PFEIFFER'S LAUNDRY WAS COMPLETELY WRECKED

By Disastrous Fire which Broke Out Shortly After One o'clock This Morning.

GOOD WORK WAS DONE BY THE FIREMEN.

Pfeiffer's steam laundry and dye works were completely wrecked by a disastrous blaze which broke out at about 1 o'clock this morning, and the splendid building and plant of this progressive firm is now a mass of ruins.

At 12:59 o'clock this morning an alarm was rung in from Box 74, corner of St. Valier and Blanchet streets, in St. Roch. This alarm proved to be a false one, and while a section of the brigade had proceeded to the scene, an alarm from Box 12 at 1:05 was sounded, quickly followed by a general call.

The latter alarm proved to be for a serious fire, and when the firemen arrived they found the laundry in the grasp of the fiery element. No time was lost by the firemen in tackling the blaze, and streams of water were playing upon the building in short order. There was a splendid pressure of water and the firemen did magnificent work, confining the flames to the building in which they broke out. The fire raged fiercely and threatened to assume much greater proportions than it finally did.

The close proximity of the fire to St. Patrick's Church, which is opposite, and St. Patrick's School, which is alongside, made the situation a serious one, and there was much commotion for a time over the possibility of the fire spreading.

However, the good work of the firemen had its effect and the blaze had no chance of spreading, being at all times well within their control. Prompt action among the fire-fighters was effective.

PORCUPINE DEATH LIST NUMBER 70

Relief Committee Wired Hon. Frank Cochrane to That Effect Yesterday.

Toronto, July 19.—Seventy evidently will be the total death list from the Porcupine fires. The relief committee to-day wired Hon. Frank Cochrane, Minister of Mines, as follows: "We are pleased to advise that the conditions are improving daily. Only a few incidents are occurring to mar increasing contentment of relatives for friends here. A large area is covered by prospectors, who are always secretive about their movements. As a result, it is impossible to secure quick information to wire friends."

"Search parties sent out by the relief committee, which has also organized dragging operations in the lake, have almost failed in adding to the known death list, which is now 62."

"The list may reach seventy known dead, and it may be that a few will not be located for many days. The camp is settled down to normal conditions."

"There is no destitution in the camp."

Deputy Chief "Jack" Walsh, whose experience and good work was a great strength in the battle with the flames. The flames raged until an early hour this morning, and the firemen had a hard night's work.

The fire appears to have broken out in the upper flat, and were noticed by some people passing in an automobile, who at once gave the alarm. The fire must have been burning for some time before discovered, as when the firemen arrived it had secured great headway.

The residents of the quiet street were apparently all in slumber when the firemen arrived, and in one of the adjoining houses it was found necessary to carry several people out in their night clothes, having been dazed or almost overcome by the smoke. For a time the appearances were very threatening, but the good work of the brigade, assisted by the plentiful water supply, made the conditions favorable, and what promised to be another disastrous conflagration was averted.

The loss of Mr. Pfeiffer will be very heavy. The laundry was one of the most modern in the Dominion and was equipped with all the latest machinery. There was no opportunity this morning of securing any idea as to what the loss would be or as to what insurance was carried.

A number of firemen were overcome by the dense smoke and had to be sent home.

At an early hour this morning the firemen were still pumping water on the ruins, the whole interior of the building being a total wreck.

"Everyone is sheltered, and conditions are assuming a most favorable aspect."

Railroad officials are carrying on an investigation into the probable cause of the fire. The commission has a big stake in valuable property in the north country and is interested in preventing bush fires.

Chairman Englehart has come to the conclusion that burning pieces of birch bark, carried by the wind, caused the different fires after the first one had been started, no doubt by some careless prospector. The burnt out district was not destroyed by one fire, but several, and Cochrane itself was blazing at different points at the same time, with clearings intervening.

The commission hastily urged to enlarge the fire zones around the various town sites, but this has been found impracticable.

Since the flames converted Golden City into a settlement of refugees, the Temiskaming and Northern Ontario Railway has confiscated every case of liquor that has come into the station. Some was handed out for medicinal purposes, the remainder lies securely in the jail under lock and key. This arbitrary proceeding has been more than justified by the lack of drunkenness and disorder on the streets. The regular schedule of trains has been resumed by the Temiskaming and Ontario Railway.

As a result of the dreadful experience in the Porcupine district it is proposed that the Provincial Government insist that every mine and every

ELECTIONS BEFORE REDISTRIBUTION

Fisher's Way of Taking the Census Badly Scored—Conservative Caucus To-day.

Special to the Chronicle.

Ottawa, July 19.—The confusion in which the census-taking is involved was demonstrated in the House to-day by Hon. Sydney Fisher, who declared that it would be impossible for the final count to be made known until October. This means that the elections will be held before redistribution. Mr. Fisher declared that the reports of wholesale omissions were wholly unfounded, and chided the public for not communicating with the Census Commissioners in the event of their being overlooked. The bottom was knocked out of Mr. Fisher's eulogy of the census enumerators when Mr. Borden arose and said that no one had called on him and he did not know if he was counted or not.

"I would like to know," Mr. Borden enquired, "if I am to have the honor of being included in the total of Canadian citizens."

The Opposition laughed heartily at the discomfiture of the Minister, who had been lauding the work of his department and praising the painstaking work of the employees.

Mr. Haughton Lennox (South Simcoe) declared that no enumerator had called upon him. John Herron, of MacLeod, declared there were whole districts in his riding neglected by enumerators and the farcical side of the Fisher census-taking became apparent.

The coal strike in Southern Alberta and Crow's Nest Pass fields with the failure of the Department of Labor to cope with the situation even with the much-lauded Lemieux act at its back was the subject of extended debate in the House to-day.

Mr. MacKenzie King came in for a severe mauling at the hands of the Opposition and was plainly told that instead of perambulating about the country making speeches in favor of reciprocity he should have devoted his energy to effecting a settlement in order that there might be no coal famine in the prairie provinces this coming winter.

Mr. Gordon, of Nipissing, who has just returned from the scene of the Porcupine disaster, asked for substantial aid in cash to help the sufferers. He pointed out the precedent in the Campbelltown fire.

Mr. Arthur, of Parry Sound, supported the demand, declaring that many of the towns swept by fire were not in a position to help themselves, and settlement would be retarded by the high rate of taxation necessary to enable them to get on their feet again.

Mr. Arthur pointed out that the government jumped to the aid of San Francisco during the time of the earthquake and that was in a foreign country. Canada should also look after her own.

Mr. Fielding replied that the question was receiving every consideration.

The reciprocity debate was resumed to-night by Mr. Wilson Lennox (Addington). It is the evident intention of the government to make a final attempt to force the Opposition to swallow reciprocity before the appeal to the country. The Conservatives meet in caucus to-morrow, but their stand against the agreement is unalterable.

CANADIANS DOING WELL AT BISLEY.

Bisley, Eng., July 19.—Private Clifford, Canadian, won first prize in the Prince of Wales' competition at today's shooting with a score of 81 out of a possible 85.

The trophy was the National Rifle Association's badge and \$500.

The conditions were seven shots at 300 yards and ten shots at 600 yards.

WILL DESPATCH ITS TRAINS BY TELEPHONE.

Toronto, July 19.—It was announced to the Globe to-night by W. W. Ashald, superintendent of Grand Trunk Telegraphs, Montreal, that the company would adopt in the near future the despatching of trains by telephone all over its entire system, displacing the telegraph for this purpose. The company has had two telephone circuits in operation during the past 18 months, and these have given entire satisfaction.

The entire system of the railway totals about 4,700 miles, and the telephone despatching department will include 32 circuits. The same number of operatives will be required as in the present telegraph service. Mr. Ashald said that the telephone system was much superior to the telegraph and in flexibility of operation it was considered much safer.

A rough estimate of the cost of installing the system and placing it in operation is \$105 a mile. This will bring the entire cost of installation of the system to around \$500,000.

prospectors should provide the equivalent of a cyclone cellar, consisting of a tunnel in the ground covered with clay, in which a bucket of water would always be provided and plenty of ventilation afforded. Its practicability as a place of refuge was proven at the Foley-O'Brien Mine, where six men sheltered when the air was all on fire around them.

It would be of utmost benefit in many ways. Men would be emboldened to fight fire to the last moment if they knew they had a safe place of retreat.

Ladies' Tailoring

Ladies' New Long-Cord Handbags A Brilliant Showing of Parisian Novelties

WE have just received, direct from Europe, a special importation of the new long-cord Handbags, which are so popular this season with the women of Paris. These goods are all exclusive with us. The designs are beautiful in the extreme. Some are in Morocco, and various other leathers, while others are in Moire with rich gold braid. These Handbags are the finest and most beautiful we have ever shown. We feel sure you will be charmed with this magnificent display. The prices are not extravagant, either. Some are as low as \$3.00—others are priced at \$4.00, \$6.00, and \$8.00—while the more elaborate, and intricate, styles represent truly remarkable value at the prices, \$12.00, \$16.00 and \$20.00. Those who come first will secure the best choice. We would strongly advise an early selection. Every woman who sees the beautiful window display of these goods, in our Big Window No. 3, will not rest until she is the happy possessor of one of these ultra-fashionable Bags.

Clearing Our Ladies' Summer Parasols

ALREADY we have cleared a good part of the stock of Dainty Summer Parasols. There are still a few left—and these will go on Thursday. The season is now at its height. Plenty of hot weather still to look forward to. Don't wait too long. Better come Thursday morning.

THE SITUATION IN VANCOUVER

No Truth In Alarmist Reports Regarding the Bursted Boom in Pacific Town.

Vancouver, B. C., July 19.—Mr. R. P. of the Province Newspaper, who, because of his opportunity to see the long residence in Vancouver is able to give a clear view of actual conditions in this city, wires the following statement for the benefit of Western investors and others who are interested in Vancouver:

"What I wish to say is in reply to articles recently published in the Toronto World, the Brantford Express, the Ottawa Journal and other papers to the effect that the 'boom has busted' in Vancouver, and that there are fifteen thousand idle people looking for work."

"I have made an examination on several afternoons through the downtown district and I doubt if there are five hundred people idle. In any case there is a waterside floating population of sailors and loggers, but there are no more in Vancouver now than in any recent years."

"Every one knows that sub-contractors for the construction of the Canadian Northern Railway through the Fraser Canyon for 150 miles have just been awarded. Contractors are scouring the coast for labor. Vancouver is their headquarters. Only a few hundred men can be got here. So few that the contractors have asked the Board of Trade to petition the Dominion Government for permission to let down the immigration bars so that several thousand men may be brought in from the United States."

"The real estate market is as quiet as it is every summer and not more so. People don't enjoy speculating in hot Vancouver weather any more than they do in hot Toronto weather. I have failed to find any single instance of persons being closed out of property, because they could not make good on second payments."

"The entire Canadian coast trade centres here. Railway development is bringing millions in, and American capitalists are buying up coast timber and Vancouver real estate. I know of actual investments fully closed in the last month in Vancouver and Victoria of two and a half million dollars from visitors from Paris alone."

"A party of French investors is here now arranging an agency to invest five or six million dollars in mortgages."

