## ESCAPES THROUGH THE LINE

### Dewet Eludes the British and Gets Away in the Darkness.

London, February 10.—General Kitchener, in a despatch dated Wednesday, February 9, 9:50 a.m., describes successful operations by the British in the northeastern part of the Orange River Colony. A general advance was made on February 5 and 6, reducing General De Wet to great difficulties. On February 6, General Buller, realizing his position, ordered his men that night to disperse and seek safety. He, with some men, and a herd of cattle, made for the Kromaat-Hadley block house line, and at 1 a.m., when it was very dark, by rushing the cattle at the fence, he broke his way through, mired with the cattle. The horses lost three killed, 25 horses and a considerable number of cattle. On the night of February 7 many attempts were made to break through the line at various points throughout the night. As far as can be ascertained, the British casualties in these operations were 283 killed, wounded and prisoners; 500 on a hundred of their finest horses and a large number of cattle were captured. The British casualties were only ten.

## RUNS ON THE ROCKS.

### Allan Line Grecian Meets With Disaster off Halifax

#### VESSEL IS IN BAD POSITION WITH HOLD FULL OF WATER.

Halifax, N.S., February 10.—Had the fate on the rocks on the western side of the harbor the Allan Line Grecian is wrecked and while efforts are being made to pull her off, these have so far been futile and the hope of ultimate success are very slim indeed. The Grecian was on a voyage from Liverpool for this port via St. John's, N.B.I., and she had only one passenger, Henry Blair, of St. John's, who was taken off by the lifeboat crew at Ferning Cove. At 2:30 Sunday morning the Grecian took aboard Pilot William Fleming, of Chatham Head, the entrance to the harbor. A few minutes later the steamer was reported by the lookout station at Campdown. In less than an hour thereafter she was hard and fast on the rocks at Sandwick Point, just below York Robust and about five miles from her pier. Captain Harrison declined to make a statement and so did the pilot, but that it was quite clear when the steamer passed Campdown is evident from the fact that his signal corps saw and reported her. Captain Harrison, while refusing to say anything about the disaster remarked that some time before she struck a dense fog came on, and that he had no idea how he came to the position where the ship now lies, in the comparatively few minutes between the clear weather at Campdown and the onset of Sandwick Point. He also said that his compasses were right. Meagher's Beach light was last seen by the pilot when he struck, and David's Island light was two miles off. He was one mile west of Meagher's Rock buoy, where he struck, whereas he should have passed that buoy to the eastward. Pumps were got into position yesterday afternoon and an attempt will be made to get the water out and then pull her off. The engine room is dry and so are the bunkers, but in the fore and aft holds there is twenty feet of water which rises and falls with the tide, so that there is little hope of success in moving her.

## ISTHMIAN CANAL.

### WHY COMMISSIONER RECOMMENDED THE PANAMA ROUTE.

Washington, D.C., Feb. 10.—Admiral Walker concluded his testimony before the Senate Committee on inter-oceanic canals yesterday, and Colonel Haupt, another member of the Isthmian Canal Commission, is to be heard Monday next. The examination yesterday was with respect to the reasons why the canal commission changed its recommendations from the Nicaragua to the Panama route. The reasons given by the witness for this change, summarized up, are that the Panama route is much shorter, and that it has fewer curves, and that those curves which do exist are not so sharp as the curves in the Nicaraguan route. He also said he believed that with proper quarantine regulations the health conditions of the region along the Panama line could be much improved. He did not consider the present condition from a health point of view as bad. ALMOST EVERYBODY WHO GOT OUT SUFFERED SOME INJURY OR WAS FROSTBitten.

## BURNED TO DEATH.

### Eleven Lives are Lost in a St. Louis, Mo., Fire.

St. Louis, Feb. 10.—An early morning fire, yesterday, which destroyed the Elmer Hotel, a large three-story lodging house, occupied by men exclusively, caused the death of eleven persons, ten men and one woman, and dangerously injured eight others. Ten or more who had narrow escapes from death in the fire, were injured or less injured by being frost bitten. It is estimated that there were between 35 and 40 persons in the building, and it is believed all have been accounted for. It is thought that \$20,000 will cover the damage to building and contents. The fire started about 3:30, when but few persons were abroad and gained considerable headway before it was discovered. When the engines finally reached the scene the whole front of the building was in flames and the interior was a seething furnace. By that time all who escaped death had got out of the building by jumping from the windows, or climbing down ropes made of bed clothes. A few escaped from the ground floor through the front door. Some of the escapes were very narrow. Almost everybody who got out suffered some injury or was frostbitten.

