The promoters of the scheme would become security for £1,000,000 to be advanced, interest free, by Great Britain, for 15 years, to be devoted to loans sufficient to start each family, or they would become security for £2,000,000, with which they would relieve the crowded districts of Ireland of 60,000 persons.

To-day the final move was made, the capiases were removed and Flemming, in charge of Detective Fahey of Montreal, left to-night for that city. The capiases were paid under protest. Flemming was accompanied by his sister and a couple of friends. The flit was just made in time, as a number of *bona fide* Ontario victims were ready and waiting to pounce down on Flemming with a score or more of capiases.

IRISH TROUBLES.

Another Disagreement of the Jury in Kelly's Case.

SENSATIONAL STATEMENTS OF THE INFORMER CAREY.

OPENING OF THE PHILADELPHIA CONVENTION.

The Dynamite Conspirators.

DUBLIN, April 25—In the trial of Kelly, this morning, the Judge summed up the evidence strongly against the prisoner's claim of *alibi*. The jury were out for a short time, when they announced they were unable to agree. The jury were sent back to reconsider the verdict, but, after returning Into Court for the fourth time, and reporting that they could not agree, were discharged.

Flanagan pleaded not guilty. The Court assigned Messrs. Adams and Byrne to defend him. There was a difficulty experienced in forming a jury. Seventy-five persons called failed to appear and were fined £100 each. Carey, the informer, testified he arranged to stab Mr. Forster after the plots to shoot him failed. NEW YORK, April 25—Several special trains started for Philadelphia this morning with delegates to the Irish convention.

PHILADELPHIA, April 25—The convention of the Irish National Land League of America was called to order in the Horticultural Hall this morning. There was a large attendance. The decorations are very tasteful. Quite a number of lady delegates are present. At noon, President Mooney called the convention to order. The convention selected the following temporary officers:—President, Jas. A. Mooney, of Buffalo; Secretary, J. J. Hynes, Buffalo; Assistant-Secretaries, Wm. F. Sheehan, of Buffalo; and J. D. O'Connell, of Washington. Mr. Mooney, upon taking the chair, said they had hoped to welcome Mr. Parnell, but owing to the present aspect of affairs it was absolutely impossible for him to absent himself from Parliament. In unfriendly quarters, he said, it is sought to make it appear he fears to join us lest words spoken or actions taken in our convention might compromise him. Such statements are pure falsehoods. Mr. Parnell knows the loyalty of his American allies. He does not and need not fear them. On motion of P. A. Collins, the temporary organization was made permanent. Mr. Flatley, of Boston, moved the appointment of a Committee on Credentials, each State and Territory represented to elect its own Committee man. After several other motions to appoint committees on rules and resolutions and all others to audit the Treasurer's accounts were decided out of order, amid much confusion Mr. Flatley's motion was carried. A Committee was then constituted and the Convention took recess till 2.30.; when it re-assembled the Committee on Resolutions were in session. Mrs. Parnell entered the hall shortly after 2.30, and was greeted warmly, all present rising and cheering. Messrs. Mooney and Egan escorted her to the stage, and she was introduced as the mother of the great Irish leader. She will make no public address. There are about 600 delegates in the Convention. During the recess a despatch purporting to come from the Pope created amusement among those on the stage; it was generally received as a hoax. It threatened to excommunicate any Irish Catholic attacking England's liberality to all religions.

Quebec Central Railway.

AN ALLEGED SLANDER REFUTED.

As recorded in last Monday's CHRONICLE, a statement has been made by the *Canadien* that the Quebec Central Railway Company is interested in the failure of Messrs. Cooper, Hall & Co., of London, its financial agents in England, to the extent of $250,000. We are happy to state that we are now in a position to give an unqualified contradiction to the statement, on the authority of no less a party than the General Manager of the road, who is taking the necessary means to obtain the authority for its pbblication.

The Chatau St. Louis Hotel Company.

A. W. Suter, Esq., of Boston, a shareholder and director in the above company, was in town yesterday with proxies from several subscribers in Boston for the purpose of organizing the Chateau St. Louis Hotel Coy. Mr. Suter attended a meeting of the directors of the Quebec Hotel Coy., when arrangements were made, satisfactory alike to both parties interested. Mr. Willis Russell has been appointed President of the Chateau St. Louis Hotel Company.

Personal.

R. McLeod, Esq., left for Montreal yesterday morning to take part in the examinations of candidates for admission to the profession of chemist and apothecary. The students presenting themselves are principally from the Montreal College of Pharmacy, though some have qualified at the Laval University of this city.

Mr. Chas. Langelier, advocate, has gone to Ottawa, on professional business.

A Chance for Poets.

The proprietors of the St. John *Globe* offer the sum of fifty dollars for a Centennial ode—the competition to be confined to residents of the Province at the present time. The mode in which competitors are to send in their poems will be announced hereafter; the time is limited to the evening of May 12, and any competition not in on that evening will not be examined. It is a condition that the ode shall not contain less than forty lines, and it ought not to exceed sixty. It must be of a fair order of literary merit, and its leading idea—its motive—should be not merely the foundation of the city of St. John, but its Centennial anniversary; so that the spirit of the present rather than of the past shall find expression in it.—St. John *Globe.*

Wiggins wanted wind. Wiggins wished waves. Wiggins wagered wind would wallop wild. Wide wasting waters would wave. World would wobble. Wrecking winds would waft with woeful wastage. World wondered. Women watched wakefully. Widows wailed. Wicked wights winked wittily. Wiggins waxed wanton, writing woeful words. Weeks wore. Wiggins' wind wave weather wouldn't work. Wrecks, waves, winds were wanting. World warbled: Wiggins was wrong. Wicked Wiggins! Windy Wiggins! Would-be weather-wise, wild, weird, wizzard Wiggins!—*Chicago Tribune.* Wish Wiggins was where W's weren't wanted.—*St. John Telegraph.*

QUEBEC, THURSDAY, APL. 26, 1883

THE ROYAL SOCIETY.

