IT WOULD TAKE TEN YEARS AND COST \$20,000,000

To Deepen Channel Between Quebec and
Batiscan—Estimate Given by the
Dominion Government

TO DEMANDS BY FEDERATION OF SHIPPING

The mercantile community of Quebec and Federation of Shipping of the St. Lawrence must feel highly amused when they have perused the ingenious arguments set forth in the statements given by Lt.-Col. Gourdeau, Deputy Minister of Marine and Fisheries, and Mr. F. W. Cowie, the Government Superintendent of the St. Lawrence improvement, that appeared in Le Soleil on Tuesday last. The Deputy Minister of Marine and Fisheries shows conclusively that he is either entirely ignorant of the existing conditions of the channel between Quebec and Batiscan, or else has unwittingly allowed himself to wander away from the truth. At least this is the opinion of quite a number of experienced shipping men not only of Quebec but Montreal whose attention has been called to the remarks said to have emanated from Lt.-Col. Gourdeau and Mr. Cowie.

The statements made by the former are unparaphrased inasmuch as he should and must know better, while any statement that might come from Mr. Cowie can be excused, because his usefulness altogether lies in the continuation of the useless work in progress west of Quebec, and if the Government were to admit the extravagant waste of energy and money, in the purposeless end, Mr. Cowie would be without a position, unless one in a new field of labor were provided.

When the Chronicle entered upon its crusade to demonstrate to the public the necessity of a proper equipment of the harbor of Quebec to meet the future prospects of increased shipping on the completion of the Quebec bridge, it had only one object in view, to educate and arouse the citizens to their sense of duty. The opinions of the most reliable members of the commercial community were sought and published and there is no contradiction in the fact that these interviews have been extensively read and commented upon.

The Chronicle is the leading commercial newspaper in the city and district of Quebec, and by right of this prerogative it is justified in pointing out to its readers any and all obstacles that may retard the advancement of the city and port of Quebec, for the purpose of having these obstacles removed. Leading bankers, merchants and shippers, together with competent civil and hydraulic engineers have been interviewed, and their opinions published. The great majority have consented to allow their names to come out in print while others, for reasons known to themselves have hidden their identity, but nevertheless have spoken. No political capital is sought by the Chronicle by the publication of these outspoken statements, which have been faithfully produced as given and read by the public for the reason that the questions treated are of vital public interest, and if the Chronicle stands alone in the interest of the public welfare it will continue to expose bad systems and weak points as they appear in spite of all opposition to the contrary, and allow the public to judge. Lt.-Col. Gourdeau, in his interview with Le Soleil, said that it was at the demand of the members for Quebec and its neighborhood that the Hon. Minister of Marine and Fisheries has immediately taken the necessary steps to "deepen the channel below Quebec, at the Beauport Bank and the St. Francis Flats," but he did not add that this is the only impediment to navigation of the Lower St. Lawrence, and these demands were strongly urged by the Federation of Shipping or Montreal interests. He next goes on to speak of the dredge Galveston, purchased by the Canadian Government after it had been rejected by the Galveston port authorities. There is a story connected with this dredge which will one of these days be published by the Chronicle just as soon as all the facts are ready.

It appears that it was built in Germany for the Galveston authorities to dredge the sand bar that impedes shipping entering that harbor, and when it was completed and brought to Galveston it did not meet with the requirements and was consequently rejected and thrown back upon the builders. The Canadian Marine and Fisheries Department were looking for a dredge at the time, and were pleased to purchase what the Americans would not have. This same dredge, now undergoing extensive and in all probability expensive alterations at Sorel, will be used to dredge the Crane Island flats, even a harder task than the Galveston sand bar.

by the Government in the past would have to be multiplied many fold to meet the requirements.

The Government and the Canadian public, together with the people of Montreal, must look at the question of the future navigation, fairly and squarely. Quebec is the natural national summer port of the Dominion of Canada, and one of the finest in the world, and it must, in course of time, be recognized as the great shipping centre of the Dominion. Money spent in the deepening of the channel between Quebec and Montreal, is only wasted to gratify a sectional demand, and this hard fact must be realized very soon.

The harbor of Quebec not only extends for many miles, but has the necessary deep water, deep enough for great boats of England's heaviest draught vessels to come to and ride at anchor. Can Montreal ever be made to meet a parallel condition? No, never, not even if all the money collected in revenue by the Government for many years to come was expended.

Quebec is the national port, it is not a local question that only concerns the citizens of Quebec, but the people of the whole Dominion. And it is bound, in spite of every opposition to the contrary, to become a great and prosperous shipping centre, and Montreal will have all the business she can attend to from the sources of light draught ships and an increased coasting trade. The completion of the Quebec bridge will be the beginning of new conditions of trade, and the railways will bring freight to this port as cheaply as they now bring it to Montreal, and when that time arrives no ship owner will allow his vessel or vessels to proceed past Quebec, to run the risk and dangers of a channel 180 miles further away without considering the loss of time and extra expense involved. I would therefore be pleased if Lt.-Col. Gourdeau gave the hydraulic conditions of the channel between Quebec and Montreal a more careful study, and at the same time, look back into the records before he ventured to speak on such a subject, when he will learn that the Dominion Government has long before this and repeatedly informed the shipping interests of Montreal, that it would take ten years and cost \$20,000,000 to deepen the channel between Quebec and Batiscan, which in my humble opinion, is a very low estimate.

U. S. IMMIGRATION OFFICIALS.
Washington, July 18.—Frank P. Sargent, United States Commissioner General of Immigration, left tonight for Buffalo to confer with some of the Immigration Officers along the Canadian border.

Never Silt Your Boots
That doesn't cure the corn. Just apply the old standby, Putnam's Corn Extractor; it acts like magic. It the pain, cures the corn, does it without burn or scar. Get the best—Putnam's.

DEATH OF LADY CURZON.
London, July 18.—It was announced at the Curzon residence this evening that the final cause of Lady Curzon's death was heart failure, but she had been suffering from complications which were the sequel of her terrible illness of two years ago. The funeral, the date of which has not been fixed, will take place at Keddleston.

AUTOMOBILE ACCIDENTS.
Lisieux, France, July 18.—While an automobile in which were Mr. Stillman of New York, Mrs. Greenway, two other women, a girl and a chauffeur, was being driven at a high rate of speed in the direction of Dives-sur-Mer, it crashed into a heavy wagon. Both vehicles were overturned and smashed. Mr. Stillman and the driver were seriously injured and Mrs. Greenway and the chauffeur slightly hurt and the others shaken. All were taken to the hospital here.

SAD DROWNING ACCIDENT.
Rutland, Vt., July 18.—Word reached here to-day of the drowning last night of Mrs. John Jones and her 13-year-old son, Richard, of Granville, N.Y., and the narrow escape of two others of a family of five which were picnicking on the Mettewee River. A little girl had gone beyond her depth while bathing and her cries for help were heard by Mrs. Jones and Richard, who rushed into the water to save the child. Neither could swim and they were drowned. Meanwhile the father had reached the scene and plunged in after his daughter whose frantic struggles so exhausted him that he and his child were barely rescued by people called to the scene.

WILL HAVE TO GO BACK.
Toronto, Ont., July 18.—Word was received that the Privy Council of England has dismissed the appeal in the case of Fred Harsha, who is wanted in Chicago on the charge of forgery. Harsha was an officer of the Police Benevolent Society in Chicago last year when they gave their benefit concert. He obtained 600 tickets which he endorsed to sell as genuine. When action was taken against him on a charge of forgery he fled to Toronto where the police arrested him before the extradition proceedings could be concluded. His counsel, Mr. MacKenzie secured his release on an order of habeas corpus. The details immediately re-arrested him and after the hearing of the case his extradition was ordered. His counsel appealed the case to the Court of Appeal, the Supreme Court at Ottawa, and finally the Privy Council, each of which dismissed the appeal. While the lawyer has wandered about from court to court the prisoner Harsha has been in Toronto jail. He will now be sent back to Chicago.

DARING HOLD UP.
Owen Sound, Ont., July 18.—Mr. Geo. W. Day, proprietor of a large restaurant here, was the victim of a daring hold-up last evening while driving from Meaford to Owen Sound. He was waylaid by two young men, who robbed him of \$16 and left marks of violence upon his person. The police of Owen Sound and Meaford are working on the case but the highwaymen have not yet been brought to justice.

TERRIBLE TRAGEDY

Insane Patient Kills Two Others
and Fatally Wounds
Keeper.

Saratoga, Pa., July 18.—A terrible tragedy occurred in the Hillside home to-day, when an insane patient killed two other inmates and mortally wounded one of the keepers. The murderer is Ignatz Kowatz, a deaf and dumb Pole, who was given work in one of the wards with two women, also insane patients, Mrs. Ann Golden, a widow, aged 60 years, and "Missouri," Ann Van Valen, aged 28 years. During the absence of Keeper Richard Davies, the insane man secured an amputating knife, with which he stabbed Davies and the two women, Floyd Beemer, son of the superintendent, knelt the knife out of the madman's hand. Both women died soon afterward and Davies is not expected to live through the night.

ODDFELLOWS INCREASE

Kingston, Ont., July 18.—At the Oddfellows Relief meeting to-day, it was decided to increase the insurance rates by 20 per cent., and this put the Association in a stronger position than ever. Capt. Donnelly, Thos. McIntyre, Kingston, and J. J. Ross, Montreal, were elected directors.

NEW DEAN OF ONTARIO.

Kingston, Ont., July 18.—Rev. Frank Dumoulin, of St. Peter's Church, Chicago, son of the Bishop of Niagara, a preacher of power and a man of popularity, has been offered the Rectory of St. George's Cathedral, the salary reaching well up to \$4,000. Should the position be accepted, Mr. Dumoulin would also be made Dean of the diocese of Ontario.

SUPREME ORANGE LODGE.

Toronto, July 18.—Dr. T. S. Sproule, M.P., East Gwy, Supreme Grand Master of the Grand Orange Lodge of British America, was honored with the Presidency of the Imperial Grand Orange Lodge of the world at its closing session here to-night. Liverpool, England, was chosen for the next triennial meeting in 1909. Too keep up with the times and meet the changes that have taken place since 1866 a committee was appointed to revise the constitution. The committee was instructed to get recommendations from the Supreme Grand Lodges of England, Ireland, Scotland, British America, the United States, Australia and British South Africa.

A DOCTOR'S DEATH.

Toronto, July 18.—Dr. Allan McIntosh, of 120 Huron street, died shortly after three o'clock this afternoon as the result of an overdose of morphine taken this morning. He was found unconscious at his home at half past twelve and Dr. Carvath on being called in, had him removed to the Western Hospital in Ellis' ambulance. Here he passed away without regaining consciousness. The deceased had been suffering from insomnia over a year, brought on, it is said, from overwork while living at Bear Creek, Minn. He was in the habit of taking sleeping drugs.

Drink Beauport Lager; it is the best.

COMING TO CANADA.

Toronto, July 18.—It is again rumored that Seigel, Cooper & Co., the big departmental store, Chicago and New York, are seeking for a site for a big store in Toronto. It is said that negotiations are now going on between the trustees of the Broadway Methodist Tabernacle, at the corner of College and Spadina, and the representatives of the Co. The trustees of the church obtained the consent of the Toronto Conference about a month ago to open negotiations for the sale of the property as they found that the corner was too noisy for good hearing at religious services.