## THE BOY IS FOUND.

The English house boy who disappeared from Bishop's College, last week, has been found through the advertisement inserted in the Record. Mr. H. S. Gilbert, of Brompton Falls, writes that the lad is at present staying at his home, having arrived there some days ago. He answers to the description, gives his name as Alex. O'Neill, and says he ran away from Bishop's College and does not wish to return.

## CITY NEWS.

### ING CLOSED.

The pupils of the classical course and the older of the commercial course made up an interesting audience. Mr. E. Nauhan, of Quebec, was in town yesterday.

### Mrs. F. A. Burton, of Waterville, is visiting her mother, Mrs. Finlay.

Mr. George McEvedie, of the C. P. R., has been transferred to Farmland for a few weeks, to take the place of the section foreman, who is absent.

### Mr. and Mrs. A. E. Mitchell, of Boston, G. R. Foster, and J. B. Elliott, from Plymouth, N.H., arrived from Quebec in a private car, and spent Sunday in Sherbrooke.

### Mrs. John Buchanan and Miss Buchanan, who have been the guests of Mr. and Mrs. V. R. Hall, Bowen avenue, have gone to Vergantic, to visit Mr. and Mrs. Geo. B. Sloan.

A few of the friends of Mr. Frank W. White presented him on Saturday evening with a beautiful oxen clock, accompanied by an address, in honor of his approaching marriage.

George Matis, an English boy, who has recently been driver on one of Fuller & Son's delivery teams, has disappeared. He went away last Wednesday, and has not been seen or heard from since.

### Among the recent arrivals at the Alhambra are: Messrs. E. G. Fisher, Chicago; S. E. Burnell, Toronto; W. L. Burbank, Worcester, Mass.; S. Cooper, B. J. Lomas, East Angus; Geo. F. Terrill, and H. H. Clark, Stanstead.

Mr. John Murphy, railway mail clerk between Island Pond and Montreal, resigned his duties today, after an absence of six months, on account of a severe illness, from which he has just recovered. Mr. Murphy, who lives in Richmond, has been in the service 28 years, being a great favorite with his conferees, has returned to their midst is hailed with pleasure.

### The concert of the Ladies Musical Club on Saturday afternoon, was one of the most pleasing of the season.

The programme, with one or two exceptions being from the latter concert works of Richard Wagner. In spite of the storm, the majority of the members were present, and promptly at 3:30 o'clock, the concert opened with an interesting and graphical sketch of the great martyr, by Miss Edgett, followed by the "Tannhauser" overture, admirably played by Miss Botwick, Miss Mitchell, Miss Wiggitt and Miss Hulbard. The "Mazurka" was a short sketch, from Mrs. Odell, and finely interpreted by Miss Carey. The brilliant playing of Mrs. Cole and Miss Doherty of the grand "Mazurka" from Tannhauser, was thoroughly appreciated by the audience, and the "Chorus of Spinning Maidens" was a delightful closing number. The violin playing of Mrs. Burns show gave great pleasure, her two selections, "Prelude," from "The Mestresinger," and "Wieniawski's" "Mazurka," displaying both facility of execution and purity of tone. Another enjoyable feature of the afternoon was the singing of Mr. Jack Markin, who was never in better voice.

### Mr. Villanova, from Charlotte, N.C., has arrived in town, to be present at the wedding of his sister, Miss Eddy Danahill.

Mr. and Mrs. W. L. Shurtler and daughter, Blanche, of Coaticook, spent Sunday in town, the guests of Dr. and Mrs. R. G. Fraser.

### Mr. H. R. Fraser and Mr. A. F. Fraser returned on Saturday from Louis, where they attended the funeral of their uncle, the late Mr. Rollins.