We publish to-day in our Ottawa telegram a very gratifying piece of intelligence. The Premier has very kindly and fittingly placed in the Estimates an item which is of great importance to every cultured mind in Canada. The sum of five thousand dollars, we hear, has been allotted to the Royal Society to aid that institution, composed of English and French-Canadian literary and scientific men, drawn from each section of the Dominion, in publishing their annual volumes of Transactions or Proceedings. The Society was founded last May by His Excellency the Marquis of LORNE, and it will meet this year on the 22nd of May next at Ottawa. The gathering will likely be very large and distinguished. Representatives from all the leading kindred societies of Canada and elsewhere will also be present. Principal J. W. DAWSON, of McGill University, Montreal, is the President of the Royal Society, and the Hon. P. J. O. CHAUVEAU, LL.D., of Montreal, is Vice-President.

RAILWAY STATISTICS.

Parliamentary reports continue to reach our office, though we thought we had exhausted our list long ago. So few of the valuable statistics presented in these blue-books, ever reach the public, in whose interest they are prepared, in the form in which they are sent out, that we feel that we must give a good deal of our space to them from time to time, else the people would know very little of what is going on around them in the different departments of Canadian administration. The latest report which has come to hand is a short volume of returns from the railway department. It contains several useful statistics about the railways of the Dominion, which have been prepared by COLLINGWOOD SCHREIBER, Esq., C.E., Chief Engineer and General Manager of the Government Railways. The report is for the fiscal year ending 30th June, 1882, and Mr. SCHREIBER complains that the returns obtained from the companies are in many cases incomplete; and the changes which have taken place in the management of some of the leading railways have been permitted to interfere unduly with the promptitude and completeness of their returns. Upon reference to the tables, the General Manager says, it will be seen that amalgamation has proceeded apace, and traffic has in nowise flagged. The significant fact is pointed out that the increase in receipts is by no means in proportion to that in the traffic, whether passenger or freight; the increase in the number of passengers carried being 34 per cent, and that in the receipts only 22 per cent, while the freight traffic shews on unincrease of 12 per cent in tonnage, and at the same time an actual diminution of 5 per cent in the receipts.

Mr. SCHREIBER thinks that the time has arrived when it would be expedient to extend the powers of the Railway Committee of the Privy Council, so as to enable them to deal with the unguarded level crossings on all railways in the Dominion, and also regulate the height of all overhead bridges,—a suggestion, which we believe is worthy of being adopted.

The General Manager, treating of the Canadian Pacific Railway, observes that the mileage under traffic on the 30th June, 1882, was, in reality, 765¾ miles, but inasmuch as that portion of the road between Montreal and Ottawa (making, with its branches, 156¾ miles) was only acquired some two weeks previously to that date, and had until then formed part of the Q. M. O. & O., it is included in his report in the mileage of the latter road, the business done upon it during the last fiscal year having been, with the exception of that of those two weeks, performed by that railway, and included in its return. The full mileage (339) is therefore given to the Q. M. O. & O., leaving 609 miles to the Canadian Pacific.

Several valuable tables are given in the report before us. They deal with capital, characteristics of roads, rolling stock, operations of the year and mileage, freight carried, earnings, operating expenses, accidents, &c. All of these are worth looking into.

The total mileage of the country on the 30th June, 1882, was

Railways in operation	7,530.44

Fast Mail Transition!

(To the Editor of the Morning Chronicle.)

SIR,—Mail train for Sherbrooke and intermediate stations by Q. C. Railway, leaves Levis daily at 1.10 p.m. (Quebec time). Mail bag is closed at *town* of Levis Post Office at 10.30 a.m., distance from Post Office to station one mile, time occupied two hours and 40 minutes. Merchants here are obliged to send their letters up to station, and were it not for the courtesy of the mail clerks on trains who take charge of them, would doubtless often have to send them up to Beauce by carters or wait until 10.30 next day.

GUY.

Levis, 24th April, 1883.

NEW BLOOMFIELD, MISS., Jan. 2, 1880.

I wish to say to you that I have been suffering for the last five years with a severe itching all over. I have heard of Hop Bitters and have tried it. I have used up four bottles, and it has done me more good than all the doctors and medicines that they could use on or with me. I am old and poor but feel to bless you for such a relief by your medicine and from torment of the doctors. I have had fifteen doctors at me. One gave me seven ounces of solution of arsenic; another took four quarts of blood from me. All they could tell was that it was skin sickness. Now, after these four bottles of your medicine, my skin is well, clean and smooth as ever. HENRY KNOCHE.

SUTHERLAND'S TRADE MARK RHEUMATINE

THE GREAT CURE FOR

RHEUMATISM

And all complaints of a Rheumatic nature,

RHEUMATINE is not a sovereign remedy for "all the ills that flesh is heir to," but for NEURALGIA, SCIATICA, RHEUMATISM, and complaints of Rheumatic nature.

IT IS A SURE CURE

From Mr. EDWARD MITCHELL, Manager of the Bank of Commerce, Hamilton, Ont.

Hamilton, January 18th, 1883.

J. N. SUTHERLAND, St. Catharines.

My Dear Sir,—I am in receipt of your favor of yesterday's date, asking my experience with regard to RHEUMATINE, and I have no hesitation whatever in pronouncing it a success in my case, and in heartily recommending the remedy to those suffering from Rheumatism. I suffered for months with that trouble in my right arm and shoulder, and often was unable to use my hand, and at night the pain was frequently so great as to render sleep an impossibility. I must confess that I entertained a repugnance to "patent" medicines, but some of my friends persuaded me to try "Rheumatine," and although it may be true that *I might* have got well without it, *one thing I do know*, that after taking four bottles *the pain took its departure*, and *I have now the full use of my arm*. I heartily wish you unbounded success, as I fully believe your remedy is all that you advertise it to be.

I am, my dear sir, yours most truly,

E. MITCHELL.

NOTES FROM THE CAPITAL.

(*Special to the Morning Chronicle*)

OTTAWA, April 25—You, in common with all cultivated persons in the Dominion, will be be very glad to hear that Sir John A. Macdonald has had placed in the Estimates the sum of five thousand dollars for the benefit of that eminent body of distinguished scientific and literary men, the Royal Society of Canada, which was formed last year by the Governor-General. The money will greatly assist the Society in publishing their annual volume of proceedings,—a work which promises to be of the utmost value to our common country, as shewing the intellectual progress of the Dominion in all departments of thought.

