

LACHINE

INCORPORATED AS A TOWN IN 1872; AND AS A CITY IN 1909.

The City of Lachine was founded by Chevallier de La Salle in 1669, as a French Settlement; and was later the headquarters of the Hudson Bay Company in Canada; and was for some time the main Distributing Point for the country reached by the Upper St. Lawrence and the Ottawa Rivers.

The actual conditions on the Island of Montreal warrant the statement, that, to-day, any manufacturer wishing to establish a factory in or about the City of Montreal; should come to Lachine for the following reasons:

1. Lachine possesses all the advantages that Montreal can offer in point of, (a) Shipping facilities; (b) Banking accommodation; (c) Home market for products; (d) Home of great industries; (e) Cheap electrical power.
2. The price of land in Lachine is from 50 to 100 per cent. cheaper than in Montreal.
3. It is the head of the Lachine canal, one of the finest artificial waterways of the world.
4. New factories sites, with both water and rail-shipping facilities. Each of these points we will bear out with facts in the following:

UNIQUE SITUATION OF LACHINE

To get a proper idea of the situation of Lachine, one must keep in mind that it constitutes one of the most important links of that chain of canals known as the ST. LAWRENCE CANALS, which stands to-day as the finest system of inland navigation known to the world.

The system comprises the canals of Lachine, Beauharnois, Cornwall, Farrans Point, Flat-Rapid, Galops, Welland and Sault Ste. Marie, extending the navigable portion of the St. Lawrence for 2,384 miles from the straits of Belle-Isle to Fond-du-Lac at the head of Lake Superior.

Lachine is at the head of Lachine Canal which serves to bridge the Lachine rapids on the St. Lawrence River and which renders Montreal the head of the Ocean Navigation, a seaport 986 miles inland.

Lachine is situated on the Island of Montreal, 9 miles to the west from the city itself, a distance covered in 40 minutes from the Montreal Post Office, by a ten and twenty minutes ten cents trolley car service and by over forty railroad trains daily. All boats from Montreal to Upper Lakes, stop at Lachine daily.

It is practically a part of the city itself. It has a population of 15,000 as per report of City Assessors.

Shipments to any part of the world may be effected to-day directly from Lachine both by water and rails.

Lachine is situated on the trunk line of both the Canadian Pacific Railway and the Grand Trunk Railway System. Over eight other railroad companies with terminus in MONTREAL complete the transportation requirements of a great distributing centre.

The same rates apply for Lachine as for MONTREAL for shipments to or from that city. The Manufacturer in Lachine finds himself in the very heart of CANADIAN FINANCE with its vast resources and its unparalleled record of stability and soundness.

HOME MARKET FOR PRODUCTS

One of the greatest advantages of the manufacturer in Lachine is to have at his very door a market of nearly three quarter of a million people for his output.

HOME OF GREAT INDUSTRIES

Following is a list of some of the foremost corporations of Lachine, The Steel Company of Canada, Limited, Canadian Car & Foundry Company, Limited, The National Breweries, Limited, Canadian Allis-Chalmers, Dominion Bridge Co., St. Lawrence Bridge Co., Etc., Etc.

Other important industries are those of La Compagnie Manufacturiere de Lachine, (Lachine Gas Works), the Asbestos Manufacturing Co., Fisk Limited, Daly & Morin, McLaurin Bros. Limited, Lachine Motor Works, Lecavelier and Robert's Motor Works, Etc., Etc.

ELECTRIC POWER

Lachine possesses an enormous development of Hydro-Electric Power, generated by the current of St. Lawrence River and Lake St. Louis.

It is this electric muscle that drives the wheels of factories and propels the street cars, and supplies light to both factories and dwellings.

The Electric Power is under Municipal control, thus ensuring protection to consumers.

WATER SYSTEM

Water is supplied by the municipality at low rates.

A new pump will shortly be added to the present one which will thus increase its capacities by 5,000,000 gallons daily. At an early date the City will erect a large reservoir or settling basin in rear of the present Post Office and facing 21st avenue.

NEW IMPROVEMENTS

Among the many new improvements contemplated by the City of Lachine are the following: St. Joseph or Main Street is now entirely paved from East to West ends.

Erection of three new Fire Stations. Erection of a Settling Basin or Reservoir.