Father V. Charest, agricultural missionary, has returned from Hatley and villages in that vicinity, where he has been addressing meetings of the farmers.

Ste. Cecile Society of St. Charles Seminary, at a recent meeting adopted a resolution of condolence, expressing its sorrow at the death of a member, the late Wallace Belliveau.

### At the approaching concert of Professor Alex. Clark's pupils, the soloist on this occasion will be Mlle. Marie Terroux, who is so highly spoken of by Montreal musical critics.

Mr. W. J. Moussette, of the Metropolitan Life Assurance Co., has just returned from a business trip to New York. Mr. Moussette has just been appointed joint superintendent with Mr. E. Day, etc.

Saturday's storm caused delay of evening trains. The C.P.R. mail train was about four hours late owing to a freight train having become stalled near Stanstead. The Q.C.R. express from Quebec did not arrive till Sunday morning.

Among the officers of the Canadian militia who will be recommended for the colonial auxiliary corps officers' decoration, under the provisions of the Royal warrant dated May 18th, 1899, are Lt.-Col. W. A. Macpherson, Lt.-Col. H. H. Fraser and Major R. J. Spauring, of the 53rd Regiment.

On Saturday evening the fifteenth session of the Academy St. Pierre of St. Charles College was held at the Sumner Hall, the president, Mr. J. E. Goddard being in the chair. The minutes of the previous meeting having been read by Mr. G. E. Nauhan, the weekly chronicle of the college was given by Mr. E. Rousseau. "The pleasures of winter," a bright and pleasantly written composition by Mr. S. Gagnon, was well received, and followed by a composition, "Sleighing and the Snow" by Mr. L. Lemaire. The council held by the ratee (La Fontaine) was recited with high spirit and ability by Mr. V. Ollivier, and "The Virgin's Altar," another recitation, was not less well done by Mr. F. Belliveau. The Rev. Father Gagnon, the director of the Academy, and the censor made a few remarks, pointing out the defects and praising the general excellence of the work done, and the merit

## PATERSON SWEEP BY FIRE.

### New Jersey City Suffers to the Extent of \$10,000,000—Business Section Almost Wiped Out.

Pateron, N.J., February 10.—A fire swept through Pateron yesterday, and in its desolate wake are the embers and ashes of property valued in a preliminary estimate at \$10,000,000. It burned its way through the business section of the city and claimed as its own a majority of the finer structures devoted to commercial, civic, educational and religious use, as well as scores of other houses. There was but small tribute of life and injury to the conflagration, but hundreds were left homeless and thousands without employment. A relief movement for the care of those included and unprovided for has already been organized, and Mayor John Woodie said last night that Pateron would be able to care for her own without appealing to the charity of other communities and states. The great manufacturing plants of the place are safe, and the community temporarily stayed by the calamity has already commenced the work of reorganization and restoration. The fire came at midnight and was only checked after a desperate fight that lasted until late yesterday afternoon. Every city and town within reach of Pateron sent firemen and apparatus to the relief of the threatened city, and it took the united efforts of them all to win the battle. A northerly gale gave the conflagration its impetus and carried its burning brands to kindle the blaze afresh at other points. The firemen made stand after stand before the wall of fire, but were repeatedly driven back, and when victory finally came to them they were grinded and exhausted.

## MR. TARTE A PROPHET.

### EXPECTS TO SEE MONTREAL WITH 1,000,000 POPULATION.

Montreal, Feb. 10.—"I am fifty-four years of age and I am not presuming too much on kind Providence when I say I hope to live twenty years more comfortably, before I go down to the grave. I expect to see Montreal with a population of 1,000,000 souls," was one of the prophetic utterances of Hon. J. Israel Tarte at a luncheon given Saturday evening to the Minister of Public Works by the Reform Club of this city.