The Committee on Inter-provincial trade met this afternoon and adopted a report which is merely the reproduction of portions of the evidence given before the Committee, and does not contain any suggestion as to the best means of increasing the trade between the different Provinces. The report was presented to the House this afternoon.

The License Committee met this morning and the proposed bill was amended as far as the Province of Quebec is concerned so as to limit the number of licenses in towns and villages to two where the population does not exceed 500. When the population exceeds 500 one additional license may be issued for each additional 500 of population. The majority of the whole municipality may, by petition, prevent the issue of any license whatever, and county councils will be empowered to limit the number issued still further than that laid down in the bill. There is also a clause inserted in the proposed measure prohibiting the proprietor of a public house or hotel from treating his visitors or customers; the minority of the Committee, however, protested against this. It was ultimately agreed to have the bill printed, and that another meeting will be held to finally consider the matter, and report to a Select Committee.

Sir C. Tupper will act as Minister of Marine and Fisheries during the absence of Mr. McLelan.

Mr. Clayton Slater, of the Craven Cotton Manufacturing Company, of Brantford, accompanied by Mr. J. J. Hawkins, M. P., had an interview to-day with Sir L. Tilley with reference to a slight increase of duty on wincey. At present there is no factory for the manufacture of winceys in operation in Canada, but Mr. Slater has imported a large amount of machinery specially intended for making winceys and some $150,000 has been invested in the enterprise. He contends that the changes made in the tariff by the resolution just passed reduces the duty on wincey to about 20 per cent, while with a tariff of 27½ or 30 per cent winceys could be successfully manufactured in Canada. He therefore asked that the resolutions should be changed so as to increase the duty. Sir Leonard regretted that Mr. Slater had not make his application earlier, as the resolutions had been adopted by the House. It was rather late to ask to have them changed. He promised, however, to bring the matter under the consideration of his colleagues and make a special representation of the circumstances of the case.

Hon. Messrs. Mousseau, Lynch, Wurtele and Blanchet have arrived here for the purpose of presenting to the Dominion Government the address adopted at the recent session of the Quebec Legislature asking for an increase in the subsidy to the Province. They will have an interview with the Premier to-morrow.

News of the City and District.

SUDDEN DEATH.—A young child named Legare died suddenly in St. Sauveur yesterday while drinking a cup of tea.

FUNERAL.—The funeral of the late Madame Baillairgeon was held yesterday morning at the Basilica, His Grace the Archbishop officiating.

INTERCOLONIAL RAILWAY.—The *Canadien* is strongly in favor of the establishment, at Levis, of workshops for the Intercolonial Railway.

DANCING.—Professor R. J. McDonald intends to hold a dancing class here in the course of a few days, to which he will give a term of sixteen lessons in all the most fashionable dances of the day.

RECORDER'S COURT, YESTERDAY.—Judgment was rendered in the dog case, Lieut.-Col. Pope's action being dismissed. Fifty suits against defaulting taxpayers were taken under deliberation.

POLICE COURT, YESTERDAY.—Napoleon Guay, of the town of Levis, pleaded guilty to having assaulted one Leclerc. The assault being of a trivial character, he was fined fifty cents and costs or eight days.

QUARANTINE.—Dr. Montizambert is awaiting orders, momentarily expected from Ottawa, to hire a steamer, when he will, with his staff of officials and nurses, at once proceed to Grosse Isle for the season.

W. C. A.—Attention is directed to the advertisement in another column of a meeting of the Women's Christian Aemperance Union on Friday at 7.20 p.m., in the Jeffrey Aale School. Addresses and singing. Everyone cordially invited.

ACCIDENT.—A man named Parent was very seriously injured yesterday, in the Rubber Factory, by his falling between two rollers. One arm was completed smashed, and it is feared his injuries are such that he will scarcely recover.

SALE of 500 rubber coats this morning, at eleven o'clock, at Messrs. Maxham & Co.'s office. Particular attention is drawn to the above; they will be sold in lots to suit purchasers. Recollect this morning at eleven o'clock.

THE INQUEST YESTERDAY.—An inquest was held yesterday morning on the body of Joseph Allaire, printer, who died suddenly, when a verdict was rendered of death from disease of the heart accelerated by indigestion. The funeral will take place at 3.30 p.m. to-day.

DONATION.—The President of the "A" Battery, R.S.G., Temperance Association has much pleasure in acknowledging the receipt, through the Rev. Robt. Ker, Rector of Trinity Church, of a collection of the "Seaside Library," from Mr. Wm. Hossack, Mount Pleasant.

FALSE.—The statement published yesterday morning by the *Canadien* and copied last night into all the other French papers, to the effect that the young man McCannon, who was thrown out of a caleche on St. Joseph street had succumbed to his injuries the night before last, is altogether devoid of truth.

BAIL REFUSED AGAIN.—The advocates of Sauviat, one of the parties inculpated in the Turgeon manslaughter affair, again applied to Judge Tessier yesterday to bail him under a *habeas corpus*, supporting the application this time by a medical certificate setting forth the serious illness of the prisoner's wife. Judge Tessier saw no reason to change his former decision on the subject.

FIRE AT ST. ROMUALD YESTERDAY.—The fire which made so bright a reflection at an early hour yesterday morning destroyed completely the general store of Mr. Ferdinand Villeneuve, of St. Romuald, and its contents. The following offices are interested:—$3,000 in the Liverpool, London and Globe, $4,400 in the Commercial Union, and $600 in the Royal.

QUEBEC VIGILANCE ASSOCIATION.—On Friday last, the Central Committee of this association, having done a good deal of business—adjourned until to night, as will be seen by an advertisement in another column. Among other things, it was *unanimously* resolved, to oppose every applicant for *double license*, especially grocers applying for tavern license. The Central Committee will to-night continue is scrutiny of the list of applicants for license, and oppose every objectionable or unfit person that may present themselves.