TREATY BETWEEN BRITAIN AND U.S.

Ratified by the American Senate in Executive Session Yesterday.

Washington, July 19.—The treaty between the United States and Great Britain providing for the arbitration of pecuniary claims between the two countries in accordance with the general arbitration treaty, was ratified by the Senate in executive session to-day.

The treaty provides that with four months either of the Governments may submit to the other any claims which it desires shall be passed upon, the only condition being that the claims shall be grouped. All claims not submitted within the time specified are to be barred.

A tribunal of three members, one of whom is to be chosen by the United States, another by Great Britain and the third by the first two, is provided for. It is to sit in Washington.

With the treaty there was submitted a long list of shipping claims against the British Government and a much shorter list against this Government consisting in the main of Canadian demands for the refund of hay duty.

Many of the claims are of long standing. The treaty was not acted upon by the committee on foreign relations until to-day and was ratified as soon as reported, an unusual proceeding.

MGR. STANGI ARRIVED AT HALIFAX.

Halifax, N. S., July 19.—The steamer Rosalind arrived this morning at Sydney from Montreal en route to St. John's, Newfoundland. Among the passengers on board bound to St. John's is Mgr. Stangi, the Papal delegate, who will officiate at the ceremony of the consecration of Bishop Power of St. John's. Mgr. Stangi was met on his arrival at Sydney by prominent members of the Catholic congregation. The Rosalind sailed to-night for St. John's.

ANTIQUES

During the Summer months we offer many inducements to antiquarians to secure valuable antiques.

Many of these old curios have been sent to us by citizens for disposal.

We have Antique Silver,
Antique Watches,
Antique Clocks,
Antique Jewellery,
Antique Paintings.

In Paintings there is a beautiful work (Fruit) by Jacob Vanesse A.D. 1600—1650.

Pastoral Scene by Albert Cuyss 1620—1691.

Two Water Colors (Dutch Vessels), by J. B. Hardy.

A fine engraving entitled Venus attired by the Graces. This work is by Kaufmann, and the engraving by Bartolozzi.

A valuable set of seed pearl jewellery consisting of necklet, conoret and earrings.

Among the noticeable old-timers is a huge watch with repeating and alarm attachments. This watch is about 12 inches in circumference and weighs 2 lbs. 2 oz.

Another interesting article is a blood stone cameo engraved on both sides, a very rare work.

Sterling Silver Fish Slice, London, 1776.

Sterling Silver Shaving Brush, London, 1807.

Visitors are cordially invited to inspect our stock of Precious Stones, Fine Bronzes and Curios.

16 Fabrique Street, Quebec

The Quebec Chronicle

QUEBEC, THURSDAY, JULY 20.

THE QUEBEC BRIDGE.

In another column will be found an article by Mr. Chalifour on the Quebec Bridge "as it ought to be." Mr. Chalifour points out among other things that in the accepted design the bridge is not properly balanced, that the anchoring span needs to be extended to counterbalance the half-central one by its weight, the lattice bars will bend through lack of support while the unceasing vibration will have effect on the rivets. He therefore advocates additional bars to support them in the center. Again he argues that the narrowness of the bridge in the accepted design will render it more liable to oscillation than a wider one. He accordingly suggests that it be widened from 88 feet to 105 feet 6 inches to accommodate two railway lines, a carway and a driveway as originally proposed. The alterations which this would entail would, he contends, add to the stability of the bridge and would be largely in the nature of additions which would not conflict with the general outlines of the plans adopted. It would not only give a solid bridge, but one that would fill all our requirements.

GREATER QUEBEC.

While Quebec has been extended on the St. Charles side there remains a large banlieu on the west which in the natural course of events will some day be part and parcel of the city. Everyone admits that sooner or later these outlying suburbs will be annexed. Why should this not happen now in order to prepare for the future?

Why, people are asking, should we wait for the bridge to be finished and the trans-continental trains running into Quebec before putting the city in a position to obtain all the advantages coming from these great enterprises about to be performed?

Even at this juncture the Trans-continental Commission is employing hundreds of men to clear and level the ground for the site of its immense shops at the entry of the bridge. Before long this spot should be a great center of activity and that part of the hill will soon lose its rustic appearance to become a suburb of Quebec. The bridge itself should form part of it to keep its name, and it is planned to annex all along the line of the Transcontinental from the city limits to the mouth of the bridge.

Such an annexation should include not only Montcalmville but Sillery.

It is certain that the completion of the Transcontinental will make the strip along the St. Lawrence more sought as a centre for industries, and the taxpayers of these parishes know that the moment their possessions become the property of the city they will double and perhaps treble their value, while to-day they are undervalued as rural properties. Where country land is sold by the acre in the cities land is sold by the foot.

The usual argument advanced against this annexation is the theory that residence in the city means higher taxes. On the contrary if these parishes were to come in now they would enjoy the status quo for ten or fifteen years while during all that time they would enjoy all the advantages that would be brought about by coming into the city.

THE CHOLERA SITUATION.

It is suspected that the four men detained in quarantine at Grosse Isle are cholera cases and while there is no need to be panicky about it, it is well to know that the officials here are informed as to conditions in Europe and New York. In the latter place the situation is somewhat serious.

The sixth death from the disease has occurred among passengers of the steamer Moltke, which arrived at that city a fortnight ago. There were fifteen cases under the care of the quarantine officials at Swinburne Island a few days past. Three persons suspected of being infected with it who were taken from a steamship that arrived from Naples, Saturday, are reported to be convalescing. These cases are among immigrants arriving at New York. Patrick Cushing, watchman at Hoffman Island, contracted it, however, dying a week ago last Saturday. His family and another family occupying the same house have been closely watched but no symptoms of the disease have developed.

Cholera is sweeping through Italy, Naples being one of the places most afflicted. It is reported that 2300 deaths from it have occurred at Palermo, Sicily, an average of thirty per day. It is also said that it has made its appearance in Tuscany, near Fiens.

The state of affairs in that country is very serious. It does not necessarily follow that there need be any general apprehension on this side, however. It is asserted that the dis-

ease is not carried in the clothing like a number of other contagious maladies and can be contracted only through food and water. Conditions on this continent do not favor its spread.

The greatest danger is that it will develop among immigrants arriving here who are allowed to leave the quarantine stations at various ports and go to other cities. The Auburn case was one of this kind. No others have been reported there, however, and there seems to be no likelihood that any will be as the result from that particular instance.

There is no need of urging that every precaution be taken at ports where immigrants land. The authorities are maintaining the most vigilant watch.

FOREST FIRES.

While the heat undoubtedly contributes to the vast losses by forest fires it is the dry debris on the ground that provides the great fuel for them.

In a report on the subject issued by the Department of Agriculture at Washington five necessary measures for the protection of the forest are given, as follows:

The disposal of slash from logging operations.

The development of roads, trails and fire lines.

The establishment of lookout stations and telephone lines.

The organization of a protective supervisory and fire-fighting force.

The control of insects which kill trees and cause an accumulation of dead, inflammable timber.

It is, of course, to the interests of lumbermen to provide against these disastrous fires, and many of them are paying much more attention to the subject nowadays. But to carry out even the first of these measures properly would more than eat up all the profits of lumbering. Limit-holders, however, should co-operate with the government to save our timber which is not nearly so inexhaustible as was supposed only a few years ago. The report of the Department of the Interior declares that the forest fires that are occurring are due rather to the lack of enforcement of existing laws than to the absence of regulations. In order to be enforced properly these laws must have the support of the people behind them for without it Legislatures will not vote the generous sums necessary for carrying on the work.

It is also pointed out that reforestation has its limits and that it cannot undo the work of a disastrous fire. Not only are the standing trees destroyed but the soil is often rendered permanently unfit for growing another forest for the reason that the humus in the ground is consumed. Even in cases where the soil is not spoiled for a second growth it is generally found that the forest succeeding a burned pine or spruce district is made up of inferior varieties of trees on account of the fact that aspen, poplar, birch and jack pine produce more seeds than white pine and scatter over a wider area.

FIGHTING TUBERCULOSIS.

The recent report of the British Commission, which made an inquiry as to whether bovine tuberculosis can be transmitted to humans, apparently confirming a hypothesis held for some years by the most advanced bacteriologists, seems to intimate that the danger from the use of milk, butter and cheese produced from cows affected with the disease is very great. The men who conducted the investigation have been able to differentiate the bacilli of human and bovine tuberculosis and have found children and adults as well suffering from the latter.

Dr. Robert Koch, the German scientist who discovered the specific germ of consumption, held that the bacilli from cattle could not be transmitted. There has been an advance since then and the case is pretty well proven. It seems to make necessary the Pasteurization of all milk and dairy products from herds not proven to be immune.

Dr. Koch held that if milk could carry the disease to humans it would be demonstrated by the greater prevalence of intestinal consumption. This is now shown to be the case, but, after all, the number of cases is comparatively small while the wiping out of the disease among dairy cattle is really a monumental task.

There is one view of the matter that has not been sufficiently emphasized in the zeal for new specific discoveries. Theoretically we are all exposed hundreds of times a day to the countless millions of germs floating in the air, lodged in all public places of amusement or in the very food that we eat. Yet only a few persons are infected and fewer yet succumb to the onslaught of the germ. As a rule only persons of weakened vitality or physical resources are seized. It is impossible, for instance, under present sanitary regulations to avoid the plague. This argues that the best way to combat

it is to build up bodily strength, to see that children become vigorous through nourishing food, regular exercise and outdoor life. The battle is for such vigor that the parasite can make no headway if once lodged in the body. It is even possible that too much emphasis is given to theoretical considerations and possibilities of infection while too little is made of the advisability of resistance.

THE INFUX OF BRITISH CAPITAL.

The Monetary Times has an interesting article showing the tremendous increase in the investment of British capital in Canada during the past six or seven years. The table deals only with Canadian borrowings in Great Britain for industrial, light and power purposes, and does not include railway, mining and other large development works. In the three lines mentioned the amount of British capital invested in Canada increased from \$5,000,000 in 1905 to over \$15,000,000 in 1910, while for the first four months of the present year it amounted to about \$12,000,000. The exact figures are given in each case and only include amounts running into six figures. The grand total reaches the amazing sum of considerably over \$65,000,000 for the period mentioned.

In addition to the above the probability of many large investments in the near future is mooted, including over \$16,000,000 to be expended in dry dock schemes on both the Atlantic and Pacific coasts. It is stated that \$1,000,000 of English capital will be invested in a underwear company with a factory at Three Rivers, and an English and New Brunswick syndicate has been organized with a capital of \$5,000,000 to develop the mineral oil industry in connection with the shale deposits in that province.

SUFFRAGISTS.

The woman suffrage movement to a large extent represents a restlessness brought about by conditions through which many women have an abundance of leisure and very little connection with the home. There are, however, still a great many ladies who are not impressed with the idea that the ideals for women's future are to be found in an imitation of men. There are still many cultured, intelligent women who feel that any tendencies which diminish woman's interest in children, in personal supervision of them, in her home and in private peace as opposed to public excitement, are tendencies towards degeneration. Such women have only regret for the woman's rights woman who takes pride in acquiring publicity through becoming a restless fadist.