THE CHILD MURDERS.

Kingston, Ont., July 18.—Perhaps a clue has been found which will go far in firing out the guilty parties who drowned the baby found off the shore near McDonald Park, about six weeks ago. A Sherlock Holmes' mind suggested that this might have been done by the hands of Miss Alice Foster, alias Mrs. Robert Carley under arrest in Toronto, charged with wholesale baby murders. She might well have done this from some passing steamer. This is the more probable, considering none of the babies which she is said to have killed were murdered in the same place as they were born. Her arrest was brought about through the throwing out of a window of a train of an infant which she wished to get rid of. When the case has more fully developed something may be learned of the local case.

MURDERED A CANADIAN.

Owen Sound, Ont., July 18.—Mr. John Ross, of Owen Sound & Br. Co., Ltd., has been notified of the arrest of Chas. Aronson, of Seattle, on the charge of murdering Philip Ross, brother of John Ross, and son of Mr. and Mrs. Ross, of Sidenham Township, Grey County, last August. For the past eleven months detectives have been investigating the case and suspicion points strongly to Aronson, in whose possession was found several articles which are known to have been the property of the murdered man. Shortly after the murder Aronson opened a flourishing liquor business, although he had previously been heavily in debt. It is known that a large sum of money was in Ross' possession the day the murder took place.

H. THAW'S DEFENSE

Prisoner Emphatically Objects
to the Plea of
Insanity.

New York, July 18.—The chaotic conditions surrounding the preparation of a defense for Harry K. Thaw, accused of the murder of Stanford White, were accentuated to-day, and apparently the breach between the prisoner and his mother, Mrs. Wm. Thaw, of Pittsburgh, regarding the defense, is wider than ever. Following a conference of two hours with Thaw, after the mother had twice during the day endeavored to gain the boy's consent to the re-employment of the law firm of Black, Olcott, Gruler and Bonnyne and to consent to a plea of insanity, Clifford W. Hartridge, Thaw's personal counsel, obtained from Supreme Court Justice Blanchard late today an order directing Judge Olcott's firm to show cause next Friday why they should not turn over to Hartridge all the papers in young Thaw's case. Mr. Hartridge based his motion on a petition signed by Thaw, which was placed on record. Reports which had gained wide circulation earlier in the day to the effect that Thaw had consented to his mother's plan of action, undoubtedly had their origin in the fact that Mrs. Wm. Thaw and Mrs. Harry Thaw, who were in conference with Thaw at the same time to-day, emerged from the prison arm in arm. Mrs. Wm. Thaw had two long conferences with her son to-day. During the second word was despatched to Mrs. Harry Thaw summoning her in all haste. She soon reached the prison, the mother had gained the second interview from the warden on the strength of a plea that her mission was of the utmost importance and could not be delayed. Following the family conferences, Mr. Hartridge had his interview with Thaw and went directly from the tombs to the criminal courts building where he obtained the order.

WILL DISCUSS PEACE.

San Salvador, July 18.—The armistice between Salvador and Honduras on one side, and Guatemala on the other, began to-day. A treaty of peace is to be discussed in neutral waters on board the United States cruiser Marble Head.

WILL DROP SUITS.

New York, July 18.—The Tribune to-morrow will say: "The Mutual Life Insurance Company has decided to drop three suits begun against the former Mutual management as follows: The Mutual against Robert H. McCurdy, the former General Manager of the company and the son of the ex-president; the Mutual against Chas. H. Raymond and Louis A. Theaud (who form the firm of C. H. Raymond & Co.) and ex-President Richard A. McCurdy; the Mutual against ex-President McCurdy and Robert H. McCurdy."

METHODIST CHURCH OF JAPAN.

Buffalo, N.Y., July 18.—A commission representing the Methodist Episcopal Church of Canada and the Methodist Episcopal Church South met here to-day and unanimously adopted a resolution to the effect that the mission stations in Japan, which have heretofore been supported by the three separate churches, be consolidated. The union is to be effected in May, 1907, at a general conference to be held in Japan. The church will be known as the Methodist Church of Japan. A superintendent to serve for eight years will be appointed at the conference in Japan next year.

CLAIM OF THE TYPOTHEAE.

Buffalo, July 18.—The annual reports of President Geo. H. Ellis, of Boston, and Secretary John McIntyre at the Typothetae meeting to-day, were read. Wm. Green, of New York, chairman of the executive committee, in reviewing the year's work reported that, with but few exceptions, the Typothetae shops of the country were working nine hours a day and that the open shop in the printing business is firmly established. Chairman Blanchard, of New York, of the committee on technical schools, reported the establishment in New York of a technical training school, where instruction is given for operating type-setting machines.

WOMAN'S FEARFUL JUMP.

Roseton, July 18.—A young woman who was registered at the hotel Touraine as Mrs. J. Samuel Piza, of New York, was terribly injured shortly before midnight by jumping from the window of her room on the sixth floor of the hotel. She probably will die. The room occupied by the couple was directly above the glass covered porte cochere at the main entrance. When Mrs. Piza jumped her body struck on the roof of the porte cochere. Her left leg and her right arm broke through the glass and both these limbs were almost severed. It is understood that she had been at a sanatorium in Melrose, where she had been treated for some nervous trouble, and Mr. Piza was taking her to her New York home.

QUAKES IN NEW MEXICO.

Santa Fe, N.M., July 18.—All night long one tremor after another passed over the Lower Rio Grande Valley, keeping the people at the highest tension. But few have slept in houses for the past three nights. Observers reported thin shreds of smoke in the lava fields in the direction of Alamo Gordo probably from Hot Springs or other volcanic manifestations. A dreadful rain during the night added to the discomfort of campers.

The Quebec Chronicle

QUEBEC, JULY 19, 1906.

THE RISING NEW NORTH.

Neither in the United States nor yet in Canada is it quite true to-day that "westward the star of empire takes its way." It is rather in the direction of the Polar Star that the course of empire runs, in the east as well as in the west. There is no longer any new west in the United States, and the tendency of the migrating settlers in the Western States is towards the north and the Dominion of Canada. In Western Canada we see the same condition of affairs. The newer settlement, both in British Columbia and in the new western provinces is in the north, and it is through a new northern territory that the new Transcontinental Railway is to be constructed. We see it again in Ontario, where the new Ontario is in the north, and it would be quite surprising if an exception was to be found in the Province of Quebec.

That the new Quebec would be found in Northern Quebec has been long foreseen by a number of far-seeing citizens, who placed themselves years ago at the head of the project for the development of the country immediately north of the City of Quebec and extending to Lake St. John.

The ridicule which was cast at the project by the pessimists of those days will be easily recalled by many of Quebec's citizens of the present time, and it is simply marvellous to compare what has been effected by the promoters of the Quebec and Lake St. John Railway, with the day of small things, which marked the inception of the enterprise.

It is probable that but few Quebecers ever pause to consider what the Quebec and Lake St. John Railway has done for the city and district of Quebec. It will doubtless surprise some people to learn that more than half of the lumber shipped from the port of Quebec during the last few years was brought here for shipment by the trains of the Quebec and Lake St. John Railway. It would be difficult to compute the wealth that is brought to Quebec every year in the shape of money left in the city and district by visiting tourists and sportsmen who would not be here at all, but for the facilities for northern travel and sport opened up for them by the existence of the railway. It is not difficult, however, for anybody to understand how the price of cordwood to consumers in Quebec, has been kept down by the immense quantities brought to the local market by the railway, and what an enormous amount of other business in the shape of farm and dairy produce, manufactured pulp, and the trade of numerous country merchants has been brought to the local market by the new road.

A recent trip over the railway and a visit to the chief attractions of Quebec's north country served to convey an idea of the progress which has been made in the district within the last few years.

One who has not journeyed over the road for some time past would be much surprised at the extensive improvements made to the roadbed and track within recent times. These betterments, which consist in many straightenings and reductions of curves, additional ballasting and the laying of heavier rails, in addition to the substitution of steel for wooden bridges, not only add largely to the comfort and safety of travel but permit the hauling of very much heavier trains and enable them to make better time. This is also, of course, very much contributed to by the addition to the railway's rolling stock of a number of very large and powerful locomotives. The equipment of cars of all kinds, including several modern parlor and sleeping cars is very complete. As an illustration of the increasing demand for more luxurious accommodation in this northern travel it may be mentioned that upon one morning this month, no less than four parlor and sleeping cars, fully occupied were started out of the Quebec station, three of them being attached to one train.

While reference is being made to the new equipment of the line, a glance may be had at the great improvement and extension of the company's terminal property, wharfage and yards. These now cover an area of land several acres in extent including some

What To Eat and When to Eat

Two Important Questions Answered Easily After Reading This.

Every nutritive element of the best white wheat grown in Malta-Vita. This famous food is the whole of the wheat thoroughly steamed and cooked in absolute purity and mixed with the finest malt extract that was ever made, thus it is the richest, strongest food in the world. You understand, of course, that the cooking and steaming of the wheat gelatinizes its starch, and then the malt extract, a powerful digestive agent, quickly converts this starch into maltose, or malt sugar. Maltose is great food, and the weakest stomach digests and assimilates it without effort.

We all know that for many years physicians of high standing in their profession have prescribed malt extracts, which contain a large percentage of maltose. Malta-Vita, the crisp, delicious whole-wheat food, contains from eight to ten per cent of maltose. When Malta-Vita comes from the oven, it is the crispest, most delicious food in the world, containing only one per cent of moisture. The other 99 per cent is food—brain and bone and nerve and muscle food—and most easily digested.

Malta-Vita is always fresh and crisp, and ready to eat. Delicious, refreshing, invigorating. No other food like it. All grocers, now 10 cents.

of the most valuable water front property in the city of Quebec, having deep water berths for steamships facing the inner basin of the harbor works. Another large extent of new wharfage for schooners and batteaux is being added to the property during the present season.

It would consume a large amount of space to detail all the betterments made upon the line of railway of late. Suffice it to say that it is now one of the most comfortable roads in the country over which to travel, while the variety and the beauty of the mountain, lake and river scenery along the route baffles description.

This scenery, as well as the attractiveness of the country for tourists and sportsmen, must be seen to be appreciated. The same remark applies to the development of the district, in recent years. This fact is emphasized by the declarations of all who visit the country for the first time, or who revisit it after a term of years.

Hon. Mr. McCorkill is on record as saying that he was most agreeably astonished at the agricultural and other wealth and vast industrial development of the Lake St. John country. Hon. Mr. Prevost declared the other day that his admiration for the district is so unbounded and so well understood that he had been blamed by some of the people of his own country for loving the Lake St. John country too much. Count Haymerle, the secretary of the Austrian Embassy at Washington, wrote the other day that he much regretted to have to leave the district at all. And so it is with all who visit it.

Everything that modern ingenuity can suggest to contribute to the comfort of tourists and sportsmen in the Lake St. John country has been done. The most beautiful locations for health, pleasure or sporting resorts have been dotted with modern and up-to-date hotels.

On the shore of Lake St. Joseph, fifty minutes by rail from the city of Quebec, is the new Lake St. Joseph hotel, to which ten trains, five in each direction, run daily at most convenient hours. The lake has an irregular circumference of twenty miles and is one of the prettiest in Canada, being closely surrounded by mountains, clad in magnificent hard-wood trees, reaching down to the water's edge. The sandy shores make bathing very safe and enjoyable, while boating and canoeing are popular sports which culminate in the fashionable annual regattas held in the month of August. Fish of various kinds are found in the lake, including brook and lake trout of very large size, black bass and white fish.