An Auto-Passenger service has just been inaugurated between Lachine and Dorval.

A new City Hall has been built at a cost of about \$135,000 on St. Joseph Street (corner 18th Avenue), with a Fire Station on 18th Avenue and a Police Station on 19th Avenue. Two other fire stations will be built this year. Three public parks are now opened to the public, i. e., the ST. LOUIS, MARQUETTE and MONK PARKS.

Granolithic sidewalks throughout the City and shade trees to be planted in residential districts.

All telephone and telegraphic conduits are actually being placed under ground; work is now finished on St. Joseph Street, which is now lighted from East to West with handsome electric lamps of an entirely new design. The new system is known as the CLUSTER lights. The light is very powerful and economic.

The City is building this year a very large college at a cost of \$200,000. When completed, students will be taught all branches of education, including trades and mechanics in all its branches. It will be the only establishment of its kind in Canada.

The drainage system will be enlarged and extended throughout the City, and in all new wards.

An incinerator will also be built. Also a public wharf which the Federal Government will erect shortly, plans and estimates are now before them for final consideration. When completed a new ferry to and from Caughnawaga will transport, AT LOW RATES, market produce from all parts south beyond Caughnawaga.

FACTORY AND RESIDENTIAL SITES

There are plenty of available properties for factory and residential sites which may be purchased at reasonable prices, and the Mayor, the City Clerk, or any of the Aldermen will at any time kindly supply to any manufacturers or others, any desirable information on this subject.

Lachine has to-day a total superficial area of about 3,000 acres of land, and the City is constantly adding to it. There are Catholic and Protestant Churches, Hospitals, Colleges and Convents where education is given to many thousands of children.

Telephone and telegraphic communications are open with two entire world.

Electric and steam cars run daily to and from Lachine, and postal facilities with letter carrier delivery from house to house.

LA SALLE.

A town on the North Shore of the River St Lawrence, situated between Verdun and the City of Lachine.

Was but recently erected into a town by the Provincial Legislature, which granted it a charter. At the present time it is exclusively a residential district; and is the home of many wealthy Montrealers. There are some beautiful farms which are all well cultivated. There are also several dairies which supply cream; milk and butter to the City.

The Federal Government has lately opened a branch of its Savings Bank. There are also a Post Office Branch; two private schools; telephone and telegraph communication with the City of Montreal.

In case of fire, the locality is protected by the City of Lachine fire brigade.

The town of LaSalle is a beautiful summer resort and was formerly the "Lower Lachine Road." It has a fine view of the Lachine Rapids and the Nuns Island as well as Laprairie, Caughnawaga and the Indian Village and the Western part of the City of Montreal. The population is about 600.

The town has a Recorders' Court and a Municipal Office which presently sits at No. 15, 10th Avenue, Lachine, pending the erection of a new Town Hall.

LONGUEUIL

Head of Navigation

On the South Shore of the St. Lawrence River right
opposite Montreal City.

Longueuil is the most important town in the County of Chambly, being the County seat, an important banking centre, The Bank of British North America, Banque d'Hochelaga, and Royal Bank of Canada.

The municipality is up to date with public utilities, having splendid water works equipped with turbine pumping system run by electric power. The water supplied is filtered through New York Filter Corp. System. Streets have concrete pavements and concrete sidewalks. The town has electric lighting system under its own control throughout all streets.

There are several industries, producing steel, cast iron, and sheet metal, mostly for export. A Branch of the world-known Sir Wm. Armstrong Whitworth Co., Ltd., of England, largest producers of crucible steel, have an enormous plant for the manufacture of tools, etc. The Standard Foundry and Machinery Co. is also located here, manufacturing grey iron castings, steel ranges and hardware.

Longueuil has many institutions. An important Roman Catholic College for the education of young men French and English, full commercial course, good boarding, gymnasium; two Roman Catholic Convents for the education of young women; Protestant Schools; a Hospital and Home for the old; Roman Catholic Church, and Church of England.

Communication between Montreal and Longueuil is easy and frequent by two ferry lines and an electric railway system. The Montreal & Southern Counties Ry. Co. give a twenty minutes service from 6 a.m. to 12.30 p.m. daily to Montreal, and have a belt line in the town to reach principal points.