Political economists are disposed to consider consumers of tobacco as "wasters" who divert the revenue of the state into forbidden channels. This assertion is not entirely accurate. A wealthy Montreal tobacco manufacturer, Sir William MacDonald, has recently donated his tenth million to McGill University. Without the co-operation of the consumers this magnificent endowment would not have been given, and the cause of higher education retarded to that extent. The smoke from ten thousand pipes may unconsciously prove incense in honor of a worthy cause.

TORONTO PROVISION MARKET.

NOTICE

Is hereby given that the Pier at the mouth of Cap Rouge River is submerged as well as the other deep water Pier that was there up to last winter at the end of the long wharf. The position of the pier at the mouth of the Cap Rouge River is as heretofore shown by a flat buoy by day and a white light by night, and the position of the deep water pier recently taken at the end of the long wharf is in a straight line with the said flat buoy and about 600 feet to the west of Cap Rouge Wharf and Pier Co.

Shipping News

FAST PASSAGE OF ROYAL GEORGE

Almost a Record by Cape Race
 Route—Empress of Ireland
 Due This Afternoon.

The C. N. R. Co.'s steamer Royal George, Capt. Harrison, arrived in port at 4 a.m. yesterday, after a fast passage from Bristol, which she left at 10 p.m. on the 12th instant, via Cape Race. Her time from Nash Point to Father Point was five days and twenty-three hours. The Royal George brought out 120 first, 273 second and 549 third class passengers, besides a general cargo. Among her saloon passengers were Lieut. Col. Sam Hughes, M. P., and Mr. G. H. Shaw, general traffic manager of the C. N. R. There were also on board 53 Canadian boy scouts, in charge of Capt. R. S. Wilson, returning from the Coronation. The boys were delighted with their trip and the splendid treatment they received in the Old Country. An American detective named Burns, who had been in England looking for two men accused of dynamiting the Los Angeles Times Building, was also a passenger. He is accused of kidnapping one McNamara, in Indianapolis, and he is hurrying to that place to save a bail bond of \$10,000. After landing passengers and Quebec goods, the Royal George left for Montreal at 8:45 p.m.

ALLAN LINE.
 Str. Lake Erie, Capt. Kendall, from Quebec, arrived at Havre yesterday.

Str. Corsican, Capt. Cook, from Liverpool, was 65 miles east of Point Amour at 12:40 p.m. yesterday. Due here to-morrow morning.

C. P. R. LINE.
 Str. Lake Champlain, Lieut. Webster, R. N. R., from Quebec, arrived at Liverpool at 11:30 a.m. instant.

R. M. S. Empress of Ireland, Lieut. Forster, R. N. R., from Liverpool, was 66 miles east of Heath Point at 11:15 a.m. yesterday. Due here at 3 p.m. today.

MANCHESTER LINE.
 Str. Manchester Spinner, Captain Payne, from Quebec, arrived at Manchester on the 17th instant.

Str. Manchester Commerce, Capt. Couch, from Quebec, arrived at Manchester on the 18th instant.

QUEBEC STEAMSHIP CO.
 Str. Parima arrived at New York from West Indies at 3:30 p.m. last Tuesday.

Str. Bermudian sailed from New York for Bermuda at 3 p.m. yesterday.

WHITE STAR-DOMINION LINE.
 Str. Teutonic was reported 123 miles northeast of Belle Isle at 4 p.m. on the 19th instant, and is due in port on Friday afternoon.

FREIGHTS AND CHARTERS.
 New York, July 19.—Chartering was limited, rates steady and only a moderate demand prevailing for tonnage.

Quotations to Liverpool, London, Glasgow and Hull, 194d; Rotterdam, 34c; Hamburg and Bremen, 30 pence; Britsol, 2d; Antwerp, 14d; Cork for orders, 2s 19d; picked ports, large tonnage, 1s 9d; cotton to Liverpool, per 100 lbs., 15c.

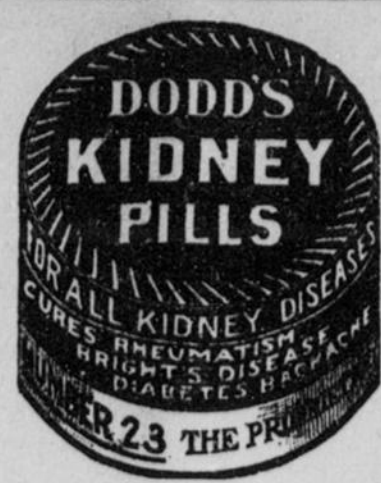

Charters—British steamer, 2,870 tons, general cargo, hence to South African ports, berthed, September; British steamer, 1,804 tons, deals, Gaspé to Manchester, 42s 6d, prompt; German steamer, 1,922 tons, coal and general cargo, Philadelphia to Porto Padre and Havana, private terms, prompt; schooner, 1,212 tons, coal, Philadelphia to New Orleans, \$1.75, terms; schooner, 1,564 tons, coal, thence Mobile to Boston, ties, 21c; schooner, 1,054 tons, ties, Fernandina to Boston, 164c; schooner, 790 tons, lumber, Jacksonville to Philadelphia, \$4.50, option Sound, \$5; schooner, 337 tons, fertilizer, Reedville, Va., to Savannah, and back to Mystic, Conn., lumber, private terms; schooner, 718 tons, coal, Baltimore to Boston, private terms; schooner, 2,624 tons, same; schooner, 440 tons, coal, Newport News to Eastport, \$1.

CUNARD LINE.
 Str. Ascania, Capt. Irvine, from London, with passengers and general cargo, was 60 miles east of Fame Point at 10:45 a.m. yesterday. Due in port this afternoon.

NOTES.
 Str. Norhilda, Capt. Cook, with a cargo of scrap iron from the old Quebec bridge, left port for Sydney yesterday.

Str. Hero for Montreal from Pictou, Batiscan, Borgestad and Wacousta for Sydney; Galveston for Lower St. Lawrence, passed here yesterday.

Str. Savoy, Capt. Pelletier, from

Anticosti, with passengers, arrived here yesterday morning and moored in the Louise Basin.

The quarantine steamer Pehon was placed at the gates of the Graving Dock yesterday by G. T. Davis & Son to undergo repairs.

Tug Chieftain arrived from Garden Island yesterday with a raft for the Calvin Co. in tow.

NEUTRALITY.
 In a discussion of Sir Wilfrid's "autonomy-neutrality" scheme the London Spectator recently remarked that it would be impossible for one of the Dominions to say to a power with which Britain was at war that it did not approve of the act of the Mother Country and therefore it would stand out. The foreign power would, of course, refuse to draw any distinctions of that kind. It would be certain to say, "So long as you remain part of the British Empire you are at war with us. Your only way of escaping the consequences is to secede from the British Empire and declare yourself an independent state. If you are willing to do that, we will recognize your independence, but if you do not do that, we must treat you as enemies." It is because he realizes this that Sir Joseph Ward asks for some kind of closer Imperial co-operation in which the people of the Dominions would have the power to influence foreign policy and control the fighting services of the Empire.

HOTEL GRENOBLE

56th St. & 7th Ave.
 Opposite Carnegie Hall,
 NEW YORK CITY.

Located within two blocks of beautiful Central Park and in the city's most refined residential district, this exclusive family and transient hotel offers more in real living and comfort than many hotels whose accommodations are much more expensive. The hotel is within a few blocks of the theatres and shops and is only 8 minutes' ride from the Grand Central and Pennsylvania R. R. stations. There is no more ideal stopping place for ladies travelling alone.

The Restaurant, Cafe and Grill are of the finest in the city and are noted for the excellence of their cuisine and service. Well trained servants render unobtrusive and perfect service throughout the hotel.

Room with use of bath,
 \$1.00 PER DAY AND UP
 Room with private bath,

City of Quebec,
 District of Quebec.

BY-LAW No. 3A

To Amend By-law No. 3, Concerning Markets and Private Stalls in the City of Quebec.

At a meeting of the City Council of Quebec, held in the City Hall of that city, on the ninth of June, 1911, the following By-law was read for the first time:

It is ordered and enacted by the Municipal Council of the City of Quebec, and the said Council hereby ordains and enacts as follows:

1. Article 38 of By-law No. 3, passed by this Council on the 18th of April, 1911, is hereby repealed and replaced by the following:

(38) If the divers articles above enumerated, instead of being placed in boxes, chests, baskets, or bags, are contained in a vehicle on the markets where vehicles are allowed to stand, the following tax shall be paid for the said articles: A tax of ten cents for each one horse vehicle, and of twenty cents for each two horse vehicle.

PUBLIC NOTICE
 Is hereby given that in virtue of section 30 of the statute 29 Vict., chap. 57, as amended by section 11 of the statute 31 Vict., chap. 33, and of section 8 of the statute 39 Vict., chap. 51, and their amendments, the above by-law will be read a second time for adoption on Friday, the 23rd day of June instant, 1911.

By order,
 H. J. B. CHOUINARD,
 City Clerk.

THE QUEBEC BRIDGE

What It Ought To Be

My careful examination of the above plan has led me to some conclusions which I have decided to make known in the interest of Quebec. Here they are in a few words as possible.

10.—This bridge is not properly balanced.

The anchoring span, shorter than the half central one, needs to be extended long enough to counterbalance same by its own weight.

20.—The lattice bars numbered 1, 2, 3, 4, 5, 6 and 7, being from 150 to 175 feet long and without any other support than those at their two ends, will surely bend in the direction of the arrows of the plan.

Moreover, the almost unceasing vibration of those enormous riveted members will be fatal to their rivets.

In order to obviate that double defect, it is absolutely necessary to bring into play additional bars supporting them in their centre.

30.—Owing to its narrowness, that bridge will be more subject to oscillations than a wider one, and for the same reason, two of the four tracks ought to have been suppressed.

Let it be widened as much as allowed by the piers. From eighty-eight feet according to the adopted plan, let its width be one hundred and five feet and six inches as shown on the small sketch where may be seen, side by side, two railway engines, one tramway car and a horse wagon.

Apart from what first advantage is to be derived, for the circulation, from the widening of the bridge, we will thus secure the possibility of establishing a central truss which, when connected with the side ones, will improve in a great measure the stability of the bridge by lessening the oscillations which are so objectionable in such heavy structures, these oscillations being equivalent to the addition of a load to that of the bridge itself.

In order to further decrease the bad results of oscillations, two large struts from the pier to the floor of the bridge each one starting at 15 feet from the foot of the outside vertical post on each pier, may be added to said vertical frames which rest on piers.

Thirty feet would therefore be added to the width of the iron structure on the top of each pier.

By the same way, the weight, on the

pier, of that gigantic iron structure will be also better distributed, by its having seven bearing points instead of only two, and will also better the conditions of resistance of the piers.

It is to be observed that the changes which I propose are simply additions that can be made without altering the outlines of the adopted project.