There are many private cottages on the shores of the lake and a couple of steam launches besides boats of all kinds on the water. The hotel, which has a hundred rooms, occupies a commanding site, in the midst of a property of 225 acres of land, with a water frontage of 12 lineal acres. White's Hotel is another and smaller hotel on the same lake.

At Lake Edward is the well-known Laurentides Hotel, kept by Mr. Rowley, and famous not only as a resort for anglers who frequent the place for the huge trout which swarm in the lake, but also as a health resort. Situated at a height of 1,200 feet above tidal water at Quebec, Lake Edward is strongly recommended by Dr. Lafleur, of Montreal, and other lung specialists as the ideal spot for a great national sanatorium. It is an ideal resting place for overstrung nerves and run-down constitutions. For those afflicted with pulmonary troubles, a number of beautiful camps have been constructed at different points on the lake shore, at a greater or less distance from the hotel. Some of these belong to the hotel management, while others are extremely elegant and comfortable, having been built by Mr. John Ritchie, whose son received such wonderful benefit to health from his sojourn at the lake, in a beautiful house, expressly erected for him, that he has constructed a number of similar houses, furnished for winter as well as summer occupancy, which are for lease, and generally all occupied, by families desirous of securing similar benefits, and calculated to make desirable neighbors. In time, too, it is hoped to establish a public sanatorium at this place.

Lake Edward is a beautiful body of water over twenty miles long and containing a number of islands of various sizes. Some of the largest brook trout known have been taken out of its deep, clear water, and the mountains by which it is surrounded, are prettily wooded to the very edge of the water. It is an ideal spot for a rustic retreat, and so popular with sportsmen that at one time during the present season Mr. Rowley had nearly seventy guides out with different angling parties. There are magnificent portages leading off in different directions through the woods to other trout waters, where the fly-fishing is excellent, and by one of these there is a much frequented canoe and portage route through the forest to the lakes of the St. Maurice district.

Ten miles north of Lake Edward and 126 miles from Quebec, the height of land between Quebec and Lake St. John is reached, the summit being over 1,500 feet higher than tide water at Quebec.

The various club houses of American and Canadian anglers along the line of the railway have been much frequented already this season and many excellent catches of trout have

Sore Lungs

We want everybody who has a hard cold in the chest to use Ayer's Cherry Pectoral. Our long experience with it, over sixty years, tells us there is nothing else equal for coughs, colds in the chest, bronchitis, hoarseness, sore lungs, weak throats, and weak lungs. Doctors tell us the same thing. Ask your doctor about it.

been reported, the supply of fish being apparently larger than usual.

Perhaps the greatest of fishing surprises of the present season was reserved, however, for ouananiche fishermen at Lake St. John, where the number of fish taken beats all records for quite a number of years past. It now appears quite evident that the getting of recent years have intercepted the bulk of the fish in the spring of the year, for the suppression of the baneful practice in the early part of the present season has been followed by the greatest abundance of fish ever remembered in the lake. The happy result must also, however, have been largely contributed to by the enormous quantity of young ouananiche and salmon planted in waters tributary to the lake in recent years. So plentiful are the fish that numbers of them have been caught from the wharves at Roberval and in fact from every part of the lake shore. Since they commenced to run into the Grand Discharge there has been a constant stream of American and other anglers to the ouananiche fishing grounds. In this connection it is somewhat remarkable to note how this most sporty of game fishes, purely Canadian as it is, is sought so comparatively little by Canadian anglers, notwithstanding the proximity of Lake St. John to Quebec. American fishermen come from as far as Texas to fight the ouananiche in the chosen waters of the Grand Discharge, and declare it to be the gamest fish extant.

The Hotel Roberval at Lake St. John and the Island House at the Grand Discharge are both under new management this year. Mr. H. J. Lyons, the manager of Mr. Beemer's interests in Canada, has laid out a large sum of money this spring in renovating and beautifying the hotels just mentioned. Particularly is this the case in regard to the Hotel Roberval. The modern character of this house is well known to all who have visited it. But this did not satisfy Mr. Lyons or his new manager, Mr. H. B. Locke, an experienced Boston hotel man, and a good part of the interior of the house has been torn down and remodelled. The improvement is patent to all frequenters of the house as soon as it is entered. It is seen that the small rooms off the main entrance hall have been taken away entirely, and the space heretofore occupied by them thrown open by a series of ornamental arches, extending right through to the ladies' entrance. The color effect is also most pleasing and artistic, the walls being in green with a handsome border, while the wainscoting is of very deep crimson buxum. The same effect has been continued on all the staircases and even carried through the corridors of the upper flats. New help has been imported and the service and cuisine leave nothing at all to be desired.

A very great improvement in the arrangements of the hotel is the appointment of a superintendent of guides and of the outfitting department of the hotel. Thoroughly versed in the different routes for sportsmen and in the distances to be traversed and time required for the same, as well as in the qualifications of the different guides, he is at the same time an intelligent officer for tourists and fishermen, and a counsellor, guide and friend for those who need advice in outfitting for a trip in the woods, or in the selection of a route to be followed.

The new manager of the Island House is Mr. A. A. M. Moore, himself quite a fisherman, who is therefore well able to take care of the anglers who cross the lake to his house to fight the game ouananiche in the seething water below the Grand Chute. The fish are as unusually plentiful this season in the Discharge as they were in May and June in the body of the lake, and many very large catches have been reported, some of the fish killed exceeding five pounds in weight. The Chronicle has already reported that the Hon. John Kaine killed eleven of these beautiful fish before ten o'clock one morning. Mr. Martin, an American, succeeded in the unusual feat of hooking and saving three of these fish at the same time, about a fortnight ago, and pairs are quite frequent, so abundant are the fish this season.

trict at this time of the year are much struck with the splendid appearance of the crops. The farming lands hereabouts are amongst the finest in the province, and the enormous tracts of land under wheat, oats, potatoes and other crops give promise of an abundant harvest. Every year sees a large increase in the acreage under cultivation, and the good work of the Lake St. John Colonization Society is seen in the large number of new settlers brought into the country, the number taken to Lake St. John last year numbering some three thousand souls, making a total population for the district of over fifty thousand people. Settlement is rapidly finding its way up the valleys of the different large rivers flowing into Lake St. John, and besides those engaged in agricultural operations, there are thousands of people employed in the various industries of the district to which the existence of the railway is attaining such immense proportions that last year alone the railway hauled some thing like \$750,000 worth of cheese.

The establishment of more new industries dependent upon the railway will naturally follow the completion this fall of the branch line from the Miguic River Junction to La Tuque Falls on the St. Maurice River, which is forty miles in length and is furnishing employment to 1,200 men. The falls have a capacity of 90,000 horse power and important industrial undertakings will shortly be initiated there. Equally interesting is the proposal for the northern extension of the road, the completion of which are not at all onerous, the sum of ten millions of dollars can be secured to build the contemplated railway from Roberval to Nottaway on James Bay, a distance of 380 miles. What this connection would mean to the city and province of Quebec need not be insisted upon.

Whether or not the whole of this new extension is at once entered upon, it seems to be an assured fact that railway communication must be given as quickly as possible to the new and promising mining district of Chibougamou, 180 miles north-west of Lake St. John. Every report from that country tells of some new and important mineral discovery which calls for early means of communication, not alone in the interest of the district itself but also in that of the province at large.

A CONVICT'S ROMANCE

Vouched for by the late H. Smith, who said he learned the fact through being speaker of the assembly, there is an interesting bit of history connected with the old statehouse at Albany, where it has stood for years, the finest example of pure Doric architecture in this country, on the eastern side of Eagle street, between Pine and Steuben streets. Its walls and partitions all of solid stone, very much as if its halls, rooms and stairs had been carved out within a huge block of marble.

It was completed in 1842, costing the state about \$350,000. It is built entirely of Sing Sing marble, quarried and cut within the prison walls. The old capitol being inadequate to accommodate the increasing business of the state, this additional building was planned and built and is still used for the offices of the state comptroller, the state engineer and surveyor and the state banking department.

In a spirit of economy it was decided to have as much as possible of the work done by the prisoners from the material found within the prison walls at Sing Sing, fairly good material, too, but not the best, as it is a soft marble, as evidenced by the wear which now shows so plainly in the

steps and by the crumbling of some of the stones from exposure to the weather. All the material was cut to completion within the walls of the prison under such plans that when shipped to Albany there would be no further work necessary except practically to lay one stone upon another and so on until the whole was assembled in the completed building.

To accomplish this detailed plan a system of marking the stones was necessary. The plans were carefully made and a system of marking elaborately laid out by the architect in charge, who found in the prison at Sing Sing a life prisoner whose record showed him to be an engineer of the highest ability and who seemed as competent as any man in the country to carry out the work to be done in the prison, and naturally he was not unwilling to follow his chosen profession in preference to doing the manual labor of cutting or quarrying stone. So, following the spirit of economy referred to above, the plans in detail and the system of marking were turned over to him and the whole work at that end given over to his full superintendence and absolute control.

In due time the stones in their various shapes and sizes and in quantity for the whole building were delivered in Albany and the work of construction commenced in accordance with the plans and system of marking originally furnished. With the very first stone there was trouble. It not only did not fit the place, but none of the stones marked to adjoin it, and, further, it did not seem ever intended for the place the number indicated.

Investigation brought out that the stones were not of the size specified and shown on the plans, and, as to the system of marking, it was quite evident that the stones brought together by it had no relation whatever to each other.

The bewildered architect hardly knew whether he was a candidate for the asylum or possibly for Sing Sing. However, a careful verification of his plans and his marking system proved their correctness, and the blame fell squarely upon the civil engineer, the life prisoner. He was questioned, taken severely to task and roundly rebuked for his incompetence and threatened and abused. He met it all calmly. "It looks to me like a mighty good joke on you fellows. Anyway it is the best joke I have heard since I came to Sing Sing."

As to their continued threats he said: "What can you do to a life prisoner?"

Finally, in answer to the abuse and slurs as to his capabilities as an engineer, he said he had changed the plans both in dimension and shape where they had diverged from purity of style, and the system of marking he had changed altogether, but if they could find some one who understood his system the building would go up complete and perfect, exceeding the original plan. "But," he added, with a grin, "you can probably get out new stones a good deal quicker than you can work out my system."

Then the state officials said, "We will take you to Albany and force you to put up the building."

He said, "No."

They pointed out the advantage of life in Albany for a time in preference to Sing Sing.

He said, "No."

They tried to bargain with him.

He said, "Secure my pardon and I will stand by you until the building is complete."

They offered to have him pardoned after he had proved what he said by finishing the building.

He said, "No."

Then they said they would compel him to do it anyway.

He said he could be compelled to work in prison, but not in Albany, and that even in prison they could compel him to do only manual labor unless he chose; and that the price of his genius in grasping the opportunity that had come his way was a full pardon.

What else was there to do? He was pardoned, and the old statehouse stands to-day in testimony of the fact that he kept his word and a glorious memory to an unknown genius.

ORIGINAL JACK HORNER.

He Really Existed and Got a "Plum." But Was Not a Good Boy.