The town has also fine parks and play grounds. The water front is most beautiful and convenient for boating and yachting, and fine residences face on the water front. Shipping facilities both water and rail are excellent. The Delaware & Hudson Railway Co., and the Montreal, Quebec & Southern Railway pass through the town.

The Harbour Commissioners propose building larger wharves, to accommodate export trade.

College du Sacre-Cœur

LONGUEUIL

Maison d'Enseignement Commercial Superieur

DONT LA FONDATION REMONTE A 1867

Dirigée par les Frères des Ecoles Chrétiennes. Elle prépare aux Carrières Commerciales, aux Banques, à l'École Polytechnique et à l'École des Hautes Études Commerciales. Jouissant à la fois de la proximité de la métropole et du grand air de la campagne, le Collège de Longueuil est l'un des plus achalandés de la région de Montréal. Il compte actuellement 250 pensionnaires et autant d'externes. Rebâti en 1908 suivant toutes les données de la pédagogie et de l'hygiène modernes, pourvu d'immenses terrains de jeu, de bibliothèques considérables, de deux banques scolaires, le Collège de Longueuil est un modèle du genre. Un cours d'agriculture et d'horticulture est établi, en vue de donner aux jeunes gens, le goût des travaux agricoles, et de les incliner à se fixer au foyer paternel.

MONTREAL-EST

Situé sur les bords du majestueux fleuve St. Laurent, Montréal Est fut fondé en Juin 1910, par Mr. Joseph Versailles, qui n'a cessé depuis cet époque, de contribuer à son développement.

Montréal-Est est une très jolie place de villégiature; et en toute époque de l'année, cette localité est habitée par de nombreuses familles, représentant les professions libérales, le commerce et l'industrie. Montréal-Est possède un système d'égouts perfectionné, et un excellent service d'aqueduc. Les rues sont larges et bien macadamisées, et toutes pourvues de très bons trottoirs.

Montréal-Est est pourvu d'églises, écoles, etc.; il y est aussi donné un excellent service de protection par la police et les pompiers. Parmi ces dernières se trouve la "Canada Cement Co." et la "Raymond Cement Co." la "Star Boiler et Radiator Co.", les "Carrières Labelle" et les usines de la "Montreal Tramway Co."

Montréal-Est est situé à l'est du quartier Mercier (autrefois Longue Pointe); et est relié à Montréal par un service régulier de tramways.

Il y a divers amusements offerts aux citadins; entre autres le "Club Champêtre Canadien" dont un grand nombre sont propriétaires de très jolies résidences. Il y a aussi un bureau de poste, un bureau de télégraphie, et un bureau de téléphone. Un vaste quai y est érigé.

It is bounded on the East and North by Laurier ward, on the West by Cote des Neiges ward, and on the South by Mount Royal Ward. Electric cars, going around the mountain to St. Laurent, and Cartierville pass through the city and there is also a special five minute service for the city. The city contains a very fine Protestant school, Strathcona Academy, a large educational convent, a branch of the Sisters of the Holy Names of Jesus and Mary, a City Hall and the Outremont Curling Club. The Outremont Golf Club has its links off St Catherine Road. Building operations have been carried on extensively during the past year. Easy of access from the city, no finer suburb can be found. Distant from Montreal 2 miles. Population about 12,000. Joseph Beaubien mayor; G. Picher, G. H. Robinson, Donald Munro, Wilfrid Besette, A. R. Lemire Marsolais, Robert Cooke, I. E. Gauthier and A. Corbin aldermen; Ernest T. Sampson, secy-treasurer; J. Duchastel, engineer; H. G. Reid, building inspector; G. B. Baker, chief of police.

For names of residents and a guide to the streets, see Montreal Street and Alphabetical Directory.

ST. LAMBERT.