## DEATH OF AN OLD RESIDENT OF SCOTSDOWN.

Mr. Edgell Lindsay, one of the oldest residents of Scotstown, passed away on the 2nd inst., after a long illness, at the age of 77 years. He was the father of Rev. Edgell Lindsay, parish priest of Scotstown. The funeral took place on Wednesday at 10 a.m. The service was sung by the Rev. J. D. Bernier, of Charlevoix, assisted by Revs. Father Maltais, of Sherbrooke, and Rousseau as deacon and sub-deacon. The choir mourners were Mr. E. G. Roy, mayor of Scotstown. Among those present at the obsequies were the following: Wm. F. Bowman, E. M. McKay, Robt. J. Scott, Dr. Holmes, Archie Black, D. J. McRitchie, Geo. Sherman, A. Morrison, N. Murray, P. Dumont, John McDonald, M. A. McKenzie and others. The large attendance testified to the high esteem felt for Rev. Mr. Lindsay, both by his parishioners and his English-speaking friends. At the regular meeting of the council, a vote of sympathy, proposed by F. G. Roy, seconded by W. F. Bowman, was tendered to the Rev. E. Lindsay.

CANADA'S FISHERIES THOSE OF CAPE BRETON OFFER A LARGE SCOPE FOR CAPITAL... The Lobster Fisheries Bring the Fishermen the First Money of the Year—How They Are Conducted—The Eastern Packers, That Queer Fish the Mackerel and the Herring.

At appearance. Although a poor traveler, he spends his youth in deep water, and is never seen during that period. The female carries the unhatched spawns externally, and often makes a bed in shallow water where she surrounds herself with the young fry. But the young soon disappear and do not return until they have attained a reasonable size.

The mackerel is a fish of peculiar habits, and his beautiful blue and grey markings have given him the name of an equally beautiful aspect of the clouds. A mackerel's skin, the blue covered with small open scales of grey, calls to mind a fish about the size of a herring, but with habits as strange as those of the fur seals of the Prævoloff Islands.

The mackerel is a warm water fish, and if caught in the Gulf of St. Lawrence by the cold winter currents he becomes numb and dies. Every year these fish return from the warm currents of the equator and making their first appearance off Cape Breton, and passing in immense shoals up along the Nova Scotia coast, around Cape Breton, and on to their spawning grounds at the Magdalen Islands, where they spawn in the bottoms of salt water bays.

Large part of the salmon catch is pickled and smoked by the fishermen at their homes around the coast, and smoked salmon is an important line of export. The season for gill-net fishing, which is permitted in tide water around the coast opens in May, and for the surface fishing by hand in the rivers and harbors about a month later. The results which follow the haphazard way in which the industry is conducted show that there is an opening for the development of a big trade in canned, smoked or frozen salmon from the Cape Breton fisheries.

The mackerel is a fish of peculiar habits, and his beautiful blue and grey markings have given him the name of an equally beautiful aspect of the clouds. A mackerel's skin, the blue covered with small open scales of grey, calls to mind a fish about the size of a herring, but with habits as strange as those of the fur seals of the Prævoloff Islands.

The mackerel is a warm water fish, and if caught in the Gulf of St. Lawrence by the cold winter currents he becomes numb and dies. Every year these fish return from the warm currents of the equator and making their first appearance off Cape Breton, and passing in immense shoals up along the Nova Scotia coast, around Cape Breton, and on to their spawning grounds at the Magdalen Islands, where they spawn in the bottoms of salt water bays.

## CANADA'S WEALTH OF SPRUCE.

Canada's forests are found to be equal to supplying the world with pulpwood alone for 840 years on the basis of 1,500,000 tons of manufactured pulp a year.

For each province separately, the period of exhaustion would be, for Ontario, 860 years; Quebec, 1,103 years; New Brunswick, 987 years; Nova Scotia, 3,255 years; the rest of the Dominion bringing down the total to 840 years.

This is the estimate of J. C. Lea, geologist, superintendent of forest ranges of Quebec. Mr. Langleier, a million and a half tons of pulp annually as his basis, that being about the total production of the United States.

The forest areas in the four provinces which would have to be denuded yearly to produce the required million and a half tons of pulp are given as follows:

Ontario 114,914 Acres.

Quebec 131,119

New Brunswick 11,371

Nova Scotia 3,334

The extent of the spruce forests remaining untouched in these provinces is:

Ontario 52,818,427 Acres.