Jack Horner of the Christmas tale really existed, though whether he deserved the title of "good boy" is exceedingly doubtful. He was, however, a fortunate rogue.

When Henry VIII. suppressed the monasteries and drove the monks from their nests the title deeds of the Abbey of Mells were demanded by the commissioners. The abbot of Glastonbury determined that he would send them to London, and as the documents were very valuable and the road infested

with thieves it was difficult to get them to the metropolis safely.

To accomplish this he devised a very ingenious plan. He ordered a savory pie to be made, and inside he put the documents, the finest filling a pie ever had, and intrusted this dainty to a lad named Horner to carry up to London to deliver safely into the hands for whom it was intended.

But the journey was long and the day cold, and the boy was hungry, and the pie was tempting, and the chance of detection was small.

So the boy broke off a piece of the pie and beheld a parchment within. He pulled it forth, innocent enough, wondering how it could have found its way there tied up in pastry, and arrived in town.

The parcel was delivered, but the title deeds of Mells Abbey were missing.

The fact was that Jack had them in his pocket. These were the incriminating plums in the pie. Great was the rage of the commissioners and heavy the vengeance they dealt out to the monks.

But Master Jack Horner kept his secret, and when peaceable times were restored he claimed the estates and received them.

OUR GREAT SALE.

Of embroidery and lace announced for yesterday, Wednesday, will be continued to-day, Thursday, on account of finding it impossible to reply to all demands. Remark that we are selling at a very great reduction.

More Surprises From Quebec's Shopping Centre!

JUST GLANCE over this list of startling reductions—can you honestly say you ever saw a more attractive one? Prices like these are the order of the day at this store—prices which mean an ever-increasing rush of business from now until the close of our Great Midsummer Sale. All the goods which are advertised are new and seasonable—all must be cleared before the Fall and Winter stocks arrive. You will have no use for the Fall and Winter goods for two or three months yet but when you do need them they will be ready for you. This is why we are so determined to make room for them now—and this determination is responsible for such values in things you are needing at this very minute. Wednesday and Thursday will bring the largest crowd of shoppers we have had since the opening of this great Sale. Come early and make sure of a perfect choice.

LADIES' LEATHER HANDBAGS.

IN AND ABOUT TOWN

CRUSHED TO DEATH

**Farmer Found Dead Under
 Load of Hay at St.
 Catharines.**

Charles Linteau, a farmer belonging
 to St. Catharines, was found dead
 under a load of hay on the roadway
 there yesterday afternoon. There
 are no details as to how the fatality oc-
 curred, but these will doubtless be es-
 tablished by the inquest which Cor-
 oner Jolicœur will hold on the body
 to-day. The deceased was 54 or 55
 years of age.

NEW VICAR OF LEVIS.
 Rev. Father Germain Sauvageau, vicar
 of St. Roch, has been appointed by
 Archbishop Begin as Vicar of Levis.

RECORDER'S COURT.
 Four prisoners charged with drunk-
 enness, were before the Recorder's
 Court yesterday. They were fined \$1
 and costs each, which they paid.

LATE EDOUARD CARON.
 The funeral of the late Edouard
 Caron, of St. Louis, father of Jos.
 Ed. Caron, member of the Legislature
 for the County of Levis, took place
 yesterday at the Village des Aulnaies.

**J. T. Piper has the largest as-
 sortment of High Class Briar
 Pipes in Quebec.**

ENGLISH SUITING.
 English suiting, made up in the
 smart American styles, is a special-
 study made by Lafrance & Mullin.
 Their special feature is the American
 finish on English materials.—See advt.

TEACHER APPOINTED.
 Miss M. Fraser, daughter of Mr.
 Donald Fraser, of the Bank of Mon-
 treal, has been selected by the Pro-
 testant Board of School Commission-
 ers to fill the vacancy in the Elgin
 Street School.

The finest performance ever given is
 on this week at the Rustic Theatre,
 Kent House Grounds. Don't miss see-
 ing it.

INFANT BODY FOUND.
 The body of a prematurely born in-
 fant was found in the St. Charles
 Cemetery yesterday afternoon. Cor-
 oner Jolicœur was notified, but after
 enquiring into the circumstances of the
 case, did not consider an inquest
 necessary.

EVERYTHING MUST BE SOLD.
 During this ten days' sale started
 Monday, large reductions will be of-
 fered principally on summer goods,
 the reason is we must absolutely
 make room for the fall importation.
L'HEUREUX & GAUVIN,
 183 St. Joseph street.

DROWNING ACCIDENT.
 Coroner Jolicœur has been notified
 of the accidental drowning of a young
 man at St. Emile, County of Lot-
 binerie, yesterday morning. The body
 has been recovered and an inquest
 will be held this morning.

**CHARGED WITH STEALING A
 BICYCLE.**

A young man belonging to St. Sau-
 veur was arrested last evening by
 Detective Deloy on a charge of stealing
 a bicycle from in front of a church
 door on Sunday last. The prisoner
 was lodged in the Central Station and
 will appear before the Police Court
 this morning.

DROWNED IN TINET OF WATER.

Coroner Joseph Jones held an in-
 quest at Cape Rosier a day or two ago
 on the body of a seventeen-months-old
 child, son of Ludger Whalen, of that
 place, who met with a rather
 curious fatal accident. It appears that
 the child, escaping the notice of its
 parents, wandered out of the house
 and fell into a tinnet containing a
 gallon or so of water. The unfortu-
 nate young one was found five minutes
 later asphyxiated. A verdict in ac-
 cordance with the facts was rendered
 by the Coroner's jury.

FRENCH DIPLOMAT HERE.

The Vicomte de Chambrun, Secretary
 of the French Embassy at Washing-
 ton, arrived in town yesterday morn-
 ing and is a guest at the Chateau.
 M. de Chambrun is on a pleasure trip,
 having passed some days past visit-
 ing Niagara Falls, Toronto and Mon-
 treal. He had intended taking a trip
 on the Lower St. Lawrence and the
 Lake St. John region, but will be un-
 able to do so, on account of having
 to return to Washington within the
 next two days.

"FEED UP"

Is the Way to Make Old Men Young.

One of the most remarkable evi-
 dences of the power of proper food
 is found in the following interesting
 story by a Canadian:
 "I am now 71 years of age and
 have been living more or less over
 since I was 16 years old, part of the
 time an invalid suffering with stomach
 and bowel troubles.
 "About two years ago, having learn-
 ed of the good Grape-Nuts food, I was
 doing for some friends of mine, I
 resolved to try it myself and I im-
 mediately found help—more vigor and
 power of endurance.
 "That summer the heat did not affect
 me as it did before I used Grape-
 Nuts and after about four months
 constant use I began to realize what
 it was to be well and found my
 bowels adjusting themselves so that
 now I am free from the old troubles.
 I had long despaired of such results
 and can safely say I am enjoying bet-
 ter health to-day than for many years
 past. This wonderful food has
 literally made a new man of me."
 Name given by Postum Co., Battle
 Creek, Mich.

There is nothing wonderful about it,
 only sound, scientific reason that any-
 one can prove by trial.
 Look in pigs for a copy of the fam-
 ous little book, "The Road to Well-
 ville."

POLICEMEN'S PIC-NIC.

Senator Choquette has subscribed \$5
 towards the police pic-nic.

Ninth Regiment Band will play on
 verandah of Kent House this (Thurs-
 day) evening.

GREAT CHEAP SALE.

Messrs. Simons & Minguy commenced
 to-day their great cheap sale. Every-
 thing introduced. Parasols, flowers,
 straw hats, muslin and embroidery,
 sun hats are offered at half price. See
 their advertisement.

 ing it.

FINE AMERICAN BAND.

A leading feature at the Kent House
 Grounds, Montmorency Falls, on Sun-
 day afternoon next, will be the Am-
 erican National Band, which will ren-
 der a choice selection of music. The
 infantry company from over the bor-
 der will also give a drill exhibition
 which will be most interesting.

**For BBB and Peterson Pipes,
 go to J. T. Piper.**

 verandah of Kent House this (Thurs-
 day) evening.

THE GLIDDEN TOUR.

It is expected that the Glidden
 Tour motorists, who arrive here Satur-
 day, will be taken for a trip round
 the harbor of Quebec, and entertain-
 ed at luncheon at the Kent House on
 Sunday. Local automobile enthusiasts,
 prominent among them Messrs. G.
 E. Amyot and J. Leblond, are look-
 ing after the arrangements for the
 entertainment of the visitors.

The finest performance ever given is

 Kent House Grounds. Don't miss see-
 ing it.

MILK LICENSES.

As a result of the new system
 adopted by the civic authorities, it is
 expected that over three hundred milk
 licenses will be issued this year. It
 has been customary to require only
 the trade to pay licenses, but this
 year all grocers and other people who
 have only one cow and sell what milk
 they do not require, must pay a li-
 cense fee.

Ninth Regiment Band will play on
 verandah of Kent House this (Thurs-
 day) evening.

CORONER'S INQUEST.

Dr. Jolicœur held an inquest yester-
 day on the body of Mrs. George
 Adam, 47 St. Francis street, who died
 suddenly on Monday afternoon at her
 residence. A verdict of death from
 syncope of the heart due to indiges-
 tion was returned.

Dr. Bedard, Deputy Coroner, left
 yesterday for St. Jean des Châtillons
 to hold an inquest on the body of
 Mrs. L. Courteau, who died suddenly
 there on Tuesday evening.

The finest performance ever given is
 on this week at the Rustic Theatre,
 Kent House Grounds. Don't miss see-
 ing it.

NO DECEPTION.

The large number of buyers who
 visited our store since the opening
 have seen for themselves that our ad-
 vertisements are always real reduc-
 tions exactly as they are advertised.
 This large sale is only for ten days.

L'HEUREUX & GAUVIN,
 183 St. Joseph street.

BIG CATCHES OF OUVANICHE.

From the Grand Discharge come
 further reports of magnificent sport
 enjoyed by American anglers. Mr.
 A. A. Moore, manager of the Is-
 land House, killed twelve ouvaniche
 the other day in the course of a few
 hours, the largest of which weighed
 slightly over four pounds. All these
 fish took the Jock Scott fly, which
 seems to be dividing the honors this
 season with the silver doctor on
 ouvaniche waters. Mr. Warren Cole-
 man caught fourteen fish in an after-
 noon, of which the largest weighed
 44 pounds. Mr. Coleman's cast con-
 sisted of a brown hackle and silver
 doctor.

Ninth Regiment Band will play on
 verandah of Kent House this (Thurs-
 day) evening.

POLICE COURT.

One of the carters, Roy, charged
 with assaulting a young man named
 Watters, a Laval University student,
 during the recent military camp at
 St. Joseph de Levis, appeared before
 the Police Court yesterday and plead-
 ed guilty to the charge. He was con-
 demned to a fine of \$20 and costs, as
 was also the other man charged, A.
 Beaumont, also a carter, but who
 did not appear. The case of a Levis
 man charged with arson as the result
 of a fire in Levis some weeks ago, was
 fixed for yesterday, but the defendant
 did not put in an appearance, and the
 case was postponed.

AUDITORIUM.