GRAND OPERA COMING.—We understand that on the 7th, 8th, 9th and 10th of next month the Grand Opera Company of the Bijou Theatre, New York, will perform in Quebec. The troupe will comprise 40 people, magnificent costumes, their own orchestra, &c. The repertoire will include Iolanthe, Pirates of Penzance, Chimes of Normandy, &c. It has not yet been decided which opera will be given here, but we may expect to see something good. The prices for the occasion will be popular, in spite of the expenses. Further particulars will be given soon.

CONCERT TO-NIGHT AT Y. M. C. A.—This concert promises to be one of the best of the season and will form a fitting conclusion to the many entertainments Quebec people have enjoyed this winter. The programme is first-class in excellence and variety, and we feel sure will draw a large audience. We should advise an early attendance in order to secure a good seat. Miss Armstrong's whistling will be a novel but pleasing attraction. The press of the neighboring Province speak of her performances in the following manner:—"Of course, the principal attraction of the evening was Miss Jennie Armstrong's wonderful whistling. Miss Armstrong is a musical prodigy, and we can no longer be surprised that she enraptures her audience wherever she appears. Her whistling is more like the warbling of some sweet-toned bird than the sounds one would expect to issue from the lips of a human being. Her rendering of the 'Mocking Bird,' with piano accompaniment, was simply enchanting. She was rapturously encored at each appearance."—Napanee (Ont.) *Express*, Oct. 24, 1879. "The greatest interest centred in the whistling of Miss Jennie Armstrong. Her selections were Hoffman's 'Mocking Bird' and 'Hear me, Norma.' The performance was pleasing as well as novel, and was enhanced by the excellent accompaniments she played. As a whistler she is indeed a prodigy, and her sustained efforts and warblings were something wonderful, and called forth the heartiest applause."—Guelph (Ont.) *Daily Mercury*.

TORONTO, April 26, 1 a.m.—Upper and Lower St. Lawrence—Moderate winds and fair mild weather.

Gulf and Maritime Provinces—Moderate to fresh winds and fine weather.

Collision and Loss of Life.

London, April 25—The ship "County Aberdeen," from Calcutta, collided off Owner's Lightship with the ship "British Commerce," bound for Melbourne. The latter sunk with 25 of the crew. The weather was thick at the time.

The Allan mail ss "Caspian," Capt Thomson, from Liverpool, via St. Johns, Newfoundland, and Halifax, arrived at Baltimore at 2 p.m. on Tuesday.

FOR PASPEBIAC, &C.—The ss. "Otter," Capt. Geo. M. May, was taken out of the Princess Louise Dock yesterday, and moored alongside of Fraser's wharf, where she is loading merchandise for the above port.

Trinidad, April 4.—Sailed, bark "Ivy," Capt. Glen, for Montreal.

Barbadoes, March 29.—In port, brig "St. Joseph, (of Quebec,) Capt. Bosse.

The Upper and Lower Traverse Lightships were towed from winter quarters, at Blais' Booms, yesterday morning, by tug "Victor," and moored alongside of Crawford's wharf, where they will take in their stores, &c., before leaving for their summer stations.

Halifax, April 25—Steamer "Hibernian," arrived this evening from Baltimore, and sails at midnight for Liverpool via St. Johns, Newfoundland.

Liverpool—Off Point Lynas, April 10, "Princess Alexandra," Killett, for Quebec.

Liverpool—Off Holyhead, April 10, "Queen of Nations," for Quebec.

Barbadoes—Arrived, March 23, "Golden Rule," Williams, Montevideo, to load for Quebec and Montreal.

Portland, April 21—Saturday a board of survey, consisting of Capt. J. B. Coyle, James Bain, Joseph W. Dyer, Charles H. Chase, W. B. Jones, port warden, Geo. W. Beal, of the Portland Company, was held on the steamer "Brooklyn." A. A. Strout, Esq., was also present as attorney of the line. The object of the survey was to examine the condition of the steamer and report upon the feasibility of floating and repairing her. After the board had inspected the vessel, Capt. Merritt, of the New York Wrecking Company, which has taken the contract to raise the steamer, gave his opinion of the wrecked steamer's condition substantially as follows:—He has examined the steamer all over, with the exception of about 70 feet in her centre, and finds it all right—no hogging, and even the deck bolts are not a particle strained. The 70 feet not examined is filled with grain in bulk, and this is being rapidly removed, and he expects to be able to examine 40 feet farther. He further stated that providing the remaining 30 feet is in a very bad condition (though he does not think it is), he can put in two bulkheads, filled with casks or some other buoyant material. He was very confident the steamer could be floated and repaired so as even to make the passage to Europe safely. It is understood the board will report in accordance with Capt. Merritt's views. It is thought it will cost $75,000 to float and repair the steamer.

London, April 25—There is much anxiety regarding the steamer "Hapsburg," which sailed from Southampton for Bremen on the 19th and has not yet arrived at her destination.

Halifax, April 25—Steamer "Valetta," Capt. Koenrig, from this port, for Boston, reported ashore on a reef outside Liverpool, Queen's Co., and it is said will be a total wreck. No lives are reported to have been lost.

I see the plumed knights to battle ride,
And my heart bounds to martial music strong;
I hear the orator denouncing wrong,
And hail him my soul's star and staff and guide;
Then two young lovers wandering side by side
And hand in hand Life's sinuous path along
Fill me with Love's delight and amorous song,
And maddening ecstasy of Youth's spring-tide.
The plumes and pennons vanish from my sight;
The voice dies in the distance; and, behold,
Those lovers have been swallowed up of night.
I linger lonely in the darkness cold;
I slay no wrong, in no great cause I fight;
And no one kisses me; and I grow old.
—HERBERT E. CLARKE, in *Harper's Magazine for May*.

The Montreal Harbor Commission Debt.

(*To the Editor of the Morning Chronicle.*)

SIR,—It is gratifying to see that the Board of Trade have got some life left in them, as evidenced by the late deputation to Ottawa to protest against the assumption by the Government of the debt of the Montreal Harbor Commission, and also, in all probability, of the expense to be incurred in still further deepening the channel between Montreal and Quebec.