Quebec 144,369,454

New Brunswick 11,224,540

Nova Scotia 10,853,544

For a couple of years yet, that is, until the statistics for the next census are published, the statistics of 1891 are the only ones that can give complete information respecting the consumption for all purposes of spruce in the four provinces, and by making the proper distinctions and reductions we get the following figures, which represent approximately the quantities:

Sawlogs 2,958,926,740 Feet.

Firewood 1,560,412,100

Square timber 212,282,404

Lathwood 11,889,150

Fullwood 109,049,000

Railway sleepers 98,267,801

Shingles 67,759,160

Total 5,146,236,487

The proportion of pulpwood is 2.23 per cent. for the four provinces together, 2.09 per cent. for Ontario, 3.51 per cent. for Quebec, 9.03 per cent. for New Brunswick, 23 per cent. for Nova Scotia.

It may be observed by the way, that more than 90 per cent. of the pulpwood got out in 1891 was for exportation to the United States.

For pulpwood alone the whole quantity of spruce required yearly would be:

Ontario 4,399,417,802 Feet.

Quebec 4,150,376,076

New Brunswick 1,245,261,796

Nova Scotia 1,423,788,900

The area denuded yearly to get the quantities of wood and the number of years required to exhaust the present extent of the forests are shown in the following table:

Area denuded Period of exhaustion

Ontario 879,883 60 years

Quebec 80,562 175

New Brunswick 289,052 41

Nova Scotia 284,757 88

But it is a well known fact that where operations are carried on in a wise and proper manner, spruce forest renews itself in 15 or 20 years at most, especially when the soil is good and the climate favorable. It is, therefore, reasonable to infer, says Mr. Langleier, that the spruce forests are practically inexhaustible.

## DANVILLE.

February 10.—The first meeting of the new council was held on February 3rd, Mr. Urie Bonnevillie was elected mayor.

Another severe storm visited us on Saturday, making the roads almost impassable outside of the village.

The St. Catharines Club will meet at the home of Miss Mary Swenden on Monday evening, February 10th.

Miss Mary McKenzie, of Scotch Hill, spent last week with her aunt, Mrs. D. McDonald.

A convention has been held in the R.C. church here for teachers in and around Danville.

The funeral took place on Friday morning last in the Roman Catholic church, of Mrs. Ernest Marotte, of St. Catharines.

Mr. Urie Bonnevillie was on the sick list last week.

There is great rejoicing among the young people at the thoughts of having a rink for the rest of the season. The boys intend practising hockey on Monday, Wednesday and Friday nights for a while. The other three evenings in the week will be reserved for skating.

Known as the old Bodwell Farm, three miles from Smiths Mills, and two miles from Fitch Bay, on the Stanstead road, containing about 230 acres. Nice sugar bush of 700 trees, also iron arch, etc. Everything in first-class shape. New house built last year. 130 acres cleared, and 100 acres of wood land. Possession 1st of March. For information apply to C. H. Bodwell, Black Lake, or D. A. Bissell, Beech Plains.

BLACK LAKE.

February 10.—We would like to draw the attention of the proper authorities to the great inconvenience caused to both pedestrians and teams, by the blocking up of the railroad crossing on the Q.C.R. It is too cold at this time of the year to sit waiting fifteen or twenty minutes for a freight car to move on.

We are sorry to have to report another case of smallpox. This time it is in the lower village and is a serious one.

The patient at the Union Asbestos Mines is much better and will soon be quite convalescent.

Mr. William Sterling, of Lemoville, is visiting friends in Black Lake.

We understand that the Manhattan Asbestos Co. is close for a short time. The inquiry on the body of the unfortunate young man who met with such a sad death on the roadside here last week was held Friday. The verdict was death caused by exposure.

Chief Justice Falconbridge opened the Assizes in Toronto in full court dress. The Bench is certainly a place where a little theatrical trimming can be used to advantage. The judge might well adopt the wig. The wig and gown removes the individuality, and makes the judge an embodiment of law and justice. Without wig or gown the chief is Mr. Falconbridge, an amiable gentleman and a capital fisherman. In a wig and gown his personality is obliterated, his dexterity in throwing a fly is utterly forgotten, and he appears as the inexorable and unflinching chief justice. The robe is good, now let us have the wig—Bobcaygen Independant.