On Friday night a number of well-
 known artists will give a grand vocal
 and instrumental concert at the Audi-
 torium. Among the artists who will
 take part we may mention, Mr. Emi-
 liano Renaud, pianist, professor of
 music at the University of Indian-
 apolis; Mr. E. Farento, violinist; Mr.
 Paul Dufaut, tenor, choir leader of St.
 Paul's Cathedral, New York; Miss A.
 Sevrain, laureate, McGill Conservatory
 of Music; Miss Albertine Blodau,
 soprano dramatic and Mr. Victor Oc-
 cellier, grand opera baryton. As our
 readers may judge, this will be a
 concert of unusual excellence and
 should receive liberal patronage. Seats
 are now on sale.

CABINET CHANGES

**Premier to Retain Attorney-
 Generalship, Hon. Mr. Weir
 for Public Works.**

Montreal, July 18.—It would seem
 that the latest accredited rumors con-
 cerning the reconstructed Quebec min-
 istry, which Premier Gouin has pro-
 mised before another session is called
 will be considerably unlike the forma-
 tion which most people expected a few
 weeks ago. It is said at the outset
 that the leader of the Government will
 retain the law portfolio and that
 Hon. Mr. Gouin has decided to give
 Mr. Speaker Weir, the important por-
 tfolio of public works, although it is
 no secret that had the member for
 Argenteuil had his choice he would
 have selected the attorney-generalship,
 which, however, the Prime Minister
 has decided to retain for himself. The
 English-speaking members, although
 they will most likely lose the treas-
 urership, will as just indicated be
 compensated with a portfolio where a
 good deal of patronage is involved.
 For instance, if Hon. A. W. Weir be-
 comes minister of public works, the
 construction of the new Montreal jail
 will be under his jurisdiction, as well
 as other more or less important pub-
 lic works. It is said that when Hon.
 J. C. McCorkill retires to accept a
 place on the Superior Court bench,
 the Premier will hand over the finan-
 ces of the province to Hon. Auguste
 Tessier, M.L.A., for Rimouski, and
 now minister of agriculture.
 Mr. Tessier represents a safe consti-
 tution, is a safe administrator, and
 possesses economical instincts. In such
 case Hon. Jules Allard, now Minister
 of Agriculture, and people say he
 would be more at home in that de-
 partment than in the one he now ad-
 ministers.

With these changes accomplished the
 position of first commoner would
 still have to be attended to, and it is
 said that the Government supporters
 from the Eastern Townships are put-
 ting up such a strong fight for the
 office that Hon. Mr. Gouin will find it
 difficult to resist their claims.

The strongest candidates for the
 speakership are Dr. Pelletier, M.L.A.,
 for Sherbrooke, and Mr. Peter Mac-
 kenzie, M.L.A., for the neighboring
 county of Richmond.

Ninth Regiment Band will play on
 verandah of Kent House this (Thurs-
 day) evening.

**QUEBEC & LAKE ST. JOHN RAIL-
 WAY.**

After benediction of the bells at
 Lake St. Joseph Roman Catholic
 Church on Sunday next, 22nd inst., a
 special train will leave Lake St.
 Joseph at 7 p.m. for the city, stop-
 ping at intermediate stations.

The finest performance ever given is
 on this week at the Rustic Theatre,
 Kent House Grounds. Don't miss see-
 ing it.

TWO MORE ARRESTS.

Two more arrests have been made
 at Cabano, County of Temiscouate, in
 connection with the slaying of Emile
 Beauspeir by Lagueux. Beauspeir's con-
 dition is still very serious and there
 is small hope of his recovery.

Ninth Regiment Band will play on
 verandah of Kent House this (Thurs-
 day) evening.

QUEBEC TURF CLUB.

A meeting of the Quebec Turf Club
 was held at the Chateau Frontenac
 last evening to transact business in
 connection with the annual meeting of
 the Club, which included the adoption
 of the official programme, etc.

The finest performance ever given is
 on this week at the Rustic Theatre,
 Kent House Grounds. Don't miss see-
 ing it.

RUMOR UNTRUE.

There was a rumor around town
 last evening to the effect that a prom-
 inent young citizen had been drowned
 in Lake St. Joseph last evening. In-
 vestigation of the rumor, however,
 speedily established the fact that it
 was untrue and wholly without founda-
 tion.

Ninth Regiment Band will play on
 verandah of Kent House this (Thurs-
 day) evening.

ACTIONS FOR DAMAGES.

Actions for \$5,000 damages each
 have been instituted against the Que-
 bec Railway, Light & Power Co. by
 Mrs. Goulet and Mrs. Rheume, wid-
 ows of two of the men who lost
 their lives in being swept over the
 dam at the Natural Steps work on
 the Montmorency River, in the acci-
 dent which occurred there a few months
 ago.

RUSH OF TOURISTS.

The rush of tourists continues and
 the trains and boats daily bring in
 large contingents. The number of
 visitors to date is reported to be
 ahead of the same time last season.
 At the Chateau Frontenac, from the
 1st of July to date, 2,000 more din-
 ners have been served than in the
 same period last year. At the St.
 Louis it is also stated that the num-
 ber of visitors exceed those of last
 year to date. At the Clarendon,
 Blanchard, Mountain Hill and other
 hotels the same story is told.

**GRAND PIANO FORTE AND SONG
 RECITAL.**

A rare musical treat is awaiting the
 patrons of the Auditorium on Monday
 evening next, when Miss Adela Verne,
 as listed by Miss Eva Gauthier, will
 give a pianoforte and song recital.
 Both these gifted young artists will
 be favorably remembered as being with
 Madame Albani on her recent farewell
 visit here. Miss Verne, whose reputa-
 tion is world wide, is probably the
 finest pianist ever heard in Quebec.
 Miss Gauthier is the possessor of a
 rich contralto voice of wondrous
 sweetness. We would advise our read-
 ers not to miss hearing these talented
 young artists. Seats are now on sale.

The finest performance ever given is
 on this week at the Rustic Theatre,
 Kent House Grounds. Don't miss see-
 ing it.

Grandfather's Cure for Constipation

GREAT medicine, — the Saw-
 buck.

Two hours a day sawing
 wood will keep anyone's
 Bowels regular.

No need of pills, Cathartics, Castor
 Oil nor "Physic," if you'll only work the
 Sawbuck regularly.

Exercise is Nature's Cure for Consti-
 pation and, — Ten-Mile walk will do, if you
 haven't got a wood pile.

But, if you will take your Exercise in
 an Easy Chair, there's only one way to
 do that, and make a Success of it.

Because, — there's only one kind of
 Artificial Exercise for the Bowels and its
 name is "CASCARETS."

Cascarets are the only means to exer-
 cise the Bowel Muscles, without work.

They don't Purge, Grip, nor "upset

BASEBALL GOSSIP AFTER SHERRING

Lajoie, the Mighty Slugger, Will Be Barred from Amateur Events in the U.S.

Harry Davis is the "champion" home run hitter. He has clouted for the circuit ten times. In fact, he has made more four-baggers than three-baggers, having six of the latter. He also leads the American League in two-baggers, having twenty-three of them.

Some proprietors of a baseball bulletin board, with greater enthusiasm than knowledge of the game, asked over the phone yesterday for the score of the Spuds-Pirates game in Pittsburgh. He was told it was nothing to nothing in seven innings. "Can't you give it to me by innings?" was the anxious response. — Chicago Tribune.

Spit-ball pitchers are growing more rare, at least in so far as twirlers who rely principally on that delivery for their effectiveness, and Jack Chesbro, the man who introduced the spit-ball into major league company, is the last of those who have given up that style of delivery. Chesbro all but pitched the New Yorks into the American league championship the first year he introduced the spit-ball, and he was one of the most enthusiastic advocates of that delivery.

Montreal has let out Louis Rapp and pitchers Mattern and Burke. Rapp, who was carried by Toronto for three months last season, when he was on the sick list, has not been in share to play since the spring. He might have been with Montreal a little longer, but for a bad break he made while here. Somebody in the bleachers yelled, "Get in the game; we kept you all last season." Rapp retorted, "That's all right, and I have got your money in the bank, too." One of the owners of the Montreal club heard his remark and Rapp's release followed.

Pitchers are the ones who are most in the eye of the fans, and if asked offhand who is the most important man on a club most men would say the pitcher. Yet actual experience shows that a pitcher is not half as important as a catcher, and New York could probably get along without Mathewson better than they could without Breenahan. Mathewson does not average one game in five on the slab, while Breenahan will catch over half the games during a season. His work with other pitchers of the club will win more games under ordinary circumstances than will the individual efforts of Mathewson on the slab. With Breenahan in the outfield, the younger members of the Giants' twirling staff have been nowhere as effective as they would have been with him doing the receiving, and even McGinnity has done poorly without the battery aid he would have been given by Breenahan.

Napoleon Lajoie, of the Cleveland Baseball Club, is a duffer at golf. No body realizes it better than he, and hereafter he will simply rest secure on his reputation as a leading baseball batsman without trying to gain any other accomplishments. The revelation came when a friend took Lajoie to a Washington golf club. The king of batters was interested in the ease with which flat chested gentlemen whacked the gutta percha spheres 175 yards or more at a stroke. When a driver was headed to him and a ball placed neatly on a tee he stepped forward confidently. Assuming a hitting position, he cast his eyes forward as if to see the pitcher, but, suddenly realizing that there was no pitcher and that the ball lay dead before him instead of being thrown with an outburst in his direction, the mighty ball player prepared for a mighty swipe. Lajoie worked his shoulders well into it and the slender shaft of the driving made a whistling sound as it cut the air. It terminated in a dull thud as the driver struck the ground underneath the ball, which stirred ne'er an inch. Lajoie was surprised, to say the least. Lajoie he swung and yet again. Finally he connected, and the ball arched in a rather poor drive, somewhat sliced, for a distance of about 100 yards. With the reflection that a five ounces horse-hoof and a good old "Louisville slugger" were better tools for results the mighty batsman retired to the shade, a table and something else.

WILL PLAY NEXT WEEK.
The baseball game between the St. Patrick's and Z. Paquet teams will be played on the Q.A.A. grounds next Tuesday evening at 6 o'clock.

CANADIAN BASEBALL LEAGUE.

The Quebec Baseball Club intend to take no chances on next Sunday's game, and a strong team is being organized to meet Rock City on the Q.A.A. ground. A spangly game is fully anticipated and it is expected to have a couple of new faces on the Quebec line-up that will make things decidedly interesting. The chances for seeing a well known pitcher in the box are also said to be almost assured.

BASEBALL GOSSIP AFTER SHERRING

Lajoie, the Mighty Slugger, Will Be Barred from Amateur Events in the U.S.

New York, July 18.—The recent hero worship of William Sherring, the Canadian athlete who won the Marathon race at the Olympic games at Athens, has outraged the authorities of the various amateur organizations of America the possibility of danger to amateurism. Canadians based unusual honors and rewards on the winner of the great Marathon, and while everything was done in a public manner, the excess of zeal on the part of the Canadians to show a national appreciation of the athletic services of Sherring will probably result in the latter being barred from competition in any athletic games held under the sanction of the Amateur Athletic Union.

According to reports, Sherring received a house and lot and a large sum of money, the latter said to be \$5,000, from his admiring friends. It is the latter item which has robbed Sherring of his standing as an amateur in the United States. The rule governing Sherring's case is fully covered in Article X. of the Constitution of the Amateur Athletic Union of the United States, which deals with the condition of competition. It says:

No person shall be eligible to compete at any athletic meeting, game, or entertainment, given or sanctioned by this Union, who has received or competed for compensation or reward in any form for the display of his exercise or example of his skill in, or knowledge of, any athletic exercise, or for rendering personal advice of any kind to any athletic organization.