Mr. Shehyn is a live man and he will yet succeed, I trust, in galvanizing Quebec people into the idea of doing something to help themselves. The truth is we are too slow at begging, and do not persecute the Government with deputations, as other cities do. If we did we would be the gainers.

Now, with regard to the late deputation. Is it not just possible, Mr. Editor, that if we succeed in preventing the Montreal people from carrying their point, we may be destroying a policy which would be productive of good to the commerce of the Dominion? All admit that it is desirable to attract the grain trade of the West to the St. Lawrence route. In order to do that, we must have cheap ocean freights; and to attain this the charges on shipping should be reduced to a minimum, and the route made available to the largest tonnage. If the Government accede to the wishes of the Montreal people, Montreal will become, practically, a free port, and there can be no doubt that tonnage will be attracted there, with a consequent reduction in ocean freights sufficient to place that port on a footing of equality with New York, Boston and other Atlantic ports, or perhaps eventually in a better position to the extent of the dues exacted from shippings at these ports. If this could be attained, an enormous impetus would be given the western trade to the St. Lawrence route, and Quebec, St. John and Halifax would no doubt benefit thereby. As it is now, Montreal is not holding her own in the grain export business. On the contrary, her proportion of the whole trade at all Atlantic ports is less than it was many years ago, when the total business was much smaller than it is to-day.

No doubt the late deputation quite understood these points, and probably intended, not so much to oppose the views of Montreal, as to ensure that if they were conceded, Quebec would be put upon the same footing. But could it not be arranged between us and the Montreal people that the just claims of Quebec upon the Dominion Government—such as the entire completion of our harbor works, the completion of the subsidy now granted to a portion of the Lake St. John Railway, and sufficient aid to ensure a bridge to bring the Intercolonial into the city and thus to secure the winter export trade of the west to St. John and Halifax—that all these ameliorations could be united in one scheme with the entire pretensions of Montreal, and carried out by the Government?

In this way the St. Lawrence route would get the business, and all parts of the Dominion would benefit, instead of, as at present, allowing local jealousies to injure all.

Yours truly,
QUEBEC.

SIR,—Mr. Brymner's copious report should furnish matter for a vast deal of disquisition to those desirous of studying the trade of Canada, in the past. At page 49 occurs a summary of the arrivals from sea during the season of navigation (10th June to 19th November), 1791, together with a table of the exports from the port of Quebec.

The staples seem to be wheat—of which 195,375 bushels were shipped in the 84 vessels which sailed outwardly that year. 12,719 bushels of flax seed, 5,600 bushels of oats, 24,000 hoops, 1,554 tierces of salmon, 7,088 casks of essence of spruce, 36 kegs Canada balsam, 244,263 pipe and puncheon staves, 5,000 bricks, 1,859 feet oak timber, 26,000 pieces pine boards, 10 live oxen, 66 kegs of cranberries, 3,455 casks of oil, 60 white pine masts, 39 white pine bowsprits, and various other articles. It would be worth while, in order to show the expansion of Canadian trade since 1791, to compare the exportation of similar articles for 1882.

At page 68, appears a statement of Customs appointments at Quebec and Montreal since 1760. We read that Thomas Knox was appointed the first collector of His Majesty's Customs at the port of Quebec on the 5th April, 1762. Thomas Ainslie, the first controller, was appointed, the Customs establishment duly organized, and Quebec constituted a port of entry. Montreal was at the same time created an outport of Quebec, Thomas Lambe being made surveyor, and Richard Oakes waiter and searcher.

Thomas Ainslie was collector of Quebec, and Charles Stuart controller, 1799.

Scott, collector, died in 1810.

M. H. Perceval, collector, 1810.

M. H. Perceval died at sea on 13th October, 1829.

L. H. Ferrier made collector, 1830.

Montreal made a port of entry for general purposes, 1831. (During this year there were two steamboats employed in towing vessels from Quebec to Montreal. The boats, it was represented, had enough power to bring up four vessels at a time, besides barges fully laden.)

In the port of Montreal 80 vessels of 19,085 tons arrived from sea in 1831. 117 vessels of 27,764 tons in 1832.

Henry Jessupp, surveyor, was made collector of Montreal, and William Hall, waiter and searcher, was made controller, 1832.

L. H. Ferrier, collector of Quebec, died in February, 1833.

Henry Jessupp, collector of Montreal, was promoted to be collector of Quebec, and William Hall, waiter and searcher, was promoted to be collector of Montreal, June, 1833. (The office of controller was this year abolished in the Customs. All the foregoing appointments were made by the Lords of the Treasury and the Board of Commissioners of Customs, London.)

John William Dunscomb, the Commissioner of Customs, Canada, was appointed collector of Her Majesty's Customs, Quebec, *vice* Henry Jessupp, retired on full pension by the Imperial Government, and the Hon. Louis H. Massue was appointed surveyor, *vice* Charles Grey Stewart, 1851 (These were the first appointments made at Quebec by the Government of Canada, though the Customs establishments were gradually handed over from the Board of Customs, London, to the Government of Canada from the year 1849.)

Who will furnish information as to the personnel of the Customs service under the French *regime?*

Swapping a Jackass for a $40,000 Lot.

From the Pittsburgh Dispatch.

Henry Clay once owned the lot opposite the White House, in Washington, and Commodore John Rogers wanted it, but the old Whig persistently refused to dispose of it. On his return from the Mediterranean the Commodore brought in one of his vessels a fine Andalusian jackass, which Clay wanted for his Kentucky stock farm. All his offers were rejected, until one day the Commodore said: "You can have him for your lot opposite the White House." "Done," was Clay's reply, and the animal was shipped off to Kentucky. The Commodore built the now historic house which Secretary Seward occupied during the war. Here Payne endeavored to assassinate him on the night when President Lincoln was shot. The lot is now valued at $40,000.

The other day a Florida couple, aged sixty years each, rode thirty miles in a springless cart to get married.