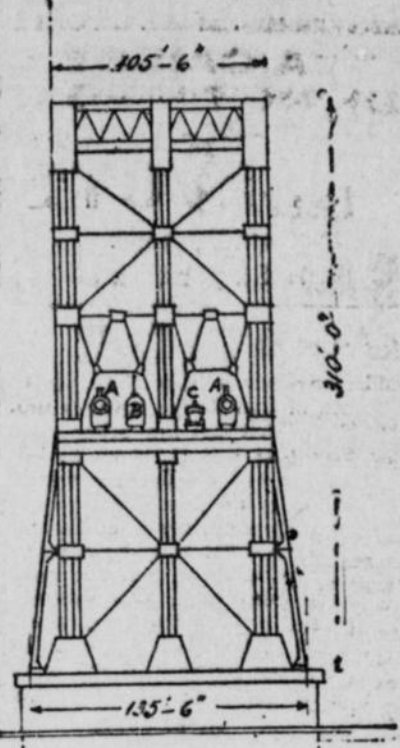

I do not advocate the substitution of a new type of bridge. I utilize the proposed plan by improving it, and I do improve it by adding metal where needed.

I am so convinced of the good of my suggestions, that I do hereby insist on having all interested parties well aware of them; they may be of some use one of these days.

It is indeed owing to such changes, as easy to be executed as they are necessary, that we may secure not only a perfectly solid bridge, but one that will answer our full requirements, the bridge we need, after all.

Should it be objected that such changes will considerably increase the cost of the enterprise, I would have every one observe that it is a good way of using money to spend three millions of dollars to save twelve millions.

TUNNEL UNDER RIVER SUGGESTED

Scheme on Foot in Montreal For Better Communication With South Shore.

Montreal, July 19.—A new project is reported to be on foot for the construction of a tunnel under the St. Lawrence in order to give better communication between the city and the rapidly growing district on the south shore, including St. Lambert, Brooklyn Park, Montreal South and Longueuil. In this district some lands have been purchased while options have been obtained on others by Montreal Street Railway Company interests and also, it is said, by the Canadian Northern Railway Company.

The Montreal Street Railway Company has for a long time had the ambition to extend its service across to the other side of the river.

It is also reported that the Delaware and Hudson, which has long looked forward to the time when it would have an entrance of its own into this city instead of over the Grand Trunk tracks, has been purchasing land on both sides of the Grand Trunk tracks near St. Lambert.

The Harbor Commissioners are not opposed to the construction of a tunnel under the river so long as the engineers will guarantee that it will not prejudice the navigation of the channel.

If the tunnel is constructed, work will be commenced at a date earlier than it was intended to construct the bridge, some part of the financial cost being guaranteed by the different companies interested.

Among those mentioned as interested in the scheme are Senator J. M. Wilson, W. G. Ross, Duncan McDonald and H. A. Dorsey, and a meeting for organization has been called for Friday next in the office of Mr. J. L. Perron, K.C.

It has been proposed that the Montreal and Central Terminal Company should construct a tunnel to the south shore, and a route map of the company's plans has been filed at Ottawa, but no scheme has yet been sanctioned.

Mr. G. W. Stephens, president of the Harbor Commission, states that no very definite proposition has yet been made to the Harbor Board in relation to the project.

STEAMER SUNK IN MONTREAL HARBOR.

Montreal, July 19.—Late last evening from no apparent reason the steamer Glengarry, belonging to the R. A. Richardson Forwarding Company of Kingston, slowly settled and sank to the bottom of the Wellington Basin.

Fortunately the crew had time to take all their belongings from the vessel which disappeared beneath the water an hour after she was noticed to be sinking.

The Glengarry had been lying up in the Wellington Basin all winter and so far this year had not made any trips, but after an overhauling was to have gone back to her old route carrying grain and coal between Montreal and the Upper Lakes as

Scotch and Canadian Bricks Cement, Plaster, Lime, Wheelbarrows Drain and Soil Pipe, Wall Ties Contractors' and Plumbers' Supplies

U. F. DROUIN & CO.,

161 and 180 St. Paul Street
Phone 3431.

soon as the shipping of this year's grain was commenced.

A tug of the Sincennes McNaughton Company is working over the Glengarry, which, having sunk in the basin where it had been moored all winter, is no obstacle to regular canal traffic.

It is expected that she will be raised shortly.

SHOEMAKERS' GARDEN CITY.

There was a most interesting demonstration on Saturday at Old Humberstone, a village near Leicester, where a garden city has been established by Leicester shoe operatives. An estate of 48 acres was bought by the Leicester Anchor Tenants, Limited in connection with a boot co-operative industrial society, and this has been transformed into a delightful garden suburb.

Already 70 beautifully designed houses have been built on the site. They have from 300 yards to 1000 yards of garden attached and many more are in course of erection. An institute and a chapel have been built. There are also a recreation ground for the children, a skittle-alley, a bowling-green and other facilities for recreation. A choral society, a debating society and a medical aid society have been established.

The estate is beautifully situated. The rents vary from six shillings to ten shillings a week. The rent includes all charges such as rates.

The society has its own architect and works manager, and employs all the carpenters and other workmen direct.

Colonel Yate, M.P., Alderman Vincent, Mayor of Leicester, and Mr. Henry Vivian congratulated the members on the wonderful results they had already achieved.

An Ideal Hair Tonic

Parisian Sage is compounded on the most advanced scientific principles and nothing on the market today can compare with it. It accomplishes so much more than the ordinary tonics and does it so quickly that users are astonished.

Parisian Sage kills the dandruff germs and eradicates dandruff, stops falling hair, itching of the scalp and splitting hairs in two weeks or Henry Willis will refund your money.

Parisian Sage gives a fascinating lustre to women's hair and makes it beautiful. It makes the hair grow luxuriantly; it is the daintiest and most refreshing hair dressing that science has produced and has not a particle of grease or stickiness in it. Parisian Sage costs 50 cents at all druggists and dealers. The girl with the Auburn Hair is on every package.

MONTREAL SPLIT WITH BUFFALO

Lost the First Game, but Succeeded in Winning Second One Yesterday.

Montreal, July 19.—Montreal and Buffalo split a double-header here this afternoon, the visitors taking the first 5 to 4, and the Royals the second, 2 to 0. Montreal started out well in the first game and scored four times in the first three innings. Corridon, who replaced Malarkey, tightened up, however, and held them scoreless, giving them but two hits in the remaining six stanzas. In the meanwhile the Bisons landed on Burke hard and drove him from the box in the sixth. Burchell succeeded him and was taken out to make room for a pinch hitter, Carroll finishing the game and allowing no further scoring. The Bisons, however, had made enough off Burke and Burchell to pull out a win.

Montreal batted Brennan hard in the second game, making ten hits, but getting only two runs. Barberich had a good day and held the Bisons scoreless, allowing but four hits. Gandil hit for a homer in the first game and Hanford duplicated the stunt in the second. Scores:—

GOOD RACING AT WINDSOR TRACK

Two Feature Events in a Lengthy Programme Yesterday Afternoon.

Windsor, Ont., July 19.—The Windsor Jockey Club offered its patrons an eight race programme this afternoon, the features of which were the Ponchartrian selling stakes, a steeplechase over the two mile course, and a selling handicap at one mile.

The Ponchartrian proved a stirring test, the winner turning up in Follie Levy, a recent arrival from Latonia. Hildreth started two in this race, Cohort and Royal Meteor, and the pair were made favorite and heavily backed. In the early running Cohort went to the front and showed the way until well into the home stretch where there was a general closing. At the end Follie Levy came with a rush and won going away by a scant length from Rogon, who got up in time to beat the tiring Cohort out a head for the place. Royal Meteor, the other Hildreth entry, got caught in a jam at the turn into the back stretch and went to his knees. Expansionist, winner of the steeplechase, was barred in the betting. The bookmakers paid off on Waterway first, Octopus second and Dr. Koch third. Waterway broke down during the running of the race and pulled up very lame. The selling handicap went to Busy, who came from behind in the home stretch and beat Col. Ashmeade out a length. The weather was threatening, but the rain held off until after the running of the last race.

Summary.

1st race, purse \$400, 2-year-olds and up, 5 furlongs—Reine Margot won; Mary Emily, 2nd; Commoner Touch, 3rd. Time, 1:01 4-5. Lady McGee, Day May, Rod and Gun, Dipper, Auto Maid, Flail, California Queen also ran.

2nd race, purse, \$500, 4-year-olds and up, selling, steeplechase, about 2 miles—Expansionist, won; Waterway, 2nd; Octopus, 3rd. Time, 4:27 3-5. Dr. Koch, Lizzie Flat, Dr. Heard, Osage and Jack Dennerlin also ran.

3rd race, purse \$500, selling, handicap, 2-year-olds and up, mile—Busy, won; Col. Ashmeade, 2nd; Spell Bound, 3rd. Time, 1:39 4-5. Oakhurst, Roman Wing and Montcalm also ran.

4th race, Ponchartrian stakes, purse \$1,200, 3-year-olds and up, selling, 6 furlongs—Follie Levy, won; Rogon, 2nd; Cohort, 3rd. Time, 1:13 2-5. Royal Meteor, Ben Loyal, Rose Queen and Baby Wolf also ran.

5th race, purse \$400, 3-year-olds and up, selling, 5 1/2 furlongs—Malatine, won; Cismont, 2nd; Strike Out, 3rd. Time, 1:07 3-5. Cardiff, Althorp, Sugar Loaf, Running Account also ran.

DEATH OF WELL-KNOWN TURFMAN.

New York, July 19.—Word was received to-day that David M. Rinaldo, one of the best known turfmen in the country, died on Monday night at Saratoga Springs, N.Y. At both Saratoga and Hot Springs Mr. Rinaldo was a familiar figure every year to race followers.

RAIN STOPPED GRAND CIRCUIT RACES.

Kalamazoo, Mich., July 19.—After one heat of the 2.14 trot for the Paper Mills purse, \$10,000, was run at the Grand Circuit race meeting to-day, a heavy downpour of rain rendered further racing impossible. The Paper Mills race will be run to-morrow. To-day's storm wrecked all wire communication between the park and the city.

The heat run to-day was won by R. T. C. (Murphy); Douglas McGregor (M. Sanders), 2nd; O'Neill (Snow), 3rd. Time, 2:08 3/4.

YESTERDAY'S BASEBALL.

ATLAS RELEASED FROM PRISON.

Kingston, Ont., July 19.—Rev. G. M. Atlas, who has served about eight months of a six-year term on a charge of misappropriating trust funds, was released to-day by an order from the Minister of Justice. He left at noon for Toronto. According to the prison officials Atlas was granted only a release on parole. Atlas emphatically denied the charge against him and stated that it was due directly to the unscrupulous influence of the Roman Catholic church that he had been sentenced. He stated that his correspondence at the penitentiary had been opened by guards without the proper authority and forwarded to the Roman Catholic authorities at Toronto.

\$50,000 TO U.S. ATHLETES

American Olympic Committee Plans Big Campaign to Raise Funds.

An appeal has been sent broadcast by Julian W. Curtiss and James E. Sullivan, treasurer and secretary respectively of the American Olympic committee, asking for funds to defray the expenses of the American team for next year's Olympic games at Stockholm, Sweden. The executive committee is desirous of raising \$50,000. The Amateur Athletic Union has started the ball rolling by donating \$1000.