Sherring, according to competent athletic authorities, violated this rule by accepting money as a reward for the display of his exercise and example of his skill, and by so doing has forfeited his amateur standing in the United States. There seems to be a general acknowledgment that neither the spirit nor the letter of the rule was violated by Sherring's acceptance of the house and lot, but as Sherring last week, in declining to take part in the Chicago Marathon race in September stated that he believed he has all the honors he wants, this predisposes of any contention, as there is no necessity of making a case out of such conduct unless it comes in direct contact with a principle. If Sherring ever changes his mind and enters an athletic event held under Amateur Athletic Union rules, he will at once be protested.

MURIEL WILKES WON.

Coburg, Ont., July 18.—Fully 1,500 people were at Donegan Park this afternoon to witness the matched race between Mr. Robert Coyle's pacing mare Muriel Wilkes, of Coburne, and Dr. Johnston's Harry Direct, of Peterboro, for a purse of \$400. The track was put in first class shape by the local horsemen and was perfect and fast. The first heat went to Harry Direct by a nose in 2:13.34. The second, third and fourth heats went to Muriel Wilkes, she winning as she pleased and was at no time in danger of losing the race. It is estimated that \$2,000 changed hands.

RACING AT BRIGHTON.

New York, July 18.—James R. Keene's Mentha, by Commando-Mint-sake, the favorite at 2 to 1, won the \$7,500 Venus stakes for two-year-olds 5-12 furlongs, at Brighton Beach today. Victoria B, an added starter, paying 4 to 1 for the place, was second, with Yankee Girl third. The time was 1:07.25. Radtke sent the Keen filly to the front at the lifting of the barrier, followed by Irvine and Surveillence. Mentha still held her lead at the head of the stretch, while Victoria B and Surveillence dropped back. In the stretch Victoria B made a bid and closing strong, forced Radtke to ride out the Commando filly to win by a length. Three favorites won.

QUEBEC VS. SHERBROOKE.

The practice of the Quebec lacrosse team last night was not by any means an encouraging one, though better things are expected to-night. If the Quebec men are slow in turning out for this game, the Sherbrooke dozen are not, as the following from the Sherbrooke Record will show:—"The Sherbrookes will be out each night this week putting in hard practices in order to be in the best of shape to meet their rivals. Both teams are going to make a hard fight for championship the result of the coming match. The champions must win all its matches from this out in order to be in the final at the close of the season. The boys showed good form last Saturday and if they put up the same game against the Quebec club it is safe betting the Club will be up a peg in the race for the championship. The supporters of the home team will be out in force to back the boys. Excitement is in store for all who attend the big game." Both clubs will endeavor to arrange for a referee during the week. No names have been mentioned for the position so far. It is expected an agreement will be reached by Friday.

The finest performance ever given in this week at the Rustic Theatre, Kent House Grounds. Don't miss seeing it.

AUTOS ARE COMING

Glidden Trophy Tourists Arrived in Montreal Yesterday Afternoon.

Montreal, July 18.—Montreal was invaded shortly after noon to-day by a force of several hundred automobilists with their machines, when the famous Glidden tour reached the city on its way east from Chicago. The party, which includes a number of the wealthiest citizens of the United States, is about 325 strong, with almost a hundred machines. They left Plattsburg, N.Y., shortly after 9 o'clock this morning, and at once took the road for Montreal, entering the city over the Victoria Bridge. Two hundred of them looked accommodation at the Place Viger, while most of the remainder put up at the St. Lawrence Hall, Corona and Windsor Hotels. They reached Montreal at half past two, and will stay here eight-eleven until Friday morning.

The advance guard of the party reached Montreal in their automobiles yesterday, and made arrangements for the welfare of the rest. They consisted of Mr. and Mrs. G. W. McLellan, of Schenectady, N.Y., and Mrs. R. M. Vanitie, of New York, and Messrs. J. Schreyer, L. L. Noxon, F. J. Wagner, and Harry Cawood, all of New York.

Their duty was to mark out the source with arrows, and to post signs at the various cross-roads warning ordinary traffic, so that the auto tourists might be interfered with as little as possible during the journey. On arriving at Montreal all the racing machines were placed under guard until the tour is resumed on Friday, in order that all the conditions of the race shall be observed. From here the tourists go to Quebec via Three Rivers, and they will spend two or three days at the Ancient Capital before starting on the return trip through the State of Maine.

While a good many of the tourists have made the run all the way from Chicago, most of them have only come from Buffalo, where the "race" started last Thursday. Properly speaking it is not a race, but a test of endurance and mechanical perfection during a long and arduous journey over all sorts of roads. The time in which each section of the route is to be covered is fixed in a regular schedule, like the running orders of a train, and a machine will be as severely penalized for exceeding the speed limit as for falling behind. The chief object of the trip is to demonstrate the capacity of the various machines to keep up a regular pace, and do it without occasionally breaking down. The members of the advance guard now here, stated last night that from the advice sent them most of the machines had been wonderfully successful in keeping up with the procession, and their occupants were thoroughly enjoying the outing, despite the heat and dust.

After leaving Buffalo the big army of autos passed through Albany, Utica, Saratoga and Port Elizabeth, spending yesterday at Plattsburgh, resting and making trips on Lake Champlain. While in Montreal the tourists will probably be entertained by many of the local auto enthusiasts, although on their tour they are avoiding any formal oblations of hospitality.

BASEBALL RESULTS.

(National.)

At Pittsburgh: — Pittsburgh, 9; Philadelphia, 3.

At St. Louis: — Brooklyn, 6; St. Louis, 5.

At Chicago: — Chicago, 3; New York, 3. (Called after 12th innings, darkness.)

At Cincinnati: — Cincinnati, 6; Boston, 4. (American.)

At Washington: — Washington, 6; Chicago, 3.

At Boston: — Boston, 5; Detroit, 2.

At Cleveland: — New York, 6; Cleveland, 4.

At Philadelphia: — St. Louis, 4; Philadelphia, 2. Second game—Philadelphia, 10; St. Louis, 5. (Eastern.)

At Buffalo: — Buffalo, 6; Newark, 3.

At Rochester: — Rochester, 7; Providence, 1.

DELOIRIER PARK RACES.

Montreal, July 18.—There was some good racing at Deloirier Park to-day, the feature being the winning of the 2.22 pace by Queen Alexandra. Summary:—

FARMS FOR SALE.

AT AND IN THE VICINITY OF COMPTON.

The well known Farms belonging to the estate of the late Hon. M. H. Cochrane and of H. D. Smith, Esq.

These farms contain a total superficies of 1300 acres and are in a perfect state of culture. One consists of 600 acres and the other of 700 acres.

They are well wooded, and contain splendid stables, and several brooks and springs, which furnish water to the houses and stables.

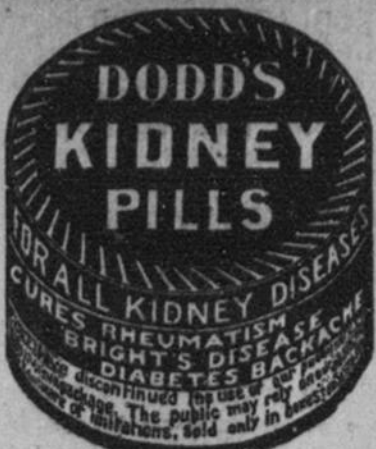

These large farms can easily be divided into eight beautiful farms, with residences and very convenient stables, as well as steam engines.

There is also excellent pasturage. Also for sale a farm of 540 acres belonging to the estate of the late Charles Stimson and with several residences.

For information, Address

JOHN M. LEMOINE,

COMPTON.

SHIPPING NEWS

A RAPID PASSAGE

Steamer Empress of Britain

Passed Cape Magdalen

Last Evening.

The C.P.R. steamer Empress of Britain, Captain Stewart, from Liverpool, 12th, and Moville at 1.10 p.m. on the 13th instant, passed Cape Magdalen at 8.15 o'clock last evening and is due in port at 4 p.m. to-day. Should she arrive at that hour she will have made a remarkably fast passage.

ALLAN LINE.

Steamer Mongolian, Capt. Stirratt, having landed passengers and Quebec cargo left for Montreal at 11 a.m. yesterday.

Steamer Ontario, Capt. Imrie, from London, with a general cargo, arrived in port yesterday afternoon and moored at the company's wharf.

Steamer Numidian, Capt. Main, arrived from Montreal at 3 p.m. yesterday, and proceeded for Glasgow.

Steamer Carthaginian, on the way from Havre, has 71 second and 194 third class passengers and a general cargo.

C. P. R. LINE.

Steamer Mount Royal, Capt. Evans, from London, via Antwerp, with passengers and a general cargo, arrived in port at 5.30 p.m. yesterday and moored at the Breakwater.

Steamer Montrose, from Montreal and Quebec, arrived at London on the 17th instant.

DONALDSON LINE.

Steamer Lakonia, Captain Gillies, from Quebec, arrived at Liverpool on the 16th instant.

Steamer Athenia, Captain McNeill, having landed passengers and Quebec cargo, left for Montreal this morning.

DOMINION LINE.

Steamer Canada passed Point Amour at 5.30 a.m. yesterday and is due in port this midnight.

Steamer Gaspe, Capt. Bouchard, from Gaspe and way places, with passengers and general cargo, arrived in port yesterday morning and moored at the Champlain Market wharf. Having landed Quebec passengers and cargo, she left for Montreal.

QUEBEC STEAMSHIP CO.

Steamer Bermuda sailed from New York for Bermuda at 11 o'clock yesterday morning.

CHARTERED.

A steamer, deals, Gaspe to West Britain or East Ireland, 42s. July; bark, 767 tons, lumber, Weymouth, N. S., to Buenos Ayres, \$9.25; bark, 508 tons, deals, St. John, N.B., to Bantry, private terms.

DECK COVERED WITH SQUID.

Struck by a school of squid, which covered her decks and rails was the unusual experience of the Nova Scotia three-masted schooner Debra-land, Capt. Waters, which arrived at Boston Friday from St. Martins, British West Indies, with a cargo of 9,000 bushels of salt. The vessel was just south of Cape Hatteras when she struck into an enormous school of these fish. A wave sent hundreds of them over the decks until they were packed a foot deep on the starboard side. Their long tapering bodies filled one of the boats and the crew had to use shovels to throw them back into the sea.

MOVILLE FULER OUT.

London, July 18 - The Postmaster-General has been officially informed of the cancellation of Moville as a port of call for Canadian mails after the 3rd of August.

NOTES.

Bark Rolf, Capt. Torjensen, from Gaspe, arrived at Liverpool on the 15th instant.

Steamer Bellona, Capt. Rollo, from Montreal and Quebec, arrived at Leth on the 15th instant.

Steamer Uimak, Captain Olsen, having discharged her cargo of coal, left for Sydney yesterday afternoon.

Tug Kate left for Prescott yesterday with barges Onandago and A. D. in tow.

Steamers Hektor and Dominion arrived from Montreal yesterday and proceeded for Sydney.

Tug Virginian left for Montreal yesterday morning with four schooners, one barge and four canal boats in tow.