Holloway's Pills and Ointment.—Diseases of Women.—Medical science in all ages has been directed to alleviate the many maladies incident to females, but Professor Holloway, by diligent study and attentive observation, was induced to believe that nature had provided a remedy for those special diseases. He has, after vast research, succeeded in compounding his celebrated Pills and Ointment, which embody the principle naturally designed for the relief and cure of disorders peculiar to women of all ages and constitutions, whether residing in warm or cold climates. They have repeatedly corrected disordered functions which have defied the usual drugs prescribed for such cases; and still more satisfactory is it that the malady is relieved completely and permanently.

CORRECTIONS.

In the correspondence published last week the heading to "Chess Player's" letter should have read "What has Quebec," etc. In the eighth line, third paragraph of Mr. Champion's letter, the word "players" should be in the singular number, and in Mr. Sanderson's letter, second paragraph, read "I misread Toronto's tenth move," etc.

(*To the Chess Editor of the Morning Chronicle.*)

SIR,—The correspondent "Chess Player" of the Toronto *Mail*, of 9th instant, is a hard nut; a rough, tough chess nut, hard to crack and difficult to solve. He will find, however, that the rotten kernel of his fruit will rank foul immeasurably in the estimation of the maligned twelve who now sit on his hardened case, and that his position will speedily be reduced to the weak consistence of watery gruel, and resolve itself into a dew—this is the dew that Shakspeare drew. "Chess Player" ventures to invert his commas when referring to the "gentlemen" who composed the Quebec team in the late telegraphic match against Toronto.

What biting sarcasm is sometimes pointed at by the insertion of simple marks at both ends of a single word, and that—"gentleman." Eliza Cook, knew full well what stuff 'tis made of, whereof 'tis born, but cracked "Chess Player," in the want-wit which sadness makes of him, has much ado to know himself, fails to appreciate the spirit rare, half human, half divine which is the mould of Nature's Gentleman.

There is always Balm in Gilead, which brings healing to every wounded feeling. Toronto, having beaten Quebec last year in the proportion of 2 to 1, smarts now under a galling defeat of 5 to 7. There is balm in Gilead, however, which is applied dexterously to their rankled sores. Speciously consolation comes to the Toronto players, who dashed by adverse tide,—in the words of the *Mail* it is; "Toronto cannot place 12 men in the field." On this point, Quebeckers are "gentlemen" sufficiently to waive discussion, and make the concession without concussion. Again, Gilead's ointment is applied by "Chess Player" to the flattened out souls of the disappointed Western Caissians, but mourning lamentably, he wails: A little twelve month agone our players played and played abominably well,—or words to that effect,—but now their occupation has departed from them, luck has deserted them, and hence our disaster, which needs a sticking plaster.

Luck, therefore, being an admitted element into Toronto's chess strategy I must make concession No. 2, and yield the palm in this respect to our sister players—I mean players in our sister city whose population exceeds ours by 25,000, and yet publicly declare that they can only place a corporal's double guard in the field to face the veterans of Stadacona in a fair, square, stand up fight. 'Chess Player" is evidently one of them—one of the twelve. Let him not deny it thrice, his speech betrays him. He must have seen with his ears, and heard with his eyes, the odious telegram from Toronto, and Quebec's "gentlemanly" reply thereto, in relation to a difficulty which occurred at Board H, betwen Mr. Fletcher, of Quebec, a gentleman of high repute, and Mr. Meyers, of Toronto. The wording of the insulting telegram here referred to was almost identical with "Chess Player's" sweeping assertion that Quebec wanted to win the laurel by hook or crook, and depended more on quibbles and quirks than good or scientific play—or words to that effect.

Perish the thought! Mr. Editor, is there a dweller in this proud city, either within or without its walls,—is there one here native or to the manor born—is there a denizen amongst us—is there a bat or an owl; a mural or an extra-mural, or an intra-mural, or any kind of mule, who would even surreptitiously entertain the semblance of a remote idea that the chess players of Quebec, whether collectively or individually would either by will or deed offer to do any injustice, in any manner, to any competitor, or any number of them, whether good and true men, or traducers of fair fames or any other kind of wolves in Chess Garbs. O monstrous fault, to harbor such a thought!

What are the facts connected with the dispute at Board H.? Notwithstanding the renewed agreement, oft repeated, that games shall be conducted on chess principles—strictly—Mr. Meyers, of Toronto, at a certain stage of the game having by some means, best known to himself, made a move which involved the immediate loss of his Queen, requested, politely enough, that he should be allowed to make some other move in lieu of his last one. Naturally a discussion hereon took place, which led to the foul aspersion before mentioned upon our Quebec players generally, but for which the President of the Toronto Club made the *amende honorable;* and Mr. Fletcher, very considerately, wisely and in the kindest manner possible intimated his desire to gratify his opponents wish, but feeling confident of the result asked for an hour's longer play to bring his man to bay, and bay his man did four or five moves thereafter.

Will "Chess Player" still attempt to maintain, or endeavor to uphold his untenable position, after this plain and unvarnished tale, that Quebec tried to win the match by quibbles and quirks? Bosh and nonsense! Toronto is very lucky in its chess encounters, and as the players of that city say, when their luck deserts them they are down, down, down among the dead men, to be buried in oblivion. Last year our Mr. Sanderson, in his game with Mr. Lee, could have won by force, but luck favored Toronto, and our player barely escaped with a draw. This year again by some fatality the same player resigned after ten moves by the force of Toronto's luck. Mr. Champion, on the last night of play, by a careful analysis of position at a time when his opponent declared to win, had a forced draw, but luck again favored Mr. Gordon, and he scored his game. Mr. Andrews' game with Mr. Phillips was conducted splendidly throughout, and nothing could be more beautiful than the end game at the time when Mr. Phillips sensibly resigned. Mr. Andrews is to be congratulated on the beautiful conduct of his pawns. We commend the situation of his game at the close to the careful attention and study of the amateurs of Quebec, and Toronto especially. A short sighted policy indeed was that of the Toronto player at Board L in playing till checkmate was announced by Mr. McCallum, who is a rising player of great promise. Lastly, nothing could have been more absurd than for Dr. Ievers' adversary at Board M to talk about Quebec winning by quibbles and quirks, when the veriest tyro can see that his game is played out as thoroughly as "chess players' pretensions in the premises.

