy by the London agree-
ment, and also of Fiume.

Reports have been received, the
captain said, that a military demon-
stration by the Jugo-Slavs at Spala-
to was contemplated, in which event
the Italians would take proper coun-
ter measures.

IN MEMORIAM

In loving memory of William A. Devault, who died in the hospital in France, April 25, 1917.

As we gaze on the picture that hangs on the wall
Your smile and your welcome we always recall
We miss you and mourn you in silence un-
seen,
And dwell on the memories of days that have been.
We loved you in life, you are dear to us still.
But we must bend to God's Holy Will.

Those who knew you need never be told,
A kinder heart death never made cold,
For cheery ways and a smiling face,
None can fill our dear Willie's place.

RESPONSIBILITY OF WAR QUESTION NOT YET SETTLED

American Delegates Have Been Unable to Agree to Certain Portions of Report.

(Associated Press Despatch.)

PARIS, April 25.—It has become known that the American delegates have been unable to agree to certain portions of the report adopted by the majority of the Commission on responsibility for the war, and, as presented to the Council of Four, the report contains a memorandum setting forth the American reservation. They objected to the principle that persons accused of offences against "the laws of humanity" should be subjected to criminal prosecution, contending that the laws and principles of humanity constitute a standard too uncertain to be rightly applied in legal proceedings.

The principle that heads of states should be liable to criminal prosecution for breaches of positive law was another point in which they failed to agree with the majority. Their belief in this respect was that the essence of Sovereignty lies in the fact that the head of a state is responsible for his illegal acts to the people from whom he derives his authority, and not to any foreign Sovereignty.

This contention, however, was not held to apply in the case of a head of a state who has abdicated, for any proceedings against such a person would be against an individual no longer embodying the Sovereignty of a state, nor does it apply to political offences committed by the head of a state, which may, if deemed expedient be made the subject of judicial action and punishment.

Holding these views, the American delegates were, therefore, unable to concur in the recommendation for the establishment of a high tribunal and a prosecuting commission for the trial of criminal cases, as advocated by the committee. They proposed, instead, that an international committee of inquiry be created to consider the relative culpability of the author of the war as well as their culpability as to violations of the laws and customs of war, and that enemy persons accused of these latter offences should be tried by military tribunals or commissions already existing or to be created in different countries. Each of these tribunals would acquire jurisdiction when the offence was committed on the territory of the nation, or against its property or nationals. In the case of offences by the enemy affecting more than one country these national courts might unite to form one mixed tribunal.

UNITED STATES AMBASSADOR RESIGNS POST

The Italia Says Ambassador Page Resigned Because He Was Acquainted With President's Views on Italian Claims.

(Associated Press Despatch.)

ROME, April 25.—The Italia says that because he was acquainted with President Wilson's views on the Italian claims, Thomas Nelson Page, American Ambassador to Rome, offered his resignation.

In mid-February, some time after the visit of President Wilson to Rome, rumors were in circulation there that Ambassador Page was to resign. It was said at that time that Mr. Page had said he always expected to return to the United States when the war was ended. Early in April it was reported from Paris that the Ambassador had sent in his resignation, but there has been no official confirmation of the report. Mr. Page assumed his post at Rome in 1913.

APPEARS TO BE A QUIETING DOWN NOW IN GERMANY

Men are Resuming Work Notwithstanding the Appeals Made By Communists.

BERLIN, April 25.—Almost as suddenly as the recent strikes began here, there and everywhere, Germany appears to be quieting down again. The coal miners in the Ruhr district are returning to work in increasing numbers, and yesterday those in the Hunsrück and Moselle districts, as well as half a dozen other places, returned to the collieries.

The fact that the men are resuming work is remarkable, because the Communists at their more recent meetings have urged a continuation of the strike. Men who formerly heeded this appeal have rejected it almost unanimously.

A big factor in the situation has been the distribution of food, which has proved a special attraction to laboring men.

ITALY'S PREMIER MAKES ANSWER TO PRES. WILSON

Stress Laid on Question of Propriety of Any Attempt from Outside to Set Up Opposition By Italian People to Their Government.

(Associated Press Despatch)
PARIS, April 25.—In a statement given out by Premier Orlando in reply to President Wilson's appeal on the Adriatic question, stress was laid by the Italian Prime Minister on the question of the propriety of any attempt from the outside to set up opposition by the Italian people to their Government. As revealed by the full text of the Premier's statement, now available, after arguing that such an attempt would virtually mean the ignoring and denying of the high degree of civilization which the Italian people had attained under democratic government, the Premier added:

"To oppose, so to speak, the Italian Government and people, would be to admit that this great free nation could submit to the yoke of a will other than its own, and I shall be forced to protest vigorously against any such suppositions, unjustly offensive to my country."

In a subsequent part of his statement to the conferences which have been held in an effort to solve the territorial problems affecting Italy, during which, the Premier said, President Wilson had had the kindness to recognize "that truth and justice are the monopoly of no one person, and that all men are subject to error," Premier Orlando continued:

"And I mean that the error is all the easier as the problems to which the principles apply are the more complex. Humanity is such an immense thing that problems raised by the life of the people are so infinitely complex that nobody can believe that he has found in a determined number of proposals as simple and sure a way to solve them as if it were a question of determining the dimensions, the volume and the weight of bodies with various units of measure."