Checks of sums ranging from \$50 to \$1000 are expected from all the leading sportsmen in the country. Men like Gustavus H. Kirby, S. R. Guggenheim, Frederick Pratt and innumerable others, who devote a great deal of their valuable time for the purification and elevation of the great game of athletics, will no doubt individually contribute tidy sums. Mr. Kirby is chairman of the advisory committee of the Intercollegiate Association.

J. P. Morgan, Andrew Carnegie and the Rockefellers will be important to be among the largest contributors. If the fund does not reach the total that is wanted, the executive committee, so the report goes, intend to appeal to the Governor of the state for aid.

The last Olympic fund was very gratifying. More than \$15,000 was raised. Men of all walks and stations, some of whom allowed their names to become public, while others asked that they be not known, dug deep into their pockets and subscribed all they could spare.

Now that Robert S. Thompson, president of the New York A. C., heads the committee, it is expected that that organization will eclipse the last donation by a far bigger mark. They gave \$3500 two years ago, the largest sum of any individual club.

The colleges, too, are expected to give their usual share. E. E. Babb, who will look after the New England states, reports that every big business man he knows of in his jurisdiction has promised to give up a neat little check. Similar reports come from the middle west and as far out as San Francisco.

Requests from all over the United States have been received by the executive committee, asking that final tryouts be held in their sections. These trials, which will be held about the first Saturday of June next year, will be wisely distributed.

The committee has practically selected San Francisco, Seattle and Portland for the Pacific coast, Chicago, Cleveland and Cincinnati for the middle west, and Philadelphia, Boston and New York for the east. The three most likely places to get the tryouts are Portland, Cincinnati and New York.

The committee will in all probability select the team from the big Boston A. A. meeting, which occurs some time early in April. This is known as the official tryouts for the east.

Another important ruling which the same committee is expected to make shortly is that only three athletes will be selected for each event as the international committee has decided that only that number is required for each event. Heretofore half a dozen or more were picked from the finals to make the trip abroad.

The outdoor swimming championships will not take place until late next year. That means that the aquatic stars for the team will be selected from the indoor champs scheduled for early in January.

"This year I am anxious to make the fund the biggest of its kind," declared Mr. Curtiss today. "The committee wants \$50,000. They ask for it as if it were a paltry sum. But they know that all of this will be needed to pay expenses to the big games. Every penny of that will be needed, don't forget."

"Mr. Sullivan is also working hard in this respect, and the two of us ought to be able to collect the amount demanded by the committee. Everybody who is a good sport will be asked to give what they can. Nobody will be overlooked. We expect to receive the same fine sums contributed from the various clubs and influential members of the A. A. U."

If Allison V. Armour, one of the three American representatives on the international Olympic committee, which is located at Budapest, had his way about it, he would charter a steamer for the sole use of the athletes and have it dock at Stockholm until after the big games were over.

WHAT ACTION WILL GREAT BRITAIN TAKE?

Teheran, July 19.—At a special meeting of the National Council to-day the Premier emphasized the necessity of absolute union in the crisis which has been brought about by the presence of the former Shah, Mohammed Ali Mirza, in Persia, and the revolutionary movement headed by the ex-Shah's brother in Kurdistan. Several speeches were made endorsing this view and were received with enthusiasm. The National Council empowered the government to proclaim martial law of the most rigorous description.

The expedition composed of 500 Bakhtiari, 500 reformed cavalry and a large contingent of volunteers will start forthwith against Mohammed Ali.

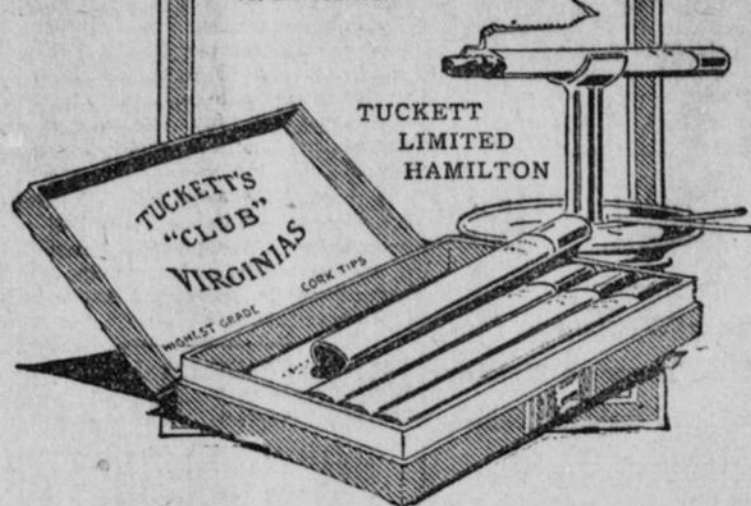

Opinion here is interested in the attitude Great Britain will adopt as co-signatory of the protocol of Aug. 28, 1909, in which Russia promised to prevent political agitation on the part of the ex-Shah.

Tuckett's Cigarettes

WHEN you've dined well, a cigarette is essential to the perfect enjoyment of your repast. But what you smoke must be selected with the same care exercised in ordering your meal. A "Tuckett's Club" cigarette, carefully blended from the purest sundried Virginia tobacco—try that.

ENJOY YOUR VACATION

By drinking CLAIRE-FONTAINE. That hurried lunch and irregular meals, later on may have its effect on your system. A bottle of CLAIRE-FONTAINE after your meal will regulate your system and help your food to digest. See what the Post Master of St. Pierre Charlesbourg has to say about it.

St. Pierre, Aug. 10, 1909.

I was a victim of dyspepsia for some time, and was reducing in weight daily. My doctor ordered me to take nothing but milk and Vichy water as I could not digest food of any kind. I was persuaded by Mr. Timmons to try CLAIRE-FONTAINE mineral water in my milk in place of Vichy. I did so after a lot of persuasion, and after its use for a short time I began to feel a crave for food. I began to eat a little meat and vegetables once a day, and now I can eat almost anything in the line of food, and everything I eat digests with me. I give this statement to thank Messrs. M. Timmons & Son for the good they have done me by their advice to try the water, as only for it I firmly believe I would not be able to-day to attend to my business.

FAMOUS CUBAN PATRIOT IN MONTREAL

General Garcia Arrived in Sister City, From England, on SS. Royal George.

Montreal, July 19.—General Garcia, the famous Cuban patriot and liberator, arrived in Montreal to-night aboard the Royal George on his return from England, where he acted as special envoy of the Cuban government at the coronation. His visit, he said, is made with the object of studying Canadian resources with a view to later bringing about better trade relations, along reciprocal lines, between Canada and Cuba.

He has been appointed Cuban minister to Great Britain and is now only awaiting confirmation of the appointment from the Cuban Senate. He also stated that he would be a candidate for the presidency of his country next year when the term of President Gomez expires.

Unless he receives important news from Cuba he will tour the cities of Ontario and possibly those of the west.

He stated that Cuba's destiny was undoubtedly complete independence and that this was what they had constantly fought for.

Cubans, he said, felt a very friendly feeling towards Canada owing to the fact that many Canadians had fought side by side with them in the wars for independence waged by his father and himself.

ORE SHIPMENTS FROM TEMASKING DISTRICT.

Toronto, Ont., July 19.—Chief Engineer Clement reports to the Temiskaming and Northern Ontario Railway Commission the comparative ore shipments for the first six months of the year. Compared with the first six months of last year these are as follows: 1910, 14,868.60 tons; 1911, 11,978 tons; decrease, 2890.60 tons.

When the bullion shipments are taken into account, the apparent decrease in ore shipments will be shown to be an increase over 1910.

FOUND AFTER A LENGTHY SEARCH.

Halifax, N. S., July 19.—D. H. Whiston, the old man who disappeared in the woods at Rockingham near Halifax yesterday, was found this afternoon by a Royal Canadian soldier two miles back on the edge of a marsh. Whiston lost his way in the thick brush and lay down for a rest. When he awakened he was unable to locate his position. This afternoon a soldier found him little the worse of his 24 hours exposure. Over 100 soldiers and boy scouts were in the search.

GOVERNMENT INSPECTION OF RAILWAY TERMINALS.

Halifax, N. S., July 19.—The Government Railway Management Board were in Halifax to-day inspecting intercolonial terminals and they left at midnight for Moncton. In the afternoon they had a conference with the Board of Trade on this subject. Chairman Campbell of the Railway Board says that tenders for the construction of a concrete railway pier will be called for to be in by Aug. 10, the work to be completed by October, 1912. There had, Mr. Campbell said, been delays by the engineer in preparing the specifications which were beset with special difficulties. Other piers are to be built as well. Mr. Campbell remarked that the whole job was one of the biggest on the continent and the board proposed to have it put through as quickly as possible, yet so carefully that when completed it would be well done. Tenders are also to be asked for the construction of a big shed on No. 9 pier to be completed in October next.

E. Tiffin, general traffic manager, says the intercolonial railway freight and summer traffic so far is ahead of other years at this time and the outlook is encouraging.

SPANISH AMBASSADOR MAKES AN APOLOGY.

Paris, July 19.—The Spanish Ambassador to France, J. Perez-Caballero, to-day called on M. De Selves, the French Foreign Minister, and expressed the regrets of the Spanish government for the arrest recently of M. Boisset, the French Consular Agent at Alcazar, Morocco, by a Spanish patrol.

The Ambassador said that the Spanish Foreign Minister had not yet received a report on the subject, but that after reading the French official version of the incident, he had expressed regret to the French Ambassador at Madrid and his government. Senior Perez-Caballero added that the ministry requested him to repeat this expression to M. De Selves and inform the French Foreign Minister that as soon as he receives a full report from the legation at Tangier he will instruct Colonel Sylvestre, commander of the Spanish section of the Moorish police, to convey adequate apologies to M. Boisset. In addition, the Spanish Ambassador said, he was desirous of maintaining cordial relations with France and had forwarded instructions to its agents at Alcazar in this sense.

TWO MORE BODIES FOUND IN PORCUPINE.

Toronto, July 19.—A telegram from the Porcupine Relief Committee to-day states that two more bodies have been discovered and identified. They are:

S. Cullen, 2021 Broadway, New York.

Osman Butler, Tangier, N. S.

They were found on the Esau prop-

FINANCIAL KING OF CANADA

Remarkable Work of Rodolphe Forget in the Realm of Finance.

Ottawa, Ont., July 19.—Rodolphe Forget, M.P., the uncrowned king of Canadian financiers, is in the city. Though representing the county of Charlevoix, the M.P. is rarely seen in the House. His immense financial interests require too much of his time. Last week Mr. Forget went to Toronto. The next day there was announced the cutting of a large and juicy melon in Toronto Railway stock. The dividend was increased to 8 per cent and four millions of new stock was issued. The stock which had been listed at 132, jumped first to 142 and then by leaps and bounds to 169. Mr. Forget's activities on behalf of the eastern interests he represents was largely responsible. Just now he is what the market terms as a "bull" on Richelieu and Ontario, which he controls. He is up here in connection with securing a certificate for the commencement of business by the International Bank, for which a charter was granted this season and in which much foreign capital is interested. Mr. Forget is accompanied by two French capitalists, Mr. Alexander Talou, his Paris representative, and Mr. Marcel Laurette. He occupied his seat in the chamber for a few minutes to-night, but was too much in demand outside to stay long with so little of interest going on in the House.