A suburban town on the south shore of the St. Lawrence directly opposite Montreal in the county of Chambly, district of Montreal, with a population about 4,500 and growing rapidly it is an important railway centre, with an electric railway to Montreal, operated by the Montreal & Southern Counties Railway Co., making 50 trips each way; fare single, 15c return 25c; ten trips 75c, 55 trips \$2.75; and has an excellent train service by the Grand Trunk Railway, with over twenty trains each way daily. Return 25c, single 15c, on suburban trains, return good for day of issue only, 25c; return good for 1 month 35c; single fare on regular train 25c; by commutation tickets, 10 trips for 75c, 55 trips for \$2.75, or 5c a trip

The Victoria Jubilee Bridge spans the St Lawrence here, and all trains to and from the City stop at the railway station. Several lines of railway run here, viz: Grand Trunk for points South, East and West; I.C.R. for Halifax; Central Vermont for Farnham; New York and Boston, Delaware & Hudson for New York; South Shore Railway for Sorel and the Montreal Southern Counties Electric Railway. The distance to Longueuil, the county seat, is three miles; communication, by the electric railway. There are four churches: Methodist, Episcopal, Roman Catholic and Presbyterian, with resident ministers and cure. There is a large Academy, conducted by the Protestant School Commissioners, with a staff of eleven teachers.

The Roman Catholic School Commissioners' school is now conducted by the sisters of the Holy names of Jesus

and Mary and have a staff of five teachers for girls and two Brothers of the C. S. Viateur for the boys. They have built a convent that has cost \$50,000 to receive day boarders. There is excellent boating on the river, and the St Lambert Boat Club is recognized as one of the best clubs in the vicinity of Montreal. The residents are mostly employed in the City, and select it for a suburban home from its favorable situation and excellent means of communication at all seasons with the city. A walk along the river bank gives the Town a fine promenade of over 1,000 feet in length from which the view of Montreal, lighted at night by thousands of electric lights, is magnificent. During the winter months direct communication is had with Montreal by an ice road across the St Lawrence on which considerable driving is done, and by the bridge. St Lambert is being rapidly built up, and is destined to become a very important suburban point and has a system of water, drainage and electric light. Mail twice daily. G.N.W. Tel. Co. has an office, also telephone communication.

ST. LAMBERT

County of Chambly, P.Q.

THE BROOKLYN OF MONTREAL

The Town of St. Lambert, situated on the South shore of the River St. Lawrence, within 15 minutes of the business section of the City of Montreal, offers exceptional advantages to anyone desirous of residing in a suburb away from the noise and yet within easy reach of the City. Transportation facilities are good, the Montreal and Southern Counties Railway giving a 20-minute service, running through the principal streets of the Town.

WATER SUPPLY

The Town operates its own Waterworks. The plant is maintained to give ample pressure for domestic purposes and is equipped with extra high-pressure pumps for Fire Protection. The water supply is good and pure, and according to monthly analysis furnished by Milton Hersey & Co., is free from contamination.

DRAINAGE

Most modern and up-to-date system; arrangements are now under way for the installation of a plant to treat and purify the sanitary sewage before it flows into the river.

STREETS

The streets are laid out on a uniform system with a view to proper maintenance the year round. To date there are 7½ miles of asphalt pavement laid, besides macadam. There are also 13½ miles of concrete sidewalks constructed. The streets are well lighted by electricity, and in the business section standard lights are being installed.

BUILDING REGULATIONS

The Town is divided into districts for various classes of buildings, commercial and manufacturing buildings. Home builders have ample protection from any undesirable surroundings in the future. The Commercial enterprise can be located with view to future progress. The manufacturing areas have excellent transportation and power facilities available. The Building and Plumbing By-Laws provide for healthy dwellings without congestion, first class Sanitary arrangements and fire protection.

HEALTH

The health of the Town is excellent and is safeguarded from epidemics by the vigilance of the Health Authorities appointed by the Town. No obnoxious dumps are allowed, and all garbage is collected regularly and destroyed by the Incinerator.

EDUCATION

The Protestant Academy offers exceptional facilities for learning. Students may matriculate for the University of McGill with which the Academy is affiliated. The Catholic School Trustees have just erected a new College for Boys on Lorne Avenue, at a cost of \$80,000. The Convent for Girls situated on Front Street is capably administered by the Sisters.

RECREATION

The Town has unrestricted access to the River almost the whole frontage, good and safe Boating, Bathing and Fishing.

Boating, Lawn Bowling, Tennis, and Golf Clubs provide for Summer amusement, while Musical, Dramatic, Debating and Skating Clubs are active in the Winter. The Social activities of St. Lambert are second to none in the Province.