GENERAL CURRIE PAYS TRIBUTE TO 2ND DIVISION

Officers of Canadian Corps Were Entertained at Dinner in London Last Night.

(Associated Press Despatch)
LONDON, April 25.—(Reuter's)—The officers of the Second Canadian Division, which recently came from France, and is now at Witley Camp awaiting return to Canada, dined at the Savoy Hotel last night, and entertained, among other guests, Lieutenant General Sir Arthur Currie and Lieutenant General Sir Richard Turner. Major General Burstall, commanding the Second Division, presided, and read a letter from the Duke of Connaught expressing regret that it was impossible for him to attend the gathering as he was unable to be in London.

General Sir Julian Byng, who also wrote regretting his inability to be present, said that the plans laid by General Currie, with the assistance of his staff, had led the corps to one glorious success after another with a minimum of casualties. The corps, he wrote, had always gone forward confident that the plans of their commander could have only one result. It was their unanimous hope that the influence which General Currie had exercised during their service in the field would be available to mould the destinies of the present and future manhood of Canada.

Gen. Currie replying, said he had recently revisited the scenes of all the more important operations of the Canadian corps. He recalled details of some of the fighting in which they had participated, including that at Vimy, Ypres, Amiens, Cambrai and Arras, the breaking of the Hindenburg line and the capture of Mons. Now that the corps was about to break up he urged that all who had served in it should remember and continue to act upon its motto: "Thus in agreement seen victory together."

SHERBROOKE TO MONTREAL ROAD IS DISCUSSED

Only Two Municipalities Have Not Yet Passed Resolution—Townships Auto Club Meets.

That only two municipalities had not yet passed the resolution asking the Provincial Government for the money to build the Sherbrooke to Montreal highway, and that these had failed only because there had been no recent meetings of the councils, was the statement made at the meeting of the Townships Auto Club held last night, with Mr. C. G. Thompson, the president, in the chair. Both municipalities will hold meetings very shortly, and there seems no doubt that the beginning of the work may be made this summer, as has been proposed.

Nothing, however, can be done until these resolutions are in the hands of the Government, when a tour of inspection is promised, and the necessary machinery will be put in motion to have the road built as quickly as possible.

The Auto Club has been instrumental in getting these resolutions passed by the various councils, and the hope was expressed that automobile owners would back up their efforts by joining the organization. A membership committee was appointed last night, and car owners are requested to send in their applications to Mr. Maurice de Lottinville, the secretary, without necessitating canvass. The fee is two dollars per annum, and it is hoped that at least three hundred members will be received from the city of Sherbrooke, and two hundred from outlying territories throughout the Townships. It is also planned to form local committees, with a chairman for each, to co-operate with the club in obtaining better roads throughout the Eastern Townships.

The Club is prepared to lend its assistance to any locality, in any way possible, providing the locality will produce sufficient members to warrant aid, especially with regard to the proposed roads from Sherbrooke to Richmond, Danville and Asbestos, the Bolton Pass road, and the road from Sherbrooke via Cookshire, Bury and Gould, to connect with the Quebec and Jackman, Me., road in Beauce county. The Club is preparing to communicate with these towns with this end in view.

SEVERAL CASES FOR MAGISTRATE IN SWEETSBURG

Judge Mulvena Heard Interesting Cases in Court Yesterday.

Because the complainant, in taking out the search warrant in a liquor case which came up before the Sweetsburg Court yesterday, had not taken the correct proceedings under the Federal order-in-council, Judge Mulvena rendered a judgment based on the technicality, dismissing the charge against the accused. The case was one made by C. D. Griggs, Collector of Provincial Revenue, against C. L. Brown, of South Stukely, for being the recipient of twenty gallons of highwines shipped to him from Montreal by the Dominion Express Company.

The complainant based his charge on the Federal order-in-council of March 11, 1918, but took out the search warrant under the provincial law, and not in the method prescribed for in the order-in-council, which requires an affidavit before two justices of the peace. The Court held that this was illegal, and dismissed the case, quashing the seizure. Subsequently, however, a new charge was taken out under the Quebec License Act, and will be made returnable at once.

Used the Wrong Form
Brought before Judge Mulvena yesterday, a case of some interest devolved upon the arrest of William Farmer and Eugene Robert, both juveniles of Granby, who were being held in jail on a form issued by a justice of the peace. It appeared that the justice had used the wrong form, and that the boys were being held for an indefinite period, pending trials, instead of for a limited number of months. The Court declined to take the case, stating that it had no jurisdiction, and suggested that proceedings be taken on a writ of habeas corpus, before the

REQUESTED ALLIES TO NEGOTIATE ARMISTICE

(Associated Press Despatch)
BERLIN, April 25.—The Lokai I am.

Anzeiger's Vienna correspondent says the Hungarian Soviet Government, requested the Entente Mission through a Hungarian diplomat in Vienna to send delegates to Budapest to negotiate an armistice with the Rumanians.

"Colonel Cunningham, representing the Allies, after communicating with Paris," says the newspaper, "had the Hungarian Government informed that the Entente was ready to conclude an armistice, and immediately suspend the advance of its troops if the Soviet Government would abdicate and a new cabinet representative of all the Bourgeoisie parties was formed and all the decrees of the Soviet Government were withdrawn."