Steamer Alexandria, Capt. Smith, with a large number of passengers, arrived from Charlotte, N.Y., yesterday morning. She left in the afternoon on her return trip.

Steamer Cervona, Captain Stocke, left port at 4.30 a.m. yesterday for London.

Steamer Inishowen Head, Captain Cotter, arrived from Montreal yesterday and went into Sillery Cove to complete cargo.

Steamer Nozden, Captain Schmidt, from Hamburg with a general cargo,

arrived in port yesterday and proceeded for Montreal.

Bark Waktikka, Captain Lindahl, left port yesterday afternoon for the River Plate under sail, with a light westerly breeze.

THE LATE MR. BEIT

Widely Differing Statements as to the Amount of his Fortune—Was he Married?

London, July 12.—Those who are really in a position to give authoritative information regarding the amount of the fortune of the late Alfred Beit, the South African financier, and the terms of his will have not yet given it to the newspapers. Estimates ranging from \$125,000,000 to \$625,000,000 have been published but it will probably be found when the terms of the will are given out that Mr. Beit's fortune was somewhat below \$50,000,000. About one-third of this amount, it is expected, will be bequeathed to national purposes in Great Britain and South Africa, mainly of an educational character. Mr. Beit has several married sisters in Germany and Austria, and presumably, they as well as his mother and brother will inherit considerable amounts.

New York, July 12.—Speculation as to whether Alfred Beit, the South African financier, who died in London, Monday, left a widow, was aroused to-day by the discovery that in making an application to an American Insurance Co. for a policy on his life in 1890, Mr. Beit named as the beneficiary of his policy "My intended wife Elizabeth Bennett Beit." Whether this stated intention of marriage was ever carried out was not stated in the statistics furnished to the insurance company, which showed that at the time he submitted to a physical examination, Mr. Beit was unmarried. Although 16 years have elapsed since the policies were taken out in favor of Elizabeth Bennett, and during the time Bennett has been constantly brought to public notice, yet he has always been regarded as a bachelor.

The finest performance ever given is on this week at the Rustic Theatre, Kent House Grounds. Don't miss seeing it.

The police have arrested 13 natives possessing various stolen goods from victims held up over nightfall. Ominous reports are received from all parts of the colony. The missionaries of the Ethiopian Church in South Africa, intimidated by the apathy of the authorities, are only advocating the forcible restitution of the Kaffirs "rights." Hundreds of natives are joining the Ethiopian Church, which is really a political instead of a religious body.

The usual fatality of the aborigines and the Crown officials have driven 500 members of the Baden-Powell Constabulary to resign owing to the harsh measures of retrenchment recently put in operation while the colony is in imminent risk of a bloody conflict.

It is generally known that the natives have other sources of news from the outside world than through the local newspapers and the gossip of the whites. The Ethiopian Church has agents in Europe and America, and the pro-Zulu feeling manifested by one or two persons in England is undoubtedly known here.

HELP FROM ENGLAND.

This feeling is unduly distorted and exaggerated among the natives, who believe that they will receive emphatic support in Great Britain if they attempt to assert their "rights."

If the House of Commons does anything to weaken the authority of the white men, South Africa must face a situation of horror unparalleled since the Indian Mutiny.

Keir Hardie may light a fire which will destroy thousands of his countrymen before it is extinguished.

MAGNIFICENT CARS ON GRAND TRUNK.

The Tourist Traffic over the Grand Trunk Railway System to the "Highlands of Ontario" is larger than in any other part of Canada, and each year for several years past the Company have been improving their roadbed, relaying the tracks with 80 pound rails, and augmenting their equipment with modern and luxurious coaches, lining cars and parlor cars, until their present trains are among the finest on the continent. The latest additions placed on this division of the line are a series of Buffet-Parlor Cars, built especially in the Montreal shops for this traffic. They are models of elegance, both in their exterior and interior finish. Eighty-one feet long, they contain a parlor with seating capacity for 29 passengers, a smoking room with seats for seven people, and in addition an exceptionally large buffet is provided for serving meals in the parlor section of the car.

The inside finish of the car is carried out in a handsome design of mahogany with antique bronze trimmings, while the upholstery is done with green star plush and the ceiling of the car painted green with gold ornamentation, the result achieved being a happy blending of color and a pleasing harmony throughout. The lighting fixtures are combination fixtures for gas and electricity. Hand-some Wilton carpets of choice design cover the parlor and ladies' dressing room, and rubber-tiling the smoking-room, buffet and passages. The cars are equipped with six-wheeled trucks, Westinghouse high speed brakes, air signals, and other modern appliances. They are the standard Grand Trunk car (bottle green) and weigh 116,300 lbs. each.

Ninth Regiment Band will play on verandah of Kent House this (Thursday) evening.

How Indigestion Is Really Cured

If you had the opportunity we have of reading the letters which come to these offices from persons who have been cured by Dr. Chase's Kidney-Liver Pills you would not be long in making up your mind to put this treatment to the test when troubled with derangements of the liver, kidneys and bowels.

When we tell you that Dr. Chase's Kidney-Liver Pills cure intestinal indigestion of the most aggravated form we have in mind the thousands of such cures that have been reported to us.

By enlivening the action of the liver and causing a healthful flow of bile into the intestines this treatment hastens the passage of food along the intestinal canal, insures regular movement of the bowels and positively removes the cause of such symptoms as headache, dizziness, biliousness, muddy complexion, irritability and bodily pains.

THE BLACK TERROR IN THE TRANSVAAL

Johannesburg in Fear of Kaffir Uprising
ATTACK MEN AND WOMEN

Peril is Growing and Whites Are Purchasing Firearms in Large Numbers.

Johannesburg, July 12.—Increasing lawlessness among the Kaffirs has thrown Johannesburg into a state of panic. The city is practically an armed camp, dwelling-houses have been fortified, and gunsmiths are selling enormous quantities of rifles, revolvers, and ammunition.

This state of alarm, which through the inaction of the authorities, is steadily growing worse, is directly traceable to the efforts of Dinizulu's emissaries and representatives of the Ethiopian Church, who are penetrating into every corner of the country preaching the sinister doctrine of "Africa for the Africans."

The eruption of lawlessness in Johannesburg proper is traceable to the crushing blows inflicted on the rebels in Natal. Whether due to a spirit of retaliation or an alleged universal conspiracy engineered by Dinizulu, the fact remains that within a month 20 Europeans have been held up by native ruffians after nightfall.

WOMEN MALTREATED.

Six white women, who ventured out alone after nightfall, were brutally maltreated by Kaffirs. Other victims include a Wesleyan minister and his wife, two postmen who were delivering letters, and a policeman on his beat, who was suddenly attacked by several armed natives.

Two of the victims of these outrages died from their injuries, and several others are in a serious condition. Attacks on white men and women have been especially prevalent in the southern suburbs of Johannesburg. Locks and bolts were never used in Johannesburg before the war. To-day every door is protected by two or three heavy locks, often supplemented by iron bars and chains.

Many old residents who appreciate the gravity of the native unrest are even laying in stocks of provisions in case they should be besieged. The men in Johannesburg, almost without exception, have purchased firearms. In some instances they have sent to Cape Town for rifles.

Kaffir servants have become openly insolent and in some instances have been in the employ of a well-known mining engineer was dismissed recently for impertinence when he told his master that "the white people would soon be driven into the sea."

NATIVES ARRESTED.

The police have arrested 13 natives possessing various stolen goods from victims held up over nightfall. Ominous reports are received from all parts of the colony. The missionaries of the Ethiopian Church in South Africa, intimidated by the apathy of the authorities, are only advocating the forcible restitution of the Kaffirs "rights." Hundreds of natives are joining the Ethiopian Church, which is really a political instead of a religious body.

The usual fatality of the aborigines and the Crown officials have driven 500 members of the Baden-Powell Constabulary to resign owing to the harsh measures of retrenchment recently put in operation while the colony is in imminent risk of a bloody conflict.

HELP FROM ENGLAND.

This feeling is unduly distorted and exaggerated among the natives, who believe that they will receive emphatic support in Great Britain if they attempt to assert their "rights."

If the House of Commons does anything to weaken the authority of the white men, South Africa must face a situation of horror unparalleled since the Indian Mutiny.

MAGNIFICENT CARS ON GRAND TRUNK.

The Tourist Traffic over the Grand Trunk Railway System to the "Highlands of Ontario" is larger than in any other part of Canada, and each year for several years past the Company have been improving their roadbed, relaying the tracks with 80 pound rails, and augmenting their equipment with modern and luxurious coaches, lining cars and parlor cars, until their present trains are among the finest on the continent. The latest additions placed on this division of the line are a series of Buffet-Parlor Cars, built especially in the Montreal shops for this traffic. They are models of elegance, both in their exterior and interior finish. Eighty-one feet long, they contain a parlor with seating capacity for 29 passengers, a smoking room with seats for seven people, and in addition an exceptionally large buffet is provided for serving meals in the parlor section of the car.

The inside finish of the car is carried out in a handsome design of mahogany with antique bronze trimmings, while the upholstery is done with green star plush and the ceiling of the car painted green with gold ornamentation, the result achieved being a happy blending of color and a pleasing harmony throughout. The lighting fixtures are combination fixtures for gas and electricity. Hand-some Wilton carpets of choice design cover the parlor and ladies' dressing room, and rubber-tiling the smoking-room, buffet and passages. The cars are equipped with six-wheeled trucks, Westinghouse high speed brakes, air signals, and other modern appliances. They are the standard Grand Trunk car (bottle green) and weigh 116,300 lbs. each.

How Indigestion Is Really Cured

If you had the opportunity we have of reading the letters which come to these offices from persons who have been cured by Dr. Chase's Kidney-Liver Pills you would not be long in making up your mind to put this treatment to the test when troubled with derangements of the liver, kidneys and bowels.

When we tell you that Dr. Chase's Kidney-Liver Pills cure intestinal indigestion of the most aggravated form we have in mind the thousands of such cures that have been reported to us.

By enlivening the action of the liver and causing a healthful flow of bile into the intestines this treatment hastens the passage of food along the intestinal canal, insures regular movement of the bowels and positively removes the cause of such symptoms as headache, dizziness, biliousness, muddy complexion, irritability and bodily pains.

Dr. Chase's Kidney-Liver Pills. One pill a dose, 25 cts. a box, at all dealers, or Edmondson, Bates & Company, Toronto.

Diarrhoea, Dysentery, Stomach Cramps, Colic, Seasickness, and all Summer Complaints are instantly cured by

It has been a household remedy for 60 years. It is pleasant to take and does not leave the bowels in a constipated condition. Price 35 cts.

THE COLONEL BOLTS.

St. Petersburg, July 12.—It is reported that some of the soldiers of the Semenovskiy Guard regiment have served notice on their commander, Colonel Minn, that they intend to kill him at the first opportunity for forcing them to murder their fellow-citizens during the Moscow revolt, and that Minn, in fear of his life, fled from the camp at Krasnoye Selo.

ASTHMA COMMON IN SUMMER TIME

Awfully distressing is Asthma. But worse if possible when combined with Bronchitis. Relieved quicker by Catarrhose than anything else. Cured so thoroughly by "Catarrhose" that it doesn't return.

Catarrhose's healing vapor is breathed right into the lungs, destroying the cause of asthma and succeeds in most chronic cases. Try it, two sizes, 25 cts. and \$1.00, at all dealers.