BRIEF NOTES OF DOMINION NEWS.

Ingersoll, Ont., July 19.—Charles H. Goodman of St. Thomas will succeed J. T. B. Chilton as chief of police. Mr. Goodman has had considerable experience in police work. He was formerly constable at Orillia. He will enter upon his duties on Monday.

Toronto, Ont., July 19.—Hon. Adam Beck is expected to arrive in Montreal on July 30. He will sail on the Virginian on the 31st, in company with Chief Engineer Sotthmann of the Hydro Electric Commission. Besides visiting England, they have been studying electrical plants and supply in France, Germany, Switzerland, Italy and Austria.

Sarnia, Ont., July 19.—A story of a holdup and robbery was reported to the police today by Clinton Foster, of this town. Foster reported that he had been assaulted and robbed of \$17 last night. His story was that he heard a noise in the chicken coop and after dressing himself he went out to investigate. There he was set on by two men who tied him to a fence post with a section of garden hose, gagged him with his own handkerchief and relieved him of the cash. He was found tied up by his brother. The police are investigating.

Guelph, Ont., July 19.—Prof. C. A. Zavitz of the Ontario Agricultural College, says the crops of Ontario will be a good average this year. The recent rains had their greatest influence on the pasture, which was being badly burned up, causing a shrinkage in the milk supply. Next to this the greatest influence will be on the potato and root crops and corn, which were badly in need of rain. The grain crop is very well advanced and the rain would not do so much good as to the roots.

Montreal, July 19.—In a critical condition as a result of falling from the bridge into Molsons Creek, on the Longue Pointe road last night, James Thompson, 62 years of age, who said his home was at 39 York street, Toronto, was brought to the Notre Dame Hospital.

Thompson, who lost both feet in a railroad accident some years ago, was walking along the car tracks, and in stepping out of the way of a car, fell into the creek 20 feet below. His head was badly cut and he sustained internal injuries.

Toronto, Ont., July 19.—Charles T. Curlewy, director of the new Museum of Ontario, received word to-day that a specimen of the treasure trove of royal bullion, brought to light recently by Prof. Garstang of Liverpool University, England, in the course of excavations at the ancient city of Moere, in the Soudan, Africa, which existed about the time of Christ, was on its way to the museum. The bullion belonged to the ancient Kings. History throws little light on the existence of the city of Moere. A script was discovered at the site of the once great city, and two archaeologists have been working on it but so far have not been able to decipher it.

Toronto, Ont., July 19.—Oil of vital oozing from a barrel on a wagon sprinkled Bathurst street for several blocks to-day and caused injuries to three people.

Alexander McLean's motor cycle skidded and threw him to the pavement. McLean landed in a spot where the acid was the thickest. When he toppled over his legs became entangled in the wheels of the machine and before he was able to extricate himself his face, right hand and clothes were badly burned.

Stanley Goldberg, a barefooted boy, ran to his assistance, and was painfully burned. Victor Kepz, 301 Markham street, slipped on the pavement and his clothing ignited, but fortunately he escaped with a few burns about the hands.

The tires of McLean's motor cycle were destroyed.

SAYS THERE IS BIG ARSON TRUST

Has Representatives in Nearly Every Big Town in the United States.

Chicago, Ill., July 19.—That there exists a gigantic, country-wide arson trust, with headquarters in Kansas City and representatives in nearly all the large cities, the members of which make a business of setting fire to buildings to enable the owners to collect large sums of insurance, was the charge made to-day by C. J. Doyle, state fire marshal, in an address before the Chicago Association of Commerce.

"The country is facing one of the most gigantic organized arson conspiracies the world has ever known," said Mr. Doyle. "The State Fire Marshal Department of Illinois has united with the State Fire Marshal of Kentucky, Tennessee and Ohio to wipe out the band of 15 men at the head of this arson conspiracy. The head of the fire-bug trust is in Kansas City, from which city the operations of the entire gang is directed. The tentacles of this octopus have extended, as the of those behind the plot has grown, into a dozen or more cities. They have been found at work at Bloomington, Springfield, Ill.; Pittsburg, Cleveland, New York, Buffalo, St. Louis, Chicago and elsewhere. Two of the gang have been convicted and are now serving a prison term in a Southern city. The others will be behind the bars before long if we are successful in following the clues we are now working on."

RING RECOVERED FROM SEA.

It Had Dropped From A Woman's Finger And Found by Diver.

(From the Los Angeles Examiner.) From the depths of the ocean off Venice pier, where it sank when it slipped from the finger of its owner, the diamond engagement ring lost by Mrs. A. R. Woods, the wife of an Arizona mine owner, was rescued a few days ago.

The jewel was recovered by Al Burton, a deep sea diver, who for some time past has been working as the first assistant of Capt. Al Christy, one of the best known submarine workers of the Pacific coast.

Twenty-eight minutes after he disappeared beneath the waves Burton was drawn to the surface, and holding up his hand flashed the rescued jewel toward the spot where Mrs. Woods was eagerly watching his operations.

Burton, when he learned of the generous reward offered by Mrs. Woods, determined to recover the jewel. With Captain Christy he had come to Venice to attempt to recover a huge barge anchor, which was lost more than a year ago, but before starting his search for the mudhook he determined to make an effort to earn the \$100 which had been offered for the recovery of the ring.

Ascertaining from Mrs. Woods as nearly as the latter was able to tell, just where the ring had disappeared, Burton, his air hose and life line in charge of Captain Christy, descended into the rough water outside the breakwater. For nearly half an hour his movements under water could be traced by the line of bubbles from his helmet as he searched the bottom under the float.

Then Christy received a sudden signal to "haul up," and a moment later the helmet of the diver appeared above the surface. Burton waved his hand, and even from the pier the diamond could be seen flashing on his finger.

"PINAFORE" AT ITS PINNACLE.

Editors Had to Forbid Use of Its Catch Phrases.

There was a time when the vogue of "Pinafore" was simply amazing. It was not copyrighted and after its success in London it was pirated in the United States. This piracy was the initial cause of Gilbert's hatred of America and Americans.

However, if America did not send him its dollars, it was quite ready to spread his fame. Church choirs added "Pinafore" to their repertoires, and it is recorded that 100,000 barrel organs were constructed to play nothing else. Here is an ironical note from a newspaper of the time:

"At present there are 42 companies 'playing' 'Pinafore.' Companies formed after 6 p.m. yesterday are not included."

Its catch phrase, "What, never? Well, hardly ever!" was deadly. It is told, for instance, that one editor barred his staff from using it.

It occurred 20 times in as many articles yesterday. Never let me see it used again. "What, never?" was the unanimous question. "Well, hardly ever," replied the wretched man.

The readiness of W. S. Gilbert's wit is well illustrated by this story told of him. He and F. C. Burnard, the editor of Punch, were guests at the same dinner table where a wise host placed the rival humorists at opposite ends of the room in the hope of distributing equally the witty talk.

Continual shouts of laughter rose from Gilbert's corner until Burnard, after ineffectual attempts to arouse a similar jocularity in his immediate circle and unable to conceal his chagrin, leaned forward and said in his most sarcastic manner:

"I suppose Mr. Gilbert is telling some of those funny stories which he occasionally sends to Punch but which don't appear."

To which Gilbert drily replied: "I don't know who sends the funny stories to Punch, but it's very true they don't appear."

HEARING THE HEAT.

Remarkable Form of Pyrometer For Determining High Temperature. (From the Philadelphia Record.)

The Scientific American describes a remarkable form of pyrometer or instrument for ascertaining high temperatures. This instrument may be used either for determining the actual temperature of a furnace or for ascertaining whether it keeps up a fixed standard. It consists essentially of two musical pipes, or whistles, which are attached to a tube to which air can be supplied. Two flexible tubes connect the two pipes with the ear of the operator. When in use one whistle is in the furnace and the other outside. The effective length and consequently note of the latter can be varied by a piston. The stoker using the instrument sounds both whistles and in their sound hears the temperature of the furnace.

Suppose it is required in the first place to keep a furnace up to a certain temperature. The whistle which remains outside must be adjusted to the length corresponding to the required temperature. Then when the instrument is placed in the furnace and the two pipes sounded, they should give the same note. If they do not the furnace has not the right temperature. If it is required to ascertain the exact temperature of the furnace the pipes must be sounded as before and the length of the outer one adjusted till they are in unison. The length of the outer pipe then gives the temperature. This depends on the fact that the temperature inside and outside the furnace will be proportional to the squares of the effective lengths of the two whistles. It is said that the results obtained in this way compare favorably with those from other forms of pyrometer. The inventor is Cyro Costa, assistant in the Polytechnic School, Rio de Janeiro.

HOT WEATHER COLORS.

Evidence That White Clothes Are Coolest to Wear.

Such weather as that of the last three days leads to a general putting off of as many garments as a liberal interpretation of the properties will permit, and the substitution for them of others lighter in color, as well as in weight. Women clothe themselves in white and men in some approximation to it. Both believe this to be the best dress for tropic temperatures and however hot they may be when thus garbed they think they would be hotter still in any other color.

This is almost certainly a mistake. Among animals white coverings of fur or feathers are the most invariable wear not in the tropics, but in the Arctic regions. They are rare in the temperate zones, and practically unknown in lands where the sun is fierce. This cannot be accidental, and there must be in it a lesson worth heeding. Probably our association of coolness with whiteness is due to the fact that white cloth is usually thin cloth, and the thinness counts for more than the color. There is, however, no reason why cloth cannot be both thin and dark, and of such cloth the coolest garments could unquestionably be made, though it would be many a year before they would look coolest or enable suggestion to work its mighty spell and give the illusion of comparative comfort.

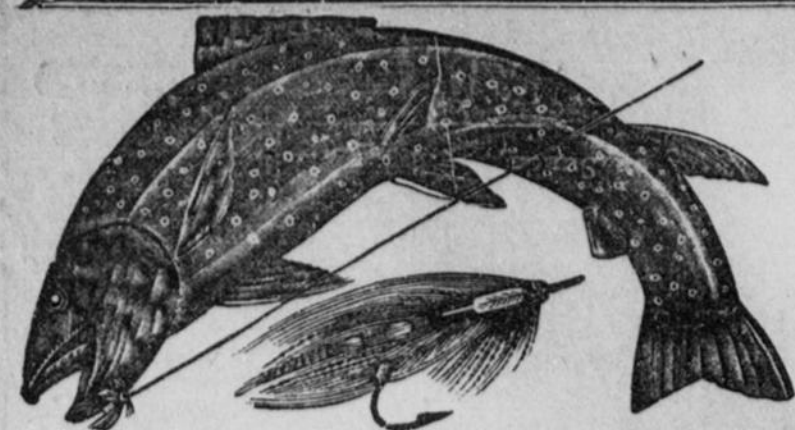

The army has discovered by actual thermometer tests that blue or yellow tents show a difference of interior temperature amounting sometimes to fully 10 degrees when standing beside white ones in the full blaze of the southern sun. Down in Panama all the "administration" houses, barracks and shops are painted almost black, and the occupants have already lost the feeling that this color is lugubrious because they have learned that black houses are cool, or at least cooler, than those of any other color, and that white houses are the hottest of all.