Quebec shall never have it said that she will by quibbles and quirks take advantage of either weaker or stronger players than they. Toronto may act as she thinks proper in such matters, and get all the credit she can by any means, whatever, but Quebec must ever stand pre-eminent as the chosen home of chivalry, the Garden of Romance. The Quebec six fear none, and any other six will always find them ready to accept a challenge or give one if necessary. Justice and mercy form their code—they put their trust, not in luck, but pluck; their prayer is, if the heart mean well, let all else be forgiven. "Chess Player" of Toronto's heart does not mean well, therefore let him take the consequences.

I have to thank you, Mr. Editor, for your insertion of this lengthy epistle, and more, for your kindness generally to all true lovers of the noble game of chess, at all times and upon all occasions; for the evidences of your desire to promote the healthy growth of practice in our midst; for your unswerving devotion to the interests of our club, and for the inestimable benefits which we have received at your hands through the medium of your invaluable chess column. Adieu! No, not adieu! Au revoir.

DOMINION PARLIAMENT.

HOUSE OF COMMONS.

OTTAWA, April 25—The House met at 3.30. After routine,—

SUPERANNUATION.

On motion of Sir L. TILLEY the House went into Committee of the Whole on the resolution to amend the acts relating to the superannuation of persons employed in the Civil Service—Mr. Rykert in the chair.

The resolution passed.

The bill was introduced and read a first time.

P. E. I. ELECTION CASE.

Hon. Mr. BLANCHET moved the adoption of the report of the Committee on Privileges and Elections on the King's, P.E.I., election case, giving the seat to Mr. Macdonald.

Mr. HALL in seconding the motion reviewed the case at some length, and said by the evidence adduced there could be no doubt that Dr. Robertson was a member of the Local Legislature at the time of his nomination for the Commons, and therefore disqualified so that the votes polled for him were simply thrown away.

Mr. WELDON contended that as Mr. Robertson received the highest number of votes he ought to have been declared elected without any questions as to his qualification. In conclusion he moved an amendment to the motion that all the words after "and that" be struck out and the following inserted in lieu thereof: "In view of the previous Dominion Election Act of 1874, and the duties of the returning officer as therein defined, and also in view of the facts elicited from the evidence produced before the Select Standing Committee on Privileges and Elections now before the House, it was the duty of the returning officer at the last election for the electoral district of King's, P.E.I., to declare and determine James Edwin Robertson as one of the members elected at the said election."

Mr. CAMERON (Huron) followed in support of the amendment, and was still speaking at six o'clock.

AFTER RECESS.

On motion of Mr. COLBY, the House went into Committee on the act to authorize the Grand Trunk Railway Co. to extend their traffic arrangements with the North Shore Railway Co. to fifty years.

The bill passed through Committee and was reported without amendment.

KING'S, P. E. I. ELECTION CASE.

Mr. CAMERON (Huron) continued his remarks in favor of the contention that the report of the Committee should not be accepted. He held that there was some legal doubt in the case, and that therefore the highest legal authority in the land, the Supreme Court, should be appealed to. He moved an amendment to the amendment, to the effect that as under clause 54 of the Supreme Court Act the Governor-in-Council had the right to refer a case to the Supreme Court for information therefore this case ought to be referred to the Supreme Court for the purpose of asking a decision as to whether Dr. Robertson was eligible as a candidate on nomination day, and also whether the returning officer should not have declared him elected.

Sir JOHN MACDONALD said that the contention was not supported by the statute. The clause referred to was copied from the English act which was intended to enable the Crown to consult the Judicial Committee of the Privy Council on matters concerning any conscientious doubt which might exist in the mind of the Crown, but it had nothing whatever to do with elections.

Mr. McMASTER strongly supported the report of the Committee.

The debate was continued by Messrs. Girouard, (Jacques Cartier), Davies, Cameron, (Victoria), Weldon and others.

At 12.30 the members were called in, and the House divided on Mr. Cameron's amendment to the amendment which was lost, yeas 64, nays 108.

Mr. Weldon's amendment was declared lost on division.

Mr. DAVIES moved an amendment to the main motion that the House having declined to give the seat to Dr. Robertson, the election for the second member for Kings should be declared void, and a new election ordered.

The House divided, and the motion was lost, yeas 66, nays 108.

The vote was strictly a party one, with the exception of Mr. Girouard (Jacques Cartier) and Mr. Patterson (Essex), voting with the minority.

The House then divided on the main motion, that the report of the Committee be accepted, which was carried—Yeas 107, nays 66.

Hon. Mr. BLANCHET moved that the Clerk of the Crown in Chancery do attend this House forthwith with the return for the last election of Kings, P.E.I., and amend the same by erasing the name of J. E. Robertson.—Carried on division.

The Clerk of the Crown attended, and the return was after some discussion amended so as to declare that A. C. Macdonald received the second highest number of votes legally cast.

The House adjournad at 1.45.

AN ABLE WORK ON NEWFOUNDLAND.

For very many years the best authority on all matters appertaining to the Island of Newfoundland has been the Rev. Moses Harvey, of St. John's. He has furnished the leading learned societies of the world with valuable data on the subject, and he was selected by the editor of the new edition of that great work, *The Encyclopædia Britannica*, to furnish the articles on Newfoundland and Labrador for its pages. He has visited every section of Newfoundland and is thoroughly familiar with every nook and corner of it, and is therefore admirably well qualified to write about it. In company with Mr. Joseph Hatton, an English author of repute, Mr. Harvey has just published through the press of Chapman & Hall, London, a massive and splendidly illustrated book, entitled "Newfoundland; the oldest British Colony, its history, its present condition, and its prospects in the future." It is one of the most instructive and interesting that the press of England has given us for a long time. It deals with the subject in a pictorial and striking way, takes up its history, social life, political and religious and economical surroundings, and describes at great length its commercial aspects and the natural resources of the place. Both writers possess a glowing and eloquent style, but the careful reader will very readily detect Mr. Harvey's contributions to the volume, which are at once picturesque and full of life. There is not a dull page in the book. It will do for Newfoundland what Wallace's "Russia" has done for that vast empire, and what Dent's "Last Forty years" has done for Canada. It is very complete in all its parts. Mr. Harvey has succeeded in presenting a full and thoroughly reliable account of the somewhat misknown country which stands so far out to sea in all its boldness, with the broad and characteristic view of bringing its capabilities before the world. Every chapter reveals a monument of labor on the part of the author. No pains have been spared, evidently, to secure accuracy in every detail. The matter is invaluable, the manner in which it is presented is beyond all praise.