Ninth Regiment Band will play on verandah of Kent House this (Thursday) evening.

The finest performance ever given is on this week at the Rustic Theatre, Kent House Grounds. Don't miss seeing it.

BIG BLAZE AT LEVIS EARLY THIS MORNING

Fierce Fire Breaks Out in Paradis' Lumber
Yard and Rapidly Spreads, Doing
Great Damage

MANY BUILDINGS DESTROYED BY FLAMES

A disastrous fire broke out in Levis shortly after midnight, and as the Chronicle went to press this morning was still in progress. The damage already done amounts to \$35,000 or \$40,000, and may be greatly augmented before the blaze is got under control.

The fire broke out in the lumber yard of T. Paradis, Commercial street, on the river front, about 12:45 a.m., shortly after the passing of the Ocean Limited on the Intercolonial, and is supposed to have started from a spark from the engine of that train. The fire burned fiercely and spread rapidly. The Levis fire brigade, under command of Chief Denis, together with a large number of volunteers, worked energetically to stay the progress of the flames, but the water supply was very weak, only two streams being available to fight the fire.

The flames destroyed the sawmill of Mr. Paradis, his office, four other buildings and stock of lumber. The blaze was one of great proportions, and lit up the whole river front, while the view from Quebec was a grand, though terrible one.

The next building to fall a prey was the Globe Hotel, kept by C. Despres, and this too was totally destroyed. Then came the house of A. Guay, occupied by several families, and the fire still continued its spread, three or four other houses falling a prey to the devouring element, which still continued its onward sweep and was yet raging when the Chronicle put to press.

Help from the Quebec fire brigade was telephoned for by the Levis authorities, and a detachment, under command of Deputy Chief Fitzback, crossed over about 2:30 a.m. and gave much needed assistance to the Levis fire-fighters.

Mr. Paradis estimates the loss on his six buildings which were burned at \$6,000, and he has some insurance. Notwithstanding the early hour the news spread in town and many people gathered on the Terrace and along the river front to witness the conflagration, the reflection of which lit up the city with great brilliancy.

NEW YORK TOPICS

July Oyster-Eating Contest
Ends in a Stabbing—An
Apartment-House Inca.

New York, July 18.—It was all on account of oysters, and out of season, too. Oysters and Italians do not go well together. Perhaps that is why Joseph Saloni lies in the Harlem Hospital, with a stab wound in his head and Felix Garilli and John Casselli repose in a prison cell, the former charged with felonious assault, the latter just plain intoxication.

The affair grew out of two mean little oysters incased in shells on a street stand in that picturesque district known as "Little Italy." Thousands of Italians were out this morning promenading, in their best attire under the gayly decorated arches in celebration, of the Feast of Our Lady of Mount Carmel, and Felix Garilli, who lives in First Avenue, when he is not drinking in Mr. Belmont's tunnel, was standing by the oysters and fresh clam stand, with iced watermelon on the side. Suddenly he espied Joseph Saloni, who lives in East Ninety-seventh street, strolling by. He called him by name and at that moment John Casselli, who was in view, several sheets to the wind, offered to bet \$2 he could eat more oysters than Saloni and the bet was accepted.

So Casselli held the \$4 while Garilli and Saloni began to swallow July oysters. When Garilli had swallowed 100 Saloni still had only swallowed 98, and before the spectators could interfere had clinched with his opponent. A moment later Saloni dropped to the sidewalk with a nasty stab wound in his head.

A riot then ensued among the thousands of Italians who had been attracted to the scene, with the result that when Captain Gallagher, of the East One Hundred and Fourth street Police Station, sent the reserves on the run they had all they could do to quell the excitement.

After Saloni had been sent to the hospital the police began to look for Casselli, who had "held the \$4" wager. They found him in the act of spending the money at a corner saloon.

EASY MOVING UNDER THIS PLAN.

To stimulate moving of their new flats and apartment houses on the upper end of Washington Heights between One Hundred and Sixty-fifth and One Hundred and Eighty-fifth streets several owners have adopted the novel plan of making the moving expenses of tenants.

In the last six months about 600 new flat houses have been built on the Heights north of One Hundred and Fifty-fifth street with accommodation

TO TOURISTS.
When Quebec hotels are crowded tourists may obtain the best of hotel accommodation at Lake St. Joseph, a delightful summer resort in the Laurentian Mountains, only 50 miles from the city. Trains leave the Q. & L. St. J. Ry. depot at 8:45 and 10 a.m., 1:45, 5:20 and 6:20 p.m., daily except Sunday.

PERSONAL

Hon. P. A. Choquette left last night for Montmagny in professional business. The Senator expects to be absent for a couple of days.

Mr. R. Ackerman and Miss Hill, of Messrs. Glover, Fry & Co., leave for Europe to-day by R.M.S. Victrola in the interest of the firm.

Arrivals at the Burlington Rooms:—Mr. and Mrs. Camille Guerin, Brooklyn, N.Y.; Mrs. R. A. Patterson, Miss E. F. and E. L. Patterson, Beaver, Pa.; J. B. Kennedy and wife, New Westminster, B. C.

Arrivals at the King Edward Hotel: Mrs. Peter Penneault, Mr. Henry Penneault, Watertown, N.Y.; Mr. G. T. Jones, Rochester, N.Y.; Mr. Jos. A. Conway, Rochester, N.Y.; Mr. J. Simpson, Rochester, N.Y.; Mr. John B. Sullivan, Buffalo; Mr. Joseph S. Arthur Lemay, Ottawa; Mr. A. Coudlard, Lake St. John, N.B.; Mr. E. Turcotte, Malone, N.Y.; Mrs. N. E. Pagan, Miss E. Foley, Boston; Miss A. Bellens, Miss M. Connelly, Farness Falls, Mass.; Miss Aline Bernier, Miss Rebecca Bernier, Mr. F. Bernier, St. Claire; Mr. Wm. Pennington, Lyeter.

Arrivals at the Clarendon:—G. W. Whitehead, Fredericton, N.B.; M. C. Small, Grand'Mere; Mrs. W. Small, Grand'Mere; Frank Nicolle, London, Ont.; M. Hurly, Westville, N.S.; Miss M. S. Sulini, Denver, Colorado; F. R. Sulini, Baltimore, Maryland; Arthur Goldburt, M.P.P., St. George, Beauce; G. Berber, St. Come; C. Fardbawav, Montreal; Amelia J. Connell, L. M. Aldrick, L. G. Sloat, M. Ecker, E. Becker, W. Korte, Chicago; R. S. Dixon, Montreal; S. C. Crump and wife, Bay City, Mich.; M. Ste. Marie, Montreal; A. J. Hughes, Montreal; A. L. Bogart, Chicago; W. H. Carlson, wife and son, St. Louis, Mo.; Gordon S. Lake, F. J. Clark, Brantford.

FOUND.

A blue enamel ladies' watch with attachments. The owner can have the same by applying at Chronicle office and proving properly.

The finest performance ever given is on this week at the Rustic Theatre, Kent House Grounds. Don't miss seeing it.

DAY BY DAY.

The temperature is improving, thank you.

That Levis illumination early this morning, while brilliant, was costly.

Still they come, and all are welcome. The hotels are crowded with tourists.

Quebec is not jealous of Levis' big fire.

Canadians at Bisley are bucking up. They are also hitting the target in the right place with more regularity.

The cabman just now wears that broad expansive smile that won't come off.

There is no kick coming against the increase in the number of milk licenses issued.

The visiting auto tourists will soon be giving Quebecers the merry honk! honk!

The Empress is proving herself worthy of the name she bears.

Ninth Regiment Band will play on verandah of Kent House this (Thursday) evening.

OCEAN ARRIVALS.

July 18—
SS Princess Irene, at New York, from Genoa, Naples and Gibraltar.

SS Majestic, at Queenstown, from New York.
SS Ivernia, at Queenstown, from Boston.
SS Manitou, at Dover, from Philadelphia.
SS Tampican, at Manchester, from Montreal.
SS Kaiser Wilhelm Der Grosse, at Bremen, from New York.

They Stand Alone.

Standing out in bold relief, all alone, and as a conspicuous example of open, frank and honest dealing with the sick and afflicted, are Dr. Pierce's Favorite Prescription for weak, over-worked, debilitated, nervous, "run-down," pain-racked women, and Dr. Pierce's Golden Medical Discovery, the famous remedy for weak stomach, indigestion, or dyspepsia, torpid liver, or biliousness, all catarrhal affections whether of the stomach, bowels, kidneys, bladder, nasal passages, throat, bronchitis, or other mucous passages, also as an effective remedy for all diseases arising from thin, watery or impure blood, as scrofulous and skin affections.

Each bottle of the above medicines bears upon its wrapper a badge of honesty in the full list of ingredients composing it—printed in plain English. This frank and open publicity places these medicines in a class all by themselves, and is the best guaranty of their merits. They cannot be classed as patent nor secret medicines for they are neither—being of known composition.

Dr. Pierce feels that he can afford to take the afflicted into his full confidence and lay all the ingredients of his medicines freely before them, because these ingredients are such as are endorsed and most strongly praised by scores of the most eminent medical writers as cures for the diseases for which these medicines are recommended. Therefore, the afflicted do not have to rely alone upon Dr. Pierce's recommendation as to the curative value of his medicines for certain easily recognized diseases.

A glance at the printed formula on each bottle will show that no alcohol and no harmful or habit-forming drugs enter into Dr. Pierce's medicines, they being wholly compounded of glyceric extracts of the roots of native American forest plants. These are best and safest for the cure of most lingering, chronic diseases. Dr. E. V. Pierce can be consulted free, by addressing him at Buffalo, N. Y., and all communications are regarded as sacredly confidential.

It is as easy to be well as ill—and much more comfortable. Constipation is the cause of many forms of illness. Dr. Pierce's Pleasant Pellets cure constipation. They are tiny, sugar-coated granules. One little "Pellet" is a gentle laxative, two a mild cathartic. All dealers in medicines sell them.

HAUNTED BY HOGS.

"Hog money" is the name by which the brass money which began to be struck in Bermuda in 1650 came to be known. On one face of it was a hog, on the other a ship of that period. These old coins are very rare, and highly prized by collectors.

The history of this device is curious and interesting. A Spanish vessel, commanded by Juan Bermudez, and on its way to Cuba with a cargo of hogs, was wrecked there. This was in 1515. Later in the same century, when the English discovered this land, they found a country inhabited by hogs.

It is also interesting to note that the English discovered it in the same way as the Spaniards. An English ship was wrecked there. Is it any wonder that the treacherous coast got from the Spaniards and English alike the name of "Devil's Land"? Yet it is one of the most beautiful coasts in the world, and it has been claimed that in brilliancy Mediterranean effects are not at all equal to those of Bermuda.

Bermuda is said to be the island of Shakespeare's "Tempest." The strange noises which mariners heard coming from this island, and which they did not then know were produced by hogs, caused them to say that it was haunted, and to report weird things of it.

F. SIMARD & CIE.

MEN'S SUITS MADE TO ORDER

AT PRICES LOWER THAN READY MADE CLOTHING.

To Measure at \$11.75. Regular \$20.00.

In the Custom Tailoring Section we put on special sale Monday, a collection of regular \$18. to 20.00 Suits for \$11.75.