It must be noted, too, that white reflects or transmits the short-length, or actinic, light rays, while the darker tints do it either not at all or to a less extent.

Public Auction

Of the Buffets on the Exposition Grounds

Saturday, July 22, 1911

The Quebec Exposition Company will sell by public auction, Saturday, July 22, 1911, at ten o'clock a.m., on the grounds, the privileges of the Buffets for the duration of the Provincial Exposition of Quebec, from August 28 to September 5, 1911.

The details relating to this subject will be given, either at the office of the Company, 287 St. Paul Street, or on the day and at the place of the sale.

As the Company has expended much more this year in advertising and attractions of all kinds, the holders of privileges can expect a much higher return.

NOT LIKELY TO BE ANY WAR

German Commander Denies

Reflections on Niobe, International Episode Closed.

Montreal, July 19.—The so-called storm, which was of the "tempest in a tea pot" variety, over remarks attributed to sub-Commander Von Verboni de Sporet, of the German cruiser Bremen, now in port, anent the fighting prowess of the Canadian warship Niobe, subsided to-day as the result of sufficient communications via the long distance telephone, between here and Ottawa. The officer was quoted as saying that, of course, the Niobe would not be much good in actual warfare, but that she was an excellent training ship.

These remarks, reported in the morning papers, caused a good deal of unfavorable comment and the matter was made an international one by the evening papers. However, the sub-commander, Commander Goette, and the German Consul, Mr. P. Leon, all took the matter up by telephone and the indignant denials of the sub-commander were duly reported at Ottawa. Von Verboni de Sporet stated that he declared that the Niobe was a good training ship, but would not admit that he questioned her utility in times of war.

The matter is now considered closed and the visiting Teutons are now engaged in a round of festivities prepared for them by the local German colony.

CARPENTER'S STRIKE IN MONTREAL

Both Sides Are Confident—
Strikers Declare They Can Make Contractors Agree.

Montreal, July 19.—As usual in the early stages of a Montreal strike, both the carpenters' union and the master contractors declare themselves confident of coming out on top in the struggle now going on. The contractors estimated that about 100 men have quit, but at the Labor Temple, the number of strikers is placed at 300. There are 1,500 members in the union, but so far the strike only affects those working for contractors who refuse to pay the union minimum rate, a flat rate of thirty-five cents an hour.

The strikers declare they can force the contractors to come to terms by making the strike a general one, while the contractors declare that there is plenty of labor only waiting for employment and that there are any number of non-union carpenters in the city.

Both sides declare it will be a fight to the finish.
There is a good deal of criticism among the men of their leaders for choosing the present time to strike, as they declare that nearly all the big jobs have already been finished, whereas a strike a month or six weeks ago would have forced the contractors to come to terms, as such big jobs as the Canadian Pacific Railway station extension and the Harbor Commissioners works have only been entered upon.

About fifteen constructions are more or less affected by the strike.

U.S. NEWSPAPER MEN ARE COMING.

Ottawa, July 19.—The U.S. Editorial Association will arrive in Ottawa next Tuesday at 11:15 a.m. and leave at 7 p.m. They will be the guests of the Dominion Immigration Department and the city.

LARGE ATTENDANCE AT WINNIPEG EXHIBITION.

Winnipeg, July 19.—Farmers and stockmen's day at the exhibition here brought the largest attendance the big western fair has yet had from the western towns and rural districts of Manitoba. The total attendance, however, did not come up to the high water record made on Tuesday when 67,000 people passed the gate. The feature of the racing was in the odds paid to the holders of Lancers tickets in the hurdle race, when a \$2 ticket on the pari-mutuel machines won \$107.35. Twenty-eight to five was also registered for Alberta Boy in the 225 foot, 220 pace, but the winner in this instance was disqualified.

CANADA IN NO DANGER OF FUEL FAMINE.

Ottawa, July 19.—That alarmists who predict Canada will be in the verge of exhaustion in their own country for some little time yet is indicated by a geological survey report just issued. It is on the Bighorn Coal Basin in Alberta wherein it is estimated there are 6,600,000,000 long tons of coal in an area of about 187 square miles that are workable. The Bighorn Basin is about 85 miles northwest of Banff, 140 miles southwest of Edmonton and 70 miles south of the Grand Trunk Pacific and Canadian Northern Railway surveyed routes.

Wallaceburg, Ont., July 19.—A young man, J. Barbrick, of Oil Springs, is wanted by the police. He hired a horse and rig from Alex. Sherer and drove to Wallaceburg, where he sold it to James McMartin. Detective Acton, of Sarnia, came to Wallaceburg and took the outfit back—all but Barbrick, who could not be located.

PERSONAL

Mr. E. E. Ling is in town.
R. T. Hill and wife, of Buffalo, are registered at the King Edward.

Messrs. Arthur Francis Murphy and Ralph Miller, of Montreal, are spending a few days in this city, the guests of Mr. T. F. McCaffery.

The following Montrealers are registered at the King Edward Hotel: H. Larue, B. Binet, L. P. Pageau, A. B. Bruneau, L. P. Peletier, L. Brousseau, R. R. Summers and wife.

Whitehead, Halifax; H. Barry, New York; Miss A. K. Lovering, New York; Miss M. Graham, New York; M. A. Fleming, Worcester; H. W. Fisher, Worcester; W. J. Lough and wife, Philadelphia; Miss M. Higgins, New York; Miss S. Brownell, Miss C. E. Grove, Miss J. T. Vance, Philadelphia; E. O. Fontaine, A. D. Martin, Montreal; K. Martin, Boston; R. Trudeau and wife, Portland.

Latest arrivals at the Blanchard Hotel:—J. A. Houde, St. Croix; J. B. Angers, La Perade; Mr. and Mrs. N. Cannon, Miss Cannon, Montreal; J. R. Dixon, Ottawa; C. Doyon, Beauceville; G. Burke, Toronto; J. E. Gobeil, N. Tardif, G. Boulanger, H. Fontaine, R. Lefavre, Montreal; H. Bourassa, R. Nolet, A. Bolduc, Lewis; E. Lantallum, St. John, N.B.; L. Guigue, Jonquiere; J. Lalimant, Black Lake; J. H. Tessier, St. Casimir; E. Roberge, Laurierville; A. P. Bouchard, Montreal; L. Tremblay, Montmagny; J. Pinet, Fraserville; H. Cousin, France; C. Friend, Halifax; J. Pothier, Batiscan; H. Fontaine, L'Ange Gardien; C. C. Burns, A. H. Leager, J. P. Carter, New York; C. B. Hamelin, Montreal; J. B. Cloutier, L'Islet; G. G. Grenier, Montreal.

Arrivals at the Claremont:—W. A. Tate, Miss M. E. Tate, Toronto; H. C. Matheson, Montreal; Mrs. J. J. Reilly, Miss A. R. Reilly, Washington, D.C.; Eug. Durocher, A. Mienne, A. Valiquette, Montreal; J. McIntosh, Toronto; T. N. Beaulieu, D. C. Drysdale, Montreal; S. A. Desmeules, St. Joachim; Ida F. Black, Anna Black, L. Honpt, B. L. Honpt, Ella S. Martin, Washington; Mrs. J. Fleming, Halifax; M. H. Foley, Esquimaux Point; Mr. and Mrs. J. T. Nolan, New York; Mr. and Mrs. G. A. Walker, Detroit; M. C. H. Moranville and wife, Wallingford, Vt.; C. Jarrett, Montreal; B. M. Armstrong and wife, Ottawa; A. Godbout and family, Beauce; J. B. Barbonneau, Roberval; Louis Desbines, St. Jerome; Dr. M. Spiegel, Albany, N.Y.; Margaret Power, Brooklyn; M. M. Carroll, New York.

MINERS' FEDERATION AND POLITICS.

Butte, Mont., July 19.—President Charles Meyer's annual report to the Western Federation of Miners, read to-day, urged participation in politics, as a body, favored the recall of judges, and, citing the Supreme Court decisions in the Tobacco and Standard Oil cases, declared that it is only a question of time when the courts will bring labor union under the Sherman Anti-Trust act, and that the labor movement's legal status then will hang on judges' opinions whether they are "reasonable" or not.

President Meyer recommended consideration of a plan to raise a giant fund and enter the mine operating field.

Galt, Ont., July 19.—Chief of Police Flynn, of Waterloo, came to town to-day and arrested two Poles at their boarding house on a charge of burglarizing the Molson's Bank at Waterloo about 3 o'clock Sunday morning, and the prisoners were taken back to Waterloo to stand trial. The two foreigners went to Waterloo Sunday to visit a fellow Pole, and it is alleged, that early Sunday morning they gained entrance to the bank by taking out a panel in the back door. They could not open the vault, so did not get any money, but carried away a cabinet of important papers. These were found in a shed, but the cabinet was smashed.

Children Cry FOR FLETCHER'S CASTORIA

TENDERS WANTED

In re: La Compagnie de Pouvour Electrique de Quebec.

In liquidation.
The undersigned liquidator will receive sealed tenders until Wednesday next, July 26th instant, at noon, at his office, 125 St. Peter street, for the sale of the following lots and rights:

1. Lot No. 322 of the cadastre of the parish of St. Ferreol in the County of Montmorency, such as it belongs to the said company in liquidation in virtue of a deed of sale passed before Dumontier, N. P., at Quebec, on the 28th of June, 1904, under No. 3063 of the minutes of said notary.

2. A lot containing about sixteen perches and four feet, more or less, fronting on the Grande Riviere Ste. Anne, having a depth of four arpents, bounded in front towards the south by the said Grande Riviere Ste. Anne, bounded at the end of said depth by the other portion of same property, bounded on one side towards the southwest by Lot No. 511 of the official cadastre, and on the other side towards the northeast by Lot No. 506 of said cadastre, said lot taken from a property having a frontage of sixteen perches and four feet, more or less, and a depth of eighty arpents, more or less, and bounded in front towards the south by said Grande Riviere Ste. Anne, at the end of said depth by the vendor (Epiphane Lachance), on one side towards the southwest by said Lot No. 511 and on the other side towards the northwest by said Lot No. 506, said lot so to be sold being the southern part of Lot (No. 508) Number Five Hundred and Eight of the official cadastre of the Parish of St. Ferreol, in the County of Montmorency.

3. The right of egress and ingress, on foot and in vehicles, at any time for all the necessities of the said purchaser on and through that unsold part of said Lot Number Five Hundred and Eight of the plan and book of reference of the official cadastre of said Parish of St. Ferreol in order to communicate from said lot above-mentioned to the public highway, and vice versa, said right of way to be exercised on a width of sixteen feet (French measure) and in the part of said lot which will be more convenient to make such road.

The liquidator does not bind himself to accept neither the highest nor any of the tenders.

Quebec, 20th July, 1911.
CHS. J. BAILLARGEON,
Liquidator.