The book is divided into six parts, and treats successively of the rise and progress of the island from its discovery in 1497 down to the present day. The first part discusses the history of the island and the early struggles of the people. The second part is devoted to an examination of Newfoundland's physical geography and topography, shewing the geological formations found there, the climatic condition of the country, its Indian population, manners and customs of the inhabitants, the vegetable kingdom, the animal kingdom, and the island as a sporting country. Part third is very valuable, as it deals exhaustively with the fisheries and throws a world of light in the prosecution of those industries. The codfish is described at length, and forms a most useful and entertaining feature of the book. These chapters are really instructive, and will well repay perusal at the hands of everybody. The seal industry is also treated very amply. Other chapters deal with the salmon and herring, and describe the fisheries as affected by international treaties, covering a great deal of ground and full of historic interest. Part fourth exhibits fully the agricultural resources of Newfoundland, and much of the information presented will be found quite new to most readers. A fine account is also given of the various streams and water courses of the country. Mineral resources form the fifth part, which the author treats in a popular vein, and shows at a glance the great value of the deposits found there. The book concludes with a graphic account of the population, farm of Government, religion, the means of communication in vogue in the island, the trade carried on, public departments, &c., &c.. all described with great fulness and care. The engravings, which are numerous, are exceedingly well done. We can cordially commend this valuable book to our readers. The price of it is 18 shillings sterling, and copies may be had by addressing the author, Rev. Moses Harvey, St. John's, Newfoundland, who will be happy to send the work postpaid, on receipt of the price.

Mr. George Sewell, of Memramcook, N. B., writing from Moncton, N. B., under date of May 7th, 1878, says:—

DEAR SIR,—In January last I came to Moncton from Memramcook to consult a physician, as I was in the last stages of Consumption. When I arrived here I had at once to go to my bed, and was so low I never expected to leave it. A physician was called who pronounced my case as hopeless; that I might live a week or two, but not certainly more. As a last resort he recommended "Robinson's Cod Liver Oil with Lacto-Phosphate of Lime." I purchased a bottle and after taking the first dose commenced to improve. It seems, after taking a dose, as if I had eaten a good, hearty meal. I have continued taking it ever since and am rapidly improving. I am confident that had it not been for your Oil I WOULD HAVE BEEN IN MY GRAVE TO-DAY. You are at liberty to use this in any way you wish, as I am anxious to let others, who are afflicted in the same way, know, in the hope that they too, may receive the same benefit.

I remain, dear sir, yours respectfully, &c.

The Bad and Worthless

are never *imitated* or *counterfeited.* This is especially true of a family medicine, and it is positive proof that the remedy *imitated* is of the highest value. As soon as it had been tested and proved by the whole world that Hop Bitters was the purest, best and most valuable family medicine on earth many imitations sprung up and began to steal the notices in which the press and people of the country had expressed the merits of H. B., and in every way trying to induce suffering invalids to use their stuff instead, expecting to make money on the credit and good name of H. B. Many others started nostrums put up in a similar style to H. B., with variously devised names in which the word "Hop" or "Hops" were used in a way to induce people to believe they were the same as Hop Bitters. All such pretended remedies or cures, no matter what their style or name is, and especially those with the word "Hop" or "Hops" in their name or in any way connected with them or their name, are imitations or counterfeits. Beware of them. Touch none of them. Use nothing but genuine Hop Bitters, with a bunch or cluster of green Hops on the white label. Trust nothing else. Druggists and dealers are warned against dealing in imitations or counterfeits.

NOT THE SLIGHTEST AFFINITY exists between the numberless cough mixtures with which the market is flooded and that successful preparation—Northrop & Lyman's Emulsion of Cod Liver Oil and Hypophosphites of Lime and Soda. It stands alone, distinct, is like itself, and nothing else. It embodies the best results of advanced pharmaceutical science. It accomplishes positive, decisive results, effectually relieving coughs (when the lungs are not tuberculous or hopelessly affected), colds, laryngitis, and diseases of a scrofulous origin. While it does not *cure* Consumption, it is the most reliable means of defence against that dreadful scourge. The invigorating properties of the hypophosphites reimburse the system debilitated by the constant wear and tear of a cough, while the paroxysms rapidly diminish in violence, in consequence of the soothing emollient action of the cod liver oil upon the inflamed lung membrane The phosphorous, lime and soda, in combination with it, are all natural components in the construction of the bodily edifice, which, in a state of decay, lacks a sufficiency of those elements. These the hypophosphite supply, increasing the nutritive properties of the blood, and building up and rehabilitating the tottering human structure with a degree of promptitude as astonishing as it is gratifying to the invalid. A perceptible gain in flesh as well as in strength is one of the consequences of using this standard preparation, which both time and experience have demonstrated to be fully worthy of the confidence reposed in it. Prepared by NORTHROP & LYMAN, Toronto, and sold by all druggists.

By Universal Accord.

AYER'S CATHARTIC PILLS are the best of all purgatives for family use. They are the product of long, laborious, and successful chemical investigation, and their extensive use, by physicians in their practice, and by all civilized nations, proves them the best and most effectual purgative Pill that medical science can devise. Being purely vegetable no harm can arise from their use, and being sugar-coated, they are pleasant to take. In intrinsic value and curative powers no other Pills can be compared with the and every person, knowing their virtues, will employ them, when needed. They keep the system in perfect order, and maintain in healthy action the whole machinery of life. Mild, searching and effectual, they are especially adapted to the needs of the digestive apparatus, derangements of which they prevent and cure, if timely taken. They are the best and safest physic to employ for children and weakened constitutions, where a mild but effectual cathartic is required.