PRESENTATION TO REV. MR. BEVERLEY

On the Eve of His Marriage
By the Congregation of
Trinity Church.

There was a large attendance of the members and friends of Trinity Church congregation in the basement of the building, last evening, the occasion being a presentation to the esteemed rector of the church, Rev. A. R. Beverley, M.A., on the eve of his approaching marriage. Among those present were the Right Rev. Bishop Farrar.

After Mr. W. H. Wiggs had been called on to take the chair, a message was sent to Rev. Mr. Beverley requesting him to attend an important meeting in the basement of the church. When the reverend gentleman arrived and entered the hall he was received with round after round of applause. As soon as the applause had subsided the chairman arose and in a few appropriate and witty remarks called on Mr. W. C. Scott, People's Churchwarden, to read the following address:

"Quebec, July 19, 1911.

"To the Rev. A. R. Beverley, M. A.,
Rector of Trinity Church, Quebec.

"Dear Mr. Beverley: We, the members of Trinity Church congregation and other friends, on the eve of your approaching marriage, desire you to accept this gift as a slight token of the affectionate esteem in which your parishioners hold you and in humble recognition of the many excellent Christian and manly qualities which you have always displayed in the exercise of your ministry. May God's blessing rest upon you and your partner-to-be. That is the cordial and sincere wish of those who unite here this evening in presenting you with this small evidence of their appreciation.

"SIGNED BY CONGREGATION."

Mr. Scott also added some remarks of his own to the address, the reading of which was warmly applauded. Rev. Mr. Beverley, who was visibly affected as well as completely surprised, said he failed to find words to express his deep gratitude to the congregation of Trinity Church, not only on his own behalf but on behalf of her who is about to share his joys and sorrows. He accepted the gift not only on account of its intrinsic value, but as another proof of the loyalty of the congregation to him as their rector. He could safely say that there was not a more loyal congregation to their minister and a more generous one to their church than was that of Trinity. From the bottom of his heart he sincerely thanked them.

In answer to the request of the chairman, His Lordship Bishop Farrar delivered a short address. He said that during the short time he had been in Quebec he had the privilege to come a good deal in contact with Mr. Beverley, and he much admired him for his numerous good qualities, and if he (the speaker) were permitted to prophesy, he would say that Mr. Beverley would become a man of note in Canada. He might add that the Lord Bishop of the diocese held the rector of Trinity Church in high esteem. Bishop Farrar concluded his remarks by bestowing his blessing on Mr. Beverley and his bride-elect.

After some remarks by Alderman Messervey, the ladies of the congregation served light refreshments. When ample justice had been done to the latter, the Doxology and National Anthem was sung, and Bishop Farrar pronounced the benediction.

The gift to the rector consisted of a splendid cabinet of solid silver cutlery of a most beautiful design, each article bearing the initials of the recipient. It was purchased at the well-known establishment of Messrs. G. Seifert & Sons, Fabrique street.

NO CONFIRMATION OF REPORTED MASSACRE

Berlin, July 19.—The Colonial office up to a late hour to-night had no confirmation of the report from Livingston, Rhodesia, of the massacre of a German detachment, composed of District Commissioner Von Frankenberg, two white and thirty-four natives. Commissioner Von Frankenberg however, is known to have been travelling in the region mentioned in the despatch.

CANADIAN VETERANS

Send Message to Their Majesties—H. R. H. the Duke of Connaught Acts as Medium.

Probably few messages of loyalty and devotion would be more highly appreciated by Their Majesties than that from the Federal Association of Canadian Veterans, sent through His Royal Highness the Duke of Connaught. This message took the form of an address, beautifully executed and enclosed in a handsome silver casket, the context being as follows: To His Royal Highness the Duke of Connaught, Governor-General Commander-in-Chief of Canada:

May it please Your Royal Highness: The petition of the undersigned humbly sheweth that the Federal Association of Canadian Veterans of 1866-70 welcome the appointment of Your Royal Highness as Governor-General; that they have by resolutions passed by all its branches throughout Canada expressed the desire that Your Royal Highness might be graciously pleased to represent them on the approaching coronation of Their Majesties King George V and Queen Mary, and to convey to Their Majesties an assurance of their loyalty, devotion and affection; that the knowledge that Your Royal Highness personally participated in the defence of Canada during the period mentioned, as an officer attached to the P. C. O. Rifle Brigade, thereby earning the gratitude and affection of Canadians for all time, encourages them to hope for a favorable consideration of this, their humble petition, and your petitioners will ever pray.

(Signed)

Capt. Joseph Patterson,
President.

E. B. Brown,
Secretary.

Ottawa, 25th May, 1911.

The casket containing the address was sent to Earl Grey, the present Governor-General, for transmission to his successor, and His Excellency acknowledged receipt in the following letter to Capt. Patterson:

I am desired by His Excellency to acknowledge receipt of your petition of 1st June, on the subject of the memorial addressed by you to His Royal Highness the Duke of Connaught. His Excellency desires me to say that he forwarded your address enclosed in the silver box to the Colonial Office for transmission to His Royal Highness. I have the honor to be,

Your obedient servant,
(Signed) C. J. JONES,
Assistant Governor-General's Secy.

Subsequently Capt. Patterson received the following letter:

Clarence House, St. James,
London, S. W.

3rd July, 1911.

Dear Sir: I am, desired by His Royal Highness, the Duke of Connaught, to inform you that His Royal Highness has laid the contents of the address sent to him by the Federal Association of Veterans, 1866-70 before His Majesty the King, and has conveyed to Their Majesties the assurance of their loyalty and devotion. I am again to thank you, yourself, on behalf of the association for the address as well as for the charming box in which it was sent, both of which will be greatly treasured by His Royal Highness and will prove a most pleasant memento of the Federal Association of Veterans.

I am, yours truly,

(Signed) Malcolm Murray,
Major Comptroller.

Naturally the veterans throughout the Dominion are proud that they have had such a distinguished representative at the coronation, and also that His Royal Highness has found so much pleasure in conveying to Their Majesties the message of loyalty and devotion contained in the address.

LIBERALS ANXIOUS FOR A SAW-OFF.

Toronto, Ont., July 19.—A special to the News from Chatham says: A rumor is current here that the Liberal party is anxious to start negotiations for a saw-off in West Kent. It has been intimated that if McCoigt be allowed to take his seat in the Dominion House without a contest Sulman will not have opposition at the next election for the Legislature. The growing feeling among Kent farmers against reciprocity is causing the local Liberal camp some anxious moments. Leading Conservatives interviewed state that they have no intention of considering any such saws-off.

SEVERE LOSS FOR GRENADEER SERGEANT.

Toronto, Ont., July 19.—Fire in the Copeland-Chatterton building at 75 and 77 Queen street west, early this morning, wiped out the handsome club rooms of the Grenadiers' Sergeants' Mess, causing a money loss to the mess of over \$5000 and destroying prized possessions which can never be replaced, including photographs and pictures of officers, many since dead, a group painting by eight feet of the regiment in 1892, valuable shooting and other trophies won by the regiment and a fine collection of old rifles, and Indian relics brought from the Northwest after the rebellion in 1885. Copeland-Chatterton lost \$10,000, their stock of stationery and office devices being badly damaged by smoke and water. The Brunswick bowling alley was damaged \$4000 worth and the damage to the building will be \$10,000.

REDUCED TO A SKELETON

DOCTOR SAID SHE WOULD DIE

"Fruit-a-ives" Saved Her Life

Riviere a Pierre, Que., May 9th, 1910.
"I look upon my recovery as nothing short of a miracle. I was for eleven years constantly suffering from Chronic Dyspepsia, Indigestion and Constipation. The last two years of my illness, I was confined to my bed nearly all the time. I was so thin I weighed only 90 pounds, and I vomited everything I ate. Even water would not stay on my stomach.

The doctors gave me up to die as the stomach trouble produced heart weakness and I was frequently unconscious. At this time, a lady friend strongly advised me to try "Fruit-a-ives" and how thankful I am that I did so. When I had taken one box, I was much better and after three boxes, I was practically well again and had gained 20 pounds.

I have taken thirteen boxes in all and now weigh 150 pounds and am absolutely well—no pain, no indigestion—no constipation—my heart is sound and complexion clear."

Mad. ARTHUR TOURANGEAU.
50c a box, 6 for \$2.50, or trial size, 25c. At all dealers, or from Fruit-a-ives, Limited, Ottawa.

POLITICAL CRISIS IN BRITAIN

Situation Over the Veto Bill
Has Assumed a Critical Stage.

London, July 20.—The Daily Telegraph, staunch Unionist, in to-day's editorial says only that the House of Lords will pass the third reading of the veto bill to-day without division but that when the Government bill is returned to the Upper Chamber, shorn of the Lords' amendments, they will pass that also, for the simple reason "that there really is no practicable choice" and because it would form an evil and dangerous precedent to bring the crown into the struggle and it would be impossible for the King to withhold his consent if the Ministers requested the creation of peers.

Practically the whole Unionist press has now fallen into line with the Telegraph in the admission that this is the only reasonable policy for the Lords to follow, and that the "no surrender policy would be suicidal."

Long meetings of the Cabinet and also the Unionist leaders, including Balfour and Lansdowne, Selborne, Curzon, Salisbury and others, were held yesterday for the purpose of making final arrangements for the coming debates.

Premier Asquith has postponed his intended visit to Scotland on account of the crisis, and urgent whips have been issued to all parties for Monday's sitting of the House of Commons. On that date the Prime Minister will move the excision of the Lords amendments and he is expected to make an important pronouncement on the ministerial intentions, and, according to persistent reports, whatever happens, fifty new peers will be created before the bill is sent back to the House of Lords as a earnest of the Government's intentions, should there still be a disposition on the part of the peers to display obduracy.

It is explained that the present Government has created much fewer than the customary number of peerages in recent years and that therefore the creation of fifty now would little more than restore the balance.

That the creation of peers may yet be necessary is indicated by an editorial in the Morning Post, which still counsels a firm policy of no surrender.

GET-RICH-QUICK SCHEMER DISCHARGED.

Montreal, July 19.—E. H. Livingston, a stenographer employed in the Colonization Department of the Canadian Pacific railway in Philadelphia, Pa., sent through the mails to railway employees in Canada and the United States a "get-rich-quick" circular letter, written on the company's stationery, soliciting subscriptions from \$20 to \$100 from those who wish to participate in his proposed scheme in stock manipulations. He was promptly discharged by the company. It is understood he will have the United States postal authorities to deal with.

EXCITEMENT AT TORONTO POLICE HEADQUARTERS.

Toronto, Ont., July 19.—There was great excitement around police headquarters to-day when a letter came in from a town in Germany, written in German script, and in the body of which the name Dr. William Beattie Nesbitt was the most prominent feature. Some of the authorities jumped to the premature conclusion that the doctor had been arrested there. With the assistance of an interpreter it was learned that the letter was simply an acknowledgment of the notice Inspector Duncan had sent to that particular town months ago asking that the police keep an eye open for the doctor.

COURT OF SESSIONS.

Yesterday in the Court of Sessions a man charged with interfering with bailiffs in the discharge of their duty pleaded not guilty and had his trial fixed for a latter date.
